Triumph Group, Inc.

Notes to Consolidated Financial Statements

(dollars in thousands, except per share data)

(unaudited)

1. BASIS OF PRESENTATION AND ORGANIZATION

The accompanying unaudited consolidated financial statements of Triumph Group, Inc. (the "Company") have been prepared in conformity with accounting principles generally accepted in the United States ("U.S. GAAP") for interim financial information and with the instructions to Form 10-Q and Article 10 of Regulation S-X. Accordingly, they do not include all of the information and footnotes required by U.S. GAAP for complete financial statements. In the opinion of management, the interim financial information includes all adjustments of a normal recurring nature necessary for a fair presentation of the results of operations, financial position and cash flows. The results of operations for the three and six months ended September 30, 2013 are not necessarily indicative of results that may be expected for the year ending March 31, 2014. The accompanying consolidated financial statements are unaudited and should be read in conjunction with the fiscal 2013 audited consolidated financial statements and notes thereto, included in the Company's Form 10-K for the year ended March 31, 2013 filed in May 2013.

The Company designs, engineers, manufactures, repairs and overhauls a broad portfolio of aerostructures, aircraft components, accessories, subassemblies and systems. The Company serves a broad, worldwide spectrum of the aviation industry, including original equipment manufacturers of commercial, regional, business and military aircraft and aircraft components, as well as commercial and regional airlines and air cargo carriers.

Effective April 1, 2013, the Company prospectively adopted accounting guidance requiring disclosure of items reclassified from other comprehensive income (loss) to net income by their respective income statement line item. For items not reclassified to net income in their entirety, the Company is required to reference other disclosures that provide greater detail about these reclassifications. Refer to "Note 12 Stockholders' Equity" of this Form 10-Q for further information. Other than the additional disclosures, the adoption of the guidance did not have an impact on the Company's financial statements.

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Use of Estimates

The preparation of the financial statements in conformity with U.S. GAAP requires management to make estimates and assumptions that affect the amounts reported in the financial statements and accompanying notes. Actual results could differ from those estimates.

Revenue Recognition

Revenues are generally recognized in accordance with the contract terms when products are shipped, delivery has occurred or services have been rendered, pricing is fixed and determinable, and collection is reasonably assured. A significant portion of the Company's contracts are within the scope of the Revenue - Construction-Type and Production-Type Contracts topic of the Accounting Standards Codification ("ASC") and revenue and costs on contracts are recognized using the percentage-of-completion method of accounting. Accounting for the revenue and profit on a contract requires estimates of (1) the contract value or total contract revenue, (2) the total costs at completion, which is equal to the sum of the actual incurred costs to date on the contract and the estimated costs to complete the contract's scope of work and (3) the measurement of progress towards completion. Depending on the contract, the Company measures progress toward completion using either the cost-to-cost method or the units-of-delivery method of

accounting, with the great majority measured under the units-of-delivery method of accounting.

Under the cost-to-cost method of accounting, progress toward completion is measured as the ratio of total costs incurred to estimated total costs at completion. Costs are recognized as incurred. Profit is determined based on estimated profit margin on the contract multiplied by the progress toward completion. Revenue represents the sum of costs and profit on the contract for the period.

Under the units-of-delivery method of accounting, revenue on a contract is recorded as the units are delivered and accepted during the period at an amount equal to the contractual selling price of those units. The costs recorded on a contract under the units-of-delivery method of accounting are equal to the total costs at completion divided by the total units to be delivered. As contracts can span multiple years, the Company often segments the contracts into production

Table of Contents

Triumph Group, Inc.

Notes to Consolidated Financial Statements

(dollars in thousands, except per share data)

(unaudited)

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

lots for the purposes of accumulating and allocating cost. Profit is recognized as the difference between revenue for the units delivered and the estimated costs for the units delivered.

Adjustments to original estimates for a contract's revenues, estimated costs at completion and estimated total profit are often required as work progresses under a contract, as experience is gained and as more information is obtained, even though the scope of work required under the contract may not change, or if contract modifications occur. These estimates are also sensitive to the assumed rate of production. Generally, the longer it takes to complete the contract quantity, the more relative overhead that contract will absorb. The impact of revisions in cost estimates is recognized on a cumulative catch-up basis in the period in which the revisions are made. Provisions for anticipated losses on contracts are recorded in the period in which they become evident ("forward losses") and are first offset against costs that are included in inventory, with any remaining amount reflected in accrued contract liabilities in accordance with the Construction-Type and Production-Type Contracts topic. Revisions in contract estimates, if significant, can materially affect results of operations and cash flows, as well as valuation of inventory. Furthermore, certain contracts are combined or segmented for revenue recognition in accordance with the Construction-Type and Production-Type Contracts topic.

For the three months ended September 30, 2013, cumulative catch-up adjustments from changes in estimates decreased operating income, net income and earnings per share by approximately \$(25,364), \$(17,287) and \$(0.33) net of tax, respectively. The cumulative catch-up adjustments to operating income for the three months ended September 30, 2013 included gross favorable adjustments of approximately \$9,783 and gross unfavorable adjustments of approximately \$(35,147). For the six months ended September 30, 2013, cumulative catch-up adjustments from changes in estimates decreased operating income, net income and earnings per share by approximately \$(23,005), \$(15,222) and \$(0.29) net of tax, respectively. The cumulative catch-up adjustments to operating income for the six months ended September 30, 2013 included gross favorable adjustments of approximately \$11,421 and gross unfavorable adjustments of approximately \$(34,426). For the three months ended September 30, 2012, cumulative catch-up adjustments from changes in estimates increased operating income, net income and earnings per share by approximately \$158, \$100 and \$0.00 net of tax, respectively. For the six months ended September 30, 2012, cumulative catch-up adjustments from changes in estimates decreased operating income, net income and earnings per share by approximately \$(4,791), \$(3,000) and \$(0.06) net of tax, respectively.

Amounts representing contract change orders or claims are only included in revenue when such change orders or claims have been settled with the customer and to the extent that units have been delivered. Additionally, some contracts may contain provisions for revenue sharing, price re-determination, requests for equitable adjustments, change orders or cost and/or performance incentives. Such amounts or incentives are included in contract value when the amounts can be reliably estimated and their realization is reasonably assured.

Although fixed-price contracts, which extend several years into the future, generally permit the Company to keep unexpected profits if costs are less than projected, the Company also bears the risk that increased or unexpected costs may reduce profit or cause the Company to sustain losses on the contract. In a fixed-price contract, the Company must fully absorb cost overruns, notwithstanding the difficulty of estimating all of the costs the Company will incur in performing these contracts and in projecting the ultimate level of revenue that may otherwise be achieved.

Failure to anticipate technical problems, estimate delivery reductions, estimate costs accurately or control costs during performance of a fixed-price contract may reduce the profitability of a fixed-price contract or cause a loss. The Company believes that it has recognized adequate provisions in the financial statements for losses on fixed-price contracts, but cannot be certain that the contract loss provisions will be adequate to cover all actual future losses.

While the Company is currently projecting its recurring production contracts to be profitable, there is still a substantial amount of risk similar to what the Company has experienced on certain programs (such as 747-8). Particularly, the Company's ability to manage risks related to supplier performance, execution of cost reduction strategies, hiring and retaining skilled production and management personnel, quality and manufacturing execution, program schedule delays and many other risks, will determine the ultimate performance of these programs.

The next twelve months will be critical time for these programs as the Company attempts to return to baseline performance for the recurring cost structure. Recognition of forward-losses in the future periods continues to be a significant risk and will

Table of Contents

Triumph Group, Inc.

Notes to Consolidated Financial Statements

(dollars in thousands, except per share data)

(unaudited)

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

depend upon several factors including the Company's market forecast, possible airplane program delays, the Company's ability to successfully perform under revised design and manufacturing plans, achievement of forecasted cost reductions as the Company continues production and the ability to successfully resolve claims and assertions with the Company's customers and suppliers.

Included in net sales of the Aerostructures Group is the non-cash amortization of acquired contract liabilities recognized as fair value adjustments through purchase accounting of the acquisition of Vought Aircraft Industries, Inc. ("Vought") on June 16, 2010. For the three months ended September 30, 2013 and 2012, the Company recognized \$5,614 and \$6,563, respectively, into net sales in the accompanying consolidated statements of income. For the six months ended September 30, 2013 and 2012, the Company recognized \$11,755 and \$13,555, respectively, into net sales in the accompanying consolidated statements of income.

Included in net sales of the Aerospace Systems Group is the non-cash amortization of acquired contract liabilities recognized as fair value adjustments through provisional purchase accounting of the acquisition of Goodrich Corporation (Goodrich Pump & Engine Control Systems) ("GPECS") on March 18, 2013. For the three and six months ended September 30, 2013, the Company recognized \$3,351 and \$8,360, respectively, into net sales in the accompanying consolidated statements of income.

The Aftermarket Services Group provides repair and overhaul services, a small portion of which services are provided under long-term power-by-the-hour contracts. The Company applies the proportional performance method of accounting to recognize revenue under these contracts. Revenue is recognized over the contract period as units are delivered based on the relative value in proportion to the total estimated contract consideration. In estimating the total contract consideration, management evaluates the projected utilization of its customers' fleet over the term of the contract, in connection with the related estimated repair and overhaul servicing requirements to the fleet based on such utilization. Changes in utilization of the fleet by customers, among other factors, may have an impact on these estimates and require adjustments to estimates of revenue to be realized.

Concentration of Credit Risk

The Company's trade accounts receivable are exposed to credit risk. However, the risk is limited due to the diversity of the customer base and the customer base's wide geographical area. Trade accounts receivable from The Boeing Company ("Boeing") (representing commercial, military and space) represented approximately 32.3% and 32.0% of total trade accounts receivable as of September 30, 2013 and March 31, 2013, respectively. The Company had no other concentrations of credit risk of more than 10%. Sales to Boeing for the six months ended September 30, 2013 were \$880,078, or 46% of net sales, of which \$827,116, \$41,561 and \$11,401 were from the Aerostructures segment, the Aerospace Systems segment and Aftermarket Services segment, respectively. Sales to Boeing for the six months ended September 30, 2012 were \$899,302, or 49% of net sales, of which \$847,982, \$35,974 and \$15,346 were from the Aerostructures segment, the Aerospace Systems segment and Aftermarket Services segment, respectively. No other single customer accounted for more than 10% of the Company's net sales. However, the loss of any significant customer, including Boeing, could have a material adverse effect on the Company and its operating subsidiaries.

Stock-Based Compensation

The Company recognizes compensation expense for share-based awards based on the fair value of those awards at the date of grant. Stock-based compensation expense for the three months ended September 30, 2013 and 2012 was \$935 and \$1,631, respectively. Stock-based compensation expense for the six months ended September 30, 2013 and 2012 was \$2,263 and \$3,162, respectively. The stock-based compensation expense decreased for the three months and six months ended September 30, 2013, respectively, as compared to the three months and six months ended

September 30, 2012, respectively, due to decreased performance. The Company has classified share-based compensation within selling, general and administrative expenses to correspond with the same line item as the majority of the cash compensation paid to employees. Upon the exercise of stock options or vesting of restricted stock, the Company first transfers treasury stock, then issues new shares.

Amortization expense for the three months ended September 30, 2013 and 2012 was \$10,617 and \$8,556, respectively. Amortization expense for the six months ended September 30, 2013 and 2012 was \$22,150 and \$17,123, respectively.

Warranty Reserves

A reserve has been established to provide for the estimated future cost of warranties on our delivered products. The Company periodically reviews the reserves and adjustments are made accordingly. A provision for warranty on products delivered is made on the basis of historical experience and identified warranty issues. Warranties cover such factors as non-conformance to specifications and defects in material and workmanship. The majority of the Company's agreements include a three-year warranty, although certain programs have warranties up to 20 years. The following is a roll-forward of the warranty reserves for the six months ended September 30, 2013 and 2012, respectively:

	2013	2012
Balance, March 31	\$21,775	\$14,473

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

Supplemental Cash Flow Information

The Company paid \$1,370 and \$2,840 for income taxes, net of refunds received, for the six months ended September 30, 2013 and 2012, respectively. The Company made interest payments of \$30,110 and \$31,755 for the six months ended September 30, 2013 and 2012, respectively.

During the six months ended September 30, 2013 and 2012, the Company financed \$36 and \$25 of property and equipment additions through capital leases, respectively. During the six months ended September 30, 2013 and 2012, the Company issued 1,849,596 and 386,936 shares, respectively, in connection with certain redemptions of convertible senior subordinated notes (see Note 6).

3. ACQUISITIONS

Acquisition of Primus Composites

Effective May 6, 2013, the Company acquired four related entities collectively comprising the Primus Composites ("Primus") business from Precision Castparts Corp. The acquired business, which includes two manufacturing facilities in Farnborough, England and Rayong, Thailand, will operate as Triumph Structures - Farnborough and Triumph Structures - Thailand and be included in the Aerostructures Group. Together, Triumph Structures - Farnborough and Triumph Structures - Thailand constitute a global supplier of composite and metallic propulsion and structural composites and assemblies. In addition to its composite operations, the Thailand operation also machines and processes metal components.

The purchase price for the Primus acquisition was \$33,530 in cash and \$30,000 in assumed debt settled at closing. Goodwill in the amount of \$21,202 was recognized for this acquisition and is calculated as the excess of consideration transferred over the net assets recognized and represents the future economic benefits arising from other assets acquired that could not be individually identified and separately recognized such as assembled workforce. The goodwill is not deductible for tax purposes. The Company has also identified intangible assets related to customer relationships valued at approximately \$6,426 with a weighted-average life of 16.0 years.

The accounting for a business combination is dependent upon obtaining valuations and other information for certain assets and liabilities which have not yet been completed or obtained to a point where definitive estimates can be made. The process for estimating the fair values of identified intangible assets, certain tangible assets and assumed liabilities require the use of judgment to determine the appropriate assumptions.

As the Company finalizes estimates of the fair value of assets acquired and liabilities assumed, substantially all of the purchase price allocation for Primus is provisional. Additional purchase price adjustments will be recorded during the measurement period not to exceed one year beyond the acquisition date. These adjustments may have a material impact on the Company's results of operations and financial position.

The table below presents the provisional estimated fair value of assets acquired and liabilities assumed on the acquisition date based on the best information it has received to date, in accordance with Accounting Standards Codification Topic 805, Business Combinations ("ASC 805"). The Company is awaiting final appraisal of tangible assets, intangible assets and certain contingent liabilities related to the Primus acquisition. Accordingly, the Company has adjusted the value of intangible assets and property and equipment to draft appraisals. During the six months ended September 30, 2013, the Company recognized an increase of \$2,258 in the provisional value of the intangible asset and a decrease of \$17,819 in the provisional value of property and equipment as a result of changes in fair value. These purchase price adjustments increased the provisionally recognized goodwill by \$15,670 and have been reflected in the accompanying Consolidated Balance Sheet as of September 30, 2013. The effect on net income for the six months ended September 30, 2013 was not material. The allocation of the purchase price of the Primus acquisition is not complete and the amounts below report the Company's best estimate of the fair value based on the information

available at this time:

3. ACQUISITIONS (Continued)

	May 6, 2013
Cash	\$2,201
Accounts receivable	17,349
Inventory	19,102
Prepaid expenses and other	883
Property and equipment	29,425
Goodwill	21,202
Intangibles assets	6,426
Other noncurrent assets	5,537
Total assets	\$102,125
Accounts payable	\$10,027
Accrued expenses	23,804
Deferred taxes	4,764
Total liabilities	\$38,595

The provisional amounts recognized are based on the Company's best estimates using information that it has obtained as of the reporting date. The Company will finalize its estimates once it is able to determine that it has obtained all necessary information that existed as of the acquisition date related to these matters or one year following the acquisition of Primus, whichever is earlier.

The Primus acquisition has been accounted for under the acquisition method and, accordingly, is included in the consolidated financial statements from the effective date of acquisition. The Primus acquisition was funded by the Company's long-term borrowings in place at the date of acquisition. The Company incurred \$1,605 in acquisition-related costs in connection with the Primus acquisition, which is recorded in selling, general and administrative expenses in the accompanying Consolidated Statements of Income.

The following table presents information for the Primus acquisition that is included in the Company's Consolidated Statement of Income from May 6, 2013 through the end of the quarter:

	For the Three Months Ended September 30, 2013	For the Six Months Ended September 30, 2013
Net sales	\$15,876	\$27,214
Operating income	(1,633) (2,570

FISCAL 2013 ACQUISITIONS

Acquisition of Goodrich Corporation (Goodrich Pump & Engine Control Systems)

Effective March 18, 2013, a wholly-owned subsidiary of the Company, Triumph Engine Control Systems, LLC, acquired the assets of Goodrich Corporation (Goodrich Pump & Engine Control Systems) ("GPECS"), a leading independent aerospace fuel system supplier for the commercial, military, helicopter and business jet markets. The acquisition of GPECS provides new capabilities in a market where the Company does not currently participate and further diversifies its customer base in electronic engine controls, fuel metering units and main fuel pumps for both OE and aftermarket/spares end markets. The results for Triumph Engine Control Systems, LLC are included in the Aerospace Systems Group segment from the date of acquisition.

The purchase price for the GPECS acquisition was \$208,650. Goodwill in the amount of \$94,563 was recognized for this acquisition and is calculated as the excess of consideration transferred over the net assets recognized and represents the future

10

3. ACQUISITIONS (Continued)

economic benefits arising from other assets acquired that could not be individually identified and separately recognized such as assembled workforce. The goodwill is deductible for tax purposes. The Company has also identified intangible assets valued at approximately \$109,100 with a weighted-average life of 18.2 years.

The accounting for a business combination is dependent upon obtaining valuations and other information for certain assets and liabilities which have not yet been completed or obtained to a point where definitive estimates can be made. The process for estimating the fair values of identified intangible assets, certain tangible assets and assumed liabilities require the use of judgment to determine the appropriate assumptions.

As the Company finalizes estimates of the fair value of assets acquired and liabilities assumed, substantially all of the purchase price allocation for GPECS is provisional. Additional purchase price adjustments will be recorded during the measurement period not to exceed one year beyond the acquisition date. These adjustments may have a material impact on the Company's results of operations and financial position.

The table below presents the provisional estimated fair value of assets acquired and liabilities assumed on the acquisition date based on the best information it has received to date, in accordance with ASC 805. The Company is awaiting final appraisal of tangible assets, intangible assets and certain contingent liabilities related to the GPECS acquisition. Accordingly, the Company has adjusted the value of intangible assets, property and equipment and contingent liabilities to draft appraisals. During the six months ended September 30, 2013, the Company recognized an increase of \$29,511 in the provisional value of intangible assets as a result of the recognition of a definite-lived technology intangible asset and changes in the fair value of customer relationships acquired. Additionally, the Company recognized other immaterial adjustments to various assets acquired and liabilities assumed as of the acquisition date. These purchase price adjustments decreased the provisionally recognized goodwill by \$28,193 and have been reflected retrospectively as of March 31, 2013 in the accompanying Consolidated Balance Sheet. The effect on net income for the period March 18, 2013 through March 31, 2013 was not material. The allocation of the purchase price of the GPECS acquisition is not complete and the amounts below report the Company's best estimate of the fair value based on the information available at this time:

	March 18, 2013
Accounts receivable	\$15,888
Inventory	41,416
Prepaid expenses and other	568
Property and equipment	26,906
Goodwill	94,563
Intangibles assets	109,100
Deferred taxes	34,936
Total assets	\$323,377
Accounts payable	\$16,000
Accrued expenses	15,738
Acquired contract liabilities, net	80,000
Other noncurrent liabilities	2,989
Total liabilities	\$114,727

Table of Contents

(unaudited)

3. ACQUISITIONS (Continued)

The following table is a summary of the fair value estimates of the identifiable intangible assets and their estimated useful lives:

	Estimated Useful Life	Estimated Fair Value
Technology	10 years	\$ 19,100
Customer relationships	20 years	90,000
		\$ 109,100

Based on the information accumulated to date, the Company's current assessment of the probable outcome of environmental and legal contingencies, the Company has recognized provisional liabilities which resulted in an amount of \$2,767. The provisional amounts recognized are based on the Company's best estimates using information that it has obtained as of the reporting date. The Company will finalize its estimates once it is able to determine that it has obtained all necessary information that existed as of the acquisition date related to these matters or one year following the acquisition of GPECS, whichever is earlier.

The GPECS acquisition has been accounted for under the acquisition method and, accordingly, is included in the consolidated financial statements from the effective date of acquisition. The GPECS acquisition was funded by the Company's long-term borrowings in place at the date of acquisition. The Company incurred \$510 for the six months ended September 30, 2013 and \$2,936 for the fiscal year ended March 31, 2013 in acquisition-related costs in connection with the GPECS acquisition, which is recorded in selling, general and administrative expenses in the respective Consolidated Statement of Income.

Acquisition of Embee, Inc.

Effective December 19, 2012, the Company acquired all of the outstanding shares of Embee, Inc. ("Embee"), renamed Triumph Processing — Embee Division, Inc., which is a leading commercial metal finishing provider offering more than seventy metal finishing, inspecting and testing processes primarily for the aerospace industry. The acquisition of Embee expands the Company's current capabilities to provide comprehensive processing services on precision engineered parts for hydraulics, landing gear, spare parts and electronic actuation systems. The results for Triumph Processing — Embee Division, Inc. are included in the Aerospace Systems Group segment.

The purchase price for the Embee acquisition was \$141,863. Goodwill in the amount of \$69,578 was recognized for this acquisition and is calculated as the excess of consideration transferred over the net assets recognized and represents the future economic benefits arising from other assets acquired that could not be individually identified and separately recognized such as assembled workforce. The goodwill is deductible for tax purposes. The Company has also identified intangible assets valued at \$55,501 with a weighted-average life of 10.0 years. The Company has recorded its best estimate of the value of the assets and liabilities; however, the allocation of the purchase price for Embee is not complete. The purchase consideration will be finalized upon the settlement of working capital adjustments with the prior owners. The Company is also awaiting final appraisal of tangible assets, intangible assets and certain contingent liabilities related to the Embee acquisition. Accordingly, the Company has adjusted the value of intangible assets, property and equipment and contingent liabilities to draft appraisals. Therefore, the allocation of the purchase price of the Embee acquisition is not complete. The measurement period adjustments recorded during the six months ended September 30, 2013 were not material to the financial statements.

3. ACQUISITIONS (Continued)

The table below presents the provisional estimated fair value of assets acquired and liabilities assumed on the acquisition date based on the best information it has received to date, in accordance with ASC 805:

	December 19, 2012
Cash	\$750
Accounts receivable	7,013
Inventory	411
Prepaid expenses and other	517
Property and equipment	14,360
Goodwill	69,578
Intangible assets	55,501
Deferred taxes	455
Other assets	6,738
Total assets	\$155,323
Accounts payable	\$1,591
Accrued expenses	2,309
Other noncurrent liabilities	9,560
Total liabilities	\$13,460

Based on the information accumulated to date, and the Company's current assessment of the probable outcome of environmental contingencies, the Company has recognized a provisional liability and an estimated indemnification asset, which resulted in a net amount of \$3,505. The provisional amounts recognized are based on the Company's best estimate using information that it has obtained as of the reporting date. The Company will finalize its estimate once it is able to determine that it has obtained all necessary information that existed as of the acquisition date related to this matter or one year following the acquisition of Embee, whichever is earlier.

The following table is a summary of the fair value estimates of the identifiable intangible assets and their estimated useful lives:

	Estimated Useful Life	Estimated Fair Value
Tradename	Indefinite-lived	\$13,400
Customer relationships	10 years	42,101
		\$55,501

The Embee acquisition has been accounted for under the acquisition method and, accordingly, is included in the consolidated financial statements from the effective date of acquisition. The Embee acquisition was funded by the Company's long-term borrowings in place at the date of acquisition. The Company incurred \$82 for the six months ended September 30, 2013 and \$805 for the fiscal year ended March 31, 2013 in acquisition-related costs in connection with the Embee acquisition, which is recorded in selling, general and administrative expenses in the respective Consolidated Statement of Income.

The acquisitions of GPECS and Embee are herein referred to as the "fiscal 2013 acquisitions."

The pro forma results presented below include the effects of the Primus acquisition and the fiscal 2013 acquisitions as if they had been consummated as of April 1, 2012. The pro forma results include the amortization associated with an estimate of acquired intangible assets and interest expense on debt to fund these acquisitions, as well as fair value adjustments for property and equipment and off-market contracts. To better reflect the combined operating results, nonrecurring charges directly attributable to the transaction have been excluded. In addition, the pro forma results do

not include any expected benefits of the acquisitions. Accordingly, the pro forma results are not necessarily indicative of either future results of operations or results

Table of Contents

Triumph Group, Inc.

Notes to Consolidated Financial Statements

(unaudited)

3. ACQUISITIONS (Continued)

that might have been achieved had the acquisitions been consummated as of April 1, 2012 and have been included in the Company's results of operations for fiscal years 2014 and 2013.

	Three Months Ended		Six Months Ended	
	September 30,		September 30,	
	2013	2012	2013	2012
Net Sales	\$967,345	\$1,008,698	\$1,916,224	\$1,965,987
Net income	49,516	82,450	129,044	164,340
Earnings per share—basic	\$0.96	\$1.66	\$2.51	\$3.32
Earnings per share—diluted	\$0.94	\$1.58	\$2.44	\$3.14

4. DISCONTINUED OPERATIONS AND ASSETS HELD FOR SALE

In April 2013, the Company sold the assets and liabilities of Triumph Instruments - Burbank and Triumph Instruments - Ft. Lauderdale ("Triumph Instruments") for total proceeds of \$11,200 including cash received at closing of \$9,676, a note of \$1,500, and the remaining amount which was held in escrow and received in the second quarter of fiscal 2014, resulting in a loss of \$1,462 recognized during the year ended March 31, 2013. The assets and liabilities of Triumph Instruments were classified as held for sale as of March 31, 2013. The loss on the sale of the assets and liabilities of Triumph Instruments is included in the Consolidated Statements of Income within selling, general and administrative expenses for the year ended March 31, 2013. The operating results of Triumph Instruments were included in the Aftermarket Services Group through the date of disposal. The Company expects to have significant continuing involvement in the business and markets of the disposed entities, as defined by ASC 205-20, Discontinued Operations; and, therefore, as a result, the disposal group does not meet the criteria to be classified as discontinued operations.

To measure the amount of impairment, the Company compared the fair value of assets and liabilities at the evaluation date to the carrying amount at the end of the month prior to the evaluation date. The sale of the Triumph Instruments assets and liabilities are categorized as Level 2 within the fair value hierarchy. The key assumption included the negotiated sales price of the assets and the assumptions of the liabilities (see Note 7 below for definition of levels). Assets and liabilities held for sale are comprised of the following:

	March 31, 2013
Assets held for sale:	
Trade and other receivables, net	\$2,545
Inventories	7,668
Rotable assets	1,957
Property, plant and equipment	2,431
Other	146
Total assets held for sale	\$14,747
Liabilities related to assets held for sale:	
Accounts payable	\$1,515
Accrued expenses	945
Other noncurrent liabilities	161
Total liabilities related to assets held for sale	\$2,621

Table of Contents

Triumph Group, Inc.

Notes to Consolidated Financial Statements

(dollars in thousands, except per share data)

(unaudited)

5. INVENTORIES

Inventories are stated at the lower of cost (average-cost or specific-identification methods) or market. The components of inventories are as follows:

	September 30, 2013	March 31, 2013
Raw materials	\$83,001	\$70,242
Work-in-process, including manufactured and purchased components	1,064,644	965,825
Finished goods	88,481	75,960
Less: unliquidated progress payments	(140,624) (124,128
Total inventories	\$1,095,502	\$987,899

Work-in-process inventory includes capitalized pre-production costs. Capitalized pre-production costs include nonrecurring engineering, planning and design, including applicable overhead, incurred before production is manufactured on a regular basis. Significant customer-directed work changes can also cause pre-production costs to be incurred. These costs are typically recovered over a contractually determined number of ship set deliveries and the Company believes these amounts will be fully recovered. The balance of capitalized pre-production costs related to the Company's contracts with Bombardier for the Global 7000/8000 program ("Bombardier") and Embraer for the second generation E-Jet ("Embraer") as of September 30, 2013 is \$110,885. The balance of capitalized pre-production costs related to the Company's contract with Bombardier as of March 31, 2013 was \$71,167.

The Company is still in the early-development stages for the Bombardier and Embraer programs, as these aircrafts are not scheduled to enter service until 2014 and 2018, respectively, or later. Transition of these programs from development to recurring production levels is dependent upon the success of the programs achieving flight testing and certification, as well as the ability of the Bombardier and Embraer programs to generate acceptable levels of aircraft sales. Failure to achieve these milestones and level of sales or significant cost overruns may result in an impairment of the capitalized pre-production costs.

6. LONG-TERM DEBT

Long-term debt consists of the following:

	September 30, 2013	March 31, 2013
Revolving credit facility	\$282,455	\$95,849
Receivable securitization facility	160,300	150,000
Equipment leasing facility and other capital leases	68,683	61,449
Secured promissory notes	—	8,741
Senior subordinated notes due 2017	173,494	173,344
Senior notes due 2018	348,275	348,133
Senior notes due 2021	375,000	375,000
Convertible senior subordinated notes	32,107	109,369
Other debt	7,978	7,978
	1,448,292	1,329,863
Less current portion	48,894	133,930
	\$1,399,398	\$1,195,933

Revolving Credit Facility

On May 23, 2012, the Company amended and restated its existing credit agreement (the "Credit Facility") with its lenders to (i) increase the availability under the Credit Facility to \$1,000,000, with a \$50,000 accordion feature, from \$850,000, (ii) extend the maturity date to May 23, 2017, and (iii) amend certain other terms and covenants. In connection with the amendment to the Credit Facility, the Company incurred \$2,100 of financing costs. These costs, along with the \$7,000 of unamortized financing costs prior to the closing, are being amortized over the remaining term of the Credit Facility.

On April 5, 2011, in connection with a prior amendment and restatement of the Credit Facility, the Company extinguished its then-outstanding term loan credit agreement (the "Term Loan") at face value of \$350,000, plus accrued interest. As a result, the Company recognized a pre-tax loss on extinguishment of debt of \$7,712 associated with the write-off of the remaining unamortized discount and deferred financing fees on the Term Loan included in Interest expense and other for the six months ended September 30, 2011.

The obligations under the Credit Facility and related documents are secured by liens on substantially all assets of the Company and its domestic subsidiaries pursuant to a Guarantee and Collateral Agreement, dated as of June 16, 2010, among the Company, and the subsidiaries of the Company party thereto. Such liens are pari passu to the liens securing the Company's obligations under the Term Loan described below pursuant to an intercreditor agreement dated June 16, 2010 among the agents under the Credit Facility and the Term Loan, the Company and its domestic subsidiaries that are borrowers and/or guarantors under the Credit Facility and the Term Loan (the "Intercreditor Agreement").

The Credit Facility bears interest at either: (i) LIBOR plus between 1.50% and 2.75%; (ii) the prime rate; or (iii) an overnight rate at the option of the Company. The applicable interest rate is based upon the Company's ratio of total indebtedness to earnings before interest, taxes, depreciation and amortization. In addition, the Company is required to pay a commitment fee of between 0.30% and 0.50% on the unused portion of the Credit Facility. The Company's obligations under the Credit Facility are guaranteed by the Company's domestic subsidiaries.

