ANNUAL REPORT PURSUANT TO SECTION 13 OR 15(d) OF THE SECURITIES EXCHANGE ACT OF 1934

For the fiscal year ended December 31, 2011

OR

TRANSITION REPORT PURSUANT TO SECTION 13 OR 15(d) OF THE SECURITIES EXCHANGE ACT OF 1934

For the transition period from _____ to _____
Commission file number 000-49799

OVERSTOCK.COM, INC.

(Exact name of Registrant as specified in its charter)

Delaware
(State or other jurisdiction of
incorporation or organization)

87-0634302
(I.R.S. Employer
Identification Number)

6350 South 3000 East
Salt Lake City, Utah 84121
(Address of principal executive offices including zip code)

(801) 947-3100
(Registrant's telephone number, including area code)

Securities registered pursuant to Section 12(b) of the Act:

Title of Each Class	Name of Each Exchange on Which Registered
Common Stock, \$0.0001 par value	Nasdaq Global Market

Securities registered pursuant to Section 12(g) of the Act: **None**

Indicate by check mark if the registrant is a well-known seasoned issuer, as defined in Rule 405 of the Securities Act. Yes No

Indicate by check mark if the registrant is not required to file reports pursuant to Section 13 or Section 15(d) of the Act. Yes No

Edgar Filing: OVERSTOCK.COM, INC - Form 10-K

Indicate by check mark whether the registrant (1) has filed all reports required to be filed by Section 13 or 15(d) of the Securities Exchange Act of 1934 during the preceding 12 months (or for such shorter period that the registrant was required to file such reports), and (2) has been subject to such filing requirements for the past 90 days. Yes No

Indicate by check mark whether the registrant has submitted electronically and posted on its corporate Web site, if any, every Interactive Data File required to be submitted and posted pursuant to Rule 405 of Regulation S-T (§232.405 of this chapter) during the preceding 12 months (or for such shorter period that the registrant was required to submit and post such files). Yes No

Indicate by check mark if disclosure of delinquent filers pursuant to Item 405 of Regulation S-K is not contained herein, and will not be contained, to the best of Registrant's knowledge, in definitive proxy or information statements incorporated by reference in Part III of this Form 10-K, or any amendment to this Form 10-K.

Indicate by check mark whether the registrant is a large accelerated filer, an accelerated filer, a non-accelerated filer or a smaller reporting company. See the definitions of "large accelerated filer", "accelerated filer," and "smaller reporting company" in Rule 12b-2 of the Exchange Act. (Check one):

Large accelerated filer

Accelerated filer

Non-accelerated filer

Smaller reporting company

(Do not check if a
smaller reporting company)

Indicate by check mark whether the registrant is a shell company (as defined in Rule 12b-2 of the act). Yes No

The aggregate market value of voting and non-voting common equity held by non-affiliates of the registrant as of the last business day of the registrant's most recently completed second quarter (June 30, 2011), was approximately \$162.4 million based upon the last sales price reported by NASDAQ. For purposes of this disclosure, shares of Common Stock held by persons who hold more than 5% of the outstanding shares of Common Stock and shares held by officers and directors of the registrant have been excluded in that such persons may be deemed to be affiliates. This determination is not necessarily conclusive.

As of February 10, 2012 there were 23,387,288 shares of the registrant's Common Stock outstanding.

DOCUMENTS INCORPORATED BY REFERENCE

Certain information required by Part III of Form 10-K is incorporated by reference to the Registrant's proxy statement for the 2012 Annual Stockholders Meeting, which will be filed with the Securities and Exchange Commission within 120 days after the end of the fiscal year to which this Report relates.

SPECIAL NOTE REGARDING FORWARD-LOOKING STATEMENTS

This Annual Report on Form 10-K and the documents incorporated herein by reference contain forward-looking statements within the meaning of Section 27A of the Securities Act of 1933 and Section 21E of the Securities Exchange Act of 1934. These statements are therefore entitled to the protection of the safe harbor provisions of these laws. These forward-looking statements involve risks and uncertainties, and relate to future events or our future financial or operating performance. The forward-looking statements include all statements other than statements of historical fact, including, without limitation, all statements regarding:

the anticipated benefits and risks of our business and plans;

our ability to attract and retain customers in a cost-efficient manner;

the effectiveness of our marketing;

our future operating and financial results;

the competition we face and will face in our business;

the effects of government regulation;

our future capital requirements and our ability to satisfy our capital needs;

our expectations regarding the adequacy of our liquidity;

our ability to retire or refinance our debt;

our plans for international markets;

our plans for changes to our business;

our beliefs regarding current or future litigation or regulatory actions;

our beliefs and expectations regarding existing and future tax laws and related laws and the application of those laws to our business;

our beliefs regarding the adequacy of our insurance coverage;

the adequacy of our infrastructure, including our backup facilities and our disaster planning;

Edgar Filing: OVERSTOCK.COM, INC - Form 10-K

our belief that we can meet our published product shipping standards even during periods of relatively high sales activity;

our belief that we can maintain or improve upon customer service levels that we and our customers consider acceptable;

our beliefs regarding the adequacy of our order processing systems and our fulfillment and distribution capabilities;

our beliefs regarding the adequacy of our customer service capabilities;

our beliefs and expectations regarding the adequacy of our office and warehouse facilities;

our expectations regarding our travel shopping service, our insurance shopping service, our international sales efforts, our car listing service and our community site, and the anticipated functionality and results of operations of any of them;

our belief that we and our fulfillment partners will be able to maintain inventory levels at appropriate levels despite the seasonal nature of our business; and

our belief that we can successfully offer and sell a constantly changing mix of products and services.

Table of Contents

Furthermore, in some cases, you can identify forward-looking statements by terminology such as may, will, could, should, expect, plan, intend, anticipate, believe, estimate, predict, potential or continue, the negative of such terms or other comparable terminology. These statements are only predictions. Actual events or results may differ materially. In evaluating these statements, you should specifically consider the risks outlined in this Annual Report on Form 10-K for the year ended December 31, 2011, including those described in Item 1A under the caption "Risk Factors." These factors may cause our actual results to differ materially from those contemplated by any forward-looking statement. Except as otherwise required by law, we expressly disclaim any obligation to release publicly any update or revisions to any forward-looking statements to reflect any changes in our expectations or any change in events, conditions or circumstances on which any of our forward-looking statements are based. Although we believe that the expectations reflected in the forward-looking statements are reasonable, we cannot guarantee future results, levels of activity, performance or achievements.

These forward-looking statements speak only as of the date of this report and, except as required by law, we undertake no obligation to update forward-looking statements to reflect events or circumstances occurring after the date of this report.

Table of Contents

PART I

ITEM 1. BUSINESS

The following description of our business contains forward-looking statements relating to future events or our future financial or operating performance that involve risks and uncertainties, as set forth above under "Special Note Regarding Forward-Looking Statements." Our actual results could differ materially from those anticipated in these forward-looking statements as a result of certain factors, including those set forth in Section 1A under the heading "Risk Factors" and elsewhere in this Form 10-K.

Introduction

We are an online retailer offering discount brand name, non-brand name and closeout merchandise, including bed-and-bath goods, home décor, kitchenware, furniture, watches and jewelry, apparel, electronics and computers, sporting goods, and designer accessories, among other products. We are also a channel through which customers can purchase cars, insurance and travel products and services. We sell advertising. We also sell hundreds of thousands of best seller and current run books, magazines, CDs, DVDs and video games ("BMMG"). We sell these products and services through our Internet websites located at www.overstock.com, www.o.co and www.o.biz ("Website"). Although our three websites are located at different domain addresses, the technology and equipment and processes supporting the three websites and the process of order fulfillment described herein are the same for all three websites.

Our company, based in Salt Lake City, Utah, was founded in 1997. We launched our initial website in March 1999. Our Website offers our customers an opportunity to shop for bargains conveniently, while offering our suppliers an alternative inventory liquidation or sales channel. We continually add new, sometimes limited, inventory products to our Website in order to create an atmosphere that encourages customers to visit frequently and purchase products before our inventory sells out. We sell products primarily in the United States, with a small amount of products (less than 1% of sales) sold internationally.

As used herein, "Overstock," "Overstock.com," "O.co," "we," "our" and similar terms include Overstock.com, Inc. and its subsidiaries, unless the context indicates otherwise.

Our Business

We deal primarily in discount, replenishable, and closeout merchandise and we use the Internet to aggregate both supply and demand to create an efficient marketplace for selling these products. We provide manufacturers with a one-stop liquidation channel to sell both large and small quantities of excess, closeout and replenishable inventory without disrupting sales through traditional channels, which can result in weaker pricing and decreased brand strength. The merchandise offered on our Website is from a variety of sources including well-known, brand-name manufacturers. We have organized our shopping business (sales of product offered through the Shopping Section of our Website) into two principal segments a "direct" business and a "fulfillment partner" business. We currently offer approximately 251,000 non-BMMG products and approximately 637,000 BMMG products. Consumers and businesses are able to access and purchase our products 24 hours a day from the convenience of a computer, Internet-enabled mobile telephone or other Internet-enabled devices. Our team of customer service representatives assists customers by telephone, instant online chat and e-mail. We also derive revenue from other businesses advertising products or services on our Website. We have car, insurance and travel listing businesses through which cars, insurance and travel-related products and services may be purchased from vendors. Nearly all of our sales are to customers located in the United States. During the years ended December 31, 2011 and 2010 no single customer accounted for more than 1% of our total revenue.

Table of Contents

Direct business

Our direct business includes sales made to individual consumers and businesses, which are fulfilled from our leased warehouses in Salt Lake City, Utah. During the year ended December 31, 2011, we fulfilled approximately 16% of our order volume through our warehouses. Our warehouses generally ship between 4,000 and 7,000 orders per day and up to approximately 10,000 orders per day during peak periods, using overlapping daily shifts.

Fulfillment partner business

For our fulfillment partner business, we sell merchandise of other retailers, cataloguers or manufacturers ("fulfillment partners") through our Website. We are considered to be the primary obligor for the majority of these sales transactions and we record revenue from the majority of these sales transactions on a gross basis. Our use of the term "partner" or "fulfillment partner" does not mean that we have formed any legal partnerships with any of our fulfillment partners. We currently have relationships with approximately 2,000 third parties who supply approximately 242,000 non-BMMG products, as well as most of the BMMG products, on our Website. These third-party fulfillment partners perform essentially the same fulfillment operations as our warehouses, such as order picking and shipping; however, we handle returns and customer service related to substantially all orders placed through our Website. Revenue generated from sales on our Shopping site from both the direct and fulfillment partner businesses is recorded net of returns, coupons and other discounts.

Both direct and fulfillment partner revenues are seasonal, with revenues historically being the highest in the fourth quarter, which ends December 31, reflecting higher consumer holiday spending. We anticipate this will continue in the foreseeable future.

Generally, we require verification of receipt of payment, or authorization from credit card or other payment vendors whose services we offer to our customers (such as PayPal and BillMeLater), before we ship products to consumers or business purchasers. From time to time we grant credit to our business purchasers with normal credit terms (typically 30 days). For sales in our fulfillment partner business, we generally receive payments from our customers before our payments to our suppliers are due.

International business

We began selling products through our Website to customers outside the United States in late August 2008. As of December 31, 2011, we were offering products to customers in over 105 countries and non-U.S. territories. We do not have sales operations outside the United States, and are using a U.S. based third party to provide logistics and fulfillment for all international orders. Revenue generated from our international business is included in either direct or fulfillment partner revenue, depending on whether the product is shipped from our warehouses or from a fulfillment partner. Less than 1% of our sales are made to international customers.

Consignment

In September 2009, we began offering a consignment service to suppliers where the suppliers' merchandise is stored in and shipped from our leased warehouses. We pay the consignment supplier upon sale of the consigned merchandise to our customer.

Revenue from our consignment service business is less than 1% of total net revenue and is included in the fulfillment partner segment.

Table of Contents

Other businesses

We operate an online car listing service as part of our Website. The car listing service allows sellers to list vehicles for sale and allows buyers to review vehicle descriptions, post offers to purchase, and provides the means for purchasers to contact sellers for further information and negotiations on the purchase of an advertised vehicle. We also earn advertisement revenue derived from our cars business. Revenue from the cars businesses is included in the fulfillment partner segment on a net basis.

We operate an online site, O.biz, a website where customers and businesses can shop for bulk and business related items, while offering manufacturers, distributors and other retailers an alternative sales channel for liquidating their inventory. Revenue generated from our O.biz is included in either direct or fulfillment partner revenue, depending on whether the product is shipped from our warehouses or from a fulfillment partner.

In April 2011, we again began operating a travel shopping site as part of our Website where customers can purchase discount travel packages, flights, rental cars and other travel-related products and services. We also earn advertisement revenue from our travel business. Revenue from the travel businesses is included in the fulfillment partner segment on a net basis.

In July 2011, we began operating an insurance shopping service as part of our Website where customers can shop for auto and home insurance and compare quotes from various insurance providers. We also earn advertisement revenue from our insurance business. Revenue generated from our insurance shopping site is included in fulfillment partner segment on a net basis.

Prior to July 2011, we operated an online auction service as part of our Website. In July 2011, we removed our Marketplace tab for auctions from our Website and no longer provide auction services. The financial results and related assets of the online auction service were not significant to our business. Our Marketplace tab allowed sellers to list items for sale, buyers to bid on items of interest, and users to browse through listed items online. We recorded only our listing fees and commissions for items sold as revenue. From time to time, we also sold items returned from our shopping business through our auction service, and for these sales, we recorded the revenue on a gross basis. Revenue from the auctions is included in the fulfillment partner segment.

Prior to June 2011, we operated an online site for listing real estate for sale as part of our Website. In June 2011, we removed our online site for listing real estate for sale from our Website and no longer provide these real estate listing services. The financial results and related assets of the online site for listing real estate for sale were not significant to our business. The real-estate listing service allowed customers to search active listings across the country. Revenue from the real estate business is included in the fulfillment partner segment on a net basis.

Prior to June 2011, we operated Eziba.com, a private sale website featuring home décor products, jewelry, apparel and accessories from many leading brands. In June 2011, we turned off the Eziba.com website; however, we continue to sell the type of products that were listed on Eziba.com through our websites, O.co and Overstock.com.

Revenue from our other businesses is less than 1% of total net revenues.

Manufacturer, Supplier and Distribution Relationships

To date, we have not entered into contracts with manufacturers or other suppliers that guarantee the availability of merchandise for a set duration. Our manufacturer and supplier relationships are based on historical experience with manufacturers and other suppliers and do not obligate or entitle us to receive merchandise on a long-term or short-term basis. In our direct business, we purchase the products from manufacturers or other suppliers using standard purchase orders. Generally, suppliers do not control the terms under which products are sold through our Website.

Table of Contents

Products

Online Products

Our Website is organized into five main sections: Shopping, Cars, Travel, Insurance, and Business to Business. The Shopping section is organized into 18 main departments: Home & Garden, Furniture, Bedding & Bath, Clothing & Shoes, Electronics, Jewelry, Watches, Sports and Outdoors, Books Media Music & Games, Luggage, Worldstock Fair Trade, Health & Beauty, Baby, Crafts & Sewing, Office, Gifts & Flowers, Toys & Hobbies, and Pets. Worldstock Fair Trade is our socially-responsible, online marketplace through which artisans in the United States and around the world can sell their products and gain access to a broader market. We have specialty departments, such as Main Street Revolution. Main Street Revolution is our marketplace that enables small and minority-owned businesses to offer their products to a mass audience by selling on our websites.

For the years ended December 31, 2011, 2010 and 2009, the percentages of gross sales contributed by similar classes of products were as follows:

Product Class	2011	2010	2009
Home and garden(1)	58%	55%	53%
Jewelry, watches, clothing and accessories	20%	23%	24%
BMMG, electronics and computers	10%	11%	14%
Other	12%	11%	9%
Total	100%	100%	100%

(1) Home and garden includes home décor, bedding, bath, furniture, housewares, garden, patio and other related products.

From time-to-time, as the number of products and product categories change, we may reorganize our departments and/or categories to better reflect our current product offerings.

Sales and Marketing

We use a variety of methods to target our consumer audience, including online campaigns, such as advertising through portals, keywords, search engines, affiliate marketing programs, social coupon websites, banners, e-mail, direct mail, viral and social media campaigns, and we are able to monitor and evaluate their results. We seek to identify and eliminate campaigns that do not meet our expectations. We also do brand advertising through television, radio, and print ads. We generally develop these campaigns internally.

Customer Service

We are committed to providing superior customer service. We staff our customer service department with dedicated in-house and outsourced professionals who respond to phone, instant online chat and e-mail inquiries on products, ordering, shipping status, returns and other areas of customer inquiry. As a result of this commitment, in each of the last six years we have ranked in the top four companies in customer service rankings among all U.S. retailers, according to rankings published in the NRF Foundation/American Express Customer Service Survey.

Technology

We use our internally developed Websites and a combination of proprietary technologies and commercially available licensed technologies and solutions to support our operations. We use the services of multiple telecommunications companies to obtain connectivity to the Internet. Currently, our primary computer infrastructure resides at a co-location facility in Salt Lake City. We also have a

Table of Contents

second data center near our corporate headquarters which we use primarily for backups, redundancy, development, testing, and our corporate systems infrastructure.

Competition

Internet retail is intensely competitive and has relatively low barriers to entry. We believe that competition in this industry is based predominantly on:

price;

product quality and selection;

shopping convenience;

website organization and load speed;

order processing and fulfillment;

order delivery time;

customer service; and

brand recognition.

We compete with other online retailers, traditional retailers and liquidation "brokers," some of which may specifically adopt our methods and target our customers. We currently or potentially compete with a variety of companies that can be divided into several broad categories:

liquidation e-tailers such as SmartBargains;

online general retailers with discount departments such as Amazon.com, Inc., eBay, Inc. and Buy.com, Inc.;

private sale sites such as Rue La La and Gilt Groupe;

online specialty retailers such as Bluefly, Inc., Blue Nile, Inc. and Zappos.com; and

traditional general merchandise and specialty retailers and liquidators such as Ross Stores, Inc., Wal-Mart Stores, Inc., Costco Wholesale Corporation, J.C. Penney Company, Inc., Sears Holding Corporation, Target Corporation, Best Buy Co., Inc., Home Depot, Inc. and Barnes and Noble, Inc., which also have an online presence.

Many of our current and potential competitors have greater brand recognition, longer operating histories, larger customer bases and significantly greater financial, marketing and other resources than we do. Further, any of them may enter into strategic or commercial relationships with larger, more established and well-financed companies, including exclusive distribution arrangements with our vendors that could deny us access to their products. Many of them could devote greater resources to marketing and promotional campaigns and devote

substantially more resources to their website and systems development than we do. New technologies and the continued enhancement of existing technologies also may increase competitive pressures on us. We cannot ensure that we will be able to compete successfully against current and future competitors or address increased competitive pressures (see Item 1A "Risk Factors").

Seasonality

Our business is affected by seasonality because of the holiday retail season, which historically has resulted in higher sales volume during our fourth quarter, which ends December 31. We recognized 29.8%, 32.0% and 36.8% of our annual revenue during the fourth quarter of 2011, 2010, and 2009, respectively.

Table of Contents

Financial Information about Geographic Areas

See Item 15 of Part IV, "Financial Statements" Note 22 "Business Segments" for more information.

Intellectual Property and Trade Secrets

We regard our domain names and similar intellectual property as critical to our success. We rely on a combination of laws and contractual restrictions with our employees, customers, suppliers, affiliates and others to establish and protect our proprietary rights, including the law pertaining to trade secrets. Despite these precautions, it may be possible for a third party to copy or otherwise obtain and use our intellectual property or trade secrets without authorization. In addition, we cannot ensure that others will not independently develop similar intellectual property. Although we have registered and are pursuing the registration of our key trademarks in the United States and some other countries, some of our trade names may not be eligible to receive registered trademark protection. In addition, effective trademark protection may not be available or we may not seek protection in every country in which we market or sell our products and services, including in the United States. Additionally our efforts to protect our trade secrets may not succeed.

Third parties have in the past recruited and may in the future recruit our employees who have had access to our proprietary technologies, processes and operations. These recruiting efforts expose us to the risk that such employees and those hiring them will misappropriate and exploit our intellectual property and trade secrets.

Legal and Regulatory Matters

From time to time, we receive claims and become subject to regulatory investigations or actions, consumer protection, employment, intellectual property and other commercial litigation related to the conduct of our business. We also prosecute lawsuits to enforce our legal rights. Such litigation could be costly and time consuming and could divert our management and key personnel from our business operations. The uncertainty of litigation increases these risks. In connection with such litigation, we may be subject to significant damages, associated costs, or equitable remedies relating to the operation of our business and the sale of products on our Website. Any such litigation may materially harm our business, prospects, results of operations, financial condition or cash flows.

These and other types of claims could result in increased costs of doing business through legal expenses, adverse judgments or settlements or require us to change our business practices in expensive and significant ways. In addition, litigation could result in interpretations of the law that require us to change our business practices or otherwise increase our costs.

Additional litigation may be necessary in the future to enforce our intellectual property rights, to protect our trade secrets or to determine the validity and scope of the proprietary rights of others. Any litigation, regardless of outcome or merit, could result in substantial costs and diversion of management and technical resources, any of which could materially harm our business (see Item 1A "Risk Factors").

See the information set forth under Item 15 of Part IV, "Financial Statements" Note 13 "Commitments and Contingencies, subheading Legal Proceedings," contained in the "Notes to Consolidated Financial Statements" of this Annual Report on Form 10-K.

Government Regulation

Our services are subject to federal and state consumer protection laws including laws protecting the privacy of consumer information and regulations prohibiting unfair and deceptive trade practices. In particular, under federal and state financial privacy laws and regulations, we must provide notice to

Table of Contents

consumers of our policies on sharing non-public information with third parties, advance notice of any changes to our policies and, with limited exceptions, we must give consumers the right to prevent sharing of their non-public personal information with unaffiliated third parties. Furthermore, the growth and demand for online commerce could result in more stringent consumer protection laws that impose additional compliance burdens on online companies. These consumer protection laws could result in substantial compliance costs and could interfere with the conduct of our business.

In many states, there is currently great uncertainty whether or how existing laws governing issues such as property ownership, sales and other taxes, libel and personal privacy apply to the Internet and commercial online services. These issues may take years to resolve. In addition, new state tax regulations in states where we do not now collect state and local taxes, may subject us to the obligation to collect and remit state and local taxes, or subject us to additional state and local sales and income taxes, or to requirements intended to assist states with their tax collection efforts. New legislation or regulation, the application of laws and regulations from jurisdictions whose laws do not currently apply to our business or the application of existing laws and regulations to the Internet and commercial online services could result in significant additional taxes on our business. These taxes or tax collection obligations could have an adverse effect on our cash flows and results of operations. Furthermore, there is a possibility that we may be subject to significant fines or other payments for any past failures to comply with these requirements.

Employees

As of December 31, 2011, we had approximately 1,300 full-time employees. We seasonally augment our workforce with temporary employees during our fourth quarter to handle increased workload in both our warehouse and customer service operations. We have never had a work stoppage, and none of our employees are represented by a labor union. We consider our employee relationships to be good. Competition for qualified personnel in our industry has historically been intense, particularly for software engineers, computer scientists, and other technical staff.

Executive Officers of the Registrant

The following persons were executive officers of Overstock.com as of December 31, 2011:

Executive Officers	Age	Position
Patrick M. Byrne	49	Chief Executive Officer and Chairman of the Board of Directors
Jonathan E. Johnson III	45	President and Corporate Secretary
Stephen J. Chesnut	52	Senior Vice President, Finance and Risk Management
Samuel J. Peterson	36	Senior Vice President, Technology
Stormy D. Simon	43	Senior Vice President, Customer and Partner Care and Director
Stephen P. Tryon	50	Senior Vice President, Human Capital Management

Dr. Patrick M. Byrne has served as our Chief Executive Officer (principal executive officer) and as a Director since October 1999, as Chairman of the Board from February 2001 through October 2005, and since July 2006. From September 1997 to May 1999, Dr. Byrne served as President and Chief Executive Officer of Fechheimer Brothers, Inc., a manufacturer and distributor of uniforms. From 1995 until its sale in September 1999, Dr. Byrne was Chairman, President and Chief Executive Officer of Centricut, LLC, a manufacturer and distributor of industrial torch parts. From 1994 to the present, Dr. Byrne has served as a Manager of the Haverford Group, an investment company and an affiliate of Overstock. Dr. Byrne has a Bachelor of Arts Degree in Chinese studies from Dartmouth College, a Master's Degree from Cambridge University as a Marshall Scholar, and a Ph.D. in philosophy from Stanford University.

Table of Contents

Mr. Jonathan E. Johnson III joined Overstock.com in September 2002 and has served as our President and Corporate Secretary since July 2008. He has served as our General Counsel and as our Vice President, Strategic Projects and Legal, and Senior Vice President, Corporate Affairs and Legal. From May 1999 to September 2002, Mr. Johnson held various positions with TenFold Corporation, a software company, including positions as General Counsel, Executive Vice President and Chief Financial Officer. From October 1997 to April 1999, Mr. Johnson practiced law with Milbank, Tweed, Hadley & McCloy and from September 1994 to September 1997, he practiced law with Graham & James. From February 1994 to August 1994, Mr. Johnson served as a judicial clerk at the Utah Supreme Court for Justice Leonard H. Russon, and prior to that, from August 1993 to January 1994, Mr. Johnson served as a judicial clerk at the Utah Court of Appeals for Judge Leonard H. Russon. Mr. Johnson holds a Bachelor's Degree in Japanese from Brigham Young University, studied for a year at Osaka University of Foreign Studies in Japan, and received his law degree from the J. Reuben Clark, Jr. Law School at Brigham Young University.

Mr. Stephen J. Chesnut (principal financial and accounting officer) currently serves as our Senior Vice President, Finance and Risk Management. He previously served as our Senior Vice President, Finance from January 2009 to February 2010. From August 2007 to August 2008, Mr. Chesnut served as Vice President, Strategy/Market Development/Sales for HD Supply, Inc., a privately-held wholesale distribution company based in Atlanta, Georgia. From December 1998 to August 2007, Mr. Chesnut served in a variety of capacities for The Home Depot or its subsidiaries, including Director, Business Development for HD Supply (prior to its sale by Home Depot); Director, Finance and Chief Financial Officer for Home Depot Supply; Director, New Concept Development; and Director, Strategic Planning. Prior to joining The Home Depot from 1986 to 1998, Mr. Chesnut served in a variety of operational, planning and financial positions for Target Stores Inc. Mr. Chesnut holds a Bachelor's of Science Degree in Accounting and Business Management from Southern Utah University and a Master of Business Administration Degree, Finance and Strategic Planning, from Brigham Young University.

Mr. Samuel J. Peterson currently serves as our Senior Vice President, Technology. Mr. Peterson previously served as the Vice President, Software Development from early 2005, and was appointed as Director, Network and Systems Engineering in 2003. Prior to joining Overstock.com in 1999, Mr. Peterson was involved in creating several start-up Internet ventures, including Fitnessoft, Inc.

Ms. Stormy D. Simon currently serves as our Senior Vice President, Customer and Partner Care. Ms. Simon has also served as a member of our Board of Directors since May 2011. Ms. Simon previously served as our Senior Vice President, Marketing, Vice President, BMMG; Travel and Off-Line Advertising; Chief of Staff and as our Director of B2B. Prior to joining Overstock.com in 2001, Ms. Simon worked in the media and travel industries.

Mr. Stephen P. Tryon joined Overstock.com in August 2004, and serves as Senior Vice President, Human Capital Management. Prior to joining Overstock.com, Mr. Tryon was the Legislative Assistant to the Chief of Staff of the United States Army. During his 21 years with the Army, his assignments included director of plans for the 10th Mountain Division, Congressional Fellow for United States Senator Max Cleland, Assistant Professor of Philosophy at the United States Military Academy, and commander of a company of paratroopers. Mr. Tryon received a Bachelor's of Science Degree in Applied Sciences from the U.S. Military Academy and a Master's Degree of Arts in Philosophy from Stanford University.

Available Information

Our Internet Website addresses are www.overstock.com, www.o.co and www.o.biz. Our Annual Report on Form 10-K, Quarterly Reports on Form 10-Q, Current Reports on Form 8-K and other reports filed or furnished pursuant to Section 13(a) or 15(d) of the Securities Exchange Act of 1934 are available free of charge through our Internet Website as soon as reasonably practicable after we electronically file such material with, or furnish it to, the Securities and Exchange Commission. Our Internet Website and the information contained therein or connected thereto are not a part of or incorporated into this Annual Report on Form 10-K.

Table of Contents

ITEM 1A. RISK FACTORS

Please consider the following risk factors carefully. If any one of the following risks were to occur, our business, prospects, financial condition and results of operations could be materially adversely affected, and the market price of our securities could decrease. These are not the only risks we face. In addition, the global economic climate amplifies many of these risks.

Existing or future government regulation could harm our business.

We are subject to the same federal, state and local laws as other companies conducting business on the Internet or through other means. Although there are relatively few laws specifically directed at Internet businesses, the number of such laws is increasing and many additional laws and regulations relating to the Internet are being debated at the state and federal levels. These laws and regulations cover issues such as user privacy, behavioral advertising, auto-renewability of contract, freedom of expression, pricing, fraud, mandated disclosures concerning foreign manufacturer working conditions, quality of products and services, taxation, advertising, intellectual property rights and information security. Applicability to the Internet of existing laws governing issues such as property ownership, copyrights and other intellectual property issues, taxation, libel, obscenity and personal privacy could also harm our business. For example, United States and foreign laws regulate our ability to use customer information and to develop, buy and sell mailing lists. Many of these laws were adopted prior to the advent of the Internet and do not contemplate or address the unique issues raised thereby. Consequently, laws adopted for the regulation of commerce that is not Internet based, may present difficult or impossible compliance challenges, may be applied to us in an adverse way, or the judicial interpretation of the application of these laws to our Internet-based business may be adverse to our interests. Many of those laws that do reference the Internet are still being interpreted by the courts and their applicability and reach are therefore uncertain. Moreover, Internet advances and innovations may result in new questions about the applicability and reach of these laws. Additionally, laws governing the permissible contents of products may adversely affect us, and we are subject to federal and state consumer laws, including those governing advertising, product labeling, product content requirements and product safety. The laws not only apply to future manufacture of consumer product, but also apply to existing inventories and may cause us to incur losses for any non-compliant items in our inventory, or which we may have sold which may subject us to regulatory or civil actions. Some of the products we sell or manufacture may, under statutory or common law, from time to time expose us to claims related to personal injury, death, environmental or property damage and may from time to time require product recalls or other actions which may not be covered, in whole or in part, by our liability insurance. These current and future laws and regulations could harm our business, prospects, financial condition and results of operation.

General economic factors may adversely affect our financial performance.

General economic conditions may adversely affect our financial performance. In the United States, changes in interest rates, changes in fuel and other energy costs, weakness in the housing market, inflation or deflation or expectations of either inflation or deflation, higher levels of unemployment, unavailability or limitations of consumer credit, higher consumer debt levels or efforts by consumers to reduce debt levels, higher tax rates and other changes in tax laws, overall economic slowdown, changes in consumer desires affecting demand for the products and services we sell and other economic factors could adversely affect consumer demand for the products and services we sell, change the mix of products we sell to a mix with a lower average gross margin and result in slower inventory turnover and greater markdowns on inventory. Higher interest rates, transportation costs, inflation, higher costs of labor, insurance and healthcare, foreign exchange rates fluctuations, higher tax rates and other changes in tax laws, changes in other laws and regulations and other economic factors in the United States can increase our cost of sales and operating, selling, general and administrative expenses, and otherwise

Table of Contents

adversely affect our operations and operating results. These factors affect not only our operations, but also the operations of suppliers from whom we purchase goods, a condition that can result in an increase in the cost to us of the goods we sell to our customers.

Decreases in discretionary consumer spending may have an adverse effect on us.

A substantial portion of the products and services we offer are products or services that consumers may view as discretionary items rather than necessities. As a result, our results of operations are sensitive to changes in macro-economic conditions that impact consumer spending, including discretionary spending. Difficult macro-economic conditions, particularly high levels of unemployment, also impact our customers' ability to obtain consumer credit. Other factors, including consumer confidence, employment levels, interest rates, tax rates, consumer debt levels, and fuel and energy costs could reduce consumer spending or change consumer purchasing habits. A continued slowdown in the U.S. or global economy, or an uncertain economic outlook, could materially adversely affect consumer spending habits and our operating results.

We have a history of significant losses. If we do not maintain profitability, our financial condition and our stock price could suffer.

We have a history of losses and we may incur operating and net losses in the foreseeable future. As of December 31, 2011, our accumulated deficit was \$262 million. We need to generate significant revenues to maintain profitability, and we may not be able to do so. Although we had net income of \$13.9 million and \$7.7 million in 2010 and 2009, respectively, we incurred a net loss of \$19.4 million in 2011. We may not be able to achieve profitability on a quarterly or annual basis in the future. If our revenues grow more slowly than we anticipate or decline, or if our expenses exceed our expectations, our financial results would be harmed and our business, prospects, financial condition and results of operations could fall below the expectations of public market analysts and investors.

We will continue to incur significant operating expenses and capital expenditures to:

further enhance our distribution and order fulfillment capabilities;

further improve our order processing systems and capabilities;

develop enhanced technologies and features;

continue to expand our customer service capabilities to better serve our customers' needs;

expand or modify our product offerings;

increase our general and administrative functions to support our operations and activities; and

maintain or increase our sales, branding and marketing activities, including maintaining existing or entering into new online marketing or marketing analytics arrangements, and continuing or increasing our national television and radio advertising, direct mail and/or other marketing campaigns.

Because we will incur many of these expenses before we receive any revenues from our improvement and enhancement efforts, our losses may be greater than the losses we would incur if we developed our business more slowly. Further, we base our expenses in large part on our operating plans and future revenue projections. Many of our expenses are fixed in the short term, and we may not be able to reduce spending quickly or at all if our revenues are lower than we project. Therefore, any significant shortfall in revenues would likely harm our business, prospects, financial condition and results of operations. In addition, we may find that these efforts are more expensive than we anticipate which would adversely affect our profitability. Also, the timing of these expenses may contribute to fluctuations in our quarterly results of operations.

Table of Contents

We may need to implement additional finance and accounting systems, procedures and controls as we grow our business and organization and to satisfy new reporting requirements.

We are required to comply with a variety of reporting, accounting and other rules and regulations. Compliance with existing requirements is expensive. Further requirements may increase our costs and require additional management time and resources. We may need to implement additional finance and accounting systems, procedures and controls to satisfy our reporting requirements. If our internal control over financial reporting is determined to be ineffective, such failure could cause investors to lose confidence in our reported financial information, negatively affect the market price of our common stock, subject us to regulatory investigations and penalties, and adversely impact our business and financial condition.

Changes in accounting standards and subjective assumptions, estimates and judgments by management related to complex accounting matters could significantly affect our financial results.

Generally accepted accounting principles and related accounting pronouncements, implementation guidelines and interpretations with regard to a wide range of matters that are relevant to our business, including but not limited to, revenue recognition, estimating valuation allowances and accrued liabilities (specifically, the allowances for returns, credit card chargebacks, doubtful accounts and obsolete and damaged inventory), internal use software and website development (acquired and developed internally), accounting for income taxes, valuation of long-lived and intangible assets and goodwill, stock-based compensation, and loss contingencies are highly complex and involve many subjective assumptions, estimates and judgments by our management. Changes in these rules or their interpretation or changes in underlying assumptions, estimates or judgments by our management could significantly change our reported or expected financial performance.

Our cash, cash equivalents, investments in precious metals and short-term investments are subject to a risk of loss based upon the solvency of the financial institutions in which they are maintained and movement in the precious metals markets.

We maintain the majority of our cash, cash equivalents, investments in precious metals and short-term investments in accounts with major financial institutions within the United States, in the form of demand deposits, money market accounts, time deposits, U.S. Treasury Bills and other short-term investments. Our deposits in these institutions may generally exceed the amounts of insurance provided, or deposits may not at all be covered by insurance. If any of these institutions becomes insolvent, or there is a significant decline in the price of precious metals, it could substantially harm our financial condition and we may lose some, or all, of such deposits.

If we fail to accurately forecast our expenses and revenues, our business, prospects, financial condition and results of operations may suffer and the price of our securities may decline.

The rapidly evolving nature of our industry and the constantly evolving nature of our business, make forecasting operating results difficult. Since 2005, we have completed several large, complex and expensive infrastructure upgrades in order to increase our ability to handle larger volumes of sales and to develop or increase our ability to perform a variety of analytical procedures relating to our business, and we are continuing the work to upgrade and further expand these and other components of our infrastructure. In the past, we have experienced difficulties with the implementation of various aspects of the upgrades of our infrastructure, and have incurred increased expenses as a result of these difficulties. As a result of these expenditures, our ability to reduce spending if our revenues are lower than we project is limited. Therefore, any significant shortfall in the revenues for which we have built and are continuing to build our infrastructure would likely harm our business, prospects, financial condition and results of operations and cause our results of operation to fall below the expectations of public market analysts and investors.

Table of Contents

The seasonality of our business places increased strain on our operations.

