AUDITOR'S REPORT

To the board of directors and shareholders of Telewest Communications plc

We have audited the accompanying consolidated balance sheets of Telewest Communications plc and subsidiaries as of December 31, 2002 and 2001, and the related consolidated statements of operations, shareholders' equity and comprehensive income and cash flows for each of the years in the three-year period ended December 31, 2002. These consolidated financial statements are the responsibility of the Company's management. Our responsibility is to express an opinion on these financial statements based on our audits.

We conducted our audits in accordance with generally accepted auditing standards in the United Kingdom and the United States of America. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audits provide a reasonable basis for our opinion.

In our opinion, the consolidated financial statements on pages 2 to 35 present fairly, in all material respects, the financial position of Telewest Communications plc and subsidiaries as of December 31, 2002 and 2001, and the results of their operations and their cash flows for each of the years in the

Edgar Filing: LIBERTY MEDIA CORP /DE/ - Form 10-K/A

three-year period ended December 31, 2002 in conformity with generally accepted accounting principles in the United States of America.

The accompanying financial statements have been prepared assuming that the Group will continue as a going concern. As discussed in note 2 to the financial statements, the Group is undergoing financial restructuring and this raises substantial doubt about its ability to continue as a going concern. Management's plans in regard to the restructuring are also described in note 2. The financial statements do not include any adjustments that might result from the outcome of this uncertainty.

As discussed in note 3 to the consolidated financial statements, the Group adopted SFAS 141, BUSINESS COMBINATIONS and SFAS 142, GOODWILL AND OTHER INTANGIBLE ASSETS, in 2002.

As discussed in note 3 to the consolidated financial statements, the Group changed its method of accounting for derivative instruments and hedging activities in 2001.

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

1 ORGANIZATION AND HISTORY

Telewest Communications plc ("the Company") and its subsidiary undertakings (together "the Group") provide cable television, telephony and internet services to business and residential customers in the United Kingdom ("UK"). The Group

Edgar Filing: LIBERTY MEDIA CORP /DE/ - Form 10-K/A

derives its cable television revenues from installation fees, monthly basic and premium service fees and advertising charges. The Group derives its telephony revenues from connection charges, monthly line rentals, call charges, special residential service charges and interconnection fees payable by other operators. The Group derives its internet revenues from installation fees and monthly subscriptions to its ISP. The cable television, telephony and internet services account in 2002 for approximately 26%, 61% and 5%, respectively, of the Group's revenue.

The Group is also engaged in broadcast media activities, being the supply of entertainment content, interactive and transactional services to the UK pay-TV broadcasting market. The Content Division accounts in 2002 for approximately 8% of the Group's revenue.

2 BASIS OF PREPARATION

The consolidated financial statements have been prepared in accordance with generally accepted accounting principles in the United States of America ("US GAAP"). The preparation of financial statements in conformity with US GAAP requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. The Group's significant estimates and assumptions include capitalisation of labor and overhead costs; impairment of goodwill and long-lived assets (see note 5); and accounting for debt and financial instruments (see note 4). Actual results could differ from those estimates.

The financial statements are prepared on a going concern basis, which the directors believe to be appropriate for the following reasons:

Following the directors' decision on September 30, 2002 not to pay the interest on certain of the Group's bonds and other hedging instruments, the Group is now in default of a majority of its bonds and its Senior Secured Facility.

These liabilities are now due for repayment in full and the Group is negotiating with its bondholder creditors ('the Scheme Creditors') and bank facility creditors ('Senior Lenders') to effect a reorganization of the Group's debt. This will involve, inter alia, the conversion of bond debt to equity and the renegotiation of existing bank facilities. The directors believe the amended facilities will provide the Group with sufficient liquidity to meet the Group's funding needs after completion of the Financial Restructuring. Further details of the planned Financial Restructuring are included in note 25.

In order for the Financial Restructuring to be effective, the Scheme Creditors need to approve the plans by the relevant statutory majority. In addition, the Group's shareholders need to approve the proposed share capital reorganization.

The directors are of the opinion that the status of negotiations of the financial restructuring will lead to a successful outcome and that this is sufficient grounds for issuing the annual accounts under the assumption of going concern.

The effect on the financial statements as presented, of the going concern basis of preparation being inappropriate, is principally that the book value of tangible fixed assets and investments would be

Edgar Filing: LIBERTY MEDIA CORP /DE/ - Form 10-K/A

US GAAP

2 BASIS OF PREPARATION (CONTINUED)

restated from their present value in use to a net realizable value. Whilst the directors believe that their net realizable values would be lower than the current value in use there is insufficient information available for the directors to quantify the difference.

The Group faces the following significant risks and uncertainties about:

- its continued ability to raise finance to fund its operations;
- its successful execution of its long term business plan, which in turn will affect the Group's ability to raise further finance under the Senior Secured Facility (see note 15); and
- the need to meet financial and other covenants relating to debt instruments which have already been issued.

The economic environment and currency in which the Group operates is the UK and hence its reporting currency is Pounds Sterling (£). Certain financial information for the year ended December 31, 2002 has been translated into US Dollars (\$), with such US Dollar amounts being unaudited and presented solely for the convenience of the reader, at the rate of \$1.6095 =£1.00, the Noon Buying Rate of the Federal Reserve Bank of New York on December 31, 2002. The presentation of the US Dollar amounts should not be construed as a representation that the Pounds Sterling amounts could be so converted into US Dollars at the rate indicated or at any other rate.

3 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

PRINCIPLES OF CONSOLIDATION

The consolidated financial statements include the accounts of the Company and those of its majority-owned subsidiaries. All significant inter-company accounts and transactions have been eliminated upon consolidation. All acquisitions have been accounted for under the purchase method of accounting. Under this method, the results of subsidiaries and affiliates acquired in the year are included in the consolidated statement of operations from the date of acquisition.

IMPAIRMENT OF LONG LIVED ASSETS AND GOODWILL

The Group applies Statement of Financial Accounting Standard ("SFAS") No. 144, ACCOUNTING FOR THE IMPAIRMENT OR DISPOSAL OF LONG-LIVED ASSETS. The Group adopted, from January 1, 2002 SFAS 144 which requires that long-lived assets and certain identifiable intangibles, including goodwill, to be held and used by an entity, be reviewed for impairment whenever events or changes in circumstances indicate that the carrying amount of an asset may not be recoverable. Indications of impairment are determined by reviewing undiscounted projected future cash flows. If impairment is indicated, the amount of the impairment is the amount by which the carrying value exceeds the fair value of the assets.

