AEGIS REALTY, INC. AND SUBSIDIARIES  
 Notes to Consolidated Financial Statements  
 September 30, 2002  
 (Unaudited)

Note 1 - General

Aegis Realty, Inc. ("Aegis" or the "Company") is a Maryland corporation that has qualified as a real estate investment trust ("REIT") under the Internal Revenue Code of 1986 as amended (the "Code"). The Company was formed to acquire, own, operate and renovate primarily supermarket-anchored neighborhood and community shopping centers. As of September 30, 2002, the Company owned a portfolio of 28 retail properties containing a total of approximately 3.0 million gross leaseable square feet and held partnership interests in two suburban garden apartment properties.

The Company was formed on October 1, 1997 as the result of the consolidation (the "Consolidation") of four publicly registered, non-listed limited partnerships, Summit Insured Equity L.P. ("Insured I"), Summit Insured Equity L.P. II ("Insured II"), Summit Preferred Equity L.P. and Eagle Insured, L.P. (the "Partnerships", and each individually a "Partnership"). One of the general partners of the Partnerships was an affiliate of Related Capital Company ("Related"), a nationwide, fully integrated real estate financial services firm. Pursuant to the Consolidation, the Company issued shares of its common stock, par value \$.01 per share (the "Common Stock") to all partners in the Partnerships in exchange for their interests in the Partnership based upon each partner's proportionate interest in the Common Stock issued to their Partnership

## Edgar Filing: AEGIS REALTY INC - Form 10-Q

in the Consolidation.

The Company is governed by a board of directors comprised of two independent directors and three directors who are affiliated with Related. The Company has engaged Related Aegis LP (the "Advisor"), a Delaware limited partnership and an affiliate of Related, to manage its day to day affairs.

The Company owns all of its assets directly or indirectly through Aegis Realty Operating Partnership, LP, a Delaware limited partnership (the "Operating Partnership" or "OP"), of which the Company is the sole general partner and holder of 91.31% of the units of partnership interest (the "OP Units") at September 30, 2002. At September 30, 2002, 5.54% of the OP Units are held by the sellers of three of the retail properties and 3.15% were held by affiliates of Related.

During 2001, the Company announced it had terminated a planned acquisition of the assets of P'OB Montgomery & Company ("POB").

In light of the decision to terminate the acquisition of POB, the Company, at the direction of the Board of Trustees, retained Robertson Stephens, Inc. to assist in developing an appropriate marketing strategy for the potential sale of the Company or its assets. If acceptable values cannot be achieved, the Board of Trustees will then pursue alternative strategies with the goal of maximizing stockholder value. The Company has discontinued its pursuit of additional investments and is focusing on the continuation of active management, leasing and redevelopment of the property portfolio in order to maintain the value of its portfolio upon a sale. During October 2001, the Company had retained Robertson Stephens, Inc. as an investment advisor to pursue the potential sale of the Company or its assets. Subsequently, following Fleet Boston Financial Corporation's decision to wind down the investment banking operations of Robertson Stephens, the team assigned to the Company was hired by, and will continue their assignment with, RBC Capital Markets.

The consolidated financial statements include the accounts of the Company and its subsidiary partnerships. All intercompany accounts and transactions with the subsidiary partnerships have been eliminated in consolidation. Unless otherwise indicated, the "Company", as hereinafter used, refers to Aegis Realty, Inc. and its consolidated subsidiary partnerships.

AEGIS REALTY, INC. AND SUBSIDIARIES  
Notes to Consolidated Financial Statements  
September 30, 2002  
(Unaudited)

The consolidated financial statements of the Company have been prepared without audit. In the opinion of management, the financial statements contain all adjustments (consisting of only normal recurring adjustments) necessary to present fairly the financial position of the Company as of September 30, 2002 and the results of its operations for the three and nine months ended September 30, 2002 and 2001 and cash flows for the nine months ended September 30, 2002 and year ended December 31, 2001. However, the operating results for the interim periods may not be indicative of the results for the full year.

