This preliminary pricing supplement relates to an effective registration statement under the Securities Act of 1933, but is not complete and may be changed. We may not sell these securities until we deliver a final pricing supplement. This preliminary pricing supplement, the accompanying prospectus supplement and prospectus are not an offer to sell these securities and are not soliciting an offer to buy these securities in any state where such an offer or sale would not be permitted.

Subject to Completion, dated September 6, 2005

PRICING SUPPLEMENT

(To Prospectus Dated February 2, 2005 and
Prospectus Supplement Dated February 2, 2005)

The Bear Stearns Companies Inc.

[\$] Linked to the PHLX Housing Sector IndexSM 95% Principal Protected Notes Due October [7], 2008

The Notes are linked to the potential **decline** in the PHLX Housing Sector IndexSM (the "Index"). When we refer to Notes in this pricing supplement, we mean Notes with a principal amount of \$1,000. The minimum purchase is \$5,000 with increments of \$1,000 thereafter.

The Notes will allow you to participate in [100 - 110]% of the potential **decline** in the Index, not to exceed the maximum return of [35.00 - 38.50]%, representing a 35.00% decline in the Final Index Level. Upon maturity of the Notes, you will receive the Cash Settlement Value, a cash amount that depends upon the relation of the Final Index Level to the Initial Index Level. In no event will the Cash Settlement Value be less than \$950 nor exceed \$[1,350 - 1,385].

If, at maturity, the Final Index Level is less than or equal to the Initial Index Level, the Cash Settlement Value will range between \$1,000 and \$[1,350-1,385], and will equal the lesser of:

\$[1,350 - 1,385], representing a [35.00 - 38.50]% return; or

\$1,000 plus the product of \$1,000 and [100 - 110]% of the amount (calculated as a percentage) by which the Initial Index Level exceeds the Final Index Level.

If, at maturity, the Final Index Level is greater than the Initial Index Level, the Cash Settlement Value will be proportionally less than the initial offering price based upon the percentage increase in the Index. Since the Notes are 95% principal protected, in no event will the Cash Settlement Value be less than \$950 per Note.

The CUSIP number for the Notes is 073928L76.

INVESTMENT IN THE NOTES INVOLVES CERTAIN RISKS. THERE MAY NOT BE A SECONDARY MARKET IN THE NOTES, AND IF THERE WERE TO BE A SECONDARY MARKET, IT MAY NOT BE LIQUID. YOU SHOULD REFER TO "RISK FACTORS" BEGINNING ON PAGE PS-9.

"PHLX Housing SectorSM" and "HGXSM" are service marks of the Philadelphia Stock Exchange, Inc. ("PHLXI") and have been licensed for use for certain purposes by The Bear Stearns Companies Inc. The Notes are not sponsored, endorsed, sold or promoted by PHLXI, and PHLXI makes no representation regarding the advisability of investing in the Notes.

Neither the Securities and Exchange Commission nor any state securities commission has approved or disapproved of the Notes or determined that this pricing supplement, or the accompanying prospectus supplement and prospectus, is truthful or complete. Any representation to the contrary is a criminal offense.

We expect that the Notes will be ready for delivery in book-entry form only through the book-entry facilities of The Depository Trust Company in New York, New York, on or about October [7], 2005, against payment in immediately available funds.

Wells Fargo Investments, LLC

[September], 2005

SUMMARY

This summary highlights selected information from the accompanying prospectus, prospectus supplement and this pricing supplement to help you understand the Notes linked to the PHLX Housing Sector IndexSM (the "Index"). You should carefully read this entire pricing supplement and the accompanying prospectus supplement and prospectus to fully understand the terms of the Notes, as well as the principal tax and other considerations that are important to you in making a decision about whether to invest in the Notes. You should carefully review the section "Risk Factors" in this pricing supplement and "Risk Factors" in the accompanying prospectus supplement, which highlights a number of significant risks, to determine whether an investment in the Notes is appropriate for you. All of the information set forth below is qualified in its entirety by the more detailed explanation set forth elsewhere in this pricing supplement, the accompanying prospectus supplement and prospectus. If information in this pricing supplement is inconsistent with the prospectus or prospectus supplement, this pricing supplement will supercede those documents. In this pricing supplement, the terms "Company," "we," "us" and "our" refer only to The Bear Stearns Companies Inc., excluding its consolidated subsidiaries.

The Bear Stearns Companies Inc. Medium-Term Notes, Series B, Linked to the PHLX Housing Sector IndexSM (the "Index"), 95% Principal Protected Notes, Due October [7], 2008 (the "Notes") are Notes the return of which is tied or "linked" to the performance of the Index. When we refer to Notes in this pricing supplement, we mean Notes with a principal amount of \$1,000. Unlike typical bonds, no periodic interest payments will be made on these Notes prior to maturity. The Notes are 95% principal protected only if held to maturity and may offer [100-110]% of the negative performance of the Index. The Notes will allow you to participate in [100 - 110]% of the potential decline in the Index, not to exceed the maximum return of [35.00 - 38.50]%, representing a 35.00% decline in the Final Index Level. In no event will the Cash Settlement Value be less than \$950 nor exceed \$[1,350 - 1,385]. At maturity, if the Final Index Level is less than or equal to the Initial Index Level, the Cash Settlement Value will range between \$1,000 and \$[1,350 - 1,385] and will equal the lesser of: (i) \$[1,350 - 1,385]; or (ii) \$1,000 plus the product of \$1,000 and [100 - 110]% of the amount (calculated as a percentage) by which the Initial Index Level exceeds the Final Index Level. At maturity, if the Final Index Level is greater than the Initial Index Level, the Cash Settlement Value will be proportionally less than the initial offering price based upon the percentage increase in the Index. Since the Notes are 95% principal protected, in no event will the Cash Settlement Value be less than \$950.

Selected Investment Considerations

Your return on the Notes will be linked to a decline in the Index The return on the Notes is based on the decline in the Final Index Level as compared to the Initial Index Level. Consequently, you will participate in the potential decline in the Index.

Potential leverage in the decline in the Index The Notes may be an attractive investment for investors who have a bearish view of the Index. If held to maturity, the Notes allow you to participate in [100 - 110]% of the potential decline in the Index, not to exceed the maximum return of [35.00 - 38.50]%, representing a 35.00% decline in the Final Index Level.

Partial principal protection If the Final Index Level is greater than the Initial Index Level, the Cash Settlement Value will be proportionally less than the initial offering price based upon the percentage increase in the Index. Since the Notes are 95% principal protected, if the Index increases by more than 5%, in no event will you receive a Cash Settlement Value less than \$950.

No current income We will not pay any interest on the Notes. The yield on the Notes may be less than the overall return you would earn if you purchased a conventional debt security at the same time and with the same maturity.

Hedge existing investment The Notes are based on the negative price performance of the 21 stocks underlying the Index. These stocks have been correlated to housing prices in the U.S. and

Edgar Filing: BEAR STEARNS COMPANIES INC - Form 424B5

the Notes may appreciate if such housing prices decline. Therefore, the Notes may allow you to hedge an existing portfolio or investment.

Low minimum investment The minimum purchase is \$5,000 with increments of \$1,000 thereafter.

Selected Risk Considerations

At maturity you may lose up to 5% of your principal The full principal amount of your Notes is not protected. If the Final Index Level is greater than the Initial Index Level, the Cash Settlement Value will be proportionally less than the initial offering price based upon the percentage increase in the Index. Since the Notes are 95% principal protected, in no event will the Cash Settlement Value be less than \$950. Note that, if you sell your Notes prior to maturity, you may lose more than 5% of your principal.

You will not receive more than the maximum return at maturity Because the maximum return on the Notes is [35.00 - 38.50]%, the maximum Cash Settlement Value is \$[1,350 - 1,385]. Therefore, the Cash Settlement Value will not reflect the increase in the value of the Notes if the Initial Index Level falls by more than 35.00%.

No interest payments During the term of the Notes, you will not receive any periodic interest payments or other distributions; nor will such payments be included in the calculation of the Cash Settlement Value you will receive at maturity.

Liquidity Not exchange listed The Notes will not be listed on any securities exchange, and we do not expect a trading market to develop, which may affect the price that you receive for your Notes upon any sale prior to maturity. You should be aware that we cannot ensure that a secondary market in the Notes will develop; and, if such market were to develop, it may not be liquid. If you sell your Notes prior to maturity, you may receive less than the amount you originally invested. Although it is under no obligation to do so, Wells Fargo Investment, LLC ("Wells Fargo") has advised us that they intend, under ordinary market conditions, to indicate prices for the Notes on request. However, we cannot guarantee that bids for outstanding Notes will be made in the future; nor can we predict the price at which any such bids will be made. In any event, Notes will cease trading as of the close of business on the Maturity Date.

Possible loss of value in the secondary market Your principal investment in the Notes is protected only if you hold your Notes to maturity. If you sell your Notes prior to the Maturity Date, you may receive less, and possibly significantly less, than the amount you originally invested.

Taxes For U.S. federal income tax purposes, the Notes will be classified as contingent payment debt instruments. As a result, you will be required to include original issue discount ("OID") in income during your ownership of the Notes even though you will receive no cash payments with respect to the Notes until maturity. Additionally, you will generally be required to recognize ordinary income on the gain, if any, realized on a sale, upon maturity, or other disposition of the Notes. You should review the discussion under the section entitled "Certain U.S. Federal Income Tax Considerations" in this pricing supplement.

KEY TERMS

- Issuer:** The Bear Stearns Companies Inc.
- Index:** PHLX Housing Sector IndexSM (index symbol "HGX") (the "Index"), as published by the Philadelphia Stock Exchange (the "PHLX").
- Face Amount:** Each Note will be issued in minimum denomination of \$5,000 and in \$1,000 increments in excess thereafter. The aggregate principal amount of the Notes being offered is \$[]. When we refer to Notes in this pricing supplement, we mean Notes with a principal amount of \$1,000.
- Cash Settlement Value:** At maturity, we will pay you the Cash Settlement Value, an amount in cash per Note that is based upon the Final Index Level in relation to the Initial Index Level. The Notes will allow you to participate in [100 -110]% of the potential decline in the Index, not to exceed the maximum return of [35.00 - 38.50]%, representing a 35.00% decline in the Final Index Level. In no event will the Cash Settlement Value be less than \$950 nor exceed \$[1,350 - 1,385].
- If, at maturity, the Final Index Level is less than or equal to the Initial Index Level, the Cash Settlement Value will range between \$1,000 and \$[1,350 - 1,385] and will equal the principal amount of the Notes plus the lesser of:
- \$[350 - 385], and
- At maturity, if the Final Index Level is greater than the Initial Index Level, the Cash Settlement Value will be proportionally less than the initial offering price based upon the percentage increase in the Index. Since the Notes are 95% principal protected, in no event will the Cash Settlement Value be less than \$950.
- Initial Index Level:** Equals [], the closing value of the Index on September 30], 2005, the date the Notes were priced for initial sale to the public.
- Final Index Level:** Will be determined by the Calculation Agent and will equal the closing value of the Index on [September 30], 2008, the "Calculation Date," or, if that day is not an Index Business Day, on the next Index Business Day.
- Maturity Date:** The Notes will mature on October [7], 2008.
- Index Closing Level:** The closing value of the Index on each Index Business Day.
- Interest:** The Notes will not bear interest.
- Exchange Listing:** The Notes will not be listed on any securities exchange.

PS-4

Offers and sales of the Notes are subject to restrictions in certain jurisdictions. The distribution of this pricing supplement, the accompanying prospectus supplement and prospectus and the offer or sale of the Notes in certain other jurisdictions may be restricted by law. Persons who come into possession of this pricing supplement, the accompanying prospectus supplement and prospectus or any Notes must inform themselves about and observe any applicable restrictions on the distribution of this pricing supplement, the accompanying prospectus supplement and prospectus and the offer and sale of the Notes.

QUESTIONS AND ANSWERS

What are the Notes?

The Notes are a series of our senior debt securities, the value of which is linked to the performance of the Index. The Notes will not bear interest, and no other payments will be made prior to maturity. See the section "Risk Factors."

The Notes will be unsecured and will rank equally with all of our unsecured and unsubordinated debt. Because we are a holding company, the Notes will be effectively subordinated to the claims of creditors of our subsidiaries. At May 31, 2005:

we had outstanding (on an unconsolidated basis) approximately \$49.9 billion of debt and other obligations, including approximately \$44.4 billion of unsecured senior debt and senior obligations and \$5.0 billion of unsecured inter-company debt; and

our subsidiaries had outstanding (after elimination of inter-company items) approximately \$222.2 billion of senior debt and other senior obligations (including \$54.6 billion related to securities sold under repurchase agreements, \$85.5 billion related to payables to customers, \$31.8 billion related to financial instruments sold, but not yet purchased, and \$50.3 billion of other liabilities, including \$26.9 billion of debt).

The Notes will mature on October [7], 2008. The Notes do not provide for earlier redemption. When we refer to Notes in this pricing supplement, we mean Notes with a principal amount of \$1,000. You should refer to the section "Description of Notes."

Are the Notes equity or debt securities?

The Notes are our unsecured debt securities. The Notes are 95% principal protected only if held to maturity. However, the Notes differ from traditional debt securities in that the Notes may offer [100 110]% of the negative performance of the Index. In no event will the Cash Settlement Value be less than \$950 nor exceed \$[1,350 1,385].

What will I receive at Maturity of the Notes?

We have designed the Notes for investors who want to protect a substantial portion of their investment by receiving at least 95% of the principal amount of their Notes at maturity, while also having an opportunity to participate in the potential decline of the Index if the Final Index Level is less than or equal to the Initial Index Level. Upon maturity of the Notes, for each Note you own, you will receive a payment equal to the "Cash Settlement Value," an amount in cash per Note that is based upon the Final Index Level in relation to the Initial Index Level.

The Notes will allow you to participate in [100 110]% of the potential decline in the Index, not to exceed the maximum return of [35.00 38.50]%, representing a 35.00% decline in the Final Index Level. In no event will the Cash Settlement Value be less than \$950 nor exceed \$[1,350 1,385].

Edgar Filing: BEAR STEARNS COMPANIES INC - Form 424B5

At maturity, if the Final Index Level is less than or equal to the Initial Index Level, the Cash Settlement Value will range between \$1,000 and \$[1,350 1,385] and will equal the principal amount of the Notes plus the lesser of:

At maturity, if the Final Index Level is greater than the Initial Index Level, the Cash Settlement Value will be proportionally less than the initial offering price based upon the percentage increase in the Index. Since the Notes are 95% principal protected, in no event will the Cash Settlement Value be less than \$950.

The "Initial Index Level" equals [], the closing value of the Index on [September 30], 2005, the date the Notes were priced for initial sale to the public.

The "Final Index Level" will be determined by the Calculation Agent and will equal the closing value of the Index on [September 30], 2008, the "Calculation Date," or, if that day is not an Index Business Day, on the next Index Business Day.

The "Maturity Date" of the Notes is October [7], 2008.

The "Index Closing Level" is the closing value of the Index on each Index Business Day.

An "Index Business Day" will be a day, as determined by the Calculation Agent, on which the Index or any Successor Index is calculated and published and on which securities comprising more than 80% of the value of the Index on such day are capable of being traded on the relevant exchanges. All determinations made by the Calculation Agent will be at the sole discretion of the Calculation Agent and will be conclusive for all purposes and binding on us and the beneficial owners of the Notes, absent manifest error.

For more specific information about the Cash Settlement Value and for illustrative examples, you should refer to the section "Description of the Notes."

What does "95% principal protected" mean?

"95% principal protected" means that 95% of your principal investment in the Notes will not be at risk as a result of an increase in the Index, provided the Notes are held to maturity. At maturity, if the Final Index Level is greater than the Initial Index Level, the Cash Settlement Value will be proportionally less than the initial offering price based upon the percentage increase in the Index. Since the Notes are 95% principal protected, in no event will the Cash Settlement Value be less than \$950. Therefore, at maturity, if the Final Index Level exceeds the Initial Index Level by more than 5%, the Cash Settlement Value per Note will equal \$950.

Will I receive interest on the Notes?

You will not receive any interest payments on the Notes, but will instead receive the Cash Settlement Value upon maturity of the Notes. We have designed the Notes for investors who are willing to forgo periodic interest payments on the Notes in exchange for 95% principal protection and the ability to participate in changes in the value of the Index over the term of the Notes.

What is the Index?

The Index is published by the PHLX and was set to 250 on January 2, 2002. The Index is a modified capitalization-weighted index designed to measure the performance of 21 companies whose primary lines of business are directly associated with the U.S. housing construction market. The stocks underlying the Index include residential builders, suppliers of aggregate, lumber and other construction

materials, manufactured housing and mortgage insurers. For a list of the stocks underlying the Index and more specific information about the Index, please see the section "Description of the Index."

Please note that an investment in the Notes does not entitle you to any ownership interest in the stocks of the companies included in the Index.

How has the Index performed historically?

We have provided a table and graph showing the monthly performance of the Index from July 2002 through August 2005. You can find these tables in the section "Description of the Index Historical Data on the Index" in this pricing supplement. We have provided this historical information to help you evaluate the behavior of the Index in various economic environments; however, past performance is not necessarily indicative of how the Index will perform in the future. You should refer to the section "Risk Factors The historical performance of the Index is not an indication of the future performance of the index."

Will the Notes be listed on a securities exchange?

The Notes will not be listed on any securities exchange, and we do not expect a trading market to develop, which may affect the price that you receive for your Notes upon any sale prior to maturity. Wells Fargo has advised us that they intend, under ordinary market conditions, to indicate prices for the Notes on request. However, we cannot guarantee that bids for outstanding Notes will be made in the future; nor can we predict the price at which those bids will be made. In any event, Notes will cease trading as of the close of business on the Maturity Date. You should refer to the section "Risk Factors."

What is Wells Fargo's role?

We have entered into a Distribution Agreement and Terms Agreement with Wells Fargo. These agreements will provide for the offer and sale of Notes by Wells Fargo on a best efforts basis. Wells Fargo has agreed to use its best efforts to identify potential purchasers of the Notes and will purchase such Notes from us for resale to such purchasers.

Although it is under no obligation to do so Wells Fargo has advised us that they intend, under ordinary market conditions, to indicate prices for the Notes on request. However, we cannot guarantee that bids for outstanding Notes will be made in the future; nor can we predict the price at which any such bids will be made. In any event, Notes will cease trading as of the close of business on the Maturity Date.

Who will act as Calculation Agent?

We will be the Calculation Agent. Under certain circumstances, these duties could result in a conflict of interest between us as the issuer of the Notes, and our responsibilities as Calculation Agent. You should refer to "Risk Factors We are the Calculation Agent which could result in a conflict of interest."

Can you tell me more about The Bear Stearns Companies Inc.?

We are a holding company that, through our broker-dealer and international bank subsidiaries, principally Bear, Stearns & Co., Inc. ("Bear Stearns"), Bear, Stearns Securities Corp., Bear, Stearns International Limited ("BSIL") and Bear Stearns Bank plc, is a leading investment banking, securities and derivatives trading, clearance and brokerage firm serving corporations, governments, institutional and individual investors worldwide. For more information about us, please refer to the section "The Bear Stearns Companies Inc." in the accompanying prospectus. You should also read the other documents we have filed with the Securities and Exchange Commission, which you can find by referring to the section "Where You Can Find More Information" in the accompanying prospectus.

Who should consider purchasing the Notes?

Because the Notes are tied to the price performance of an underlying housing sector index, they may be appropriate for investors with specific investment horizons who seek to participate in the potential price decline of the underlying stocks comprising the Index. In particular, the Notes may be an attractive investment for investors who:

are seeking an investment that offers at least 95% principal protection if held to maturity;

believe that the Index will decrease over the term of the Notes and that such decrease will not significantly exceed 35.00%;

are willing to hold the Notes until maturity;

want exposure to stocks whose earnings are correlated with the U.S. housing sector; and

are willing to forgo interest payments in return for partial principal protection and potential downside leverage.

The Notes may not be a suitable investment for you if:

you seek current income from your investment;

you want 100% or full principal protection;

you seek an investment that offers the possibility to fully participate in the decline of the Index;

you seek an investment with an active secondary market; or

you are unable or unwilling to hold the Notes until maturity.

What are the U.S. federal income tax consequences of investing in the Notes?

Because the Notes are contingent payment debt instruments for federal income tax purposes, a U.S. Holder of a Note will be required to include OID in gross income over the term of the Note even though no cash payments will be made with respect to the Notes until maturity. The amount of OID includible in each year is based on the "comparable yield." In addition, we have computed a "projected payment amount" that produces the comparable yield. The comparable yield and the projected payment amount are neither predictions nor guarantees of the actual yield on the Notes or the actual payment at maturity. If the amount we actually pay at maturity is, in fact, less than the projected payment amount, then a U.S. Holder would have recognized taxable income in periods prior to maturity that exceeds the U.S. Holder's economic income from holding the Note during such periods (with an offsetting ordinary loss). If a U.S. Holder disposes of the Note prior to maturity, the U.S. Holder will be required to treat any gain recognized upon the disposition of the Note as ordinary income (rather than capital gain). You should review the discussion under the section entitled "Certain U.S. Federal Income Tax Considerations" in this pricing supplement.

Does ERISA impose any limitations on purchases of the Notes?

An employee benefit plan subject to the fiduciary responsibility provisions of the Employee Retirement Income Security Act of 1974 ("ERISA") or a plan that is subject to Section 4975 of the Internal Revenue Code, including individual retirement accounts, individual retirement annuities or Keogh plans, or any entity the assets of which are deemed to be "plan assets" under ERISA regulations, will be permitted to purchase, hold and dispose of the Notes only on the condition that such plan or entity makes the deemed representation that its purchase, holding and disposition of the Notes will not constitute a prohibited transaction under ERISA or Section 4975 of the Internal Revenue Code for which an exemption is not available. Government plans subject to any substantially similar law will also be subject to this condition.

Are there any risks associated with my investment?

Yes. The Notes are subject to a number of risks. You should refer to the section "Risk Factors" in this pricing supplement and "Risk Factors" in the accompanying prospectus supplement.

PS-8

RISK FACTORS

Your investment in the Notes involves a degree of risk similar to investing in the Index. You will be subject to significant risks not associated with conventional fixed-rate or floating-rate debt securities. Prospective purchasers of the Notes should understand the risks of investing in the Notes and should reach an investment decision only after careful consideration, with their advisers, of the suitability of the Notes in light of their particular financial circumstances, the following risk factors and the other information set forth in this pricing supplement and the accompanying prospectus supplement and prospectus. These risks include the possibility that the Index will fluctuate, and the possibility that you will receive a lower amount of principal. We have no control over a number of matters, including economic, financial, regulatory, geographical, judicial and political events, that are important in determining the existence, magnitude, and longevity of these risks and their impact on the value of, or the payment made on, the Notes.

You may lose up to 5% of your principal, but may lose more if you sell your Notes prior to maturity.

The full principal amount of your Notes is not protected against a decline in the value of the Index. You will lose up to 5% of the principal amount of your Notes if the Final Index Level exceeds the Initial Index Level. The Cash Settlement Value will equal at least the minimum payment of 95% of the principal amount of your Notes only if you hold your Notes to maturity. If you sell your Notes in the secondary market prior to maturity, you will not be entitled to 95% principal protection and you may receive less and possibly significantly less, than the initial public offering price of \$1,000 per Note. You therefore should be able and willing to hold your Notes until maturity.

Your maximum gain on the Notes at maturity is [35.00 - 38.50]%.

The Cash Settlement Value is based on the change in the Index. If the Final Index Level declines by more than 35.00%, the Cash Settlement Value at maturity will be limited to the maximum total return on the Notes of [35.00 - 38.50]%. Therefore, your ability to participate in any decrease in the Index through an investment in the Notes is limited because the Cash Settlement Value will never exceed \$[1,350 - 1,385].

You will not receive any interest payments on the Notes.

You will not receive any periodic payments of interest or any other periodic payments on the Notes until maturity. On the Maturity Date, you will receive a payment per Note equal to the Cash Settlement Value. However, the overall return you earn on your Notes may be less than that you would have earned by investing in a non-indexed debt security of comparable maturity that bears interest at a prevailing market rate. For more specific information about the Cash Settlement Value and for illustrative examples, you should refer to the section "Description of the Notes."

Your yield may be below market interest rates on the Calculation Date.

You may receive a Cash Settlement Value that is below what we would pay as of the issuance date if we had issued non-callable senior debt securities with a maturity similar to that of the Notes.

You must rely on your own evaluation of the merits of an investment linked to the Index.

In the ordinary course of our business, we may from time to time express views on expected movements in the U.S. housing industry, U.S. housing construction industry and in the stocks underlying the Index. These views may vary over differing time horizons and are subject to change without notice. Moreover, other professionals who deal in the equity markets may at any time have views that differ significantly from ours. In connection with your purchase of the Notes, you should

investigate the housing industry, housing construction industry and the stocks that underlie the Index and should not rely on our views with respect to future movements in these industries and stocks. You should make such investigation as you deem appropriate as to the merits of an investment linked to the Index.

The stocks underlying the Index are concentrated in only one industry.

All of the stocks underlying the Index are issued by companies whose primary lines of business are directly associated with the U.S. housing construction market. As a result, an investment in the Notes will be concentrated in just this one industry. Currently, the stocks underlying the Index encompass residential builders, suppliers of aggregate, lumber and other construction materials, manufactured housing and mortgage insurers.

Tax consequences.

For U.S. federal income tax purposes, the Notes will be classified as contingent payment debt instruments. As a result, U.S. Holders will be required to include OID in income during their ownership of the Notes even though no cash payments will be made with respect to the Notes until maturity. The amount of OID includible in each year is based on the "comparable yield." In addition, we have computed a "projected payment amount" that produces the comparable yield. The comparable yield and the projected payment amount are neither predictions nor guarantees of the actual yield on the Notes or the actual payment at maturity. If the amount we actually pay at maturity is, in fact, less than the projected payment amount, then a U.S. Holder would have recognized taxable income in periods prior to maturity that exceeds the U.S. Holder's economic income from holding the Note during such periods (with an offsetting ordinary loss). Additionally, U.S. Holders will generally be required to recognize ordinary income on the gain, if any, realized on a sale, upon maturity, or other disposition of the Notes. You should review the discussion under the section entitled "Certain U.S. Federal Income Tax Considerations" in this pricing supplement.

The historical performance of the Index is not an indication of the future performance of the Index.

The historical performance of the Index, which is included in this pricing supplement, is limited and should not be taken as an indication of the future performance of the Index. While the trading prices of the underlying common stocks of the Index will determine the value of the Index, it is impossible to predict whether the value of the Index will fall or rise. Trading prices of the underlying common stocks of the Index will be influenced by the complex and interrelated economic, financial, regulatory, geographical, judicial, political and other factors that can affect the capital markets generally and the equity trading markets on which the underlying common stocks are traded, and by various circumstances that can influence the values of the underlying common stocks in a specific market segment or the value of a particular underlying stock.

The price at which you will be able to sell your Notes prior to maturity will depend on a number of factors and may be substantially less than you had originally invested.

If you wish to liquidate your investment in the Notes prior to maturity, your only alternative would be to sell them. At that time, there may be an illiquid market for Notes or no market at all. Even if you were able to sell your Notes, there are many factors outside of our control that may affect their trading value. We believe that the value of your Notes will be affected by the value and volatility of the Index, whether or not the Index Closing Level is equal to or less than the Initial Index Level, changes in U.S. interest rates, the supply of and demand for the Notes and a number of other factors. Some of these factors are interrelated in complex ways; as a result, the effect of any one factor may be offset or magnified by the effect of another factor. The price, if any, at which you will be able to sell your Notes prior to maturity may be substantially less than the amount you originally invested if, at such time, the

value of the Index is less than, equal to or not sufficiently above the value of the Index on the date you purchased the Notes. The following paragraphs describe the manner in which we expect the trading value of the Notes will be affected in the event of a change in a specific factor, assuming all other conditions remain constant.

Value of the Index. We expect that the trading value of the Notes will depend substantially on the amount, if any, by which the Initial Index Level at any given time is greater than the Index Closing Level. If you decide to sell your Notes when the Index Closing Level is less than the Initial Index Level, you may nonetheless receive substantially less than the amount that would be payable at maturity based on that Index Closing Level because of expectations that the Index Closing Level will continue to fluctuate until the Final Index Level is determined. Economic, financial and other developments that affect the common stocks in the Index may also affect the Index Closing Level and, thus, the value of the Notes.

Volatility of the Index. Volatility is the term used to describe the size and frequency of market fluctuations. Generally, if the volatility of the Index increases, the trading value of the Notes will increase; and, if the volatility of the Index decreases, the trading value of the Notes will decrease. The effect of the volatility of the Index on the trading value of the Notes may not necessarily decrease over time during the term of the Notes.

Interest rates. We expect that the trading value of the Notes will be affected by changes in U.S. interest rates. In general, interest rate changes may have adverse effects on the trading value of the Notes. Interest rate increases may lead to a decline in the housing market which may be correlated to the Index.

Our credit ratings, financial condition and results of operations. Actual or anticipated changes in our current credit ratings (A1 by Moody's Investor Service, Inc. and A by Standard & Poor's Rating Services), as well as our financial condition or results of operations may significantly affect the trading value of the Notes. However, because the return on the Notes is dependent upon factors in addition to our ability to pay our obligations under the Notes, such as the Index, an improvement in our credit ratings, financial condition or results of operations is not expected to have a positive effect on the trading value of the Notes.

Time remaining to maturity. A "time premium" results from expectations concerning the value of the Index during the period prior to the maturity of the Notes. As the time remaining to the maturity of the Notes decreases, this time premium will likely decrease, potentially adversely affecting the trading value of the Notes.

Dividend yield. The value of the Notes may also be affected by the dividend yields on the stocks in the Index. In general, higher dividend yields will likely decrease the value of the Index and thus increase the value of the Notes. Conversely, lower dividend yields will likely increase the value of the Index and thus reduce the value of the Notes.

Events involving the companies comprising the Index. General economic conditions and earnings results of the companies whose stocks comprise the Index, and real or anticipated changes in those conditions or results, may affect the trading value of the Notes. Some of the stocks included in the Index may be affected by mergers and acquisitions, which can contribute to volatility of the Index. As a result of a merger or acquisition, one or more stocks in the Index may be replaced with a surviving or acquiring entity's securities. The surviving or acquiring entity's securities may not have the same characteristics as the stock originally included in the Index.

Size and liquidity of the trading market. The Notes will not be listed on any securities exchange, and we do not expect a trading market to develop. There may not be a secondary market in the Notes, which may affect the price that you receive for your Notes upon any sale prior to

Edgar Filing: BEAR STEARNS COMPANIES INC - Form 424B5

maturity. If a trading market does develop, there can be no assurance that there will be liquidity in the trading market. If the trading market for the Notes is limited, there may be a limited number of buyers for your Notes if you do not wish to hold your investment until maturity. This may affect the price you receive upon any sale of the Notes prior to maturity.

Wells Fargo has advised us that they intend, under ordinary market conditions, to indicate prices for the Notes on request. However, we cannot guarantee that bids for outstanding Notes will be made in the future; nor can we predict the price at which any such bids will be made.

We want you to understand that the effect of one of the factors specified above, such as an increase in interest rates, may offset some or all of any change in the value of the Notes attributable to another factor, such as an increase in the value of the Index.

You have no shareholder rights or rights to receive any stock.

Investing in the Notes will not make you a holder of any of the stock underlying the Index. Neither you nor any other holder or owner of the Notes will have any voting rights, any right to receive dividends or other distributions or any other rights with respect to the underlying stocks. The Notes will be paid in cash, and you will have no right to receive delivery of any stocks underlying the Index.

State law may limit interest paid.

New York State law governs the Indenture under which the Notes will be issued. New York has certain usury laws that limit the amount of interest that can be charged and paid on loans, including debt securities such as the Notes. Under present New York law, the maximum rate of interest is 25% per annum, on a simple interest basis. This limit may not apply to debt securities in which \$2,500,000 or more has been invested.

While we believe that New York law would be given effect by a state or federal court sitting outside of New York, many other states also have laws that regulate the amount of interest that may be charged to and paid by a borrower. We will promise, for your benefit as a holder of the Notes, to the extent permitted by law, not to voluntarily claim the benefits of any laws concerning usurious rates of interest.

We are the Calculation Agent which could result in a conflict of interest.

We will act as the Calculation Agent and will make certain determinations and judgments in connection with calculating the Index Closing Levels, or deciding whether a Market Disruption Event has occurred. You should refer to the sections "Description of the Notes Discontinuance of the Index," " Adjustments to the Index" and " Market Disruption Events." Conflicts of interest may arise in connection with us performing our role as issuer of the Notes and as Calculation Agent.

Our affiliates, including Bear Stearns may, at various times, engage in transactions involving the stocks underlying the Index for their proprietary accounts, and for other accounts under their management. These transactions may influence the value of such stocks, and therefore the value of the Index. [BSIL, an affiliate of Bear Stearns, will also be the counterparty to the hedge of our obligations under the Notes.] You should refer to the section "Use of Proceeds and Hedging." Accordingly, under certain circumstances, conflicts of interest may arise between our responsibilities as Calculation Agent with respect to the Notes and BSIL's obligations under our hedge.

We cannot control actions by the companies whose stocks are included in the Index.

Actions by any company whose stock is part of the Index may affect the price of its stock, the Index Closing Level and the trading value of the Notes. These companies are not involved in this

offering and have no obligations with respect to the Notes, including any obligation to take our or your interests into consideration for any reason. These companies will not receive any of the proceeds of this offering and are not responsible for, and have not participated in, the determination of the timing of, prices for, or quantities of, the Notes to be issued. These companies are not involved with the administration, marketing or trading of the Notes and have no obligations with respect to the amount to be paid to you on the Maturity Date.

We are not affiliated with any Index company and are not responsible for any disclosure by any such company. However, we may currently, or in the future, engage in business with such companies. Neither we nor any of our affiliates, including Bear Stearns, assumes any responsibility for the adequacy or accuracy of any publicly available information about the Index or any Index company. You should make your own investigation into the Index and the Index companies.

Changes that affect the Index will affect the trading value of the Notes and the amount you will receive at maturity.

The policies of PHLX concerning the composition and calculation of the Index will affect the value of the Index and, therefore, will affect the trading value of the Notes and the Cash Settlement Value. Currently, PHLX does not disclose which stocks are considered for inclusion in the Index. If PHLX discontinues or suspends calculation or publication of the Index, it may become difficult to determine the trading value of the Notes or the Cash Settlement Value. If this occurs, the Calculation Agent will determine the value of the Notes in its sole discretion. As a result, the Calculation Agent's determination of the value of the Notes will affect the Cash Settlement Value you will receive at maturity. In addition, if PHLX discontinues or suspends calculation of the Index at any time prior to the Maturity Date and a Successor Index is not available or is not acceptable to the Calculation Agent in its sole discretion, then the Calculation Agent will determine the amount payable on the Maturity Date by reference to a group of stocks and a computation methodology that the Calculation Agent determines in its sole discretion will as closely as reasonably possible replicate the Index. The value of the Index is only one of the factors that will affect this determination and the value of the Notes prior to maturity. See the sections "Description of the Notes Discontinuance of the Index" and "Description of the Index."

Trading and other transactions by us or our affiliates could affect the prices of the stocks underlying the Index, the level of the Index, the trading value of the Notes or the amount you may receive at maturity.

We and our affiliates may from time to time buy or sell shares of the stocks underlying the Index or derivative instruments related to those stocks for our own accounts in connection with our normal business practices or in connection with hedging our obligations under the Notes. These trading activities may present a conflict of interest between your interest in the Notes and the interests we and our affiliates may have in our proprietary accounts, in facilitating transactions, including block trades, for our other customers and in accounts under our management. The transactions could affect the prices of those stocks or the level of the Index in a manner that would be adverse to your investment in the Notes. See the section "Use of Proceeds and Hedging."

Hedging activities we or our affiliates may engage in may affect the level of the Index and, accordingly, increase or decrease the trading value of the Notes prior to maturity and the Cash Settlement Value you would receive at maturity. To the extent that we or any of our affiliates has a hedge position in any of the stocks that comprise the Index, or derivative or synthetic instruments related to those stocks or the Index, we or any of our affiliates may liquidate a portion of such holdings at or about the time of the maturity of the Notes or at or about the time of a change in the stocks that underlie the Index. Depending on, among other things, future market conditions, the aggregate amount and the composition of such hedge positions are likely to vary over time. Profits or losses from any of

those positions cannot be ascertained until the position is closed out and any offsetting position or positions are taken into account. Although we have no reason to believe that any of those activities will have a material effect on the level of the Index, we cannot assure you that these activities will not affect such level and the trading value of the Notes prior to maturity or the Cash Settlement Value payable at maturity.

In addition, we or any of our affiliates may purchase or otherwise acquire a long or short position in the Notes. We or any of our affiliates may hold or resell the Notes. We or any of our affiliates may also take positions in other types of appropriate financial instruments that may become available in the future.

We or any of our affiliates may also issue, underwrite or assist unaffiliated entities in the issuance or underwriting of other securities or financial instruments with returns indexed to the Index. By introducing competing products into the marketplace in this manner, we or our affiliates could adversely affect the value of the Notes.

We and our affiliates, at present or in the future, may engage in business with the companies included in the Index, including making loans to, equity investments in, or providing investment banking, asset management or other advisory services to those companies and their competitors. In connection with these activities, we may receive information about those companies that we will not divulge to you or other third parties. One or more of our affiliates have published, and may in the future publish, research reports regarding one or more of the Index companies. This research may be modified from time to time without notice and may express opinions or provide recommendations that are inconsistent with purchasing, holding or selling the Notes. Any of these activities may affect the trading value of the Notes.