BUSINESS COMBINATIONS AND GOODWILL AND OTHER INTANGIBLE ASSETS

In July 2001, the Financial Accounting Standards Board ("FASB") issued SFAS 141, BUSINESS COMBINATIONS and SFAS 142, GOODWILL AND OTHER INTANGIBLE ASSETS. SFAS 141 requires all business combinations undertaken after June 30, 2001 to be accounted for using the purchase method. Under

IV-12

TELEWEST COMMUNICATIONS PLC

US GAAP

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (CONTINUED)

3 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

SFAS 142, goodwill arising from business combinations and intangible assets with indefinite lives are no longer amortized but are subject to annual review for impairment (or more frequently should indications of impairment arise). Goodwill associated with equity method investments will also no longer be amortized upon adoption of SFAS 142, but will be subject to impairment testing as part of the investment to which it relates in accordance with Accounting Principles Board Opinion No. ("APB") 18, THE EQUITY METHOD OF ACCOUNTING FOR INVESTMENTS IN COMMON STOCK. Separable intangible assets that do not have indefinite lives will continue to be amortized over their estimated useful lives and will be subject to review for impairment in accordance with SFAS 144 (see below). The amortization provisions of SFAS 142 apply to goodwill and intangible assets acquired after June 30, 2001. For goodwill and intangible assets acquired prior to July 1, 2001, the Group was required to adopt SFAS 142 effective January 1, 2002. As of January 1, 2002 the Group had L2,199 million of unamortized goodwill, L1,892 million of which related to business combinations and L307 million of which related to equity method investments.

Impairment under SFAS 142 is measured using a two-step approach, initially based on a comparison of the reporting unit's fair value to its carrying value; if the fair value is lower, then the second step compares the implied fair value of the goodwill with its carrying value to determine the amount of the impairment. The adoption of SFAS 142 on January 1, 2002 had no impact on the Company's financial position or results of operations. As required by SFAS 142, the standard has not been retroactively applied to the results for the period prior to adoption.

CASH AND CASH EQUIVALENTS

Cash and cash equivalents include highly liquid investments with original maturities of three months or less that are readily convertible into cash.

DERIVATIVES AND HEDGING

At January 1, 2001 the Company adopted SFAS 133 ACCOUNTING FOR DERIVATIVE INSTRUMENTS AND HEDGING ACTIVITIES as amended by SFAS 137 and SFAS 138. SFAS 133 established accounting and reporting standards for derivative instruments, including certain derivative instruments embedded in other contracts, and hedging activities. It requires the recognition at fair value of all derivative instruments as assets or liabilities in the Company's balance sheet. The accounting treatment of changes in fair value is dependent upon whether or not a derivative instrument is designated a hedge and if so, the type of hedge and its effectiveness as a hedge.

For derivatives, which are not designated as hedges, changes in fair value are recorded immediately in earnings.

For derivatives designated as cash flow hedges, changes in fair value on the effective portion of the hedging instrument are recorded within other comprehensive income ("OCI") until the hedged transaction occurs and are then recorded within earnings. Changes in the ineffective portion of a hedge are recorded in earnings. For derivatives designated as fair value hedges, changes in fair value are recorded in earnings. The Group has not, however, had any fair

Edgar Filing: LIBERTY MEDIA CORP /DE/ - Form 10-K/A

value hedges since the adoption of SFAS 133.

IV-13

TELEWEST COMMUNICATIONS PLC

US GAAP

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (CONTINUED)

3 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

The Group discontinues hedge accounting for derivative financial instruments when it is determined that the derivative instrument is no longer effective in offsetting changes in the cash flows of the hedged item; the derivative instrument expires or is sold; the derivative instrument is no longer designated as a hedging instrument, because it is unlikely that a forecasted transaction will occur; a hedged firm commitment no longer meets the definition of a firm commitment; or its management determines that designation of the derivative instrument as a hedging instrument is no longer appropriate. The tests for determining the effectiveness of a cash flow hedge compare on a strict basis the amount and timing of cash flows on the underlying economic exposure with the cash flows of the derivative instrument.

Upon discontinuation of cash flow hedge accounting, the net gain or loss attributable to the hedging instrument, which has been reported in OCI to the date of discontinuation, continues to be reported in OCI until the date the hedged transaction impacts earnings. This occurs unless it is probable that the hedged transaction will not occur by the end of the originally specified time period. If the hedged transaction is not expected to occur, the net gain or loss is reclassified from OCI to earnings upon discontinuation.

Prior to adoption of SFAS 133 the Group had the following accounting policies in respect of financial instruments. Foreign currency forward contracts, options and swaps, which were used to reduce the exchange risk on the principal amounts and early call premiums on certain foreign currency borrowings, were recorded on the balance sheet at their fair value. Gains and losses arising from changes in fair value were recorded concurrently within earnings. Such gains and losses were offset by gains and losses arising from retranslating the principal amounts of the foreign currency borrowings.

The Group also used foreign currency forward contracts and cross currency interest rate swaps to reduce its exposure to adverse changes in exchange rates associated with the interest payments on certain foreign currency borrowings. Such foreign currency forward contracts and cross currency interest rate swaps were accounted for using the accruals method.

The Group also used interest rate swap agreements and an interest rate collar to manage interest rate risk on the Group's borrowings. Net income or expense resulting from the differential between exchanging floating and fixed interest payments was recorded within the consolidated statement of operations on an accruals basis from the effective date of the interest rate swap agreements and interest rate collar.

INVESTMENTS

Generally, investments in partnerships, joint ventures and subsidiaries in which the Group's voting interest is 20% to 50%, and others where the Group has significant influence, are accounted for using the equity method. Investments which do not have a readily determinable fair value, in which the Group's voting interest is less than 20%, and in which the Group does not have significant influence, are carried at cost and written down to the extent that there has been an other-than-temporary diminution in value. The Group accounts for certain

Edgar Filing: LIBERTY MEDIA CORP /DE/ - Form 10-K/A

investments in which the Group's ownership is greater than 50% using the equity method. This method is used for such subsidiaries where the minorities have substantive participating rights such as veto over key operational and financial matters and equal representation on the board of directors.

3 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

The Group reviews the carrying values of its investments in affiliates, including any associated goodwill, to ensure that the carrying amount of such investments are stated at no more than their recoverable amounts. The Group assesses the recoverability of its investments by determining whether the carrying value of the investments can be recovered through projected discounted future operating cash flows (excluding interest) of the operations underlying the investments. The assessment of the recoverability of the investments will be impacted if projected future operating cash flows are not achieved. The amount of impairment, if any, is measured based on the projected discounted future operating cash flows using a rate commensurate with the risks associated with the assets.

ADVERTISING COSTS

Advertising costs are expensed as incurred. The amount of advertising costs expensed was L52 million, L48 million, and L38 million for the years ended December 31, 2002, 2001, and 2000, respectively.

