2017 to the Product Expedia, Inc., Due December 11, 2020

Prospectus Supplement Royal Bank of Canada

No. TP-1, Prospectus Supplement and

Prospectus, Each Dated

January 8, 2016

Royal Bank of Canada is offering Auto-Callable Contingent Coupon Barrier Notes (the "Notes") linked to the common stock of Expedia, Inc. (the "Reference Stock"). The Notes offered are senior unsecured obligations of Royal Bank of Canada, will pay a quarterly Contingent Coupon at the rate and under the circumstances specified below, and will have the terms described in the documents described above, as supplemented or modified by this terms supplement. The Notes do not guarantee any return of principal at maturity. Any payments on the Notes are subject to our credit risk.

Investing in the Notes involves a number of risks. See "Risk Factors" beginning on page PS-5 of the product prospectus supplement dated January 8, 2016, on page S-1 of the prospectus supplement dated January 8, 2016, and "Selected Risk Considerations" beginning on page P-7 of this terms supplement.

The Notes will not constitute deposits insured by the Canada Deposit Insurance Corporation, the U.S. Federal Deposit Insurance Corporation or any other Canadian or U.S. government agency or instrumentality.

Neither the Securities and Exchange Commission nor any state securities commission has approved or disapproved of the Notes or determined that this terms supplement is truthful or complete. Any representation to the contrary is a criminal offense.

Issuer: Royal Bank of Canada Stock Exchange Listing: None

Trade Date: December 8, 2017 Principal Amount: \$1,000 per Note
Issue Date: December 13, 2017 Maturity Date: December 11, 2020

Observation Dates: Quarterly, as set forth Coupon Payment Quarterly, as set forth below

below Dates: Quarterly, as set form below

Per Note Total Price to public $^{(1)}$ 100.00% \$ Underwriting discounts and commissions $^{(1)}$ 2.25% \$ Proceeds to Royal Bank of Canada 97.75% \$

⁽¹⁾Certain dealers who purchase the Notes for sale to certain fee-based advisory accounts may forego some or all of their underwriting discount or selling concessions. The public offering price for investors purchasing the Notes in these accounts may be between \$977.50 and \$1,000 per \$1,000 in principal amount.

The initial estimated value of the Notes as of the date of this terms supplement is \$956.26 per \$1,000 in principal amount, which is less than the price to public. The final pricing supplement relating to the Notes will set forth our estimate of the initial value of the Notes as of the Trade Date, which will not be less than \$936.26 per \$1,000 in principal amount. The actual value of the Notes at any time will reflect many factors, cannot be predicted with accuracy, and may be less than this amount. We describe our determination of the initial estimated value in more detail below.

If the Notes priced on the date of this terms supplement, RBC Capital Markets, LLC, which we refer to as RBCCM, acting as agent for Royal Bank of Canada, would receive a commission of approximately \$22.50 per \$1,000 in principal amount of the Notes and would use a portion of that commission to allow selling concessions to other dealers of up to approximately \$22.50 per \$1,000 in principal amount of the Notes. The other dealers may forgo, in their sole discretion, some or all of their selling concessions. See "Supplemental Plan of Distribution (Conflicts of Interest)" below.

RBC Capital Markets, LLC

Auto-Callable Contingent Coupon Barrier Notes Linked to the Common Stock of Expedia, Inc., Due December 11, 2020

SUMMARY

Record Dates:

The information in this "Summary" section is qualified by the more detailed information set forth in this terms supplement, the prospectus supplement, the prospectus supplement, and the prospectus.

General: This terms supplement relates to an offering of Auto-Callable Contingent Coupon Barrier

Notes (the "Notes") linked to the common stock of Expedia, Inc. (the "Reference Stock").

Issuer: Royal Bank of Canada ("Royal Bank")

Issue: Senior Global Medium-Term Notes, Series G

Trade Date: December 8, 2017
Issue Date: December 13, 2017

Term: Approximately three (3) years

Denominations: Minimum denomination of \$1,000, and integral multiples of \$1,000 thereafter.

Designated Currency: U.S. Dollars

We will pay you a Contingent Coupon during the term of the Notes, periodically in arrears

on each Coupon Payment Date, under the conditions described below:

• If the closing price of the Reference Stock is greater than or equal to the Coupon Barrier on the applicable Observation Date, we will pay the Contingent Coupon applicable

to that Observation Date.

Contingent Coupon:

. If the closing price of the Reference Stock is less than the Coupon Barrier on the

applicable Observation Date, we will not pay you the Contingent Coupon applicable to that

Observation Date.

You may not receive a Contingent Coupon for one or more quarterly periods during the

term of the Notes.

Contingent Coupon Rate: [7.65%-8.65%] per annum ([1.9125% – 2.1625%] per quarter), to be determined on the

Trade Date.

Quarterly on March 8, 2018, June 8, 2018, September 10, 2018, December 10, 2018,

Observation Dates: March, 8, 2019, June 10, 2019, September 9, 2019, December 9, 2019, March 9, 2020, June

8, 2020, September 8, 2020 and the Valuation Date.

The Contingent Coupon, if applicable, will be paid quarterly on March 13, 2018, June 13,

Coupon Payment Dates: 2018, September 13, 2018, December 13, 2018, March 13, 2019, June 13, 2019, September 13, 2019, Payment Dates: 12, 2019, Payment Dates: 12, 2019, Payment Dates: 12, 2019, Payment Dates: 12, 2019, Payment Dates: 13, 2019, Payment Dates: 14, 2019, Payment Dates: 14, 2019, Payment Dates: 15, 2019, Payment Dates: 15, 2019, Payment Dates: 15, 2019, Payment Dates: 15, 2019, Payment Dates: 16, 2019, Payment Dates: 16, 2019, Payment Dates: 16, 2019, Payment Dates: 17, 2019, Payment Dates: 18, 2019, Payment Dates: 19, 2019, Pay

12, 2019, December 12, 2019, March 12, 2020, June 11, 2020, September 11, 2020 and the

Maturity Date.

The record date for each Coupon Payment Date will be one business day prior to that

scheduled Coupon Payment Date; provided, however, that any Contingent Coupon payable

at maturity or upon a call will be payable to the person to whom the payment at maturity or

upon the call, as the case may be, will be payable.

If, starting on June 8, 2018 and on any Observation Date thereafter, the closing price of the

Call Feature: Reference Stock is greater than or equal to the Call Stock Price, then the Notes will be

automatically called.

If the Notes are called on any Observation Date starting on June 8, 2018 and thereafter, the

Call Settlement Dates: Call Settlement Date will be the Coupon Payment Date corresponding to that Observation

Date.

If the Notes are automatically called, then, on the applicable Call Settlement Date, for each

Payment if Called: \$1,000 principal amount, you will receive \$1,000 plus the Contingent Coupon otherwise

due on that Call Settlement Date.

Valuation Date: December 8, 2020 Maturity Date: December 11, 2020

Initial Stock Price: The closing price of the Reference Stock on the Trade Date.

ADDITIONAL TERMS OF YOUR NOTES

You should read this terms supplement together with the prospectus dated January 8, 2016, as supplemented by the prospectus supplement dated January 8, 2016 and the product prospectus supplement dated January 8, 2016, relating to our Senior Global Medium-Term Notes, Series G, of which these Notes are a part. Capitalized terms used but not defined in this terms supplement will have the meanings given to them in the product prospectus supplement. In the event of any conflict, this terms supplement will control. The Notes vary from the terms described in the product prospectus supplement in several important ways. You should read this terms supplement carefully. This terms supplement, together with the documents listed below, contains the terms of the Notes and supersedes all

prior or contemporaneous oral statements as well as any other written materials including preliminary or indicative pricing terms, correspondence, trade ideas, structures for implementation, sample structures, brochures or other educational materials of ours. You should carefully consider, among other things, the matters set forth in "Risk Factors" in the prospectus supplement dated January 8, 2016 and in the product prospectus supplement dated January 8, 2016, as the Notes involve risks not associated with conventional debt securities. We urge you to consult your investment, legal, tax, accounting and other advisors before you invest in the Notes. You may access these documents on the Securities and Exchange Commission (the "SEC") website at www.sec.gov as follows (or if that address has changed, by reviewing our filings for the relevant date on the SEC website):

Prospectus dated January 8, 2016:

http://www.sec.gov/Archives/edgar/data/1000275/000121465916008810/j18160424b3.htm

Prospectus Supplement dated January 8, 2016:

http://www.sec.gov/Archives/edgar/data/1000275/000121465916008811/p14150424b3.htm

Product Prospectus Supplement dated January 8, 2016:

https://www.sec.gov/Archives/edgar/data/1000275/000114036116047446/form424b5.htm

Our Central Index Key, or CIK, on the SEC website is 1000275. As used in this terms supplement, "we," "us," or "our" refers to Royal Bank of Canada.

Royal Bank of Canada has filed a registration statement (including a product prospectus supplement, a prospectus supplement, and a prospectus) with the SEC for the offering to which this terms supplement relates. Before you invest, you should read those documents and the other documents relating to this offering that we have filed with the SEC for more complete information about us and this offering. You may obtain these documents without cost by visiting EDGAR on the SEC website at www.sec.gov. Alternatively, Royal Bank of Canada, any agent or any dealer participating in this offering will arrange to send you the product prospectus supplement, the prospectus supplement and the prospectus if you so request by calling toll-free at 1-877-688-2301.

P-4 RBC Capital Markets, LLC

Auto-Callable Contingent Coupon Barrier Notes Linked to the Common Stock of Expedia, Inc., Due December 11, 2020

HYPOTHETICAL EXAMPLES

The table set out below is included for illustration purposes only. The table illustrates the Payment at Maturity of the Notes (including the final Contingent Coupon, if payable) for a hypothetical range of performance for the Reference Stock, assuming the following terms and that the Notes are not automatically called prior to maturity:

Hypothetical Initial Stock Price: \$100.00*

Hypothetical Trigger Price

\$75.00, which is 75.00% of the hypothetical Initial Stock Price

and Coupon Barrier: Hypothetical Contingent

8.15% per annum (or 2.0375% per quarter), which is the midpoint of the Contingent

Coupon Rate:

Coupon Rate range of [7.65%-8.65%] per annum (to be determined on the Trade Date).

Hypothetical Contingent

\$20.375 per quarter

Coupon Amount:

Quarterly

Observation Dates: Principal Amount:

\$1,000 per Note

Hypothetical Final Stock Prices are shown in the first column on the left. The second column shows the Payment at Maturity for a range of Final Stock Prices on the Valuation Date. The third column shows the amount of cash to be paid on the Notes per \$1,000 in principal amount. If the Notes are called prior to maturity, the hypothetical examples below will not be relevant, and you will receive on the applicable Coupon Payment Date, for each \$1,000 principal amount, \$1,000 plus the Contingent Coupon otherwise due on the Notes.

Hymothetical Final Steels Drice of	Dovement at Maturity of	Payment at Maturity
Hypothetical Final Stock Price of	Payment at Maturity as	(assuming
the Reference Stock	Percentage of Principal Amount	that the Notes were not previously called)
\$180.00	102.0375%*	\$1,020.375*
\$170.00	102.0375%*	\$1,020.375*
\$160.00	102.0375%*	\$1,020.375*
\$150.00	102.0375%*	\$1,020.375*
\$140.00	102.0375%*	\$1,020.375*
\$125.00	102.0375%*	\$1,020.375*
\$120.00	102.0375%*	\$1,020.375*
\$110.00	102.0375%*	\$1,020.375*
\$100.00	102.0375%*	\$1,020.375*
\$90.00	102.0375%*	\$1,020.375*
\$80.00	102.0375%*	\$1,020.375*
\$75.00	102.0375%*	\$1,020.375*
\$74.99	74.99%	\$749.90

^{*} The hypothetical Initial Stock Price of \$100 used in the examples below has been chosen for illustrative purposes only and does not represent the expected actual Initial Stock Price. The actual Initial Stock Price will be set forth on the cover page of the final pricing supplement relating to the Notes.

\$70.00	70.00%	\$700.00
\$60.00	60.00%	\$600.00
\$50.00	50.00%	\$500.00
\$40.00	40.00%	\$400.00
\$30.00	30.00%	\$300.00
\$20.00	20.00%	\$200.00
\$10.00	10.00%	\$100.00
\$0.00	0%	\$0.00

^{*}Including the final Contingent Coupon, if payable.

P-5 RBC Capital Markets, LLC

Auto-Callable Contingent Coupon Barrier Notes Linked to the Common Stock of Expedia, Inc., Due December 11, 2020

Hypothetical Examples of Amounts Payable at Maturity

The following hypothetical examples illustrate how the payments at maturity set forth in the table above are calculated, assuming the Notes have not been called.

Example 1: The price of the Reference Stock increases by 25% from the Initial Stock Price of \$100.00 to the Final Stock Price of \$125.00. Because the Final Stock Price is greater than the Trigger Price and Coupon Barrier of \$75.00, the investor receives at maturity, in addition to the final Contingent Coupon of \$20.375 otherwise due on the Notes, a cash payment of \$1,000 per Note, despite the 25% appreciation in the price of the Reference Stock.

Example 2: The price of the Reference Stock decreases by 10% from the Initial Stock Price of \$100.00 to the Final Stock Price of \$90.00. Because the Final Stock Price is greater than the Trigger Price and Coupon Barrier of \$75.00, the investor receives at maturity, in addition to the final Contingent Coupon of \$20.375 otherwise due on the Notes, a cash payment of \$1,000 per Note, despite the 10% decline in the price of the Reference Stock.

Example 3: The price of the Reference Stock is \$50.00 on the Valuation Date, which is less than the Trigger Price of \$75.00. Because the Final Stock Price is less than the Trigger Price and Coupon Barrier of \$75.00, the final Contingent Coupon will not be payable on the Maturity Date, and we will pay only \$500.00 for each \$1,000 in the principal amount of the Notes, calculated as follows:

Principal Amount + (Principal Amount x Reference Stock Return)

= \$1,000 + (\$1,000 x -50.00%) = \$1,000 - \$500.00 = \$500.00

* * *

The Payments at Maturity shown above are entirely hypothetical; they are based on theoretical prices of the Reference Stock that may not be achieved on the Valuation Date and on assumptions that may prove to be erroneous. The actual market value of your Notes on the Maturity Date or at any other time, including any time you may wish to sell your Notes, may bear little relation to the hypothetical Payments at Maturity shown above, and those amounts should not be viewed as an indication of the financial return on an investment in the Notes.

P-6 RBC Capital Markets, LLC

Auto-Callable Contingent Coupon Barrier Notes Linked to the Common Stock of Expedia, Inc., Due December 11, 2020

SELECTED RISK CONSIDERATIONS

An investment in the Notes involves significant risks. Investing in the Notes is not equivalent to investing directly in the Reference Stock. These risks are explained in more detail in the section "Risk Factors," in the product prospectus supplement. In addition to the risks described in the prospectus supplement and the product prospectus supplement, you should consider the following:

Principal at Risk — Investors in the Notes could lose all or a substantial portion of their principal amount if there is a decline in the trading price of the Reference Stock between the Trade Date and the Valuation Date. If the Notes are not automatically called and the Final Stock Price on the Valuation Date is less than the Trigger Price, the amount of cash that you receive at maturity will represent a loss of your principal that is proportionate to the decline in the closing price of the Reference Stock from the Trade Date to the Valuation Date. Any Contingent Coupons received on the Notes prior to the Maturity Date may not be sufficient to compensate for any such loss.

The Notes Are Subject to an Automatic Call — If on any Observation Date, beginning in June 2018, the closing price of the Reference Stock is greater than or equal to the Call Stock Price, then the Notes will be automatically called. If the Notes are automatically called, then, on the applicable Call Settlement Date, for each \$1,000 in principal amount, you will receive \$1,000 plus the Contingent Coupon otherwise due on the applicable Call Settlement Date. You will not receive any Contingent Coupons after the Call Settlement Date. You may be unable to reinvest your proceeds from the automatic call in an investment with a return that is as high as the return on the Notes would have been if they had not been called.

You May Not Receive Any Contingent Coupons — We will not necessarily make any coupon payments on the Notes. If the closing price of the Reference Stock on an Observation Date is less than the Coupon Barrier, we will not pay you the Contingent Coupon applicable to that Observation Date. If the closing price of the Reference Stock is less than the Coupon Barrier on each of the Observation Dates and on the Valuation Date, we will not pay you any Contingent Coupons during the term of, and you will not receive a positive return on, your Notes. Generally, this non-payment of the Contingent Coupon coincides with a period of greater risk of principal loss on your Notes. Accordingly, if we do not pay the Contingent Coupon on the Maturity Date, you will also incur a loss of principal, because the Final Stock Price will be less than the Trigger Price.

.The Call Feature and the Contingent Coupon Feature Limit Your Potential Return — The return potential of the Notes is limited to the pre-specified Contingent Coupon Rate, regardless of the appreciation of the Reference Stock. In addition, the total return on the Notes will vary based on the number of Observation Dates on which the Contingent Coupon becomes payable prior to maturity or an automatic call. Further, if the Notes are called due to the Call ·Feature, you will not receive any Contingent Coupons or any other payment in respect of any Observation Dates after the applicable Call Settlement Date. Since the Notes could be called as early as June 2018, the total return on the Notes could be minimal. If the Notes are not called, you may be subject to the full downside performance of the Reference Stock even though your potential return is limited to the Contingent Coupon Rate. As a result, the return on an investment in the Notes could be less than the return on a direct investment in the Reference Stock.

Your Return May Be Lower than the Return on a Conventional Debt Security of Comparable Maturity — The return that you will receive on the Notes, which could be negative, may be less than the return you could earn on other investments. Even if your return is positive, your return may be less than the return you would earn if you bought a conventional senior interest bearing debt security of Royal Bank.

·Payments on the Notes Are Subject to Our Credit Risk, and Changes in Our Credit Ratings Are Expected to Affect the Market Value of the Notes — The Notes are our senior unsecured debt securities. As a result, your receipt of any Contingent Coupons, if payable, and the amount due on any relevant payment date is dependent upon our ability to repay its obligations on the applicable payment dates. This will be the case even if the price of the Reference Stock increases after the Trade Date. No assurance can be given as to what our financial condition will be during the term

of the Notes.

There May Not Be an Active Trading Market for the Notes-Sales in the Secondary Market May Result in Significant Losses — There may be little or no secondary market for the Notes. The Notes will not be listed on any securities exchange. RBCCM and our other affiliates may make a market for the Notes; however, they are not required to do so. RBCCM or any other affiliate of ours may stop any market-making activities at any time. Even if a secondary market for the Notes develops, it may not provide significant liquidity or trade at prices advantageous to you. We expect that transaction costs in any secondary market would be high. As a result, the difference between bid and asked prices for your Notes in any secondary market could be substantial.

Owning the Notes Is Not the Same as Owning the Reference Stock — The return on your Notes is unlikely to reflect the return you would realize if you actually owned the Reference Stock. For instance, you will not receive or be entitled to receive any dividend payments or other distributions on the Reference Stock during the term of your Notes. As an owner of the Notes,

P-7 RBC Capital Markets, LLC

Auto-Callable Contingent Coupon Barrier Notes Linked to the Common Stock of Expedia, Inc., Due December 11, 2020

you will not have voting rights or any other rights that holders of the Reference Stock may have. Furthermore, the Reference Stock may appreciate substantially during the term of the Notes, while your potential return will be limited to the applicable Contingent Coupon payments.

There Is No Affiliation Between the Issuer of the Reference Stock and RBCCM, and RBCCM Is Not Responsible for any Disclosure by the Issuer of the Reference Stock — We are not affiliated with Expedia, Inc. However, we and our affiliates may currently, or from time to time in the future engage, in business with Expedia, Inc. Nevertheless, neither we nor our affiliates assume any responsibilities for the accuracy or the completeness of any information that any other company prepares. You, as an investor in the Notes, should make your own investigation into the Reference Stock. Expedia, Inc. is not involved in this offering and has no obligation of any sort with respect to your Notes. Expedia, Inc. has no obligation to take your interests into consideration for any reason, including when taking any corporate actions that might affect the value of your Notes.

Our Business Activities May Create Conflicts of Interest — We and our affiliates expect to engage in trading activities related to the Reference Stock that are not for the account of holders of the Notes or on their behalf. These trading activities may present a conflict between the holders' interests in the Notes and the interests we and our affiliates will have in their proprietary accounts, in facilitating transactions, including options and other derivatives transactions, for their customers and in accounts under their management. These trading activities, if they influence the prices of the Reference Stock, could be adverse to the interests of the holders of the Notes. We and one or more of our affiliates may, at present or in the future, engage in business with the issuer of the Reference Stock, including making loans to or providing advisory services. These services could include investment banking and merger and acquisition advisory services. These activities may present a conflict between our or one or more of our affiliates' obligations and your interests as a holder of the Notes. Moreover, we and our affiliates may have published, and in the future expect to publish, research reports with respect to the Reference Stock. This research is modified from time to time without notice and may express opinions or provide recommendations that are inconsistent with purchasing or holding the Notes. Any of these activities by us or one or more of our affiliates may affect the price of the Reference Stock, and, therefore, the market value of the Notes.

The Initial Estimated Value of the Notes Will Be Less than the Price to the Public – The initial estimated value set forth on the cover page of this terms supplement and that will be set forth in the final pricing supplement for the Notes does not represent a minimum price at which we, RBCCM or any of our affiliates would be willing to purchase the Notes in any secondary market (if any exists) at any time. If you attempt to sell the Notes prior to maturity, their market value may be lower than the price you paid for them and the initial estimated value. This is due to, among other things, changes in the price of the Reference Stock, the borrowing rate we pay to issue securities of this kind, and the inclusion in the price to the public of the underwriting discount and the estimated costs relating to our hedging of the Notes. These factors, together with various credit, market and economic factors over the term of the Notes, are expected to reduce the price at which you may be able to sell the Notes in any secondary market and will affect the value of the Notes in complex and unpredictable ways. Assuming no change in market conditions or any other relevant factors, the price, if any, at which you may be able to sell your Notes prior to maturity may be less than your original purchase price, as any such sale price would not be expected to include the underwriting discount and the hedging costs relating to the Notes. In addition to bid-ask spreads, the value of the Notes determined by RBCCM for any secondary market price is expected to be based on the secondary rate rather than the internal funding rate used to price the Notes and determine the initial estimated value. As a result, the secondary price will be less than if the internal funding rate was used. The Notes are not designed to be short-term trading instruments. Accordingly, you should be able and willing to hold your Notes to maturity.

·The Initial Estimated Value of the Notes on the Cover Page of this Terms Supplement and that We Will Provide in the Final Pricing Supplement Are Estimates Only, Calculated as of the Time the Terms of the Notes Are Set –The

initial estimated value of the Notes will be based on the value of our obligation to make the payments on the Notes, together with the mid-market value of the derivative embedded in the terms of the Notes. See "Structuring the Notes" below. Our estimates are based on a variety of assumptions, including our credit spreads, expectations as to dividends, interest rates and volatility, and the expected term of the Notes. These assumptions are based on certain forecasts about future events, which may prove to be incorrect. Other entities may value the Notes or similar securities at a price that is significantly different than we do.

The value of the Notes at any time after the Trade Date will vary based on many factors, including changes in market conditions, and cannot be predicted with accuracy. As a result, the actual value you would receive if you sold the Notes in any secondary market, if any, should be expected to differ materially from the initial estimated value of your Notes.

Market Disruption Events and Adjustments – The payment at maturity, each Observation Date and the Valuation Date are subject to adjustment as described in the product prospectus supplement. For a description of what constitutes a market disruption event as well as the consequences of that market disruption event, see "General Terms of the Notes—Market Disruption Events" in the product prospectus supplement.

INFORMATION REGARDING THE REFERENCE STOCK ISSUER

The Reference Stock is registered under the Securities Exchange Act of 1934 (the "Exchange Act"). Companies with securities registered under that Act are required to file periodically certain financial and other information specified by the SEC. Information provided to or filed with the SEC can be inspected and copied at the public reference facilities maintained by the SEC or through the SEC's website at www.sec.gov. In addition, information regarding the Reference Stock may be obtained from other sources including, but not limited to, press releases, newspaper articles and other publicly disseminated documents.

The following information regarding the issuer of the Reference Stock is derived from publicly available information. We have not independently verified the accuracy or completeness of reports filed by the issuer of the Reference Stock with the SEC, information published by it on its website or in any other format, information about it obtained from any other source or the information provided below.

We obtained the information regarding the historical performance of the Reference Stock set forth below from Bloomberg Financial Markets.

Expedia, Inc. ("EXPE")

Expedia, Inc. provides online travel services for leisure and small business travelers. The company offers travel, shopping and reservation services, providing access to schedule, pricing, and availability information for airlines, hotels, and car rental companies.

The company's common stock is listed on the Nasdaq Global Select Market under the ticker symbol "EXPE."

10/1/2017	11/24/2017	154.18	115.56	126.81

PAST PERFORMANCE IS NOT INDICATIVE OF FUTURE RESULTS.

The graph below illustrates the performance of the Reference Stock from January 1, 2013 to November 24, 2017, assuming an Initial Stock Price of \$126.81, which was the closing price of the Reference Stock on November 24, 2017. The red line represents a hypothetical Coupon Barrier and Trigger Price of \$95.11, which is equal to 75.00% of the closing price on November 24, 2017, rounded to two decimal places. The actual Coupon Barrier and Trigger Price will be based on the closing price of the Reference Stock on the Trade Date.

P-10 RBC Capital Markets, LLC

Auto-Callable Contingent Coupon Barrier Notes Linked to the Common Stock of Expedia, Inc., Due December 11, 2020

SUPPLEMENTAL DISCUSSION OF

U.S. FEDERAL INCOME TAX CONSEQUENCES

The following disclosure supplements, and to the extent inconsistent supersedes, the discussion in the product prospectus supplement dated January 8, 2016 under "Supplemental Discussion of U.S. Federal Income Tax Consequences."

Under Section 871(m) of the Code, a "dividend equivalent" payment is treated as a dividend from sources within the United States. Such payments generally would be subject to a 30% U.S. withholding tax if paid to a non-U.S. holder. Under U.S. Treasury Department regulations, payments (including deemed payments) with respect to equity-linked instruments ("ELIs") that are "specified ELIs" may be treated as dividend equivalents if such specified ELIs reference an interest in an "underlying security," which is generally any interest in an entity taxable as a corporation for U.S. federal income tax purposes if a payment with respect to such interest could give rise to a U.S. source dividend. However, the IRS has issued guidance that states that the U.S. Treasury Department and the IRS intend to amend the effective dates of the U.S. Treasury Department regulations to provide that withholding on dividend equivalent payments will not apply to specified ELIs that are not delta-one instruments and that are issued before January 1, 2019. Based on our determination that the Notes are not delta-one instruments, non-U.S. holders should not be subject to withholding on dividend equivalent payments, if any, under the Notes. However, it is possible that the Notes could be treated as deemed reissued for U.S. federal income tax purposes upon the occurrence of certain events affecting the Reference Stock or the Notes, and following such occurrence the Notes could be treated as subject to withholding on dividend equivalent payments. Non-U.S. holders that enter, or have entered, into other transactions in respect of the Reference Stock or the Notes should consult their tax advisors as to the application of the dividend equivalent withholding tax in the context of the Notes and their other transactions. If any payments are treated as dividend equivalents subject to withholding, we (or the applicable withholding agent) would be entitled to withhold taxes without being required to pay any additional amounts with respect to amounts so withheld.

SUPPLEMENTAL PLAN OF DISTRIBUTION (CONFLICTS OF INTEREST)

We expect that delivery of the Notes will be made against payment for the Notes on or about December 13, 2017, which is the third (3rd) business day following the Trade Date (this settlement cycle being referred to as "T+3"). See "Plan of Distribution" in the prospectus dated January 8, 2016. For additional information as to the relationship between us and RBCCM, please see the section "Plan of Distribution—Conflicts of Interest" in the prospectus dated January 8, 2016.

We expect to deliver the Notes on a date that is greater than two business days following the trade date. Under Rule 15c6-1 of the Exchange Act, trades in the secondary market generally are required to settle in two business days, unless the parties to any such trade expressly agree otherwise. Accordingly, purchasers who wish to trade the Notes more than two business days prior to the original issue date will be required to specify alternative arrangements to prevent a failed settlement.

In the initial offering of the Notes, they will be offered to investors at a purchase price equal to par, except with respect to certain accounts as indicated on the cover page of this document.

The value of the Notes shown on your account statement may be based on RBCCM's estimate of the value of the Notes if RBCCM or another of our affiliates were to make a market in the Notes (which it is not obligated to do). That estimate will be based upon the price that RBCCM may pay for the Notes in light of then prevailing market conditions, our creditworthiness and transaction costs. For a period of approximately three months after the issue date of the Notes, the value of the Notes that may be shown on your account statement may be higher than RBCCM's estimated value of the Notes at that time. This is because the estimated value of the Notes will not include the underwriting discount and our hedging costs and profits; however, the value of the Notes shown on your account statement during that period may initially be a higher amount, reflecting the addition of RBCCM's underwriting

discount and our estimated costs and profits from hedging the Notes. This excess is expected to decrease over time until the end of this period. After this period, if RBCCM repurchases your Notes, it expects to do so at prices that reflect their estimated value.

We may use this terms supplement in the initial sale of the Notes. In addition, RBCCM or another of our affiliates may use this terms supplement in a market-making transaction in the Notes after their initial sale. Unless we or our agent informs the purchaser otherwise in the confirmation of sale, this terms supplement is being used in a market-making transaction.

P-11 RBC Capital Markets, LLC

Auto-Callable Contingent Coupon Barrier Notes Linked to the Common Stock of Expedia, Inc., Due December 11, 2020

STRUCTURING THE NOTES

The Notes are our debt securities, the return on which is linked to the performance of the Reference Stock. As is the case for all of our debt securities, including our structured notes, the economic terms of the Notes reflect our actual or perceived creditworthiness at the time of pricing. In addition, because structured notes result in increased operational, funding and liability management costs to us, we typically borrow the funds under these Notes at a rate that is more favorable to us than the rate that we might pay for a conventional fixed or floating rate debt security of comparable maturity. Using this relatively lower implied borrowing rate rather than the secondary market rate, is a factor that is likely to reduce the initial estimated value of the Notes at the time their terms are set. Unlike the estimated value included in this terms supplement or in the final pricing supplement, any value of the Notes determined for purposes of a secondary market transaction may be based on a different funding rate, which may result in a lower value for the Notes than if our initial internal funding rate were used.

