MICROPAC INDUSTRIES, INC. NOTES TO FINANCIAL STATEMENTS (Unaudited)

Note 1

In the opinion of management, the unaudited consolidated financial statements include all adjustments (consisting of only normal, recurring adjustments) necessary to present fairly the financial position as of May 29, 2004 and the cash flows and the results of operations for months ended May 29, 2004 and May 31, 2003. The results of operations for the interim periods presented may not be indicative of total results for the full year. Certain information and footnote disclosures normally included in financial statements prepared in accordance with generally accepted accounting principles in the United States have been condensed or omitted pursuant to the rules and regulations promulgated by the Securities and Exchange Commission. However, management believes that the disclosures contained are adequate to make the information presented not misleading.

Note 2

The preparation of financial statements in conformity with accounting principles generally accepted in the United States requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of sales and expenses during the reporting period. Actual results could differ from those estimates.

Sales for the second quarter and six months ended May 29, 2004 totaled \$3,659,000 and \$7,169,000, respectively. Sales for the second quarter increased 31.4% or \$876,000 above sales for the same period of 2003, while sales for the first six months of 2004 increased 22.1% or \$1,299,000 above the first six months of 2003. The increase in sales is primarily attributable to improved business conditions in the company's major market segments, combined with the introduction of new products. Sales for the first 6 months of 2004 compared to 2003 increased 23% in the commercial market, 22% in the military market, and 18%

Edgar Filing: MICROPAC INDUSTRIES INC - Form 10QSB

in the space market.

Cost of sales for the second quarters 2004 versus 2003 totaled 65.2% and 72.5% of net sales, respectively, while cost of sales for the first six months of the comparable period totaled 66.7% and 71.4%, respectively. The cost of material decreased 5% of sales from 2003 associated with changes in product mix, and yield improvements on certain products.

Selling, general and administrative expenses for the second quarter and first six months of 2004 totaled 17.6% and 17.9%, respectively, compared to 24.0% and 23.9% for the same period in 2003. In actual dollars expensed, selling, general and administrative expenses decreased \$25,000 in the second quarter of 2004, compared to 2003, and decreased \$119,000 for the first six months of 2004, versus 2003, attributable to lower general and administrative salaries.

Net income in the second quarter and year to date 2004 totaled \$356,000 and \$624,000, respectively, compared to \$5,000 and \$72,000 for the comparable periods in 2003. Net income per share totaled \$.24 and \$.02 for the comparable six months of 2004 and 2003, respectively. The increase in net income is associated with higher sales, lower cost of material as a % of sales, and continued control of overhead and general and administrative expenses.

New orders for the second quarter and year-to-date 2004 totaled \$5,358,000 and \$10,299,000, respectively, compared to \$3,780,000 and \$5,594,000 for the comparable periods of 2003.

Backlog totaled \$6,910,000 on May 29, 2004 compared to \$4,832,000 as of May 31, 2003 and \$5,594,000 on November 30, 2003.

8

Accounts receivable, net totaled \$2,276,000 as of May 29, 2004 and represents an increase of \$399,000 since November 30, 2003, due to increased sales.

Inventories totaled \$2,096,000 at the end of the second quarter 2004 compared to \$1,789,000 on November 30, 2003, an increase of \$307,000. Raw materials inventories increased \$283,000 since November 30, 2003, while work-in-process inventories decreased \$24,000. The increase in raw materials is attributable to the purchase and receipt of long lead-time material for \$189,000 which was funded by the customer, and an increase of piece parts to support the higher sales volume.

Current liabilities totaled \$1,197,000 on May 29, 2004 representing an increase of \$268,000 from November 30, 2003; primarily associated with an increase in accounts payable of \$207,000 due to increased materials purchases to support the higher sales volume, a decrease of \$34,000 in accrued payroll, a reduction of \$20,000 in provision for income taxes, an increase in other accrued liabilities of \$119,000 based on higher reserves associated with advance payments from customers, and a decrease of \$4,000 accrued professional fees.

A special cash dividend of \$129,000 was paid on February 13, 2004 to all shareholders of record.

During fiscal 2003 the Company renewed an uncollateralized \$3,000,000 line of credit agreement with a bank. The interest rate is equal to the prime rate less 1/4%. The line of credit requires that the Company maintain certain financial ratios. The Company has not, to date, used any of the available line of credit.

The Company expects to generate adequate amounts of cash from the sale of products and services and the collection thereof to meet its liquidity needs.
