IMPORTANT NOTICE REGARDING DELIVERY OF SHAREHOLDER DOCUMENTS

The Securities and Exchange Commission permits funds to deliver only one copy of shareholder documents, including prospectuses, proxy statements and shareholder reports, to fund investors with multiple accounts at the same residential or post office box address. This practice is often called "householding" and it helps eliminate duplicate mailings to shareholders.

EATON VANCE, OR YOUR FINANCIAL ADVISER, MAY HOUSEHOLD THE MAILING OF YOUR DOCUMENTS INDEFINITELY UNLESS YOU INSTRUCT EATON VANCE, OR YOUR FINANCIAL ADVISER, OTHERWISE.

If you would prefer that your Eaton Vance documents not be househanded, please contact Eaton Vance at 1-800-262-1122, or contact your financial adviser.

Your instructions that householding not apply to delivery of your Eaton Vance documents will be effective within 30 days of receipt by Eaton Vance or your financial adviser.

The Fund will file a schedule of its portfolio holdings on Form N-Q with the

Securities and Exchange Commission (the "SEC") for the first and third quarters of each fiscal year. The Fund's Form N-Q will be available on the Eaton Vance website www.eatonvance.com, by calling Eaton Vance at 1-800-262-1122 or in the EDGAR database on the SEC's website at www.sec.gov. The Eaton Vance Funds or their underlying Portfolios vote proxies according to a set of policies and procedures approved by the Funds' and Portfolios' Boards. You may obtain a description of these policies and procedures and information on how the Fund or Portfolio voted proxies relating to portfolio securities during the 12 month period ended June 30 without charge, upon request, by calling 1-800-262-1122. LETTER TO SHAREHOLDERS

[PHOTO OF THOMAS J. FETTER]

Thomas J. Fetter
President

The municipal bond market is a center of capital formation for states, municipalities and, in some cases, private economic initiatives. In this edition of our continuing educational series, we will discuss industrial development revenue (IDR) bonds. IDR bonds have long been used as a financing mechanism by local governments to provide assistance to local employers and encourage job retention and creation within their communities.

IDR BONDS FINANCE PRIVATE ACTIVITIES THAT BENEFIT THE PUBLIC...

IDR bonds are issued by municipal authorities to finance projects and facilities used by private corporations. Historically, IDR bonds have represented a partnership between the private and public sectors - a source of dedicated funding for companies and a source of job creation in projects beneficial to local communities. The "Private-Activities" provision of the Tax Reform Act of 1986 permits issuance of tax-exempt bonds for specific activities, including pollution control; gas and electric service; water distribution; wastewater systems; solid waste disposal; airports and selected transportation projects; and other industrial projects.

The Act also placed a cap on the dollar amount that may be raised for IDR bonds in each state, limiting the amount to \$50 per person/per state/per year, with a \$150 million maximum. These limitations provide protection against potential abuse and ensure that tax-exempt IDR bonds will indeed be issued for projects that will benefit the public.

IDR BONDS FINANCE UTILITY-RELATED PROJECTS AND OTHER INDUSTRIAL INITIATIVES...

Typically, IDR bond projects provide financing for manufacturing, processing or utility facilities. Historically, about one-half of these bonds have been issued to finance pollution control facilities for manufacturers and electric utilities. As many utilities and manufacturers have been ordered to comply with stricter environmental and fuel standards, pollution control bonds have helped finance the retrofits of existing plants. Other IDR bonds have served as inducements from state and local issuers to locate plants or build new facilities, in the hope that such construction might generate further economic growth for a community.

Edgar Filing: EATON VANCE MUNICIPAL INCOME TRUST - Form N-CSR

IDR BONDS ARE SECURED BY CORPORATE REVENUES - NOT THOSE OF STATE OR LOCAL GOVERNMENTS...

