FINANCIAL INFORMATION

ITEM 1. FINANCIAL STATEMENTS

The following unaudited financial statements of International Star, Inc. have been prepared in accordance with generally accepted accounting principles for interim financial information and with the instructions to Form 10-QSB. Accordingly, these financial statements may not include all of the information and disclosures required by generally accepted accounting principles for complete financial statements. These financial statements should be read in conjunction with the audited financial statements and the notes thereto for the fiscal year ending December 31, 2006. In the opinion of management, these unaudited financial statements contain all adjustments necessary to fairly present the Company's financial position as of March 31, 2007 and its results of operations and its cash flows for the three and six month periods ended March 31, 2007.

**INTERNATIONAL STAR, INC.
AND SUBSIDIARIES**

NOTES TO FINANCIAL STATEMENTS

March 31, 2007

A. BASIS OF PRESENTATION

The Interim financial statements of International Star, Inc. and Subsidiaries (the Company) for the three months ended March 31, 2007 are not audited. The financial statements are prepared in accordance with the requirements for unaudited interim periods, and consequently do not include all disclosures required to be in conformity with accounting principles generally accepted in the United States of America.

In the opinion of management, the accompanying consolidated financial statements contain all adjustments, consisting only of normal recurring accruals, necessary for a fair presentation of the Company's financial position as of March 31, 2007 and the results of operations and cash flows for the three months ended March 31, 2007.

The results of operations for the three months ended March 31, 2007 are not necessarily indicative of the results for a full year period.

B. SIGNIFICANT ACCOUNTING POLICIES

(1) Principles of Consolidation and Accounting Methods

These consolidated financial statements include the accounts of International Star, Inc., and Qwik Track, Inc. (a wholly owned subsidiary) for the three months ended March 31, 2007.

(2) Use of Estimates

The preparation of consolidated financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amount of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates.

(3) Dividend Policy

The Company did not declare or pay any dividends during the quarter ended March 31, 2007. There are no legal, contractual or other restrictions, which limit the Company's ability to pay dividends. Payment of future dividends, if any, on the Company's common stock, will be dependent upon the amounts of its future after-tax earnings, if any, and will be subject to the discretion of its Board of Directors. The Company's Board of Directors is not legally obligated to declare dividends, even if the Company is profitable. The Company has never paid any dividends on its common stock and has no plans to do so in the near future. Instead, the Company plans to retain any earnings to finance the development of its business and for general corporate purposes.

(4) Mineral Properties and Equipment

The Company has expensed the costs of acquiring and exploring its properties during the periods in which they were incurred, and will continue to do so until it is able to determine that commercially recoverable ore reserves are present on the properties. If it determines that such reserves exist, it will capitalize further costs.

(5) Basic and Dilutive Net Income (Loss) Per Share

Basic net income (loss) per share amounts are computed based on the weighted average number of shares actively outstanding in accordance with SFAS NO. 128 "Earnings Per Share." Diluted net income (loss) per share amounts are computed using the weighted average number of common shares and common equivalent shares outstanding as if shares had been issued on the exercise of any common share rights unless the exercise becomes antidilutive and then only the basic per share amounts are shown in the report.

(6) Comprehensive Income

The Company adopted SFAS No. 130, "Reporting Comprehensive Income", which requires inclusion of foreign currency translation adjustments, reported separately in its Statement of Stockholders' Equity, in other comprehensive income. Such amounts are immaterial and have not been reported separately. The Company had no other forms of comprehensive income since inception.

(7) Stock Based Compensation

The Company has elected to follow the provisions of Statement of Financial Accounting Standards No. 123(R) - fair value reporting and related interpretations in accounting for its stock based compensation and stock option plans. Under this accounting standard, share-based awards are fair valued and the related stock compensation expense, when applicable, is reported in the current financial statements. The Company has adopted the disclosure-only provisions of Statement of Financial Accounting Standards No. 123 (SFAS 123) with respect to employee stock options.

