### ITEM 1. DESCRIPTION OF BUSINESS

#### GENERAL DEVELOPMENT OF BUSINESS

Global Med Technologies, Inc. was organized under the laws of the State of Colorado in December 1989.

In 1995, Global Med Technologies, Inc merged with the Wyndgate Group, Inc. ("Wyndgate"). Wyndgate operates as a division of Global Med Technologies, Inc. and designs, develops, markets and supports information management software products for blood banks, hospitals, centralized transfusion centers and other healthcare related facilities.

During 1999, Global Med Technologies, Inc. formed a majority-owned subsidiary, PeopleMed.com, Inc. ( PeopleMed ), a Colorado corporation, to develop a software application designed to give HMO providers and other third party payers, access to clinical information for chronic disease patients. This application allows doctors and other medical employees access to a patient's history. PeopleMed offers chronic disease management as an Application Service Provider ( ASP ). PeopleMed's system uses the Internet to coordinate sources and users of a patient's clinical information, including laboratory, pharmacy, primary and specialty care providers, claims and medical records.

PeopleMed is owned 83% by Global Med Technologies, Inc. and 17% by third parties including certain executive officers and directors of Global Med Technologies, Inc. Global Med Technologies, Inc. and PeopleMed are referred to collectively herein as the "Company" or "Global Med".

#### RELATED PARTIES

Global Med is financed primarily through lending arrangements with Global Med China & Asia Limited (GMCAL). These lending arrangements were originated by eBanker USA.com, Inc. ( eBanker ) and transferred, along with eBanker's ownership in Global Med, to GMCAL in October 2002. Ownership in GMCAL was transferred to an unrelated third party in November 2002. eBanker, through a subsidiary, maintains various controls, as well as a security interest, in the lending arrangements, until such time as certain events occur. Until November 28, 2001, eBanker was a consolidated subsidiary of eVision International, Inc. ( eVision ). eVision is majority owned by Heng Fung Holdings Limited ( Heng Fung formerly known as Online Credit International Limited) and its subsidiary, Online Credit Limited ( Online Credit ). Currently, Online Credit and GMCAL are shareholders of Global Med. Until November 2001 and November 2002, eVision and eBanker through a subsidiary, respectively, were also shareholders of Global Med. Additionally, eVision and GMCAL each hold warrants to acquire 1 million and 11.186 million shares, respectively, of Global Med's common stock with exercise prices that range from \$0.25-\$0.50 per share. As discussed further below and in the accompanying financial statements, in November 2000, eBanker and Global Med entered into a series of equity transactions that resulted in Global Med becoming a consolidated subsidiary of eBanker and eVision effective November 2000.

Additionally, eVision and certain other subsidiaries of Heng Fung provide various management, legal and accounting support services to Global Med. See the discussion of these related party transactions in Notes 1 and 2 in the accompanying consolidated financial statements.

As a result of these transactions and relationships, the financial condition and results of operations for Global Med may not necessarily be indicative of those that would have resulted if Global Med were unaffiliated with these entities.

#### DESCRIPTION OF BUSINESS

### **Principal Products and Their Markets**

The Company designs, develops, markets and supports information management software products for blood banks, hospitals, centralized transfusion centers and other health care related facilities. Revenues are derived from the licensing of software, maintenance, the provision of consulting and other value added support services, and the resale of hardware and software obtained from vendors.

Wyndgate began development of a blood tracking system called SAFETRACE® to assist community blood centers, hospitals, plasma centers and outpatient clinics in the U.S. in complying with the quality and safety standards of the Food and Drug Administration ( FDA ) for the collection and management of blood and blood products.

The Company has completed the development of SAFETRACE® and SAFETRACETX®, a transfusion management information system that is designed to be used by hospitals and centralized transfusion centers to help insure the quality of blood transfused into patient-recipients. SAFETRACETX® provides electronic cross-matching capabilities to help insure blood compatibility with patient-recipients and will track, inventory, bill and document all activities with blood products from the time blood products are received in inventory to the time the blood products are used or returned to blood centers. SAFETRACE TX® complements SAFETRACE®, because the combined SAFETRACE TX® and SAFETRACE® software system is now able to integrate hospitals with blood centers and provide a vein-to-vein tracking of the blood supply. SAFETRACE TX® received FDA clearance on January 29, 1999.

The Company continues to concentrate its development efforts on enhancements to its existing SAFETRACE® blood bank product and SAFETRACE TX®. The FDA has cleared both products for sale in the United States. See the statement of operations and section in Note 1 SOFTWARE DEVELOPMENT COSTS in Note 1 in the accompanying consolidated Financial Statements.

In 1999, the Company introduced PeopleMed. PeopleMed supports chronic disease management as an ASP. PeopleMed's system uses the Internet to coordinate sources of information and users of a patient's clinical information, including laboratory, pharmacy, primary and specialty care providers, claims, and medical records. See Note 10, BUSINESS SEGMENT INFORMATION in the accompanying consolidated Financial Statements.

All of the Company's revenues were generated from providing products and services to end users located throughout the United States.

### **Competition**

Currently, the Company is aware of two primary competitors to its SAFETRACE® software product: MAK-SYSTEM Corp. in France, and MEDIWARE INFORMATION SYSTEMS, Inc. in the United States. There are four primary competitors in the United States to its SAFETRACE TX® product, Misys plc., MEDIWARE Information Systems, Inc., SCC Soft Computer and Cerner Corp. Some of these competitors are larger and have greater resources than the Company.

The Company believes it is able to compete on the basis of the capabilities of the technology currently available in SAFETRACE® and SAFETRACE TX®.

4

---

### **Dependence on Major Customers**

The Company, through its Wyndgate division, currently has 35 SAFETRACE® customers and 54 SAFETRACE TX® customers with approximately 100 sites in the United States. It intends to continue to target domestic and international blood centers, plasma centers and hospital donor and transfusion centers.

During the year ended December 31, 2002, the Company had one customer that accounted for 15.4%, or \$1.022 million, of the Company's revenues. Of the \$1.022 million in revenues, \$500 thousand was attributable to the customer terminating a five-year contract with PeopleMed. See footnote 1 of the audited financial statements for discussion. During the years ended December 31, 2001 and 2000 there were no customers accounting for more than 10% of revenues.

### **ROYALTY AND COMMISSION AGREEMENTS**

**The Royalty Group.** Pursuant to a development agreement between Wyndgate and the Royalty Group, Wyndgate developed SAFETRACE® and must make royalty payments to the Royalty Group based on a percentage of Wyndgate's SAFETRACE® license fees collected, measured by cash received from SAFETRACE® licensees, net of certain fees and charges. The royalty schedule is based upon the first date of SAFETRACE® license invoicing, which was September 14, 1995. The royalty amounts are computed as a percentage of software license fees collected. The Company has not paid any royalties for the years ended December 31, 2000, 2001, or 2002.

**The Institute for Transfusion Medicine.** Pursuant to a development agreement between Wyndgate and The Institute for Transfusion Medicine ( ITXM ), Wyndgate developed SAFETRACE TX® and must make royalty payments to ITXM, based on a percentage of Wyndgate's SAFETRACE TX® license fees paid. The royalty amounts are computed as a percentage of net software license fees. The Company has not paid any royalties for the years ended December 31, 2000, 2001, or 2002.

**Ortho Clinical Diagnostics, Inc.** In 1996, the Company entered into an Exclusivity and Software Development Agreement (the Exclusivity Agreement ) with Ortho-Clinical Diagnostics, Inc. ( OCD ), successor to Ortho Diagnostic Systems Inc., a wholly owned subsidiary of Johnson & Johnson. The Exclusivity Agreement provided OCD the exclusive right to negotiate with the Company with respect to the Company's activities and developments in information technology and intellectual property relating to donor and transfusion medicine. In connection with this agreement, the Company received \$500 thousand in 1996, which was recorded as deferred revenue.

In May 1997, the Company received a request from OCD to continue its evaluation of the Company's technology, on a non-exclusive basis, with the intent of responding to the Company by July 14, 1997 regarding whether or not OCD would propose some form of transaction with the Company. The Company received an additional \$500 thousand from OCD during 1997 which was recorded as deferred revenue until the Company provided the software development services as defined in the Exclusivity Agreement. The Company finalized the Manufacturer's Representative and Software Development Agreement ( OCD Agreement ) during June 1999 making OCD the exclusive *in-vitro* diagnostics manufacturer's representative for the SAFETRACE TX® product in defined territories around the world. The total of \$1 million which was included in deferred revenue as of December 31, 1998 is being recognized as follows: \$500 thousand was recognized ratably over the term of the 22 month contract which ended in June of 2001 and \$500 thousand will be recognized upon completion of development work in the future as mutually agreed, which has not yet occurred.