A disproportionate amount of our sales normally occur during our fourth quarter. If we do not stock or restock popular products in sufficient amounts to meet customer demand, this could significantly affect our revenue and our future growth. If we liquidate products, as we have in the past, we may be required to take significant inventory markdowns or write-offs, which could reduce gross profits. We may experience an increase in our net shipping cost due to complimentary upgrades, split-shipments, and additional long-zone shipments necessary to ensure timely delivery for the holiday season. If too many customers access our Website within a short period of time due to increased holiday demand, we may experience system interruptions that make our Website unavailable or prevent us from efficiently fulfilling orders, which may reduce the volume of goods we sell and the attractiveness of our products and services. In addition, we may be unable to adequately staff our fulfillment and customer service centers during these peak periods and delivery and other fulfillment companies and customer service co-sourcers may be unable to meet the seasonal demand.

We depend on our relationships with independent fulfillment partners for a large portion of the products that we offer for sale on our Website. If we fail to maintain these relationships, our business will suffer.

At December 31, 2011, we had relationships with approximately 2,000 independent fulfillment partners whose products we offer for sale on our Website. We depend on our fulfillment partners to provide a large portion of the product selection we offer, as these products accounted for 84% of our net revenues for the year ended December 31, 2011. We may expand the number of fulfillment partner relationships and the number of products offered for sale by our fulfillment partners on our Website. If we do not maintain our existing relationships or build new relationships with fulfillment partners on acceptable commercial terms, we may not be able to maintain a broad selection of merchandise, and customers may not shop at or purchase from our Website. In addition, manufacturers may decide not to offer particular products for sale on the Internet or on sites like ours. If we are unable to maintain our existing or build new fulfillment partner relationships or if product manufacturers refuse or restrict sale of their products via the Internet, though sites like ours, or to us, our business and prospects would suffer severely.

In general, we agree to offer the fulfillment partners' products on our Website and these fulfillment partners agree to conduct a number of other traditional retail operations with respect to their respective products that we offer for sale on our Website, including maintaining inventory, preparing merchandise for shipment to individual customers and timely distribution of purchased merchandise. We have no effective means to ensure that these third parties will continue to perform these services to our satisfaction or on commercially reasonable terms. In addition, because we do not take possession of these fulfillment parties' products, (other than on the return of such products), we are unable to fulfill these traditional retail operations ourselves. Our customers could become dissatisfied and cancel their orders or decline to make future purchases if these third parties are unable to deliver products on a timely basis. If our customers become dissatisfied with the services provided by these third parties, our reputation and the Overstock.com brand could suffer.

We do not have any long-term agreements with any of these fulfillment partners. Our agreements with fulfillment partners are terminable at will by either party upon short notice.

Cyber-attacks affecting our suppliers could adversely affect us

We depend on our fulfillment partners to provide a large portion of the product selection we offer and on vendors for the products we purchase and offer in our direct business. Cyber-attacks affecting any of our most significant suppliers or affecting a significant number of our suppliers could have adverse effects on our business, prospects, financial condition and results of operations. The adverse

Table of Contents

effects could include our inability to source product or fulfill orders or the compromise of our customers' confidential data.

We rely on our relationships with manufacturers, retailers and other suppliers to obtain sufficient quantities of quality merchandise on acceptable terms. If we fail to maintain our supplier relationships on acceptable terms, our sales and profitability could suffer.

We do not have contracts with manufacturers or liquidation wholesalers that guarantee the availability of merchandise for a set duration. Our contracts or arrangements with suppliers do not provide for the continuation of particular pricing practices and may be terminated by either party upon short notice. Our current suppliers may not continue to sell their excess inventory to us on current terms or at all and we may not be able to establish new supply relationships. For example, it is difficult for us to maintain high levels of product quality and selection because none of the manufacturers, suppliers and liquidation wholesalers from whom we purchase products on a purchase order by purchase order basis have a continuing obligation to provide us with merchandise at historical levels or at all. In most cases, our relationships with our suppliers do not restrict the suppliers from selling their respective inventory to other traditional or online merchandise liquidators or retailers, which could in turn limit the selection of products available on our Website. If we are unable to develop and maintain relationships with suppliers that will allow us to obtain sufficient quantities of merchandise on acceptable commercial terms, such inability could harm our business, prospects, financial condition and results of operation.

Risks associated with the suppliers from whom our products are sourced and the safety of those products could adversely affect our financial performance.

The products we sell are sourced from a wide variety of domestic and international suppliers. Global sourcing of many of the products we sell is an important factor in our financial performance. Our ability to find qualified suppliers who meet our standards, and to access products in a timely and efficient manner is a significant challenge, especially with respect to suppliers located and goods sourced outside the United States. Political and economic instability in the countries in which foreign suppliers are located, the financial instability of suppliers, suppliers' failure to meet our supplier standards, labor problems experienced by our suppliers, the availability of raw materials to suppliers, merchandise quality issues, currency exchange rates, transport availability and cost, transport security, inflation, and other factors relating to the suppliers and the countries in which they are located are beyond our control. In addition, the United States' foreign trade policies, tariffs and other impositions on imported goods, trade sanctions imposed on certain countries, the limitation on the importation of certain types of goods or of goods containing certain materials from other countries and other factors relating to foreign trade are beyond our control. These and other factors affecting our suppliers and our access to products could adversely affect our financial performance.

Our customers count on us to provide them with safe products. Concerns regarding the safety of products that we source from our suppliers and then sell could cause shoppers to avoid purchasing certain products from us, or to seek alternative sources of supply for all of their needs, even if the basis for the concern is outside of our control. Any lost confidence on the part of our customers would be difficult and costly to reestablish. As such, any issue regarding the safety of any items we sell, regardless of the cause, could adversely affect our financial performance.

We depend upon third-party delivery services to deliver products to our customers on a timely and consistent basis. Deterioration in our relationship with any one of these third parties could decrease our ability to track shipments, cause shipment delays, and increase our shipping costs and the number of damaged products.

We rely upon multiple third parties for the shipment of products to customers. We cannot be sure that these relationships will continue on terms we find acceptable, or at all. Increases in shipping costs

Table of Contents

or delivery times, particularly during the holiday season, could harm our business, prospects, financial condition and results of operations. If our relationships with these third parties are terminated or impaired or if these third parties are unable to deliver products for us, whether as a result of labor shortage, slow down or stoppage, deteriorating financial or business condition, terrorist attacks, cyber-attacks, internet or other infrastructure or communications impairment, natural disasters, or for any other reason, we would be required to use alternative carriers for the shipment of products to our customers. In addition, conditions such as adverse weather or natural disasters can prevent any carriers from performing their delivery services, which can have an adverse effect on our customers' satisfaction with us. In any of these circumstances, we may be unable to engage alternative carriers on a timely basis, upon terms we find acceptable, or at all. Changing carriers, or absence of carrier availability, could have a negative effect on our business, prospects, financial condition and results of operations. Potential adverse consequences effecting customer satisfaction include:

reduced visibility and accuracy of order status and package tracking;

delays in order processing and product delivery;

increased delivery costs, resulting in reduced profit margins; and

reduced shipment quality, which may result in delivery of damaged products.

Financial performance concerns may cause fulfillment partners or other suppliers to limit or suspend doing business with us, or require prepayments.

We rely upon our fulfillment partners and other suppliers for the product offerings sold on our website and other products and services we use to run our business. Our ability to retain or attract new fulfillment partners and other suppliers may depend in part on our financial performance. Poor financial performance may create concern about our creditworthiness, which could result in suppliers choosing to limit or suspend doing business with us or require us to prepay for our purchases, which could harm our business, prospects, financial condition and results of operations.

We depend upon our credit card processors and payment card associations.

Our customers primarily use credit cards to buy from us. We are dependent upon our credit card processors to process the sales transactions and remit the proceeds to us. The credit card processors have the right to withhold funds otherwise payable to us to establish a reserve based on their assessment of the inherent risks of credit card processing and their assessment of the risks of processing our customers' credit cards, and have done so from time to time in the past. The credit card processors may establish, increase or decrease the amount of any reserve at any time. Any increase in the amounts of the reserves established by the processors would have an adverse effect on our cash flow and liquidity, and any material unexpected increase could have a material adverse effect on our business, prospects, financial condition and results of operations.

We are also subject to payment card associations' operating rules, certification requirements and rules governing electronic funds transfers, which could change or be reinterpreted to make it difficult or impossible for us to comply. If we fail to comply with these rules or requirements, we may be subject to fines and higher transaction fees and lose our ability to accept credit and debit card payments from our customers, process electronic funds transfers, or facilitate other types of online payments, could have a material adverse effect on our business, prospects, financial condition and results of operations.

Events affecting our credit card processors, including cyber-attacks, internet or other infrastructure or communications impairment or other events that could interrupt the normal operation of the credit card processors, could have a material adverse effect on our business, prospects, financial condition and results of operations.

Table of Contents

A significant number of merchandise returns could harm our business, financial condition and results of operations.

We allow our customers to return products, subject to our returns policies. If merchandise returns are significant, our business, prospects, financial condition and results of operations could be harmed. Further, we modify our policies relating to returns from time to time and any policies intended to reduce the number of product returns may result in customer dissatisfaction and fewer repeat customers.

Our pricing strategy may not meet customers' price expectations or result in net income.

Demand for our products is generally highly sensitive to price. Our pricing strategies have had, and may continue to have, a significant impact on our net sales and net income. We often offer discounted prices, and free or discounted shipping as a means of attracting customers and encouraging repeat purchases. Such offers and discounts reduce our margins. In addition, our competitors' pricing and marketing strategies are beyond our control and can significantly impact the results of our pricing strategies. If we fail to meet our customers' price expectations, or if we are unable to compete effectively with our competitors when they engage in aggressive pricing strategies or other competitive activities, our business, prospects, financial condition and results of operations would suffer.

If the products that we offer on our Website do not reflect our customers' tastes and preferences, our sales and profit margins would decrease.

Our success depends in part on our ability to offer products that reflect consumers' tastes and preferences. Consumers' tastes are subject to frequent, significant and sometimes unpredictable changes. Because some of the products that we sell consist of manufacturers' and retailers' excess inventory, we have limited control over some of the products that we are able to offer for sale. If our merchandise fails to satisfy customers' tastes or respond to changes in customer preferences, our sales could suffer and we could be required to mark down unsold inventory, as we have in the past, which would depress our profit margins. In addition, any failure to offer products in line with customers' preferences could allow our competitors to gain market share. This could have an adverse effect on our business, prospects, financial condition and results of operations.

We face risks relating to our inventory.

In our direct business, we sell merchandise that we have purchased and hold in inventory. We assume the risks of inventory damage, theft and obsolescence, as well as risks of price erosion for these products. These risks are especially significant because some of the merchandise we sell is characterized by seasonal trends, fashion trends, rapid technological change, obsolescence and price erosion (for example, computer hardware, software and consumer electronics) and because we sometimes make large purchases of particular types of inventory. In addition, we often do not receive warranties on the merchandise we purchase. Subject to our returns policies, we accept returns of products sold through our fulfillment partners and we have the risk of reselling the returned products.

In the past we have recorded charges for obsolete inventory and have had to sell certain merchandise at a discount or loss. It is impossible to determine with certainty whether an item will sell for more than our cost. To the extent that we rely on purchased inventory, our success will depend on our ability to sell our inventory rapidly, the ability of our buying staff to purchase inventory at attractive prices relative to its resale value and our ability to manage customer returns and other costs. If we are unsuccessful in any of these areas, we may be forced to sell our inventory at a discount or loss.

We purchase some of our inventory from foreign suppliers and pay for inventory with U.S. dollars. If the dollar weakens with respect to foreign currencies, foreign suppliers may require us to pay higher prices for products, which could negatively affect our profit margins.

Table of Contents

If we do not successfully optimize and operate our warehouse and customer service operations, our business could be harmed.

We have expanded, contracted and otherwise modified our warehouse and customer service operations in the past, and expect that we will continue to do so. If we do not successfully optimize and operate our warehouse and customer service operations, it could significantly limit our ability to meet customer demand or result in excessive costs and expenses for the size of our business. Because it is difficult to predict demand, we may not manage our facilities in an optimal way, which may result in excess or insufficient inventory or warehousing capacity. We may fail to staff our fulfillment and customer service centers at optimal levels. In addition, we rely on a limited number of companies to deliver inventory to us and to ship orders to our customers. If we are not able to negotiate acceptable terms with these companies, or they experience performance problems or other difficulties, it could negatively impact our operating results and customer experience.

The loss of key personnel or any inability to attract and retain additional personnel could affect our ability to successfully grow our business.

Our performance is substantially dependent on the continued services and on the performance of our senior management and other key personnel. Our performance also depends on our ability to retain and motivate other officers and key employees. The loss of the services of any of our executive officers or other key employees for any reason, including without limitation, illness or call to military service, or loss to competitors as a result of compensation differentials or other reasons, could harm our business, prospects, financial condition and results of operations. We do not have employment agreements with any of our key personnel and we do not maintain "key person" life insurance policies. Our future success also depends on our ability to identify, attract, hire, train, retain and motivate other highly-skilled technical, managerial, editorial, merchandising, marketing and customer service personnel. Competition for such personnel is intense, and we cannot assure that we will be able to successfully attract, assimilate or retain sufficiently qualified personnel. Our failure to retain and attract the necessary technical, managerial, editorial, merchandising, marketing and customer service personnel could harm our business, prospects, financial condition and results of operations.

We have an evolving business model.

Our business model has evolved and continues to do so. In the past we have added additional types of services and product offerings and, in some cases, we have modified or discontinued those offerings. We may continue to try to offer additional types of products or services and we cannot offer any assurance that any of them will be successful. From time to time we have also modified aspects of our business model relating to our product mix and the mix of direct/fulfillment partner sourcing of the products we offer. We may continue to modify this aspect of our business as well as other significant aspects of our business. We cannot offer any assurance that these or any other modifications will be successful or will not result in harm to the business. The additions and modifications to our business have increased the complexity of our business and placed significant strain on our management, personnel, operations, systems, technical performance, financial resources, and internal financial control and reporting functions. Future additions to or modifications of our business are likely to have similar effects. We may not be able to manage growth effectively, which could damage our reputation, limit our growth and negatively affect our operating results.

Our foreign brand domain name may cause confusion in foreign markets.

In July, 2010, we undertook an effort to associate our brand globally with the domain address: www.O.co. We did this in part because in many foreign markets the word "Overstock" lacked a good foreign cognate. Following a period of testing for the O.co brand and domain address, we returned to the Overstock.com name as our primary brand domestically because domestic consumer acceptance did

Table of Contents

not occur as quickly as we had hoped. While we have returned domestically to the Overstock.com brand and principal domain address, there is no assurance that the use of Overstock.com or O.co will gain acceptance or have success in foreign markets.

We may be unable to manage expansion into new business areas which could harm our business operations and reputation.

Our long-term strategic plan involves expansion of our operations to offer additional types of products and services. We may not be able to expand our business in this manner. Our failure to succeed in these markets or businesses or in other product or service offerings may harm our business, prospects, financial condition and results of operation. We cannot give any assurance that we will be able to expand our operations in a cost-effective or timely manner or that our efforts to expand will be successful. Furthermore, any new business or website we launch that is not favorably received by consumers could damage our reputation or the Overstock.com brand. We may expand the number of categories of products we carry on our Website and these and any other expansions of our operations would also require significant additional expenses and development and would strain our management, financial and operational resources. The lack of market acceptance of such efforts or our inability to generate satisfactory revenues from such expanded services or products to offset their cost could harm our business, prospects, financial condition and results of operations.

We are attempting to expand our international business, which may cause our business to become increasingly susceptible to numerous international business risks and challenges that could affect our profitability.

We sell products in international markets, and in the future we may expand into these markets more aggressively. International sales and transactions are subject to inherent risks and challenges that could adversely affect our profitability, including:

the need to develop new supplier and manufacturer relationships;

the need to comply with additional U.S. and foreign laws and regulations to the extent applicable, including but not limited to, restrictions on advertising practices, regulations governing online services, restrictions on importation of specified or proscribed items, importation quotas, consumer protection laws, enforcement of intellectual property rights, laws dealing with consumer and data protection, privacy, encryption, and restrictions on pricing or discounts;

changes in international laws, regulatory requirements, taxes and tariffs; and

geopolitical events such as war and terrorist attacks.

To the extent we generate international sales and transactions in the future, any negative impact on our international operations could negatively impact our business. In particular, gains and losses on the conversion of foreign payments into U. S. dollars may contribute to fluctuations in our results of operations and fluctuating exchange rates could cause reduced gross revenues and/or gross profit percentages from non-dollar-denominated international sales. Additionally, penalties for non-compliance with laws applicable to international business and trade, such as the U.S. Foreign Corrupt Practices Act, could negatively impact our business.

In order to obtain future revenue growth and achieve and sustain profitability, we will have to attract and retain customers on cost-effective terms.

Our success depends on our ability to attract and retain customers on cost-effective terms. We have relationships with online services, search engines, affiliate marketing websites, directories and other website and e-commerce businesses to provide content, advertising banners and other links that direct customers to our Website. We rely on these relationships as significant sources of traffic to our

Table of Contents

Website and to generate new customers. As discussed below, in the past we have terminated affiliate marketing websites as a result of efforts by certain states to require us to collect sales taxes. If we are unable to develop or maintain these relationships on acceptable terms, our ability to attract new customers and our financial condition could be harmed. If the underlying technology's development evolves in a manner that is no longer beneficial to us our financial condition could be harmed. In addition, certain of our online marketing agreements may require us to pay upfront fees and make other payments prior to the realization of the sales, if any, associated with those payments. Accordingly, if these relationships or agreements that we may enter into in the future fail to produce the sales that we anticipate, our results of operations will be adversely affected. We cannot give any assurance that we will be able to increase our revenues, if at all, in a cost-effective manner. We periodically conduct national television and radio branding and advertising campaigns. Such campaigns are expensive and may not result in the cost-effective acquisition of customers.

Further, many of the parties with which we may have online-advertising arrangements could provide advertising services for other online or traditional retailers and merchandise liquidators. As a result, these parties may be reluctant to enter into or maintain relationships with us. Failure to achieve sufficient traffic or generate sufficient revenue from purchases originating from third parties may result in termination of these relationships by these third parties. Further, in the past we have terminated our relationships with third party Internet advertising affiliates in certain states as a result of efforts by those states to require us to collect sales taxes based on the presence of those third party Internet advertising affiliates in those states, and we are likely to do so again in the future if necessary. Without these relationships, our business, prospects, financial condition and results of operations could suffer.

We rely upon paid and natural search engines like Google, Bing, and Yahoo to rank our product offerings and may at times be subject to ranking penalties if they believe we are not in compliance with their guidelines.

We rely on paid and natural search engines to attract consumer interest in our product offerings. Potential and existing customers use search engines provided by search engine companies, including Google, Bing, and Yahoo, which use algorithms and other devices to provide users a natural ranked listing of relevant Internet sites matching a user's search criteria and specifications. Generally, Internet sites ranked higher in the paid and natural search results lists furnished to users attract the largest visitor share among similar Internet sites. Among retail internet sites, those sites achieving the highest natural search ranking often benefit from increased sales. Natural search engine algorithms utilize information available throughout the Internet, including information available on our site. Rules and guidelines of these natural search engine companies govern our participation on their sites and how we share relevant Internet information that may be considered or incorporated into the algorithms utilized by these sites. If these rules and guidelines, or the search engine algorithms shift suddenly or dramatically, or if we fail to present, or improperly present, our site information for use by natural search engine companies, or if any of these natural search engine companies determine that we have violated their rules or guidelines, as Google did in February 2011 through April 2011, or if others improperly present our site information to these search engine companies, we may fail to achieve an optimum ranking in natural search engine listing results, or we may be penalized in a way that could harm our business, prospects, financial condition and results of operations.

We may not be able to compete successfully against existing or future competitors.

The online retail market is rapidly evolving and intensely competitive. Barriers to entry are minimal, and current and new competitors can launch new websites at a relatively low cost. We currently compete with numerous competitors, including:

liquidation e-tailers such as SmartBargains;

Table of Contents

online retailers with discount departments such as Amazon.com, Inc., eBay, Inc. and Buy.com, Inc.;

private sale sites such as Rue La La and Gilt Groupe;

online specialty retailers such as Bluefly, Inc., Blue Nile, Inc. and Zappos.com; and traditional general merchandise and specialty retailers and liquidators such as Ross Stores, Inc., Wal-Mart Stores, Inc., Costco Wholesale Corporation, J.C. Penny Company, Inc., Sears Holding Corporation, Target Corporation, Best Buy Co., Inc., Home Depot, Inc. and Barnes and Noble, Inc., all of which also have an online presence.

We expect the online retail market to become even more competitive as traditional liquidators and online retailers continue to develop services that compete with our services. In addition, more traditional manufacturers and retailers may decide to create their own websites to sell their own excess inventory and the excess inventory of third parties. Conversely, online retailers may create proprietary, store-based distribution channels, or in combination with traditional retailers arrange for their online products to be available to the customers of traditional retailers. Competitive pressures created by any one of our competitors, or by our competitors collectively, or in combination one with another, could harm our business, prospects, financial condition and results of operations.

Further, as a strategic response to changes in the competitive environment, we may from time to time make certain pricing, service or marketing decisions or acquisitions that could harm our business, prospects, financial condition and results of operations. For example, to the extent that we enter new lines of businesses such as third-party logistics, or discount brick and mortar retail, we would be competing with large established businesses such as APL Logistics and Ross Stores, Inc. In the past we have entered the online auctions, car listing and real estate listing businesses, travel and insurance shopping businesses in which we compete or competed with large established businesses including eBay, Inc., AutoTrader.com, Inc. and Realtor.com. We no longer offer online auctions services or real estate listing services.

Many of our current and potential competitors described above have longer operating histories, larger customer bases, greater brand recognition and significantly greater financial, marketing and other resources than we do. In addition, online retailers and liquidation e-tailers may be acquired by, receive investments from, or enter into other commercial relationships with larger, well-established and well-financed companies. Some of our competitors may be able to secure merchandise from manufacturers on more favorable terms, devote greater resources to marketing and promotional campaigns, adopt more aggressive pricing or inventory availability policies and devote substantially more resources to website and systems development than we do. Increased competition may result in reduced operating margins, loss of market share and a diminished brand franchise. We cannot provide assurance that we will be able to compete successfully against current or future competitors.

Our operating results depend on our Website, network infrastructure and transaction-processing systems. Capacity constraints or system failures would harm our business, prospects, financial condition, and results of operations.

Any system interruptions that result in the unavailability of our Website or reduced performance of our transaction systems would reduce our transaction volume and the attractiveness of the services that we provide to suppliers and third parties and would harm our business, prospects, financial condition and results of operations.

We use internally and externally developed systems for our Website and our transaction processing systems, including personalization databases used for internal analytics, recommendations and order verifications. We have experienced periodic systems interruptions due to server failure and power failure, which we believe will continue to occur from time to time. If the volume of traffic on our

Table of Contents

Website or the number of purchases made by customers increases substantially, we will need to further expand and upgrade our technology, transaction processing systems and network infrastructure. We have experienced and may continue to experience temporary capacity constraints due to sharply increased traffic during sales or other promotions and during the holiday shopping season. Capacity constraints can cause unanticipated system disruptions, slower response times, delayed page presentation, degradation in levels of customer service, impaired quality and delays in reporting accurate financial information.

Our transaction processing systems and network infrastructure may be unable to accommodate increases in traffic in the future. We may be unable to project accurately the rate or timing of traffic increases or successfully upgrade our systems and infrastructure to accommodate future traffic levels on our Website. In addition, we may be unable to upgrade and expand our transaction processing systems in an effective and timely manner or to integrate any newly developed or purchased functionality with our existing systems. For example, in the past we have experienced difficulties with our implementation of infrastructure upgrades, which resulted in our inability to upload new products to our Website for a period of time. Any such difficulties with our transaction processing systems or other difficulties upgrading, expanding or integrating various aspects of our systems may cause unanticipated system disruptions, slower response times, and degradation in levels of customer service, additional expense, impaired quality and speed of order fulfillment or delays in reporting accurate financial information.

If the facility where substantially all of our computer and communications hardware is located fails, our business, prospects, financial condition and results of operations could be harmed.

If the facility where substantially all of our computer and communications hardware is located fails, or we suffer an interruption or degradation of services through the facility for any reason, our business, prospects, financial condition and results of operations could be harmed.

Our success, and in particular, our ability to successfully receive and fulfill orders and provide high-quality customer service, largely depends on the efficient and uninterrupted operation of our computer and communications systems. Substantially all of our computer and communications hardware is located at a single co-location facility in Salt Lake City, Utah, with a partially redundant back-up system located less than six miles from the co-location facility. In the event of an earthquake or major local disaster, or any other man-made or natural cause of interruption of service, both our primary and back-up sites could be adversely affected. Although we have designed our back-up system in an effort to minimize service interruptions in the event of a failure of our main facility, our systems and operations are vulnerable to damage or interruption from fire, flood, power loss, telecommunications failure, terrorist attacks, cyber-attacks, acts of war, break-ins, earthquake and similar events. In the event of a failure of our primary facility, the failover to our back-up facility would take at least several hours, during which time our Website would be completely shut down. Our back-up facility is designed to support sales at a level slightly above our average daily sales, but is not adequate to support sales at a high level. The back-up facility may not process effectively during time of higher traffic to our Website and may process transactions more slowly and may not support all of the functionality of our primary site. These limitations could have an adverse effect on our conversion rate and sales. Our disaster recovery plan may be inadequate, and we do not carry business interruption insurance sufficient to compensate us for losses that could occur. Despite the implementation of network security measures, our servers are vulnerable to computer viruses, physical or electronic break-ins and similar disruptions, the occurrence of any of which could lead to interruptions, delays, loss of critical data or the inability to accept and fulfill customer orders. The occurrence of any of the foregoing risks could harm our business, prospects, financial condition and results of operations.

Table of Contents

We may be unable to protect our proprietary technology or keep up with that of our competitors.

Our success depends to a significant degree upon the protection of our software and other proprietary intellectual property rights. We may be unable to deter misappropriation of our proprietary information, detect unauthorized use and take appropriate steps to enforce our intellectual property rights. In addition, our competitors could, without violating our proprietary rights, develop technologies that are as good as or better than our technology.

Our failure to protect our software and other proprietary intellectual property rights or to develop technologies that are as good as our competitors' could put us at a disadvantage to our competitors. In addition, the failure of the third parties whose products we offer for sale on our Website to protect their intellectual property rights, including their domain names, could impair our operations. These failures could harm our business, prospects, financial condition and results of operations.

We may be accused of infringing intellectual property rights of third parties.

Other parties have claimed and may claim that we infringe their intellectual property rights. We have been and are subject to, and expect to continue to be subject to, legal claims of alleged infringement of the intellectual property rights of third parties. The ready availability of damages, royalties and the potential for injunctive relief has increased the defense litigation costs of patent infringement claims, especially those asserted by third parties whose sole or primary business is to assert such claims. Such claims, even if not meritorious, may result in significant expenditure of financial and managerial resources, and the payment of damages or settlement amounts. Additionally, we may become subject to injunctions prohibiting us from using software or business processes we currently use or may need to use in the future, or requiring us to obtain licenses from third parties when such licenses may not be available on financially feasible terms or terms acceptable to us or at all. In addition, we may not be able to obtain on favorable terms, or at all, licenses or other rights with respect to intellectual property we do not own in providing e-commerce services to other businesses and individuals under commercial agreements.

If we do not respond to rapid technological changes, our services could become obsolete and we could lose customers.

To remain competitive, we must continue to enhance and improve the functionality and features of our e-commerce businesses. We may face material delays in introducing new services, products and enhancements. If this happens, our customers may forego the use of our Website and use those of our competitors. The Internet and the online commerce industry are rapidly changing. If competitors introduce new products and services using new technologies or if new industry standards and practices emerge, our existing Website and our proprietary technology and systems may become obsolete. Our failure to respond to technological change or to adequately maintain, upgrade and develop our computer network and the systems used to process customers' orders and payments could harm our business, prospects, financial condition and results of operations.

We may not be able to obtain trademark protection for our marks, which could impede our efforts to build brand identity.

We have filed trademark applications with the Patent and Trademark Office seeking registration of certain service marks and trademarks. There can be no assurance that our applications will be successful or that we will be able to secure significant protection for our service marks or trademarks in the United States or elsewhere as we expand internationally. Our competitors or others could adopt product or service marks similar to our marks, or try to prevent us from using our marks, thereby impeding our ability to build brand identity and possibly leading to customer confusion. Any claim by another party against us or customer confusion related to our trademarks, or our failure to obtain

Table of Contents

trademark registration, could negatively affect our business, prospects, financial condition and results of operations.

We may not be able to enforce protection of our intellectual property rights under the laws of other countries.

We sell products internationally and consequently we are subject to risks of doing business internationally as related to our intellectual property, including:

legal uncertainty regarding liability for the listings and other content provided by our users, including uncertainty as a result of less Internet-friendly legal systems, unique local laws, and lack of clear precedent or applicable law; and

differing intellectual property laws, which may provide insufficient protection for our intellectual property.

Use of social media may adversely impact our reputation.

There has been a marked increase in use of social media platforms and similar devices, including weblogs (blogs), social media websites, and other forms of Internet-based communications which allow individuals access to a broad audience of consumers and other interested persons. Consumers value readily available information concerning retailers, manufacturers, and their goods and services and often act on such information without further investigation, authentication and without regard to its accuracy. The availability of information on social media platforms and devices is virtually immediate as is its impact. Social media platforms and devices immediately publish the content their subscribers and participants post, often without filters or checks on accuracy of the content posted. The opportunity for dissemination of information, including inaccurate information, is virtually limitless. Information concerning or affecting us may be posted on such platforms and devices at any time. Information posted may be inaccurate and adverse to us, and it may harm our performance, prospects or business. The harm may be immediate without affording us an opportunity for redress or correction. Such platforms also could be used for the dissemination of trade secret information or compromise of other valuable company assets, any of which could harm our business, prospects, financial condition and results of operations.

Our business and reputation may be harmed by the listing or sale of pirated, counterfeit or illegal items by third parties, and by intellectual property litigation.

We have received in the past, and we anticipate we will receive in the future, communications alleging that certain items listed or sold through our Website infringe third-party copyrights, trademarks and trade names or other intellectual property rights or that we have otherwise infringed third parties' past, current or future intellectual property rights.

We may be unable to prevent third parties from listing unlawful goods, and we may be subject to allegations of civil or criminal liability for unlawful activities carried out by third parties through our Website. In the future, we may implement measures to protect against these potential liabilities that could require us to spend substantial resources and/or to reduce revenues by discontinuing certain service offerings. Any costs incurred as a result of liability or asserted liability relating to the sale of unlawful goods or the unlawful sale of goods could harm our business, prospects, financial condition and results of operations.

Resolving litigation or claims regarding patents or other intellectual property, whether meritorious or not, could be costly, time-consuming, cause service delays, divert our management and key personnel from our business operations, require expensive or unwanted changes in our methods of doing business or require us to enter into costly royalty or licensing agreements, if available. As a result, these claims could harm our business.

Negative publicity generated as a result of the foregoing could damage our reputation, harm our business and diminish the value of our brand name.

Table of Contents

We are involved in substantial litigation.

From time to time we receive claims of and become subject to consumer protection, employment, intellectual property and other commercial litigation related to the conduct and operation of our business and the sale of products on our Website. In connection with such litigation, we may be subject to significant damages or equitable remedies. In addition, we have in the past been, are now, and in the future may be, involved in substantial litigation in which we are the plaintiff, including litigation regarding the constitutionality of certain state tax laws, and the prime broker litigation described below. Any of such litigation, whether as plaintiff or defendant, could be costly and time consuming and could divert management and key personnel from our regular business operations. We do not currently believe that any of our outstanding litigation will have a material adverse effect on our business, prospects, financial condition or results of operations. However, due to the uncertainty of litigation and depending on the amount and the timing, an unfavorable resolution of some or all of these matters could materially affect our business, prospects, financial condition and results of operations.

Our prime broker litigation may have an adverse effect on our business and financial condition.

We remain involved in substantial litigation against Goldman Sachs Group, Inc., Goldman Sachs & Co., Goldman Sachs Execution & Clearing L.P., Merrill Lynch, Pierce, Fenner & Smith, Inc., and Merrill Lynch Professional Clearing Corporation, and the use of management's time and attention in connection with the litigation and related matters may reduce the time management is able to spend on other aspects of our business, which may have adverse effects on other aspects of our business. We may be ordered to pay allowable court costs which could be substantial. To the extent that any such adverse effects exceed any benefits we may realize from the litigation, it could harm our business, prospects, financial condition and results of operation.

We may be liable if third parties misappropriate our customers' personal information.

If third parties are able to penetrate our network security or otherwise misappropriate our customers' personal information or credit card information, or if we give third parties improper access to our customers' personal information or credit card information, we could be subject to liability. This liability could include claims for unauthorized purchases with credit card information, impersonation or other similar fraud claims or damages for alleged violations of state or federal laws governing security protocols for the safekeeping of customers' personal or credit card information. This liability could also include claims for other misuses of personal information, including unauthorized marketing purposes. These claims could result in litigation. Liability for misappropriation of this information could adversely affect our business. In addition, the Federal Trade Commission and state agencies have been investigating various Internet companies regarding their use of personal information. We could incur additional expenses if new regulations regarding the use of personal information are introduced or if government agencies investigate our privacy practices.

We rely on encryption and authentication technology licensed from third parties as well internally developed technology to provide the security and authentication necessary to effect secure transmission of confidential information such as customer credit card numbers. We cannot provide assurance that our technology can prevent breaches of the systems that we use to protect customer data. If any such compromise of our security were to occur, it could harm our business, prospects, financial condition and results of operations. A party who is able to circumvent our security measures could misappropriate proprietary information or cause interruptions in our operations. We may be required to expend significant capital and other resources to protect against such security breaches or to alleviate problems caused by such breaches. We cannot give any assurance that our security measures will prevent security breaches or that failure to prevent such security breaches will not harm our business, prospects, financial condition and results of operations.

Table of Contents

We may be subject to product liability claims that could be costly and time consuming.

We sell products manufactured for us by third parties, some of which may be defective. If any product that we sell were to cause physical injury or injury to property, the injured party or parties could bring claims against us as the manufacturer and/or retailer of the product. Our insurance coverage may not be adequate to cover claims that could be asserted. If a successful claim were brought against us in excess of our insurance coverage, it could adversely affect our business. Even unsuccessful claims could result in the expenditure of funds and management time and could have a negative impact on our business.

We have indebtedness.

As of December 31, 2011, we had indebtedness of \$18.6 million. Although we have reduced our indebtedness substantially over the last several years, the degree to which we are indebted could materially and adversely affect our ability to obtain additional financing for working capital, acquisitions or other purposes and could make us more vulnerable to industry downturns and competitive pressures. Our ability to meet our debt service obligations is dependent upon our future performance, which will be subject to financial, business and other factors affecting our operations, many of which are beyond our control.

Our ability to generate cash flow from operations to make interest and principal payments on our debt obligations will depend on our future performance, which will be affected by a range of economic, competitive and business factors. We cannot control many of these factors, including general economic conditions and the health of the Internet retail industry. If our operations do not generate sufficient cash flow from operations to satisfy our indebtedness, we may need to borrow additional funds to make these payments or undertake alternative financing plans, such as refinancing our debt, or reducing or delaying capital investments and acquisitions. Additional funds or alternative financing may not be available to us on acceptable terms, or at all. Our inability to generate sufficient cash flow from operations or obtain additional funds or alternative financing on acceptable terms could have a material adverse effect on our business, prospects, financial condition and results of operations.

Public statements we or our chief executive officer, Patrick M. Byrne, have made or may make in the future may antagonize regulatory officials or others.

We and our chief executive officer, Patrick M. Byrne, have from time to time made public statements regarding our or his beliefs about matters of public interest, including statements regarding naked short selling. Some of those public statements have been critical of the Securities and Exchange Commission and other regulatory agencies. These public statements may have consequences for us, whether as a result of increased regulatory scrutiny or otherwise.

We remain subject to an investigation by the Securities and Exchange Commission.

As disclosed previously, we have received a notice from the Securities and Exchange Commission stating that the SEC is conducting an investigation concerning our previously-announced financial restatements of 2006 and 2008 and other matters. The subpoena accompanying the notice covers documents related to the restatements and also to our billings to our partners in the fourth quarter of 2008 and related collections, and our accounting for and implementation of software relating to our accounting for customer refunds and credits, including offsets to partners, and related matters. Prior to October 2010, we were asked for information in the form of records connected to this matter, all of which we provided. The SEC has interviewed several witnesses. However we do not know the present status of the investigation. We have not heard formally from the SEC on this matter after October 2010, and we know of no person interviewed since that time related to this matter. We have been cooperating and intend to continue to cooperate fully with the investigation. However, an unfavorable

Table of Contents

resolution of this matter could materially affect our business, prospects, financial condition and results of operations.

California District Attorneys have sued us for alleged violations of California law.