At September 30, 2013, there were \$282,455 in borrowings and \$36,374 in letters of credit outstanding under the Credit Facility primarily to support insurance policies. At March 31, 2013, there were \$95,849 in borrowings and \$31,415 in letters of credit outstanding under the Credit Facility primarily to support insurance policies. The level of unused borrowing capacity

Table of Contents

Triumph Group, Inc.

Notes to Consolidated Financial Statements

(dollars in thousands, except per share data)

(unaudited)

6. LONG-TERM DEBT (Continued)

under the Credit Facility varies from time to time depending in part upon its compliance with financial and other covenants set forth in the related agreement. The Credit Facility contains certain affirmative and negative covenants including limitations on specified levels of indebtedness to earnings before interest, taxes, depreciation and amortization, and interest coverage requirements, and includes limitations on, among other things, liens, mergers, consolidations, sales of assets, and incurrence of debt. If an event of default were to occur under the Credit Facility, the lenders would be entitled to declare all amounts borrowed under it immediately due and payable. The occurrence of an event of default under the Credit Facility could also cause the acceleration of obligations under certain other agreements. The Company is currently in compliance with all such covenants. As of September 30, 2013, the Company had borrowing capacity under this facility of \$681,171 after reductions for borrowings and letters of credit outstanding under the facility.

Receivables Securitization Facility

In February 2013, the Company amended its \$175,000 receivable securitization facility (the "Securitization Facility") extending the term through February 2016. In connection with the Securitization Facility, the Company sells on a revolving basis certain trade accounts receivable to Triumph Receivables, LLC, a wholly-owned special-purpose entity, which in turn sells a percentage ownership interest in the receivables to commercial paper conduits sponsored by financial institutions. The Company is the servicer of the trade accounts receivable under the Securitization Facility. As of September 30, 2013, the maximum amount available under the Securitization Facility was \$175,000. Interest rates are based on prevailing market rates for short-term commercial paper, plus a program fee and a commitment fee. The program fee is 0.43% on the amount outstanding under the Securitization Facility. Additionally, the commitment fee is 0.43% on 100.00% of the maximum amount available under the Securitization Facility. At September 30, 2013, there was \$160,300 outstanding under the Securitization Facility. In connection with amending the Securitization Facility, the Company incurred approximately \$196 of financing costs. These costs, along with the \$537 of unamortized financing costs prior to the amendment, are being amortized over the life of the Securitization Facility. The Company securitizes its trade accounts receivable, which are generally non-interest bearing, in transactions that are accounted for as borrowings pursuant to the Transfers and Servicing topic of the Accounting Standards Codification.

The agreement governing the Securitization Facility contains restrictions and covenants which include limitations on the making of certain restricted payments, creation of certain liens, and certain corporate acts such as mergers, consolidations and the sale of substantially all assets.

Capital Leases

During the six months ended September 30, 2013 and 2012, the Company entered into new capital leases in the amount of \$36 and \$25, respectively, to finance a portion of the Company's capital additions for the period. During the six months ended September 30, 2013 and 2012, the Company obtained financing for existing fixed assets in the amount of \$15,688 and \$11,199, respectively.

Senior Subordinated Notes Due 2017

On November 16, 2009, the Company issued \$175,000 principal amount of 8.00% Senior Subordinated Notes due 2017 (the "2017 Notes"). The 2017 Notes were sold at 98.56% of principal amount and have an effective interest yield of 8.25%. Interest on the 2017 Notes is payable semiannually in cash in arrears on May 15 and November 15 of each year. In connection with the issuance of the 2017 Notes, the Company incurred approximately \$4,390 of costs, which were deferred and are being amortized on the effective interest method over the term of the 2017 Notes.

The 2017 Notes are senior subordinated unsecured obligations of the Company and rank subordinate to all of the existing and future senior indebtedness of the Company and the Guarantor Subsidiaries (as defined below), including

borrowings under the Credit Facility, and pari passu with the Company's and the Guarantor Subsidiaries' existing and future senior subordinated indebtedness. The 2017 Notes are guaranteed, on a full, joint and several basis, by each of the Company's domestic restricted

Table of Contents

Notes to Consolidated Financial Statements

(dollars in thousands, except per share data)

(unaudited)

6. LONG-TERM DEBT (Continued)

subsidiaries that guarantees any of the Company's debt or that of any of the Company's restricted subsidiaries under the Credit Facility, and in the future by any domestic restricted subsidiaries that guarantee any of the Company's debt or that of any of the Company's domestic restricted subsidiaries incurred under any credit facility (collectively, the "Guarantor Subsidiaries"), in each case on a senior subordinated basis. If the Company is unable to make payments on the 2017 Notes when they are due, each of the Guarantor Subsidiaries would be obligated to make such payments.

The Company has the option to redeem all or a portion of the 2017 Notes at any time prior to November 15, 2013 at a redemption price equal to 100% of the principal amount of the 2017 Notes redeemed, plus an applicable premium set forth in the Indenture for the 2017 Notes and accrued and unpaid interest, if any. The 2017 Notes are also subject to redemption, in whole or in part, at any time on or after November 15, 2013, at redemption prices equal to (i) 104% of the principal amount of the 2017 Notes redeemed, if redeemed prior to November 15, 2014, (ii) 102% of the principal amount of the 2017 Notes redeemed, if redeemed prior to November 15, 2015, and (iii) 100% of the principal amount of the 2017 Notes redeemed, if redeemed thereafter, plus accrued and unpaid interest.

Upon the occurrence of a change-of-control, the Company must offer to purchase the 2017 Notes from holders at 101% of their principal amount plus accrued and unpaid interest, if any, to the date of purchase.

The Indenture for the 2017 Notes contains covenants that, among other things, limit the Company's ability, and the ability of any of the Guarantor Subsidiaries, to (i) grant liens on its assets, (ii) make dividend payments, other distributions or other restricted payments, (iii) incur restrictions on the ability of the Guarantor Subsidiaries to pay dividends or make other payments, (iv) enter into sale and leaseback transactions, (v) merge, consolidate, transfer or dispose of substantially all of their assets, (vi) incur additional indebtedness, (vii) use the proceeds from sales of assets, including capital stock of restricted subsidiaries, and (viii) enter into transactions with affiliates. The Company is currently in compliance with all such covenants.

On October 10, 2013, the Company exercised its option to redeem the 2017 Notes and the Trustee for the 2017 Notes delivered a Notice of Redemption to the noteholders. The redemption date is November 15, 2013. The principal amount of \$175,000 will be redeemed at a price of 104% plus accrued and unpaid interest. As a result of the redemption, the Company will record a charge in the third quarter of fiscal 2014 of approximately \$11,000, consisting of early termination premium, unamortized discount and deferred financing fees.

Senior Notes Due 2018

On June 16, 2010, in connection with the acquisition of Vought, the Company issued \$350,000 principal amount of 8.63% Senior Notes due 2018 (the "2018 Notes"). The 2018 Notes were sold at 99.27% of principal amount and have an effective interest yield of 8.75%. Interest on the 2018 Notes accrues at the rate of 8.63% per annum and is payable semiannually in cash in arrears on January 15 and July 15 of each year. In connection with the issuance of the 2018 Notes, the Company incurred approximately \$7,307 of costs, which were deferred and are being amortized on the effective interest method over the term of the 2018 Notes.

The 2018 Notes are the Company's senior unsecured obligations and rank equally in right of payment with all of its other existing and future senior unsecured indebtedness and senior in right of payment to all of its existing and future subordinated indebtedness. The 2018 Notes are guaranteed on a full, joint and several basis by each of the Guarantor Subsidiaries.

The Company may redeem some or all of the 2018 Notes prior to July 15, 2014 by paying a "make-whole" premium. The Company may redeem some or all of the 2018 Notes on or after July 15, 2014 at specified redemption prices.

(unaudited)

6. LONG-TERM DEBT (Continued)

The Company is obligated to offer to repurchase the 2018 Notes at a price of (a) 101% of their principal amount plus accrued and unpaid interest, if any, as a result of certain change-of-control events and (b) 100% of their principal amount plus accrued and unpaid interest, if any, in the event of certain asset sales. These restrictions and prohibitions are subject to certain qualifications and exceptions.

The Indenture for the 2018 Notes contains covenants that, among other things, limit the Company's ability and the ability of any of the Guarantor Subsidiaries to (i) grant liens on its assets, (ii) make dividend payments, other distributions or other restricted payments, (iii) incur restrictions on the ability of the Guarantor Subsidiaries to pay dividends or make other payments, (iv) enter into sale and leaseback transactions, (v) merge, consolidate, transfer or dispose of substantially all of their assets, (vi) incur additional indebtedness, (vii) use the proceeds from sales of assets, including capital stock of restricted subsidiaries, and (viii) enter into transactions with affiliates. The Company is currently in compliance with all such covenants.

Senior Notes Due 2021

On February 26, 2013, the Company issued \$375,000 principal amount of 4.875% Senior Notes due 2021 (the "2021 Notes"). The 2021 Notes were sold at 100% of principal amount and have an effective interest yield of 4.875%.

Interest on the Notes accrues at the rate of 4.875% per annum and is payable semiannually in cash in arrears on April 1 and October 1 of each year, commencing on October 1, 2013. In connection with the issuance of the 2021 Notes, the Company incurred approximately \$6,327 of costs, which were deferred and are being amortized on the effective interest method over the term of the 2021 Notes.

The 2021 Notes are the Company's senior unsecured obligations and rank equally in right of payment with all of its other existing and future senior unsecured indebtedness and senior in right of payment to all of its existing and future subordinated indebtedness. The 2021 Notes are guaranteed on a full, joint and several basis by each of the Guarantor Subsidiaries.

The Company may redeem some or all of the 2021 Notes prior to April 1, 2017 by paying a "make-whole" premium. The Company may redeem some or all of the 2021 Notes on or after April 1, 2017 at specified redemption prices. In addition, prior to April 1, 2016, the Company may redeem up to 35% of the 2021 Notes with the net proceeds of certain equity offerings at a redemption price equal to 104.875% of the aggregate principal amount plus accrued and unpaid interest, if any, subject to certain limitations set forth in the indenture governing the 2021 Notes (the "2021 Indenture").

The Company is obligated to offer to repurchase the 2021 Notes at a price of (i) 101% of their principal amount plus accrued and unpaid interest, if any, as a result of certain change-of-control events and (ii) 100% of their principal amount plus accrued and unpaid interest, if any, in the event of certain asset sales. These restrictions and prohibitions are subject to certain qualifications and exceptions.

The 2021 Indenture contains covenants that, among other things, limit the Company's ability and the ability of any of the Guarantor Subsidiaries to (i) grant liens on its assets, (ii) make dividend payments, other distributions or other restricted payments, (iii) incur restrictions on the ability of the Guarantor Subsidiaries to pay dividends or make other payments, (iv) enter into sale and leaseback transactions, (v) merge, consolidate, transfer or dispose of substantially all of their assets, (vi) incur additional indebtedness, (vii) use the proceeds from sales of assets, including capital stock of restricted subsidiaries, and (viii) enter into transactions with affiliates.

(unaudited)

6. LONG-TERM DEBT (Continued)

Convertible Senior Subordinated Notes

On September 18, 2006, the Company issued \$201,250 in convertible senior subordinated notes (the “Convertible Notes”). The Convertible Notes are direct, unsecured, senior subordinated obligations of the Company, and rank (i) junior in right of payment to all of the Company’s existing and future senior indebtedness, (ii) equal in right of payment with any other future senior subordinated indebtedness, and (iii) senior in right of payment to all subordinated indebtedness.

The Company received net proceeds from the sale of the Convertible Notes of approximately \$194,998 after deducting debt issuance expenses of approximately \$6,252. The net proceeds from the sale were used for prepayment of the Company’s then-outstanding senior notes, including a make-whole premium, fees and expenses in connection with the prepayment, and to repay a portion of the outstanding indebtedness under the Company’s then-existing credit facility. Debt issuance costs were fully amortized as of September 30, 2011.

The Convertible Notes bear interest at a fixed rate of 2.63% per annum, payable in cash semiannually in arrears on each April 1 and October 1. During the period commencing on October 6, 2011 and ending on, but excluding, April 1, 2012 and for each six-month period from October 1 to March 31 or from April 1 to September 30 thereafter, the Company will pay contingent interest during the applicable interest period if the average trading price of a note for the five consecutive trading days ending on the third trading day immediately preceding the first day of the relevant six-month period equals or exceeds 120% of the principal amount of the Convertible Notes. The contingent interest payable per note in respect of any six-month period will equal 0.25% per annum, calculated on the average trading price of a note for the relevant five trading day period. The Company expects that this contingent interest will continue to be payable on principal that remains outstanding. This contingent interest feature represents an embedded derivative. The value of the derivative was not deemed material at September 30, 2013 due to overall market volatility, recent conversions by holders of the Convertible Notes, as well as the Company’s ability to call the Convertible Notes at any time after October 6, 2011.

Prior to fiscal 2011, the Company paid \$19,414 to purchase \$22,200 in principal amounts of the Convertible Notes. The Convertible Notes mature on October 1, 2026, unless earlier redeemed, repurchased or converted. The Company may redeem the Convertible Notes for cash, in whole or in part, at any time on or after October 6, 2011 at a redemption price equal to 100% of the principal amount of the Convertible Notes to be redeemed plus accrued and unpaid interest, including contingent interest and additional amounts, if any, up to but not including the date of redemption. In addition, holders of the Convertible Notes will have the right to require the Company to repurchase for cash all or a portion of their Convertible Notes on October 1, 2016 and 2021, at a repurchase price equal to 100% of the principal amount of the Convertible Notes to be repurchased plus accrued and unpaid interest, including contingent interest and additional amounts, if any, up to, but not including, the date of repurchase. On September 2, 2011, the Company submitted a tender offer of repurchase to the holders of the Convertible Notes, expiring October 3, 2011, and no notes were tendered for repurchase. The Convertible Notes are convertible into the Company’s common stock at a rate equal to 36.8359 shares per \$1 principal amount of the Convertible Notes (equal to an initial conversion price of approximately \$27.15 per share), subject to adjustment as described in the indenture governing the Convertible Notes. Upon conversion, the Company will deliver to the holder surrendering the Convertible Notes for conversion, for each \$1 principal amount of Convertible Notes, an amount consisting of cash equal to the lesser of \$1 and the Company’s total conversion obligation and, to the extent that the Company’s total conversion obligation exceeds \$1, at the Company’s election, cash or shares of the Company’s common stock in respect of the remainder. The Convertible Notes are eligible for conversion upon meeting certain conditions as provided in the indenture governing the Convertible Notes. For the periods from January 1, 2011 through September 30, 2013, the Convertible Notes were eligible for conversion. During the fiscal years ended March 31, 2013 and 2012, the Company settled the conversion of \$19,286 and \$50,395, respectively, in principal value of the Convertible Notes, as requested by the

respective holders, with the principal settled in cash and the conversion benefit settled through the issuance of 395,269 and 772,438 shares, respectively. During the six months ended September 30, 2013, the Company settled the conversion of \$77,262 in principal value of the Convertible Notes, as requested by the respective holders, with the principal settled in cash and the conversion benefit settled through the issuance of 1,849,596 shares. During September and October 2013, the Company received notice of conversion from holders

20

Table of Contents

Triumph Group, Inc.