**Siemens Medical Solutions Health Services Corporation.** During September of 1999, the Company entered into a non-exclusive marketing and support agreement with Shared Medical Systems Corporation ( SMS ). Under this agreement, SMS will market the Company's blood bank products on a preferred basis. The Company will pay a commission to SMS based on the software license fee for each sale SMS has facilitated. The initial term of the agreement was for three years from the signing date of this agreement.

**Sysmex Infosystems America, Inc.** During 2000, the Company entered into a non-exclusive marketing and support agreement with Sysmex Infosystems America, Inc. ( SIA ). Under this agreement, SIA will market the Company's blood bank products on a preferred basis. The Company will pay a commission to SIA based on the software license fee for each sale SIA has facilitated.

**Triple G Systems Group, Inc.** During 2000, the Company entered into a non-exclusive marketing and support agreement (the Non-Exclusive Agreement #2 ) with Triple G Systems Group, Inc. ( Triple G ). Triple G, under the Non-Exclusive Agreement #2, will market the Company's SAFETRACE TX® products on a preferred basis. The Company will pay to Triple G a commission based on a percentage of the software license fee that Triple G facilitates through their marketing efforts.

**National Jewish Medical and Research Center.** In November 2000, the Company, through its PeopleMed subsidiary, entered into a development and non-exclusive Marketing Agreement with National Jewish Medical and Research Center ( National Jewish ). Under the terms of this agreement, the Company will pay National Jewish a royalty for all sales of PeopleMed's products that use National Jewish's protocols. In addition, in February 2002, PeopleMed signed a Sales and Marketing Agreement with National Jewish, whereby National Jewish will be paid a commission for sales of PeopleMed's products facilitated by National Jewish.

**Cardiovascular Disease Management, LLC.** In May 2001, the Company, through its PeopleMed subsidiary, entered into a development and non-exclusive marketing agreement with Cardiovascular Disease Management ( CVDM ). Under the terms of this agreement, the Company will pay CVDM a royalty for all sales of PeopleMed's products that use CVDM's protocols.

#### GOVERNMENT APPROVAL AND REGULATION

## Edgar Filing: GLOBAL MED TECHNOLOGIES INC - Form 10-K

The FDA requires all blood tracking application software vendors to submit a 510(k) application for review. The application process for FDA review and compliance with FDA guidelines relates to computer software products regulated as medical devices. The FDA considers software products intended for the following to be medical devices: (i) use in the manufacture of blood and blood components; or (ii) maintenance of data used to evaluate the suitability of donors and the release of blood or blood components for transfusion or further manufacturing. As medical device manufacturers, the Company and its competitors are required to register with the Center for Biologics Evaluation and Research (CBER), list their medical devices, and submit a pre-market notification or application for pre-market review. In April 1997, the Company's Wyndgate division received notification from the FDA of its finding of substantial equivalence of SAFETRACE®. This determination provides a 510(k) clearance and permits the Company to continue to market SAFETRACE®. On January 29, 1999, the 510(k) clearance was received for SAFETRACE TX®.

6

---

The Company's products and services are subject to regulations adopted by governmental authorities, including the FDA, which governs blood center computer software products regulated as medical devices. The Company is also required to follow applicable Quality System Regulations (QSR) of the FDA, which include testing, control and documentation requirements, as well as similar requirements in other countries, including International Standards Organization (ISO) 9001 standards.

In 1996 Congress passed legislation that impacted the healthcare information management. The Healthcare Information Portability and Accountability Act (HIPAA) requires the Department of Health and Human Services (HHS) to enact standards for information sharing, security and patient confidentiality. Although HHS has not issued clarification on many of the topics under HIPAA, the Company believes these regulations will have an important impact on requiring advanced management information systems that will enable various healthcare organizations to comply with emerging requirements.

HIPAA contains provisions regarding the confidentiality and security of patient medical record information. Standards for the electronic handling of health data and security of patient information became effective in 2000. This legislation requires the Secretary of Health and Human Services, or HHS, to (a) adopt national standards for electronic health information transactions, (b) adopt standards to ensure the integrity and confidentiality of health information, and (c) establish a schedule for implementing national health data privacy legislation or regulations. The standards and legislation will impact the customers' ability to obtain, use or disseminate patient information, which will extend to their use of the Company's products. The Company believes that the proposed standards issued to date would not materially affect the business of the Company. The Company cannot determine the potential impact of the standards that might finally be adopted.

### **FINANCING AGREEMENTS WITH RELATED PARTIES**

In April 1998, Global Med entered into financing agreements with Online Credit and Fronteer Capital, Inc. (Fronteer Capital), a subsidiary of eVision. Online Credit committed to extend a line of credit in the amount of \$1.5 million and Fronteer Capital committed to extend \$1.65 million under separate agreements. The interest rate under both agreements was 12% per annum. In consideration for the commitments, Global Med issued Online Credit and Fronteer Capital warrants to purchase 6 million and 1 million shares, respectively, of Global Med common stock exercisable at \$0.25 per share. Fronteer Capital was granted an additional warrant to acquire 5 million shares of Global Med common stock at \$0.25 per share upon the initial borrowing under the financing agreement. Additionally, Online Credit was granted the right to appoint five members to the Board of Directors of Global Med so long as there are any amounts outstanding under its original agreement. Online Credit has appointed such members to the Board of Directors of Global Med. In the event of default, amounts due under these commitments were convertible into common shares of Global Med at \$0.05 per share.

In October 1998, eBanker and Global Med agreed to an assignment of the loan commitment from Fronteer Capital, excluding the warrant to purchase 1 million shares of common stock issued in connection with the commitment. Global Med issued eBanker a warrant to purchase 5 million shares of Global Med common stock at \$0.25 per share upon initial borrowing under the financing agreement in October 1998. Additionally, in October 1998, eBanker purchased from Online Credit \$1 million of its \$1.5 million total notes receivable from Global Med and a warrant to purchase 4 million shares of common stock of Global Med at \$0.25 per share for a total purchase price of \$1.1 million.

As of December 31, 1998, Global Med owed eBanker the \$1.65 million under Fronteer Capital's original financing agreement, plus the \$1 million under Online Credit's original financing agreement, for a total of \$2.65 million.

## Edgar Filing: GLOBAL MED TECHNOLOGIES INC - Form 10-K

Additionally, as of December 31, 1998, Global Med owed Online Credit \$500 thousand under its financing agreement. Amounts borrowed under these agreements were initially due in April 1999.

In March 1999, Online Credit exercised its remaining 2 million warrants in cancellation of the remaining \$500 thousand it had extended to Global Med. Additionally, eBanker extended the due date for the \$2.65 million outstanding under its financing agreements with Global Med until April 15, 2000. In consideration for the extension, Global Med paid eBanker a 2% fee in the form of 42.4 thousand shares of Global Med common stock and the default conversion feature of the loans was increased from \$0.05 per share to \$0.25 per share.

In March 1999, eBanker extended a \$750 thousand bridge loan to Global Med due in December 1999. The outstanding bridge loan balance was convertible into common shares of Global Med at the rate of \$1.13 per share. The bridge loan bore interest at 12% and eBanker was paid a 2% commitment fee in the form of approximately 13 thousand shares of Global Med's common stock.

In April 1999, Online Credit entered into a bridge loan commitment with Global Med for \$2 million due in April 2000. The outstanding bridge loan balance was convertible into shares of Global Med at the rate of \$1.15 per share. The bridge loan bore interest at 12% and Online Credit was paid a 5% commitment fee in the form of approximately 87 thousand shares of Global Med's common stock.

In October 1999, Online Credit, as agreed to by Global Med, assigned to eBanker its \$2 million bridge loan commitment to Global Med and transferred to eBanker the 87 thousand shares of Global Med common stock issued in consideration for the loan commitment to eBanker. Also in October 1999, eVision and eBanker entered into a lock up agreement whereby Global Med issued 50 thousand and 450 thousand shares of its common stock to eVision and eBanker, respectively, in consideration for eVision and eBanker agreeing to restrict sales of their holdings of Global Med common stock and warrants for a period of one year.

In December 1999, the \$750 thousand bridge loan was extended to September 2000. In consideration for the extension, eBanker received a 2% fee in the form of 13 thousand shares of Global Med common stock and the conversion rate was reduced from \$1.15 per share to \$0.50 per share.

At December 31, 1999, \$4.4 million was outstanding under eBanker's financing agreements with Global Med and \$1 million remained available under the bridge loan commitment of eBanker.