In April 2008, we received a letter from the Office of the District Attorney of Marin County, California, stating that the District Attorneys of Marin and four other counties in Northern California had begun an investigation into the way we advertise products for sale. In November 2010, District Attorneys for the California Counties of Alameda, Marin, Monterey, Napa, Santa Clara, Shasta and Sonoma filed a lawsuit seeking damages and an injunction, alleging violations of California consumer protection laws, alleging we made untrue or misleading statements concerning our pricing, price reductions, sources of products and shipping charges. The complaint asks for damages in the amount of not less than \$15 million. We dispute the allegations and intend to defend ourselves vigorously. However, an unfavorable resolution of this matter could materially affect our business, prospects, financial condition and results of operations.

Our car listing service may be subject to a variety of regulatory requirements.

Many states and other jurisdictions, including Utah, where we are located, have regulations governing the conduct of car sellers and public advertisement for car sales. Generally, these regulations govern the conduct of those sellers advertising their automobiles for sale and are not directly applicable to those providing the medium through which the advertisement is made available to the public. Sellers are often subject to regulations in the nature of "truth in advertising laws." The application of these regulations to online car listing service providers is not clear. Although we do not expect these laws to have a significant effect on our listing service, we will incur costs in complying with these laws, and we may from time to time be required to make changes in our service that may increase our costs, reduce our revenues, cause us to prohibit certain listing or advertising practices, or make other changes that may adversely affect our car listing service.

Current and future laws could affect our car listing business.

Like our shopping business, our car listing service is subject to most of the same laws and regulations that apply to other companies conducting business on and off the Internet. In addition, our car listing service may be affected by other laws and regulations, such as those that expressly apply to advertising automobiles for sale. To the extent that such current or future laws or regulations prevent users from selling items on our car listing site, they could harm our business.

Our business may be harmed if our car listing site is used for unlawful transactions.

The law regarding the potential liability of an online listing service for automobile sales is not clear. The platforms of the listing services are accessible to subscribers who have the ability to feature their cars listings for sale and supply the descriptions of the vehicles, including the general condition of the vehicle and other important information. We have no ability to know whether the information sellers provide is correct. While our site terms and conditions of usage prohibit unlawful acts, we cannot rule out the possibility that users of our car listing site will engage in unlawful transactions, or fail to comply with all laws and regulations applicable to them and their transactions. We may be subject to allegations of civil or criminal liability for any unlawful activities conducted by such users. Any costs we incur as a result of any such allegations, as a result of actual or alleged unlawful transactions using our site, or in our efforts to prevent any such transactions, may harm our business. In addition, any negative publicity we receive regarding any such transactions or allegations may damage our reputation, our ability to attract new customers to our main shopping site, and the Overstock.com brand name generally.

Table of Contents

Fraudulent activities using our car listing site and disputes between users of our car listing site may harm our business.

We are aware that other companies operating online car listing service have periodically received complaints from users alleging improprieties in connection with listings and occasionally these complaints may result in regulatory action. With any online listing service there is the possibility that sellers may attempt to employ "bait and switch" techniques, attracting consumers with advertisements of low cost, good condition vehicles in hopes of switching buyer interest to another less favorable vehicle once a potential purchaser responds. Additionally, sellers may attempt to sell vehicles without accurate descriptions of the condition of the vehicles. We have occasionally received complaints of this nature regarding our car listing service. In response to serious or repeat complaints concerning a car dealer, we may take action to prohibit such persons from listing inventory, but we do not have the ability to require users of our services to fulfill their obligations to make accurate disclosures or comply with consumer laws prohibiting "bait and switch" or other prohibited seller tactics. We are aware that other companies providing similar services periodically are threatened or by or subject to legal actions against the listing service for damages because of user conduct. We may encounter similar legal actions in connection with our cars listing service, which may harm our business or reputation among consumers.

Our insurance coverage and indemnity rights may not adequately protect us against loss.

Although we maintain liability and other types of insurance, including but not limited to, property, workers compensation, general liability, product liability, and security and privacy breach insurance, we cannot be certain that the types, coverage, or the amounts of coverage we maintain will be adequate for losses actually incurred, or that the insurance will continue to be available to us on economically reasonable terms. Similarly, although we are indemnified by most of our suppliers and vendors for product liability for products they supply us, and we have indemnification agreements with software and hardware suppliers for losses we might incur as a result of the use of the technology products they supply, we are not indemnified by all our suppliers, nor can we be certain that our indemnification rights are enforceable or adequate to cover actual losses we may incur as a result of the sale or use of products our indemnitors provide to us. Actual losses for which we are not insured or indemnified, or which exceed our insurance coverage or the capacity of our indemnitors, could harm our business, prospects, financial condition and results of operations.

Our travel site service is a relatively new business that may not succeed.

Our travel site began operation in April 2011. The listing site hosted by Priceline Partner Network Limited ("Priceline.com") is for travel and travel related products and services. While we have offered vacation package services and products previously, the online travel business is a relatively new business for us. We cannot ensure that our expansion into the business will succeed. Our entry into the business will require us to devote financial, technical, managerial and other resources to this travel site. It also exposes us to additional risks, including legal and regulatory risks, and it requires us to compete with established businesses having substantially greater experience in the travel service business and substantially greater resources than we have.

Current and future laws could affect our travel site business.

Like our shopping business, our travel site business is subject to most of the same laws and regulations that apply to other companies conducting business on and off the Internet. In addition, our travel site business may be affected by other laws and regulations, such as those that expressly apply to sales of travel-related products or services. Our failure or the failure of Priceline.com to follow current or future laws or regulations could harm our business.

Table of Contents

Natural disasters and geo-political events could adversely affect our financial performance.

The occurrence of one or more natural disasters, such as hurricanes, cyclones, typhoons, tropical storms, floods, earthquakes, tsunamis, weather conditions such as major or extended winter storms, droughts and tornados, whether as a result of climate change or otherwise, or geo-political events, such as civil unrest or terrorist attacks in a country in which our suppliers are located, could adversely affect our suppliers in the areas in which these types of events occur. The occurrence of any of these events could materially affect our business, prospects, financial condition and results of operations.

Our insurance business is a relatively new business that may not succeed in the long-term.

Our insurance business site began operation in July 2011. The insurance site allows customer to comparison shop for home and auto insurance. The online insurance business site is a relatively new business for us. We cannot ensure that our expansion into this business will succeed. Our entry into the business will require us to devote financial, technical, managerial and other resources to this insurance business site. It will also expose us to additional risks, including legal and regulatory risks, and it will require us to compete with established businesses having substantially greater experience in the online insurance business, including insurance business comparison shopping sites which have substantially greater resources than we have.

Our insurance business may be subject to a variety of regulatory requirements.

Many states and other jurisdictions, including Utah, where we are located, have regulations governing the conduct of insurance sellers and public advertisement insurance sales. Generally, these regulations govern the conduct of those sellers advertising their insurance products for sale and are not directly applicable to those providing the medium through which the advertisement is made available to the public. Sellers are often subject to regulations in the nature of "truth in advertising laws." The application of these regulations to a service providing advertisement or comparison shopping services for insurance products is not clear. Although we do not expect these laws to have a significant effect on our insurance businesses site, we will incur costs in researching and complying with these laws, and we may from time to time be required to make changes in our businesses that may increase our costs, reduce our revenues, cause us to prohibit certain listing or advertising practices, or make other changes that may adversely affect our insurance business site.

Current and future laws could affect our insurance business.

Like our shopping business, our insurance business is subject to most of the same laws and regulations that apply to other companies conducting business on and off the Internet. In addition, our insurance business may be affected by other laws and regulations, such as those that expressly apply to advertising insurance products for sale. To the extent that such current or future laws or regulations prevent insurance companies from offering or selling products on our insurance business site, they could harm our business.

Our business may be harmed if our insurance business site is used for unlawful transactions.

The law regarding the potential liability of an online service providing a platform for sales of insurance products is not clear. The platform of the insurance business site is accessible to insurance product vendors who have insurance products for sale, and which describe these products to customer and inform them of other important information related to the insurance products and the companies which sell them. We have no ability to know whether the information insurance sellers provide is correct. While our site terms and conditions of usage prohibit unlawful acts, we cannot rule out the possibility that insurance sellers will engage in unlawful transactions, or fail to comply with all laws and regulations applicable to them and their transactions. We may be subject to allegations of civil or

Table of Contents

criminal liability for any unlawful activities conducted by such users. Any costs we incur as a result of any such allegations, as a result of actual or alleged unlawful transactions using our site, or in our efforts to prevent any such transactions, may harm our business. In addition, any negative publicity we receive regarding any such transactions or allegations may damage our reputation, our ability to attract new customers to our main shopping site, and the O.co and Overstock.com brand names generally.

Our success is tied to the continued use of the Internet and the adequacy of the Internet infrastructure.

Our future revenues and profits, if any, substantially depend upon the continued widespread use of the Internet as an effective medium of business and communication. Factors which could reduce the widespread use of the Internet include:

actual or perceived lack of security of information or privacy protection;

possible disruptions, computer viruses or other damage to the Internet servers or to users' computers;

significant increases in the costs of transportation of goods; and

governmental regulation.

Customers may be unwilling to use the Internet to purchase goods.

Our long-term future depends heavily upon the general public's willingness to use the Internet as a means to purchase goods. Though e-commerce is widely accepted as a means of purchasing consumer goods and services, we cannot give any assurance that it will continue to be widely accepted. The demand for and acceptance of products sold over the Internet are still uncertain and most e-commerce businesses have a short track record. If consumers are unwilling to use the Internet to conduct business, it would materially adversely impact our business, prospects, financial condition and results of operations.

The security risks or perception of risks of e-commerce may discourage customers from purchasing goods from us.

In order for the e-commerce market to continue to develop successfully, we and other market participants must be able to protect and transmit confidential information securely over public networks. Third parties have demonstrated that they can breach the security of customer transaction data of large sophisticated internet retailers, government organizations and others. Any breach of our e-commerce security systems could cause customers to lose confidence in the security of our Website and choose not to purchase from our Website. Similarly, if there are additional breaches of e-commerce security systems operated by other large e-commerce retailers, whether or not the breaches affect us or the systems we operate such breaches could also cause our customers to lose confidence in the security of our site. If someone is able to circumvent our security measures, he or she could destroy or steal valuable information or disrupt our operations. Concerns about the security and privacy of transactions over the Internet could inhibit the use of the Internet and e-commerce. Our security measures may not effectively prohibit others from obtaining improper access to our information. Third parties may target our customers directly with fraudulent identity theft schemes designed to appear as legitimate communications from us. Any security breach or fraud perpetrated on our customers could expose us to increased costs and to risks of loss, litigation and liability and could seriously disrupt our operations. Similar activities targeting other large e-commerce sites, if successful, could similarly cause serious disruption to our operations and business.

Table of Contents

We are subject to cyber security risks and may incur increasing costs in an effort to minimize those risks and to respond to cyber incidents.

Our business is entirely dependent on the secure operation of our website and systems as well as the operation of the internet generally. Our business involves the storage and transmission of users' proprietary information, and security breaches could expose us to a risk of loss or misuse of this information, litigation, and potential liability. A number of large internet companies have disclosed security breaches, some of which have involved intentional attacks. We may not have the resources or technical sophistication to anticipate or prevent rapidly evolving types of cyber-attacks. Attacks may be targeted at us, our customers, or both. If an actual or perceived breach of our security occurs, customer and/or supplier perception of the effectiveness of our security measures could be harmed and we could lose customers, suppliers or both. Actual or anticipated attacks and risks may cause us to incur increasing costs, including costs to deploy additional personnel and protection technologies, train employees, and engage third party experts and consultants.

A person who is able to circumvent our security measures could misappropriate our or our users' proprietary information, cause interruption in our operations, damage our computers or those of our users, or otherwise damage our reputation and business. Any compromise of our security could result in a violation of applicable privacy and other laws, significant legal and financial exposure, damage to our reputation, and a loss of confidence in our security measures, which could harm our business.

Most of our customers use credit cards to pay for their purchases. We rely on encryption and authentication technology licensed from third parties to provide the security and authentication to effectively secure transmission of confidential information, including customer payment card numbers. We cannot provide assurance that our technology can prevent breaches of the systems that we use to protect customer data. Data breaches can also occur as a result of non-technical issues.

Under payment card rules and our contracts with our card processors, if there is a breach of payment card information that we store, we could be liable to the payment card issuing banks for their cost of issuing new cards and related expenses. In addition, if we fail to follow payment card industry security standards, even if there is no compromise of customer information, we could incur significant fines or lose our ability to give customers the option of using payment cards to fund their payments or pay their fees. If we were unable to accept payment cards, our business would be seriously damaged.

Our servers are also vulnerable to computer viruses, physical or electronic break-ins, and similar disruptions, including "denial-of-service" type attacks. We may need to expend significant resources to protect against security breaches or to address problems caused by breaches. Security breaches, including any breach by us or by persons with whom we have commercial relationships that result in the unauthorized release of our users' personal information, could damage our reputation and expose us to a risk of loss or litigation and possible liability.

Credit card fraud could adversely affect our business.

We routinely receive orders placed with fraudulent credit card data. We do not carry insurance against the risk of credit card fraud, so the failure to adequately control fraudulent credit card transactions could reduce our net revenues and our gross profit percentage. We have implemented technology to help us detect and reject the fraudulent use of credit card information. However, we may in the future suffer losses as a result of orders placed with fraudulent credit card data even though the associated financial institution approved payment of the orders. Under current credit card practices, we may be liable for fraudulent credit card transactions because we do not obtain a cardholder's signature. If we are unable to detect or control credit card fraud, our liability for these transactions could harm our business, prospects, financial condition and results of operation. Further, to the extent that our efforts to prevent fraudulent orders result in our inadvertent refusal to fill legitimate orders, we would lose the benefit of legitimate potential sales and risk the alienation of legitimate customers.

Table of Contents

If one or more states successfully assert that we should collect sales or other taxes on the sale of our merchandise or the merchandise of third parties that we offer for sale on our Website, or that we should pay commercial activity taxes, our business could be harmed.

We do not currently collect sales or other similar taxes for physical shipments of goods into states where we do not have a physical presence or "nexus." One or more local, state or foreign jurisdictions may seek to impose sales tax collection obligations on us because we are engaged in online commerce, even though we have no physical presence in those jurisdictions. The future location of our fulfillment or customer service centers networks, or any other operation of the company, service contracts with third parties located in another state, channel distribution arrangements or other agreements with third party sellers, or any act that may be deemed by a state to have established a physical presence in states where we are not now present, may result in additional sales and other tax obligations. We challenged the constitutionality of a New York state law which requires Internet retailers to collect and remit New York sales taxes on their New York sales who have no physical presence or "tax nexus" in New York, if the retailer uses the services of New York based Internet advertisers. The trial court dismissed our challenge, and on appeal, the appellate court has partially affirmed the trial court. We dismissed a portion of the challenge remanded to the trial court and continue to appeal the other portion of the trial court's ruling. As a result of the enactment of the New York law, we terminated our relationship with New York based advertising affiliates. Other states have passed similar Internet affiliate advertising statutes, and in those states we have terminated our use of locally based Internet advertisers. Moreover, there are other states that currently have similar tax proposals under consideration. If such laws survive constitutional challenge, we may have to elect to discontinue in those states valuable marketing through the use of affiliates based in those states, or begin in those states the collection of the taxes. In either event, our business could be harmed and our business could be adversely affected if one or more states or any foreign country successfully asserts that we should collect sales or other taxes on the sale of our merchandise in compliance with these or any other state law. At least one state, Ohio, asserts that we should pay a commercial activity tax because we sell merchandise in Ohio, even though we have no physical presence there. We challenged in Ohio state court the constitutionality of the commercial activity tax; however, the court declined the case for the reason that it was not a ripe controversy. The State of Ohio has since assessed us \$612,784 in taxes, interest, and penalties as of June 30, 2009, which assessment we are now contesting through administrative procedures. The Ohio Department of Taxation issued additional estimated assessments of estimated tax, interest and penalties totaling \$97,768 as of December 31, 2011. We believe the assessment to be wrong and are contesting the assessment. If Ohio is successful and its assessment withstands constitutional challenge in both administratively and in court appeals, the enforcement of the assessment could harm our business. If other states similarly enact and are successful in enforcing similar commercial activity tax laws, these also could harm our business.

The States of Colorado, Oklahoma and South Dakota have enacted laws requiring remote vendors to notify resident purchasers in those states of their obligation to pay a use tax on their purchases. In Colorado, the law requires vendors to notify Colorado purchasers annually by U.S. mail of all their annual purchases, and provide to the State of Colorado the same information in the first quarter of the year for previous year's purchases. On January 26, 2011, a federal court in Colorado, citing constitutional concerns and noting that a party challenging the constitutionality of the Colorado law would have a likelihood of success at trial, granted a preliminary injunction preventing the Colorado Department of Revenue from enforcing the provisions of the Colorado law. Notwithstanding, other states may enact legislation similar to these laws. Such laws could harm our business by imposing unreasonable notice burdens upon us, by interposing burdensome transaction notices that negatively affect conversion, or discourage customer purchases by requiring detailed purchase reporting which would threaten customers with an invasion of their privacy.

Table of Contents

Economic pressure on states could harm our business.

The current economic climate has resulted in a sharp decline in state revenues, and states have projected large state budget shortfalls in the years ahead. These shortfalls require state legislatures and agencies to examine the means to increase state revenues. States may increase sales and use tax rates, create new tax laws covering previously untaxed activities, or increase existing licenses or create new fees all of which may directly or indirectly harm our business. Similarly, administrative agencies and executive agencies may apply more rigorous enforcement efforts, take inflexible, unreasonable or unprecedented positions respecting these laws they administer, especially if the laws they administer carry monetary penalties and fines which either the state or the administrative agency may use to balance their budgets. To the extent that states pass additional revenue measures, or significantly increase their enforcement efforts of existing laws, these activities could directly or indirectly harm our business.

Laws or regulations relating to privacy and data protection may adversely affect the growth of our Internet business or our marketing efforts.

We are subject to increasing regulation at the federal, state and international levels relating to privacy, security, retention, transfer and use of personal user information. For example, we are subject to various telemarketing laws that regulate the manner in which we may solicit future suppliers and customers. Such statutes and regulations, along with increased governmental or private enforcement, may increase the cost of our business. In addition, many jurisdictions have laws that limit the uses of personal user information gathered online or offline or require companies to establish privacy policies. For example, Federal Trade Commission regulations restrict the collection and use of personal identifying information obtained from children under 13. Laws affecting privacy, security, retention, transfer and use of personal user information have been passed by several jurisdictions, both domestic and foreign, including laws that require us to establish procedures to notify users of privacy and security policies, obtain consent from users for collection and use of personal information, and/or provide users with the ability to access, correct and delete personal information stored by us. Compliance with new and existing privacy and security laws is difficult and costly, as interpretation and application of these laws evolves over time. Additional restrictions and requirements regarding data security and privacy are under nearly continuous consideration by foreign countries, Congress and various states. These data protection statutes, regulations and interpretations may further restrict our ability to collect demographic and personal information from users, which could be costly or harm our marketing efforts, and could require us to implement new and potentially costly processes, procedures and/or protective measures.

The price of our securities may be volatile and you may lose all or a part of your investment.

The market price of our common stock historically has been subject to significant fluctuations. These fluctuations could continue. It is possible that in future periods our results of operations may be below the expectations of public market analysts and investors. If this occurs, the market price of our securities may decline. Some of the factors that could affect the market price of our securities are as follows:

changes in securities analysts' recommendations or estimates of our financial performance or publication of research reports by analysts;

changes in market valuations of similar companies;

announcements by us or our competitors of significant contracts, acquisitions, commercial relationships, joint ventures or capital commitments;

general market conditions;

Table of Contents

actual or anticipated fluctuations in our operating results;

intellectual property or litigation developments;

changes in our management team;

economic factors unrelated to our performance; and

our issuance of additional shares of stock or other securities.

In addition, the securities markets have experienced significant price and trading volume fluctuations. These broad market fluctuations may adversely affect the trading price of our securities. In the past, following periods of volatility in the market price of a public company's securities, securities class action litigation has often been instituted against that company. Such litigation could result in substantial cost and a diversion of management's attention and resources.

Our quarterly operating results are volatile and may adversely affect the market price of our securities.

Our future revenues and operating results are likely to vary significantly from quarter to quarter due to a number of factors, many of which are outside our control, and any of which could harm our business. As a result, we believe that quarterly comparisons of our operating results are not necessarily meaningful and that you should not rely on the results of one quarter as an indication of our future performance. In addition to the other risk factors described in this report, additional factors that have caused and/or could cause our quarterly operating results to fluctuate and in turn affect the market price of our securities include:

increases in the cost of advertising;

our inability to retain existing customers or encourage repeat purchases;

the extent to which our existing and future marketing campaigns are successful;

price competition that results in lower profit margins or losses;

the amount and timing of operating costs and capital expenditures relating to the expansion of our business operations and infrastructure;

the amount and timing of our purchases of inventory;

our inability to manage distribution operations or provide adequate levels of customer service;

increases in the cost of fuel and transportation;

our ability to successfully integrate operations and technologies from acquisitions or other business combinations;

our efforts to offer new lines of products and services; and

our ability to attract users to our shopping and other sites.

Our operating results may fluctuate depending on the season, and such fluctuations may affect the market price of our securities.

We have experienced and expect to continue to experience fluctuations in our operating results because of seasonal fluctuations in traditional retail patterns. Sales in the retail and wholesale industry tend to be significantly higher in the fourth calendar quarter of each year than in the preceding three quarters due primarily to increased shopping activity during the holiday season. However, there can be no assurance that our sales in the fourth quarter will exceed those of the preceding quarters or, if the fourth quarter sales do exceed those of the preceding quarters, that we will be able to manage the increased sales effectively. Further, we generally increase our inventories substantially in anticipation of

Table of Contents

holiday season shopping activity, which has a negative effect on our cash flow. Securities analysts and investors may inaccurately estimate the effects of seasonality on our results of operations in one or more future quarters and, consequently, our operating results may fall below expectations, causing the market price of our securities to decline. We generally have payment terms with our fulfillment partners that extend beyond the amount of time necessary to collect proceeds from our customers. As a result of holiday sales, at December 31 of each year, our cash, cash equivalents, and marketable securities balances typically reach their highest level (other than as a result of cash flows provided by or used in investing and financing activities). This operating cycle results in a corresponding increase in accounts payable at December 31. Our accounts payable balance generally declines during the first three months of the year, resulting in a corresponding decline in our cash, cash equivalents, and marketable securities balances.

Sales by our significant stockholders could have an adverse effect on the market price of our stock.

Several of our stockholders own significant portions of our common stock. If one or more of stockholders were to sell all or a portion of their holdings of our common stock, the market price of our common stock could be negatively impacted. The effect of such sales, or of significant portions of our stock being offered or made available for sale, could result in strong downward pressure on our stock price. Investors should be aware that they could experience significant short-term volatility in our stock if such stockholders decide to sell all or a portion of their holdings of our common stock at once or within a short period of time. In addition, the transfer of ownership of 50% or more of our outstanding shares within a three year period could adversely affect our ability to use our net operating losses to offset future taxable net income.

We do not intend to pay dividends on our common stock and you may lose the entire amount of your investment in our common stock.

We have never declared or paid any cash dividends on our common stock and do not intend to pay dividends on our common stock for the foreseeable future. We intend to invest our future earnings, if any, to fund our growth. Therefore, you will not receive any funds without selling your shares. We cannot assure that you will receive a positive return on your investment when you sell your shares or that you will not lose the entire amount of your investment.

Our Amended and Restated Certificate of Incorporation, Amended and Restated Bylaws and the Delaware General Corporation Law contain anti-takeover provisions which could discourage or prevent a takeover, even if an acquisition would be beneficial to our stockholders.

Several provisions of our Amended and Restated Certificate of Incorporation and Amended and Restated Bylaws could discourage potential acquisition proposals and could delay or prevent a change in control of our company even if that change in control would be beneficial to our stockholders. For example, only one-third of our board of directors is elected at each of our annual meetings of stockholders, which will make it more difficult for a potential acquirer to change the management of our company, even after acquiring a majority of the shares of our common stock. These provisions, which cannot be amended without the approval of two-thirds of our stockholders, could diminish the opportunities for a stockholder to participate in tender offers, including tender offers at a price above the then current market value of our common stock. In addition, our board of directors, without further stockholder approval, may issue preferred stock, with such terms as the board of directors may determine, that could have the effect of delaying or preventing a change in control of our company. The issuance of preferred stock could also adversely affect the voting powers of the holders of common stock, including the loss of voting control to others. We are also afforded the protections of Section 203 of the Delaware General Corporation Law, which could delay or prevent a change in control of our company or could impede a merger, consolidation, takeover or other business combination involving

Table of Contents

our company or discourage a potential acquirer from making a tender offer or otherwise attempting to obtain control of our company.

The price of our stock may be vulnerable to manipulation.

We filed an unfair business practice lawsuit against Morgan Stanley & Co. Incorporated, Goldman Sachs & Co., Bear Stearns Companies, Inc., Bank of America Securities LLC, Bank of New York, Citigroup Inc., Credit Suisse (USA) Inc., Deutsche Bank Securities, Inc., Merrill Lynch, Pierce, Fenner & Smith, Inc., and UBS Financial Services, Inc., and settled the case with respect to all defendants except Goldman Sachs Group, Inc., Goldman Sachs & Co., Goldman Sachs Execution & Clearing L.P.; Merrill Lynch, Pierce, Fenner & Smith, Inc., and Merrill Lynch Professional Clearing Corporation. In January, the trial court granted the remaining defendants' motion for summary judgment. We intend to appeal the ruling.

We believe these remaining defendants engaged in unlawful actions and have caused substantial harm to Overstock, and that certain of the defendants have made efforts to drive the market price of Overstock's common stock down. To the extent that the defendants or other persons engage in any such actions or take any other actions to interfere with or destroy or harm Overstock's existing and/or prospective business relationships with its suppliers, bankers, customers, lenders, investors, prospective investors or others, our business, prospects, financial condition and results of operation could be harmed, and the price of our common stock may be more volatile than it might otherwise be and/or may trade at prices below those that might prevail in the absence of any such efforts. The practice of "abusive naked short selling" continues to place our stock at risk for manipulative attacks by large investment pools and prime brokers.

Abusive naked short selling is the practice by which short sellers place large short sell orders for shares without first borrowing the shares to be sold, or without having first adequately located such shares and arranged for a firm contract to borrow such shares prior to the delivery date set to close the sale. While selling broker dealers are by rule required to deliver shares to close a transaction by a certain date, and while purchasing broker-dealers are obligated by rule to purchase the sold quantity of shares when they are not delivered to close the sale, these rules are often ignored. Abusive naked short selling has a depressive effect on share prices when it is allowed to persist because the economic effect of abusive naked short selling is the oversupply of counterfeit stock to the market. We believe the regulations designed to address this abusive practice are both inadequately structured and inadequately enforced. Consequently, we believe that without the enactment of adequate regulations and the enforcement necessary to curb these abuses, the manipulations achieved through abusive naked short selling are likely to continue. We believe that our stock has been subject to these abusive practices by those attempting to manipulate its price downward. To the extent that our stock is subject to these practices in the future, our stock may be more volatile than it might otherwise be and/or may trade at prices below those that might prevail in the absence of such abuses.

In the past, our stock has consistently been on the Regulation SHO threshold list.

Regulation SHO requires the stock exchanges to publish daily a list of companies whose stock has failures-to-deliver above a certain threshold. It also requires mandatory close-outs for open fail-to-deliver positions in threshold securities persisting for over 13 days, with the aim that no security would appear on the threshold for any extended period. Despite that aim, our common stock has frequently appeared on the Regulation SHO threshold list for extended and continuous periods and, while we do not currently appear on the Regulation SHO threshold list, in the past our stock has been on the list for more trading days than any other company.

Any investment in our securities involves a high degree of risk. Investors should consider carefully the risks and uncertainties described above, and all other information in this Form 10-K and in any

Table of Contents

reports we file with the SEC after we file this Form 10-K, before deciding whether to purchase or hold our securities. Additional risks and uncertainties not currently known to us or that we currently deem immaterial may also become important factors that may harm our business. The occurrence of any of the risks described in this Form 10-K could harm our business. The trading price of our securities could decline due to any of these risks and uncertainties, and investors may lose part or all of their investment.

ITEM 1B. UNRESOLVED STAFF COMMENTS

None.

ITEM 2. PROPERTIES

Corporate office space

We lease approximately 128,000 square feet in the Old Mill Corporate Center III in Salt Lake City, Utah for a term expiring in 2015.

We lease approximately 12,000 square feet in Provo, Utah for a term expiring in 2016. We ceased using this space in January 2012 and are seeking to sub-lease the space for the remainder of its term.

Warehouse and customer service space

We lease a combined 1,041,000 square feet for our warehouse and customer service operations in two facilities in Salt Lake City, Utah for terms expiring in August 2012 and February 2016.

We lease approximately 15,000 square feet for customer service operations in Tooele, Utah for a term expiring in May 2015.

We lease approximately 18,000 square feet for product liquidation in Sandy, Utah for a term expiring in May 2012.

We lease approximately 400 square feet for our procurement staff in Shanghai, China for a term expiring in October 2012.

Co-location data center

We lease approximately 4,000 square feet at Old Mill Corporate Center I in Salt Lake City, Utah for a data center for a term expiring in May 2017.

We lease approximately 3,000 square feet in Salt Lake City, Utah for a data center for a term expiring in April 2016.

We believe that the above listed facilities will be sufficient for our needs for at least the next twelve months, subject to seasonal requirements for additional warehouse and customer service space during the fourth quarter.

ITEM 3. LEGAL PROCEEDINGS

The information set forth under Item 15 of Part IV, "Financial Statements Note 13 Commitments and Contingencies, subheading Legal Proceedings," contained in the "Notes to Consolidated Financial Statements" of this Annual Report on Form 10-K is incorporated by reference in answer to this Item.

ITEM 4. MINE SAFETY DISCLOSURES

Not applicable.

Table of Contents**PART II****ITEM 5. MARKET FOR THE REGISTRANT'S COMMON EQUITY, RELATED STOCKHOLDER MATTERS AND ISSUER PURCHASES OF EQUITY SECURITIES***Market information*

Our common stock is traded on the NASDAQ Global Market under the symbol "OSTK." The following table sets forth, for the periods indicated, the high and low sales prices per share for our common stock as reported by NASDAQ.

	Common Stock Price	
	High	Low
Year Ended December 31, 2011		
First Quarter	17.18	13.68
Second Quarter	15.93	13.34
Third Quarter	15.93	8.91
Fourth Quarter	10.81	7.57
Year Ended December 31, 2010		
First Quarter	16.23	11.10
Second Quarter	23.92	16.90
Third Quarter	20.82	13.53
Fourth Quarter	17.30	12.69

STOCK PERFORMANCE GRAPH

The following graph compares the total cumulative stockholder return, on our common stock with the total cumulative return of the NASDAQ Market Index U.S. ("NASDAQ Market Index") and the Morningstar Specialty Retail Index ("Morningstar Group Index") during the period commencing on January 1, 2006 through December 31, 2011. The graph assumes a \$100 investment at the beginning of the period in our common stock, the NASDAQ Market Index and the Morningstar Group Index, and

Table of Contents

the reinvestment of any dividends. Historic stock price performance is not necessarily indicative of future stock price performance.

Comparison of Year Cumulative Total Return

Holdings

As of February 10, 2012, there were 195 holders of record of our common stock. Because many of our shares of common stock are held by brokers and other institutions on behalf of shareholders, we are unable to estimate the number of beneficial shareholders.

Dividends

We have never declared or paid any cash dividends on our common stock. We currently intend to retain any earnings for future growth and do not anticipate paying any cash dividends in the foreseeable future. Any future determination to pay dividends will be at the discretion of our board of directors and will depend on our results of operations, financial conditions, contractual and legal restrictions and other factors the board deems relevant. Our Financing Agreement with U.S. Bank National Association prohibits dividend payments and other distributions following the occurrence of a "Triggering Event," as defined in the Financing Agreement. A "Triggering Event" would include any failure by us to keep \$20 million in certain accounts with U.S. Bank, as well as any Event of Default under the Financing Agreement.

Recent sales of unregistered securities

In June 2009, we discovered that we had inadvertently issued 203,737 more shares of our common stock in connection with our 401(k) plan than had been registered with the Securities and Exchange Commission for offer in connection with the 401(k) plan. These shares were contributed to or otherwise acquired by participants in the 401(k) plan between August 16, 2006, and June 17, 2009. As a result, certain participants in the 401(k) plan may have had rescission rights relating to the unregistered shares, although we believe that the federal statute of limitations applicable to any such rescission rights would be one year, and that the statute of limitations had already expired at June 30, 2009 with respect to most of the inadvertent issuances.

Table of Contents

On August 31, 2009, we entered into a Tolling and Standstill Agreement (the "Tolling Agreement") with the Overstock.com, Inc. Employee Benefits Committee (the "Committee") relating to the 401(k) plan. We entered into the Tolling Agreement in order to preserve certain rights, if any, of plan participants who acquired shares of Overstock common stock in the plan between July 1, 2008 and June 30, 2009 (the "Purchase Period"). In August 2010, we made a registered rescission offer to affected participants in the plan who acquired shares of Overstock common stock during the Purchase Period. The rescission offer applied to shares purchased during the Purchase Period at prices ranging from \$6.77 per share to \$21.17 per share. On October 6, 2010, our rescission offer expired. As a result of the offer, we repurchased 1,202 shares of common stock for \$26,000. On October 14, 2010 we terminated the Tolling Agreement. At December 31, 2011 none of our shares were classified outside stockholder's equity due to the expiration of potential rescission rights associated with those common shares. At December 31, 2010 approximately 46,000 shares or \$570,000 of our common stock plus interest were classified outside stockholders' equity, respectively.

In December 2009, we implemented a Non Qualified Deferred Compensation plan for senior management. The plan allows eligible members of senior management to defer their receipt of compensation from us beginning in 2010, subject to the restrictions contained in the plan. To the extent that interests in the plan constitute securities, we believe that the issuance of the interests was exempt from the registration requirements of the Securities Act of 1933, as amended, pursuant to Section 4(2) thereof and Rule 506 of Regulation D thereunder as a transaction not involving a public offering. The interests were not sold for cash or other consideration, and there were no proceeds to us.

Issuer purchases of equity securities

The following table sets forth all purchases made by us or on our behalf or any "affiliated purchaser" as defined in Rule 10b-18(a)(3) under the Exchange Act, of shares of our common stock made during each month within the fourth quarter of 2011, including all purchases made pursuant to publicly announced plans or programs and those not made pursuant to publicly announced plans or programs. Column (a) sets forth the total number of shares purchased, and the footnotes to the table disclose the number of shares purchased other than pursuant to a publicly announced plan or program and the nature of any such purchases. Column (b) sets forth the average price paid per share. Column (c) sets forth the total number of shares purchased as part of publicly announced repurchase plans or programs. Column (d) sets forth the maximum number (or approximate dollar value) of shares that may yet be purchased under the plans or programs.

Period	(a) Total Number of Shares (or Units) Purchased	(b) Average Price Paid per Share or Unit	(c) Total Number of Shares (or Units) Purchased as Part of Publicly Announced Plans or Programs	(d) Maximum Number (or Approximate Dollar Value) of Shares (or Units) that May Yet Be Purchased Under the Plans or Programs
October 1, 2011 to October 31, 2011	180	\$ 10.04		\$
November 1, 2011 to November 30, 2011				
December 1, 2011 to December 31, 2011				
Total	180(1)			\$

(1) Represents 180 shares withheld for minimum tax withholding purposes upon the vesting of a portion of restricted stock units.

Table of Contents

Stock based compensation

Stock options

Our board of directors adopted the 2005 Equity Incentive Plan (the "Plan"), in April 2005. Under this Plan, the Board of Directors may issue incentive stock options to our employees and directors and non-qualified stock options to our consultants, as well as other types of awards under the 2005 Equity Incentive Plan. Options granted under these Plans generally expire at the end of ten years and vest on a straight line basis in accordance with a vesting schedule determined by our Board of Directors, usually over four years from the grant date. As of December 31, 2011, 1.0 million shares of stock based awards were available for future grants under the 2005 Equity Incentive Plan.

The following is a summary of stock option activity (amounts in thousands, except per share data):

	2011		2010		2009	
	Shares	Weighted Average Exercise Price	Shares	Weighted Average Exercise Price	Shares	Weighted Average Exercise Price
Outstanding beginning of year	496	\$ 18.09	721	\$ 20.29	974	\$ 21.27
Granted at fair value						
Exercised			(90)	17.05	(2)	15.82
Expired/Forfeited	(91)	20.55	(135)	30.41	(251)	24.12
Outstanding end of year	405	\$ 17.58	496	\$ 18.09	721	\$ 20.29

Options exercisable at year-end	404	\$ 17.59	472	\$ 18.08	543	\$ 21.17
---------------------------------	-----	----------	-----	----------	-----	----------

Stock options vest over four years at 28% at the end of the first year and 2% each month thereafter. During the years ended December 31, 2011, 2010 and 2009, we recorded stock based compensation related to stock options of \$200,000, \$1.6 million and \$2.2 million, respectively.

