AGL Resources - Regulator Talking Points

- As you may have heard, AGL Resources is combining with Nicor to create a U.S. leader in natural gas with 4.5 million distribution customers across seven states.
- I wanted to reach out to you directly to let you know about the transaction as soon as possible and provide some background on why we think this is so exciting for our customers and communities.
 - This combination will have no impact on our current customers with regard to service or service rates.
- In fact, we believe it will serve customers better and more efficiently through the benefits of our greater scale and scope and as we share best practices.
 - We have a proven track record of successful acquisitions and integrations spanning the last decade.
- Our prudent acquisitions have allowed us to improve and provide services to our customers at a much lower cost, while taking an active role in supporting the communities we serve.
 - And Nicor shares our commitment to providing customers with safe, reliable and cost-effective service.
- We're excited that AGL Resources, expected to become a Fortune 500 company, will maintain its corporate headquarters in Atlanta, Georgia and locate its newly expanded gas distribution headquarters in Naperville, Illinois, a suburb of Chicago.
- Georgia has been supportive of our growth strategy and we are proud to enhance our presence here while expanding our operations to Illinois.
- Importantly, the Georgia Public Service Commission's innovative acquisition policy will allow our customers to benefit from the talent and shared services of our affiliated companies.
- We're excited about this important step and we look forward to working with you to make sure that AGL Resources' customers, employees and communities are able to realize the benefits of this combination in a timely manner.
 - If you have any questions, please feel free to contact me / INSERT at any time.