IDR bond issues are secured by the credit of the underlying corporation. The municipal issuing authority acts solely as a conduit to permit tax-exempt financing. The corporation pledges to make payments sufficient to meet all debt service obligations. Unlike some revenue issues, IDR bonds are backed by revenues of the entire corporation, not solely by those of the project being financed.

Because IDR bonds are backed by corporate revenues and not by the taxing authority of a state or local jurisdiction, they have historically provided coupon premiums above those of general obligations and other more traditional revenue bonds. Bonds may be either collateralized or unsecured. Collateralized bonds have a lien against the company's assets, which may provide bond holders enhanced bargaining power in the event of a bankruptcy. Unsecured bonds have no such lien.

WHILE PROVIDING NEW OPPORTUNITIES, IDR BONDS REQUIRE RIGOROUS ANALYSIS...

While IDR bonds may provide unusual investment opportunities, they also may entail increased risk, and therefore, demand especially intensive analysis. At Eaton Vance, we have credit analysts and resources dedicated to IDR bond research.

IDR bonds represent a key segment of the municipal bond market and should remain an important source of capital formation. In our view, the experience and resources needed to evaluate these issues further demonstrates the value of professional management. We will continue to look for opportunities in this sector of the municipal market.

Sincerely,

/s/ Thomas J. Fetter

THE TRUST

PERFORMANCE FOR THE PAST YEAR

Edgar Filing: EATON VANCE MUNICIPAL INCOME TRUST - Form N-CSR

- Based on share price (traded on the New York Stock Exchange), the Trust had a total return of 12.54% for the year ended November 30, 2004. That return was the result of an increase in share price from \$15.55 on November 30, 2003, to \$16.15 on November 30, 2004, and the reinvestment of \$1.19 per share in regular monthly dividends.(1)
- Based on net asset value, the Trust had a total return of 7.28% for the year ended November 30, 2004. That return was the result of a decrease in net asset value per share from \$14.09 on November 30, 2003, to \$13.95 on November 30, 2004, and the reinvestment of \$1.19 per share in regular monthly dividends.
- Based on the last dividend of the fiscal year and a share price of \$16.15, the Trust had a market yield of 7.37% at November 30, 2004.(2) The Trust's market yield is equivalent to a taxable yield of 11.34%.(3)

MANAGEMENT DISCUSSION

- The expansion of the U.S. economy continued throughout the year ended November 30, 2004, bolstered by a stronger-than-expected third quarter GDP and the brighter employment picture that emerged at the end of the fiscal year. One key economic factor during the period, however, was the surge in gasoline and energy prices, which raised fears that inflation could re-emerge. Amid those concerns, the Federal Reserve Bank increased its benchmark Federal Funds interest rate four times between June and November of 2004.
 - Following a strong rally in the first half of the year, the municipal bond market lost some momentum in the second half, as inflation remained a concern for fixed-income investors. For the year ended November 30, 2004, the Lehman Brothers Municipal Bond Index had a total return of 4.07%.(4)
 - We are pleased to announce that, as of September 13, 2004, William H. Ahern has joined the Trust's management team. Mr. Ahern joined Eaton Vance in 1989 as an analyst in the fixed-income department and was named a Portfolio Manager in 1993. He serves as Portfolio Manager of 10 Eaton Vance tax-exempt mutual funds, closed-end funds for eight states, as well as several other Eaton Vance funds.
 - Insured* transportation bonds constituted the Trust's largest sector weighting at November 30, 2004. These issues have financed key projects within the nation's air and highway transportation infrastructure. The Trust's holdings included issues that financed projects for the Dallas-Fort Worth, Texas, International Airport and for the Las Vegas, Nevada, monorail system.
 - Hospital bonds were prominent holdings in the Trust. Given stricter Medicare reimbursements and intense industry competition, management focused on institutions we believe have sound financial structures and good management and are well-positioned in their local markets.
 - At November 30, 2004, the Trust had leverage in the amount of approximately 36% of the Trust's total assets. The Trust is leveraged through the issuance of preferred shares. Use of financial leverage creates an opportunity for increased income, but, at the same time, creates special risks (including the likelihood of greater volatility of net asset value and market price of common shares).
- * Private insurance does not remove the risk of loss of principal associated with insured investments.