In order to satisfy our payment obligations under the Notes, we may choose to enter into certain hedging arrangements (which may include call options, put options or other derivatives) on the issue date with RBCCM or one of our other subsidiaries. The terms of these hedging arrangements take into account a number of factors, including our creditworthiness, interest rate movements, the volatility of the Reference Stock, and the tenor of the Notes. The economic terms of the Notes and their initial estimated value depend in part on the terms of these hedging arrangements.

The lower implied borrowing rate is a factor that reduces the economic terms of the Notes to you. The initial offering price of the Notes also reflects the underwriting commission and our estimated hedging costs. These factors result in the initial estimated value for the Notes on the Trade Date being less than their public offering price. See "Selected Risk Considerations—The Initial Estimated Value of the Notes Will Be Less than the Price to the Public" above.

PACIFICNET INC. AND SUBSIDIARIES
NOTES TO CONSOLIDATED FINANCIAL STATEMENTS
(Amounts expressed in United States dollars unless otherwise stated)

1. BASIS OF PRESENTATION

Description of Operations - PacificNet, Inc. (NASDAQ: PACT) is a leading developer and provider of gaming technology for the land-based, online and mobile game operators in Asia. Established in 2000 as a provider of e-commerce and Customer Relationship Management (CRM) solutions for the China market, the company changed focus in 2006 and has been divesting its legacy telecom and CRM business while pursuing a strategy to focus on gaming technology and games development for the global gaming market. Due to the contribution of the highly experienced executives of our gaming subsidiaries, including PacificNet Games (PactGame) and Take1 Technologies (Take 1), PacificNet is able to offer world-leading solutions in casino equipment supply and in the development, installation and support of systems and game content for the casino, lottery and Amusement With Prizes (AWP) markets. Positioning itself as a systems integrator for the gaming industry, with a special focus on the emerging markets, PacificNet enables customers to integrate gaming operations, linking electronic gaming machines, tables and larger networks so that operators can build efficient and highly attractive gaming operations that drive revenue growth and profit opportunity and enhance the customer experience. PacificNet's gaming clients include leading hotels, casinos, and gaming operators in Asia, Europe, and other gaming markets around the world. The Company employs approximately 500 staff in its various subsidiaries with offices in Macau, Hong Kong, China, Philippines, and the US.

Consolidated Interim Financial Statements - The consolidated financial statements have been prepared in accordance with U.S. generally accepted accounting principles ("GAAP") for interim financial reporting consistent in all material respects with those applied in the Company's Annual Report on Form 10-K, as amended, for the year ended December 31, 2007, but do not include all disclosures required by GAAP. You should read these interim consolidated financial statements in conjunction with the audited financial statements, including the notes thereto, and the other information set forth in the Company's Annual Report on Form 10-K, as amended, for the year ended December 31, 2007. The unaudited consolidated financial statements include the accounts of PacificNet Inc. and its subsidiaries and variable interest entities ("VIEs") for which the Company is the primary beneficiary. All significant intercompany balances and transactions have been eliminated in consolidation. In the opinion of management, all material adjustments considered necessary for a fair presentation of the Company's interim results have been reflected. PacificNet's 2007 Annual Report on Form 10-K includes certain definitions and a summary of significant accounting policies and should be read in conjunction with this report. The results for interim periods are not necessarily indicative of annual results.

Use of Estimates - The preparation of the consolidated financial statements in conformity with GAAP requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates, and such differences may be material to the financial statements. Certain prior year amounts have been reclassified to conform to the current year presentation.

Reclassification - Certain items in the accompanied consolidated financial statements have been re-classed for comparative purposes.

Going Concern

As shown in the accompanying consolidated financial statements, the Company incurred accumulated losses of \$66 million and \$65 million as of March 31, 2008 and December 31, 2007, respectively. Negative cash flows used in the operations were \$1.21 million for the three months ended March 31, 2008. These matters raise substantial doubt about the Company's ability to continue as a going concern.

In view of the matters described in the preceding paragraph, recoverability of a major portion of the recorded asset amounts shown in the accompanying balance sheet is dependent upon continued operations of the Company, which in turn is dependent upon the Company's ability to raise additional capital, obtain financing and to succeed in its future operations. The financial statements do not include any adjustments relating to the recoverability and classification of recorded asset amounts or amounts and classification of liabilities that might be necessary should the Company be unable to continue as a going concern.

The Company has taken certain restructuring steps to provide the necessary capital to continue its operations. These steps included, but not limited to: 1) accelerate disposal and spin-off of unprofitable or unfavorable return-on-investment non-gaming operations; 2) focus on execution of the new high potential gaming business initiatives; 3) acquisition of profitable and/or strategic operations through issuance of equity instruments; 4) formation of strategic relationship with key gaming operators in Asia; 5) issuance and/or restructure of new long-term convertible debentures.

On April 30, 2007, the Company entered into a sale and purchase agreement to dispose of its interest in Guangzhou3G for a consideration of US\$6 million. The deal was subsequently reopened for renegotiation in November 2007 (See note 12).

On May 15 & 20, 2007, the Company entered into various definitive agreements to divest and reduce its equity interests in certain unprofitable subsidiaries to below 20% equity interest, namely: Linkhead, Clickcom, PacTelso, PacSo and PacPower (See note 12).

On March 27, 2008, three holders of PACT's Convertible Subordinated Debentures filed an involuntary petition for Chapter 11 relief in federal bankruptcy court late Saturday, March 22, 2008 in Wilmington, DE. The Company has retained counsel to oppose the filing because the petition fails to meet the standard for invoking an involuntary bankruptcy and fails to take into consideration other agreements between the Company and the petitioning creditors. The Company intends to vigorously oppose the petition and move for dismissal of the filing, and if successful will seek damages and attorney fees. Subsequently, PACT also received default notice from all but one of the debenture holders including Iroquois Master Fund Ltd., Alpha Capital AG, Whalehaven Capital Fund Limited, DKR Soundshore Oasis Holding Fund Ltd., Basso Fund Ltd., Basso Multi-Strategy Holding Fund Ltd., and Basso Private Opportunities Holding Fund Ltd. from the same Convertible Subordinated Debentures related to the private offering of \$8,000,000 principal amount variable debentures consummated on March 13, 2006, and due March 2009.

PACT has retained counsel to oppose the above petition. The amount of the debt in question is as follows: Iroquois Master Fund Ltd. \$2.5 million, Whalehaven Capital Fund Limited \$958,000, Alpha Capital AG \$685,000 DKR Soundshore Oasis Holding Fund Ltd \$960,000, and Basso Fund Ltd., Basso Multi- Strategy Holding Fund Ltd., and Basso Private Opportunities Holding Fund Ltd., a combined amount of \$500,000.

2. RECENT ACCOUNTING PRONOUNCEMENTS

In May of 2008, FASB issued SFASB No. 163, Accounting for Financial Guarantee Insurance Contracts-an interpretation of FASB Statement No. 60. The scope of the statement is limited to financial guarantee insurance (and reinsurance) contracts. The pronouncement is effective for fiscal years beginning after December 31, 2008. The company does not believe this pronouncement will impact its financial statements.

In May 0f 2008, FSAB issued SFASB No.162, The Hierarchy of Generally Accepted Accounting Principles. The pronouncement mandates the GAAP hierarchy reside in the accounting literature as opposed to the audit literature. This has the practical impact of elevating FASB Statements of Financial Accounting Concepts in the GAAP hierarchy. This pronouncement will become effective 60 days following SEC approval. The company does not believe this pronouncement will impact its financial statements.

On March 19, 2008, FASB issued SFAS No. 161, Disclosures about Derivative Instruments and Hedging Activities. The new standard is intended to improve financial reporting about derivative instruments and hedging activities by requiring enhanced disclosures to enable investors to better understand their effects on an entity's financial position, financial performance, and cash flows. It is effective for financial statements issued for fiscal years and interim periods beginning after November 15, 2008, with early application encouraged. Currently the Company does not carry any derivative instruments and the adoption of this statement may not have any effect on the financial statements.

In December 2007, FASB issued FASB Statement No. 160, Non-controlling Interests in Consolidated Financial Statements—an amendment of ARB No. 51. This Statement applies to all entities that prepare consolidated financial statements, except not-for-profit organizations, but will affect only those entities that have an outstanding non-controlling interest in one or more subsidiaries or that deconsolidate a subsidiary. Not-for-profit organizations should continue to apply the guidance in Accounting Research Bulletin No. 51, Consolidated Financial Statements, before the amendments made by this Statement, and any other applicable standards, until the Board issues interpretative guidance. This Statement is effective for fiscal years, and interim periods within those fiscal years, beginning on or after December 15, 2008 (that is, January 1, 2009, for entities with calendar year-ends). Earlier adoption is prohibited. The effective date of this Statement is the same as that of the related Statement 141(R). This Statement shall be applied prospectively as of the beginning of the fiscal year in which this Statement is initially applied, except for the presentation and disclosure requirements. The presentation and disclosure requirements shall be applied retrospectively for all periods presented. Management is currently evaluating the effect of this pronouncement on financial statements.

In December 2007, the FASB issued SFAS No. 141(R), "Business Combinations". This Statement replaces SFAS No. 141, Business Combinations. This Statement retains the fundamental requirements in Statement 141 that the acquisition method of accounting (which Statement 141 called the purchase method) be used for all business combinations and for an acquirer to be identified for each business combination. This Statement also establishes principles and requirements for how the acquirer: a) recognizes and measures in its financial statements the identifiable assets acquired, the liabilities assumed, and any non-controlling interest in the acquirement; b) recognizes and measures the goodwill acquired in the business combination or a gain from a bargain purchase and c) determines what information to disclose to enable users of the financial statements to evaluate the nature and financial effects of the business combination. SFAS No. 141(R) will apply prospectively to business combinations for which the acquisition date is on or after Company's fiscal year beginning October 1, 2009. While the Company has not yet evaluated this statement for the impact, if any, that SFAS No. 141(R) will have on its consolidated financial statements, the Company will be required to expense costs related to any acquisitions after September 30, 2009.

In March 2007, the Emerging Issues Task Force ("EITF") reached a consensus on issue number 06-10, "Accounting for Deferred Compensation and Postretirement Benefit Aspects of Collateral Assignment Split-Dollar Life Insurance Arrangements," ("EITF 06-10"). EITF 06-10 provides guidance to help companies determine whether a liability for the postretirement benefit associated with a collateral assignment split-dollar life insurance arrangement should be recorded in accordance with either SFAS No. 106, "Employers' Accounting for Postretirement Benefits Other Than Pensions" (if, in substance, a postretirement benefit plan exists), or Accounting Principles Board Opinion No. 12 (if the arrangement is, in substance, an individual deferred compensation contract). EITF 06-10 also provides guidance on how a company should recognize and measure the asset in a collateral assignment split-dollar life insurance contract. EITF 06-10 is effective for fiscal years beginning after December 15, 2007, though early adoption is permitted. The management is currently evaluating the effect of this pronouncement on financial statements.

In February 2007, FASB issued FASB Statement No. 159, The Fair Value Option for Financial Assets and Financial Liabilities. FAS 159 is effective for fiscal years beginning after November 15, 2007. Early adoption is permitted subject to specific requirements outlined in the new Statement. Therefore, calendar-year companies may be able to adopt FAS 159 for their first quarter 2007 financial statements.

The new Statement allows entities to choose, at specified election dates, to measure eligible financial assets and liabilities at fair value that are not otherwise required to be measured at fair value. If a company elects the fair value option for an eligible item, changes in that item's fair value in subsequent reporting periods must be recognized in current earnings. FAS 159 also establishes presentation and disclosure requirements designed to draw comparison between entities that elect different measurement attributes for similar assets and liabilities. The management is currently evaluating the effect of this pronouncement on financial statements.

In September 2006, FASB issued SFAS 158 'Employers' Accounting for Defined Benefit Pension and Other Postretirement Plans—an amendment of FASB Statements No. 87, 88, 106, and 132(R)' This Statement improves financial reporting by requiring an employer to recognize the over funded or underfunded status of a defined benefit postretirement plan (other than a multiemployer plan) as an asset or liability in its statement of financial position and to recognize changes in that funded status in the year in which the changes occur through comprehensive income of a business entity or changes in unrestricted net assets of a not-for-profit organization. The Company currently does not have any defined benefit plan and so FAS 158 will not affect the financial statements.

In September 2006, FASB issued SFAS 157 'Fair Value Measurements'. This Statement defines fair value, establishes a framework for measuring fair value in generally accepted accounting principles (GAAP), and expands disclosures about fair value measurements. This Statement applies under other accounting pronouncements that require or permit fair value measurements, the Board having previously concluded in those accounting pronouncements that fair value is the relevant measurement attribute. Accordingly, this Statement does not require any new fair value measurements. However, for some entities, the application of this Statement will change current practice. This Statement is effective for financial statements issued for fiscal years beginning after November 15, 2007, and interim periods within those fiscal years. The management is currently evaluating the effect of this pronouncement on financial statements.

3. EARNINGS PER SHARE

Basic and diluted earnings or loss per share (EPS) amounts in the financial statements are computed in accordance with SFAS No. 128, "Earnings Par Share." Basic EPS is based on the weighted average number of common shares outstanding. Diluted EPS is based on the weighted average number of common shares outstanding plus dilutive common stock equivalents. Basic EPS is computed by dividing net income/loss available to common stockholders (numerator) by the weighted average number of common shares outstanding (denominator) during the period Diluted EPS is calculated by dividing net earnings by the weighted average number of common shares outstanding and other dilutive securities. Dilutive earnings per share for the period ended March 31, 2008 exclude the potential dilutive effect of all the 1,007,138 warrants outstanding because their impact would be anti-dilutive based on current market prices. 465,909 convertible debentures are tested by using if-converted method. The result shows when convertible debentures are included in the computation, diluted EPS increases. According to SFAS No.128, those convertible debentures are ignored in the computation of diluted EPS. All per share and per share information are adjusted retroactively to reflect stock splits and changes in par value.