(8) Income Taxes

The Company has adopted SFAS No. 109 "Accounting for Income Taxes". The Company accounts for income taxes under an asset and liability approach that requires the recognition of deferred tax assets and liabilities for the expected future tax consequences of events that have been recognized in the Company's financial statements or tax returns. In estimating future tax consequences, all expected future events, other than enactment of changes in the tax laws or rates, are considered.

Due to the uncertainty regarding the Company's future profitability, the future tax benefits of its losses have been fully reserved and no net tax benefit has been recorded in these financial statements.

(9) Fair Value of Financial Instruments

The respective carrying value of certain on-balance-sheet financial instruments approximated their fair values. These financial instruments include cash, tax credit recoverable, reclamation bond, accounts payable and accrued liabilities, amount due to a director and loan payable.

(10) Recent Accounting Pronouncements

The Company does not expect that the adoption of other recent account pronouncements will have a material effect on its financial statements.

(11) Revenue Recognition

Revenue will be recognized on the sale and delivery of a product or the completion of a service provided.

(12) Statement of Cash Flows

For the purposes of the statement of cash flows, the Company considers all highly liquid investments with a maturity of nine months or less to be cash equivalents.

(13) Financial and Concentration Risk

The Company does not have any concentration or related financial credit risk

C. DIVESTITURE OF PITA KING BAKERIES INTERNATIONAL, INC.

Effective January 1, 2004, the original shareholders of Pita King Bakeries, International Inc. and the management of International Star, Inc. (the Company) mutually agreed to dissolve their business relationship. Under terms of this dissolution, the original shareholders of Pita King Bakeries International, Inc. returned 4,000,000 shares of common stock to the Company and the Company agreed to forgive a \$35,000 loan made to Pita King Bakeries International, Inc. The original shareholders of Pita King Bakeries International, Inc. were allowed to retain 139,500 share of the Company's common stock which they had received as part of the original purchase of Pita King Bakeries International, Inc. by the Company. The Company has recognized a loss of \$99,472 on the divestiture of Pita King Bakeries International, Inc.

D. COMMON STOCK

During the interim period ended March 31, 2007, the Company issued 14,025,642 shares of common stock for \$160,000 cash and a \$20,000 advance deposit that the Company had received prior to December 31, 2006. At December 31, 2006 there were 8,333,333 warrants to purchase additional shares of common stock. All of these outstanding warrants were either canceled by the Company or expired during the interim period ended March 31, 2007. During the interim period ended March 31, 2006, there were 1,437,500 shares of common stock valued at \$57,500 that were issued for accrued compensation. There were no outstanding stock warrants or stock options at March 31, 2007.

E. GOING CONCERN

The Company will need additional working capital for its future planned activity and to service its debt, which raises substantial doubt about its ability to continue as a going concern. Continuation of the Company as a going concern is dependent upon obtaining sufficient working capital to be successful in that effort. The management of the Company has developed a strategy, which it believes will accomplish this objective, through additional loans, and equity funding, which will enable the Company to operate for the coming year.

ITEM 2. MANAGEMENT'S DISCUSSION AND ANALYSIS OR PLAN OF OPERATION

GENERAL

The following presentation of Management's Discussion and Analysis of Financial Condition has been prepared by internal management and should be read in conjunction with the Financial Statements and notes thereto included in Item 1 of our Quarterly Report on Form 10-QSB for the three month period ended March 31, 2007. Except for the historical information contained herein, the discussion in this report contains certain forward-looking statements that involve risks and uncertainties, such as statements of our business plans, objectives, expectations and intentions as of the date of this filing. The cautionary statements about reliance on forward-looking statements made earlier in this document should be given serious consideration with respect to all forward-looking statements wherever they appear in this report, notwithstanding that the "safe harbor" protections available to some publicly reporting companies under applicable federal securities law do not apply to us as an issuer of penny stocks. Our actual results could differ materially from those discussed here.

We were organized under the laws of the State of Nevada on October 28, 1993 as Mattress Showrooms, Inc. In 1997, we changed our corporate name to International Star, Inc. and became engaged in the business of construction, sale and operation of state of the art waste management systems, specializing in turnkey systems for management of hospital, industrial, petroleum, chemical and municipal solid waste collection systems. Despite our efforts, we were unable to develop this business beyond the start-up stage. Following our unsuccessful venture in waste management, we refocused our business efforts on mineral exploration in 1998. Currently, we are primarily engaged in the acquisition and exploration of precious metals mineral properties. Since 1998, we have examined various mineral properties prospective for precious metals and minerals and have acquired interests in those we believe may contain precious metals and minerals. Our properties are located in Arizona. We have not established that any of our properties contain reserves. A reserve is that part of a mineral deposit which could be economically and legally extracted or produced at the time of the reserve determination. Further exploration will be needed before a final determination can be made whether any property is economically and legally feasible. Therefore, at present we have no reserves and no income from mineral production

The business of mineral exploration is very speculative because there is generally no way to recover any of the funds expended on exploration unless the company establishes the existence of mineable reserves and then exploits those reserves by either commencing mining operations, selling or leasing its interest in the property, or entering into a joint venture with a larger resource company that can develop the property to the production stage. Unless we can establish and exploit reserves before our funds are exhausted, we will have to discontinue operations, which could make our stock valueless.

Reserves, by definition, contain mineral deposits in a quantity and in a form from which the target minerals may be economically and legally extracted or produced. We have not established that such reserves exist on our properties and unless and until we do so we will not have any income from our mineral operations.

Our directors and executive officers lack significant experience or technical training in exploring for precious metal deposits and developing mines. Accordingly, our management may not be fully aware of many of the specific requirements related to working within this industry. Their decisions and choices may not take into account standard engineering or managerial approaches such as mineral exploration companies commonly use. Consequently, our operations, earnings, and ultimate financial success could suffer irreparable harm due to our management's lack of experience in the mining industry. We plan to align our Company with reputable, knowledgeable experts in the mining industry to overcome this lack of experience and expertise.

Any changes in government policy may result in changes to laws affecting ownership of assets, land tenure, mining policies, taxation, environmental regulations, labor relations, or other factors relating to our exploration activities. Such changes could cause us to incur significant unforeseen expenses of compliance or even require us to suspend our activities altogether.

Our directors and executive officers own a significant amount of our voting capital common stock, and accordingly, exert considerable influence over us. As of March 31, 2007, our directors and executive officers beneficially owned common stock and securities convertible into our common stock which, upon exercise, would equal to approximately 23.67% of the voting power. As a result, these stockholders are potentially able to decide all matters requiring stockholder approval, including the election of directors and the approval of significant corporate transactions. This concentration of ownership could also delay or prevent a change in control that may be favored by other stockholders.

OUR PROPERTIES

We currently hold interests in two properties which we believe show potential for mineral development. Both properties are unpatented mining claims located on federal public land and managed by the United States Bureau of Land Management ("BLM").

Unpatented claims are "located" or "staked" by individuals or companies on federal public land. Each placer claim covers 20 to 160 acres; each lode claim covers 20 acres. We are obligated to pay a maintenance fee of \$100 per claim per year to the BLM or file an Affidavit of Assessment Work with the BLM showing labor and improvements of at least \$100 for each claim yearly.

If the statutes and regulations for the location and maintenance of a mining claim are complied with, the locator obtains a valid possessory right to the contained minerals. Failure to pay such fees or make the required filings may render the mining claim void or voidable. We believe we have valid claims, but, because mining claims are self-initiated and self-maintained, it is impossible to ascertain their validity solely from public real estate records.

If the government challenges the validity of an unpatented mining claim, we would have the burden of proving the present economic feasibility of mining minerals located on the claims.