PROPERTY AND EQUIPMENT

Property and equipment is stated at cost. Depreciation is provided to write off the cost, less estimated residual value, of property and equipment by equal instalments over their estimated useful economic lives as follows:

Freehold and long leasehold buildings.....	50 years
Cable and ducting.....	20 years
Electronic equipment	
System electronics.....	8 years
Switching equipment.....	8 years
Subscriber electronics.....	5 years
Headend, studio, and playback facilities.....	5 years
Other equipment	
Office furniture and fittings.....	5 years
Motor vehicles.....	4 years

The Group accounts for costs, expenses and revenues applicable to the construction and operation of its cable systems in accordance with SFAS 51 FINANCIAL REPORTING BY CABLE TELEVISION COMPANIES. Initial subscriber installation costs are capitalized and depreciated over the life of the network.

DEFERRED FINANCING COSTS

Direct costs incurred in raising debt are deferred and recorded on the consolidated balance sheet in other assets. The costs are amortized to the consolidated statement of operations at a constant rate to the carrying value of

Edgar Filing: LIBERTY MEDIA CORP /DE/ - Form 10-K/A

the debt over the life of the obligation.

MINORITY INTERESTS

Recognition of the minority interests' share of losses of consolidated subsidiaries is limited to the amount of such minority interests' allocable portion of the equity of those consolidated subsidiaries.

TELEWEST COMMUNICATIONS PLC

US GAAP

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (CONTINUED)

3 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED) FOREIGN CURRENCIES

Transactions in foreign currencies are recorded using the rate of exchange in effect at the date of the transaction. Monetary assets and liabilities denominated in foreign currencies are translated using the rate of exchange prevailing at the balance sheet date and the gains or losses on translation are included in the consolidated statement of operations.

REVENUE RECOGNITION

Revenues are recognized as network communication services are provided. Credit risk is managed by disconnecting services to customers who are delinquent. Connection and activation fees relating to cable television, telephony and internet are recognized in the period of connection to the extent that such fees are less than direct selling costs. Any excess connection and activation fees over direct selling costs incurred are deferred and amortized over the expected customer life.

Occasionally the Group sells capacity on its network to other telecommunications providers. Sales of capacity are accounted for as sales-type leases, operating leases, or service agreements depending on the terms of the transaction. If title is not transferred or if the other requirements of sales-type lease accounting are not met, revenues are recognized rateably over the term of the agreement.

Programming revenues are recognized in accordance with Statement of Position ("SOP") 00--2, ACCOUNTING BY PRODUCERS OR DISTRIBUTORS OF FILMS. Revenue on transactional and interactive sales is recognized as and when the services are delivered. Advertising sales revenue is recognized at estimated realizable values when the advertising is aired.

RECOGNITION OF CONTRACT COSTS

Certain of the sales of network capacity referred to above involve the Group constructing new capacity. Where the Group retains some of this new capacity, either for subsequent resale or for use within the business, then an element of the construction costs is retained within inventory or equipment, respectively. The allocation of construction cost between costs expensed to the statement of operations and costs capitalized within inventory or equipment is based upon the ratio of capacity to be sold and to be retained.

PENSION COSTS

The Group operates a defined contribution scheme (the Telewest Communications plc Pension Trust) or contributes to third-party schemes on

Edgar Filing: LIBERTY MEDIA CORP /DE/ - Form 10-K/A

behalf of employees. The amount included in expenses in 2002, 2001 and 2000 of L11 million, L10 million and L8 million, respectively, represents the contributions payable to the selected schemes in respect of the relevant accounting periods.

INCOME TAXES

Under the asset and liability method of SFAS 109 Accounting for Income Taxes, deferred tax assets and liabilities are recognized for the future tax consequences attributable to differences between the financial statement carrying amounts of existing assets and liabilities and their respective tax bases.

IV-16

TELEWEST COMMUNICATIONS PLC

US GAAP

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (CONTINUED)

3 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

Deferred tax assets and liabilities are measured using enacted tax rates expected to apply to taxable income in the years in which those temporary differences are expected to be recovered.

The Group recognises deferred tax assets only where it is more likely than not that the benefit will be realized through future taxable income. Otherwise a valuation allowance is established to provide against deferred tax assets.

SHARE-BASED COMPENSATION

SFAS 123, ACCOUNTING FOR STOCK-BASED COMPENSATION, encourages, but does not require, companies to record compensation costs for share-based employee compensation plans at fair value. The Group has chosen to continue to account for share-based compensation using the intrinsic value method prescribed in APB 25, ACCOUNTING FOR STOCK ISSUED TO EMPLOYEES and related interpretations. Accordingly, compensation cost for fixed plan share options is measured as the excess, if any, of the quoted market price of the Company's shares at the date of the grant over the amount an employee must pay to acquire the shares. Compensation cost for variable plan share options is measured each period using the intrinsic value method until the variable or performance features of the plan become fixed. Compensation expense is recognized over the applicable vesting period.

Shares purchased by the trustees in connection with the Telewest Restricted Share Scheme and certain LTIP awards, are valued at cost and are reflected as a reduction of shareholders' equity in the consolidated balance sheet. This equity account is reduced when the shares are issued to employees based on the original cost of the shares to the trustees.

EARNINGS PER SHARE

Basic earnings per share has been computed by dividing net loss available to ordinary shareholders by the weighted average number of ordinary shares outstanding during the year. Diluted earnings per share is computed by adjusting the weighted average number of ordinary shares outstanding during the year for all dilutive potential ordinary shares outstanding during the year and adjusting the net loss for any changes in income or loss that would result from the conversion of such potential ordinary shares. There is no difference in net loss and number of shares used for basic and diluted net loss per ordinary share, as potential ordinary share equivalents for employee share options and convertible

Edgar Filing: LIBERTY MEDIA CORP /DE/ - Form 10-K/A

debt are not included in the computation as their effect would be to decrease the loss per share. The number of potential ordinary shares was 393 million, 393 million and 464 million in 2002, 2001 and 2000, respectively.

INVENTORIES

Inventories of equipment, held for use in the maintenance and expansion of the Group's telecommunications systems, are stated at cost, including appropriate overheads, less provision for deterioration and obsolescence. Network capacity and ducting held for resale are stated at the lower of cost and net realizable value.

NEW ACCOUNTING STANDARDS APPLICABLE TO THE GROUP

SFAS 143 ACCOUNTING FOR ASSET RETIREMENT OBLIGATIONS

In July 2001, the FASB issued SFAS 143, ACCOUNTING FOR ASSET RETIREMENT OBLIGATIONS. SFAS 143, which is effective for fiscal years beginning after June 15, 2002, requires entities to record the fair value of a liability for an asset retirement obligation in the period in which it is incurred. When the liability is initially recorded, an entity capitalizes a cost by increasing the carrying amount of the related long-lived asset. Over time, the liability is accreted to its present value each period, and the capitalized cost is depreciated over the useful life of the related asset. Upon settlement of the liability, an entity either settles the obligation for its recorded amount or incurs a gain or loss upon settlement. The Group does not believe the adoption of SFAS 143 will have a material impact on the financial statements.