The reconciliation of the numerators and denominators of the basic and diluted EPS calculations was as follows:

T	hree Months Ende	ed March 31
	2008	2007
\$	(1,150) \$	308
	14,684,958	11,703,376
	14,684,958	11,997,317
\$	(0.07) \$	0.03
\$	(0.07) \$	0.03
	\$	\$ (1,150) \$ 14,684,958 14,684,958 \$ (0.07) \$

4. OTHER CURRENT ASSETS

Other current assets consist of the following at March 31, 2008 (in thousands):

5. GOODWILL AND BUSINESS ACQUISITIONS

The changes in the carrying amount of goodwill for the following reporting periods are summarized below:

	Group 1.	Group 2.		Group	3.	
		Telecom		Produ	cts	
	Outsourcing	Value-Add	ed	(Teleco	m &	
(US\$000s)	Services	Services		Gamir	ng)	Total
Balance as of December 31, 2007	\$	\$ 40	51	\$	409	\$ 870
Goodwill acquired during the first quarter					477	477
Balance as of March 31, 2008	\$	\$ 40	51	\$	886	\$ 1,347

On January 5, 2008 the Company has a supplementary agreement with Take 1 Technology to issue all the shares as per the conditions set in the S&P agreement dated January 5, 2007. Based upon the supplementary agreement, the Company was required to issue the shares without the conditions on January 5, 2008. As a result, the Company issued 120,000 shares to Take 1 on January 9, 2008 valued at \$477,000. The Company also issued 29,459 shares as committed on January 5, 2007 and classified as "Shares to be issued" as at December 31, 2007. The Company recorded 120,000 additional shares at the fair market value at the date of issuance on January 9, 2008. This additional issuance of shares contributed to the increase in goodwill amounting to \$477,000..

6. ACCRUED EXPENSES & OTHER PAYABLES

Accrued expenses and other payables comprises of the following as of March 31, 2008 and December 31, 2007.

			Dece	ember
	Marc	ch 31,	3	1,
	20	800	20	007

Income tax payable		12		7
Others taxes payable		675		887
Others		380		-
Total	\$	3,499	\$	3,500

7. STOCKHOLDERS' EQUITY

a) COMMON STOCK

For the three months period ended March 31, 2008, the Company had the following equity transactions: (i) 470,000 restricted PACT shares were issued as settlement of director fees and certain employee compensation fees and executive bonuses incurred in Q4, 2007, such shares were valued at \$470,000; (ii) 10,000 PACT shares were repurchased from open market at \$1.48 per share; (iii) 149,459 PACT shares were issued to Take 1 from escrow as consideration of 31% of Take 1's equity interests; (iv) 825,000 PACT treasury shares were issued to Shenzhen GuHaiGuangChao's shareholder under a share swap agreement dated March 28, 2008. In exchange for the issuance of the 825,000 PACT treasury shares issued to the shareholder of GHGC, we received 16,860,000 shares of International Financial Network Holdings Ltd ("IFN", listed on the HK Stock Exchange as 8123.HK) which was issued to PacificNet Strategic Investment Holdings Limited, a wholly owned subsidiary of PacificNet. The Company recorded unrealized loss of \$162,000 on the marketable securities as at March 31, 2008 as stipulated per SFAS 115.

b) STOCK OPTION PLAN

Prior to January 1, 2006, PacificNet accounted for awards granted under stock-based compensation plans following the recognition and measurement principles of APB 25, Accounting for Stock Issued to Employees, and related interpretations. Accordingly, compensation expense was recognized for awards granted at an exercise price less than fair market value of the underlying common stock on the date of grant. Effective January 1, 2006, PacificNet adopted the fair value recognition provisions of SFAS 123(R). See Note 2 for a description of the Company's adoption of SFAS 123R. The fair value of stock options is determined using the Black-Scholes option pricing model, which is consistent with the valuation techniques previously utilized for options in footnote disclosures required under SFAS 123, as amended by FASB Statement No.148, "Accounting for Stock-Based Compensation - Transition and Disclosure." The determination of the fair value of stock-based compensation awards on the date of grant using an option-pricing model is affected by the Company's stock prices as well as assumptions regarding a number of complex and subjective variables, including the expected volatility of the Company's stock price over the term of the awards, actual and projected employee stock option exercise behaviors, risk-free interest rate and expected dividends. The valuation provisions of SFAS 123(R) apply to new grants and unvested grants that were outstanding as of the effective date. For the three months ended March 31, 2008, no new options were granted and no options were vested, thus the option-related compensation cost is zero. PacificNet elected the modified prospective method and therefore has not restated results for prior periods due to 123R

The status of the Stock Option Plan as of March 31, 2008, is as follows:

		GHTED RAGE
	OPTIONS EXE	RCISE
	OUTSTANDING PR	RICE
OUTSTANDING, DECEMBER 31, 2006	370,500 \$	2.00
Granted	806,000	4.26
Cancelled	(941,500)	2.00
Exercised	(202,000)	2.00
OUTSTANDING, DECEMBER 31, 2007	33,000	4.31
Granted		
Cancelled		
Exercised		
OUTSTANDING, MARCH 31, 2008	33,000 \$	4.31

Following is a summary of the status of options outstanding at March 31, 2008:

Grant Date			Weighted Average Remaining Life (Years)	Weighted	Option Exercisable	Weighted Average Exercise Price
2007-8-13	33,000	\$0	, ,	\$4.31	-	\$4.31

PacificNet previously granted 788,000 options on August 11, 2007; however, as most of the optionees did not sign or execute the option agreements before December 31, 2007, most of the options have been forfeited except for 33,000 options. These options will be vested commencing from August 8, 2008 with a 5% per quarter vesting schedule, and the corresponding compensation costs will be recorded within the vesting period. The weighted-average fair value of such options was \$2.75. The assumptions used in calculating the fair value of options granted using the Black-Scholes option-pricing model are as follows:

Risk-free interest						
rate	4.51%					
Expected life of	5.86					
the options	years					
Expected						
volatility	67.44%					
Expected						
dividend yield	0%					

33,000 options were granted and 202,000 were exercised during the fiscal year ended December 31, 2007.

No other options were vested during the quarter ended March 31, 2008.

c) WARRANTS

At March 31, 2008, the Company had outstanding and exercisable warrants to purchase an aggregate of 1,007,138 shares of common stock. The weighted average remaining life is 2.09 years and the weighted average exercise price per share is \$10.61 per share.

Following is a summary of the warrant activity:

	WEIGHTED		
	Warrants	AVERAGE	Aggregate
		EXERCISE	
	outstanding	PRICE	Intrinsic Value
OUTSTANDING, DECEMBER 31, 2006	1,007,138	10.61	\$ -
Granted

Exercised			
OUTSTANDING, DECEMBER 31, 2007	1,007,138 \$	10.61	\$ -
Granted			
Forfeited			
Exercised			
OUTSTANDING, MARCH 31, 2008	1,007,138	10.61	\$

Following is a summary of the status of warrants outstanding at March 31, 2008:

Grant Date	Total warrants Outstanding	Weighted Average Remaining Life (Years)	Total Weighted Average Exercise Price	Warrants Exercisable	Weighted Average Exercise Price
2004-1-15	123,456	0.79	\$7.15	123,456	\$7.15
2004-11-15	117,682	1.63	\$3.89	117,682	\$3.89
2004-12-9	350,000	1.69	\$12.21	350,000	\$12.21
2006-3-13	416,000	2.95	\$12.20	416,000	\$12.20
13					

On March 13, 2006, we issued 400,000 warrants to several institutional investors in connection with a private placement of \$8 million in convertible debentures. On the same day we issued another 16,000 warrants to our placement agent for the transaction. Those warrants have a term of 5 years and immediately vesting. The assumptions used in calculating the fair value of such warrants granted using the Black-Scholes option- pricing model are as follows:

Risk-free interest rate	4.78%
	5 00
Expected life of	5.00
the options	years
Expected	27 000
volatility	37.08%
Expected	0%
dividend yield	0%

No warrants were granted, cancelled and exercised during the three months period ended March 31, 2008.

d) TREASURY STOCK

The following is a summary of the movement of the Company's shares held as treasury stock for the quarterly ended March 31, 2008:

	N u m b e r of shares	;			
Escrow shares returned to treasury on	800,000				
Repurchase in the open market	50,888				
Repurchase of shares from Take1	149,459				
Cancellation of former employee shares	45,000				
Holdback shares as contingen	t				
consideration due to performance targets	3				
not yet met	529,848	(1)			
Incomplete Acquisition of ChinaGoH	į				
(GHGC)	825,000

Repurchase of shares from Yueshen	24,200				
Shares sold to the open market	(41,426)				
Settlement with GHGC & Share					
Exchange with IFN	(825,000)				
Issuance 149,459 shares to Take 1	(149,459)				
Shares received from Octavian	2,330,000				
Balance, March 31, 2008	3,938,510				
Shares outstanding at March 31, 2008	13,418,531				
Shares issued at March 31, 2008	17,357,041				

(1) Includes shares related to Clickcom acquisition: 78,000 PACT shares; Guangzhou Wanrong acquisition: 138,348 PACT shares; iMobile acquisition: 153,500 PACT Shares; and PacificNet Games: 160,000 PACT shares.

8. CONVERTIBLE DEBENTURES

8.1 Eight Million Convertible Debentures

On March 13, 2006, we completed a private placement in which we sold \$8,000,000 in convertible debentures and issued warrants to purchase up to an aggregate of 400,000 shares of common stock. The debentures are convertible at any time into shares of our common stock at an initial fixed conversion price of \$10.00 per share, subject to adjustments for certain dilutive events. The debentures are due March 13, 2009. The warrants are exercisable for a period of five years at an exercise price of \$12.20 per share. At the closing of the private placement, we prepaid the first year's interest on debentures equal to 5% of the aggregate principal amount of debentures. We will pay interest in cash or shares, provided that certain conditions are met, at the rate of 6% for the second year the debentures are outstanding and then 7% for the third. Beginning January 1, 2007, we are obligated to redeem up to \$320,000 every month, plus accrued, but unpaid interest, liquidated damages and penalties. We also have the option to prepay the debentures at any time, provided that certain conditions have been met, after the 12 month anniversary of the effective date of the registration statement that has been filed with the Securities and Exchange Commission with respect to the common stock issuable upon conversion of the debentures, some or all of the outstanding debentures for cash in an amount equal to 120% of the principal amount outstanding, plus accrued, but unpaid interest, liquidated damages and penalties outstanding. At any time after the nine months anniversary of the effective date of the registration statement, we may force the holders to convert up to 50% of the then outstanding principal amount of the debentures, subject to certain trading conditions being met. If any event of default occurs under the debentures or other related documents, the holders may elect to accelerate the payment of the outstanding principal amount of the debenture, plus accrued, but unpaid interest, liquidated damages and penalties, which shall become immediately due and payable.

Under the terms of a registration rights agreement entered into at the time of the private placement, the Company was obligated to file a registration statement with respect to the shares issuable under the debenture and the warrants by April 30, 2006, and have the registration statement declared effective by the SEC no later than June 28, 2006. Due to various factors, the Company did not file the registration statement until May 15, 2006, and it was not declared effective until December 8, 2006. Therefore, under the terms of the registration rights agreement, the Company was obligated to pay liquidated damages to the investors at the rate of 2% of the principal amount of the debenture each month beginning on June 28, 2006 until the effectiveness of the registration statement, which was equal to \$1,120,000, in the aggregate.

In February 2007, upon reaching an agreement on the amount and payment of accrued liquidated damages, the Company signed a Settlement and Release Agreement with each of the investors. Under the terms of the Settlement and Release Agreements, the Company paid an aggregate \$140,000 in cash as satisfaction in full of liquidated damages owed to Basso Fund Ltd., Basso Multi-Strategy Holding Fund Ltd., and Basso Private Opportunities Holding Fund Ltd. Partial liquidated damages owed to Whalehaven Capital Fund Ltd. were paid in the amount of \$35,000 in cash, with the remaining liquidated damages in the amount of \$105,000 paid in the form of a new convertible debenture due February 2009, on substantially the same terms as the original debentures, except that interest only is paid on the new debentures until October 2008 and beginning in November 2008 until February 2009, when the new debentures are due, the monthly redemption amount under the new debentures shall be equal to \$315,000. The remaining investors also agreed to accept the aggregate \$840,000 in liquidated damages owed to them in the form of the new convertible debentures for the amount of their respective portion of the liquidated damages. The Company also agreed to amend the original debentures to shorten the term for payment of the original principal amount to a 22 month term. As a result the monthly redemption amount for the original debenture increased from \$320,000 to \$363,638. All other terms and conditions of the original debenture remain in full force and effect.

C.E. Unterberg, Towbin L.L.C. acted as placement agent and received a negotiated cash fee in the amount of \$449,500 and a warrant to purchase up to 16,000 shares at an exercise price of \$12.20 per share, which expire five years from the date of issuance. The fair value of these warrants totaled \$28,141. Such amount was charged to other assets, net, and credited to additional paid-in capital and will be amortized over the life of the debentures. Maxim Group also acted as Placement Agent and received a cash fee in the amount of \$50,000.

In connection with the issuance of the debentures, the Company incurred \$1,106,135 of issuance costs, which primarily consisted of investment banker fees, legal and other professional fees. These costs have been recorded as additional expense during year 2006.

CHANGE IN ACCOUNTING PRINCIPLE: On January 1, 2007, the Company adopted FSP EITF 00-19-2 and reclassified warranty liability to equity thru cumulative – effect adjustment to the opening balance of retained earnings/loss by \$213,000.

The FSP states that for registration payment arrangements and financial instruments subject to those arrangements that were entered into prior to the issuance of the FSP and that continue to be outstanding at the beginning of the period of adoption, transition shall be achieved by reporting a change in accounting principle through a cumulative effect adjustment to the opening balance of retained earnings, or other appropriate component of equity or net assets in the statement of financial position, in the first interim period of the fiscal year in which this FSP is initially applied. No prior period information is retrospectively adjusted following the transition provisions of FSP.

EVENT OF DEFAULT

On March 16, 2007 our predecessor auditor withdrew their opinion on our previously filed financial statements for the years ended December 31, 2005, December 31, 2004 and December 31, 2003. As a result, on March 27, 2007, we notified the holders of the outstanding convertible debenture that we suspended use of the prospectus contained in our Registration Statement on Form S-1 (File No. 333-134127) that was declared effective on December 8, 2006, due to the lack of fiscal year end 2005 and 2004 audited financial statements and that they must cease selling under the prospectus. The suspension of the use of the prospectus after April 17, 2007, triggered an event of default under the registration rights agreement and the convertible debentures, and if any of the holders so elect, they could accelerate and demand payment under the debentures, in accordance with the registration rights agreement based on the following provisions.

a) "If, during the Effectiveness Period, either the effectiveness of the Registration Statement lapses for any reason or the Holder shall not be permitted to resell Registrable Securities under the Registration Statement for a period of more than 20 consecutive Trading Days or 60 non-consecutive Trading Days during any 12 month period, the Company has to pay 'Mandatory Default Amount' as the sum of (i) the greater of (A) 130% of the outstanding principal amount of this Debenture, plus all accrued and unpaid interest hereon, or (B) the outstanding principal amount of this Debenture, plus all accrued and unpaid interest hereon, divided by the Conversion Price on the date the Mandatory Default Amount is either (a) demanded (if demand or notice is required to create an Event of Default) or otherwise due or (b) paid in full, whichever has a lower Conversion Price, multiplied by the VWAP on the date the Mandatory Default Amount is either (x) demanded or otherwise due or (y) paid in full, whichever has a higher VWAP, and (ii) all other amounts, costs, expenses and liquidated damages due in respect of this Debenture."

b) "If any Event of Default occurs, the outstanding principal amount of this Debenture plus accrued but unpaid interest, liquidated damages and other amounts owing in respect thereof through the date of acceleration, shall become, at the Holder's selection, immediately due and payable in cash at the Mandatory Default Amount. Commencing 5 days after the occurrence of any Event of Default that results in the eventual acceleration of this Debenture, the interest rate on this Debenture shall accrue at an interest rate equal to the lesser of 18% per annum or the maximum rate permitted under applicable law."

Due to the provisions mentioned above and as per the terms of the Debenture, the Company has reclassified the principal amount of the Debenture of \$8,000,000 (remaining balance: \$4,864,000) and the principal amount of the new Debenture of \$945,000 and the interest accrued thereon to current liabilities.

The Company accrued 2% as liquidated damages and 30% as mandatory default amount from the date of ineffectiveness of registration statement as follows:

	March 31, 2008		
(\$,000)	(Unaudited)		
Liquidated damages	2%	\$	450
Mandatory default	30%		2,247
Total		\$	2,697

Such amounts have been recorded as liquidated damages liability as of March 31, 2008.

Following is the summary of convertible debenture as of March 31, 2008:

(\$,000)	\$8 million convertible debenture		\$945,000 convertible debenture		Total (Unaudited)	
Balance December 31, 2007	\$	4,864	\$	945	\$	5,809
Principal payment:						
Redemption through shares						N/A
Cash payment						N/A
Accrued interest		88				88
Balance March 31, 2008	\$	4,952	\$	945	\$	5,897

8.2 Five Million Convertible Note

On February 7, 2007, PacificNet Games Limited (PactGame), a 51% owned subsidiary of the Company, entered into a definitive \$5 million convertible secured note financing agreement with Pope Asset Management, LLC (Pope), an institutional investor. Proceeds of the financing are to provide PactGame with additional working capital to expand its gaming technology operations, to make further synergistic acquisitions in China and for general corporate purposes.

The \$5 million convertible secured note issued to Pope matures on February 6, 2010. Subject to reaching certain net income milestones during fiscal year 2007, the note is convertible into an equity interest of PacGames ranging between 26% and 32%. The interest rate of the convertible note has initially been set at 8%, and shall increase to 15% if the note is not converted prior to maturity. The Company's accrued interest amounted to \$461,000 for the three months ended March 31, 2008.

In connection with the issuance of the note, PactGame incurred financing cost of \$369,000 which primarily consisted of investment banker fees, legal and other professional fees. These costs have been capitalized and will be amortized over three years, the life of the note. The Company amortized issuance costs of \$31,000 during the first quarter of FY 2008 (FY2007: \$94,000), and the unamortized financing cost related the \$5 million convertible secured note was \$244,000.

Following is the summary of convertible debenture:

(\$,000)	Mar	ch 31, 2008
	J)	Inaudited)
Balance December 31,2007	\$	5,224
Accrued interest		461
Unamortized financing cost		(244)
Balance March 31,2008	\$	5,441

9. SEGMENT INFORMATION

SFAS No. 131 "DISCLOSURES ABOUT SEGMENTS OF AN ENTERPRISE AND RELATED INFORMATION.", establishes standards for reporting information about operating segments and for related disclosures about products, services and geographic areas. Operating segments are identified as components of an enterprise about which separate discrete financial information is available for evaluation by the chief operating decision-maker, or decision-making group, in making decisions regarding allocation of resources and assessing performance. PacificNet's chief decision-makers, as defined under SFAS 131, are the Chief Executive Officer and Chairman. During 2008 and 2007, PacificNet had four operating segments.

The Company's reportable segments are operating units, which represent the operations of the Company's significant business operations. Summarized financial information concerning the Company's reportable segments is shown in the following table. The "Other" column includes the Company's other insignificant services and corporate related items, and, as it relates to segment profit (loss), income and expense not allocated to reportable segments.

The Company identifies and classifies its operating segments based on reporting entities that exhibit similar long-term financial performance based on the nature of the products and services with similar economic characteristics such as margins, business practices and target market. The operating segments are classified into four major segments which are summarized as follows:

- (1) Outsourcing Services involves human voice services such as Business Process Outsourcing, CRM, call center, IT Outsourcing and software development services. These types of services are conducted through our subsidiaries Smartime/Soluteck.
- (2) Telecom Value-Added Services (VAS) Our subsidiary, Guangzhou Wanrong Information Technology Co., Ltd. ("Guangzhou Wanrong"), is one of the leading value-added telecom service providers in China. 10. RELATED PARTY TRANSACTIONS

LOAN DUE TO AND FROM RELATED PARTIES

As of March 31, 2008, there was a total loan receivable of approximately \$2,352,000 while the loan due to related party was zero.

As at the year ended December 31, 2007, there was a total loan receivable of approximately \$2,273,000 due from related parties while the loan due to related party was zero.

As of March 31, 2008 the related party loans receivable included \$653,000 due from PACT Power, \$720,000 due from MOABC, \$649,000 due from PACT Linkhead, \$1,000 due from PACT Clickcom, \$150,000 due from PACT Solution, and \$179,000 due from shareholders and directors of certain of the Company's subsidiaries in connection with the acquisition of these subsidiaries. The loans receivable from shareholders and directors of these subsidiaries are comprised of \$115,000 due from a shareholder of Victor Choi and \$64,000 due from a director of Soluteck.

As of December 31, 2007 the related party loans receivable included \$781,000 due from PACT Power, \$523,000 due from MOABC, \$625,000 due from PACT Linkhead, \$15,000 due form PACT AD, \$150,000 due from PACT Solution, and \$179,000 due from shareholders and directors of certain of the Company's subsidiaries in connection with the acquisition of these subsidiaries. The loans receivable from shareholders and directors of these subsidiaries are comprised of \$115,000 due from a shareholder of Victor Choi and \$64,000 due from a director of Soluteck.

The terms of these related parties loan receivables and payables are summarized below:

LOAN TO POWER

PactPower is an affiliated company, 15% owned by PacificNet, as of March 31, 2008. A convertible loan of \$653,000 is outstanding from PactPower. The maturity date of loan was September 9, 2007. Within ninety (90) days overdue, an additional interest charge of 5% per annum will be levied as a penalty. The loan is received approximately \$128,000 on January 2008

LOAN TO MOABC

MOABC is an affiliated company and is 15% owned by PacificNet as of March 31, 2008. A convertible loan of \$720,000 is outstanding from MOABC as of March 31, 2008. The maturity date of loan is January 1, 2009. The loan is received approximately \$78,000 on January 2008.

LOAN TO LINKHEAD

Linkhead is an affiliated company, 15% owned by PacificNet, as of March 31, 2008. A convertible loan of \$649,000 is outstanding from Linkhead. The maturity date of loan is January 1, 2008.

LOAN TO CLICKCOM

Clickcom is an affiliated company, 15% owned by PacificNet as of March 31, 2008. A convertible loan of \$1,000 is outstanding from Clickcom as at March 31, 2008.

LOAN TO PACIFICNET SOLUTION LIMITED (PacSo-HK)

PacSo-HK is an affiliated company, 15% owned by PacificNet, as of March 31, 2008. A convertible loan of \$150,000 is outstanding from PactSo-HK. The maturity date of loan was January 6 2007. The loan is currently due on demand, non-interest bearing and unsecured.

LOAN TO VICTOR CHOI SHAREHOLDER

As of March 31, 2008, there was a loan outstanding of \$115,000 receivable from the shareholder of Victor Choi. This loan is secured by 30,000 PacificNet shares. The maturity date of loan was August 31, 2007. The loan is currently due on demand and non-interest bearing.

LOAN TO SOLUTECK'S DIRECTOR

As of March 31, 2008, there was a loan outstanding of \$64,000 receivable from a director of Soluteck, due on January 17 for three consecutive years ending 2008. The interest rate for the loan is 8% per annum plus 5% penalty interest in case it has not been timely paid. The loan is collateralized with 100,000 PacificNet's shares owned by the borrowing director and Ms Iris Lo, and the remaining assets of Smartime Holding Ltd.

LOAN PAYABLE TO RELATED PARTY

As of March 31, 2008, and December 31, 2007, there was no outstanding loan payable to related parties.

11. COMMITMENTS AND CONTINGENCIES

OPERATING LEASES - The Company leases warehouse and office space under operating leases with fixed monthly rentals. None of the leases included contingent rentals. Operating lease expense charged to operations for 2008 Q1 amounted to \$118,000 (2007 Q1: \$152,000). Future minimum lease payments under non-cancelable operating leases are \$196 for the period from April 2008 to March 2009 and \$91 for the period from April 2009 to March 2012.

BANK LINE OF CREDIT - As of March 31, 2008, Bank Line Of Credit amounted to \$4,000 for Smartime related to an overdraft banking facility with a Hong Kong banking institution.

12. NET ASSETS HELD FOR DISPOSITION

Sale of Interest in Guangzhou 3G Information Technology Co., Ltd. ("Guangzhou 3G")

On April 30, 2007, through our wholly-owned subsidiary, PacificNet Strategic Investment Holdings Limited ("PSI Holdings"), we entered into a stock purchase and sale agreement with Heyspace International Limited to sell PSI Holdings' 51% interest in Guangzhou 3G's parent company, Pacific 3G Information & Technology Co. Limited. The purchase price is \$6,000,000 payable in installments over a six month period or earlier if Heyspace completes its initial public offering prior to October 31, 2007. Heyspace paid an initial purchase price of \$1,000,000 and the remaining balance to be paid by October 2007. Due to non payment of the remaining balance by Heyspace as per the agreement, the Company on November 25, 2007 entered into a memorandum of understanding ("MOU") with Heyspace. Pursuant to the MOU, we agreed with Heyspace that for a period commencing on November 25, 2007 through March 31, 2008, we are free to seek new buyers to purchase PSI Holdings' share ownership in Guangzhou 3G at a consideration and term which at a minimum will not cause any disposal loss to us.

PacificNet and Heyspace entered into a Supplement Agreement for 3G's deal on 20th March, 2008. According to this supplement agreement, PacificNet will apply \$500,000 received as of December 31, 2007 against the 5% ownership interest and the remaining \$500,000 will be served as a collateral along with the transfer of the share certificates of 46% shares to PacificNet from Heyspace. If Heyspace fails to pay the remaining USD\$5,000,000 on or before 31 March, 2009, PacificNet has right to reclaim for the unpaid 46% shares of Pacific 3G Information & Technology Co., Limited, and demand for an annual interest rate of 12%.

Sale of Interest in PacificNet Epro Holdings Limited ("Epro")

On April 18, 2008, PacificNet, consummated the sale of the Company's subsidiary, PacificNet Epro Holdings Limited, a company incorporated in the Hong Kong Special Administrative Region of the PRC ("Epro"), which is primarily engaged in the business of providing call center telecom and customer relationship management services as well as other business outsourcing services in China. Pursuant to the terms of the Sales and Purchase Agreement (the "Agreement") entered into between the Company and Epro Group International Limited (the "Epro Group International"), PacificNet sold its entire share ownership of 7,766,993 shares in Epro for HK\$21 million. Upon execution of the Agreement, the Company received a payment of HK\$3 million. PacificNet shall receive the remaining purchase price in installments over the next twenty-four months. Pursuant to the terms of the Agreement, within sixty days of the closing, Epro shall repay PacificNet HK\$2 million for an interest bearing loan granted from PacificNet to Epro. As at March 31, 2008, PacificNet Epro Holdings is classified under 'Net Assets Held for Disposal' in the accompanying financial statements.

Information relating to the operations of the subsidiaries up to the three month periods of March 31, 2008 is as follows (in thousands of US Dollars):

(In US\$ thousands)	ch 31, 2008 (naudited)	Ι	December 31, 2007 (Audited)

14. LEGAL PROCEEDINGS

1. Johnson Controls Hong Kong Limited (JCHKL) vs. PacificNet Power Limited

On January 19, 2007, Johnson Controls Hong Kong Limited filed a civil claim against PacificNet Power Limited (a 15% owned subsidiary of PacificNet) in the High Court of the Hong Kong Special Administrative Region seeking HK\$4,800,000 as payment for services rendered to replace 3 sets of rain water-cooled chillers, together with energy saving performance (the "Chiller System"), at the Fortress Tower in Hong Kong.

In connection with the claim, PacificNet Power reviewed a letter from its client, China Weal Property Management Ltd., dated January 22, 2007 stating that the construction work by JCHKL had not been completed as of the date of the letter, and that certain violations itemized in a letter issued by the Hong Kong Environment Protection Department (EPD) (Noise Abatement Notice No. N806030) addressed to JCHKL with respect to acoustic problems with JCHKL's equipment had not been abated.

The board of directors of PacificNet Power Limited has reviewed the case with its client, China Weal Property Management Ltd., and our Hong Kong legal counsel and it is the belief of the board that the project work undertaken JCHKL is defective in numerous aspects. As a result, the board believes that the construction work has not been completed by JCHKL, and therefore, JCHKL is not entitled to payment for its services.

On February 13, 2007, the board instructed the Hong Kong legal counsel to issue a Defense and Counterclaim to JCHKL to counter-claim that (i) JCHKL's construction work has not complied with the applicable rules and regulations of various government authorities in Hong Kong; (ii) the Chiller System provided by JCHKL was defective and merchantable unfit and JCHKL has failed and/or refused to rectify such defective works; and (iii) JCHKL shall return the work deposit in the amount of HK\$1,500,000 to PacificNet Power Limited and shall compensate and keep PacificNet Power Limited indemnified against all the loss and damages suffered as a result of any claims from the China Weal Property Management Ltd..

The case is now in the discovery stage before proceeding to the stage of fixing a date for trial in the High Court of Hong Kong and the board intends to vigorously defend against the allegations. We are unable to predict the outcome of these actions, or a reasonable estimate of the range of possible loss, if any.

2. PacificNet Power Limited vs Johnson Controls Hong Kong Limited (JCHKL)

On or about December 2005, Johnson Controls Hong Kong Limited approached PacificNet Power Limited (a 51% owned subsidiary of PacificNet) and made a representation that they had submitted a tender to "The Incorpated Owners of Nan Fung Centre, Tsuen Wan ("the Employer") for the "construction and replacement works of existing air-cooled chiller plant by new water-cooled chiller plant for Tsuen Wan Nan Fung Centre and energy saving performance contract" ("the Contract"). JCHKL invited and induced PacificNet Power Limited to act as the main contractor for the Contract and it would then act as a sub-contractor.

PacificNet Power also expressly made known to JCHKL that the said construction and replacement works and the guaranteed energy saving should meet all the tender requirements if PacificNet Power accepted the invitation to act as the main contractor for the Contract, and PacificNet Power further said that if there should be any quality defects with the system and/ or the construction work, the Employer and/ or their prospective tenants would claim against JCHKL and JCHKL should compensate.

PacificNet Power however received some correspondences and complaints from the Employer about the poor and/ or sub-standard works done by JCHKL. PacificNet Power, after separate investigation, discovered the poor workmanship and sub-standard works done by JCHKL. Accordingly, the Employer and/ or their representatives have delayed the monthly installments payment to PacificNet Power.

On April 23, 2007, PacificNet Power instructed the Hong Kong lawyers to issue a letter to the Defendant requesting and demanding them, being the sub-contractor of the Construction and Replacement Works Contract, to take immediate rectification action within seven days from the date of the said letter to (i) rectify and complete all outstanding defective works of the Construction and Replacement Works Contract; (ii) replace the water-cooled chiller plant and/or equipments which are not conformed with the requirements of the tender documents previously submitted by the Defendant to the Employer; and (iii) improve the poor performance of energy saving of the new water-cooled chiller plant.

Despite the said letter, JCHKL had failed and/ or refused to rectify and complete all outstanding works and/ or replace the defective system. And therefore PacificNet Power claims against JCHKL for: (i) refund HK\$6,414,300.00, being the Contract Price paid by PacificNet Power to JCHKL; (ii) costs and expenses incurred by PacificNet Power to rectify all defective works of the Contract; (iii) all damage and loss suffered by PacificNet Power, and further and other relief.

On July 25, 2007, JCHKL issued a Defense and Counterclaim to PacificNet Power to argue that: (i) they had carried out the works according to the Contract terms; (ii) the works had been approved by PKL Consultants Limited, the consultant representative of the Employer; and (iii) a sum of HK\$30,000 is still due and owing by PacificNet Power to JCHKL.

The case is now in the discovery stage before proceeding to the stage of fixing a date for trial in the High Court of Hong Kong. We are unable to predict the outcome of these actions, or a reasonable estimate of the range of possible loss, if any.

3. PacificNet Inc. vs. HLB Hodgson Impey Cheng (HLB or Defendant), a firm of Chartered Accountants and Certified Public Accountants in Hong Kong

On September 20, 2007, PacificNet Inc. filed a claim against its former auditors HLB Hodgson Impey Cheng (HLB), a firm of Chartered Accountants and Certified Public Accountants, in the High Court of the Hong Kong Special Administrative Region seeking refund of the professional fees, compensation of professional fees and expenses for Company to engage and deploy new auditors to take over the incomplete audit works from the Defendant and returning and/or providing all relevant accounting records, vouchers, audit program and working papers retained by the Defendant and losses and damages incurred.

The case is now in the pleadings stage. We are unable to predict the outcome of these actions, or a reasonable estimate of the range of possible loss, if any.

4. Iroquois Master Fund, Ltd. vs. Pacificnet Inc.

On or about October 3, 2007 Iroquois Master Fund, Ltd. filed a complaint in the Supreme Court of the State of New York against PacificNet Inc., claiming that the Company is in default under the Amended and Restated Convertible Debenture due March 2009 (the Amended Debenture") in the principal amount of \$3,000,000 and the Convertible Debenture due February 2009 (the New Debenture") in the principal amount of \$420,000.

Iroquois Master Fund, Ltd. is seeking damages of \$3,253,163.80 in the aggregate, together with any accrued but unpaid interest through the date of judgment. Iroquois Master Fund, Ltd. has also demanded reimbursement of its attorney fees and other costs and expenses incurred together with costs and disbursements of this action.

On or about December 5, 2007, PacificNet filed its answer denies that PacificNet is in default and assert an agreement that would enable it to bring the interest payments up to date by the issuance of stock in the near future.

On March 27, 2008, three holders of PACT's Convertible Subordinated Debentures filed an involuntary petition for Chapter 11 relief in federal bankruptcy court late Saturday, March 22, 2008 in Wilmington, DE. The Company has retained counsel to oppose the filing because the petition fails to meet the standard for invoking an involuntary bankruptcy and fails to take into consideration other agreements between the Company and the petitioning creditors. The Company intends to vigorously oppose the petition and move for dismissal of the filing, and if successful will seek damages and attorney fees. Subsequently, PACT also received default notice from all but one of the debenture holderS including Iroquois Master Fund Ltd., Alpha Capital AG, Whalehaven Capital Fund Limited, DKR Soundshore Oasis Holding Fund Ltd., Basso Fund Ltd., Basso Multi-Strategy Holding Fund Ltd., and Basso Private Opportunities Holding Fund Ltd. from the same Convertible Subordinated Debentures related to the private offering of \$8,000,000 principal amount variable debentures consummated on March 13, 2006, and due March 2009.

PACT has retained counsel to oppose the above petition. The amount of the debt in question is as follows: Iroquois Master Fund Ltd. \$2.5 million, Whalehaven Capital Fund Limited \$958,000, Alpha Capital AG \$685,000 DKR Soundshore Oasis Holding Fund Ltd \$960,000, and Basso Fund Ltd., Basso Multi- Strategy Holding Fund Ltd., and Basso Private Opportunities Holding Fund Ltd., a combined amount of \$500,000.

15. CURRENT VULNERABILITY DUE TO CERTAIN CONCENTRATIONS

The Company's operations are carried out in the PRC. Accordingly, the Company's business, financial condition and results of operations may be influenced by the political, economic and legal environments in the PRC, by the general state of the PRC's economy. The Company's business may be influenced by changes in governmental policies with respect to laws and regulations, anti-inflationary measures, currency conversion and remittance abroad, and rates and methods of taxation, among other things.

16. SUBSEQUENT EVENTS

1) STATUS OF ACQUISITION OF OCTAVIAN INTERNATIONAL LIMITED ("OCTAVIAN")

On January 22 2008, PacificNet Inc. (NASDAQ:PACT) (the "Company" or "PacificNet"), announced the acquisition of Octavian International Limited ("Octavian"), a worldwide supplier of gaming technology, solutions and systems. The Company had previously reported on a Form 8-K filed with the Securities and Exchange Commission on December 13, 2007, the execution of definitive agreements, including that certain Agreement among, PacificNet Games International Corporation, Octavian, Emperor Holdings Limited, Ziria Enterprises Limited and the Company on December 7, 2007, for the acquisition of 100% of Octavian (the "Agreement"). PacificNet, through its wholly-owned subsidiary, Pacificnet Games International Corporation, signed an agreement to acquire from Ziria Enterprises Limited, a company incorporated in Cyprus (the "Seller"), 100% of the issued and outstanding shares (the "Shares") of Emperor Holdings Limited, a company incorporated in Cyprus (the "Holding Company"), which is the parent company of Octavian.

Up to April 14, 2008, Ziria Enterprises Limited did not deliver to PacificNet the share certificates of Emperor Holdings Limited, the legal owner of Octavian International Limited. As a result of Ziria's failure to deliver the share certificates, which was a condition to closing the acquisition of Octavian, on May 21, 2008, the Company, Ziria, PacificNet Games International Corporation, Octavian and Emperor Holdings Limited terminated the agreement to acquire Octavian. Under the acquisition agreement, if the transaction had been consummated, PacificNet was obligated to issue, in the aggregate, 2,330,000 restricted shares of PACT representing approximately 19.5% of PacificNet's outstanding shares and cash of up to \$18,900,000, which would have been paid upon the completion of certain net profit performance targets.

All parties involved have agreed not to complete the merger but will remain distribution partners of complimentary products in each others respective markets.

As a result of the failure of the Octavian acquisition to be consummated and the termination of the acquisition agreement, on May 21, 2008, Mr. Harmen Brenninkmeijer, Chief Executive Officer of Octavian, resigned as a member of the Board of Directors of PacificNet. It was a condition to the closing of the acquisition of Octavian that Mr. Brenninkmeijer was appointed to the Board of Directors. There was no disagreement between Mr. Brenninkmeijer and PacificNet on any matter relating to PacificNet's operations, policies or practices.

As at December 31, 2007 the 2,330,000 shares were issued and recorded as deposit total amounted to approx. \$10,974,000. These shares were received from Octavian as at March 31, 2008 and included under treasury stock.

2) SALE OF INTEREST IN EPRO. ("EPRO")

On April 18, 2008, PacificNet, consummated the sale of the Company's subsidiary, PacificNet Epro Holdings Limited, a company incorporated in the Hong Kong Special Administrative Region of the PRC ("Epro"), which is primarily engaged in the business of providing call center telecom and customer relationship management services as well as other business outsourcing services in China. Pursuant to the terms of the Sales and Purchase Agreement (the "Agreement") entered into between the Company and Epro Group International Limited (the "Epro Group International"), PacificNet sold its entire share ownership of 7,766,993 shares in Epro for HK\$21 million.

Upon execution of the Agreement, the Company received a payment of HK\$3 million. PacificNet shall receive the remaining purchase price in installments over the next twenty-four months.

Pursuant to the terms of the Agreement, within sixty days of the closing, Epro shall repay PacificNet HK\$2 million for an interest bearing loan granted from PacificNet to Epro.

3) SALE OF GUANGZHOU 3G

PacificNet and Heyspace entered into a Supplement Agreement for 3G's deal on 20th March, 2008. According to this supplement agreement, PacificNet will apply \$500,000 received as of December 31, 2007 against the 5% ownership interest and the remaining \$500,000 will be served as a collateral along with the transfer of the share certificates of 46% shares to PacificNet from Heyspace. If Heyspace fails to pay the remaining USD\$5,000,000 on or before 31 March, 2009, PacificNet has right to reclaim for the unpaid 46% shares of Pacific 3G Information & Technology Co., Limited, and demand for an annual interest rate of 12% (See note 14 for details). As at December 31, 2007, Company has made a provision of \$3.5 million against receivable from Heyspace and the net amount is included under other receivables in the accompanied financial statements as at March 31, 2008.

ITEM 2. MANAGEMENT'S DISCUSSION AND ANALYSIS OR PLAN OF OPERATION

THE FOLLOWING DISCUSSION SHOULD BE READ IN CONJUNCTION WITH THE INFORMATION CONTAINED IN THE FINANCIAL STATEMENTS OF THE COMPANY AND THE NOTES THERETO APPEARING ELSEWHERE HEREIN AND IN CONJUNCTION WITH THE MANAGEMENT'S DISCUSSION AND ANALYSIS SET FORTH IN THE COMPANY'S ANNUAL REPORT ON FORM 10-K FOR THE YEAR ENDED DECEMBER 31, 2007, AS AMENDED.

PRELIMINARY NOTE REGARDING FORWARD-LOOKING STATEMENTS

The statements contained in this Form 10-Q that are not purely historical are forward-looking statements within the meaning of Section 27A of the Securities Act of 1933, as amended, and Section 21E of the Securities Exchange Act of 1934, as amended. These include statements about the Company's expectations, beliefs, intentions or strategies for the future, which are indicated by words or phrases such as "anticipate," "expect," "intend," "plan," "will," "the Company believes," "management believes" and similar words or phrases. The forward-looking statements are based on the Company's current expectations and are subject to certain risks, uncertainties and assumptions, including those set forth in the discussion under "Description of Business," including the "Risk Factors" described in that section, and "Management's Discussion and Analysis or Plan of Operation." The Company's actual results could differ materially from results anticipated in these forward-looking statements. All forward-looking statements included in this document are based on information available to the Company on the date hereof, and the Company assumes no obligation to update any such forward-looking statements.

FACTORS THAT COULD AFFECT FUTURE RESULTS

Factors that might cause actual results, performance or achievements to differ materially from those projected or implied in such forward-looking statements include, among other things:

- The impact of competitive products
- Changes in laws and regulations
- Limitations on future financing
- Increases in the cost of borrowings and unavailability of debt or equity capital
- The inability of the Company to gain and/or hold market share
- Exposure to and expense of resolving and defending litigation
- Consumer acceptance of the Company's products
- Managing and maintaining growth
- Customer demands
- Market and industry conditions
- The success of product development and new product introductions into the marketplace
- The departure of key members of management
- The effect of the United States War on Terrorism, as well as other risks and uncertainties that are described from time to time in the Company's filings with the Securities and Exchange Commission

CRITICAL ACCOUNTING POLICIES AND ESTIMATES

Our discussion and analysis or plan of operations is based upon our consolidated financial statements, which have been prepared in accordance with accounting principles generally accepted in the United States. The preparation of these financial statements requires us to make estimates and judgments that affect the reported amounts of assets, liabilities, revenues and expenses, and related disclosure of contingent assets and liabilities.

On an on-going basis, we evaluate our estimates, including those related to accounts receivable reserves, provisions for impairment losses of affiliated companies and other intangible assets, income taxes and contingencies. We base our estimates on historical experience and on various other assumptions that are believed to be reasonable under the circumstances, the results of which form the basis for making judgments about the carrying values of assets and liabilities that are not readily apparent from other sources. Actual results may differ from these estimates under different assumptions or conditions.

Management believes the following critical accounting policies reflect our more significant estimates and assumptions used in the preparation of our consolidated financial statements:

Allowance for Doubtful Accounts

We evaluate the collect-ability of our trade receivables based on a combination of factors. We regularly analyze our significant customer accounts, and, when we become aware of a specific customer's inability to meet its financial obligations to us, such as in the case of bankruptcy filings or deterioration in the customer's operating results or financial position, we record a specific reserve for bad debt to reduce the related receivable to the amount we reasonably believe is collectible. We also record reserves for bad debt for all other customers based on a variety of factors including the length of time the receivables are past due, the financial health of the customer, macroeconomic considerations and historical experience. If circumstances related to specific customers change, our estimates of the recoverability of receivables could be further adjusted. In the event that our trade receivables become uncollectible, we would be forced to record additional adjustments to receivables to reflect the amounts at net realizable value. The accounting effect of this entry would be a charge to earnings, thereby reducing our net earnings. Although we consider the likelihood of this occurrence to be remote based on past history and the current status of our accounts, there is a possibility of this occurrence.

In the beginning of the third quarter of 2006, the Chinese government announced that it would implement several new policies regarding mobile phone value-added service providers effective from July 10, 2006. These policies include a "double confirmation" policy and the requirement that value-added service providers provide one-month trial subscriptions. By requiring that mobile phone customers "double-confirm" their intention to purchase services, and by requiring free subscriptions, these policies have negatively affected value-added service providers.

Inventory

Our inventory purchases and commitments are made in order to build inventory to meet forecasted demand for our products. We perform a detailed assessment of inventory for each period, which includes a review of, among other factors, demand requirements, product life cycle and development plans, component cost trends, product pricing and quality issues. Based on this analysis, we record adjustments to inventory for excess, obsolescence or impairment, when appropriate, to reflect inventory at net realizable value. Revisions to our inventory adjustments may be required if actual demand, component costs or product life cycles differ from our estimates. In the event we were unable to sell our products, the demand for our products diminished, and/or other competitors offered similar or better products, we would be forced to record an adjustment to inventory for impairment or obsolescence to reflect inventory at net realizable value. The accounting effect of this entry would be a charge to earnings, thereby reducing our net earnings.

Income Taxes

We record a valuation allowance to reduce our deferred tax assets to the amount that is more likely than not to be realized. We have considered future market growth, forecasted earnings, future taxable income, and the mix of earnings in the jurisdictions in which we operate and prudent and feasible tax planning strategies in determining the need for a valuation allowance. We currently have recorded a full valuation allowance against net deferred tax assets as we currently believe it is more likely than not that the deferred tax assets will not be realized. In the event we determine that we would not be able to realize all or part of our net deferred tax assets in the future, an adjustment to the deferred tax assets would be charged to earnings in the period such determination is made. Likewise, if we later determine that it is more likely than not that the net deferred tax assets would be realized, the previously provided valuation allowance would be reversed

Contingencies

We may be subject to certain asserted and unasserted claims encountered in the normal course of business. It is our belief that the resolution of these matters will not have a material adverse effect on our financial position or results of operations, however, we cannot provide assurance that damages that result in a material adverse effect on our financial position or results of operations will not be imposed in these matters. We account for contingent liabilities when it is probable that future expenditures will be made and such expenditures can be reasonably estimated.

Valuation of Long-Lived Assets Including Goodwill and Purchased Intangible Assets

We review property, plant and equipment, goodwill and purchased intangible assets for impairment whenever events or changes in circumstances indicate the carrying value of an asset may not be recoverable. Our asset impairment review assesses the fair value of the assets based on the future cash flows the assets are expected to generate. An impairment loss is recognized when estimated undiscounted future cash flows expected to result from the use of the asset plus net proceeds expected from disposition of the asset (if any) are less than the carrying value of the asset. This approach uses our estimates of future market growth, forecasted revenue and costs, expected periods the assets will be utilized and appropriate discount rates. Such evaluations of impairment of long-lived assets including goodwill arising on a business combination and purchased intangible assets are an integral part of, but not limited to, our strategic reviews of our business and operations performed in conjunction with restructuring actions. When impairment is identified, the carrying amount of the asset is reduced to its estimated fair value. Deterioration of our business in a geographic region or within a business segment in the future could also lead to impairment adjustments as such issues are identified. The accounting effect of an impairment loss would be a charge to earnings, thereby reducing our net earnings.

Convertible debt

In accordance with recent FASB accounting guidance, due to certain factors, including a liquidated damages provision in the registration rights agreement and an indeterminate amount of shares to be issued upon conversion of the debentures, the Company values and accounts for the embedded conversion feature related to the Debentures, the Investors' warrants, and the registration rights as derivative liabilities. Accordingly, these derivative liabilities are measured at fair value with changes in fair value reported in earnings as long as they remain classified as liabilities. The Company reassesses the classification at each balance sheet date. If the classification required under EITF No. 00-19 changes as a result of events during the period, the contract should be reclassified as of the date of the event that caused the reclassification.

The fair value of these derivative instruments, as determined by applying the Black-Scholes valuation model, is adjusted quarterly. The Black-Scholes valuation model requires the input of highly subjective assumptions, including the expected stock price volatility. Additionally, although the Black-Scholes model meets the requirements of SFAS 133, the fair values generated by the model may not be indicative of the actual fair values as our derivative instruments have characteristics significantly different from traded options. Accordingly, the results obtained could be significantly different if other assumptions were used. The effect of this entry would be a charge to net earnings, thereby either increasing or reducing our net earnings based upon the assumptions used and the results obtained.

NATURE OF THE OPERATIONS OF THE COMPANY

NATURE OF BUSINESS

PacificNet Inc. (referred to herein as "PacificNet" or the "Company") was originally incorporated in the State of Delaware on April 8, 1987. PacificNet (PACT) is a leading provider of gaming and mobile game technology worldwide with a focus on emerging markets in Asia. PacificNet's gaming products are localized to their specific markets creating an enhanced user experience for players and larger profits for operators. PacificNet's gaming clients include the leading hotels, casinos, and gaming operators in Macau, Europe and elsewhere around the world. PacificNet also maintains legacy subsidiaries in the call center and ecommerce business in China. PacificNet employs about 500 staff in its various subsidiaries with offices in the US, Hong Kong, Macau, China. Through our subsidiaries we provide outsourcing services, value-added telecom services (VAS) and products (telecom and gaming) services. Our business process outsourcing (BPO) services include call centers, providing customer relationship management (CRM), and telemarketing services, and our information technology outsourcing (ITO) includes software programming and development. Our products (telecom and gaming) include gaming technology and communication products distribution. The Company's operations are primarily targeted in Greater China and certain Asian country markets.

PacificNet's Gaming Products:

We offer the following gaming technology products for sale:

Electronic gaming machines (EGM). Our line of electronic gaming machines combine localized Chinese and Asian themes and content, advanced graphics, digital sound effects and music, and secondary bonus games.

- Multi-player Electronic Table Games, ,eTable Series of Multiplayer Gaming Machines
- Multi-player Electronic Baccarat Machines
- Multi-player Electronic Sicbo Machines
- Multi-player Electronic Roulette Machines
- Multi-player Electronic Fish-Prawn-Crab Machines
- Slot Machines
- Electronic Bingo Machines
- Video Lottery Terminals (VLTs)
- Server-Based Gaming Machines (SBG)
- Amusement With Prices (AWP) Machines
- Online Gaming Software Development
- Client-Server Gaming Systems
- CMM Level 3 Certified Gaming Software Development Center in China
- Cabinet Design and Sales, Parts Sales, OEM Games. We design and sell gaming machine cabinets, replacement parts.

PacificNet's Major Operating Subsidiaries

PacificNet Games Limited ("PactGame", www.PactGame.com) is a leading provider of Asian multi-player electronic gaming machines, gaming technology solutions, gaming related maintenance, IT and distribution services for the leading hotel, casino and slot hall operators based in Macau, China and other Asian gaming markets.

Take1 Technologies (http://www.take1technologies.com), is in the business of designing and manufacturing electronic multimedia entertainment kiosks, coin-op kiosks and machines, Electronic Gaming Machines (EGM), bingo and slot machines, Amusements With Prizes(AWP) games, server-based downloadable games systems, and Video Lottery Terminals (VLT) such as Keno and Bingo machines, including hardware, software, client-server systems and cabinets. Take1 is a leading designer, developer and manufacturer of multimedia entertainment and communication kiosk products including photo and video entertainment kiosks, digital camera photo development stations, Multimedia Messaging Services (MMS) and mobile content download stations for mobile phones, and other coin-operated peripherals and consumables. Take1 Technologies is based in Hong Kong and markets and distributes its products around the world including the USA, Canada, Mexico, Europe, China, and Southeast Asia.

PacificNet Communications Limited (referred to herein as "PactCom"), incorporated in Hong Kong, is a wholly owned subsidiary of PacificNet that specializes in the sales and distribution of mobile communication products, accessories, phone cards and mobile SIM cards, and telecom related services in Hong Kong and Greater China.

PacificNet iMobile (Beijing) Technology Co., Ltd ("iMobile") is the leading internet e-commerce distributor of mobile products in China. It provides Internet, email, customer service centers, pre and post-sale services, logistics and Cash On Delivery (COD) services to mobile consumers in China. iMobile's 18900.com e-commerce operations combine online internet services with its offline customer services network comprised of a nationwide chain of logistics and customer service centers covering 21 provinces and 40 major cities in China including Beijing, Shanghai, Chongqing, Tianjin, Chengdu, Dalian, Qingdao, Guangzhou, Shenzhen, Zhuhai, Dongguan, Hangzhou, Suzhou, Ningbo, Wenzhou, Nanjing, Wuhan, Xian, Harbin, Qiqihaer, Hunan and Changsha. iMobile has developed into the largest online mobile phone sales company in China and has partnered with Sina, Netease, China.com, joyo.com, and 263.net on e-commerce cooperation. iMobile's 18900.com operation is the designated Internet distributor for Motorola, Nokia, and NEC's mobile products in China.

PACT Gaming Technology

- 1. Participation games: Company-owned gaming machines that we lease to casino operators based upon any of the following payment methods: (1) a percentage of the net win of the gaming machines, (2) fixed daily fees, or (3) in the case of wide-area progressive gaming machines, a percentage of the amount wagered or a combination of a fixed daily fee and a percentage of the amount wagered.
- 2. Wide Area Game Network, Community Gaming: Electronically linked gaming machines that are located across multiple casinos within a gaming jurisdiction contribute to and compete for large, system-wide progressive jackpots. They are designed to increase gaming machine play for participating casinos by giving the players the opportunity to win a larger jackpot than on a stand-alone gaming machine.

- 3. Local Area Progressive Jackpots (LAP) participation games: Electronically linked gaming machines that are located within a single casino to a progressive jackpot for that specific casino.
- 4. Lottery Products, Video Lottery Terminals, Mobile Lottery Terminals, Online Paperless Lottery Sales Systems: Video gaming machines featured with localized Chinese and Asian themes and contents, advanced graphics, digital sound effects and music and incorporate many of the same features as our other gaming machines.
- 5. Server-based Gaming: A gaming system in which game content and peripherals are configured, maintained and refreshed over a network that links groups of gaming machines to a remote server that also enables custom configuration by operators and central determination of game outcomes.

Gaming Market Overview on Macau, China

According to Macau government statistics, casinos in Macau raked in more than US\$10.3 billion (euro7.11 billion) in gaming revenue in 2007, an increase of 46 percent over the previous year as Las Vegas operators rushed to open luxury resorts targeting China's newly wealthy. Macau, the only place in China where casino gambling is legal, overtook the Las Vegas Strip as the world's top gambling center in 2006. During 2006, the 24 casinos in Macau rang up US\$6.95 billion in gaming revenue, while the Strip made US\$6.69 billion, regulators in the cities said. Macau, a former Portuguese territory and now a special administration region of China, added four new casinos in 2006 and is now rivaling the entire U.S. state of Nevada in gaming revenue, according to figures posted on the Web site of Macau's Gaming Inspection and Coordination Bureau. Nevada reported gaming revenues of US\$12.7 billion (euro8.77 billion) for the year to Nov. 30, 2007, according to the state's Gaming Control Board. Openings in Macau last year included the massive US\$2.4 billion (euro1.66 billion) Venetian Macao resort, operated by billionaire Sheldon Adelson's Las Vegas Sands Corp., and the MGM Grand, a joint venture between MGM Mirage and Pansy Ho, a daughter of Dr. Stanley Ho who is the major owner of SJM, the leading casino group in Macau.

In 2008, PacificNet and its gaming subsidiaries will focus on emerging gaming markets worldwide including Asia, South America and Europe. Specific markets will include the UK, Russia, Ukraine, Italy, Germany, Argentina, Colombia, India, Australia, Cambodia, the Philippines and most notably, Macau, China. PacificNet has chosen to focus on emerging markets due to their projected growth and low barrier to entry. PacificNet Games (www.PactGame.com), a subsidiary PacificNet, is a leading supplier of electronic gaming machines in Macau. PactGame's multi-player gaming machines are widely accepted in some of the most popular casinos in Macau, including SJM, as well as in the Philippines.

RESULTS OF OPERATIONS

REVENUES

Revenues for the three months ended March 31, 2008 amounted to \$4,425,000, a quarter-over-quarter decline of 25% as compared to \$5,846 for the same quarter of the prior year. The quarter-over-quarter decrease in revenues was mainly due to the disposal of major legacy CRM and call center unit. Segmented financial information of the three business operating groups is set out below followed by a brief discussion of each business group.

THREE AND NINE MONTHS ENDED MARCH 31, 2008 COMPARED TO THREE MONTHS ENDED MARCH 31, 2007

For The Three Months Ended March 31, 2008	Group 1 Outsourcing	Group 2. Telecom Value-Added	`	Other	Total
(In thousands of US	Services	Services	Gaming)	Business	
Dollars)	(\$)	(\$)	(\$)	(\$)	(\$)
Revenues	67	0 268	3,433	54	4,425
Earnings / (Loss) from Operations	(233	(6)	(811)	(532)	(1,582)
	C 1	C 2	C 2	C 4	
For The Three	Group 1	Group 2. Telecom	Group 3 Products	Group 4	
For The Three Months Ended March 31, 2007	Outsourcing Services		Products	Other Business	Total
Months Ended March 31, 2007 (In thousands of US	Outsourcing Services	Telecom Value-Added Services	Products (Telecom & Gaming)	Other Business	Total (\$)
Months Ended March 31, 2007	Outsourcing	Telecom Value-Added Services	Products (Telecom &	Other	

(1) Outsourcing Services:

The quarter-over-quarter increase of 12% in outsourcing services for the three months ended March 31, 2008 was primarily due to the sales of our larger telecom CRM units. Outsourcing services revenues made up of 16% of the Company's total revenues for the first quarter of FY2008 and was mainly derived from the software development, R&D, and project management services.

(2) Telecom Value-added Services (VAS):

Revenues for the three months ended March 31, 2008 were \$268,000, a quarter-over-quarter decrease of 43% as compared to \$469,000 for the same quarter last year. The decrease was mainly due to disposal of major legacy companies.

(3) Products (Telecom & Gaming):

Revenues for the three months ended March 31, 2008 were \$3,433,000,a quarter-over-quarter decrease of 27% as compared to \$4,702,000 for the first quarter of FY2007. Decrease in Products revenues, which accounted for 78% of the Company's total revenues for the first quarter of FY2008, is largely due to contraction of the Company's mobile phone wholesaling businesses in Greater China.

As planned, the company continues to scale down its low-margin mobile phone wholesaling business and distribution business in Greater China. Revenues from sales of mobile phone for the three months ended March 31, 2008, amounted to \$2,915,000, as compared to \$2,968,000 for the same periods last year.

COST OF REVENUES

Cost of revenues for the three months ended March 31, 2008 were \$3,500,000, representing a quarter-over-quarter decrease of 15% as compared to \$4,106,000 for the same periods last year. Cost of revenues as a percentage of the corresponding revenues was approximately 79% for the first quarter of FY2008 as compared to 71% for the same period of the prior year.

(1) Outsourcing services:

Cost of revenues from outsourcing services for the three months ended March 31, 2008 amounted to \$512,000, a quarter-over-quarter increase of 27% as compared with \$402,000 for the same quarter last year. Increase in cost of revenues was largely due to headcount increase at service staff level.

(2) Telecom Value-added Services (VAS):

Cost of revenues from VAS for the three months ended March 31, 2008 was \$122,000, a quarter-over-quarter decrease of 67 % as compared with the same periods last year.

(3) Products (Telecom & Gaming):

Cost of revenues derived from Products for the three months ended March 31, 2008 amounted to \$2,833,000, a reduction of 16% as compared with the same periods last year. Approximately 70% of the cost of revenues related to Products for the first quarter of FY2008 was derived from the sales of mobile phones, and 9% was derived from the sales of electronic gaming machines.

GROSS PROFIT

Gross profit for the three months ended March 31, 2008 was \$925,000, a quarter-over-quarter decrease of 47% as compared to \$1,740,000 for the same periods of the prior year. The quarter-over-quarter decrease of 30% in Gross margin for the three months ended March 31, 2008 (2007Q1: 30%).

SELLING, GENERAL AND ADMINISTRATIVE EXPENSES

Selling, general and administrative expenses (SG&A) totaled \$2,286,000 for the three months ended March 31, 2008, an increase of 98% as compared to \$1,152,000 for the same periods of the prior year. SG&A as a percentage of revenues, however, recorded only a quarter-over-quarter increase from 20% to 52%. The increased SG&A was mainly due to the provisions for bad debts of \$316,000. SG&A consist primarily of indirect staff salaries, office rental, insurance, advertising expenditure and traveling cost.

SELLING, GENERAL AND ADMINISTRATIVE EXPENSES	Three mont March 2008	31 2007	Percentage Change
(in thousands, except percentages)	(\$)	(\$)	(%)
Remuneration and related expenses	881	812	9
Office (majority is rental and utilities)	224	169	32
Travel	117	84	38
Entertainment	57	26	115
Professional (legal and consultant)	365	284	29
Audit	81	13	501
Selling	276	111	149
Recovery of provisions for doubtful accounts from subsequent collections	316	(387)	(182)
Other	(31)	38	(181)
Total	2,286	1,152	98

INCOME (LOSS) FROM OPERATIONS

On a quarter-over-quarter basis, Loss from operations amounted to \$1,582,000 for the three months ended March 31, 2008, as compared to Income from operations of \$432,000 for the same periods of prior year. The incurred operating loss was mainly due to the increased SG&A expenses of \$1,134,000 during the first quarter of FY 2008.

INCOME TAXES

There were no income tax provisions for the three months ended March 31, 2008 (2007Q1: \$68,000). The provision of income taxes depends on the tax rate and tax exemption. Pursuant to the PRC Income Tax Laws, the Company's subsidiaries and VIEs are generally subject to Enterprise Income Taxes ("EIT") at a statutory rate of 33%, which comprises 30% national income tax and 3% local income tax. Certain subsidiaries and VIEs are qualified for preferred high technology or software enterprise tax status, and they are subject to preferential tax rate of 15% under PRC Income Tax Rules.

MINORITY INTERESTS

Minority interests for the three months ended March 31, 2008 totaled \$571,000 as compared to \$388,000 for the same period of the prior year, representing minority ownership interests in subsidiaries in the Company's consolidated financial statement.

NET INCOME (LOSS)

On a quarter-over-quarter basis, Net Loss amounted to \$1,150,000 for the three months ended March 31, 2008, as compared to \$308,000 for the same quarter of the prior year. The incurred quarterly Net Loss was mainly due to the write-offs in the area of our telecom assets (legacy business).

CASH

Net cash and cash equivalents at March 31, 2008 were approximately \$2.23 million, a decrease of approximately \$3.75 million as compared to December 31, 2007. This was primarily due to the cash flow-out in the purchase of Intellectual Property (IP) assets amount to \$419,000, the purchase of Slot Machines amount to \$353,000.

CONTRACTUAL OBLIGATIONS

CONTRACTUAL OBLIGATIONS

Cash resources required to satisfy short and long term Contractual obligations as of March 31, 2008 are tabulated below:

Payments Due by Period

			Less than 1		After 5
Contractual Obligations (in thousands)	Total		year	1-5 years	years
Line of credit	\$	4	4		
Bank Loans		1,847	85	391	1,371
Operating leases		287	196	91	
Capital leases		N/A			
Total cash contractual obligations	\$	2,138	285	482	1,371

OFF-BALANCE SHEET ARRANGEMENTS

There were no off-balance sheet guarantees, interest rate swap transactions, foreign currency forward contracts or long term purchase commitments outstanding as of March 31, 2008. Further, the Company had not engaged in any non-exchange trading activities during the first quarter of 2008.

INFLATION

Inflation has not had a material impact on the Company's business in recent years.

CURRENCY EXCHANGE FLUCTUATIONS

All of the Company's revenues are denominated either in U.S. dollars or Hong Kong dollars, while its expenses are denominated primarily in Hong Kong dollars and Renminbi ("RMB"), the currency of the People's Republic of China. The value of the RMB-to-U.S. dollar or Hong Kong dollar-to-United States dollar and other currencies may fluctuate and is affected by, among other things, changes in political and economic conditions. Since 1994, the conversion of Renminbi into foreign currencies, including U.S. dollars, has been based on rates set by the People's Bank of China, which are set daily based on the previous day's interbank foreign exchange market rates and current exchange rates on the world financial markets. Since 1994, the official exchange rate generally has been stable. Recently there has been increased political pressure on the Chinese government to decouple the RMB from the United States dollar. Although a devaluation of the Hong Kong dollar or RMB relative to the United States dollar would likely reduce the Company's expenses (as expressed in United States dollars), any material increase in the value of the Hong Kong dollar or RMB relative to the United States dollar would increase the Company's expenses, and could have a material adverse effect

on the Company's business, financial condition and results of operations. The Company has never engaged in currency hedging operations and has no present intention to do so.

ITEM 3. QUANTITATIVE AND QUALITATIVE DISCLOSURES ABOUT MARKET RISK

We are exposed to various market risks arising from adverse changes in market rates and prices, such as foreign exchange fluctuations and interest rates, which could impact our results of operations and financial position. We do not currently engage in any hedging or other market risk management tools, and we do not enter into derivatives or other financial instruments for trading or speculative purposes.

Foreign Currency Exchange Rate Risk

Fluctuations in the rate of exchange between the U.S. dollar and foreign currencies, primarily the Hong Dollar and the Chinese Renminbi, could adversely affect our financial results. During the quarter ended September 30, 2006, approximately all of our sales are denominated in foreign currencies. We expect that foreign currencies will continue to represent a similarly significant percentage of our sales in the future. Selling, marketing and administrative costs related to these sales are largely denominated in the same respective currency, thereby mitigating our transaction risk exposure. We therefore believe that the risk of a significant impact on our operating income from foreign currency fluctuations is not substantial. However, for sales not denominated in U.S. dollars, if there is an increase in the rate at which a foreign currency is exchanged for U.S. dollars, it will require more of the foreign currency to equal a specified amount of U.S. dollars than before the rate increase. In such cases and if we price our products in the foreign currency, we will receive less in U.S. dollars than we did before the rate increase went into effect. If we price our products in U.S. dollars and competitors price their products in local currency, an increase in the relative strength of the U.S. dollar could result in our price not being competitive in a market where business is transacted in the local currency. All of our sales denominated in foreign currencies are denominated in the Hong Dollar and the Chinese Renminbi. Our principal exchange rate risk therefore exists between the U.S. dollar and these two currencies. Fluctuations from the beginning to the end of any given reporting period result in the re-measurement of our foreign currency-denominated receivables and payables, generating currency transaction gains or losses that impact our non-operating income/expense levels in the respective period and are reported in other (income) expense, net in our combined consolidated financial statements. We do not currently hedge our exposure to foreign currency exchange rate fluctuations. We may, however, hedge such exposure to foreign currency exchange rate fluctuations in the future.

All of our sales denominated in foreign currencies are denominated in the Hong Dollar and the Chinese Renminbi. Our principal exchange rate risk therefore exists between the U.S. dollar and these two currencies. Fluctuations from the beginning to the end of any given reporting period result in the re-measurement of our foreign currency-denominated receivables and payables, generating currency transaction gains or losses that impact our non-operating income/expense levels in the respective period and are reported in other (income) expense, net in our combined consolidated financial statements. We do not currently hedge our exposure to foreign currency exchange rate fluctuations. We may, however, hedge such exposure to foreign currency exchange rate fluctuations in the future.

Interest Rate Risk

Changes in interest rates may affect the interest paid (or earned) and therefore affect our cash flows and results of operations. We are exposed to interest rate change risk with respect to one of our subsidiaries credit facility with a commercial lender. However, we do not believe that this interest rate change risk is significant.

Inflation

Inflation has not had a material impact on the Company's business in recent years.

Currency Exchange Fluctuations

All of the Company's revenues are denominated either in U.S. dollars or Hong Kong dollars, while its expenses are denominated primarily in Hong Kong dollars and Chinese Renminbi ("RMB"). The value of the RMB-to-U.S. dollar or Hong Kong dollar-to-United States dollar and other currencies may fluctuate and is affected by, among other things, changes in political and economic conditions. Since 1994, the conversion of Renminbi into foreign currencies, including U.S. dollars, has been based on rates set by the People's Bank of China, which are set daily based on the previous day's inter-bank foreign exchange market rates and current exchange rates on the world financial markets. Since 1994, the official exchange rate for the conversion of Renminbi to U.S. dollars had generally been stable and the Renminbi had appreciated slightly against the U.S. dollar. However, on July 21, 2005, the Chinese government changed its policy of pegging the value of Chinese Renminbi to the U.S. dollar. Under the new policy, Chinese Renminbi may fluctuate within a narrow and managed band against a basket of certain foreign currencies. Recently there has been increased political pressure on the Chinese government to decouple the Renminbi from the United States dollar. At the recent quarterly regular meeting of People's Bank of China, its Currency Policy Committee affirmed the effects of the reform on Chinese Renminbi exchange rate. Since February 2006, the new currency rate system has been operated; the currency rate of Renminbi has become more flexible while basically maintaining stable and the expectation for a larger appreciation range is shrinking. Although a devaluation of the Hong Kong dollar or Renminbi relative to the United States dollar would likely reduce the Company's expenses (as expressed in United States dollars), any material increase in the value of the Hong Kong dollar or Renminbi relative to the United States dollar would increase the Company's expenses, and could have a material adverse effect on the Company's business, financial condition and results of operations. For fluctuations in period to period exchange rates, the translation adjustment is required to translate from local functional currency to the USD reporting currency (not RMB to HKD to USD). The Company has never engaged in currency hedging operations and has no present intention to do so.

Concentration of Credit Risk

Credit risk represents the accounting loss that would be recognized at the reporting date if counterparties failed completely to perform as contracted. Concentrations of credit risk (whether on or off balance sheet) that arise from financial instruments exist for groups of customers or counterparties when they have similar economic characteristics that would cause their ability to meet contractual obligations to be similarly affected by changes in economic or other conditions as described below:

- Ÿ The Company's business is characterized by rapid technological change, new product and service development, and evolving industry standards and regulations. Inherent in the Company's business are various risks and uncertainties, including the impact from the volatility of the stock market, limited operating history, uncertain profitability and the ability to raise additional capital.
- Ÿ All of the Company's revenue is derived from Asia and Greater China. Changes in laws and regulations, or their interpretation, or the imposition of confiscatory taxation, restrictions on currency conversion, devaluations of currency or the nationalization or other expropriation of private enterprises could have a material adverse effect on our business, results of operations and financial condition.
- Ÿ If the Company is unable to derive any revenues from Greater China, it would have a significant, financially disruptive effect on the normal operations of the Company.

A substantial portion of the operations of business operations depend on mobile telecommunications operators (operators) in China and any loss or deterioration of such relationship may result in severe disruptions to their business operations and the loss of a significant portion of the Company's revenue. The VIEs rely entirely on the networks and gateways of these operators to provide its wireless value-added services. Specifically these operators are the only entities in China that have platforms for wireless value-added services. The Company's agreements with these operators are generally for a period of less than one year and generally do not have automatic renewal provisions. If neither of them is willing to continue to cooperate with the Company, it would severely affect the Company's ability to conduct its existing wireless value-added services business.

Seasonality and Quarterly Fluctuations

Several of our businesses experience fluctuations in quarterly performance. Traditionally, the first quarter from January to March is a low season for our call center business due to the long Lunar New Year holidays in China Revenues and income from gaming products, call center and telecom value-added services tend to be higher in the fourth quarter due to special holiday promotions. Internet/Direct Commerce revenues also tend to be higher in the fourth quarter due to increased consumer spending during that period. Revenues from the gaming and VAS can vary from quarter to quarter due to new product launches and the seasonality of certain product lines

Sales of our gaming machines to Macau and other Asian casinos and gaming operators are generally strongest in Q3 and Q4 and slowest in the Chinese New Year holiday season in Q1. In addition, quarterly revenues and net income may increase when we receive a larger number of approvals for new games from regulators and gaming operators than in other quarters, when a game or platform that achieves significant player appeal is introduced or if gaming is permitted in a significant new jurisdiction. In addition, as further technology advancements become available for the gaming industry, replacement or conversion of gaming machines will be impacted once any such advanced technology is approved by regulators.

ITEM 4. CONTROLS AND PROCEDURES

Management is responsible for establishing and maintaining adequate internal control over financial reporting of the Company. Internal control over financial reporting is a process designed by, or under the supervision of, our chief executive and chief financial officers and effected by our board of directors, management and other personnel, to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principals.

Management, with the participation of our principal executive officer and principal financial officer, has evaluated the effectiveness of our internal control over financial reporting as of March 31, 2008 based on criteria established under the COSO framework, an integrated framework for evaluation of internal controls issued to identify the risks and control objectives related to the evaluation of the control environment by the Committee of Sponsoring Organizations of the Treadway Commission.

Based on our evaluation described above, management has concluded that our internal control over financial reporting was not effective as of March 31, 2008. Management has determined that (i) our inadequate staffing and supervision and (ii) the significant amount of manual intervention required in our accounting and financial reporting process are material weaknesses in our internal control over financial reporting.

PART II - OTHER INFORMATION

ITEM 1. LEGAL PROCEEDINGS

None

ITEM 1A. RISK FACTORS

In addition to the other information set forth in this report, you should carefully consider the factors discussed in "Risk Factors" in our Annual Report on Form 10-K for the year ended December 31, 2007, which could materially affect our business, financial condition or future results. The risks described in our Annual Report on Form 10-K are not the only risks facing us Additional risks and uncertainties not currently known to us or that we currently deem to be immaterial also may materially adversely affect our business, financial condition and/or operating results.

ITEM 2. UNREGISTERED SALES OF EQUITY SECURITIES AND USE OF PROCEEDS

None	
------	--

ITEM 3. DEFAULTS UPON SENIOR SECURITIES

On or about October 3, 2007 Iroquois Master Fund, Ltd. filed a complaint in the Supreme Court of the State of New York against PacificNet Inc., claiming that the Company is in default under the Amended and Restated Convertible Debenture due March 2009 (the Amended Debenture") in the principal amount of \$3,000,000 and the Convertible Debenture due February 2009 (the New Debenture") in the principal amount of \$420,000.

Iroquois Master Fund, Ltd. is seeking damages of \$3,253,163.80 in the aggregate, together with any accrued but unpaid interest through the date of judgment. Iroquois Master Fund, Ltd. has also demanded reimbursement of its attorney fees and other costs and expenses incurred together with costs and disbursements of this action.

On or about December 5, 2007, PacificNet filed its answer denies that PacificNet is in default and assert an agreement that would enable it to bring the interest payments up to date by the issuance of stock in the near future.

On March 27, 2008, three holders of PACT's Convertible Subordinated Debentures filed an involuntary petition for Chapter 11 relief in federal bankruptcy court late Saturday, March 22, 2008 in Wilmington, DE. The Company has retained counsel to oppose the filing because the petition fails to meet the standard for invoking an involuntary bankruptcy and fails to take into consideration other agreements between the Company and the petitioning creditors. The Company intends to vigorously oppose the petition and move for dismissal of the filing, and if successful will seek damages and attorney fees. Subsequently, PACT also received default notice from all but one of the debenture holderS including Iroquois Master Fund Ltd., Alpha Capital AG, Whalehaven Capital Fund Limited, DKR Soundshore Oasis Holding Fund Ltd., Basso Fund Ltd., Basso Multi-Strategy Holding Fund Ltd., and Basso Private Opportunities Holding Fund Ltd. from the same Convertible Subordinated Debentures related to the private offering of \$8,000,000 principal amount variable debentures consummated on March 13, 2006, and due March 2009.

PACT has retained counsel to oppose the above petition. The amount of the debt in question is as follows: Iroquois Master Fund Ltd. \$2.5 million, Whalehaven Capital Fund Limited \$958,000, Alpha Capital AG \$685,000 DKR Soundshore Oasis Holding Fund Ltd \$960,000, and Basso Fund Ltd., Basso Multi- Strategy Holding Fund Ltd., and Basso Private Opportunities Holding Fund Ltd., a combined amount of \$500,000.