There are uncertainties as to title matters in the mining industry. We believe that we have good title to our properties; however, defects in such title could have a material adverse effect on us. We have investigated our rights to explore, exploit and develop our various properties in manners consistent with industry practice and, to the best of our knowledge, those rights are in good standing. However, we cannot assure that the title to our properties will not be challenged or impugned by third parties or governmental agencies. In addition, there can be no assurance that the properties in which we have an interest are not subject to prior unregistered agreements; transfers or claims and title may be affected by undetected defects. Any such defects could cause us to lose our rights to the property or to incur substantial expense in defending our rights.

Detrital Wash, Mohave County, Arizona Property

On March 3, 1998, we entered into a mineral lease with James R. Ardoin for the Detrital Wash mineral claims located one mile east of mile marker 22 on Hwy 93, Mohave County, Arizona. The lease does not require any minimum payments, and charges a royalty of 2% of net smelter returns (“NSR”). The term of the lease is for 20 years with an option to renew for additional, successive 20-year terms. In July 2004, we reached an agreement in principle with the holders of 131 placer association claims covering approximately 20,000 acres adjacent to and surrounding the original Detrital Wash Property. The agreement will grant us exclusive exploration rights on the claims, and first right of refusal for exclusive development rights in exchange for a 0.25% net smelter return payable to the claimholders. The agreement will require the company to expend a minimum of \$125,000 on exploration during a three-year period.

Currently we are attempting to raise additional capital to continue a staged exploration program on the Detrital Wash Property. As part of this effort, we formed Star-Resolve Detrital Wash, LLC as part of a joint venture with Resolve Capital Funding Corporation, Inc. (“Resolve”) to engage in the development and commercial exploitation of the Detrital Wash Property. Each of Resolve and our Company will have a 50% membership interest in Star-Resolve Detrital Wash, LLC. Under this joint venture, Resolve has committed to use its best efforts to manage Star-Resolve Detrital Wash, LLC and to provide us access to its industry related contracts and its expertise in the commercial exploitation of mineral rights. Resolve will be the exclusive managing member of Star-Resolve Detrital Wash, LLC. As of the date of filing of this report, however, Resolve has not made the required cash contribution and is in default under the joint venture agreement. Our management is currently engaged in discussions with Resolve regarding a resolution to Resolve’s breach of the joint venture agreement. However, there can be no assurance that the parties will reach an amicable resolution.

Wikieup, Arizona Property

In March 2001, we purchased from Gold Standard Mines Inc. 51 lode mining claims located in the Wikieup mining district, Mohave County, Arizona (the “Wikieup Property”). Consideration for the acquisition was 1,000,000 restricted common shares valued at \$400,000 as of the date of the agreement. In connection with the acquisition of the Wikieup Property and for no additional consideration, we were assigned all right, title and interest in certain proprietary gold, silver and/or platinum metal recovery formulae for the processing of ore in and about the Wikieup Property. As of the date of this filing, we have not had the formulae and processing techniques independently verified.

The Wikieup Property at present consists of approximately 840 acres (42 lode claims) of mountainous terrain and is accessible by paved and dirt roads west of Wikieup, Arizona off U.S. Highway 93. The property is located in Section 36, Township 16 North, Range 14 West in the Holapa Mountain Range. There is nearby access to electricity and water.

We have processed a limited number of "spot samples" of stockpiled screened material from a claim immediately adjacent to our Wikieup Property and found precious metals to exist in the material, although our sampling did not permit a reliable quantitative evaluation as we could not be certain of the degree of pre-treatment and concentration the material had undergone. Nevertheless, the spot samples confirmed our belief, based on the available literature, that the property shows promise as an exploration target. However, the mountainous terrain and complex nature of the geological makeup of the Wikieup Property would likely make it much more costly to explore and develop than the Detrital Wash Property. As a result, we have focused our efforts and available resources on the continued exploration of the Detrital Wash Property.