Notes to Consolidated Financial Statements

(dollars in thousands, except per share data)

(unaudited)

6. LONG-TERM DEBT (Continued)

of \$17,255 in principal value of the Convertible Notes. These conversions were settled in the third quarter of fiscal 2014 with the principal settled in cash and the conversion benefit settled through the issuance of approximately 394,539 shares. In October 2013, the Company delivered a notice to holders of the Convertible Notes to the effect that, for at least 20 trading days during the 30 consecutive trading days preceding September 30, 2013, the closing price of the Company's common stock was greater than or equal to 130% of the conversion price of such notes on the last trading day. Under the terms of the Convertible Notes, the increase in the Company's stock price triggered a provision, which gave holders of the Convertible Notes a put option through December 31, 2013. Accordingly, the balance sheet classification of the Convertible Notes will be short term for as long as the put option remains in effect. To be included in the calculation of diluted earnings per share, the average price of the Company's common stock for the quarter must exceed the conversion price per share of \$27.16. The average price of the Company's common stock for the three months ended September 30, 2013 and 2012 was \$77.10 and \$60.35, respectively. Therefore, for the three months ended September 30, 2013 and 2012, there were 766,395 and 2,258,303 additional shares, respectively, included in the calculation of diluted earnings per share. The average price of the Company's common stock for the six months ended September 30, 2013 and 2012 was \$77.27 and \$60.42, respectively. Therefore, for the six months ended September 30, 2013 and 2012, there were 1,229,710 and 2,357,143 additional shares, respectively, included in the calculation of diluted earnings per share. If the Company undergoes a fundamental change, holders of the Convertible Notes will have the right, subject to certain conditions, to require the Company to repurchase for cash all or a portion of their Convertible Notes at a repurchase price equal to 100% of the principal amount of the Convertible Notes to be repurchased plus accrued and unpaid interest, including contingent interest and additional amounts if any.

7. FAIR VALUE MEASUREMENTS

The Company follows the Fair Value Measurements and Disclosures topic of the ASC, which requires additional disclosures about the Company's assets and liabilities that are measured at fair value and establishes a fair value hierarchy which requires an entity to maximize the use of observable inputs and minimize the use of unobservable inputs when measuring fair value. The standard describes three levels of inputs that may be used to measure fair value:

Level 1. Unadjusted quoted prices in active markets for identical assets or liabilities

Level 2. Unadjusted quoted prices in active markets for similar assets or liabilities, or unadjusted quoted prices for identical or similar assets or liabilities in markets that are not active, or inputs other than quoted prices that are observable for the asset or liability

Level 3. Unobservable inputs for the asset or liability

Recurring Measurements

The following table provides the assets (liabilities) reported at fair value and measured on a recurring basis as of September 30, 2013 and March 31, 2013:

Description	Level	September 30, 2013	March 31, 2013
Contingent consideration	3	\$(1,638)	\$(2,614)
Foreign exchange derivative	2	(222)	209
Non-hedge derivative	2	(102)	—

Table of Contents

Triumph Group, Inc.

Notes to Consolidated Financial Statements

(dollars in thousands, except per share data)

(unaudited)

7. FAIR VALUE MEASUREMENTS (Continued)

The fair value of the contingent consideration at the date of the acquisition of Aviation Network Services, LLC was \$1,926, which was estimated using the income approach based on significant inputs that are not observable in the market. Key assumptions included a discount rate and probability assessments of each milestone payment being made. The assumptions used to develop the estimate were updated during the six months ended September 30, 2013, based on the underlying earnings projections exceeding initial assumptions. In July 2013, the Company paid the first installment of \$1,100 related to this contingent consideration obligation.

Foreign exchange derivatives included in the table above relate to derivative financial instruments that the Company uses to manage its exposure to fluctuations in foreign currency exchange rates. Foreign currency exchange contracts are entered into to manage the exchange rate risk of forecasted foreign currency denominated cash payments. The foreign currency exchange contracts are designated as cash flow hedges. The classification of gains and losses resulting from changes in the fair values of the foreign exchange derivatives is dependent on the intended use of the derivative and its resulting designation. Adjustments to reflect changes in fair values of foreign exchange derivatives attributable to the effective portion of hedges that are considered highly effective hedges are reflected net of income taxes in accumulated other comprehensive income (loss) until the hedged transaction is recognized in earnings. Changes in the fair value of the foreign exchange derivatives that are attributable to the ineffective portion of the hedges, or of cash flow hedge that are not considered to be highly effective hedges, if any, are immediately recognized in earnings. The aggregate notional amount of our outstanding foreign currency exchange contracts at September 30, 2013 was \$9,542, with open settlement dates up to September 30, 2014. The amount of ineffectiveness on foreign exchange derivatives is not significant. The Company estimates that approximately \$141 of losses presently in accumulated other comprehensive income (loss) will be reclassified into earnings during the next twelve months. Non-hedge derivatives included in the table above relate to derivative financial instruments that the Company is using to manage its exposure to fluctuations in the Canadian dollar exchange rate as it relates to the acquisition of General Donlee Canada, Inc. (see Note 17). The non-hedge derivative is accounted for at market value with the resulting gains and losses reflected in interest expense and other in the Consolidated Statements of Income. The aggregate notional amount of our outstanding non-hedge derivative contracts at September 30, 2013 was \$106,767, with open settlement dates up to November 29, 2013.

The following table represents a rollforward of the balances of our liabilities recorded at fair value that are valued using Level 3 inputs:

	March 31, 2013 Balance	Net Purchases (Sales), Issues (Settlements)	Net Realized Appreciation (Depreciation)	Net Unrealized Appreciation (Depreciation)	September 30, 2013 Balance
Contingent consideration	\$(2,614)	\$1,100	\$(124)	\$—	\$(1,638)
	March 31, 2012 Balance	Net Purchases (Sales), Issues (Settlements)	Net Realized Appreciation (Depreciation)	Net Unrealized Appreciation (Depreciation)	September 30, 2012 Balance
Contingent consideration	\$(2,019)	\$—	\$(452)	\$—	\$(2,471)

The following table presents quantitative information for liabilities recorded at fair value using Level 3 inputs:

	September 30, 2013 Balance	Valuation Technique	Unobservable input	Range
Contingent consideration	\$(1,638)	Discounted cash flow	Earnings of acquired company	\$0 - \$1,900

The Financial Instruments topic of the ASC requires disclosure of the estimated fair value of certain financial instruments. These estimated fair values as of September 30, 2013 and March 31, 2013 have been determined using

available market

22

Table of Contents

Triumph Group, Inc.

Notes to Consolidated Financial Statements

(dollars in thousands, except per share data)

(unaudited)

7. FAIR VALUE MEASUREMENTS (Continued)

information and appropriate valuation methodologies. Considerable judgment is required to interpret market data to develop estimates of fair value. The estimates presented are not necessarily indicative of amounts the Company could realize in a current market exchange. The use of alternative market assumptions and estimation methodologies could have had a material effect on these estimates of fair value.

Nonrecurring Measurements

The sale of Triumph Instruments assets and liabilities is categorized as Level 2 within the fair value hierarchy (Note 4), as of March 31, 2013.

Financial Instruments Not Recorded at Fair Value

The carrying amounts of certain of our financial instruments, including cash and cash equivalents, accounts receivable and accounts payable, approximate fair value because of their short maturities (Level 1 inputs). Carrying amounts and the related estimated fair values of the Company's financial instruments not recorded at fair value in the financial statements are as follows:

	September 30, 2013		March 31, 2013	
	Carrying Value	Fair Value	Carrying Value	Fair Value
Long-term debt	\$ 1,448,292	\$ 1,524,557	\$ 1,329,863	\$ 1,594,800

The fair value of the long-term debt was calculated based on interest rates available for debt with terms and maturities similar to the Company's existing debt arrangements, unless quoted market prices were available (Level 2 inputs).

Except for long-term debt, the Company's financial instruments are highly liquid or have short-term maturities.

Therefore, the recorded value is approximately equal to the fair value. The financial instruments held by the Company could potentially expose it to a concentration of credit risk. The Company invests its excess cash in money market funds and other deposit instruments placed with major banks and financial institutions. The Company has established guidelines related to diversification and maturities to maintain safety and liquidity.

8. EARNINGS PER SHARE

The following is a reconciliation between the weighted-average outstanding shares used in the calculation of basic and diluted earnings per share:

	Three Months Ended September 30, (in thousands)		Six Months Ended September 30, (in thousands)	
	2013	2012	2013	2012
Weighted-average common shares outstanding – basic	51,807	49,657	51,311	49,536
Net effect of dilutive stock options and nonvested stock	247	373	273	387
Potential common shares – convertible debt	766	2,258	1,229	2,357
Weighted-average common shares outstanding – diluted	52,820	52,288	52,813	52,280

Table of Contents

Triumph Group, Inc.

Notes to Consolidated Financial Statements

(dollars in thousands, except per share data)

(unaudited)

9. INCOME TAXES

The Company follows the Income Taxes topic of the ASC, which prescribes a recognition threshold and measurement attribute criteria for the financial statement recognition and measurement of a tax position taken or expected to be taken in a tax return, as well as guidance on de-recognition, classification, interest and penalties, accounting in interim periods, disclosure and transition.

The Company has classified uncertain tax positions as noncurrent income tax liabilities unless expected to be paid in one year. Penalties and tax-related interest expense are reported as a component of income tax expense. As of September 30, 2013 and March 31, 2013, the total amount of accrued income tax-related interest and penalties was \$155 and \$236, respectively.

As of September 30, 2013 and March 31, 2013, the total amount of unrecognized tax benefits was \$7,850 and \$7,728, respectively, of which \$6,066 and \$5,945, respectively, would impact the effective rate, if recognized. The Company does not anticipate that total unrecognized tax benefits will be reduced in the next 12 months.

The effective income tax rate for the quarter ended September 30, 2013 was 31.8%, as compared to 36.5% for the quarter ended September 30, 2012. For the three months ended September 30, 2013, the income tax provision was decreased to reflect \$2,345 of benefit related to an increase in research and development tax credit carryforward and NOL carryforward. The effective income tax rate for the six months ended September 30, 2013 was 33.8% as compared to 37.4% for the six months ended September 30, 2012. For the six months ended September 30, 2013, the income tax provision was reduced to reflect unrecognized tax benefits of \$704 and additional research and development tax credit carryforward and NOL carryforward of \$2,345 as discussed above.

With few exceptions, the Company is no longer subject to U.S. federal income tax examinations for fiscal years ended before March 31, 2009, state or local examinations for fiscal years ended before March 31, 2009, or foreign income tax examinations by tax authorities for fiscal years ended before March 31, 2008.

As of September 30, 2013, the Company was subject to examination in one state jurisdiction for fiscal years ended March 31, 2009 through March 31, 2011. The Company has filed appeals in a prior state examination related to fiscal years ended March 31, 1999 through March 31, 2005. The fiscal year ended March 31, 2011 is currently being examined by the Internal Revenue Service. Because of net operating losses acquired as part of the acquisition of Vought, the Company is subject to U.S. federal income tax examinations and various state jurisdictions for the years ended December 31, 2004 and after related to previously filed Vought tax returns. The Company believes appropriate provisions for all outstanding issues have been made for all jurisdictions and all open years.

10. GOODWILL

The following is a summary of the changes in the carrying value of goodwill by reportable segment, from March 31, 2013 through September 30, 2013:

	Aerostructures	Aerospace Systems	Aftermarket Services	Total
Balance, March 31, 2013	\$1,316,450	\$344,964	\$55,986	\$1,717,400
Goodwill recognized in connection with acquisitions	21,202	—	—	21,202
Purchase accounting adjustments	33	—	—	33

Edgar Filing: TRIUMPH GROUP INC - Form 10-Q

Effect of exchange rate changes	(706)	2,226	—	1,520
Balance, September 30, 2013	\$1,336,979		\$347,190	\$55,986	\$1,740,155

Table of Contents

Triumph Group, Inc.

Notes to Consolidated Financial Statements

(dollars in thousands, except per share data)

(unaudited)

11. PENSION AND OTHER POSTRETIREMENT BENEFIT PLANS

The Company sponsors several defined benefit pension plans covering some of its employees. Certain employee groups are ineligible to participate in the plans or have ceased to accrue additional benefits under the plans based upon their service to the Company or years of service accrued under the defined benefit pension plans. Benefits under the defined benefit plans are based on years of service and, for most non-represented employees, on average compensation for certain years. It is the Company's policy to fund at least the minimum amount required for all qualified plans, using actuarial cost methods and assumptions acceptable under U.S. Government regulations, by making payments into a separate trust.

In addition to the defined benefit pension plans, the Company provides certain healthcare and life insurance benefits for eligible retired employees. Such benefits are unfunded. Employees achieve eligibility to participate in these contributory plans upon retirement from active service if they meet specified age and years of service requirements. Election to participate for some employees must be made at the date of retirement. Qualifying dependents at the date of retirement are also eligible for medical coverage. Current plan documents reserve the right to amend or terminate the plans at any time, subject to applicable collective bargaining requirements for represented employees. From time to time, changes have been made to the benefits provided to various groups of plan participants. Premiums charged to most retirees for medical coverage prior to age 65 are based on years of service and are adjusted annually for changes in the cost of the plans as determined by an independent actuary. In addition to this medical inflation cost-sharing feature, the plans also have provisions for deductibles, co-payments, coinsurance percentages, out-of-pocket limits, schedules of reasonable fees, preferred provider networks, coordination of benefits with other plans and a Medicare carve-out.

In accordance with the Compensation – Retirement Benefits topic of the ASC, the Company has recognized the funded status of the benefit obligation as of the date of the last remeasurement, in the accompanying Consolidated Balance Sheets. The funded status is measured as the difference between the fair value of the plan's assets and the PBO or accumulated postretirement benefit obligation of the plan. In order to recognize the funded status, the Company determined the fair value of the plan assets. The majority of the plan assets are publicly traded investments which were valued based on the market price as of the date of remeasurement. Investments that are not publicly traded were valued based on the estimated fair value of those investments based on our evaluation of data from fund managers and comparable market data.

Net Periodic Benefit Plan Costs

The components of net periodic benefit costs for our postretirement benefit plans are shown in the following table:

	Pension benefits			
	Three Months Ended September 30,		Six Months Ended September 30,	
	2013	2012	2013	2012
Components of net periodic benefit expense (income):				
Service cost	\$3,293	\$4,626	\$6,586	\$9,252
Interest cost	23,216	24,587	46,432	49,174
Expected return on plan assets	(37,018)	(34,333)	(74,036)	(68,667)
Amortization of prior service costs	(1,683)	(1,458)	(3,366)	(2,915)
Amortization of net loss	4,531	79	9,062	159
Special termination benefits	—	1,957	—	3,107
Net periodic benefit income	\$(7,661)	\$(4,542)	\$(15,322)	\$(9,890)

Table of Contents

Notes to Consolidated Financial Statements

(dollars in thousands, except per share data)

(unaudited)

11. PENSION AND OTHER POSTRETIREMENT BENEFIT PLANS (Continued)

	Other postretirement benefits			
	Three Months Ended September 30,		Six Months Ended September 30,	
	2013	2012	2013	2012
Components of net periodic benefit expense:				
Service cost	\$765	\$884	\$1,530	\$1,769
Interest cost	3,138	3,941	6,276	7,881
Amortization of prior service costs	(1,132) (1,133) (2,264) (2,265
Net periodic benefit expense	\$2,771	\$3,692	\$5,542	\$7,385

The Company periodically experiences events or makes changes to its benefit plans that result in special charges. Some require remeasurements. The following summarizes the key events whose effects on net periodic benefit costs are included in the tables above:

In April 2012, the Company completed an early retirement incentive offer with a portion of its second largest union-represented group of production and maintenance employees. The early retirement incentive offer provided for an increase in the pension benefits payable to covered employees who retire no later than November 30, 2012. This early retirement incentive resulted in a special termination benefit expense of \$1,150 and is presented on the accompanying Consolidated Statements of Income as "Early retirement incentive expense."

In July 2012, the Company completed a similar early retirement incentive offer to its non-represented employee participants. This early retirement incentive provided for an increase in the termination benefits payable through the pension plan to covered employees who retire no later than November 30, 2012. This early retirement incentive resulted in a special termination benefit expense of \$1,957 and is presented on the accompanying Consolidated Statements of Income as "Early retirement incentive expense," as well as severance charges of \$1,182 included in "Acquisition and integration expenses" on the accompanying Consolidated Statements of Income.

13. SEGMENTS

The Company has three reportable segments: the Aerostructures Group, the Aerospace Systems Group and the Aftermarket Services Group. The Company's reportable segments are aligned with how the business is managed and the markets that the Company serves are viewed. The Chief Operating Decision Maker (the "CODM") evaluates performance and allocates resources based upon review of segment information. The CODM utilizes earnings before interest, income taxes, depreciation and amortization ("Adjusted EBITDA") as a primary measure of segment profitability to evaluate performance of its segments and allocate resources.

The Aerostructures segment consists of the Company's operations that manufacture products primarily for the aerospace original equipment manufacturer ("OEM") market. The Aerostructures segment's revenues are derived from the design, manufacture, assembly and integration of metallic and composite aerostructures and structural components, including aircraft wings, fuselage sections, tail assemblies, engine nacelles, flight control surfaces as well as helicopter cabins. Further, the segment's operations also design and manufacture composite assemblies for floor panels and environmental control system ducts. These products are sold to various aerospace OEMs on a global basis. The Aerospace Systems segment consists of the Company's operations that also manufacture products primarily for the aerospace OEM market, as well as the related aftermarket. The segment's operations design and engineer mechanical and electromechanical controls, such as hydraulic systems, main engine gearbox assemblies, accumulators, mechanical control cables and non-structural cockpit components. These products are sold primarily to various aerospace OEMs on a global basis.

The Aftermarket Services segment consists of the Company's operations that provide maintenance, repair and overhaul services to both commercial and military markets on components and accessories manufactured by third parties. Maintenance, repair and overhaul revenues are derived from services on auxiliary power units, airframe and engine accessories, including constant-speed drives, cabin compressors, starters and generators, and pneumatic drive units. In addition, the segment's operations repair and overhaul thrust reversers, nacelle components and flight control surfaces. The segment's operations also perform repair and overhaul services and supply spare parts for various types of gauges for a broad range of commercial airlines on a worldwide basis.

Segment Adjusted EBITDA is total segment revenue reduced by operating expenses (less depreciation and amortization) identifiable with that segment. Corporate includes general corporate administrative costs and any other costs not identifiable with one of the Company's segments, including early retirement incentives, such as \$1,957 and \$3,107 of special termination benefit expenses for the three and six months ended September 30, 2012.

The Company does not accumulate net sales information by product or service or groups of similar products and services and, therefore, the Company does not disclose net sales by product or service because to do so would be impracticable. Selected financial information for each reportable segment and the reconciliation of Adjusted EBITDA to operating income is as follows:

During the three months ended September 30, 2013 and 2012, the Company had international sales of \$151,146 and \$113,468, respectively. During the six months ended September 30, 2013 and 2012, the Company had international sales of \$296,237 and \$240,579, respectively.

14. SELECTED CONSOLIDATING FINANCIAL STATEMENTS OF PARENT, GUARANTORS AND NON-GUARANTORS

The 2017 Notes, the 2018 Notes and the 2021 Notes are fully and unconditionally guaranteed on a joint and several basis by the Guarantor Subsidiaries. The total assets, stockholders' equity, revenue, earnings and cash flows from operating activities of the Guarantor Subsidiaries exceeded a majority of the consolidated total of such items as of and for the periods reported. The only consolidated subsidiaries of the Company that are not guarantors of the 2017 Notes, the 2018 Notes and the 2021 Notes (the "Non-Guarantor Subsidiaries") are: (a) the receivables securitization special-purpose entity; and (b) the international operating subsidiaries. The following tables present condensed consolidating financial statements including the Company (the "Parent"), the Guarantor Subsidiaries, and the Non-Guarantor Subsidiaries. Such financial statements include summary consolidating balance sheets as of September 30, 2013 and March 31, 2013, condensed consolidating statements of comprehensive income for the three and six months ended September 30, 2013 and 2012, and condensed consolidating statements of cash flows for the six months ended September 30, 2013 and 2012.

15. COMMITMENTS AND CONTINGENCIES

Trade Secret Litigation over Claims of Eaton Corporation

On July 9, 2004, Eaton Corporation and several of its subsidiaries ("Eaton") sued the Company, a subsidiary and certain employees of the Company and the subsidiary on claims alleging misappropriation of trade secrets and intellectual property allegedly belonging to Eaton relating to the design and manufacture of hydraulic pumps and motors used in military and commercial aviation. The subsidiary and the individual engineer defendants answered Eaton's claims and filed counterclaims, while the Company and an officer of the Company moved to dismiss for lack of personal jurisdiction. In the course of discovery in the suit, the court began an investigation of allegations of wrongdoing by Eaton in its conduct of the litigation. Eaton denied, and continues to deny, these allegations. On December 22, 2010, however, the court dismissed all of Eaton's claims with prejudice based on the court's conclusion that a fraud had been perpetrated on the court by counsel for Eaton of which Eaton was aware or should have been aware. Meanwhile, the Company, several subsidiaries, and the employees sued by Eaton are now pursuing claims (including antitrust claims) and counterclaims against Eaton based on the Eaton misconduct that led to the dismissal of Eaton's claims. Given the court's dismissal of Eaton's claims, we cannot conclude that a loss arising from Eaton's claims is probable; however, given the unusual nature and complexity of the case, we also cannot conclude that the probability of loss is remote, nor can we reasonably estimate the possible loss, or range of loss, that could be incurred by the Company if Eaton were to prevail on appeal and in the litigation that would follow. Even if Eaton were to prevail on appeal, however, we believe we have substantial defenses and would expect to defend the claims vigorously.

Other

In the ordinary course of business, the Company is also involved in disputes, claims, lawsuits, and governmental and regulatory inquiries that it deems to be immaterial. Some may involve claims or potential claims of substantial damages, fines or penalties. While the Company cannot predict the outcome of any pending or future litigation or proceeding and no assurances can be given, the Company does not believe that any pending matter will have a material effect, individually or in the aggregate, on its financial position or results of operations.

16. RELOCATION COSTS

During the fiscal year ended March 31, 2013, the Company committed to relocate the operations of its largest facility in Dallas, Texas and to expand its Red Oak, Texas ("Red Oak") facility to accommodate this relocation. The Company incurred approximately \$1,229 and \$2,444 of expenses related to the relocation during the three and six months ended September 30, 2013, respectively. The Company also incurred \$4,329 and \$6,638 of disruption and accelerated depreciation during the three and six months ended September 30, 2013, respectively, related to the relocation. The Company expects to incur approximately \$28,000 to \$40,000 in relocation and related disruption for the fiscal year ended March 31, 2014. The relocation is expected to be completed in early fiscal 2015.

17. SUBSEQUENT EVENTS

On October 4, 2013, the Company acquired all of the issued and outstanding shares of General Donlee Canada, Inc. ("General Donlee") for \$56,622 (or Canadian \$5.50 per share) plus assumed debt of \$32,382, which was settled at closing. Additionally, on October 7, 2013, the Company, at its option, called General Donlee's Convertible Notes for \$26,000, which will be paid on November 12, 2013. The acquired business will operate as Triumph Gear Systems-Toronto and will be included in the Aerospace Systems Group. General Donlee is based in Toronto, Canada and is a leading manufacturer of precision machined products for the aerospace, nuclear and oil and gas industries.

In September and October 2013, the Company received notice of conversion from holders of \$17,255 in principal value of the Convertible Notes. These conversions will be settled during the third quarter of fiscal 2014 with the principal and accrued but unpaid interest settled in cash and the conversion benefit settled through the issuance of approximately 394,539 shares.

Table Of Contents

Item 2. Management's Discussion and Analysis of Financial Condition and Results of Operations.

(The following discussion should be read in conjunction with the Consolidated Financial Statements contained elsewhere herein.)

OVERVIEW

We are a major supplier to the aerospace industry and have three operating segments: (i) Triumph Aerostructures Group, whose companies' revenues are derived from the design, manufacture, assembly and integration of both build-to-print and proprietary metallic and composite aerostructures and structural components for the global aerospace original equipment manufacturers, or OEM, market; (ii) Triumph Aerospace Systems Group, whose companies design, engineer and manufacture a wide range of proprietary and build-to-print components, assemblies and systems also for the OEM market and the related aftermarket; and (iii) Triumph Aftermarket Services Group, whose companies serve aircraft fleets, notably commercial airlines, the U.S. military and cargo carriers, through the maintenance, repair and overhaul of aircraft components and accessories manufactured by third parties. Effective May 6, 2013, the Company acquired four related entities collectively comprising the Primus Composites business ("Primus") from Precision Castparts Corp. The acquired business, which includes two manufacturing facilities in Farnborough, England and Rayong, Thailand, operates as Triumph Structures - Farnborough and Triumph Structures - Thailand and is included in the Aerostructures segment for the date of acquisition. Together, Triumph Structures - Farnborough and Triumph Structures - Thailand constitute a global supplier of composite and metallic propulsion and structural composites and assemblies. In addition to its composite operations, the Thailand operation also machines and processes metal components.

Highlights for the second quarter of the fiscal year ending March 31, 2014 included:

- Net sales for the second quarter of the fiscal year ending March 31, 2014 increased 3.1% over the prior year period to \$967.3 million.

- Operating income in the second quarter of fiscal 2014 decreased (35.0)% over the prior year period to \$93.0 million.

- Income from continuing operations for the second quarter of fiscal 2014 decreased 38.3% over the prior year period to \$49.5 million.

- Included in income from continuing operations for the second quarter of fiscal 2014 are additional program costs related to the 747-8 program of \$44.0 million.

Backlog as of September 30, 2013 increased 9.2% year over year to \$4.85 billion, and includes expected milestone payments on development contracts. Of our existing backlog of \$4.85 billion, we estimate that approximately \$2.05 billion will not be shipped by September 30, 2014.

- Income from continuing operations for the second quarter of fiscal 2014 was \$0.94 per diluted common share, as compared to \$1.53 per diluted share in the prior year period.

- We generated \$43.6 million of cash flow from operating activities for the six months ended September 30, 2013, after \$45.8 million in pension contributions, as compared to \$132.9 million in the prior year period.

Congress and the Administration failed to change or further delay the sequestration of appropriations in government fiscal year ("GFY") 2013 imposed by the Budget Control Act of 2011 (the "Budget Act") and sequestration went into effect on March 1, 2013. Our customers' budgets will be reduced significantly and there may be a direct significant reduction in our customers' contract awards. While we understand customers have started to plan for sequestration, the specific effects of sequestration are not yet available and cannot be determined by us. The automatic across-the-board cuts from sequestration will approximately double the amount of the ten-year \$487 billion reduction in defense spending that began in GFY 2012 already required by the Budget Act, including the budget for Overseas Contingencies Operations and any unobligated balances from prior years, and would have significant consequences to our business and industry. Non-DoD agencies could also have significantly reduced budgets. It is likely there will be

some disruption of our ongoing programs, impacts to our supply chain and contractual actions (including partial or complete terminations). Consequently, we expect that sequestration, or other budgetary cuts in lieu of sequestration, will have a negative effect on our corporation.

Table Of Contents

Management's Discussion and Analysis of
Financial Condition and Results of Operations
(continued)

In fiscal 2012, we began efforts to establish a new facility in Red Oak, Texas to expand our manufacturing capacity, particularly under the Bombardier Global 7000/8000 program. In fiscal 2013, we started construction on a second facility in Red Oak, Texas, in association with our relocation from our Jefferson Street facilities. As of September 30, 2013, we have incurred approximately \$38.8 million in capital expenditures and \$104.1 million in inventory costs associated with the Bombardier Global 7000/8000 program, for which we have not yet begun to deliver. As of September 30, 2013, we have incurred approximately \$78.2 million in capital expenditures and \$24.2 million in inventory buildup associated with our relocation from the Jefferson Street facilities.

As previously announced, we expect to record additional program costs during fiscal 2014 totaling approximately \$68.0 million, primarily related to the 747-8 program. We recorded incremental costs of \$43.7 million in our second quarter of fiscal 2014 of which \$26.2 million was reflected as a cumulative catch-up adjustment and expect to record approximately \$11.0 million and \$13.0 million in our third and fourth quarters of fiscal 2014, respectively, as additional units are delivered.

These amounts have resulted primarily from reductions to the profitability estimates of the our current 747-8 production lot, which was approximately 80% complete by the end of our second quarter of fiscal 2014 and is expected to be completed by the end of our third quarter of fiscal 2014. As a result of the current cost levels, the expected profitability on the next production lot, which will begin delivery in the fourth quarter of fiscal 2014, was also decreased. Both the current and future production lots are expected to be profitable and not result in loss reserves.

While we are currently projecting the recurring production contracts to be profitable, there is still a substantial amount of risk similar to what we have experienced on these programs. Particularly, our ability to manage risks related to supplier performance, execution of cost reduction strategies, hiring and retaining skilled production and management personnel, quality and manufacturing execution, program schedule delays and many other risks, will determine the ultimate performance of these programs.

The next twelve months will be a critical time for these programs as we attempt to return to baseline performance for the recurring cost structure. Recognition of forward-losses in the future periods continues to be a significant risk and will depend upon several factors including our market forecast, possible airplane program delays, our ability to successfully perform under revised design and manufacturing plans, achievement of forecasted cost reductions as we continue production and our ability to successfully resolve claims and assertions with our customers and suppliers.

Our union contract with Local 848 of the United Auto Workers with employees at our Dallas and Grand Prairie, Texas, facilities expired in October 2013. The employees are currently working without a contract. If we are unable to negotiate a new contract with that workforce, our operations may be disrupted and we may be prevented from completing production and delivery of products from those facilities, which would negatively impact our results. A contingency plan has been developed that would allow production to continue in the event of a strike.

As previously announced by Boeing in September 2013, the decision has been made to cease production of the C-17 during calendar year 2015. Major production related to this program is expected to cease during the first quarter of fiscal 2016. We have received inquiries regarding proposal for spares which could extend production through the end of fiscal 2016, as we believe the United States Air Force will want to be adequately supported for the long term. Effective October 4, 2013, the Company acquired all of the issued and outstanding shares of General Donlee Canada, Inc. ("General Donlee"). The acquired business will operate as Triumph Gear Systems-Toronto and will be included in the Aerospace Systems Group. General Donlee is based in Toronto, Canada and is a leading manufacturer of precision machined products for the aerospace, nuclear and oil and gas industries.

Effective March 18, 2013, a wholly-owned subsidiary of the Company, Triumph Engine Control Systems, LLC, acquired the assets of Goodrich Corporation (Goodrich Pump & Engine Control Systems) ("GPECS"), a leading independent aerospace fuel system supplier for the commercial, military, helicopter and business jet markets. The acquisition of GPECS provides new capabilities in a market where we did not previously participate and further diversifies our customer base in electronic engine controls, fuel metering units and main fuel pumps for both OEM

and aftermarket/spares end markets. The results for Triumph Engine Control Systems, LLC are included in the Aerospace Systems segment from the date of acquisition.

Effective December 19, 2012, the Company acquired all of the outstanding shares of Embee, Inc. ("Embee"), renamed Triumph Processing - Embee Division, Inc., which is a leading commercial metal finishing provider offering more than seventy metal finishing, inspecting and testing processes primarily for the aerospace industry. The acquisition of Embee expands our current capabilities to provide comprehensive processing services on precision engineered parts for hydraulics, landing gear, spare parts and electronic actuation systems. The results for Triumph Processing - Embee Division, Inc. are included in the

Table Of Contents

Management's Discussion and Analysis of
Financial Condition and Results of Operations
(continued)

Aerospace Systems Group segment from the date of acquisition. The acquisitions of GPECS and Embee are collectively referred to hereafter as the "fiscal 2013 acquisitions."

