Item 8.01 - Other Events

On May 21, 2015, Pacific Gas and Electric Company, a subsidiary of PG&E Corporation (“Utility”), filed various documents (including copies of internal email correspondence) with the California Public Utilities Commission (“CPUC”) to complete its response to orders issued by CPUC administrative law judges regarding potential ex parte communications between the Utility and CPUC personnel. The Utility also notified the CPUC of an additional potential ex parte communication made in the 2011 General Rate Case to supplement a notification that the Utility voluntarily provided on October 6, 2014.

It is uncertain what action the CPUC or other parties will take in response to these additional reported communications. It is possible that additional orders will be issued to which the Utility will be required to respond. The CPUC could impose fines and penalties on the Utility relating to communications reported to the CPUC or with respect to additional communications that the Utility may identify and report in response to new orders that may be issued or in connection with new or ongoing investigations or legal proceedings. For more information, see PG&E Corporation’s and the Utility’s joint Annual Report on Form 10-K for the year ended December 31, 2014 and Quarterly Report on Form 10-Q for the quarter ended March 31, 2015 under the headings “Improper CPUC Communications” and “Federal and State Matters” within the section entitled “Management’s Discussion and Analysis of Financial Condition and Results of Operations.” PG&E Corporation’s and the Utility’s financial results could be materially affected by fines or penalties that may be imposed by the CPUC or by federal and state law enforcement authorities with respect to these matters.
