ADT Places Multi-Million Dollar Order for NICE Perform[®] to Improve Customer Service

NICE solution to be implemented for 4,200 agents in 14 centers

Ra'anana, Israel, April 11, 2007- - NICE Systems (NASDAQ: NICE), the global provider of advanced solutions that enable organizations to extract Insight from Interactions[™] to drive performance, today announced that ADT, a unit of Tyco Fire and Security, has placed a multi-million dollar order for NICE Perform[®] to improve customer service, increase agent coaching effectiveness and efficiency, and gain a more holistic view of contact center performance. NICE Perform will be implemented at ADT's fourteen 24-hour centers, serving millions of customers.

ADT is the number one security company in America for 24/7 protection of home and family, where the critical nature of customer interactions requires uncompromising contact center efficiency, effectiveness and quality of service. ADT selected NICE Perform as part of an overall initiative to improve customer service, which ultimately helps ensure the safety and security of its customers and their homes.

ADT will also benefit from NICE Perform's unique Agent Coaching solution along with capabilities for cross-referencing results with inputs from agent screen analytics. This will provide supervisors with targeted tools for improving agent performance, decreasing attrition, and providing immediate feedback on agents' skills and compliance with procedures.

"ADT's quality team is very excited about the robust coaching and training features offered by NICE Perform," according to Jim Schwitter, National Director of Quality Assurance, ADT. "In an industry where customer safety depends on quality service, this technology has great potential to enhance the level of service we provide."

"We are delighted that ADT, an industry giant, selected NICE Perform to improve its contact center services and efficiency," said Eran Gorev, President and CEO, NICE Systems Inc. "This is another example of how NICE Perform is the premier choice for organizations which are looking to extract insights from their customer interactions to better understand the needs of their customers, and improve performance."

About ADT Security Services

Celebrating its 131st anniversary, ADT Security Services, Inc., a unit of Tyco Fire & Security, is the largest provider of electronic security services to nearly six million commercial, government and residential customers throughout North America. ADT's total security solutions include intrusion, fire protection, closed circuit television, access control, critical condition monitoring, electronic article surveillance, radio frequency identification (RFID) and integrated systems. ADT's Web site address is www.adt.com/.

Swiss Air Navigation Services Provider skyguide Places 7-Digit Order for NICE Air Traffic Control Solutions

Adds VoIP capabilities to current NICE environment, expands deployment to 4 sites

Ra'anana, Israel, April 18, 2007- - NICE Systems (NASDAQ: NICE), the global provider of advanced solutions that enable organizations to extract Insight from Interactions(TM) to drive performance, today announced that it has received through its partner and distributor in Switzerland Mobatime Swiss AG an additional order from skyguide, which is responsible for the provision of air navigation services within Swiss airspace and in the airspace of certain adjoining regions in neighboring countries. NICE was selected to supply advanced interaction management solutions for ground to air and ground to ground air traffic communications, as well as control room and IP phone-based interactions, ensuring compliance with regulations and enhancing air travel safety. With high reliability and integrity for these critical communications, skyguide will be able to more efficiently capture interactions and more rapidly investigate communications among air traffic personnel.

NICE's air traffic control (ATC) solutions will enable skyguide's aviation administrations to comply fully with aviation requirements as mandated by **ESARR** (Eurocontrol Safety Regulatory Requirements), in force in all of Europe and which all Eurocontrol (the European organization for air traffic control) member states must implement.

"Air traffic control is a critical, highly complex communications operation," said Israel Livnat, President of NICE Security Group. "NICE's ATC solution will enable skyguide to better monitor transmissions and maintain exact records as mandated by civil aviation regulators. Our solution provides high-quality simultaneous capture and playback to significantly speed up event analysis verification and support the re-creation of events for investigation and training session simulations. We're pleased by skyguide's continued confidence in NICE, as shown by this new contract."

About skyguide

skyguide is responsible for the provision of air navigation services within Swiss airspace and in the airspace of certain adjoining regions in neighboring countries. skyguide is a non-profit, limited company under private law. The majority of its shares are held by the Swiss Confederation. The annual turnover of the company exceeds 353 million Swiss francs. skyguide employs some 1400 people at 14 locations in Switzerland. More information is available at www.skyguide.ch.

**Teleperformance Netherlands to Benefit from NICE SmartCenter(TM)
by Moving to NICE Perform^{®} and Adding IEX^{®} TotalView^{®} from NICE**

Leading outsourcer to leverage synergy of IEX TotalView solutions with existing NICE Perform implementation to improve business performance

Raanana, Israel, April 30, 2007 - NICE Systems Ltd. (NASDAQ: NICE), a leading global provider of advanced solutions that enable organizations to extract Insight from Interactions(TM) to drive performance, today announced that Teleperformance Netherlands will benefit from NICE SmartCenter(TM) by moving to NICE Perform and by adding TotalView Workforce Management system from IEX Corporation, a NICE Systems company.

NICE SmartCenter is an innovative solution designed to enable organizations to manage their contact centers in an insightful proactive manner and take action at the right time. NICE SmartCenter builds upon the success of NICE Perform by expanding significantly the offering and taking it to yet a higher level of added value for customers. NICE SmartCenter leverages the synergies of the combined capabilities of NICE Perform, IEX TotalView and Performix(TM).

"Teleperformance continues to enjoy a strong relationship with NICE," said Christian Pijnenborgh, operational manager for Teleperformance Netherlands. "NICE has a holistic approach to managing contact centers and improving business performance, which is well-aligned with our contact center goals. After a thorough evaluation, we found that IEX TotalView from NICE could bring us the advanced multiskill and multisite capabilities we need to effectively manage our complex environment. By combining IEX TotalView with NICE Perform, we'll be able to take advantage of the benefits of NICE SmartCenter."

With NICE SmartCenter, Teleperformance will be able to manage its contact center in a more insightful and proactive manner and take action at the right time. Furthermore, leveraging the synergies NICE Perform with IEX TotalView in the Netherlands centers will enable Teleperformance to better link its customer interactions with its planning and management processes and more closely align quality management and workforce management functions.

"We appreciate the confidence Teleperformance has demonstrated in the vision of NICE SmartCenter, to supply best-in-class solutions unified through an open framework," said Zvi Baum, president of Enterprise Interaction Solutions at NICE. "Choosing NICE Perform for the Netherlands operation and combining it with IEX TotalView will enable Teleperformance to consolidate, share and reuse information between the solutions, giving them a competitive edge both today and in the future."

About Teleperformance Netherlands

Teleperformance Netherlands is part of the Teleperformance group, which ranks as the world's joint market leader in the supply of outsourcing services for client relations and contact center management. The group has approximately 56,500 computer work stations and nearly 70,000-strong work staff (Full-time equivalents) spread over 263 contact centers (including 91 managed directly at certain clients' businesses) based in 42 countries. It oversees programs in 60 languages and dialects on behalf of large international companies, across a variety of industrial sectors.

Teleperformance Netherlands is able to offer the service their customers expect through more than 900 dedicated agents, in 8 contact centers in Zoetermeer and Tilburg. Teleperformance Netherlands offers professional and tailor-made multi-channel customer care programs, sales and combined programs to over 400 sites. Teleperformance offers state of the art technology to its customers and is ready for the future. Teleperformance Netherlands' growth has been primarily achieved through the expansion of its outbound customer care services. For more information, visit <http://www.teleperformance.nl>. or 079-342 98 00.

About NICE Systems

NICE Systems (NASDAQ: NICE) is the leading provider of Insight from Interactions(TM) solutions and value-added services, powered by advanced analytics of unstructured multimedia content - from telephony, web, radio and video communications.