-
- (1) A portion of the Trust's income may be subject to federal income tax and/or federal alternative minimum tax. Income may be subject to state tax.
 - (2) The Trust's market yield is calculated by dividing the most recent dividend per share by the share price at the end of the period and annualizing the result.
 - (3) Taxable-equivalent yield assumes maximum 35.0% federal income tax rate. A lower rate would result in a lower tax-equivalent figure.
 - (4) It is not possible to invest directly in an Index. The Index's total return does not reflect the commissions or expenses that would have been incurred if an investor individually purchased or sold the securities represented in the Index.

The aggregate percentage insured by an individual financial institution ranged from 3.7% to 14.8% of total investments.

EATON VANCE MUNICIPAL INCOME TRUST as of November 30, 2004
NOTES TO FINANCIAL STATEMENTS

1 SIGNIFICANT ACCOUNTING POLICIES

Eaton Vance Municipal Income Trust (the Trust) is an entity commonly known as a Massachusetts business trust and is registered under the Investment Company Act of 1940 as a non-diversified, closed-end management investment company. The Trust was organized under the laws of the Commonwealth of Massachusetts by an Agreement and Declaration of Trust dated December 10, 1998. The Trust's investment objective is to provide current income exempt from regular federal income tax by investing primarily in investment grade municipal obligations.

The following is a summary of significant accounting policies consistently followed by the Trust in the preparation of its financial statements. The policies are in conformity with accounting principles generally accepted in the United States of America.

A INVESTMENT VALUATION -- Municipal bonds are normally valued on the basis of valuations furnished by a pricing service. Taxable obligations, if any, for which price quotations are readily available are normally valued at the mean

Edgar Filing: EATON VANCE MUNICIPAL INCOME TRUST - Form N-CSR

between the latest bid and asked prices. Futures contracts and options on futures contracts listed on commodity exchanges are valued at closing settlement prices. Over-the-counter options on futures contracts are normally valued at the mean between the latest bid and asked prices. Interest rate swaps are normally valued on the basis of valuations furnished by a broker. Short-term obligations, maturing in sixty days or less, are valued at amortized cost, which approximates value. Investments for which valuations or market quotations are not readily available are valued at fair value using methods determined in good faith by or at the direction of the Trustees.

B INVESTMENT TRANSACTIONS -- Investment transactions are recorded on a trade date basis. Realized gains and losses from such transactions are determined using the specific identification method. Securities purchased or sold on a when-issued or delayed delivery basis may be settled a month or more after the transaction date. The securities so purchased are subject to market fluctuations during this period. To the extent that when-issued or delayed delivery purchases are outstanding, the Trust instructs the custodian to segregate assets in a separate account, with a current value at least equal to the amount of its purchase commitments.

C INCOME -- Interest income is determined on the basis of interest accrued, adjusted for amortization of premium or accretion of discount.

D FEDERAL INCOME TAXES -- The Trust's policy is to comply with the provisions of the Internal Revenue Code applicable to regulated investment companies and to distribute to shareholders each year all of its taxable income, if any, and tax-exempt income, including any net realized gain on investments. Therefore, no provision for federal income or excise tax is necessary. At November 30, 2004, the Trust, for federal income tax purposes, had a capital loss carryover of \$34,626,951 which will reduce the taxable income arising from future net realized gain on investments, if any, to the extent permitted by the Internal Revenue Code and thus will reduce the amount of distributions to shareholders which would otherwise be necessary to relieve the Trust of any liability for federal income or excise tax. Such capital loss carryover will expire on November 30, 2007 (\$9,497,591), November 30, 2008 (\$14,623,294), November 30, 2009 (\$5,266,337), November 30, 2011 (\$2,541,236) and November 30, 2012 (\$2,698,493). In addition, the Trust intends to satisfy conditions which will enable it to designate distributions from the interest income generated by its investments in municipal obligations, which are exempt from regular federal income taxes when received by the Trust, as exempt-interest dividends. The portion of such interest, if any, earned on private activity bonds issued after August 7, 1986, may be considered a tax preference item for investors.

E FINANCIAL FUTURES CONTRACTS -- Upon the entering of a financial futures contract, the Trust is required to deposit (initial margin) either in cash or securities an amount equal to a certain percentage of the purchase price indicated in the financial futures contract. Subsequent payments are made or received by the Trust (margin maintenance) each day, dependent on the daily fluctuations in the value of the underlying security, and are recorded for book purposes as unrealized gains or losses by the Trust. The Trust's investment in financial futures contracts is designed for both hedging against anticipated future changes in interest rates and investment purposes. Should interest rates move unexpectedly, the Trust may not achieve the anticipated benefits of the financial futures contracts and may realize a loss.

F OPTIONS ON FINANCIAL FUTURES CONTRACTS -- Upon the purchase of a put option on a financial futures contract by the Trust, the premium paid is recorded as an investment, the value of which is marked-to-market daily. When a purchased option expires, the Trust will realize a loss in the amount of the cost of the option. When the Trust enters into a closing sale transaction, the Trust will realize a gain or loss depending on whether the sales

proceeds from the closing sale transaction are greater or less than the cost of the option. When the Trust exercises a put option, settlement is made in cash. The risk associated with purchasing put options is limited to the premium originally paid.

G INTEREST RATE SWAPS -- The Trust may enter into interest rate swap agreements to enhance return, to hedge against fluctuations in securities prices or interest rates or as substitution for the purchase or sale of securities. Pursuant to these agreements, the Trust makes semi-annual payments at a fixed interest rate. In exchange, the Trust receives payments based on the interest rate of a benchmark industry index. During the term of the outstanding swap agreement, changes in the underlying value of the swap are recorded as unrealized gains and losses. Payments received or made at the end of a measurement period are recorded as realized gains and losses. The value of the swap is determined by changes in the relationship between two rates of interest. The Trust is exposed to credit loss in the event of non-performance by the swap counterparty. However, the Trust does not anticipate non-performance by the counterparty. Risk may also arise from the unanticipated movements in value of interest rates.

H USE OF ESTIMATES -- The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities at the date of the financial statements and the reported amounts of income and expense during the reporting period. Actual results could differ from those estimates.

I INDEMNIFICATIONS -- Under the Trust's organizational documents, its officers and Trustees may be indemnified against certain liabilities and expenses arising out of the performance of their duties to the Trust, and shareholders are indemnified against personal liability for obligations of the Trust. Additionally, in the normal course of business, the Trust enters into agreements with service providers that may contain indemnification clauses. The Trust's maximum exposure under these arrangements is unknown as this would involve future claims that may be made against the Trust that have not yet occurred.

J EXPENSE REDUCTION -- Investors Bank & Trust Company (IBT) serves as custodian of the Trust. Pursuant to the custodian agreement, IBT receives a fee reduced by credits which are determined based on the average daily cash balance the Trust maintains with IBT. All credit balances used to reduce the Trust's custodian fees are reported as a reduction of total expenses in the Statement of Operations.

2 AUCTION PREFERRED SHARES (APS)

The Trust issued 2,620 shares of Auction Preferred Shares Series A and 2,620 shares of Auction Preferred Shares Series B on March 1, 1999 in a public offering. The underwriting discount and other offering costs were recorded as a reduction of the capital of the common shares. Dividends on the APS, which accrue daily, are cumulative at a rate which was established at the offering of the APS and have been reset every 7 days thereafter by an auction. Effective July 8, 2003, a special dividend period of 733 days was set on the series A shares. The dividend rate, which matures on July 12, 2005, is 1.25%. Dividend rates ranged from 0.45% to 1.70% for Series B Shares, during the year ended November 30, 2004. Series A and Series B are identical in all respects except for the dates of reset for the dividend rates.

The APS are redeemable at the option of the Trust, at a redemption price equal to \$25,000 per share, plus accumulated and unpaid dividends on any dividend

Edgar Filing: EATON VANCE MUNICIPAL INCOME TRUST - Form N-CSR

payment date. The APS are also subject to mandatory redemption at a redemption price equal to \$25,000 per share, plus accumulated and unpaid dividends, if the Trust is in default for an extended period on its asset maintenance requirements with respect to the APS. If the dividends on the APS shall remain unpaid in an amount equal to two full years' dividends, the holders of the APS as a class have the right to elect a majority of the Board of Trustees. In general, the holders of the APS and the common shares have equal voting rights of one vote per share, except that the holders of the APS, as a separate class, have the right to elect at least two members of the Board of Trustees. The APS have a liquidation preference of \$25,000 per share, plus accumulated and unpaid dividends. The Trust is required to maintain certain asset coverage with respect to the APS as defined in the Trust's By-Laws and the Investment Company Act of 1940. The Trust pays an annual fee equivalent to 0.25% of the preferred shares' liquidation value for the remarketing efforts associated with the preferred auctions.

3 DISTRIBUTIONS TO SHAREHOLDERS

The Trust intends to make monthly distributions of net investment income, after payment of any dividends on any outstanding Auction Preferred Shares. Distributions are recorded on the ex-dividend date. Distributions to preferred shareholders are recorded daily and are payable at the end of

14

each dividend period. Each dividend payment period for the Auction Preferred Shares is generally seven days. Effective July 8, 2003, the Series A shares set a special dividend period of 733 days. The applicable dividend rate for the Auction Preferred Shares on November 30, 2004 was 1.25% and 1.70%, for Series A and Series B Shares, respectively. For the year ended November 30, 2004, the Trust paid dividends to Auction Preferred shareholders amounting to \$831,226 and \$683,148 for Series A and Series B Shares, respectively, representing an average APS dividend rate for such period of 1.25% and 1.05%, respectively.

The Trust distinguishes between distribution on a tax basis and a financial reporting basis. Accounting principles generally accepted in the United States of America require that only distributions in excess of tax basis earnings and profits be reported in the financial statements as a return of capital. Permanent differences between book and tax accounting relating to distributions are reclassified to paid in capital. These differences relate primarily to the method for amortizing premiums.

The tax character of distributions paid for the years ended November 30, 2004 and November 30, 2003 was as follows:

	YEAR ENDED NOVEMBER 30,	
	2004	2003
Distributions declared from:		
Tax-exempt income	\$ 21,583,544	\$ 20,455,081
Ordinary income	\$ 216	\$ 2,473

During the year ended November 30, 2004, accumulated undistributed net investment income was decreased by \$156,112, and accumulated net realized loss was decreased by \$156,112 primarily due to differences between book and tax accounting for amortization and accretion on debt securities. This change had no

Edgar Filing: EATON VANCE MUNICIPAL INCOME TRUST - Form N-CSR

effect on the net assets or the net asset value per share.

As of November 30, 2004, the components of distributable earnings (accumulated losses) on a tax basis were as follows:

Undistributed income	\$	3,821,040
Capital loss carryforward	\$	(34,626,951)
Unrealized gain	\$	16,295,939
Other temporary differences	\$	(82,302)

4 INVESTMENT ADVISER FEE AND OTHER TRANSACTIONS WITH AFFILIATES

The investment adviser fee, computed at an annual rate of 0.70% of the Trust's average weekly gross assets, was earned by Eaton Vance Management (EVM) as compensation for management and investment advisory services rendered to the Trust. Except for Trustees of the Trust who are not members of EVM's organization, officers and Trustees receive remuneration for their services to the Trust out of such investment adviser fee. For the year ended November 30, 2004, the fee was equivalent to 0.70% of the Trust's average weekly gross assets and amounted to \$2,553,910. EVM also serves as the administrator of the Trust. An administration fee, computed at the annual rate of 0.20% of the average weekly gross assets of the Trust, is paid to EVM for managing and administering business affairs of the Trust. For the year ended November 30, 2004, the administrative fee amounted to \$729,688.

Certain officers and Trustees of the Trust are officers of EVM.

5 INVESTMENTS

Purchases and sales of investments, other than U.S. Government securities and short-term obligations, aggregated \$73,672,456 and \$75,698,884, respectively, for the year ended November 30, 2004.

6 FEDERAL INCOME TAX BASIS OF UNREALIZED APPRECIATION (DEPRECIATION)

The cost and unrealized appreciation (depreciation) in value of the investments owned by the Trust at November 30, 2004, as computed for federal income tax purposes, are as follows:

AGGREGATE COST	\$	341,893,928

Gross unrealized appreciation	\$	26,041,256
Gross unrealized depreciation		(8,844,101)

NET UNREALIZED APPRECIATION	\$	17,197,155

7 SHARES OF BENEFICIAL INTEREST

The Declaration of Trust permits the Trustees to issue an unlimited number of full and fractional \$0.01 par value common shares. Transactions in common shares were as follows:

Edgar Filing: EATON VANCE MUNICIPAL INCOME TRUST - Form N-CSR

	YEAR ENDED NOVEMBER 30,	
	2004	2003
Shares issued pursuant to the Trust's dividend reinvestment plan	149,511	181,895
NET INCREASE	149,511	181,895

8 FINANCIAL INSTRUMENTS

The Trust regularly trades in financial instruments with off-balance sheet risk in the normal course of its investing activities to assist in managing exposure to various market risks. These financial instruments include futures contracts and interest rate swaps and may involve, to a varying degree, elements of risk in excess of the amounts recognized for financial statement purposes. The notional or contractual amounts of these instruments represent the investment the Trust has in particular classes of financial instruments and does not necessarily represent the amounts potentially subject to risk. The measurement of the risks associated with these instruments is meaningful only when all related and offsetting transactions are considered. A summary of obligations under these financial instruments at November 30, 2004 is as follows:

FUTURES CONTRACTS

EXPIRATION DATE (S)	CONTRACTS	POSITION	AGGREGATE COST	VALUE	NET UNREALIZED APPRECIATION
03/05	400 U.S. Treasury Bond	Short	\$ (44,214,520)	\$ (44,050,000)	\$ 164,520
03/05	500 U.S. Treasury Note	Short	(55,849,437)	(55,375,000)	474,437
					\$ 638,957

At November 30, 2004, the Trust had sufficient cash and/or securities to cover margin requirements on open futures contracts.

At November 30, 2004, the Trust had entered into an interest rate swap agreement with Morgan Stanley Capital Services, Inc. whereby the Trust makes bi-annual payments at a fixed rate equal to 5.1225% on the notional amount of \$40,000,000. In exchange, the Trust receives quarterly payments at a rate equal to the three month USD-LIBOR on the same notional amount. The effective date of the interest rate swap is February 7, 2005. The value of the contract, which terminates February 7, 2015, is recorded as a payable for open swap contracts of \$901,216 at November 30, 2004.

An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audit provides a reasonable basis for our opinion.

In our opinion, the financial statements and financial highlights, referred to above, present fairly, in all material respects, the financial position of Eaton Vance Municipal Income Trust as of November 30, 2004, the results of its operations for the year then ended, the changes in its net assets for each of the two years in the period then ended, and the financial highlights for the respective stated periods, in conformity with accounting principles generally accepted in the United States of America.

(e)(1) The registrant's audit committee has adopted policies and procedures relating to the pre-approval of services provided by the registrant's principal accountant (the "Pre-Approval Policies"). The Pre-Approval Policies establish a framework intended to assist the audit committee in the proper discharge of its pre-approval responsibilities. As a general matter, the Pre-Approval Policies (i) specify certain types of audit, audit-related, tax, and other services determined to be pre-approved by the audit committee; and (ii) delineate specific procedures governing the mechanics of the pre-approval process,

including the approval and monitoring of audit and non-audit service fees. Unless a service is specifically pre-approved under the Pre-Approval Policies, it must be separately pre-approved by the audit committee.

The Pre-Approval Policies and the types of audit and non-audit services pre-approved therein must be reviewed and ratified by the registrant's audit committee at least annually. The registrant's audit committee maintains full responsibility for the appointment, compensation, and oversight of the work of the registrant's principal accountant.

ITEM 6. SCHEDULE OF INVESTMENTS

Please see schedule of investments contained in the Report to Stockholders included under Item 1 of this Form N-CSR.

ITEM 7. DISCLOSURE OF PROXY VOTING POLICIES AND PROCEDURES FOR CLOSED-END MANAGEMENT INVESTMENT COMPANIES

The Board of Trustees of the Trust has adopted a proxy voting policy and procedure (the "Fund Policy"), pursuant to which the Trustees have delegated proxy voting responsibility to the Fund's investment adviser and adopted the investment adviser's proxy voting policies and procedures (the "Policies") which are described below. The Trustees will review the Fund's proxy voting records from time to time and will annually consider approving the Policies for the upcoming year. In the event that a conflict of interest arises between the Fund's shareholders and the investment adviser, the administrator, or any of their affiliates or any affiliate of the Fund, the investment adviser will generally refrain from voting the proxies related to the companies giving rise to such conflict until it consults with the Board of the Fund except as contemplated under the Fund Policy. The Board's Special Committee will instruct the investment adviser on the appropriate course of action.

The Policies are designed to promote accountability of a company's management to its shareholders and to align the interests of management with those shareholders. The investment adviser will generally support company management on proposals relating to environmental and social policy issues and on matters regarding the state of organization of the company. On all other matters, the investment adviser will take management's proposals under advisement but will consider each matter in light of the guidelines set forth in the Policies. Except in the instance of routine matters related to corporate administration which are not expected to have a significant economic impact on the company or its shareholders (on which the investment adviser will routinely vote with management), the investment adviser will review each matter on a case-by-case basis and reserves the right to deviate from the Policies guidelines when it believes the situation warrants such a deviation. The Policy includes voting guidelines for matters relating to, among other things, the election of directors, approval of independent auditors, executive compensation, corporate structure and anti-takeover defenses. The investment adviser may abstain from voting from time to time where it determines that the costs associated with voting a proxy outweighs the benefits derived from exercising the right to vote.

In addition, the investment adviser will monitor situations that may result in a conflict of interest between the Fund's shareholders and the investment adviser, the administrator, or any of their affiliates or any affiliate of the Fund by maintaining a list of significant existing and prospective corporate clients. The investment adviser's personnel responsible for reviewing and voting proxies on behalf of the Fund will report any proxy received or expected to be received from a company included on that list to the investment adviser's general counsel or chief equity investment officer. The general counsel or chief equity investment officer will determine if a conflict exists. If a conflict does exist, the proxy will either be voted strictly in accordance with the Policy or the investment adviser will seek instruction on how to vote from the Board.

Effective August 31, 2004, information on how the Fund voted proxies relating to portfolio securities during the 12 month period ended June 30, 2004 is available

ITEM 9. SUBMISSION OF MATTERS TO A VOTE OF SECURITY HOLDERS.

Effective February 9, 2004, the Governance Committee of the Board of Trustees formalized the procedures by which a Fund's shareholders may recommend nominees to the registrant's Board of Trustees. Shareholders shall be directed to address any such recommendations to the attention of the Governance Committee, c/o the Secretary of the Fund.