In April 2000, the \$2.65 million loans and the \$2 million bridge loan were extended to January 2001. Under the terms of the extension, if the loans were not repaid by January 2001, they would automatically extend to April 2001, the conversion features would be eliminated and eBanker would be granted warrants to acquire Global Med common stock at \$0.50 per share. The number of warrants to be issued would be based on the total principal and interest outstanding divided by the exercise price of \$0.50 per share. A conversion feature was added to the \$2.65 million loans that entitled eBanker to convert the loans into shares of Global Med common stock at a rate of \$1.68 per share. Additionally, the \$750 thousand bridge loan was extended to January 2001. In consideration for these extensions, eBanker was paid a 2% fee in the form of 160 thousand shares of Global Med common stock.

In November 2000, eBanker agreed to exercise warrants to purchase 8 million shares of common stock of Global Med at \$0.25 per share in exchange for canceling \$2 million of its notes receivable from Global Med. The remaining \$3.4 million outstanding under the various financing agreements and accrued interest of \$428.7 thousand were combined into one agreement and the due date was extended to July 1, 2001. Global Med agreed to pay interest of 12% per annum on a semi-annual basis, with the first interest payment due May 19, 2001.

The 8 million shares of common stock were issued on February 28, 2001 and are considered outstanding as of November 19, 2000. In consideration for the extension of the remaining principal and interest, eBanker received a fee of 5% payable in 197.6 thousand shares of common stock of Global Med. As the principal and interest were not paid in full by July 1, 2001, the due date of the principal automatically extended to July 1, 2003 and Global Med issued eBanker warrants to acquire up to 10.186 million shares of Global Med common stock with an exercise price of \$0.50 per share. Also, on July 1, 2001, the outstanding debt was no longer convertible into the common stock of the Company at \$1.00 per share. Additionally, upon the occurrence of certain events related to a certain contract Global Med was negotiating, Global Med would have the right, at its discretion, to put its shares of common stock worth up to \$1.5 million to eBanker at \$0.50 per share in the form of exchanging debt for common stock. The outstanding loan balance was convertible into the common stock of Global Med at eBanker's option at a

## Edgar Filing: GLOBAL MED TECHNOLOGIES INC - Form 10-K

rate of \$1.00 per share until July 1, 2001. The default conversion rate under this extension was \$1.00 per share. As consideration for this provision, eBanker was issued 500 thousand restricted shares of Global Med common stock. As a result of these transactions, eBanker obtained control of Global Med and Global Med was reflected in eBanker's consolidated financial statements as a consolidated subsidiary effective November 19, 2000.

The financing agreements are secured by all of Global Med's assets including its shares in PeopleMed and the assets of PeopleMed and Global Med, including intellectual property. As part of the November 19, 2000 Loan Agreement, the personal guarantee of Dr. Michael I. Ruxin, as dated August 12, 1998, and assigned to eBanker, was reduced from \$1.5 million to \$650 thousand, plus pro rata accrued interest. The personal guarantee is limited to certain of Dr. Ruxin's assets. As part of the November 19, 2000 Loan Agreement, Global Med agreed to register and maintain registration for all present and future shares including underlying warrants, belonging to eBanker. Global Med may file a registration statement for these shares and warrants during 2003.

If Global Med defaults on the repayment of any amount borrowed under financing agreements, all existing members of the board of directors of Global Med will be required to resign and GMCAL will have the right to appoint all new members.

At December 31, 2000, principal of \$3.829 million and accrued interest of \$54 thousand were outstanding under the financing agreements between eBanker and Global Med and there were no remaining amounts available under the commitment agreement.

On March 22, 2001, Global Med and eBanker entered into an interest payment option agreement that provided that Global Med have the option, with five days prior written notice, to elect and pay to eBanker, before July 1, 2001, Global Med's entire interest payment calculated for the life of loan agreement dated November 19, 2000, in the form of 1.747 million shares of Global Med common stock (calculated at \$0.6875 per share, which was the prevailing market price on March 22, 2001). In the event that Global Med pays down any principal on the loan prior to July 1, 2003, eBanker will return a number of shares determined by calculating the pro-rata interest avoided due to early repayment of principal divided by \$0.6875 per share. eBanker will this calculation on July 1, 2001, July 1, 2002 and July 1, 2003.

On June 20, 2001, the Company elected to exercise the interest payment option. As a result, eBanker was issued 1.747 million shares of the Company's common stock as payment for the interest expense on the Company's outstanding loan balance with eBanker of \$3.829 million through the loan's maturity date of July 1, 2003. These shares were valued at \$1.188 million based on the market value of the common stock on June 20, 2001. The Company recorded \$681 thousand in a contra-equity account associated with the issuance of these shares as of December 31, 2001. In addition, \$277 thousand in accrued interest related to the eBanker loan was eliminated from the Company's accrued expenses balance as of June 30, 2001, as a result of this transaction. After this transaction, the effective interest rate on the loan remained at 12% per annum.

On July 1, 2001, in accordance with the terms of the existing financing agreement, eBanker received the right to warrants to acquire up to 10.186 million shares of Global Med common stock with an exercise price of \$0.50 per share. These warrants were valued at \$510 thousand. On July 1, 2001, the maturity date of the note payable was automatically extended to July 1, 2003; and as of that date, the outstanding debt is no longer convertible into the common stock of the Company at \$1.00 per share. If Global Med defaults on repayment of any amount borrowed under the existing financing agreement, all existing members of the Board of Directors of Global Med will be required to resign and GMCAL will have the right to appoint all new members. The warrants expire on July 1, 2011. Pursuant to the November 2000 financing agreement between the Company and eBanker, the Company is obligated to maintain current registration on the shares, underlying the warrants, for resale under the Securities Act of 1933 ( "1933 Act" ). The Company used independent, third party consultants for estimating the fair value of the warrants to purchase 10.186 million shares of the Company's common stock. The warrants were valued at \$510 thousand. The Company recorded \$510 thousand in deferred financing costs associated with the issuance of these warrants as of July 1, 2001. The Company is ratably amortizing the costs associated with these warrants over 24 months, the remaining life of the note payable as of July 1, 2001. The Company recognized approximately \$128 thousand in financing costs related to the issuance of these warrants in 2001, and \$255 thousand in financing costs related to the issuance of these warrants in 2002.

9

---

At December 31, 2001, principal of \$3.829 million, and \$681 thousand in a contra-equity account associated with the issuance of common shares for prepaid interest were outstanding under the terms of this financing agreement.

In June 2002, the Company entered into an agreement whereby Global Med International Holdings Limited ( "GMIHL" ), a related foreign entity owned by eBanker, advanced \$200 thousand to the Company in the form of a note payable (the "Note" ). The Note is due on July 1, 2003 and bears no interest. In lieu of interest, the Note holder will receive the following consideration:

o

## Edgar Filing: GLOBAL MED TECHNOLOGIES INC - Form 10-K

Global Med commits to obtain GMIHL written approval before committing to issue Global Med common shares either directly, or through derivative instrument, in transactions pursuant to which Global Med will receive net proceeds per share of less than \$1 after expenses, fees and expenditures commitments (except pursuant to employee and consulting options, warrants and/or stock bonuses approved by Global Med's Board of Directors and/or pursuant to any existing contractual commitment, including, but not limited to any currently outstanding stock options and warrants). GMIHL will have full authority in providing or withholding this approval.

- o GMIHL will receive exclusive marketing rights for a period of 36 months to certain Asian Countries. These rights will survive the repayment of the Note. These rights will continue for an additional 36 months if certain revenue commitments are achieved during the initial 36-month period. For each 36-month period thereafter, these commitments will be extended for an additional 36 months if certain additional commitments are received. The Note acknowledges that the exclusive marketing rights granted under the Note contain exceptions for certain countries for which there were marketing agreements in place as of the effective date of the Note.

In the absence of a stated interest rate on the Note, an interest rate of 12% has been imputed to the Note. In addition, the value of the exclusivity agreement is deemed to be \$24 thousand, the same amount of the imputed interest over the life of the loan. The value of the exclusivity agreement is being amortized ratably over the 36-month exclusivity period.

If Global Med defaults on the repayment of any amount borrowed under the financing agreements initiated with eBanker, all existing members of the Board of Directors of Global Med will be required to resign and GMCAL will have the right to appoint all new members. At December 31, 2002 and 2001, principal of \$3.829 million and \$221 thousand, respectively, in a contra-equity account associated with the issuance of shares for prepaid interest were outstanding under the terms of this financing agreement. At December 31, 2002, principal of \$200 thousand and a discount of \$12 thousand were outstanding between GMIHL and Global Med.

On April 7, 2003, GMCAL and Global Med entered into an agreement to extend the repayment date of the \$3.829 million loan from July 1, 2003 to January 1, 2004. As part of the November 19, 2000 Loan Agreement, there exists a personal guarantee of Dr. Michael I. Ruxin, up to \$650 thousand plus pro rata accrued interest. The personal guarantee is limited to certain of Dr. Ruxin's assets and remains in full force and effect. In consideration for the extension, Global Med agreed to pay GMCAL a fee of \$287 thousand which includes the extension fee and all interest due for the period from July 1, 2003 to January 1, 2004. As of the date of this agreement, the Global Med has paid GMCAL \$200 thousand of the \$287 thousand extension fee and the remaining \$87 thousand for the extension fee and interest is due January 1, 2004.