Certain information and footnote disclosures normally included in annual financial statements prepared in accordance with accounting principles generally accepted in the United States of America ("GAAP") have been condensed or omitted. It is suggested that these financial statements be read in conjunction with the financial statements and notes thereto included in the Company's Form

## Edgar Filing: AEGIS REALTY INC - Form 10-Q

10-K for the year ended December 31, 2001.

The consolidated financial statements of the Company are prepared on the accrual basis of accounting in conformity with GAAP, which requires the Advisor to make estimates and assumptions that affect the reported amounts of assets and liabilities and the disclosure of contingent assets and liabilities at the date of the financial statements as well as the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates and assumptions.

The Company has no items of other comprehensive income; therefore, the Company's net income and comprehensive income are the same for all periods presented.

In June 2001, the Financial Accounting Standards Board ("FASB") issued Statement No. 141, "Business Combinations" (SFAS 141) and Statement No. 142, "Goodwill and Other Intangible Assets" (SFAS 142). These statements establish new standards for accounting and reporting for business combinations and for goodwill and intangible assets resulting from business combinations. SFAS 141 applies to all business combinations initiated after June 30, 2001. The Company implemented SFAS 142 on January 1, 2002. Implementation of these statements did not have a material impact on the Company's consolidated financial statements.

In June of 2001, the FASB issued SFAS No. 143, "Accounting for Asset Retirement Obligations" (effective January 1, 2003). SFAS No. 143 requires the recording of the fair value of a liability for an asset retirement obligation in the period in which it is incurred. Management does not anticipate that the implementation of SFAS No. 143 will have a material impact on the Company's consolidated financial statements.

In August of 2001, the FASB issued SFAS No. 144, "Accounting for the Impairment or Disposal of Long Lived Assets". SFAS No. 144 supercedes existing accounting literature dealing with impairment and disposal of long-lived assets, including discontinued operations. It addresses financial accounting and reporting for the impairment of long-lived assets and for long-lived assets to be disposed of, and expands current reporting for discontinued operations to include disposals of a "component" of an entity that has been disposed of or is classified as held for sale. The Company implemented SFAS No. 144 on January 1, 2002. Implementation of this statements did not have a material impact on the Company's consolidated financial statements.

In April 2002, the FASB issued Statement No. 145 "Rescission of FASB Statements No. 4, 44 and 64, Amendment of FASB Statement No. 13 and Technical Corrections". SFAS No. 145 among other things, rescinds SFAS No. 4, "Reporting Gains and Losses from Extinguishment of Debt", and accordingly, the reporting of gains and losses from the early extinguishments of debt as extraordinary items will only be required if they meet the specific criteria for extraordinary items included in Accounting Principles Board Opinion No. 30, "Reporting the Results of Operations". The rescission of SFAS No. 4 is effective January 1, 2003. Management does not anticipate that the implementation of this statement will have a material impact on the Company's consolidated financial statements.

In July 2002, the FASB issued Statement No. 146, "Accounting for Costs Associated with Exit or Disposal Activities". SFAS No. 146 replaces current accounting literature and requires the recognition of costs associated with exit

## Edgar Filing: AEGIS REALTY INC - Form 10-Q

or disposal activities when they are incurred rather than at the date of a commitment to an exit or disposal plan. SFAS No. 146 is not effective until January 1, 2003. Management does not anticipate that the implementation of this statement will have a material effect on the Company's consolidated financial statements.

Certain prior year amounts have been reclassified to conform to the current year presentation.

(a) The Credit Facility is shared among Fleet Bank (28.57%), KeyBank National Association (28.57%), Citizens Bank of Rhode Island (28.57%) and Sovereign Bank (14.29%).

## Edgar Filing: AEGIS REALTY INC - Form 10-Q

In connection with the Credit Facility, the Company must comply with various financial covenants including maximum loan to value ratios, interest and fixed charge coverage ratios, and net worth requirements. Since the second quarter of 2001, through the first quarter of 2002, the Company was in compliance with all covenants pertaining to this Credit Facility except one. The Company was not in compliance with a covenant requiring that aggregate distributions by the Company during any consecutive four quarters not exceed ninety percent of the Company's funds from operations ("FFO") for such periods. Unlike the covenant provisions based on adjusted net income, under the covenant in question, the Company's FFO is not adjusted for extraordinary or nonrecurring items. As a result, FFO was significantly reduced by nonrecurring expenses related to the termination of the POB transaction (Note 1). The Company received a permanent waiver of this covenant from each of the syndicate banks of the Credit Facility for each of the quarters' of non-compliance.

(b) The interest rate under the Credit Facility can float 1/2% under Fleet Bank's base rate or can be fixed in 30, 60, 90 and 180 day periods at various spreads over the indicated Euro-contract, ranging from 1.75% to 2.125% depending on the Company's ratio of total debt to total assets. The Company has currently elected the 30 day rate which was 1.82% at September 30, 2002.

(c) Outstanding balance of an \$80 million senior revolving credit facility ("Credit Facility").

(d) The Credit Facility was collateralized at September 30, 2002 by nineteen Retail Properties and one investment in a partnership with carrying values of \$109,724,335 and \$4,691,250, respectively. In addition, the obligation under the Credit Facility is guaranteed by the Company, Summit Insured I, Summit Insured II (two of the Company's subsidiaries) and TCR-Pinehurst Limited Partnership (one of the two partnerships in which the Company has invested).

(e) Note was assumed upon purchase by the Company on March 30, 1998 of the property collateralizing the note.

(f) Note was assumed upon purchase by the Company on April 22, 1998 of the property collateralizing the note.

(g) Note was assumed upon purchase by the Company on November 24, 1998 of the property collateralizing the note.

(h) Note was assumed upon purchase by the Company on December 9, 1998 of the property collateralizing the note .

### Note 5 - Common Stock and Stock Options

Each independent director is entitled to receive annual compensation for serving as a director in the aggregate amount of \$17,500 payable in cash (maximum of \$7,500 per year) and/or shares of Common Stock valued based on the fair market value at the date of issuance. On August 2, 2001, the Board of Directors, including the members of the Compensation Committee, approved the grant of options to acquire 241,522 shares of common stock to employees and affiliates of the advisor. Note 6 - Related Party Transactions

Pursuant to the Advisory Agreement, the Advisor receives (i) acquisition fees equal to 3.75% of the acquisition price of properties acquired; (ii) mortgage selection fees based on the principal amount of mortgage loans funded; (iii) asset management fees equal to .375% of the total invested assets of the Company; (iv) a 1.5% liquidation fee based on the gross sales price of the assets sold by the Company in connection with a liquidation of the Company's assets; and (v) reimbursement of certain administrative costs incurred by the Advisor on behalf of the Company.

The Company's Retail Properties are managed by RCC Property Advisors (the "Property Manager"), an affiliate of the Advisor, (i) for a fee equal to 4.5% of the gross rental receipts from the Retail Properties, which is competitive with such fees paid in the areas in which the properties are located; and (ii) in connection with asset sales if the new owner terminates the property management agreement, a fee equal to 1% of gross sales price. The Property Manager also receives standard leasing commissions for space leased to new tenants and for lease renewals and is reimbursed for certain expenses.

The Company requires long-term liquidity in order to invest in and maintain its portfolio of Retail Properties and other investments. To date, this long-term liquidity has come from proceeds from the Credit Facility, notes payable assumed upon the purchase of certain properties and the issuance of shares of the Company's Common Stock or OP Units in exchange for real estate. Although the Credit Facility may be increased, the Company's charter dictates leverage of no more than 50% of the Company's total market value. On a short-term basis, the Company requires funds to pay its operating expenses and those of the Retail Properties, to make improvements to the Retail Properties, pay its debt service and make distributions to its stockholders. The primary sources of the Company's short-term liquidity needs are the cash flow received from the Retail Properties.

In light of the decision to terminate the acquisition of POB, the Company, at the direction of the Board of Trustees, retained Robertson Stephens, Inc. to assist in developing an appropriate marketing strategy for the potential sale of the Company or its assets. If acceptable values cannot be achieved, the Board of Trustees will then pursue alternative strategies with the goal of maximizing stockholder value. The Company has discontinued its pursuit of additional investments and is focusing on the continuation of active management, leasing and redevelopment of the property portfolio in order to maintain the value of its portfolio upon a sale. During October 2001, the Company had retained Robertson Stephens, Inc. as an investment advisor to pursue the potential sale of the Company or its assets. Subsequently, following Fleet Boston Financial Corporation's decision to wind down the investment banking operations of Robertson Stephens, the team assigned to the Company was hired by, and will continue their assignment with, RBC Capital Markets.