SFAS 145 RESCISSION OF FASB STATEMENTS 4, 44 AND 64, AMENDMENT OF FASB 13, AND TECHNICAL CORRECTIONS

In April 2002, the FASB issued SFAS 145, "Rescission of FASB Statements 4, 44 and 64, Amendment of FASB 13, and Technical Corrections". SFAS 145 provides for the rescission of several previously issued accounting standards, new accounting guidance for the accounting for certain lease modifications and various technical corrections that are not substantive in nature to existing pronouncements. The Group has adopted this standard from January 1, 2002 and reclassified L15 million from extraordinary items to expense for the year ended December 31, 2001. No material adjustments have been required in 2002.

SFAS 146 ACCOUNTING FOR COSTS ASSOCIATED WITH EXIT OR DISPOSAL ACTIVITIES

In June 2002, the FASB issued SFAS 146, "Accounting for Costs Associated with Exit or Disposal Activities". SFAS 146 is effective for exit or disposal activities that are initiated after December 31, 2002, and nullifies Emerging Issues Task Force ("EITF") Issue No. 94-3 "Liability Recognition for Certain Employee Termination Benefits and Other Costs to Exit an Activity (including Certain Costs Incurred in a Restructuring)". SFAS 146 applies to costs associated with an exit activity that do not involve an entity newly acquired in a business combination or with a disposal activity covered by SFAS 144 "Accounting for the Impairment or Disposal of Long-Lived Assets". The Group has not yet determined the impact, if any, the adoption of this standard will have

Edgar Filing: LIBERTY MEDIA CORP /DE/ - Form 10-K/A

on its financial position or results of operations.

SFAS 148 ACCOUNTING FOR STOCK BASED COMPENSATION--TRANSITION AND DISCLOSURE

An amendment of SFAS 123 is effective for the Group for the year ended December 31, 2002. SFAS 148 permits two additional transition methods for entities that adopt the fair value based method of accounting for stock-based employee compensation. The Statement also requires new disclosures about the ramp-up effect of stock-based employee compensation on reported results and that those effects be disclosed more prominently by specifying the form, content, and location of those disclosures. The Group has adopted the disclosure provisions of the Statement in these financial statements. The Group has not adopted the fair value based method of accounting for stock-based employee

compensation and still accounts for these in accordance with APB Opinion 25, ACCOUNTING FOR STOCK ISSUED TO EMPLOYEES.

OTHER NEW STANDARDS

In November 2002, the Emerging Issues Task Force issued its consensus on EITF 00-21, REVENUE ARRANGEMENTS WITH MULTIPLE DELIVERABLES (EITF 00-21) on an approach to determine whether an entity should divide an arrangement with multiple deliverables into separate units of accounting. According to the EITF, in an arrangement with multiple deliverables, the delivered item(s) should be considered a separate unit of accounting if all of the following criteria are met: (1) the delivered item(s) has value to the customer on a standalone basis, (2) there is objective and reliable evidence of the fair value of the undelivered item(s), and (3) if the arrangement includes a general right of return, delivery or performance of the undelivered item(s) is considered probable and substantially in the control of the vendor. If all the conditions above are met and there is objective and reliable evidence of fair value for all units of accounting in an arrangement, the arrangement consideration should be allocated to the separate units of accounting based on their relative fair values. The guidance in this Issue is effective for revenue arrangements entered into in fiscal beginning after June 15, 2003. The Group believes that the adoption of EITF 00-21 will not have a material impact on the Group's financial statements.

In November 2002, the FASB issued FASB Interpretation 45, GUARANTOR'S ACCOUNTING AND DISCLOSURE REQUIREMENTS FOR GUARANTEES, INCLUDING INDIRECT GUARANTEES OF INDEBTEDNESS OF OTHERS ('FIN 45'), which addresses the disclosure to be made by a guarantor in its financial statements about its obligations under guarantees. FIN 45 also requires the recognition of a liability by a guarantor at the inception of certain guarantees. It requires the guarantor to recognize a liability for the non-contingent component of the guarantee, this is the obligation to stand ready to perform in the event that specified triggering events or conditions occur. The initial measurement of this liability is the fair value of the guarantee at inception. The recognition of the liability is required even it is not probable that payments will be required under the guarantee or if the guarantee was issued with a premium payment or as part of a transaction with multiple elements. The Group has adopted the disclosure requirements and will apply the recognition and measurement provisions for all guarantees entered into or modified after December 31, 2002. To date the company

Edgar Filing: LIBERTY MEDIA CORP /DE/ - Form 10-K/A

has not entered into or modified guarantees.

In January 2003, the FASB issued FASB Interpretation 46, CONSOLIDATION OF VARIABLE INTEREST ENTITIES (FIN 46) which interprets Accounting Research Bulletin (ARB) 51, CONSOLIDATED FINANCIAL STATEMENTS. FIN 46 clarifies the application of ARB 51 with respect to the consolidation of certain entities (variable interest entities--'VIEs') to which the usual condition for consolidation described in ARB 51 does not apply because the controlling financial interest in VIEs may be achieved through arrangements that do not involve voting interests. In addition, FIN 46 requires the primary beneficiary of VIEs and the holder of a significant variable interest in VIEs to disclose certain information relating to their involvement with the VIEs. The provisions of FIN 46 apply immediately to VIEs created after January 31, 2003, and to VIEs in which an enterprise obtains an interest after that date. FIN 46 applies in the first fiscal year beginning after June 15, 2003, to VIEs in which an enterprise holds a variable interest that it acquired before February 1, 2003. The Group does not believe that the impact the adoption of FIN 46 will have a material effect on its financial statements.

4 FINANCIAL INSTRUMENTS

The Group holds derivative financial instruments solely to hedge specific risks and does not hold such instruments for trading purposes. The derivatives are held to hedge against the variability in cash flows arising from the effect of fluctuations of GBP:USD exchange rate on the Group's US Dollar-denominated debt and from changes in interest rates on its variable rate bank debt.

The Group maintains risk management control systems to monitor currency exchange and interest rate risk attributable to forecasted debt principal payments and interest rate exposure.

CASH FLOW HEDGES

HEDGES OF US DOLLAR DENOMINATED DEBT

The Group has issued US Dollar denominated debt instruments with a range of maturities. The Group previously hedged the principal amounts of these instruments up to their first call dates or other such dates where the Group may at its option redeem the instrument before maturity.

The Group has increased its foreign exchange risk since the discontinuation of hedge accounting as described below. The Group continues to monitor this risk until the Financial Restructuring is complete when the US Dollar-denominated debt instruments will be swapped for equity and the foreign exchange risk is minimised.

In the three-month period ended March 31, 2002, the Group determined that it was probable that forecasted future prepayments of principal against outstanding US dollar-denominated debt would not occur. Accordingly, the cumulative adjustment in OCI of L53 million resulting from marking to market the derivative instruments has been reclassified from OCI to foreign exchange gains in the Statement of Operations. Subsequent adjustments of the carrying value of these instruments to fair value are taken directly to the Statement of Operations as incurred.

Edgar Filing: LIBERTY MEDIA CORP /DE/ - Form 10-K/A

In the nine-month period ended September 30, 2002, the Group had the ability to terminate in-the-money derivative contracts that fluctuate in value. Such derivative contracts hedged our exposure to fluctuations in the US dollar/pound sterling exchange rates on the Group's US dollar-denominated debt. In March 2002, the Group terminated certain of these derivative contracts with a nominal value of \$999 million (L688 million), netting L74 million cash inflow. In May 2002 the Group terminated further derivative contracts with a nominal value of \$367 million (L253 million) realizing an additional L30 million cash inflow. In the three-month period ended September 30, 2002, the Group terminated arrangements with a nominal value of \$2.3 billion (approximately L1.5 billion). Contracts with a nominal value of \$1 billion were settled in cash resulting in an outflow of L28 million. The remaining contracts with a nominal value of \$1.3 billion have yet to be settled for a total cost of L33 million of which L19 million was due on October 1, 2002, but the Company deferred such payment and is considering the payment in the context of its Financial Restructuring.

During the twelve-month period ended December 31, 2002, the Group recorded a net L48 million transfer from cumulative OCI to the Statement of Operations arising from the dedesignation of derivative contracts as ineffective hedges, as described above. In the 12-month period ended December 30, 2001, the Group recorded a L36 million gain in fair value to cumulative OCI, consisting of a loss of L25 million to short-term derivative liabilities and a L61 million gain to long-term derivative assets.

4 FINANCIAL INSTRUMENTS (CONTINUED)

HEDGES OF VARIABLE RATE DEBT

As described in note 15 to the consolidated financial statements, the Group has a Senior Secured Facility with a syndicate of banks and a further amount from an Institutional Tranche ("Institutional Tranche"). Draw downs under the Senior Secured Facility and the Institutional Tranche bear interest at 0.75% to 2.00% above LIBOR and up to 4% above LIBOR respectively, so the Group is exposed to variable cash flows arising from changes in LIBOR. The Group hedges these variable cash flows by the use of interest rate swaps. The interest rate swaps can be summarised as follows:

EFFECTIVE DATES	MATURITIES	NOTIONAL PRINCIPAL	RECEIVES	
1/2/1997 - 7/1/2002	12/31/2003 - 3/31/2005	L900m	6-month LIBOR	5.475

In June 2002, the Group reviewed the effectiveness as hedges of the derivative instruments hedging our exposure to fluctuations in interest rates on its long-term bank debt. The review concluded that continued designation of these instruments as hedges was no longer appropriate and hedge accounting was discontinued with immediate effect. The dedesignation of these instruments as hedges resulted in a transfer of L7 million from cumulative OCI to interest expense within the Statement of Operations. Any movements in the value of the derivatives after June 2002 are recorded within interest expense.

Edgar Filing: LIBERTY MEDIA CORP /DE/ - Form 10-K/A

The Group continues to hedge some of its interest rate risk on its Senior Secured Facility through the use of interest rate swaps. The purpose of the derivative instruments is to provide a measure of stability over the Company's exposure to movements in sterling interest rates on its sterling denominated bank debt.

FAIR VALUE OF FINANCIAL INSTRUMENTS

SFAS 107, DISCLOSURES ABOUT FAIR VALUE OF FINANCIAL INSTRUMENTS requires disclosure of an estimate of the fair values of financial instruments. SFAS 107 defines the fair value of a financial instrument as the amount at which the instrument could be exchanged in a current transaction between willing parties other than in a forced sale. Fair value estimates are made at a specific point in time, based on relevant market information and information about the financial instrument. These estimates are subjective in nature and involve uncertainties and matters of significant judgement, and therefore cannot be determined precisely. Changes in assumptions could significantly affect the estimates.

At December 31, 2002 the Group's significant financial instruments include cash and cash equivalents, trade receivables, interest rate swaps, trade payables and short-term and long-term debt instruments. The following table summarizes the fair value of certain instruments held by and obligations of the Group. The fair value of the other financial instruments held by the Group

approximates their recorded carrying amount due to the short maturity of these instruments and these instruments are not presented in the following table:

The estimated fair values of the financial instruments specified above are based on quotations received from independent, third party financial institutions and represent the net amounts receivable or payable to terminate the position. The estimated fair values of the Debentures and Notes are also based on quotations from independent third party financial institutions and are based on discounting the future cash flows to net present values using appropriate market interest rates prevailing at the year end.

MARKET RISK AND CONCENTRATIONS OF CREDIT RISK

Market risk is the sensitivity of the value of the financial instruments to changes in related currency and interest rates.

As described above, the Group terminated its portfolio of derivative financial instruments which were used to hedge its exposure to fluctuations in the USD: GBP exchange rate. Consequently the Group is exposed to fluctuations in the value of its US Dollar denominated debt obligations.

Generally, the Group is not exposed to such market risk arising on its interest rate derivative financial instruments because gains and losses on the underlying assets and liabilities offset gains and losses on the financial instruments.

4 FINANCIAL INSTRUMENTS (CONTINUED)

The Group may be exposed to potential losses due to the credit risk of non-performance by the financial institution counterparties to its portfolio of derivative financial instruments. However such losses are not anticipated as these counterparties are major international financial institutions and the portfolio is spread over a wide range of institutions.

Temporary cash investments also potentially expose the Group to concentrations of credit risk, as defined by SFAS 133. At December 31, 2002 the Group had L160 million on deposit with a major international financial institution. Concentrations of credit risk with respect to trade receivables are limited due to the large number of customers comprising the Group's customer base.

5 IMPAIRMENT OF ASSETS

During the year ended December 31, 2002, the Group undertook an impairment review of its network assets, of goodwill arising on recent acquisitions and of its investments in affiliates acquired in recent years. The review covered the Cable and Content Divisions. The principal reasons for the review were: a share price decline indicative of a fall in the values of the underlying assets and a softening of the ad-sales market, declining revenue growth and a lower than expected customer take up of additional services.

The review found evidence of impairment in the value of goodwill arising on

Edgar Filing: LIBERTY MEDIA CORP /DE/ - Form 10-K/A

the core Cable and Content business and in the value of the affiliated undertaking UKTV. The carrying amount of goodwill, fixed assets and the investments in the affiliated undertakings were written down to fair value, resulting in a charge of L1,445 million against goodwill, an impairment of L841 million against fixed assets and a charge of L88 million against the investments in affiliated undertakings. These charges have been included in the statement of operations within impairment of goodwill, impairment of fixed assets and share of net losses of affiliates and impairment, respectively. The estimated fair value of the goodwill and the investment in UKTV was based on projected future cash flows at a post-tax discount rate of 11.5% which the Group believes is commensurate with the risks associated with the assets. The projected future cash flows were determined using the company's ten-year plan for the business, with a terminal value which takes into account analysts' and other published projections of future trends across pay TV platforms, including the total television advertising market.

