Item 2.03. Creation of a Direct Financial Obligation or an Obligation under an Off-Balance-Sheet Arrangement of a Registrant.

On October 15, 2015, Tucson Electric Power Company (TEP) entered into a new credit agreement with MUFG Union Bank, N.A. (MUFG), as administrative agent, lead arranger and lender, and a group of lenders (the TEP Credit Agreement). The TEP Credit Agreement replaced the prior credit facility entered into on November 9, 2010 and amended on November 18, 2011, which included a \$200 million revolving credit and letter of credit facility. The TEP Credit Agreement provides for a \$250 million revolving credit and letter of credit facility. It expires on October 15, 2020, at which time all outstanding amounts thereunder will be due and payable. The final maturity date is subject to two one-year extensions if certain conditions are satisfied.

TEP expects that borrowings will be made from time to time under the revolving credit facility for working capital and other general corporate purposes and that letters of credit will be issued from time to time to support energy procurement and hedging transactions.

Interest rates and fees under the TEP Credit Agreement are based on a pricing grid tied to TEP's credit ratings. Borrowings under the revolving credit facility bear interest at a variable interest rate consisting of a spread over LIBOR or Alternate Base Rate. Alternate Base Rate is equal to the greater of (i) MUFG's reference rate, (ii) the federal funds rate plus ½ of 1%, or (iii) adjusted LIBOR for an interest period of one month plus 1%. The interest rate presently in effect on borrowings is LIBOR plus 1.00% for Eurodollar loans or Alternate Base Rate plus 0.00% for Alternate Base Rate loans.

The TEP Credit Agreement is unsecured and ranks pari passu with TEP's other senior unsecured debt obligations. The TEP Credit Agreement contains a number of covenants which restrict TEP and its subsidiaries, including restrictions on liens, mergers and sales of assets. The TEP Credit Agreement also requires TEP not to exceed a maximum leverage ratio. Under the terms of the TEP Credit Agreement, TEP may pay dividends to UNS Energy so long as it maintains compliance with the agreement.

Upon the occurrence and continuance of an event of default under the TEP Credit Agreement, outstanding borrowings may become immediately due and payable. Events of default include the failure to make payments required thereunder or to comply with the covenants contained therein, change in control, as defined, or certain bankruptcy events with respect to TEP or certain subsidiaries. In addition, an event of default would include the failure of TEP or certain subsidiaries to make required payments on indebtedness in excess of \$40 million or events giving the holders of such indebtedness the right to require repayment of such indebtedness.