Restricted stock units activity

During the years ended December 31, 2011, 2010 and 2009, we granted 268,000, 302,000 and 366,000 restricted stock units, respectively. The cost of restricted stock units is determined using the fair value of our common stock on the date of the grant and compensation expense is recognized on a straight line basis over the three year vesting schedule. The weighted average grant date fair value of restricted stock units granted during the years ended December 31, 2011, 2010 and 2009 was \$15.47, \$13.17 and \$10.15, respectively.

The following is a summary of restricted stock unit activity (amounts in thousands, except per share data):

	2011		2010		2009	
	Units	Weighted Average Grant Date Fair Value	Units	Weighted Average Grant Date Fair Value	Units	Weighted Average Grant Date Fair Value
Outstanding beginning of year	685	\$ 12.08	640	\$ 11.35	449	\$ 12.69
Granted at fair value	268	15.47	302	13.17	366	10.15
Vested	(318)	12.20	(185)	11.52	(110)	12.64
Forfeited	(113)	13.88	(72)	11.50	(65)	11.55
Outstanding end of year	522	\$ 13.40	685	\$ 12.08	640	\$ 11.35

Table of Contents

Restricted stock units vest over three years at 25% at the end of the first year, 25% at the end of the second year and 50% at the end of the third year. During the years ended December 31, 2011, 2010 and 2009, we recorded stock based compensation related to restricted stock units of \$2.8 million, \$3.5 million and \$2.6 million, respectively.

At December 31, 2011, approximately 522,000 restricted stock units were outstanding. On January 24, 2012, we granted 681,000 additional restricted stock units.

Table of Contents**ITEM 6. SELECTED FINANCIAL DATA**

The selected consolidated financial data presented below should be read in conjunction with the consolidated financial statements of Overstock.com, Inc. and subsidiaries and related footnotes included elsewhere in this annual report on Form 10-K and the discussion under Item 7 "Management's Discussion and Analysis of Financial Condition and Results of Operations." The selected consolidated financial data has been derived from our audited consolidated financial statements included elsewhere in this Form 10-K. The historical financial and operating information may not be indicative of our future performance.

- (1) During the fourth quarter of 2006, we commenced implementation of a facilities consolidation and restructuring program designed to reduce the overall expense structure in an effort to improve future operating performance (see Item 15 of Part IV, "Financial Statements" Note 3 "Restructuring Expense").

Table of Contents

(2)

As part of the program to reduce our expense structure and sell non-core businesses, we decided during the fourth quarter of 2006 to sell our travel subsidiary ("OTravel"). As a result, OTravel's operations have been classified as a discontinued operation and therefore are not included in the results of continuing operations. The loss from discontinued operations for OTravel was \$3.9 million for the year ended December 31, 2007 (including a goodwill impairment charge of \$3.8 million).

ITEM 7. MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS

This Annual Report on Form 10-K and the documents incorporated herein by reference contain forward-looking statements within the meaning of Section 27A of the Securities Act of 1933 and Section 21E of the Securities Exchange Act of 1934. These statements are therefore entitled to the protection of the safe harbor provisions of these laws. These forward-looking statements involve risks and uncertainties, and relate to future events or our future financial or operating performance. The forward-looking statements include all statements other than statements of historical fact, including, without limitation, all statements regarding:

the anticipated benefits and risks of our business and plans;

our ability to attract and retain customers in a cost-efficient manner;

the effectiveness of our marketing;

our future operating and financial results;

the competition we face and will face in our business;

the effects of government regulation;

our future capital requirements and our ability to satisfy our capital needs;

our expectations regarding the adequacy of our liquidity;

our ability to retire or refinance our debt;

our plans for international markets;

our plans for changes to our business;

our beliefs regarding current or future litigation or regulatory actions;

our beliefs and expectations regarding existing and future tax laws and related laws and the application of those laws to our business;

our beliefs regarding the adequacy of our insurance coverage;

the adequacy of our infrastructure, including our backup facilities and our disaster planning;

Edgar Filing: OVERSTOCK.COM, INC - Form 10-K

our belief that we can meet our published product shipping standards even during periods of relatively high sales activity;

our belief that we can maintain or improve upon customer service levels that we and our customers consider acceptable;

our beliefs regarding the adequacy of our order processing systems and our fulfillment and distribution capabilities;

our beliefs regarding the adequacy of our customer service capabilities;

our beliefs and expectations regarding the adequacy of our office and warehouse facilities;

our expectations regarding our travel shopping service, our insurance shopping service, our international sales efforts, our car listing service and our community site, and the anticipated functionality and results of operations of any of them;

our belief that we and our fulfillment partners will be able to maintain inventory levels at appropriate levels despite the seasonal nature of our business; and

Table of Contents

our belief that we can successfully offer and sell a constantly changing mix of products and services.

Furthermore, in some cases, you can identify forward-looking statements by terminology such as may, will, could, should, expect, plan, intend, anticipate, believe, estimate, predict, potential or continue, the negative of such terms or other comparable terminology. These statements are only predictions. Actual events or results may differ materially. In evaluating these statements, you should specifically consider the risks outlined in this Annual Report on Form 10-K for the year ended December 31, 2011, including those described in Item 1A under the caption "Risk Factors." These factors may cause our actual results to differ materially from those contemplated by any forward-looking statement. Except as otherwise required by law, we expressly disclaim any obligation to release publicly any update or revisions to any forward-looking statements to reflect any changes in our expectations or any change in events, conditions or circumstances on which any of our forward-looking statements are based. Although we believe that the expectations reflected in the forward-looking statements are reasonable, we cannot guarantee future results, levels of activity, performance or achievements.

These forward-looking statements speak only as of the date of this report and, except as required by law, we undertake no obligation to update forward-looking statements to reflect events or circumstances occurring after the date of this report.

Introduction

We are an online retailer offering discount brand name, non-brand name and closeout merchandise, including bed-and-bath goods, home décor, kitchenware, furniture, watches and jewelry, apparel, electronics and computers, sporting goods, and designer accessories, among other products. We are also a channel through which customers can purchase cars, insurance and travel products and services. We sell advertising. We also sell hundreds of thousands of best seller and current run books, magazines, CDs, DVDs and video games ("BMMG"). We sell these products and services through our Internet websites located at www.overstock.com, www.o.co and www.o.biz ("Website"). Although our three websites are located at different domain addresses, the technology and equipment and processes supporting the three websites and the process of order fulfillment described herein are the same for all three websites.

Our company, based in Salt Lake City, Utah, was founded in 1997. We launched our initial website in March 1999. Our Website offers our customers an opportunity to shop for bargains conveniently, while offering our suppliers an alternative inventory liquidation or sales channel. We continually add new, sometimes limited, inventory products to our Website in order to create an atmosphere that encourages customers to visit frequently and purchase products before our inventory sells out. We sell products primarily in the United States, with a small amount of products (less than 1% of sales) sold internationally.

As used herein, "Overstock," "Overstock.com," "O.co," "we," "our" and similar terms include Overstock.com, Inc. and its subsidiaries, unless the context indicates otherwise.

Our Business

We deal primarily in discount, replenishable, and closeout merchandise and we use the Internet to aggregate both supply and demand to create an efficient marketplace for selling these products. We provide manufacturers with a one-stop liquidation channel to sell both large and small quantities of excess, closeout and replenishable inventory without disrupting sales through traditional channels, which can result in weaker pricing and decreased brand strength. The merchandise offered on our Website is from a variety of sources including well-known, brand-name manufacturers. We have organized our shopping business (sales of product offered through the Shopping Section of our Website) into two

Table of Contents

principal segments a "direct" business and a "fulfillment partner" business. We currently offer approximately 251,000 non-BMMG products and approximately 637,000 BMMG products. Consumers and businesses are able to access and purchase our products 24 hours a day from the convenience of a computer, Internet-enabled mobile telephone or other Internet-enabled devices. Our team of customer service representatives assists customers by telephone, instant online chat and e-mail. We also derive revenue from other businesses advertising products or services on our Website. We have car, insurance and travel listing businesses through which cars, insurance and travel-related products and services may be purchased from vendors. Nearly all of our sales are to customers located in the United States. During the years ended December 31, 2011 and 2010 no single customer accounted for more than 1% of our total revenue.

Direct business

Our direct business includes sales made to individual consumers and businesses, which are fulfilled from our leased warehouses in Salt Lake City, Utah. During the year ended December 31, 2011, we fulfilled approximately 16% of our order volume through our warehouses. Our warehouses generally ship between 4,000 and 7,000 orders per day and up to approximately 10,000 orders per day during peak periods, using overlapping daily shifts.

Fulfillment partner business

For our fulfillment partner business, we sell merchandise of other retailers, cataloguers or manufacturers ("fulfillment partners") through our Website. We are considered to be the primary obligor for the majority of these sales transactions and we record revenue from the majority of these sales transactions on a gross basis. Our use of the term "partner" or "fulfillment partner" does not mean that we have formed any legal partnerships with any of our fulfillment partners. We currently have relationships with approximately 2,000 third parties who supply approximately 242,000 non-BMMG products, as well as most of the BMMG products, on our Website. These third-party fulfillment partners perform essentially the same fulfillment operations as our warehouses, such as order picking and shipping; however, we handle returns and customer service related to substantially all orders placed through our Website. Revenue generated from sales on our Shopping site from both the direct and fulfillment partner businesses is recorded net of returns, coupons and other discounts.

Both direct and fulfillment partner revenues are seasonal, with revenues historically being the highest in the fourth quarter, which ends December 31, reflecting higher consumer holiday spending. We anticipate this will continue in the foreseeable future.

Generally, we require verification of receipt of payment, or authorization from credit card or other payment vendors whose services we offer to our customers (such as PayPal and BillMeLater), before we ship products to consumers or business purchasers. From time to time we grant credit to our business purchasers with normal credit terms (typically 30 days). For sales in our fulfillment partner business, we generally receive payments from our customers before our payments to our suppliers are due.

International business

We began selling products through our Website to customers outside the United States in late August 2008. As of December 31, 2011, we were offering products to customers in over 105 countries and non-U.S. territories. We do not have sales operations outside the United States, and are using a U.S. based third party to provide logistics and fulfillment for all international orders. Revenue generated from our international business is included in either direct or fulfillment partner revenue, depending on whether the product is shipped from our warehouses or from a fulfillment partner. Less than 1% of our sales are made to international customers.

Table of Contents

Consignment

In September 2009, we began offering a consignment service to suppliers where the suppliers' merchandise is stored in and shipped from our leased warehouses. We pay the consignment supplier upon sale of the consigned merchandise to our customer.

Revenue from our consignment service business is less than 1% of total net revenue and is included in the fulfillment partner segment.

Other businesses

We operate an online car listing service as part of our Website. The car listing service allows sellers to list vehicles for sale and allows buyers to review vehicle descriptions, post offers to purchase, and provides the means for purchasers to contact sellers for further information and negotiations on the purchase of an advertised vehicle. We also earn advertisement revenue derived from our cars business. Revenue from the cars businesses is included in the fulfillment partner segment on a net basis.

We operate an online site, O.biz, a website where customers and businesses can shop for bulk and business related items, while offering manufacturers, distributors and other retailers an alternative sales channel for liquidating their inventory. Revenue generated from our O.biz is included in either direct or fulfillment partner revenue, depending on whether the product is shipped from our warehouses or from a fulfillment partner.

In April 2011, we again began operating a travel shopping site as part of our Website where customers can purchase discount travel packages, flights, rental cars and other travel-related products and services. We also earn advertisement revenue from our travel business. Revenue from the travel businesses is included in the fulfillment partner segment on a net basis.

In July 2011, we began operating an insurance shopping service as part of our Website where customers can shop for auto and home insurance and compare quotes from various insurance providers. We also earn advertisement revenue from our insurance business. Revenue generated from our insurance shopping site is included in the fulfillment partner segment on a net basis.

Prior to July 2011, we operated an online auction service as part of our Website. In July 2011, we removed our Marketplace tab for auctions from our Website and no longer provide auction services. The financial results and related assets of the online auction service were not significant to our business. Our Marketplace tab allowed sellers to list items for sale, buyers to bid on items of interest, and users to browse through listed items online. We recorded only our listing fees and commissions for items sold as revenue. From time to time, we also sold items returned from our shopping business through our auction service, and for these sales, we recorded the revenue on a gross basis. Revenue from the auctions is included in the fulfillment partner segment.

Prior to June 2011, we operated an online site for listing real estate for sale as part of our Website. In June 2011, we removed our online site for listing real estate for sale from our Website and no longer provide these real estate listing services. The financial results and related assets of the online site for listing real estate for sale were not significant to our business. The real-estate listing service allowed customers to search active listings across the country. Revenue from the real estate business is included in the fulfillment partner segment on a net basis.

Prior to June 2011, we operated Eziba.com, a private sale website featuring home décor products, jewelry, apparel and accessories from many leading brands. In June 2011, we turned off the Eziba.com website; however, we continue to sell the type of products that were listed on Eziba.com through our websites, O.co and Overstock.com.

Revenue from our other businesses is less than 1% of total net revenues.

Table of Contents

Critical Accounting Policies and Estimates

The preparation of financial statements in conformity with U.S. generally accepted accounting principles ("GAAP") requires estimates and assumptions that affect the reported amounts of assets and liabilities, revenues and expenses, and related disclosures of contingent assets and liabilities in the consolidated financial statements and accompanying notes. The Securities and Exchange Commission ("SEC") has defined a company's critical accounting policies as the ones that are most important to the portrayal of the company's financial condition and results of operations, and which require the company to make its most difficult and subjective judgments, often as a result of the need to make estimates of matters that are inherently uncertain. Based on this definition, we have identified the critical accounting policies, estimates and judgments addressed below. We also have other key accounting policies, which involve the use of estimates, judgments, and assumptions that are significant to understanding our results. For additional information, see Item 1 of Part I, "Financial Statements" Note 2 "Accounting Policies." Although we believe that our estimates, assumptions, and judgments are reasonable, they are based upon information presently available. Actual results may differ significantly from these estimates. Our critical accounting policies are as follows:

revenue recognition;

estimating valuation allowances and accrued liabilities (specifically, the allowances for returns, credit card chargebacks, doubtful accounts and obsolete and damaged inventory);

internal use software and website development (acquired and developed internally);

accounting for income taxes;

valuation of long-lived and intangible assets and goodwill; and

loss contingencies.

Revenue recognition

We derive our revenue primarily from two sources: direct revenue and fulfillment partner revenue, including listing fees and commissions collected from products being listed and sold through the Auctions tab, which we removed from our site in July 2011, advertisement revenue derived from our real estate listing business, which we removed from our site in June 2011, from our cars listing business, and from advertising on our shopping, travel and insurance pages. We have organized our operations into two principal segments based on the primary source of revenue: direct revenue and fulfillment partner revenue.

Revenue is recognized when the following revenue recognition criteria are met: (1) persuasive evidence of an arrangement exists; (2) delivery has occurred or the service has been provided; (3) the selling price or fee revenue earned is fixed or determinable; and (4) collection of the resulting receivable is reasonably assured. Revenue related to merchandise sales is recognized upon delivery to our customers. As we ship high volumes of packages through multiple carriers, it is not practical for us to track the actual delivery date of each shipment. Therefore, we use estimates to determine which shipments are delivered and, therefore, recognized as revenue at the end of the period. Our delivery date estimates are based on average shipping transit times, which are calculated using the following factors: (i) the type of shipping carrier (as carriers have different in-transit times); (ii) the fulfillment source (either our warehouses or those of our fulfillment partners); (iii) the delivery destination; and (iv) actual transit time experience, which shows that delivery date is typically one to eight business days from the date of shipment.

We review and update our estimates on a quarterly basis based on our actual transit time experience. However, actual shipping times may differ from our estimates.

Table of Contents

The following table shows the effect that hypothetical changes in the estimate of average shipping transit times would have had on the reported amount of revenue and net loss for the year ended December 31, 2011 (in thousands):

Change in the Estimate of Average Transit Times (Days)	Year ended December 31, 2011	
	Increase (Decrease) Revenue	(Increase) Decrease Net Loss
2	\$ (8,537)	\$ (1,116)
1	\$ (6,073)	\$ (821)
As reported	As reported	As reported
-1	\$ 4,310	\$ 537
-2	\$ 7,138	\$ 913

When we are the primary obligor in a transaction, are subject to inventory risk, have latitude in establishing prices and selecting suppliers, or have several but not all of these indicators, revenue is recorded gross. If we are not the primary obligor in the transaction and amounts earned are determined using a fixed percentage, revenue is recorded on a net basis. Currently, the majority of both direct revenue and fulfillment partner revenue is recorded on a gross basis, as we are the primary obligor. In our statements of operations, we present revenue net of sales taxes.

We periodically provide incentive offers to our customers to encourage purchases. Such offers include current discount offers, such as percentage discounts off current purchases and other similar offers, which, when used by our customers, are treated as a reduction of revenue.

Direct revenue

Direct revenue is derived from merchandise sales to individual consumers and businesses that are fulfilled from our leased warehouses. Direct revenue comes from sales that occur primarily through our Website, but may also occur through offline channels.

Fulfillment partner revenue

Fulfillment partner revenue is derived from merchandise sales through our Website which fulfillment partners ship directly to consumers and businesses from warehouses maintained by our fulfillment partners.

We operate an online site for listing cars for sale as a part of our Website. The cars listing service allows dealers to list vehicles for sale and allows buyers to review vehicle descriptions, post offers to purchase, and provides the means for purchasers to contact sellers for further information and negotiations on the purchase of an advertised vehicle. Revenue from the cars listing business is included in the fulfillment partner segment on a net basis.

We offer a consignment service to suppliers where the suppliers' merchandise is stored in and shipped from our leased warehouses. We pay the consignment supplier upon sale of the consigned merchandise to the consumer. Revenue from consignment service to suppliers is included in fulfillment partner segment on a gross basis.

In April 2011, we again began operating a travel shopping site as part of our Website where customers can purchase discount travel packages, flights, rental cars and other travel-related products and services. We also earn advertisement revenue from our travel business. Revenue from the travel businesses is included in the fulfillment partner segment on a net basis.

In July 2011, we began an insurance shopping service as part of our Website where customers can shop for auto and home insurance and compare quotes from various insurance providers. We also earn advertisement revenue from our insurance business. Revenue generated from our insurance shopping site is included in the fulfillment partner segment on a net basis.

Table of Contents

Prior to July 2011, we operated an online auction service on our Website. In July 2011, we removed our Marketplace tab from our Website and no longer provide auction services. The financial results and related assets of the online auction service were not significant to our business. The Marketplace tab allowed sellers to list items for sale, buyers to bid on items of interest, and users to browse through listed items online. Except in limited circumstances where our auction site listed returned merchandise, we were not the seller of auction-listed items and had no control over the pricing of those items. Therefore, the listing fees for items sold at auction by sellers were recorded as revenue during the period these items were listed or sold on a net basis. The revenue for the returned merchandise that we sold at auction was recorded on a gross basis. Revenue from the auctions business is included in the fulfillment partner segment.

Prior to June 2011, we operated an online site for listing real estate for sale as a part of our Website. In June 2011, we removed our online site for listing real estate for sale from our Website and no longer provide these real estate listing services. The financial results and related assets of the online site for real estate for sale were not significant to our business. The real estate listing service allowed customers to search active listings across the country. Revenue from the real estate listing business is included in the fulfillment partner segment, on a net basis.

Prior to June 2011, we operated Eziba.com, a private sale website featuring home décor products, jewelry, apparel and accessories from many leading brands. In June 2011, we turned off the Eziba.com website; however, we continue to sell the type of products that were listed on Eziba.com through our websites, O.co and Overstock.com.

Revenue from our other businesses is less than 1% of total net revenues.

International business

We began selling products through our Website to customers outside the United States in late August 2008. As of December 31, 2011, we were offering products to customers in over 105 countries and non-U.S. territories. We do not have sales operations outside the United States, and are using a U.S. based third party to provide logistics and fulfillment for all international orders. Revenue generated from our international business is included in either direct or fulfillment partner revenue, depending on whether the product is shipped from our warehouses or from a fulfillment partner. Less than 1% of our sales are made to international customers.

Club O loyalty program

We have a customer loyalty program called Club O for which we sell annual memberships. We record membership fees as deferred revenue and we recognize revenue ratably over the membership period. The Club O loyalty program allows members to earn reward dollars for qualifying purchases made on our Website. We also have a co-branded credit card program (see "Co-branded credit card revenue" below for more information). Co-branded cardholders are also Club O members and earn additional reward dollars for purchases made on our Website, and from other merchants. Reward dollars earned may be redeemed on future purchases made through our Website. Club O reward dollars expire 90 days after the customer's Club O membership expires. We account for these transactions as multiple element arrangements and allocate value to the elements using their relative fair values. We include the value of reward dollars earned in deferred revenue and we record it as a reduction of revenue at the time the reward dollars are earned.

We recognize revenue for Club O reward dollars when: (i) customers redeem their reward dollars as part of a purchase at our Website, (ii) reward dollars expire or (iii) the likelihood of reward dollars being redeemed by a customer is remote ("reward dollar breakage"). Due to the loyalty program's short history, currently no reward dollar breakage is recognized until the reward dollars expire. However, in the future we plan to recognize such breakage based upon historical redemption patterns.

Table of Contents

In instances where customers receive free Club O reward dollars not associated with any purchases, we account for these transactions as sales incentives such as coupons and record a reduction of revenue at the time the reward dollars are redeemed.

Co-branded credit card revenue

During the year ended December 31, 2009, we had a co-branded credit card agreement with a commercial bank, for the issuance of credit cards bearing the Overstock brand, under which the bank paid us fees for new accounts, renewed accounts and card usage. New and renewed account fees were recognized as revenues on a straight-line basis over the estimated life of the credit card relationship. Credit card usage fees were recognized as revenues as actual credit card usage occurred. Our co-branded credit card agreement with this bank terminated effective August 30, 2009.

In March 2010, we entered into a co-branded credit card agreement with a different commercial bank for the issuance of credit cards bearing the Overstock.com brand, under which the bank pays us fees for new accounts and for customer usage of the cards. The agreement also provides for a customer loyalty program offering reward points that customers will accrue from card usage and can use to make purchases on our Website (See "Club O loyalty program" above for more information). We launched this co-branded card in September 2010. New account fees are recognized as revenue on a straight-line basis over the estimated life of the credit card relationship. Credit card usage fees are recognized as revenues as actual credit card usage occurs.

Deferred revenue

Customer orders are recorded as deferred revenue prior to delivery of products or services ordered. We record amounts received for Club O membership fees as deferred revenue and we recognize it ratably over the membership period. We record Club O reward dollars earned from purchases as deferred revenue at the time they are earned and we recognize it as revenue upon redemption. If reward dollars are not redeemed, we recognize revenue upon expiration. In addition, we sell gift cards and record related deferred revenue at the time of the sale. We sell gift cards without expiration dates and we recognize revenue from a gift card upon redemption of the gift card. If a gift card is not redeemed, we recognize income when the likelihood of its redemption becomes remote based on our historical redemption experience. We consider the likelihood of redemption to be remote after 36 months.

Sales returns allowance

We inspect returned items when they arrive at our processing facility. We refund the full cost of the merchandise returned and all original shipping charges if the returned item is defective or we or our fulfillment partners have made an error, such as shipping the wrong product.

If the return is not a result of a product defect or a fulfillment error and the customer initiates a return of an unopened item within 30 days of delivery, for most products we refund the full cost of the merchandise minus the original shipping charge and actual return shipping fees. However, we reduce refunds for returns initiated more than 30 days after delivery or that are received at our returns processing facility more than 45 days after initial delivery.

If our customer returns an item that has been opened or shows signs of wear, we issue a partial refund minus the original shipping charge and actual return shipping fees.

Revenue is recorded net of estimated returns. We record an allowance for returns based on current period revenues and historical returns experience. We analyze actual historical returns, current economic trends and changes in order volume and acceptance of our products when evaluating the adequacy of the sales returns allowance in any accounting period.

Table of Contents

During the three months ended December 31, 2009, we had a change in estimate for our sales returns allowance that reduced the allowance by approximately \$3.0 million from the prior quarter-end balance and \$3.2 million from the prior year-end balance that was recorded in accordance with ASC 250 "Accounting Changes and Error Corrections" on a prospective basis. The change in estimate for our sales returns allowance had the following impact on our financial results for the three and twelve months ended December 31, 2009 (amounts in thousands, except per share data):

	Three months ended December 31, 2009	Twelve months ended December 31, 2009
	(\$ Change)	(\$ Change)
Revenue, net	\$ 2,995	\$ 3,208
Gross profit	752	805
Income from continuing operations before income taxes	752	805
Net income	752	805
Net income attributable to common shares basic	\$ 0.04	\$ 0.04
Net income attributable to common shares diluted	\$ 0.04	\$ 0.03

The reasons for the change in estimate in the fourth quarter of 2009 were as follows. We made improvements to our information systems during 2008 and 2009 that enabled enhanced reporting and analysis of our returns data used in the estimation process. In early 2009, we implemented initiatives to reduce overall return rates in several of our product categories. In September 2009, we entered into a new master supplier agreement with our fulfillment partners that provided financial incentives for suppliers to reduce returns. These initiatives resulted in a sustained decrease in our product return trends resulting in the change in estimate of sales returns allowance during the three months ended December 31, 2009.

Although we believe that our estimates, assumptions, and judgments are reasonable, actual results have historically differed from our estimates. Based on our actual returns experience through December 31, 2011, had our estimated returns equaled our actual returns, our net loss would have decreased approximately \$1.5 million for the year ended December 31, 2007, our net loss would have increased approximately \$725,000 for the year ended December 31, 2008, and our net income would have decreased approximately \$805,000 for the year ended December 31, 2009. Based on the improvements and initiatives discussed above, we believe that our estimates, assumptions and judgments have improved and our actual product returns have not differed materially from our estimates at December 31, 2010 and during 2011.

The allowance for returns was \$10.9 million and \$11.5 million at December 31, 2011 and 2010, respectively.

Credit card chargeback allowance

Revenue is recorded net of estimated credit card chargebacks. We maintain an allowance for credit card chargebacks based on current period revenues and historical chargeback experience. The allowance for chargebacks was \$187,000 and \$125,000 at December 31, 2011 and 2010, respectively.

Allowance for doubtful accounts

From time to time, we grant credit to certain of our business customers on normal credit terms (typically 30 days). We perform credit evaluations of our business customers' financial condition and payment history and maintain an allowance for doubtful accounts receivable based upon our historical collection experience and expected collectability of accounts receivable. The allowance for doubtful accounts receivable was \$574,000 and \$2.0 million at December 31, 2011 and December 31, 2010, respectively. The decrease in the allowance for doubtful accounts was primarily due to write-offs of

Table of Contents

accounts receivable during the year ended December 31, 2011, which had no significant effect on results of operations for the period as most of the items had been previously reserved.

Valuation of inventories

We write down our inventory for estimated obsolescence and to lower of cost or market value based upon assumptions about future demand and market conditions. If actual market conditions are less favorable than those projected by management, additional inventory write-downs may be required. Once established, the original cost of the inventory less the related inventory allowance represents the new cost basis of such products.

Internal-use software and website development

Included in fixed assets is the capitalized cost of internal-use software and website development, including software used to upgrade and enhance our Website and processes supporting our business. We capitalize costs incurred during the application development stage of internal-use software and amortize these costs over the estimated useful life of two to three years. Costs incurred related to design or maintenance of internal-use software are expensed as incurred.

Accounting for income taxes

We are subject to taxation from federal and state jurisdictions. A significant amount of judgment is involved in preparing our annual provision for income taxes and the calculation of resulting deferred tax assets and liabilities. As of December 31, 2011, we were not under audit by United States income taxing authorities. Tax periods within the statutory period of limitations not previously audited are potentially open for examination by the taxing authorities. Potential liabilities associated with these years will be resolved when an event occurs to warrant closure, primarily through the completion of audits by the taxing jurisdictions and/or the expiration of the statutes of limitation. To the extent audits or other events result in a material adjustment to the accrued estimates, the effect would be recognized during the period of the event.

We follow the asset and liability method of accounting for income taxes. Under this method, deferred taxes are determined based on the temporary differences between the financial statement and tax bases of assets and liabilities using enacted tax rates expected to be in effect during the years in which the bases differences reverse. A valuation allowance is recorded to reduce deferred tax assets when it is more likely than not that some portion, or all of the deferred tax assets may not be realized.

Since inception, we determined that it was more likely than not that our historic and current year income tax benefits may not be realized and a full valuation allowance should be recorded against our deferred tax assets in excess of our deferred tax liabilities. As of December 31, 2011 and 2010, we have recorded a full valuation allowance of \$83.6 million and \$77.1 million, respectively, against our net deferred tax assets consisting primarily of net operating loss carryforwards. In assessing the realizability of our deferred tax assets, we considered the four sources of taxable income. Because we have no carryback ability and have not identified any viable tax planning strategies, two of the sources are not available. Reversing taxable temporary differences have been properly considered as the deferred tax liabilities reverse in the same period as existing deferred tax assets. However, reversing the deferred tax liabilities is insufficient to fully recover existing deferred tax assets. Our valuation allowance is net of deferred tax liabilities and there are no deferred tax assets or liabilities that have an indefinite reversal period. Therefore, future taxable income, the most subjective of the four sources, is the remaining source available for realization of our net deferred tax assets.

We consider future taxable income and evaluate the need for a valuation allowance on a regular basis. The determination of recording or releasing tax valuation allowances is made, in part, pursuant to an assessment regarding the likelihood that we will generate future taxable income against which

Table of Contents

benefits of our deferred tax assets may be realized. This assessment requires us to exercise significant judgment and make estimates with respect to our ability to generate revenues, gross profits, operating income and taxable income in future periods. Among other factors, we must make assumptions regarding overall business and retail industry conditions, operating efficiencies, the competitive environment and changes in regulatory requirements which may impact our ability to generate taxable income and, in turn, realize the value of our deferred tax assets. Operating losses in some prior periods and significant economic uncertainties in the market have made the projection of future taxable income uncertain. Accordingly, we have a valuation allowance recorded against our deferred tax assets as it is not "more likely than not" that the assets will be realized. A change in our assessment of the likelihood that we will generate future taxable income may result in a full or partial release of the valuation allowance against our deferred tax assets in future periods.

Impairment of long-lived assets

We review property and equipment and other long-lived assets for impairment whenever events or changes in circumstances indicate that the carrying amount of an asset group may not be recoverable. Recoverability is measured by comparison of the assets' carrying amount to future undiscounted net cash flows the asset group is expected to generate. Cash flow forecasts are based on trends of historical performance and management's estimate of future performance, giving consideration to existing and anticipated competitive and economic conditions. If such asset group is considered to be impaired, the impairment to be recognized is measured by the amount by which the carrying amount of the assets exceeds their fair values. There were no impairments to long-lived assets recorded during the years ended December 31, 2011, 2010, and 2009.

Valuation of goodwill

Goodwill is not amortized, but must be tested for impairment at least annually. We test for impairment of goodwill in the fourth quarter or when we deem that a triggering event has occurred. Goodwill totaled \$2.8 million at December 31, 2011 and 2010. There were no impairments to goodwill recorded during the years ended December 31, 2011, 2010, and 2009.

Loss contingencies

In the normal course of business, we are involved in legal proceedings and other potential loss contingencies. We accrue a liability for such matters when it is probable that a loss has been incurred and the amount can be reasonably estimated. When only a range of possible loss can be estimated, the most probable amount in the range is accrued. If no amount within this range is a better estimate than any other amount within the range, the minimum amount in the range is accrued. We expense legal fees as incurred.

Comparison of Years Ended December 31, 2011 and 2010

Executive Commentary

This executive commentary is intended to provide investors with a view of our business through the eyes of our management. As an executive commentary, it necessarily focuses on selected aspects of our business. This executive commentary is intended as a supplement to, but not a substitute for, the more detailed discussion of our business included elsewhere herein. Investors are cautioned to read our entire "Management's Discussion and Analysis of Financial Condition and Results of Operations", as well as our interim and audited financial statements, and the discussion of our business and risk factors and other information included elsewhere or incorporated in this report. This executive commentary includes forward-looking statements, and investors are cautioned to read the "Special Note Regarding Forward-Looking Statements" at the beginning of Item 2, "Management's Discussion and Analysis of Financial Condition and Results of Operations."

The key factors that affected financial results for the year ended December 31, 2011 were declining revenue, lower gross margin, and increased operating expenses (including increases in personnel-related and legal expenses), all of which resulted in a net loss for the year.

Revenue for 2011 decreased by \$35.6 million (3%), compared to 2010. Visits to our website were down 1% and new customer growth fell 9% which was partially offset by a slightly higher average order size. We believe our revenues were adversely impacted during the first and second quarters when Google Inc. notified us that it was penalizing us in natural search results for noncompliance with some of Google's natural search guidelines. During this penalty period, we dropped significantly in some Google natural search result rankings. We made changes to conform to Google's guidelines and, on April 21, 2011, Google ended its penalization of our natural search results. We were able to offset some of the negative impact to revenue by increasing expenditures in other marketing channels.

Revenues were hurt by a shift of marketing resources into our Club O loyalty program and away from coupons and other site-wide promotions, which were less effective in generating revenues during the second and third quarter of 2011.

We also believe that our efforts to rebrand ourselves from Overstock.com to O.co hurt revenue growth in 2011 as it confused some prospective customers who had trouble finding our website.

Revenues declined by 22% in our direct business due primarily to a transition of some of our clothing and shoes category to a fulfillment partner model. Revenue from our fulfillment partner business increased by 1%. The direct business declined to 16% of total revenue in 2011 from 19% in 2010, while our fulfillment partner business generated 84% of our total revenue in 2011 compared to 81% in 2010.

Gross profit declined by 6% while gross margin declined by 40 basis points from 2010 to 2011. Direct gross margin declined by 220 basis points due largely to fixed costs increasing as a percentage of revenue due to declining direct revenues, higher inbound and outbound freight and higher product costs of returned goods due to a sales mix shift to the home and garden category. Fulfillment partner gross margin declined by 50 basis points, largely due to competitive pricing initiatives.

Sales and marketing expenses as a percentage of revenue increased by 30 basis points in 2011. This was largely due to an increase in online search marketing throughout the year. We increased our online search marketing in the first and second quarter of 2011 to help offset the lower natural search revenue following the Google penalty, and online marketing spending increased in the second half of the year to compensate for lower revenues as a result of the customer confusion from our O.co rebranding campaign.

Operating expense outpaced gross profit and Contribution (see "Non-GAAP Financial Measures" below for a reconciliation of Contribution to Gross Profit) in 2011. Contribution declined by 9% due to

Table of Contents

lower gross profit and higher sales and marketing expenses, while combined technology and general and administrative expenses increased by 18% driven by increases in technology-related personnel growth, depreciation expense and higher legal fees. As a result, we incurred a net loss of \$19.4 million for 2011.

We completed the redemption of our Senior Notes on September 21, 2011 through a combination of cash on hand and a \$17 million borrowing under our Financing Agreement with U.S. Bank National Association.

On December 27, 2011, we terminated our Master Lease Agreement dated September 17, 2010 and all related schedules with U.S. Bancorp Equipment Finance, Inc. Technology Finance Group. We paid approximately \$20.1 million to terminate the agreement, including approximately \$1.2 million in prepayment premiums.

We ended the year with \$97.0 million of cash and cash equivalents and working capital of (\$14.1) million. This includes the \$17.0 million borrowed under the Financing Agreement with U.S. Bank that matures on December 31, 2012.

We experienced a \$21.1 million year over year increase in free cash flow (See "Non-GAAP Financial Measures" below for a reconciliation of Free Cash Flow to net cash provided by operating activities), from (\$4.2) million in 2010 to \$16.9 million in 2011. This was due primarily to a \$9.3 million improvement in operating cash flows and an \$11.8 million reduction in capital expenditures in 2011.

In early January 2012, we reduced technology and general and administrative staff and contract labor positions, which will reduce annual compensation costs by approximately \$8.5 million.

The balance of our Management's Discussion and Analysis of Financial Condition and Results of Operations provides further information about the matters discussed above and other important matters affecting our business.

Table of Contents**Results of Operations**

The following table sets forth our results of operations expressed as a percentage of total revenue for 2011, 2010 and 2009:

	Year ended December 31		
	2011	2010	2009
	(as a percentage of total revenue)		
Revenue, net			
Direct	15.5%	19.2%	17.2%
Fulfillment partner	84.5	80.8	82.8
Total net revenue	100.0	100.0	100.0
Cost of goods sold			
Direct	14.2	17.2	14.9
Fulfillment partner	68.8	65.4	66.3
Total cost of goods sold	83.0	82.6	81.2
Gross profit	17.0	17.4	18.8
Operating expenses:			
Sales and marketing	5.9	5.6	6.3
Technology	6.4	5.3	6.0
General and administrative	6.4	5.1	5.6
Restructuring		(0.1)	
Total operating expenses	18.7	16.0	17.9
Operating income (loss)	(1.7)	1.4	0.9
Interest income			
Interest expense	(0.2)	(0.3)	(0.4)
Other income, net		0.2	0.4
Income (loss) before income taxes	(1.9)	1.3	0.9
Provision (benefit) for income taxes			
Net income (loss)	(1.9)%	1.3%	0.9%

Revenue

The following table reflects our net revenue for the years ended December 31, 2011 and 2010 (in thousands):

	Year ended December 31,			
	2011	2010	\$ Change	% Change
Revenue, net				
Direct	\$ 163,609	\$ 209,646	\$ (46,037)	(22.0)%
Fulfillment partner	890,668	880,227	10,441	1.2%
Total revenue, net	\$ 1,054,277	\$ 1,089,873	\$ (35,596)	(3.3)%

Revenues declined by 22% in our direct business due primarily to a transition of some of our clothing and shoes category to a fulfillment partner model to reduce seasonal inventory risks. Revenue from our fulfillment partner business increased by 1%. The direct business declined to 16% of total revenue in 2011 from 19% in 2010, while our fulfillment partner business generated 84% of our total revenue in 2011 compared

to 81% in 2010.