6 BUSINESS COMBINATIONS

On May 30, 2001, the Group acquired 51% of the issued share capital of Rapid Travel Solutions Limited ("Rapid Travel") and was granted a series of call options by, and granted a series of put options to, the vendors in respect of the balance of 49%. Assuming that either party exercises these options, the Group will acquire the remainder of the share capital in tranches ending on November 30, 2003 for total consideration of L4 million. The acquisition has been accounted for using the purchase method of accounting. Goodwill arising on the acquisition was L7 million.

If the Group had acquired Rapid Travel at the beginning of 2000 and 2001, the Group's results would not have been materially different from the actual results as disclosed in these financial statements.

On April 19, 2000 the Company acquired the entire issued share capital of Flextech Plc ("Flextech"), a company engaged in broadcast media activities, for a total consideration of

L1,978 million. This comprised 601 million shares of 10p each and acquisition costs of L31 million. The value attributed to the shares issued was 323.85p per share, being the average share market price for a five day period around December 17, 2000, the day the terms of the acquisitions were agreed to and announced. The acquisition was accounted for using the purchase method of accounting. The goodwill arising on acquisition of Flextech was L1,382 million. As described in note 5, the Group has undertaken an impairment review of goodwill. As a result of the review, a charge of L413 million has been made.

On November 1, 2000 the Company acquired the entire issued share capital of Eurobell (Holdings) PLC ("Eurobell"), from Deutsche Telekom ("DT") and agreed to pay initial and deferred consideration to DT, (as discussed below), in the form of 5% Accreting Convertible Notes due 2003. The aggregate principal amount of such Notes, following agreement of the deferred consideration is L254 million. The terms of the Accreting Convertible Notes are described in note 15 to these financial statements.

Upon completion of the acquisition, the Company issued a L220 million

Edgar Filing: LIBERTY MEDIA CORP /DE/ - Form 10-K/A

Accreting Convertible Note to DT in consideration for:

- Eurobell's entire issued share capital, L72 million
- the assignment of an inter-company loan previously owed by Eurobell to DT, L128 million, and
- a cash payment remitted to Eurobell by DT shortly after the acquisition, L20 million.

Subsequently, on January 15, 2001 DT remitted a further cash payment, L30 million, to Eurobell and the Company issued an additional Accreting Convertible Note to DT for L30 million.

In addition under the terms of the acquisition, the Company was obliged to provide deferred consideration, contingent on Eurobell's turnover for the year ended December 31, 2000 exceeding a certain target. As a result, an additional L3.5 million Accreting Convertible Note, dated April 2, 2001 was issued to DT. This deferred consideration was accrued for at December 31, 2000.

Goodwill of L1 million arose on the acquisition.

If the Company had acquired Flextech and Eurobell on January 1, 2000 the Group's net loss of L755 million and loss per share of L0.28 would have been L820 million and L0.28, respectively.

The Debentures and Notes are unsecured liabilities of the Group.

The Senior Convertible Notes 2005 are convertible into 114 million ordinary shares of the Group at a conversion price of 288 pence per ordinary share. Conversion is at the holders' option at any time up to the close of business on June 22, 2005. The Senior Convertible Notes 2007 are convertible into 92 million ordinary shares of the Group at a conversion price of 325 pence per ordinary share. Conversion is at the holders' option at any time up to close of business on February 2, 2007. If Notes are called for redemption prior to

Edgar Filing: LIBERTY MEDIA CORP /DE/ - Form 10-K/A

maturity, each holder has the right to convert Notes into ordinary shares. The Accreting Convertible Notes 2003 are convertible into 162 million ordinary shares of the Group at an initial conversion price of 156.56 pence per ordinary share. Conversion is at maturity at the holder's option, but the Group can elect to settle in cash at any time, in whole but not in part, at 100% of the accreted value provided that for a certain 10 day period prior to redemption, the price per ordinary share has been at least 130% of the average conversion price in effect on each day during the 10 day period.

On January 15, 2001, DT remitted a cash payment of L30 million to its former subsidiary Eurobell, under the terms of the acquisition of Eurobell by the Company on November 1, 2000. In consideration the Company issued additional Accreting Convertible Notes 2003 for the same amount. In addition, under the terms of the acquisition, the Company was obliged to provide deferred consideration, contingent on Eurobell's turnover for the year ended December 31, 2000 exceeding a certain target. As a result additional L3.5 million Accreting Convertible Notes 2003, dated April 2, 2001, were issued to DT.

The unamortized portion of the discounts on issue on the Senior Discount Notes 2009 and Senior Discount Notes 2010 was L73 million and L58 million respectively. The discount on issue is being amortized up to the first call dates of the bonds, such as to produce a constant rate of return on the carrying amount.

The indentures under which the Debentures and Notes were issued contain various covenants, which among other things, restrict the ability of the Group to incur additional indebtedness, pay dividends, create certain liens, enter into certain transactions with shareholders or affiliates, or sell certain assets. As part of its refinancing, the Group elected not to pay: the interest due on October 1, 2002 on its Senior Debentures 2006 and its Senior Discount Debentures 2007; the interest due on November 1 2002 on its Senior Notes 2008; and the interest due on January 7, 2003 on its Senior Convertible Notes 2005. The non payment of interest constitutes a default event under the terms of these four bonds.

SENIOR SECURED FACILITY

On March 16, 2001 the Group entered into a new senior secured credit facility (the "Senior Secured Facility") with a syndicate of banks for L2 billion, of which L1,855 million was drawn down at December 31, 2002. The Group is also able to raise a further L250m as part of the institutional investors of which L145 million was drawn down at December 31, 2002. The first draw downs under the Senior Secured Facility were used to repay amounts owed under the old senior secured credit facilities.

Borrowings under the Senior Secured Facility are secured on the assets of the Group including the partnership interests and shares of subsidiaries and bear interest at 0.75% to 2.0% over LIBOR (depending on the ratio of borrowings to quarterly, annualized, consolidated net operating cash flow). Borrowings under the Institutional Tranche bear interest at up to 4% above LIBOR.

Edgar Filing: LIBERTY MEDIA CORP /DE/ - Form 10-K/A

The Senior Secured Facility contains cross default clauses with other debt instruments. As a result of the Group being in default on certain of its Debentures and Notes, it is in default on the Senior Secured Facility.

The Group is renegotiating its bank facilities and debt financing arrangements. Further details of the Financial Restructuring are included in note 25.

VENDOR FINANCING

The Group has entered into vendor financing arrangements to fund its purchase of equipment from certain suppliers. Under the terms of these arrangements the Group defers payment for periods up to 36 months. Interest is charged on these arrangements at a rate that is fixed for the life of the arrangements. The balance on these arrangements at December 31, 2002 was L11 million.

