#### **Cautionary Note Regarding Forward-Looking Statements**

This Report on Form 10-Q contains various statements that may constitute forward-looking statements within the meaning of Section 27A of the Securities Act of 1933, as amended, Rule 175 promulgated thereunder, and Section 21E of the Securities Exchange Act of 1934, as amended, Rule 3b-6 promulgated thereunder and are intended to be covered by the safe harbor provisions of the Private Securities Litigation Reform Act of 1995. Any statements about our expectations, beliefs, plans, objectives, assumptions or future events or performance are not historical facts and may be forward-looking. These forward-looking statements often can be, but are not always, identified by the use of words such as "assume," "expect," "intend," "plan," "project," "believe," "estimate," "predict," "anticipate," "may," "might," "should," "could," "goal," "potential" and similar expressions. We base these forward-looking statements on our current expectations and projections about future events, our assumptions regarding these events and our knowledge of facts at the time the statements are made. These statements include statements relating to our projected growth, anticipated future financial performance, and management's long-term performance goals, as well as statements relating to the anticipated effects on results of operations and financial condition.

These forward-looking statements are subject to various risks and uncertainties that may be outside our control and our actual results could differ materially from our projected results. In addition, our past results of operations do not necessarily indicate our future results. The forward-looking statements could be affected by many factors, including but not limited to:

local, regional, and national economic conditions and events and the impact they may have on us and our customers, and our assessment of that impact on our estimates including, the allowance for loan losses;

changes in the financial performance or condition of the Company's customers, or changes in the performance or creditworthiness of our customers' suppliers or other counterparties, which could lead to decreased loan utilization rates, delinquencies, or defaults and could negatively affect our customers' ability to meet certain credit obligations;

volatility in credit and equity markets and its effect on the global economy;

changes in consumer spending, borrowings and saving habits;

competition for loans and deposits and failure to attract or retain deposits and loans;

our ability to increase market share and control expenses;

our ability to develop and promote customer acceptance of new products and services in a timely manner;

risks associated with concentrations in real estate related loans;

other-than-temporary impairment charges to our securities portfolio;

an oversupply of inventory and deterioration in values of California commercial real estate;

a prolonged slowdown in construction activity;

changes in the level of nonperforming assets and charge-offs and other credit quality measures, and their impact on the adequacy of the Company's allowance for loan losses and the Company's provision for loan losses;

the effects of and changes in trade, monetary and fiscal policies and laws, including the interest rate policies of the Federal Open Market Committee of the Federal Reserve Board;

changes in inflation, interest rates, and market liquidity which may impact interest margins and impact funding sources;

#### **Table of Contents**

our ability to raise capital or incur debt on reasonable terms;

regulatory limits on Heritage Bank of Commerce's ability to pay dividends to the Company;

the impact of reputational risk on such matters as business generation and retention, funding and liquidity;

the impact of cyber security attacks or other disruptions to the Company's information systems and any resulting compromise of data or disruptions in service;

the effect and uncertain impact on the Company of the enactment of the Dodd-Frank Wall Street Reform and Consumer Protection Act of 2010 and the rules and regulations promulgated by supervisory and oversight agencies implementing the new legislation;

significant changes in applicable laws and regulations, including those concerning taxes, banking and securities;

changes in the competitive environment among financial or bank holding companies and other financial service providers;

the effect of changes in accounting policies and practices, as may be adopted by the regulatory agencies, as well as the Public Company Accounting Oversight Board, the Financial Accounting Standards Board and other accounting standard setters:

the costs and effects of legal and regulatory developments, including resolution of legal proceedings or regulatory or other governmental inquiries, and the results of regulatory examinations or reviews;

the successful integration of the business, employees and operations of Focus Business Bank with the Company and our ability to achieve the projected synergies of this acquisition; and

our success in managing the risks involved in the foregoing factors.

We are not able to predict all the factors that may affect future results. You should not place undue reliance on any forward looking statement, which speaks only as of the date of this Report on Form 10-K. Except as required by applicable laws or regulations, we do not undertake any obligation to update or revise any forward looking statement, whether as a result of new information, future events or otherwise.

#### NOTES TO UNAUDITED CONSOLIDATED FINANCIAL STATEMENTS

#### **September 30, 2015**

#### (Unaudited)

#### 1) Basis of Presentation

The unaudited consolidated financial statements of Heritage Commerce Corp (the "Company" or "HCC") and its wholly owned subsidiary, Heritage Bank of Commerce ("HBC"), have been prepared pursuant to the rules and regulations for reporting on Form 10-Q. Accordingly, certain information and notes required by accounting principles generally accepted in the United States of America ("GAAP") for annual financial statements are not included herein. The interim statements should be read in conjunction with the consolidated financial statements and notes that were included in the Company's Form 10-K for the year ended December 31, 2014.