In order to maintain its REIT status, the Company is required to distribute at least 90% of its taxable income. Funds generated from operations are expected to be sufficient to allow the Company to meet this requirement.

The Advisor believes that the stability of the Company's operations and its ability to maintain liquidity are enhanced by the following factors:

- (i) Geographic diversity of its portfolio of real estate.

## Edgar Filing: AEGIS REALTY INC - Form 10-Q

(ii) 46% of total revenues for the nine months ended September 30, 2002 were earned from shopping center anchor tenants which are national and/or credit tenants.

(iii) No single asset accounts for more than 8% of total revenues for the nine months ended September 30, 2002.

(iv) Leases that provide for recovery of actual common area maintenance charges and real estate taxes, thereby minimizing any effects from inflation.

(v) Leases that provide for increases in rents based on a percentage of tenants' sales.

During the nine months ended September 30, 2002, cash and cash equivalents of the Company and its consolidated subsidiaries decreased approximately \$572,000. This decrease was primarily due to improvements to real estate (\$5,936,000), distributions paid to stockholders (\$5,799,000) and distributions paid to minority interest (\$551,000) offset by cash provided by operating activities, \$9,692,000 and net proceeds from notes payable, \$2,500,000. Included in the adjustments to reconcile the net income to cash provided by operating activities is depreciation and amortization in the amount of \$4,800,000.

The Company anticipates that cash generated from operations will provide for all major repairs, replacements and tenant improvements on its real estate and will provide sufficient liquidity to fund the Company's operating expenditures, debt service and distributions.

The Company has the following problem assets which may adversely affect future operations and liquidity:

13

(i) Safeway, the anchor tenant of Cactus Village Shopping Center closed its facility in December 1991 due to poor sales. Other than a small arrearage for a contractual increase in minimum rent, the tenant has abided by all aspects of its lease, which was to expire in September 2006. After negotiations with the Company, Safeway terminated its lease in June 2002 upon payment of \$750,000 to the Company.

(ii) In July 1994, A&P closed its store in the Mountain Park Plaza Shopping Center due to reduced sales and increased competition. The Company received rental payments from the vacated tenant pursuant to the terms of the lease. In December 2000, A&P bought out its lease for \$300,000 and the Company entered into a new lease with Publix. The former A&P space has been demolished and the reconstruction of Publix was completed in July 2002. The Company's cost to reconstruct this space totaled approximately \$4,147,000 (prior to tenant reimbursement of approximately \$662,000) of which approximately \$1,300,000 was paid in 2001. Publix opened its new store to the public on July 11, 2002.

(iii) White Oaks Plaza shopping center, located in Spindale, NC, was deemed to be impaired in the 4th quarter of 2001. The Company's impairment determination was due to three anchors vacating their spaces and increased competition in the surrounding area. Two of these anchors, Walmart and Winn Dixie, are still paying rent and are current in their rent payments. Using undiscounted cash flows compared to the book value of approximately \$6.2 million resulted in a deficit, indicating impairment. The Company recognized a loss on impairment of \$2.5 million during the fourth quarter of 2001, resulting from comparing discounted cash flows (at a market discount rate for this type of property) to the book value.

## Edgar Filing: AEGIS REALTY INC - Form 10-Q

(iv) Office Max, one of the anchor tenants of Town West which was under sublease, vacated its space in February 2000 but the original lessee is still obligated to pay rent. The lessee stopped paying rent in April 2001 and has been in default since that date. The Company has reserved 50% of the outstanding balance of \$150,783 at September 30, 2002 and has initiated legal proceedings. The Company feels its case is strong and will recover the full amount owed.

(v) Food Lion, located in Barclay Place, closed its store in December 2000. It is still obligated to pay rent through the expiration of its lease in December 2009. To date, Food Lion is current with all rent payments.