SMG LOAN

On July 11, 2001, the Group entered into a contract with Toronto Dominion Bank ("TD"), whereby TD provided a loan to the Group, in return for security over 55% of the Group's shareholding in SMG plc. The loan was fully repaid during the year following the sale of the Group's investment in SMG.

BANK LOANS

Bank loans are property loans secured on certain freehold land and buildings held by the Group. The balance at December 31, 2002 was L7 million.

At December 31, 2002 the Group estimates that it has, subject to Inland Revenue agreement, net operating losses ("NOLs") of L1,647 million available to relieve against future profits. This excludes capital allowances on assets which are available to the Group, but have not been claimed.

A valuation allowance of 100% has been provided due to a history of operating losses and management's belief that the likelihood of realizing the benefit of the deferred tax asset is not more likely than not.

The NOLs have an unlimited carry forward period under UK tax law, but are limited to their use to the type of business which has generated the loss.

17 SHAREHOLDERS' EQUITY

MOVEMENT IN SHARE CAPITAL

On March 31, 2000 the authorized share capital of the Company was increased to L460 million divided into 4,300 million ordinary shares of 10 pence each and 300 million limited voting convertible ordinary shares of 10p each.

Between May 5 and July 5, 2000 the Company issued 601 million ordinary shares of 10 pence each in consideration for the entire issued share capital of Flextech. Also in 2000, 4 million ordinary shares of 10 pence each were issued in consideration of L4.6 million on exercise of employee share options.

During 2001 the Company issued 7 million ordinary shares of 10 pence each upon exercise of employee share options. Total consideration received was L6 million. In addition the Company redesignated 20 million ordinary shares of 10p each into 20 million limited voting convertible ordinary shares of 10 pence each.

LIMITED VOTING CONVERTIBLE ORDINARY SHARES

The ordinary shares and the limited voting convertible ordinary shares have the same rights, except that the limited voting convertible ordinary shares do not confer the right to vote on resolutions to

appoint, reappoint, elect or remove directors of Telewest. No application will be made for the limited voting convertible ordinary shares to be listed or dealt in on any stock exchange. Holders of limited voting convertible ordinary shares are entitled to convert all or some of their limited voting convertible ordinary shares into fully paid ordinary shares, provided that the conversion would not result in a change of control of the Company for the purposes of the indentures governing certain Notes and Debentures. The limited voting convertible ordinary shares are convertible into ordinary shares at the Company's option at any time, subject to certain conditions. The sole holders of the limited voting convertible ordinary shares are Liberty Media and Microsoft.

Members of the Liberty Media Group and/or the Microsoft Group can redesignate all or any of their ordinary shares into limited voting convertible ordinary shares. This is to ensure that, on any future purchase of ordinary

Edgar Filing: LIBERTY MEDIA CORP /DE/ - Form 10-K/A

shares by members of the Microsoft Group and/or members of the Liberty Media Group, they will, at that time, be able to re-designate such number of their then existing holding of ordinary shares so as to avoid a change of control of the Company for the purposes of the Notes and Debentures.

Future purchases of ordinary shares and/or limited voting convertible ordinary shares by members of the Liberty Media Group and/or the Microsoft Group will, however, be subject to Rule 9 of the UK's City Code on Take overs and Mergers because both classes of shares are treated as voting shares for that purpose. Under Rule 9, when any person acquires, whether by a series of transactions over a period of time or not, shares which (taken together with shares held or acquired by persons acting in concert with him) carry 30% or more (but less than 50%) of the voting rights of a public company, that person is normally required to make a general offer to shareholders for the entire share capital of the company then in issue. Any person, or group of persons acting in concert, owning shares carrying 50% or more of the voting rights of a public company, subject to their own individual limits, is free to acquire further shares in that public company without giving rise to the requirement to make a general offer for the entire issued share capital of that company.

In May 2001, Liberty Media increased its shareholding in the Company as result of the purchase of 20 million ordinary shares of 10 pence each. Prior to the increase in shareholding, Liberty Media redesignated 20 million ordinary shares of 10 pence each as limited voting convertible ordinary shares of 10 pence each. As a result Liberty Media and Microsoft's combined shareholdings remained below 50% of the issued ordinary share capital, above which level a change of control for the purposes of the Group's debt securities may occur.

18 SHARE-BASED COMPENSATION PLANS

At December 31, 2002, the Company operated five types of share-based compensation plans: the Executive Share Option Schemes, the Sharesave Schemes, the Telewest Restricted Share Scheme ("RSS"), the Telewest Long Term Incentive Plan ("LTIP") and an Equity Participation Plan ("EPP").

The Company applies APB 25 and related interpretations in accounting for its share-based compensation plans. Compensation cost is recognized over the estimated service period in respect of performance based share option grants to the extent that the market value of the Company's ordinary shares exceeds the exercise price at the earlier of the vesting date or the Balance Sheet date. Compensation cost is recognized for awards over ordinary shares made under the RSS since the awards

have no exercise price. Compensation cost is recognized over the estimated service period in respect of the LTIP to the extent that the market value of the Company's ordinary shares exceeds the exercise price at the earlier of the vesting date or the Balance Sheet date.

Compensation cost recognized for share option grants and awards is as follows:

Edgar Filing: LIBERTY MEDIA CORP /DE/ - Form 10-K/A

EPP.....	--	1	1
	--	--	--
	(1)	2	8
	--	--	--

During the year, no options or awards were granted over any ordinary shares of the Company. If compensation costs for share option grants and awards under the RSS, LTIP, Executive Option Schemes and EPP had been determined based on their fair value at the date of grant for 2001 and 2000 consistent with the method prescribed by SFAS 123, the Group's net loss and basic and diluted loss per share would have been adjusted to the pro forma amounts set out below:

	2002 L MILLION	2001 L MILLION	2000 L MILLION

Basic and diluted loss per share			
as reported.....	(97)	(60)	(28)

	-----	-----	-----

The fair value of each option grant in all plans was estimated as at the date of grant using a Black-Scholes option-pricing model. The model used a weighted-average, risk-free interest rate of 5.5% and 5.8% for grants in 2001 and 2000 respectively, and an expected volatility of 55% and 30%, respectively. The Group does not expect to pay a dividend on its ordinary shares at any time during the expected life of any outstanding option. The Group expects options to be held until maturity.

PERFORMANCE-BASED SHARE OPTION COMPENSATION PLANS

The Group has two performance-based share option plans: the 1995 (No. 1) Executive Share Option Scheme and the 1995 (No. 2) Executive Share Option Scheme. Under both plans, certain officers and employees are granted options to purchase ordinary shares of the Company. The exercise price of each option generally equals the market price of the Company's ordinary shares on the date of grant. The options are exercisable between three and ten years after the date of the grant with exercise conditional on the Company's shares out-performing by price the FTSE100 Index over any three-year period preceding exercise. The Company may grant options for up to 295 million ordinary shares.

FIXED SHARE OPTION COMPENSATION PLANS

The Company also operates the Sharesave Scheme, a fixed share option compensation scheme. Under this plan, the Company grants options to employees to purchase ordinary shares at up to a 20% discount to market price. These options can be exercised only with funds saved by employees over time in a qualified savings account. The options are exercisable between 37 and 66 months after commencement of the savings contracts.

TELEWEST RESTRICTED SHARE SCHEME ("RSS")

The Company operates the RSS in conjunction with an employment trust, the Telewest 1994 Employees' Share Ownership Plan Trust (the "Telewest ESOP"), which has been designed to provide incentives to executives of the Company. Under the RSS, executives may be granted awards over ordinary shares of the Company based on a percentage of salary. The awards are made for no monetary consideration. The awards generally vest three years after the date of the award and are exercisable for up to seven years after the date when they vest.

The compensation charge related to each award is based on the share price of the ordinary shares on the date the award was made.

A summary of the status of the RSS at December 31, 2002, 2001, and 2000 and changes during the years ended on those dates are presented below:

At December 31, 2002, the 493,034 awards outstanding and the 214,114 awards exercisable have weighted average remaining contractual lives of 7.4 years and 6.3 years respectively.

Deferred compensation cost relating to RSS is L38,000 (2001: L478,000.)

LONG TERM INCENTIVE PLAN ("LTIP")

The LTIP provides for share awards to executive directors and senior executives. Under the LTIP, an executive will be awarded the provisional right to receive, for no payment, a number of Telewest shares with a value equating to a percentage of base salary. The shares will not vest unless certain performance criteria, based on total shareholder return assessed over a three-year period are met. The percentage of salary will be determined by the Remuneration Committee and will be up to 100% of base salary for executive directors.

EQUITY PARTICIPATION PLAN ("EPP")

The Remuneration Committee has provided that, under the EPP, an employee with two years service or at manager level or above, can use up to 100% of the Short Term Incentive Plan ("STIP") bonus payable to the employee to acquire Telewest shares ("bonus shares"). The employee must deposit the bonus shares with the Trustee of the existing Telewest ESOP. In return, the employee is provisionally allocated for no payment a matching number of Telewest shares. Provided the bonus shares are retained for three years and the employee remains employed for three years, the bonus and matching shares would thereafter be released to the employee.

24 SEGMENTAL INFORMATION

The Group applies SFAS 131, DISCLOSURES ABOUT SEGMENTS OF AN ENTERPRISE AND RELATED INFORMATION. SFAS 131 establishes standards for reporting information about operating segments in annual financial statements. It also establishes standards for related disclosures about products and services, and geographic areas. Operating segments are defined as components of an enterprise about which separate financial information is available that is evaluated regularly by the chief operating decision maker, or decision-making group, in deciding how to allocate resources and in assessing performance. The Group's chief operating decision-making group is the board of directors. The operating segments are managed separately because each operating segment represents a strategic business unit that offers different products and services in different markets. The Group operates in two main segments: Cable and Content. The Cable segment of our business can be subdivided, for revenue purposes only, between four product ranges: Cable Television, Consumer Telephony, Internet and other, and Business Services. The Internet and Other unit comprises internet sales and sales of cable publications. The Content segment provides entertainment content, interactive and transactional services to the UK pay-TV broadcasting market.

The accounting policies of the operating segments are the same as those described in the summary of significant accounting policies. In 2001, the Group changed the structure of its segmental analysis, and certain corresponding information from the previous years has been restated to reflect the change in structure.

(2) In the fourth quarter of 2002, the Group recorded a goodwill impairment charge of L1,445 million and wrote down the value of its investments in affiliates by L130 million. In the fourth quarter of 2001, the Group recorded a goodwill impairment charge of L766 million and wrote down the value of its investments in affiliates by L202 million.

(3) In the fourth quarter 2002 the Group recorded a fixed asset impairment of L841 million.

25 FINANCIAL RESTRUCTURING

On September 30, 2002, we announced that we had reached a preliminary agreement relating to a financial restructuring (the "Financial Restructuring") with an ad hoc committee of our bondholders (the "Bondholder Committee"). That agreement provides for the cancellation of all outstanding notes and debentures ("the Notes"), representing approximately L3.5 billion of indebtedness, issued by the Company and Telewest Finance (Jersey) Limited and certain other unsecured foreign exchange hedge contracts ("the Hedge Contracts") of the Company in exchange for New Ordinary Shares ("New Shares") representing 97% of the issued share capital of the Company immediately after the Financial Restructuring. The Company's current ordinary shareholders will receive the remaining 3% of the Company's issued ordinary share capital.

We also announced on September 30, 2002 that we were deferring payment of interest under certain of our Notes and the settlement of the Hedge Contracts. Such non-payment continues and has resulted in defaults under the Group's bank

Edgar Filing: LIBERTY MEDIA CORP /DE/ - Form 10-K/A

facilities and a number of other financing arrangements. Based on one such default, in respect of non-payment of approximately L10.5 million to a Hedge Contract counter-party, that counter-party has filed a petition for the winding-up of the Company with a UK court. The Company intends to deal with this claim as part of the overall restructuring of its unsecured debt obligations and does not believe that the legal action will significantly impede the Financial Restructuring process. The Company will of course continue to meet its obligations to its suppliers and trade creditors and this legal action is expected to have no impact on customer service.

On January 15, 2003, we announced that we had reached a non-binding agreement with respect to the terms of amended and restated credit facilities with both the steering committee of our senior lenders and the Bondholder Committee. In addition, the terms of these facilities have received credit committee approval, subject to documentation and certain other issues, from all of our senior lenders, save for those banks which are also creditors by virtue of the unsecured Hedge Contracts with which we will deal in the overall Financial Restructuring.

The terms of the amended and restated bank facilities are as follows:

- the amended facilities total L2,155 million, comprising term loans of L1,840 million, L190 million of committed overdraft and revolving credit facilities and an uncommitted term facility of L125 million;
- the amended facilities do not amortise; and the majority of the facilities will mature on December 31, 2005 with the balance maturing on June 30, 2006;
- financial covenants will be re-set to reflect the Company's new business plan; and
- the pricing on the facilities will be increased to reflect market sentiment.

These amended facilities will replace the Group's existing bank facilities, (the "Senior Secured Facility") and are, as noted above, conditional on various matters, including the satisfactory finalisation

of arrangements for dealing with foreign exchange creditors and the completion of our balance sheet restructuring. These amended credit facilities will provide the Company with substantial liquidity, which is expected to be sufficient to see the Company through to cash flow positive after completion of the Financial Restructuring.

Negotiations are continuing with the Bondholder Committee, the Company's senior lenders and certain other major stakeholders with a view to the timely completion of the Financial Restructuring.
