This summary highlights information contained elsewhere in this prospectus supplement and the accompanying prospectus. It does not contain all of the information that you should consider before making an investment decision. We urge you to read the entire prospectus supplement, the accompanying prospectus and the documents incorporated by reference in this prospectus supplement and the accompanying prospectus carefully, including the historical financial statements and notes to those financial statements, and the pro forma financial statements, incorporated by reference in this prospectus supplement and the accompanying prospectus. Please read "Risk Factors" and "Information Regarding Forward-Looking Statements" in our Annual Report on Form 10-K for the year ended December 31, 2011 and our subsequently filed Exchange Act reports, and "Cautionary Statement Regarding Forward-Looking Statements" in this prospectus supplement, for more information about important risks that you should consider before investing in our common stock. As used in this prospectus supplement and the accompanying prospectus, the terms "we," "us" and "our" mean Kinder Morgan, Inc. and, unless the context otherwise indicates, include its consolidated subsidiaries.

Kinder Morgan, Inc.

Our Business

We are a publicly-traded Delaware corporation, with our common stock traded on the New York Stock Exchange, referred to as the "NYSE," under the ticker symbol "KMI." We are a leading pipeline transportation and energy storage company in North America. Our pipelines transport natural gas, gasoline, crude oil, CO_2 and other products, and our terminals store petroleum products and chemicals and handle such products as ethanol, coal, petroleum coke and steel. We own the general partner interest of Kinder Morgan Energy Partners, L.P., referred to as "KMP," one of the largest publicly-traded pipeline limited partnerships in America.

Effective on May 25, 2012, we completed the acquisition of all of the outstanding shares of El Paso Corporation, referred to as "El Paso." El Paso owns one of North America's largest interstate natural gas pipeline systems and an emerging midstream business. El Paso also owns a 43.5 percent limited partner interest and the 2 percent general partner interest in El Paso Pipeline Partners, L.P., referred to as "EPB." The combined enterprise, including the associated master limited partnerships, KMP and EPB, owns an interest in or operates more than 75,000 miles of pipeline and 180 terminals and represents the largest natural gas pipeline network in the United States, the largest independent transporter of petroleum products in the United States, the largest transporter of CO_2 in the United States, the second largest oil producer in Texas and the largest independent terminal owner/operator in the United States.

Background and Investors

KMP was formed in 1992, and its general partner was acquired by Richard D. Kinder and William V. Morgan in 1997. We were formed in 2006 in connection with a transaction we refer to as the "Going Private Transaction," and prior to our initial public offering in February 2011, were owned by individuals and entities we refer to collectively as the "Original Investors." The Original Investors are:

- Richard D. Kinder, our Chairman and Chief Executive Officer;
- investment funds advised by, or affiliated with, Goldman, Sachs & Co. (which funds we refer to as "Goldman Sachs"), Highstar Capital LP, The Carlyle Group and Riverstone Holdings LLC, which we refer to collectively as the "Sponsor Investors;"
- Fayez Sarofim, one of our directors, and investment entities affiliated with him, and an investment entity affiliated with Michael C. Morgan, another of our directors, and William V. Morgan, one of our founders, whom we refer to collectively as the "Original Stockholders;" and

Table of Contents

a number of other members of our management, whom we refer to collectively as "Other Management."

Our capital stock consists of common stock, Class A shares, Class B shares and Class C shares. The Class A shares, Class B shares and Class C shares are owned by the Original Investors and are collectively referred to as "investor retained stock." Following the completion of this offering, the remaining shares of our investor retained stock will be convertible into a fixed aggregate of 298,653,287 shares of our common stock, and we will have 1,036,710,389 shares of common stock outstanding following this offering on a fully-converted basis. In the aggregate, our investor retained stock is entitled to receive a dividend per share on a fully-converted basis equal to the dividend per share on our common stock. The conversion of shares of investor retained stock into shares of common stock does not increase our total fully-converted shares outstanding, or impact the aggregate dividends we pay or the dividends we pay per share on our common stock. As a result, the holders of our common stock are not diluted by the conversion of the investor retained stock into shares of our common stock.

The investment funds advised by, or affiliated with, Goldman, Sachs & Co., The Carlyle Group and Riverstone Holdings LLC are the selling stockholders in this offering, and these Sponsor Investors will convert all of their investor retained stock into the common stock they sell. As a result, after this offering the Sponsor Investors will have the right to appoint less than three directors to our board of directors, the number of our directors will be reduced from twelve to eleven, and the Sponsor Investors will lose the right to have their nominees appointed to various committees of our board. See "Description of Our Capital Stock Shareholders Agreement Board, Committee and Observer Rights."

The Class A shares represent capital contributed by the Original Investors at the time of the Going Private Transaction. The Class B shares and Class C shares represent incentive compensation that is held by members of management, including Mr. Kinder only in the case of the Class B shares. Holders of our common stock do not bear any of the direct economic cost of this incentive compensation arrangement and are not diluted as a result.