Table of Contents

The decrease in net revenue for the year ended December 31, 2011 was primarily due to visits to our website decreasing 1% and new customer growth decreasing 9%, partially offset by a slightly higher average order size.

We believe our revenues were negatively impacted during the first and second quarters of 2011 when Google Inc. notified us that it was penalizing us in natural search results for noncompliance with some of Google's natural search guidelines. During this penalty period, we dropped significantly in some of Google's natural search result rankings. We made changes to conform to Google's guidelines and on April 21, 2011 Google ended its penalization of our natural search results. We were able to offset some of the negative impact to revenue by increasing expenditures in other marketing channels.

Revenues were also hurt by a shift of marketing resources into our Club O loyalty program and away from coupons and other site-wide promotions, which were less effective in generating revenues during the second and third quarter of 2011.

We also believe that our efforts to rebrand ourselves from Overstock.com to O.co hurt revenue growth in 2011 as it confused some prospective customers who had trouble finding our website.

Total revenues from the Auctions, Cars, Insurance, Travel and Real Estate businesses were \$1.7 million and \$2.9 million for the years ended December 31, 2011 and 2010, respectively. Total revenues from International sales were \$8.8 million and \$9.4 million for the years ended December 31, 2011 and 2010, respectively.

See "Executive Commentary" above for additional discussion regarding revenue.

Gross profit

Our overall gross margins fluctuate based on our sales volume mix between our direct business and fulfillment partner business; changes in vendor and / or customer pricing, including competitive pricing; inventory management decisions within the direct business; sales coupons and promotions; product mix of sales; and operational and fulfillment costs.

The following table reflects our net revenues, cost of goods sold and gross profit for the year ended December 31, 2011 and 2010 (in thousands):

	Year ended December 31,			
	2011	2010	\$ Change	% Change
Revenue, net				
Direct	\$ 163,609	\$ 209,646	\$ (46,037)	(22.0)%
Fulfillment partner	890,668	880,227	10,441	1.2%
Total net revenues	\$ 1,054,277	\$ 1,089,873	\$ (35,596)	(3.3)%
Cost of goods sold				
Direct	\$ 149,660	\$ 187,124	\$ (37,464)	(20.0)%
Fulfillment partner	725,529	713,109	12,420	1.7%
Total cost of goods sold	\$ 875,189	\$ 900,233	\$ (25,044)	(2.8)%
Gross Profit				
Direct	\$ 13,949	\$ 22,522	\$ (8,573)	(38.1)%
Fulfillment partner	165,139	167,118	(1,979)	(1.2)%
Total gross profit	\$ 179,088	\$ 189,640	\$ (10,552)	(5.6)%

Table of Contents

Gross margins for the past eight quarterly periods and years ending December 31, 2011 and 2010 were:

	Q1 2011	Q2 2011	Q3 2011	Q4 2011	FY 2011
Direct	10.7%	9.6%	6.6%	7.0%	8.5%
Fulfillment Partner	20.7%	18.1%	17.6%	17.8%	18.5%
Combined	18.9%	16.9%	16.0%	16.2%	17.0%

	Q1 2010	Q2 2010	Q3 2010	Q4 2010	FY 2010
Direct	13.8%	11.7%	9.1%	9.0%	10.7%
Fulfillment Partner	18.8%	19.4%	18.7%	19.0%	19.0%
Combined	17.9%	18.0%	16.9%	17.0%	17.4%

The decrease in direct gross margin for the year ended December 31, 2011 is primarily due to fixed costs increasing as a percentage of revenue due to declining direct sales, higher inbound and outbound freight and higher product costs from returned goods due to a sales mix shift to the home and garden category.

The decrease in fulfillment partner gross margin for the year ended December 31, 2011 is primarily due to competitive pricing initiatives. The decrease in fulfillment partner gross margin for the three months ended December 31, 2011 is primarily due to competitive pricing initiatives, partially offset by a decline in credit card processing fees.

The shift of business between direct to fulfillment partner (or vice versa) is an economic decision based on the economics of each particular product offering at the time and we do not have particular goals for "appropriate" mix or percentages for the size of either. We believe that the mix of the business between direct and fulfillment partner is consistent with our strategic objectives for our business model in the current economic environment and, with the exception of a transition of some of our direct clothing and shoes category to a fulfillment partner model to reduce our seasonal inventory risks, we do not currently foresee any material shifts in mix.

During reviews of our partner billing system for returns, we discovered that we had underbilled our fulfillment partners for certain fees and charges related to returns of approximately \$157,000 and \$822,000 for the years ended December 31, 2011 and 2010, respectively. Since our business model is reliant on our relationships with our fulfillment partners and the problem related to an internal record keeping issue on our part, we made the determination to not seek recovery of these amounts from our fulfillment partners and consequently have not recognized any related recoveries in our consolidated financial statements.

The other factors described above, such as operational and fulfillment costs did not have a significant impact on the change in gross margin.

Cost of goods sold includes stock-based compensation expense of \$193,000 and \$212,000 for the years ended December 31, 2011 and 2010.

See "Executive Commentary" above for additional discussion.

Fulfillment costs

Fulfillment costs include all warehousing costs, including fixed overhead and variable handling costs (excluding packaging costs), as well as credit card fees and customer service costs, all of which we include as costs in calculating gross margin. We believe that some companies in our industry, including some of our competitors, account for fulfillment costs within operating expenses, and therefore exclude fulfillment costs from gross margin. As a result, our gross margin may not be directly comparable to others in our industry.

Table of Contents

The following table has been included to provide investors additional information regarding our classification of fulfillment costs, gross profit and margin, thus enabling investors to better compare our gross margin with others in our industry (in thousands):

	Year ended December 31,					
	2011		2010		2009	
Total net revenue	\$ 1,054,277	100%	\$ 1,089,873	100%	\$ 876,769	100%
Cost of goods sold						
Product costs and other cost of goods sold	821,739	78%	842,064	78%	664,537	76%
Fulfillment and related costs	53,450	5%	58,169	5%	47,480	5%
Total cost of goods sold	875,189	83%	900,233	83%	712,017	81%
Gross profit	\$ 179,088	17%	\$ 189,640	17%	\$ 164,752	19%

Fulfillment costs as a percentage of sales may vary due to several factors, such as our ability to manage costs at our warehouses, significant changes in the number of units received and fulfilled, the extent to which we use third party fulfillment services and warehouses, and our ability to effectively manage customer service costs and credit card fees. There have been no significant changes in our fulfillment and related costs as a percentage of revenue during the year ended December 31, 2011.

See "Gross profit" above for additional discussion.

Operating expenses*Sales and marketing expenses*

We advertise through a number of targeted online marketing channels, such as sponsored search, affiliate marketing, portal advertising, e-mail campaigns, and other initiatives. We also use nationwide television, print and radio advertising campaigns to promote sales.

The following table reflects our sales and marketing expenses for the years ended December 31, 2011 and 2010 (in thousands):

	Year ended December 31,			
	2011	2010	\$ Change	% Change
Sales and marketing expenses	\$ 61,813	\$ 61,334	\$ 479	0.8%
Sales and marketing expenses as a percent of net revenues	5.9%	5.6%		

The increase in sales and marketing expenses as a percentage of net revenues is primarily due to increased spending in search marketing, increased in part to offset the negative impact of the Google penalty on revenues as described above, partially offset by a decline in spending for affiliate marketing and television advertising.

Sales and marketing expenses include stock-based compensation expense of \$377,000 and \$608,000 for the years ended December 31, 2011 and 2010, respectively

Costs associated with our discounted shipping and other promotions, such as coupons, are not included in marketing expense. Rather they are accounted for as a reduction of revenue and therefore affect sales and gross margin. We consider discounted shipping and other promotions as an effective marketing tool, and intend to continue to offer them as we deem appropriate as part of our overall marketing plan.

Table of Contents*Technology expenses*

We seek to efficiently invest in technology, including web services, customer support solutions and website search, and in expansion of new and existing product categories, and in investments in technology to enhance the customer experience, improve our process efficiency and support our logistics infrastructure.

The following table reflects our technology expenses for the years ended December 31, 2011 and 2010 (in thousands):

	Year ended December 31,			
	2011	2010	\$ Change	% Change
Technology expenses	\$ 67,043	\$ 58,260	\$ 8,783	15.1%
Technology expenses as a percent of net revenues	6.4%	5.3%		

The increase for the year ended December 31, 2011 is primarily due to a \$4.7 million increase in compensation expense (primarily due to increases in staffing), and a \$1.9 million increase in depreciation expense.

Technology expenses include stock-based compensation expense of \$628,000 and \$1.1 million for the years ended December 31, 2011 and 2010, respectively

General and administrative expenses

The following table reflects our general and administrative expenses for the years ended December 31, 2011 and 2010 (in thousands):

	Year ended December 31,			
	2011	2010	\$ Change	% Change
General and administrative expenses	\$ 67,766	\$ 55,650	\$ 12,116	21.8%
General and administrative expenses as a percent of net revenues	6.4%	5.1%		

The increase in general and administrative expenses for the year ended December 31, 2011 is primarily due to a \$12.3 million increase in legal fees. See Legal Proceedings for more information.

General and administrative expenses include stock-based compensation expense of approximately \$1.9 million and \$3.2 million for the years ended December 31, 2011 and 2010, respectively.

Restructuring

There were no restructuring charges or reversals during the year ended December 31, 2011. We reversed \$569,000 of lease termination costs liability during the year ended December 31, 2010 due to changes in our estimate of sublease income, primarily as a result of our entering into agreements with a sublessee to terminate the subleases and have us re-occupy a portion of the space previously abandoned (see Item 15 of Part IV, "Financial Statements" Note 3 "Restructuring Expense").

Operating Expenses

Overall, our total operating expenses increased 12.6% to \$196.6 million for the year ended December 31, 2011 from \$174.7 million for the year ended December 31, 2010, while total net revenues decreased 3.3% and gross profit decreased 5.6%.

Table of Contents

Depreciation expense

Depreciation expense is classified within the corresponding operating expense categories on the consolidated statements of operations as follows (in thousands):

	Year ended December 31,		
	2011	2010	2009
Cost of goods sold direct	\$ 714	\$ 1,179	\$ 1,264
Technology	14,433	12,489	10,943
General and administrative	1,203	912	676
Total depreciation and amortization, including internal-use software and website development	\$ 16,350	\$ 14,580	\$ 12,883

Non-operating income (expense)*Interest income*

Interest income is primarily derived from the investment of our cash in cash equivalents and short-term investments. Interest income for the years ended December 31, 2011 and 2010 totaled \$161,000 and \$157,000, respectively.

Interest expense

Interest expense is related to interest incurred on our Senior Notes, finance obligations, line of credit and our capital leases. Interest expense for the year ended December 31, 2011 and 2010 totaled \$2.5 million and \$3.0 million, respectively. The decrease in interest expense is primarily a result of extinguishments of our Senior Notes, partially offset by an increase from our finance obligations and line of credit.

Other income, net

Other income, net for the years ended December 31, 2011 and 2010 totaled \$278,000 and \$2.1 million, respectively. The decrease was primarily due to a \$1.2 million loss on early retirement of our finance obligations resulting from a prepayment premium in 2011 and a \$346,000 decrease due to gains on Senior Notes buybacks in 2010.

Income taxes

Our provision (benefit) for income taxes for the years ended December 31, 2011 and 2010 of (\$142,000) and \$359,000 is for federal alternative minimum tax and certain income tax uncertainties, including interest and penalties. As of December 31, 2011 and December 31, 2010 we had federal net operating loss carry forwards of approximately \$192.5 and \$166.7 million, respectively, and state net operating loss carry forwards of approximately \$176.1 and \$150.7 million, respectively, which may be used to offset future taxable income. We are currently reviewing whether we had any ownership changes. The result of having ownership changes under Internal Revenue Code Section 382 would limit the amount of net operating losses that could be used in any annual period. Our net operating loss carryforwards will begin to expire in 2018.

Seasonality

Based upon our historical experience, revenue typically increases during the fourth quarter because of the holiday retail season. The actual quarterly results for each quarter could differ materially depending upon consumer preferences, availability of product and competition, among other risks and

Table of Contents

uncertainties. Accordingly, there can be no assurances that seasonal variations will not materially affect our results of operations in the future. The following table reflects our total net revenues for each of the quarters in 2011 and 2010 (in thousands):

	First Quarter	Second Quarter	Third Quarter	Fourth Quarter
2011	\$ 265,470	\$ 234,992	\$ 239,738	\$ 314,077
2010	264,330	\$ 231,253	\$ 245,420	\$ 348,870

Comparison of Years Ended December 31, 2010 and 2009**Executive Commentary**

This executive commentary is intended to provide investors with a view of our business through the eyes of our management. As an executive commentary, it necessarily focuses on selected aspects of our business. This executive commentary is intended as a supplement to, but not a substitute for, the more detailed discussion of our business included elsewhere herein. Investors are cautioned to read our entire "Management's Discussion and Analysis of Financial Condition and Results of Operations", as well as our interim and audited financial statements, and the discussion of our business and risk factors and other information included elsewhere or incorporated in this report. This executive commentary includes forward-looking statements, and investors are cautioned to read the "Special Note Regarding Forward-Looking Statements" at the beginning of Item 2, "Management's Discussion and Analysis of Financial Condition and Results of Operations."

The key factors that affected financial results for the year ended December 31, 2010, were revenue growth, lower gross margin resulting from pricing and marketing initiatives, expense management, and general improvement in Internet commerce.

Revenues in 2010 increased by 24% compared to 2009. Our pricing and marketing initiatives drove improvement in several key components of revenue growth, including new customer growth, visits to our Website, conversion and average order size. Growth was broadly distributed across most of our major product categories, and in both our direct and fulfillment partner business. Our direct business increased by 39%, and our fulfillment partner business increased by 21%. The direct business was 19% of total revenue in 2010 compared to 17% in 2009, while our fulfillment partner business generated 81% of our total revenue compared to 83% in 2009.

Revenue growth slowed over 2010 from 42% in Q1 to 8% in Q4. While this is partly explained by an increasing revenue growth pattern in 2009, we also experienced softness during the holiday selling season that we believe was due in part to our decision to focus on contribution growth rather than revenue growth, (see discussion of the non-GAAP financial measure "contribution" below), particularly by not heavily promoting our BMMG and consumer electronics categories, both of which are popular holiday categories that typically have lower gross margin.

Gross margin fell by 140 basis points in 2010, although gross profit growth in 2010 was 15% compared to 14% in 2009. While we believe that pricing initiatives had a positive effect on our revenue growth, they had the opposite effect on gross margin. This was offset somewhat by supply chain efficiencies resulting from initiatives focused on returns and fulfillment, and from a favorable sales mix shift this year away from BMMG and consumer electronics into home and garden products.

Sales and marketing expense as a percentage of revenue in 2010 fell 70 basis points to 5.6%. We believe that we used relatively effective advertising campaigns and maintained a disciplined approach to marketing expenditures, and that our pricing and other promotional activities were also effective in generating revenues. We believe that our primary focus of increasing contribution has been an important factor in improving our marketing efficiency.

Table of Contents

Although we made significant investments in 2010 through increases in IT, marketing and merchandising related personnel and through increased capital expenditures, technology and G&A expenses increased at a slower rate than contribution. Contribution growth was 17% in 2010, while combined technology and G&A expenses increased by 13%.

Net income improved by \$6.1 million in 2010 to \$13.8 million, or \$0.59 per fully diluted share, compared to \$0.33 per diluted share in 2009.

We retired \$25.4 million face amount of our Senior Notes throughout the year, using \$24.9 million of cash. As of December 31, 2010, \$34.6 million face amount of the Senior Notes remained outstanding and are a current liability at year-end. As a result, working capital decreased to \$14.7 million at year-end.

We experienced a \$43.0 million year over year decrease in free cash flow (See "Non-GAAP Financial Measures" below for a reconciliation of Free Cash Flow to net cash provided by operating activities), from \$38.8 million in 2009 to (\$4.2) million in 2010. This was due primarily to \$13.2 million of incremental capital expenditures in 2010 over 2009 and a \$29.8 million decrease in operating cash flow due primarily to changes and timing differences in inventory, accounts payable and accrued liabilities that were partially offset by changes in net income, depreciation and amortization, and gains on the early retirement of our Senior Notes.

The balance of our Management's Discussion and Analysis of Financial Condition and Results of Operations provides further information about the matters discussed above and other important matters affecting our business.

Table of Contents**Results of Operations**

The following table sets forth our results of operations expressed as a percentage of total revenue for 2010 and 2009:

	Year ended December 31	
	2010	2009
Revenue, net		
Direct	19.2%	17.2%
Fulfillment partner	80.8	82.8
Total net revenue	100.0	100.0
Cost of goods sold		
Direct	17.2	14.9
Fulfillment partner	65.4	66.3
Total cost of goods sold	82.6	81.2
Gross profit	17.4	18.8
Operating expenses:		
Sales and marketing	5.6	6.3
Technology	5.3	6.0
General and administrative	5.1	5.6
Restructuring	(0.1)	
Total operating expenses	16.0	17.9
Operating income (loss)	1.4	0.9
Interest income		
Interest expense	(0.3)	(0.4)
Other income (expense), net	0.2	0.4
Net income (loss) before income taxes	1.3	0.9
Provision for income taxes		
Net income (loss)	1.3%	0.9%

Revenue

The following table reflects our net revenue for the years ended December 31, 2010 and 2009 (in thousands):

	Year ended December 31,			
	2010	2009	\$ Change	% Change
Revenue, net				
Direct	\$ 209,646	\$ 150,901	\$ 58,745	38.9%
Fulfillment partner	880,227	725,868	154,359	21.3%
Total revenue, net	\$ 1,089,873	\$ 876,769	\$ 213,104	24.3%

Total net revenue increased 24% to \$1,090 million for the year ended December 31, 2010, from \$877 million for the year ended December 31, 2009.

Direct revenue increased 39% to \$210 million in 2010 from \$151 million in 2009, and fulfillment partner revenue increased 21% to \$880 million from \$726 million.

Table of Contents

Total net revenue increased 8% to \$349 million for the three months ended December 31, 2010, from \$322 million for the three months ended December 31, 2009. Direct revenue increased 26% to \$69.2 million for the three months ended December 31, 2010, from \$55.1 million for the three months ended December 31, 2009. Fulfillment partner revenue increased 5% to \$280 million for the three months ended December 31, 2010, from \$267 million for the three months ended December 31, 2009.

Total revenues from Auctions, Cars and Real Estate businesses were \$2.9 million and \$2.1 million for the years ended December 31, 2010 and 2009, respectively. Total revenues from International sales were \$9.4 million and \$5.1 million for the years ended December 31, 2010 and 2009, respectively.

See "Executive Commentary" above for additional discussion regarding revenue and revenue growth.

Gross profit

Our overall gross margins fluctuate based on our sales volume mix between our direct business and fulfillment partner business; changes in vendor and / or customer pricing, including competitive pricing, and inventory management decisions within the direct business; sales coupons and promotions; product mix of sales; and operational and fulfillment costs.

The following table reflects our net revenues, cost of goods sold and gross profit for the year ended December 31, 2010 and 2009 (in thousands):

	Year ended December 31,			
	2010	2009	\$ Change	% Change
Revenue, net				
Direct	\$ 209,646	\$ 150,901	\$ 58,745	38.9%
Fulfillment partner	880,227	725,868	154,359	21.3%
Total net revenues	\$ 1,089,873	\$ 876,769	\$ 213,104	24.3%
Cost of goods sold				
Direct	\$ 187,124	\$ 130,890	\$ 56,234	43.0%
Fulfillment partner	713,109	581,127	131,982	22.7%
Total cost of goods sold	\$ 900,233	\$ 712,017	\$ 188,216	26.4%
Gross Profit				
Direct	\$ 22,522	\$ 20,011	\$ 2,511	12.5%
Fulfillment partner	167,118	144,741	22,377	15.5%
Total gross profit	\$ 189,640	\$ 164,752	\$ 24,888	15.1%

Gross margins for the past eight quarterly periods and years ending December 31, 2010 and 2009 were:

	Q1 2010	Q2 2010	Q3 2010	Q4 2010	FY 2010
Direct	13.8%	11.7%	9.1%	9.0%	10.7%
Fulfillment Partner	18.8%	19.4%	18.7%	19.0%	19.0%
Combined	17.9%	18.0%	16.9%	17.0%	17.4%

	Q1 2009	Q2 2009	Q3 2009	Q4 2009	FY 2009
Direct	12.9%	18.0%	11.8%	11.9%	13.3%
Fulfillment Partner	21.0%	21.3%	20.7%	18.1%	19.9%
Combined	19.5%	20.7%	19.3%	17.1%	18.8%

Table of Contents

Direct Gross Profit and Gross Margin Gross profit for our direct business increased 12.5% to \$22.5 million for the year ended December 31, 2010, from \$20.0 million for 2009. Gross margin for the direct business decreased to 10.7% for the year ended December 31, 2010, from 13.3% 2009. The decrease in gross margin for the year ended December 31, 2010 is primarily due to pricing initiatives that were implemented beginning in the third quarter of 2009 and an increase in returns related costs, partially offset by leverage gained on fixed warehousing costs due to increased revenues. Gross profit for our direct business was essentially unchanged at \$6.3 million for the three months December 31, 2010, and \$6.6 million for the same period in 2009. Gross margin for the direct business decreased to 9.0% for the three months ended December 31, 2010, from 11.9% for the same period in 2009. The decrease in gross margin for three months ended December 31, 2010 is primarily due to pricing initiatives including holiday promotions and mark-downs of slow-moving inventory (primarily on apparel and shoes), partially offset by a shift in sales mix to higher margin products along with leverage gained on fixed warehousing costs due to increased revenues.

Fulfillment Partner Gross Profit and Gross Margin Gross profit for our fulfillment partner business increased 15.5% to \$167.1 million for the year ended December 31, 2010, from \$144.7 million for 2009. Gross margin for the fulfillment partner business decreased to 19.0% for the year ended December 31, 2010, from 19.9% for 2009. The decrease in gross margin for the year ended December 31, 2010 is primarily due to pricing initiatives that were implemented beginning in the third quarter of 2009, partially offset by a shift in sales mix to higher margin products as well as lower returns-related costs. Gross profit for our fulfillment partner business increased 9.7% to \$53.2 million for the three months ended December 31, 2010, compared to \$48.5 million for the same period in 2009. Gross margin for the fulfillment partner business increased to 19.0% for the three months ended December 31, 2010 compared to 18.1% for the same period in 2009. The increase in gross margin was primarily due to a reduction in product costs, including reductions from suppliers participating in promotions, along with a shift in sales mix to higher margin products, partially offset by pricing initiatives.

During reviews of our partner billing system for returns, we discovered that we had underbilled our fulfillment partners for certain fees and charges related to returns of approximately \$822,000 and \$1.6 million for the years ended December 31, 2010 and 2009, respectively. Since our business model is reliant on our relationships with our fulfillment partners and the problem related to an internal record keeping issue on our part, we have made the determination to not seek recovery of these amounts from our fulfillment partners and consequently have not recognized any related recoveries in our consolidated financial statements.

The other factors described above, did not have a significant effect on the change in gross profit.

Cost of goods sold includes stock-based compensation expense of \$212,000 and \$167,000 for the years ended December 31, 2010 and 2009, respectively.

See "Executive Commentary" above for additional discussion.

Fulfillment costs

Fulfillment costs include all warehousing costs, including fixed overhead and variable handling costs (excluding packaging costs), as well as credit card fees and customer service costs, all of which we include as costs in calculating gross margin. We believe that some companies in our industry, including some of our competitors, account for fulfillment costs within operating expenses, and therefore exclude fulfillment costs from gross margin. As a result, our gross margin may not be directly comparable to others in our industry.

Table of Contents

The following table has been included to provide investors additional information regarding our classification of fulfillment costs, gross profit and margin, thus enabling investors to better compare our gross margin with others in our industry (in thousands):

	Year ended December 31,			
	2010		2009	
Total net revenue	\$ 1,089,873	100%	\$ 876,769	100%
Cost of goods sold				
Product costs and other cost of goods sold	842,064	78%	664,537	76%
Fulfillment and related costs	58,169	5%	47,480	5%
Total cost of goods sold	900,233	83%	712,017	81%
Gross profit	\$ 189,640	17%	\$ 164,752	19%

Fulfillment costs as a percentage of sales may vary due to several factors, such as our ability to manage costs at our warehouses, significant changes in the number of units received and fulfilled, the extent to which we use third party fulfillment services and warehouses, and our ability to effectively manage customer service costs and credit card fees. There have been no significant changes in our fulfillment costs during the year ended December 31, 2010.

See "Gross profit" above for additional discussion.

Operating expenses*Sales and marketing expenses*

We advertise through a number of targeted online marketing channels, such as sponsored search, affiliate marketing, portal advertising, e-mail campaigns, and other initiatives. We also use nationwide television, print and radio advertising campaigns to promote sales.

The following table reflects our sales and marketing expenses for the years ended December 31, 2010 and 2009 (in thousands):

	Year ended December 31,			
	2010	2009	\$ Change	% Change
Sales and marketing expenses	\$ 61,334	\$ 55,549	\$ 5,785	10.4%
Sales and marketing expenses as a percent of net revenues	5.6%	6.3%		

The decrease in sales and marketing costs as a percentage of total net revenue was primarily due to more efficient marketing spending.

Sales and marketing expenses also include stock-based compensation expense of \$608,000 and \$634,000 for the years ended December 31, 2010 and 2009, respectively.

Costs associated with our discounted shipping and other promotions, such as coupons, are not included in marketing expense. Rather they are accounted for as a reduction of revenue and therefore affect sales growth and gross margin. We consider discounted shipping and other promotions as an effective marketing tool, and intend to continue to offer them as we deem appropriate as part of our overall marketing plan.

Table of Contents*Technology expenses*

We seek to efficiently invest in technology, including web services, customer support solutions, website search, and expansion of new and existing product categories, as well as continuing to enhance the customer experience, improving our process efficiency and supporting our logistics infrastructure.

The following table reflects our technology expenses for the years ended December 31, 2010 and 2009 (in thousands)

	Year ended December 31,		\$ Change	% Change
	2010	2009		
Technology expenses	\$ 58,260	\$ 52,336	\$ 5,924	11.3%
Technology expenses as a percent of net revenues	5.3%	6.0%		

The \$5.9 million increase is primarily due to a \$6.5 million increase in salaries and benefits expense (primarily due to increases in staffing), and a \$1.5 million increase in depreciation expense as result of investments in information technology assets in 2010, partially offset by a \$1.4 million decrease in bonus expense in 2010 as a result of lower than expected financial performance for the year ended December 31, 2010.

Technology expenses include stock-based compensation expense of \$1.1 million and \$961,000 for the years ended December 31, 2010 and 2009, respectively

General and administrative expenses

The following table reflects our general and administrative expenses for the years ended December 31, 2010 and 2009 (in thousands):

	Year ended December 31,		\$ Change	% Change
	2010	2009		
General and administrative expenses	\$ 55,650	\$ 48,906	\$ 6,744	13.8%
General and administrative expenses as a percent of net revenues	5.1%	5.6%		

The \$6.7 million increase is due to a \$5.1 million increase in salaries and benefits expense (primarily due to increases in staffing), a \$2.3 million increase in professional service fees for our external auditors and a \$2.0 million increase in legal fees, partially offset by a \$3.2 million decrease in bonus expense in 2010 as a result of lower than expected financial performance for the year ended December 31, 2010. The increase in legal fees primarily resulted from a \$2.6 million reduction in payments received from the settlement of legal matters during 2010 compared to 2009. We recognized a reduction in general and administrative expenses of \$4.5 million and \$7.1 million during the years ended December 31, 2010 and 2009, respectively, related to the settlement of legal matters.

General and administrative expenses include stock-based compensation expense of approximately \$3.2 million and \$3.0 million for the years ended December 31, 2010 and 2009, respectively.

Restructuring

There were no restructuring charges during the years ended December 31, 2010 and 2009. We reversed \$569,000 of lease termination costs liability during the year ended December 31, 2010 due to changes in our estimate of sublease income, primarily as a result of our entering into agreements with a sublessee to terminate the subleases and have us re-occupy a portion of the space previously

Table of Contents

abandoned, due to our growth and need for additional space. During the year ended December 31, 2009, we reversed \$66,000 of lease termination costs liability due to changes in our estimate of sublease income, primarily as a result of entering into a sublease agreement for previously vacant space (see Item 15 of Part IV, "Financial Statements" Note 3 "Restructuring Expense").

Operating Expenses

Overall, our total operating expenses increased 11.5% to \$174.7 million for the year ended December 31, 2010 from \$156.7 million for the year ended December 31, 2009, while total net revenues increased 24.3% and gross profit increased 15.1%.

Depreciation expense

Depreciation expense is classified within the corresponding operating expense categories on the consolidated statements of operations as follows (in thousands):

	Year ended December 31,	
	2010	2009
Cost of goods sold direct	\$ 1,179	\$ 1,264
Technology	12,489	10,943
General and administrative	912	676
Total depreciation and amortization, including internal-use software and website development	\$ 14,580	\$ 12,883

Non-operating income (expense)*Interest income*

Interest income is primarily derived from the investment of our cash in cash equivalents and short-term investments. Interest income for the years ended December 31, 2010 and 2009 totaled \$157,000 and \$170,000, respectively.

Interest expense

Interest expense is related to interest incurred on our Senior Notes, our finance obligations and our capital leases. Interest expense for the year ended December 31, 2010 and 2009 totaled \$3.0 million and \$3.5 million, respectively. The decrease in interest expense is primarily a result of extinguishments of long-term debt.

Other income, net

Other income, net for the years ended December 31, 2010 and 2009 totaled \$2.1 million and \$3.3 million, respectively. The decrease was primarily due to lower gains on extinguishment of long-term debt, partially offset by an increase in gift card breakage income for the year ended December 31, 2010.

Income taxes

Our provision for income taxes for the years ended December 31, 2010 and 2009 of \$359,000 and \$257,000 is for federal alternative minimum tax and certain income tax uncertainties, including interest and penalties.

Table of Contents**Seasonality**

Based upon our historical experience, revenue typically increases during the fourth quarter because of the holiday retail season. The actual quarterly results for each quarter could differ materially depending upon consumer preferences, availability of product and competition, among other risks and uncertainties. Accordingly, there can be no assurances that seasonal variations will not materially affect our results of operations in the future. The following table reflects our total net revenues for each of the quarters in 2010 and 2009 (in thousands):

	First Quarter	Second Quarter	Third Quarter	Fourth Quarter
2010	\$ 264,330	\$ 231,253	\$ 245,420	\$ 348,870
2009	185,729	174,898	193,783	322,359

Liquidity and Capital Resources

While we believe that the cash and cash equivalents currently on hand, amounts available under our credit facility and expected cash flows from future operations will be sufficient to continue operations for at least the next twelve months; we may require additional financing. Our \$20 million credit facility with U.S. Bank is scheduled to terminate on December 31, 2012. Although we have \$20 million on deposit with U.S. Bank, and may repay and terminate the facility, we may attempt to renegotiate the facility or replace it. There can be no assurance we will be able to do so. In December 2011, we paid \$20.1 million to terminate our obligations under our Master Lease Agreement, resulting in a significant decrease in cash on hand at December 31, 2011 (see "Borrowings" below). There can be no assurance that if additional financing is necessary it will be available, or, if available, that such financing can be obtained on satisfactory terms. Failure to generate sufficient revenues, profits or to raise additional capital could have a material adverse effect on our operations and on our ability to achieve our intended business objectives. Any projections of future cash needs and cash flows are subject to substantial uncertainty.

Our principal sources of liquidity are cash flows generated from operations, and our existing cash and cash equivalents. At December 31, 2011, our cash and cash equivalents balance was \$97.0 million.

Cash flow information is as follows:

	Year ended December 31		
	2011	2010	2009
Cash provided by (used in):			
Operating activities	\$ 25,663	\$ 16,322	\$ 46,117
Investing activities	(8,905)	(22,700)	2,868
Financing activities	(43,794)	(9,358)	(5,685)
<i>Free Cash Flow</i>			

"Free Cash Flow" (a non-GAAP measure) for the years ended December 31, 2011, 2010 and 2009, was \$16.9 million, \$(4.2) million and \$38.8 million, respectively. See "Non-GAAP Financial Measures" below for a reconciliation of Free Cash Flow to net cash provided by operating activities.

Cash provided by operating activities

For the years ended December 31, 2011 and 2010, our operating activities resulted in net cash inflows of \$25.7 million and \$16.3 million, respectively.

Table of Contents

Cash received from customers generally corresponds to our net revenues as our customers primarily use credit cards to buy from us causing our receivables from these sales transactions to settle quickly. We have payment terms with our fulfillment partners that generally extend beyond the amount of time necessary to collect proceeds from our customers. As a result, following our typically seasonally strong fourth quarter sales, at December 31 of each year, our cash, cash equivalents and accounts payable balances normally reach their highest level (other than as a result of cash flows provided by or used in investing and financing activities). However, our accounts payable balance normally declines during the first three months following year-end, which normally results in a decline in our cash and cash equivalents balances from the year-end balance. The seasonality of our business causes payables and accruals to grow significantly in the fourth quarter, and then decrease in the first quarter when they are paid.

The \$25.7 million of net cash provided by operating activities during the year ended December 31, 2011 was primarily due to a decrease in inventory of \$9.1 million from an effort to maintain lower inventory levels and a shift in sales mix, particularly in clothing and shoes, from a direct inventory-based model to a fulfillment partner-based model to reduce seasonal inventory risks, an increases in accrued liabilities of \$7.0 million primarily related to marketing and legal expenses, an increase in deferred revenue of \$4.0 million primarily due to continued growth of our Club O loyalty program and an increase in accounts payable of \$2.9 million.

The \$16.3 million of net cash provided by operating activities during the year ended December 31, 2010 was primarily due to positive net income of \$13.9 million for the year ended December 31, 2010. Net cash was also provided by increases of deferred revenue of \$3.4 million primarily due to our launch of our Club O loyalty program. The cash inflows were offset by cash outflows of \$8.7 million due to an increase in inventory and \$9.3 million due to a decrease in accounts payable. The increase in inventory was a result of increased purchases of inventory to meet holiday sales demand and support growth in the business. The decrease in accounts payable balance is due to increased and earlier sales and holiday shipments resulting in increased payments to suppliers prior to year-end when compared to the same period in 2009.

Cash (used in) provided by investing activities

Cash provided by investing activities corresponds with purchases, sales, and maturities of marketable securities and cash expenditures for fixed assets, including internal-use software and website development costs. For the years ended December 31, 2011 and 2010, investing activities resulted in net cash outflows of \$8.9 million and \$22.7 million, respectively.

The \$8.9 million used in investing activities during the year ended December 31, 2011 resulted primarily from expenditures for fixed assets of \$8.7 million, which largely consisted of software and hardware purchases.

The \$22.7 million used in investing activities during the year ended December 31, 2010 resulted primarily from expenditures for fixed assets of \$20.5 million, which largely consisted of software and hardware purchases for our data warehouse and other data storage infrastructure in order to support our growth, and a \$1.7 million investment in precious metals in an effort to diversify our investments.

Cash used in financing activities

For the years ended December 31, 2011 and 2010, financing activities resulted in net cash outflows of \$43.8 million and \$9.4 million, respectively.

Financing activities for the year ended December 31, 2011 resulted in net cash outflows of \$43.8 million primarily from \$34.6 million used for retirement of long-term debt, \$24.9 million used for

Table of Contents

retirement of finance obligations, partially offset by \$17.0 million in proceeds from a draw down on our line of credit (which was used for the retirement of long-term debt).

Financing activities for the year ended December 31, 2010 resulted in net cash outflows of \$9.4 million primarily from \$24.9 million used for retirement of long-term debt, partially offset by \$16.4 million in proceeds from finance obligations (which were primarily used for retirement of long-term debt) and \$1.5 million in proceeds from the exercise of stock options.

Redeemable common stock

In June 2009, we discovered that we had inadvertently issued 203,737 more shares of our common stock in connection with our 401(k) plan than had been registered with the Securities and Exchange Commission for offer in connection with the 401(k) plan. These shares were contributed to or otherwise acquired by participants in the 401(k) plan between August 16, 2006, and June 17, 2009. As a result, certain participants in the 401(k) plan may have had rescission rights relating to the unregistered shares, although we believe that the federal statute of limitations applicable to any such rescission rights would be one year, and that the statute of limitations had already expired at June 30, 2009 with respect to most of the inadvertent issuances.

On August 31, 2009, we entered into a Tolling and Standstill Agreement (the "Tolling Agreement") with the Overstock.com, Inc. Employee Benefits Committee (the "Committee") relating to the 401(k) plan. We entered into the Tolling Agreement in order to preserve certain rights, if any, of plan participants who acquired shares of Overstock common stock in the plan between July 1, 2008 and June 30, 2009 (the "Purchase Period"). In August 2010, we made a registered rescission offer to affected participants in the plan who acquired shares of Overstock common stock during the Purchase Period. The rescission offer applied to shares purchased during the Purchase Period at prices ranging from \$6.77 per share to \$21.17 per share. On October 6, 2010, our rescission offer expired. As a result of the offer, we repurchased 1,202 shares of common stock for \$26,000. On October 14, 2010 we terminated the Tolling Agreement. At December 31, 2011 none of our shares were classified outside stockholder's equity due to the expiration of potential rescission rights associated with those common shares. At December 31, 2010 approximately 46,000 shares or \$570,000 of our common stock plus interest were classified outside stockholders' equity, respectively.

Stock and Debt Repurchase Program

We retired \$34.6 million of the Senior Notes during the year ended December 31, 2011, for \$34.6 million in cash, resulting in a loss of \$54,000 on early extinguishment of debt, net of \$77,000 of associated unamortized discount. Of the \$34.6 million in Senior Notes retired during the year ended December 31, 2011, \$10.1 million were held by Chou Associates Management Inc. or an affiliate of Chou ("Chou") and \$21.7 million were held by Fairfax Financial Holdings Limited or an affiliate of Fairfax ("Fairfax"). Chou and Fairfax are beneficial owners of more than 5% of our common stock. We retired \$25.4 million of the Senior Notes during the year ended December 31, 2010 for \$24.9 million in cash, resulting in a gain of \$346,000 on early extinguishment of debt, net of \$158,000 of associated unamortized discount.

As of December 31, 2011 and December 31, 2010, zero and \$34.5 million of the Senior Notes, net of debt discount remained outstanding, respectively.

During the years ended December 31, 2011 and 2010, we withheld from vesting restricted stock awards a total of 100,000 and 63,000 shares of our common stock for \$1.6 million and \$825,000, respectively. The shares withheld represented the minimum tax withholdings upon the vesting of those restricted stock award grants to satisfy the minimum tax withholdings owed by the grantee of the restricted stock award grant. None of these shares were repurchased in the open market.

Table of Contents**Contractual obligations and commitments**

The following table summarizes our contractual obligations as of December 31, 2011 and the effect such obligations and commitments are expected to have on our liquidity and cash flow in future periods (in thousands):

Contractual Obligations	Payments Due by Period						Total
	2012	2013	2014	2015	2016	Thereafter	
Capital lease obligations	116	3					119
Line of credit	17,000						17,000
Interest on line of credit	519						519
Operating leases	8,916	8,206	8,404	6,818	1,381	183	33,908
Naming rights	1,236	1,273	1,311	1,351	1,391		6,562
Purchase obligations	14,342						14,342
Total contractual cash obligations	\$ 42,129	\$ 9,482	\$ 9,715	\$ 8,169	\$ 2,772	\$ 183	\$ 72,450

Other Commercial Commitments	Amounts of Commitment Expiration Per Period						Total
	2012	2013	2014	2015	2016	Thereafter	
Letters of credit	\$ 2,028	\$	\$	\$	\$	\$	\$ 2,028

Naming rights

During 2011, we entered into a six-year agreement with the Oakland-Alameda County Coliseum Authority ("OACCA") for the right to name Oakland Alameda County Coliseum. Amounts represent annual payments due OACCA for the naming rights and we may terminate this agreement at our sole option, subject to its termination fee.

Purchase Obligations

The amount of purchase obligations shown above is based on assumptions regarding the legal enforceability against us of purchase orders we had outstanding at December 31, 2011. Under different assumptions regarding our rights to cancel our purchase orders or different assumptions regarding the enforceability of the purchase orders under applicable law, the amount of purchase obligations shown in the table above would be less.

Tax Contingencies

Our contractual obligations presented above exclude unrecognized tax contingencies, including interest and penalties, of \$313,000 for which we cannot make a reasonably reliable estimate of the amount and period of payment. For further information regarding the application of ASC 740-10-5, see the information set forth under Item 15 of Part IV, "Financial Statements Note 20 Income Taxes," contained in the "Notes to Consolidated Financial Statements" of this Annual Report on Form 10-K.

Recommendation Algorithm Development Costs

During 2011, we announced two contests offering cash prizes of up to \$1.3 million for each contest period to the researcher or research team who can design and develop a recommendation algorithm which provides a minimum of 1% increase in sales as compared to our existing algorithm. The contest periods end March 31, 2012 and September 30, 2012 and the cash prizes, if any, would be awarded at those times.

Table of Contents

Borrowings

U.S. Bank Financing Agreements

We are a party to a Financing Agreement with U.S. Bank National Association ("U.S. Bank") dated December 22, 2009 (as amended to date, the "Financing Agreement"). The maximum credit potentially available under the revolving facility is \$20 million. Our obligations under the Financing Agreement and all related agreements are secured by all or substantially all of our assets, excluding our interest in certain litigation. Subject to certain exceptions, the full amount of the revolving facility is expected to be available to us as long as \$20 million in the aggregate is maintained on deposit with U.S. Bank. At December 31, 2011 and at the date of this report we maintained \$20 million on deposit with U.S. Bank. The obligation of U.S. Bank to make advances under the Financing Agreement is subject to the conditions set forth in the Financing Agreement.

Our failure to keep at least \$20 million on deposit in certain accounts with U.S. Bank would constitute a "triggering event" under the Financing Agreement. If a triggering event occurs, we would become subject to financial covenants (i) limiting our capital expenditures to \$20 million annually, and (ii) requiring us to maintain a Financing Agreement defined fixed charges coverage ratio of at least 1.10 to 1.00 as of the end of any fiscal quarter for the period of the prior four quarters. The occurrence of a triggering event could also result in a decrease in the amount available to us under the non cash-collateralized portion of the facility, as availability would then depend, in part, on the Borrowing Base (as defined in the Financing Agreement).

The stated termination date of the Financing Agreement is December 31, 2012. The maximum amount potentially available under the Financing Agreement is \$20 million, limited to \$3 million for cash-collateralized letters of credit and other financial accommodations, and \$17 million for advances supported by our non-cash collateral. As permitted by the Financing Agreement, during the year ended December 31, 2011, we used the entire \$17 million available for advances supported by our non-cash collateral to fund the redemption of our then-outstanding Senior Convertible Notes due December 1, 2011.

Advances under the Financing Agreement bear interest at one-month LIBOR plus 2.5%. The interest rate for borrowings under the Financing Agreement was 2.75% at December 31, 2011. We have also entered into an interest rate cap agreement with U.S. Bank with an effective date of October 1, 2011 limiting our exposure for one-month LIBOR at 0.5% for the term of the Financing Agreement.

The Financing Agreement includes affirmative covenants and negative covenants that prohibit a variety of actions without the approval of U.S. Bank, including, without limitation, covenants that (subject to certain exceptions) limit our ability to (a) incur or guarantee debt or enter into indemnity agreements, (b) create or permit liens, (c) enter into any merger or consolidation or purchase or otherwise acquire all or substantially all of the assets of another person or the assets comprising any line of business or business unit of another person, (d) except for permitted acquisitions, purchase the securities of, create, invest in, or form any subsidiary or other entity, (e) make loans or advances, (f) purchase, acquire or redeem shares of our capital stock or other securities, (g) change our capital structure or issue any new class of capital stock, (h) change our business objectives, purposes or operations in a manner which could reasonably be expected to have a material adverse effect, (i) change our fiscal year, (j) enter into transactions with affiliates, (k) sell assets except for the sale of inventory in the ordinary course of business, (l) permit judgments to be rendered against us in excess of certain limits or having specified effects, depending in part on whether a triggering event has occurred or would occur, (m) take certain actions regarding our receivables, and (n) take certain actions regarding our inventory. During 2011, we were out of compliance with two covenants and obtained waivers from U.S. Bank for these covenant violations.

Table of Contents

Amounts outstanding under the Financing Agreement at December 31, 2011 and December 31, 2010 were \$17.0 million and zero, respectively, and letters of credit totaling \$2.0 million and \$2.4 million, respectively, were issued on our behalf collateralized by compensating cash balances held at U.S. Bank, which are included in Restricted cash in the accompanying consolidated balance sheets. At December 31, 2011, we had \$20.0 million in compensating cash balances held at U.S. Bank. If we draw on the \$20.0 million compensating cash balance, it will constitute a triggering event and result in additional and more restrictive covenants.

Prior to December 27, 2011, we were a party to a Master Lease Agreement and a Financial Covenants Rider and related documents (collectively, the "Master Lease Agreement") dated September 17, 2010 with U.S. Bancorp Equipment Finance, Inc. Technology Finance Group ("Lessor"), an affiliate of U.S. Bank National Association. Under the Master Lease Agreement we entered into four separate leases, pursuant to which we sold certain information technology hardware ("IT Assets") to Lessor, which were simultaneously leased back for a period of 48 months and financed certain software licenses for a period of 48 months for proceeds totaling \$16.4 million. Subsequently, we entered into eleven additional leases; whereby we leased \$8.2 million in IT Assets and financed certain software licenses directly from the Lessor. We had the right to repurchase the IT Assets at the end of the 48-month term for \$1.00. Payments on the Master Lease Agreement were due monthly. The weighted average effective interest rate under the Master Lease Agreement was 6.29%. We had accounted for the Master Lease Agreement as a financing transaction and amounts owed are included in Finance Obligations, current and non-current in the consolidated balance sheets. We recorded no gain or loss as a result of entering into these transactions.

On December 27, 2011, we and the Lessor agreed to terminate the Master Lease Agreement and all related schedules. We paid approximately \$20.1 million to Lessor in connection with the amendment and agreement to terminate the Master Lease Agreement, resulting in a \$1.2 million loss on early retirement of debt included in Other income (expense), net in our consolidated statements of operations. As of December 31, 2011 and December 31, 2010, zero and \$16.1 million of the finance obligations remained outstanding, respectively.

U.S. Bank Purchasing Card Agreement

We have a commercial purchasing card (the "Purchasing Card") agreement with U.S. Bank. We use the Purchasing Card for business purpose purchasing and must pay it in full each month. At December 31, 2011, \$3.4 million was outstanding and \$1.6 million was available under the Purchasing Card. At December 31, 2010, \$2.7 million was outstanding and \$2.3 million was available under the Purchasing Card.

3.75% Convertible Senior Notes

In November 2004, we completed an offering of \$120.0 million of 3.75% Convertible Senior Notes due 2011 (the "Senior Notes"). Proceeds to us were \$116.2 million, net of \$3.8 million of initial purchaser's discount and debt issuance costs. The discount and debt issuance costs were being amortized using the straight-line method which approximates the effective interest method. We recorded amortization of discount and debt issuance costs related to this offering totaling \$77,000, \$228,000 and \$331,000 during the years ended December 31, 2011, 2010 and 2009, respectively. Interest on the Senior Notes was payable semi-annually on June 1 and December 1 of each year. The Senior Notes were scheduled to mature on December 1, 2011 and were unsecured and ranked equally in right of payment with all existing and future unsecured, unsubordinated debt and senior in right of payment to any existing and future subordinated indebtedness.

We retired all of the remaining \$34.6 million of the Senior Notes during the year ended December 31, 2011, for \$34.6 million in cash, resulting in a loss of \$54,000 on early extinguishment of

Table of Contents

debt, net of \$77,000 of associated unamortized discount. Of the \$34.6 million in Senior Notes retired during the year ended December 31, 2011, \$10.1 million were held by Chou and \$21.7 million were held by Fairfax. Chou and Fairfax are beneficial owners of more than 5% of our common stock. We retired \$25.4 million of the Senior Notes during the year ended December 31, 2010 for \$24.9 million in cash, resulting in a gain of \$346,000 on early extinguishment of debt, net of \$158,000 of associated unamortized discount.

As of December 31, 2011 and December 31, 2010, zero and \$34.5 million of the Senior Notes, net of debt discount remained outstanding, respectively.

Off-balance sheet arrangements

We do not have any off-balance sheet arrangements that have or are reasonably likely to have a current or future effect on our financial condition, changes in financial condition, revenues or expenses, results of operations, liquidity, capital expenditures or capital resources that would be material to investors.

Non-GAAP financial measures

Regulation G, *Conditions for Use of Non-GAAP Financial Measures*, and other SEC regulations regulate the disclosure of certain non-GAAP financial information.

Contribution (a non-GAAP financial measure) (which we reconcile to "Gross profit" in our statement of operations) consists of gross profit less sales and marketing expense and reflects an additional way of viewing our results. Contribution Margin is Contribution as a percentage of revenues. When viewed with our GAAP gross profit less sales and marketing expenses, we believe Contribution and Contribution margin provides management and users of the financial statements information about our ability to cover our operating costs, such as technology and general and administrative expenses. Contribution and Contribution Margin are used in addition to and in conjunction with results presented in accordance with GAAP and should not be relied upon to the exclusion of GAAP financial measures. You should review our financial statements and publicly-filed reports in their entirety and not rely on any single financial measure. The material limitation associated with the use of Contribution is that it is an incomplete measure of profitability as it does not include all operating expenses or non-operating income and expenses. Management compensates for these limitations when using this measure by looking at other GAAP measures, such as operating income (loss) and net income (loss).

For further details on Contribution, see the calculation of this non-GAAP measure below (in thousands):

	Year ended December 31,		
	2011	2010	2009
Total revenue	\$ 1,054,277	\$ 1,089,873	\$ 876,769
Cost of goods sold	875,189	900,233	712,017
Gross profit	179,088	189,640	164,752
Less: Sales and marketing expense	61,813	61,334	55,549
Contribution	\$ 117,275	\$ 128,306	\$ 109,203
Contribution margin	11.1%	11.8%	12.5%
<i>Free Cash Flow</i>			

Free cash flow (a non-GAAP financial measure) reflects an additional way of viewing our cash flows and liquidity that, when viewed with our GAAP results, provides a more complete understanding of factors and trends affecting our cash flows and liquidity. Free cash flow, which we reconcile to "Net

Table of Contents

cash provided by (used in) operating activities", is cash flows from operations reduced by "Expenditures for fixed assets, including internal-use software and website development." We believe that cash flows from operating activities is an important measure, since it includes both the cash impact of the continuing operations of the business and changes in the balance sheet that impact cash. However, we believe free cash flow is a useful measure to evaluate our business since purchases of fixed assets are a necessary component of ongoing operations and free cash flow measures the amount of cash we have available for future investment, debt retirement or other changes to our capital structure after we have paid all of our expenses. Therefore, we believe it is important to view free cash flow as a complement to our entire consolidated statements of cash flows as calculated below (in thousands):

	Year ended December 31,		
	2011	2010	2009
Net cash provided by operating activities	\$ 25,663	\$ 16,322	\$ 46,117
Expenditures for fixed assets, including internal-use software and website development	(8,741)	(20,511)	(7,275)
Free cash flow	\$ 16,922	\$ (4,189)	\$ 38,842

Table of Contents

ITEM 7A. QUANTITATIVE AND QUALITATIVE DISCLOSURES ABOUT MARKET RISK

We do not use derivative financial instruments in our investment portfolio, except for an interest rate cap agreement on our line of credit, and we have no foreign exchange contracts. Our financial instruments consist of cash and cash equivalents, marketable securities, trade accounts and contracts receivable, accounts payable and long-term obligations. We consider investments in highly-liquid instruments with a remaining maturity of 90 days or less at the date of purchase to be cash equivalents.

Our exposure to market risk for changes in interest rates relates primarily to our short-term investments and short-term obligations; thus, fluctuations in interest rates would not have a material impact on the fair value of these securities. However, the fair values of our investments may be subject to fluctuations due to volatility of the stock market in general, investment-specific circumstances, and changes in general economic conditions.

At December 31, 2011, we had \$99.0 million in cash and cash equivalents including restricted cash. Hypothetically, an increase or decrease in interest rates of one hundred basis points would have an estimated impact of \$990,000 on our earnings or loss or cash flows of these instruments.

At December 31, 2011, we had \$17.0 million outstanding under our line of credit, and letters of credit totaling \$2.0 million were outstanding under our credit facility. Hypothetically, an increase or decrease in interest rates of one hundred basis points would have an estimated impact of \$190,000 on our earnings or loss or cash flows of these instruments. We have entered into an interest rate cap agreement with U.S. Bank with an effective date of October 1, 2011 limiting our exposure for one-month LIBOR at 0.5% for the term of the Financing Agreement.

ITEM 8. FINANCIAL STATEMENTS AND SUPPLEMENTARY DATA

The financial statements and supplementary data required by this item are included in Part IV, Item 15 of this Form 10-K and are presented beginning on page F-1.

ITEM 9. CHANGES IN AND DISAGREEMENTS WITH ACCOUNTANTS ON ACCOUNTING AND FINANCIAL DISCLOSURE

None.

Table of Contents

ITEM 9A. CONTROLS AND PROCEDURES

(a) Disclosure Controls and Procedures

We maintain disclosure controls and procedures, as such term is defined in Rules 13a-15(e) and 15d-15(e) of the Securities Exchange Act of 1934 (the "Act" or "Exchange Act"). The term *disclosure controls and procedures* means controls and other procedures of an issuer that are designed to ensure that information required to be disclosed by the issuer in the reports that it files or submits under the Act (15 U.S.C. 78a et seq.) is recorded, processed, summarized and reported, within the time periods specified in the Commission's rules and forms. Disclosure controls and procedures include, without limitation, controls and procedures designed to ensure that information required to be disclosed by an issuer in the reports that it files or submits under the Act is accumulated and communicated to the issuer's management, including its principal executive and principal financial officers, or persons performing similar functions, as appropriate to allow timely decisions regarding required disclosure.

We carried out an evaluation required by the Securities Exchange Act of 1934 (the "1934 Act"), under the supervision and with the participation of our principal executive officer and principal financial officer, of the effectiveness of the design and operation of our disclosure controls and procedures, as defined in Rule 13a-15(e) of the 1934 Act, as of the end of the period covered by this report. Based on this evaluation, our principal executive officer and principal financial officer concluded that our disclosure controls and procedures were effective to provide reasonable assurance that information required to be disclosed by us in the reports that we file or submit under the 1934 Act is recorded, processed, summarized and reported within the time periods specified in the SEC's rules and forms and to provide reasonable assurance that such information is accumulated and communicated to our management, including our principal executive officer and principal financial officer, as appropriate to allow timely decisions regarding required disclosure.

Our disclosure controls and procedures are designed to provide reasonable assurance of achieving their objectives as specified above. Management does not expect, however, that our disclosure controls and procedures will prevent or detect all error and fraud. Any control system, no matter how well designed and operated, is based upon certain assumptions and can provide only reasonable, not absolute, assurance that its objectives will be met. Further, no evaluation of controls can provide absolute assurance that misstatements due to error or fraud will not occur or that all control issues and instances of fraud, if any, within the Company have been detected.

(b) Management's Report on Internal Control over Financial Reporting

Management of the Company is responsible for establishing and maintaining adequate internal control over financial reporting as defined in Rules 13a-15(f) and 15d-15(f) under the Exchange Act.

Internal control over financial reporting is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles. Because of its inherent limitations, internal control over financial reporting may not prevent or detect misstatements. Also, projections of any evaluation of effectiveness of internal control over financial reporting to future periods are subject to the risk that controls may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

Management has assessed the effectiveness of our internal control over financial reporting as of December 31, 2011. In making our assessment of the effectiveness of internal control over financial reporting, management used the criteria set forth in *Internal Control Integrated Framework* issued by the Committee of Sponsoring Organizations of the Treadway Commission ("COSO"). Based on this assessment, management has concluded that, as of December 31, 2011, our internal control over financial reporting was effective.

Table of Contents

Our internal control over financial reporting is designed to provide reasonable assurance of achieving its objectives as specified above. Management does not expect, however, that our internal control over financial reporting will prevent or detect all error and fraud. Any control system, no matter how well designed and operated, is based upon certain assumptions and can provide only reasonable, not absolute, assurance that its objectives will be met. Further, no evaluation of controls can provide absolute assurance that misstatements due to error or fraud will not occur or that all control issues and instances of fraud, if any, within the Company have been detected.

The effectiveness of our internal control over financial reporting as of December 31, 2011 has been audited by KPMG LLP, an independent registered public accounting firm, as stated in their report which is in Item 9A(c).

(c) Independent Registered Public Accounting Firm's Report on Internal Control Over Financial Reporting

Report of Independent Registered Public Accounting Firm

The Board of Directors and Stockholders
Overstock.com, Inc.:

We have audited Overstock.com, Inc.'s internal control over financial reporting as of December 31, 2011, based on criteria established in *Internal Control Integrated Framework* issued by the Committee of Sponsoring Organizations of the Treadway Commission (COSO). Overstock.com Inc.'s management is responsible for maintaining effective internal control over financial reporting and for its assessment of the effectiveness of internal control over financial reporting, included in the accompanying Management's Report on Internal Control over Financial Reporting (Item 9A(b)). Our responsibility is to express an opinion on the Company's internal control over financial reporting based on our audit.

We conducted our audit in accordance with the standards of the Public Company Accounting Oversight Board (United States). Those standards require that we plan and perform the audit to obtain reasonable assurance about whether effective internal control over financial reporting was maintained in all material respects. Our audit included obtaining an understanding of internal control over financial reporting, assessing the risk that a material weakness exists, and testing and evaluating the design and operating effectiveness of internal control based on the assessed risk. Our audit also included performing such other procedures as we considered necessary in the circumstances. We believe that our audit provides a reasonable basis for our opinion.

A company's internal control over financial reporting is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles. A company's internal control over financial reporting includes those policies and procedures that (1) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the company; (2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the company are being made only in accordance with authorizations of management and directors of the company; and (3) provide reasonable assurance regarding prevention or timely detection of unauthorized acquisition, use, or disposition of the company's assets that could have a material effect on the financial statements.

Because of its inherent limitations, internal control over financial reporting may not prevent or detect misstatements. Also, projections of any evaluation of effectiveness to future periods are subject to the risk that controls may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

Table of Contents

In our opinion, Overstock.com, Inc. maintained, in all material respects, effective internal control over financial reporting as of December 31, 2011, based on criteria established in *Internal Control Integrated Framework* issued by the Committee of Sponsoring Organizations of the Treadway Commission.

We also have audited, in accordance with the standards of the Public Company Accounting Oversight Board (United States), the consolidated balance sheets of Overstock.com, Inc. and subsidiaries as of December 31, 2011 and 2010, and the related consolidated statements of operations, stockholders' equity (deficit) and comprehensive income (loss), and cash flows for each of the years in the three-year period ended December 31, 2011, and our report dated March 2, 2012 expressed an unqualified opinion on those consolidated financial statements.

/s/ KPMG LLP

Salt Lake City, Utah
March 2, 2012

(d) Changes in Internal Control Over Financial Reporting

No change in the Company's internal control over financial reporting (as defined in Rule 13a-15(f) under the Securities Exchange Act of 1934) was identified during the quarter ended December 31, 2011, that has materially affected, or is reasonably likely to materially affect, the Company's internal control over financial reporting.

ITEM 9B. OTHER INFORMATION

As previously reported, on May 4, 2011 we held our 2011 Annual Meeting of Stockholders. We reported the matters submitted to the stockholders at the Annual Meeting and the results of the voting in a Form 8-K filed on May 5, 2011 and amended on May 24, 2011. On January 6, 2012, we filed an amendment to the Form 8-K to report that, consistent with our Board's recommendation and consistent with the stockholders' advisory vote on this matter, we intend to hold future stockholder advisory votes on executive compensation once every three years until the next required vote on the frequency of stockholder votes on executive compensation.

PART III

ITEM 10. DIRECTORS, EXECUTIVE OFFICERS AND CORPORATE GOVERNANCE

Information regarding our Executive Officers required by Item 10 of Part III is set forth in Item 1 of Part I "Business Executive Officers." Other information required by Item 10 of Part III, including information regarding our Directors and any material changes to the process by which security holders may recommend nominees to the Board of Directors will be included in our definitive proxy statement for our 2012 annual meeting of stockholders, and is incorporated herein by reference. Information relating to compliance with Section 16(a) of the 1934 Act will be set forth in our definitive proxy statement for our 2012 annual meeting of stockholders and is incorporated herein by reference.

We have adopted a Code of Business Conduct and Ethics ("Code"), which is applicable to all employees of the Company, including the principal executive officer, principal financial officer, and principal accounting officer. The Code includes provisions that are specifically applicable to our senior financial officers. We intend to disclose any amendments to these provisions and any waivers from any of these provisions granted to our principal executive officer, principal financial officer or principal accounting officer on our Website, *www.overstock.com*. We will provide a copy of the relevant portion to any person without any charge upon request in writing addressed to Overstock.com. Attn: Investor Relations, 6350 South 3000 East, Salt Lake City, UT 84121.

Report of Independent Registered Public Accounting Firm

The Board of Directors and Stockholders
Overstock.com, Inc.:

We have audited the accompanying consolidated balance sheets of Overstock.com, Inc. and subsidiaries as of December 31, 2011 and 2010, and the related consolidated statements of operations, stockholders' equity (deficit) and comprehensive income (loss), and cash flows for each of the years in the three-year period ended December 31, 2011. In connection with our audits of the consolidated financial statements, we also have audited financial statement schedule II. These consolidated financial statements and financial statement schedule are the responsibility of the Company's management. Our responsibility is to express an opinion on these consolidated financial statements and financial statement schedule based on our audits.

We conducted our audits in accordance with the standards of the Public Company Accounting Oversight Board (United States). Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audits provide a reasonable basis for our opinion.

In our opinion, the consolidated financial statements referred to above present fairly, in all material respects, the financial position of Overstock.com, Inc. and subsidiaries as of December 31, 2011 and 2010, and the results of their operations and their cash flows for each of the years in the three-year period ended December 31, 2011, in conformity with U.S. generally accepted accounting principles. Also in our opinion, the related financial statement schedule, when considered in relation to the basic consolidated financial statements taken as a whole, presents fairly, in all material respects, the information set forth therein.

We also have audited, in accordance with the standards of the Public Company Accounting Oversight Board (United States), Overstock.com, Inc.'s internal control over financial reporting as of December 31, 2011, based on criteria established in *Internal Control Integrated Framework* issued by the Committee of Sponsoring Organizations of the Treadway Commission (COSO), and our report dated March 2, 2012 expressed an unqualified opinion on the effectiveness of the Company's internal control over financial reporting.

Notes to Consolidated Financial Statements

1. BUSINESS AND ORGANIZATION

As used herein, "Overstock," "Overstock.com," "O.co," "we," "our" and similar terms include Overstock.com, Inc. and its subsidiaries, unless the context indicates otherwise. We were formed on May 5, 1997 as D2-Discounts Direct, a limited liability company. On December 30, 1998, we were reorganized as a C Corporation in the State of Utah and reincorporated in Delaware in May 2002. On October 25, 1999, we changed our name to Overstock.com, Inc.

We are an online retailer offering discount brand name, non-brand name and closeout merchandise, including bed-and-bath goods, home décor, kitchenware, furniture, watches and jewelry, apparel, electronics and computers, sporting goods, and designer accessories, among other products. We also sell hundreds of thousands of best seller and current run books, magazines, CDs, DVDs and video games ("BMMG"). We sell these products through our Internet websites located at www.overstock.com, www.o.co and www.o.biz ("Website"). Although our three websites are located at different domain addresses, the technology and equipment and processes supporting the Website and the process of order fulfillment described herein are the same for all three websites.

2. ACCOUNTING POLICIES

Principles of consolidation

The accompanying consolidated financial statements include our accounts and the accounts of our wholly-owned subsidiaries. All intercompany account balances and transactions have been eliminated in consolidation.

Use of estimates

The preparation of financial statements in conformity with generally accepted accounting principles requires estimates and assumptions that affect the reported amounts of assets and liabilities, revenues and expenses, and related disclosures of contingent liabilities in the consolidated financial statements and accompanying notes. Estimates are used for, but not limited to, investment valuation, receivables valuation, revenue recognition, sales returns, incentive discount offers, inventory valuation, depreciable lives of fixed assets and internally-developed software, goodwill valuation, long lived asset valuation, income taxes, stock-based compensation, performance-based compensation, restructuring liabilities and contingencies. Actual results could differ materially from those estimates.

Cash equivalents

We classify all highly liquid instruments, including money market funds with a remaining maturity of three months or less at the time of purchase, as cash equivalents. Cash equivalents as of December 31, 2011 and December 31, 2010 were \$81.2 million and \$121.8 million, respectively.

Restricted cash

We consider cash that is legally restricted and cash that is held as a compensating balance for letter of credit arrangements as restricted cash. At December 31, 2011 and 2010, restricted cash was \$2.0 million and \$2.5 million, respectively, and was held primarily in money market accounts.

Table of Contents**Overstock.com, Inc.****Notes to Consolidated Financial Statements (Continued)****2. ACCOUNTING POLICIES (Continued)***Fair value of financial instruments*

Our financial instruments, including cash, cash equivalents, accounts receivable, accounts payable and accrued liabilities are carried at cost, which approximates their fair value because of the short-term maturity of these instruments. We are party to a Financing Agreement with U.S. Bank dated December 22, 2009 (as amended to date, the "Financing Agreement"). Our Financing Agreement is also carried at face value, which approximates its fair value due to its variable interest rate.

We account for our assets and liabilities using a hierarchy of valuation techniques based on whether the inputs to those valuation techniques are observable or unobservable. Observable inputs reflect market data obtained from independent sources, while unobservable inputs reflect our market assumptions. These two types of inputs have created the following fair-value hierarchy:

Level 1 Quoted prices for identical instruments in active markets;

Level 2 Quoted prices for similar instruments in active markets, quoted prices for identical or similar instruments in markets that are not active, and model-derived valuations in which all significant inputs and significant value drivers are observable in active markets; and

Level 3 Valuations derived from valuation techniques in which one or more significant inputs or significant value drivers are unobservable.

This hierarchy requires us to minimize the use of unobservable inputs and to use observable market data, if available, when determining fair value.

The fair value of these financial instruments was determined using the following levels of inputs as of December 31, 2011 (in thousands):

		Fair Value Measurements at December 31, 2011:			
		Total	Level 1	Level 2	Level 3
Assets:					
Cash equivalents and restricted cash	Money market mutual funds	\$ 83,195	\$ 83,195	\$	\$
Trading securities held in a "rabbi trust"(1)		302	302		
Total assets		\$ 83,497	\$ 83,497	\$	\$
Liabilities:					
Deferred compensation accrual "rabbi trust"(3)		\$ 302	\$ 302	\$	\$

Table of Contents**Overstock.com, Inc.****Notes to Consolidated Financial Statements (Continued)****2. ACCOUNTING POLICIES (Continued)**

The fair value of these financial instruments was determined using the following levels of inputs as of December 31, 2010 (in thousands):

	Fair Value Measurements at December 31, 2010:			
	Total	Level 1	Level 2	Level 3
Assets:				
Cash equivalents and restricted cash Money market mutual funds	\$ 124,313	\$ 124,313	\$	\$
Trading securities held in a "rabbi trust"(1)	148	148		
Total assets	\$ 124,461	\$ 124,461	\$	\$
Liabilities:				
Restructuring accrual(2)	\$ 1,797	\$	\$	\$ 1,797
Deferred compensation accrual "rabbi trust"(3)	154	154		
Total liabilities	\$ 1,951	\$ 154	\$	\$ 1,797

(1) Trading securities held in a rabbi trust are included in Other current and long-term assets in the consolidated balance sheets (Note 18 Employee Retirement Plan).

(2) The fair value was determined based on the income approach, in which we used internal cash flow projections over the life of the underlying lease agreements discounted based on a credit adjusted risk-free rate of return. See the roll forward related to the restructuring accrual at Note 3 Restructuring Expense.

(3) Non Qualified deferred compensation for rabbi trust is included in Accrued liabilities and Other long-term liabilities in the consolidated balance sheets (Note 18 Employee Retirement Plan).

The estimated fair value of our 3.75% Convertible Senior Notes due 2011 ("Senior Notes") outstanding at December 31, 2010 was \$33.2 million on a carrying value of \$34.5 million. The fair value of the Senior Notes was derived using a convertible debt pricing model with observable market inputs, which include stock price, dividend payments, borrowing costs, equity volatility, interest rates and interest spread. On September 21, 2011 we retired all of the outstanding Senior Notes (Note 12 Borrowings).

Restricted investments

In December 2009, we implemented a Non Qualified Deferred Compensation Plan (the "NQDC Plan") for senior management (Note 18 Employee Retirement Plan). Deferred compensation amounts are invested in mutual funds held in a "rabbi trust" and are restricted for payment to the participants of the NQDC Plan. We account for our investments held in the trust in accordance with Accounting Standards Codification ("ASC") No. 320 "Investments Debt and Equity Securities". The investments held in the trust are classified as trading securities. The fair value of the investments held in the trust totaled \$302,000 and \$148,000 at December 31, 2011 and December 31, 2010, respectively, and are included in Other current and long-term assets in the consolidated balance sheets. Our gains and losses on these investments were immaterial for the years ended December 31, 2011 and 2010.

Table of Contents

Overstock.com, Inc.

Notes to Consolidated Financial Statements (Continued)

2. ACCOUNTING POLICIES (Continued)

Accounts receivable

Accounts receivable consist primarily of trade amounts due from customers and from uncleared credit card transactions at period end. Accounts receivable are recorded at invoiced amounts and do not bear interest.

Allowance for doubtful accounts

From time to time, we grant credit to certain of our business customers on normal credit terms (typically 30 days). We perform credit evaluations of our business customers' financial condition and payment history and maintain an allowance for doubtful accounts receivable based upon our historical collection experience and expected collectability of accounts receivable. The allowance for doubtful accounts receivable was \$574,000 and \$2.0 million at December 31, 2011 and December 31, 2010, respectively. The decrease in the allowance for doubtful accounts was primarily due to write-offs of accounts receivable during the year ended December 31, 2011, which had no significant effect on results of operations for the period as most of the items had been previously reserved.

Concentration of credit risk

Cash equivalents include short-term, highly liquid instruments with maturities at date of purchase of three months or less. At December 31, 2011 and 2010, two banks held the majority of our cash and cash equivalents. We do not believe that, as a result of this concentration, we are subject to any unusual financial risk beyond the normal risk associated with commercial banking relationships.

Financial instruments that potentially subject us to significant concentrations of credit risk consist primarily of cash equivalents and receivables. We invest our cash primarily in money market securities which are uninsured.

Our accounts receivable are derived primarily from revenue earned from customers located in the United States. We maintain an allowance for doubtful accounts based upon the expected collectability of accounts receivable.

Valuation of inventories

Inventories, consisting of merchandise purchased for resale, are accounted for using a standard costing system which approximates the first-in-first-out ("FIFO") method of accounting, and are valued at the lower of cost or market. We write down our inventory for estimated obsolescence and to lower of cost or market value based upon assumptions about future demand and market conditions. If actual market conditions are less favorable than those projected by management, additional inventory write-downs may be required. Once established, the original cost of the inventory less the related inventory allowance represents the new cost basis of such products.

Prepaid inventories, net

Prepaid inventories represent inventories paid for in advance of receipt. Prepaid inventories at December 31, 2011 and 2010 were \$1.0 million and \$2.1 million respectively.

Table of Contents**Overstock.com, Inc.****Notes to Consolidated Financial Statements (Continued)****2. ACCOUNTING POLICIES (Continued)***Prepays and other assets*

Prepays and other assets represent expenses paid prior to receipt of the related goods or services, including advertising, maintenance, packaging, insurance, and other miscellaneous costs, as well as investments in precious metals. Total prepays and other assets at December 31, 2011 and 2010 were \$12.7 million and \$11.7 million, respectively.

Fixed assets

Fixed assets, which include assets such as technology infrastructure, internal-use software, website development, furniture and fixtures and leasehold improvements, are recorded at cost and depreciated using the straight-line method over the estimated useful lives of the related assets or the term of the related lease, whichever is shorter, as follows:

	Life (years)
Computer software	2 - 3
Computer hardware	3
Furniture and equipment	3 - 5

Leasehold improvements are amortized over the shorter of the term of the related leases or estimated useful lives.

Depreciation and amortization expense is classified within the corresponding operating expense categories on the consolidated statements of operations as follows (in thousands):

	Year ended December 31,		
	2011	2010	2009
Cost of goods sold direct	\$ 714	\$ 1,179	\$ 1,264
Technology	14,433	12,489	10,943
General and administrative	1,203	912	676
Total depreciation and amortization, including internal-use software and website development	\$ 16,350	\$ 14,580	\$ 12,883

Upon sale or retirement of assets, cost and related accumulated depreciation and amortization are removed from the balance sheet and the resulting gain or loss is reflected in the consolidated statements of operations.

Internal-use software and website development

Included in fixed assets is the capitalized cost of internal-use software and website development, including software used to upgrade and enhance our Website and processes supporting our business. We capitalize costs incurred during the application development stage of internal-use software and amortize these costs over the estimated useful life of two to three years. Costs incurred related to design or maintenance of internal-use software are expensed as incurred.

During the years ended December 31, 2011 and 2010, we capitalized \$9.6 million and \$8.2 million, respectively, of costs associated with internal-use software and website development, both developed

Table of Contents

Overstock.com, Inc.

Notes to Consolidated Financial Statements (Continued)

2. ACCOUNTING POLICIES (Continued)

internally and acquired externally. Amortization of costs associated with internal-use software and website development was \$8.0 million and \$6.7 million for those respective periods.

Leases

We account for lease agreements as either operating or capital leases depending on certain defined criteria. In certain of our lease agreements, we receive rent holidays and other incentives. We recognize lease costs on a straight-line basis without regard to deferred payment terms, such as rent holidays that defer the commencement date of required payments. Additionally, tenant improvement allowances are amortized as a reduction in rent expense over the term of the lease. Leasehold improvements are capitalized at cost and amortized over the lesser of their expected useful life or the life of the lease, without assuming renewal features, if any, are exercised.

Treasury stock

We account for treasury stock under the cost method and include treasury stock as a component of stockholders' equity (deficit).

Other long-term assets

Other long-term assets include long-term prepaid expenses and deposits.

Impairment of long-lived assets

We review property and equipment and other long-lived assets for impairment whenever events or changes in circumstances indicate that the carrying amount of an asset group may not be recoverable. Recoverability is measured by comparison of the assets' carrying amount to future undiscounted net cash flows the asset group is expected to generate. Cash flow forecasts are based on trends of historical performance and management's estimate of future performance, giving consideration to existing and anticipated competitive and economic conditions. If such asset group is considered to be impaired, the impairment to be recognized is measured by the amount by which the carrying amount of the assets exceeds their fair values. There were no impairments to long-lived assets recorded during the years ended December 31, 2011, 2010, and 2009.

Goodwill

Goodwill represents the excess of the purchase price paid over the fair value of the tangible net assets acquired in business combinations.

Goodwill is not amortized but is tested for impairment at least annually. When evaluating whether goodwill is impaired, we compare the fair value of the reporting unit to which the goodwill is assigned to its carrying amount. If the carrying amount exceeds its fair value, then the amount of the impairment loss must be measured. The impairment loss, if any, is calculated by comparing the implied fair value of the goodwill to its carrying amount. In calculating the implied fair value of goodwill, the fair value of the reporting unit is allocated to the other assets and liabilities within the reporting unit based on estimated fair value. The excess of the fair value of a reporting unit over the amount allocated to its other assets and liabilities is the implied fair value of goodwill. An impairment loss is recognized when the carrying amount of goodwill exceeds its implied fair value.

Table of Contents

Overstock.com, Inc.

Notes to Consolidated Financial Statements (Continued)

2. ACCOUNTING POLICIES (Continued)

In accordance with this guidance, we test for impairment of goodwill in the fourth quarter or when we deem that a triggering event has occurred. Goodwill totaled \$2.8 million at December 31, 2011 and 2010. There were no impairments to goodwill recorded during the years ended December 31, 2011, 2010, and 2009.

Revenue recognition

We derive our revenue primarily from two sources: direct revenue and fulfillment partner revenue, including listing fees and commissions collected from products being listed and sold through the Auctions tab, which we removed from our site in July 2011, advertisement revenue derived from our real estate listing business, which we removed from our site in June 2011, from our cars listing business, and from advertising on our shopping, travel and insurance pages. We have organized our operations into two principal segments based on the primary source of revenue: direct revenue and fulfillment partner revenue (see Note 22 "Business Segments").

Revenue is recognized when the following revenue recognition criteria are met: (1) persuasive evidence of an arrangement exists; (2) delivery has occurred or the service has been provided; (3) the selling price or fee revenue earned is fixed or determinable; and (4) collection of the resulting receivable is reasonably assured. Revenue related to merchandise sales is recognized upon delivery to our customers. As we ship high volumes of packages through multiple carriers, it is not practical for us to track the actual delivery date of each shipment. Therefore, we use estimates to determine which shipments are delivered and, therefore, recognized as revenue at the end of the period. Our delivery date estimates are based on average shipping transit times, which are calculated using the following factors: (i) the type of shipping carrier (as carriers have different in-transit times); (ii) the fulfillment source (either our warehouses or those of our fulfillment partners); (iii) the delivery destination; and (iv) actual transit time experience, which shows that delivery date is typically one to eight business days from the date of shipment.

We review and update our estimates on a quarterly basis based on our actual transit time experience. However, actual shipping times may differ from our estimates.

We evaluate the criteria outlined in ASC Topic 605-45, *Principal Agent Considerations*, in determining whether it is appropriate to record the gross amount of product sales and related costs or the net amount earned as commissions. When we are the primary obligor in a transaction, are subject to inventory risk, have latitude in establishing prices and selecting suppliers, or have several but not all of these indicators, revenue is recorded gross. If we are not the primary obligor in the transaction and amounts earned are determined using a fixed percentage, revenue is recorded on a net basis. Currently, the majority of both direct revenue and fulfillment partner revenue is recorded on a gross basis, as we are the primary obligor. We present revenue net of sales taxes.

We periodically provide incentive offers to our customers to encourage purchases. Such offers include current discount offers, such as percentage discounts off current purchases and other similar offers, which, when used by customers, are treated as a reduction of revenue.

Based upon our historical experience, revenue typically increases during the fourth quarter because of the holiday retail season.

Table of Contents

Overstock.com, Inc.

Notes to Consolidated Financial Statements (Continued)

2. ACCOUNTING POLICIES (Continued)

Direct revenue

Direct revenue is derived from merchandise sales to individual consumers and businesses that are fulfilled from our leased warehouses. Direct revenue comes from sales that occur primarily through our Website, but may also occur through offline channels.

Fulfillment partner revenue

Fulfillment partner revenue is derived from merchandise sales through our Website which fulfillment partners ship directly to consumers and businesses from warehouses maintained by our fulfillment partners.

We operate an online site for listing cars for sale as a part of our Website. The cars listing service allows dealers to list vehicles for sale and allows buyers to review vehicle descriptions, post offers to purchase, and provides the means for purchasers to contact sellers for further information and negotiations on the purchase of an advertised vehicle. Revenue from the cars listing business is included in the fulfillment partner segment on a net basis.

We offer a consignment service to suppliers where the suppliers' merchandise is stored in and shipped from our leased warehouses. We pay the consignment supplier upon sale of the consigned merchandise to the consumer. Revenue from consignment service to suppliers is included in fulfillment partner segment on a gross basis.

In April 2011, we again began operating a travel shopping site as part of our Website where customers can purchase discount travel packages, flights, rental cars and other travel-related products and services. We also earn advertisement revenue from our travel business. Revenue from the travel businesses is included in the fulfillment partner segment on a net basis.

In July 2011, we began an insurance shopping service as part of our Website where customers can shop for auto and home insurance and compare quotes from various insurance providers. We also earn advertisement revenue from our insurance business. Revenue generated from our insurance shopping site is included in the fulfillment partner segment on a net basis.

Prior to July 2011, we operated an online auction service on our Website. In July 2011, we removed our Marketplace tab from our Website and no longer provide auction services. The financial results and related assets of the online auction service were not significant to our business. The Marketplace tab allowed sellers to list items for sale, buyers to bid on items of interest, and users to browse through listed items online. Except in limited circumstances where our auction site listed returned merchandise, we were not the seller of auction-listed items and had no control over the pricing of those items. Therefore, the listing fees for items sold at auction by sellers were recorded as revenue during the period these items were listed or sold on a net basis. The revenue for the returned merchandise that we sold at auction was recorded on a gross basis. Revenue from the auctions business is included in the fulfillment partner segment.

We operated an online site for listing real estate for sale as a part of our Website. In June 2011, we removed our online site for listing real estate for sale from our Website and no longer provide these real estate listing services. The financial results and related assets of the online site for real estate for sale were not significant to our business. The real estate listing service allowed customers to search

Table of Contents

Overstock.com, Inc.

Notes to Consolidated Financial Statements (Continued)

2. ACCOUNTING POLICIES (Continued)

active listings across the country. Revenue from the real estate listing business is included in the fulfillment partner segment, on a net basis.

Prior to June 2011, we operated Eziba.com, a private sale website featuring home décor products, jewelry, apparel and accessories from many leading brands. In June 2011, we turned off the Eziba.com website; however, we continue to sell the type of products that were listed on Eziba.com through our websites, O.co and Overstock.com.

Revenue from our other businesses is less than 1% of total net revenues.

International business

We began selling products through our Website to customers outside the United States in late August 2008. As of December 31, 2011, we were offering products to customers in over 105 countries and non-U.S. territories. We do not have sales operations outside the United States, and are using a U.S. based third party to provide logistics and fulfillment for all international orders. Revenue generated from our international business is included in either direct or fulfillment partner revenue, depending on whether the product is shipped from our warehouses or from a fulfillment partner. Less than 1% of our sales are made to international customers.

Total revenues from International sales were \$8.8 million \$9.4 million and \$5.1 million for the years ended December 31, 2011, 2010 and 2009 respectively.

Club O loyalty program

We have a customer loyalty program called Club O for which we sell annual memberships. We record membership fees as deferred revenue and we recognize revenue ratably over the membership period. The Club O loyalty program allows members to earn reward dollars for qualifying purchases made on our Website. We also have a co-branded credit card program (see "Co-branded credit card revenue" below for more information). Co-branded cardholders are also Club O members and earn additional reward dollars for purchases made on our Website, and from other merchants. Reward dollars earned may be redeemed on future purchases made through our Website. Club O reward dollars expire 90 days after the customer's Club O membership expires. We account for these transactions as multiple element arrangements and allocate value to the elements using their relative fair values. We include the value of reward dollars earned in deferred revenue and we record it as a reduction of revenue at the time the reward dollars are earned.

We recognize revenue for Club O reward dollars when: (i) customers redeem their reward dollars as part of a purchase at our Website, (ii) reward dollars expire or (iii) the likelihood of reward dollars being redeemed by a customer is remote ("reward dollar breakage"). Due to the loyalty program's short history, currently no reward dollar breakage is recognized until the reward dollars expire. However, in the future we plan to recognize such breakage based upon historical redemption patterns.

In instances where customers receive free Club O reward dollars not associated with any purchases, we account for these transactions as sales incentives such as coupons and record a reduction of revenue at the time the reward dollars are redeemed.

Table of Contents

Overstock.com, Inc.

Notes to Consolidated Financial Statements (Continued)

2. ACCOUNTING POLICIES (Continued)

Co-branded credit card revenue

During the year ended December 31, 2009, we had a co-branded credit card agreement with a commercial bank, for the issuance of credit cards bearing the Overstock brand, under which the bank paid us fees for new accounts, renewed accounts and card usage. New and renewed account fees were recognized as revenues on a straight-line basis over the estimated life of the credit card relationship. Credit card usage fees were recognized as revenues as actual credit card usage occurred. Our co-branded credit card agreement with this bank terminated effective August 30, 2009.

In March 2010, we entered into a co-branded credit card agreement with a different commercial bank for the issuance of credit cards bearing the Overstock.com brand, under which the bank pays us fees for new accounts and for customer usage of the cards. The agreement also provides for a customer loyalty program offering reward points that customers will accrue from card usage and can use to make purchases on our Website (See "Club O loyalty program" above for more information). We launched this co-branded card in September 2010. New account fees are recognized as revenue on a straight-line basis over the estimated life of the credit card relationship. Credit card usage fees are recognized as revenues as actual credit card usage occurs.

Deferred revenue

Customer orders are recorded as deferred revenue prior to delivery of products or services ordered. We record amounts received for Club O membership fees as deferred revenue and we recognize it ratably over the membership period. We record Club O reward dollars earned from purchases as deferred revenue at the time they are earned and we recognize it as revenue upon redemption. If reward dollars are not redeemed, we recognize revenue upon expiration. In addition, we sell gift cards and record related deferred revenue at the time of the sale. We sell gift cards without expiration dates and we recognize revenue from a gift card upon redemption of the gift card. If a gift card is not redeemed, we recognize income when the likelihood of its redemption becomes remote based on our historical redemption experience. We consider the likelihood of redemption to be remote after 36 months.

Sales returns allowance

We inspect returned items when they arrive at our processing facility. We refund the full cost of the merchandise returned and all original shipping charges if the returned item is defective or we or our fulfillment partners have made an error, such as shipping the wrong product.

If the return is not a result of a product defect or a fulfillment error and the customer initiates a return of an unopened item within 30 days of delivery, for most products we refund the full cost of the merchandise minus the original shipping charge and actual return shipping fees. However, we reduce refunds for returns initiated more than 30 days after delivery or that are received at our returns processing facility more than 45 days after initial delivery.

If our customer returns an item that has been opened or shows signs of wear, we issue a partial refund minus the original shipping charge and actual return shipping fees.

Revenue is recorded net of estimated returns. We record an allowance for returns based on current period revenues and historical returns experience. We analyze actual historical returns, current

Table of Contents**Overstock.com, Inc.****Notes to Consolidated Financial Statements (Continued)****2. ACCOUNTING POLICIES (Continued)**

economic trends and changes in order volume and acceptance of our products when evaluating the adequacy of the sales returns allowance in any accounting period.

During the three months ended December 31, 2009, we had a change in estimate for our sales returns allowance that reduced the allowance by approximately \$3.0 million from the prior quarter-end balance and \$3.2 million from the prior year-end balance that was recorded in accordance with ASC 250 "Accounting Changes and Error Corrections" on a prospective basis. The change in estimate for our sales returns allowance had the following impact on our financial results for the three and twelve months ended December 31, 2009 (amounts in thousands, except per share data):

	Three months ended December 31, 2009	Twelve months ended December 31, 2009
	(\$ Change)	(\$ Change)
Revenue, net	\$ 2,995	\$ 3,208
Gross profit	752	805
Income from continuing operations before income taxes	752	805
Net income	752	805
Net income attributable to common shares basic	\$ 0.04	\$ 0.04
Net income attributable to common shares diluted	\$ 0.04	\$ 0.03

The reasons for the change in estimate in the fourth quarter of 2009 were as follows. We made improvements to our information systems during 2008 and 2009 that enabled enhanced reporting and analysis of our returns data used in the estimation process. In early 2009, we implemented initiatives to reduce overall return rates in several of our product categories. In September 2009, we entered into a new master supplier agreement with our fulfillment partners that provided financial incentives for suppliers to reduce returns. These initiatives resulted in a sustained decrease in our product return trends resulting in the change in estimate of sales returns allowance during the three months ended December 31, 2009.

Although we believe that our estimates, assumptions, and judgments are reasonable, actual results have historically differed from our estimates. Based on our actual returns experience through December 31, 2011, had our estimated returns equaled our actual returns, our net income would have decreased approximately \$805,000 for the year ended December 31, 2009. Based on the improvements and initiatives discussed above, we believe that our estimates, assumptions and judgments have improved and our actual product returns have not differed materially from our estimates at December 31, 2010 and during 2011.

The allowance for returns was \$10.9 million and \$11.5 million at December 31, 2011 and 2010, respectively.

Credit card chargeback allowance

Revenue is recorded net of estimated credit card chargebacks. We maintain an allowance for credit card chargebacks based on current period revenues and historical chargeback experience. The allowance for chargebacks was \$187,000 and \$125,000 at December 31, 2011 and 2010, respectively.

Table of Contents**Overstock.com, Inc.****Notes to Consolidated Financial Statements (Continued)****2. ACCOUNTING POLICIES (Continued)***Cost of goods sold*

Cost of goods sold includes product costs, warehousing costs, outbound shipping costs, handling and fulfillment costs, customer service costs and credit card fees, and is recorded in the same period in which related revenues have been recorded. Cost of goods sold, including product cost and other costs and fulfillment and related costs are as follows (in thousands):

	Year ended December 31,					
	2011		2010		2009	
Total net revenue	\$ 1,054,277	100%	\$ 1,089,873	100%	\$ 876,769	100%
Cost of goods sold						
Product costs and other cost of goods sold	821,739	78%	842,064	78%	664,537	76%
Fulfillment and related costs	53,450	5%	58,169	5%	47,480	5%
Total cost of goods sold	875,189	83%	900,233	83%	712,017	81%
Gross profit	\$ 179,088	17%	\$ 189,640	17%	\$ 164,752	19%

Advertising expense

We expense the costs of producing advertisements the first time the advertising takes place and expense the cost of communicating advertising in the period during which the advertising space or airtime is used. Internet advertising expenses are recognized as incurred based on the terms of the individual agreements, which are generally: 1) a commission for traffic driven to the Website that generates a sale or 2) a referral fee based on the number of clicks on keywords or links to our Website generated during a given period. Advertising expense is included in sales and marketing expenses and totaled \$52.5 million, \$53.2 million and \$48.9 million during the years ended December 31, 2011, 2010 and 2009, respectively. Prepaid advertising, which consists primarily of prepaid advertising airtime, (included in Prepaids and other assets in the accompanying consolidated balance sheets) was \$1.4 million and \$2.9 million at December 31, 2011 and 2010, respectively.

Stock-based compensation

We measure compensation expense for all outstanding unvested share-based awards at fair value on date of grant and recognize compensation expense over the service period for awards expected to vest on a straight line basis. The estimation of stock awards that will ultimately vest requires judgment, and to the extent actual results differ from estimates, such amounts will be recorded as an adjustment in the period estimates are revised. We consider many factors when estimating expected forfeitures, including types of awards, recipients of awards and historical experience. Actual results may differ substantially from these estimates (see Note 17 "Stock-Based Awards").

Loss contingencies

In the normal course of business, we are involved in legal proceedings and other potential loss contingencies. We accrue a liability for such matters when it is probable that a loss has been incurred and the amount can be reasonably estimated. When only a range of possible loss can be estimated, the most probable amount in the range is accrued. If no amount within this range is a better estimate than

Table of Contents

Overstock.com, Inc.

Notes to Consolidated Financial Statements (Continued)

2. ACCOUNTING POLICIES (Continued)

any other amount within the range, the minimum amount in the range is accrued. We expense legal fees as incurred.

Restructuring

Restructuring expenses are primarily comprised of lease termination costs. ASC Topic 420, *Accounting for Costs Associated with Exit or Disposal Activities*, requires that when an entity ceases using a property that is leased under an operating lease before the end of the contractual term, the termination costs should be recognized and measured at fair value when the entity ceases using the facility. Key assumptions in determining the restructuring expenses and related liability include the terms that may be negotiated to exit certain contractual obligations (see Note 3 "Restructuring Expense").

Income taxes

Income taxes are accounted for under the asset and liability method. Deferred income tax assets and liabilities are recognized for the future tax consequences attributable to differences between the financial statement carrying amounts of existing assets and liabilities and their respective tax basis using enacted tax rates in effect for the year in which the differences are expected to affect taxable income.

Deferred tax assets are evaluated for future realization and are reduced by a valuation allowance to the extent that it is more likely than not that the deferred tax asset will not be realized. We consider many factors when assessing the likelihood of future realization of our deferred assets including expectations of future taxable income, the carry-forward periods available for tax reporting purposes, the reversals of our deferred tax liabilities and tax planning strategies, to the extent available. At December 31, 2011 and December 31, 2010, we have a full valuation allowance against our deferred tax assets, net of expected reversals of existing deferred tax liabilities, as we believe it is more likely than not that these benefits will not be realized. Significant judgment is required in making this assessment, and it is very difficult to predict when, if ever, our assessment may conclude that the remaining portion of the deferred tax assets are realizable.

Earnings (loss) per share

Basic earnings (loss) per share is computed by dividing net income (loss) attributable to common shares by the weighted average number of common shares outstanding during the period. Diluted earnings (loss) per share is computed by dividing net income (loss) attributable to common shares for the period by the weighted average number of common and potential common shares outstanding during the period. Potential common shares, comprising incremental common shares issuable upon the exercise of stock options, restricted stock awards and convertible senior notes are included in the calculation of diluted earnings (loss) per common share to the extent such shares are dilutive.

Table of Contents**Overstock.com, Inc.****Notes to Consolidated Financial Statements (Continued)****2. ACCOUNTING POLICIES (Continued)**

The following table sets forth the computation of basic and diluted net income (loss) per common share for the periods indicated (in thousands, except per share data):

	Year ended December 31		
	2011	2010	2009
Net income (loss)	\$ (19,438)	\$ 13,889	\$ 7,747
Deemed dividend related to redeemable common stock	(12)	(112)	(48)
Net income (loss) attributable to common shares	\$ (19,450)	\$ 13,777	\$ 7,699
Net income (loss) per common share basic:			
Net income (loss) attributable to common shares basic	\$ (0.84)	\$ 0.60	\$ 0.34
Weighted average common shares outstanding basic	23,259	23,019	22,821
Effect of dilutive securities:			
Stock options and restricted stock awards		347	246
Convertible senior notes			
Weighted average common shares outstanding diluted	23,259	23,366	23,067
Net income (loss) attributable to common shares diluted	\$ (0.84)	\$ 0.59	\$ 0.33

The following shares were excluded from the calculation of diluted weighted average shares outstanding as their effect would have been anti-dilutive (in thousands):

	Year ended December 31		
	2011	2010	2009
Stock options and restricted stock units	927	551	740
Convertible senior notes		454	787

Accounting pronouncements adopted

We adopted ASU 2009-13, which amends ASC Topic 605, *Revenue Recognition*, on January 1, 2011. ASU 2009-13 requires companies to allocate revenue in multiple-element arrangements based on an element's estimated selling price if vendor-specific or other third-party evidence of value is not available. ASU 2009-13 is effective for annual reporting periods after December 15, 2010. The adoption of ASU 2009-13 did not have a material impact on our consolidated financial statements.

Accounting pronouncements issued not yet adopted

In May 2011, the Financial Accounting Standards Board ("FASB") issued an accounting pronouncement related to fair value measurement (FASB ASC Topic 820), which amends current guidance to achieve common fair value measurement and disclosure requirements in U.S. GAAP and International Financial Reporting Standards. The amendments generally represent clarification of FASB ASC Topic 820, but also include instances where a particular principle or requirement for measuring fair value or disclosing information about fair value measurements has changed. This pronouncement is effective for fiscal years, and interim periods within those years, beginning after December 15, 2011. We will adopt this pronouncement for our fiscal year beginning January 1, 2012. We do not expect this pronouncement to have a material effect on our consolidated financial statements.

Table of Contents**Overstock.com, Inc.****Notes to Consolidated Financial Statements (Continued)****2. ACCOUNTING POLICIES (Continued)**

In June 2011, the FASB issued an accounting pronouncement that provides new guidance on the presentation of comprehensive income (FASB ASC Topic 220) in financial statements. Entities are required to present total comprehensive income either in a single, continuous statement of comprehensive income or in two separate, but consecutive, statements. Under the single-statement approach, entities must include the components of net income, a total for net income, the components of other comprehensive income and a total for comprehensive income. Under the two-statement approach, entities must report an income statement and, immediately following, a statement of other comprehensive income. The provisions for this pronouncement are effective for fiscal years, and interim periods within those years, beginning after December 15, 2011, with early adoption permitted. We will adopt this pronouncement for our fiscal year beginning January 1, 2012. We do not expect this pronouncement to have a material effect on our consolidated financial statements.

In September 2011, the FASB issued accounting pronouncement No. 2011-08, *Intangibles - Goodwill and Other* (FASB ASC Topic 350) that will allow an entity to first assess qualitative factors to determine whether it is necessary to perform the two-step quantitative goodwill impairment test. Under these amendments, an entity would not be required to calculate the fair value of a reporting unit unless the entity determines, based on a qualitative assessment, that it is more likely than not that its fair value is less than its carrying amount. The amendments include a number of events and circumstances for an entity to consider in conducting the qualitative assessment. The provisions for this pronouncement are effective for fiscal years, and interim periods beginning after December 15, 2011, with early adoption permitted. We will adopt this pronouncement for our fiscal year beginning January 1, 2012. We do not expect this pronouncement to have a material effect on our consolidated financial statements.

3. RESTRUCTURING EXPENSE

During the fourth quarter of 2006, we began a facilities consolidation and restructuring program designed to reduce the overall expense structure in an effort to improve future operating performance. The facilities consolidation and restructuring program was substantially completed by the end of the second quarter of 2007.

Restructuring liabilities along with charges (credits) to expense and payments associated with the facilities consolidation and restructuring program for lease and contract termination costs are as follows (in thousands):

	Balance at Beginning of Year	Accretion Expense	Net Cash Payments	Adjustments	Balance at End of Year
Year ended December 31, 2011	\$ 1,797	\$ 166	\$ (472)	\$	\$ 1,491
Year ended December 31, 2010	\$ 2,685	\$ 240	\$ (559)	\$ (569)	\$ 1,797

There were no restructuring charges or reversals during the year ended December 31, 2011. We reversed \$569,000 of lease termination costs liability during the year ended December 31, 2010 due to changes in the estimate of sublease income, primarily as a result of our entering into agreements with a sublessee to terminate their subleases and re-occupy a portion of the space previously ceased to be used by us, due to our growth and need for additional space.

Table of Contents**Overstock.com, Inc.****Notes to Consolidated Financial Statements (Continued)****4. COMPREHENSIVE INCOME (LOSS)**

Our comprehensive income (loss) is as follows (in thousands):

	Year ended December 31,		
	2011	2010	2009
Net income (loss)	\$ (19,438)	\$ 13,889	\$ 7,747
Reclassification adjustment included in net income (loss)			(48)
Comprehensive income (loss)	\$ (19,438)	\$ 13,889	\$ 7,699

5. ACCOUNTS RECEIVABLE

Accounts receivable consist of the following (in thousands):

	December 31,	
	2011	2010
Credit card receivables	\$ 6,042	\$ 7,679
Accounts receivable, other	8,033	7,929
	14,075	15,608
Less: allowance for doubtful accounts	(574)	(2,048)
Accounts receivable, net	\$ 13,501	\$ 13,560

6. INVENTORIES

Inventories consist of the following (in thousands):

	December 31,	
	2011	2010
Product inventory	\$ 14,904	\$ 24,900
Inventory in-transit	8,089	7,214
Total inventories, net	\$ 22,993	\$ 32,114

7. PREPAIDS AND OTHER ASSETS

Prepays and other assets consist of the following (in thousands):

	December 31,	
	2011	2010
Prepaid maintenance	\$ 6,995	\$ 5,446
Prepaid advertising	1,407	2,922
Prepaid other	2,592	1,626
Investment in precious metals	1,657	1,657
Total prepaids and other assets	\$ 12,651	\$ 11,651

Table of Contents**Overstock.com, Inc.****Notes to Consolidated Financial Statements (Continued)****8. FIXED ASSETS**

Fixed assets consist of the following (in thousands):

	December 31,	
	2011	2010
Computer hardware and software, including internal-use software and website development	\$ 141,435	\$ 129,953
Furniture and equipment	13,945	13,204
Leasehold improvements	5,445	5,206
	160,825	148,363
Less: accumulated depreciation and amortization	(135,503)	(120,563)
Total fixed assets	\$ 25,322	\$ 27,800

Depreciation and amortization of property and equipment totaled \$16.4 million, \$14.6 million, and \$12.9 million for the years ended December 31, 2011, 2010 and 2009, respectively. Fixed assets included assets under capital leases of \$1.7 million and \$1.7 million, and accumulated amortization related to assets under capital leases of \$1.5 million and \$902,000 at December 31, 2011 and 2010, respectively.

9. OTHER LONG-TERM ASSETS

Other long-term assets consist of the following (in thousands):

	December 31,	
	2011	2010
Prepaid expenses, long-term portion	\$ 1,762	\$ 807
Prepaid other	498	598
Total other long-term assets	\$ 2,260	\$ 1,405

Table of Contents**Overstock.com, Inc.****Notes to Consolidated Financial Statements (Continued)****10. ACCRUED LIABILITIES**

Accrued liabilities consist of the following (in thousands):

	December 31,	
	2011	2010
Allowance for returns	\$ 10,899	\$ 11,525
Accounts payable accrual	8,284	7,626
Accrued marketing expenses	7,632	2,484

Short term portion of restructuring accrual (Note 3)	462	447
Total accrued liabilities	\$ 47,902	\$ 40,751

11. DEFERRED REVENUE

Deferred revenue consists of the following (in thousands):

	December 31,	
	2011	2010
Payments owed or received prior to product delivery	\$ 17,691	\$ 16,938
Club O membership fees and reward points	5,193	2,428
Unredeemed gift cards	3,738	3,899
Other	1,356	762
Total deferred revenue	\$ 27,978	\$ 24,027

12. BORROWINGS*U.S. Bank Financing Agreement*

We are a party to a Financing Agreement with U.S. Bank National Association ("U.S. Bank") dated December 22, 2009 (as amended to date, the "Financing Agreement"). The maximum credit potentially available under the revolving facility is \$20 million. Our obligations under the Financing Agreement and all related agreements are secured by all or substantially all of our assets, excluding our interest in certain litigation. Subject to certain exceptions, the full amount of the revolving facility is expected to be available to us as long as \$20 million in the aggregate is maintained on deposit with U.S. Bank. At December 31, 2011 and at the date of this report we maintain \$20 million on deposit with U.S. Bank. The obligation of U.S. Bank to make advances under the Financing Agreement is subject to the conditions set forth in the Financing Agreement.

Table of Contents

Overstock.com, Inc.

Notes to Consolidated Financial Statements (Continued)

12. BORROWINGS (Continued)

Our failure to keep at least \$20 million on deposit in certain accounts with U.S. Bank would constitute a "triggering event" under the Financing Agreement. If a triggering event occurs, we would become subject to financial covenants (i) limiting our capital expenditures to \$20 million annually, and (ii) requiring us to maintain a Financing Agreement defined fixed charges coverage ratio of at least 1.10 to 1.00 as of the end of any fiscal quarter for the period of the prior four quarters. The occurrence of a triggering event could also result in a decrease in the amount available to us under the non cash-collateralized portion of the facility, as availability would then depend, in part, on the Borrowing Base (as defined in the Financing Agreement).

The stated termination date of the Financing Agreement is December 31, 2012. The maximum amount potentially available under the Financing Agreement is \$20 million, limited to \$3 million for cash-collateralized letters of credit and other financial accommodations, and \$17 million for advances supported by our non-cash collateral. As permitted by the Financing Agreement, during the year ended December 31, 2011, we used the entire \$17 million available for advances supported by our non-cash collateral to fund the redemption of our then-outstanding Senior Convertible Notes due December 1, 2011.

Advances under the Financing Agreement bear interest at one-month LIBOR plus 2.5%. The interest rate for borrowings under the Financing Agreement was 2.75% at December 31, 2011. We have also entered into an interest rate cap agreement with U.S. Bank with an effective date of October 1, 2011 limiting our exposure for one-month LIBOR at 0.5% for the term of the Financing Agreement.

The Financing Agreement includes affirmative covenants and negative covenants that prohibit a variety of actions without the approval of U.S. Bank, including, without limitation, covenants that (subject to certain exceptions) limit our ability to (a) incur or guarantee debt or enter into indemnity agreements, (b) create or permit liens, (c) enter into any merger or consolidation or purchase or otherwise acquire all or substantially all of the assets of another person or the assets comprising any line of business or business unit of another person, (d) except for permitted acquisitions, purchase the securities of, create, invest in, or form any subsidiary or other entity, (e) make loans or advances, (f) purchase, acquire or redeem shares of our capital stock or other securities, (g) change our capital structure or issue any new class of capital stock, (h) change our business objectives, purposes or operations in a manner which could reasonably be expected to have a material adverse effect, (i) change our fiscal year, (j) enter into transactions with affiliates, (k) sell assets except for the sale of inventory in the ordinary course of business, (l) permit judgments to be rendered against us in excess of certain limits or having specified effects, depending in part on whether a triggering event has occurred or would occur, (m) take certain actions regarding our receivables, and (n) take certain actions regarding our inventory. During 2011, we were out of compliance with two covenants and obtained waivers from U.S. Bank for these covenant violations.

Amounts outstanding under the Financing Agreement at December 31, 2011 and December 31, 2010 were \$17.0 million and zero, respectively, and letters of credit totaling \$2.0 million and \$2.4 million, respectively, were issued on our behalf collateralized by compensating cash balances held at U.S. Bank, which are included in Restricted cash in the accompanying consolidated balance sheets. At December 31, 2011, we had \$20.0 million in compensating cash balances held at U.S. Bank. If we draw on the \$20.0 million compensating cash balance, it will constitute a triggering event and result in additional and more restrictive covenants.

Table of Contents

Overstock.com, Inc.

Notes to Consolidated Financial Statements (Continued)

12. BORROWINGS (Continued)

Prior to December 27, 2011, we were a party to a Master Lease Agreement and a Financial Covenants Rider and related documents (collectively, the "Master Lease Agreement") dated September 17, 2010 with U.S. Bancorp Equipment Finance, Inc. Technology Finance Group ("Lessor"), an affiliate of U.S. Bank National Association. Under the Master Lease Agreement we entered into four separate leases, pursuant to which we sold certain information technology hardware ("IT Assets") to Lessor, which were simultaneously leased back for a period of 48 months and financed certain software licenses for a period of 48 months for proceeds totaling \$16.4 million. Subsequently, we entered into eleven additional leases; whereby we leased \$8.2 million in IT Assets and financed certain software licenses directly from the Lessor. We had the right to repurchase the IT Assets at the end of the 48-month term for \$1.00. Payments on the Master Lease Agreement were due monthly. The weighted average effective interest rate under the Master Lease Agreement was 6.29%. We had accounted for the Master Lease Agreement as a financing transaction and amounts owed are included in Finance Obligations, current and non-current in the consolidated balance sheets. We recorded no gain or loss as a result of entering into these transactions.

On December 27, 2011, we and the Lessor agreed to terminate the Master Lease Agreement and all related schedules. We paid approximately \$20.1 million to Lessor in connection with the amendment and agreement to terminate the Master Lease Agreement, resulting in a \$1.2 million loss on early retirement of debt included in Other income, net in our consolidated statements of operations. As of December 31, 2011 and December 31, 2010, zero and \$16.1 million of the finance obligations remained outstanding, respectively.

U.S. Bank Purchasing Card Agreement

We have a commercial purchasing card (the "Purchasing Card") agreement with U.S. Bank. We use the Purchasing Card for business purpose purchasing and must pay it in full each month. At December 31, 2011, \$3.4 million was outstanding and \$1.6 million was available under the Purchasing Card. At December 31, 2010, \$2.7 million was outstanding and \$2.3 million was available under the Purchasing Card.

Capital leases

We have leased certain software and computer equipment, under non-cancelable leases that expire on various dates through 2013.

Fixed assets included assets under capital leases totaling \$1.7 million at December 31, 2011 and 2010 with accumulated depreciation of \$1.5 million and \$902,000, respectively. Depreciation expense of assets recorded under capital leases was \$554,000 and \$580,000 for the years ended December 31, 2011 and 2010, respectively.

Table of Contents**Overstock.com, Inc.****Notes to Consolidated Financial Statements (Continued)****12. BORROWINGS (Continued)**

Future payments of capital lease obligations are as follows (in thousands):

Less: amount representing interest	(7)
Present value of capital lease obligations	112
Less: current portion	(110)
Capital lease obligations, non-current	\$ 2

3.75% Convertible Senior Notes

In November 2004, we completed an offering of \$120.0 million of 3.75% Convertible Senior Notes due 2011 (the "Senior Notes"). Proceeds to us were \$116.2 million, net of \$3.8 million of initial purchaser's discount and debt issuance costs. The discount and debt issuance costs were being amortized using the straight-line method which approximated the effective interest method. We recorded amortization of discount and debt issuance costs related to this offering totaling \$77,000, \$228,000 and \$331,000 during the years ended December 31, 2011, 2010 and 2009, respectively. Interest on the Senior Notes was payable semi-annually on June 1 and December 1 of each year. The Senior Notes were scheduled to mature on December 1, 2011 and were unsecured and ranked equally in right of payment with all existing and future unsecured, unsubordinated debt and senior in right of payment to any existing and future subordinated indebtedness.

We retired all of the remaining \$34.6 million of the Senior Notes during the year ended December 31, 2011, for \$34.6 million in cash, resulting in a loss of \$54,000 on early extinguishment of debt, net of \$77,000 of associated unamortized discount. Of the \$34.6 million in Senior Notes retired during the year ended December 31, 2011, \$10.1 million were held by Chou Associates Management, Inc. or an affiliate of Chou ("Chou") and \$21.7 million were held by Fairfax Financial Holdings Limited or an affiliate of Fairfax ("Fairfax"). Chou and Fairfax are beneficial owners of more than 5% of our common stock. We retired \$25.4 million of the Senior Notes during the year ended December 31, 2010 for \$24.9 million in cash, resulting in a gain of \$346,000 on early extinguishment of debt, net of \$158,000 of associated unamortized discount.

As of December 31, 2011 and December 31, 2010, zero and \$34.5 million of the Senior Notes, net of debt discount remained outstanding, respectively.

Table of Contents**Overstock.com, Inc.****Notes to Consolidated Financial Statements (Continued)****13. COMMITMENTS AND CONTINGENCIES***Summary of future minimum lease payments for all operating leases*

Minimum future payments under all operating leases as of December 31, 2011, are as follows (in thousands):

Payments due by period	
2012	\$ 8,916
2013	8,206
2014	8,404
2015	6,818
2016	1,381
Thereafter	183
	\$ 33,908

Rental expense for operating leases totaled \$8.9 million, \$8.0 million and \$7.5 million for the years ended December 31, 2011, 2010 and 2009, respectively. Estimated sublease income of \$584,000 is expected over the next five years of which \$162,000 is anticipated to be received in the next 12 months.

Naming rights

During 2011, we entered into a six-year agreement with the Oakland-Alameda County Coliseum Authority ("OACCA") for the right to name Oakland Alameda County Coliseum. Amounts represent annual payments due OACCA for the naming rights and we may terminate this agreement at our sole option, subject to its termination fee.

Minimum future payments under naming rights agreement as of December 31, 2011, are as follows (in thousands):

Payments due by period	
2012	\$ 1,236
2013	1,273
2014	1,311
2015	1,351
2016	1,391
	\$ 6,562

Legal Proceedings

From time to time, we are involved in litigation concerning consumer protection, employment, intellectual property and other commercial matters related to the conduct and operation of our business and the sale of products on our Website. In connection with such litigation, we may be subject to significant damages. In some instances other parties may have contractual indemnification obligations to us. However, such contractual obligations may prove unenforceable or non-collectible, and in the event we cannot enforce or collect on indemnification obligations, we may bear the full responsibility for damages, fees and costs resulting from such litigation. We may also be subject to equitable remedies and penalties. Such litigation could be costly and time consuming and could divert

Table of Contents**Overstock.com, Inc.****Notes to Consolidated Financial Statements (Continued)****13. COMMITMENTS AND CONTINGENCIES (Continued)**

or distract our management and key personnel from our business operations. Due to the uncertainty of litigation and depending on the amount and the timing, an unfavorable resolution of some or all of these matters could materially affect our business, results of operations, financial position, or cash flows.

On February 2, 2007, along with five shareholder plaintiffs, we filed a lawsuit in the Superior Court of California, County of San Francisco against Morgan Stanley & Co. Incorporated, Goldman Sachs & Co., Bear Stearns Companies, Inc., Bank of America Securities LLC, Bank of New York, Citigroup Inc., Credit Suisse (USA) Inc., Deutsche Bank Securities, Inc., Merrill Lynch, Pierce, Fenner & Smith, Inc., and UBS Financial Services, Inc., and later amended the complaint to add Lehman Brothers Holdings Inc. as a defendant. The suit alleged that the defendants, who controlled over 80% of the prime brokerage market, participated in an illegal stock market manipulation scheme and that the defendants had no intention of covering short sell orders with borrowed stock, as they are required to do, causing what are referred to as "fails to deliver" and that the defendants' actions caused and continued to cause dramatic declines in the share price of our stock and that the amount of "fails to deliver" often exceeded our entire supply of outstanding shares. The suit accused the defendants of violations of California securities laws and common law and violations of California's Unfair Business Practices Act. After it filed for bankruptcy on September 2008, we elected not to pursue our claims against Lehman Brothers Holdings. On July 23, 2009, the court sustained defendants' demurrer to our amended causes of action for conversion and trespass to chattels. On December 15, 2010, we and the other plaintiffs in the case entered into a settlement agreement with certain of the defendants requiring these defendants to pay in the aggregate \$4.5 million to plaintiffs. Other terms of settlement are confidential. At that time, remaining defendants in the suit were Goldman Sachs Group, Inc., Goldman Sachs & Co., Goldman Sachs Execution & Clearing L.P., ("Goldman Defendants") Merrill Lynch, Pierce, Fenner & Smith, Inc., Merrill Lynch Professional Clearing Corporation ("Merrill Lynch Defendants"), and Bank of America Securities LLC. On December 15, 2010, we filed a motion to amend our complaint against the Goldman and Merrill Lynch Defendants to add a cause of action based on the New Jersey Racketeer Influenced and Corrupt Organization (RICO) Act. Defendants challenged the RICO claim by demurrer and eventually the court sustained the demurrer. We thereafter entered a settlement agreement with Bank of America Securities LLC, the terms of which are confidential, and have dismissed the action as to that defendant. On August 19, 2011, the remaining defendants filed a motion for summary judgment. On January 10, 2012 the court granted the motion for summary judgment as to all remaining defendants. We intend to appeal the court's ruling. The defendants have the right to apply to the court (but have not yet done so) to seek reimbursement from us of their allowable court costs. The nature of the loss contingencies relating to any court costs ordered against us are described above.

On May 30, 2008 we filed a complaint in New York state court against the New York State Department of Taxation and Finance, its Commissioner, the State of New York and its governor, alleging that a New York state tax law is unconstitutional. The effect of the New York law is to require Internet sellers to collect and remit New York sales taxes on their New York sales even if the seller has no New York tax "nexus" other than with New York based independent contractors who are Internet advertising affiliates. The complaint asks for the court to declare the law unconstitutional and enjoin its application to us. New York filed a motion to dismiss. We responded to the motion and filed a motion for summary judgment, and both motions were heard simultaneously. On January 12, 2009, the court granted New York's motion to dismiss and denied our motion for summary judgment. We appealed the

Notes to Consolidated Financial Statements (Continued)

13. COMMITMENTS AND CONTINGENCIES (Continued)

decision and on November 4, 2010 the New York Appellate Division upheld part of the lower court's ruling rejecting our claims that the law is unconstitutional on its face, but remanded our claims that the law is unconstitutional as applied, for further discovery and proceedings in the lower court. We filed with the New York State Court of Appeals a motion of leave to appeal the portions of the decision upholding the lower court's ruling. On March 15, 2011, the Appellate Division of the New York State Court of Appeals denied our motion for leave to appeal to the New York State Court of Appeals. We have determined not to pursue at the trial court level our claims that the law is unconstitutional as applied. We are proceeding with an appeal to the New York State Court of Appeals of the Appellate Division's ruling on our claim that the statute is unconstitutional on its face.

On August 12, 2008, we along with seven other defendants, were sued in the United States District Court for the Northern District of California, by Sean Lane, and seventeen other individuals, on their own behalf and for others similarly in a class action suit, alleging violations of the Electronic Communications Privacy Act, Computer Fraud and Abuse Act, Video Privacy Protection Act, and California's Consumer Legal Remedies Act and Computer Crime Law. The complaint relates to our use of a product known as Facebook Beacon, created and provided to us by Facebook, Inc. Facebook Beacon provided the means for Facebook users to share purchasing data among their Facebook friends. The parties extended by agreement the time for defendants' answer, including our answer, and thereafter, the Plaintiff and Facebook proposed a stipulated settlement to the court for approval, which would resolve the case without requirement of financial contribution from us. On March 17, 2010, over objections lodged by some parties, the court accepted the proposed settlement. Various parties objecting to the settlement have appealed and their appeal is now pending. The nature of the loss contingencies relating to claims that have been asserted against us are described above. However, no estimate of the loss or range of loss can be made.

On November 14, 2008, we filed suit in Ohio state court against the Ohio Tax Commissioner, the Ohio Attorney General and the Governor of Ohio, alleging the Ohio Commercial Activity Tax is unconstitutional. Enacted in 2005, Ohio's Commercial Activity Tax is based on activities in Ohio that contribute to production or gross income for a company whether or not the company has a physical presence in or nexus within the state. Our complaint asked for a judgment declaring the tax unconstitutional and for an injunction preventing any enforcement of the tax. The defendants moved to dismiss the case. On July 28, 2009, the trial court ruled that there was no justiciable controversy in the case, as we had not yet been assessed a tax, and it granted the defendants' motions to dismiss. In September 2009, we received a letter of determination from the Ohio Department of Taxation noting the Department's determination that we are required to register for remitting of the Commercial Activity Tax, and owe \$612,784 in taxes, interest, and penalties as of June 30, 2009. The Ohio Department of Taxation issued additional estimated assessments of estimated tax, interest and penalties totaling \$97,768 as of December 31, 2011. We have filed protests to challenge the Department's Assessments on constitutional grounds and the matter is currently pending before the Ohio Department of Taxation's Legal Division for administrative review and determination. A hearing on these matters was held November 18, 2011. No administrative ruling has been issued following the hearing. The nature of the loss contingencies relating to claims that have been asserted against us are described above. We believe the determinations to be unlawful and erroneous and are vigorously contesting the determination.

On March 10, 2009, we were sued in a class action filed in the United States District Court, Eastern District of New York. Cynthia Hines, the nominative plaintiff on behalf of herself and others

Table of Contents

Overstock.com, Inc.

Notes to Consolidated Financial Statements (Continued)

13. COMMITMENTS AND CONTINGENCIES (Continued)

similarly situated, seeks damages under claims for breach of contract, common law fraud and New York consumer fraud laws. The Plaintiff alleges we failed to properly disclose our returns policy to her and that we improperly imposed a "restocking" charge on her return of a vacuum cleaner. We filed a motion to dismiss based upon assertions that our agreement with our customers requires all such actions to be arbitrated in Salt Lake City, Utah. Alternatively, we asked that the case be transferred to the United States District Court for the District of Utah, so that arbitration may be compelled in that district. On September 8, 2009 the motion to dismiss or transfer was denied, the court stating that our browsewrap agreement was insufficient under New York law to establish an agreement with the customer to arbitrate disputes in Utah. On October 8, 2009, we filed a Notice of Appeal of the court's ruling. The appeal was denied. On December 31, 2010 Hines filed an amended complaint. The amended complaint eliminated common law fraud claims and breach of contract claims and added claims for breach of Utah's consumer protection statute and various other state consumer protection statutes. The amended complaint also asks for an injunction. The nature of the loss contingencies relating to claims that have been asserted against us are described above. However, no estimate of the loss or range of loss can be made. The suit is in final discovery stages. We filed motions to dismiss and to decertify the class. The court has not ruled on these motions. We intend to vigorously defend this action.

On September 23, 2009, SpeedTrack, Inc. sued us along with 27 other defendants in the United States District Court in the Northern District of California. We are alleged to have infringed a patent covering search and categorization software. We believe that certain third party vendors of products and services sold to us are contractually obligated to indemnify us in this action. On November 11, 2009, the parties stipulated to stay all proceedings in the case until resolution of a the United States Patent and Trademark Office had concluded and resolved a reexamination of the patent in question, and also until a previously filed infringement action against Wal-Mart Stores, Inc. and other retailers resulted either in judgment or dismissal. Subsequently, the parties agreed to extend the time for defendants' complaint answer until 21 days following a court order to lift the stay to which the parties stipulated. The United States Patent and Trademark Office resolved the reexamination of the patent in question in favor of SpeedTrack, Inc. The case remains stayed, pending the outcome of the infringement action against Wal-Mart Stores, Inc. and other retailers. On February 22, 2012, the court in the Wal-Mart Stores case granted Wal-Mart Stores' motion for summary judgment of non-infringement. The court also granted Speedtrack's motion for summary judgment on patent validity. It is not known whether the summary judgments granted in the Wal-Mart Stores case will have an effect on the Speedtrack case in which we are named as one of the defendants. The nature of the loss contingencies relating to claims that have been asserted against us are described above. However no estimate of the loss or range of loss can be made. We intend to vigorously defend this action and pursue our indemnification rights with our vendors.

On or about September 25, 2009, Alcatel-Lucent USA, Inc. filed suit against us and 12 other defendants in the United States District Court in the Eastern District of Texas. We are alleged to have infringed three patents purportedly related to a communications protocol between a user and server terminals, text input functionalities and search processes. We believe a third party vendor of search products and services sold to us is contractually obligated to indemnify us in this action as it pertains to the search patent. On October 14, 2011, a jury returned a verdict in our favor, finding non-infringement on all asserted claims, on all patents, and finding of invalidity of the Alcatel-Lucent

Table of Contents

Overstock.com, Inc.

Notes to Consolidated Financial Statements (Continued)

13. COMMITMENTS AND CONTINGENCIES (Continued)

patent, having to do with a communications protocol. On November 29, 2011, Alcatel-Lucent filed a motion for a new trial. We have opposed the motion. The court has not ruled on the motion.

On May 11, 2010, Site Update Solutions, LLC filed suit against us and 34 other defendants in the United States District Court in the Eastern District of Texas (now transferred to the Northern District of California) for infringement of a patent claiming "a process for maintaining ongoing registration for pages on a given search engine . . . a method to actively cause an updating of a specific Internet search engine database regarding a particular WWW resource." We, along with other defendants, filed a motion to transfer venue. The court granted the motion, and the case is now transferred to the Northern District of California. We have answered the complaint. The case is in its early stages. The nature of the loss contingencies relating to claims that have been asserted against us are described above. However, no estimate of the loss or range of loss can be made. We intend to vigorously defend this action and pursue our indemnification rights with our vendors, if any.

On August 4, 2010, EON Corp. IP Holdings, LLC filed suit against us and 16 other defendants in the United States District Court in the Eastern District of Texas for infringement of a patent covering a system and method for communicating between local subscriber units and a local base station repeater cell in a two-way communication interactive video network. The case is in its early stages. The nature of the loss contingencies relating to claims that have been asserted against us are described above. However, no estimate of the loss or range of loss can be made. We intend to vigorously defend this action and pursue our indemnification rights with our vendors, if any.

On September 29, 2010, a trustee in bankruptcy filed against us an adversary proceeding in the matter of In re: Petters Company, Inc., a case filed in United States Bankruptcy Court, in the District of Minnesota. The complaint alleges principal causes of action against us under various Bankruptcy Code sections and the Minnesota Fraudulent Transfer Act, to recover damages for alleged transfers of property from the Petters Company occurring prior to the filing of the case initially as a civil receivership in October 2008. The trustee's complaint alleges such transfers occurred in at least one note transaction whereby we transferred at least \$2,300,000 and received in return transfers totaling at least \$2,547,406. The trustee does not specify a date for the transactions; however we believe that any alleged transaction with the Petters Company would have taken place in excess of seven years from the date of the filing of the adversary proceeding. The case is in its early stages. We filed a motion to dismiss on statute of limitations and other grounds. The court has not ruled upon the motion to dismiss. The nature of the loss contingencies relating to claims that have been asserted against us are described above. However, no estimate of the loss or range of loss can be made. We intend to vigorously defend this action.

On November 17, 2010 we were sued in the Superior Court of California, County of Alameda, by District Attorneys for the California Counties of Alameda, Marin, Monterey, Napa, Santa Clara, Shasta and Sonoma County, and the County of Santa Cruz recently joined the suit. These district attorneys seek damages and an injunction under claims for violations of California consumer protection laws, alleging we made untrue or misleading statements concerning our pricing, price reductions, sources of products and shipping charges. The complaint asks for damages in the amount of not less than \$15 million. The nature of the loss contingencies relating to claims that have been asserted against us are described above. The suit is in the discovery stage. We intend to vigorously defend this action.

On April 4, 2011, Walker Digital, LLC filed suit against us and 24 other defendants in the United States District Court for the District of Delaware for infringement of a patent covering a system of

Table of Contents

Overstock.com, Inc.

Notes to Consolidated Financial Statements (Continued)

13. COMMITMENTS AND CONTINGENCIES (Continued)

providing to purchasers a substitution recommendation for goods offered for purchase on a website. We answered the complaint and filed a declaratory judgment counterclaim. We have since settled this matter, providing plaintiff a declaration. No money was paid to Walker Digital in settlement of its claim. The case has been dismissed.

On September 11, 2011, Droplets, Inc. filed suit against us and eight other defendants in the United States District Court in the Eastern District of Texas for infringement of a patent covering strings of programming code downloaded from a server to a client computer. We have answered the complaint. The case is in its early stages. The nature of the loss contingencies relating to claims that have been asserted against us are described above. However, no estimate of the loss or range of loss can be made. We intend to vigorously defend this action and pursue our indemnification rights with our vendors.

On September 13, 2011, Select Retrieval LLC filed suit against us and 79 other defendants in the United States District Court for the District of Delaware for infringement of a patent covering the hierarchical display of interactive links on a webpage. We have answered the complaint. The case is in its early stages. The nature of the loss contingencies relating to claims that have been asserted against us are described above. However, no estimate of the loss or range of loss can be made. We intend to vigorously defend this action and pursue our indemnification rights with our vendors.

On November 18, 2011 Smartfit Solutions, LLC filed suit against us and 43 other defendants in the United States District Court for the Eastern District of Texas for infringement of a patent covering certain "methods for presenting exercise protocols to a user and evaluating the effectiveness of the same." We have not answered the complaint. The case is in its early stages. The nature of the loss contingencies relating to claims that have been asserted against us are described above. However, no estimate of the loss or range of loss can be made. We intend to vigorously defend this action and pursue our indemnification rights with our vendors.

On December 29, 2011 The Tobin Family Education and Health Foundation filed suit against us in the United States District Court for the District of New Jersey for infringement of a patent covering a method and system for customizing marketing services on networks communication with hypertext tagging conventions. We have not answered the complaint. The case is in its early stages. The nature of the loss contingencies relating to claims that have been asserted against us are described above. However, no estimate of the loss or range of loss can be made. We intend to vigorously defend this action and pursue our indemnification rights with our vendors.

On January 27, 2012, Pragmatum Telecom, LLC filed suit against us in the United States District Court for the District of Delaware for infringement of two patents covering a system for coordinating data and voice communications via customer contact channel changing system using voice over IP and infringement of one patent for coordinating data and voice communications via customer contact channel changing system. We have not yet answered the complaint. The case is in its early stages. The nature of the loss contingencies relating to claims that have been asserted against us are described above. However, no estimate of the loss or range of loss can be made. We intend to vigorously defend this action and pursue our indemnification rights with our vendors.

On March 1, 2012, H-W Technology L.C. filed suit against us in the United States District Court in the Northern District of Texas for infringement of a patent entitled "Internet Protocol (IP) Phone with Search and Advertising Capability." We have not been served, nor have we answered the complaint.

13. COMMITMENTS AND CONTINGENCIES (Continued)

case is in its early stages. The nature of the loss contingencies relating to claims that have been asserted against us are described above. However, no estimate of the loss or range of loss can be made. We intend to vigorously defend this action and pursue our indemnification rights with our vendors, if any.

On September 15, 2009, we received a notice from the Securities and Exchange Commission ("SEC") stating that the SEC is conducting an investigation concerning our previously-announced financial restatements of 2006 and 2008 and other matters. The subpoena accompanying the notice covers documents related to the restatements and also to our billings to our partners in the fourth quarter of 2008 and related collections, and our accounting for and implementation of software relating to our accounting for customer refunds and credits, including offsets to partners, and related matters. Prior to October 2010, the SEC asked us for information in the form of records connected to this matter, all of which we have provided. The SEC has interviewed several witnesses. However, we do not know the present status of the investigation. Since October 2010, we have not been asked for more information, and we know of no person interviewed in this matter since October 2010. We have cooperated and intend to continue to cooperate fully with the investigation.

We establish liabilities when a particular contingency is probable and estimable. We believe the \$2.4 million accrued at December 31, 2011 in our consolidated financial statements is adequate in light of the probable and estimable liabilities. It is reasonably possible that the potential losses may exceed our accrued liabilities for contingencies.

We have other contingencies which are reasonably possible; however, the reasonably possible exposure to losses cannot currently be estimated.

We recognized a reduction in legal expenses of zero, \$4.5 million and \$7.1 million during the years ended December 31, 2011, 2010 and 2009 respectively, related to the settlement of legal matters.

14. INDEMNIFICATIONS AND GUARANTEES

During our normal course of business, we have made certain indemnities, commitments, and guarantees under which we may be required to make payments in relation to certain transactions. These indemnities include, but are not limited to, indemnities to various lessors in connection with facility leases for certain claims arising from such facility or lease, and indemnities to our directors and officers to the maximum extent permitted under the laws of the State of Delaware. The duration of these indemnities, commitments, and guarantees varies, and in certain cases, is indefinite. In addition, the majority of these indemnities, commitments, and guarantees do not provide for any limitation of the maximum potential future payments we could be obligated to make. As such, we are unable to estimate with any reasonableness our potential exposure under these items. We have not recorded any liability for these indemnities, commitments, and guarantees in the accompanying consolidated balance sheets. We do, however, accrue for losses for any known contingent liability, including those that may arise from indemnification provisions, when future payment is both probable and reasonably estimable.

15. STOCKHOLDERS' EQUITY

Common Stock

Each share of common stock has the right to one vote. The holders of common stock are also entitled to receive dividends whenever funds are legally available and when declared by the Board of Directors, subject to prior rights of holders of all classes of stock outstanding having priority rights as to dividends. No dividends have been declared or paid on our common stock through December 31, 2011.

Table of Contents

Overstock.com, Inc.

Notes to Consolidated Financial Statements (Continued)

15. STOCKHOLDERS' EQUITY (Continued)

Redeemable Common Stock

In June 2009, we discovered that we had inadvertently issued 203,737 more shares of our common stock in connection with our 401(k) plan than had been registered with the Securities and Exchange Commission for offer in connection with the 401(k) plan. These shares were contributed to or otherwise acquired by participants in the 401(k) plan between August 16, 2006, and June 17, 2009. As a result, certain participants in the 401(k) plan may have had rescission rights relating to the unregistered shares, although we believe that the federal statute of limitations applicable to any such rescission rights would be one year, and that the statute of limitations had already expired at June 30, 2009 with respect to most of the inadvertent issuances.

On August 31, 2009, we entered into a Tolling and Standstill Agreement (the "Tolling Agreement") with the Overstock.com, Inc. Employee Benefits Committee (the "Committee") relating to the 401(k) plan. We entered into the Tolling Agreement in order to preserve certain rights, if any, of plan participants who acquired shares of Overstock common stock in the plan between July 1, 2008 and June 30, 2009 (the "Purchase Period"). In August 2010, we made a registered rescission offer to affected participants in the plan who acquired shares of Overstock common stock during the Purchase Period. The rescission offer applied to shares purchased during the Purchase Period at prices ranging from \$6.77 per share to \$21.17 per share. On October 6, 2010, our rescission offer expired. As a result of the offer, we repurchased 1,202 shares of common stock for \$26,000. On October 14, 2010 we terminated the Tolling Agreement. At December 31, 2011 none of our shares were classified outside stockholder's equity due to the expiration of potential rescission rights associated with those common shares. At December 31, 2010 approximately 46,000 shares or \$570,000 of our common stock plus interest were classified outside stockholders' equity, respectively.

16. DEBT REPURCHASE PROGRAM

We retired all of the remaining \$34.6 million of the Senior Notes during the year ended December 31, 2011, for \$34.6 million in cash, resulting in a loss of \$54,000 on early extinguishment of debt, net of \$77,000 of associated unamortized discount. Of the \$34.6 million in Senior Notes retired during the year ended December 31, 2011, \$10.1 million were held by Chou or an affiliate of Chou and \$21.7 million were held by Fairfax or an affiliate of Fairfax. Chou and Fairfax are beneficial owners of more than 5% of our common stock. We retired \$25.4 million of the Senior Notes during the year ended December 31, 2010 for \$24.9 million in cash, resulting in a gain of \$346,000 on early extinguishment of debt, net of \$158,000 of associated unamortized discount.

As of December 31, 2011 and December 31, 2010, zero and \$34.5 million of the Senior Notes, net of debt discount remained outstanding, respectively.

17. STOCK-BASED AWARDS

Stock Option Awards

Our board of directors adopted the 2005 Equity Incentive Plan (the "Plan"), in April 2005. Under this Plan, the Board of Directors may issue incentive stock options to employees and directors of the Company and non-qualified stock options to consultants of the Company. Options granted under this Plan generally expire at the end of ten years and vest in accordance with a vesting schedule determined by our Board of Directors, usually over four years from the grant date. We did not grant any options during the years ended December 31, 2011, 2010 and 2009. As of December 31, 2011, 1.0 million

Table of Contents**Overstock.com, Inc.****Notes to Consolidated Financial Statements (Continued)****17. STOCK-BASED AWARDS (Continued)**

shares of stock based awards are available for future grants under the 2005 Equity Incentive Plan. We settle stock option exercises with newly issued common shares.

The following is a summary of stock option activity (in thousands):

	2011		2010		2009	
	Shares	Weighted Average Exercise Price	Shares	Weighted Average Exercise Price	Shares	Weighted Average Exercise Price
Outstanding beginning of year	496	\$ 18.09	721	\$ 20.29	974	\$ 21.27
Granted at fair value						
Exercised			(90)	17.05	(2)	15.82
Expired/Forfeited	(91)	20.55	(135)	30.41	(251)	24.12
Outstanding end of year	405	\$ 17.58	496	\$ 18.09	721	\$ 20.29
Options exercisable at year-end	404	\$ 17.59	472	\$ 18.08	543	\$ 21.17

The following table summarizes information about stock options as of December 31, 2011 (in thousands, except per share data):

Options Outstanding				Options Exercisable			
Shares	Weighted Average Exercise Price	Weighted Average Remaining Contract Life	Aggregate Intrinsic Value	Shares	Weighted Average Exercise Price	Weighted Average Remaining Contract Life	Aggregate Intrinsic Value
405	\$ 17.58	5.04	\$	404	\$ 17.59	5.04	\$

Stock options vest over four years at 28% at the end of the first year and 2% each month thereafter. During the years ended December 31, 2011, 2010 and 2009, we recorded stock based compensation related to stock options of \$200,000, \$1.6 million and \$2.2 million, respectively.

Total unrecognized compensation costs related to nonvested stock option awards was approximately \$3,000, \$239,000 and \$1.8 million as of December 31, 2011, 2010 and 2009, respectively. Remaining unrecognized compensation costs related to nonvested awards are expected to be recognized over the weighted average period of one year.

The aggregate intrinsic value in the table above represents the total pretax intrinsic value, based on our stock price of \$7.84 as of December 31, 2011, which would have been received by the option holders had all option holders exercised their options as of that date. There were no in-the-money options exercisable as of December 31, 2011.

The total intrinsic value of options exercised during the years ended December 31, 2011, 2010 and 2009 was zero, \$381,000 and \$2,000, respectively. The total cash received from employees as a result of employee stock option exercises during the years ended December 31, 2011, 2010 and 2009 were approximately zero, \$1.5 million and \$29,000, respectively. In connection with these exercises, there was no tax benefit realized due to our current net operating loss position.

Restricted Stock Unit Activity

For the years ended December 31, 2011, 2010 and 2009, 268,000, 302,000 and 366,000 restricted stock units were granted, respectively. The cost of restricted stock units is determined using the fair value of our common stock on the date of the grant and compensation expense is recognized straight-line over the three year vesting schedule. The weighted average grant date fair value of restricted stock units granted during the years ended December 31, 2011, 2010 and 2009 was \$15.47, \$13.17 and \$10.15, respectively.

Table of Contents**Overstock.com, Inc.****Notes to Consolidated Financial Statements (Continued)****17. STOCK-BASED AWARDS (Continued)**

The following is a summary of restricted stock unit activity (amounts in thousands, except per share data):

	2011		2010		2009	
	Units	Weighted Average Grant Date Fair Value	Units	Weighted Average Grant Date Fair Value	Units	Weighted Average Grant Date Fair Value
Outstanding beginning of year	685	\$ 12.08	640	\$ 11.35	449	\$ 12.69
Granted at fair value	268	15.47	302	13.17	366	10.15
Vested	(318)	12.20	(185)	11.52	(110)	12.64
Forfeited	(113)	13.88	(72)	11.50	(65)	11.55
Outstanding end of year	522	\$ 13.40	685	\$ 12.08	640	\$ 11.35

The restricted stock units vest over three years at 25% at the end of the first year, 25% at the end of the second year and 50% at the end of the third year. During the years ended December 31, 2011, 2010 and 2009, we recorded stock based compensation related to restricted stock units of \$2.8 million, \$3.5 million and \$2.6 million, respectively. Changes to the forfeiture rate are accounted for as a cumulative effect of change in the period of such change.

At December 31, 2011, there were 522,000 restricted stock units that remained outstanding. On January 24, 2012, we granted 681,000 additional restricted stock units.

18. EMPLOYEE RETIREMENT PLAN

We have a 401(k) defined contribution plan which permits participating employees to defer a portion of their compensation, subject to limitations established by the Internal Revenue Code. Employees who have completed a half-year of service and are 21 years of age or older are qualified to participate in the plan. We match 50% of the first 6% of each participant's contributions to the plan. Beginning in 2006 through January 2008, our matching contributions were made in common stock issued from treasury. For the remainder of 2008, the matching contributions were made in cash. Our matching contributions for 2011 and 2010 were made in cash and common stock issued from treasury. Participant contributions are immediately vested. Our contributions vest based on the participant's years of service at 20% per year over five years. Our matching contribution totaled \$991,000, \$770,000 and \$647,000 for the years ended December 31, 2011, 2010 and 2009, respectively. In addition, discretionary contributions totaling zero, \$471,000, and \$885,000 for the years ended December 31, 2011, 2010 and 2009, respectively, were made to eligible participants as of the end of each respective calendar year.

In December 2009, we implemented a Non Qualified Deferred Compensation plan for senior management. The plan allows eligible members of senior management to defer their receipt of compensation from us, subject to the restrictions contained in the plan. Participants are 100% vested in their deferred compensation amounts and the associated gains or losses. For our contributions, if any, and the associated gains or losses, the participants shall vest in those deferred compensation amounts according to a vesting schedule that we shall determine at the time our contribution is made. As of December 31, 2011, we have not made any contributions into the NQDC Plan. Participants are generally eligible to receive distributions from the plan two plan years subsequent to the plan year their initial deferral contribution is made. Deferred compensation amounts are held in a "rabbi trust," which invests primarily in mutual funds. The trust assets, which consist primarily of mutual funds, are

Table of Contents**Overstock.com, Inc.****Notes to Consolidated Financial Statements (Continued)****18. EMPLOYEE RETIREMENT PLAN (Continued)**

recorded in our consolidated balance sheets because they are subject to the claims of our creditors. The corresponding deferred compensation liability represents the amounts deferred by the plan participants plus or minus any earnings or losses on the trust assets. The trust's assets totaled \$302,000 and \$148,000 at December 31, 2011 and December 31, 2010, respectively, and are included in Other current and long-term assets in the consolidated balance sheets. Our gains and losses on these investments were immaterial for the years ended December 31, 2011, 2010 and 2009.

19. OTHER INCOME, NET

Other income, net consisted of the following (in thousands):

	Years ended December 31,		
	2011	2010	2009
Gift card and Club-O rewards breakage	\$ 971	\$ 909	\$ 343
Sublease income	573	575	269
Gain (loss) from early retirement of convertible senior notes	(54)	\$ 346	2,810
Loss from early retirement of finance obligations	(1,199)		
Other	(13)	258	(145)
Total other income, net	\$ 278	\$ 2,088	\$ 3,277

20. INCOME TAXES

The provision (benefit) for income taxes consists of the following (in thousands):

	Years ended December 31,		
	2011	2010	2009
Current:			
Federal	\$ (254)	\$ 226	\$ 145
State	69	133	112
Foreign	43		
Total current	(142)	359	257
Deferred:			
Federal	\$	\$	\$
State			
Total deferred			
Total provision (benefit) for income taxes	\$ (142)	\$ 359	\$ 257

Table of Contents**Overstock.com, Inc.****Notes to Consolidated Financial Statements (Continued)****20. INCOME TAXES (Continued)**

The components of our deferred tax assets and liabilities as of December 31, 2011 and 2010 are as follows (in thousands):

	December 31,	
	2011	2010
Deferred tax assets and liabilities:		
Net operating loss carry-forwards	\$ 76,455	\$ 66,241
Temporary differences:		
Accrued expenses	3,317	5,536
Reserves and other	5,705	6,369
Depreciation and amortization	(1,860)	(1,095)
	83,617	77,051
Valuation allowance	(83,617)	(77,051)
Net asset	\$	\$

As a result of our history of losses, a valuation allowance has been provided for the full amount of our net deferred tax assets as we believe that it is more likely than not that these benefits will not be realized. We recorded a tax benefit of (\$142,000) for the year ended December 31, 2011, for federal alternative minimum taxes, state and foreign taxes.

At December 31, 2011 and 2010, we had U.S. federal net operating loss carry-forwards of approximately \$192.5 million and \$166.7 million and state net operating loss carry-forwards of approximately \$176.1 million and \$150.7 million, respectively, which may be used to offset future taxable income. We are currently reviewing whether we had any ownership changes. The result of having ownership changes under IRS Code Section 382 would limit the amount of net operating losses that could be used in any annual period. Our carry-forwards begin to expire in 2018.

The income tax provision differs from the amount computed by applying the U.S. federal income tax rate of 35% to loss before income taxes for the following reasons (in thousands):

	Year ended December 31,		
	2011	2010	2009
U.S. federal income tax provision (benefit) at statutory rate	\$ (6,853)	\$ 4,940	\$ 2,762
State income tax expense, net of federal benefit	45	86	112
Stock based compensation expense	70	484	781
Other	30	73	64
Change in valuation allowance	6,566	(5,224)	(3,462)
Income tax provision (benefit)	\$ (142)	\$ 359	\$ 257

We are subject to audit by the IRS and various states for periods since inception. We do not believe there will be any material changes in our unrecognized tax positions over the next 12 months. Our policy is to recognize interest and penalties accrued on any unrecognized tax positions as a component of income tax expense.

Table of Contents**Overstock.com, Inc.****Notes to Consolidated Financial Statements (Continued)****20. INCOME TAXES (Continued)**

A reconciliation of the beginning and ending tax contingencies, excluding interest and penalties, is as follows (in thousands):

	Year ended December 31,		
	2011	2010	2009
Beginning balance	\$ 191	\$ 112	\$
Additions for tax positions related to the current year			112
Additions for tax positions taken in prior years	40	79	
Ending balance	\$ 231	\$ 191	\$ 112

The interest and penalties accrued on tax contingencies as of December 31, 2011 and 2010 were \$82,000 and \$53,000, respectively. Tax years beginning in 2007 are subject to examination by taxing authorities, although net operating loss and credit carryforwards from all years are subject to examinations and adjustments for at least three years following the year in which the attributes are used.

21. RELATED PARTY TRANSACTIONS

On April 1, 2009, Mr. James V. Joyce resigned from his position as a member of the Board of Directors of the Company. Mr. Joyce's resignation was not the result of a disagreement with us on any matter relating to our operations, policies or practices. Mr. Joyce and the Company concurrently ended our consulting arrangement with Icent LLC, which is a management consulting company of which Mr. Joyce is the chief executive officer, and through which Mr. Joyce provided consulting services to us. In connection with the termination of the consulting arrangement, we accrued \$1.25 million, which was paid to Mr. Joyce on April 1, 2009.

On occasion, Haverford-Valley, L.C. (an entity owned by our Chairman and Chief Executive Officer) and certain affiliated entities make travel arrangements for our executives and pay the travel related expenses incurred by our executives on company business. During the years ended December 31, 2011, 2010 and 2009 we reimbursed Haverford-Valley L.C. \$122,000, \$139,000, and \$79,000, respectively, for these expenses.

We retired \$34.6 million of the Senior Notes during the year ended December 31, 2011, for \$34.6 million in cash, resulting in a loss of \$54,000 on early extinguishment of debt, net of \$77,000 of associated unamortized discount. Of the \$34.6 million in Senior Notes retired during the year ended December 31, 2011, \$10.1 million were held by Chou or an affiliate of Chou and \$21.7 million were held by Fairfax or an affiliate of Fairfax. Chou and Fairfax are beneficial owners of more than 5% of our common stock. We retired \$25.4 million of the Senior Notes during the year ended December 31, 2010 for \$24.9 million in cash, resulting in a gain of \$346,000 on early extinguishment of debt, net of \$158,000 of associated unamortized discount.

During 2010, we repurchased a portion of our Senior Notes held by Fairfax or an affiliate of Fairfax having an aggregate principal amount of \$15.2 million for \$15.0 million in cash.

Table of Contents**Overstock.com, Inc.****Notes to Consolidated Financial Statements (Continued)****22. BUSINESS SEGMENTS**

Segment information has been prepared in accordance with ASC Topic 280 *Segment Reporting*. Segments were determined based on how we manage the business. There were no inter-segment sales or transfers during the years ended December 31, 2011, 2010 and 2009. We evaluate the performance of our segments and allocate resources to them based primarily on gross profit. The table below summarizes information about reportable segments for the years ended December 31, 2011, 2010 and 2009 (in thousands):

	Year ended December 31,		
	Direct	Fulfillment partner	Total
2011			
Revenue, net	\$ 163,609	\$ 890,668	\$ 1,054,277
Cost of goods sold	149,660	725,529	875,189
Gross profit	\$ 13,949	\$ 165,139	\$ 179,088
Operating expenses			(196,622)
Other income (expense), net			(2,046)
Provision (benefit) for income taxes			(142)

22. BUSINESS SEGMENTS (Continued)

Assets have not been allocated between the segments for our internal management purposes and, as such, they are not presented here.

For the years ended December 31, 2011, 2010 and 2009, over 99% of sales were made to customers in the United States of America. At December 31, 2011 and December 31, 2010, all of our fixed assets were located in the United States of America.

23. QUARTERLY RESULTS OF OPERATIONS (unaudited)

The following tables set forth our unaudited quarterly results of operations data for the eight most recent quarters for the period ended December 31, 2011. We have prepared this information on the same basis as the consolidated statements of operations and the information includes all adjustments