The Company acquired BVF/CSNK Acquisition Corp., a Delaware corporation ("BVF/CSNK") on November 1, 2014, the parent company of CSNK Working Capital Finance Corp. dba Bay View Funding ("Bay View Funding"). BVF/CSNK was subsequently merged into Bay View Funding and Bay View Funding became a wholly owned subsidiary of HBC. Bay View Funding's results of operations have been included in the Company's results of operations beginning November 1, 2014.

As discussed in Note 6, the Company completed its acquisition of Focus Business Bank ("Focus") on August 20, 2015. Focus was merged with HBC, with HBC as the surviving bank. Focus's results of operations have been included in the Company's results of operations beginning August 21, 2015.

HBC is a commercial bank serving customers located in Santa Clara, Alameda, Contra Costa, and San Benito counties of California. BVF provides business-essential working capital factoring financing to various industries throughout the United States. No customer accounts for more than 10 percent of revenue for HBC or the Company. With the acquisition of Bay View Funding, the Company now has two reportable segments consisting of Banking and Factoring. The Company's management uses segment in its operating and strategic planning.

In management's opinion, all adjustments necessary for a fair presentation of these consolidated financial statements have been included and are of a normal and recurring nature. All intercompany transactions and balances have been eliminated.

The preparation of financial statements in conformity with GAAP requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the consolidated financial statements and the reported amounts of revenues and expenses during the reporting periods. Actual results could differ significantly from these estimates.

The results for the three and nine months ended September 30, 2015 are not necessarily indicative of the results expected for any subsequent period or for the entire year ending December 31, 2015.

#### **Business Combinations**

The Company accounts for acquisitions of businesses using the acquisition method of accounting. Under the acquisition method, assets acquired and liabilities assumed are recorded at their estimated fair values at the date of acquisition. Management utilizes various valuation techniques including discounted cash flow analyses to determine these fair values. Any excess of the purchase price over amounts allocated to the acquired assets, including identifiable intangible assets, and liabilities assumed is recorded as goodwill.

#### Goodwill and Other Intangible Assets

Goodwill resulted from the acquisition of Bay View Funding on November 1, 2014 and Focus on August 21, 2015. Goodwill represents the excess of the purchase price over the fair value of acquired tangible assets and liabilities and identifiable intangible assets. Goodwill is assessed at least annually for impairment and any such impairment is recognized in the period identified.

Other intangible assets consist of core deposit and customer relationship intangible assets arising from the Diablo Valley Bank acquisition in June 2007, a core deposit intangible asset from the Focus acquisition in August 2015, and a below market value lease intangible asset, customer relationship and brokered relationship intangible assets, and a non compete agreement intangible asset arising from the Bay View Funding acquisition in November 2014. They are initially measured at fair value and then are amortized over their estimated useful lives. The core deposits intangible assets from the acquisitions of Diablo Valley Bank and Focus Business Bank are being amortized on an accelerated method over ten years. The customer relationship intangible from the acquisition of Diablo Valley Bank was being amortized on an accelerated method over seven years, and was fully amortized at December 31, 2014. The below market value lease intangible asset, customer relationship and brokered relationship intangible assets, and non compete agreement intangible asset from the acquisition of Bay View Funding are being amortized on the straight line method over three, ten, and three years, respectively.

#### Reclassifications

Certain reclassifications of prior year balances have been made to conform to the current year presentation. These reclassifications had no impact on the Company's consolidated financial position, results of operations or net change in cash and cash equivalents.

#### Adoption of New Accounting Standards

In January 2014, the Financial Accounting Standards Board ("FASB") amended existing guidance clarifying that an in substance repossession or foreclosure occurs, and a creditor is considered to have received physical possession of residential real estate property collateralizing a consumer mortgage loan, upon either (1) the creditor obtaining legal title to the residential real estate property upon completion of a foreclosure or (2) the borrower conveying all interest in the residential real estate property to the creditor to satisfy that loan through completion of a deed in lieu of foreclosure or through a similar legal agreement. Additionally, the amendments require interim and annual disclosure of both (1) the amount of foreclosed residential real estate property held by the creditor and (2) the recorded investment in consumer mortgage loans collateralized by residential real estate property that are in the process of foreclosure according to local requirements of the applicable jurisdiction. The amendments in this update are effective for public business entities for annual periods, and interim periods within those annual periods beginning after December 15, 2014. For entities other than public business entities, the amendments in this update are effective for annual periods beginning after December 15, 2014, and interim periods within annual periods beginning after December 15, 2015. The Company has adopted the new guidance and it does not have a material impact on the consolidated financial statements.