Recent Developments

Our results of operations for the quarter ended September 30, 2012 are not yet available. Based on preliminary estimates, we intend to recommend to our board of directors a dividend of $0.36 per share for the third quarter of 2012, and we expect to declare dividends of at least $1.40 per share for 2012. If approved by our board of directors, this dividend for the third quarter would represent a 20 percent increase over the third quarter 2011 dividend of $0.30 per share and would be 3 percent higher than the second quarter 2012 dividend of $0.35 per share. We also estimate that our cash available to pay dividends for fiscal 2012 will be over $1,325 million. See "Dividend Policy" and "Cautionary Statement Regarding Forward-Looking Statements" in this prospectus supplement.

The preliminary financial information and estimates set forth above have been prepared by, and are the responsibility of, our management. PricewaterhouseCoopers LLP has not audited, reviewed, compiled or performed any procedures with respect to such preliminary financial information or estimates. Accordingly, PricewaterhouseCoopers LLP does not express an opinion or any other form of assurance with respect thereto.

DIVIDEND POLICY

Our board of directors has adopted the dividend policy set forth in our shareholders agreement, which provides that, subject to applicable law, we will pay quarterly cash dividends on all classes of our capital stock equal to the cash we receive from our subsidiaries and other sources less any cash disbursements and reserves established by a majority vote of our board of directors, including for general and administrative expenses, interest and cash taxes. The division of our dividends among our classes of capital stock is in accordance with our charter. Our board of directors may declare dividends by a majority vote in accordance with our dividend policy pursuant to our bylaws. This policy reflects our judgment that our stockholders would be better served if we distributed to them a substantial portion of our cash. As a result, we may not retain a sufficient amount of cash to fund our operations or to finance unanticipated capital expenditures or growth opportunities, including acquisitions.

Dividends on our common stock are not cumulative. Dividends on our investor retained stock generally are paid at the same time as dividends on our common stock and are based on the aggregate number of shares of common stock into which our investor retained stock is convertible on the record date for the applicable dividend. The portion of our dividends payable on the three classes of our investor retained stock may vary among those classes, but the variations will not affect the dividends we pay on our common stock since the total number of shares of common stock into which our investor retained stock could convert in the aggregate was fixed on the closing of our initial public offering. Following the completion of this offering, our remaining Class A shares, Class B shares and Class C shares will be convertible into an aggregate of 298,653,287 shares of our common stock, which will represent 28.8% of our common stock on a fully-converted basis. See "Description of Our Capital Stock Classes of Common Stock Dividends" in this prospectus supplement.

Our board of directors may amend, revoke or suspend our dividend policy at any time and for any reason. There is nothing in our dividend policy or our governing documents that prohibits us from borrowing to pay dividends. The actual amount of dividends to be paid on our capital stock will depend on many factors, including our financial condition and results of operations, liquidity requirements, market opportunities, our capital requirements, legal, regulatory and contractual constraints, tax laws and other factors. In particular, distributions received from KMP will continue to be the most significant source of our cash available to pay dividends, and our ability to pay and increase dividends to our stockholders is primarily dependent on distributions received from KMP.

Our dividends are not cumulative. Consequently, if dividends on our common stock are not paid at the intended levels, our common stockholders are not entitled to receive those payments in the future. We pay our dividends after we receive quarterly distributions from KMP and EPB, which are paid within 45 days after the end of each quarter, generally on or about the 15th day of each February, May, August and November. Therefore, our dividend generally will be paid on or about the 16th day of each February, May, August and November. If the day after we receive KMP's and EPB's distributions is not a business day, we expect to pay our dividend on the business day immediately following.

The non-generally accepted accounting principles, or non-GAAP, financial measure of cash available to pay dividends is presented in this prospectus supplement. This non-GAAP financial measure should not be considered as an alternative to a GAAP measure such as net income or any other GAAP measure of liquidity or financial performance. Cash available to pay dividends is a significant metric used by us and by external users of our financial statements, such as investors, research analysts, commercial banks and others, to compare basic cash flows generated by us to the cash dividends we expect to pay our shareholders on an ongoing basis. Management uses this metric to evaluate our overall performance. Cash available to pay dividends is also an important non-GAAP financial measure for our shareholders because it serves as an indicator of our success in providing a cash return on investment. This financial measure indicates to investors whether or not we typically are generating cash flow at a level that can sustain or support an increase in the quarterly dividends we are paying. Cash available to pay dividends is also a quantitative measure used in the investment community because the value of a share of an entity like us that pays out all or a substantial proportion of its cash flow, is generally determined by the dividend yield (which in turn is based on the amount of cash dividends the corporation pays to its shareholders). The economic substance behind our use of cash available to pay dividends is to measure and estimate the ability of our assets to generate cash flows sufficient to pay dividends to our investors. We believe the GAAP measure most directly comparable to cash available to pay dividends is income from continuing operations. This non-GAAP measure has important limitations as an analytical tool. Our computation of cash available to pay dividends may differ from similarly titled measures used by others. You should not consider this non-GAAP measure in isolation or as a substitute for an analysis of our results as reported under GAAP. Management compensates for the limitations of this non-GAAP measure by reviewing our comparable GAAP measures, understanding the differences between the measures and taking this information into account in its analysis and its decision making processes.