### ITEM 5. MARKET FOR REGISTRANT'S COMMON EQUITY AND RELATED STOCKHOLDER MATTERS

#### Market Information

The Units sold by the Company in its initial public offering, each of which consisted of two shares of common stock and one warrant, commenced trading on the Nasdaq Small-Cap Market on February 12, 1997. On March 13, 1997, the common stock and warrants ( Class A ) included in the Units began to trade separately and the Units ceased to trade. On February 9, 1998, the Company's common stock and warrants were delisted from the Nasdaq Small-Cap Market, and commenced trading on the OTC Bulletin Board. OTC Bulletin Board Market quotations reflect inter-dealer prices, without retail mark-up, markdown or commission, and may not necessarily represent actual transactions. The registered publicly traded Class A common stock purchase warrants described above expired on February 11, 2003.

The following table sets forth the quarterly high and low bid prices for the Company's common stock for the two years ended December 31, 2002.

On April 7, 2003, GMCAL and Global Med entered into an agreement to extend the repayment date of the \$3.829 million loan from July 1, 2003 to January 1, 2004. As of December 31, 2002, this debt was classified as a long-term debt because it was refinanced prior to the date the financial statements were issued.

## ITEM 7. MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS

### FORWARD-LOOKING STATEMENTS AND ASSOCIATED RISKS

*This Annual Report on Form 10-K contains certain forward-looking statements within the meaning of Section 27A of the 1933 Act and Section 21E of the Securities Exchange Act of 1934, as amended ( 1934 Act ), and the Company intends that such forward-looking statements be subject to the safe harbors for such statements under such sections. The Company's forward-looking statements include the plans and objectives of management for future operations, including plans and objectives relating to the Company's planned marketing efforts and future economic performance of the Company. The forward-looking statements and associated risks set forth in this Annual Report on Form 10-K include or relate to among other things: (i) the ability of the Company to obtain a meaningful degree of consumer acceptance for its software products and proposed software products, (ii) the ability of the Company to market its software products and proposed software products on a national and international basis at competitive prices, (iii) the ability of the Company's software products and proposed software products to meet government regulations and standards, (iv) the ability of the Company to develop and maintain an effective national and international sales network, (v) success of the Company in forecasting demand for its software products and proposed software products, (vi) the ability of the Company to maintain pricing and thereby maintain adequate profit margins, (vii) the ability of the Company to achieve adequate intellectual property protection for the Company's software products and proposed software products, and (viii) the ability of the Company and its customers to successfully and timely implement the Company's software products.*

*The forward-looking statements herein are based on current expectations that involve a number of risk and uncertainties. Such forward-looking statements are based on assumptions that, among other things, the Company will market and provide software products on a timely basis, that there will be no material adverse competitive or technological change in condition of the Company's business, that demand for the Company's software products will significantly increase, that the Company's Chief Executive Officer will remain employed as such by the Company, that the Company's forecasts accurately anticipate market demand and that there will be no material adverse change in the Company's operations, business or governmental regulation affecting the Company or its suppliers. The foregoing assumptions are based on judgments with respect to, among other things, future economic, competitive and market conditions, and future business decisions, all of which are difficult or impossible to predict accurately and many of which are beyond the Company's control. Accordingly, although the Company believes that the assumptions underlying the forward-looking statements are reasonable, any such assumption could prove to be inaccurate and therefore there can be no assurance that the results contemplated in forward-looking statements will be realized. In addition, as disclosed elsewhere in this Annual Report on Form 10-K, there are a number of other risks inherent in the Company's business and operations which could cause the Company's operating results to vary markedly and adversely from prior results or the results contemplated by the forward-looking statements. Growth in absolute and relative amounts of cost of sales, research and development, sales and marketing and other operating expenses or the occurrence of other events could cause actual results to vary materially from the results contemplated by the forward-looking statements. Management decisions, including budgeting, are subjective in many respects and periodic revisions must be made to reflect actual conditions and business developments, the impact of which may cause the Company to alter its marketing, capital investment and other expenditures, may also materially and adversely affect the Company's liquidity, financial position and results of operations. In light of significant uncertainties inherent in the forward-looking information included in this Annual Report on Form 10-K, the inclusion of such information should not be*

regarded as a representation by the Company or any other person that the Company's objectives or plans will be achieved.

## CRITICAL ACCOUNTING POLICIES

Management's Discussion and Analysis of Financial Condition and Results of Operations is based upon our consolidated financial statements, which have been prepared in accordance with accounting principles generally accepted in the United States. The preparation of these financial statements requires management to make estimates and assumptions that affect the reported amounts of assets, liabilities, revenue and expenses, and related disclosure of contingent assets and liabilities. Management bases its estimates on historical experience and on various other assumptions that are believed to be reasonable under the circumstances, the results of which form the basis for making judgments about the carrying values of assets and liabilities that are not readily apparent from other sources. Actual results may differ from these estimates under different assumptions or conditions.

## GENERAL

The Company designs, develops, markets and supports information management software products for blood banks, hospitals, centralized transfusion centers and other health care related facilities. Revenues for Wyndgate are derived from the licensing of software, the provision of consulting and other value-added support services and the re-sale of hardware and software obtained from vendors. Revenues for PeopleMed are derived, generally, from providing ASP services. The Company operates in two segments.

## YEAR ENDED DECEMBER 31, 2002 COMPARED TO YEAR ENDED DECEMBER 31, 2001

### RESULTS OF OPERATIONS

**Revenues.** Revenues are comprised of software sales, maintenance and usage fees revenues, implementation and consulting revenues, and the re-sale of hardware and software obtained from vendors.

Revenues from license fees, maintenance and usage fees decreased \$152 thousand, or 3.1% to \$4.717 million for the year ended December 31, 2002 compared to \$4.869 million for the year ended December 31, 2001. The decrease in these revenues was due primarily to a \$895 thousand decrease in license fees, partially offset by a \$248 thousand increase in usage fees, and a \$522 thousand increase in PeopleMed revenues. Of the \$522 thousand increase in PeopleMed revenues, \$500 thousand was the direct result of a contract termination fee.

Revenues from implementation and consulting services increased \$555 thousand or 41.0% to \$1.910 million for the year ended December 31, 2002 compared to \$1.355 million for the year ended December 31, 2001. The increase in 2002 was attributable to an increase in implementation revenues of \$215 thousand. This increase was the result of more SAFETRACE TX® customers being implemented in 2002 compared with 2001. In addition, the Company's consulting services revenues increased by approximately \$316 thousand primarily, as a result of a single consulting contract acquired and completed during 2002.

**Cost of Revenues.** Cost of revenues related to software license fees, maintenance and usage fees decreased \$260 thousand, or 17.8%, to \$1.2 million for the year ended December 31, 2002, from \$1.46 million for the year ended December 31, 2001. The decrease was mainly due to decreases in software amortization cost of \$115 thousand and a decrease in royalty expenses of \$34 thousand.

Cost of revenues associated with implementations and other consulting revenues increased \$371 thousand, or 35.3%, to \$1.421 million during the year ended December 31, 2002 when compared to \$1.05 million for the year ended December 31, 2001. The increase in costs is primarily due to an increase of \$228 thousand in implementation costs and an increase of \$138 thousand in costs associated with engineering and consulting contracts.

The overall gross profit as a percentage of revenues was 60.4% and 59.7% for the years ended December 31, 2002 and 2001, respectively.

**General and Administrative.** General and administrative expenses decreased \$584 thousand, or 23.1%, to \$1.945 million for the year ended December 31, 2002 compared to \$2.529 million for the year ended December 31, 2001. The reduction in general and administrative expenses was primarily due to a reduction in investor relations fees of \$256 thousand associated with the cancellation of an investor relations agreement in 2001, a reduction in fees paid to a director for consulting services of \$210 thousand associated with the issuance of 300 thousand shares in 2001, a reduction in contract services fees of \$72 thousand, a decrease in bad debt expense of \$72 thousand, offset by an increase in legal expenses of

\$38 thousand.

**Sales and Marketing.** Sales and marketing expenses were \$1.426 million and \$1.545 million for the years ended December 31, 2002 and 2001, respectively. The decrease in sales and marketing expenses of \$119 thousand, or 7.7%, was primarily attributable to lower commissions expense as a result of decreased sales of new software systems during 2002 compared to 2001.

**Research and Development.** Research and development expenses increased \$159 thousand, or 52.0%, to \$465 thousand for the year ended December 31, 2002 from \$306 thousand for the year ended December 31, 2001. Research and development costs increased during the year ended December 31, 2002 primarily as a result of a \$75 thousand increase in PeopleMed-related development costs and a reduction of \$86 thousand in capitalized software development costs, mainly as a result of lower levels of software capitalization on SafeTrace Tx® during 2002 compared with 2001.

**Interest Income.** Interest income decreased \$10 thousand to \$15 thousand in 2002 from \$25 thousand in 2001.

**Interest Expense.** Interest expense increased \$3 thousand to \$481 thousand for the year ended December 31, 2002 from \$478 thousand for the year ended December 31, 2001.

**Financing Costs.** For the years ended December 31, 2002 and 2001, the Company recognized \$255 thousand and \$317 thousand, respectively, in financing costs expenses associated with certain financing agreements and the issuance of warrants to eBanker. The decrease in financing costs was due to amortization costs associated with the November 2000 Financing Agreement with eBanker being completed in June of 2001, and replaced by a lower level of financing costs associated with the issuance of certain warrants to eBanker in July 2001.

**Net Loss.** The Company's net loss during 2002 as compared to 2001 decreased \$985 thousand. The net loss includes the recognition of a total of \$255 thousand and \$317 thousand of financing costs to a related party during the year ended December 31, 2002 and 2001, respectively.

## YEAR ENDED DECEMBER 31, 2001 COMPARED TO YEAR ENDED DECEMBER 31, 2000

### RESULTS OF OPERATIONS

**Revenues.** Revenues are comprised of software sales, maintenance and usage fees revenues, implementation and consulting revenues, and the re-sale of hardware and software obtained from vendors.

Revenues from license fees, maintenance and usage fees increased \$1.353 million, or 38.5% to \$4.869 million for the year ended December 31, 2001 compared to \$3.516 million for the year ended December 31, 2000. The increase in these revenues was due primarily to a \$669 thousand increase in license fees, a \$371 thousand increase in usage fees, and a \$247 thousand increase in PeopleMed revenues.

Revenues from implementation and consulting services increased \$492 thousand or 57.0% to \$1.355 million for the year ended December 31, 2001 compared to \$863 thousand for the year ended December 31, 2000. The increase in 2001 was primarily attributable to an increase in implementation revenues of \$332 thousand. This increase was the result of SafeTrace Tx® systems being implemented in 2001 when compared with 2000.

**Cost of Revenues.** Cost of revenues related to software license fees, maintenance and usage fees increased \$336 thousand, or 29.9% to \$1.46 million for the year ended December 31, 2001 from \$1.124 million for the year ended December 31, 2000. The increase was mainly due to increased costs associated with maintenance. Cost of revenues associated with implementations and other consulting revenues increased \$545 thousand, or 107.9% to \$1.05 million during the year ended December 31, 2001 compared to \$505 thousand for the year ended December 31, 2000. The increase in costs is associated with increased levels of implementation and an increase of \$368 thousand in costs associated with an engineering contract.

## Edgar Filing: GLOBAL MED TECHNOLOGIES INC - Form 10-K

The overall gross profit as a percentage of revenues was 59.7% and 62.8% for the years ended December 31, 2001 and 2000, respectively.

**General and Administrative.** General and administrative expenses decreased \$237 thousand, or 8.6%, to \$2.529 million for the year ended December 31, 2001, compared to \$2.766 million for the year ended December 31, 2000. The reduction in general and administrative expenses was primarily due to a reduction in contract services fees of \$217 thousand, a reduction in legal expenses of \$18 thousand, and a reduction in accounting fees of \$78 thousand, offset by an increase in bad debt expense of \$96 thousand.

**Sales and Marketing.** Sales and marketing expenses were \$1.545 million and \$1.417 million for the years ended December 31, 2001 and 2000, respectively. The increase in sales and marketing expenses of \$128 thousand, or 9.0%, was primarily attributable to higher commissions and labor expenses. These increases were partially offset by lower tradeshow and other marketing related expenses.

**Research and Development.** Research and development expenses decreased \$403 thousand, or 56.8%, to \$306 thousand for the year ended December 31, 2001 from \$709 thousand for the year ended December 31, 2000. The decrease in research and development expenses was primarily due to decreased development efforts associated with PeopleMed software products. Management anticipates research and development costs will continue to be substantial. Management's plans for the Company's future software products and services require continual research and development expenditures in order to continue to capitalize on the Company's existing technological base and its existing software development capabilities.

**Interest Income.** Interest income increased \$9 thousand to \$25 thousand in 2001 from \$16 thousand in 2000.

**Interest Expense.** Interest expense decreased \$140 thousand to \$478 thousand for the year ended December 31, 2001 from \$618 thousand for the year ended December 31, 2000. This decrease was primarily due to decreases in the average debt levels associated with the Company's related party financing agreements.

**Financing Costs.** For the years ended December 31, 2001 and 2000, the Company recognized \$317 thousand and \$1.984 million, respectively, in financing costs expenses associated with certain financing agreements and the issuance of warrants to eBanker. During 2000, the Company recognized \$940 thousand in financing costs associated with this sale of stock to eVision.

**Net Loss.** The Company's net loss during 2001 as compared to 2000 decreased \$3.2 million. The net loss includes the recognition of a total of \$317 thousand and \$1.984 million of financing costs to a related party during the year ended December 31, 2001 and 2000, respectively.

### Quarterly Results of Operations

The following table sets forth certain unaudited quarterly results of operations for each of the quarters in the years ended December 31, 2002 and 2001. In management's opinion, this unaudited information has been prepared on the same basis as the audited consolidated financial statements and includes all adjustments necessary for a fair presentation of the information for the quarters presented, when read in conjunction with the Company's Consolidated Financial Statements and Notes thereto, included elsewhere in this Form 10-K. Included in the results for the three months ended December 31, 2002, the Company recognized \$500 thousand in revenues related to the termination of a contract with a significant customer. The Company believes that quarter-to-quarter comparisons of its financial results are not necessarily meaningful and should not be relied upon as an indication of future performance.

**LIQUIDITY AND CAPITAL RESOURCES**

The Company had cash and cash equivalents of \$1.007 million and \$677 thousand as of December 31, 2002 and 2001, respectively. Additionally, the Company had a net working capital deficit of \$827 thousand and \$1.186 million as of December 31, 2002 and 2001, respectively.

As of December 31, 2002, the Company's \$4.017 million in related party financing was due and payable on July 1, 2003. On April 7, 2003, GMCAL and Global Med entered into an agreement to extend the repayment date of the \$3.829 million loan from July 1, 2003 to January 1, 2004. As part of the November 19, 2000 Loan Agreement, there exists a personal guarantee of Dr. Michael I. Ruxin, up to \$650 thousand plus pro rata accrued interest. The personal guarantee is limited to certain of Dr. Ruxin's assets and remains in full force and effect. In consideration for the extension, Global Med agreed to pay GMCAL a fee of \$287 thousand which includes the extension fee and all interest due for the period from July 1, 2003 to January 1, 2004. As of the date of this agreement, the Global Med has paid GMCAL \$200 thousand of the \$287 thousand extension fee and the remaining \$87 thousand for the extension fee and interest is due January 1, 2004.

It is expected that cash flows from the Company's existing customer base, new sales, and the Company's current assets, including cash and accounts receivable, will be sufficient to fund the Company's liquidity and capital requirements for the next twelve months excluding acquisitions or major new product development initiatives. Management anticipates that the cash, accounts receivable balances, recurring revenues, proceeds from the sale of common stock, and any future financing activities will be used to fund the Company's anticipated research and development costs, sales and marketing efforts during the remainder of 2003 and for general working capital purposes. The Company continues to pursue financing alternatives through the issuance of additional equity or debt.

Net cash provided by operating activities was \$547 thousand during 2002. The Company used \$100 thousand and \$570 thousand in operating activities during 2001 and 2000, respectively. The cash provided by operations of \$547 thousand during 2002 consisted primarily of the net loss of \$705 thousand, offset by non-cash charges of \$1.422 million, less changes in operating assets and liabilities of \$170 thousand.

Net cash used by investing activities was \$458 thousand, \$300 thousand, and \$318 thousand during 2002, 2001, and 2000, respectively. The Company invested \$122 thousand, \$208 thousand and \$273 thousand in capitalized software development during 2002, 2001, and 2000, respectively. For 2002 and 2001, the Company provided \$290 thousand and \$80 thousand, respectively, to fund notes receivable to a related party.

Net cash provided by financing activities was \$241 during 2002. Net cash used by financing activities was \$133 thousand during 2001. Net cash provided by financing activities in 2000 was \$1.768 million. The 2000 amounts primarily include proceeds from the related party financing agreements.

**IMPACT OF INFLATION**

Although it is difficult to predict the impact of inflation on our costs and revenues in connection with our products, we do not anticipate that inflation will materially impact our costs of operation or the profitability of our products when marketed.

**RECENTLY ISSUED FINANCIAL ACCOUNTS STANDARDS**

In August 2001, the FASB issued SFAS No. 143, Accounting for Asset Retirement Obligations. SFAS No. 143 requires the fair value of a liability for an asset retirement obligation to be recognized in the period in which it is incurred if a reasonable estimate of fair value can be made. The associated asset retirement costs are capitalized as part of the carrying amount of the long-lived asset. SFAS No. 143 is effective September 30, 2003 for the Company. The Company believes the adoption of this statement will have no material impact on its consolidated financial statements.

In October 2001, the FASB issued SFAS No. 144, Accounting for the Impairment or Disposal of Log-Lived Assets. SFAS 144 requires that those long-lived assets be measured at the lower of carrying amount or fair value, less cost to sell, whether reported in continuing operations or in discontinued operations. Therefore, discontinued operations will no longer be measured at net realizable value or include amounts for operating losses that have not yet occurred. SFAS 144 is effective for financial statements issued for fiscal years beginning after December 15, 2001 and, generally, are to be applied prospectively. The adoption of this statement did not have a material effect on the Company's financial position or results of operations.

In April 2002, the FASB issued SFAS No. 145, Rescission of FASB Statements No. 4, 44, 64, Amendment of FASB Statement No. 13, and Technical Corrections, (SFAS No. 145), which will be effective for the Company beginning January 1, 2003. SFAS No. 145 rescinds SFAS Nos. 4, 44, 64 and amends SFAS No. 13, Accounting for Leases, to eliminate an inconsistency between the required accounting for sale-leaseback transactions and the required accounting for certain lease modifications that have economic effects that are similar to sale-leaseback transactions. Global Med does not expect the adoption of this Statement to have a material impact on its consolidated financial position or results of operations.

## Edgar Filing: GLOBAL MED TECHNOLOGIES INC - Form 10-K

In June 2002, the FASB issued SFAS No. 146, *Accounting for Costs Associated with Exit or Disposal Activities*. This standard nullifies Emerging Issues Task Force Issue No. 94-3, *Liability Recognition for Certain Employee Termination Benefits and Other Costs to Exit an Activity (including Certain Costs Incurred in a Restructuring)*. This standard requires that a liability for a cost associated with an exit or disposal activity be recognized when the liability is incurred rather than the date of an entity's commitment to an exit plan. Global Med is required to implement SFAS No. 146 on January 1, 2003. Global Med does not expect this standard to have a material impact on its consolidated financial position or results of operations.

In November 2002, the FASB issued Interpretation No. 45, *Guarantor's Accounting and Disclosure Requirements for Guarantees, Including Indirect Guarantees of Indebtedness of Others*, which expands previously issued accounting guidance and disclosure requirements for certain guarantees. The Interpretation requires an entity to recognize an initial liability for the fair value of an obligation assumed by issuing a guarantee. The provision for initial recognition and measurement of the liability will be applied on a prospective basis to guarantees issued or modified after December 31, 2002. Global Med does not expect this Interpretation to have a material impact on its consolidated financial position or results of operations.

In December 2002, the FASB issued SFAS No. 148, *Accounting for Stock-Based Compensation Transition and Disclosure* an amendment of FASB Statement No. 123, which provides optional transition guidance for those companies electing to voluntarily adopt the accounting provisions of SFAS No. 123. In addition, the statement mandates certain interim disclosures that are incremental to those required by SFAS No. 123. Global Med will continue to account for stock-based compensation in accordance with APB No. 25. As such, Global Med does not expect this standard to have a material impact on its consolidated financial position or results of operations. Global Med has adopted the disclosure-only provisions of SFAS No. 148 at December 31, 2002.

In January 2003, the FASB issued Interpretation No. 46, *Consolidation of Variable Interest Entities (VIEs)*, an Interpretation of ARB No. 51, which requires all VIEs to be consolidated by the primary beneficiary. The primary beneficiary is the entity that holds the majority of the beneficial interests in the VIE.

In addition, the interpretation expands disclosure requirements for both VIEs that are consolidated as well as VIEs from which the entity is the holder of a significant amount of the beneficial interests, but not the majority. The disclosure requirements of this interpretation are effective for all financial statements issued after January 31, 2003. The consolidation requirements of this interpretation are effective for all periods beginning after June 15, 2003. Global Med does not expect this Interpretation to have a material impact on its consolidated financial position or results of operations.

### **ITEM 7A. QUANTITATIVE AND QUALITATIVE DISCLOSURES ABOUT MARKET RISK.**

Market risk as it relates to Global Med generally represents the risk of loss that may result from the potential change in the value of a financial instrument as a result of fluctuations in interest rates. Global Med is exposed to interest rate risk in its notes payable. Interest rate risk results when the market rate of the debt instruments decreases for notes payable. All of the Company's outstanding debt is with GMCAL. The Company attempts to reduce interest rate risk by negotiating terms on its debt with GMCAL that are consistent with current market rates. As a result of Global Med's relationship with its parent companies and subsidiaries, the terms of the financing agreement may not be indicative of those that would have resulted if Global Med were unaffiliated with these entities.

Sensitivity analyses were performed to determine how market rate changes would affect the fair value of our debt. Such an analysis is inherently limited in that it represents a singular, hypothetical set of assumptions. Actual market movements may vary significantly from our assumptions. A one-percentage point change in interest rates on our debt as of December 31, 2002 would change our annual pre-tax income annual results by approximately \$40 thousand. The stated interest rate on our debt, exclusive of financing charges, is 12%. Hypothetically, if the interest rate on this debt were subject to fluctuations with the market and the market interest rate was 13%, Global Med's pre-tax income would decrease approximately \$40 thousand. Conversely, if Global Med's debt were subject to market fluctuations and the market interest rate was 11%, the Company's pre-tax income would increase approximately \$40 thousand. In addition, each subsequent increase or decrease in the interest rate of 1% would change pre-tax income by an additional \$40 thousand.

#### **Family Relationships**

Mr. Tony T.W. Chan is the son of Mr. Fai H. Chan. Both are directors of the Company.

#### **Resignations**

**Jeff Busch** resigned as a director of the Company and PeopleMed effective December 12, 2002.

#### **Involvement In Certain Legal Proceedings**

No event required to be reported hereunder has occurred during the past five years.

#### **Audit Committee**

The Audit Committee, whose chairman is Michael I. Ruxin and whose other current members are Robert H. Trapp and Kwok Jen Fong, met once in 2002. The Audit Committee also reviewed and approved in writing the filing of each Form 10-Q during 2002. There is no financial expert on the audit committee at the present time.

**Compliance With Section 16(a) Of The Exchange Act**

Based on information provided to the Company, it is believed that all of the Company's directors, executive officers and persons who own more than 10% of the Company's common stock were in compliance with Section 16(a) of the Exchange Act of 1934 during the last fiscal year. During the year ended December 31, 2002, all of the Company's directors, executive officers and Company's common stock were in compliance with section 16(a) of the Exchange Act of 1934, except as follows: in July 2002, eBanker transferred its interest in Global Med to Global Med International Limited ( GMIL ). GMIL and eBanker both failed to timely file applicable Forms 3 and 4 reporting this transaction. eBanker and GMIL filed their respective Forms 3 and 4 in September 2002. Related October and November 2002 transactions were reported late in February 2003. The following made untimely filings of applicable Forms 3 and 4 related to this November 2002 transaction: GMIL, GMCAL, Global Med International Holdings Limited ( GMIHL ), eBanker, Online Credit, Heng Fung, and Fai Chan. These filings were made in February 2003. With regard to the November 2002 transaction, Techcap Holdings Limited and New Access Company Limited failed to time file a Form 3. Gary Cook, Director and Acting Principal Financial and Accounting Officer, failed to timely file one Form 4 with respect to one transaction. The transaction was disclosed on a timely filed Form 5. No Forms 5 were filed for Gordon E. Segal, a director, and Jeffrey M. Busch, a former director of the Company; however, based on the Company's records, it appears that neither had reportable transactions in 2002.

**Code of Ethics**

The Company does not have a formalized code of ethics at the present time but is in the process of preparing one.

**Stock Option Plans and Other Issuances**

In the second quarter of 2001, the Company adopted the 2001 Stock Option Plan ( 2001 Plan ). The 2001 Plan provides for the issuance of options to purchase up to 15 million registered shares of common stock to employees, officers, directors and consultants of the Company. Options may be granted as incentive stock options or as nonqualified stock options. Only employees of the Company are eligible to receive Incentive Options. The 2001 Plan expires on December 28, 2010. As of December 31, 2002, options to purchase 2.858 million shares of the Company's common stock at a weighted average exercise price of \$0.58 per share were outstanding under the 2001 Plan, of which 193 thousand options to purchase shares were exercisable at December 31, 2002. Options granted under the Plan vest on a straight-line basis, based on schedules as determined by the Board of Directors upon grant and generally expire 10 years after grant. During 2002, the Company issued 2.828 million stock options.