The Cash Settlement Value you receive on the Notes may be delayed or reduced upon the occurrence of a Market Disruption Event, or an Event of Default.

If the Calculation Agent determines that, on the Calculation Date, a Market Disruption Event has occurred or is continuing, the determination of the value of the Index by the Calculation Agent may be deferred. You should refer to the section "Description of the Notes Market Disruption Events."

If the Calculation Agent determines that an Event of Default (as defined below) has occurred, a holder of the Notes will only receive an amount equal to the trading value of the Notes on the date of such Event of Default, adjusted by an amount equal to any losses, expenses and costs to us of unwinding any underlying hedging or funding arrangements, all as determined by the Calculation Agent in its sole and absolute discretion. You should refer to the section "Description of the Notes Event of Default and Acceleration."

You should decide to purchase the Notes only after carefully considering the suitability of the Notes in light of your particular financial circumstances. You should also carefully consider the tax consequences of investing in the Notes. You should refer to the section "Certain U.S. Federal Income Tax Considerations" and discuss the tax implications with your own tax advisor.

DESCRIPTION OF THE NOTES

The following description of the Notes (referred to in the accompanying prospectus supplement as the "Other Indexed Notes") supplements the description of the Notes in the accompanying prospectus supplement and prospectus. This is a summary and is not complete. You should read the indenture, dated as of May 31, 1991, as amended (the "Indenture"), between us and JPMorgan Chase Bank, N.A. (formerly, The Chase Manhattan Bank), as trustee (the "Trustee"). A copy of the Indenture is available as set forth under the section of the prospectus entitled "Where You Can Find More Information."

General

The Notes are part of a single series of debt securities under the Indenture described in the accompanying prospectus supplement and prospectus designated as Medium-Term Notes, Series B. The Notes are unsecured and will rank equally with all of our unsecured and unsubordinated debt, including the other debt securities issued under the Indenture. Because we are a holding company, the Notes will be effectively subordinated to the claims of creditors of our subsidiaries. At May 31, 2005:

we had outstanding (on an unconsolidated basis) approximately \$49.9 billion of debt and other obligations, including approximately \$44.4 billion of unsecured senior debt and senior obligations and \$5.0 billion of unsecured inter-company debt; and

our subsidiaries had outstanding (after elimination of inter-company items) approximately \$222.2 billion of senior debt and other senior obligations (including \$54.6 billion related to securities sold under repurchase agreements, \$85.5 billion related to payables to customers, \$31.8 billion related to financial instruments sold, but not yet purchased, and \$50.3 billion of other liabilities, including \$26.9 billion of debt).

The aggregate principal amount of the Notes will be \$[]. The Notes will mature on October [7], 2008. The Notes will be issued only in fully registered form, and in minimum denominations of \$1,000. Initially, the Notes will be issued in the form of one or more global securities registered in the name of DTC or its nominee, as described in the accompanying prospectus supplement and prospectus. When we refer to Notes in this pricing supplement, we mean Notes with a principal amount of \$1,000. The Notes will not be listed on any securities exchange.

You should refer to the section "Certain U.S. Federal Income Tax Considerations," for a discussion of certain federal income tax considerations to you as a holder of the Notes.

Interest

We will not make any periodic payments of interest on the Notes or any other payments on the Notes, until maturity.

Payment at Maturity

We have designed the Notes for investors who want to protect a substantial portion of their investment by receiving at least 95% of the principal amount of their Notes at maturity, while also having an opportunity to participate in the potential decline of the Index if the Final Index Level is less than or equal to the Initial Index Level. Upon maturity of the Notes, for each Note you own, you will receive a payment equal to the "Cash Settlement Value," an amount in cash per Note that is based upon the Final Index Level in relation to the Initial Index Level. The Notes will allow you to participate in [100 110]% of the potential decline in the Index, not to exceed the maximum return of [35.00 38.50]%, representing a 35.00% decline in the Final Index Level. In no event will the Cash Settlement Value be less than \$950 nor exceed \$[1,350 1,385].

Edgar Filing: BEAR STEARNS COMPANIES INC - Form 424B5

At maturity, if the Final Index Level is less than or equal to the Initial Index Level, the Cash Settlement Value will range between \$1,000 and \$[1,350 - 1,385] and will equal the principal amount of the Notes plus the lesser of:

At maturity, if the Final Index Level is greater than the Initial Index Level, the Cash Settlement Value will be proportionally less than the initial offering price based upon the percentage increase in the Index. Since the Notes are 95% principal protected, in no event will the Cash Settlement Value be less than \$950.

The "Initial Index Level" equals [], the closing value of the Index on [September 30], 2005, the date the Notes were priced for initial sale to the public.

The "Final Index Level" will be determined by the Calculation Agent and will equal the closing value of the Index on [September 30], 2008, the "Calculation Date," or, if that day is not an Index Business Day, on the next Index Business Day.

The "Maturity Date" of the Notes is October [7], 2008.

The "Index Closing Level" is the closing value of the Index on each Index Business Day.

An "Index Business Day" will be a day, as determined by the Calculation Agent, on which the Index or any Successor Index is calculated and published and on which securities comprising more than 80% of the value of the Index on such day are capable of being traded on the relevant exchanges. All determinations made by the Calculation Agent will be at the sole discretion of the Calculation Agent and will be conclusive for all purposes and binding on us and the beneficial owners of the Notes, absent manifest error.

Illustrative Examples:

The following are illustrative examples demonstrating the hypothetical Cash Settlement Value of a Note based on the assumptions outlined below.

Assumptions:

Investor purchases \$1,000 principal amount of Notes at the initial offering price of \$1,000.

Investor does not sell the Notes and holds the Notes to maturity.

The hypothetical Initial Index Level is [525.00].

The Notes allow you to participate in [105]% of the amount (calculated as a percentage) by which the Initial Index Level exceeds the Final Index Level.

The maximum return is [36.75]%, representing the participation of 105% of a maximum decline in the Final Index Level of 35% (i.e., the product of 105% and 35%).

All returns are based on a 36-month term; pre-tax basis.

No Market Disruption Events occur during the term of the Notes.

Example 1: The Initial Index Level is higher than the Final Index Level.

In this example, the Index decreases over the term of the Notes. The Final Index Level of 315 is 40% lower than the Initial Index Level of 525. The Cash Settlement Value will equal:

In this case, the Cash Settlement Value will equal \$1,367.50.

Example 2: The Initial Index Level is higher than the Final Index Level.

In this example, the Index initially decreases, then recovers and continues to increase over the remaining term of the Notes. The Final Index Level of 472.50 is 10.00% lower than the Initial Index Level of 525. The Cash Settlement Value will equal:

In this case, the Cash Settlement Value will equal \$1,105.00.

Example 3: The Initial Index Level is less than the Final Index Level.

In this example, the Index increases over the term of the Note. The Final Index Level of 682.50 is 30% higher than the Initial Index Level of 525. Since the Final Index Level is greater than the Initial Index Level, the Cash Settlement Value will be proportionally less than \$1,000 based upon the percentage increase in the Index. Since the Notes are 95% principal protected, you are fully protected from any losses in excess of a 5% increase in the Final Index Level. The Cash Settlement Value will equal:

In this case, the Cash Settlement Value will equal \$950.

Summary of Examples 1 Through 3

	<u>Example 1</u>	<u>Example 2</u>	<u>Example 3</u>
Initial Index Level	525.00	525.00	525.00
Final Index Level	315.00	472.50	682.50
Percentage Change in Final Index Level	-40.00%	-10.00%	+30.00%
Cash Settlement Value	\$ 1,367.50	\$ 1,105.00	\$ 950.00

PS-18

Table of Hypothetical Cash Settlement Values

The following table and graph reflects hypothetical Cash Settlement Values at maturity, assuming an Initial Index Level of 525 and various hypothetical Final Index Levels.

Initial Index Level	Final Index Level	Percentage Change in Index	Cash Settlement Value Per Note	Return if Held to Maturity	Initial Index Level	Final Index Level	Percentage Change in Index	Cash Settlement Value Per Note	Return if Held to Maturity
525	0	-100.00%	\$1,367.50	36.750%	525	455	-13.33%	\$1,140.00	14.000%
525	330	-37.14%	\$1,367.50	36.750%	525	460	-12.38%	\$1,130.00	13.000%
525	335	-36.19%	\$1,367.50	36.750%	525	465	-11.43%	\$1,120.00	12.000%
525	340	-35.24%	\$1,367.50	36.750%	525	470	-10.48%	\$1,110.00	11.000%
525	345	-34.29%	\$1,360.00	36.000%	525	475	-9.52%	\$1,100.00	10.000%
525	350	-33.33%	\$1,350.00	35.000%	525	480	-8.57%	\$1,090.00	9.000%

PS-19

Discontinuance of the Index

If PHLX discontinues publication of the Index and PHLX or another entity publishes a successor or substitute index that the Calculation Agent determines, in its sole discretion, to be comparable to the discontinued Index (the new index being referred to as a "Successor Index"), then the Index Closing Levels will be determined by reference to the Successor Index at the close of trading on the relevant exchange or market for the Successor Index on the date that the Index Closing Level is to be determined.

Upon any selection by the Calculation Agent of a Successor Index, the Calculation Agent will notify us and the Trustee, who will provide notice of the selection of the Successor Index to the registered holders of the Notes.

If PHLX discontinues publication of the Index prior to, and such discontinuance is continuing on, the date that the Index Closing Level is to be determined and the Calculation Agent determines that no Successor Index is available at such time, then, on such date, the Calculation Agent will notify us and the Trustee and will calculate the appropriate closing levels. The Index Closing Level will be computed by the Calculation Agent in accordance with the formula for and method of calculating the Index last in effect prior to such discontinuance, using the closing level (or, if trading in the relevant securities has been materially suspended or materially limited, its good faith estimate of the closing level that would have prevailed but for such suspension or limitation) at the close of the principal trading session on such date of each security most recently comprising the Index on the primary organized U.S. exchange or trading system on which such securities trade. "Closing level" means, with respect to any security on any date, the last reported sales price regular way on such date or, if no such reported sale takes place on such date, the average of the reported closing bid and asked price regular way on such date, in either case on the primary organized U.S. exchange or trading system on which such security is then listed or admitted to trading.

If a Successor Index is selected, or the Calculation Agent calculates a value as a substitute for the Index as described above, that Successor Index or its closing level will be used as a substitute for the Index for all purposes, including for purposes of determining whether an Index Business Day or Market Disruption Event has occurred or exists. Notwithstanding these alternative arrangements, discontinuance of the publication of the Index may adversely affect the value of the Notes.

All determinations made by the Calculation Agent will be at the sole discretion of the Calculation Agent, and will be conclusive for all purposes and binding on us and the beneficial owners of the Notes, absent manifest error.

Adjustments to the Index

If at any time the method of calculating the Index or a Successor Index, or the Index Closing Level thereof, is changed in a material respect, or if the Index or a Successor Index is in any other way modified so that such index does not, in the opinion of the Calculation Agent, fairly represent the level of the Index or such Successor Index had such changes or modifications not been made, then, from and after such time, the Calculation Agent will, at the close of business in New York City on the date that the Index Closing Level is to be determined, make such calculations and adjustments as, in its good faith judgment, may be necessary in order to arrive at a level of a stock index comparable to the Index or such Successor Index, as the case may be, as if such changes or modifications had not been made. The Calculation Agent will calculate the Index Closing Level with reference to the Index or such Successor Index, as adjusted. If the method of calculating the Index or a Successor Index is modified so that the level of such index is a fraction of what it would have been if it had not been modified (for example, due to a split in the index), then the Calculation Agent will adjust such index in order to arrive at a level of the Index or such Successor Index as if it had not been modified (for example, as if such split had not occurred).

Market Disruption Events

If there is a Market Disruption Event on the date with respect to which the Final Index Level is to be determined, the Final Index Level will be determined on the basis of the first succeeding Index Business Day on which there is no Market Disruption Event. In no event, however, will the date with respect to which the Final Index Level is determined be a date that is more than [two] Index Business Days following the original date that, but for the Market Disruption Event, would have been utilized to determine the Final Index Level. In that case, the second Index Business Day will be deemed to be the Calculation Date, notwithstanding the Market Disruption Event, and the Calculation Agent will determine the level of the Index on that [second] Index Business Day in accordance with the formula for and method of calculating the Index in effect prior to the Market Disruption Event using the exchange traded price of each security in the Index (or, if trading in any such security has been materially suspended or materially limited, the Calculation Agent's good faith estimate of the exchange traded price that would have prevailed but for such suspension or limitation) as of that [second] Index Business Day.

A "Market Disruption Event" means any of the following events, as determined by the Calculation Agent, in its sole discretion:

the occurrence or existence of a suspension, absence or material limitation of trading for more than two hours of trading, or during the one-half hour period preceding the close of trading on the relevant exchange in 20% or more of the stocks which then comprise the Index, or any Successor Index (without taking into account any extended or after-hours trading session);

a breakdown or failure in the price and trade reporting systems of any relevant exchange as a result of which the reported trading prices for stocks then constituting 20% or more of the level of the Index, or any Successor Index, during the last one hour preceding the close of the principal trading session on such relevant exchange are materially inaccurate;

the occurrence or existence of a suspension, absence or material limitation of trading, in each case, on any major U.S. exchange for more than two hours of trading, or during the one-half hour period preceding the close of the principal trading session on such market, whether by reason of movements in price otherwise exceeding levels permitted by the relevant exchange or otherwise, in option or futures contracts or exchange traded funds related to the Index, or any Successor Index; or

the occurrence or existence of a suspension, absence, limitation, cancellation or repudiation of trading for more than two hours of trading, or during the one-half hour period preceding the close of trading on the relevant exchange in 20% or more of any options contracts relating to the stocks which then comprise 20% or more of the value of the Index.

For purposes of the above definition:

(a) a limitation on the hours in a trading day and/or number of days of trading will not constitute a Market Disruption Event if it results from an announced change in the regular business hours of the relevant exchange, and

(b) for purposes of clause (a) above, any limitations on trading during significant market fluctuations under NYSE Rule 80A, or any applicable rule or regulation enacted or promulgated by the NYSE or any other self regulatory organization or the SEC of similar scope as determined by the Calculation Agent, will be considered "material."

Based on the information currently available to us, on each of September 11, 12, 13 and 14, 2001, the NYSE suspended all trading for the entire day, and on October 27, 1997, the NYSE suspended all trading during the one-half hour period preceding the close of trading. If any such suspension of trading occurred during the term of the Notes, it would constitute a Market Disruption Event.

Redemption; Defeasance

The Notes are not subject to redemption before maturity, and are not subject to the defeasance provisions described in the section "Description of Debt Securities Defeasance" in the accompanying prospectus.

Events of Default and Acceleration

If an Event of Default (as defined in the accompanying prospectus) with respect to any Notes has occurred and is continuing, then the amount payable to you, as a beneficial owner of a Note, upon any acceleration permitted by the Notes will be equal to the Cash Settlement Value as though the date of early repayment were the Maturity Date of the Notes, adjusted by an amount equal to any losses, expenses and costs to us of unwinding any underlying or related hedging or funding arrangements, all as determined by the Calculation Agent in its sole and absolute discretion. If a bankruptcy proceeding is commenced in respect of us, the claims of the holder of a Note may be limited under Title 11 of the United States Code.

Same-Day Settlement and Payment

Settlement for the Notes will be made by Wells Fargo in immediately available funds. Payments of the Cash Settlement Value will be made by us in immediately available funds, so long as the Notes are maintained in book-entry form.

Calculation Agent

We will be the Calculation Agent for the Notes. All determinations made by us as Calculation Agent will be at our sole discretion and will, in the absence of manifest error, be conclusive for all purposes and binding on you and us. Because we are the issuer of the Notes and the Calculation Agent, potential conflicts of interest may exist between you and us, including with respect to certain determinations and judgments that we must make in determining the Cash Settlement Value. We are obligated to carry out our duties and functions as Calculation Agent in good faith and using our reasonable judgment.

DESCRIPTION OF THE INDEX

General

We obtained all information regarding the Index contained in this pricing supplement, including its make-up, method of calculation and changes in its components, from publicly available information. That information reflects the policies of, and is subject to change by, PHLX. PHLX has no obligation to continue to publish, and may discontinue publication of, the Index. The consequences of PHLX's discontinuing publication of the Index are described in the section "Description of the Notes Discontinuance of the Index." We do not assume any responsibility for the accuracy or completeness of any information relating to the Index.

The Index is designed to measure the performance of 21 companies whose primary lines of business are directly associated with the U.S. housing construction market. The stocks underlying the Index include residential builders, suppliers of aggregate, lumber and other construction materials, manufactured housing and mortgage insurers. The Index is published by the PHLX and was set to 250 on January 2, 2002. Options on the Index commenced trading on July 12, 2002. The Index is a modified capitalization-weighted index, which is intended to maintain as closely as possible the proportional capitalization distribution of the portfolio of stocks underlying the Index, while limiting the maximum weight of a single stock or group of stocks to a predetermined maximum (normally 25% for a single stock, and 50% to 60% or more for the top five or an aggregation of all stocks weighing 5% or more). This rebalancing is accomplished by occasional artificial reductions to the capitalization of higher weighted stocks and redistributions of the weight thereof to lower weighted stocks. The net result is a weight distribution that is less skewed toward the larger stocks, but still does not approach equal weighting. The total capitalization of the portfolio remains the same. As of September 2, 2005, the following is a list of companies included in the Index, ticker symbols and respective weightings:

Company	Ticker Symbol	Weighting	Company	Ticker Symbol	Weighting
American Standard Companies Inc.	ASD	4.79%	The PMI Group, Inc.	PMI	3.14%
Beazer Homes USA, Inc.	BZH	3.88%	Pulte Homes, Inc.	PHM	5.56%
Centex Corporation	CTX	4.29%	Radian Group Inc.	RDN	2.40%
Champion Enterprises, Inc.	CHB	3.30%	The Ryland Group, Inc.	RYL	3.60%
D.R. Horton, Inc.	DHI	5.71%	Standard Pacific Corp.	SPF	4.53%
Hovnanian Enterprises, Inc.	HOV	7.92%	Temple-Inland, Inc.	TIN	3.53%
KB Home	KBH	4.52%	Toll Brothers, Inc.	TOL	7.15%
Lennar Corporation	LEN	5.05%	USG Corporation	USG	5.13%
Masco Corporation	MAS	6.59%	Vulcan Materials Company	VMC	3.59%
M.D.C. Holdings, Inc.	MDC	4.04%	Weyerhaeuser Company	WY	8.44%
OfficeMax Incorporated	OMX	2.84%			

The Index is rebalanced at least semi-annually, for implementation at the end of each January and July option expiration, if the modified capitalization of a single component or group of components exceeds the concentration thresholds discussed above as of the last trading day of the previous month. This rebalancing is based on the actual market capitalizations of the component stocks, as determined by actual share amounts and closing prices on the last trading day of the previous month. The modified share value for each stock underlying the Index remains fixed between rebalancings, except in the event of certain types of corporate actions, such as stock splits, mergers, acquisitions, stock repurchases or any similar event with respect to a stock underlying the Index, that results in a change in share value greater than 5%. When the Index is adjusted between rebalancings for these events, the modified share amount of the relevant underlying stock comprising the Index is adjusted, to the nearest whole share, to maintain the underlying stock's relative weight in the Index immediately prior to the corporate

action. In connection with any adjustments to the Index, the Index divisor may be adjusted to ensure that there are no changes to the level of the Index as a result of non-market forces.

Historical Data on the Index

Historical data on the Index is limited. Since its inception, the Index has experienced significant fluctuations. Any historical upward or downward trend in the value of the Index during any period shown in the following table is not an indication that the value of the Index is more or less likely to increase or decrease at any time during the term of the Notes. The historical data on the Index during any period shown in the following table is not an indication of future performance of the Index.

The following table sets forth the value of the Index at the end of each month during the period from July 2002 through August 2005. We obtained the Index Closing Levels listed below from public sources and believe such information to be accurate. This historical data on the Index is not necessarily indicative of the future performance of the Index or what the value of the Notes may be. The actual price performance of the Index over the life of the Notes may bear little relation to the historical terms shown below.

	<u>2002</u>	<u>2003</u>	<u>2004</u>	<u>2005</u>
January		220.07	353.37	468.61
February		218.78	384.54	503.97
March		214.95	400.65	478.54
April		246.03	366.93	465.67
May		278.09	371.69	505.19
June		280.84	381.29	532.08
July	249.47	284.21	366.43	575.56
August	244.75	301.46	382.44	542.06
September	211.47	305.46	407.98	
October	219.08	351.34	395.47	
November	233.44	361.85	418.94	
December	224.77	366.37	469.32	

PS-24

Edgar Filing: BEAR STEARNS COMPANIES INC - Form 424B5

The following graph sets forth the historical performance of the Index presented in the preceding table. Past movements of the Index are not necessarily indicative of the future performance of the Index. On September 2, 2005, the closing level of the Index was 538.82.

Housing Supply and Demand Graphs

Any historical upward or downward trend in the supply or demand in the housing market during any period shown in the following graphs is not an indication that the value of the Index is more or less likely to increase or decrease at any time during the term of the Notes. The historical data during any period shown in the following graphs is not an indication of future performance of the Index. We obtained the data for the graphs below from the U.S. Census Bureau. This historical data is not necessarily indicative of the future performance of the Index, or what the value of the Notes may be. The actual price performance of the Index over the life of the Notes may bear little relation to the historical terms shown below.

The following graph compares the number of new home sales against the rate of home non-ownership. As the rate of non-ownership declines, the pool of potential future demand may

PS-25

diminish. As the number of new homes for sale increases, the supply of available homes for purchases increases. This could potentially lead to disequilibrium in the housing market.

The following graph reflects the ratio of supply (i.e., new homes for sale) divided by a proxy for demand (i.e., home non-ownership rate). Note that this ratio currently stands at a 35-year high.

Edgar Filing: BEAR STEARNS COMPANIES INC - Form 424B5

The graph below depicts the historical levels of the Index, since July 2002 (the earliest data available) to July 2005, as well as the historical levels of U.S. Existing Home Sales Median Price Index (Bloomberg symbol: "ETSLMP Index"). The Index and the U.S. Existing Home Sales Median Price Index have been scaled to originate at 100 in July 2002. The U.S. Existing Sales Median Price Index is published by the National Association of REALTORS®. Any historical upward or downward trend in the Index or the U.S. Existing Home Sales Median Price Index during any period shown in the following graph is not an indication that the value of each respective index is more or less likely to increase or decrease at any time during the term of the Notes. The historical data during any period shown in the following graph is not an indication of future performance.

PS-27

License Agreement

We have entered into a non-exclusive license agreement with PHLX providing for the license to us and certain of our affiliated or subsidiary companies, in exchange for a fee, of the right to use the Index, which is owned and published by PHLX, in connection with certain securities, including the Notes.

The license agreement between PHLX and us provides that the following language must be set forth in this pricing supplement.

"PHLX Housing SectorSM Index (HGX) ("Index") is not sponsored, endorsed, sold or promoted by Philadelphia Stock Exchange, Inc. ("PHLX"). PHLX makes no representation or warranty, express or implied, to the owners of the Index or any member of the public regarding the advisability of investing in securities generally or in the Index particularly or the ability of the Index to track market performance. PHLX's only relationship to Licensee is the licensing of certain names and marks and of the Index, which is determined, composed and calculated without regard to us. PHLX has no obligation to take our needs or the owners of the Index into consideration in determining, composing or calculating the Index. PHLX is not responsible for and has not participated in any determination or calculation made with respect to the issuance or redemption of the Index. PHLX has no obligation or liability in connection with the administration, purchase, sale, marketing, promotion or trading of the Index.

PHLX DOES NOT GUARANTEE THE ACCURACY AND/OR THE COMPLETENESS OF THE PHLX HOUSING SECTORSM INDEX (HGX) ("INDEX") OR ANY DATA INCLUDED THEREIN. PHLX MAKES NO WARRANTY, EXPRESS OR IMPLIED, AS TO RESULTS TO BE OBTAINED BY US, OWNERS OF THE INDEX, OR ANY OTHER PERSON OR ENTITY FROM THE USE OF THE INDEX OR ANY DATA INCLUDED THEREIN IN CONNECTION WITH THE RIGHTS LICENSED HEREUNDER OR FOR ANY OTHER USE. PHLX MAKES NO EXPRESS OR IMPLIED WARRANTIES, AND HEREBY EXPRESSLY DISCLAIMS ALL WARRANTIES OF MERCHANTABILITY OR FITNESS FOR A PARTICULAR PURPOSE WITH RESPECT TO THE INDEX OR ANY DATA INCLUDED THEREIN. WITHOUT LIMITING ANY OF THE FOREGOING, IN NO EVENT SHALL PHLX HAVE ANY LIABILITY FOR ANY SPECIAL, PUNITIVE, INDIRECT, OR CONSEQUENTIAL DAMAGES (INCLUDING LOST PROFITS), EVEN IF NOTIFIED OF THE POSSIBILITY OF SUCH DAMAGES."

"PHLX Housing Sector IndexSM" and "HGXSM" are service marks of PHLX. PHLX has no relationship to us other than the licensing of the Index and its service marks for use in connection with the Notes.

CERTAIN U.S. FEDERAL INCOME TAX CONSIDERATIONS

The following discussion summarizes certain U.S. federal income tax consequences of the purchase, beneficial ownership and disposition of Notes. Except as provided below under "Federal Income Tax Treatment of Non-U.S. Holders," this summary deals only with a beneficial owner of a Note that is:

an individual who is a citizen or resident of the United States for U.S. federal income tax purposes;

a corporation (or other entity that is treated as a corporation for U.S. federal tax purposes) that is created or organized in or under the laws of the United States or any State thereof (including the District of Columbia);

an estate whose income is subject to U.S. federal income taxation regardless of its source; or

a trust if a court within the United States is able to exercise primary supervision over its administration, and one or more United States persons have the authority to control all of its substantial decisions (each, a "U.S. Holder").

An individual may, subject to certain exceptions, be deemed to be a resident of the United States for U.S. federal income tax purposes by reason of being present in the United States for at least 31 days in the calendar year and for an aggregate of at least 183 days during a three-year period ending in the current calendar year (counting for such purposes all of the days present in the current year, one-third of the days present in the immediately preceding year, and one-sixth of the days present in the second preceding year).

This discussion is based on interpretations of the Internal Revenue Code of 1986, as amended (the "Code"), regulations issued there under, and rulings and decisions currently in effect (or in some cases proposed), all of which are subject to change. Any such change may be applied retroactively and may adversely affect the federal income tax consequences described herein. This summary addresses only U.S. Holders that purchase Notes at initial issuance and beneficially own such Notes as capital assets and not as part of a "straddle," "hedge," "synthetic security" or a "conversion transaction" for federal income tax purposes, or as part of some other integrated investment. This summary does not discuss all of the tax consequences that may be relevant to particular investors or to investors subject to special treatment under the federal income tax laws (such as banks, thrifts, or other financial institutions; insurance companies; securities dealers or brokers, or traders in securities electing mark-to-market treatment; mutual funds or real estate investment trusts; small business investment companies; S corporations; partnerships or other entities treated as partnerships for U.S. federal tax purposes; investors whose functional currency is not the U.S. dollar; certain former citizens or residents of the United States; persons subject to the alternative minimum tax; retirement plans or other tax-exempt entities, or persons holding the Notes in tax-deferred or tax-advantaged accounts; "controlled foreign corporations" or "passive foreign investment companies" for U.S. federal income tax purposes; or investors that report any item of income, gain, expense, loss or deduction in respect of Notes for tax purposes in an amount that differs from the amount reported for book purposes by more than \$10 million), and this summary does not discuss the tax consequences under the laws of any foreign, state or local taxing jurisdictions. This summary also does not address the tax consequences to shareholders, or other equity holders in, or beneficiaries of, a holder, or any state, local or foreign tax consequences of the purchase, ownership or disposition of the Notes. Accordingly, prospective investors are urged to consult their tax advisors with respect to the federal, state and local tax consequences of investing in the Notes, as well as any consequences arising under the laws of any other taxing jurisdiction to which they may be subject.

Prospective holders of the Notes should consult their tax advisors as to the federal, state, local and other tax consequences to them of the purchase, ownership and disposition of the Notes.

Federal Income Tax Treatment of U.S. Holders

Accruals of Original Issue Discount on the Notes

For U.S. federal income tax purposes, the Notes will be treated as "contingent payment debt instruments" ("CPDIs") subject to taxation under the "noncontingent bond method." Under the noncontingent bond method, U.S. Holders of the Notes will accrue OID over the term of the Notes based on the Notes' "comparable yield." As a result, U.S. Holders that employ the cash method of tax accounting will be required to include OID with respect to their Notes in gross income each year even though no cash payments will be made with respect to the Notes until maturity.

In general, the comparable yield of a CPDI is equal to the yield at which its issuer would issue a fixed-rate debt instrument with terms and conditions similar to those of the CPDI, including the level of subordination, term, timing of payments, and general market conditions. If a hedge of the CPDI is available that, if integrated with the CPDI, would produce a synthetic debt instrument with a determinable yield to maturity, the comparable yield will be equal to the yield on the synthetic debt instrument. Alternatively, if such a hedge is not available, but fixed-rate debt instruments of the issuer trade at a price that reflects a spread above a benchmark rate, the comparable yield is the sum of the value of the benchmark rate on the issue date and the spread. Under the noncontingent bond method, the issuer's reasonable determination of a comparable yield is respected and binding on holders of the CPDI.

Based on these factors, we estimate that the comparable yield of the Notes would be an annual rate of approximately 4.30%, compounded annually. Accordingly, U.S. Holders will accrue OID in respect of the Notes at a rate equal to the comparable yield. The amount of OID allocable to each annual accrual period will be the product of the "adjusted issue price" of the Notes at the beginning of each such annual accrual period and the comparable yield. The "adjusted issue price" of the Notes at the beginning of an accrual period will equal the issue price of the Notes, increased by the OID accrued in all prior periods. The amount of OID includible in income of each U.S. Holder for each taxable year will equal the sum of the "daily portions" of the total OID on the Notes allocable to each day during the taxable year in which a U.S. Holder held the Notes, regardless of the U.S. Holder's method of accounting. The daily portion of the OID is determined by allocating to each day in any accrual period a ratable portion of the OID allocable to such accrual period.

Under the noncontingent bond method, the comparable yield of a CPDI is used to construct a projected payment schedule that produces the comparable yield. Under this method, we estimate that the projected payment schedule for the Notes with a principal amount of \$1,000 consists of a projected payment on the maturity date equal to \$1,134.63 in respect of each Note. Based upon the comparable yield and the projected payment amount for the Notes, a U.S. Holder that pays taxes on a calendar year basis and buys a Note with a principal amount of \$1,000 and holds it to maturity will be required to pay taxes on the following amounts of ordinary income from the Note each year: \$9.73 in 2005, \$43.42 in 2006, \$45.29 in 2007 and \$36.19 in 2008. However, for 2008, the amount of ordinary income that a U.S. Holder will be required to pay taxes on from owning a Note may be greater or less than \$36.19, depending upon the payment at maturity. In addition, if the payment at maturity is less than \$1,134.63, a U.S. Holder may have a loss for 2008. Holders should note that these projected payment amounts may vary based upon applicable interest rates and may be higher or lower depending upon market conditions on the date the Notes are issued.

Under the noncontingent bond method, the projected payment schedule is not revised to account for changes in circumstances that occur while the Notes are outstanding.

The comparable yield and the projected payment amount for the Notes are used to determine accruals of OID for tax purposes only, and are not assurances by us or any of our affiliates with respect

to the actual yield or payments on the Notes and do not represent expectations by any such person regarding a Note's yield or the index price return amount.

A U.S. Holder will generally be bound by our determination of the comparable yield and projected payment schedule for the Notes, unless the U.S. Holder determines its own projected payment schedule and comparable yield, explicitly discloses such schedule to the Internal Revenue Service (the "IRS"), and explains to the IRS the reason for preparing its own schedule. We believe that the projected payment schedule and comparable yield for the Notes as set forth above are reasonable and will therefore be respected by the IRS. Our determination, however, is not binding on the IRS, and the IRS could conclude that some other projected payment schedule or comparable yield should be used for the Notes.

Sale, Exchange, Retirement, or Other Disposition of the Notes

If the payment at the maturity of the Notes exceeds the projected payment amount of \$1,134.63, a U.S. Holder will be required to include such excess in income as ordinary interest on the maturity date. Alternatively, if the payment at maturity is less than the projected payment amount, the shortfall will be treated as an offset to any OID otherwise includible in income by the U.S. Holder with respect to the Note. Any loss realized in excess of such amount generally will be treated as a capital loss. Any capital loss recognized by a U.S. Holder will be a long-term capital loss if such U.S. Holder has held such Note for more than one year, and a short-term capital loss in other cases. An individual U.S. Holder generally will be allowed a deduction for any ordinary loss without regard to the two-percent miscellaneous itemized deduction rule of section 67 of the code. The deductibility of capital losses by U.S. Holders is subject to limitations.

When a U.S. Holder sells, exchanges or otherwise disposes of a Note, the U.S. Holder's gain (or loss) on the disposition will equal the difference between the amount received by the U.S. Holder for the Note and the U.S. Holder's adjusted tax basis in the Note. A U.S. Holder's adjusted tax basis in a Note will be equal to the U.S. Holder's original purchase price for the Note, plus any OID accrued by the U.S. Holder. Any gain realized by a U.S. Holder on a disposition will be treated as ordinary interest income. Any loss realized by a U.S. Holder on a disposition will be treated as ordinary loss to the extent of the U.S. Holder's OID inclusions with respect to the Note. Any loss realized in excess of such amount generally will be treated as a capital loss. Any capital loss recognized by a U.S. Holder will be a long-term capital loss if such U.S. Holder has held such Note for more than one year, and a short-term capital loss in other cases. An individual U.S. Holder generally will be allowed a deduction for any ordinary loss without regard to the two-percent miscellaneous itemized deduction rule of section 67 of the code. The deductibility of capital losses by U.S. Holders is subject to limitations.

Federal Income Tax Treatment of Non-U.S. Holders

As used in this discussion, the term "Non-U.S. Holder" means a beneficial owner of a note that is, for U.S. federal income tax purposes:

a nonresident alien individual,

a foreign corporation,

an estate whose income is not subject to U.S. federal income tax on a net income basis, or

a trust if no court within the United States is able to exercise primary jurisdiction over its administration or if no United States persons have the authority to control all of its substantial decisions.

Edgar Filing: BEAR STEARNS COMPANIES INC - Form 424B5

Payments on the notes to Non-U.S. Holders will not be subject to U.S. federal income or withholding tax if the following conditions are satisfied:

the Non-U.S. Holder does not actually or constructively own 10% or more of the total combined voting power of all classes of our stock entitled to vote,

the Non-U.S. Holder is not a controlled foreign corporation for U.S. federal income tax purposes that is related to us through actual or constructive ownership,

the Non-U.S. Holder is not a bank receiving interest on a loan made in the ordinary course of its trade or business,

the Index is actively traded within the meaning of section 871(h)(4)(C)(v)(I) of the Code, and

the payments are not effectively connected with a trade or business conducted by the Non-U.S. Holder in the United States and either (a) the Non-U.S. Holder provides a correct, complete and executed IRS Form W-8BEN, Form W-8EXP or Form W-8IMY (or successor form) with all of the attachments required by the IRS, or (b) the Non-U.S. Holder holds its note through a qualified intermediary (generally a foreign financial institution or clearing organization or a non-U.S. branch or office of a U.S. financial institution or clearing organization that is a party to a withholding agreement with the IRS) which has provided to us an IRS Form W-8IMY stating that it is a qualified intermediary and has received documentation upon which it can rely to treat the payment as made to a foreign person.

We expect that the Index will be treated as actively traded within the meaning of section 871(h)(4)(C)(v)(I). If any of the above conditions are not satisfied, interest (including OID) on the notes will be subject to a 30% withholding tax when paid, unless an income tax treaty reduces or eliminates the tax or the interest is effectively connected with the conduct of a U.S. trade or business and the Non-U.S. Holder provides a correct, complete and executed IRS Form W-8ECI.

In general, gain realized on the sale, exchange or retirement of the notes by a Non-U.S. Holder will not be subject to U.S. federal income tax, unless:

the gain with respect to the notes is effectively connected with a trade or business conducted by the Non-U.S. Holder in the United States, or

the Non-U.S. Holder is a nonresident alien individual who holds the notes as a capital asset and is present in the United States for more than 182 days in the taxable year of the sale and certain other conditions are satisfied.

A note held by an individual who at death is a Non-U.S. Holder will not be includible in the Non-U.S. Holder's gross estate for U.S. federal estate tax purposes if payments on the notes to the Non-U.S. Holder would not have been subject to U.S. federal income or withholding tax at the time of death under the tests described above.

Information Reporting and Backup Withholding

Information reporting will apply to certain payments on a note (including interest and OID) and proceeds of the sale of a note held by a U.S. Holder that is not an exempt recipient (such as a corporation). Backup withholding may apply to payments made to a U.S. Holder if (a) the U.S. Holder has failed to provide its correct taxpayer identification number on IRS Form W-9, (b) we have been notified by the IRS of an underreporting by the U.S. Holder (underreporting generally refers to a determination by the IRS that a payee has failed to include in income on its tax return any reportable dividend and interest payments required to be shown on a tax return for a taxable year), or (c) we have been notified by the IRS that the tax identification number provided to the IRS on an information return does not match IRS records or that the number was not on the information return.

Backup withholding and nonresident alien withholding will not be required with respect to interest paid to Non-U.S. Holders, so long as we have received from the Non-U.S. Holder a correct and complete IRS Form W-8BEN, W-8ECI, W-8EXP or Form W-8IMY with all of the attachments required by the IRS. Interest paid to a Non-U.S. Holder will be reported on IRS Form 1042-S which is filed with the IRS and sent to Non-U.S. Holders.

Information reporting and backup withholding may apply to the proceeds of a sale of a note by a Non-U.S. Holder made within the United States or conducted through certain U.S. related financial intermediaries, unless we receive one of the tax forms described above.

Backup withholding is not an additional tax and may be refunded (or credited against your U.S. federal income tax liability, if any). The information reporting requirements may apply regardless of whether withholding is required. For Non-U.S. Holders, copies of the information returns reporting such interest and withholding also may be made available to the tax authorities in the country in which a Non-U.S. Holder is a resident under the provisions of an applicable income tax treaty or agreement.

The preceding discussion is only a summary of certain of the tax implications of an investment in notes. Prospective investors are urged to consult with their own tax advisors prior to investing to determine the tax implications of such investment in light of each such investor's particular circumstances.

PS-33

CERTAIN ERISA CONSIDERATIONS

Section 4975 of the Internal Revenue Code of 1986, as amended (the "Code"), prohibits the borrowing of money, the sale of property and certain other transactions involving the assets of plans that are qualified under the Code ("Qualified Plans") or individual retirement accounts ("IRAs") and persons who have certain specified relationships to them. Section 406 of the Employee Retirement Income Security Act of 1974, as amended ("ERISA"), prohibits similar transactions involving employee benefit plans that are subject to ERISA ("ERISA Plans"). Qualified Plans, IRAs and ERISA Plans are referred to as "Plans."

Persons who have such specified relationships are referred to as "parties in interest" under ERISA and as "disqualified persons" under the Code. "Parties in interest" and "disqualified persons" encompass a wide range of persons, including any fiduciary (for example, investment manager, trustee or custodian), any person providing services (for example, a broker), the Plan sponsor, an employee organization any of whose members are covered by the Plan, and certain persons related to or affiliated with any of the foregoing.

The purchase and/or holding of the Notes by a Plan with respect to which the Company and/or Wells Fargo is a fiduciary and/or a service provider (or otherwise is a "party in interest" or "disqualified person") would constitute or result in a prohibited transaction under Section 406 of ERISA or Section 4975 of the Code, unless such Notes are acquired or held pursuant to and in accordance with an applicable statutory or administrative exemption. The Company and several of its subsidiaries, such as Bear Stearns, are each considered a "disqualified person" under the Code or "party in interest" under ERISA with respect to many Plans, although the Company is not a "disqualified person" with respect to an IRA simply because the IRA is established with Bear Stearns or because Bear Stearns provides brokerage to the IRA, and neither the Company nor Bear Stearns can be a "party in interest" to any IRA other than certain employer-sponsored IRAs as only employer-sponsored IRAs are covered by ERISA.

Applicable exemptions may include certain prohibited transaction class exemptions (for example, Prohibited Transaction Class Exemption ("PTCE") 84-14 relating to qualified professional asset managers, PTCE 96-23 relating to certain in-house asset managers, PTCE 91-38 relating to bank collective investment funds, PTCE 90-1 relating to insurance company separate accounts and PTCE 95-60 relating to insurance company general accounts. A fiduciary of a Plan purchasing the Notes, or in the case of certain IRAs, the grantor or other person directing the purchase of the Notes for the IRA, shall be deemed to represent that its purchase, holding, and disposition of the Notes will not constitute a prohibited transaction under ERISA or Section 4975 of the Code for which an exemption is not available.

A fiduciary who causes an ERISA Plan to engage in a non-exempt prohibited transaction may be subject to a penalty under ERISA. Code Section 4975 generally imposes an excise tax on disqualified persons who engage, directly or indirectly, in similar types of transactions with the assets of Plans subject to such Section.

In accordance with ERISA's general fiduciary requirement, a fiduciary with respect to any ERISA Plan who is considering the purchase of the Notes on behalf of such plan should determine whether such purchase is permitted under the governing plan document and is prudent and appropriate for the ERISA Plan in view of its overall investment policy and the composition and diversification of its portfolio. Plans established with, or for which services are provided by, the Company and/or Wells Fargo should consult with counsel prior to making any such acquisition.

Certain employee benefit plans, such as governmental plans (as defined in Section 3(32) of ERISA), and, if no election has been made under Section 410(d) of the Code, church plans (as defined in Section 3(33) of ERISA), are not subject to Section 406 of ERISA or Section 4975 of the Code.

However, such plans may be subject to the provisions of applicable federal, state or local law ("Similar Law") materially similar to the foregoing provisions of ERISA or the Code. Fiduciaries of such plans should consider applicable Similar Law when investing in the notes. Each fiduciary of such a plan will be deemed to represent that the plan's acquisition and holding of the notes will not result in a non-exempt violation of applicable Similar Law.

USE OF PROCEEDS AND HEDGING

At closing we will transfer the net proceeds from the sale of the Notes to BSIL, for its general corporate purposes. In addition, BSIL, on or before the date of this pricing supplement, will enable us to hedge our anticipated exposure in connection with the Notes by the purchase and sale of exchange-traded and over-the-counter options on, or other derivative or synthetic instruments related to, the Index, individual stocks included in the Index, futures contracts on the Index and/or options on such futures contracts. At various times after the initial offering and before the maturity of the Notes, depending on market conditions (including the value of the Index), in connection with hedging with respect to the Notes, we expect that BSIL will increase or decrease those initial hedging positions using dynamic hedging techniques and may take long or short positions in the Index, individual stocks included in the Index, listed or over-the-counter options contracts in, or other derivative or synthetic instruments related to, the Index and such individual stocks. In addition, BSIL may periodically purchase or otherwise acquire a long or short position in the Notes and may, in our or its discretion, hold or resell such Notes. BSIL may also take positions in other types of appropriate financial instruments that may become available in the future. If BSIL has a long hedge position in the Index, individual stocks included in the Index or options contracts in, or other derivative or synthetic instruments related to the Index and such underlying stocks, then BSIL may liquidate a portion of its holdings at or about the time of the maturity of the Notes. Depending on, among other things, future market conditions, the total amount and the composition of such positions are likely to vary over time. BSIL will not be able to ascertain our profits or losses from any hedging position until such position is closed out and any offsetting position or positions are taken into account. Although we have no reason to believe that such hedging activity will have a material effect on the price of such options, stocks, futures contracts or options on futures contracts or on the value of the Index, we cannot guarantee that BSIL will not affect such prices or value as a result of its hedging activities. You should also refer to "Use of Proceeds" in the accompanying prospectus.

PS-35

SUPPLEMENTAL PLAN OF DISTRIBUTION

Subject to the terms and conditions set forth in the Distribution Agreement dated as of [September], 2005, and the Terms Agreement, dated [September], 2005, we have agreed to sell to Wells Fargo, as principal, and Wells Fargo has agreed to purchase from us, the aggregate principal amount of Notes set forth opposite its name below.

Agent	Principal Amount of Notes
Wells Fargo Investments, LLC	\$ []
Total	\$ []

In the future, Wells Fargo may repurchase and resell the Notes in market-making transactions, with resales being made at prices related to prevailing market prices at the time of resale or at negotiated prices. We will offer the Notes to Wells Fargo at a discount of [3.00]% of the price at which the Notes are offered to the public.

Payment of the purchase price shall be made in funds that are immediately available in New York City.

Wells Fargo may be deemed to be an "underwriter" within the meaning of the Securities Act. We have agreed to indemnify Wells Fargo against or to make contributions relating to certain civil liabilities, including liabilities under the Securities Act.

The Notes are a new issue of securities with no established trading market. The Notes will not be listed on any securities exchange; and we do not expect a trading market to develop. Wells Fargo has advised us that, following completion of the offering of the Notes, it intends under ordinary market conditions, to indicate prices for the Notes on request, although it is under no obligation to do so and may discontinue any market-making activities at any time without notice. Accordingly, no guarantees can be given as to whether an active trading market for the Notes will develop or, if such a trading market develops, as to the liquidity of such trading market. We cannot guarantee that bids for outstanding Notes will be made in the future; nor can we predict the price at which any such bids will be made. The Notes will cease trading as of the close of business on the Maturity Date.

LEGAL MATTERS

The validity of the Notes will be passed upon for us by Cadwalader, Wickersham & Taft LLP, New York, New York.

PROSPECTUS SUPPLEMENT
(To Prospectus Dated February 2, 2005)

\$12,410,781,162

The Bear Stearns Companies Inc.
Medium-Term Notes, Series B

Set forth below is a summary of the terms of the notes offered by this prospectus supplement and the accompanying prospectus. For more detail, see "Description of Notes."

- Interest

The notes have a fixed or floating interest rate. The floating interest rate formula will be based on:

- Commercial Paper Rate;
- LIBOR;
- Federal Funds Rate;
- Treasury Rate;
- Prime Rate;
- CMT Rate; or
- Another interest rate formula.

- Index Notes

The principal, interest or other amounts payable on the notes, if any, may be based on one or more indices or other formulas.

- Maturity

The notes will mature in 9 months or more.

- Ranking

The notes will be our unsecured senior debt and will rank equally with all of our other unsecured and unsubordinated debt.

- Sinking Fund

The notes will not be subject to a sinking fund unless otherwise set forth in the applicable pricing supplement.

- Interest Payment Dates

Interest on fixed rate notes will be paid semi-annually or otherwise on the dates set forth in the applicable pricing supplement. Interest on floating rate notes or index notes will be paid monthly, quarterly, semiannually, annually or as otherwise set forth in the applicable pricing supplement.

- Redemption and Repurchase

The notes may be subject to:

- redemption, at our option; and
- repayment, at your option.

- **Book-Entry Notes**

The notes will be issued in book-entry form unless otherwise set forth in the applicable pricing supplement.

- **Denominations**

The notes will be issued in minimum denominations of \$25,000 (or the specified currency equivalent), increased in multiples of \$1,000 (or the specified currency equivalent), unless otherwise set forth in the applicable pricing supplement.

INVESTMENT IN THE NOTES INVOLVES CERTAIN RISKS. SEE "RISK FACTORS" BEGINNING ON PAGE S-3 OF THIS PROSPECTUS SUPPLEMENT.

Neither the Securities and Exchange Commission nor any state securities commission has approved or disapproved of these securities or passed upon the adequacy or accuracy of this prospectus supplement or the accompanying prospectus. Any representation to the contrary is a criminal offense.

	Per Note		Total(4)	
Initial public offering price(1)	100%		\$12,410,781,162	
Agents' discounts and commission(2)	0.125%	0.750%	\$15,513,476	93,080,859
Our proceeds, before expenses(3)	99.250%	99.875%	\$12,317,700,303	12,395,267,686

(1) We will issue the notes at 100% of their principal amount, unless otherwise set forth in the applicable pricing supplement.

(2) We will pay a commission to each agent, in the form of a discount, ranging from .125% to .750% of the price to the public of any note, depending on maturity, when that agent places such note. Any agent may agree with us, in respect of the sale of a note, to accept a commission other than one based on maturity, provided that the maximum commission will not be greater than 8%. We may sell notes to any agent as principal either at a discount or at 100% of their principal amount, for resale at negotiated prices to be determined by that agent at the time of resale. See "Supplemental Plan of Distribution." We have agreed to indemnify each agent against certain liabilities, including liabilities under the Securities Act of 1933, as amended.

(3) Before deduction of expenses payable by us, estimated at \$700,000.

(4) In US dollars or their equivalent in one or more foreign or composite currencies.

Bear, Stearns & Co. Inc.

February 2, 2005

We are offering the notes on a continuing basis through Bear, Stearns & Co. Inc., and any other agent we may designate. Each agent has agreed to use its reasonable best efforts to solicit purchases of the notes. We have reserved the right to sell notes directly on our own behalf. We will not list the notes on any securities exchange, and we cannot assure you that the notes offered by this prospectus supplement will be sold or that there will be a secondary market for them. We reserve the right to withdraw, cancel or modify the offer made by this prospectus supplement without giving notice. We may reject any offer in whole or in part.

Each agent may use this prospectus supplement in connection with offers and sales associated with market-making transactions in the notes. Each agent may act as principal or agent in the market-making transactions. The offers and sales will be made at prices that relate to prevailing prices at the time.

You must read this prospectus supplement and the accompanying prospectus together with all the documents which are deemed to be incorporated in this prospectus supplement and the accompanying prospectus by reference (see "Where You Can Find More Information" in the accompanying prospectus). This prospectus supplement and the accompanying prospectus must be read and construed on the basis that the incorporated documents are so incorporated and form part of this document, except as specified in this document.

We have not authorized any person to give any information or represent anything not contained in this prospectus supplement and the accompanying prospectus. You must not rely on any unauthorized information.

RISK FACTORS

Your investment in the notes involves risk. In consultation with your financial and legal advisers, you should carefully consider the following risks and the other information included or incorporated by reference in the applicable pricing supplement, this prospectus supplement and the accompanying prospectus, including the information under "Where You Can Find More Information" on page 3 of the accompanying prospectus, before deciding that an investment in the notes is suitable for you. You should not purchase the notes unless you understand and can bear the investment risks of the notes.

There may not be any Trading Market for Your Notes; Many Factors Affect the Trading Market and Value of Your Notes.

Upon issuance, the notes will not have an established trading market. We cannot assure you a trading market for the notes will ever develop or, if one develops, that it will be maintained. If you wish to liquidate your investment in the notes prior to maturity, selling your notes may be your only option. At that time, there may be an illiquid market for the notes or no market at all. In addition to our own creditworthiness, many other factors may affect the trading market value of, and trading market for, your notes. These factors include:

the rate of interest, if any, on your notes;

the complexity and volatility of the index or formula applicable to your notes;

the method of calculating the principal, or any premium, interest or other amounts payable in respect of your notes;

the time remaining to the maturity of your notes;

the total outstanding amount of any particular issuance of notes or of our notes in total;

any redemption or repayment features of your notes;

the amount of any other securities linked to your notes; and

the level, direction and volatility of market interest rates generally.

We expect that changes in interest rates will affect the trading value of the notes. In general, if US interest rates increase, we expect that the trading value of the notes will decrease and, conversely, if US interest rates decrease, we expect that the trading value of the notes will increase.

In addition, notes that are designed for specific investment objectives or strategies often experience a more limited trading market and more price volatility. There may be a limited number of buyers when you decide to sell your notes. This may affect the price you receive for your notes or your ability to sell your notes at all. You should not purchase notes unless you understand and know you can bear all of the investment risks related to your notes.

The Notes are not Insured Against Loss by any Third Party; You can only Depend on our Earnings and Assets for Payment of Principal and Interest on the Notes.

The notes will be solely our obligations, and no other entity will have any obligation, contingent or otherwise, to make any payments in respect of the notes.

In addition, because we are a holding company whose primary assets consist of shares of stock or other equity interests in our subsidiaries, almost all of our income is derived from those subsidiaries. Our subsidiaries will have no obligation to pay any amount in respect of the notes or to make any funds available for payment of the notes. Accordingly, we will be dependent on dividends and other

distributions or loans from our subsidiaries to generate the funds necessary to meet our obligations with respect to the notes, including the payment of principal and interest. The notes will also be effectively subordinated to the claims of creditors of our subsidiaries with respect to their assets.

If funds from dividends, other distributions or loans from our subsidiaries are not adequate, we may be unable to make payments of principal or interest in respect of the notes and you could lose all or a part of your investment.

At August 31, 2004:

we had outstanding (on an unconsolidated basis) approximately \$40.0 billion of debt and other obligations, including approximately \$36.2 billion of unsecured senior debt and \$3.4 billion of unsecured inter-company debt; and

our subsidiaries had outstanding (after elimination of inter-company items) approximately \$192.6 billion of debt and other obligations (including \$55.8 billion related to securities sold under repurchase agreements, \$75.0 billion related to payables to customers, \$28.0 billion related to financial instruments sold, but not yet purchased, and \$33.8 billion of other liabilities, including \$17.4 billion of debt).

If the Notes are Redeemable, We may Redeem such Notes when Prevailing Interest Rates are Relatively Low.

If the pricing supplement for your notes provides that the notes are redeemable at our option, we may choose to redeem the notes on or after the date indicated in the pricing supplement. If the pricing supplement provides that the notes are subject to mandatory redemption or are otherwise repayable at the option of the holder, we also may be required to redeem the notes upon the occurrence of certain events or at a certain date. In the event that prevailing interest rates are relatively low when we choose or are required to redeem the notes, you may not be able to reinvest the redemption proceeds in a comparable security with a yield as high as that on the notes being redeemed. Our ability to redeem the notes before the maturity date may affect the market value of the notes at any time when potential purchasers believe we are likely to redeem notes.

If the Notes you Purchase are Floating Rate Notes, you may Receive a Lesser Amount of Interest in the Future.

Because the interest rate on floating rate notes will be indexed to an external interest rate or index that may vary from time to time, there will be significant risks not associated with a conventional fixed rate debt security. These risks include fluctuation of the applicable interest rate and the possibility that, in the future, you will receive a lesser amount of interest. We have no control over a number of matters that may affect interest rates, including economic, financial and political events that are important in determining the existence, magnitude and longevity of these risks and their results. In recent years, interest rates have been volatile, and volatility may be expected in the future. However, past experience is not necessarily indicative of what may occur in the future.

If the Floating Rate Notes you Purchase are Subject to a Maximum Interest Rate, Your Return will be Limited.

If the applicable pricing supplement specifies that your floating rate notes are subject to a maximum interest rate, the rate of interest that will accrue on the floating rate notes during any interest reset period will never exceed the specified maximum interest rate. Conversely, although the applicable rate of interest will always be greater than zero for floating rate notes, unless a minimum interest rate

is specified in the applicable pricing supplement, we cannot assure you that the interest rate you receive in the future will not decrease.

Holders of Indexed Notes are Subject to Important Risks that are not Associated with More Conventional Debt Securities.

If you invest in indexed notes, you will be subject to significant risks not associated with conventional fixed-rate or floating-rate debt securities. These risks include the possibility that the particular index or indices may be subject to fluctuations, and the possibility that an investor will receive a lower, or no, amount of principal, premium, or interest, and at different times than expected. In recent years, interest rates and indices have been volatile, and this volatility may be expected in the future. However, past experience is not necessarily indicative of what may occur in the future. We have no control over a number of matters, including economic, financial, and political events, that are important in determining the existence, magnitude, and longevity of these risks and their impact on the value of, or payments made on, the indexed notes. Some of the additional risks that you should consider in connection with an investment in indexed notes are as follows:

You may lose some or all of your principal. The principal amount of an indexed note may or may not be fully "principal protected." This means that the principal amount you will receive at maturity may be less than the original purchase price of the indexed note. It also is possible that principal will not be repaid.

Your yield may be less than the yield on a conventional debt security of comparable maturity. Any yield on your investment in an indexed note (whether or not the principal amount is indexed) may be less than the overall return you would earn if you purchased a conventional debt security at the same time and with the same maturity date.

The existence of a multiplier or leverage factor may result in the loss of your principal and interest. Some indexed notes may have interest and principal payments that increase or decrease at a rate greater than the rate of a favorable or unfavorable movement in the indexed item. This is referred to as a multiplier or leverage factor. A multiplier or leverage factor in a principal or interest index will increase the risk that no principal or interest will be paid.

Payment on the indexed note prior to maturity may result in a reduced return on your investment. The terms of an indexed note may require that the indexed note be paid prior to its scheduled maturity date. That early payment could reduce your anticipated return. In addition, you may not be able to invest the funds you receive in a new investment that yields a similar return.

The United States federal income tax consequences of the indexed notes are uncertain. No statutory, judicial, or administrative authority directly addresses the characterization of the indexed notes or securities similar to the indexed notes for United States federal income tax purposes. As a result, significant United States federal income tax consequences of an investment in the indexed notes are not certain. We are not requesting a ruling from the Internal Revenue Service (the "IRS") for any of the indexed notes and we give no assurance that the IRS will agree with the statements made in this prospectus supplement or in the pricing supplement applicable to those notes.

Your investment return may be less than a comparable direct investment in the stocks included in an index or in a fund that invests in those stocks. A direct investment in the stocks included in an index or in a fund that invests in those stocks would allow you to receive the full benefit of any appreciation in the price of the shares, as well as in any dividends paid by those shares. Indexed notes may not offer these benefits.

Hedging Activities may Affect Your Return at Maturity and the Market Value of the Notes.

Hedging activities also may affect trading in the notes. We and our affiliates may from time to time engage in hedging activities in connection with an offering of the notes. This hedging activity may affect the value of the notes in a manner that would be adverse to your investment in the notes. In addition, we or our affiliates may acquire a long or short position in the notes from time to time. In the case of indexed notes, we or our affiliates may engage in hedging activity related to the indexed notes or to a component of the index or formula applicable to the indexed notes. All or a portion of these positions may be liquidated at or about the time of the maturity date of the notes. The aggregate amount and the composition of these positions are likely to vary over time. We have no reason to believe that any of our activities will have a material effect on the notes. However, we cannot assure you that our activities or the activities of our affiliates will not affect the prices at which you may sell your notes.

Changes in Our Credit Ratings are Expected to Affect the Value of the Notes.

Our credit ratings are an assessment of our ability to pay our obligations. Consequently, actual or anticipated changes in our credit ratings, as well as our financial condition or results of operations may significantly affect the trading value of the notes. However, because the return on the notes depends upon factors in addition to our ability to pay our obligations, an improvement in our credit ratings, financial condition or results of operations will not reduce the other investment risks related to the notes.

Changes in Exchange Rates and Exchange Controls Could Result in a Substantial Loss to You.

An investment in notes that are denominated in a specified currency other than US dollars, or the principal, premium and/or any interest of which are determined by reference to a currency or currency index or indices, entails significant risks that are not associated with a similar investment in a security denominated in US dollars. Risks include, without limitation, the possibility of significant changes in rates of exchange between the US dollar and the various foreign currencies or composite currencies and the possibility of the imposition or modification of foreign exchange controls by either the United States or foreign governments. These risks generally depend on factors over which we have no control, such as economic and political events or the supply of and demand for the relevant currencies. In recent years, rates of exchange between the US dollar and certain foreign currencies have been highly volatile and such volatility may be expected in the future. Fluctuations in any particular exchange rate that have occurred in the past are not necessarily indicative, however, of fluctuations in the rate that may occur during the term of any note. Depreciation of a specified currency other than US dollars against the US dollar could result in a decrease in the effective yield of the note below its coupon rate, and in certain circumstances could result in a loss to the investor on a US dollar basis.

Governments have imposed, and may in the future impose, exchange controls that could affect exchange rates as well as the availability of a specified foreign currency for making payments with respect to a note. There can be no assurance that exchange controls will not restrict or prohibit payments in any such currency or currency unit. Even if there are no actual exchange controls, it is possible that the specified currency for any particular note would not be available to make payments when due. In that event, we will repay such note in US dollars on the basis of the most recently available exchange rate. See "Description of Notes Payment of Principal and Interest."

The Unavailability of Currencies Could Result in a Substantial Loss to You.

Currently, there are limited facilities in the United States for currency conversion between US dollars and foreign currencies. In addition, banks do not offer non-US dollar denominated checking or

savings account facilities in the United States. Accordingly, payments on notes made in a specified currency other than US dollars will be made from an account with a bank located in the country issuing the specified currency. As a result, you may have difficulty or be unable to convert such specified currencies into US dollars on a timely basis or at all. See "Description of Notes Payment of Principal and Interest." Unless otherwise specified in the applicable pricing supplement, notes denominated in a specified currency other than US dollars will not be sold in, or to residents of, the country issuing the specified currency in which particular notes are denominated.

Judgments in a Foreign Currency Could Result in a Substantial Loss to You.

The notes will be governed by and construed in accordance with the laws of the State of New York. If an action based on the notes were commenced in a court in the United States, it is likely that such court would grant judgment relating to the notes only in US dollars. It is not clear, however, whether in granting such judgment, the rate of conversion into US dollars would be determined with reference to the date of default, the date judgment is rendered or some other date. New York statutory law provides, however, that a court shall render a judgment or decree in the foreign currency of the underlying obligation and that the judgment or decree shall be converted into US dollars at the exchange rate prevailing on the date of entry of the judgment. Therefore, the exchange rate on the date of the judgment could be more favorable than the exchange rate on the date that the judgment is paid.

Please note, this prospectus supplement, the attached prospectus and the applicable pricing supplement do not describe all the risks of an investment in notes denominated in a specified currency other than US dollars, or the principal of or the premium and/or any interest on which are determined by reference to a currency, currency index or indices, equity index or indices or other formula or measure. You should consult your own financial and legal advisors as to the risks entailed by an investment in notes denominated in a specified currency other than US dollars, or as to which the principal, premium and/or any interest is determined by reference to a currency, currency index or indices, equity index or indices or other formula or measure. These notes are not an appropriate investment for investors who are unsophisticated with respect to foreign currency, equity linked or indexed transactions.

Except as set forth under "Certain US Federal Income Tax Considerations," the information set forth in this prospectus supplement is directed to prospective purchasers who are US residents, and we disclaim any responsibility to advise prospective purchasers who are residents of countries other than the United States with respect to any matters that may affect the purchase, holding or receipt of payments of principal (and premium, if any) and any interest with respect to the notes. These persons should consult their own financial and legal advisors with regard to such matters.

PRICING SUPPLEMENT

The pricing supplement for each offering of notes will contain the specific information and terms for that offering. The pricing supplement may also add, update or change information contained in this prospectus supplement and the prospectus. If any information in the pricing supplement, including any changes in the method of calculating interest on any note, is inconsistent with this prospectus supplement, you should rely on the information in the pricing supplement. It is important that you consider all of the information in the pricing supplement, this prospectus supplement and the prospectus when making your investment decision.

DESCRIPTION OF NOTES

General

The following terms apply to each note unless otherwise specified in the applicable pricing supplement and the note. The applicable pricing supplement will describe the terms for the notes, including:

interest rate;

index or other formulas on which principal, interest or other amounts payable may be based;

remarketing provisions;

our right to redeem notes;

your right to tender notes you have purchased; and

any other provisions.

We will issue notes under an indenture, dated as of May 31, 1991, as amended, between us and JPMorgan Chase Bank, N.A. (formerly, The Chase Manhattan Bank), as Trustee, that is more fully described in the accompanying prospectus. The notes are part of a single series of our debt securities that are issuable under the indenture. For a description of the rights attaching to the debt securities under the indenture, see "Description of Debt Securities" in the accompanying prospectus. This description and the description under "Description of Debt Securities" in the accompanying prospectus are summaries and do not restate the indenture. We urge you to read the indenture and its supplements which we have filed with the SEC because they, and not this description or the one in the accompanying prospectus, define your rights as a holder of notes. See "Where You Can Find More Information" in the accompanying prospectus on how to locate the indenture and its supplements.

The notes are limited in amount as described on the cover page of this prospectus supplement, less an amount equal to the aggregate initial public offering price of any other securities we may issue in the future, including any other series of medium-term notes. We may increase this limit if we wish to sell additional notes in the future. Under the indenture, we may issue debt securities over the amount authorized on the date of this prospectus supplement without obtaining your consent or the consent of holders of other debt securities. Each series of notes or other debt securities may differ as to their terms. For current information on our outstanding debt, see our most recent Forms 10-K and 10-Q. See "Where You Can Find More Information" in the accompanying prospectus.

We will offer the notes on a continuous basis at various times. The notes will mature at face value nine months or more from the date they are issued and before maturity may be subject to redemption at our option or repayment at your option, as specified in the applicable pricing supplement. Each note will be denominated in either US dollars or in another currency that will be specified both on the face of the note and in the applicable pricing supplement.

You will be required to pay for any notes you purchase by delivery of the requisite amount of the specified currency to an agent, unless other arrangements have been made. Payments should be made in the specified currency in the country issuing the specified currency, provided that, at your election and, in certain circumstances, at our option, payments on notes denominated in other than US dollars may be made in US dollars. See "Risk Factors The Unavailability of Currencies Could Result in a Substantial Loss to You" and "Payment of Principal and Interest."

US dollar-denominated notes will be issued in minimum denominations of \$25,000, increased in multiples of \$1,000. Non-US dollar-denominated notes will be issued in the amount of the specified currency equal to US \$25,000 or any integral multiple of the equivalent of US \$1,000, as determined by reference to the noon buying rate in New York City for cable transfers in that specified currency as

certified for customs purposes by the Federal Reserve Bank of New York for that specified currency on the Business Day before the date of issuance or, if that exchange rate is not available, then on the basis of the most recently available exchange rate for the specified currency. We may specify other authorized denominations in the applicable pricing supplement.

We may issue the notes as currency indexed notes, the principal amount of which is payable at or before maturity and any interest on which and any premium or other amounts payable with respect to which will be determined by the difference between the currency in which the notes are denominated and another currency or composite currency or by reference to any other currency index or indices, as set forth in the applicable pricing supplement. See "Currency Indexed Notes."

We may also issue the notes as indexed notes, the principal amount of which is payable at or before maturity and any interest on which and any premium or other amounts payable with respect to which will be determined by reference to the price or performance of one or more specified securities, commodities or indices on certain specified dates, or by some other financial, economic or other measures or instruments. See "Other Indexed Notes."

The notes are unsecured and will rank equally with all of our unsecured and unsubordinated debt, including the other debt securities issued under the indenture. Because we are a holding company, the notes will be effectively subordinated to the claims of creditors of our subsidiaries with respect to their assets. At August 31, 2004:

we had outstanding (on an unconsolidated basis) approximately \$40.0 billion of debt and other obligations, including approximately \$36.2 billion of unsecured senior debt and \$3.4 billion of unsecured inter-company debt; and

our subsidiaries had outstanding (after elimination of inter-company items) approximately \$192.6 billion of debt and other obligations (including \$55.8 billion related to securities sold under repurchase agreements, \$75.0 billion related to payables to customers, \$28.0 billion related to financial instruments sold, but not yet purchased, and \$33.8 billion of other liabilities, including \$17.4 billion of debt).

The notes will not have a sinking fund unless otherwise specified in the pricing supplement.

Unless otherwise set forth in the applicable pricing supplement, each note will be issued in "book-entry" form represented by a permanent global security registered in the name of The Depository Trust Company or its nominee. As long as DTC or its nominee is the registered owner of a global security, DTC or its nominee will be considered the sole owner or holder of the book-entry note(s) represented by that global security under the indenture. See "Book-Entry Procedures and Settlement" in the accompanying prospectus.

We may issue the notes as exchangeable notes that are exchangeable at your option for:

the securities, or cash representing the value of securities, of an entity unaffiliated with us;

a basket of these securities;

an index or indices of these securities; or

any combination of the above options, as is described in the applicable pricing supplement.

Exchangeable notes may bear interest or be issued with original issue discount or at a premium, all as specified in the applicable pricing supplement. See "Exchangeable Notes."

Under the terms of the indenture, we may defease the notes. See "Description of Debt Securities Defeasance" in the accompanying prospectus.

In the following discussion, any time we refer to paying principal on the notes, we mean at maturity or upon redemption or repayment. All times are New York City time unless otherwise noted. The following terms may apply to each note as specified in the applicable pricing supplement. We have provided the definitions of certain capitalized terms used in this prospectus supplement in the Glossary.

Possible Principal Protection

The applicable pricing supplement will detail whether your principal investment in the notes is (1) fully guaranteed and thus protected, (2) possibly protected or (3) not protected.

Principal protected means that, if held to maturity, your principal investment in the notes is guaranteed and will not be at risk of loss. At maturity, you will receive at least the principal amount of the notes.

Possible principal protection means that only under certain circumstances will your principal investment in the notes be guaranteed. If, and only if, the specific circumstances in the applicable pricing supplement are met and if the notes are held to maturity, your principal investment in the notes is guaranteed and will not be at risk of loss. If the specific circumstances in the applicable pricing supplement are not met, then your investment may result in a loss as there is no guaranteed return of principal.

If your principal investment is not principal protected, then there is no fixed repayment amount of principal at maturity. Your investment may result in a loss as there is no guaranteed return of principal, and at maturity, the amount you receive may be less than the original purchase price of the notes.

Interest Rate

General

We have provided a Glossary at the end of this prospectus supplement to define certain capitalized words used in discussing the interest rate payable on the notes.

The interest rate on the notes will be either fixed or floating. The interest paid will include interest accrued from the date of original issue to, but excluding, the relevant interest payment date, maturity date, redemption date or repayment date and will be payable on each interest payment date and upon maturity, redemption or repayment. Interest will be paid to the person in whose name the note is registered at the close of business on the record date before each interest payment date, which in the case of global securities representing book-entry notes will be the depository or its nominee. However, interest payable upon maturity, redemption or repayment will be payable to the person to whom principal is payable, which in the case of global securities representing book-entry notes will be the depository or its nominee. The first interest payment on any note issued between a record date and an interest payment date will be made on the interest payment date after the next record date.

Fixed Rate Notes

The applicable pricing supplement will designate the fixed rate of interest payable on a fixed rate note. The fixed rate of interest may be zero in the case of a fixed rate note issued with original issue discount. Each fixed rate note will bear interest from its date of original issue at the rate per year stated on its face until the principal is paid or made available for payment. Interest will be paid semiannually or otherwise on the dates specified in the applicable pricing supplement and at maturity, or on redemption or optional repayment.

Edgar Filing: BEAR STEARNS COMPANIES INC - Form 424B5

The record dates for fixed rate notes will be 15 calendar days before the interest payment date, whether or not that date is a Business Day, unless otherwise specified in the applicable pricing supplement. Interest will be computed using a 360-day year of twelve 30-day months. In the event that any interest payment date, maturity date, redemption date or repayment date of a fixed rate note is not a Business Day, the related payment of principal, premium, if any, or interest will be made on the next succeeding Business Day and, unless otherwise specified by the applicable pricing supplement, no interest shall accrue for the period from and after that interest payment date, maturity date, redemption date or repayment date, as the case may be, to the next Business Day.

Floating Rate Notes

General

The interest rate on a floating rate note will be calculated by reference to the specified interest rate formula, plus or minus a spread, if any, as specified in the applicable pricing supplement. The spread is the number of basis points specified in the applicable pricing supplement as applicable to the interest rate for the floating rate note and may be a fixed amount or an amount that increases or decreases over time. The formula may be based on any of the following rates:

the Commercial Paper Rate;

LIBOR;

the Federal Funds Rate;

the Treasury Rate;

the Prime Rate;

the CMT Rate; or

another interest rate formula.

In addition to any spread, the applicable pricing supplement will also indicate any applicable maximum or minimum interest rate limitations.

The applicable pricing supplement also will define or specify the following terms, if applicable:

Calculation Date;

initial interest rate;

interest payment period;

interest payment dates;

record date;

Index Maturity;

Edgar Filing: BEAR STEARNS COMPANIES INC - Form 424B5

Interest Determination Date;

Interest Reset Period;

Interest Reset Date; and

sinking fund, if any.

S-11

Edgar Filing: BEAR STEARNS COMPANIES INC - Form 424B5

On your request, the Calculation Agent will provide you with the current interest rate and the interest rate which will become effective on the next interest reset date. See " *How Interest Is Calculated.*"

Date Interest Rate Changes

The interest rate on floating rate notes may be reset daily, weekly, monthly, quarterly, semiannually or annually, as provided in the applicable pricing supplement. Unless otherwise set forth in the applicable pricing supplement, the Interest Reset Date will be:

for notes which reset daily, each Business Day;

for notes (other than Treasury Rate notes) which reset weekly, the Wednesday of each week;

for Treasury Rate notes which reset weekly, the Tuesday of each week;

for notes which reset monthly, the third Wednesday of each month;

for notes which reset quarterly, the third Wednesday of March, June, September and December;

for notes which reset semiannually, the third Wednesday of the two months specified in the note and/or the applicable pricing supplement; and

for notes which reset annually, the third Wednesday of the month specified in the note and/or the applicable pricing supplement.

The initial interest rate or interest rate formula effective until the first Interest Reset Date will be indicated in the applicable pricing supplement.

After the first Interest Reset Date, the interest rate will be the rate determined on the next Interest Determination Date as explained below. Each time a new interest rate is determined it will become effective on the next Interest Reset Date. Except for notes which reset daily or weekly, no changes will be made in the interest rate during the 10 days before the date of maturity, redemption or repayment. Unless otherwise specified in the applicable pricing supplement, the interest rate for notes with daily interest reset dates may be changed until the Business Day immediately before the maturity date. Unless otherwise specified in the applicable pricing supplement, the interest rate for notes with weekly reset dates may be changed until the Interest Reset Date immediately before the maturity date. If any Interest Reset Date is not a Business Day, then the Interest Reset Date will be postponed to the next Business Day. However, in the case of a LIBOR note, if the next Business Day is in the next calendar month, the Interest Reset Date will be the preceding Business Day.

In the case of weekly reset Treasury Rate notes, if an auction of Treasury bills falls on a day that is an Interest Reset Date for Treasury Rate notes, the Interest Reset Date will be the following day that is a Business Day.

When Interest Rate Is Determined

Unless otherwise specified in the applicable pricing supplement, the "Interest Determination Date" is as follows:

for the Commercial Paper Rate and Federal Funds (Effective) Rate, the Business Day before the Interest Reset Date;

for LIBOR, the second London Banking Day before the Interest Reset Date;

for the Treasury Rate, the day of the week in which the Interest Reset Date falls on which Treasury bills would normally be auctioned. Treasury bills are usually sold at auction on Monday of each week, unless that day is a legal holiday, in which case the auction is usually held on the

Edgar Filing: BEAR STEARNS COMPANIES INC - Form 424B5

following Tuesday, unless the auction may be held on the preceding Friday. If the auction is held on the preceding Friday, that Friday will be the Interest Determination Date pertaining to the Interest Reset Date occurring in the next week;

for the Prime Rate and Federal Funds (Open) Rate, the same day as the Interest Reset Date; and

for a CMT Rate note, the tenth Business Day before the Interest Reset Date.

When Interest Is Paid

Unless otherwise specified in the applicable pricing supplement, interest is paid as follows:

for notes which reset daily, weekly or monthly, on the third Wednesday of each month or on the third Wednesday of March, June, September and December of each year, as specified in the note or the applicable pricing supplement;

for notes which reset quarterly, on the third Wednesday of March, June, September and December of each year;

for notes which reset semiannually, on the third Wednesday of the two months of each year specified in the note or the applicable pricing supplement;

for notes which reset annually, on the third Wednesday of the month specified in the note or the applicable pricing supplement; and

at maturity, redemption or optional repayment.

If any interest payment date, maturity date, redemption date or repayment date of a floating rate note is not a Business Day, the related payment of principal, premium, if any, or interest will be postponed to the next Business Day and, unless otherwise specified in the applicable pricing supplement, no additional interest shall accrue for the period from and after that interest payment date, maturity date, redemption date or repayment date, as the case may be, to the next Business Day. However, for LIBOR notes, if the next Business Day is in the next calendar month, principal, premium, if any, or interest will be paid on the preceding Business Day, provided that any such Business Day is also a London Banking Day.

For floating rate notes, the record date will be 15 calendar days before each interest payment date, whether or not that date is a Business Day, unless otherwise specified in the applicable pricing supplement.

How Interest Is Calculated

Unless otherwise specified in the applicable pricing supplement, interest payments will be the amount of interest accrued from, and including, the prior interest payment date in respect of which interest has been paid (or from, and including, the date of original issue if no interest has been paid), to, but excluding, the interest payment date. If the interest payment date is also a day that principal is due, the interest payable will include interest accrued to, but excluding, the date of maturity, redemption or optional repayment.

Accrued interest from the date of original issue or from the last date to which interest has been paid is calculated by multiplying the face amount of the floating rate note by an accrued interest factor. The accrued interest factor is computed by adding the interest factors calculated for each day from the date of issue, or from the last date to which interest has been paid, to the date for which accrued interest is being calculated. The interest factor (expressed as a decimal calculated to seven decimal places without rounding) for each such day is computed by dividing the interest rate applicable to that day by 360, in the case of Commercial Paper Rate notes, Federal Funds Rate notes, LIBOR notes and Prime Rate notes, or by the actual number of days in the year, in the case of Treasury Rate notes. With

respect to CMT Rate notes, interest is calculated on the basis of twelve 30-day months and a 360-day year.

All percentages resulting from any calculation on floating rate notes will be rounded, if necessary, to the nearest one hundred-thousandth of a percentage point, with five one-millionths of a percentage point rounded upward (e.g., 6.876545% (or .06876545) being rounded to 6.87655% (or .0687655) and 6.876544% (or .06876544) being rounded to 6.87654% (or .0687654)), and all dollar amounts used in or resulting from such calculation will be rounded to the nearest cent (with one-half cent being rounded upward).

Unless otherwise specified in the applicable pricing supplement, the Calculation Date relating to an Interest Determination Date will be the earlier of (a) the tenth calendar day after the Interest Determination Date or, if that day is not a Business Day, the next Business Day or (b) the Business Day before the applicable interest payment date, maturity date, redemption date or repayment date. JPMorgan Chase Bank, N.A. (formerly, The Chase Manhattan Bank) will be the Calculation Agent with respect to the floating rate notes. On your request, the Calculation Agent will provide you with the interest rate then in effect, and, if different, the interest rate that will become effective as a result of a determination made on the most recent Interest Reset Date with respect to your floating rate note.

Legal Maximum Interest Rate

In addition to any maximum interest rate for any floating rate note, the interest rate on the floating rate notes will not be higher than the maximum rate permitted by New York law, as modified by federal law. Current New York law provides a maximum interest rate of 25% per annum. This limit does not apply to notes with principal amounts of more than \$2,500,000.

Commercial Paper Rate Notes

Each Commercial Paper Rate note will bear interest at the rate (calculated with reference to the Commercial Paper Rate and any spread) specified in the Commercial Paper Rate note and in the applicable pricing supplement.

Unless otherwise specified in the applicable pricing supplement, the Commercial Paper Rate means, with respect to any Interest Determination Date, the Money Market Yield (as set forth and calculated in the Glossary section of this prospectus supplement) on such date of the rate for commercial paper having the Index Maturity specified in the applicable pricing supplement as published in H.15(519) under the heading "Commercial Paper Nonfinancial." If the rate is not published in H.15(519) on the Calculation Date, the Money Market Yield will be calculated based on the rate on the Interest Determination Date as published in H.15 Daily Update or any other recognized electronic source used for displaying that rate under the heading "Commercial Paper Nonfinancial."

If neither of the rates described above is published on the Calculation Date, then the Commercial Paper Rate will be the Money Market Yield of the arithmetic mean of the offered rates, as of 11:00 a.m. on the Interest Determination Date, of three leading dealers of commercial paper in New York City selected by the Calculation Agent for commercial paper of the specified Index Maturity placed for an industrial issuer whose bond rating is "AA," or the equivalent, from a nationally recognized rating agency.

If the three dealers selected are not quoting as mentioned above, the Commercial Paper Rate will remain the Commercial Paper Rate then in effect on such Interest Determination Date.

LIBOR Notes

Each LIBOR note will bear interest at the rate (calculated with reference to LIBOR and any spread) specified in the LIBOR note and in the applicable pricing supplement. LIBOR will be determined by the Calculation Agent as follows, unless otherwise specified in the applicable pricing supplement:

With respect to any Interest Determination Date, either:

- (a) the arithmetic mean, as determined by the Calculation Agent, of the offered rates for deposits in US dollars for the Index Maturity specified in the applicable pricing supplement, beginning on the second London Banking Day after that date, which appear on the Reuters Screen LIBO Page as of 11:00 a.m., London time, on that date, if at least two such offered rates appear on the Reuters Screen LIBO Page; or
- (b) the offered rate for deposits in US dollars having the specified Index Maturity, beginning on the second London Banking Day after that date, which appears on the Telerate Page 3750 as of 11:00 a.m., London time, on that date.

If neither the Reuters Screen LIBO Page nor Telerate Page 3750 is specified in the applicable pricing supplement, LIBOR will be determined as if Telerate Page 3750 had been specified.

In the case where (a) above applies, if fewer than two offered rates appear on the Reuters Screen LIBO Page, or, in the case where (b) above applies, if no rate appears on the Telerate Page 3750, LIBOR will be determined based on the rates at approximately 11:00 a.m., London time, on that LIBOR Interest Determination Date at which deposits in US dollars having the specified Index Maturity are offered by four major banks in the London interbank market selected by the Calculation Agent to prime banks in the London interbank market beginning on the second London Banking Day after that date and in a principal amount of not less than US \$1,000,000 that is representative of a single transaction in such market at such time (a "representative amount").

The Calculation Agent will request the principal London office of each such bank to provide a quotation of its rate. If at least two such quotations are provided, LIBOR for that date will be the arithmetic mean of such quotations.

If fewer than two quotations are provided, LIBOR for that date will be the arithmetic mean of the rates quoted at approximately 11:00 a.m. on such date by three major banks in New York City selected by the Calculation Agent for loans in US dollars to leading European banks having the specified Index Maturity beginning on the second London Banking Day after that date and in a principal amount of not less than a representative amount.

Finally, if the three banks are not quoting as mentioned above, LIBOR will remain LIBOR then in effect on such Interest Determination Date.

Federal Funds Rate Notes

Each Federal Funds Rate note will bear interest at the rate (calculated with reference to the Federal Funds Rate and any spread) specified in the Federal Funds Rate note and in the applicable pricing supplement. The Federal Funds Rate may be either of the Federal Funds (Effective) Rate or the Federal Funds (Open) Rate.

Unless otherwise specified in the applicable pricing supplement, the Federal Funds (Effective) Rate means, with respect to any Interest Determination Date, the rate on that day for Federal Funds as published in H.15(519) under the heading "Federal funds (effective)" on Telerate page 120 or any successor service or page or, if not so published on the Calculation Date relating to that Interest Determination Date, the Federal Funds (Effective) Rate will be the rate on that Interest Determination

Date that is published in H.15 Daily Update or any other recognized electronic source used for displaying that rate under the heading "Federal Funds/Effective Rate."

Unless otherwise specified in the applicable pricing supplement, the Federal Funds (Open) Rate means, with respect to any Interest Determination Date, the rate on that day for Federal Funds as reported on Telerate page 5 under the heading "Federal Funds/Open."

If (1) the applicable Federal Funds (Effective) Rate described above or (2) the Federal Funds (Open) Rate described above is not published by 3:00 p.m. on the relevant Calculation Date, then the Federal Funds (Effective) Rate and the Federal Funds (Open) Rate, as applicable, will be calculated by the Calculation Agent as the arithmetic mean of the rates for the last transaction in overnight Federal Funds arranged by three leading brokers of Federal Funds transactions in New York City selected by the Calculation Agent as of 11:00 a.m., on that Interest Determination Date.

If the brokers that are selected by the Calculation Agent are not quoting, the interest rate in effect for the applicable period will remain the interest rate then in effect on such Interest Determination Date.

Treasury Rate Notes

Each Treasury Rate note will bear interest at the rate (calculated with reference to the Treasury Rate and any spread) specified in the Treasury Rate note and in the applicable pricing supplement.

Unless otherwise specified in the applicable pricing supplement, the Treasury Rate means, with respect to any Interest Determination Date, the rate for the most recent auction of Treasury bills, direct obligations of the United States, having the Index Maturity specified in the applicable pricing supplement as published under the column designated "Invest Rate" on Telerate page 56 captioned "US Treasury 3MO T-Bill Auction Results" or Telerate page 57 captioned "US Treasury 6MO T-Bill Auction Results."

If the Treasury Rate cannot be set as described above on the Calculation Date pertaining to such Interest Determination Date, the following procedures will apply, as appropriate:

- (1) The rate will be the auction average rate (expressed as a bond equivalent on the basis of a year of 365 or 366 days, as applicable, and applied on a daily basis) as otherwise announced by the United States Department of the Treasury.
- (2) If the results of the auction of Treasury bills having the specified Index Maturity are not published in H.15(519) by 3:00 p.m. on the Calculation Date, or if no such auction is held in a particular week, then the Treasury Rate will be calculated by the Calculation Agent and will be a yield to maturity (expressed as a bond equivalent on the basis of a year of 365 or 366 days, as applicable, and applied on a daily basis) of the arithmetic mean of the secondary market bid rates as of approximately 3:30 p.m. on the Interest Determination Date, of three leading primary US government securities dealers selected by the Calculation Agent, for the issue of Treasury bills with a remaining maturity closest to the specified Index Maturity.
- (3) Finally, if the dealers are not quoting as mentioned above, the Treasury Rate will remain the Treasury Rate then in effect on such Interest Determination Date.

Prime Rate Notes

Each Prime Rate note will bear interest at the rate (calculated with reference to the Prime Rate and any spread) specified in the Prime Rate note and the applicable pricing supplement.

Unless otherwise specified in the applicable pricing supplement, Prime Rate means, with respect to any Interest Determination Date, either the rate set forth for that date on Telerate page 5 under the heading "Bank Rate/Prime" or the rate set forth for that date in H.15(519) under the heading "Bank Prime Loan."

Edgar Filing: BEAR STEARNS COMPANIES INC - Form 424B5

If the Prime Rate cannot be set as described above, the following procedures will occur:

- (1) If the applicable rate is not published in H.15(519) or on Telerate page 5 prior to 9:00 a.m. on the Calculation Date, then the Prime Rate will be the arithmetic mean of the rates of interest publicly announced by each bank that appears on the Reuters Screen NYMF Page on such Interest Determination Date as such bank's prime rate or base lending rate as in effect for such Interest Determination Date.
- (2) If fewer than four rates appear on the Reuters Screen NYMF Page, the rate will be the arithmetic mean of the prime rates quoted on the basis of the actual number of days in the year divided by 360 as of the close of business on such Interest Determination Date by at least two of the three major money center banks in New York City selected by the Calculation Agent from which quotations are requested.
- (3) If fewer than two quotations are provided, the Calculation Agent will determine the Prime Rate as the arithmetic mean on the basis of the prime rates in New York City by the appropriate number of substitute banks or trust companies organized and doing business under the laws of the United States, or any state, in each case having total equity capital of at least US \$500 million and being subject to supervision or examination by federal or state authority, selected by the Calculation Agent to quote the rate or rates.
- (4) If in any month or two consecutive months, the Prime Rate is not published in H.15(519) or on Telerate page 5 and the banks or trust companies selected are not quoting as mentioned in (3) above, the Prime Rate for the Interest Reset Period will remain the same as the Prime Rate for the immediately preceding Interest Reset Period (or, if there was no such Interest Reset Period, the rate of interest payable on the Prime Rate notes for which the Prime Rate is being determined shall be the initial interest rate).

If this failure continues over three or more consecutive months, the Prime Rate for each succeeding Interest Determination Date until the maturity or redemption of such Prime Rate notes or, if earlier, until this failure ceases, shall be LIBOR determined as if such Prime Rate notes were LIBOR notes, and the spread, if any, will be the number of basis points specified in the applicable pricing supplement as the "Alternate Rate Event Spread."

CMT Rate Notes

Each CMT Rate note will bear interest at the rate (calculated with reference to the CMT Rate and any spread) specified in the CMT Rate note and in the applicable pricing supplement.

Unless otherwise specified in the applicable pricing supplement, the CMT Rate means, with respect to any Interest Determination Date, the rate displayed on the designated CMT Telerate Page, under the caption "... Treasury Constant Maturities... Federal Reserve Board Release H.15... Mondays Approximately 3:45 p.m.," under the column for the designated CMT Index Maturity, for:

- (a) the latest rate displayed at the close of business on such Interest Determination Date if the designated CMT Telerate Page is 7051; or
- (b) the average for the week, or the month, as specified in the applicable pricing supplement, ended immediately before the week in which the related Interest Determination Date occurs if the designated CMT Telerate Page is 7052.

If the CMT Rate cannot be set as described above, the following procedures will occur:

- (1) If the applicable rate described above is not displayed on the relevant page by 3:00 p.m., New York City time on that Calculation Date, unless the calculation is made earlier and the rate is available from that source at that time on the Calculation Date, then the CMT Rate will be the Treasury constant maturity rate having the designated Index Maturity, as published in H.15(519) or another recognized electronic source for displaying the rate.

- (2) If the applicable rate described above is not published in H.15(519) or another recognized electronic source for displaying such rate by 3:00 p.m., New York City time on that Calculation Date, unless the calculation is made earlier and the rate is available from one of those sources at that time, then the CMT Rate will be the Treasury constant maturity rate, or other United States Treasury rate, for the Index Maturity and with reference to the relevant Interest Determination Date, that is published by either the Board of Governors of the Federal Reserve System or the United States Department of the Treasury and that the Calculation Agent determines to be comparable to the rate formerly displayed on the designated CMT Telerate Page and published in H.15(519).
- (3) If the rate described in the prior paragraph cannot be determined, then the Calculation Agent will determine the CMT Rate to be a yield to maturity based on the average of the secondary market offered rates as of approximately 3:30 p.m., New York City time, on the relevant Interest Determination Date reported, according to their written records, by three leading primary United States government securities dealers in New York City. The Calculation Agent will select five such securities dealers after consulting with us, and will eliminate the highest quotation (or, in the event of equality, one of the highest) and the lowest quotation (or, in the event of equality, one of the lowest), for the most recently issued direct noncallable fixed rate obligations of the United States Treasury ("Treasury Notes") with an original maturity of approximately the designated Index Maturity and a remaining term to maturity of not less than the designated Index Maturity minus one year in a representative amount. If two Treasury Notes with an original maturity as described above have remaining terms to maturity equally close to the designated Index Maturity, the quotes for the Treasury Note with the shorter remaining term to maturity will be used.
- (4) If the Calculation Agent cannot obtain three Treasury Note quotations of the kind described in the prior paragraph, the Calculation Agent will determine the CMT Rate to be the yield to maturity based on the average of the secondary market offered rates for Treasury Notes with an original maturity longer than the designated CMT Index Maturity which have a remaining term to maturity closest to the designated CMT Index Maturity and in a representative amount, as of approximately 3:30 p.m., New York City time, on the relevant Interest Determination Date of leading primary United States government securities dealers in New York City. In selecting these offered rates, the Calculation Agent will request quotations from at least five such securities dealers and will disregard the highest quotation (or if there is equality, one of the highest) and the lowest quotation (or if there is equality, one of the lowest). If two Treasury Notes with an original maturity longer than the designated CMT Index Maturity have remaining terms to maturity that are equally close to the designated CMT Index Maturity, the Calculation Agent will obtain quotations for the Treasury Note with the shorter remaining term to maturity.
- (5) If fewer than five but more than two of the leading primary United States government securities dealers are quoting as described in the prior paragraph, then the CMT Rate for the relevant Interest Determination Date will be based on the average of the offered rates obtained, and neither the highest nor the lowest of those quotations will be eliminated.
- (6) If two or fewer leading primary United States government securities dealers selected by the Calculation Agent are quoting as described above, the CMT Rate will remain the CMT Rate then in effect on that Interest Determination Date.

Inverse Floating Rate Notes

Any floating rate note may be designated in the applicable pricing supplement as an inverse floating rate note. In such an event, unless otherwise specified in the applicable pricing supplement, the interest rate on the floating rate note will be equal to a fixed rate of interest minus an interest rate

determined based on a rate specified in the applicable pricing supplement, as adjusted by any spread or multiplier.

Index Notes

Currency Indexed Notes

We may offer notes the principal amounts of which are payable at or before maturity and the amounts of interest payable on which and/or any premium payable with respect to which are determined by the rate of exchange between the specified currency and the other currency or composite currency or currencies specified as the indexed currency or by reference to some other currency index or indices, in each case as set forth in the applicable pricing supplement.

Unless otherwise specified in the applicable pricing supplement, you will be entitled to receive a principal amount or portion of that amount in respect of the currency indexed note exceeding the amount designated as the face amount of the currency indexed note in the applicable pricing supplement if, at the stated maturity date, the rate at which the specified currency can be exchanged for the indexed currency is greater than the rate of exchange designated as the base exchange rate, which is expressed in units of the indexed currency per one unit of the specified currency, as specified in the applicable pricing supplement. You will only be entitled to receive a principal amount in respect of the currency indexed notes less than the face amount of currency indexed notes, if, at the stated maturity date, the rate at which the specified currency can be exchanged for the indexed currency is less than the base exchange rate, in each case determined as described under "Payment of Principal and Interest."

The applicable pricing supplement will set forth information as to the relative historical value of the applicable specified currency against the applicable indexed currency, any currency and/or exchange controls applicable to the specified currency or indexed currency and any additional tax consequences to holders. See "Risk Factors Changes in Exchange Rates and Exchange Controls Could Result in a Substantial Loss to You."

Unless otherwise specified in the applicable pricing supplement, we will pay interest, and any premium, in the specified currency based on the face amount of the currency indexed notes and at the rate and times and in the manner set forth in this prospectus supplement and in the applicable pricing supplement.

Other Indexed Notes

We may issue indexed notes, in which the amount of principal, or any premium, interest, or other amounts payable at or before maturity is determined by reference, either directly or indirectly, to the price or performance of:

one or more securities;

one or more commodities;

any other financial, economic or other measures or instruments, including the occurrence or non-occurrence of any event or circumstance; and/or

indices or baskets of any of these items.

The applicable pricing supplement relating to these other indexed notes will describe one or more of the following terms of your notes:

the method by and the terms on which any amount of principal will be paid on or before maturity;

the amount of any interest, premium or other amounts we will pay you or the formula we will use to calculate these amounts;

whether your notes will be exchangeable for or payable in cash, securities of an issuer other than The Bear Stearns Companies Inc. or other property;

additional tax consequences to the holders of these notes, and

a description of certain additional risks associated with investment in these notes and other information relating to these notes.

See "Risk Factors Holders of Indexed Notes are Subject to Important Risks that are not Associated with More Conventional Debt Securities."

Original Issue Discount Notes

We may issue original issue discount notes, including zero coupon notes, which may be fixed rate, floating rate, or indexed notes that are issued at a price lower than their principal amount or lower than their minimum repayment amount at maturity. Original issue discount notes may bear no interest or may bear interest at a rate that is below market rates at the time of issuance. For notes that do not have any periodic interest payments, interest normally accrues during the life of the notes and is paid at the maturity date or upon earlier redemption or prepayment. Upon an acceleration of the maturity of an original issue discount note, the amount of interest payable will be determined in accordance with the terms of the note as described in the applicable pricing supplement. That amount is normally less than the amount payable at the maturity date. See "Certain US Federal Income Tax Considerations Original Issue Discount."

Payment of Principal and Interest

Unless otherwise specified in the applicable pricing supplement, we will pay principal and any premium, interest or other amounts payable on all notes in the applicable specified currency. However, payments on notes denominated in a specified currency other than US dollars will be made in US dollars as described below, unless otherwise specified in the applicable pricing supplement.

At your option

Except as provided in the next paragraph, we will pay principal and premium, if any, and interest on all notes denominated in a specified currency other than US dollars in US dollars if the registered noteholder on the relevant record date or at maturity, as the case may be, has delivered a written request for payment of such note in US dollars to the Trustee at its Corporate Trust Office in New York City on or before the applicable record date or 15 days before maturity, as the case may be. The request may be made in writing (mailed or hand delivered) or by cable, telex or other form of facsimile transmission. Any request made will remain in effect with respect to further payments of principal (and premium, if any) and any interest with respect to the note payable to such holder unless the request is revoked on or before the relevant record date or 15 days before maturity, as the case may be. Please note that holders of notes denominated in a specified currency other than US dollars whose notes are registered in the name of a broker or nominee should contact that broker or nominee to determine whether and how an election to receive payments in US dollars should be made.

The US dollar amount to be paid to a holder of a note denominated in a specified currency other than US dollars who elects to receive payment in US dollars will be based on the highest bid quotation in New York City received by the Exchange Rate Agent as of 11:00 a.m. on the second Business Day before the applicable payment date from three recognized foreign exchange dealers (one of which may be the Exchange Rate Agent) for the purchase by the quoting dealer of the specified currency for US dollars for settlement on the payment date in the aggregate amount of the specified currency payable to all noteholders electing to receive US dollar payments and at which the applicable dealer commits to execute a contract. If three bid quotations are not available on the second Business Day before the date of payment, the payment will be made in the specified currency. All currency exchange costs

associated with any payment in US dollars on notes denominated in specified currencies other than US dollars will be borne by the noteholder and will be deducted from the payment to such noteholder.

Interest will be payable to the person in whose name a note is registered, which in the case of global securities will be the depository or its nominee, at the close of business on the record date before each interest payment date. However, interest payable at maturity will be payable to the person to whom principal shall be payable, which in the case of global securities will be the depository or its nominee.

The total amount of any principal (and premium, if any) and any interest due on any global security representing one or more book-entry notes on any interest payment date or at maturity will be made available to the Trustee on such date. As soon as possible thereafter, the Trustee will make such payments to the depository. The depository will allocate the payments to each book-entry note represented by a global security and make payments to the holders of such global security in accordance with its existing operating procedures. We and the Trustee will not have any responsibility or liability for the payments by the depository. So long as the depository or its nominee is the registered holder of any global security, the depository or its nominee, as the case may be, will be considered the sole holder of the book-entry note or notes represented by such global security for all purposes under the indenture. We understand, however, that under existing industry practice, the depository will authorize the persons on whose behalf it holds a global security to exercise certain rights of holders of securities. See "Book-Entry Procedures and Settlement" in the accompanying prospectus.

Payments of principal (and premium, if any) and any interest with respect to a note to be made in a specified currency other than US dollars will be made by wire transfer to an account maintained by the noteholder with a bank located in the country issuing the specified currency. Payments may also be made to the noteholder's account in another jurisdiction that we and the Trustee have approved and which has been designated by the registered noteholder on the relevant record date or at maturity, as the case may be, in writing on or before the relevant record date before the interest payment date or 15 days before maturity, as the case may be, and, in the case of payments due at maturity, the note is presented to the Paying Agent in time for the Paying Agent to pay to that account in accordance with its normal procedures. The designation shall be made by filing the appropriate information with the Trustee at its Corporate Trust Office in the Borough of Manhattan, New York City, and, unless revoked in writing, will remain in effect with respect to any future payments on the note payable to such holder.

If payment cannot be made by wire transfer because the Trustee has not received the required designation on or before the requisite date or for any other reason, a notice will be mailed to the noteholder at its registered address requesting a designation by which the wire transfer can be made and, within five Business Days of receiving this designation, the Trustee will make the appropriate payment. We will pay any administrative costs imposed by banks in connection with making payments by wire transfer, however, except as specified in the applicable pricing supplement, any taxes, assessments or governmental charges imposed on payments will be borne by the noteholder to whom payments are made.

If the official unit of any component currency is changed as a result of combination or subdivision, the number of units of that currency as a component shall be divided or multiplied in the same proportion. If two or more component currencies are consolidated into a single currency, the amounts of those currencies as components shall be replaced by an amount in such single currency equal to the sum of the amounts of the consolidated component currencies expressed in that single currency. If any component currency is divided into two or more currencies, the amount of that currency as a component shall be replaced by amounts of those two or more currencies, each of which will have a value on the date of division equal to its proportionate share of the former component currency.

Notes denominated in a specified currency other than US dollars will provide that, in the event of an official redenomination of the specified currency, our obligations shall, in all cases, be deemed

immediately following the redenomination to provide for payment of that amount of the redenominated specified currency representing the amount of such obligations immediately before the currency was redenominated.

All determinations set forth above to be made by the Calculation Agent and the Exchange Rate Agent, except as expressly provided in this prospectus supplement or the applicable pricing supplement, shall be conclusive for all purposes and binding on all noteholders and on us, in the absence of manifest error, and the Calculation Agent and the Exchange Rate Agent shall not be held liable for these determinations.

At our option in the case of an imposition of exchange controls or other circumstances beyond our control.

If the principal of (and premium, if any) or interest on any note is payable in a specified currency other than US dollars and that specified currency is not available due to the imposition of exchange controls or other circumstances beyond our control, or is no longer used by the government of the country issuing that currency or for settlement of transactions by public institutions of or within the international banking community, we may make the requisite payments in US dollars on the basis of the noon buying rate in New York City for cable transfers in that specified currency as certified for customs purposes by the Federal Reserve Bank of New York for that specified currency on the second Business Day before the applicable payment date or, if that exchange rate is not available, then on the basis of the most recently available exchange rate.

Exchangeable Notes

We may offer notes that are exchangeable at your option for securities, or cash representing the value of securities, of an entity unaffiliated with us; a basket of these securities; an index or indices of these securities or any combination of these options, all as will be described in the applicable pricing supplement. Exchangeable notes may bear interest or be issued with original issue discount or at a premium, all as will be specified in the applicable pricing supplement.

Unless otherwise specified in the applicable pricing supplement, exchangeable notes will entitle you, either during a period or at specific times, to exchange your note for the underlying security or securities constituting the underlying basket, index or indices of these securities (or combination of these alternatives) at a specified rate of exchange. If so specified in the applicable pricing supplement, exchangeable notes will be redeemable at our option before maturity. If you do not elect to exchange your exchangeable note before maturity or any applicable date for redemption, you will receive the principal amount of such note or applicable redemption price in cash.

Upon exchange, at maturity or otherwise, of your exchangeable note, you may receive, at the specified exchange rate, either the underlying security or the securities constituting the relevant basket, index or indices or the cash value of such underlying security or securities, all as may be specified in the applicable pricing supplement. The underlying security or securities constituting any basket, index or indices may be the securities of either US or foreign entities, or both, and the exchangeable notes may provide for protection against fluctuations in the rate of exchange between the currency in which that note is denominated and the currency or currencies in which the market prices of the underlying security or securities are quoted, all as may be specified in the applicable pricing supplement. Exchangeable notes may have other terms, which will be specified in the applicable pricing supplement.

Reopened Issues

We may "reopen" certain issues at any time by offering additional notes with terms identical (other than issue date and issue price) to those of existing notes.

Extension of Maturity Date

The applicable pricing supplement will indicate whether we may extend the maturity of a note for one or more periods up to, but not beyond, the date that is set forth in the pricing supplement.

We may exercise our option to extend a note's maturity date by notifying the Trustee at least 60, but not more than 75 days, before the note's original maturity date that is in effect before we exercised our option. No later than 55 days before the original maturity date, the Trustee will mail to each noteholder a notice, first class, postage prepaid, setting forth:

- (1) our election to extend the note's maturity date;
- (2) the new maturity date;
- (3) in the case of a fixed rate note, the interest rate that will apply to the extension period or, in the case of a floating rate note, the spread, the new Interest Reset Date(s), if any, and the new interest payment date(s), if any, that will apply to the extension period; and
- (4) the provisions, if any, for redemption or repayment during the extension period.

Once the Trustee has mailed the extension notice to the noteholder, the note's maturity date shall be automatically extended and, except as may be modified by the extension notice or as described in the next paragraph, the note will have the same terms it did before the extension notice was mailed.

Notwithstanding the foregoing, no later than 20 days before a note's original maturity date, we may at our option revoke its interest rate, in the case of a fixed rate note, or the spread, in the case of a floating rate note, provided for in the extension notice and establish a higher interest rate or higher spread, as the case may be, for the extension period. We may do so by causing the Trustee to mail notice first class, postage prepaid, of a higher interest rate or higher spread, as the case may be, to the noteholder. The notice shall be irrevocable. All notes with respect to which the maturity date is extended will bear the higher interest rate or higher spread, as the case may be, for the extension period, whether or not they are tendered for repayment.

If we extend the maturity date of a note, the holder of such note may have the option to elect repayment of such note on the original maturity date at a price equal to the principal amount of the note plus any accrued interest to such date. In order for a note to be so repaid on the original maturity date, you must follow the procedures set forth under "Repayment and Repurchase" for optional repayment, except that the period for delivery of such note or notification to the Trustee shall be at least 25 but not more than 35 days before the original maturity date and except that a noteholder who has tendered a note for repayment pursuant to an extension notice may, by written notice to the Trustee, revoke any such tender for repayment until the close of business on the tenth day before the original maturity date.

Renewable Notes

We may offer notes the maturity of which may be renewed at your option for one or more specified periods up to but not beyond the final maturity of the notes. The specific terms for such extensions, including the date or dates on which the option can be exercised and whether the option can be exercised with respect to some but not all of the notes' outstanding principal balance, will be set forth in the applicable pricing supplement.

Redemption

Unless otherwise stated in the applicable pricing supplement, the notes will not have a sinking fund. Redemption dates, if any, will be fixed at the time of sale and stated in the applicable pricing supplement and on the applicable note. If no redemption date is indicated with respect to a note, the note will not be redeemable before it matures. We may redeem notes at our option beginning on a specified redemption date if the applicable pricing supplement permits redemption. Unless otherwise specified in the applicable pricing supplement, we may redeem such notes in whole or in part in

increments of \$1,000 at a redemption price equal to 100% of the principal amount to be redeemed, together with interest payable up to the redemption date, by giving notice not more than 60 nor less than 30 days before the redemption date.

Repayment and Repurchase

Optional repayment dates will be set at the time of sale and set forth in the applicable pricing supplement and on the applicable note. Except as provided under "Extension of Maturity Date," if no optional repayment date is indicated, your note will not be repayable at your option before it matures.

If the applicable pricing supplement permits, you may cause us to repay your notes on particular dates. Unless otherwise specified in the applicable pricing supplement, we may be required to repay your notes in whole or in part in increments of \$1,000, provided that any remaining principal amount of the note is at least \$25,000. The repayment price will be equal to 100% of the principal amount to be repaid, plus accrued interest to the repayment date.

Unless otherwise specified in the applicable pricing supplement, for any note to be repaid in whole or in part at your option, you must deliver to the Trustee not less than 30 nor more than 60 days before the optional repayment date (or any shorter period as described under "Extension of Maturity Date"):

the note to be repaid with the form entitled "Option to Elect Repayment" set forth on the reverse of such note duly completed; or

a telegram, telex, facsimile transmission or a letter from a member of a national securities exchange or the National Association of Securities Dealers, Inc. or a commercial bank or a trust company in the US setting forth:
your name,

the principal amount of the note,

the certificate number of the note or a description of the note's tenor or terms,

the principal amount of the note to be repaid,

a statement that you are exercising your option to elect repayment, and

a guarantee that the note to be repaid, along with the form entitled "Option to Elect Repayment" duly completed, will be received by the Trustee no later than 5 Business Days after the date of the telegram, telex, facsimile transmission or letter.

The Trustee must receive the note and duly completed form entitled "Option to Elect Repayment" by the fifth Business Day after the date of such telegram, telex, facsimile transmission or letter. The exercise of the repayment option will be irrevocable, except as set forth under "Extension of Maturity Date."

If your note is represented by a global security, the depository's nominee will be the holder and, as a result, will be the only entity that can exercise a right to repayment. To ensure that the depository's nominee will timely exercise a right to repayment with respect to your interest in a global security, you must instruct the broker, or other direct or indirect participant through which you hold such interest, to notify the depository of your desire to exercise a right to repayment. To ascertain the time by which instructions must be given for timely notice to be delivered to the depository, you should consult the broker or other direct or indirect participant through which you hold your interest in a note.

The applicable pricing supplement may provide that the maturity of a floating rate note will be automatically extended for a specified period, unless you elect during a designated period to terminate the automatic extension of the maturity by following the procedures described in the applicable pricing supplement and in the floating rate note.

At any time, we may buy the notes at any price in the open market or otherwise. Any notes we purchase may be held or resold or, at our discretion, may be surrendered to the Trustee for cancellation.

CERTAIN US FEDERAL INCOME TAX CONSIDERATIONS

The following discussion summarizes certain US federal income tax consequences of the purchase, beneficial ownership and disposition of notes. Except as provided below under "Federal Income Tax Consequences to Non-US Holders," this summary deals only with a beneficial owner of a note that is:

an individual who is a citizen or resident of the United States for US federal income tax purposes;

a corporation (or other entity that is treated as a corporation for US federal tax purposes) that is created or organized in or under the laws of the United States or any state thereof (including the District of Columbia);

an estate whose income is subject to US federal income taxation regardless of its source; or

a trust if a court within the United States is able to exercise primary supervision over its administration, and one or more United States persons have the authority to control all of its substantial decisions (each, a "US Holder").

If a partnership (or other entity that is treated as a partnership for US federal tax purposes) is a beneficial owner of notes, the treatment of a partner in the partnership will generally depend upon the status of the partner and upon the activities of the partnership. A beneficial owner of notes that is a partnership, and partners in such a partnership, should consult their tax advisors about the US federal income tax consequences of holding and disposing of the notes.

An individual may, subject to certain exceptions, be deemed to be a resident of the United States for US federal income tax purposes by reason of being present in the United States for at least 31 days in the calendar year and for an aggregate of at least 183 days during a three-year period ending in the current calendar year (counting for such purposes all of the days present in the current year, one-third of the days present in the immediately preceding year, and one-sixth of the days present in the second preceding year).

This discussion is based on interpretations of the Internal Revenue Code of 1986, as amended (the "Code"), regulations issued thereunder, and rulings and decisions currently in effect (or in some cases proposed), all of which are subject to change. Any such change may be applied retroactively and may adversely affect the federal income tax consequences described herein. This summary addresses only US Holders that purchase notes at initial issuance and beneficially own such notes as capital assets and not as part of a "straddle," "hedge," "synthetic security" or a "conversion transaction" for federal income tax purposes, or as part of some other integrated investment. This summary does not discuss all of the tax consequences that may be relevant to particular investors or to investors subject to special treatment under the federal income tax laws (such as S corporations, banks, thrifts, other financial institutions, insurance companies, mutual funds, small business investment companies, tax-exempt organizations, retirement plans, real estate investment trusts, regulated investment companies, securities dealers or brokers, traders in securities electing mark to market treatment, investors whose functional currency is not the US dollar, persons subject to the alternative minimum tax, and former citizens or residents of the United States), and this summary does not discuss the tax consequences under the laws of any foreign, state or local taxing jurisdictions. Accordingly, prospective investors are urged to consult their tax advisors with respect to the federal, state and local tax consequences of investing in the notes, as well as any consequences arising under the laws of any other taxing jurisdiction to which they may be subject.

The applicable pricing supplement may contain a further discussion of the special US federal income tax consequences applicable to certain notes, including notes that may be convertible into or exercisable or exchangeable for our common or preferred stock or depositary shares or for securities, or cash representing the value of securities, of an entity unaffiliated with us, a basket of securities, or

an index or indices of these securities, notes that are "contingent payment debt instruments" (as described below), notes that are renewable or extendible, currency or other indexed notes, and amortizing notes.

Payments of Interest

Except as described below, interest on a note will be taxable to a US Holder as ordinary interest income at the time it accrues or is received in accordance with the US Holder's normal method of accounting for tax purposes. Special rules governing the treatment of notes issued at an original issue discount are described under "Original Issue Discount," below.

Original Issue Discount

The following is a summary of the principal US federal income tax consequences of the ownership of notes having original issue discount ("OID") and a term of more than one year. The US federal income tax treatment of the notes with a term of one year or less is summarized below under "Short-Term Notes."

A note will have OID for US federal income tax purposes if its "issue price" is less than its "stated redemption price at maturity" by more than a *de minimis* amount, as discussed below.

The issue price of a note generally is the first price at which a substantial amount of the "issue" of the notes is sold to the public for money (excluding sales to bond houses, brokers or similar persons or organizations acting in the capacity of underwriters, placement agents or wholesalers), excluding pre-issuance accrued discount (as discussed below under "Pre-Issuance Accrued Interest").

The stated redemption price at maturity of a note generally is the total amount of all payments provided by the note other than "qualified stated interest" payments.

Qualified stated interest generally is stated interest that is "unconditionally payable" in cash or property (other than debt instruments of the issuer) at least annually either at a single fixed rate, or a "qualifying variable rate" (as described below). Qualified stated interest is taxable to a US Holder when accrued or received in accordance with the US Holder's normal method of tax accounting.

Interest is considered unconditionally payable only if reasonable legal remedies exist to compel timely payment or the note otherwise provides terms and conditions that make the likelihood of late payment (other than a late payment within a reasonable grace period) or non-payment a remote contingency. Interest is payable at a single fixed rate only if the rate appropriately takes into account the length of the interval between stated interest payments. Thus, if the interval between payments varies during the term of the instrument, the value of the fixed rate on which payment is based generally must be adjusted to reflect a compounding assumption consistent with the length of the interval preceding the payment.

Notes having "*de minimis* OID" generally will be treated as not having OID unless a US Holder elects to treat all interest on the note as OID. See "Election to Treat All Interest as Original Issue Discount (Constant Yield Method Election)." A note will be considered to have *de minimis* OID if the difference between its stated redemption price at maturity and its issue price is less than the product of $\frac{1}{4}$ of 1 percent of the stated redemption price at maturity and the number of complete years from the issue date to maturity (or the weighted average maturity in the case of a note that provides for payment of an amount other than qualified stated interest before maturity).

US Holders of notes having OID will be required to include OID in gross income for US federal income tax purposes as it accrues (regardless of the US Holder's method of accounting), which may be in advance of receipt of the cash attributable to such income. OID accrues under the constant yield method, based on a compounded yield to maturity, as described below. Accordingly, US Holders of

notes having OID will generally be required to include in income increasingly greater amounts of OID in successive accrual periods.

The annual amount of OID includible in income by the initial US Holder of a note having OID will equal the sum of the "daily portions" of the OID with respect to the note for each day on which the US Holder held the note during the taxable year. Generally, the daily portions of OID are determined by allocating to each day in an "accrual period" the ratable portion of OID allocable to the accrual period. The term accrual period means an interval of time with respect to which the accrual of OID is measured, and which may vary in length over the term of the note provided that each accrual period is no longer than one year and each scheduled payment of principal or interest occurs on either the first or last day of an accrual period.

The amount of OID allocable to an accrual period will be the excess of:

the product of the "adjusted issue price" of the note at the commencement of the accrual period and its "yield to maturity" over

the amount of any qualified stated interest payments allocable to the accrual period.

The adjusted issue price of a note at the beginning of the first accrual period is its issue price and, on any day thereafter, it is the sum of the issue price and the amount of OID previously includible in the gross income of the US Holder (without regard to any "acquisition premium" as described below), reduced by the amount of any payment other than a payment of qualified stated interest previously made on the note. If an interval between payments of qualified stated interest contains more than one accrual period, the amount of qualified stated interest that is payable at the end of the interval (including any qualified stated interest that is payable on the first day of the accrual period immediately following the interval) is allocated on a *pro-rata* basis to each accrual period in the interval, and the adjusted issue price at the beginning of each accrual period in the interval is increased by the amount of any qualified stated interest that has accrued prior to the first day of the accrual period but is not payable until the end of the interval. The yield to maturity of a note is the yield to maturity computed on the basis of compounding at the end of each accrual period properly adjusted for the length of the particular accrual period. If all accrual periods are of equal length except for a shorter initial and/or final accrual period(s), the amount of OID allocable to the initial period may be computed using any reasonable method; however, the OID allocable to the final accrual period will always be the difference between the amount payable at maturity (other than a payment of qualified stated interest) and the adjusted issue price at the beginning of the final accrual period.

Pre-Issuance Accrued Interest

If (i) a portion of the initial purchase price of a note is attributable to pre-issuance accrued interest, (ii) the first stated interest payment on the note is to be made within one year of the note's issue date, and (iii) the payment will equal or exceed the amount of pre-issuance accrued interest, then the US Holder may compute the issue price of the note by subtracting the amount of the pre-issuance accrued interest. In that event, a portion of the first stated interest payment will be treated as a return of the excluded pre-issuance accrued interest and not as an amount payable on the note.

Alternative Payment Schedules

If a note (i) provides for an alternative payment schedule or schedules applicable upon the occurrence of a contingency or contingencies relating to payments of interest or of principal (other than a "remote" or "incidental" contingency), (ii) the timing and amount of the payments that comprise each payment schedule are known as of the issue date and (iii) one of such schedules is significantly more likely than not to occur, then the yield and maturity of the note are generally determined by assuming that the payments will be made according to that payment schedule. If there is no single payment

schedule that is significantly more likely than not to occur (other than because of a mandatory sinking fund), the note may be subject to the rules described below under "Contingent Payment Debt Instruments" and in the applicable pricing supplement.

If a note provides for alternative payment schedules, the determination of whether the note provides for qualified stated interest is made by analyzing each alternative payment schedule as if each schedule were the note's sole payment schedule. The note will provide for qualified stated interest to the extent of the lowest fixed rate at which qualified stated interest would be payable under any of the alternative payment schedules.

Call and Put Options

For purposes of calculating the yield and maturity of a note subject to a call option held by us, in general, the option is presumed exercised if the yield on the note would be less than it would be if the option were not exercised, and a put option held by a US Holder is presumed exercised if the yield on the note would be more, than it would be if the option were not exercised. The effect of this rule generally may accelerate or defer the inclusion of OID in the income of a US Holder whose note is subject to a put option or a call option, as compared to a note that does not have such an option. If any option that is presumed to be exercised is not in fact exercised, the note is treated as reissued solely for purposes of the OID rules on the date of presumed exercise for an amount equal to its adjusted issue price on that date. The deemed reissuance will have the effect of redetermining the note's yield and maturity for OID purposes and any related subsequent accruals of OID.

Variable Rate Debt Instruments

A note that qualifies as a "variable rate debt instrument" will be subject to the rules described below and will not be treated as a "contingent payment debt instrument" described in the following section. A note will be treated as a variable rate debt instrument if:

the issue price of the note does not exceed the total amount of noncontingent principal payments by more than the product of such principal payments and the lesser of (i) 15 percent or (ii) the product of 1.5 percent and the number of complete years in the debt instrument's term (or its weighted average maturity in the case of an installment obligation), and

the note does not provide for any stated interest other than stated interest paid or compounded at least annually at a qualifying variable rate which is (i) one or more "qualified floating rates," (ii) a single fixed rate and one or more qualified floating rates, (iii) a "single objective rate," or (iv) a single fixed rate and a single objective rate that is a "qualified inverse floating rate."

For purposes of determining if a note is a variable rate debt instrument, a qualified floating rate is a variable rate whose variations can reasonably be expected to measure contemporaneous variations in the cost of newly borrowed funds in the currency in which the debt instrument is denominated and is set at a "current rate." A qualified floating rate (or objective rate, as described below) must be set at a current value of that rate. A current value is the value of the variable rate on any day that is no earlier than three months prior to the first day on which that value is in effect and no later than one year following that day.

A multiple of a qualified floating rate is generally not a qualified floating rate, unless it is either:

a product of a qualified rate times a fixed multiple greater than 0.65 but not more than 1.35, or

a multiple greater than 0.65 but not more than 1.35, increased or decreased by a fixed rate.

Certain combinations of rates are treated as a single qualified floating rate, including (i) interest stated at a fixed rate for an initial period of one year or less followed by a qualified floating rate if the value

of the floating rate at the issue date is intended to approximate the fixed rate, and (ii) two or more qualified floating rates that can reasonably be expected to have approximately the same values throughout the term of the note. A combination of these rates is generally treated as a single qualified floating rate if the values of all rates on the issue date are within 0.25 percentage points of each other. A variable rate that is subject to an interest rate cap, floor, governor or similar restriction on rate adjustment is treated as a qualified floating rate only if the restriction is fixed throughout the term of the note, or is not reasonably expected as of the issue date to cause the yield on the note to differ significantly from its expected yield absent the restriction.

An objective rate is defined as a rate (other than a qualified floating rate) that is determined using a single fixed formula and that is based on objective financial or economic information (other than a rate based on information that is within our control (or the control of a party that is related to us) or that is unique to our circumstances (or those of a related party)). The IRS may designate other variable rates that will be treated as objective rates. However, a variable rate is not an objective rate if it is reasonably expected that the average value of the rate during the first half of the note's term will differ significantly from the average value of such rate during the final half of its term. A combination of a fixed rate of stated interest for an initial period of one year or less followed by an objective rate is treated as a single objective rate if the value of the objective rate at the issue date is intended to approximate the fixed rate; such a combination of rates is generally treated as a single objective rate if the objective rate on the issue date does not differ from the fixed rate by more than 0.25 percentage points. An objective rate is a qualified inverse floating rate if it is equal to a fixed rate reduced by a qualified floating rate, the variations in which can reasonably be expected to inversely reflect contemporaneous variations in the qualified floating rate (disregarding permissible rate caps, floors, governors and similar restrictions as those discussed above).

If a note is a variable rate debt instrument, special rules apply to determine the amount of qualified stated interest and the amount and accrual of any OID. If the note bears interest that is unconditionally payable at least annually at a single qualified floating rate or objective rate, all stated interest is treated as qualified stated interest. The accrual of any OID is determined by assuming the note bears interest at a fixed interest rate equal to the issue date value of the qualified floating rate or qualified inverse floating rate or, in the case of any other objective rate, a fixed internal rate that is equal to the reasonably expected yield for the note. The qualified stated interest allocable to an accrual period is increased (or decreased) if the interest actually paid during an accrual period exceeds (or is less than) the interest assumed to be paid during the accrual period.

If the note bears interest at a qualifying variable rate other than a single qualified floating rate or objective rate, the amount and accrual of OID generally are determined by (i) determining a fixed rate substitute for each variable rate as described in the preceding paragraph, (ii) determining the amount of qualified stated interest and OID by assuming the note bears interest at such substitute fixed rates and (iii) making appropriate adjustments to the qualified stated interest and OID so determined for actual interest rates under the note. However, if such qualifying variable rate includes a fixed rate, the note is treated for purposes of applying clause (i) of the preceding sentence as if it provided for an assumed qualified floating rate (or qualified inverse floating rate if the actual variable rate is such) that would cause the note to have approximately the same fair market value, and the rate is used in lieu of the fixed rate.

Notes bearing interest at a variable rate and having a term in excess of one year that do not bear interest at a qualifying variable rate or that have contingent principal payments or an issue price that exceeds the noncontingent principal payments by more than the allowable amount are treated as "contingent payment debt instruments," as described below.

Contingent Payment Debt Instruments

Notes that provide for one or more contingent payments but that do not qualify as variable rate debt instruments may be treated as contingent payment debt instruments ("CPDIs"). If a CPDI is issued for cash or publicly traded property, OID is determined and accrued under the "noncontingent bond method."

Under the noncontingent bond method, US Holders of the notes will accrue OID over the term of the note based on the note's "comparable yield." In general the comparable yield of a CPDI is equal to the yield at which the issuer would issue a fixed rate debt instrument with terms and conditions similar to those of the CPDI, including level of subordination, term, timing of payments, and general market conditions. However, if a fixed rate debt instrument with similar terms and conditions is not available, but a similar fixed rate debt instrument of an issuer is traded at a price that reflects a spread above a benchmark rate, the comparable yield is the sum of the benchmark rate on the issue date and the spread.

In addition to the determination of a comparable yield, the noncontingent bond method requires determination of a schedule of the projected amount of each payment (whether or not contingent) to be made under the CPDI. The projected payment schedule is determined in such a way that the sum of the discounted present value of the projected amounts of all payments, determined using a discount rate equal to the comparable yield, equals the issue price and reasonably reflects the relative expected values of the payments. The projected payment schedule is then determined as of the issue date and remains fixed throughout the term of the CPDI.

The projected payment schedule is used to determine the US Holder's interest accruals and adjustments, unless the US Holder determines that our projected payment schedule is unreasonable, in which case the US Holder must disclose its own projected payment schedule in connection with its federal income tax return and the reason(s) why it is not using our projected payment schedule.

The projected payment schedule includes all noncontingent payments as well as a projected amount for each contingent payment. Appropriate adjustments are made to account for any difference between the projected amount of a contingent payment and the actual amount of the payment. The projected amounts are, in effect, treated as fixed, and interest accrual is required based on these projected amounts whether or not the amount of any payment is fixed or determinable in the taxable year. Thus, the noncontingent bond method may result in recognition of income prior to the receipt of cash.

A US Holder's basis in a CPDI is increased by the projected contingent payments accrued by the holder under the projected payment schedule (as determined without regard to adjustments made to reflect differences between actual and projected payments) and reduced by the amount of any non-contingent payments and the projected amount of any contingent payments previously made. Gain on the sale, exchange, or retirement of a CPDI generally would be treated as ordinary income. Losses, on the other hand, would be treated as ordinary only to the extent of the holder's prior net interest inclusions (reduced by the total net negative adjustments previously allowed to the holder as an ordinary loss) and capital to the extent in excess thereof.

The pricing supplement applicable to any note that is treated as a CPDI will describe the material US federal income tax consequences of the ownership of the note. Prospective investors should consult their own tax advisors with respect to the application of the CPDI provisions to notes.

Short-Term Notes

A note that has a maturity of one year or less from the date of its issuance is a "short-term note." In general, an individual or other cash method US Holder of a short-term note is not required to accrue OID for US federal income tax purposes unless the US Holder elects to do so. This election

applies to all short-term notes acquired by the US Holder during the first taxable year for which the election is made, and all subsequent taxable years of the US Holder, unless the IRS consents to a revocation. US Holders that report income for US federal income tax purposes on the accrual method and certain other holders, including banks, common trust funds, holders who hold the short-term notes as part of certain identified hedging transactions, regulated investment companies, certain pass-through entities and dealers in securities, are required to include OID on such short-term notes on a straight-line basis, unless an irrevocable election with respect to any short-term note is made to accrue the OID under the constant yield method based on daily compounding. In the case of a US Holder that is not required and does not elect to include OID in income currently, any gain realized on the sale, exchange or retirement of a short-term note is treated as ordinary income to the extent of the OID which had accrued on a straight-line basis (or, if elected, under the constant yield method based on daily compounding) through the date of sale, exchange or retirement. In addition, non-electing US Holders that are not subject to the current inclusion requirement described in this paragraph will be required to defer deductions for any interest paid on indebtedness incurred or continued to purchase or carry such short-term notes in an amount not exceeding the deferred interest income, until the deferred interest income is realized.

For purposes of determining the amount of OID subject to these rules, all interest payments on a short-term note, including stated interest, are included in the short-term note's stated redemption price at maturity.

Market Discount and Premium

If a US Holder purchases a note, other than a short-term note, for an amount that is less than its stated redemption price at maturity or, in the case of a note having OID, less than its revised issue price (which is the sum of the issue price of the note and the aggregate amount of the OID previously includible in the gross income of any holder (without regard to any acquisition premium)), the amount of the difference generally will be treated as market discount for US federal income tax purposes. (It is possible that a US Holder may purchase a note at original issuance for an amount that is different than its issue price.) The amount of any market discount generally will be treated as *de minimis* and disregarded if it is less than the product of 0.25 percent of the stated redemption price at maturity of the note and the number of complete years to maturity (or weighted average maturity in the case of notes paying any amount other than qualified stated interest prior to maturity).

Under the market discount rules, a US Holder is required to treat any principal payment on, or any gain on the sale, exchange, retirement or other disposition of, a note as ordinary income to the extent of any accrued market discount which has not previously been included in income. If the note is disposed of in a nontaxable transaction (other than certain specified nonrecognition transactions), accrued market discount will be includible as ordinary income to the US Holder as if the US Holder had sold the note at its then fair market value. In addition, the US Holder may be required to defer, until the maturity of the note or its earlier disposition in a taxable transaction, the deduction of all or a portion of the interest expense on any indebtedness incurred or continued to purchase or carry the note.

Market discount accrues ratably during the period from the date of acquisition to the maturity of a note, unless the US Holder elects to accrue it under the constant yield method. A US Holder of a note may elect to include market discount in income currently as it accrues (either ratably or under the constant yield method), in which case the rule described above regarding deferral of interest deductions will not apply. The election to include market discount currently applies to all market discount obligations acquired during or after the first taxable year to which the election applies, and may not be revoked without the consent of the IRS. If an election is made to include market discount in income currently, the basis of the note in the hands of the US Holder will be increased by the market discount thereon as it is included in income.

A US Holder that purchases a note having OID for an amount exceeding its "adjusted issue price" (which is described above under " Original Issue Discount") and less than or equal to the sum of all remaining amounts payable on the note other than payments of qualified stated interest will be treated as having purchased the note with acquisition premium. The amount of OID that the US Holder must include in gross income with respect to such note will be reduced in the proportion that the excess bears to the OID remaining to be accrued from the date of the note's acquisition through the stated maturity date. Rather than apply the above fraction, a US Holder that, as discussed below, elects to treat all interest as OID would treat the purchase at an acquisition premium as a purchase at an original issuance and calculate OID accruals on a constant yield to maturity.

A US Holder that acquires a note for an amount that is greater than the sum of all remaining amounts payable on the note other than payments of qualified stated interest will be treated as having purchased the note at a bond premium, and will not be required to include any OID in income. A US Holder generally may elect to amortize bond premium. The election to amortize bond premium must be made with a timely-filed federal income tax return for the first taxable year to which the US Holder wishes the election to apply.

If bond premium is amortized, the amount of interest that must be included in the US Holder's income for each period ending on an interest payment date or on stated maturity, as the case may be, will be reduced by the portion of bond premium allocable to such period based on the note's yield to maturity (or, in certain circumstances, based on an earlier call date) determined by using the US Holder's basis of the note, compounding at the close of each accrual period. If the bond premium allocable to an accrual period is in excess of qualified stated interest allocable to that period, the excess may be deducted to the extent of prior income inclusions and is then carried to the next accrual period and offsets qualified stated interest in such period. There are also special rules for determining bond premium on variable rate debt instruments and on debt instruments with alternative payment schedules that are not treated as CPDIs. If an election to amortize bond premium is not made, a US Holder must include the full amount of each interest payment in income in accordance with its regular method of accounting and will receive a tax benefit from the premium only in computing its gain or loss upon the sale or other disposition or payment of the principal amount of the note.

An election to amortize bond premium will apply to amortizable bond premium on all notes and other bonds, the interest on which is includible in the US Holder's gross income, held at the beginning of the US Holder's first taxable year to which the election applies or thereafter acquired, and may be revoked only with the consent of the IRS. The election to treat all interest as OID is treated as an election to amortize bond premium. Special rules may apply if a note is subject to a call option prior to maturity at a price in excess of its stated redemption price at maturity.

Election to Treat All Interest as Original Issue Discount (Constant Yield Method Election)

A US Holder of a note may elect to include in income all interest and discount (including *de minimis* OID and *de minimis* market discount), as adjusted by any premium with respect to the note, as OID on a constant yield method, which is described above under " Original Issue Discount." The election is made for the taxable year in which the US Holder acquired the note, and it may not be revoked without the consent of the IRS. If the election is made with respect to a note having market discount, the US Holder will be deemed to have elected currently to include market discount on a constant yield basis with respect to all debt instruments having market discount acquired during the year of election or thereafter. If the election is made with respect to a note having amortizable bond premium, the US Holder will be deemed to have made an election to amortize premium generally with respect to all debt instruments having amortizable bond premium held by the US Holder during the year of election or thereafter.

Foreign Currency Notes

The following discussion applies to foreign currency notes that are not denominated in or indexed to a currency that is considered "hyperinflationary," that are not CPDIs and that are not "dual currency notes." Special US tax considerations applicable to obligations that are denominated in or indexed to a hyperinflationary currency, are CPDIs or are dual currency notes that will be discussed in the applicable pricing supplement.

In general, a US Holder that uses the cash method of accounting and holds a foreign currency note will be required to include in income the US dollar value of the amount of interest income received, whether or not the payment is received in US dollars or converted into US dollars. The US dollar value of the amount of interest received is the amount of foreign currency interest paid, translated into US dollars at the spot rate on the date of receipt. The US Holder will not have exchange gain or loss on the interest payment itself, but may have exchange gain or loss when it disposes of any foreign currency received.

A US Holder that uses the accrual method of accounting is generally required to include in income the dollar value of interest accrued during the accrual period. Accrual basis US Holders may determine the amount of income recognized with respect to such interest in accordance with either of two methods. Under the first method, the dollar value of accrued interest is translated at the average rate for the interest accrual period (or, with respect to an accrual period that spans two taxable years, the partial period within the taxable year). For this purpose, the average rate is the simple average of spot rates of exchange for each business day of such period or other average exchange rate for the period reasonably derived and consistently applied by the US Holder. Under the second method, a US Holder can elect to accrue interest at the spot rate on the last day of the interest accrual period (in the case of a partial accrual period, the last day of the taxable year) or, if the last day of an interest accrual period is within five business days of the receipt, the spot rate on the date of receipt. Any such election will apply to all debt instruments held by the US Holder and will be irrevocable without the consent of the IRS. An accrual basis US Holder will recognize exchange gain or loss, as the case may be, on the receipt of a foreign currency interest payment if the exchange rate on the date payment is received differs from the rate applicable to the previous accrual of that interest income. The foreign currency gain or loss will generally be treated as US source ordinary income or loss.

OID on a foreign currency note is determined in the foreign currency and is translated into US dollars in the same manner that an accrual basis US Holder accrues stated interest. Exchange gain or loss is determined when OID is considered paid to the extent the exchange rate on the date of payment differs from the exchange rate at which the OID was accrued.

The amount of market discount on a foreign currency note includible in income will generally be determined by computing the market discount in the foreign currency and translating that amount into dollars at the spot rate on the date the foreign currency note is retired or otherwise disposed of. If the US Holder accrues market discount currently, the amount of market discount which accrues during any accrual period is determined in the foreign currency and translated into US dollars on the basis of the average exchange rate in effect during the accrual period. Exchange gain or loss may be recognized to the extent that the rate of exchange on the date of the retirement or disposition of the note differs from the exchange rate at which the market discount was accrued.

Amortizable bond premium on a foreign currency note is computed in units of foreign currency and, if the US Holder elects, will reduce interest income in units of foreign currency. At the time amortized bond premium offsets interest income (i.e., the last day of the tax year in which the election is made and the last day of each subsequent tax year), exchange gain or loss with respect to amortized bond premium is recognized and is measured by the difference between exchange rates at that time and at the time of the acquisition of the note.

With respect to the sale, exchange, retirement or other disposition of a note denominated in a foreign currency, the foreign currency amount realized will be considered to be first, the payment of accrued but unpaid interest (on which exchange gain or loss is recognized as described above); second, accrued but unpaid OID (on which exchange gain or loss is recognized as described above); and, finally, as receipt of principal. With respect to principal, exchange gain or loss is equal to the difference between (i) the foreign currency principal amount translated on the date the payment is received or the date of disposition, and (ii) the foreign currency principal amount translated on the date the note was acquired, or deemed acquired. Exchange gain or loss computed on accrued interest, OID, market discount and principal is realized, however, only to the extent of total gain or loss on the transaction. The conversion of US dollars into a foreign currency and the immediate use of that currency to purchase a foreign currency note generally will not result in a taxable gain or loss for a US Holder.

Sale, Exchange, Redemption or Repayment of the Notes

Upon the disposition of a note by sale, exchange, redemption, or repayment of principal at maturity, a US Holder will generally recognize taxable gain or loss equal to the difference between (i) the amount realized on the disposition (other than amounts attributable to accrued interest) and (ii) the US Holder's adjusted tax basis in the note. A US Holder's adjusted tax basis in a note generally will equal the cost of the note (net of accrued interest) to the US Holder, increased by amounts includible in income as OID or market discount (if the holder elects to include market discount in income on a current basis) and reduced by any amortized bond premium and any payments (other than payments of qualified stated interest) made on such note.

Because the note is held as a capital asset, such gain or loss (except to the extent that the market discount rules or the rules relating to short-term notes otherwise provide) will generally constitute capital gain or loss. Capital gains of individual taxpayers from the sale, exchange, or other disposition of a note held for more than one year may be eligible for reduced rates of taxation. The deductibility of a capital loss realized on the sale, exchange, or other disposition of a note is subject to limitations.

Disclosure Requirements for US Holders Experiencing Significant Book-Tax Differences

A US Holder that reports any item or items of income, gain, expense, or loss in respect of a note for tax purposes in an amount that differs from the amount reported for book purposes by more than \$10 million on a gross basis in any taxable year may be subject to certain disclosure requirements for "reportable transactions." Prospective investors should consult their tax advisors concerning any possible disclosure obligation with respect to the notes and penalty that may apply upon the failure to comply with such an obligation.

Tax Treatment of Non-US Holders

As used in this discussion, the term "Non-US Holder" means a beneficial owner of a note that is, for US federal income tax purposes:

a nonresident alien individual,

a foreign corporation,

a foreign partnership,

an estate whose income is not subject to US federal income tax on a net income basis, or

a trust if no court within the United States is able to exercise primary jurisdiction over its administration or if no United States persons have the authority to control all of its substantial decisions.

Edgar Filing: BEAR STEARNS COMPANIES INC - Form 424B5

Payments on the notes to Non-US Holders will not be subject to US federal income or withholding tax if the following conditions are satisfied:

the Non-US Holder does not actually or constructively own 10% or more of the total combined voting power of all classes of our stock entitled to vote,

the Non-US Holder is not a controlled foreign corporation for US federal income tax purposes that is related to us through actual or constructive ownership,

the Non-US Holder is not a bank receiving interest on a loan made in the ordinary course of its trade or business,

interest payable on the notes is not determined by reference to any receipts, sales or other cash flow, income or profits, change in the value of any property of, or any dividend or similar payment made by us or a person related to us, within the meaning of Code section 871(h)(4)(A), and

the payments are not effectively connected with a trade or business conducted by the Non-US Holder in the United States and either (a) the Non-US Holder provides a correct, complete and executed IRS Form W-8BEN, Form W-8EXP or Form W-8IMY (or successor form) with all of the attachments required by the IRS, or (b) the Non-US Holder holds its note through a qualified intermediary (generally a foreign financial institution or clearing organization or a non-US branch or office of a US financial institution or clearing organization that is a party to a withholding agreement with the IRS) which has provided to us an IRS Form W-8IMY stating that it is a qualified intermediary and has received documentation upon which it can rely to treat the payment as made to a foreign person.

If any of these exceptions apply, interest (including OID) on the notes will be subject to a 30% withholding tax when paid, unless an income tax treaty reduces or eliminates the tax or the interest is effectively connected with the conduct of a US trade or business and the Non-US Holder provides a correct, complete and executed IRS Form W-8ECI.

In general, gain realized on the sale, exchange or retirement of the notes by a Non-US Holder will not be subject to US federal income tax, unless:

the gain with respect to the notes is effectively connected with a trade or business conducted by the Non-US Holder in the United States, or

the Non-US Holder is a nonresident alien individual who holds the notes as a capital asset and is present in the United States for more than 182 days in the taxable year of the sale and certain other conditions are satisfied.

A note held by an individual who at death is a Non-US Holder will not be includible in the Non-US Holder's gross estate for US federal estate tax purposes if payments on the notes to the Non-US Holder would not have been subject to US federal income or withholding tax at the time of death under the tests described above.

Information Reporting and Backup Withholding

Information reporting will apply to certain payments on a note (including interest and OID) and proceeds of the sale of a note held by a US Holder that is not an exempt recipient (such as a corporation). Backup withholding may apply to payments made to a US Holder if (a) the US Holder has failed to provide its correct taxpayer identification number on IRS Form W-9, (b) we have been notified by the IRS of an underreporting by the US Holder (underreporting generally refers to a determination by the IRS that a payee has failed to include in income on its tax return any reportable dividend and interest payments required to be shown on a tax return for a taxable year), or (c) we have been notified by the IRS that the tax identification number provided to the IRS on an information return does not match IRS records or that the number was not on the information return.

Edgar Filing: BEAR STEARNS COMPANIES INC - Form 424B5

Backup withholding and nonresident alien withholding will not be required with respect to interest paid to Non-US Holders, so long as we have received from the Non-US Holder a correct and complete IRS Form W-8BEN, W-8ECI, W-8EXP or Form W-8IMY with all of the attachments required by the IRS. Interest paid to a Non-US Holder will be reported on IRS Form 1042-S which is filed with the IRS and sent to Non-US Holders.

Information reporting and backup withholding may apply to the proceeds of a sale of a note by a Non-US Holder made within the United States or conducted through certain US related financial intermediaries, unless we receive one of the tax forms described above.

Backup withholding is not an additional tax and may be refunded (or credited against your US federal income tax liability, if any). The information reporting requirements may apply regardless of whether withholding is required. For Non-US Holders, copies of the information returns reporting such interest and withholding also may be made available to the tax authorities in the country in which a Non-US Holder is a resident under the provisions of an applicable income tax treaty or agreement.

The preceding discussion is only a summary of certain of the tax implications of an investment in notes. Prospective investors are urged to consult with their own tax advisors prior to investing to determine the tax implications of such investment in light of each such investor's particular circumstances.

SUPPLEMENTAL PLAN OF DISTRIBUTION

We are offering the notes on a continuing basis through agents. Any agent may sell notes to dealers at a concession not in excess of the discount it received from us. We also may sell the notes:

- (a) directly to purchasers on our own behalf; or
- (b) through any agent as principal, either at a discount from their principal amount to be agreed on at the time of sale or at 100% of their principal amount, for resale to one or more investors and other purchasers at different prices to be determined by the agent at the time of resale, which may be greater or lesser than the purchase price for those notes paid by the agent.

We will have the sole right to accept offers to purchase notes and may reject any proposed purchase of the notes in whole or part. Each agent will have the right, in its reasonably exercised discretion, to reject any offer to purchase the notes it receives in whole or in part. We will pay each agent a commission, in the form of a discount, ranging from .125% to .750% of the price offered to the public of the notes, depending on maturity, sold through that agent. Any agent may agree with us to accept a commission other than one based on maturity, in which case the commission will be set forth in the applicable pricing supplement. We and Bear, Stearns & Co. Inc., as the agent, have entered into a distribution agreement dated as of June 19, 2003, as amended, with respect to the notes. Pursuant to the terms of the distribution agreement, the agent has agreed to use its reasonable best efforts to solicit orders to purchase notes. We may also appoint additional agents to solicit offers to purchase the notes, who will enter into the above distribution agreement. Any other agents will be named in the applicable pricing supplement and any solicitation and sale of notes through those agents will be on the same terms and conditions to which the agent has agreed. The other agents or dealers through which we or the agent may sell notes may be our affiliates or customers and may engage in transactions with and perform services for us in the ordinary course of business. We also may pay fees and other amounts to an agent or an affiliate of an agent in connection with certain transactions that we enter into in connection with certain issuances of the notes, which might exceed the agent's discount.

Unless the applicable pricing supplement indicates otherwise, payment of the purchase price shall be made in funds that are immediately available in New York City.

The agents may be deemed to be "underwriters" within the meaning of the Securities Act of 1933, as amended. We have agreed to indemnify the agents against or to make contributions relating to certain civil liabilities, including liabilities under the Securities Act. We have agreed to reimburse the agents for certain expenses.

Following the initial distribution of notes, the agent or other affiliates of The Bear Stearns Companies Inc. may use this prospectus supplement in connection with offers and sales associated with market-making transactions in the notes. Each agent may act as principal or agent in the market-making transactions. The offers and sales will be made at prices that relate to prevailing prices at the time.

Any agents offering notes will not confirm sales to any accounts over which they exercise discretionary authority without the prior approval of the customer.

Because Bear, Stearns & Co. Inc. is our wholly-owned subsidiary, each distribution of the notes will conform to the requirements set forth in Rule 2720 of the NASD Conduct Rules. The maximum commission or discount received by any NASD member or independent broker-dealer participating in a distribution of the notes will not be greater than eight percent of the aggregate principal amount of the offering of the notes in which such NASD member or independent broker-dealer participates.

VALIDITY OF THE NOTES

The validity of the notes will be passed on for us by Cadwalader, Wickersham & Taft LLP, New York, New York.

S-37

GLOSSARY

Set forth below are definitions of some of the terms used in this prospectus supplement.

"Business Day" means any day that (a) is not a Saturday or Sunday, (b) in New York, New York, is not a day on which banking institutions generally are authorized or required by law or executive order to close, and (c) if the interest rate formula basis is LIBOR, is also a London Banking Day.

"Calculation Agent" means the person chosen by us to perform the duties related to interest rate calculations and resets for the floating rate notes.

"Calculation Date" means, with regard to an Interest Determination Date, the earlier of (i) the 10th calendar day after the Interest Determination Date or if that day is not a Business Day, the next Business Day or (ii) the Business Day before the applicable interest payment date, maturity date, redemption date or repayment date.

"Exchange Rate Agent" means JPMorgan Chase Bank, N.A. (formerly, The Chase Manhattan Bank), unless otherwise specified in the applicable pricing supplement.

"H.15(519)" means the weekly statistical release entitled "Statistical Release H.15(519), Selected Interest Rates," or any successor publication, published by the Board of Governors of the Federal Reserve System.

"Index Maturity" means the period to maturity of the instrument or obligation on which the interest rate formula is based, as specified in the applicable pricing supplement.

"London Banking Day" means any day on which dealings or deposits in US dollars are transacted in the London interbank market.

"Money Market Yield" means the yield, expressed as a percentage, calculated in accordance with the following formula:

$$\text{Money Market Yield} = \frac{D \times 360}{360 - (D \times M)} \times 100$$

where "D" refers to the per annum rate for commercial paper quoted on a bank discount basis and expressed as a decimal; and "M" refers to the actual number of days in the interest period for which interest is being calculated.

"Paying Agent" means JPMorgan Chase Bank, N.A. (formerly, The Chase Manhattan Bank), unless otherwise specified in the applicable pricing supplement.

"Reuters Screen LIBO Page" means the display designated as page "LIBO" on the Reuters Monitor Money Rates Service (or such other page as may replace the LIBO page on that service for the purpose of displaying London interbank offered rates of major banks).

"Reuters Screen NYMF Page" means the display designated as page "NYMF" on the Reuters Monitor Money Rates Service (or such other page as may replace the NYMF page on that service for the purpose of displaying prime rates or base lending rates of major US banks).

"Telerate Page 3750" means the display designated as page "3750" on the Telerate Service (or such other page as may replace the 3750 page on that service or such other service or services as may be nominated by the British Bankers' Association for the purpose of displaying London interbank offered rates for US dollar deposits).

PROSPECTUS

The Bear Stearns Companies Inc.

Debt Securities Warrants Preferred Stock Depositary Shares

By this prospectus, we intend to offer at one or more times

Debt Securities
Warrants to Purchase Debt Securities
Preferred Stock
Depositary Shares

in one or more series with an aggregate initial public offering price of up to \$12,410,781,162 (as described in the applicable prospectus supplement).

We will provide the specific terms of these securities in supplements to this prospectus. You should read this prospectus and any supplements carefully before you invest in the securities.

Neither the Securities and Exchange Commission nor any state securities commission has approved or disapproved of these securities or passed upon the adequacy or accuracy of this prospectus. Any representation to the contrary is a criminal offense.

We may use this prospectus in the initial sale of these securities. In addition, Bear, Stearns & Co. Inc. or any of our other affiliates may use this prospectus in a market-making transaction in any of these or similar securities after their initial sale. **Unless we or our agent inform the purchaser otherwise in the confirmation of sale, this prospectus is being used in a market-making transaction.**

Bear, Stearns & Co. Inc.

Prospectus dated February 2, 2005.

WHERE YOU CAN FIND MORE INFORMATION

We file current, annual and quarterly reports, proxy statements and other information required by the Securities Exchange Act of 1934, as amended, with the SEC. You may read and copy any document we file at the SEC's public reference room located at 450 Fifth Street, N.W., Washington, D.C. 20549. Please call the SEC at 1-800-SEC-0330 for further information about the public reference room. Our SEC filings are also available to the public from the SEC's Internet site at <http://www.sec.gov>. Copies of these reports, proxy statements and other information can also be inspected at the offices of the New York Stock Exchange, Inc., 20 Broad Street, New York, New York 10005.

Our website is <http://www.bearstearns.com>. We make available free of charge on our website, via a link to the SEC's internet site at <http://www.sec.gov>, our annual reports on Form 10-K, quarterly reports on Form 10-Q, current reports on Form 8-K, proxy statements and Forms 3, 4 and 5 filed on behalf of directors and executive officers and any amendments to those reports filed or furnished pursuant to the Exchange Act as soon as reasonably practicable after such material is electronically filed with, or furnished to, the SEC.

In addition, we currently make available on <http://www.bearstearns.com> our most recent annual report on Form 10-K, our quarterly reports on Form 10-Q for the current fiscal year and our most recent proxy statement, although in some cases these documents are not available on our website as soon as they are available on the SEC's internet site. You will need to have on your computer the Adobe Acrobat Reader software to view these documents, which are in the .PDF format.

We have filed with the SEC a registration statement on Form S-3 (the "Registration Statement") under the Securities Act of 1933, as amended, with respect to the securities. This prospectus, which constitutes a part of that Registration Statement, does not include all the information contained in that Registration Statement and its exhibits. For further information with respect to the securities, you should consult the Registration Statement and its exhibits.

Statements contained in this prospectus concerning the provisions of any documents are necessarily summaries of those documents, and each statement is qualified in its entirety by reference to the copy of the document filed with the SEC. The Registration Statement and any of its amendments, including exhibits filed as a part of the Registration Statement or an amendment to the Registration Statement, are available for inspection and copying through the entities listed above.

The SEC allows us to "incorporate by reference" the information that we file with them, which means that we can disclose important information to you by referring you to the other information we have filed with the SEC. The information that we incorporate by reference is considered to be part of this prospectus, and information that we file later with the SEC will automatically update and supersede this information.

The following documents filed by us with the SEC pursuant to Section 13 of the Exchange Act (File No. 1-8989) and any future filings under Sections 13(a), 13(c), 14 or 15(d) of the Exchange Act made before the termination of the offering are incorporated by reference:

- (1) the Annual Report on Form 10-K (including the portions of the Company's Annual Report to Stockholders and Proxy Statement incorporated by reference therein) for the fiscal year ended November 30, 2003;
- (2) the Quarterly Reports on Form 10-Q for the fiscal quarters ended February 29, 2004, May 31, 2004 and August 31, 2004;
and
- (3) the Current Reports on Form 8-K dated December 15, 2003, December 17, 2003, December 17, 2003, January 7, 2004, January 21, 2004, March 3, 2004, March 17, 2004, March 18, 2004, March 18, 2004, April 1, 2004, May 25, 2004, June 15, 2004, June 16, 2004, June 16, 2004, September 7, 2004, September 22, 2004, September 22, 2004, September 22, 2004, September 27, 2004, October 29, 2004, November 4, 2004, November 18, 2004, November 29, 2004, December 21, 2004, December 28, 2004, January 5, 2005, January 6, 2005, January 20, 2005 and January 25, 2005.

Edgar Filing: BEAR STEARNS COMPANIES INC - Form 424B5

We will provide to you without charge, a copy of any or all documents incorporated by reference into this prospectus except the exhibits to those documents (unless they are specifically incorporated by reference in those documents). You may request copies by writing or telephoning us at our Investor Relations Department, The Bear Stearns Companies Inc., 383 Madison Avenue, New York, New York 10179; telephone number (212) 272-2000.

THE BEAR STEARNS COMPANIES INC.

We are a holding company that, through our broker-dealer and international bank subsidiaries, principally Bear, Stearns & Co. Inc. ("Bear Stearns"), Bear, Stearns Securities Corp. ("BSSC"), Bear, Stearns International Limited ("BSIL") and Bear Stearns Bank plc ("BSB"), is a leading investment banking, securities and derivatives trading, clearance and brokerage firm serving corporations, governments, institutional and individual investors worldwide. BSSC, a subsidiary of Bear Stearns, provides professional and correspondent clearing services, in addition to clearing and settling customer transactions and certain of our proprietary transactions. In addition to conducting a substantial portion of our operating activities through certain of our regulated subsidiaries (Bear Stearns, BSSC, BSIL and BSB), we also conduct significant activities through other wholly-owned subsidiaries including: Bear Stearns Global Lending Limited, Custodial Trust Company, Bear Stearns Financial Products Inc., Bear Stearns Capital Markets Inc., EMC Mortgage Corporation, Bear Stearns Commercial Mortgage Inc., Bear Stearns Credit Products Inc. and Bear Stearns Forex Inc.

Our business includes:

market-making and trading in US government, government agency, corporate debt and equity, mortgage-related, asset-backed, municipal securities and high yield products;

trading in options, futures, foreign currencies, interest rate swaps and other derivative products;

securities, options and futures brokerage;

providing securities clearance services;

managing equity and fixed income assets for institutional and individual clients;

financing customer activities;

securities lending;

securities and futures arbitrage;

involvement in specialist activities on the New York Stock Exchange, American Stock Exchange and International Securities Exchange ("ISE");

underwriting and distributing securities;

arranging for the private placement of securities;

assisting in mergers, acquisitions, restructurings and leveraged transactions;

Edgar Filing: BEAR STEARNS COMPANIES INC - Form 424B5

making principal investments in leveraged acquisitions;

engaging in commercial real estate activities;

investment management and advisory services; and

fiduciary, custody, agency and securities research services.

Our business is conducted:

from our principal offices in New York City;

from domestic regional offices in Atlanta, Boston, Chicago, Dallas, Denver, Los Angeles, San Francisco and San Juan;

from representative offices in Beijing, Herzliya, Hong Kong, Sao Paulo and Shanghai;

Edgar Filing: BEAR STEARNS COMPANIES INC - Form 424B5

through international offices in Dublin, Hong Kong, London, Lugano, Milan, Singapore and Tokyo; and

through joint ventures with other firms in Belgium, Greece, Spain and Sweden.

Our international offices provide services and engage in investment activities involving foreign clients and international transactions. Additionally, certain of these foreign offices provide services to US clients.

Bear Stearns and BSSC are broker-dealers and investment advisers registered with the SEC. Bear Stearns and/or BSSC are also members of the NYSE, all other principal US securities and futures exchanges, the National Association of Securities Dealers, Inc. ("NASD"), the Commodity Futures Trading Commission, the National Futures Association and the ISE. Bear Stearns is a "primary dealer" in US government securities as designated by the Federal Reserve Bank of New York.

BSIL is a full service broker-dealer based in London and among other European exchanges, is a member of Eurex Deutschland, the International Petroleum Exchange, Euronext Liffe, Euronext Paris and NASDAQ Europe. BSIL is supervised by and is regulated in accordance with the rules of the Financial Services Authority.

BSB is an Ireland-based bank, which was registered in 1996 and subsequently granted a banking license on April 10, 1997 under the Irish Central Bank Act, 1971. BSB allows our existing and prospective clients the opportunity of dealing with a banking counterparty.

Bear Stearns Global Lending Limited ("BSGL") provides loans to certain Bear Stearns customers. BSGL is incorporated in the Cayman Islands.

Custodial Trust Company ("CTC"), an FDIC insured New Jersey State chartered bank, offers a range of trust, lending and securities-clearance services. CTC provides us with banking powers including access to the securities and funds-wire services of the Federal Reserve System. CTC provides trust, custody, agency and securities lending services for institutional accounts; commercial and margin lending; the clearance of government securities for institutions and dealers; and the processing of mortgage and mortgage-related products, including derivatives and collateralized mortgage obligations products. At November 30, 2004, CTC held approximately \$81 billion of assets for clients, including institutional clients such as pension funds, mutual funds, endowment funds and insurance companies.

Bear Stearns Financial Products Inc. ("BSFP") transacts business as a triple-A-rated counterparty to eligible clients, offering a wide range of fixed income and equity derivative products. Eligible clients are those rated A3 or better by Moody's Investors Service, Inc. and A- or better by Standard & Poor's Ratings Services or counterparties acceptable to both rating agencies. BSFP transfers its market risk associated with derivative transactions to Bear Stearns Capital Markets Inc., an affiliate of BSFP and one of our wholly-owned subsidiaries. BSFP is incorporated in the State of Delaware.

Bear Stearns Capital Markets Inc. ("BSCM") is engaged in fixed income derivatives transactions and hedges associated therewith. BSCM is incorporated in the State of Delaware.

EMC Mortgage Corporation ("EMC"), is a HUD and Freddie MAC approved lender based in Irving, Texas. EMC purchases both conforming and non-conforming, investment-grade and non-investment grade, conventional fixed rate and adjustable rate residential mortgage loans with servicing released or retained and sells such loans to investors. EMC also purchases and sells residual certificates and mortgage servicing rights. In addition, through a subsidiary, EMC may originate commercial construction loans through approved brokers.

Bear Stearns Commercial Mortgage Inc. activities benefit mortgage customers by providing a source for owners of property to finance commercial, multifamily, and manufactured housing community properties, including the placement of these loans through mortgage bankers in the states in which it is duly licensed or exempted.

Edgar Filing: BEAR STEARNS COMPANIES INC - Form 424B5

Bear Stearns Credit Products Inc. ("BSCPI") is engaged in credit derivatives transactions and hedges associated therewith. BSCPI is incorporated in the State of Delaware.

Bear Stearns Forex Inc. ("BSFX") is a foreign exchange dealer engaged in foreign currency transactions and hedges associated therewith. BSFX is incorporated in the State of Delaware.

We are incorporated in the State of Delaware. Our principal executive office is located at 383 Madison, New York, New York 10179, USA, and our telephone number is (212) 272-2000. Our internet address is <http://www.bearstearns.com>. In this prospectus, the terms "Company," "we," "us" and "our" refer only to The Bear Stearns Companies Inc. excluding its consolidated subsidiaries.

USE OF PROCEEDS

Unless otherwise specified in the applicable prospectus supplement, we intend to use the net proceeds from the sale of the securities for general corporate purposes, which may include additions to working capital, the repayment of short-term and long-term debt and investments in, or extensions of credit to, subsidiaries. Pending such uses, the net proceeds may be temporarily invested in short-term obligations.

RATIO INFORMATION

The ratio of earnings to fixed charges was calculated by dividing the sum of the fixed charges into the sum of the earnings before taxes and fixed charges. The ratio of earnings to combined fixed charges and preferred dividends was calculated by dividing the sum of fixed charges and preferred dividends into the sum of earnings before taxes and fixed charges. Fixed charges for purposes of the ratios consist of interest expense and certain other expenses. Preferred dividends represent the pre-tax earnings necessary to cover the dividends on our preferred stock, assuming such earnings are taxed at our consolidated effective tax rate.

The table below presents the ratio of earnings to fixed charges and the ratio of earnings to combined fixed charges and preferred dividends for the fiscal years ended November 30, 2004, 2003, 2002, 2001 and 2000.

	Fiscal Year Ended November 30,				
	2004	2003	2002	2001	2000
Ratio of earnings to fixed charges	2.2	2.2	1.7	1.2	1.2
Ratio of earnings to combined fixed charges and preferred dividends	2.2	2.2	1.7	1.2	1.2

DESCRIPTION OF DEBT SECURITIES

This section describes certain general terms and provisions of the debt securities to which any prospectus supplement may relate. The particular terms of any debt securities offered by a prospectus supplement and the extent to which these general terms and provisions will not apply to the particular series of debt securities being offered, will be described in the prospectus supplement relating to that particular series of debt securities.

We will issue the debt securities under the Indenture, dated as of May 31, 1991, as amended (the "Indenture"), between us and JPMorgan Chase Bank, N.A. (formerly, The Chase Manhattan Bank), as trustee (the "Trustee").

The terms of the debt securities include those stated in the Indenture and those made part of the Indenture by reference to the Trust Indenture Act of 1939, as amended. We have filed a copy of the Indenture as an exhibit to the Registration Statement of which this prospectus forms a part. A copy of the Indenture is available as described under "Where You Can Find More Information."

This section, along with the description in the applicable prospectus supplement, is a summary of the material provisions of the Indenture and is not complete. It does not restate the Indenture in its entirety. We urge you to read the Indenture because it, and not these descriptions, defines your rights as a holder of debt securities.

General

We may offer debt securities for an aggregate principal amount of up to \$12,410,781,162 under this prospectus. As of the date of this prospectus, we have issued approximately \$92,455,416,650 aggregate principal amount of debt securities under the Indenture, of which \$23,616,093,000 is outstanding. The Indenture permits us to:

issue debt securities at various times in one or more series;

issue an unlimited principal amount of debt securities;

provide for the issuance of other debt securities under the Indenture other than those authorized on the date of this prospectus at various times and without your consent; and

"reopen" a previous issue of a series of debt securities and issue additional debt securities of the series.

Each prospectus supplement will describe the terms of any debt securities we issue, which may include the following:

the title and type of the debt securities;

the total principal amount of the debt securities;

the minimum denominations;

the percentage of the stated principal amount at which the debt securities will be sold and, if applicable, the method of determining the price;

the person to whom interest is payable, if other than the owner of the debt securities;

the maturity date or dates;

Edgar Filing: BEAR STEARNS COMPANIES INC - Form 424B5

the interest rate or rates, which may be fixed or variable, and the method used to calculate that interest;

any index used to determine the amounts of any payments on the debt securities and the manner in which those amounts will be determined;

Edgar Filing: BEAR STEARNS COMPANIES INC - Form 424B5

the interest payment dates, the regular record dates for the interest payment dates, and the date interest will begin to accrue;

the place or places where payments on the debt securities may be made and the place or places where the debt securities may be presented for registration of transfer or exchange;

any date or dates after which the debt securities may be redeemed, repurchased, or repaid in whole or in part at our option or the option of the holder and the periods, prices, terms, and conditions of that redemption, repurchase, or repayment;

any exchange or conversion features;

if other than the full principal amount, the portion of the principal amount of the debt securities that will be payable if their maturity is accelerated;

the currency of principal, any premium, interest, and any other amounts payable on the debt securities, if other than US dollars;

if the debt securities will be issued in other than book-entry form;

the identification of or method of selecting any interest rate calculation agents, exchange rate agents, or any other agents for the debt securities;

any provisions for the discharge of our obligations relating to the debt securities by the deposit of funds or US government obligations;

any provision relating to the extension or renewal of the maturity date of the debt securities;

if applicable, the circumstances under which we will pay additional amounts on any debt securities held by a person who is not a United States person for tax purposes and under which we can redeem the debt securities if we have to pay additional amounts;

whether the debt securities will be listed on any securities exchange; and

any other terms of the debt securities, which could be different from those described in this prospectus.

Unless we provide otherwise in an applicable prospectus supplement, we will issue debt securities only in registered form without coupons in denominations of \$1,000 and integral multiples of \$1,000, and in bearer form with or without coupons in the denomination of \$5,000. If we issue bearer debt securities of a series, we will describe the federal income tax consequences and other special considerations applicable to those bearer debt securities in the prospectus supplement relating to that series.

Unless we provide otherwise in the applicable prospectus supplement and subject to any limitations in the Indenture, you may transfer or exchange your registered securities at the corporate trust office or agency of the Trustee in the City and State of New York without paying a service charge, other than applicable tax or governmental charges. Bearer debt securities will be transferable by delivery. We will describe the provisions relating to the exchange of bearer debt securities of any series in the prospectus supplement relating to that series.

If the principal, any premium or interest on the debt securities of any series is payable in a foreign or composite currency, the applicable prospectus supplement will describe any restrictions, elections, federal income tax consequences, specific terms and other information that apply to those debt securities and the currency.

Edgar Filing: BEAR STEARNS COMPANIES INC - Form 424B5

We may sell one or more series of debt securities at a substantial discount below the stated principal amount, bearing either no interest or interest at a rate that at the time of issuance is below market rate. One or more series of debt securities may be variable rate debt securities that may be

exchanged for fixed rate debt securities. We will describe the federal income tax consequences and other special considerations applicable to a series in the prospectus supplement relating to that series.

Ranking

The debt securities will be unsecured and will rank equally with all of our other unsecured and unsubordinated indebtedness. We extend credit to our subsidiaries at various times. Any credit we may extend to our subsidiaries may be subordinated to the claims of unaffiliated creditors of those subsidiaries.

We are a holding company and depend on the earnings and cash flow of our subsidiaries to meet our obligations under the debt securities. Because the creditors of our subsidiaries generally would have a right to receive payment superior to our right to receive payment from the assets of our subsidiaries, the holders of our debt securities will effectively be subordinated to the creditors of our subsidiaries. If we were to liquidate or reorganize, your right to participate in any distribution of our subsidiaries' assets is necessarily subject to the senior claims of the subsidiaries' creditors. Furthermore, the Exchange Act and the rules of certain exchanges and other regulatory bodies, as well as covenants governing certain indebtedness of our subsidiaries, impose net capital requirements on some of our subsidiaries that limit their ability to pay dividends or make loans and advances to us.

Methods of Receiving Payment on the Debt Securities

Registered Debt Securities. Unless we otherwise provide in the applicable prospectus supplement, if the debt securities are in registered form, then the principal, any premium and interest will be payable at the corporate trust office or agency of the Trustee in the City and State of New York.

Interest payments made before maturity or redemption on registered debt securities may be made:

at our option, by check mailed to the address of the person entitled to payment; or

at your option, if you hold at least \$10 million in principal amount of registered debt securities, by wire transfer to an account you have designated in writing at least 16 days before the date on which the payment is due.

Bearer Debt Securities. Unless we provide otherwise in the applicable prospectus supplement, if the debt securities are in bearer form, then the principal, any premium and interest will be payable at the Trustee's office located outside the United States that is maintained for this purpose. No payment on a bearer debt security will be made by mail to a US address or by wire transfer to an account maintained in the United States, or will otherwise be made inside the United States, unless otherwise provided in the applicable prospectus supplement.

Notices

Registered Debt Securities. Unless otherwise provided in the applicable prospectus supplement, any notice given to a holder of a registered debt security will be mailed to the last address of such holder set forth in the applicable security register.

Bearer Debt Securities. Any notice given to a holder of a bearer debt security will be published in a daily newspaper of general circulation in the city or cities specified in the prospectus supplement relating to such bearer debt security.

Limitation on Liens

We may not, and may not permit any of our Restricted Subsidiaries to, issue, incur, assume, guarantee or suffer to exist any indebtedness for borrowed money secured by a pledge of, lien on or security interest in any shares of voting stock of any Restricted Subsidiary without effectively providing

that the securities issued under the Indenture, including the debt securities, will be secured equally and ratably with such secured indebtedness.

The term "Restricted Subsidiary" as defined in the Indenture means Bear Stearns, CTC, BSSC and any of our other subsidiaries owning, directly or indirectly, any of the common stock of, or succeeding to a significant portion of the business, property or assets of, a Restricted Subsidiary, or with which a Restricted Subsidiary is merged or consolidated.

Merger and Consolidation

We may consolidate or merge with or into any other corporation, and may sell, lease or convey all or substantially all of our assets to any corporation, organized and existing under the laws of the United States or any US state, if:

- (1) we or any other successor corporation shall not immediately after the merger or consolidation be in default under the Indenture; and
- (2) the continuing corporation (if other than us), or the resulting entity that receives substantially all of our assets, shall expressly assume:
 - (a) payment of the principal of, and premium, if any, and interest on (and any additional amounts payable in respect of) the debt securities and
 - (b) performance and observance of all of the covenants and conditions of the Indenture to be performed or observed by us.

Unless otherwise provided in the applicable prospectus supplement, and subject to the foregoing, the Indenture permits:

a consolidation, merger, sale of assets or other similar transaction that may adversely affect our creditworthiness or that of a successor or combined entity;

a change in control; or

a highly leveraged transaction involving us, whether or not involving a change in control;

and the Indenture, therefore, will not protect holders of the debt securities from the substantial impact that any of the transactions described above may have on the value of the debt securities.

Modification and Waiver

With the consent of the holders of 66²/₃% in principal amount of the outstanding debt securities of each series affected, we and the Trustee may modify or amend the Indenture, without the consent of each holder of the outstanding debt security affected, unless the modification or amendment:

changes the stated maturity or the date of any installment of principal of, or interest on, any debt security or changes its redemption price or optional redemption price;

reduces the principal amount of, or the rate of interest on, or the amount of any additional amount payable on, any debt security, or reduces the amount of principal that could be declared due and payable before the stated maturity of that debt security, or changes our obligation to pay any additional amounts (except as permitted under the Indenture), or reduces the amount of principal of a discount security that would be due and payable if accelerated under the Indenture;

changes the place or currency of any payment of principal, premium, if any, or interest on any debt security;

impairs the right to institute suit for the enforcement of any payment on or with respect to any debt security;

Edgar Filing: BEAR STEARNS COMPANIES INC - Form 424B5

reduces the percentage in principal amount of the outstanding debt securities of any series, the consent of whose holders is required to modify or amend the Indenture; or

modifies the foregoing requirements or reduces the percentage of outstanding debt securities necessary to waive any past default to less than a majority.

We may make any of these amendments or modifications, however, with the consent of the holder of each outstanding debt security affected.

Except with respect to defaults relating to certain fundamental provisions of the Indenture, which cannot be waived without the consent of the holders of each outstanding security of a series affected, the holders of at least a majority in principal amount of outstanding debt securities of any series may, with respect to that series, waive past defaults under the Indenture and waive compliance with certain provisions of the Indenture, either in a specific instance or generally.

Events of Default

Under the Indenture, an "Event of Default" with respect to any series of debt securities means:

- (1) a failure to pay any interest, or any additional amounts payable, on any debt securities of that series for 30 days after payment is due;
- (2) a failure to pay the principal of, and premium, if any, on any debt security of that series when due;
- (3) a failure to deposit any sinking fund payment when due relating to that series;
- (4) a failure to perform any other covenant contained in the Indenture or relating to that series that has continued for 60 days after written notice was provided;
- (5) a failure lasting 10 days after notice relating to any of our other indebtedness for borrowed money or indebtedness of any Restricted Subsidiary in excess of \$10 million, that results in such indebtedness becoming due and payable before maturity;
- (6) certain events of bankruptcy, insolvency or reorganization; and
- (7) any other Event of Default with respect to debt securities of that series.

Concerning the Trustee

Within 90 days after any default, the Trustee will notify you of the default, unless the default is cured or waived.

The Trustee may withhold notice of a default (except a default relating to the payment of principal, premium or interest, or any additional amounts related to any debt security or the payment of any sinking fund installment), if the Trustee in good faith determines that withholding notice is in your interests.

If a default in the performance or breach of any covenant in the Indenture or relating to that series occurs and continues for 60 days after written notice has been given to us or the Trustee by the holders of at least 25% in principal amount of the outstanding debt securities of a series, the Trustee will not give notice to the holders for at least an additional 30 days after such default.

If an event of default for any series of debt securities occurs and continues, the Trustee or the holders of 25% of the aggregate principal amount (or any lesser amount that the series may provide) of the outstanding debt securities affected by the default may require us to

immediately repay the entire principal amount (or any lesser amount that the series may provide) of the outstanding debt securities of such series.

So long as the Trustee has not yet obtained a judgment or decree for payment of money due, and we have paid all amounts due (other than those due solely as a result of acceleration) and have remedied all Events of Default, the holders of a majority in principal amount of the outstanding debt securities of the affected series may rescind any acceleration or may waive any past default. However, the holders of a majority in principal amount of all outstanding debt securities of the affected series may not waive any Event of Default with respect to any series of debt securities in the following two circumstances:

a failure to pay the principal of, and premium, if any, or interest on, or any additional amounts payable in respect of, any debt security of that series for which payment had not been subsequently made; or

a covenant or provision that cannot be modified or amended without the consent of each holder of outstanding debt security of that series.

The holders of a majority in principal amount of the outstanding debt securities of a series may direct the time, method and place of conducting any proceeding for any remedy available to the Trustee or exercising any trust or power conferred on the Trustee with respect to debt securities of that series, provided that this direction is not in conflict with any rule of law or the Indenture. Before proceeding to exercise any right or power under the Indenture at the direction of those holders, the Trustee will be entitled to receive from those holders reasonable security or indemnity against the costs, expenses and liabilities which might be incurred by it in complying with any such direction.

We are required to deliver to the Trustee an annual statement as to our fulfillment of all of our obligations under the Indenture.

Defeasance

If provided for under the Indenture with respect to debt securities of any series that are registered debt securities denominated and payable only in US dollars (except as otherwise provided under the Indenture), we will:

be discharged from any and all obligations in respect of the debt securities of that series under the Indenture (except for certain obligations to register the transfer or exchange of debt securities of that series, replace stolen, lost or mutilated debt securities of that series, maintain paying agents and hold moneys for payment in trust) on the 91st day after the applicable conditions described in this paragraph have been satisfied; or

not be subject to provisions of the Indenture described above under the subsections entitled " Limitation on Liens" and " Merger and Consolidation" with respect to the debt securities of that series;

in each case if we deposit with the Trustee, in trust, money or US government obligations that, through the payment of interest and principal in accordance with their terms, will provide money in an amount sufficient to pay all the principal (including any mandatory sinking fund payments) of, and premium, if any, and any interest on, the debt securities of that series on the dates such payments are due in accordance with the terms of those debt securities.

To exercise either option, we are required to deliver to the Trustee an opinion of counsel to the effect that:

- (1) the deposit and related defeasance would not cause the holders of the debt securities of the series being defeased to recognize income, gain or loss for US federal income tax purposes; and
- (2) if the debt securities of that series are then listed on the NYSE, the exercise of the option would not result in delisting.

We may specify defeasance provisions with respect to any series of debt securities.

DESCRIPTION OF WARRANTS

This section sets forth certain general terms and provisions of the warrants to which any prospectus supplement may relate. The particular terms of the warrants offered by any prospectus supplement and the extent to which such general terms and provisions will not apply to the warrants so offered will be described in the prospectus supplement relating to those warrants.

We may issue warrants that are debt warrants, index warrants, interest rate warrants or universal warrants as described in the applicable prospectus supplement. Warrants may be offered independently of or together with one or more additional warrants, any series of debt securities, preferred stock or other securities or any combination thereof and may be attached to or separate from any such securities. The warrants will be settled either through physical delivery or through payment of a cash settlement value as described in this prospectus and in any applicable prospectus supplement.

Each series of warrants will be issued under a separate warrant agreement to be entered into between us and a bank or a trust company, as warrant agent, all as described in the prospectus supplement relating to that series of warrants. The warrant agent will act solely as our agent under the applicable warrant agreement and in connection with the certificates for any warrants of that series, and will not assume any obligation or relationship of agency or trust for or with any holders of those warrant certificates or beneficial owners of those warrants.

This section, along with the description in the applicable prospectus supplement, is a summary of certain provisions of the forms of warrant agreements and warrant certificates and is not complete. We urge you to read the warrant agreements and the warrant certificates, because those documents, and not these descriptions, define your rights as a holder of warrants. We have filed copies of the forms of the warrant agreements and warrant certificates as exhibits to the Registration Statement of which this prospectus is a part. Copies of the forms of warrant agreements and warrant certificates are available as described under "Where You Can Find More Information."

Debt Warrants

We may issue, together with debt securities or separately, debt warrants for the purchase of debt securities on terms to be determined at the time of sale.

Index Warrants

We may issue index warrants entitling the holders thereof to receive from us, upon exercise, an amount in cash determined by reference to decreases or increases in the level of a specific index or in the levels (or relative levels) of two or more indices or combinations of indices, which index or indices may be based on one or more stocks, bonds or other securities, one or more interest rates, one or more currencies or currency units, or any combination of the foregoing.

Interest Rate Warrants

We may issue interest rate warrants entitling the holders thereof to receive from us, upon exercise, an amount in cash determined by reference to decreases or increases in the yield or closing price of one or more specified debt instruments or in the interest rates, interest rate swap rates, or other rates established from time to time by one or more specified financial institutions, or any combination of the foregoing.

Universal Warrants

We may also issue universal warrants:

to purchase or sell securities of one or more issuers, securities based on the performance of an issuer, securities based on the performance of an issuer but excluding the performance of a particular subsidiary or subsidiaries of that issuer, a basket of securities, or securities whose value is determined by reference to the performance, level, or value of, any other financial, economic or other measure or instrument, including the occurrence or non-occurrence of any event or circumstance, or any combination of the above;

entitling the holders thereof to receive from us, upon exercise, an amount in cash determined by reference to the right to purchase or the right to sell a specified amount of one or more currencies or currency units or any combination of the foregoing for a specified amount of one or more different currencies or currency units or any combination of the foregoing;

to purchase or sell commodities; or

in such other form as shall be specified in the applicable prospectus supplement.

We refer to the property in the above clauses as the warrant property. We may satisfy our obligations, if any, with respect to any universal warrants by delivering the warrant property, cash or in the case of warrants to purchase or sell securities or commodities, the cash value of the securities or commodities, as described in the applicable prospectus supplement.

Further Information in Prospectus Supplement

General Terms of Warrants

The applicable prospectus supplement may contain, where applicable, the following additional information relating to the warrants:

the specific designation and aggregate number of warrants;

the offering price;

the currency, currency unit, currency index or currency basket based on or relating to currencies for which those warrants may be purchased;

the date on which the right to exercise those warrants will commence and the date on which that right will expire or, if you may not continuously exercise the warrants throughout that period, the specific date on which you may exercise the warrants;

whether the warrants will be issued in registered form or bearer form;

whether those warrants are extendible and the period or periods of such extendibility;

the terms upon which bearer warrants of any series may be exchanged for registered warrants of that series;

Edgar Filing: BEAR STEARNS COMPANIES INC - Form 424B5

whether those warrants will be issued in book-entry form, as a global warrant certificate, or in certificated form;

any applicable US federal income tax consequences;

the identity of the warrant agent for the warrants and of any other depositories, execution or paying agents, transfer agents, registrars, determination, or other agents;

Edgar Filing: BEAR STEARNS COMPANIES INC - Form 424B5

the proposed listing, if any, of the warrants or any securities purchasable upon exercise of the warrants on any securities exchange;

whether the warrants are to be sold separately or with other securities; and

any other terms of those warrants not inconsistent with the applicable warrant agreement.

Additional Terms of Debt Warrants

The applicable prospectus supplement may contain, where applicable, the following additional information relating to any debt warrants:

the designation, aggregate principal amount, currency and terms of the debt securities that may be purchased upon exercise of the debt warrants;

the exercise price and whether the exercise price may be paid in cash, by the exchange of any debt warrants or other securities or both and the method of exercising the debt warrants; and

the designation, terms and amount of debt securities, if any, to be issued together with each of the debt warrants and the date, if any, after which the debt warrants and debt securities will be separately transferable.

Additional Terms of Index and Interest Rate Warrants

The applicable prospectus supplement may contain, where applicable, the following additional information relating to any index and interest rate warrants:

the exercise price, if any;

the index or indices for any index warrants, which index or indices may be based on one or more US or foreign stocks, bonds, or other securities, one or more US or foreign interest rates, one or more currencies or currency units, or any combination of the foregoing, and may be a preexisting US or foreign index or an index based on one or more securities, interest rates, currencies or currency units selected by us solely in connection with the issuance of such index warrants, and certain information regarding such index or indices and the underlying securities, interest rates, currencies or currency units (including, to the extent possible, the policies of the publisher of the index with respect to additions, deletions and substitutions of such securities, interest rates, currencies or currency units);

for index warrants, the method of providing for a substitute index or indices or otherwise determining the amount payable in connection with the exercise of such index warrants if the index changes or ceases to be made available by the publisher of the index;

the commodity, commodity index or combinations of commodities or commodity indices;

any market to which the commodity or commodity index relates;

the debt instrument (which may be one or more debt instruments issued either by the US government or by a foreign government), the rate (which may be one or more interest rates or interest rate swap rates established from time to time by one or more specified financial institutions) or the other yield or price utilized for any interest rate warrants, and certain

Edgar Filing: BEAR STEARNS COMPANIES INC - Form 424B5

information regarding such debt instrument, rate, yield or price;

the strike amount, the method of determining the spot amount and the method of expressing movements in the yield or closing price of the debt instrument or in the level of the rate as a

Edgar Filing: BEAR STEARNS COMPANIES INC - Form 424B5

cash amount in the currency in which the interest rate cash settlement value of any interest rate warrants is payable;

whether such warrants shall be put warrants, call warrants or otherwise;

the formula for determining the cash settlement value of each warrant;

the circumstances, if any, under which a minimum and/or maximum expiration value is applicable upon the expiration of such warrants;

any minimum number of warrants which must be exercised at any one time, other than upon automatic exercise;

the maximum number, if any, of such warrants that may, subject to our election, be exercised by all holders on any day;

any provisions for the automatic exercise of such warrants other than at expiration;

whether and under what circumstances such warrants may be canceled by us prior to the expiration date; and

any other procedures and conditions relating to the exercise of such warrants.

Additional Terms of Universal Warrants

The applicable prospectus supplement may contain, where applicable, the following additional information relating to any universal warrants:

whether the universal warrants are put warrants or call warrants and whether you or we will be entitled to exercise the warrants;

the specific warrant property, and the amount or the method for determining the amount of the warrant property, that may be purchased or sold upon exercise of each universal warrant;

the currency in which the exercise price, if any, and the cash settlement value of such warrants is payable;

the base currency and the reference currency for any currency warrants;

the price at which and the currency with which the underlying securities or commodities may be purchased or sold upon the exercise of each universal warrant, or the method of determining that price;

whether the exercise price may be paid in cash, by the exchange of any other security offered with the universal warrants or both and the method of exercising the universal warrants; and

whether the exercise of the universal warrants is to be settled in cash or by delivery of the underlying securities or commodities or both.

Before you exercise your warrants, you will not have any of the rights of (1) holders of the debt securities of the series purchasable upon such exercise, including the right to receive payments of principal, any premium or interest on those debt securities, or to enforce any of the covenants or rights in the relevant indenture or any other agreement or (2) holders of preferred stock or other securities purchasable upon such

exercise, including the right to receive payments of dividends, if any, on such preferred stock or other securities or to exercise any applicable right to vote.

You may exchange registered warrants of any series for registered warrants of the same series representing in total the number of warrants that you have surrendered for exchange. To the extent permitted, you may exchange warrant certificates and transfer registered warrants at the corporate trust office of the warrant agent for that series of warrants (or any other office indicated in the prospectus supplement relating to that series of warrants).

Unless otherwise specified in the applicable prospectus supplement, warrants will be issued in book-entry only form, and will be represented by a single global warrant certificate, registered in the name of the nominee of the depository of the warrants.

Bearer warrants will be transferable by delivery. The applicable prospectus supplement will describe the terms of exchange applicable to any bearer warrants.

Exercise of Warrants

You may exercise your warrants at the corporate trust office of the warrant agent (or any other office indicated in the prospectus supplement relating to those warrants) up to 5:00 p.m., New York time, on the date stated in the prospectus supplement relating to those warrants or as may be otherwise stated in the prospectus supplement. If you do not exercise your warrants before the time on that date (or such later date that we may set), your unexercised warrants will become void.

Only registered debt securities will be issued and delivered upon exercise of registered warrants. Warrants will be deemed to have been exercised upon receipt of the warrant certificate and any payment, if applicable, at the corporate trust office of the warrant agent or any other office indicated in the applicable prospectus supplement and we will, as soon as practicable after such receipt and payment, issue and deliver the warrant property or pay the settlement value in respect of the warrants.

If fewer than all of the warrants represented by such warrant certificate are exercised, a new warrant certificate will be issued for the remaining amount of the warrants. Special provisions relating to the exercise of any bearer warrants or automatic exercise of warrants will be described in the applicable prospectus supplement.

DESCRIPTION OF PREFERRED STOCK

This section describes certain general terms and provisions of the preferred stock to which any prospectus supplement may relate. The particular terms of the preferred stock offered by any prospectus supplement and the extent, if any, to which such general terms will not apply to the preferred stock so offered will be described in the prospectus supplement relating to such preferred stock.

This section, along with the description in the applicable prospectus supplement, is a summary of certain provisions of our restated certificate of incorporation, as amended, including the applicable certificates of designation, and is not complete.

We urge you to read the restated certificate of incorporation, as amended, and the certificate of designation for the relevant series of preferred stock in which you are intending to invest, because those documents, and not these descriptions, define your rights as a holder of preferred stock. We have filed a copy of the restated certificate of incorporation, as amended, and the certificates of designation for our currently outstanding shares of preferred stock as exhibits to the Registration Statement of which this prospectus is a part. Copies of the restated certificate of incorporation, as amended, are available described under "Where You Can Find More Information."

General

Our restated certificate of incorporation, as amended, authorizes the issuance of 10,000,000 shares of preferred stock, \$1.00 par value. We may issue preferred stock from time to time in one or more series. The exact terms of each series will be established by our board of directors or a duly authorized committee of the board.

The terms of any particular series of preferred stock will be described in the prospectus supplement relating to that particular series of preferred stock, including, where applicable:

- (1) the designation, stated value and liquidation preference of such preferred stock and the number of shares offered;
- (2) the offering price;
- (3) the dividend rate or rates (or method of calculation), the date or dates from which dividends shall accrue, and whether such dividends shall be cumulative or noncumulative and, if cumulative, the dates from which dividends shall commence to cumulate;
- (4) any redemption or sinking fund provisions;
- (5) the amount that shares of such series shall be entitled to receive in the event of our liquidation, dissolution or winding up;
- (6) the terms and conditions, if any, on which shares of such series shall be exchangeable for shares of our stock of any other class or classes, or other series of the same class;
- (7) the voting rights, if any, of shares of such series in addition to those set forth in "Voting Rights" below;
- (8) the status as to reissuance or sale of shares of such series redeemed, purchased or otherwise reacquired, or surrendered to us on conversion or exchange;
- (9) the conditions and restrictions, if any, on the payment of dividends or on the making of other distributions on, or the purchase, redemption or other acquisition by us or any subsidiary of, the common stock or any other class of our stock ranking junior to the shares of such series as to dividends or upon liquidation;
- (10) the conditions and restrictions, if any, on the creation of indebtedness of us or of any subsidiary, or on the issue of any additional stock ranking on a parity with or prior to the shares of such series as to dividends or upon liquidation; and
- (11) any additional dividend, liquidation, redemption, sinking or retirement fund and other rights, preferences, privileges, limitations and restrictions of such preferred stock.

The preferred stock will, when issued, be fully paid and nonassessable. Unless otherwise specified in the applicable prospectus supplement, the shares of each series of preferred stock will upon issuance rank senior to the common stock and on a parity in all respects with each other outstanding series of preferred stock. As of November 30, 2004, there were outstanding:

3,493,250 depository shares, each representing a one-fourth interest in a share of 6.15% Cumulative Preferred Stock, Series E;

2,612,800 depository shares, each representing a one-fourth interest in a share of 5.72% Cumulative Preferred Stock, Series F; and

2,856,900 depositary shares, each representing a one-fourth interest in a share of 5.49% Cumulative Preferred Stock, Series G.

The preferred stock will have no preemptive rights to subscribe for any additional securities that may be issued by us.

Dividends

Unless otherwise specified in the applicable prospectus supplement, before any dividends may be declared or paid to the holders of shares of our common stock, par value \$1.00 per share, or of any other of our capital stock ranking junior to any series of the preferred stock as to the payment of dividends, the holders of the preferred stock of that series will be entitled to receive, when and as declared by the board of directors or a duly authorized committee of the board, out of our net profits or net assets legally available therefor, dividends payable quarterly on January 15, April 15, July 15 and October 15, in each year at such rates as will be specified in the applicable prospectus supplement. Such rates may be fixed or variable or both. If variable, the formula used for determining the dividend rate for each dividend period will be specified in the applicable prospectus supplement. Dividends will be payable to the holders of record as they appear on our stock transfer records on such dates (not less than 15 days nor more than 60 days prior to a dividend payment date) as will be fixed by the board of directors or a duly authorized committee thereof. Dividends will be paid in the form of cash.

Dividends on any series of preferred stock may be cumulative or noncumulative, as specified in the applicable prospectus supplement. If the board of directors fails to declare a dividend payable on a dividend payment date on any series of preferred stock for which dividends are noncumulative, then the holders of the preferred stock of that series will have no right to receive a dividend in respect of the dividend period relating to such dividend payment date, and we will have no obligation to pay the dividend accrued for such period, whether or not dividends on that series are declared or paid on any future dividend payment dates. If dividends on any series of preferred stock are not paid in full or declared in full and sums set apart for the payment thereof, then no dividends shall be declared and paid on that series unless declared and paid ratably on all shares of every series of preferred stock then outstanding, including dividends accrued or in arrears, if any, in proportion to the respective amounts that would be payable per share if all such dividends were declared and paid in full.

The prospectus supplement relating to a series of preferred stock will specify the conditions and restrictions, if any, on the payment of dividends or on the making of other distributions on, or the purchase, redemption or other acquisition by us or any of our subsidiaries of, the common stock or any other class of our stock ranking junior to the shares of that series as to dividends or upon liquidation and any other preferences, rights, restrictions and qualifications that are not inconsistent with the certificate of incorporation and the applicable certificates of designation.

Liquidation Rights

Unless otherwise specified in the prospectus supplement relating to a series of preferred stock, upon our liquidation, dissolution or winding up (whether voluntary or involuntary), the holders of preferred stock of that series will be entitled to receive out of our assets available for distribution to our stockholders, whether from capital, surplus or earnings, the amount specified in the applicable prospectus supplement for that series, together with all dividends accrued and unpaid, before any distribution of the assets will be made to the holders of common stock or any other class or series of shares ranking junior to that series of preferred stock upon liquidation, dissolution or winding up, and will be entitled to no other or further distribution. If, upon our liquidation, dissolution or winding up, the assets distributable among the holders of a series of preferred stock shall be insufficient to permit the payment in full to the holders of that series of preferred stock of all amounts payable to those holders, then the entire amount of our assets thus distributable will be distributed ratably among the holders of that series of preferred stock in proportion to the respective amounts that would be payable per share if those assets were sufficient to permit payment in full.

Neither our consolidation, merger or other business combination with or into any other individual, firm, corporation or other entity nor the sale, lease, exchange or conveyance of all or any part of our property, assets or business will be deemed to be a liquidation, dissolution or winding up.

Redemption

If so specified in the applicable prospectus supplement, any series of preferred stock may be redeemable, in whole or in part, at our option or pursuant to a retirement or sinking fund or otherwise, on terms and at the times and the redemption prices specified in that prospectus supplement. If less than all shares of the series at the time outstanding are to be redeemed, the shares to be redeemed will be selected pro rata or by lot, in such manner as may be prescribed by resolution of the board of directors.

Notice of any redemption of a series of preferred stock will be given by publication in a newspaper of general circulation in the Borough of Manhattan, the City of New York, not less than 30 nor more than 60 days prior to the redemption date. We will mail a similar notice, postage prepaid, not less than 30 nor more than 60 days prior to the redemption date, addressed to the respective holders of record of shares of that series at the addresses shown on our stock transfer records, but the mailing of such notice will not be a condition of such redemption. In order to facilitate the redemption of shares of preferred stock, the board of directors may fix a record date for the determination of the shares to be redeemed. Such record date will be not more than 60 days nor less than 30 days prior to the redemption date.

Prior to the redemption date, we will deposit money for the payment of the redemption price with a bank or trust company doing business in the Borough of Manhattan, the City of New York, and having a capital and surplus of at least \$10,000,000. Unless we fail to make such deposit, on the redemption date, all dividends on the series of preferred stock called for redemption will cease to accrue and all rights of the holders of shares of that series as our stockholders shall cease, except the right to receive the redemption price (but without interest). Unless otherwise specified in the applicable prospectus supplement, any monies so deposited which remain unclaimed by the holders of the shares of that series at the end of six years after the redemption date will become our property, and will be paid by the bank or trust company with which it has been so deposited to us.

Conversion Rights

Unless otherwise specified in the applicable pricing supplement, no series of preferred stock will be convertible into common stock.

Voting Rights

Unless otherwise determined by the board of directors and indicated in the applicable prospectus supplement, holders of the preferred stock of that series will not have any voting rights except as described below or as otherwise from time to time required by law. Whenever dividends on any series of preferred stock or any other class or series of stock ranking on a parity with that series with respect to the payment of dividends shall be in arrears for dividend periods, whether or not consecutive, containing in the aggregate a number of days equivalent to six calendar quarters, the holders of shares of that series (voting separately as a class with all other series of preferred stock upon which like voting rights have been conferred and are exercisable) will be entitled to vote for the election of two of the authorized number of our directors at the next annual meeting of stockholders and at each subsequent meeting until all dividends accumulated on that series have been fully paid or set apart for payment. The term of office of all directors elected by the holders of a series of preferred stock shall terminate immediately upon the termination of the right of the holders of that series to vote for directors. Whenever the shares of a series are or become entitled to vote, each holder of shares of that series will have one vote for each share held.

So long as shares of any series of preferred stock remain outstanding, we shall not, without the consent of the holders of at least two-thirds of the shares of that series outstanding at the time (voting

separately as a class with all other series of preferred stock upon which like voting rights have been conferred and are exercisable):

- (1) issue or increase the authorized amount of any class or series of stock ranking senior to the shares of that series as to dividends or upon liquidation; or
- (2) amend, alter or repeal the provisions of our certificate of incorporation or of the resolutions contained in the certificates of designation, whether by merger, consolidation or otherwise, so as to materially and adversely affect any power, preference or special right of the outstanding shares of that series or the holders thereof. Any increase in the amount of the authorized common stock or authorized preferred stock or the creation and issuance of common stock or any other series of preferred stock ranking on a parity with or junior to a series of preferred stock as to dividends and upon liquidation shall not be deemed to materially and adversely affect the powers, preferences or special rights of the shares of that series.

Unless otherwise indicated in the applicable prospectus supplement, the transfer agent, dividend disbursing agent and registrar for each series of preferred stock will be Mellon Investor Services L.L.C.

DESCRIPTION OF DEPOSITARY SHARES

This section describes certain general terms and provisions of the depositary shares and depositary receipts which we may elect to issue.

This section, along with the description in the applicable prospectus supplement, is a summary of certain provisions of the deposit agreement relating to the applicable series of Preferred Stock and is not complete. Any such deposit agreement will be filed as an exhibit to or incorporated by reference in the Registration Statement of which this prospectus is a part. Copies of any such deposit agreement will be available as described under "Where You Can Find More Information."

General

We may, at our option, elect to offer fractional interests in shares of a series of preferred stock, rather than whole shares. If we exercise our option, we will provide for the issuance by a depository of depositary receipts evidencing depositary shares, each of which will represent a fractional interest (to be specified in the applicable prospectus supplement) in a share of a particular series of the Preferred Stock as more fully described below.

If we offer fractional shares of any series of preferred stock, those shares will be deposited under a separate deposit agreement among us, a depository bank or trust company selected by us and having its principal office in the United States and having a combined capital and surplus of at least \$50,000,000 and the holders from time to time of the depositary receipts issued thereunder by that depository. The applicable prospectus supplement will set forth the name and address of the depository. Subject to the terms of the deposit agreement, each owner of a depositary share will be entitled, in proportion to the applicable fractional interest in a share of preferred stock underlying such depositary share, to all the rights and preferences of the fractional share of preferred stock underlying such depositary share (including dividend, voting, redemption and liquidation rights).

Until definitive engraved depositary receipts are prepared, upon our written order, the depository may issue temporary depositary receipts substantially identical to (and entitling the holders thereof to all the rights pertaining to) the definitive depositary receipts but not in definitive form. Definitive depositary receipts will be prepared thereafter without unreasonable delay. Temporary depositary receipts will be exchangeable for definitive depositary receipts at our expense.

Dividends and Other Distributions

The depository will distribute to the holders of depositary receipts evidencing depositary shares all cash dividends or other cash distributions received in respect of the underlying fractional shares of preferred stock in proportion to their respective holdings of the depositary shares on the relevant record date. The depository will distribute only the amount that can be distributed without attributing to any holder of depositary shares a fraction of one cent. Any balance not so distributed will be held by the depository (without liability for interest thereon) and will be added to and treated as part of the next sum received by the depository for distribution to holders of depositary receipts then outstanding.

If we distribute property other than cash in respect of shares of preferred stock deposited under a deposit agreement, the depository will distribute the property received by it to the record holders of depositary receipts evidencing the depositary shares relating to those shares of preferred stock, in proportion, as nearly as may be practicable, to their respective holdings of the depositary shares on the relevant record dates. If the depository determines that it is not feasible to make such a distribution, the depository may, with our approval, adopt such method as it deems equitable and practicable to give effect to the distribution, including the sale of the property so received and distribution of the net proceeds from such sale to the holders of the depositary receipts.

Each deposit agreement will also contain provisions relating to the manner in which any subscription or similar right offered by us to holders of the preferred stock deposited under such deposit agreement will be made available to holders of depositary shares.

Redemption of Depositary Shares

If the shares of preferred stock deposited under a deposit agreement are subject to redemption, in whole or in part, then, upon any such redemption, the depositary shares relating to those deposited shares will be redeemed from the proceeds received by the depository as a result of the redemption. Whenever we redeem shares of preferred stock held by a depository, the depository will redeem as of the same redemption date the number of depositary shares representing the shares of preferred stock so redeemed. The depository will mail the notice of redemption not less than 20 and not more than 50 days prior to the date fixed for redemption to the record holders of the depositary shares to be so redeemed. The redemption price per depositary share will be equal to the applicable fraction of the per share redemption price of the preferred stock underlying such depositary share. If less than all the depositary shares are to be redeemed, the depositary shares to be redeemed will be selected by lot or pro rata as may be determined by the depository.

Once notice of redemption has been given, from and after the redemption date, the depositary shares called for redemption will no longer be deemed to be outstanding, unless we fail to redeem the shares of preferred stock so called for redemption. On the redemption date, all rights of the holders of depositary shares will cease, except for the right to receive the monies payable upon such redemption and any money or other property to which the holders of depositary shares were entitled upon such redemption (but without interest), upon surrender to the depository of the depositary receipts evidencing depositary shares.

Voting Rights

As soon as practicable after receipt of notice of any meeting at which the holders of shares of preferred stock deposited under a deposit agreement are entitled to vote, the depository will mail the information contained in that notice of meeting (and any accompanying proxy materials) to the holders of the depositary shares relating to such preferred stock as of the record date for such meeting. Each such holder will be entitled, subject to any applicable restrictions, to instruct the depository as to the exercise of the voting rights of the preferred stock represented by such holder's depositary shares. The depository will attempt to vote the preferred stock represented by those depositary shares in

accordance with the holder's instructions, and we will agree to take all action deemed necessary by the depository to enable the depository to do so. The depository will abstain from voting shares of preferred stock deposited under a deposit agreement if it has not received specific instructions from the holders of the depository shares representing those shares.

Withdrawal of Stock

Upon surrender of depository receipts at the principal office of the depository (unless the depository shares evidenced by the depository receipts have previously been called for redemption), and subject to the terms of the deposit agreement, the owner of the depository shares shall be entitled to delivery of whole shares of preferred stock and all money and other property, if any, represented by those depository shares. Fractional shares of preferred stock will not be delivered. If the depository receipts surrendered by the holder evidence depository shares in excess of those representing the number of whole shares of preferred stock to be withdrawn, the depository will deliver to the holder at the same time a new depository receipt evidencing the excess depository shares. Holders of shares of preferred stock which are withdrawn will not thereafter be entitled to deposit such shares under a deposit agreement or to receive depository shares. We do not expect that there will be any public trading market for the preferred stock, except as represented by depository shares.

Amendment and Termination of the Deposit Agreement

We may from time to time amend the form of depository receipt evidencing any depository shares and any provision of a deposit agreement by agreement between us and the depository. However, any amendment that materially and adversely alters the rights of the existing holders of depository shares will not be effective unless and until approved by the holders of at least a majority of the depository shares then outstanding under that deposit agreement. Each deposit agreement will provide that each holder of depository shares who continues to hold those depository shares at the time an amendment becomes effective will be deemed to have consented to the amendment and will be bound by that amendment. Except as may be necessary to comply with any mandatory provisions of applicable law, no amendment may impair the right, subject to the terms of the deposit agreement, of any holder of any depository shares to surrender the depository receipt evidencing those depository shares to the depository together with instructions to deliver to the holder the whole shares of preferred stock represented by the surrendered depository shares and all money and other property, if any, represented thereby. A deposit agreement may be terminated by us or the depository only if:

- (1) all outstanding depository shares issued under the deposit agreement have been redeemed; or
- (2) there has been a final distribution in respect of the preferred stock relating to those depository shares in connection with any liquidation, dissolution or winding up of the Company and the amount received by the depository as a result of that distribution has been distributed by the depository to the holders of those depository shares.

Charges of Depository

We will pay all transfer and other taxes and governmental charges arising solely from the existence of the depository arrangements. We will pay charges of any depository in connection with the initial deposit of preferred stock and the initial issuance of the depository shares and any redemption of such preferred stock. Holders of depository shares will pay any other taxes and charges incurred for their accounts as are provided in the deposit agreement.

Reports

Each depository will forward to the holders of depository shares issued by that depository all reports and communications from us that are delivered to the depository and that we are required to furnish to the holders of the preferred stock held by the depository. In addition, each depository will

make available for inspection by the holders of those depositary shares, at the principal office of such depository and at such other places as it may from time to time deem advisable, all reports and communications received from us that are received by such depository as the holder of preferred stock.

Limitation on Liability

Neither we nor any depository will assume any obligation or will be subject to any liability under a deposit agreement to holders of the depositary shares other than for its negligence or willful misconduct. Neither we nor any depository will be liable if it is prevented or delayed by law or any circumstance beyond its control in performing its obligations under a deposit agreement. The obligations of us and any depository under a deposit agreement will be limited to performance in good faith of its duties thereunder, and they will not be obligated to prosecute or defend any legal proceeding in respect of any depositary shares or preferred stock unless satisfactory indemnity is furnished. We and any depository may rely on written advice of counsel or accountants, on information provided by persons presenting preferred stock for deposit, holders of depositary shares or other persons believed in good faith to be competent to give such information and on documents believed to be genuine and to have been signed or presented by the proper party or parties.

Resignation and Removal of Depository

A depository may resign at any time by delivering to us notice of its election to resign, and we may remove any depository at any time. Any such resignation or removal will take effect upon the appointment of a successor depository and its acceptance of such appointment. Such successor depository must be appointed within 60 days after delivery of the notice of resignation or removal and must be a bank or trust company having its principal office in the United States of America and having a combined capital and surplus of at least \$50,000,000.

BOOK-ENTRY PROCEDURES AND SETTLEMENT

Each debt security, warrant, share of preferred stock, and depositary share in registered form will be represented either:

by one or more global securities representing the entire issuance of securities; or

by a certificate issued in definitive form to a particular investor.

Book-Entry System

Unless otherwise specified in a prospectus supplement, we will issue each security in book-entry only form. This means that we will not issue actual notes or certificates. Instead, we will issue global securities in registered form representing the entire issuance of securities. Each global security will be registered in the name of a financial institution that holds them as depository on behalf of other financial institutions that participate in that depository's book-entry system. These participating institutions, in turn, hold beneficial interests in the securities on their own behalf or on behalf of their customers.

If a security is registered on the books that we or the Trustee, warrant agent, depository, or other agent maintain in the name of a particular investor, we refer to that investor as the "holder" of that security. These persons are the legal holders of the securities. Consequently, for securities issued in global form, we will recognize only the depository as the holder of the securities and we will make all payments on the securities, including deliveries of any property other than cash, to the depository. The depository passes along the payments it receives from us to its participants, which in turn pass the payments along to their customers who are the beneficial owners. The depository and its participants are obligated to pass these payments along under agreements they have made with one another or with their customers, and they are not obligated to do so under the terms of the securities.

As a result, investors will not own securities issued in book-entry form directly. Instead, they will own beneficial interests in a global security through a bank, broker, or other financial institution that participates in the depository's book-entry system or holds an interest through a participant in the depository's book-entry system. As long as the securities are issued in global form, investors will be indirect owners, and not holders, of the securities. The depository will not have knowledge of the actual beneficial owners of the securities.

Certificates in Registered Form

In the future we may cancel a global security or issue securities initially in non-global, or certificated, form. We do not expect to exchange global securities for actual notes or certificates registered in the names of the beneficial owners of the global securities representing the securities unless:

182,069 ⁽³⁾	3.72	2/11/14 ⁽³⁾	20,795 ⁽¹⁾	171,559 ⁽¹⁾				15,729 ⁽⁵⁾	129,764 ⁽⁵⁾
S. Gendel	170,940 ⁽³⁾	3.72	2/11/14 ⁽³⁾	15,018 ⁽¹⁾	123,899 ⁽¹⁾	14,387 ⁽⁵⁾	118,693 ⁽⁵⁾		

- (1) These restricted stock units were awarded on November 14, 2007 and vest on the third anniversary of the grant date (November 14, 2010) subject to continued employment.
This grant to the CEO will vest, subject to continued employment, in part based upon achievement by the Company of the following financial performance criteria in 2007, 2008 and 2009: (i) up to 50% of the award will vest based on satisfaction of the following financial performance target: organic revenue growth for MDC in 2008, 2009 and 2010 that exceeds the average organic revenue growth of MDC's peer marketing service companies by 25% in the comparable period (pro rata vesting if performance is 1-24% better than peer group); and (ii) up to 50% of the award will vest based on satisfaction of the following performance target: stock price appreciation in 2008, 2009 and 2010 (as measured as of the last 10 trading days in December 31, 2010), that exceeds the average stock price appreciation of MDC's peer marketing service companies by 15% in the comparable period (pro rata vesting if MDC stock price performance is 1-14% better than peer group).
- (2) These represent SARs granted on February 11, 2009, and will vest 1/3 a year on each anniversary date, subject to continued employment.
This grant was made on February 25, 2008 and will vest, subject to continued employment, in part based upon achievement by the Company of the following financial performance criteria in 2008, 2009 and 2010: (i) up to 33% of the award will vest based on satisfaction of the following financial performance target: organic revenue growth for MDC in 2008, 2009 and 2010 that exceeds the average organic revenue growth of MDC's peer marketing service companies by 25% in the comparable period (pro rata vesting if performance is 1-24% better than peer group); (ii) up to 33% of the award will vest based on satisfaction of the following performance target: stock price appreciation in 2008, 2009 and 2010 (as measured as of the last 10 trading days in December 2010), that exceeds the average stock price appreciation of MDC's peer marketing service companies by 15% in the comparable period (pro rata vesting if MDC stock price performance is 1-14% better than peer group) and (iii) 34% of the LTIP award will vest on the 3rd anniversary of the date of grant, provided that the CEO is still employed at
- (3)
- (4)

that time. In addition, the CEO must satisfy applicable stock ownership guidelines prior to sale of any shares issued upon vesting of the 2008 CEO LTIP award.

These grants awarded on February 25, 2008 vest upon the third anniversary of the grant date subject to continued employment; however they are subject to accelerated vesting based upon achievement by the Company of specified financial performance criteria in 2008 and 2009. These (5) financial performance criteria include 5% EBITDA growth in 2008 as compared to 2007, and cumulative EBITDA growth in 2008 and 2009 of 10% as compared to 2007. The remaining balance of 50% of these equity incentive awards vested in March 2010.

(6) These restricted stock grants vest on August 10, 2010; subject to continued employment.

(7) These options were granted on April 9, 2002 and relate to options of Maxxcom Inc. which were converted to MDC options upon the 2003 acquisition of Maxxcom Inc. They are fully vested.

(8) These SARs were granted on April 26, 2006 and vested 50% on each of the first and second anniversary of the date of grant.

The following table sets forth information concerning each exercise of stock options, SARs and similar instruments, and each vesting of stock, including restricted stock, restricted stock units and similar instruments, during fiscal year 2009 for each NEO on an aggregated basis.

OPTION EXERCISES AND STOCK VESTED IN FISCAL YEAR 2009

Name	Number of Shares Acquired on Exercise (#) (b)	Value Realized on Exercise (\$) (c)	Number of Shares Acquired on Vesting (#) (d)	Value Realized on Vesting (\$) (e)
(a) Miles S. Nadal			957,556	4,153,809
Robert Dickson			142,138	581,971
Graham L. Rosenberg	220,384	398,147	58,302	268,307
Gavin Swartzman			96,455	400,818
David B. Doft			59,826	284,381
Mitchell S. Gendel			94,475	387,908

We do not provide our NEOs with any defined benefit pension arrangements, and do not maintain any non-qualified deferred compensation plans for our NEOs.

POTENTIAL PAYMENTS UPON TERMINATION OR CHANGE IN CONTROL

We have entered into employment agreements with all of our named executive officers. Under each of these agreements, we are required to pay severance benefits in connection with certain terminations of employment, including certain terminations in connection with a change in control of the Company.

In addition, some of our equity incentive plans provide for the accelerated payment or vesting of awards in connection with certain terminations of employment or a change in control of the Company. The following is a description of the severance, termination and change in control benefits payable to each of our named executive officers pursuant to their respective employment agreements and our equity incentive plans.

Definitions of terms such as change in control or for good reason vary between agreements, so when a definition is particular to an agreement, it is described for that agreement.

Miles S. Nadal

Upon termination of the Services Agreement for cause or voluntary termination by Nadal Management, Inc., MDC is required to pay the unpaid annual retainer fee (base salary) through the date of termination, and Nadal Management, Inc. shall be entitled to all equity incentive awards in accordance with the underlying plans and equity incentive award agreements.

If Mr. Nadal's services are terminated by the Company without cause or by Nadal Management, Inc. for good reason (each as defined in the Services Agreement), the Company will make a lump sum cash payment equal to three times the sum of the annual retainer, average bonus amount for the past three years and the benefit/perquisites allowance, as well as a pro-rata bonus for the calendar year in which his employment terminates, and three years of continued vesting of outstanding equity incentive awards. The term good reason is defined under the Services Agreement to include a change of control, provided that Mr. Nadal is not holding the position of chief executive officer of the ultimate parent corporation resulting from the change of control transaction. If there had been a change in control of MDC Partners on December 31, 2009 and Mr. Nadal were not holding the position of chief executive officer of the ultimate parent corporation resulting from the change of control transaction, the aggregate cash severance payment MDC would have paid him under the new Services Agreement would be approximately \$11.8 million. In addition, all options to acquire securities of MDC previously granted to Mr. Nadal would vest and become exercisable and remain outstanding until the third anniversary of the date of termination. As of December 31, 2009, Mr. Nadal had 537,767 RSUs that would vest upon a change of control in accordance with the underlying grant agreements, with a fair value equal to \$4,436,578, and 2,083,333 SARs that would vest upon a change of control with an intrinsic value of \$9,437,498.

Robert Dickson

Pursuant to the terms of the amended employment agreement between the Company and Mr. Dickson, in the event of a sale of all or a portion of the Company, Mr. Dickson will be paid a retention bonus of one times his annual salary, provided that he does not resign as an employee within three months following closing. If there had been a sale of the Company on December 31, 2009, and Mr. Dickson did not resign within three months following closing, MDC would have paid Mr. Dickson a retention

bonus in an amount equal to Cdn\$450,000 (\$428,175).

If MDC terminated Mr. Dickson's employment without cause on December 31, 2009, under the terms of his agreement we would have been required to pay him 18 months base salary, plus the product of 1.5 multiplied by Mr. Dickson's perquisite allowance plus the highest annual discretionary cash bonus he earned in the three years ending December 31 of the year immediately preceding the date of termination, or Cdn\$1,512,609 (\$1,439,239). In addition, Mr. Dickson may resign his employment within the 60-day period following the six month anniversary of a change in control of MDC and, in connection with such resignation, is entitled to receive the same severance payment as if his employment was terminated by the Company without cause. As of December 31, 2009, Mr. Dickson had 43,173 RSUs that would vest upon a change of control in accordance with the underlying grant agreements, with a fair value equal to \$356,177, and 188,276 SARs that would vest upon a change of control with an intrinsic value of \$852,890.

27

Graham L. Rosenberg

Effective August 31, 2009, Mr. Rosenberg ceased to be an employee of the Company. Pursuant to an Agreement of Separation and Release between the Company and Mr. Rosenberg dated September 29, 2009, the Company paid Mr. Rosenberg an aggregate amount equal to \$1,239,900 (Cdn \$1,305,570), together with continued participation under the Company's health benefit plans for up to one year following his termination date. In addition, Mr. Rosenberg agreed to provide the Company with consulting services during the period of September 1, 2009 through August 31, 2010. All of Mr. Rosenberg's securities of the Company vested as of his termination date in accordance with the terms of the underlying grant agreements.

Gavin Swartzman

Pursuant to his employment agreement, if MDC terminates Mr. Swartzman's employment without cause, Mr. Swartzman terminates his employment for good reason, or the company gives a notice of non-renewal of the agreement, then MDC is required to pay Mr. Swartzman a severance payment within 10 days of the date of termination of 1.5 times Mr. Swartzman's total remuneration, which is the sum of his current base salary, his perquisite allowance, plus the highest annual discretionary cash bonus he earned in the three years ending December 31 of the year immediately preceding the date of termination. If Mr. Swartzman's employment had terminated under these circumstances on December 31, 2009, the aggregate cash payment due to him under the agreement would have been Cdn\$1,326,000 (\$1,261,689). Furthermore, Mr. Swartzman will also be allowed to continue participating for one year after termination on the same basis as before he was terminated in all benefit plans and, to the extent permitted under law, also in all retirement plans, provided however, that if Mr. Swartzman becomes entitled to receive coverage and benefits in the same type of plan from another employer, he will no longer be able to participate in these benefit and retirement plans. We will be obligated to pay him the economic equivalent of the benefits in these plans if Mr. Swartzman is unable to participate in the plans. The aggregate amount of this benefit would have been approximately Cdn\$5,000 (\$4,758) if Mr. Swartzman's employment had terminated as of December 31, 2009. In addition, any unvested outstanding stock options and outstanding SARs will vest immediately prior to the date of termination, and he will be allowed to exercise all vested outstanding stock options and outstanding SARs for the earlier of three months from the date of termination and the expiration of these options or SARs. As of December 31, 2009, Mr. Swartzman had no unvested options that would have vested on such a termination of employment. As of December 31, 2009, Mr. Swartzman had 36,524 RSUs that would vest upon a change of control in accordance with the underlying grant agreements, with a fair value equal to \$301,323, and 182,069 SARs that would vest upon a change of control with an intrinsic value of \$824,773.

If Mr. Swartzman's employment is terminated within one year following the closing of a change in control by the company without cause, by Mr. Swartzman for good reason, or by the company giving a notice of non-renewal of the agreement, then Mr. Swartzman will be entitled to a payment of 2.0 times his total remuneration (as defined above). He will also be eligible to receive a pro-rata portion of his annual discretionary cash bonus for the year in which his employment terminates. If there had been a change in control of MDC Partners on December 31, 2009 and Mr. Swartzman's employment terminated in connection with that change in control, the aggregate cash severance payment MDC would have paid him under the contract would be Cdn\$1,768,000 (\$1,682,252). Furthermore, Mr. Swartzman will also be allowed to continue participating for one year after termination on the same basis as before he was terminated in all benefit plans and, to the extent permitted under law, also in all

retirement plans, provided however, that if Mr. Swartzman becomes entitled to receive coverage and benefits in the same type of plan from another employer, he will no longer be able to participate in these benefit and retirement plans. We will be obligated to pay him the economic equivalent of the benefits in these plans if Mr. Swartzman is unable to participate in the plans. The aggregate amount of this benefit would have been approximately Cdn\$5,000 (\$4,758) if Mr. Swartzman's employment had terminated as of December 31, 2009.

David B. Doft

Pursuant to his employment agreement, if MDC terminates Mr. Doft's employment without cause, Mr. Doft terminates his employment for good reason, or the company gives a notice of non-renewal of the agreement, then MDC is required to pay Mr. Doft a severance payment within 10 days of the date of termination of 1.0 times Mr. Doft's total remuneration, plus an amount equal to two (2) months base salary

for each calendar year in which he was employed by the Company, up to a maximum of six months.

Total remuneration means the sum of his current base salary, his perquisite allowance, plus the highest annual discretionary cash bonus he earned in the three years ending December 31 of the year immediately preceding the date of termination. If Mr. Doft's employment had terminated under these circumstances on December 31, 2009, the aggregate cash payment due to him under the agreement would have been \$837,500. Furthermore, Mr. Doft will also be allowed to continue participating for one year after termination on the same basis as before he was terminated in all benefit plans and, to the extent permitted under law, also in all retirement plans, provided however, that if Mr. Doft becomes entitled to receive coverage and benefits in the same type of plan from another employer, he will no longer be able to participate in these benefit and retirement plans. We will be obligated to pay him the economic equivalent of the benefits in these plans if Mr. Doft is unable to participate in the plans. The aggregate amount of this benefit would have been approximately \$19,245 if Mr. Doft's employment had terminated as of December 31, 2009. As of December 31, 2009, Mr. Doft had 43,454 unvested restricted stock grants that would vest on termination of his employment agreement or change of control, with a fair value equal to \$358,496, and 128,205 SARs that would vest upon a change of control with an intrinsic value of \$580,769.

If Mr. Doft's employment is terminated within one year following the closing of a change in control by the company without cause, by Mr. Doft for good reason, or by the company giving a notice of non-renewal of the agreement, then Mr. Doft will be entitled to a payment of 1.5 times his total remuneration. He will also be eligible to receive a pro-rata portion of his annual discretionary cash bonus for the year in which his employment terminates. If there had been a change in control of MDC Partners on December 31, 2009 and Mr. Doft's employment terminated in connection with that change in control, the aggregate cash severance payment MDC would have paid him under the contract would be \$1,012,500. Furthermore, Mr. Doft will also be allowed to continue participating for one year after termination on the same basis as before he was terminated in all benefit plans. We will be obligated to pay him the economic equivalent of the benefits in these plans if Mr. Doft is unable to participate in the plans. The aggregate amount of this benefit would have been approximately \$19,245 if Mr. Doft's employment had terminated as of December 31, 2009.

Mitchell Gendel

Pursuant to his employment agreement, if MDC terminates Mr. Gendel's employment without cause, Mr. Gendel terminates his employment for good reason, or the Company gives a notice of non-renewal of the agreement, then MDC is required to pay Mr. Gendel a severance payment within 10 days of the date of termination of 1.0 times Mr. Gendel's total remuneration, plus an amount equal to six (6) months' base salary. Total remuneration means the sum of his current base salary, plus the highest annual discretionary cash bonus he earned in the three years ending December 31 of the year immediately preceding the date of termination. If Mr. Gendel's employment had terminated under these circumstances on December 31, 2009, the aggregate cash payment due to him under the agreement would have been \$900,000. Furthermore, Mr. Gendel will also be allowed to continue participating for one year after termination on the same basis as before he was terminated in all benefit plans and, to the extent permitted under law, also in all retirement plans, provided however, that if Mr. Gendel becomes entitled to receive coverage and benefits in the same type of plan from another employer, he will no longer be able to participate in these benefit and retirement plans. We will be obligated to pay him the economic equivalent of the benefits in these plans if Mr. Gendel is unable to participate in the plans. The aggregate amount of this benefit would have been approximately \$19,245 if Mr. Gendel's employment had terminated as of December 31, 2009. As of

December 31, 2009, Mr. Gendel had 29,405 unvested restricted stock grants that would vest on termination of his employment agreement or change of control, with a fair value equal to \$242,591, and 170,940 SARs that would vest upon a change of control with an intrinsic value of \$774,358.

If Mr. Gendel's employment is terminated within one year following the closing of a change in control by the company without cause, by Mr. Gendel for good reason, or by the company giving a notice of non-renewal of the agreement, then Mr. Gendel will be entitled to a payment of 1.5 times his total remuneration. He will also be eligible to receive a pro-rata portion of his annual discretionary cash bonus for the year in which his employment terminates. If there had been a change in control of MDC Partners on December 31, 2009 and Mr. Gendel's employment terminated in connection with that change in control, the aggregate cash severance payment MDC would have paid him under the contract would be \$1,087,500. Furthermore,

Mr. Gendel will also be allowed to continue participating for one year after termination on the same basis as before he was terminated in all benefit plans. We will be obligated to pay him the economic equivalent of the benefits in these plans if Mr. Gendel is unable to participate in the plans. The aggregate amount of this benefit would have been approximately \$19,245 if Mr. Gendel's employment had terminated as of December 31, 2009.

Compensation Committee Interlocks and Insider Participation

Mr. Michael J.L. Kirby (Chairman), Mr. Clare Copeland, Mr. Robert J. Kamerschen and Mr. Scott L. Kauffman served on the Human Resources & Compensation Committee of the Board of Directors for all of 2009. None of the persons who served on the Human Resources & Compensation Committee are, or have been, an employee or officer of the Company or had any relationship requiring disclosure under Item 404 of Regulation S-K. In addition, none of the Company's executive officers serves, or has served during the last completed fiscal year, as a member of the board of directors or compensation committee of any other entity that has or has had one or more of its executive officers serving as a member of the Company's Board of Directors.

Securities Authorized for Issuance Under Equity Compensation Plans

On May 26, 2005, the Company's shareholders approved the Company's 2005 Stock Incentive Plan, which was subsequently amended on June 2, 2009 and June 1, 2007. The 2005 Stock Incentive Plan authorizes the issuance of awards to employees, officers, directors and consultants of the Company with respect to 4,500,000 shares of MDC Partners' Class A Shares or any other security in to which such shares shall be exchanged. On May 30, 2008, the Company's shareholders approved the 2008 Key Partner Incentive Plan, which provides for the issuance of 600,000 Class A Shares. The SARs Plan was initially adopted and approved effective as of January 1, 2003, and was subsequently amended and restated in 2004 and 2006.

The following table sets out as at December 31, 2009 the number of securities to be issued upon exercise of outstanding options and rights, the weighted average exercise price of outstanding options and rights and the number of securities remaining available for future issuance under equity compensation plans.

	Number of Securities to be Issued Upon Exercise of Outstanding Options Warrants and Rights (a)	Weighted Average Exercise Price of Outstanding Options Warrants and Rights (b)	Number of Securities Remaining Available for Future Issuance (Excluding Column (a)) (c)	
Equity Compensation Plans:				
Approved by stockholders:				
Share options and restricted stock	1,722,110 ⁽¹⁾	\$ 9.55	2,412,595	⁽³⁾
SARs	1,899,288 ⁽²⁾	\$ 3.80	995,333	

Not Approved by stockholders:

- (1) Includes 1,482,118 shares of restricted stock and RSUs.
- (2) Based on December 31, 2009 closing Class A Subordinate Voting share price on the Nasdaq of \$8.25.
- (3) Restricted stock, RSUs and other forms of equity awards may be issued under the 2005 Stock Incentive Plan and 2008 Key Partner Incentive Plan.

30

Indebtedness of Directors, Executive Officers and Senior Officers

The aggregate indebtedness to MDC Partners or its subsidiaries as of December 31, 2009, of all current and former officers, directors and employees of MDC Partners or any of their subsidiaries (and their associates) entered into in connection with (a) a purchase of securities of MDC Partners pursuant to a securities purchase program, excluding routine indebtedness and (b) all other indebtedness, excluding routine indebtedness, was as described in the following table:

Aggregate Indebtedness

Purpose	To MDC Partners or Its Subsidiaries	To Another Entity
(a) Share purchases	\$ 259,716	
(b) Other	7,052,217	

The following table sets forth all of the other indebtedness of the directors, executive officers and senior officers of MDC Partners and their associates to MDC Partners during the most recently completed financial year for unsecured loans repayable within twelve months after termination of employment.

Other Loans

Name and Principal Position	Largest Amount Outstanding During 2009 (\$)	Amount Outstanding as of December 31, 2009 (\$)	Interest Rate	Purpose of Loan
Miles S. Nadal	5,997,701	5,854,187 ⁽¹⁾	⁽²⁾	Personal loan to senior officer

The balance of \$5,854,187 reflects a reduction for repayments in an aggregate amount equal to \$100,000 received during 2009. The discrepancy between the Largest Amount Outstanding during 2009 and as of December 31, 2009, after giving effect to such loan repayments in 2009, is due to the Canadian dollar currency fluctuation.

⁽²⁾ These loans are non-interest bearing.

The loans identified in the preceding chart were outstanding prior to the effective date of the Sarbanes-Oxley Act of 2002, and these grandfathered loans have not been subsequently modified or amended by the Company. The Company's Corporate Governance Guidelines prohibit the Company from making any new personal loans or extensions of credit to Directors or executive officers of the Company.

Insurance

MDC holds directors and officers liability insurance policies that are designed to protect MDC Partners and its directors and officers against any legal action which may arise due to wrongful acts on the part of directors and/or officers of MDC. The policies are written for a limit of \$35 million, subject to a corporate deductible up to \$250,000 per claim. In respect of the fiscal year ended December 31, 2009, the cost to MDC of maintaining the policies was \$286,927. The twelve-month premium cost of the current policy, effective from August 1, 2009 until July 31, 2010, is equal to \$282,317.

Certain Relationships and Related Transactions

For transactions with related parties, see the Company's Form 10-K for the period ended December 31, 2009: Management's Discussion and Analysis of Financial Condition and Results of Operations Transactions with Related Parties .

Other than as described herein, no director, officer, principal shareholder or proposed nominee for election as a director of MDC and no associate or affiliate of the foregoing persons has or has had any material interest, direct or indirect, in any transaction since the beginning of MDC's last completed fiscal year or in any proposed transaction which, in either such case, has materially affected or will materially affect MDC.

The Company's Code of Conduct requires directors and employees to avoid activities that could conflict with the interests of MDC Partners, except for transactions that are disclosed and approved in advance. The Company has also adopted a written Related Party Transactions Policy, which requires that any related party transaction must be approved in advance by the Audit Committee; *provided, however*, that any ordinary course transaction in which an operating subsidiary of the Company derives revenue from a related party may be approved on an annual basis by the Audit Committee. To facilitate compliance with this policy, any Director or executive officer of the Company shall notify the Company's General Counsel and CFO as soon as reasonably practicable about any potential related party transaction. If the Company's General Counsel and CFO determine that the transaction constitutes a related party transaction, the transaction will be referred to the Audit Committee for its consideration. The Audit Committee will be provided with full details of the proposed related party transaction, including: the terms and conditions of the proposed transaction; the business purpose of the transaction; and the benefits to the Company and to the relevant related party. A copy of this Policy is available for review at http://www.mdccorp.com/investors/corporate_governance.

REPORT OF THE AUDIT COMMITTEE OF THE BOARD

The following Report of the Audit Committee does not constitute soliciting material and should not be deemed filed or incorporated by reference into any other filing by MDC Partners under the Securities Act of 1933, as amended or the Securities Exchange Act of 1934, as amended, except to the extent MDC Partners specifically incorporates this Report by reference therein.

The Audit Committee is responsible for assisting the Board in serving as an oversight to MDC Partners' accounting, auditing, financial reporting, internal control and legal compliance functions. The Audit Committee has implemented procedures to ensure that during the course of each fiscal year, it devotes the attention that it deems necessary or appropriate to each of the matters assigned to it under its charter including, whenever appropriate, meeting in executive sessions with MDC Partners' independent auditors without the presence of MDC Partners' management.

Management is responsible for the financial reporting process, including the system of internal controls, for the preparation of consolidated financial statements in accordance with U.S. generally accepted accounting principles (GAAP) and for the report on the Company's internal control over financial reporting. The Company's independent auditors are responsible for auditing those financial statements and expressing an opinion as to their conformity with GAAP and for opining on the effectiveness of the Company's internal control over financial reporting. The Audit Committee's responsibility is to oversee and review the financial reporting process and to review and discuss the status and completed copy of management's report on the Company's internal control over financial reporting.

The Audit Committee reviewed and discussed with management and BDO Seidman, LLP's management's assessment of the Company's internal controls over financial reporting in accordance with Section 404 of the Sarbanes-Oxley Act of 2002, including the matters more fully disclosed in Item 9A (Controls and Procedures) of the Company's Annual Report on Form 10-K for the year ended December 31, 2009.

In overseeing the preparation of MDC Partners' financial statements, the Audit Committee met with both management and MDC Partners' outside auditors to review and discuss all financial statements prior to their issuance and to discuss significant accounting issues. Management advised the Audit Committee that all financial statements were prepared in accordance with GAAP, and the Audit Committee discussed the statements with both management and the outside auditors.

With respect to MDC Partners' outside auditors, the Audit Committee, among other things, discussed with BDO Seidman, LLP matters relating to its independence, and received from BDO Seidman, LLP written disclosures and a letter from BDO Seidman, LLP as required by Rule 3520 of the Public Company Accounting Oversight Board.

On the basis of their reviews and discussions, the Committee recommended to the Board that the Board approve (and the Board has approved) the inclusion of MDC Partners' audited financial statements in MDC Partners' Annual Report on Form 10-K for the fiscal year ended December 31, 2009, for filing with the Securities and Exchange Commission and the Canadian Securities Administrators.

Effective April 1, 2006 the Company engaged BDO Seidman, LLP (BDO Seidman) as its independent registered public accounting firm. The decision to engage BDO Seidman was made by the Audit Committee of the Board of Directors and the Board of Directors of the Company. The Committee and the Board have also approved, and submitted for shareholder approval, the selection of BDO Seidman, LLP as MDC Partners independent auditors for the fiscal year ending December 31, 2010.

The Audit Committee s current charter is appended to this Circular as Exhibit A.

Audit Committee of the Board

Clare Copeland (Chair)

Thomas Davidson

Michael Kirby

ITEM 2 APPOINTMENT OF AUDITORS

Subject to the action of the shareholders, upon recommendation of the Audit Committee, the Board has recommended to the shareholders the appointment of BDO Seidman, LLP, independent registered public accountants, to audit and report on the consolidated financial statements of MDC Partners for the fiscal year ending December 31, 2010 and to perform such other services as may be required of them. BDO Seidman, LLP has served as independent public accountants for MDC Partners since April 1, 2006. The Board has directed that management submit the appointment of the auditors for approval by the shareholders at the Meeting. Representatives of BDO Seidman, LLP are expected to be present at the meeting, will have the opportunity to make a statement if they desire to do so and will be available to respond to appropriate shareholder questions.

Unless otherwise instructed, the persons named in the accompanying proxy (provided the same is duly executed in their favor and is duly deposited) intend to vote FOR the appointment of BDO Seidman, LLP, independent registered public accountants, as auditors of MDC Partners, to hold office until the close of the next annual meeting of shareholders of MDC Partners, at a remuneration to be fixed by the directors of MDC Partners.

In addition to retaining BDO Seidman, LLP to audit MDC Partners consolidated financial statements for 2008 and 2009, the Company retained BDO Seidman, LLP and other consulting firms to provide advisory, auditing and consulting services in 2009. These services included audit services, audit-related services, tax services and other services. The following tables set forth the aggregate fees billed to MDC Partners by BDO Seidman, LLP for professional services in fiscal years 2009 and 2008:

BDO Seidman, LLP

	2009	2008
Audit Fees ⁽¹⁾	\$ 1,842,000	\$ 1,650,000
All Other Fees ⁽²⁾	63,000	9,500
Total	\$ 1,905,000	\$ 1,659,500

(1) Fees for the annual financial statement audit, including internal control assessment related fees, quarterly financial statement reviews and regulatory comment letters.

(2) Fees for services rendered in connection with acquisition due diligence and other services.

All fees listed above have been pre-approved by the Audit Committee. The Audit Committee has, however, delegated to the Chairman of the Audit Committee the authority to pre-approve permitted non-audit services (as such services are defined by the Sarbanes-Oxley Act of 2002) provided that (i) the aggregate estimated amount of such fees will not exceed Cdn\$25,000 and (ii) the Chairman of the Audit Committee reports any pre-approval so granted at the next scheduled meeting of the Audit Committee.

The Audit Committee Charter provides for the Audit Committee to establish the auditors fees. Such fees have been based upon the complexity of the matters in question and the time incurred by the auditors.

**YOUR BOARD OF DIRECTORS UNANIMOUSLY RECOMMENDS
A VOTE FOR APPOINTMENT OF BDO SEIDMAN, LLP AS MDC PARTNERS AUDITORS.**

34

SECTION 16(a) BENEFICIAL OWNERSHIP REPORTING COMPLIANCE

Under Section 16(a) of the Exchange Act, the Company's directors, executive officers and any persons holding 10% or more of the common stock are required to report their ownership of common stock and any changes in that ownership to the U.S. Securities and Exchange Commission (the SEC) and to furnish the Company with copies of such reports. Specific due dates for these reports have been established and the Company is required to report in this Proxy Statement any failure to file on a timely basis by such persons. To the Company's knowledge, based solely upon a review of copies of such reports received by the Company which were filed with the SEC for the fiscal year ended December 31, 2009, and upon written representations from such persons that no other reports were required, the Company has been advised that all reports required to be filed under Section 16(a) have been timely filed with the SEC, with the exception of the following filings: (1) Robert Dickson, Mitchell Gendel, Stephen Pustil, and Graham Rosenberg: Reports on Form 4 that were filed on March 10, 2009 (each one day late) and (2) Gavin Swartzman: Report on Form 4 that was filed on March 11, 2009 (two days late).

ADDITIONAL INFORMATION

A copy of the Annual Report on Form 10-K filed by MDC Partners with the Securities and Exchange Commission for 2009 is available, without charge, to shareholders at MDC Partners' website at www.mdc-partners.com, on the Securities and Exchange Commission's website at www.sec.gov, on the SEDAR website at www.sedar.com, or upon written request to 950 Third Avenue, New York, N.Y. 10022, Attention: Investor Relations. Financial information is provided in MDC Partners' consolidated financial statements and MD&A for the year ended December 31, 2009. A copy of MDC Partners' most recent consolidated financial statements, interim financial statements, Annual Information Form and proxy statement and management information circular may also be obtained by shareholders, without charge, upon written request from the Secretary of MDC Partners or from the Securities and Exchange Commission's website at www.sec.gov or the SEDAR website at www.sedar.com.

SHAREHOLDER PROPOSALS FOR 2011 ANNUAL GENERAL MEETING

Under certain circumstances, stockholders are entitled to present proposals at stockholder meetings. The 2011 Annual Meeting of Stockholders will be held on or about June 3, 2011. Proposals of stockholders intended to be included in the proxy materials for the 2011 Annual Meeting of Stockholders must be received by the Secretary of the Company, 950 Third Avenue, New York, N.Y. 10022, by December 21, 2010 in a form that complies with the Company's Bylaws and applicable requirements. Any proposal submitted after December 21, 2010 will not be considered timely.

GENERAL

Management knows of no matter to come before the Meeting other than the matters referred to in the accompanying Notice. If any matters which are not now known should properly come before the Meeting, the accompanying proxy instrument will be voted on such matters in accordance with the best judgment of the person voting it.

The contents and sending of this Proxy Statement and Management Information Circular have been approved by the Board as of the date hereof.

By Order of the Board
Mitchell Gendel
General Counsel and Corporate Secretary

Toronto, Ontario

EXHIBIT A

MDC PARTNERS INC.

**CHARTER OF THE AUDIT COMMITTEE
OF THE BOARD OF DIRECTORS OF MDC
PARTNERS INC.**

**AS ADOPTED BY THE BOARD
ON FEBRUARY 26, 2004**

I. Authority

The Audit Committee (the "Committee") of the Board of Directors (the "Board") of MDC Partners Inc. (the "Corporation") is established pursuant to Section 42 of the Corporation's Bylaw No. A-1 and Section 158 of the Ontario Business Corporations Act. The Committee shall be comprised of three or more directors, as determined from time to time by resolution of the Board. Consistent with the appointment of other Board committees, the members of the Committee shall be elected by the Board at the annual organizational meeting of the Board or at such other time as may be determined by the Board. The Chairman of the Committee shall be designated by the Board, provided that if the Board does not so designate a Chairman, the members of the Committee, by majority vote, may designate a Chairman. The presence in person or by telephone of a majority of the Committee's members shall constitute a quorum for any meeting of the Committee. All actions of the Committee will require the vote of a majority of its members present at a meeting of the Committee at which a quorum is present.

II. Purpose of the Committee

The Committee's purpose is to provide assistance to the Board in fulfilling its legal and fiduciary obligations with respect to matters involving the accounting, auditing, financial reporting, internal control and legal compliance functions of the Corporation and its subsidiaries.

The Committee is directly responsible for the appointment (subject to shareholder approval), compensation, retention and oversight of the work of the Corporation's independent auditor engaged for the purpose of preparing or issuing an audit report or related work or performing other audit, review or attest services for the Corporation. In accordance with the requirements of the Sarbanes-Oxley Act of 2002 (the "SOA"), the Securities Exchange Act of 1934 (the "Exchange Act") and the rules promulgated thereunder by the Securities and Exchange Commission (the "SEC"), the rules of the National Association of Securities Dealers, Inc. (the "NASD"), the rules of the Toronto Stock Exchange (the "TSX") and the rules and instruments promulgated by the Ontario Securities Commission (the "OSC"), the independent auditor must report directly to the Committee and is accountable to the Committee (as representatives of the shareholders of the Corporation). The Committee's oversight responsibilities include the authority to approve all audit engagement fees and terms, as well as all permitted non-audit engagements and resolution of disagreements between management and the independent auditor regarding financial reporting.

It is the objective of the Committee to maintain free and open means of communications among the Board, the independent auditor, and the financial and senior management of the Corporation.

III. Composition of the Committee

Independence

Each member of the Committee shall be an independent director within the meaning of Section 10A(m)(3) of the Exchange Act, Rule 10A-3(b)(1) thereunder, and Rule 4200(a)(15) of the NASD, and an unrelated director within the meaning of section 472 of the TSX Listed Company Manual, subject to applicable exceptions.

Financial Literacy and Expertise

All members of the Committee must be able to read and understand fundamental financial statements, including a company's balance sheet, income statement and cash flow statement. At least one member of the Committee shall be an audit committee financial expert within the meaning of applicable SEC and OSC rules and at least one member shall have accounting or related financial experience as required under applicable TSX and NASD rules.

A-1

Specifically, the audit committee financial expert and the member with accounting or related financial experience must have the following attributes:

- An understanding and ability to analyze and interpret a full set of financial statements, including
- (a) the notes attached thereto, prepared in accordance with the generally accepted accounting principles used to prepare those statements;
- (b) An ability to assess the general application of generally accepted accounting principles in connection with the accounting for estimates, accruals and reserves;
Experience preparing, auditing, analyzing or evaluating financial statements that present a breadth and level of complexity of accounting issues that are generally comparable to the breadth and
- (c) complexity of issues that can reasonably be expected to be raised by the registrant's financial statements, or experience actively supervising one or more persons engaged in such activities;
- (d) An understanding of internal controls and procedures for financial reporting; and
- (e) An understanding of audit committee functions.

The Committee shall ensure that the Corporation provides to applicable regulatory authorities any required certification relating to adequacy of this Charter and composition of the Committee.

IV. Duties and Responsibilities of the Committee

In carrying out its duties and responsibilities, the Committee's policies and procedures should remain flexible, so that it may be in a position to best react or respond to changing circumstances or conditions. While there is no blueprint to be followed by the Committee in carrying out its duties and responsibilities, the following should be considered within the authority of the Committee (it being understood that the Committee may diverge from such matters as considered appropriate given the circumstances):

Selection and Evaluation of Auditors

- (a) Select the firm of independent public accountants to audit the books and accounts of the Corporation and its subsidiaries for each fiscal year;
- (b) Annually Review and approve the terms of engagement and determine the remuneration of Corporation's independent auditor; and
- (c) Review the performance of the Corporation's independent auditor and terminate or replace the independent auditor when circumstances warrant.

Independence of Auditors

- Ensure that the Corporation's independent auditor is independent and capable of exercising impartial judgment on all issues encompassed within its engagement. Regard shall be had to all
- (a) applicable rules and regulations relating to independence, including those with respect to financial relationships, employment relationships, business relationships, the provision of non-audit services, contingent fees, partner rotation and compensation.
Ensure that the independent auditor delivers to the Committee on a periodic basis a formal written
 - (b) statement delineating all relationships between the independent auditor and the Corporation, consistent with Independence Standards Board Standard 1;
Actively engage in a dialogue with the independent auditor with respect to any disclosed
 - (c) relationships or services that may impact the objectivity and independence of the independent auditor; and
 - (d) Take appropriate action to satisfy itself of the auditor's independence.

General Responsibility for Oversight of Auditors

The Corporation's independent auditor shall be ultimately accountable to the Committee and the (a) Committee shall be responsible for the appointment (subject to shareholder approval), compensation, retention and oversight of the work of the Corporation's independent auditor;

A-2

- Pre-approve all audit and permitted non-audit services to be provided by the independent auditor. The Committee may approve policies and procedures for the pre-approval of services to be rendered by the independent auditor, which policies and procedures are
- (b) detailed as to the particular service. All non-audit services to be provided to the Corporation or any of its subsidiaries by the independent auditor or any of its subsidiaries which are not covered by pre-approval policies and procedures approved by the Committee shall be subject to pre-approval by the Committee; and
 - (c) Resolve all disagreements between management and the independent auditor regarding financial reporting.

Oversight of Annual Audit and Quarterly Financial Statements

- Review and approve the annual audit plan of the Corporation's independent auditor, including the audit and non-audit services that the auditor is providing for the Corporation and its subsidiaries,
- (a) the level of responsibility assumed by the auditor under generally accepted auditing standards and a summary of the audit approach;
Before the release of annual financial statements, discuss with the independent auditor all matters required by SAS 114 (including the independent auditor's responsibility under GAAP, the selection of and changes in significant accounting policies or their application, management judgments and accounting estimates, significant audit adjustments, the independent auditor's responsibility for information other than financial statements, disagreements with management, consultation with other accountants, and difficulties encountered in performing the audit) and CICA Handbook section 5751 (which governs the communications between the independent auditors and the Committee);
 - (b) Receive a report from the Corporation's independent auditor, prior to the filing of the audit report with the SEC or the OSC, regarding:
 - (i) all critical accounting policies and practices used by the Corporation;
 - (ii) all material alternative accounting treatments of financial information within Canadian GAAP that have been discussed with management, including the ramifications of the use of such alternative treatments, and the treatment preferred by the independent auditor; and
 - (iii) other material communications between the independent auditor and management;
 - (c) Review and discuss with management the quarterly financial statements. Discuss with the independent auditor the results of its procedures on the statements.
 - (e) Prior to any disclosure, review and recommend to the Board for approval:
 - (i) the annual financial statements and related documents (MD&A, AIF, etc.);
 - (ii) the quarterly financial reports and related documents (including MD&A); and
 - (iii) other disclosure documents containing financial information that would likely be material to either the quarterly or annual financial statements.

Oversight and Monitoring of Other Financial Disclosures

- Review and recommend to the Board for approval all financial information of the Corporation
- (a) contained in any prospectus, annual information form, information circular or similar document of the Corporation, and any earnings press release to be issued in conjunction with the annual and quarterly results;
 - (b) Annually or more frequently as required, discuss with management the types of financial and operational information and earnings guidance to be disclosed to credit rating agencies that are subject to confidentiality agreements. The Committee need not discuss in advance with management each instance in which the Corporation gives earnings guidance to credit rating agencies, unless the substance of a presentation to any credit rating agency constitutes a material

shift in the Corporation strategy not previously approved by the Board;
A-3

- Annually or more frequently as required, discuss with management the types of financial and operational information and earnings guidance to be disclosed to analysts or shareholders (in groups or one-on-one) and the processes for ensuring that new material information is first or simultaneously disseminated in the public domain and subsequently included on the Corporation's website. The Committee need not discuss in advance with management each instance in which the Corporation gives earnings guidance to analysts, unless the substance of a presentation to any analyst constitutes a material shift in the Corporation strategy not previously approved by the Board; and
- (c) Review the public disclosure required in connection with the Committee's pre-approval of audit and non-audit services provided by the independent auditor.

Oversight of Financial Reporting Processes and Internal Controls

- Review with management and the independent auditor the adequacy and effectiveness of the
- (a) Corporation's accounting and internal control policies and procedures, including controls and security of the computerized information systems.
- (b) Review with management its compliance with prescribed policies, procedures and internal control;
- (c) Review with management and the independent auditor any reportable conditions and material weaknesses affecting internal control;
- (d) Establish and maintain free and open means of communication between and among the Board, the Committee, the Corporation's independent auditor and the Corporation's management; and
- (e) Review with management major financial and asset related risks and the steps taken to monitor and control such risks.

Other Matters

- (a) Meet with outside counsel when appropriate, to review legal and regulatory matters, including any matters that may have a material impact on the financial statements of the Corporation;
- Establish procedures for the receipt, retention and treatment of complaints received by the Corporation regarding accounting, internal controls or auditing matters and the confidential, anonymous submission by employees of the Corporation of concerns regarding questionable accounting or auditing matters;
- (b) Review and approve all related party transactions with any director or nominee, executive officer, holder of more than 5% of any class of the Corporations voting securities or any family member of the foregoing persons, other than those related party transactions in respect of which the Board has delegated review and approval to a special committee of independent directors.
- (c) Conduct or authorize investigations into any matters within the Committee's scope of responsibilities, including retaining outside counsel or other consultants or experts for this purpose; and
- (d) Perform such additional activities, and consider such other matters, within the scope of its responsibilities, as the Committee or the Board deems necessary or appropriate.
- (e)

With respect to the duties and responsibilities listed above, the Committee should:

- (a) Report regularly to the Board on its activities, as appropriate;
- (b) Exercise reasonable diligence in gathering and considering all material information;
- (c) Understand and weigh alternative courses of conduct that may be available;
- (d) Focus on weighing the benefit versus harm to the Corporation and its shareholders when considering alternative recommendations or courses of action;

- If the Committee deems it appropriate, secure independent expert advice and understand the
- (e) expert's findings and the basis for such findings, including retaining independent counsel, accountants or others to assist the Committee in fulfilling its duties and responsibilities;
 - (f) Provide management and the Corporation's independent auditor with appropriate opportunities to meet privately with the Committee; and
 - (g) Review the Charter of the Audit Committee annually and recommend it to the Board.

V. Meetings of the Committee

The Committee shall meet with such frequency and at such intervals as it shall determine is necessary to carry out its duties and responsibilities. As part of its purpose to foster open communications, the Committee shall meet at least annually with management and the Corporation's independent auditor in separate executive sessions to discuss any matters that the Committee or each of these groups or persons believe should be discussed privately. The Chairman should work with the Chief Financial Officer and management to establish the agendas for Committee meetings. The Committee, in its discretion, may ask members of management or others to attend its meetings (or portions thereof) and to provide pertinent information as necessary. The Committee shall maintain minutes of its meetings and records relating to those meetings and the Committee's activities and provide copies of such minutes to the Board.

VI. Advisors and Funding

The Committee shall have the authority to engage independent counsel and other advisors as it determines necessary to carry out its duties and responsibilities. The Corporation shall provide for appropriate funding, as determined by the Committee, for payment of any compensation (i) to any independent auditor engaged for the purpose of rendering or issuing an audit report or related work or performing other audit, review or attest services for the Corporation, and (ii) to any independent advisors employed by the Committee.

VII. Disclosure and Review of Charter

The charter shall be (1) published in the Corporation's annual report or information circular once every three years or following a material amendment to it; or (2) be posted in an up-to-date format on the Corporation's web site. The Committee should review and reassess annually the adequacy of this Charter as required by the applicable rules of Nasdaq or the TSX.

While the Committee has the duties and responsibilities set forth in this Charter, the Committee is not responsible for planning or conducting the audit or for determining whether the Corporation's financial statements are complete and accurate and are in accordance with generally accepted accounting principles. Management has the responsibility for preparing the financial statements and implementing internal controls and the independent auditor have the responsibility of auditing the financial statements. Similarly, it is not the responsibility of the Committee to resolve disagreements, if any, between management and the independent auditor or to ensure that the Corporation complies with all laws and regulations.

EXHIBIT B

**CORPORATE GOVERNANCE
DISCLOSURE OF CORPORATE GOVERNANCE
PRACTICES
(CANADIAN NATIONAL INSTRUMENT 58-101)**

The directors MDC Partners Inc. consider good corporate governance to be central to the effective and efficient operation of the Corporation. The business of the Corporation is supervised by its board of directors, directly and through its committees. The Canadian Securities Administrators require disclosure on an annual basis of the Corporation's corporate governance practices in accordance with Form 58-101 *Disclosure of Corporate Governance Practices*. The Corporation's corporate governance practices are set out below.

The Board of Directors

In determining whether a particular director is independent, the Board examines the factual circumstances in the context of that particular year. The Board proposed for election in this Circular is composed of eight members, all of whom are considered to be independent directors with the exception of Messrs. Nadal and Pustil, who are members of management. The following directors of MDC Partners also serve as directors (or senior executive officers) of companies that are reporting issuers (or the equivalent) in Canada or the U.S.:

Clare Copeland: serves as Chairman of Toronto Hydro, as a trustee of RioCan Real Estate Investment Trust, Chesswood Income Fund, and Custom Direct Income Fund, and is a member of the board of directors of Danier Leather Inc. and Entertainment One Ltd.

Thomas N. Davidson: serves as Chairman of NuTech Precision Metals, Inc.

Robert J. Kamerschen: served on the board of directors of R.H. Donnelley Corporation until January 2010.

Scott L. Kauffman: serves as President and Chief Executive Officer, and member of the board, of GeekNet, Inc.

Michael J.L. Kirby: serves as a director of The Bank of Nova Scotia, Extencicare Inc. and Just Energy Income Fund.

All independent directors frequently meet at the beginning or end of each regularly scheduled quarterly Board or Committee meeting without non-independent directors and management present. The Board has access to information independent of management through MDC Partners' auditor who reports to the Audit Committee. The specific responsibilities of the Board include reviewing and approving all major strategic decisions, including any change in the strategic direction of MDC Partners and acquisitions and/or divestitures and other matters (such as guarantees) in excess of Cdn\$2.5 million; reviewing and approving annual budgets, including capital expenditure plans;

reviewing and approving operating results for each quarter and year to date. As part of its ongoing activities, the Board regularly receives and comments upon reports of management as to the performance of MDC Partners' business and management's expectations. The Board is therefore of the view that the appropriate structures and procedures are in place to ensure that it can function independent of management.

The Board has selected Mr. Robert J. Kamerschen as the Presiding Director of the Board. Mr. Kamerschen is independent.

Board Mandate

The Board of Directors recently adopted a set of Corporate Governance Guidelines as a framework within which the Board and its Committees will conduct its business. A copy of the Guidelines is available free of charge at MDC Partners' website at <http://www.mdc-partners.com/ir/governance.asp>.

B-1

Position Descriptions

The Company's bylaws and the Charters of each Board committee provide a detailed description of the roles and responsibilities of the Board (including the Chairman), management and committees of the Board.

The Human Resources & Compensation Committee (described below) is responsible for establishing, monitoring and evaluating objectives and standards of performance for the Chief Executive Officer and other executive officers on an annual basis. Salary, bonus, loans or other payments for the benefit of the Chief Executive Officer must be reviewed and approved by the Human Resources & Compensation Committee. Related party expenses for services rendered and in the nature of expense reimbursement must also be approved by the Human Resources & Compensation Committee.

Orientation and Continuing Education

New directors to MDC Partners have generally been executives with extensive business experience and directorship responsibilities on the boards of other public and private institutions. Orientation for these individuals is provided through a review of past Board materials and other private and public documents concerning MDC Partners. In addition, Board members are encouraged to attend (at the cost and expense of the Company) continuing education programs identified by the Nominating and Corporate Governance Committee each year to ensure that they maintain the skills necessary for them to meet their obligations as directors.

Ethical Business Conduct

The Company has adopted a Code of Conduct, which applies to all directors, officers (including the Company's Chief Executive Officer and Chief Financial Officer) and employees of the Company and its subsidiaries. The Code of Conduct was adopted in order to help directors, officers and employees resolve ethical issues. The Code of Conduct covers topics including, but not limited to, conflicts of interest, confidentiality of information and compliance with laws. The Company's policy is to not permit any waiver of the Code of Conduct for any director or executive officer, except in extremely limited circumstances. The Board, through the Audit Committee, monitors and assesses and claims alleged under the Code of Conduct. Any waiver of this Code of Conduct for directors or officers of the Company must be approved by the Company's Board of Directors. Amendments to and waivers of the Code of Conduct will be publicly disclosed as required by applicable laws, rules and regulations.

The Code of Conduct is available free of charge on the Company's website at <http://www.mdc-partners.com>, or by writing to MDC Partners Inc., 950 Third Avenue, New York, NY 10022, Attention: Investor Relations.

Nomination of Directors

The Nominating and Corporate Governance Committee is composed of four members, all of whom are considered to be independent. The Nominating and Corporate Governance Committee is responsible for reviewing and making recommendations to the full Board with respect to developments in the area of corporate governance and the practices of the Board. The Nominating and Corporate Governance Committee is also responsible for evaluating the performance of the Board as a whole and for reporting to the Board with respect to appropriate candidates for nominations to the

Board. The current members of the Nominating and Corporate Governance Committee are Messrs. Robert J. Kamerschen (Chairman), Thomas N. Davidson, Scott L. Kauffman, and Michael J.L. Kirby.

The Nominating and Corporate Governance Committee's current charter is available at www.mdc-partners.com/ir/governance.asp.

The Nominating and Corporate Governance Committee identifies, selects and recommends to the Board individuals qualified to serve both on the Board and on Board committees, including persons suggested by shareholders and others. In identifying candidates for nominations to the Board, the Nominating and Corporate Governance Committee seeks to maintain at all times a Board with a diverse range of experience, talent, expertise and background appropriate for the business of the Company. The Nominating and Corporate Governance Committee does not require any specific minimum qualifications or specific qualities or skills, but reviews each person's qualifications on the whole, including a candidate's particular experience, skills, expertise, diversity, personal and professional integrity, character, business judgment, time availability in light of other commitments, dedication, conflicts of interest and such other relevant factors that the Nominating and Corporate Governance Committee considers appropriate in the context of the needs of the Board. Following

B-2

that review, the Nominating and Corporate Governance Committee then selects nominees and recommends them to the Board for election by the shareholders or appointment by the Board, as the case may be. The Nominating and Corporate Governance Committee also reviews the suitability of each Board member for continued service as a director when that member's term expires or that member experiences a significant change in status (for example, a change in employment). The Nominating and Corporate Governance Committee has not implemented any particular additional policies or procedures with respect to suggestions received from shareholders with respect to Board or committee nominees.

Pursuant to its charter, the Nominating and Corporate Governance Committee may conduct or authorize investigations or studies into matters within its scope of responsibilities and may retain, at the Company's expense, such independent counsel or other consultants or advisers as it may deem necessary from time to time. The Nominating and Corporate Governance Committee has the sole authority to retain or terminate any search firm to be used to identify director candidates, including the sole authority to approve its fees and retention terms, with the Company bearing the cost of such fees.

Compensation

The Human Resources & Compensation Committee is composed of four members, all of whom are considered to be independent. The Human Resources & Compensation Committee makes recommendations to the Board on, among other things, the compensation of senior executives. The Human Resources & Compensation Committee discusses personnel and human resources matters including recruitment and development, management succession and benefits plans and grants awards under the 2005 Stock Incentive Plan and the SARs Plan. Salary, bonus or other payments for the benefit of senior management are reviewed and approved by the Human Resources & Compensation Committee. The Human Resources & Compensation Committee reviews the compensation of members of the Board on an annual basis and makes recommendations to the Board. The Board considers their remuneration appropriate given the time commitment, risk and responsibilities associated with the position. The current members of the Human Resources & Compensation Committee are Messrs. Michael J.L. Kirby (Chairman), Robert J. Kamerschen, Scott L. Kauffman, and Clare Copeland. The Human Resources & Compensation Committee's current charter is available at www.mdc-partners.com/ir/governance.asp.

Other Board Committees

The Board conducts its business through meetings of the Board and three standing committees: the Audit Committee, the Human Resources & Compensation Committee and the Nominating and Corporate Governance Committee. Copies of the charters of these committees are available, free of charge at MDC Partners' website located at <http://www.mdc-partners.com/ir/governance.asp>.

In addition, from time to time, special committees may be established under the direction of the Board when necessary to address specific issues.

Assessments

The Nominating and Corporate Governance Committee is responsible for developing and recommending standards of performance of the Board, its committees and the individual directors through administration of an annual questionnaire. It is the responsibility of the Nominating and Corporate Governance Committee to assess the effectiveness of the Board as a whole and the committees of the Board. Participation of directors is expected at all Board and committee meetings. Directors are asked to notify MDC Partners if they are unable to attend, and attendance at meetings is duly recorded.

FORM OF PROXY CLASS A SHARES

MDC PARTNERS INC.

FORM OF PROXY

THIS PROXY IS SOLICITED BY THE MANAGEMENT OF MDC PARTNERS INC. (MDC PARTNERS) FOR USE AT THE ANNUAL MEETING OF THE SHAREHOLDERS TO BE HELD ON JUNE 3, 2010.

The undersigned, a shareholder of MDC Partners, hereby nominates, constitutes and appoints as his or her nominee Mr. Miles S. Nadal, or failing him, Mr. Mitchell Gendel, or instead of any of the foregoing (strike out preceding names and print name of alternative nominee), with full power of substitution, to attend and vote all of the common shares of MDC Partners held by the undersigned for and on behalf of the undersigned at the annual meeting of shareholders of MDC Partners to be held on Thursday, June 3, 2010 at the Core Club, 66 E. 55th Street, New York, N.Y. commencing at 10:00 a.m. (New York City time) (the Meeting) and at any adjournment or postponement thereof in the manner indicated:

The nominees proposed by management to act as directors of MDC Partners, to hold office until 1. successors are elected at the next annual meeting of MDC Partners, or any adjournment or postponement thereof, or until his successor is otherwise elected, are:

Miles S. Nadal
Robert J. Kamerschen
Clare Copeland
Thomas N. Davidson
Scott L. Kauffman
Michael J.L. Kirby
Stephen M. Pustil

to Vote **FOR** o all nominees listed above (*except* for the following nominees from whom I withhold my vote):

or to o **WITHHOLD** from Voting for all nominees

to Vote **FOR** o or to o **WITHHOLD** from Voting, (or, if no specification is made, **FOR**), a 2. resolution appointing BDO Seidman, LLP to act as auditors of MDC Partners and to authorize the directors to fix their remuneration.

I HEREBY REVOKE ANY PRIOR PROXY OR PROXIES IN FAVOR OF THE NOMINEE. WITH RESPECT TO AMENDMENTS OR VARIATIONS TO ANY MATTER IN THE NOTICE OF MEETING AND ANY OTHER MATTERS WHICH MAY PROPERLY COME BEFORE THE MEETING, I HEREBY CONFER DISCRETIONARY AUTHORITY ON THE PERSON WHO VOTES AND ACTS ON MY BEHALF HEREUNDER TO VOTE WITH RESPECT TO AMENDMENTS OR VARIATIONS TO THE ABOVE MATTERS AND ON SUCH OTHER BUSINESS AS MAY PROPERLY COME BEFORE THE MEETING, AS HE

**OR SHE THINKS FIT. THE SHARES REPRESENTED BY THIS PROXY WILL BE VOTED
IN ACCORDANCE WITH THE INSTRUCTIONS GIVEN ON ANY VOTE OR BALLOT
CALLED.**

DATED this day of , 2010.

INSTRUCTIONS FOR PROXY:

1. This proxy must be dated and signed by a shareholder or his or her attorney duly authorized in writing, or if the shareholder is a corporation, by the proper officers or directors under its corporate seal, or by an officer or attorney thereof duly authorized. When signing in a fiduciary or representative capacity, please give full title as such.

2. **A shareholder has the right to appoint a person to attend and act for him or her and on his or her behalf at the Meeting other than the persons designated in this form of proxy.** Such right may be exercised by filling in the name of such person in the blank space provided and striking out the names of management's nominees. A person appointed as nominee to represent a shareholder need not be a shareholder of MDC Partners. **A person appointed as your proxy holder must be present at the Meeting to vote.**

3. If not dated, this proxy is deemed to bear the date on which it was mailed on behalf of the management of MDC Partners.

4. Each shareholder who is unable to attend the Meeting is respectfully requested to date and sign this form of proxy and return it using the self-addressed envelope provided.

5. To be valid, this proxy must be received by the proxy department of CIBC Mellon Trust Company, Attn: Proxy Department, P.O. Box 721, Toronto, Ontario M1S 0A1, not later than 4:30 pm (Eastern Daylight Time) on Tuesday, June 1, 2010, or 48 hours before the time of the holding of any adjourned or postponed Meeting, or delivered to the Chairman on the day of the Meeting or any adjournment or postponement thereof.

6. Any of the joint holders of common shares of MDC Partners may sign a form of proxy in respect of such common shares but, if more than one of them is present at the Meeting or represented by proxy holder, then that one of them whose name appears first in the register of the holders of such common shares, or that one's proxy holder will alone be entitled to vote in respect thereof.