RESULTS OF OPERATIONS

The following includes a discussion of our consolidated and business segment results of operations. The Company's diverse structure and customer base do not provide for precise comparisons of the impact of price and volume changes to our results. However, we have disclosed the significant variances between the respective periods.

Non-GAAP Financial Measures

We prepare and publicly release quarterly unaudited financial statements prepared in accordance with GAAP. In accordance with Securities and Exchange Commission (the "SEC") guidance on Compliance and Disclosure Interpretations, we also disclose and discuss certain non-GAAP financial measures in our public releases. Currently, the non-GAAP financial measure that we disclose is Adjusted EBITDA, which is our income from continuing operations before interest, income taxes, amortization of acquired contract liabilities, curtailments and early retirement incentives and depreciation and amortization. We disclose Adjusted EBITDA on a consolidated and a reportable segment basis in our earnings releases, investor conference calls and filings with the SEC. The non-GAAP financial measures that we use may not be comparable to similarly titled measures reported by other companies. Also, in the future, we may disclose different non-GAAP financial measures in order to help our investors more meaningfully evaluate and compare our future results of operations to our previously reported results of operations.

We view Adjusted EBITDA as an operating performance measure and, as such, we believe that the GAAP financial measure most directly comparable to it is income from continuing operations. In calculating Adjusted EBITDA, we exclude from income from continuing operations the financial items that we believe should be separately identified to provide additional analysis of the financial components of the day-to-day operation of our business. We have outlined below the type and scope of these exclusions and the material limitations on the use of these non-GAAP financial measures as a result of these exclusions. Adjusted EBITDA is not a measurement of financial performance under GAAP and should not be considered as a measure of liquidity, as an alternative to net income (loss), income from continuing operations, or as an indicator of any other measure of performance derived in accordance with GAAP. Investors and potential investors in our securities should not rely on Adjusted EBITDA as a substitute for any GAAP financial measure, including net income (loss) or income from continuing operations. In addition, we urge investors and potential investors in our securities to carefully review the reconciliation of Adjusted EBITDA to income from continuing operations set forth below, in our earnings releases and in other filings with the SEC and to carefully review the GAAP financial information included as part of our Quarterly Reports on Form 10-Q and our Annual Reports on Form 10-K that are filed with the SEC, as well as our quarterly earnings releases, and compare the GAAP financial information with our Adjusted EBITDA.

Adjusted EBITDA is used by management to internally measure our operating and management performance and by investors as a supplemental financial measure to evaluate the performance of our business that, when viewed with our GAAP results and the accompanying reconciliation, we believe provides additional information that is useful to gain an understanding of the factors and trends affecting our business. We have spent more than 15 years expanding our product and service capabilities partially through acquisitions of complementary businesses. Due to the expansion of our operations, which included acquisitions, our income from continuing operations has included significant charges for depreciation and amortization. Adjusted EBITDA excludes these charges and provides meaningful information about the operating performance of our business, apart from charges for depreciation and amortization. We believe the disclosure of Adjusted EBITDA helps investors meaningfully evaluate and compare our performance from quarter to quarter and from year to year. We also believe Adjusted EBITDA is a measure of our ongoing operating performance because the isolation of non-cash charges, such as depreciation and amortization, and non-operating items, such as

interest and income taxes, provides additional information about our cost structure, and, over time, helps track our operating progress. In addition, investors, securities analysts and others have regularly relied on Adjusted EBITDA to provide a financial measure by which to compare our operating performance against that of other companies in our industry.

Set forth below are descriptions of the financial items that have been excluded from our income from continuing operations to calculate Adjusted EBITDA and the material limitations associated with using this non-GAAP financial measure as compared to income from continuing operations:

Table Of Contents

Management's Discussion and Analysis of
Financial Condition and Results of Operations
(continued)

Curtailments and early retirement incentives may be useful for investors to consider because it represents the current period impact of the change in the defined benefit obligation due to the reduction in future service costs as well as the incremental cost of retirement incentive benefits paid to participants. We do not believe these earnings necessarily reflect the current and ongoing cash earnings related to our operations.

Amortization of acquired contract liabilities may be useful for investors to consider because it represents the non-cash earnings on the fair value of off-market contracts acquired through acquisitions. We do not believe these earnings necessarily reflect the current and ongoing cash earnings related to our operations.

Amortization expense may be useful for investors to consider because it represents the estimated attrition of our acquired customer base and the diminishing value of product rights and licenses. We do not believe these charges necessarily reflect the current and ongoing cash charges related to our operating cost structure.

Depreciation may be useful for investors to consider because it generally represents the wear and tear on our property and equipment used in our operations. We do not believe these charges necessarily reflect the current and ongoing cash charges related to our operating cost structure.

The amount of interest expense and other we incur may be useful for investors to consider and may result in current cash inflows or outflows. However, we do not consider the amount of interest expense and other to be a representative component of the day-to-day operating performance of our business.

Income tax expense may be useful for investors to consider because it generally represents the taxes which may be payable for the period and the change in deferred income taxes during the period and may reduce the amount of funds otherwise available for use in our business. However, we do not consider the amount of income tax expense to be a representative component of the day-to-day operating performance of our business.

Management compensates for the above-described limitations of using non-GAAP measures by using a non-GAAP measure only to supplement our GAAP results and to provide additional information that is useful to gain an understanding of the factors and trends affecting our business.

The following table shows our Adjusted EBITDA reconciled to our net income for the indicated periods (in thousands):

	Three Months Ended September 30,		Six Months Ended September 30,	
	2013	2012	2013	2012
Net income	\$49,516	\$80,191	\$128,559	\$156,523

The fluctuations from period to period within the amounts of the components of the reconciliations above are discussed further below within Results of Operations.

Quarter ended September 30, 2013 compared to quarter ended September 30, 2012

	Quarter Ended September 30,	
	2013	2012
	(dollars in thousands)	
Net sales	\$ 967,345	\$ 938,181
Segment operating income	\$ 106,267	\$ 157,864
Corporate expenses	(13,296)	(14,917)
Total operating income	92,971	142,947
Interest expense and other	20,321	16,668
Income tax expense	23,134	46,088
Net Income	\$ 49,516	\$ 80,191

Net sales increased by \$29.2 million, or 3.1%, to \$967.3 million for the quarter ended September 30, 2013 from \$938.2 million for the quarter ended September 30, 2012. Organic sales decreased \$40.3 million, or 4.3%, due to production rate cuts on the 767 and 747-8 programs, a decrease in military sales and a decline in non-recurring revenue. The acquisition of Primus, fiscal 2013 acquisitions and the prior year divestitures contributed \$69.3 million

in net sales. Net sales for the quarter ended September 30, 2013 included \$5.3 million in total non-recurring revenues, as compared to \$15.0 million in non-recurring revenues for the quarter ended September 30, 2012. The prior year period was positively impacted by our customers' increased production rates on existing programs and new product introductions.

Table Of ContentsManagement's Discussion and Analysis of
Financial Condition and Results of Operations
(continued)

Cost of sales increased by \$67.7 million, or 9.6%, to \$771.3 million for the quarter ended September 30, 2013 from \$703.7 million for the quarter ended September 30, 2012. This increase was due to additional program costs of \$43.7 million primarily from reductions to profitability estimates of the current 747-8 production lot as well as increased sales. Gross margin for the quarter ended September 30, 2013 was 20.3% as compared to 25.0% for the prior year period. This change was impacted by additional program costs as noted above and disruption and accelerated depreciation associated with the relocation from our Jefferson Street facilities. Additionally, the gross margin included net unfavorable cumulative catch-up adjustments on long-term contracts (\$25.4 million). The cumulative catch-up adjustments to gross margin included gross favorable adjustments of \$9.8 million and gross unfavorable adjustments of \$35.1 million, of which \$26.2 million was related to the additional 747-8 program costs as mentioned above. The cumulative catch-up adjustments for the quarter ended September 30, 2013 were due primarily to inefficiency, rework, high overtime levels, increased costs from suppliers and expedited delivery charges. Gross margin for the quarter ended September 30, 2012 included net unfavorable cumulative catch-up adjustments of \$0.2 million.

Segment operating income decreased by \$51.6 million, or 32.7%, to \$106.3 million for the quarter ended September 30, 2013 from \$157.9 million for the quarter ended September 30, 2012. The organic segment operating income decreased \$55.0 million, or 35.7%, and was a direct result of the decrease in gross margins, the decreased sales noted above, costs related to the relocation from our Jefferson Street facility (\$5.8 million), additional depreciation and amortization expense associated with fiscal 2013 acquisitions and Primus (\$9.6 million), legal fees (\$2.2 million), offset by an insurance claim related to Hurricane Sandy (\$2.0 million). Segment operating income for the quarter ended September 30, 2012 was a direct result of the sales volume increases and continued realization from synergies from the acquisition of Vought, offset by net unfavorable cumulative catch-up adjustments on long-term contracts (\$0.2 million), forward loss provisions on initial production lots of early-stage programs (\$2.0 million) and increased legal fees (\$0.8 million).

Corporate expenses decreased by \$1.6 million, or 10.9%, to \$13.3 million for the quarter ended September 30, 2013 from \$14.9 million for the quarter ended September 30, 2012. This decrease was due to decreased compensation expense of \$3.2 million offset by increased legal fees of \$1.8 million during the three months ended September 30, 2013. Included in the three months ended September 30, 2012 was a \$2.0 million special termination benefit for an early retirement incentive offered to non-represented employee benefit plan participants.

Interest expense and other increased by \$3.7 million, or 21.9%, to \$20.3 million for the quarter ended September 30, 2013 compared to \$16.7 million for the prior year period. Interest expense and other for the quarter ended September 30, 2013 increased due to the issuance of the Senior Notes due 2021 resulting in higher average debt outstanding during the quarter as compared to the quarter ended September 30, 2012.

The effective income tax rate for the quarter ended September 30, 2013 was 31.8% compared to 36.5% for the quarter ended September 30, 2012. For the quarter ended September 30, 2013, the income tax provision was decreased to reflect \$2.3 million of benefit related to an increase in research and development tax credit carryforward and NOL carryforward. For the quarter ended September 30, 2012, the income tax provision included \$2.2 million of tax expense due to the recapture of domestic production deductions taken in earlier years associated with a refund claim of \$25.2 million filed in the second quarter of the fiscal year ended March 31, 2013. The refund claim receivable is included in "Other, net" in the consolidated balance sheet as of September 30, 2013. For the fiscal year ending March 31, 2014, the Company expects its effective tax rate to be approximately 35.4%, including the reinstatement of the research and development tax credit through December 2013.

Business Segment Performance

We report our financial performance based on the following three reportable segments: the Aerostructures Group, the Aerospace Systems Group and the Aftermarket Services Group. The results of operations among our operating segments vary due to differences in competitors, customers, extent of proprietary deliverables and performance. For example, our Aerostructures segment generally includes long-term sole-source or preferred supplier contracts and the success of these programs provides a strong foundation for our business and positions us well for future growth on new programs and new derivatives. This compares to our Aerospace Systems segment which generally includes proprietary products and/or arrangements where we become the primary source or one of a few primary sources to our customers, where our unique manufacturing capabilities command a higher margin. Also, OEMs are increasingly focusing on assembly activities while outsourcing more manufacturing and repair to third parties, and as a result, are less of a competitive force than in previous years. In contrast, our Aftermarket Services segment provides MRO services on components and accessories manufactured by third parties, with more diverse competition, including airlines, OEMs and other third-party service providers. In addition, variability in the timing and extent of customer requests performed in the Aftermarket Services segment can provide for greater volatility and less predictability in revenue and earnings than that experienced in the Aerostructures and Aerospace Systems segments.

The Aerostructures segment consists of the Company's operations that manufacture products primarily for the aerospace OEM market. The Aerostructures segment's revenues are derived from the design, manufacture, assembly and integration of both build-to-print and proprietary metallic and composite aerostructures and structural components, including aircraft wings, fuselage sections, tail assemblies, engine nacelles, flight control surfaces as well as helicopter cabins. Further, the segment's operations also design and manufacture composite assemblies for floor panels and environmental control system ducts. These products are sold to various aerospace OEMs on a global basis. The Aerospace Systems segment consists of the Company's operations that also manufacture products primarily for the aerospace OEM market. The segment's operations design a wide range of proprietary and build-to-print components and engineer mechanical and electromechanical controls, such as hydraulic systems, main engine gearbox assemblies, accumulators, mechanical control cables and non-structural cockpit components. These products are sold to various aerospace OEMs on a global basis and the related aftermarket.

The Aftermarket Services segment consists of the Company's operations that provide maintenance, repair and overhaul services to both commercial and military markets on components and accessories manufactured by third parties. Maintenance, repair and overhaul revenues are derived from services on auxiliary power units, airframe and engine accessories, including constant-speed drives, cabin compressors, starters and generators, and pneumatic drive units. In addition, the segment's operations repair and overhaul thrust reversers, nacelle components and flight control surfaces. The segment's operations also perform repair and overhaul services and supply spare parts for various types of cockpit instruments and gauges for a broad range of commercial airlines on a worldwide basis.

We currently generate a majority of our revenue from clients in the commercial aerospace industry, the military, the business jet industry and the regional airline industry. Our growth and financial results are largely dependent on continued demand for our products and services from clients in these industries. If any of these industries experiences a downturn, our clients in these sectors may conduct less business with us. The following table summarizes our net sales by end market by business segment. The loss of one or more of our major customers or an economic downturn in the commercial airline or the military and defense markets could have a material adverse effect on our business.

We continue to experience a higher proportion of our sales mix in the commercial aerospace end market. We recently have experienced a slight decrease in our military end market due to reductions in defense spending. Due to our continued expected growth in the commercial aerospace end market and the planned reductions in defense spending under the Budget Act, we expect the declining trend in the military end market to continue.

Aerostructures: The Aerostructures segment net sales decreased by \$23.2 million, or 3.3%, to \$690.7 million for the three months ended September 30, 2013 from \$714.0 million for the three months ended September 30, 2012. Organic sales decreased \$39.1 million, or 5.5% and the acquisition of Primus contributed \$15.9 million in net sales. Organic sales decreased primarily due to decreased delivery rates to our customers and the timing of shipments on existing programs. Net sales for the three months ended September 30, 2013 included \$5.3 million in total non-recurring revenues, as compared to \$15.0 million in total non-recurring revenues for the three months ended September 30, 2012.

Aerostructures segment cost of sales increased by \$31.7 million, or 5.8%, to \$578.3 million for the three months ended September 30, 2013 from \$546.6 million for the three months ended September 30, 2012. Organic cost of sales increased \$16.7 million, or 3.1%, and the acquisition of Primus contributed \$15.0 million to cost of sales. The organic cost of sales increase resulted from the additional 747-8 program costs, as noted previously. Organic gross margin for the three months ended September 30, 2013 was 16.6% compared with 23.4% for the three months ended September 30, 2012. The gross margin percent decreased during the three months ended September 30, 2013 as the result of a net unfavorable cumulative catch-up adjustments of \$25.4 million. Included in the net unfavorable cumulative catch-up adjustment for the three months ended September 30, 2013 were gross favorable adjustments of \$9.8 million and gross unfavorable adjustments of \$35.1 million, of which \$26.2 million was related to the 747-8 program.

Aerostructures segment operating income decreased by \$57.0 million, or 46.9%, to \$64.4 million for the three months ended September 30, 2013 from \$121.4 million for the three months ended September 30, 2012. Operating income for the three months ended September 30, 2013 was directly affected by the additional 747-8 program costs mentioned above and included a net unfavorable cumulative catch-up adjustments on long-term contracts (\$25.4 million) as discussed above, offset by lower pension and other postretirement benefit expenses (\$4.0 million). Segment operating income for the three months ended September 30, 2012 included net favorable cumulative catch-up adjustments of

\$0.2 million. These same factors contributed to the decrease in Adjusted EBITDA year over year. Aerostructures segment operating income as a percentage of segment sales decreased to 9.3% for the three months ended September 30, 2013 as compared to 17.0% for the three months ended September 30, 2012, due to the additional 747-8 program costs and other specific variances noted above.