The Second Amended and Restated Stock Option Plan (Plan) provides for the issuance of options to purchase up to 2.2 million registered shares of common stock to employees, officers, directors and consultants of the Company. Options may be granted as incentive stock or as nonqualified stock options. Only employees of the Company are eligible to receive Incentive Options. As of May 31, 2000, options could no longer be issued under this Plan. As of December 31, 2002, options to purchase 1.228 million shares of the Company's common stock at a weighted average exercise price of \$1.16 per share were outstanding under the Plan, of which 1.135 million options to purchase shares were exercisable at December 31, 2002.

The Company also periodically grants options to purchase shares of restricted common stock. The shares underlying these options are not registered under the 1933 Act. As of December 31, 2002, there were options to purchase 4.826 million shares of common stock at a weighted average exercise price of \$0.75 per share through 2002 were outstanding, of which 2.086 million were exercisable at December 31, 2002.

**Option Grants Table**

The Company granted 1.150 million options to the Company's Executive Officers during the year ended December 31, 2002. See Other Arrangements .

#### Long-Term Incentive Plan ( LTIP ) Awards Table

No long term incentive plan awards were granted by the Company to any of the executive officers or directors of the Company during the year ended December 31, 2002.

#### Compensation Of Directors

**Standard Arrangements.** Members of the Company's Board of Directors are not compensated in their capacities as board members. However, the Company reimburses all of its officers, directors and employees for accountable expenses incurred on behalf of the Company. Currently, the Company does not pay any directors fees for attendance at board meetings.

**Other Arrangements.** During 2000, the Company also authorized the issuance of 35 thousand common shares to a director in his capacity as acting Principal Financial and Accounting Officer and Treasurer. Of the 35 thousand authorized shares, 14 thousand had been issued as of December 31, 2002. These shares will be issued at a rate of 7 thousand a year as they are earned. These shares were valued at \$37 thousand, and \$7 thousand in compensation expense was recognized during 2002 related to these shares. The Company has no other arrangements pursuant to which any director of the Company was compensated during the year ended December 31, 2002 for services as a director.

On August 1, 1998, the Company entered into an employment agreement with Dr. Ruxin for a period of three years commencing August 1, 1998. The initial term of this agreement was extended for an additional two years beyond the initial term (creating a term of five years from August 1, 1998 to July 31, 2003). Under the agreement, Dr. Ruxin receives a salary of \$190 thousand per year and certain other fringe benefits. Dr. Ruxin's employment agreement includes a cost-of-living increase, plus any other increase which may be determined from time to time at the discretion of the Company's Board of Directors. In July 2001, the Board of Directors authorized an increase in Dr. Ruxin's salary to \$250 thousand per year. Dr. Ruxin's employment under the employment agreement may be terminated by Dr. Ruxin upon the sale by the Company of substantially all of its assets, a decision by merger or consolidation of the Company to terminate its business and liquidate its assets, the Company with another entity or an agreement to such a merger or consolidation or any other type of reorganization, or if the Company makes a general assignment for the benefit of creditors, files for voluntary bankruptcy or if a petition for the involuntary bankruptcy of the Company is filed in which an order for relief is entered and remains in effect for a period of thirty days or more, or if the Company seeks, consents to, or acquiesces in the appointment of a trustee, receiver or liquidator of the Company or any material part of its assets. Dr. Ruxin's employment under the employment agreement also may be terminated by reason of Dr. Ruxin's death or disability or for cause as set forth in the employment agreement. If the Company for any reason other than cause or permanent disability terminates the agreement, the Company must pay Dr. Ruxin compensation, benefits and incentives at the rate in effect at termination for twenty-four months following the date of termination. Pursuant to Dr. Ruxin's Employment Agreement, the Company authorized the issuance to Dr. Ruxin of a nonqualified stock option to purchase 1 million shares of the Company's common stock at \$0.75 per share, exercisable when the Corporation's annual audited financial statements reflect earnings of \$0.01 per share, or after a vesting period of sixty months. The options expire 10 years from the date of grant.

## Edgar Filing: GLOBAL MED TECHNOLOGIES INC - Form 10-K

On November 1, 2002, the Company entered into an Employment Agreement with Dr. Ruxin for a period of five years commencing August 1, 2003 and ending August 1, 2008. Under the Employment Agreement, Dr. Ruxin will receive a salary of \$275,000 per year and certain other fringe benefits. Dr. Ruxin's salary shall be reviewed on an annual basis and if his performance is deemed satisfactory, he shall receive a minimum 7.5% cost of living increase, plus any other increase which may be determined from time to time at the discretion of the Company's Board of Directors. In addition, Dr. Ruxin shall be eligible for a performance increase. Pursuant to Dr. Ruxin's Employment Agreement, the Company authorized the issuance to Dr. Ruxin of 500,000 total incentive stock options and nonqualified stock options to purchase an aggregate of 500,000 shares of the Company's common stock. The options shall become exercisable at the rate of 20% each year upon Dr. Ruxin's completion of each year of employment with the Company beginning May 29, 2002. The stock option exercise price shall be \$0.58, which is the closing price on the execution of Dr. Ruxin's Employment Agreement. Following the termination of this Agreement by the Employer for any reason other than Cause, Death, or the temporary or permanent disability of Employee, the Employee shall be entitled to compensation and benefits for twenty-four (24) months following the date of termination or the remainder of the contract, whichever is less.

Dr. Ruxin may terminate his employment with the Company upon the occurrence of any of the following events followed by written notice from the employee to the employer: the sale by Employer of substantially all of its assets; a decision by Employer to terminate its business and liquidate its assets; the merger or consolidation of Employer with another entity or an agreement to such a merger or consolidation or any other type of reorganization; employer makes a general assignment for the benefit of creditors, files a voluntary bankruptcy petition, there are material reductions in Employee's duties and responsibilities without his written consent or a demotion from the position of President; termination by the Company of employee's employment with the Company for any reason other than cause, or a five percent reduction in Employee's base compensation (not including bonus).

On August 1, 1998, the Company also entered into an employment agreement with Thomas F. Marcinek for a period of three years commencing August 1, 1998. The initial term of this agreement was extended for an additional two years beyond the initial term (creating a term of five years from August 1, 1998). Under the agreement, Mr. Marcinek receives a salary of \$125 thousand per year and certain other fringe benefits. Mr. Marcinek's employment agreement includes an annual cost-of-living increase, plus any other increase which may be determined from time to time at the discretion of the Company's Board of Directors. In January 2002, Mr. Marcinek's salary was increased to \$175 thousand per year. The agreement also contains non-solicitation and annual incentive compensation provisions, subject to Board of Directors approval.

Pursuant to the agreement in 1998, Mr. Marcinek received incentive stock options under the Company's Stock Option Plan, as amended, to purchase an aggregate of 350 thousand shares of the Company's common stock. The options vest at the rate of 20% per year over a period of five years. If the Company (i) sells substantially all its assets, or (ii) merges or consolidates with another entity or otherwise reorganizes or (iii) terminates Mr. Marcinek for any reason other than for cause prior to the expiration of the agreement, then the entire 350 thousand in options shall become 100% vested and immediately exercisable. Mr. Marcinek may terminate his employment under the employment agreement under the same circumstance as set forth in Dr. Ruxin's employment agreement. If the Company for any reason other than cause or permanent disability terminates Mr. Marcinek's employment agreement, the Company must pay Mr. Marcinek compensation, benefits and incentives at the rate in effect at termination for twelve months following the date of termination.

On November 4, 2002, the Company entered into an Employment Agreement with Thomas F. Marcinek for a period of five years commencing November 2, 2003 and ending November 2, 2008. Under the Employment Agreement, Mr. Marcinek will receive a salary of \$175,000 per year and certain other fringe benefits. Mr. Marcinek's salary shall be reviewed on an annual basis and if his performance is deemed satisfactory, he may receive a minimum 7.5% cost of living increase, plus any other increase which may be determined from time to time at the discretion of the Company's Board of Directors. In addition, Mr. Marcinek shall be eligible for a performance increase. Following the termination of this Agreement by the Employer for any reason other than Cause, Death, or the temporary or permanent disability of Employee, the Employee shall be entitled to compensation and benefits for twenty-four (24) months following the date of termination or the remainder of the contract, whichever is less.

Pursuant to Mr. Marcinek's Employment Agreement, the Company authorized the issuance to Mr. Marcinek of 500,000 total incentive stock options and nonqualified stock options to purchase an aggregate of 500,000 shares of the Company's common stock. The options shall become exercisable at the rate of 20% each year upon Mr. Marcinek's completion of each year of employment with the Company beginning May 29, 2002. The stock option exercise price shall be \$0.58, which is the closing price on the execution of Mr. Marcinek's Employment Agreement.

On October 31, 2002, the Company entered into an Employment Agreement with Mr. Willman for a period commencing July 1, 2004 and ending November 1, 2008. Under the agreement, Mr. Willman will receive a salary of \$105,000 per year and certain other fringe benefits. Mr. Willman's salary shall be reviewed on an annual basis and if his performance is deemed satisfactory, his salary may be increased at least in an amount equal to the cost of living increase for the prior year, providing that at least one other senior management's salary (CEO or COO) is increased by a similar cost of living raise. In addition, Mr. Willman shall be eligible for a performance increase.

Pursuant to Mr. Willman's employment agreement, the Company authorized the issuance to Mr. Willman of 150,000 incentive stock options to purchase an aggregate of 150,000 shares of the Company's common stock. The options shall become exercisable at the rate of 20% each year upon Mr. Willman's completion of each year of employment with the Company beginning May 29, 2002. The stock option price shall be \$0.58, which was the closing price on October 31, 2002, the execution of Mr. Willman's employment agreement. Mr. Willman may terminate his employment with the Company under the same circumstances as set forth in Dr. Ruxin's employment agreement.

Following the termination of the agreement by the Company for any reason other than cause, death, or the temporary or permanent disability, Mr. Willman shall be entitled to compensation and benefits for nine (9) months following the date of termination or the remainder of the agreement, whichever is less.

During 1999, the Board of Directors approved salary increases for Ruxin and Marcinek. The increases range from 15% to 20% and are payable effective August 1, 1999, when the Company has achieved positive cash flow from operations. The Board of Directors also approved bonuses in amounts of \$50 thousand and \$25 thousand for Ruxin and Marcinek, respectively, payable when the Company has achieved positive cash flow from operations and subject to the approval of the Board of Directors. In July 2001, the Board of Directors authorized payment of a portion of the accrued salary increases to Dr. Ruxin and Mr. Marcinek.

The Board of Directors authorized that \$50 thousand be paid to Dr. Ruxin and \$25 thousand be paid to Mr. Marcinek of the accrued salaries due them. During 2002, Dr. Ruxin was paid approximately \$23 thousand of the accrued salary increase due him and Mr. Marcinek was paid approximately \$11 thousand of the accrued salary due him. As of December 31, 2002, the Company had paid Dr. Ruxin \$50 thousand and Mr. Marcinek \$25 thousand of the salary increases due them.

## ITEM 12. SECURITY OWNERSHIP OF CERTAIN BENEFICIAL OWNERS AND MANAGEMENT

Heng Fung currently beneficially holds 14.260 million shares (or approximately 40% of the voting rights) of the Company. Heng Fung has appointed five of the ten members of the Board of Directors of the Company. The directors appointed by Heng Fung are Fai H. Chan, Kwok Jen Fong, Robert H. Trapp, Tony T. W. Chan, and Gary L. Cook. Fai H Chan, Kwok Jen Fong and Tony T.W. Chan are also directors of Heng Fung. In addition, Heng Fung and its subsidiaries currently beneficially own warrants which may be exercised and/or converted into 12.186 million shares of the Company's common stock. Heng Fung owns 98.6% of eCredit Singapore Pte. Ltd., which, in turn, owns 100% of Online Credit. Online Credit is the controlling shareholder of eVision. eVision owned 40% of the outstanding common stock of eBanker until November 2001 when it was transferred to Online Credit. Of the 12.186 million warrants beneficially owned by Heng Fung and subsidiaries 1 million warrants of the Company's common stock, exercisable at \$0.25 per share until April 14, 2008; 10.186 million warrants of the Company's common stock exercisable at \$0.50 per share until July 1, 2011, and 1 million are exercisable at \$0.25 per share until April 14, 2008. eVision owns 100% of the outstanding common stock of AFFC.

During 2001, the Company issued eBanker a total of 1.747 million unregistered shares of common stock of the Company in lieu of interest payments through July 1, 2003 on the \$3.829 million note payable to eBanker.

### Security Ownership of Beneficial Owners

The following table sets forth, as of April 11, 2003, the ownership of the Company's common stock, based upon 24.545 million shares of common stock outstanding, by (i) each director and executive officer of the Company, (ii) all directors and executive officers of the Company as a group, and (iii) all persons known by the Company to beneficially own more than 5% of the Company's common stock.

## Edgar Filing: GLOBAL MED TECHNOLOGIES INC - Form 10-K

owns 100% of the outstanding common stock of Online Credit. Heng Fung and subsidiaries are the controlling shareholders of eVision. eVision owns and 100% of the outstanding common stock of AFFC, the underwriter of the Company's initial public offering. Online Credit owns 3,050,000 shares of the Company's common stock. eBanker, through a subsidiary, holds a security interest in: (i) 11,210,195 shares of the Company's common stock; (ii) warrants to purchase 1,000,000 shares of the Company's Common Stock, exercisable at \$0.25 per share until April 14, 2008; and (iii) warrants to purchase 10,186,430 shares of the Company's common stock through July 1, 2011. eVision owns warrants to purchase 1,000,000 shares of the Company's common stock, exercisable at \$0.25 per share until April 14, 2008. As documented in notes 18 and 19 below, eBanker's interest in Global Med in its entirety was transferred to GMCAL in October 2002. Ownership in GMCAL was transferred to an unrelated party in November 2002. As eBanker, through a subsidiary, maintains possession of the ownership interest transferred to GMCAL as security to vendor financing until such time as certain events occur, Heng Fung's beneficial ownership in the shares and warrants of Global Med transferred to GMCAL is disclosed and considered beneficially owned.

### ITEM 13. CERTAIN RELATIONSHIPS AND RELATED TRANSACTIONS

The Board of Directors of the Company has adopted resolutions that no business transaction, loan or advance will be made by the Company to any officer, director or holder of more than 5% of the Company's common stock, or any affiliate thereof, unless it has been established that a bona fide business purpose exists, that all future transactions between the Company and its officers, directors, or principal shareholders, or any affiliate of any of such person, must be approved or ratified by a majority of the disinterested directors of the Company, and the terms of such transaction must be no less favorable to the Company than could have been realized by the Company in an arms-length transaction with an unaffiliated person. The Company believes that all ongoing transactions with the Company's affiliates are on terms no less favorable than could be obtained from unaffiliated third parties.

The Board of Directors of the Company adopted a resolution in July 1996 that provides that the areas of business in which the Company shall be interested for the purpose of the doctrine of corporate opportunities shall be the business of information management software products and services. Any business opportunity which falls within such areas of interest must be brought to the attention of the Company for acceptance or rejection prior to any officer or director of the Company taking advantage of such opportunity. Any business opportunity outside such areas of interest may be entered into by any officer or director of the Company without the officer or director first offering the business opportunity to the Company.

Dr. Ruxin has personally guaranteed \$650 thousand plus pro rata interest of the outstanding loan balance with eBanker associated with the November 19, 2000 Loan Agreement. The personal guarantee is limited to certain of Dr. Ruxin's assets.

As of June 21, 2002, the Company's Board of Directors had independently approved borrowings to a related party totaling \$370 thousand. During the year ended December 31, 2002, the Company's Notes Receivable, related party balance, increased \$290 thousand to a total of \$370 thousand as a result of funds advanced in the form of promissory notes to this entity controlled by a, now formerly, director of the Company, Jeff Busch. The notes bear interest at 12% per year and mature in 2006. During the year ended December 31, 2001, the Company had lent \$80 thousand to this entity. In addition, the CEO and Chairman of Global Med, Michael I. Ruxin, was also on the board of directors of this entity controlled by Jeff Busch. Dr. Ruxin resigned as a director of the related entity effective December 12, 2002. Jeff Busch resigned his position as a director of the Company and PeopleMed effective December 12, 2002. As a result, Jeff Busch and the entity controlled by Jeff Busch are no longer related parties of the Company. On March 10, 2003 the Company's Board of Directors approved and subsequently funded additional borrowings to the entity controlled by Jeff Busch in the amount of \$30 thousand.

During 2002, 2001 and 2000, eVision provided the Company with various accounting services. The Company recognized \$52 thousand, \$123 thousand, and \$117 thousand in general and administrative expenses related to these services. During 2002, 2001, and 2000, the Company incurred \$460 thousand, \$453 thousand, and \$604 thousand, respectively, in interest charges from eBanker. Global Med International Holdings