Going Concern

We have incurred substantial operating and net losses, as well as negative operating cash flow, since our inception. Accordingly, we continue to have significant stockholder deficits and working capital deficits, as further explained in our Annual Report on Form 10KSB for the year ended December 31, 2006. In recognition of these trends, our independent registered accountants included cautionary statements in their report on our financial statements for the year ended December 31, 2006 that expressed "substantial doubt" regarding our ability to continue as a going concern. Specifically, our independent accountants have opined that the continuation of our Company as a going concern is dependent upon obtaining sufficient working capital to be successful in that effort.

Our ability to continue as a going concern is dependent on obtaining additional working capital and our management has developed a strategy which it believes will accomplish this objective through additional equity funding, long term financing, and payment of our expenses by our officers, if needed, which will enable us to operate for the coming year.

Plan of Operation

Over the next twelve months, we intend to focus on obtaining financing necessary for further exploration on the Detrital Wash Property to assess the commercial viability of mineral extraction from deposits on the Detrital Wash Property and the establishment of a precious metal reserve. Given our limited resources and our ability to obtain financing, we intend to concentrate our efforts and our available finances on the continued exploration of the Detrital Wash Property. At present, our Management has no intention of continuing the exploration of the Wikieup Property, although should financing become available with respect to the Wikieup Property, our Management may consider further mineral exploration of the Wikieup Property.

Due to our limited financial resources, we do not anticipate any purchase or sale of property, plant, or other significant equipment, and we do not expect any significant changes in the number of our employees.

Financing

We have no credit lines or other sources of cash. We believe our current cash is sufficient to sustain our administrative overhead over the next twelve months, and to continue some exploration operations on our Detrital Wash Property. We will continue to pursue means to expand our exploration activities, either by seeking additional capital through loans or private placements of our securities, or possibly entering joint venture arrangements with one or more other, more substantial companies, which will allow us access to Resolve's industry related contracts and leverage off of Resolve's expertise in commercial exploitation of mineral rights. If we raise capital by selling our equity stock, the proportionate ownership of existing shareholders will be diluted.

During our fiscal year ended December 31, 2006, we secured additional funding through the private placement of our restricted common stock shares at prices ranging from \$0.010 to \$0.015 per share. In the aggregate, we sold 22,676,667 restricted common stock shares during our fiscal year 2006 for a net purchase price of \$270,600. During the three month period ended March 31, 2007, we secured additional funding through the private placement of our restricted common stock shares at prices ranging from \$0.012 to \$0.015 per share. In the aggregate, we sold 14,025,642 restricted common stock shares for a net purchase price of \$180,000. We believe these issuances were exempt from the registration requirements pursuant to Regulation D or Section 4(2) of the Securities Act. (See: "Recent Sales of Unregistered Securities").

In addition, certain of our directors have, from time to time, advanced funds to our Company for the payment of operating expenses. These advances have been repaid in cash and through the issuance of restricted shares of our common stock. No payments were due to the Company directors for these advances at March 31, 2007. During the three month period ended March 31, 2007, our Directors did not advance any funds to our Company.

LIQUIDITY

Liquidity and Capital Resources

	For the Three Months Ended March 31, 2007	For the Three Months Ended March 31, 2006
Net cash Used in Operating Activities	\$ (57,247)	\$ (183,572)
Net Cash Used in Investing Activities	\$ 0	\$ 0
Net Cash Provided by Financing Activities	\$ 160,000	\$ 153,500

General

Overall, we had a net increase in cash of \$98,633 for the three months ended March 31, 2007, resulting from \$57,247 used in our operating activities and \$160,000 provided by our financing activities.

Cash Used in Our Operating Activities

For the three month period ended March 31, 2007, net cash used in our operating activities of \$57,247 was due primarily to general business, mining, and compensation expenses.