Table Of ContentsManagement's Discussion and Analysis of
Financial Condition and Results of Operations
(continued)

Aerospace Systems: The Aerospace Systems segment net sales increased by \$55.3 million, or 36.9%, to \$205.5 million for the three months ended September 30, 2013 from \$150.1 million for the three months ended September 30, 2012. Organic sales decreased \$4.6 million, or 3.1%, and the fiscal 2013 acquisitions contributed \$60.0 million in net sales. Organic net sales decreased primarily due to decreases in military sales and to a lesser extent, a decline in non-recurring revenue.

Aerospace Systems cost of sales increased by \$36.7 million, or 36.1%, to \$138.4 million for the three months ended September 30, 2013 from \$101.7 million for the three months ended September 30, 2012. Organic cost of sales increased \$0.4 million, or 0.2%, and the fiscal 2013 acquisitions contributed \$36.3 million in cost of sales. Organic gross margin for the three months ended September 30, 2013 was 29.2% compared with 32.2% for the three months ended September 30, 2012.

Aerospace Systems segment operating income increased by \$6.0 million, or 23.4%, to \$31.7 million for the three months ended September 30, 2013 from \$25.7 million for the three months ended September 30, 2012. Operating income increased primarily due to the fiscal 2013 acquisitions (\$8.8 million). These same factors contributed to the increase in Adjusted EBITDA year over year.

Aerospace Systems segment operating income as a percentage of segment net sales decreased to 15.4% for the three months ended September 30, 2013 as compared to 17.1% for the three months ended September 30, 2012, due to the decline in organic gross margin noted above. These same factors contributed to the increase in Adjusted EBITDA margin year over year.

Aftermarket Services: The Aftermarket Services segment net sales decreased by \$3.1 million, or 4.1%, to \$73.0 million for the three months ended September 30, 2013 from \$76.1 million for the three months ended September 30, 2012. Organic net sales increased \$3.4 million, or 4.9%, and the previously divested Triumph Instruments companies contributed \$6.5 million in net sales for the three months ended September 30, 2012.

Aftermarket Services cost of sales decreased by \$1.0 million, or 1.8%, to \$55.1 million for the three months ended September 30, 2013 from \$56.1 million for the three months ended September 30, 2012. The organic cost of sales increased \$3.8 million, or 7.4%, and the previously divested Triumph Instruments companies contributed \$4.8 million to cost of sales for the three months ended September 30, 2012. Gross margin for the three months ended September 30, 2013 was 24.5% compared with 26.2% for the three months ended September 30, 2012. The decrease in gross margin was impacted by decreased military sales.

Aftermarket Services segment operating income decreased by \$0.7 million, or 6.2%, to \$10.1 million for the three months ended September 30, 2013 from \$10.8 million for the three months ended September 30, 2012. Operating income decreased primarily due to the decrease in gross margin as noted above. These same factors contributed to the decrease in Adjusted EBITDA year over year.

Aftermarket Services segment operating income as a percentage of segment sales decreased to 13.8% for the three months ended September 30, 2013 as compared with 14.2% for the three months ended September 30, 2012, due to the divestiture of Triumph Instruments, which also contributed to a decrease in Adjusted EBITDA margin.

Net sales increased by \$85.2 million, or 4.7%, to \$1.9 billion for the six months ended September 30, 2013 from \$1.8 billion for the six months ended September 30, 2012. Organic sales decreased \$60.6 million, or 3.3%, due to decreased delivery rates to our customers primarily in the 747 program, 767 program and military markets and the timing of shipments on existing programs. The acquisition of Primus, fiscal 2013 acquisitions and the year divestitures contributed \$145.0 million in net sales. Net sales for the six months ended September 30, 2013 included \$10.1 million in total non-recurring revenues, as compared to \$40.5 million in non-recurring revenues (including a \$20.0 million non-recurring termination claim settlement) for the six months ended September 30, 2012. The prior year period was positively impacted by our customers' increased production rates on existing programs and new product introductions.

Cost of sales increased \$112.9 million, or 8.3%, to \$1,467.8 million for the six months ended September 30, 2013 from \$1,354.9 million for the six months ended September 30, 2012. This increase was due to increased sales. Gross margin for the six months ended September 30, 2013 was 23.2%, as compared to 25.8% for the prior year period. This change was impacted by additional 747-8 program costs (\$43.7 million), price concessions (\$4.0 million) and the prior year gross margin was favorably impacted by a non-recurring termination claim settlement (\$7.0 million). Additionally, the gross margin included a net unfavorable cumulative catch-up adjustments on long-term contracts (\$23.0 million). The cumulative catch-up adjustments to gross margin included gross favorable adjustments of \$11.4 million and gross unfavorable adjustments of \$34.4 million, of which \$26.2 million was related to the additional 747-8 program costs as mentioned above. The cumulative catch-up adjustments for the six months ended September 30, 2013 were due primarily to inefficiency, rework, high overtime levels, increased costs from suppliers and expedited delivery charges. Gross margin for the six months ended September 30, 2012 included net unfavorable cumulative catch-up adjustments of \$4.8 million.

Segment operating income decreased by \$52.7 million, or 16.8%, to \$260.6 million for the six months ended September 30, 2013 from \$313.3 million for the six months ended September 30, 2012. The organic segment operating income decreased \$69.7 million, or 22.5%, and was a direct result of the decrease in gross margins, the decreased sales noted above, costs related to the relocation from our Jefferson Street facility (\$9.8 million), legal fees (\$3.5 million), offset by an insurance claim related to Hurricane Sandy (\$4.0 million), lower pension and other postretirement benefit expenses (\$7.3 million). Segment operating income for the six months ended September 30, 2012 was a direct result of the gross margin improvements, which included improved execution, the overall sales mix and increased realization from synergies from the acquisition of Vought.

Corporate expenses decreased by \$3.1 million, or 10.6%, to \$26.3 million for the six months ended September 30, 2013 from \$29.4 million for the six months ended September 30, 2012. This decrease is due to a \$3.1 million special termination benefit for an early retirement incentive offered to a portion of our second largest union-represented group of production and maintenance employees and our non-represented employee participants incurred during the six months ended September 30, 2012.

Interest expense and other increased by \$6.1 million, or 18.1%, to \$40.0 million for the six months ended September 30, 2013 compared to \$33.9 million for the prior year period. Interest expense and other for the six months ended September 30, 2013 increased due to the issuance of the Senior Notes due 2021 resulting in higher average debt outstanding during the quarter as compared to the quarter ended September 30, 2012.

The effective income tax rate for the six months ended September 30, 2013 was 33.8% compared to 37.4% for the six months ended September 30, 2012. For the six months ended September 30, 2013, the income tax provision was reduced to reflect unrecognized tax benefits of \$0.7 million and additional research and development tax credit carryforward and NOL carryforward of \$2.3 million. For the six months ended September 30, 2012, the income tax

provision included \$2.2 million of tax expense due to the recapture of domestic production deductions taken in earlier years associated with a refund claim of \$25.2 million filed in the second quarter of the fiscal year ended March 31, 2013. The refund claim receivable is included in "Other, net" in the consolidated balance sheet as of September 30, 2013. For the fiscal year ending March 31, 2014, the Company expects its effective tax rate to be approximately 35.4%, including the reinstatement of the research and development tax credit through December 2013.

Aerostructures: The Aerostructures segment net sales decreased by \$41.2 million, or 3.0%, to \$1,342.6 million for the six months ended September 30, 2013 from \$1,383.8 million for the six months ended September 30, 2012. Organic sales decreased \$68.4 million, or 4.9%, and the acquisition of Primus contributed \$27.2 million in net sales. Organic sales decreased primarily due to decreased delivery rates to our customers and the timing of shipments on existing programs. Net sales for the six months ended September 30, 2013 included \$10.1 million in total non-recurring revenues, as compared to \$40.5 million in total non-recurring revenues, (including a \$20.0 million non-recurring termination claim settlement) for the six months ended September 30, 2012.

Aerostructures segment cost of sales increased by \$31.9 million, or 3.0%, to \$1,080.1 million for the six months ended September 30, 2013 from \$1,048.2 million for the six months ended September 30, 2012. Organic cost of sales increased \$6.2 million, or 0.6%, and the acquisition of Primus contributed \$25.7 million to cost of sales. Organic cost of sales increase resulted from the additional 747-8 program costs (\$44.0 million). The organic gross margin for the six months ended September 30, 2013 was 19.9% compared with 24.3% for the six months ended September 30, 2012. The gross margin percent decreased during the six months ended September 30, 2013 as the result of the additional 747-8 program costs and a net unfavorable cumulative catch-up adjustments with gross favorable adjustments of \$11.4 million and gross unfavorable adjustments of \$(34.4) million. Additionally, the decrease was impacted by price concessions (\$4.0 million). Segment cost of sales for the six months ended September 30, 2013 included net unfavorable cumulative catch-up adjustments of (\$23.0 million). The prior year gross margin was favorably impacted by a non-recurring termination claim settlement (\$7.0 million).

Aerostructures segment operating income decreased by \$76.7 million, or 31.8%, to \$164.8 million for the six months ended September 30, 2013 from \$241.5 million for the six months ended September 30, 2012. Operating income for the six months ended September 30, 2013 was directly affected by the decrease in organic sales mentioned and included a net unfavorable cumulative catch-up adjustments on long-term contracts (\$23.0 million) as discussed above, costs related to the relocation from our Jefferson Street facility (\$9.8 million), offset by lower pension and other postretirement benefit expenses (\$7.3 million). Segment operating income for the six months ended

September 30, 2012 included net unfavorable cumulative catch-up adjustments of \$4.8 million offset by a non-recurring termination claim settlement (\$7.0 million). These same factors contributed to the decrease in Adjusted EBITDA year over year.

Aerostructures segment operating income as a percentage of segment sales decreased to 12.3% for the six months ended September 30, 2013 as compared to 17.5% for the six months ended September 30, 2012, due to the decrease in organic sales and other specific variances noted above.

Table Of Contents

Management's Discussion and Analysis of
Financial Condition and Results of Operations

(continued)

Aerospace Systems: The Aerospace Systems segment net sales increased by \$134.4 million, or 46.2%, to \$425.0 million for the six months ended September 30, 2013 from \$290.7 million for the six months ended September 30, 2012. Organic sales increased \$3.8 million, or 1.3%, and the fiscal 2013 acquisitions contributed \$130.6 million in net sales. Organic net sales decreased primarily due to decreased military sales and, to a lesser extent, a decline in non-recurring revenue.

Aerospace Systems cost of sales increased by \$84.1 million, or 43.0%, to \$279.7 million for the six months ended September 30, 2013 from \$195.7 million for the six months ended September 30, 2012. Organic cost of sales increased \$8.5 million, or 4.3%, and the fiscal 2013 acquisitions contributed \$76.5 million in cost of sales. Organic gross margin for the six months ended September 30, 2013 was 30.7% compared with 32.7% for the six months ended September 30, 2012.

Aerospace Systems segment operating income increased by \$25.2 million, or 51.3%, to \$74.4 million for the six months ended September 30, 2013 from \$49.2 million for the six months ended September 30, 2012. Operating income increased primarily due to the fiscal 2013 acquisitions (\$24.7 million) and organic sales growth, partially offset by increased legal fees (\$2.6 million). These same factors contributed to the increase in Adjusted EBITDA year over year.

Aerospace Systems segment operating income as a percentage of segment sales increased to 17.5% for the six months ended September 30, 2013 as compared to 16.9% for the six months ended September 30, 2012, due to the improvements in gross margin noted above, offset by the increased operating expenses such as legal fees. These same factors contributed to the increase in Adjusted EBITDA margin year over year.

Aftermarket Services: The Aftermarket Services segment net sales decreased by \$8.7 million, or 5.6%, to \$147.3 million for the six months ended September 30, 2013 from \$156.0 million for the six months ended September 30, 2012. Organic net sales increased \$4.1 million, or 2.9%, and the previously divested Triumph Instruments companies contributed \$13.2 million in net sales for the six months ended September 30, 2012. Organic net sales increased primarily due to market share gains.

Aftermarket Services cost of sales decreased by \$3.8 million, or 3.3%, to \$109.7 million for the six months ended September 30, 2013 from \$113.5 million for the six months ended September 30, 2012. The organic cost of sales increased \$5.6 million, or 5.4%, and the previously divested Triumph Instruments companies contributed \$9.4 million to cost of sales for the six months ended September 30, 2012. Organic gross margin for the six months ended September 30, 2013 was 25.6% compared with 27.3% for the six months ended September 30, 2012. The decrease in gross margin was impacted by decreased military sales.

Aftermarket Services segment operating income decreased by \$1.2 million, or 5.3%, to \$21.4 million for the six months ended September 30, 2013 from \$22.6 million for the six months ended September 30, 2012. Operating income decreased primarily due to the decrease in gross margin as noted above. These same factors contributed to the increase in Adjusted EBITDA year over year.

Aftermarket Services segment operating income as a percentage of segment sales was 14.5% for the six months ended September 30, 2013, which was unchanged from the six months ended September 30, 2012.

Liquidity and Capital Resources

Our working capital needs are generally funded through cash flows from operations and borrowings under our credit arrangements. During the six months ended September 30, 2013, we generated approximately \$43.6 million of cash flows from operating activities, used approximately \$133.8 million in investing activities and received approximately

\$79.9 million in financing activities.

For the six months ended September 30, 2013, we had a net cash inflow of \$11.8 million from operating activities, a decrease of \$90.7 million, compared to a net cash inflow of \$102.5 million from the six months ended September 30, 2012. During the six months ended September 30, 2013, net cash provided by operating activities was primarily due to increased receipts on accounts receivable of approximately \$128.0 million resulting from increased sales from the acquisitions of Embee, GPECS and Primus.

We continue to invest in inventory for new programs and additional production costs for ramp-up activities in support of increasing build rates on several programs and build ahead in anticipation of our relocation from our largest facility. During the six months ended September 30, 2013, inventory build for capitalized pre-production costs on new programs, including the Bombardier Global 7000/8000 program and the Embraer E-Jet, were \$32.1 million and \$6.8 million, respectively. Additionally, inventory build ahead of programs impacted by our facility relocation was approximately \$18.7 million and inventory build for

Table Of Contents

Management's Discussion and Analysis of
Financial Condition and Results of Operations

(continued)

mature programs, including costs associated with announced increasing build rates on several programs, was approximately \$7.3 million. Unliquidated progress payments netted against inventory increased \$16.5 million, due to timing of receipts.

Cash flows used in investing activities for the six months ended September 30, 2013 increased \$75.1 million from the six months ended September 30, 2012. Cash flows used in investing activities for the six months ended September 30, 2013, included the acquisition of Primus (\$31.3 million) and \$63.5 million in capital expenditures associated with our new facilities in Red Oak, Texas. Cash flows provided by financing activities for the six months ended September 30, 2013 increased \$153.2 million from the six months ended September 30, 2012 due to additional borrowings on our Credit Facility to fund the acquisition of Primus and settlement of the Convertible Senior Subordinated Notes ("Convertible Notes") redemptions. Cash flows used in financing activities for the six months ended September 30, 2013 included the redemption of certain Convertible Notes of \$77.3 million, as compared to \$15.0 million in the prior year period.

As of September 30, 2013, \$681.2 million was available under our revolving credit facility (the "Credit Facility"). On September 30, 2013, an aggregate amount of approximately \$282.5 million was outstanding under the Credit Facility, all of which was accruing interest at LIBOR plus applicable basis points totaling 2.0% per annum. Amounts repaid under the Credit Facility may be reborrowed.

On May 23, 2012, the Company amended the Credit Facility with its lenders to (i) increase the availability under the Credit Facility to \$1.0 billion, with a \$50.0 million accordion feature, from \$850.0 million, (ii) extend the maturity date to May 23, 2017 and (iii) amend certain other terms and covenants.

At September 30, 2013, there was \$160.3 million outstanding under our receivable securitization facility (the "Securitization Facility"). Interest rates on the Securitization Facility are based on prevailing market rates for short-term commercial paper, plus a program fee and a commitment fee.

In February 2013, the Company issued the Senior Notes due 2021 (the "2021 Notes") for \$375.0 million in principal amount. The 2021 Notes were sold at 100% of principal amount and have an effective yield of 4.875%. Interest on the 2021 Notes is payable semiannually in cash in arrears on April 1 and October 1 of each year. We used the net proceeds to repay borrowings under our Credit Facility and pay related fees and expenses, and for general corporate purposes. In connection with the issuance of the 2021 Notes, the Company incurred approximately \$6.3 million of costs, which were deferred and are being amortized on the effective interest method over the term of the notes.

In June 2010, the Company issued the Senior Notes due 2018 (the "2018 Notes") for \$350.0 million in principal amount. The 2018 Notes were sold at 99.27% of principal amount for net proceeds of \$347.5 million, and have an effective interest yield of 8.75%. Interest on the 2018 Notes is payable semiannually in cash in arrears on January 15 and May 15 of each year. We used the net proceeds as partial consideration of the acquisition of Vought. In connection with the issuance of the 2018 Notes, the Company incurred approximately \$7.3 million of costs, which were deferred and are being amortized on the effective interest method over the term of the notes.

In November 2009, the Company issued the Senior Subordinated Notes Due 2017 (the "2017 Notes") for \$175.0 million in principal amount. The 2017 Notes were sold at 98.56% of principal amount for net proceeds of \$172.5 million, and have an effective interest yield of 8.25%. Interest on the 2017 Notes is payable semiannually in cash in arrears on May 15 and November 15 of each year. We used the net proceeds for general corporate purposes, which included debt reduction, including repayment of amounts outstanding under the Credit Facility, without any permanent reduction of the commitments thereunder. In connection with the issuance of the 2017 Notes, the Company

incurred approximately \$4.4 million of costs, which were deferred and are being amortized on the effective interest method over the term of the notes.

On October 10, 2013, the Company exercised its option to redeem the 2017 Notes and the Trustee delivered a Notice of Redemption to the noteholders. The redemption date is November 15, 2013. The principal amount of \$175.0 million will be redeemed at a price of 104% plus accrued and unpaid interest. As a result of the redemption, we recorded a charge in the third quarter of fiscal 2014 of approximately \$11.0 million, consisting of early termination premium, unamortized discount and deferred financing fees.

In September 2006, the Company issued the Convertible Notes. The Convertible Notes are direct, unsecured, senior subordinated obligations of the Company, and rank (i) junior in right of payment to all of the Company's existing and future senior indebtedness, (ii) equal in right of payment with any other future senior subordinated indebtedness, and (iii) senior in right of payment to all subordinated indebtedness. The Convertible Notes mature on October 1, 2026, unless earlier redeemed, repurchased or converted. The Company may redeem the Convertible Notes for cash, either in whole or in part, at any time on

Table Of ContentsManagement's Discussion and Analysis of
Financial Condition and Results of Operations

(continued)

or after October 6, 2011 at a redemption price equal to 100% of the principal amount of the Convertible Notes to be redeemed plus accrued and unpaid interest, including contingent interest and additional amounts, if any, up to but not including the date of redemption. Prior to fiscal 2011, the Company paid \$19.4 million to purchase \$22.2 million in principal amounts of the Convertible Notes. During the fiscal years ended March 31, 2013 and 2012, the Company settled the conversion of \$19.3 million and \$50.4 million, respectively, in principal value of the Convertible Notes, as requested by the respective holders, with the principal settled in cash and the conversion benefit settled through the issuance of 395,269 shares and 772,438 shares, respectively. During the six months ended September 30, 2013, the Company settled the conversion of \$77.3 million in principal value of the Convertible Notes, as requested by the respective holders, with the principal settled in cash and the conversion benefit settled through the issuance of 1,849,596 shares. During September and October 2013, the Company received notice of conversion from holders of \$17.3 million in principal value of the Convertible Notes. These conversions were settled in the third quarter of fiscal 2014 with the principal settled in cash and the conversion benefit settled through the issuance of approximately 394,539 shares. In October 2013, the Company delivered a notice to holders of the Convertible Notes to the effect that, for at least 20 trading days during the 30 consecutive trading days preceding September 30, 2013, the closing price of the Company's common stock was greater than or equal to 130% of the conversion price of such notes on the last trading day. Under the terms of the Convertible Notes, the increase in the Company's stock price triggered a provision, which gave holders of the Convertible Notes a put option through September 30, 2013.

Capital expenditures were approximately \$119.3 million for the six months ended September 30, 2013, including the construction of our facilities in Red Oak, Texas and manufacturing machinery and equipment. We funded these expenditures through cash generated from operations and borrowings under the Credit Facility. We expect capital expenditures and investments in new major programs of approximately \$340.0 million to \$360.0 million for our fiscal year ending March 31, 2014, of which \$115.0 million will be reflected in inventory. The expenditures are expected to be used mainly to expand capacity or replace old equipment at several facilities.

The expected future cash flows for the next five years for long-term debt, leases and other obligations are as follows:

Contractual Obligations	Payments Due by Period (dollars in thousands)				
	Total	Less than 1 year	1-3 years	3-5 years	More than 5 years
Debt principal (1)	\$1,451,525	\$48,896	\$188,205	\$473,805	\$740,619
Debt interest (2)	582,554	65,600	130,419	35,027	351,508
Operating leases	125,387	22,388	36,033	23,255	43,711
Contingent payments	1,900	900	1,000	—	—
Purchase obligations	1,663,552	1,048,509	578,630	35,660	753
Total	\$3,824,918	\$1,186,293	\$934,287	\$567,747	\$1,136,591

(1) Included in the Company's balance sheet at September 30, 2013, plus discounts on the 2017 Notes and the 2018 Notes of \$1.5 million and \$1.7 million, respectively, being amortized to expense through November 2017 and July 2018, respectively.

(2) Includes fixed-rate interest only.

The above table excludes unrecognized tax benefits of \$7.9 million as of September 30, 2013 since we cannot predict with reasonable certainty the timing of cash settlements with the respective taxing authorities.

The table also excludes our defined pension benefit obligations. We made contributions to our defined benefit pension plans of \$109.8 million and \$122.2 million in fiscal 2013 and 2012, respectively. We expect to make total pension and

postretirement plan contributions of \$119.6 million to our benefit plans during fiscal 2014. For the six months ended September 30, 2013, the Company made pension contributions of \$45.8 million versus \$56.0 million for the six months ended September 30, 2012. The Company is required to make minimum contributions to its defined benefit pension plans under the minimum funding requirements of the Employee Retirement Income Security Act of 1974, the Pension Funding Equity Act of 2004 and the Pension Protection Act of 2006.

We believe that cash generated by operations and borrowings under the Credit Facility will be sufficient to meet anticipated cash requirements for our current operations for the foreseeable future. However, we have a stated policy to grow through acquisitions and are continuously evaluating various acquisition opportunities. As a result, we currently are pursuing the potential purchase of a number of candidates. In the event that more than one of these transactions are successfully

Table Of Contents

Management's Discussion and Analysis of
Financial Condition and Results of Operations
(continued)

consummated, the availability under the Credit Facility might be fully utilized and additional funding sources may be needed. There can be no assurance that such funding sources will be available to us on terms favorable to us, if at all.

Critical Accounting Policies

The Company's critical accounting policies are discussed in Management's Discussion and Analysis of Financial Condition and Results of Operations and notes accompanying the consolidated financial statements that appear in the Annual Report on Form 10-K for the fiscal year ended March 31, 2013. Except as otherwise disclosed in the financial statements and accompanying notes included in this report, there were no material changes subsequent to the filing of the Annual Report on Form 10-K for the fiscal year ended March 31, 2013 in the Company's critical accounting policies or in the assumptions or estimates used to prepare the financial information appearing in this report.

Forward-Looking Statements

This report contains forward-looking statements within the meaning of the Private Securities Litigation Reform Act of 1995 relating to our future operations and prospects, including statements that are based on current projections and expectations about the markets in which we operate, and our beliefs concerning future performance and capital requirements based upon current available information. Such statements are based on our beliefs as well as assumptions made by and information currently available to us. When used in this document, words like “may,” “might,” “will,” “expect,” “anticipate,” “believe,” “potential,” and similar expressions are intended to identify forward-looking statements. Actual results could differ materially from our current expectations. For example, there can be no assurance that additional capital will not be required or that additional capital, if required, will be available on reasonable terms, if at all, at such times and in such amounts as may be needed by us. In addition to these factors, among other factors that could cause actual results to differ materially are uncertainties relating to the integration of acquired businesses, general economic conditions affecting our business, dependence of certain of our businesses on certain key customers as well as competitive factors relating to the aviation industry. For a more detailed discussion of these and other factors affecting us, see the risk factors described in our Annual Report on Form 10-K for the fiscal year ended March 31, 2013, filed with the Securities and Exchange Commission in May 2013.

Item 3. Quantitative and Qualitative Disclosures About Market Risk.

For information regarding our exposure to certain market risks, see “Item 7A. Quantitative and Qualitative Disclosures About Market Risk” in our Annual Report on Form 10-K for the fiscal year ended March 31, 2013. There has been no material change in this information during the period covered by this report.

Table Of Contents

Item 4. Controls and Procedures.

(a) Evaluation of disclosure controls and procedures.

We maintain disclosure controls and procedures that are designed to ensure that information required to be disclosed in our reports pursuant to the Securities Exchange Act of 1934 is recorded, processed, summarized and reported within the time periods specified in the Securities and Exchange Commission's rules and forms, and that such information is accumulated and communicated to our management, including our chief executive officer and chief financial officer, as appropriate, to allow timely decisions regarding required disclosure. In designing and evaluating the disclosure controls and procedures, management recognized that any controls and procedures, no matter how well designed and operated, can provide only reasonable assurance of achieving the desired control objectives, and management necessarily was required to apply its judgment in evaluating the cost-benefit relationship of possible controls and procedures.

As of September 30, 2013, we completed an evaluation, under the supervision and with the participation of our management, including our chief executive officer and chief financial officer, of the effectiveness of the design and operation of our disclosure controls and procedures. Based on the foregoing, our chief executive officer and chief financial officer concluded that our disclosure controls and procedures were effective at the reasonable assurance level as of September 30, 2013.

(b) Changes in internal control over financial reporting.

There were no changes that occurred during the fiscal quarter covered by this Quarterly Report on Form 10-Q that have materially affected, or are reasonably likely to materially affect, our internal controls over financial reporting.

TRIUMPH GROUP, INC.

Part II. Other Information

Item 1. Legal Proceedings.

On July 9, 2004, Eaton Corporation and several Eaton subsidiaries filed a complaint against us, our subsidiary, Frisby Aerospace, LLC (now named Triumph Actuation Systems, LLC), certain related subsidiaries and certain employees of ours and our subsidiaries. The complaint was filed in the Circuit Court of the First Judicial District of Hinds County, Mississippi and alleged nineteen causes of action under Mississippi law (“the civil case”). In particular, the complaint alleged the misappropriation of trade secrets and intellectual property allegedly belonging to Eaton relating to hydraulic pumps and motors used in military and commercial aviation. Triumph Actuation Systems and the individual defendants filed separate responses to Eaton's claims. Triumph Actuation Systems filed counterclaims against Eaton alleging common law unfair competition, interference with existing and prospective contracts, abuse of process, defamation, violation of North Carolina's Unfair and Deceptive Trade Practices Act, and violation of the false advertising provisions of the Lanham Act. We and defendant Jeff Frisby, President of Triumph Actuation Systems at the time the engineer defendants were hired, moved to dismiss the complaint for lack of personal jurisdiction. In the course of protracted discovery and related litigation over the conduct of discovery, on January 4, 2008, the judge in the civil case, Judge Bobby DeLaughter, recused himself on his own motion. The case was reassigned to Chief Judge W. Swan Yerger. On January 24, 2008, Triumph Actuation Systems filed a motion to stay all discovery in order to review and reconsider Judge DeLaughter's prior orders based on the ongoing federal investigation of an alleged ex parte and inappropriate relationship between Judge DeLaughter and Ed Peters, a lawyer representing Eaton for whom Judge DeLaughter had worked prior to his appointment to the bench. Judge DeLaughter was thereafter suspended from the bench and indicted by a federal grand jury sitting in the Northern District of Mississippi. On July 30, 2009, Judge DeLaughter pled guilty to a count of obstruction of justice contained in the indictment and, on November 13, 2009, was sentenced to 18 months in federal prison.

Triumph Actuation Systems filed other motions relating to this alleged inappropriate relationship with Mr. Peters, including a motion for sanctions. Judge Yerger ordered that this conduct be examined and undertook, along with a newly appointed Special Master, to review Judge DeLaughter's rulings in the case from the time Mr. Peters became involved. On December 22, 2010, the court entered a final order dismissing with prejudice all of the claims that had been asserted by Eaton. The order of dismissal fully ended the litigation of claims by Eaton in the civil case. On December 28, 2010, Eaton filed a notice of appeal to the Mississippi Supreme Court appealing the order of dismissal and other matters.

On December 28, 2010, Triumph, Triumph Actuation Systems and the engineer defendants filed a motion for leave to amend the counterclaims which remained pending to include causes of action based on the Eaton misconduct that led to the dismissal of their claims. Judge Yerger retired from the bench on December 31, 2010, and the matter was reassigned to Judge Jeffrey Weill. On March 14, 2011, Judge Weill granted the motion for leave to amend the counterclaims which were filed on March 18, 2011. Second Supplemental and Amended Counterclaims were filed on February 14, 2013 and discovery proceeded toward a trial on the counterclaims.

In the meantime, Eaton's appeal of the order of dismissal has been briefed and argued before the Mississippi Supreme Court and the parties are awaiting a ruling. Eaton also appealed a ruling by the trial court in the proceedings on the counterclaims of the Triumph-related parties that would have required Eaton to produce to the Triumph-related parties several documents that Eaton claims to be protected by the attorney-client privilege. The Mississippi Supreme Court has stayed all proceedings in the trial court pending its decision whether to order those documents produced.

Accordingly, the trial will not begin on November 4th as previously disclosed, and the parties must wait for a ruling from the Mississippi Supreme Court that lifts the stay.

On February 1, 2011, Triumph Actuation Systems filed a complaint in the District Court for the Middle District of North Carolina against Eaton Corporation and several of its subsidiaries alleging three counts of antitrust violations

under the Sherman Act based on the various actions and misconduct of Eaton and its subsidiaries in the Mississippi civil case. Eaton filed counterclaims, essentially repeating the claims that had been dismissed by Judge Yerger in the Mississippi civil case. Triumph Actuation Systems moved to dismiss Eaton's counterclaims, which the court granted on September 30, 2013. A

58

Table Of Contents

TRIUMPH GROUP, INC.

scheduling conference in that case has been set for November 21, 2013.

Given the fact of Eaton's appeal of the dismissal of its claims, it is too early to determine what, if any, exposure to liability Triumph Actuation Systems or the Company might face as a result of the civil suit. We intend to continue to vigorously defend the dismissal of Eaton's claims on appeal and to vigorously prosecute the counterclaims brought by Triumph Actuation Systems.

Item 6. Exhibits.

- Exhibit 31.1 Certification by President and CEO Pursuant to Rule 13a-14(a)/15d-14(a).
- Exhibit 31.2 Certification by Executive Vice President and CFO Pursuant to Rule 13a-14(a)/15d-14(a).