(vi) The Company was notified that K-Mart, which filed for bankruptcy, had closed its store located in the Centre Stage Shopping Center in Springfield, Tennessee and has rejected the lease as of June 29, 2002. The store has approximately 86,479 square feet of gross leasable area and represented approximately \$397,000 in annualized base rent. K-Mart has paid rent through June 30, 2002.

Effective July 3, 2002, the Company sold an out parcel which was part of the Rolling Hills Shopping Center for \$500,000. The out parcel had a carrying value of approximately \$151,000 and costs associated with the sale of approximately \$23,000 which resulted in a gain of approximately \$326,000.

In connection with the Credit Facility (Note 4), the Company must comply with various financial covenants including maximum loan to value ratios, interest and fixed charge coverage ratios, and net worth requirements. Since the second quarter of 2001, through the first quarter of 2002, the Company was in compliance with all covenants pertaining to this Credit Facility except one. The Company was not in compliance with a covenant requiring that aggregate distributions by the Company during any consecutive four quarters not exceed ninety percent of the Company's funds from operations ("FFO") for such period. Unlike the covenant provisions based on adjusted net income, under the covenant in question, the Company's FFO is not adjusted for extraordinary or nonrecurring items. As a result, FFO was significantly reduced by nonrecurring expenses related to the termination of the POB transaction (Note 1). The Company received a permanent waiver of this covenant from each of the syndicate banks of the Credit Facility for each of the quarters of non-compliance.

In November 2002, a distribution of \$1,933,111 (\$.24 per share), which was declared in September 2002, was paid to the stockholders from cash flow from operations for the quarter ended September 30, 2002.

Management is not aware of any trends or events, commitments or uncertainties, which have not otherwise been disclosed that will or are likely to impact liquidity in a material way.

### Results of Operations

-----

Rental income increased approximately \$75,000 and \$315,000 for the three and nine months ended September 30, 2002 as compared to 2001 primarily due to the increase of minimum rent at Rolling Hills, Mountain Park and Westbird.

Tenant reimbursements increased approximately \$249,000 and \$604,000 for the three and nine months ended September 30, 2002 as compared to 2001 due to the increase of the reimbursements of common charges at Westbird, Winery Square, Crossroads and Townwest and the reimbursements of insurance for Pablo Plaza, Birdneck, Winery Square and Cape Henry.

## Edgar Filing: AEGIS REALTY INC - Form 10-Q

Early lease termination increased approximately \$719,000 for the nine months ended September 30, 2002 as compared to 2001 due to the \$750,000 lease settlement with Safeway at Cactus Village.

Interest income decreased approximately \$36,000 and \$499,000 for the three and nine months ended September 30, 2002 as compared to 2001 primarily due to the repayment of the Woodgate mortgage loan in April 2001.

Repairs and maintenance increased approximately \$60,000 and \$304,000 for the three and nine months ended September 30, 2002 as compared to 2001 primarily due to an increase in miscellaneous maintenance costs of Westbird and Birdneck, painting costs at White Oak Plaza, Town West and Crossroads and landscaping costs of Westbird and Winery Square.

Operating expenses increased approximately \$58,000 and \$200,000 for the three and nine months ended September 30, 2002 as compared to 2001 primarily due to the write-off of unamortized lease costs of Marketplace, Southgate and Governors Square, legal expenses of Cactus Village and Applewood and security expenses of Winery Square, Oxford and Birdneck.

Interest expense decreased approximately \$190,000 and \$883,000 for the three and nine months ended September 30, 2002 as compared to 2001, primarily due to the lower interest rate of the Credit Facility.