Cash Provided By Our Financing Activities

For the three month period ended March 31, 2007, net cash provided by our financing activities was attributed to the sale of our common stock resulting in proceeds of \$160,000. We had also received \$20,000 in advance deposit prior to December 31, 2006 from one of our directors for the purchase of our common stock in January of 2007.

Internal Sources of Liquidity

For the three month period ended March 31, 2007, the funds generated from our operations were insufficient to fund our daily operations. There is no assurance that funds from our operations will meet the requirements of our daily operations in the future. In the event that funds from our operations are insufficient to meet our operating requirements, we will need to seek other sources of financing to maintain liquidity.

External Sources of Liquidity

We actively pursue all potential financing options as we look to secure additional funds to both stabilize and grow our business operations. Our management will review any financing options at their disposal, and will judge each potential source of funds on its individual merits. There can be no assurance that we will be able to secure additional funds from debt or equity financing, as and when we need to, or if we can, that the terms of such financing will be favorable to us or our existing stockholders.

On October 28, 2003, we approved the acceptance of a Subscription Agreement and Loan Agreement between us and Kilpatrick Life Insurance Company. Under the terms of these agreements, Kilpatrick Life Insurance Company loaned to us \$250,000 pursuant to a promissory note, carrying an interest rate of 6% per annum, with interest payable in quarterly installments with the first quarterly interest payment due on April 28, 2004. This note is due and payable in full on October 28, 2006, and is secured by a mortgage of a 25% mineral interest in our 1,280 acre Detrital Wash Mining Claims in Mohave County, Arizona. Kilpatrick Life Insurance Company has waived payment of all interest due until October 28, 2006. Kilpatrick Life Insurance Company also purchased 7,663,500 shares of the Company's common stock at a value of \$0.03 1/3 for a total purchase price of \$250,000. At September 30, 2006, the outstanding balance due under this note was \$28,875. On October 30, 2006, Kilpatrick Life Insurance Company converted the outstanding balance under this note in the amount of \$250,000 together with accrued interest in the amount of \$28,875 into 18,591,682 shares of our common stock at \$0.015 per share.

Inflation

Management believes that inflation has not had a material effect on our results of operations, and does not expect that it will in fiscal year 2007, except that rising oil and gas prices may materially and adversely impact the economy generally.

Forward Looking Statements

This Management's Discussion and Analysis of Financial Condition and Results of Operations includes a number of forward-looking statements that reflect our management's current views with respect to future events and financial performance. Those statements include statements regarding our intent, belief or current expectations, and those of members of our management team, as well as the assumptions on which such statements are based. Prospective investors are cautioned that any such forward-looking statements are not guarantees of future performance and involve risk and uncertainties, and that actual results may differ materially from those contemplated by such forward-looking statements. Readers are urged to carefully review and consider the various disclosures made by us throughout this Report, as well as in our other reports filed with the Securities and Exchange Commission. Important factors currently known to Management could cause actual results to differ materially from those in forward-looking statements. We undertake no obligation to update or revise forward-looking statements to reflect changed assumptions, the occurrence of unanticipated events or changes in future operating results over time. We believe that our assumptions are based upon reasonable data derived from and known about our business and operations. No assurances are made that actual results of operations or the results of any future activities will not differ materially from our assumptions.

Since our trading shares are classified as "penny stocks", we are not entitled to rely upon the "Safe Harbor" provisions adopted by the SEC under the Exchange Act with respect to Forward Looking Statements. Nevertheless, investors are urged to give serious consideration to those factors which we have identified as outside of our control, and the consequences to us and our investors if our anticipated results do not come to pass as expected as a result of material deviations which may occur from the assumptions we have relied upon in making Forward-Looking Statements.

Off-Balance Sheet Arrangements

We do not have any off-balance sheet arrangements.

ITEM 3. CONTROLS AND PROCEDURES

(a) Disclosure Controls and Procedures.