SELLING STOCKHOLDERS

The following table sets forth information known to us regarding the beneficial ownership of our common stock by the selling stockholders, both immediately prior to and after giving effect to this offering. Beneficial ownership is determined in accordance with the rules of the SEC. Based on information provided to us, except as indicated in the footnotes to this table, the selling stockholders have sole voting and investment power with respect to the shares indicated.

(1) Except as described in the footnotes below, consists of the number of Class A shares owned by the selling stockholders, and assumes that such Class A shares are convertible into shares of our common stock on a one-for-one basis. The selling stockholders will convert some of their Class A shares into the shares of common stock they sell in this offering. As described in "Description of Our Capital Stock Classes of Common Stock General" and " Voluntary Conversion," the actual number of shares of our common stock into which such Class A shares will convert will grow smaller, to the extent the Class B shares and Class C shares convert into common stock, depending on the total value received with respect to our Class A shares, Class B shares and Class C shares. As a result of this offering, some of our Class C shares and Class B shares will automatically convert into common stock, effectively causing the Class A shares converted by the Selling Stockholders in connection with this offering to convert at less than a one-for-one basis.

(2) Immediately prior to the offering we had 1,037,241,945 shares of common stock, and immediately after the offering we will have 1,036,710,389 shares of common stock, issued and outstanding on a fully-converted basis. The decrease in the number of shares issued and outstanding on a fully-converted basis is due to our election to make distributions in cash in lieu of common stock that would otherwise be issuable as a result of the automatic conversion of Class B and Class C shares held in a plan for the benefit of certain of our Canadian employees. Percentage calculated by dividing the number in the column to the immediate left by such number of outstanding shares on a fully-converted basis. See "Description of Our Capital Stock Classes of Common Stock" for a description of the conversion provisions of our Class A, Class B and Class C shares.

Classes of Common Stock

General

As of October 11, 2012, the Class A shares, the Class B shares and the Class C shares were convertible into a total of 388,717,260 shares of common stock, which represented 37.5% of our outstanding shares of common stock on a fully-converted basis (not including any shares of common stock issuable upon any exercises of warrants issued in our acquisition of El Paso or in connection with conversions of trust preferred securities of El Paso Energy Capital Trust I). The number of shares of common stock into which the Class A shares, Class B shares and Class C shares will convert is determined in accordance with our certificate of incorporation. As described under " Voluntary Conversion Automatic Conversion of Class B Shares and Class C Shares," the relative portion of the total number of shares of common stock issuable upon conversion to the holders of the Class A shares, the Class B shares and the Class C shares, respectively, and the portion of our dividends to be received by the holders of the Class A shares, the Class B shares and the Class C shares, respectively, will depend on the total value that has been received by such holders in connection with dividends and conversions of such shares into shares of common stock. Because the aggregate amount of common stock into which the Class A shares, Class B shares and Class C shares can convert is fixed, however, neither conversions of any Class A shares, Class B shares or Class C shares into common stock, nor the

portion of our distributions that may be received by the Class B shares or Class C shares rather than the Class A shares, will impact the per share distribution paid on our common stock or the aggregate distributions we pay to our stockholders. The conversion of Class B shares and Class C shares into shares of common stock will result in a corresponding decrease in the number of shares of common stock into which our Class A shares will be able to convert because the Class A shares, Class B shares and Class C shares are convertible into a fixed aggregate number of shares of our common stock.

The Class A shares, Class B shares and Class C shares were originally issued to individuals and entities we refer to collectively as the "Original Investors." The Original Investors were investors in Kinder Morgan's Going Private Transaction, and are:

- Richard D. Kinder, our Chairman and Chief Executive Officer;
- investment funds advised by or affiliated with Goldman Sachs, Highstar Capital LP, The Carlyle Group and Riverstone Holdings LLC, which we refer to as the "Sponsor Investors;"
- Fayez Sarofim, one of our directors, and investment entities affiliated with him, and an investment entity affiliated with Michael C. Morgan, another of our directors, and William V. Morgan, one of our founders, whom we refer to collectively as the "Original Stockholders;" and
- a number of other members of our management, whom we refer to collectively as "Other Management."

Since the Original Investors may decide to sell shares at different times and at different prices or values, and because those sales may affect the relative conversion and distribution rights of the Class B shares and the Class C shares vis-a-vis the Class A shares, our Class A shares were issued in nine series to the following groups of Original Investors:

- five series to the Sponsor Investors;
- one series to Richard D. Kinder;