### Funds from Operations and Funds Available for Distribution

-----

Funds from operations ("FFO"), represents income (or loss) before minority interest (computed in accordance with accounting principles generally accepted in the United States) ("GAAP"), excluding gains (or losses) from debt restructuring or repayments and sales of property, plus depreciation and amortization and including funds from operations for unconsolidated joint ventures calculated on the same basis. Income computed in accordance with GAAP includes straight-lining of property rentals for rent escalations in the amounts of \$17,364 and \$23,788 and \$107,595 and \$34,867 for the three and nine months ended September 30, 2002 and 2001, respectively. FFO is calculated in accordance with the National Association of Real Estate Investment Trusts ("NAREIT") definition. FFO does not represent cash generated from operating activities in accordance with GAAP which is disclosed in the Consolidated Statements of Cash Flows included in the financial statements for the applicable periods, and is not necessarily indicative of cash available to fund cash needs. There are no material legal or functional restrictions on the use of FFO. FFO should not be considered as an alternative to net income as an indicator of the Company's operating performance or as an alternative to cash flows as a measure of liquidity. Management considers FFO a supplemental measure of operating performance and along with cash flow from operating activities, financing activities and investing activities, it provides investors with an indication of the ability of the Company to incur and service debt, to make capital expenditures and to fund other cash needs.

Funds available for distribution ("FAD") represents FFO plus recurring principal receipts from mortgage loans less reserves for lease commissions, recurring capital expenditures (excluding property acquisitions) and debt principal amortization. FAD should not be considered an alternative to net income as a measure of the Company's financial performance or to cash flow from operating activities (computed in accordance with GAAP) as a measure of the Company's liquidity, nor is it necessarily indicative of sufficient cash flow to fund all of the Company's needs.

## Edgar Filing: AEGIS REALTY INC - Form 10-Q

FFO, as calculated in accordance with the NAREIT definition, and FAD for the three and nine months ended September 30, 2002 and 2001 are summarized in the following table:

Such forward-looking statements include statements regarding the intent, belief or current expectations of the Company and its management and involve known and unknown risks, uncertainties and other factors which may cause the actual results, performance or achievements of the Company to be materially different from any future results, performance or achievements expressed or implied by such forward-looking statements. Readers are cautioned not to place undue reliance on these forward-looking statements, which speak only as of the date hereof.

Inflation  
-----

Inflation did not have a material effect on the Company's results for the periods presented.

Item 3. Quantitative and Qualitative Disclosures About Market Risk

The debt financing used to raise capital for the acquisition of the Company's investments exposes the Company to fluctuations in market interest rates. Market interest rates are highly sensitive to many factors, including governmental policies, domestic and international political considerations and other factors beyond the control of the Company.

Cash flows from the Company's investments do not fluctuate with changes in market interest rates. In addition, as of September 30, 2002, approximately 35% of the Company's total notes payable outstanding are fixed rate notes, and so the payments on these instruments do not fluctuate with changes in market interest rates. In contrast, payments required under the Credit Facility vary based on market interest rates, primarily the 30 day Euro-contract rate. Thus, an increase in market interest rates would result in increased payments under the Credit Facility, without a corresponding increase in cash flows from the Company's investments in the same amounts. For example, based on the \$45,693,000 outstanding under the Credit Facility at September 30, 2002, the Company estimates that an increase of 1% in the 30 day Euro-contract rate would decrease the Company's annual net income by approximately \$457,000; a 2% increase in the 30 day Euro-contract rate would decrease annual net income by approximately \$914,000. For the same reasons, a decrease in market interest rates would generally benefit the Company, as a result of decreased payments under the Credit Facility without corresponding decreases in cash flows from the Company's investments. Various financial vehicles exist which would allow Company management to mitigate the impact of interest rate fluctuations on the Company's cash flows and earnings. Management may engage in such hedging strategies in the future, depending on management's analysis of the interest rate environment and

the costs and risks of such strategies.

### Item 4. Controls and Procedures

- (a) Evaluation of Disclosure Controls and Procedures. The Company's Chief Executive Officer and Chief Financial Officer have evaluated the effectiveness of the Company's disclosure controls and procedures (as such term is defined in Rules 13a-14(c) and 15d-14(c) under the Securities Exchange Act of 1934, as amended (the "Exchange Act")) as of a date within 90 days prior to the filing date of this quarterly report (the "Evaluation Date"). Based on such evaluation, such officers have concluded that, as of the Evaluation Date, the Company's disclosure controls and procedures are effective in alerting them on a timely basis to material information relating to the Company (including its consolidated subsidiaries) required to be included in the Company's reports filed or submitted under the Exchange Act.
- (b) Changes in Internal Controls. Since the Evaluation Date, there have not been any significant changes in the Company's internal controls or in other factors that could significantly affect such controls.