Our management evaluated, with the participation of our Chief Executive and Financial Officer, the effectiveness of our disclosure controls and procedures as of the end of the period covered by this Quarterly Report on Form 10-QSB. Based on this evaluation, our Chief Executive and Financial Officer has concluded that our disclosure controls and procedures (as defined in Rules 13a-15(e) and 15d-15(e) under the Securities Exchange Act of 1934 (the Exchange Act) are ineffective to ensure that information required to be disclosed by us in reports that we file or submit under the Exchange Act is recorded, processed, summarized and reported within the time periods specified in SEC rules and forms. Specifically, we have identified a material weakness relating to our lack of competent financial management personnel with appropriate accounting knowledge and training and our financial inability to retain such financial management personnel during the three month period ended March 31, 2007. We continue to seek the capital necessary to hire additional personnel to address this weakness; however, as of the date of this report, we have not been able to do so. Any plan to address the above-identified material weakness will necessarily depend on our ability to obtain additional funding to hire and train additional personnel with the appropriate accounting knowledge, expertise and experience.

(b) Changes in Internal Control over Financial Reporting

There was no change in the our internal controls that occurred during the three month period ended March 31, 2007, that has materially affected, or is reasonably likely to affect, the Company's internal controls over financial reporting.

PART II

OTHER INFORMATION

ITEM 1. LEGAL PROCEEDINGS

From time to time we are involved in legal proceedings relating to claims arising out of operations in the normal course of business, as well as claims arising from our status as an issuer of securities and/or a publicly reporting company. At March 31, 2007, we know of no current or threatened legal proceedings involving us or our properties reportable under this Item 1 Legal Proceedings.

ITEM 2. UNREGISTERED SALES OF EQUITY SECURITIES AND USE OF PROCEEDS

Recent Sales of Unregistered Securities

In January 2007, we sold to one of our directors 1,333,334 shares of our common stock at \$0.015 per share and 833,334 shares of our common stock at \$0.012 for an aggregate total of \$30,000. We believe the issuances of these securities are exempt under Section 4(2) of the Securities Act and Regulation D.

On January 6, 2007, we issued an aggregate of 1,437,500 shares of our common stock, valued at \$57,500, to two of our then officers as compensation in lieu of cash payment. We believe the issuances of these securities are exempt under Section 4(2) of the Securities Act and Regulation D.

On January 15, 2007, we sold 4,166,666 shares of our common stock to an investor at \$.015 per share for an aggregate total of \$50,000. We believe the issuances of these securities are exempt under Section 4(2) of the Securities Act and Regulation D.

On January 24, 2007, we sold 7,692,308 shares of our common stock to an investor at \$0.013 per share for an aggregate total of \$100,000. We believe the issuances of these securities are exempt under Section 4(2) of the Securities Act and Regulation D.

Purchases of Equity Securities

We are required by the Securities Act of 1933 to disclose, in tabular format, any repurchases of our securities in the quarter ended March 31, 2007. We did not repurchase any of our securities in the quarter ended March 31, 2007, and accordingly, we have eliminated such table.

ITEM 3. DEFAULTS UPON SENIOR SECURITIES

None.

ITEM 4. SUBMISSION OF MATTERS TO A VOTE OF SECURITY HOLDERS

No matters were submitted to the vote of our security holders, whether through solicitation or proxies or otherwise, during the three month period ended March 31, 2007.

ITEM 5. OTHER INFORMATION

None.

ITEM 6. EXHIBITS

Exhibit No. Description

31.1 Certification of Chief Executive Officer and Chief Financial Officer pursuant to Rules 13a-14(a) and 15d-14(a), as adopted pursuant to Section 302 of the Sarbanes-Oxley Act of 2002. (Filed herewith)

32.1 Certification of Chief Executive Officer and Chief Financial Officer pursuant to pursuant to 18 U.S.C. Section 1350, as adopted pursuant to Section 906 of the Sarbanes-Oxley Act of 2002 (Filed herewith)