#### 1) Basis of Presentation (Continued)

In January 2014, the FASB issued guidance for accounting for investments in qualified affordable housing projects, which represents a consensus of the Emerging Issues Task Force and sets forth new accounting for qualifying investments in flow through limited liability entities that invest in affordable housing projects. The new guidance allows a limited liability investor that meets certain conditions to amortize the cost of its investment in proportion to the tax credits and other tax benefits it receives. The new accounting method, referred to as the proportional amortization method, allows amortization of the tax credit investment to be reflected along with the primary benefits, the tax credits and other tax benefits, on a net basis in the income statement within the income tax expense (benefit) line. For public business entities, the guidance is effective for interim and annual periods beginning after December 15, 2014. If elected, the proportional amortization method is required to be applied retrospectively. Early adoption is permitted in the annual period for which financial statements have not been issued.

The Company adopted the proportional amortization method of accounting for its low income housing investments in the third quarter of 2014. The Company quantified the impact of adopting the proportional amortization method compared to the equity method to its current year and prior period financial statements. The Company determined that the adoption of the proportional amortization method did not have a material impact to its financial statements. The low income housing investment losses, net of the tax benefits received, are included in income tax expense for all periods reflected on the consolidated income statements. See *Note 8 Income Taxes* for more information on the adoption of the proportional method of accounting for low income housing investments.

In May 2014, the FASB issued an update to the guidance for accounting for revenue from contracts with customers. The guidance in this update affects any entity that either enters into contracts with customers to transfer goods or services or enters into contracts for the transfer of nonfinancial assets unless those contracts are within the scope of other standards (for example, insurance contracts or lease contracts). The core principle of the guidance is that an entity should recognize revenue to depict the transfer of promised goods or services to customers in an amount that reflects the consideration to which the entity expects to be entitled in exchange for those goods or services. The guidance provides steps to follow to achieve the core principle. An entity should disclose sufficient information to enable users of financial statements to understand the nature, amount, timing and uncertainty of revenue and cash flows arising from contracts with customers. Qualitative and quantitative information is required about contracts with customers, significant judgments and changes in judgments, and assets recognized from the costs to obtain or fulfill a contract. The amendments in this update become effective for annual periods and interim periods within those annual periods beginning after December 15, 2017. We are evaluating the impact of adopting the new guidance on the consolidated financial statements.

In September 2015, the FASB issued an update simplifying the accounting for measurement-period adjustments. This update applies to all entities that have reported provisional amounts for items in a business combination for which the accounting is incomplete by the end of the reporting period in which the combination occurs and during the measurement period have an adjustment to provisional amounts recognized. The amendments in this update require that an acquirer recognize adjustments to provisional amounts that are identified during the measurement period in the reporting period in which

the adjustment amounts are determined. The amendments in this update require that the acquirer record, in the same period's financial statements, the effect on earnings of changes in depreciation, amortization, or other income effects, if any, as a result of the change to the provisional amounts, calculated as if the accounting had been completed at the acquisition date. The amendments in this update require an entity to present separately on the face of the income statement or disclose in the notes the portion of the amount recorded in current-period earnings by line item that would have been recorded in previous reporting periods if the adjustment to the provisional amounts had been recognized as of the acquisition date. The amendments in this update are effective for fiscal years beginning after December 15, 2015, including interim periods within those fiscal years. The amendments in this update should be applied prospectively to adjustments to provisional amounts that occur after the effective date of this update with earlier application permitted for financial statements that have not been issued. We are currently evaluating the impact of adopting the new guidance on the consolidated financial statements, but it is not expected to have a material impact.

#### 2) Earnings Per Share

Basic earnings per common share is computed by dividing net income, less dividends and discount accretion on preferred stock, by the weighted average common shares outstanding. The Series C Preferred Stock participates in the earnings of the Company and, therefore, the shares issued on the conversion of the Series C Preferred Stock are considered outstanding under the two class method of computing basic earnings per common share during periods of earnings. Diluted earnings per share reflect potential dilution from outstanding stock options using the treasury stock method. A reconciliation of these factors used in computing basic and diluted earnings per common share is as follows:
