PROSPECTUS SUPPLEMENT
To a Short Form Base Shelf Prospectus dated October 14, 2016

PLATINUM GROUP METALS LTD.

US\$40,014,000

22,230,000 Common Shares

Platinum Group Metals Ltd. (the "**Company**" or "**PTM**") is offering (the "**Offering**") 22,230,000 common shares (the "**Offered Shares**") at a price of US\$1.80 per Offered Share (the "**Offering Price**").

The outstanding common shares of the Company (the "**Common Shares**") are listed for trading on the Toronto Stock Exchange (the "**TSX**") under the symbol "PTM" and on the NYSE MKT, LLC (the "**NYSE MKT**") under the symbol "PLG". On October 21, 2016, the last trading day prior to the date of the public announcement of the Offering, the closing price of the Common Shares on the TSX was CAN\$2.72 and the closing price of the Common Shares on the NYSE MKT was US\$2.05. The Company has made an application to list the Offered Shares on the TSX and the NYSE MKT. Listing will be subject to the Company fulfilling all of the listing requirements of the TSX and the NYSE MKT.

Investing in the Offered Shares involves significant risks. See "Risk Factors" beginning on page 20 of the accompanying short form base shelf prospectus (the "Prospectus").

Price: US\$1.80 per Offered Share

	Per Offered Share		Total	
Price to the Public	US\$	1.80	US\$	40,014,000
Underwriting Commission ⁽¹⁾	US\$	0.108	US\$	2,400,840
Proceeds to the Company (Before Expenses)	US\$	1.692	US\$	37,613,160

Notes:

- (1) Please see the section entitled "Plan of Distribution" for a complete description of the compensation payable to the Underwriters, including a fee representing 6% of the aggregate gross proceeds of the Offering (the "**Underwriting Commission**").

Pursuant to an underwriting agreement (the "**Underwriting Agreement**") dated as of October 25, 2016 between the Company, BMO Nesbitt Burns Inc. and RBC Dominion Securities Inc. (collectively, the "**Underwriters**"), the Company has granted the Underwriters an option (the "**Over-Allotment Option**") to purchase up to 3,334,500 additional Common Shares (the "**Over-Allotment Shares**") to cover over-allotments, if any.

This Offering is made by a Canadian issuer that is permitted, under a multijurisdictional disclosure system adopted by the United States and Canada, to prepare this prospectus supplement (this "Prospectus Supplement") and the Prospectus in accordance with Canadian disclosure requirements. Prospective investors should be aware that such requirements are different from those of the United States. Financial statements incorporated by reference herein have been prepared in accordance with International Financial Reporting Standards as issued by the International Accounting Standards Board, and are subject to Canadian auditing and auditor independence standards, and thus may not be comparable to financial statements of United States companies.

Prospective investors should be aware that the acquisition of Offered Shares may have tax consequences both in the United States and in Canada. Such consequences for investors who are resident in, or citizens of, the United States may not be fully described herein.

The enforcement by investors of civil liabilities under United States federal securities laws may be affected adversely by the fact that the Company is incorporated under the laws of British Columbia, Canada, that a majority of the Company's directors and officers, and some or all of the Underwriters named in this Prospectus Supplement and the experts named in this Prospectus Supplement, are residents of Canada or otherwise reside outside the United States, and all or a substantial portion of their assets, and a substantial portion of the Company's assets, are located outside the United States.

Neither the Securities and Exchange Commission nor any state securities regulator has approved or disapproved the Offered Shares or determined if this Prospectus Supplement and the Prospectus are truthful or complete. Any representation to the contrary is a criminal offense.

Delivery of the Offered Shares through the facilities of CDS Clearing and Depository Services Inc. ("CDS") is expected to occur on or about November 1, 2016 or such other date as may be agreed between the Company and the Underwriters, but in no event later than November 25, 2016 (the "Closing Date"). No certificates evidencing the Offered Shares will be issued to purchasers of the Offered Shares. Purchasers of Offered Shares will receive only a customer confirmation from the Underwriters or other registered dealer who is a CDS participant (a "CDS Participant") and from or through whom a beneficial interest in the Offered Shares is purchased.

IMPORTANT NOTICE ABOUT INFORMATION IN THIS PROSPECTUS SUPPLEMENT

This document is in two parts. The first part is this Prospectus Supplement, which describes the terms of the Offered Shares being offered and also adds to and updates information contained in the Prospectus and the documents incorporated by reference therein. The second part, the Prospectus, gives more general information, some of which may not apply to the Offered Shares being offered under this Prospectus Supplement. This Prospectus Supplement is deemed to be incorporated by reference into the Prospectus solely for the purpose of the Offering constituted by this Prospectus Supplement. Other documents are also incorporated, or are deemed to be incorporated by reference into the Prospectus and reference should be made to the Prospectus for full particulars thereof.

Investors should rely only on the information contained in or incorporated by reference in this Prospectus Supplement and the Prospectus and on the other information included in the registration statement on Form F-10 of which this Prospectus Supplement and the Prospectus form a part (the "Registration Statement"). The Company has not authorized anyone to provide investors with different information. The Company is not making an offer of the Offered Shares in any jurisdiction where such offer is not permitted. An investor should assume that the information appearing in this Prospectus Supplement or the Prospectus is accurate only as of the date on the front of those documents and that information contained in any document incorporated by reference herein or therein is accurate only as of the date of that document unless specified otherwise. The Company's business, financial condition, results of operations and prospects may have changed since those dates.

Market data and certain industry forecasts used in this Prospectus Supplement and the Prospectus and the documents incorporated by reference herein and therein were obtained from market research, publicly available information and industry publications. The Company believes that these sources are generally reliable, but the accuracy and completeness of this information is not guaranteed. The Company has not independently verified such information, and it does not make any representation as to the accuracy of such information.

The Company's consolidated financial statements that are incorporated by reference into this Prospectus Supplement and the Prospectus have been prepared in accordance with International Financial Reporting Standards, as issued by the International Accounting Standards Board ("IFRS").

Unless otherwise indicated, all information in this Prospectus Supplement assumes no exercise of the Over-Allotment Option.

Unless the context otherwise requires, references in this Prospectus Supplement to the "**Company**" include Platinum Group Metals Ltd. and each of its subsidiaries.

CAUTIONARY NOTE REGARDING FORWARD LOOKING STATEMENTS

This Prospectus Supplement, the Prospectus and the documents incorporated by reference herein and therein, contain "forward looking statements" within the meaning of the United States Private Securities Litigation Reform Act of 1995 and "forward looking information" within the meaning of applicable Canadian securities legislation (collectively, "**Forward Looking Statements**"). All statements, other than statements of historical fact, that address activities, events or developments that the Company believes, expects or anticipates will, may, could or might occur in the future are Forward Looking Statements. The words "expect", "anticipate", "estimate", "may", "could", "might", "will", "would", "should", "intend", "believe", "target", "budget", "plan", "strategy", "goals", "objectives", "projection" or the negative of any of these words and similar expressions are intended to identify Forward Looking Statements, although these words may not be present in all Forward Looking Statements. Forward Looking Statements included or incorporated by reference in this Prospectus Supplement, the Prospectus and the documents incorporated by reference herein and therein include, without limitation, statements with respect to:

production estimates and assumptions, including production rate, grade per tonne and smelter recovery;

production timing;

capital raising activities, compliance with terms of indebtedness and the adequacy of capital;

Edgar Filing: PLATINUM GROUP METALS LTD - Form SUPPL

revenue, cash flow and cost estimates and assumptions;

statements with respect to future events or future performance;

anticipated exploration, development, construction, production, permitting and other activities on the Company's properties;

the adequacy of capital, financing needs and the availability of and potential for receiving further commitments;

project economics;

future metal prices and exchange rates;

mineral reserve and mineral resource estimates; and

potential changes in the ownership structures of the Company's projects.

Forward Looking Statements reflect the current expectations or beliefs of the Company based on information currently available to the Company. Forward Looking Statements in respect of capital costs, operating costs, production rate, grade per tonne and smelter recovery are based upon the estimates in the technical reports referred to in this Prospectus Supplement, the Prospectus and in the documents incorporated by reference herein and therein and ongoing cost estimation work, and the Forward Looking Statements in respect of metal prices and exchange rates are based upon the three year trailing average prices and the assumptions contained in such technical reports and ongoing estimates.

Forward Looking Statements are subject to a number of risks and uncertainties that may cause the actual events or results to differ materially from those discussed in the Forward Looking Statements, and even if events or results discussed in the Forward Looking Statements are realized or substantially realized, there can be no assurance that they will have the expected consequences to, or effects on, the Company. Factors that could cause actual results or events to differ materially from current expectations include, among other things:

additional financing requirements;

the Company's history of losses;

the inability of the Company to generate sufficient cash flow to make payment on its indebtedness under the Project 1 Working Capital Facilities (as defined herein) and the restrictions imposed by such indebtedness;

the Project 1 Working Capital Facilities are secured and the Company has pledged its shares of Platinum Group Metals (RSA) Proprietary Limited ("**PTM RSA**") to the Lenders (as defined herein) under the Project 1 Working Capital Facilities, which potentially could result in the loss of the Company's interest in Project 1 (as defined herein), Project 3 (as defined herein), the Waterberg Project (as defined herein) and in PTM RSA in the event of a default under the Project 1 Working Capital Facilities;

the Company's negative cash flow;

the Company's ability to continue as a going concern;

Edgar Filing: PLATINUM GROUP METALS LTD - Form SUPPL

delays in the production ramp-up of Project 1, which could result in a default under the Project 1 Working Capital Facilities;

there can be no assurance that underground development and production ramp-up at Project 1 will meet its production ramp-up timeline or that production at Project 1 will meet the Company's expectations;

delays in, or inability to achieve, planned commercial production;

discrepancies between actual and estimated mineral reserves and mineral resources, between actual and estimated development and operating costs, between actual and estimated metallurgical recoveries and between estimated and actual production;

fluctuations in the relative values of the U.S. dollar, the Rand and the Canadian dollar;

S-2

Edgar Filing: PLATINUM GROUP METALS LTD - Form SUPPL

volatility in metals prices;

the failure of the Company or its joint venture partners to fund their pro rata share of funding obligations for Project 1 or the Waterberg Project;

the inability of the Company to find an additional and suitable joint venture partner for Project 1 and Project 3 within such time frame as may be determined by the South African Department of Mineral Resources (the "DMR");

any disputes or disagreements with the Company's joint venture partners;

other than at Project 1 and the Waterberg Project, there are no known mineral reserves on the Company's properties;

the ability of the Company to retain its key management employees and skilled and experienced personnel;

conflicts of interest;

litigation or other legal or administrative proceedings brought against the Company;

actual or alleged breaches of governance processes or instances of fraud, bribery or corruption;

exploration, development and mining risks and the inherently dangerous nature of the mining industry, including environmental hazards, industrial accidents, unusual or unexpected formations, safety stoppages (whether voluntary or regulatory), pressures, mine collapses, cave ins or flooding and the risk of inadequate insurance or inability to obtain insurance to cover these risks and other risks and uncertainties;

property and mineral title risks including defective title to mineral claims or property;

changes in national and local government legislation, taxation, controls, regulations and political or economic developments in Canada, South Africa or other countries in which the Company does or may carry out business in the future;

equipment shortages and the ability of the Company to acquire the necessary access rights and infrastructure for its mineral properties;

environmental regulations and the ability to obtain and maintain necessary permits, including environmental authorizations and water use licenses;

extreme competition in the mineral exploration industry;

delays in obtaining, or a failure to obtain, permits necessary for current or future operations or failures to comply with the terms of such permits;

Edgar Filing: PLATINUM GROUP METALS LTD - Form SUPPL

risks of doing business in South Africa, including but not limited to labour, economic and political instability and potential changes to and failures to comply with legislation;

the failure to maintain or increase equity participation by historically disadvantaged South Africans in the Company's prospecting and mining operations and to otherwise comply with the Amended Broad Based Socio Economic Empowerment Charter for the South African Mining Industry (Mining Charter); and

the other risks disclosed under the heading "Risk Factors" in the Prospectus and in the documents incorporated by reference herein and therein.

These factors should be considered carefully, and investors should not place undue reliance on the Forward Looking Statements. In addition, although the Company has attempted to identify important factors that could cause actual actions or results to differ materially from those described in the Forward Looking Statements, there may be other factors that cause actions or results not to be as anticipated, estimated or intended.

The mineral resource and mineral reserve figures referred to in this Prospectus Supplement, the Prospectus and the documents incorporated herein and therein by reference are estimates and no assurances can be given that the indicated levels of platinum, palladium, rhodium and gold will be produced. Such estimates are

S-3

Edgar Filing: PLATINUM GROUP METALS LTD - Form SUPPL

expressions of judgment based on knowledge, mining experience, analysis of drilling results and industry practices. Valid estimates made at a given time may significantly change when new information becomes available. By their nature, mineral resource and mineral reserve estimates are imprecise and depend, to a certain extent, upon statistical inferences which may ultimately prove unreliable. Any inaccuracy or future reduction in such estimates could have a material adverse impact on the Company.

Any Forward Looking Statement speaks only as of the date on which it is made and, except as may be required by applicable securities laws, the Company disclaims any intent or obligation to update any Forward Looking Statement, whether as a result of new information, future events or results or otherwise.

CAUTIONARY NOTE TO UNITED STATES INVESTORS

The Company is permitted under the multijurisdictional disclosure system adopted by the securities regulatory authorities in Canada and the United States (the "MJDS") to prepare this Prospectus Supplement, the Prospectus and the documents incorporated by reference herein and therein in accordance with the requirements of Canadian securities laws, which differ from the requirements of United States securities laws. All mineral resource and mineral reserve estimates included in this Prospectus Supplement, the Prospectus and the documents incorporated by reference herein and therein, have been or will be prepared in accordance with National Instrument 43-101 *Standards of Disclosure for Mineral Projects* ("NI 43-101"). NI 43-101 is a rule developed by the Canadian Securities Administrators that establishes standards for all public disclosure an issuer makes of scientific and technical information concerning mineral projects. These standards differ significantly from the mineral reserve disclosure requirements of the SEC set out in Industry Guide 7. Consequently, mineral reserve and mineral resource information included and incorporated by reference in this Prospectus Supplement and the Prospectus is not comparable to similar information that would generally be disclosed by U.S. companies in accordance with the rules of the SEC.

In particular, Industry Guide 7 applies different standards in order to classify mineralization as a reserve. As a result, the definitions of proven and probable mineral reserves used in NI 43-101 differ from the definitions in Industry Guide 7. Under SEC standards, mineralization may not be classified as a "reserve" unless the determination has been made that the mineralization could be economically and legally produced or extracted at the time the reserve determination is made. Among other things, all necessary permits would be required to be in hand or issued imminently in order to classify mineralized material as reserves under the SEC standards. Accordingly, mineral reserve estimates included and incorporated by reference in this Prospectus Supplement and the Prospectus may not qualify as "reserves" under SEC standards.

In addition, the information included and incorporated by reference in this Prospectus Supplement and the Prospectus may use the terms "mineral resources", "measured mineral resources", "indicated mineral resources" and "inferred mineral resources" to comply with the reporting standards in Canada. Industry Guide 7 does not currently recognize mineral resources and U.S. companies are generally not permitted to disclose mineral resources in documents they file with the SEC. Investors are specifically cautioned not to assume that any part or all of the mineral deposits in these categories will ever be converted into mineral reserves under Industry Guide 7. Further, "inferred mineral resources" have a great amount of uncertainty as to their existence and as to whether they can be mined legally or economically. Therefore, investors are also cautioned not to assume that all or any part of an inferred mineral resource exists. In accordance with Canadian rules, estimates of "inferred mineral resources" cannot form the basis of feasibility or, except in limited circumstances, other economic studies. It cannot be assumed that all or any part of "measured mineral resources", "indicated mineral resources" or "inferred mineral resources" will ever be upgraded to a higher category or mineral resources or that mineral resources will be classified as mineral reserves. Investors are cautioned not to assume that any part of the reported "measured mineral resources", "indicated mineral resources" or "inferred mineral resources" included and incorporated by reference in this Prospectus Supplement and the Prospectus is economically or legally mineable. Disclosure of "contained ounces" in a resource is permitted under NI 43-101; however, the SEC normally only permits issuers to report mineralization that does not constitute "reserves" by SEC standards as in place tonnage and grade without reference to unit measures. In addition, the documents included and incorporated by reference in this Prospectus Supplement and the Prospectus may include information regarding adjacent or nearby properties on which the Company has no right to mine. The SEC does not normally allow U.S. companies to include such information in their filings with the SEC. For the above reasons, information

Edgar Filing: PLATINUM GROUP METALS LTD - Form SUPPL

included and incorporated by reference in this Prospectus Supplement and the Prospectus that describes our mineral reserve and resource estimates or that describes the results of pre-feasibility or other studies is not comparable to similar information made public by U.S. companies subject to the reporting and disclosure requirements of the SEC.

RESERVE AND RESOURCE DISCLOSURE

Due to the uncertainty that may be attached to inferred mineral resource estimates, it cannot be assumed that all or any part of an inferred mineral resource estimate will be upgraded to an indicated or measured mineral resource estimate as a result of continued exploration. Confidence in an inferred mineral resource estimate is insufficient to allow meaningful application of the technical and economic parameters to enable an evaluation of economic viability sufficient for public disclosure, except in certain limited circumstances set out in NI 43-101. Inferred mineral resource estimates are excluded from estimates forming the basis of a feasibility study. Mineral resources that are not mineral reserves do not have demonstrated economic viability.

DOCUMENTS INCORPORATED BY REFERENCE

This Prospectus Supplement is deemed to be incorporated by reference in the Prospectus solely for the purpose of the Offering. Other documents are also incorporated or deemed to be incorporated by reference in the Prospectus and reference should be made to the Prospectus for full particulars thereof.

Copies of the documents incorporated by reference in this Prospectus Supplement and the Prospectus and not delivered with this Prospectus Supplement may be obtained on request without charge from Frank Hallam at Suite 788, 550 Burrard Street, Vancouver, British Columbia, Canada, V6C 2B5, telephone (604) 899-5450 and are also available electronically at www.sedar.com and www.sec.gov.

The following documents, filed by the Company with the securities commissions or similar regulatory authorities in certain provinces of Canada and filed with, or furnished to, the SEC, are specifically incorporated by reference into, and form an integral part of, this Prospectus Supplement and the Prospectus:

- (a) the annual information form of the Company dated November 24, 2015 for the financial year ended August 31, 2015 (the "**Annual Information Form**" or "**AIF**");
- (b) the management information circular of the Company dated January 4, 2016 prepared for the purposes of the annual general meeting of the Company held on February 26, 2016 at which each of the Company's directors was re-elected and the shareholders approved all other matters submitted to a shareholder vote;
- (c) the audited consolidated financial statements of the Company as at and for the financial years ended August 31, 2015 and 2014, together with the notes thereto and the auditor's reports thereon (the "**Annual Financial Statements**");
- (d) the management's discussion and analysis of the Company for the financial year ended August 31, 2015;
- (e) the unaudited interim condensed consolidated financial statements of the Company for the three months ended November 30, 2015, together with the notes thereto;
- (f) the management's discussion and analysis of the Company for the three months ended November 30, 2015;
- (g) the unaudited interim condensed consolidated financial statements of the Company for the three and nine months ended May 31, 2016, together with the notes thereto;
- (h) the management's discussion and analysis of the Company for the nine months ended May 31, 2016;
- (i)

Edgar Filing: PLATINUM GROUP METALS LTD - Form SUPPL

the NI 43-101 technical report entitled "An Independent Technical Report on the Maseve Project (WBJV Project areas 1 and 1A) located on the Western Limb of the Bushveld Igneous Complex, South Africa" dated August 28, 2015 (the "**Project 1 Report**");

S-5

Edgar Filing: PLATINUM GROUP METALS LTD - Form SUPPL

- (j) the NI 43-101 technical report entitled "Independent Technical Report on the Waterberg Project Including Mineral Resource Update and Pre-Feasibility Study – Project Areas located on the Northern Limb of the Bushveld Igneous Complex, South Africa" dated October 19, 2016 (the "**Waterberg PFS**");
- (k) the material change report of the Company filed November 3, 2015 announcing that it had entered into a second lien credit agreement with Liberty Metals & Mining Holdings, LLC ("**Liberty Holdings**"), a subsidiary of Liberty Mutual Insurance, for a US\$40 million secured loan facility (as subsequently amended on May 3, 2016 and September 19, 2016, the "**Liberty Facility**");
- (l) the material change report of the Company filed November 23, 2015 announcing that the Company had simultaneously drawn down, in full, US\$40 million from the Liberty Facility and US\$40 million (the "**Original Sprott Advance**") from the secured loan facility with Sprott Resource Lending Partnership, among other lenders (the lenders from time to time, the "**Sprott Lenders**") pursuant to a credit agreement dated February 13, 2015 (as subsequently amended on November 19, 2015, May 3, 2016 and September 19, 2016, the "**Sprott Facility**"), and the Sprott Lenders, together with Liberty Holdings, the "**Lenders**");
- (m) the material change report of the Company filed January 12, 2016 announcing that the budget funded by Japan Oil, Gas and Metals National Corporation ("**JOGMEC**"), the Company's joint venture partner, for the Waterberg Project had been expanded from US\$8.0 million to US\$8.5 million for the annual period ending March 31, 2016;
- (n) the material change report of the Company filed January 26, 2016 announcing the consolidation of the Common Shares on the basis of one new Common Share for ten old Common Shares effective January 26, 2016 (the "**Share Consolidation**");
- (o) the material change report of the Company filed February 9, 2016 announcing the successful completion of hot commissioning at Project 1;
- (p) the material change report of the Company filed March 17, 2016 announcing that over 90% of recent infill drilling on the Waterberg Project had successfully intersected the "T" and "F" targeted layers;
- (q) the material change report of the Company filed April 19, 2016 announcing an increase in the resource estimate for platinum, palladium, rhodium and gold at the Waterberg JV Project;
- (r) the material change report of the Company filed May 5, 2016 announcing the modification agreements to the Sprott Facility and the Liberty Facility, each dated May 3, 2016 (together, the "**May Credit Facility Amendments**");
- (s) the material change report of the Company filed May 5, 2016 announcing that the Company had entered into an agreement with a syndicate of underwriters to buy, on a bought deal basis, 11,000,000 Common Shares, at a price of US\$3.00 per Common Share (the "**May Offering**");
- (t) the material change report of the Company filed May 26, 2016 announcing the closing of the May Offering;
- (u) the material change report of the Company filed June 1, 2016 announcing new platinum, palladium and gold assay results for recent drill intercepts completed on the Waterberg Project;
- (v) the material change report of the Company filed July 14, 2016 announcing financial results and highlights for the nine months ended May 31, 2016;
- (w)

Edgar Filing: PLATINUM GROUP METALS LTD - Form SUPPL

the material change report of the Company filed September 20, 2016 announcing updates on Project 1 and the Waterberg Project and the modification agreements to the Sprott Facility and the Liberty Facility, each dated September 19, 2016 (together, the "**September Credit Facility Amendments**");

(x)

the material change report of the Company filed October 12, 2016 announcing that the Sprott Lenders have provided a US\$5 million second advance (the "**Second Sprott Advance**") to the Company pursuant to an amended and restated credit agreement dated October 11, 2016 (the "**Amended & Restated Sprott Credit Agreement**" and the Sprott Facility, as amended and restated, the "**Amended &**

S-6

Restated Sprott Facility", and together with the Liberty Facility, the "**Project 1 Working Capital Facilities**");

- (y) the material change report of the Company filed October 20, 2016 announcing the Waterberg PFS (the "**PFS MCR**"); and
- (z) the material change report of the Company filed October 25, 2016 announcing the Offering.

Any document of the type referred to in the preceding paragraph (excluding press releases and confidential material change reports) or of any other type required to be incorporated by reference into a short form prospectus pursuant to National Instrument 44-101 *Short Form Prospectus Distributions* that are filed by the Company with a securities commission after the date of this Prospectus Supplement and prior to the termination of the Offering shall be deemed to be incorporated by reference in this Prospectus Supplement. In addition, any document filed by the Company with the SEC or furnished to the SEC on Form 6-K or otherwise after this Prospectus Supplement (and prior to the termination of the Offering) shall be deemed to be incorporated by reference into this Prospectus Supplement and the Registration Statement (in the case of a Report on Form 6-K, if and to the extent expressly provided for therein).

Any statement contained in this Prospectus Supplement, the Prospectus or a document incorporated or deemed to be incorporated by reference herein or therein shall be deemed to be modified or superseded for the purposes of this Prospectus Supplement to the extent that a statement contained herein or in the Prospectus or in any subsequently filed document which also is or is deemed to be incorporated by reference herein or in the Prospectus modifies or supersedes that prior statement. The modifying or superseding statement need not state that it has modified or superseded a prior statement or include any other information set forth in the document that it modifies or supersedes. The making of a modifying or superseding statement shall not be deemed an admission for any purposes that the modified or superseded statement, when made, constituted a misrepresentation, an untrue statement of a material fact or an omission to state a material fact that is required to be stated or that is necessary to make a statement not misleading in light of the circumstances in which it was made. Any statement so modified or superseded shall not be considered in its unmodified or superseded form to constitute a part of this Prospectus Supplement, except as so modified or superseded.

Without limiting the foregoing, the Waterberg PFS replaces and supersedes the technical report entitled "Mineral Resource Update on the Waterberg Project Located in the Bushveld Igneous Complex, South Africa" dated April 29, 2016 (the "**April 2016 Waterberg Report**") and any earlier reports or estimates of resources for the Waterberg Project, and any reference to, or information originating from, the April 2016 Waterberg Report or such earlier reports or estimates that may be presented in this Prospectus Supplement, the Prospectus or the documents incorporated by reference herein or therein is no longer current and is used for historical or comparative purposes.

ADDITIONAL INFORMATION

The Company has filed with the SEC the Registration Statement. This Prospectus Supplement and the Prospectus, which together constitute a part of the Registration Statement, do not contain all of the information contained in the Registration Statement, certain items of which are contained in the exhibits to the Registration Statement as permitted by the rules and regulations of the SEC. Statements included or incorporated by reference in this Prospectus Supplement and the Prospectus about the contents of any contract, agreement or other documents referred to are not necessarily complete, and in each instance an investor should refer to the exhibits to the Registration Statement for a more complete description of the matter involved. Each such statement is qualified in its entirety by such reference.

The Company is subject to the information requirements of the *United States Securities Exchange Act of 1934*, as amended (the "**Exchange Act**"), and applicable Canadian securities legislation, and in accordance therewith files and furnishes reports and other information with the SEC and with the securities regulators in Canada. Under the MJDS, documents and other information that the Company files and furnishes with the SEC may be prepared in accordance with the disclosure requirements of Canada, which are different from those of the United States. As a foreign private issuer, the Company is exempt from the rules under the Exchange Act prescribing the furnishing and content of proxy statements, and its officers, directors and principal shareholders

Edgar Filing: PLATINUM GROUP METALS LTD - Form SUPPL

are exempt from the reporting and short-swing profit recovery provisions contained in Section 16 of the Exchange Act. In addition, the Company is not required to publish financial statements as promptly as U.S. companies.

An investor may read any document that the Company has filed with or furnished to the SEC at the SEC's public reference room in Washington, D.C. An investor may also obtain copies of those documents from the public reference room of the SEC at 100 F Street, N.E., Washington, D.C. 20549 by paying a fee. An investor should call the SEC at 1-800-SEC-0330 or access its website at www.sec.gov for further information about the public reference rooms. An investor may read and download the documents the Company has filed with the SEC under the Company's corporate profile at www.sec.gov. An investor may read and download any public document that the Company has filed with the Canadian securities regulatory authorities under the Company's corporate profile on the SEDAR website at www.sedar.com.

DOCUMENTS FILED AS PART OF THE REGISTRATION STATEMENT

The following documents have been or will be filed with the SEC as part of the Registration Statement: (i) the documents referred to herein and in the Prospectus under the heading "Documents Incorporated by Reference"; (ii) consents of PricewaterhouseCoopers LLP and the persons named under "Interest of Experts" herein and in the Prospectus; (iii) powers of attorney from certain directors and officers of the Company; (iv) the form of Indenture (as defined in the Prospectus); and (v) the Underwriting Agreement.

ENFORCEABILITY OF CIVIL LIABILITIES

The Company is a company organized and existing under the *Business Corporations Act* (British Columbia). A majority of the Company's directors and officers, and some or all of the Underwriters named in this Prospectus Supplement and the experts named in this Prospectus Supplement, the Prospectus and the documents incorporated by reference herein and therein, are residents of Canada or otherwise reside outside the United States, and all or a substantial portion of their assets, and a substantial portion of the Company's assets, are located outside the United States. The Company has appointed an agent for service of process in the United States, but it may be difficult for holders of Offered Shares who reside in the United States to effect service within the United States upon those directors, officers, Underwriters and experts who are not residents of the United States. It may also be difficult for holders of Offered Shares who reside in the United States to realize in the United States upon judgments of courts of the United States predicated upon the Company's civil liability and the civil liability of the Company's directors, officers, Underwriters and experts under the United States federal securities laws. A final judgment for a liquidated sum in favour of a private litigant granted by a United States court and predicated solely upon civil liability under United States federal securities laws would, subject to certain exceptions identified in the law of individual provinces and territories of Canada, likely be enforceable in Canada if the United States court in which the judgment was obtained had a basis for jurisdiction in the matter that would be recognized by the domestic Canadian court for the same purposes. There is a significant risk that a given Canadian court may not have jurisdiction or may decline jurisdiction over a claim based solely upon United States federal securities law on application of the conflict of laws principles of the province or territory in Canada in which the claim is brought.

CURRENCY PRESENTATION AND EXCHANGE RATE INFORMATION

Unless stated otherwise or the context otherwise requires, all references to dollar amounts in this Prospectus Supplement and the Prospectus are references to Canadian dollars. All references to "CAN\$" are to Canadian dollars, references to "US\$" are to United States dollars and references to "R" or "Rand" are to South African Rand.

The Annual Financial Statements are presented in Canadian dollars. Effective September 1, 2015, the Company changed its presentation currency from the Canadian dollar to the United States dollar. Accordingly, the Company's unaudited interim condensed consolidated financial statements for the three months ended November 30, 2015 and the three and nine months ended May 31, 2016 (together, the "**Interim Financial Statements**", and together with the Annual Financial Statements, the "**Financial Statements**"), each incorporated by reference in this Prospectus Supplement, are presented in United States dollars. The change in

Edgar Filing: PLATINUM GROUP METALS LTD - Form SUPPL

presentation currency is to better reflect the Company's business activities and to improve investors' ability to compare the Company's financial results with other publicly traded businesses in the mining industry. The United States dollar is also the currency used for quoting prices in the Company's products. There has been no change to the Company's functional currency, being the Canadian dollar, or its subsidiaries' functional currencies, being the Rand.

For further information regarding the Company's change in its presentation currency to the United States dollar, including the translation of certain information from Canadian dollars to United States dollars, see the Interim Financial Statements and the management's discussion and analysis of the Company related thereto, incorporated by reference in this Prospectus Supplement.

The following table sets forth the rate of exchange for the United States dollar expressed in Canadian dollars in effect at the end of each of the periods indicated, the average of the exchange rates in effect on the last day of each month during each of the periods indicated, and the high and low exchange rates during each of the periods indicated in each case based on the noon rate of exchange as reported by the Bank of Canada for the conversion of United States dollars into Canadian dollars.

Twelve Months Ended August 31,				
	2015		2014	
Average rate for period	CAN\$	1.2102	CAN\$	1.0776
Rate at end of period	CAN\$	1.3223	CAN\$	1.0858
High for period	CAN\$	1.3303	CAN\$	1.1251
Low for period	CAN\$	1.0863	CAN\$	1.0237

Nine Months Ended May 31,				
	2016		2015	
Average rate for period	CAN\$	1.3363	CAN\$	1.1868
Rate at end of period	CAN\$	1.3100	CAN\$	1.2465
High for period	CAN\$	1.4589	CAN\$	1.2803
Low for period	CAN\$	1.2544	CAN\$	1.1236

The noon rate of exchange on October 24, 2016 as reported by the Bank of Canada for the conversion of United States dollars into Canadian dollars was US\$1.00 equals CAN\$1.3388.

The following table sets forth the rate of exchange for the Rand expressed in Canadian dollars in effect at the end of each of the periods indicated, the average of the exchange rates in effect on the last day of each month during each of the periods indicated, and the high and low exchange rates during each of the periods indicated in each case based on the noon rate of exchange as reported by the Bank of Canada for conversion of Rand into Canadian dollars.

Twelve Months Ended August 31,				
	2015		2014	
Average rate for period	CAN\$	0.1026	CAN\$	0.1026
Rate at end of period	CAN\$	0.09979	CAN\$	0.1019

The noon rate of exchange on October 24, 2016 as reported by the Bank of Canada for the conversion of Rand into Canadian dollars was one Rand equals CAN\$0.09615.

NOTICE REGARDING NON-IFRS MEASURES

This Prospectus Supplement, the Prospectus and the documents incorporated by reference herein and therein include certain terms or performance measures that are not defined under IFRS, such as cash costs, all-in sustaining costs and total costs per payable ounce, realized price per ounce, adjusted net income (loss) before tax, adjusted net income (loss) and adjusted basic earnings (loss) per share. The Company believes that, in addition to conventional measures prepared in accordance with IFRS, certain investors use this information to evaluate the Company's performance. The data presented is intended to provide additional information and should not be considered in isolation or as a substitute for measures of performance prepared in accordance with IFRS. These non-IFRS measures should be read in conjunction with the Financial Statements.

S-10

PROSPECTUS SUPPLEMENT SUMMARY

This summary highlights certain information about the Company, the Offering and selected information contained elsewhere in or incorporated by reference in this Prospectus Supplement, the Prospectus or the documents incorporated by reference herein or therein. This summary is not complete and does not contain all of the information that you should consider before deciding whether to invest in the Offered Shares. For a more complete understanding of the Company and the Offering, the Company encourages you to read and consider carefully the more detailed information in this Prospectus Supplement and the Prospectus, including the information incorporated by reference herein and therein, and in particular, the information under the heading "Risk Factors" in the Prospectus.

All capitalized terms used in this summary refer to definitions contained elsewhere in this Prospectus Supplement.

Overview

The Company is a platinum-focused exploration and development company conducting work primarily on mineral properties it has staked or acquired by way of option agreements or applications in the Republic of South Africa. The Company, through its wholly-owned direct subsidiary, Platinum Group Metals (RSA) Proprietary Limited ("**PTM RSA**") indirectly holds interests in the Project 1 platinum mine (also known as the Maseve Mine, "**Project 1**") and Project 3 of what was formerly the Western Bushveld Joint Venture ("**Project 3**"), both located on the Western Limb of the Bushveld Complex. The Company also owns 49.9% of Mnombo Wethu Consultants Proprietary Limited ("**Mnombo**"), a company which holds a 26% participating interest in both the Waterberg joint venture project (the "**Waterberg JV Project**") and the and the Waterberg extension project (the "**Waterberg Extension Project**" and together with the Waterberg JV Project, the "**Waterberg Project**"). PTM RSA is the operator of the Waterberg Project with JOGMEC and Mnombo.

Waterberg PFS

The Company announced on October 19, 2016, and subsequently filed, the Waterberg PFS effective October 17, 2016 and on October 20, 2016, the Company filed the PFS MCR, which contains the extracted summary section from the Waterberg PFS prepared for the Company by Charles Muller of CJM Consulting (Pty) Ltd., Robert L. Goosen of Advisian/WorleyParsons Group and Gordon Cunningham of Turnberry Projects (Pty) Ltd. The Waterberg PFS is incorporated by reference herein and, for full technical details, reference should be made to the complete text of the Waterberg PFS. The summary section contained in each of the Waterberg PFS and PFS MCR does not purport to be a complete summary of the Waterberg Project and is subject to all the assumptions, qualifications and procedures set out in the Waterberg PFS and is qualified in its entirety with reference to the full text of the Waterberg PFS. Readers should read the summary in conjunction with the Waterberg PFS. Readers are directed to review the full text of the Waterberg PFS, available for review under the Company's profile on SEDAR at www.sedar.com and on the SEC's EDGAR website at www.sec.gov, for additional information. In the event of any discrepancies between the PFS MCR and the Waterberg PFS, investors should rely on the Waterberg PFS.

THE OFFERING

The following summary contains basic information about the Offering and is not intended to be complete. It does not contain all the information that is important to you. You should carefully read this Prospectus Supplement, the Prospectus and the documents incorporated by reference herein and therein before making an investment decision.

Issuer	Platinum Group Metals Ltd.
Securities offered	22,230,000 Offered Shares at US\$1.80 per Offered Share.
Common Shares outstanding as of the date hereof	90,459,656 Common Shares.
Common Shares to be outstanding upon closing of the Offering⁽¹⁾	112,803,619 Common Shares. If the Over-Allotment Option is exercised in full, 116,138,119 Common Shares will be outstanding upon closing of the Offering.
Over-Allotment Option	The Underwriters have been granted the Over-Allotment Option to purchase up to 3,334,500 Over-Allotment Shares at the Offering Price. The Over-Allotment Option is exercisable for 30 days from the date of closing of the Offering.
Use of proceeds	The net proceeds to the Company from the Offering will be approximately US\$36,963,160 (or approximately US\$42,605,134 if the Underwriters exercise the Over-Allotment Option in full), after deducting the Underwriting Commission and estimated expenses. The Company intends to use the net proceeds of the Offering (i) for underground development and production ramp-up of Project 1; (ii) for working capital during start-up; (iii) for repayment of all or a portion of the Second Sprott Advance; and (iv) for general corporate purposes.
Stock exchange symbols	The Common Shares are listed on the TSX and on the NYSE MKT under the symbol "PTM" and "PLG", respectively.
Income tax considerations	Holder are urged to consult their own tax advisors with respect to the U.S. and Canadian federal, provincial, territorial, local and foreign tax consequences of purchasing, owning and disposing of the Common Shares. See "Certain Canadian Federal Income Tax Considerations" and "Certain United States Federal Income Tax Considerations".
Risk factors	See "Risk Factors" in the Prospectus for a discussion of factors you should carefully consider before deciding to invest in the Offered Shares.

Note:

- (1) This number assumes:
- (a) there will be no exercise of outstanding stock options from the date of this Prospectus Supplement until the closing of the Offering (as of October 24, 2016, 2,913,525 stock options of the Company were outstanding); and
 - (b) the issuance of 113,963 Common Shares pursuant to the Amended & Restated Sprott Credit Agreement.

RISK FACTORS

Investing in the Offered Shares involves a high degree of risk. In addition to the other information contained in this Prospectus Supplement, the Prospectus and the documents incorporated by reference herein and therein, you should carefully consider the risks described under the "Risk Factors" section of the Prospectus before purchasing the Offered Shares. If any such risks actually occur, the Company's business, financial condition, results of operations and prospects could materially suffer. As a result, the trading price of the Company's securities, including the Offered Shares, could decline, and you might lose all or part of your investment. The risks set out in the Prospectus are not the only risks that the Company faces; risks and uncertainties not currently known to it or that it currently deems to be immaterial may also materially and adversely affect its business, financial condition, results of operations and prospects. You should also refer to the other information set forth or incorporated by reference in this Prospectus Supplement and the Prospectus, including the Financial Statements and related notes.

CONSOLIDATED CAPITALIZATION

The following table sets forth the consolidated capitalization of the Company as at May 31, 2016 on (a) an actual basis and (b) an as-adjusted basis to give effect to the completion of the Offering. This table should be read in conjunction with the Financial Statements. See "Documents Incorporated by Reference". Since May 31, 2016, there has been no material change in the share and loan capital of the Company, on a consolidated basis, other than as described in this Prospectus Supplement and the Prospectus.

	As of May 31, 2016	
	Actual	As Adjusted for the Offering ⁽¹⁾
	(US\$ in thousands)	
Cash and cash equivalents ⁽²⁾	\$ 45,488	82,451
Long-term financial liabilities ⁽³⁾	\$ 61,299	61,299
Shareholders' equity:		
Share capital (Common Shares): unlimited shares authorized; 90,459,656 shares issued and outstanding; 112,689,656 shares issued and outstanding after giving effect to the Offering ⁽²⁾⁽⁴⁾	\$ 714,510	751,473
Contributed surplus	23,928	23,928
Accumulated other comprehensive loss	(259,861)	(259,861)
Deficit	(106,204)	(106,204)
Shareholders' equity attributable to shareholders of the Company	372,373	409,336
Total capitalization ⁽²⁾	\$ 372,373	409,336

Notes:

- (1) After deduction of the Underwriting Commission, and estimated expenses of the Offering of US\$650,000, and assuming no exercise of the Over Allotment Option.
- (2) If the Over-Allotment Option is exercised in full, as adjusted cash and cash equivalents will be US\$88,093 thousand, as adjusted share capital will be US\$757,115 thousand and as adjusted total capitalization will be US\$414,978 thousand.
- (3) Does not include US\$16,667 thousand current portion of loan payable as of May 31, 2016, which subsequent to the September Credit Facility Amendments has become a long-term financial liability. Does not include any portion of the Second Sprott Advance.
- (4) As at May 31, 2016, this figure excluded 3,071,525 Common Shares reserved for issuance pursuant to outstanding stock options (with a weighted average exercise price of CAN\$7.43) and nil Common Shares reserved for issuance pursuant to outstanding warrants. Subsequent to May 31, 2016 and prior to the date of this Prospectus Supplement, none of such Common Shares reserved for issuance pursuant to outstanding stock options have been issued pursuant to the exercise of outstanding options. This figure also excludes 1,602,628 Common Shares issued to the Lenders pursuant to the Second Credit Facility Amendments and 113,963 Common Shares issuable to the Sprott Lenders pursuant to the Amended & Restated Sprott Credit Agreement.

USE OF PROCEEDS

The estimated net proceeds received by the Company from the Offering (assuming no exercise of the Over-Allotment Option) will be US\$36,963,160 (determined after deducting the Underwriting Commission of US\$2,400,840 and estimated expenses of the Offering of US\$650,000). If the Over-Allotment Option is exercised in full, the estimated net proceeds received by the Company from the Offering will be US\$42,605,134 (determined after deducting the Underwriting Commission of US\$2,760,966 and estimated expenses of the Offering of US\$650,000).

The Company intends to use the net proceeds of the Offering (i) for underground development and production ramp-up of Project 1; (ii) for working capital during start-up; (iii) for repayment of all or a portion of the Second Sprott Advance; and (iv) for general corporate purposes. The following table provides additional details as to the estimated uses of the net proceeds of the Offering:

	US\$ in millions	
Project 1 underground development and production ramp-up costs ⁽¹⁾	\$	22.0
Working capital during start-up ⁽²⁾		9.4
Repayment of Second Sprott Advance ⁽³⁾		5.0
General corporate purposes		0.56
Total	\$	36.96

Notes:

- (1) Assumes that Africa Wide Mineral Prospecting and Exploration Proprietary Limited ("**Africa Wide**") will elect not to contribute to Maseve Investments 11 Proprietary Limited ("**Maseve**") in order to match its pro rata share of Project 1 funding. Any funding from Africa Wide or a new joint venture partner would reduce the Company's funding requirements.
- (2) May be used for interest payable on the Amended & Restated Sprott Facility, wages and salaries and other estimated general & administrative expenses.
- (3) The proceeds from the Second Sprott Advance were used to fund underground development and production ramp-up at Project 1. The Sprott Lenders can elect for earlier repayment of the Second Sprott Advance from the proceeds of an equity or debt financing (excluding an intercompany financing) on or before December 31, 2017. If the Sprott Lenders do not elect for earlier repayment from the proceeds of the Offering, some of these proceeds may be reallocated for general corporate purposes.

If the Over-Allotment Option is exercised in whole or in part, the Company will use the additional net proceeds from such exercise for general corporate purposes.

Although the Company intends to use the net proceeds from the Offering as set forth above, the actual allocation of the net proceeds may vary from those allocations set out above, depending on future developments in the Company's mineral properties or unforeseen events, including those listed under the "Risk Factors" section of the Prospectus. Potential investors are cautioned that, notwithstanding the Company's current intentions regarding the use of the net proceeds of the Offering, there may be circumstances where a reallocation of the net proceeds may be advisable for reasons that management believes, in its discretion, are in the Company's best interests.

Pending their use, the net proceeds of the Offering will be invested in short-term investment grade instruments including, but not limited to, demand deposits, banker's acceptances, interest bearing corporate, government-issued and/or government-guaranteed securities and term deposits held with major Canadian, British or South African financial institutions. The Company's Chief Executive Officer, Chief Financial Officer and board of directors are responsible for the investment and supervision of unallocated funds.

Utilizing the net proceeds of the Offering and cash on hand, the Company's primary business objective is to bring Project 1 into commercial production, as described in this Prospectus Supplement, the Prospectus and the documents incorporated by reference herein and therein. Secondly, the Company plans to further advance the Waterberg Project, as described in the Waterberg PFS.

Based on the Company's current projections, the net proceeds of the Offering, together with the Company's cash on hand and anticipated production revenue, are anticipated to be sufficient to satisfy the Company's working capital needs for the next 12 months, after which the Company may be required to raise additional

Edgar Filing: PLATINUM GROUP METALS LTD - Form SUPPL

capital. Potential investors are cautioned that higher than expected costs, or lower than expected revenues, may require the Company to raise significant additional capital. See "Risk Factors" in the Prospectus.

PRIOR SALES

During the 12 months preceding the date of this Prospectus Supplement, the Company has issued or agreed to issue Common Shares at the following prices:

Date of Issuance	Number of Common Shares	Issuance Prices (CAN\$)
November 20, 2015 ⁽¹⁾	348,584 ⁽²⁾	3.05
November 20, 2015 ⁽¹⁾	348,584 ⁽³⁾	3.05
March 11, 2016	2,250 ⁽⁴⁾	2.00
May 13, 2016	131,654 ⁽⁵⁾	3.87
May 13, 2016	131,654 ⁽⁶⁾	3.87
May 26, 2016	11,000,000 ⁽⁷⁾	3.89
September 30, 2016	801,314 ⁽⁸⁾	3.30
September 30, 2016	801,314 ⁽⁹⁾	3.30
October 2016	113,963 ⁽¹⁰⁾	2.9185
TOTAL	13,679,317	

Notes:

- (1) The number of Common Shares and the issue price have been adjusted to reflect the Share Consolidation.
- (2) Issued pursuant to the Sprott Facility.
- (3) Issued pursuant to the Liberty Facility.
- (4) Issued pursuant to the exercise of stock options.
- (5) Issued to the Sprott Lenders pursuant to the May Credit Facility Amendments.
- (6) Issued to Liberty Holdings pursuant to the May Credit Facility Amendments.
- (7) Issued pursuant to the May Offering.
- (8) Issued to the Sprott Lenders pursuant to the September Credit Facility Amendments.
- (9) Issued to Liberty Holdings pursuant to the September Credit Facility Amendments.
- (10) To be issued prior to October 31, 2016 to the Sprott Lenders pursuant to the Amended & Restated Sprott Credit Agreement.

During the 12 months preceding the date of this Prospectus Supplement, the Company has issued the following securities convertible into Common Shares at the following prices:

Date of Issuance	Number of Options Issued ⁽¹⁾	Exercise Prices ⁽¹⁾ (CAN\$)
December 22, 2015	1,016,550 ⁽²⁾	2.00

Notes:

- (1)

Edgar Filing: PLATINUM GROUP METALS LTD - Form SUPPL

The number of options issued and the exercise price have been adjusted to reflect the Share Consolidation.

(2)

Each option is exercisable for one Common Share.

S-15

PRICE RANGE AND TRADING VOLUME

The Common Shares are listed for trading on the TSX under the trading symbol "PTM" and on the NYSE MKT under the trading symbol "PLG". The following tables set forth information relating to the trading of the Common Shares on the TSX and the NYSE MKT for the periods indicated.

TSX⁽¹⁾ "PTM"

Period	High (CAN\$)	Low (CAN\$)	Volume
October 1 to 24, 2016	3.66	2.47	1,100,210
September, 2016	3.97	3.50	1,039,057
August, 2016	4.63	3.59	1,568,123
July, 2016	4.95	3.79	2,665,700
June, 2016	4.64	3.51	1,827,030
May, 2016	4.74	3.42	1,788,239
April, 2016	5.07	3.16	3,329,126
March, 2016	5.25	2.51	3,111,955

Notes:

- (1) The price and volume have been adjusted to reflect the Share Consolidation.

CERTAIN CANADIAN FEDERAL INCOME TAX CONSIDERATIONS

The following is, as of the date hereof, a general summary of the principal Canadian federal income tax considerations under *Income Tax Act* (Canada) (the "**Tax Act**") and the regulations thereunder (the "**Regulations**") generally applicable to a holder who acquires Offered Shares as beneficial owner pursuant to this Prospectus Supplement and who, at all relevant times, for the purposes of the Tax Act, deals at arm's length with the Company and the Underwriters, is not affiliated with the Company or the Underwriters, and will acquire and hold such Offered Shares as capital property (each, a "**Holder**"), all within the meaning of the Tax Act. Offered Shares will generally be considered to be capital property to a Holder unless the Holder holds or uses the Offered Shares or is deemed to hold or use the Offered Shares in the course of carrying on a business

Edgar Filing: PLATINUM GROUP METALS LTD - Form SUPPL

of trading or dealing in securities or has acquired them or deemed to have acquired them in a transaction or transactions considered to be an adventure in the nature of trade.

This summary does not apply to a Holder (a) that is a "financial institution" for purposes of the mark-to-market rules contained in the Tax Act; (b) an interest in which is or would constitute a "tax shelter investment" as defined in the Tax Act; (c) that is a "specified financial institution" as defined in the Tax Act; (d) that is a corporation resident in Canada (for the purpose of the Tax Act) or a corporation that does not deal at arm's length for purposes of the Tax Act with a corporation resident in Canada, and that is or becomes as part of a transaction or event or series of transactions or events that includes the acquisition of the Offered Shares, controlled by a non-resident corporation for the purposes of the foreign affiliate dumping rules in Section 212.3 of the Tax Act; (e) that reports its "Canadian tax results" in a currency other than Canadian currency, all as defined in the Tax Act; (f) that is exempt from tax under the Tax Act; or (g) that has entered into, or will enter into, a "synthetic disposition arrangement" or a "derivative forward agreement" with respect to the Offered Shares, as those terms are defined in the Tax Act. Such Holders should consult their own tax advisors with respect to an investment in Offered Shares.

This summary does not address the deductibility of interest by a Holder who has borrowed money or otherwise incurred debt in connection with the acquisition of Offered Shares.

This summary is based upon the current provisions of the Tax Act and the Regulations in force as of the date hereof, specific proposals to amend the Tax Act and the Regulations (the "**Tax Proposals**") which have been announced by or on behalf the Minister of Finance (Canada) prior to the date hereof, the current provisions of the *Canada-United States Income Tax Convention* (1980) (the "**Canada-U.S. Tax Convention**") and counsel's understanding of the current published administrative policies and assessing practices of the Canada Revenue Agency (the "**CRA**"). This summary assumes that the Tax Proposals will be enacted in the form proposed and does not take into account or anticipate any other changes in law, whether by way of judicial, legislative or governmental decision or action, nor does it take into account provincial, territorial or foreign income tax legislation or considerations, which may differ from the Canadian federal income tax considerations discussed herein. No assurances can be given that the Tax Proposals will be enacted as proposed or at all, or that legislative, judicial or administrative changes will not modify or change the statements expressed herein.

This summary is not exhaustive of all possible Canadian federal income tax considerations applicable to an investment in Offered Shares. This summary is of a general nature only and is not intended to be, nor should it be construed to be, legal or income tax advice to any particular Holder. Holders should consult their own income tax advisors with respect to the tax consequences applicable to them based on their own particular circumstances.

Amounts Determined in Canadian Dollars

For purposes of the Tax Act, all amounts relating to the Offered Shares must be expressed in Canadian dollars, including cost, adjusted cost base, proceeds of disposition and dividends, and amounts denominated in U.S. dollars must be converted to Canadian dollars using the rate of exchange published by the Bank of Canada at noon (or beginning on March 1, 2017, the single daily exchange rate) on the particular date the particular amount arose or such other rate of exchange as may be accepted by the CRA. Holders may therefore realize additional income or gain by virtue of changes in foreign exchange rates, and are advised to consult with their own tax advisors in this regard. Currency tax issues are not discussed further in this summary.

Residents of Canada

The following portion of this summary is generally applicable to a Holder who, for the purposes of the Tax Act, is resident or deemed to be resident in Canada at all relevant times (each, a "**Resident Holder**"). Certain Resident Holders whose Offered Shares might not otherwise qualify as capital property may be entitled to make an irrevocable election pursuant to subsection 39(4) of the Tax Act to have the Offered Shares, and every other "Canadian security" (as defined by the Tax Act) owned by such Resident Holder in the taxation year of the election and in all subsequent taxation years, deemed to be capital property. Resident Holders should consult their own tax advisors for advice as to whether an election under subsection 39(4) of the Tax Act is available or advisable in their particular circumstances.

Edgar Filing: PLATINUM GROUP METALS LTD - Form SUPPL

Taxation of Dividends Received by Resident Holders

In the case of a Resident Holder who is an individual (including certain trusts), dividends (including deemed dividends) received on the Offered Shares will be included in the Resident Holder's income and be subject to the gross-up and dividend tax credit rules applicable to taxable dividends received by an individual from taxable Canadian corporations, including the enhanced gross-up and dividend tax credit for "eligible dividends" properly designated as such by the Company. Taxable dividends received by such Resident Holder may give rise to minimum tax under the Tax Act.

In the case of a Resident Holder that is a corporation, such dividends (including deemed dividends) received on the Offered Shares will be included in the Resident Holder's income and will normally be deductible in computing such Resident Holder's taxable income. In certain circumstances, section 55(2) of the Tax Act will treat a taxable dividend received by a Resident Holder that is in a corporation as proceeds of disposition or a capital gain. Resident Holders that are corporations should consult their own tax advisors having regard to their own circumstances.

A Resident Holder that is a "Canadian-controlled private corporation" (as defined in the Tax Act) may be liable to pay an additional refundable tax of 10²/₃% for taxation years ending after 2015 (subject to pro-rating for taxation years that end after 2015 and begin before 2016) on its "aggregate investment income" (as defined in the Tax Act) for the year, which is defined to include an amount in respect of dividends.

A Resident Holder that is a "private corporation" or "subject corporation" (as such terms are defined in the Tax Act) may be liable to pay a 38¹/₃% for taxation years ending after 2015 (subject to pro-rating for taxation years that end after 2015 and begin before 2016) refundable tax under Part IV of the Tax Act on dividends received or deemed to be received on the Offered Shares to the extent that such dividends are deductible in computing the Resident Holder's taxable income for the year.

Disposition of Offered Shares

A Resident Holder who disposes of, or is deemed to have disposed of, an Offered Share (other than to the Company, unless purchased by the Company in the open market in the manner in which shares are normally purchased by any member of the public in the open market) will realize a capital gain (or incur a capital loss) equal to the amount by which the proceeds of disposition in respect of the Offered Share exceed (or are exceeded by) the aggregate of the adjusted cost base to the Resident Holder of such Offered Share immediately before the disposition or deemed disposition and any reasonable expenses incurred for the purpose of making the disposition. The adjusted cost base to a Resident Holder of an Offered Share will be determined by averaging the cost of that Offered Share with the adjusted cost base (determined immediately before the acquisition of the Offered Share) of all other Common Shares held as capital property at that time by the Resident Holder. The tax treatment of capital gains and capital losses is discussed in greater detail below under the subheading "Taxation of Capital Gains and Losses".

Taxation of Capital Gains and Losses

Generally, one-half of any capital gain (a "**taxable capital gain**") realized by a Resident Holder must be included in the Resident Holder's income for the taxation year in which the disposition occurs. Subject to and in accordance with the provisions of the Tax Act, one-half of any capital loss incurred by a Resident Holder (an "**allowable capital loss**") must generally be deducted from taxable capital gains realized by the Resident Holder in the taxation year in which the disposition occurs. Allowable capital losses in excess of taxable capital gains for the taxation year of disposition generally may be carried back and deducted in the three preceding taxation years or carried forward and deducted in any subsequent year against taxable capital gains realized in such years, in the circumstances and to the extent provided in the Tax Act.

A capital loss realized on the disposition of an Offered Share by a Resident Holder that is a corporation may in certain circumstances be reduced by the amount of dividends which have been previously received or deemed to have been received by the Resident Holder on the Offered Share. Similar rules may apply where a corporation is, directly or indirectly through a trust or partnership, a member of a partnership or a beneficiary of

Edgar Filing: PLATINUM GROUP METALS LTD - Form SUPPL

a trust that owns Offered Shares. A Resident Holder to which these rules may be relevant is urged to consult its own tax advisor.

Capital gains realized by an individual (including certain trusts) may result in the individual paying minimum tax under the Tax Act.

A Resident Holder that is a "Canadian-controlled private corporation" (as defined in the Tax Act) may be liable to pay an additional refundable tax of 10²/₃% for taxation years ending after 2015 (subject to pro-rating for taxation years that end after 2015 and begin before 2016) on its "aggregate investment income" (as defined in the Tax Act) for the year, which is defined to include an amount in respect of taxable capital gains.

Non-Residents of Canada

The following portion of this summary is generally applicable to a Holder who, for purposes of the Tax Act and at all relevant times, is neither resident nor deemed to be resident in Canada and does not use or hold, and will not be deemed to use or hold, Offered Shares in a business carried on in Canada (each, a "**Non-Resident Holder**"). The term "**US Holder**," for the purposes of this summary, means a Non-Resident Holder who, for purposes of the Canada-U.S. Tax Convention, is at all relevant times a resident of the United States and is a "qualifying person" within the meaning of the Canada-U.S. Tax Convention. In some circumstances, persons deriving amounts through fiscally transparent entities (including limited liability companies) may be entitled to benefits under the Canada-U.S. Tax Convention. US Holders are urged to consult their own tax advisors to determine their entitlement to benefits under the Canada-U.S. Tax Convention based on their particular circumstances.

Special considerations, which are not discussed in this summary, may apply to a Non-Resident Holder that is an insurer that carries on an insurance business in Canada and elsewhere or an authorized foreign bank (as defined in the Tax Act). Such Non-Resident Holders should consult their own advisors.

Taxation of Dividends

Subject to an applicable international tax treaty or convention, dividends paid or credited, or deemed to be paid or credited, to a Non-Resident Holder on the Offered Shares will be subject to Canadian withholding tax under the Tax Act at the rate of 25% of the gross amount of the dividend. Such rate is generally reduced under the Canada-U.S. Tax Convention to 15% if the beneficial owner of such dividend is a U.S. Holder. The rate of withholding tax is further reduced to 5% if the beneficial owner of such dividend is a U.S. Holder that is a company that owns, directly or indirectly, at least 10% of the voting stock of the Company. In addition, under the Canada-U.S. Tax Convention, dividends may be exempt from such Canadian withholding tax if paid to certain U.S. Holders that are qualifying religious, scientific, literary, educational or charitable tax-exempt organizations or qualifying trusts, companies, organizations or arrangements operated exclusively to administer or provide pension, retirement or employee benefits or benefits for the self-employed under one or more funds or plans established to provide pension or retirement benefits or other employee benefits that are exempt from tax in the United States and that have complied with specific administrative procedures.

Disposition of Offered Shares

A Non-Resident Holder will not be subject to tax under the Tax Act in respect of any capital gain realized by such Non-Resident Holder on a disposition of Offered Shares, unless the Offered Shares constitute "taxable Canadian property" (as defined in the Tax Act) of the Non-Resident Holder at the time of the disposition and are not "treaty-protected property" (as defined in the Tax Act) of the Non-Resident Holder at the time of the disposition.

Generally, as long as the Offered Shares are then listed on a designated stock exchange (which currently includes the TSX and the NYSE MKT), the Offered Shares will not constitute taxable Canadian property of a Non-Resident Holder, unless at any time during the 60-month period immediately preceding the disposition the following two conditions are met concurrently: (a) the Non-Resident Holder, persons with which the Non-Resident Holder does not deal at arm's length, partnerships whose members include, either directly or indirectly through one or more partnerships, the Non-Resident Holder or persons which do not deal at arm's

Edgar Filing: PLATINUM GROUP METALS LTD - Form SUPPL

length with the Non-Resident Holder, or any combination of them, owned 25% or more of the issued shares of any class or series of shares of the capital stock of the Company, and (b) more than 50% of the fair market value of the Offered Shares was derived directly or indirectly, from one or any combination of real or immovable property situated in Canada, "Canadian resource properties", "timber resource properties" (each as defined in the Tax Act), and options in respect of or interests in, or for civil law rights in, any such property (whether or not such property exists).

In the case of a US Holder, the Offered Shares of such US Holder will generally constitute "treaty-protected property" for purposes of the Tax Act unless the value of the Offered Shares is derived principally from real property situated in Canada. For this purpose, "real property" has the meaning that term has under the laws of Canada and includes any option or similar right in respect thereof and usufruct of real property, rights to explore for or to exploit mineral deposits, sources and other natural resources and rights to amounts computed by reference to the amount or value of production from such resources.

If Offered Shares are taxable Canadian property of a Non-Resident Holder and are not treaty-protected property of the Non-Resident Holder at the time of their disposition, the consequences above under "Residents of Canada Taxation of Capital Gains and Losses" will generally apply.

Non-Resident Holders whose Offered Shares are taxable Canadian property should consult their own advisors.

CERTAIN UNITED STATES FEDERAL INCOME TAX CONSIDERATIONS

The following is a general summary of certain material U.S. federal income tax considerations applicable to a U.S. Holder (as defined below) arising from and relating to the acquisition, ownership, and disposition of Offered Shares acquired pursuant to this Prospectus Supplement.

This summary is for general information purposes only and does not purport to be a complete analysis or listing of all potential U.S. federal income tax considerations that may apply to a U.S. Holder arising from or relating to the acquisition, ownership, and disposition of Offered Shares. In addition, this summary does not take into account the individual facts and circumstances of any particular U.S. Holder that may affect the U.S. federal income tax consequences to such U.S. Holder, including specific tax consequences to a U.S. Holder under an applicable tax treaty. Accordingly, this summary is not intended to be, and should not be construed as, legal or U.S. federal income tax advice with respect to any U.S. Holder. This summary does not address the U.S. federal alternative minimum, U.S. federal estate and gift, U.S. state and local, and non-U.S. tax consequences to U.S. Holders of the acquisition, ownership, and disposition of Offered Shares. In addition, except as specifically set forth below, this summary does not discuss applicable income tax reporting requirements. Each prospective U.S. Holder should consult its own tax advisors regarding the U.S. federal, U.S. federal alternative minimum, U.S. federal estate and gift, U.S. state and local, and non-U.S. tax consequences relating to the acquisition, ownership and disposition of Offered Shares.

No legal opinion from U.S. legal counsel or ruling from the Internal Revenue Service (the "IRS") has been requested, or will be obtained, regarding the U.S. federal income tax consequences of the acquisition, ownership, and disposition of Offered Shares. This summary is not binding on the IRS, and the IRS is not precluded from taking a position that is different from, or contrary to, the positions taken in this summary. In addition, because the authorities on which this summary is based are subject to various interpretations, the IRS and the U.S. courts could disagree with one or more of the conclusions described in this summary.

Scope of this Summary

Authorities

This summary is based on the U.S. Internal Revenue Code of 1986, as amended (the "Code"), Treasury Regulations (whether final, temporary, or proposed), published rulings of the IRS, published administrative positions of the IRS, the Canada-U.S. Tax Convention, and U.S. court decisions that are available as of the date of this document. Any of the authorities on which this summary is based could be changed in a material and adverse manner at any time, and any such change could be applied on a retroactive or prospective basis, which

Edgar Filing: PLATINUM GROUP METALS LTD - Form SUPPL

could affect the U.S. federal income tax considerations described in this summary. Except as provided herein, this summary does not discuss the potential effects of any proposed legislation.

U.S. Holders

For purposes of this summary, the term "U.S. Holder" means a beneficial owner of Offered Shares acquired pursuant to the Offering that is for U.S. federal income tax purposes:

a citizen or individual resident of the United States;

a corporation (or other entity taxable as a corporation for U.S. federal income tax purposes) organized under the laws of the United States, any state thereof or the District of Columbia;

an estate whose income is subject to U.S. federal income taxation regardless of its source; or

a trust that (1) is subject to the primary supervision of a court within the U.S. and the control of one or more U.S. persons for all substantial decisions or (2) has a valid election in effect under applicable Treasury Regulations to be treated as a U.S. person.

Non-U.S. Holders

For purposes of this summary, a "non-U.S. Holder" is a beneficial owner of Offered Shares that is not a U.S. Holder or a partnership. This summary does not address the U.S. federal income tax consequences to non-U.S. Holders arising from or relating to the acquisition, ownership, and disposition of Offered Shares. Accordingly, a non-U.S. Holder should consult its own tax advisors regarding the U.S. federal, U.S. federal alternative minimum, U.S. federal estate and gift, U.S. state and local, and non-U.S. tax consequences (including the potential application of and operation of any income tax treaties) relating to the acquisition, ownership, and disposition of Offered Shares.

U.S. Holders Subject to Special U.S. Federal Income Tax Rules Not Addressed

This summary does not address the U.S. federal income tax considerations applicable to U.S. Holders that are subject to special provisions under the Code, including, but not limited to U.S. Holders that: (a) are tax-exempt organizations, qualified retirement plans, individual retirement accounts, or other tax-deferred accounts; (b) are financial institutions, underwriters, insurance companies, real estate investment trusts, or regulated investment companies; (c) are broker-dealers, dealers, or traders in securities or currencies that elect to apply a mark-to-market accounting method; (d) have a "functional currency" other than the U.S. dollar; (e) own Offered Shares as part of a straddle, hedging transaction, conversion transaction, constructive sale, or other arrangement involving more than one position; (f) acquired Offered Shares in connection with the exercise of employee stock options or otherwise as compensation for services; (g) hold Offered Shares other than as a capital asset within the meaning of Section 1221 of the Code (generally, property held for investment purposes); (h) are subject to the alternative minimum tax; or (i) own or have owned or will own (directly, indirectly, or by attribution) 10% or more of the total combined voting power of the outstanding shares of the Company. This summary also does not address the U.S. federal income tax considerations applicable to U.S. Holders who are: (a) U.S. expatriates or former long-term residents of the U.S.; (b) persons that have been, are, or will be a resident or deemed to be a resident in Canada for purposes of the Tax Act; (c) persons that use or hold, will use or hold, or that are or will be deemed to use or hold Offered Shares in connection with carrying on a business in Canada; (d) persons whose Offered Shares constitute "taxable Canadian property" under the Tax Act; or (e) persons that have a permanent establishment in Canada for the purposes of the Canada-U.S. Tax Convention. U.S. Holders that are subject to special provisions under the Code, including, but not limited to, U.S. Holders described immediately above, should consult their own tax advisors regarding the U.S. federal, U.S. federal alternative minimum, U.S. federal estate and gift, U.S. state and local, and non-U.S. tax consequences relating to the acquisition, ownership and disposition of Offered Shares.

In particular, it is noted that the Company may be or may become a "controlled foreign corporation" for U.S. federal income tax purposes, and therefore, if a U.S. Holder is a U.S. shareholder owning 10% or more of the Company's voting stock directly, indirectly and/or under the applicable attribution rules, the U.S. federal income tax consequences to such U.S. Holder of owning Offered Shares may be significantly different than those

Edgar Filing: PLATINUM GROUP METALS LTD - Form SUPPL

described below in several respects. If a U.S. Holder owns 10% or more of the Company's voting stock directly, indirectly and/or under the applicable attribution rules, such holder should consult its own tax advisors regarding the U.S. federal income tax rules applicable to an investment in a controlled foreign corporation.

If an entity or arrangement that is classified as a partnership (or other "pass-through" entity) for U.S. federal income tax purposes holds Offered Shares, the U.S. federal income tax consequences to such entity and the partners (or other owners) of such entity generally will depend on the activities of the entity and the status of such partners (or owners). This summary does not address the tax consequences to any such entity or owner. Partners (or other owners) of entities or arrangements that are classified as partnerships or as "pass-through" entities for U.S. federal income tax purposes should consult their own tax advisors regarding the U.S. federal income tax consequences arising from and relating to the acquisition, ownership, and disposition of Offered Shares.

Ownership and Disposition of Offered Shares to the Extent that the Passive Foreign Investment Company Rules do not Apply

The following discussion is subject, in its entirety, to the rules described below under the heading "Passive Foreign Investment Company Rules".

Distributions on Offered Shares

A U.S. Holder that receives a distribution, including a constructive distribution, with respect to an Offered Share will be required to include the amount of such distribution in gross income as a dividend (without reduction for any Canadian income tax withheld from such distribution) to the extent of the current or accumulated "earnings and profits" of the Company, as computed for U.S. federal income tax purposes. To the extent that a distribution exceeds the current and accumulated "earnings and profits" of the Company, such distribution will be treated first as a tax-free return of capital to the extent of a U.S. Holder's tax basis in the Offered Shares and thereafter as gain from the sale or exchange of such Offered Shares. (See "Sale or Other Taxable Disposition of Offered Shares" below). However, the Company does not intend to maintain the calculations of its earnings and profits in accordance with U.S. federal income tax principles, and each U.S. Holder therefore should assume that any distribution by the Company with respect to the Offered Shares will constitute ordinary dividend income. Dividends received on Offered Shares will not be eligible for the "dividends received deduction". Subject to applicable limitations and provided the Company is eligible for the benefits of the Canada-U.S. Tax Convention or the Offered Shares are readily tradable on a United States securities market, dividends paid by the Company to non-corporate U.S. Holders, including individuals, generally will be eligible for the preferential tax rates applicable to long-term capital gains for dividends, provided certain holding period and other conditions are satisfied, including that the Company not be classified as a PFIC in the tax year of distribution or in the preceding tax year. If the Company is a PFIC, a dividend generally will be taxed to a U.S. Holder at ordinary income tax rates. The dividend rules are complex, and each U.S. Holder should consult its own tax advisors regarding the application of such rules.

Sale or Other Taxable Disposition of Offered Shares

Upon the sale or other taxable disposition of Offered Shares, a U.S. Holder generally will recognize capital gain or loss in an amount equal to the difference between the U.S. dollar value of cash received plus the fair market value of any property received and such U.S. Holder's tax basis in such Offered Shares sold or otherwise disposed of. A U.S. Holder's tax basis in Offered Shares generally will be such U.S. Holder's U.S. dollar cost for such Offered Shares. Gain or loss recognized on such sale or other disposition generally will be long-term capital gain or loss if, at the time of the sale or other disposition, the Offered Shares have been held for more than one year.

Preferential tax rates currently apply to long-term capital gain of a U.S. Holder that is an individual, estate, or trust. There are no preferential tax rates for long-term capital gain of a U.S. Holder that is a corporation. Deductions for capital losses are subject to significant limitations under the Code.

Passive Foreign Investment Company Rules

If the Company were to constitute a "passive foreign investment company" ("**PFIC**") for any year during a U.S. Holder's holding period, then certain potentially adverse rules would affect the U.S. federal income tax consequences to a U.S. Holder resulting from the acquisition, ownership and disposition of Offered Shares. Based on current business plans and financial expectations, the Company expects that it should not be a PFIC for its current tax year and expects that it should not be a PFIC for the foreseeable future. No opinion of legal counsel or ruling from the IRS concerning the status of the Company as a PFIC has been obtained or is currently planned to be requested. However, PFIC classification is fundamentally factual in nature, generally cannot be determined until the close of the tax year in question, and is determined annually. Additionally, the analysis depends, in part, on the application of complex U.S. federal income tax rules, which are subject to differing interpretations. Consequently, there can be no assurance that the Company has never been, and will not become, a PFIC for any tax year during which U.S. Holders hold Offered Shares.

In any year in which the Company is classified as a PFIC, a U.S. Holder will be required to file an annual report with the IRS containing such information as Treasury Regulations and/or other IRS guidance may require. In addition to penalties, a failure to satisfy such reporting requirements may result in an extension of the time period during which the IRS can assess a tax. U.S. Holders should consult their own tax advisors regarding the requirements of filing such information returns under these rules, including the requirement to file an IRS Form 8621 annually.

The Company generally will be a PFIC if, after the application of certain "look-through" rules with respect to subsidiaries in which the Company holds at least 25% of the value of such subsidiary, for a tax year, (a) 75% or more of the gross income of the Company for such tax year is passive income (the "**income test**") or (b) 50% or more of the value of the Company's assets either produce passive income or are held for the production of passive income (the "**asset test**"), based on the quarterly average of the fair market value of such assets. "Gross income" generally includes all sales revenues less the cost of goods sold, plus income from investments and from incidental or outside operations or sources, and "passive income" generally includes, for example, dividends, interest, certain rents and royalties, certain gains from the sale of stock and securities, and certain gains from commodities transactions. Active business gains arising from the sale of commodities generally are excluded from passive income if substantially all (85% or more) of a foreign corporation's commodities are stock in trade or inventory, depreciable property used in a trade or business or supplies regularly used or consumed in the ordinary course of its trade or business, and certain other requirements are satisfied.

If the Company were a PFIC in any tax year during which a U.S. Holder held Offered Shares, such U.S. Holder generally would be subject to special rules with respect to "excess distributions" made by the Company on the Offered Shares and with respect to gain from the disposition of Offered Shares. An "excess distribution" generally is defined as the excess of distributions with respect to the Offered Shares received by a U.S. Holder in any tax year over 125% of the average annual distributions such U.S. Holder has received from the Company during the shorter of the three preceding tax years, or such U.S. Holder's holding period for the Offered Shares. Generally, a U.S. Holder would be required to allocate any excess distribution or gain from the disposition of the Offered Shares ratably over its holding period for the Offered Shares. Such amounts allocated to the year of the disposition or excess distribution would be taxed as ordinary income, and amounts allocated to prior tax years would be taxed as ordinary income at the highest tax rate in effect for each such year and an interest charge at a rate applicable to underpayments of tax would apply.

While there are U.S. federal income tax elections that sometimes can be made to mitigate these adverse tax consequences (including the "QEF Election" under Section 1295 of the Code and the "Mark-to-Market Election" under Section 1296 of the Code), such elections are available in limited circumstances and must be made in a timely manner.

U.S. Holders should be aware that, for each tax year, if any, that the Company is a PFIC, the Company can provide no assurances that it will satisfy the record keeping requirements or make available to U.S. Holders the information such U.S. Holders require to make a QEF Election with respect to the Company or any subsidiary that also is classified as a PFIC. U.S. Holders should consult their own tax advisors regarding the potential application of the PFIC rules to the ownership and disposition of Offered Shares, and the availability of certain U.S. tax elections under the PFIC rules.

Additional Considerations

Additional Tax on Passive Income

Certain U.S. Holders that are individuals, estates or trusts (other than trusts that are exempt from tax) will be subject to a 3.8% tax on all or a portion of their "net investment income", which includes dividends on the Offered Shares, and net gains from the disposition of the Offered Shares. Special rules apply to PFICs. U.S. Holders that are individuals, estates or trusts should consult their own tax advisors regarding the applicability of this tax to any of their income or gains in respect of the Offered Shares.

Receipt of Foreign Currency

The amount of any distribution paid to a U.S. Holder in foreign currency, or on the sale, exchange or other taxable disposition of Offered Shares, generally will be equal to the U.S. dollar value of such foreign currency based on the exchange rate applicable on the date of receipt (regardless of whether such foreign currency is converted into U.S. dollars at that time). A U.S. Holder will have a tax basis in the foreign currency equal to its U.S. dollar value on the date of receipt. Any U.S. Holder who converts or otherwise disposes of the foreign currency after the date of receipt may have a foreign currency exchange gain or loss that would be treated as ordinary income or loss, and generally will be U.S. source income or loss for foreign tax credit purposes. Different rules apply to U.S. Holders who use the accrual method of tax accounting. Each U.S. Holder should consult its own U.S. tax advisors regarding the U.S. federal income tax consequences of receiving, owning, and disposing of foreign currency.

Foreign Tax Credit

Subject to the PFIC rules discussed above, a U.S. Holder that pays (whether directly or through withholding) Canadian income tax with respect to dividends paid on the Offered Shares generally will be entitled, at the election of such U.S. Holder, to receive either a deduction or a credit for such Canadian income tax. Generally, a credit will reduce a U.S. Holder's U.S. federal income tax liability on a dollar-for-dollar basis, whereas a deduction will reduce a U.S. Holder's income subject to U.S. federal income tax. This election is made on a year-by-year basis and applies to all foreign taxes paid (whether directly or through withholding) by a U.S. Holder during a year.

Complex limitations apply to the foreign tax credit, including the general limitation that the credit cannot exceed the proportionate share of a U.S. Holder's U.S. federal income tax liability that such U.S. Holder's "foreign source" taxable income bears to such U.S. Holder's worldwide taxable income. In applying this limitation, a U.S. Holder's various items of income and deduction must be classified, under complex rules, as either "foreign source" or "U.S. source". Generally, dividends paid by a foreign corporation should be treated as foreign source for this purpose. However, and subject to certain exceptions, a portion of the dividends paid by a foreign corporation will be treated as U.S. source income for U.S. foreign tax credit purposes, in proportion to its U.S. source earnings and profits, if U.S. persons own, directly or indirectly, 50 percent or more of the voting power or value of the foreign corporation's common shares. If a portion of any dividends paid with respect to the Offered Shares are treated as U.S. source income under these rules, it may limit the ability of a U.S. Holder to claim a foreign tax credit for Canadian withholding taxes imposed in respect of such dividend. In addition, the amount of a distribution with respect to the Offered Shares that is treated as a "dividend" may be lower for U.S. federal income tax purposes than it is for Canadian federal income tax purposes, resulting in a reduced foreign tax credit allowance to a U.S. Holder. With respect to gains recognized on the sale of stock of a foreign corporation by a U.S. Holder, such gains are generally treated as U.S. source for purposes of the foreign tax credit. These limitations are calculated separately with respect to specific categories of income. The foreign tax credit rules are complex, and each U.S. Holder should consult its own U.S. tax advisors regarding the foreign tax credit rules.

Backup Withholding and Information Reporting

Under U.S. federal income tax law and Treasury Regulations, certain categories of U.S. Holders must file information returns with respect to their investment in, or involvement in, a foreign corporation. For example, U.S. return disclosure obligations (and related penalties) are imposed on individuals who are U.S. Holders that

Edgar Filing: PLATINUM GROUP METALS LTD - Form SUPPL

hold certain specified foreign financial assets in excess of certain threshold amounts. The definition of specified foreign financial assets includes not only financial accounts maintained in foreign financial institutions, but also, unless held in accounts maintained by a financial institution, any stock or security issued by a non-U.S. person, any financial instrument or contract held for investment that has an issuer or counterparty other than a U.S. person and any interest in a non-U.S. entity. U.S. Holders may be subject to these reporting requirements unless their Offered Shares are held in an account at certain financial institutions. Penalties for failure to file certain of these information returns are substantial. U.S. Holders should consult their own tax advisors regarding the requirements of filing information returns, including the requirement to file an IRS Form 8938.

Payments made within the U.S. or by a U.S. payor or U.S. middleman, of dividends on, and proceeds arising from the sale or other taxable disposition of, Offered Shares will generally be subject to information reporting and backup withholding tax at the rate of 28% if a U.S. Holder (a) fails to furnish such U.S. Holder's correct U.S. taxpayer identification number (generally on IRS Form W-9), (b) furnishes an incorrect U.S. taxpayer identification number, (c) is notified by the IRS that such U.S. Holder has previously failed to properly report items subject to backup withholding tax, or (d) fails to certify, under penalty of perjury, that such U.S. Holder has furnished its correct U.S. taxpayer identification number and that the IRS has not notified such U.S. Holder that it is subject to backup withholding tax. However, certain exempt persons generally are excluded from these information reporting and backup withholding rules. Backup withholding is not an additional tax. Any amounts withheld under the U.S. backup withholding tax rules will be allowed as a credit against a U.S. Holder's U.S. federal income tax liability, if any, or will be refunded, if such U.S. Holder furnishes required information to the IRS in a timely manner.

The discussion of reporting requirements set forth above is not intended to constitute an exhaustive description of all reporting requirements that may apply to a U.S. Holder. A failure to satisfy certain reporting requirements may result in an extension of the time period during which the IRS can assess a tax, and under certain circumstances, such an extension may apply to assessments of amounts unrelated to any unsatisfied reporting requirement. Each U.S. Holder should consult its own tax advisor regarding the information reporting and backup withholding rules.

DESCRIPTION OF THE SECURITIES BEING DISTRIBUTED

The Company is authorized to issue an unlimited number of Common Shares without par value of which 90,459,656 Common Shares were issued and outstanding as at the date hereof. Shareholders are entitled to receive notice of and attend all meetings of shareholders with each Common Share held entitling the holder to one vote on any resolution to be passed at such shareholder meetings. Shareholders are entitled to dividends if, as and when declared by the board of directors of the Company. Shareholders are entitled upon liquidation, dissolution or winding-up of the Company to receive the remaining assets of the Company available for distribution to shareholders.

PLAN OF DISTRIBUTION

Under the Underwriting Agreement, the Company has agreed to sell, and the Underwriters have severally agreed to purchase, on the Closing Date, 22,230,000 Offered Shares at the Offering Price, payable in cash to the Company, against delivery of the Offered Shares, subject to compliance with all necessary legal requirements and to the conditions contained in the Underwriting Agreement. The obligations of the Underwriters under the Underwriting Agreement are several and are not joint, nor joint and several, and may be terminated at their discretion upon the occurrence of certain stated events as set out in the Underwriting Agreement. The Underwriters are, however, obligated to take up and pay for all of the Offered Shares (other than the Over-Allotment Shares) if any of the Offered Shares are purchased under the Underwriting Agreement.

The Offering Price was determined by negotiation between the Company and the Underwriters.

Offered Shares sold by the Underwriters to the public will initially be offered at the Offering Price. After the Underwriters have made a reasonable effort to sell all of the Offered Shares at the Offering Price specified on the cover page, the Underwriters may change the Offering Price and the other selling terms to an amount not greater than the Offering Price set forth on the cover of this Prospectus Supplement, and the compensation realized by the Underwriters will be decreased by the amount that the aggregate price paid by the purchasers for

Edgar Filing: PLATINUM GROUP METALS LTD - Form SUPPL

the Offered Shares is less than the gross proceeds paid by the Underwriters to the Company. Upon execution of the Underwriting Agreement, the Underwriters will be obligated to purchase the Offered Shares at the prices and upon the terms stated therein and, as a result, will thereafter bear any risk associated with changing the Offering Price or other selling terms.

It is expected that the Offering will be conducted under the book-based system and the Company will arrange for the instant deposit of the Offered Shares to be registered to CDS. Accordingly, a subscriber who purchases Offered Shares will receive a customer confirmation from the Underwriters or a CDS Participant from or through whom Offered Shares are purchased. No beneficial holder of the Offered Shares will receive definitive certificates representing their Offered Shares. CDS will record the CDS Participants who hold Offered Shares on behalf of owners who have purchased or transferred Offered Shares in accordance with the book-based system.

The Offering is being made concurrently in every province of Canada, other than Québec, and in the United States pursuant to the multi-jurisdictional disclosure system implemented by the SEC and the securities regulatory authorities in Canada. The Offered Shares will be offered in the United States and Canada by the Underwriters either directly or through their respective U.S. or Canadian broker-dealer affiliates or agents, as applicable. Offers and sales of Offered Shares outside of Canada and the United States will be made in accordance with applicable laws in such jurisdictions.

The Common Shares are listed for trading on the TSX and NYSE MKT under the trading symbols "PTM" and "PLG", respectively. The Company has made an application to list the Offered Shares on the TSX and the NYSE MKT. Listing will be subject to the Company fulfilling all of the listing requirements of the TSX and NYSE MKT.

The Offering is expected to close on or about November 1, 2016. Under Rule 15c6-1 under the U.S. Exchange Act, trades in the secondary market generally are required to settle in three business days, unless the parties to any such trade expressly agree otherwise. Accordingly, purchasers who wish to trade their Offered Shares on the date of this Prospectus Supplement or the next two succeeding business days will be required, by virtue of the fact that the Offered Shares initially will settle T+5, to specify an alternate settlement cycle at the time of any such trade to prevent a failed settlement. Purchasers of Offered Shares who wish to trade such Offered Shares on the date of this Prospectus Supplement or the next two succeeding business days should consult their own advisor.

Over-Allotment Option

The Company has granted the Underwriters the Over-Allotment Option, exercisable in whole or in part, at the sole discretion of the Underwriters, for a period of 30 days after and including the Closing Date, to purchase up to an additional 3,334,500 Over-Allotment Shares at the Offering Price, to cover over-allotments, if any, and for market stabilization purposes. Under applicable securities laws, this Prospectus Supplement and the Prospectus qualifies the grant of the Over-Allotment Option and the distribution of the Over-Allotment Shares upon the exercise of the Over-Allotment Option.

Underwriting Commission

The following table shows the per Offered Share and total Underwriting Commission the Company will pay to the Underwriters, assuming both no exercise and full exercise of the Over-Allotment Option.

	Over-Allotment Option not exercised		Over-Allotment Option fully exercised	
Per Offered Share	US\$	0.108	US\$	0.108
Total	US\$	2,400,840	US\$	2,760,966

The Company estimates that the total expenses of the Offering payable by the Company, not including the Underwriting Commission, will be approximately US\$650,000. Pursuant to the Underwriting Agreement, the Company has agreed to pay the actual and accountable out-of-pocket expenses of the Underwriters and actual

Edgar Filing: PLATINUM GROUP METALS LTD - Form SUPPL

and accountable reasonable fees and disbursements of the Underwriters' counsel, not to exceed 8.0% of the gross proceeds of the Offering when combined with the Underwriting Commission.

No Sales of Similar Securities

Except as contemplated by the Underwriting Agreement, the Company has agreed that, subject to certain exceptions, it will not, without the prior written consent of BMO Nesbitt Burns Inc. (not to be unreasonably withheld) on behalf of the Underwriters, directly or indirectly issue, offer, pledge, sell, contract to sell, contract to purchase, purchase any option or contract to sell, grant any option, right or warrant to purchase or otherwise transfer, lend or dispose of directly or indirectly, any Common Shares or securities or other financial instruments convertible into or having the right to acquire Common Shares or enter into any agreement or arrangement under which the Company would acquire or transfer to another, in whole or in part, any of the economic consequences of ownership of Common Shares, whether that agreement or arrangement may be settled by the delivery of Common Shares or other securities or cash, or agree to become bound to do so, or disclose to the public any intention to do so, during the period from the date of the Underwriting Agreement and ending 90 days following the Closing Date.

The Company's officers and directors will enter into agreements providing that, subject to certain exceptions, for a period beginning from the date of the Underwriting Agreement and ending 90 days from the Closing Date, they will not (and shall cause their affiliates not to), without the prior written consent of BMO Nesbitt Burns Inc., directly or indirectly, offer, sell, contract to sell, transfer, assign, pledge, grant any option to purchase, make any short sale or otherwise dispose of or monetize any Common Shares or any options or warrants to purchase any Common Shares, or any securities convertible into, exchangeable for, or that represent the right to receive Common Shares, and will not enter into any swap, forward or other arrangement that transfers all or a portion of the economic consequences associated with the ownership of the Common Shares (regardless of whether any such arrangement is to be settled by the delivery of securities of the Company, securities of another person, cash or otherwise) or agree to do any of the foregoing or publicly announce any intention to do any of the foregoing.

Indemnification and Contribution

The Company has agreed in the Underwriting Agreement to indemnify the Underwriters against certain liabilities, including liabilities under the *United States Securities Act of 1933*, as amended, and Canadian securities laws, and, where such indemnification is unavailable, to contribute to payments that the Underwriters may be required to make in respect of such liabilities.

Price Stabilization, Short Positions

In order to facilitate the Offering, the Underwriters may engage in transactions that stabilize, maintain or otherwise affect the market price of the Common Shares in accordance with applicable securities laws. Specifically, the Underwriters may sell more Common Shares than they are obligated to purchase under the Underwriting Agreement, creating a short position. A short sale is covered if the short position is no greater than the number of Common Shares available for purchase by the Underwriters under the Over-Allotment Option. The Underwriters can close out a covered short sale by exercising the Over-Allotment Option or purchasing Common Shares in the open market. In determining the source of Common Shares to close out a covered short sale, the Underwriters will consider, among other things, the open market price of Common Shares compared to the price available under the Over-Allotment Option. The Underwriters may also sell Common Shares in excess of the Over-Allotment Option, creating a naked short position. The Underwriters must close out any naked short position by purchasing Common Shares in the open market. A naked short position is more likely to be created if the Underwriters are concerned that there may be downward pressure on the price of the Common Shares in the open market after pricing that could adversely affect investors who purchase in the Offering. As an additional means of facilitating the Offering, the Underwriters may bid for, and purchase, Common Shares in the open market to stabilize the price of the Common Shares. These activities may raise or maintain the market price of the Common Shares above independent market levels or prevent or retard a decline in the market price of the Common Shares. The Underwriters are not required to engage in these activities and may end any of these activities at any time.

Edgar Filing: PLATINUM GROUP METALS LTD - Form SUPPL

Pursuant to the policies of certain Canadian securities regulators, the Underwriters may not, throughout the period of distribution under this Prospectus Supplement, bid for or purchase Common Shares. The foregoing restriction is subject to certain exceptions, including: (a) a bid or purchase permitted under the bylaws and rules of applicable regulatory authorities and stock exchanges, including the Universal Market Integrity Rules for Canadian Marketplaces administered by the Investment Industry Regulatory Organization of Canada, relating to market stabilization and passive market-making activities; (b) a bid or purchase made for and on behalf of a customer where the order was not solicited during the period of distribution; (c) a bid or purchase to cover a short position entered into prior to the distribution; and (d) transactions in compliance with U.S. federal securities laws. Any such trades are permitted only on the condition that the bid or purchase is not engaged in for the purpose of creating actual or apparent active trading in or raising the price of the Common Shares.

Affiliations

Some of the Underwriters and their affiliates have in the past engaged in, and may in the future engage in, investment banking and other commercial dealings in the ordinary course of business with the Company for which they have received, and would expect to receive, customary fees and commissions.

Without limiting the foregoing, since 2011, the Company has engaged BMO Nesbitt Burns Inc. as a financial advisor to evaluate potential strategic transactions. BMO Nesbitt Burns Inc. is an Underwriter in the Offering. To date, no transaction or independence-based fees have been paid or become payable pursuant to these arrangements.

Notice to Prospective Investors in the European Economic Area

In relation to each member state of the European Economic Area that has implemented the Prospectus Directive (each, a "**Relevant Member State**"), with effect from and including the date on which the Prospectus Directive is implemented in that Relevant Member State (the "**Relevant Implementation Date**"), an offer of the Offered Shares described in this Prospectus Supplement will not be made to the public in that Relevant Member State other than:

to persons or entities that are "qualified investors" as defined in the Prospectus Directive;

to fewer than 150 natural or legal persons (other than "qualified investors" as defined in the Prospectus Directive), as permitted under the Prospectus Directive, subject to obtaining the prior consent of the representatives for any such offer; or

in any other circumstances within Article 3(2) of the Prospectus Directive that do not require the publication of a prospectus pursuant to the Prospectus Directive,

provided that no such offering of Offered Shares shall require the publication of a prospectus pursuant to Article 3 of the Prospectus Directive or to supplement a prospectus pursuant to Article 16 of the Prospectus Directive.

Each purchaser of Offered Shares described in this Prospectus Supplement located within a Relevant Member State will be deemed to have represented, acknowledged and agreed that it is a "qualified investor" within the meaning of Article 2(1)(e) of the Prospectus Directive and in the case of any Offered Shares acquired by it as a financial intermediary, as that term is used in Article 3(2) of the Prospectus Directive, the shares acquired by it in the Offering have not been acquired on behalf of, nor have they been acquired with a view to their offer or resale to, persons in any Relevant Member State other than "qualified investors" as defined in the Prospectus Directive. In the case of any Offered Shares being offered to a financial intermediary as that term is used in Article 3(2) of the Prospectus Directive, each such financial intermediary will be deemed to have represented, acknowledged and agreed that the shares acquired by it in the Offering have not been acquired on a nondiscretionary basis on behalf of, nor have they been acquired with a view to their offer or resale to persons in circumstances which may give rise to an offer of any shares to the public other than their offer or resale in a Relevant Member State to "qualified investors" as so defined.

The Company and the Underwriters and their affiliates will rely upon the truth and accuracy of the foregoing representation, acknowledgement and agreement.

Edgar Filing: PLATINUM GROUP METALS LTD - Form SUPPL

For the purpose of the above provisions, the expression "an offer to the public" in relation to any shares in any Relevant Member State means the communication in any form and by any means of sufficient information on the terms of the offer and the shares to be offered so as to enable an investor to decide to purchase or subscribe for the shares, as the same may be varied in the Relevant Member State, by any measure implementing the Prospectus Directive in the Relevant Member State and the expression "Prospectus Directive" means Directive 2003/71/EC (and any amendments thereto), including Directive 2010/73/EU.

Notice to Prospective Investors in the United Kingdom

The Offered Shares are being offered only in circumstances that comply and will comply with all applicable provisions of the Financial Services and Markets Act 2000 (the "FSMA") with respect to anything done in relation to such offer in, from or otherwise involving the United Kingdom; and any invitation or inducement to engage in investment activity (within the meaning of Section 21 of the FSMA) will only be communicated or caused to be communicated in connection with the issue or sale of the Offered Shares in circumstances in which Section 21(1) of the FSMA does not apply.

This Prospectus Supplement is only being distributed to, and is only directed at, persons in the United Kingdom that are "qualified investors" within the meaning of Article 2(1)(e) of the Prospectus Directive (defined above) and Section 86(7) of the FSMA that are also (a) investment professionals falling within Article 19(5) of the Financial Services and Markets Act 2000 (Financial Promotion) Order 2005, as amended (the "Order"), or (b) high net worth entities, and other persons to whom it may lawfully be communicated, falling within Article 49(2)(a) to (d) of the Order (each such person being referred to as a "relevant person"). This Prospectus Supplement and its contents are confidential and should not be distributed, published or reproduced (in whole or in part) or disclosed by recipients to any other persons in the United Kingdom. Any person in the United Kingdom that is not a relevant person should not act or rely on this document or any of its contents.

LEGAL MATTERS

Certain legal matters in connection with the Offering will be passed upon on behalf of the Company by Gowling WLG (Canada) LLP, as to Canadian legal matters, and Dorsey & Whitney LLP, as to U.S. legal matters. Certain legal matters in connection with the Offering will be passed upon on behalf of the Underwriters by Blake, Cassels & Graydon LLP, as to Canadian legal matters, and Skadden, Arps, Slate, Meagher & Flom LLP, as to U.S. legal matters.

As of the date of this Prospectus Supplement, the partners and associates of Gowling WLG (Canada) LLP and Blake, Cassels & Graydon LLP beneficially own, directly or indirectly, in the aggregate less than 1% of the issued and outstanding Common Shares.

INTEREST OF EXPERTS

The technical information, mineral reserve and mineral resource estimates and economic estimates relating to Project 1, the Waterberg Project and the Company's other properties included or incorporated by reference in this Prospectus Supplement has been included or incorporated by reference in reliance on the report, valuation, statement or opinion of the persons described below. The following persons, firms and companies are named as having prepared or certified a report, valuation, statement or opinion in this Prospectus Supplement, either directly or in a document incorporated by reference.

Name	Description
Charles Muller (B. Sc. (Hons) Geology) Pri. Sci. Nat., CJM Consulting (Pty) Ltd.	Co-authored the Project 1 Report and the Waterberg PFS; authored the technical report entitled "Technical Report on Project 3 Resource Cut Estimation of the Western Bushveld Joint Venture (WBJV) Located on the Western Limb of the Bushveld Igneous Complex, South Africa" dated August 31, 2010.

S-29

Edgar Filing: PLATINUM GROUP METALS LTD - Form SUPPL

Name	Description
Robert L. Goosen B. Eng. (Mining, Engineering), Pr. Eng. (ECSA) of Advisian/ WorleyParsons Group	Co-authored the Waterberg PFS.
Gert Roets (B. Eng. Mining), Pr. Eng. (ECSA), of DRA Projects SA (Pty) Ltd.	Co-authored the Project 1 Report.
Gordon Cunningham B. Eng. (Chemical), Pr. Eng. (ECSA) of Turnberry Projects (Pty) Ltd.	Co-authored the Project 1 Report and the Waterberg PFS.
R. Michael Jones P. Eng., Platinum Group Metals Ltd.	The President and Chief Executive Officer of the Company. The non-independent qualified person for all scientific and technical information included or incorporated by reference herein that is not attributed to one of the above-named persons.

None of the experts named in the foregoing section held, at the time they prepared or certified such statement, report, opinion or valuation, received after such time or will receive any registered or beneficial interest, direct or indirect, in any securities or other property of the Company or one of the Company's associates or affiliates other than R. Michael Jones, the President and Chief Executive Officer of the Company, who owns 272,920 Common Shares representing 0.3% of the issued and outstanding Common Shares as of the date of this Prospectus Supplement.

Except as otherwise stated above, none of the aforementioned persons, and the directors, officers, employees and partners, as applicable, of each of the aforementioned persons received or will receive a direct or indirect interest in any property of the Company or any associate or affiliate of the Company.

Except as otherwise stated above, none of the aforementioned persons, nor any director, officer, employee, consultant or partner, as applicable, of the aforementioned persons is currently expected to be elected, appointed or employed as a director, officer or employee of the Company or of any associate or affiliate of the Company.

INDEPENDENT AUDITOR

The Company's auditors, PricewaterhouseCoopers LLP, Chartered Professional Accountants, of Vancouver, British Columbia, report that they are independent from the Company within the meaning of the Code of Professional Conduct of Chartered Professional Accountants of British Columbia, Canada, and within the meaning of the *United States Securities Act of 1933*, as amended and the applicable rules and regulations thereunder adopted by the SEC. PricewaterhouseCoopers LLP is registered with the Public Company Accounting Oversight Board.

TRANSFER AGENT AND REGISTRAR

The transfer agent and registrar for the Common Shares is Computershare Investor Services Inc. at its principal offices in the cities of Toronto, Ontario and Vancouver, British Columbia.

The U.S. co-transfer agent for the Common Shares is Computershare Trust Company, N.A., at its offices in Golden, Colorado.

Information has been incorporated by reference in this short form base shelf prospectus from documents filed with securities commissions or similar authorities in Canada. Copies of the documents incorporated herein by reference may be obtained on request, without charge, from the Corporate Secretary of Platinum Group Metals Ltd. at Suite 788, 550 Burrard Street, Vancouver, British Columbia, Canada, V6C 2B5, telephone (604) 899-5450 and are also available electronically at www.sedar.com.

SHORT FORM BASE SHELF PROSPECTUS

NEW ISSUE

OCTOBER 14, 2016

PLATINUM GROUP METALS LTD.

US\$250,000,000

**Common Shares
Debt Securities
Warrants
Subscription Receipts
Units**

Platinum Group Metals Ltd. (the "**Company**") may offer and sell, from time to time (the "**Offerings**"), common shares of the Company ("**Common Shares**"), debt securities ("**Debt Securities**"), warrants to purchase Common Shares ("**Warrants**"), subscription receipts ("**Subscription Receipts**") or any combination of such securities ("**Units**") (all of the foregoing collectively, the "**Securities**") up to an aggregate initial offering price of US\$250,000,000 (or its equivalent in Canadian dollars) during the 25-month period that this short form base shelf prospectus (this "**Prospectus**"), including any amendments hereto, remains effective. Securities may be offered in amounts, at prices and on terms to be determined based on market conditions at the time of sale and set forth in an accompanying prospectus supplement (a "**Prospectus Supplement**"). In addition, Securities may be offered and issued in consideration for the acquisition of other businesses, assets or securities by us or one of our subsidiaries. The consideration for any such acquisition may consist of any of the Securities separately, a combination of Securities or any combination of among other things, Securities, cash and assumption of liabilities.

Investing in the Securities involves significant risks. Prospective investors should carefully consider the risk factors described under the heading "Risk Factors" in this Prospectus, in the applicable Prospectus Supplement with respect to a particular Offering and in the documents incorporated by reference herein and therein.

The Offerings are made by a Canadian issuer that is permitted under a multijurisdictional disclosure system adopted by securities regulatory authorities in Canada and the United States (the "**MJDS**") to prepare this Prospectus in accordance with Canadian disclosure requirements. Prospective investors in the United States should be aware that such requirements are different from those applicable to issuers in the United States. Financial statements incorporated herein by reference have been prepared in accordance with International Financial Reporting Standards, as issued by the International Accounting Standards Board ("**IFRS**"), and may be subject to Canadian auditing and auditor independence standards, and thus may not be comparable to financial statements of United States companies.

Prospective investors should be aware that the acquisition of the Securities may have tax consequences both in the United States and in Canada. Such consequences for investors who are resident in, or citizens of, the United States or who are resident in Canada may not be described fully herein or in any applicable Prospectus Supplement. Prospective investors should read the tax discussion contained in the applicable Prospectus Supplement with respect to a particular Offering and consult their own tax advisors with respect to their own particular circumstances.

The enforcement by investors of civil liabilities under the U.S. federal securities laws may be affected adversely by the fact that the Company is incorporated or organized under the laws of British Columbia, Canada, that the majority of the Company's officers and directors and some or all of the experts named in this Prospectus are residents of a country other than the United States, and that a substantial portion of the assets of the Company and said persons are located outside the United States.

Neither the United States Securities and Exchange Commission (the "SEC") nor any state or Canadian securities regulator has approved or disapproved of the Securities, passed upon the accuracy or adequacy of this Prospectus or determined if this Prospectus is truthful or complete. Any representation to the contrary is a criminal offense.

No underwriter has been involved in the preparation of this Prospectus or performed any review of the content of this Prospectus.

The specific terms of the Securities with respect to a particular Offering will be set out in the applicable Prospectus Supplement and may include, where applicable (i) in the case of Common Shares, the number of Common Shares offered, the offering price, whether the Common Shares are being offered for cash, and any other terms specific to the Common Shares being offered, (ii) in the case of Debt Securities, the specific designation, the aggregate principal amount, the currency or the currency unit for which the Debt Securities may be purchased, the maturity, the interest provisions, the authorized denominations, the offering price, whether the Debt Securities are being offered for cash, the covenants, the events of default, any terms for redemption or retraction, any exchange or conversion rights attached to the Debt Securities and any other terms specific to the Debt Securities being offered, (iii) in the case of Warrants, the offering price, whether the Warrants are being offered for cash, the designation, the number and the terms of the Common Shares or Debt Securities purchasable upon exercise of the Warrants, any procedures that will result in the adjustment of these numbers, the exercise price, the dates and periods of exercise, the currency in which the Warrants are issued and any other terms specific to the Warrants being offered, (iv) in the case of Subscription Receipts, the number of Subscription Receipts being offered, the offering price, whether the Subscription Receipts are being offered for cash, the procedures for the exchange of the Subscription Receipts for Common Shares, Debt Securities or Warrants, as the case may be, and any other terms specific to the Subscription Receipts being offered, and (v) in the case of Units, the designation, number and terms of the Common Shares, Warrants, Subscription Receipts or Debt Securities comprising the Units. Where required by statute, regulation or policy, and where Securities are offered in currencies other than Canadian dollars, appropriate disclosure of foreign exchange rates applicable to the Securities will be included in the Prospectus Supplement describing the Securities.

This Prospectus does not qualify for issuance debt securities in respect of which the payment of principal and/or interest may be determined, in whole or in part, by reference to one or more underlying interests, including, for example, an equity or debt security, or a statistical measure of economic or financial performance (including, but not limited to, any currency, consumer price or mortgage index, or the price or value of one or more commodities, indices or other items, or any other item or formula, or any combination or basket of the foregoing items). For greater certainty, this Prospectus may qualify for issuance debt securities, including Debt Securities convertible into other Securities, in respect of which the payment of principal and/or interest may be determined, in whole or in part, by reference to published rates of a central banking authority or one or more financial institutions, such as a prime rate or bankers' acceptance rate, or to recognized market benchmark interest rates such as LIBOR, EURIBOR or a U.S. federal funds rate.

All shelf information permitted under applicable laws to be omitted from this Prospectus will be contained in one or more Prospectus Supplements that will be delivered to purchasers together with this Prospectus. Each Prospectus Supplement will be incorporated by reference into this Prospectus for the purposes of securities legislation as of the date of the Prospectus Supplement and only for the purposes of the distribution of the Securities to which the Prospectus Supplement pertains.

This Prospectus constitutes a public offering of the Securities only in those jurisdictions where they may be lawfully offered for sale and only by persons permitted to sell the Securities in such jurisdictions. We may offer and sell Securities to, or through, underwriters or dealers, directly to one or more other purchasers, or through agents pursuant to exemptions from registration or qualification under applicable securities laws. A Prospectus Supplement relating to each issue of Securities will set forth the names of any underwriters, dealers or agents involved in the Offering and sale of the Securities and will set forth the terms of the Offering, the method of distribution of the Securities, including, to the extent applicable, the proceeds to us and any fees, discounts, concessions or other compensation payable to the underwriters, dealers or agents, and any other material terms of the plan of distribution.

In connection with any Offerings, the underwriters or agents may over-allot or effect transactions which stabilize or maintain the market price of the Securities offered at a higher level than that which might exist in the open market. Such transaction, if commenced, may be interrupted or discontinued at any time. See "Plan of Distribution".

Our outstanding Common Shares are listed and posted for trading on the Toronto Stock Exchange (the "TSX") under the symbol "PTM" and on the NYSE MKT, LLC (the "NYSE MKT") under the symbol "PLG". On October 13, 2016, the last trading day of the Common Shares prior to the date of this Prospectus, the closing price of the Common Shares on the TSX and NYSE MKT was CAN\$2.71 and US\$2.07, respectively. Unless otherwise specified in the applicable Prospectus Supplement, the Debt Securities, the Warrants, the Subscription Receipts and the Units will not be listed on any securities exchange. **There is no market through which these Securities may be sold and purchasers may not be able to resell these Securities purchased under this Prospectus. This may affect the pricing of these Securities in the secondary market, the transparency and availability of trading prices, the liquidity of these Securities, and the extent of issuer regulation. See "Risk Factors".**

Our head office is located at Suite 788, 550 Burrard Street, Vancouver, British Columbia, Canada, V6C 2B5. Our registered and records office is located at Suite 2300, 550 Burrard Street, Vancouver, British Columbia, Canada V6C 2B5.

Each of Diana Walters, a director of the Company, and Charles Muller, Gert Roets and Gordon Cunningham, each of whom is a named expert in this Prospectus, resides outside of Canada and has appointed Platinum Group Metals Ltd., Suite 788, 550 Burrard Street, Vancouver, British Columbia, Canada V6C 2B5 as their agent for service of process in Canada. Prospective investors are advised that it may not be possible

Edgar Filing: PLATINUM GROUP METALS LTD - Form SUPPL

for investors to enforce judgments obtained in Canada against Ms. Walters, Mr. Muller, Mr. Roets and Mr. Cunningham, even though they have appointed an agent for service of process.

You should rely only on the information contained in or incorporated by reference in this Prospectus and any applicable Prospectus Supplement in connection with an investment in the Securities. We have not authorized anyone to provide you with different information. We are not making an offer of the Securities in any jurisdiction where such offer is not permitted. You should assume that the information appearing in this Prospectus or any Prospectus Supplement is accurate only as of the date on the front of those documents and that information contained in any document incorporated by reference herein or therein is accurate only as of the date of that document unless specified otherwise. Our business, financial condition, results of operations and prospects may have changed since those dates.

In this Prospectus and any Prospectus Supplement, unless the context otherwise requires, the terms "we", "our", "us" and the "Company" refer to Platinum Group Metals Ltd. and our direct and indirect subsidiaries.

CAUTIONARY NOTE TO UNITED STATES INVESTORS

We are permitted under the MJDS to prepare this Prospectus, any Prospectus Supplement, and the documents incorporated by reference herein and therein in accordance with the requirements of Canadian securities laws, which differ from the requirements of United States securities laws. All mineral resource and reserve estimates included in this Prospectus, any Prospectus Supplement and the documents incorporated by reference herein and therein, have been or will be prepared in accordance with National Instrument 43-101 *Standards of Disclosure for Mineral Projects* ("NI 43-101"). NI 43-101 is a rule developed by the Canadian Securities Administrators that establishes standards for all public disclosure an issuer makes of scientific and technical information concerning mineral projects. These standards differ significantly from the mineral reserve disclosure requirements of the SEC set out in Industry Guide 7. Consequently, mineral reserve and mineral resource information included and incorporated by reference in this Prospectus and any Prospectus Supplement is not comparable to similar information that would generally be disclosed by U.S. companies in accordance with the rules of the SEC.

In particular, Industry Guide 7 applies different standards in order to classify mineralization as a reserve. As a result, the definitions of proven and probable mineral reserves used in NI 43-101 differ from the definitions in Industry Guide 7. Under SEC standards, mineralization may not be classified as a "reserve" unless the determination has been made that the mineralization could be economically and legally produced or extracted at the time the reserve determination is made. Among other things, all necessary permits would be required to be in hand or issued imminently in order to classify mineralized material as reserves under the SEC standards. Accordingly, mineral reserve estimates included and incorporated by reference in this Prospectus and any Prospectus Supplement may not qualify as "reserves" under SEC standards.

In addition, the information included and incorporated by reference in this Prospectus and any Prospectus Supplement may use the terms "mineral resources", "measured mineral resources", "indicated mineral resources" and "inferred mineral resources" to comply with the reporting standards in Canada. Industry Guide 7 does not currently recognize mineral resources and U.S. companies are generally not permitted to disclose mineral resources in documents they file with the SEC. Investors are specifically cautioned not to assume that any part or all of the mineral deposits in these categories will ever be converted into mineral reserves under Industry Guide 7. Further, "inferred mineral resources" have a great amount of uncertainty as to their existence and as to whether they can be mined legally or economically. Therefore, investors are also cautioned not to assume that all or any part of an inferred mineral resource exists. In accordance with Canadian rules, estimates of "inferred mineral resources" cannot form the basis of feasibility or, except in limited circumstances, other economic studies. It cannot be assumed that all or any part of "measured mineral resources", "indicated mineral resources" or "inferred mineral resources" will ever be upgraded to a higher category or mineral resources or that mineral resources will be classified as mineral reserves. Investors are cautioned not to assume that any part of the reported "measured mineral resources", "indicated mineral resources" or "inferred mineral resources" included and incorporated by reference in this Prospectus and any Prospectus Supplement is economically or legally mineable. Disclosure of "contained ounces" in a resource is permitted under NI 43-101; however, the SEC normally only permits issuers to report mineralization that does not constitute "reserves" by SEC standards as in-place tonnage and grade without reference to unit measures. In addition, the documents included and incorporated by reference in this Prospectus and any prospectus Supplement may include information regarding adjacent or nearby properties on which we have no right to mine. The SEC does not normally allow U.S. companies to include such information in their filings with the SEC. For the above reasons, information included and incorporated by reference in this Prospectus and any Prospectus Supplement that describes our mineral reserve and resource estimates or that describes the results of pre-feasibility or other studies is not comparable to similar information made public by U.S. companies subject to the reporting and disclosure requirements of the SEC.

RESERVE AND RESOURCE DISCLOSURE

Due to the uncertainty that may be attached to inferred mineral resource estimates, it cannot be assumed that all or any part of an inferred mineral resource estimate will be upgraded to an indicated or measured mineral resource estimate as a result of continued exploration. Confidence in an inferred mineral resource estimate is insufficient to allow meaningful application of the technical and economic parameters to enable an

Edgar Filing: PLATINUM GROUP METALS LTD - Form SUPPL

evaluation of economic viability sufficient for public disclosure, except in certain limited circumstances set out in NI 43-101. Inferred mineral resource estimates are excluded from estimates forming the basis of a feasibility study. Mineral resources that are not mineral reserves do not have demonstrated economic viability.

CAUTIONARY NOTE REGARDING FORWARD-LOOKING STATEMENTS

This Prospectus and the documents incorporated by reference herein contain "forward-looking statements" within the meaning of the United States Private Securities Litigation Reform Act of 1995 and "forward-looking information" within the meaning of applicable Canadian securities legislation (collectively, "**Forward-Looking Statements**"). All statements, other than statements of historical fact, that address activities, events or developments that the Company believes, expects or anticipates will, may, could or might occur in the future are Forward-Looking Statements. The words "expect", "anticipate", "estimate", "may", "could", "might", "will", "would", "should", "intend", "believe", "target", "budget", "plan", "strategy", "goals", "objectives", "projection" or the negative of any of these words and similar expressions are intended to identify Forward-Looking Statements, although these words may not be present in all Forward-Looking Statements. Forward-Looking Statements included or incorporated by reference in this Prospectus include, without limitation, statements with respect to:

production estimates and assumptions, including production rate, grade per tonne and smelter recovery;

production timing;

capital-raising activities, compliance with terms of indebtedness and the adequacy of capital;

revenue, cash flow and cost estimates and assumptions;

statements with respect to future events or future performance;

anticipated exploration, development, construction, production, permitting and other activities on the Company's properties;

the adequacy of capital, financing needs and the availability of and potential for receiving further commitments;

project economics;

future metal prices and exchange rates;

mineral reserve and mineral resource estimates; and

potential changes in the ownership structures of the Company's projects.

Forward-Looking Statements reflect the current expectations or beliefs of the Company based on information currently available to the Company. Forward-Looking Statements in respect of capital costs, operating costs, production rate, grade per tonne and smelter recovery are based upon the estimates in the technical reports referred to in this Prospectus and in the documents incorporated by reference herein and ongoing cost estimation work, and the Forward-Looking Statements in respect of metal prices and exchange rates are based upon the three year trailing average prices and the assumptions contained in such technical reports and ongoing estimates.

Forward-Looking Statements are subject to a number of risks and uncertainties that may cause the actual events or results to differ materially from those discussed in the Forward-Looking Statements, and even if events or results discussed in the Forward-Looking Statements are realized or substantially realized, there can be no assurance that they will have the expected consequences to, or effects on, the Company. Factors that could cause actual results or events to differ materially from current expectations include, among other things:

additional financing requirements;

the Company's history of losses;

Edgar Filing: PLATINUM GROUP METALS LTD - Form SUPPL

the inability of the Company to generate sufficient cash flow to make payment on its indebtedness under the Project 1 Working Capital Facilities (as defined herein) and the restrictions imposed by such indebtedness;

the Project 1 Working Capital Facilities are secured and the Company has pledged its shares of Platinum Group Metals (RSA) Proprietary Limited ("**PTM RSA**") to the Lenders (as defined herein) under the Project 1 Working Capital Facilities, which potentially could result in the loss of the Company's interest in Project 1 (as defined herein), Project 3 (as defined herein), the Waterberg Project (as defined herein) and in PTM RSA in the event of a default under the Project 1 Working Capital Facilities;

the Company's negative cash flow;

the Company's ability to continue as a going concern;

delays in the production ramp-up of Project 1, which could result in a default under the Project 1 Working Capital Facilities;

there can be no assurance that underground development and production ramp-up at Project 1 will meet its production ramp-up timeline or that production at Project 1 will meet the Company's expectations;

delays in, or inability to achieve, planned commercial production;

discrepancies between actual and estimated mineral reserves and mineral resources, between actual and estimated development and operating costs, between actual and estimated metallurgical recoveries and between estimated and actual production;

fluctuations in the relative values of the U.S. dollar, the Rand and the Canadian dollar;

volatility in metals prices;

the failure of the Company or its joint venture partners to fund their pro-rata share of funding obligations for Project 1 or the Waterberg JV Project (as defined herein);

the inability of the Company to find an additional and suitable joint venture partner for Project 1 and Project 3 within such time frame as may be determined by the South African Department of Mineral Resources (the "**DMR**");

any disputes or disagreements with the Company's joint venture partners;

other than Project 1, no known mineral reserves on the Company's properties;

completion of a pre-feasibility study for the Waterberg Project is subject to economic analysis requirements;

the ability of the Company to retain its key management employees and skilled and experienced personnel;

conflicts of interest;

litigation or other legal or administrative proceedings brought against the Company;

actual or alleged breaches of governance processes or instances of fraud, bribery or corruption;

exploration, development and mining risks and the inherently dangerous nature of the mining industry, including environmental hazards, industrial accidents, unusual or unexpected formations, safety stoppages (whether voluntary or regulatory), pressures, mine collapses, cave-ins or flooding and the risk of inadequate insurance or inability to obtain insurance to cover these risks and other risks and uncertainties;

property and mineral title risks including defective title to mineral claims or property;

changes in national and local government legislation, taxation, controls, regulations and political or economic developments in Canada, South Africa or other countries in which the Company does or may carry out business in the future;

Edgar Filing: PLATINUM GROUP METALS LTD - Form SUPPL

equipment shortages and the ability of the Company to acquire the necessary access rights and infrastructure for its mineral properties;

environmental regulations and the ability to obtain and maintain necessary permits, including environmental authorizations and water use licenses;

extreme competition in the mineral exploration industry;

delays in obtaining, or a failure to obtain, permits necessary for current or future operations or failures to comply with the terms of such permits;

risks of doing business in South Africa, including but not limited to labour, economic and political instability and potential changes to and failures to comply with legislation;

the failure to maintain or increase equity participation by HDSAs (as defined herein) in the Company's prospecting and mining operations and to otherwise comply with the Mining Charter (as defined herein); and

the other risks disclosed under the heading "Risk Factors" in this Prospectus and in the documents incorporated by reference herein.

These factors should be considered carefully, and investors should not place undue reliance on the Forward-Looking Statements. In addition, although the Company has attempted to identify important factors that could cause actual actions or results to differ materially from those described in the Forward-Looking Statements, there may be other factors that cause actions or results not to be as anticipated, estimated or intended.

The mineral resource and mineral reserve figures referred to in this Prospectus and the documents incorporated herein by reference are estimates and no assurances can be given that the indicated levels of platinum, palladium, rhodium and gold will be produced. Such estimates are expressions of judgment based on knowledge, mining experience, analysis of drilling results and industry practices. Valid estimates made at a given time may significantly change when new information becomes available. By their nature, mineral resource and mineral reserve estimates are imprecise and depend, to a certain extent, upon statistical inferences which may ultimately prove unreliable. Any inaccuracy or future reduction in such estimates could have a material adverse impact on the Company.

Any Forward-Looking Statement speaks only as of the date on which it is made and, except as may be required by applicable securities laws, the Company disclaims any intent or obligation to update any Forward-Looking Statement, whether as a result of new information, future events or results or otherwise.

CURRENCY PRESENTATION AND EXCHANGE RATE INFORMATION

Unless stated otherwise or the context otherwise requires, all references to dollar amounts in this Prospectus are references to Canadian dollars. All references to "CAN\$" are to Canadian dollars, references to "US\$" are to United States dollars and references to "R" or "Rand" are to South African Rand.

The audited consolidated financial statements of the Company as at and for the financial years ended August 31, 2015 and 2014, together with the notes thereto and the auditor's reports thereon (the "**Annual Financial Statements**") are presented in Canadian dollars. Effective September 1, 2015, the Company changed its presentation currency from the Canadian dollar to the United States dollar. Accordingly, the Company's unaudited interim condensed consolidated financial statements for the three months ended November 30, 2015 and the three and nine months ended May 31, 2016 (together, the "**Interim Financial Statements**", and together with the Annual Financial Statements, the "**Financial Statements**"), each incorporated by reference in this Prospectus, are presented in United States dollars. The change in presentation currency is to better reflect the Company's business activities and to improve investors' ability to compare the Company's financial results with other publicly traded businesses in the mining industry. The United States dollar is also the currency used for quoting prices in the Company's products. There has been no change to the Company's functional currency, being the Canadian dollar, or its subsidiaries' functional currencies, being the Rand.

Edgar Filing: PLATINUM GROUP METALS LTD - Form SUPPL

For further information regarding the Company's change in its presentation currency to the United States dollar, including the translation of certain information from Canadian dollars to United States dollars, see the Interim Financial Statements and the management's discussion and analysis of the Company related thereto, incorporated by reference in this Prospectus.

The following table sets forth the rate of exchange for the United States dollar expressed in Canadian dollars in effect at the end of each of the periods indicated, the average of the exchange rates in effect on the last day of each month during each of the periods indicated, and the high and low exchange rates during each of the periods indicated in each case based on the noon rate of exchange as reported by the Bank of Canada for the conversion of United States dollars into Canadian dollars.

Twelve Months Ended August 31,		
	2015	2014
Average rate for period	CAN\$1.2102	CAN\$1.0776
Rate at end of period	CAN\$1.3223	CAN\$1.0858
High for period	CAN\$1.3303	CAN\$1.1251
Low for period	CAN\$1.0863	CAN\$1.0237

Nine Months Ended May 31,		
	2016	2015
Average rate for period	CAN\$1.3363	CAN\$1.1868
Rate at end of period	CAN\$1.3100	CAN\$1.2465
High for period	CAN\$1.4589	CAN\$1.2803
Low for period	CAN\$1.2544	CAN\$1.1236

The noon rate of exchange on October 13, 2016 as reported by the Bank of Canada for the conversion of United States dollars into Canadian dollars was US\$1.00 equals CAN\$1.3219.

The following table sets forth the rate of exchange for the Rand expressed in Canadian dollars in effect at the end of each of the periods indicated, the average of the exchange rates in effect on the last day of each month during each of the periods indicated, and the high and low exchange rates during each of the periods indicated in each case based on the noon rate of exchange as reported by the Bank of Canada for conversion of Rand into Canadian dollars.

Twelve Months Ended August 31,		
	2015	2014
Average rate for period	CAN\$ 0.1026	CAN\$0.1026
Rate at end of period	CAN\$0.09979	CAN\$0.1019
High for period	CAN\$ 0.1102	CAN\$0.1067
Low for period	CAN\$0.09858	CAN\$0.0984

Nine Months Ended May 31,		
	2016	2015
Average rate for period	CAN\$0.09023	CAN\$ 0.1028
Rate at end of period	CAN\$0.08333	CAN\$ 0.1026
High for period	CAN\$0.09927	CAN\$ 0.1102
Low for period	CAN\$0.08210	CAN\$0.09858

The noon rate of exchange on October 13, 2016 as reported by the Bank of Canada for the conversion of Rand into Canadian dollars was one Rand equals CAN\$0.09288.

NOTICE REGARDING NON-IFRS MEASURES

This Prospectus and the documents incorporated by reference herein include certain terms or performance measures that are not defined under International Financial Reporting Standards, as issued by the International Accounting Standards Board ("**IFRS**"), such as cash costs, all-in sustaining costs and total costs per payable ounce, realized price per ounce, adjusted net income (loss) before tax, adjusted net income (loss) and adjusted basic earnings (loss) per share. The Company believes that, in addition to conventional measures prepared in accordance with IFRS, certain investors use this information to evaluate the Company's performance. The data presented is intended to provide additional information and should not be considered in isolation or as a substitute for measures of performance prepared in accordance with IFRS. These non-IFRS measures should be read in conjunction with the Financial Statements.

DOCUMENTS INCORPORATED BY REFERENCE

Information has been incorporated by reference in this Prospectus from documents filed with securities commissions or similar authorities in Canada (the "Commissions") and filed with, or furnished to, the SEC. *Copies of the documents incorporated herein by reference may be obtained on request without charge from the Corporate Secretary of the Company at Suite 788, 550 Burrard Street, Vancouver, British Columbia, Canada, V6C 2B5, telephone (604) 899-5450. These documents are also available through the internet on SEDAR, which can be accessed online at www.sedar.com and on EDGAR, which can be accessed online at www.sec.gov.*

The following documents of the Company are specifically incorporated by reference into, and form an integral part of, this Prospectus:

- (a) the annual information form of the Company dated November 24, 2015 for the financial year ended August 31, 2015 (the "**Annual Information Form**" or "**AIF**");
- (b) the management information circular of the Company dated January 4, 2016 prepared for the purposes of the annual general meeting of the Company held on February 26, 2016 at which each of the Company's directors was re-elected and the shareholders approved all other matters submitted to a shareholder vote;
- (c) the Annual Financial Statements;
- (d) the management's discussion and analysis of the Company for the financial year ended August 31, 2015;
- (e) the unaudited interim condensed consolidated financial statements of the Company for the three months ended November 30, 2015, together with the notes thereto;
- (f) the management's discussion and analysis of the Company for the three months ended November 30, 2015;
- (g) the unaudited interim condensed consolidated financial statements of the Company for the three and nine months ended May 31, 2016, together with the notes thereto;
- (h) the management's discussion and analysis of the Company for the nine months ended May 31, 2016;
- (i) the NI 43-101 technical report entitled "Mineral Resource Update on the Waterberg Project Located in the Bushveld Igneous Complex, South Africa" dated April 29, 2016 (the "**April 2016 Waterberg Report**");
- (j) the NI 43-101 technical report entitled "An Independent Technical Report on the Maseve Project (WBJV Project areas 1 and 1A) located on the Western Limb of the Bushveld Igneous Complex, South Africa" dated August 28, 2015 (the "**Project 1 Report**");

(k)

the material change report of the Company filed November 3, 2015 announcing that it had entered into a second lien credit agreement with Liberty Metals & Mining Holdings, LLC ("**Liberty Holdings**"), a subsidiary of Liberty Mutual Insurance, for a US\$40 million secured loan facility (as subsequently amended on May 3, 2016 and September 19, 2016, the "**Liberty Facility**");

Edgar Filing: PLATINUM GROUP METALS LTD - Form SUPPL

- (l) the material change report of the Company filed November 23, 2015 announcing that the Company had simultaneously drawn down, in full, US\$40 million from the Liberty Facility and US\$40 million (the "**Original Sprott Advance**") from the secured loan facility with Sprott Resource Lending Partnership, among other lenders (the lenders from time to time, the "**Sprott Lenders**") pursuant to a credit agreement dated February 13, 2015 (as subsequently amended on November 19, 2015, May 3, 2016 and September 19, 2016, the "**Sprott Facility**", and the Sprott Lenders, together with Liberty Holdings, the "**Lenders**");
- (m) the material change report of the Company filed January 12, 2016 announcing that the budget funded by Japan Oil, Gas and Metals National Corporation ("**JOGMEC**"), the Company's joint venture partner, for the Waterberg Project had been expanded from US\$8.0 million to US\$8.5 million for the annual period ending March 31, 2016;
- (n) the material change report of the Company filed January 26, 2016 announcing the consolidation of the Common Shares on the basis of one new Common Share for ten old Common Shares effective January 26, 2016 (the "**Share Consolidation**");
- (o) the material change report of the Company filed February 9, 2016 announcing the successful completion of hot commissioning at Project 1;
- (p) the material change report of the Company filed March 17, 2016 announcing that over 90% of recent infill drilling on the Waterberg Project had successfully intersected the "T" and "F" targeted layers;
- (q) the material change report of the Company filed April 19, 2016 announcing an increase in the resource estimate for platinum, palladium, rhodium and gold at the Waterberg JV Project;
- (r) the material change report of the Company filed May 5, 2016 announcing the modification agreements to the Sprott Facility and the Liberty Facility, each dated May 3, 2016 (together, the "**May Credit Facility Amendments**");
- (s) the material change report of the Company filed May 5, 2016 announcing that the Company had entered into an agreement with a syndicate of underwriters to buy, on a bought deal basis, 11,000,000 Common Shares, at a price of US\$3.00 per Common Share (the "**May Offering**");
- (t) the material change report of the Company filed May 26, 2016 announcing the closing of the May Offering;
- (u) the material change report of the Company filed June 1, 2016 announcing new platinum, palladium and gold assay results for recent drill intercepts completed on the Waterberg Project;
- (v) the material change report of the Company filed July 14, 2016 announcing financial results and highlights for the nine months ended May 31, 2016;
- (w) the material change report of the Company filed September 20, 2016 announcing updates on Project 1 and the Waterberg Project and the modification agreements to the Sprott Facility and the Liberty Facility, each dated September 19, 2016 (together, the "**September Credit Facility Amendments**"); and
- (x) the material change report of the Company filed October 12, 2016 announcing that the Sprott Lenders have provided a US\$5 million second advance (the "**Second Sprott Advance**") to the Company pursuant to an amended and restated credit agreement dated October 11, 2016 (the "**Amended & Restated Sprott Credit Agreement**" and the Sprott Facility, as amended and restated, the "**Amended & Restated Sprott Facility**", and together with the Liberty Facility, the "**Project 1 Working Capital Facilities**").

Edgar Filing: PLATINUM GROUP METALS LTD - Form SUPPL

Any document of the types referred to in the preceding paragraph (excluding press releases and confidential material change reports) or of any other type required to be incorporated by reference into a short form prospectus pursuant to National Instrument 44-101 *Short Form Prospectus Distributions* that are filed by us with a Commission after the date of this Prospectus and prior to the termination of an Offering under any Prospectus Supplement shall be deemed to be incorporated by reference in this Prospectus. In addition, any document filed by us with the SEC or furnished to the SEC on Form 6-K or otherwise after the date of this

Edgar Filing: PLATINUM GROUP METALS LTD - Form SUPPL

Prospectus (and prior to the termination of an Offering) shall be deemed to be incorporated by reference into this Prospectus and the registration statement on Form F-10 of which this Prospectus forms a part (the "**Registration Statement**") (in the case of a Report on Form 6-K, if and to the extent expressly provided for therein).

Any statement contained in this Prospectus or in a document incorporated or deemed to be incorporated by reference herein shall be deemed to be modified or superseded for purposes of this Prospectus to the extent that a statement contained herein or in any other subsequently filed document which also is or is deemed to be incorporated by reference herein modifies or supersedes such statement. The modifying or superseding statement need not state that it has modified or superseded a prior statement or include any other information set forth in the document it modifies or supersedes. The making of a modifying or superseding statement shall not be deemed an admission for any purposes that the modified or superseded statement, when made, constituted a misrepresentation, an untrue statement of a material fact or an omission to state a material fact that is required to be stated or that is necessary to make a statement not misleading in light of the circumstances in which it was made. Any statement so modified or superseded shall not constitute a part of this Prospectus, except as so modified or superseded.

A Prospectus Supplement containing the specific terms of an Offering will be delivered to purchasers of such Securities together with this Prospectus and will be deemed to be incorporated by reference into this Prospectus as of the date of such Prospectus Supplement, but only for the purposes of the Offering covered by that Prospectus Supplement.

Upon a new annual information form and related annual financial statements being filed by us with, and where required, accepted by, the applicable securities regulatory authority during the currency of this Prospectus, the previous annual information form, the previous annual financial statements and all interim financial statements, material change reports and information circulars and all Prospectus Supplements filed prior to the commencement of our financial year in which a new annual information form is filed shall be deemed no longer to be incorporated into this Prospectus for purposes of future offers and sales of Securities hereunder.

Without limiting the foregoing, on April 29, 2016, the Company filed the April 2016 Waterberg Report with an effective date of April 18, 2016. The April 2016 Waterberg Report supersedes and replaces the technical report titled "An Independent Technical Report on the Waterberg Project Located in the Bushveld Igneous Complex, South Africa" dated September 4, 2015 on the Waterberg Project and any earlier reports or estimates of resources for the Waterberg Project.

Reference to the Company's website in any documents that are incorporated by reference into this Prospectus do not incorporate by reference the information on such website into this Prospectus, and the Company disclaims any such incorporation by reference.

ADDITIONAL INFORMATION

We have filed with the SEC the Registration Statement. This Prospectus, which constitutes a part of the Registration Statement, does not contain all of the information contained in the Registration Statement, certain items of which are contained in the exhibits to the Registration Statement as permitted by the rules and regulations of the SEC. Statements included or incorporated by reference in this Prospectus about the contents of any contract, agreement or other documents referred to are not necessarily complete, and in each instance you should refer to the exhibits to the Registration Statement for a more complete description of the matter involved. Each such statement is qualified in its entirety by such reference.

We are subject to the information requirements of the *United States Securities Exchange Act of 1934*, as amended (the "**Exchange Act**"), and applicable Canadian securities legislation, and in accordance therewith file and furnish reports and other information with the SEC and with the securities regulators in Canada. Under the MJDS, documents and other information that we file and furnish with the SEC may be prepared in accordance with the disclosure requirements of Canada, which are different from those of the United States. As a foreign private issuer, we are exempt from the rules under the Exchange Act prescribing the furnishing and content of proxy statements, and our officers, directors and principal shareholders are exempt from the reporting and short

Edgar Filing: PLATINUM GROUP METALS LTD - Form SUPPL

-swing profit recovery provisions contained in Section 16 of the Exchange Act. In addition, we are not required to publish financial statements as promptly as U.S. companies.

You may read any document that we have filed with or furnished to the SEC at the SEC's public reference room in Washington, D.C. You may also obtain copies of those documents from the public reference room of the SEC at 100 F Street, N.E., Washington, D.C. 20549 by paying a fee. You should call the SEC at 1-800-SEC-0330 or access its website at www.sec.gov for further information about the public reference rooms. You may read and download the documents we have filed with the SEC under our corporate profile at www.sec.gov. You may read and download any public document that we have filed with the Canadian securities regulatory authorities under our corporate profile on the SEDAR website at www.sedar.com.

DOCUMENTS FILED AS PART OF THE REGISTRATION STATEMENT

The following documents have been or will be filed with the SEC as part of the Registration Statement: (i) the documents referred to under the heading "Documents Incorporated by Reference"; (ii) consents of PricewaterhouseCoopers LLP and the persons named under "Interest of Experts" herein; (iii) powers of attorney from certain directors and officers of the Company; and (iv) the form of Indenture (as defined below). A copy of the form of warrant indenture, subscription receipt agreement or statement of eligibility of trustee on Form T-1, as applicable, will be filed by post-effective amendment or by incorporation by reference to documents filed or furnished with the SEC under the Exchange Act.

BUSINESS OF THE COMPANY

The Company is a platinum-focused exploration and development company conducting work primarily on mineral properties it has staked or acquired by way of option agreements or applications in the Republic of South Africa.

The Company's material subsidiaries are one wholly-owned company, one majority-owned company and a 49.9% holding in a third company, all of which are incorporated under the company laws of the Republic of South Africa.

The Company conducts its South African exploration and development work through its wholly-owned direct subsidiary, PTM RSA. PTM RSA holds the Company's interests in the Project 1 (also known as the Maseve Mine) and Project 3 platinum mines of what was formerly the Western Bushveld Joint Venture ("**Project 1**" and "**Project 3**", respectively) through its 82.9% holdings in Maseve Investments 11 Proprietary Limited ("**Maseve**"). Wesizwe Platinum Ltd. ("**Wesizwe**"), through its subsidiary Africa Wide Mineral Prospecting and Exploration Proprietary Limited ("**Africa Wide**") has a 17.1% ownership interest in Maseve. See "Mineral Property Interests – Projects 1 and 3 of the Western Bushveld Complex" in the AIF.

On August 20, 2014, an arbitrator ruled that Africa Wide's shareholding in Maseve would be reduced to 21.2766% as a result of its failure to fund its US\$21.8 million share of an initial project budget and cash call for Project 1 that had been unanimously approved by the Maseve board of directors. On March 3, 2014, Africa Wide informed the Company that it would not be funding its US\$21.52 million share of a second cash call. As a result, Africa Wide's ownership of Maseve has been further diluted to approximately 17.1% based on the dilution formula in the Maseve Shareholders Agreement (defined below), as confirmed by the arbitration. Correspondingly, the Company's ownership in Maseve has increased to approximately 82.9%. See "General Developments of the Business – Africa Wide Dilution" in the AIF and the risk factor in this Prospectus captioned "*The dilution of Africa Wide may have a material adverse effect on the Company's business and results of operations*".

The Company also owns 49.9% of Mnombo Wethu Consultants Proprietary Limited ("**Mnombo**"), a black economic empowerment ("**BEE**") company, which holds a 26% participating interest in both the Waterberg joint venture project (the "**Waterberg JV Project**") and the Waterberg extension project (the "**Waterberg Extension Project**") and together with the Waterberg JV Project, the "**Waterberg Project**").

Subsequent to the end of the Company's third fiscal quarter in 2016, the DMR requested an update regarding the Company's efforts to increase the HDSA (as defined herein) equity ownership percentage in Maseve from 17.1% to 26% following the dilution of Africa Wide's interest in Maseve. The Company remains open to considering commercial and strategic alternatives with regard to possible BEE transactions for Maseve. The Company met with the DMR in early June 2016 and the DMR requested a further update by August 7, 2016, while reminding the Company of the risk of potential action under Sections 47 and 93 of the *Mineral and Petroleum Resources Development Act*, No. 28 of 2002 (the "**MPRDA**") if the Company were not to increase the HDSA ownership percentage. The Company believes that any action in this regard is premature given that the court proceedings between the Chamber of Mines and the DMR in regard to the "once empowered, always empowered" principle and the introduction of the New Draft Charter (as defined herein) both remain pending.

Edgar Filing: PLATINUM GROUP METALS LTD - Form SUPPL

The Company has made several attempts to schedule a meeting with the DMR to further discuss this issue. To date, while the Company has been advised by the DMR that the matter will be discussed at a later date, no such meeting has taken place and the DMR has not issued a notice of non-compliance with the MPRDA. See the risk factors in this Prospectus captioned "*The dilution of Africa Wide may have a material adverse effect on the Company's business and results of operations*" and "*The failure to maintain or increase equity participation by HDSAs in the Company's prospecting and mining operations could adversely affect the Company's ability to maintain its prospecting and mining rights.*"

Project 1 and Project 3

Project 1 and Project 3 are located on the Western Limb of the Bushveld Complex, 110 km west northwest of Pretoria and 120 km from Johannesburg. The approximately 47 km² of mining rights comprising Project 1 and Project 3 are owned by Maseve, the project operating company in which the Company has an 82.9% interest and Wesizwe, through its subsidiary, Africa Wide, which has a 17.1% ownership interest. Maseve is governed by a shareholders' agreement among PTM RSA, Africa Wide and Maseve (the "**Maseve Shareholders Agreement**"). See "General Developments of the Business – Africa Wide Dilution" in the AIF. In April 2012, Maseve was granted a mining right over Project 1 and Project 3 (the "**Mining Right**") by the DMR.

Delays in underground development, stoping rates and planned tonnages have resulted in delays in achieving full commercial production at Project 1. Production guidance provided for September 2016 was not achieved principally as a result of the inability to mine from higher grade and better thickness reef in Block 11 of Project 1. The infrastructure required for mining in September 2016, including water pumping and ventilation, was also completed later than scheduled, which delayed production. Planned production from Block 11 is now expected in October 2016. The Company currently expects commercial production to be achieved by early 2017.

The current Project 1 mine plan calls for an aggregate of approximately 91,500 ounces platinum, palladium, rhodium and gold ("**4E**") (100% project basis) in concentrate to be produced from first production at the mine in early 2016 through the end of April 2017. Prior production guidance should not be relied upon.

Project 1 Working Capital Facilities

The Company announced that it had drawn down under the Sprott Facility and the Liberty Facility in November 2015 and under the Amended & Restated Sprott Facility in October 2016. The Company pays interest under the Liberty Facility at 9.5% over LIBOR and interest under the Amended & Restated Sprott Facility at 8.5% over LIBOR. Under the Liberty Facility, a production payment of 1.5% of revenues from Project 1 is payable to Liberty Holdings. Payment and performance of the Company's obligations under the Project 1 Working Capital Facilities are guaranteed by PTM RSA and secured by a first and second priority security interest in favor of the Lenders in all of the Company's personal property, including a pledge over all of the issued shares in the capital of PTM RSA. The Project 1 Working Capital Facilities contain covenants that include certain limits on, among other things, the ability of the Company and PTM RSA to create indebtedness, create liens, enter into related party transactions, dispose of assets, amend or alter their corporate status or amalgamate, make acquisitions, amend or terminate material contracts, declare or provide dividends or distributions, make investments, materially change their businesses, or enter into agreements restricting the ability of their subsidiaries to pay dividends, make any other distributions, deliver minerals or perform other obligations under their material agreements. Further, pursuant to the Liberty Facility, the Company is obligated to notify Liberty Holdings if the Company or PTM RSA, or any of their subsidiaries (including without limitation Maseve and Mnombo) wishes to undertake any financings (other than a financing that is entirely an equity financing) and must provide Liberty Holdings with a summary of the terms of such financing. Subject to the terms and conditions in the Liberty Facility, Liberty Holdings shall have a right of first offer to provide such financing to the applicable entity on the terms contained in the notice provided. Also, pursuant to that certain intercreditor agreement entered into among the Lenders, the Company and PTM RSA in connection with the Project 1 Working Capital Facilities (the "**Intercreditor Agreement**"), and under certain circumstances described therein, Liberty Holdings has a right to purchase all of the outstanding obligations under the Amended & Restated Sprott Facility, in which case the Amended & Restated Sprott Facility will be assigned to Liberty Holdings, as Lender.

Edgar Filing: PLATINUM GROUP METALS LTD - Form SUPPL

Under the May Credit Facility Amendments, the September Credit Facility Amendments and the Amended & Restated Sprott Credit Agreement, the Company and the Lenders have agreed to extend the maturity dates of the Project 1 Working Capital Facilities, amend certain prepayment and repayment terms and amend certain events of default relating to production targets at Project 1. Under the terms of the September Credit Facility Amendments and the Amended & Restated Sprott Credit Agreement, the Company and the Lenders also agreed that the Company must pay, in partial prepayment of the Project 1 Working Capital Facilities, 50% of the net proceeds of any equity or debt financings (excluding intercompany financings) of the Company having a value exceeding US\$1 million in the aggregate that close after January 31, 2017, in the case of the Amended & Restated Sprott Facility (the "**Amended & Restated Sprott Facility Repayment Requirement**"), and December 31, 2017, in the case of the Liberty Facility, subject to the terms of the Intercreditor Agreement (instead of after June 30, 2016 as was stipulated in the May Credit Facility Amendments).

On October 12, 2016, the Company announced that the Sprott Lenders provided the Second Sprott Advance to the Company pursuant to the Amended & Restated Sprott Credit Agreement, which increased the Amended & Restated Sprott Facility to US\$45 million. The material terms of the Amended & Restated Sprott Credit Agreement include:

interest shall accrue and become payable to the Sprott Lenders monthly on the Second Sprott Advance at a rate of LIBOR plus 8.5%, the same rate applied to the Original Sprott Advance;

the Second Sprott Advance may be repaid in six equal, monthly installments commencing on July 31, 2017, unless the Sprott Lenders elect for earlier repayment from the proceeds of an equity or debt financing (excluding an intercompany financing) prior to December 31, 2017, in which case all such net proceeds shall be paid to the Sprott Lenders in repayment of the Second Sprott Advance, notwithstanding the Amended & Restated Sprott Facility Repayment Requirement;

the Company must obtain certain regulatory approvals as a post-closing requirement of the Second Sprott Advance; and

the Company must complete equity financings raising gross proceeds of US\$20 million by December 31, 2016 (the "**Equity Financings**").

Other terms, conditions and covenants related to the Second Sprott Advance are substantially the same as for the Original Sprott Advance, as amended.

As consideration for the accommodations provided by the Lenders in the May Credit Facility Amendments, the Company issued to the Lenders an aggregate of 263,308 Common Shares, representing 1% of the original principal amount payable under the Project 1 Working Capital Facilities. As consideration for the accommodations provided by the Lenders in the September Credit Facility Amendments, the Company issued to the Lenders an aggregate of 1,602,628 Common Shares, representing 5% of the original principal amount payable under the Project 1 Working Capital Facilities. As consideration for the Second Sprott Advance, the Company has agreed to issue 113,963 Common Shares by October 31, 2016, representing 5% of the value of the Second Sprott Advance (using the Bank of Canada noon exchange rate on October 7, 2016). The Common Shares were valued at CAN\$2.9185, which represented the 10-day volume weighted average price of the Common Shares on the TSX of CAN\$3.2428, less a 10% discount. See "Prior Sales".

Events of default under the Project 1 Working Capital Facilities include:

failure to complete the Equity Financings;

the failure to pay principal when due and payable or interest, fees or other amounts payable;

the breach by the Company of any financial covenant;

a default under any other indebtedness of the Company;

a change in control of the Company;

failure to maintain planned production targets, as required by the September Credit Facility Amendments and the Amended & Restated Sprott Credit Agreement;

failure to obtain all required consents, authorizations or approvals of the South African Reserve Bank (the "**SARB**") in connection with the Amended & Restated Sprott Credit Agreement by April 5, 2017;

the occurrence of any event that could have a material adverse effect; and

various events relating to the bankruptcy or insolvency or winding-up, liquidation or dissolution or cessation of business of the Company.

Waterberg Project

PTM RSA is the operator of the Waterberg Project with JOGMEC and Mnombo. The Waterberg Project is comprised of the Waterberg JV Project, a contiguous granted prospecting right area of approximately 255 km², and the Waterberg Extension Project, an 864 km² area of granted and applied-for prospecting rights located adjacent and to the north of the Waterberg JV Project, located on the Northern Limb of the Bushveld Complex, approximately 85 km north of the town of Mokopane (formerly Potgietersrus).

On September 28, 2009, PTM RSA, Mnombo and JOGMEC entered into an agreement, as later amended on May 20, 2013 (the "**JOGMEC Agreement**"), whereby JOGMEC could earn up to a 37% participating interest in the Waterberg JV Project for an optional work commitment of US\$3.2 million over four years. At the same time, Mnombo could earn a 26% participating interest in exchange for matching JOGMEC's expenditures on a ^{26/74} basis (US\$1.12 million). In April 2012, JOGMEC completed its US\$3.2 million earn-in requirement to earn a 37% interest in the Waterberg JV Project. Following JOGMEC's earn-in, PTM RSA funded Mnombo's 26% share of costs for US\$1.12 million until the earn-in phase of the joint venture ended in May 2012. PTM RSA holds the prospecting rights granted by the DMR for the Waterberg JV Project, and Mnombo is identified as the Company's BEE partner.

On January 20, 2015, PTM RSA and Mnombo entered into a written joint venture agreement effective February 1, 2012 relating to the Waterberg Extension Project, in which PTM RSA has a 74% interest and Mnombo has a 26% interest (the "**Waterberg Extension JV Agreement**"). PTM RSA holds the prospecting rights filed with the DMR for the Waterberg Extension Project, and Mnombo is identified as the Company's BEE partner.

On May 26, 2015, the Company announced a second amendment to the JOGMEC Agreement (the "**JOGMEC 2nd Amendment**"). Pursuant to the terms of the JOGMEC 2nd Amendment, the Waterberg JV Project and the Waterberg Extension Project are to be consolidated and contributed into a newly created operating company named Waterberg JV Resources Proprietary Limited ("**Waterberg JV Co.**"). The Company is to hold 45.65% of Waterberg JV Co. while JOGMEC is to own 28.35% and Mnombo will hold 26%. Through its 49.9% share of Mnombo, the Company will hold an effective 58.62% of Waterberg JV Co., post-closing. Once Waterberg JV Co. is fully organized and the transactions contemplated in the JOGMEC 2nd Amendment are completed, the Waterberg Extension JV Agreement will be dissolved. Based on the June 2014 Waterberg Project resource estimate, the number of ounces owned by each entity did not change with the revised ownership percentages. Under the JOGMEC 2nd Amendment, JOGMEC has committed to fund US\$20 million in expenditures over a three-year period ending March 31, 2018, of which US\$8 million has been funded by JOGMEC to March 31, 2016 and the first US\$6 million to be spent in each of the following two 12-month periods will also be funded by JOGMEC. Waterberg Project expenditures in excess of US\$6 million in either of the following 12-month periods are to be funded by PTM RSA, Mnombo and JOGMEC pro-rata to their interests in Waterberg JV Co. The Company remains the Waterberg Project operator under the JOGMEC 2nd Amendment. Under the terms of the JOGMEC 2nd Amendment, closing of this transaction will take place on a date to be agreed between the parties, as soon as reasonably possible after the grant of approval by the DMR under Section 11 of the MPRDA to transfer title of the prospecting rights. As a matter of law, the closing will also be dependent upon the approval of the competition authorities under the *South African Competition Act*, 89 of 1998. If closing of this transaction does not occur, the JOGMEC 2nd Agreement will terminate and the parties will default to the JOGMEC Agreement arrangement, with such portion of the US\$20 million in expenditures funding already paid by JOGMEC being deemed to be an advance by JOGMEC towards its future spending commitments on the Waterberg JV Project. The Company and Mnombo will be required to make corresponding cash payments in respect of the Waterberg JV Project to pro rata match the advance payments made by JOGMEC, within 120 days of the termination of the JOGMEC 2nd Amendment, failing which they shall suffer

Edgar Filing: PLATINUM GROUP METALS LTD - Form SUPPL

equity dilutions under the JOGMEC Agreement as if such equivalent pro rata amounts were approved program funding in which they elected not to participate.

The Company carried Mnombo's 26% share of expenses in the Waterberg Project until March 31, 2015. JOGMEC has been funding expenses since March 31, 2015 under the terms of the JOGMEC 2nd Amendment.

April 2016 Waterberg Report

The following is the extracted summary section from the April 2016 Waterberg Report prepared for the Company by Mr. Charles Muller of CJM Consulting, South Africa, (Pty) Ltd. ("CJM"). The April 2016 Waterberg Report is incorporated by reference herein and, for full technical details, reference should be made to the complete text of the April 2016 Waterberg Report.

The following summary does not purport to be a complete summary of the Waterberg Project and is subject to all the assumptions, qualifications and procedures set out in the April 2016 Waterberg Report and is qualified in its entirety with reference to the full text of the April 2016 Waterberg Report. Readers should read this summary in conjunction with the April 2016 Waterberg Report. Readers are directed to review the full text of the report, available for review under the Company's profile on SEDAR at www.sedar.com and on the SEC's EDGAR website at www.sec.gov, for additional information.

1.1 Introduction

CJM was requested by PTM RSA, on behalf of the Company, the issuer, to complete the April 2016 Waterberg Report for the Waterberg Project. The Waterberg Project covers a buried portion of the Northern Limb of the Bushveld Complex where a deposit containing platinum group metals ("PGMs"), gold and base metals ("Cu", "Ni") has been discovered through drilling. The objective of the April 2016 Waterberg Report is to provide an update to the mineral resources on the Waterberg Project, to comply with disclosure and reporting requirements set forth in the Toronto Stock Exchange Manual, NI 43-101, Companion Policy 43-101CP to NI 43-101, and Form 43-101F1 of NI 43-101.

The April 2016 Waterberg Report reviews the geology, the exploration activities and states the most recent mineral resource estimation on the Waterberg Project (Effective Date: 18 April-2016). The report provides an update of the exploration activities completed subsequent to the last filed technical report on the resource estimate dated 20 July-2015 up to the effective date of 04 September-2016 to correspond to the public disclosure up to that date.

1.2 Waterberg Project Area and Location

The Waterberg Project is some 85 km north of the town of Mokopane (formerly Potgietersrus), within Limpopo Province, South Africa and covers an area along the strike length of the previously unknown northward extension of the Bushveld Complex. The Waterberg Project can be accessed *via* dirt roads exiting off sealed highway N11.

The Waterberg Project is comprised of several prospecting rights covering an area of 111,882 ha. The Waterberg Project is owned by a joint venture consisting of the Company, Mnombo, and JOGMEC. Conversion of the prospecting right into a mining right within the renewal period of three years is allowed. The area of the prospecting rights extends some 42 km from north to south and 42 km from east to west.

The Waterberg Project area is an extension of the trend at the northern tip of the Bushveld Complex and is the result of some detailed geophysical, geochemical and geological work that indicated potential for a package of Bushveld Complex rocks under the Waterberg group sedimentary cover rocks (the "Waterberg Group").

1.3 Geological Setting, Deposit Type and Mineralization

The Bushveld and Molopo Complexes in the Kaapvaal Craton are two of the most well-known mafic/ultramafic layered intrusions in the world. The Bushveld Complex was intruded about 2,060 million years ago into rocks of the Transvaal Supergroup, largely along an unconformity between the Magaliesberg quartzite of the Pretoria Group and the overlying Rooiberg felsites. It is estimated to exceed 66,000 km² in

extent, of which about 55% is covered by younger formations. The Bushveld Complex hosts several layers rich in PGMs, chromium and vanadium, and constitutes the world's largest known resource of these metals.

The Waterberg Project is situated off the northern end of the previously known Northern Limb, where the mafic rocks have a different sequence to those of the Eastern and Western Limbs.

PGM mineralisation within the Bushveld package underlying the Waterberg Project is hosted in two main layers: the T Zone and the F Zone.

The T Zone occurs within the Main Zone just beneath the contact of the overlying Upper Zone. Although the T Zone consists of numerous mineralised layers, three potential economical layers were identified, T1, T2HW and T2 Layers. They are composed mainly of anorthosite, pegmatoidal gabbros, pyroxenite, troctolite, harzburgite, gabbronorite and norite.

The F Zone is hosted in a cyclic unit of olivine rich lithologies towards the base of the Main Zone towards the bottom of the Bushveld Complex. This zone consists of alternating units of harzburgite, troctolite and pyroxenites. The F Zone was divided into the FH and FP layers. The FH layer has significantly higher volumes of olivine in contrast with the lower lying FP layer, which is predominately pyroxenite. The FH layer is further subdivided into six cyclic units chemically identified by their geochemical signature, especially chrome. The base of these units can also be lithologically identified by a pyroxenite layer.

1.4 Local Geology

The Waterberg Project is located along the strike extension of the Northern Limb of the Bushveld Complex. The geology consists predominantly of the Bushveld Main Zone gabbros, gabbronorites, norites, pyroxenites and anorthositic rock types with more mafic rock material such as harzburgite and troctolites that partially grade into dunites towards the base of the package. In the southern part of the project area, Bushveld Upper Zone lithologies such as magnetite gabbros and gabbronorites do occur as intersected in drillhole WB001 and WB002. The Lower Magnetite Layer of the Upper Zone was intersected on the south of the project property (Disseldorp) where drillhole WB001 was drilled and intersected a 2.5 m thick magnetite band.

On the property, the Bushveld package strikes south-west to north east with a general dip of 34° towards the west is observed from drillhole core for the layered units intersected on Waterberg property within the Bushveld Package (Figure 1). However, some structural blocks may be tilted at different angles depending on structural and /or tectonic controls.

The Bushveld Upper Zone is overlain by a 120 m to 760 m thick Waterberg Group which is a sedimentary package predominantly made up of sandstones, and within the project area the two sedimentary formations known as the Setlaole and Makgabeng Formations constitute the Waterberg Group. The Waterberg package is flat lying with dip angles ranging from to 2° to 5°. Figure 1 gives an overview of interpreted geology for the Waterberg Project.

**Figure 1:
Drillhole location and Interpreted Geology of the Waterberg Project**

1.5 Exploration Status

The Waterberg Project is an advanced project that has undergone preliminary economic evaluations which have warranted further work. Drilling to date has given the confidence to classify mineral resources as Inferred and Indicated.

1.6 Sample Preparation

The sampling methodology concurs with the Company's protocol based on industry best practice. The quality of the sampling is monitored and supervised by a qualified geologist. The sampling is done in a manner that includes the entire potentially economic unit, with sufficient shoulder sampling to ensure the entire economic zones are assayed.

1.7 Analysis

For the present database, field samples have been analysed by two different laboratories: the primary laboratory is currently Set Point laboratories (South Africa). Genalysis (Australia) is used for referee test work to confirm the accuracy of the primary laboratory.

Edgar Filing: PLATINUM GROUP METALS LTD - Form SUPPL

Samples are received, sorted, verified and checked for moisture and dried if necessary. Each sample is weighed and the results are recorded. Rocks, rock chips or lumps are crushed using a jaw crusher to less

Edgar Filing: PLATINUM GROUP METALS LTD - Form SUPPL

than 10 mm. The samples are then milled for 5 minutes to achieve a fineness of 90% less than 106 µm, which is the minimum requirement to ensure the best accuracy and precision during analysis.

Samples are analysed for Pt (ppm), Pd (ppm) Rh (ppm) and Au (ppm) by standard 25 g lead fire-assay using a silver collector. Rh (ppm) is assayed using the same method but with a palladium collector and only for selected samples. After pre-concentration by fire assay the resulting solutions are analysed using ICP-OES (Inductively Coupled Plasma Optical Emission Spectrometry).

The base metals (copper, nickel, cobalt and chromium) are analysed using ICP-OES (Inductively Coupled Plasma Optical Emission Spectrometry) after a multi-acid digestion. This technique results in "almost" total digestion.

The drilling, sampling and analytical aspects of the project are considered to have been undertaken to industry standards. The data is considered to be reliable and suitable for mineral resource estimation.

1.8 Drilling

The data from which the structure of the mineralised horizons was modelled and grade values estimated were derived from a total of 293,538 meters of diamond drilling. This report updates the mineral resource estimate using this dataset. The drillhole dataset consists of 294 drillholes and 459 deflections, at the date of data cut-off (April 1, 2016).

The management of the drilling programmes, logging and sampling have been undertaken from two facilities: one at the town of Marken in Limpopo Province, South Africa and the other on the farm Goedetrouw 366LR within the prospecting right area.

Drilled core is cleaned, de-greased and packed into metal core boxes by the drilling company. The core is collected from the drilling site on a daily basis by PTM personnel and transported to the coreyard. Before the core is taken off the drilling site, core recovery and the depths are checked. Core logging is done by hand on a pro-forma sheet by qualified geologists under supervision of the Waterberg Project geologist.

1.9 Quality Control and Quality Assurance

The Company has instituted a complete QA/QC programme including the insertion of blanks and certified reference materials as well as referee analyses. The programme is being followed and is considered to be to industry standard. The data is as a result, considered reliable in the opinion of the Qualified Person.

1.10 Mineral Resources

This report documents the mineral resource estimate Effective Date: April 18, 2016. The mineral resources are reported in the table below. Infill drilling over portions of the Waterberg Project area and new estimation methodology has made it possible to estimate a new mineral resource estimate and upgrade portions of the mineral resource to the Indicated category. The Mineral Resource Statement is summarised in Table 1.

Table 1

3	57.65	1.2	2.4	0.4	0	4.04	232 968	7.49

Notes to Table 1:

- Mineral resources are classified in accordance with the SAMREC standards. There are certain differences with the "CIM Standards on Mineral Resources and Reserves"; however, in this case the Company and the QP believe the differences are not material and the standards may be considered the same. Mineral resources do not have demonstrated economic viability and inferred resources have a high degree of uncertainty. Mineral resources might never be upgraded or converted to reserves.
- Mineral resources are provided on a 100% project basis. Inferred and indicated categories are separate. The estimates have an effective date of April 18th 2016. Tables may not add perfectly due to rounding. For the purposes of inclusion of this table from the April 2016 Waterberg Report in this Prospectus, the figures have been subject to further rounding.
- A cut-off grade of 2.5 g/t 3E (platinum, palladium and gold) for the T zone and 2.5 g/t 4E for the F zone is applied to the selected base case mineral resources. Prior to July 20, 2015, a 2 g/t cut-off was applied to resource estimates. For comparison with earlier resources a 2 g/t cut-off on the updated resource model is presented above. Cut-off grades of 3.0 g/t 4E are also presented as certain mining plans in early years may apply higher cut-offs for the Pre-Feasibility Study.
- Cut off for the T and the F zones considered costs, smelter discounts, concentrator recoveries from the previous and ongoing engineering work completed on the property by the Company and its independent engineers. Spot and three-year trailing average prices and exchange rates are considered for the cut-off considerations. Metallurgical work indicates that an economically attractive concentrate can be produced from standard flotation methods.
- Mineral resources were completed by Charles Muller of CJM and are reported in an NI 43-101 technical report for the mineral resources reported herein, effective April 18, 2016.
- Mineral resources were estimated using Kriging methods for geological domains created in Datamine Studio3 from 262 mother holes and 322 deflections in mineralization. A process of geological modelling and creation of grade shells using indicating kriging was completed in the estimation process.
-

Edgar Filing: PLATINUM GROUP METALS LTD - Form SUPPL

The estimation of mineral resources have taken into account environmental, permitting, legal, title, taxation, socio-economic, marketing and political factors. The mineral resources may be materially affected by metals prices, exchange rates, labour costs, electricity supply issues or many other factors detailed in the Company's Annual Information Form.

8.

The following United States dollar prices based on an approximate recent 3-year trailing average in accordance with the SEC guidance were used for the assessment of Resources; Pt 1,243/oz, Pd 720/oz, Au 1,238/oz, Rh 1,015/oz see "Cautionary Note to United States Investors".

9.

Estimated grades and quantities for by-products will be included in recoverable metals and estimates in the on-going pre-feasibility work. Copper and Nickel are the main value by-products recoverable by flotation and for indicated resources are estimated at 0.18% copper and 0.10% nickel in the T zone 0.07% copper and 0.16% nickel in the F zone.

Previous Waterberg Project Resource dated July 20, 2015:

Indicated: 121 million tonnes grading 3.24 g/t 3E (0.97 g/t Pt, 2.11 g/t Pd, 0.16 g/t Au, 2.5 g/t cut-off)

Inferred: 246 million tonnes grading 3.25 g/t 3E, (0.94 g/t Pt, 2.09 g/t Pd, 0.16 g/t Au, 2.5 g/t cutoff)

The data that formed the basis of the estimate are the drillholes drilled by PTM which consist of geological logs, the drillhole collars, the downhole surveys and the assay data, all of which were validated by the QP. The area where each layer was present was delineated after examination of the intersections in the various drillholes.

There is no guarantee that all or any part of the Mineral Resource will be converted to a Mineral Reserve.

1.11 Interpretation and Conclusions

Exploration drilling by PTM has intersected layered magmatic PGM mineralisation in what is interpreted to be the northern extension of the Northern Limb of the Bushveld Complex under the Waterberg Group rocks. This has confirmed the existence of mineralised zones with potentially economic concentrations of PGM's. Improved understanding of the geology allowed improved Resource estimations which provided increases in the Resources reported.

The Estimation was undertaken using best practises in terms of geostatistics.

The objectives in terms of adherence to the Scope of this Study were met in that an updated resource model was produced.

The delineation of the F Zone and T Zone units has been advanced due to better understanding of the geology. As with the previous resource estimate, this mineral resource estimate used mineralised layers identified within this Waterberg Project area. The database used for this estimate consisted of 294 drillholes and 459 deflections. The mineralisation is considered open down-dip and along strike. The Waterberg Project represents one of the largest discoveries of PGE mineralization in recent history. Metallurgical work completed at Mintek along with previously published PEA adds to the confidence in this discovery.

1.12 Recommendations

It is recommended that exploration drilling continues in order to advance the geological confidence in the deposit through infill drilling. This will provide more data for detailed logging and refined modelling. This is expected to confirm the geological continuity and allow the declaration of further Indicated Mineral Resources.

Given the results of the diamond drilling on the northern area and the extent of target areas generated by geophysical surveys, the completion of the planned exploration drilling is recommended north of the location of the current exploration programme. The objective of the exploration drilling would be to find the limit of the current deposit, confirm the understanding of the F Zone and allow appropriate selection of the potential mining cut. This will improve geoscientific confidence in order to upgrade mineral resources to the Indicated category.

Metallurgical and other engineering work completed and underway indicates that a Pre-feasibility study is warranted and recommended to proceed on the Waterberg Project. The deposit should be studied for mechanised mining methods such as room and pillar and long hole mining as a result of the thickness of both the T and F Zones.

Other Projects

The Company also holds interests in various other early stage exploration projects located in Canada and in South Africa. The Company continues to evaluate exploration opportunities both on currently owned properties and on new prospects.

Recent Developments

Effective July 1, 2016, we set the salary of R. Michael Jones, our Chief Executive Officer, at CAN\$525,000, Frank Hallam, our Chief Financial Officer, at \$475,000 and Peter Busse, our Chief Operating Officer, at CAN\$350,000. We also established the maximum discretionary cash bonus eligibility with respect to the calendar year ended December 31, 2016 at up to 70% of such salaries for Messrs. Jones and Hallam and up to 60% of such salary for Mr. Busse, based on milestones and deliverables established by the compensation committee of the Company.

Further details concerning the Company, including information with respect to the Company's assets, operations and history, are provided in the AIF and other documents incorporated by reference into this Prospectus. Readers are encouraged to thoroughly review these documents as they contain important information about the Company.

RISK FACTORS

An investment in the Securities involves a high degree of risk and must be considered a highly speculative investment due to the nature of the Company's business and the present stage of exploration and development of its mineral properties. Resource exploration and development is a speculative business, characterized by a number of significant risks including, among other things, unprofitable efforts resulting not only from the failure to discover mineral deposits but also from finding mineral deposits, which, though present, are insufficient in quantity or quality to return a profit from production.

Prospective purchasers of the Securities should carefully consider the risk factors set out below, as well as the information included in any Prospectus Supplement and in documents incorporated by reference in this Prospectus and any applicable Prospectus Supplement, before making an investment decision to purchase the Securities. Specific reference is made to the section entitled "Risk Factors" in the AIF. See "Documents Incorporated by Reference". Without limiting the foregoing, the following risk factors should be given special consideration when evaluating an investment in the Securities. Each of the risks described herein and in these sections and documents could materially and adversely affect our business, financial condition, results of operations and prospects, cause actual events to differ materially from those described in the Forward-Looking Statements and information relating to the Company and could result in a loss of your investment. Additional risks not currently known to the Company, or that the Company currently deems immaterial, may also have a material adverse effect on the Company.

Risks Relating to the Company

The Company will require additional financing, which may not be available on acceptable terms, if at all.

The Amended & Restated Sprott Facility requires the Company to complete the Equity Financings by December 31, 2016. Even if the Equity Financings and any Offerings are successfully completed, the Company may be required to source additional financing by way of private or public offerings of equity or debt or the sale of project or property interests in order to have sufficient working capital for the development and operation of Project 1 and the continued exploration on the Waterberg Project, as well as for general working capital purposes. The Project 1 Working Capital Facilities provide, however, that the Sprott Lenders can require repayment of the Second Sprott Advance from the proceeds of an equity or debt financing (excluding intercompany financings) prior to December 31, 2017. In addition, 50% of the proceeds from any equity or debt financings (excluding intercompany financings) with a value exceeding US\$1 million that close after January 31, 2017, in the case of the Amended & Restated Sprott Facility (not including financings where the proceeds are used to repay the Second Sprott Advance, at the election of the Sprott Lenders) and December 31, 2017, in the case of the Liberty Facility, are to be paid to the Lenders in partial repayment of the Project 1 Working Capital Facilities, subject to terms and conditions of the Intercreditor Agreement.

The success and the pricing of any such capital raising and/or debt financing will be dependent upon the prevailing market conditions at that time. There can be no assurance that financing will be available to the Company or, if it is available, that it will be offered on acceptable terms. If additional financing is raised through the issuance of the Securities, this may have a depressive effect on the price of the Common Shares and the interests of shareholders in the net assets of the Company may be diluted.

Any failure by the Company to obtain required financing on acceptable terms or on a timely basis could cause the Company to delay development of its material projects or could result in the Company being forced to sell some of its assets on an untimely or unfavorable basis. Any such delay or sale could have a material adverse effect on the Company's financial condition, results of operations and liquidity. Failure to complete the Equity Financings by December 31, 2016 would constitute an event of default under the Project 1 Working Capital Facilities. Any default under the Project 1 Working Capital Facilities could result in the loss of the Company's entire interest in PTM RSA, and therefore its interests in Project 1, Project 3 and the Waterberg Project.

The Company has a history of losses and it anticipates continuing to incur losses.

The Company has a history of losses. The Company anticipates continued losses until it can successfully place one or more of its properties into commercial production on a profitable basis. It could be years before the Company receives any profits from any production of metals, if ever. If the Company is unable to generate

significant revenues with respect to its properties, the Company will not be able to earn profits or continue operations.

The Company may be unable to generate sufficient cash to service its debt, the terms of the agreements governing the Company's debt may restrict its current or future operations and the indebtedness may adversely affect the Company's financial condition and results of operations.

The Company's ability to make scheduled payments on the Project 1 Working Capital Facilities will depend on its ability to successfully ramp-up production at Project 1, and on the Company's financial condition and operating performance, which are subject to prevailing economic and competitive conditions and to certain financial, business, legislative, regulatory and other factors beyond its control. If the Company's cash flows and capital resources are insufficient to fund its debt service obligations, the Company could face substantial liquidity problems and could be forced to reduce or delay investments and capital expenditures or to dispose of material assets or operations, seek additional debt or equity capital or restructure or refinance the Company's indebtedness, including indebtedness under the Project 1 Working Capital Facilities. The Company may not be able to effect any such alternative measures on commercially reasonable terms or at all and, even if successful, those alternatives may not allow the Company to meet its scheduled debt service obligations.

In addition, a breach of the covenants under the Project 1 Working Capital Facilities or the Company's other debt instruments from time to time could result in an event of default under the applicable indebtedness. Such a default may allow the creditors to accelerate the related debt, may result in the imposition of default interest, and may result in the acceleration of any other debt to which a cross acceleration or cross default provision applies. In particular, a cross default provision applies to the Amended & Restated Sprott Facility and the Liberty Facility. In the event a Lender accelerates the repayment of the Company's borrowings, the Company may not have sufficient assets to repay its indebtedness.

The Project 1 Working Capital Facilities contain a number of covenants that impose operating and financial restrictions on the Company and may limit the Company's ability to engage in acts that may be in its long term best interest. In particular, the Project 1 Working Capital Facilities restrict the Company's ability to modify material contracts, to dispose of assets, to use the proceeds from permitted dispositions, to incur additional indebtedness, to enter into transactions with affiliates, and to grant security interests or encumbrances and to use proceeds from future debt or equity financings. In addition, the Company must obtain the consent of the agent under each Project 1 Working Capital Facility to consolidate and contribute the Waterberg JV Project and the Waterberg Extension Project to Waterberg JV Co. Such consents may not be unreasonably withheld by the agents. As a result of these restrictions, the Company may be limited in how it conducts its business, may be unable to raise additional debt or equity financing, may be unable to compete effectively or to take advantage of new business opportunities or may become in breach of its obligations to joint venture partners and others, each of which may affect the Company's ability to grow in accordance with its strategy or may otherwise adversely affect its business and financial condition.

Further, the Company's maintenance of substantial levels of debt could adversely affect its financial condition and results of operations and could adversely affect its flexibility to take advantage of corporate opportunities. Substantial levels of indebtedness could have important consequences to the Company, including:

limiting the Company's ability to obtain additional financing to fund future working capital, capital expenditures, acquisitions or other general corporate requirements, or requiring the Company to make non-strategic divestitures;

requiring a substantial portion of the Company's cash flows to be dedicated to debt service payments instead of other purposes, thereby reducing the amount of cash flows available for working capital, capital expenditures, acquisitions and other general corporate purposes;

increasing the Company's vulnerability to general adverse economic and industry conditions;

exposing the Company to the risk of increased interest rates for any borrowings at variable rates of interest;

limiting the Company's flexibility in planning for and reacting to changes in the industry in which it competes;

placing the Company at a disadvantage compared to other, less leveraged competitors; and

increasing the Company's cost of borrowing.

The Company has granted first and second ranking security interests in favour of the Lenders over all of its personal property, subject to certain exceptions, and the Company has pledged its shares of PTM RSA to the Lenders under the Project 1 Working Capital Facilities, which may have a material adverse effect on the Company.

To secure its obligations under the Project 1 Working Capital Facilities (and in the case of the Liberty Facility, the production payment agreement between the Company, PTM RSA and Liberty Holdings, dated November 19, 2015, as amended, with respect to Project 1 and Project 3 (the "**Production Payment Agreement**")), the Company has entered into a general security agreement under which the Company has granted first and second ranking security interests in favour of the Lenders over all of its present and after-acquired personal property, subject to certain exceptions, and a share pledge agreement pursuant to which the Company has granted a first and second priority security interest in favour of the Lenders over all of the issued shares in the capital of PTM RSA. PTM RSA has also guaranteed the Company's obligations to the Lenders. These security interests and guarantee may impact the Company's ability to obtain project financing for the Waterberg Project or its ability to secure other types of financing. The Project 1 Working Capital Facilities have various covenants and provisions, including target production provisions, payment covenants and financial tests that must be satisfied and complied with during the term of the Project 1 Working Capital Facilities. There is no assurance that such covenants will be satisfied. Any default under Project 1 Working Capital Facilities, including any covenants thereunder, could result in the loss of the Company's entire interest in PTM RSA, and therefore its interests in Project 1, Project 3 and the Waterberg Project.

The Company has a history of negative operating cash flow, and may continue to experience negative operating cash flow.

The Company has had negative operating cash flow in recent financial years. The Company's ability to achieve and sustain positive operating cash flow will depend on a number of factors, including the Company's ability to produce at Project 1 on a profitable basis and advance the Waterberg Project into production. To the extent that the Company has negative cash flow in future periods, the Company may need to deploy a portion of its cash reserves to fund such negative cash flow. The Project 1 Working Capital Facilities require that the Company maintain consolidated cash and cash equivalents of at least US\$5 million and working capital in excess of US\$5 million. The Liberty Facility requires that the Company maintain a debt service coverage ratio of at least 1.20 to 1. The Company may be required to raise additional funds through the issuance of additional equity or debt securities to satisfy the minimum cash balance requirements under the Project 1 Working Capital Facilities. The Project 1 Working Capital Facilities provide, however, that a portion of the proceeds from any equity or debt financings (excluding intercompany financings) are required to be paid to the Lenders in partial repayment of the Project 1 Working Capital Facilities, subject to the terms and conditions of the Intercreditor Agreement. See "Business of the Company - Project 1 Working Capital Facilities". There can be no assurance that additional debt or equity financing or other types of financing will be available if needed or that these financings will be on terms at least as favorable to the Company as those obtained previously.

The Company may not be able to continue as a going concern.

The Company has limited financial resources. The Company's ability to continue as a going concern is dependent upon, among other things, the Company establishing commercial quantities of mineral reserves and successfully establishing profitable production of such minerals or, alternatively, disposing of its interests on a profitable basis. Any unexpected costs, problems or delays could severely impact the Company's ability to continue exploration and development activities. Should the Company be unable to continue as a going concern, realization of assets and settlement of liabilities in other than the normal course of business may be at amounts materially different than the Company's estimates. The amounts attributed to the Company's exploration properties in its financial statements represent acquisition and exploration costs and should not be taken to represent realizable value.

Edgar Filing: PLATINUM GROUP METALS LTD - Form SUPPL

There may be further delays in the production ramp-up of Project 1 which could result in a default under the Project 1 Working Capital Facilities and could have a material adverse effect on the Company's financial condition and prospects.

The ramp-up of production at Project 1 has been slower than anticipated and the Company may experience further delays. Timelines are based on management's current expectations and may be affected by a number of factors, including:

the availability of adequate funds to complete underground development, including the anticipated net proceeds of an Offering, or funds obtained through alternative sources of financing;

the ability of the Company to complete the Equity Financings by December 31, 2016;

consultants' analyses and recommendations;

the rate at which expenditures are incurred;

delays in construction schedules;

contractor performance and delivery of services, changes in contractors or their scope of work or any disputes with contractors;

availability of major equipment and personnel;

the Company's ability to maintain requisite permits and licenses (including a water use license, and the environmental authorization held by Maseve);

other potentially required authorizations arising from recent legislative amendments; and

the rate of underground development in the north and south declines.

Some of the above factors are beyond the Company's control and could cause management's timelines not to be realized. It is common for mining projects to experience unexpected costs, problems and delays. The targeted start date for first concentrate production at Project 1 in the fourth quarter of calendar 2015 was delayed. Delays in production ramp-up at Project 1 have also occurred. While there has been no material cost overrun with regard to capital costs, the delay in ramp-up of production at Project 1 has caused a delay in the Company's receipt of anticipated production revenue. The Company had planned to use this revenue to cover a portion of the ongoing capital costs of Project 1. As of September 30, 2016, the anticipated production revenue shortfall of approximately US\$42 million has been accommodated by amounts drawn down under the Liberty Facility and the Amended & Restated Sprott Facility. Further delays in the production ramp-up of Project 1 could have a material adverse effect on the Company's financial condition and prospects and may also result in a default under the target production provisions of the Project 1 Working Capital Facilities, which may accelerate amounts due thereunder and permit the Lenders to realize on any applicable security thereunder. This could result in a complete loss of the Company's assets, including its investment in PTM RSA, and therefore in Project 1, Project 3 and the Waterberg Project. There is no assurance that insurance for any interruption in production at Project 1 will be available to the Company on economic terms or in such amounts as would be adequate to cover all losses or at all.

Interruptions in production may trigger events of default under the Project 1 Working Capital Facilities. Under the Project 1 Working Capital Facilities, the Company will be in default if it fails to meet rolling three-month average production targets at Project 1, starting on October 31, 2016. If the Company fails to meet these production targets, there is no guarantee that Liberty Holdings or the Sprott Lenders will agree to further amendments to the Project 1 Working Capital Facilities. Any default under the Project 1 Working Capital Facilities could result in the loss of the Company's interest in PTM RSA and therefore its interests in Project 1, Project 3 and the Waterberg Project.

There can be no assurance that underground development and production ramp-up at Project 1 will meet its production ramp-up timeline or be completed at all or that production at Project 1 will meet the Company's expectations.

The Company is in the process of underground development and production ramp-up at Project 1. While the Company expects commercial production to be achieved by early 2017, there can be no assurance that the Company will meet this target. In addition, the Company has certain expectations with respect to performance

Edgar Filing: PLATINUM GROUP METALS LTD - Form SUPPL

of Project 1, but there can be no assurance that after the underground development and production ramp-up is complete that Project 1 will perform to such expectations. Delays in the underground development and production ramp-up and lower-than-expected performance could impact the Company's revenue and cash flow or result in an event of default relating to the target production provisions under the Project 1 Working Capital Facilities.

Until such time that steady state commercial production is achieved at Project 1, there is no guarantee that Project 1 will generate projected revenue or cash flow.

The Company's properties, including Project 1, may not be brought into a state of commercial production.

Although the Company has completed commissioning at Project 1, underground development and production ramp-up continue and Project 1 has not yet reached commercial production. Development of mineral properties involves a high degree of risk and few properties that are explored are ultimately developed into producing mines. The commercial viability of a mineral deposit is dependent upon a number of factors which are beyond the Company's control, including the attributes of the deposit, commodity prices, government policies and regulation and environmental protection. Fluctuations in the market prices of minerals may render reserves and deposits containing relatively lower grades of mineralization uneconomic. The development of the Company's properties, including Project 1, will require obtaining land use consents, permits and the construction and operation of mines, processing plants and related infrastructure. Although Project 1 has been granted the necessary permits and land use zoning, the Company is subject to all of the risks associated with establishing new mining operations, including:

the timing and cost, which can be considerable, of the construction of mining and processing facilities and related infrastructure;

the availability and cost of skilled labour and mining equipment;

the availability and cost of appropriate smelting and/or refining arrangements;

the need to obtain and maintain necessary environmental and other governmental approvals and permits, and the timing of those approvals and permits;

in the event that the required permits are not obtained in a timely manner, the risks of government environmental authorities issuing directives or commencing enforcement proceedings to cease operations or administrative, civil and criminal sanctions being imposed on the Company, its directors and employees;

the availability of funds to finance construction and development activities;

potential opposition from non-governmental organizations, environmental groups or local groups which may delay or prevent development activities; and

potential increases in construction and operating costs due to changes in the cost of fuel, power, materials and supplies and foreign exchange rates.

The costs, timing and complexities of mine construction and development are increased by the remote location of the Waterberg Project, with additional challenges related thereto, including water and power supply and other support infrastructure. For example, water resources are scarce at the Waterberg Project. If the Company should decide to mine at the Waterberg Project, it will have to establish sources of water and develop the infrastructure required to transport water to the project area. Similarly, the Company will need to secure a suitable location by purchase or long term lease of surface or access rights at the Waterberg Project to establish the surface rights necessary to mine and process.

It is common in new mining operations to experience unexpected costs, problems and delays during development, construction and mine ramp-up. Accordingly, there are no assurances that the Company's properties, including Project 1, will be brought into a state of commercial production.

Estimates of mineral reserves and mineral resources are based on interpretation and assumptions and are inherently imprecise.

The mineral resource and mineral reserve estimates contained in this Prospectus and the other documents incorporated by reference herein have been determined and valued based on assumed future prices, cut off grades and operating costs. However, until mineral deposits are actually mined and processed, mineral reserves and mineral resources must be considered as estimates only. Any such estimates are expressions of judgment based on knowledge, mining experience, analysis of drilling results and industry practices. Estimates of operating costs are based on assumptions including those relating to inflation and currency exchange, which may prove incorrect. Estimates of mineralization can be imprecise and depend upon geological interpretation and statistical inferences drawn from drilling and sampling analysis, which may prove to be unreliable. In addition, the grade and/or quantity of precious metals ultimately recovered may differ from that indicated by drilling results. There can be no assurance that precious metals recovered in small scale tests will be duplicated in large scale tests under onsite conditions or in production scale. Amendments to the mine plans and production profiles may be required as the amount of resources changes or upon receipt of further information during the implementation phase of the project. Extended declines in market prices for platinum, palladium, rhodium and gold may render portions of the Company's mineralization uneconomic and result in reduced reported mineralization. Any material reductions in estimates of mineralization, or of the Company's ability to develop its properties and extract and sell such minerals, could have a material adverse effect on the Company's results of operations or financial condition.

Actual capital costs, operating costs, production and economic returns may differ significantly from those the Company has anticipated and there are no assurances that any future development activities will result in profitable mining operations.

The capital costs to take the Company's projects into commercial production may be significantly higher than anticipated. None of the Company's mineral properties has an operating history upon which the Company can base estimates of future operating costs. Decisions about the development of the Company's mineral properties will ultimately be based upon feasibility studies. Feasibility studies derive estimates of cash operating costs based upon, among other things:

anticipated tonnage, grades and metallurgical characteristics of the ore to be mined and processed;

anticipated recovery rates of metals from the ore;

cash operating costs of comparable facilities and equipment; and

anticipated climatic conditions.

Capital costs, operating costs, production and economic returns and other estimates contained in studies or estimates prepared by or for the Company may differ significantly from those anticipated by the Company's current studies and estimates, and there can be no assurance that the Company's actual capital and operating costs will not be higher than currently anticipated. To date, cost escalation in Rand terms has been substantially offset by a weaker Rand, but there is no guarantee that this outcome will continue. As a result of higher capital and operating costs, production and economic returns may differ significantly from those the Company has anticipated.

The Company is subject to the risk of fluctuations in the relative values of the U.S. dollar, the Rand and the Canadian dollar.

The Company may be adversely affected by foreign currency fluctuations. Effective September 1, 2015, the Company adopted U.S. dollars as the currency for the presentation of its financial statements. Accordingly, the financial statements incorporated by reference in this Prospectus are presented in Canadian dollars, in the case of the fiscal years ended August 31, 2015 and 2014, and in U.S. dollars, in the case of the three- and nine-month periods ended May 31, 2016 and May 31, 2015. Historically, the Company has primarily generated funds through equity investments into the Company denominated in Canadian or U.S. dollars. In the normal course of business, the Company enters into transactions for the purchase of supplies and services primarily denominated in Rand or Canadian dollars. The Company also has assets, cash and liabilities denominated in Rand, Canadian

Edgar Filing: PLATINUM GROUP METALS LTD - Form SUPPL

dollars and U.S. dollars. Several of the Company's options to acquire properties or surface rights in South Africa may result in payments by the Company denominated in Rand or in U.S. dollars. Exploration, development and administrative costs to be funded by the Company in South Africa will also be denominated in Rand. Settlement of sales of minerals from the Company's projects, once commercial production commences, will be in Rand, and will be converted to U.S. dollars to make payment of principal and interest on the Project 1 Working Capital Facilities. Fluctuations in the exchange rates between the U.S. dollar and the Rand or Canadian dollar may have a material adverse effect on the Company's financial results.

In addition, South Africa has in the past experienced double digit rates of inflation. If South Africa experiences substantial inflation in the future, the Company's costs in Rand terms will increase significantly, subject to movements in applicable exchange rates. Inflationary pressures may also curtail the Company's ability to access global financial markets in the longer term and its ability to fund planned capital expenditures, and could materially adversely affect the Company's business, financial condition and results of operations. Potential downgrades to South Africa's sovereign currency ratings by international ratings agencies also would likely adversely affect the value of the Rand relative to the Canadian or U.S. dollar. The South African government's response to inflation or other significant macro-economic pressures may include the introduction of policies or other measures that could increase the Company's costs, reduce operating margins and materially adversely affect its business, financial condition and results of operations.

Metal prices are subject to change, and low prices or a substantial or extended decline or volatility in such prices could materially and adversely affect the value of the Company's mineral properties and potential future results of operations and cash flows.

Metal prices have historically been subject to significant price fluctuations. No assurance may be given that metal prices will remain stable. Significant price fluctuations over short periods of time may be generated by numerous factors beyond the control of the Company, including:

domestic and international economic and political trends;

expectations of inflation;

currency exchange fluctuations;

interest rates;

global or regional consumption patterns;

speculative activities; and

increases or decreases in production due to improved mining and production methods.

Low metal prices or significant or continued reductions or volatility in metal prices may have an adverse effect on the Company's business, including the amount of the Company's mineral reserves, the economic attractiveness of the Company's projects, the Company's ability to obtain financing and develop projects, the amount of the Company's revenues or profit or loss and the value of the Company's assets. An impairment in the value of the Company's assets would require such assets to be written down to their estimated net recoverable amount. The Company has not yet determined whether a write down of assets will be required as at August 31, 2016.

The failure of the Company or its joint venture partners to fund their pro-rata share of funds under the respective joint ventures may have a material adverse effect on the Company's business and results of operations.

The Company, through its subsidiaries, participates in joint ventures with various partners. In particular, PTM RSA, Africa Wide and Maseve are parties to the Maseve Shareholders Agreement related to the exploration and development of Project 1 and Project 3. On October 18, 2013, Africa Wide advised the Company that it would not be funding its approximately US\$21.8 million share of a six-month budget and cash call unanimously approved by the board of directors of Maseve. On March 3, 2014, Africa Wide advised the Company that it would not be funding its approximately US\$21.52 million share of a second cash call. Africa Wide's decision may result in significant adverse effects on the Company and Maseve, including delays, increases

Edgar Filing: PLATINUM GROUP METALS LTD - Form SUPPL

in expenses, less advantageous financing terms and, potentially, the halting of operations at Project 1. For example, as a result of Africa Wide's decision not to fund its cash calls, a procurement freeze was implemented on Project 1 for approximately 12 weeks from late 2013 into 2014, which resulted in delays to the acquisition and procurement of various goods and services, delaying mill and surface infrastructure construction. Any failure by PTM RSA, Africa Wide or any future shareholder under the Maseve Shareholders Agreement to contribute its pro-rata share of a cash call would result in dilution of that party's interest in proportion to the shortfall, and could have a material adverse effect on the Company as discussed above.

Pursuant to the terms of the JOGMEC 2nd Amendment, JOGMEC has been funding all work on the Waterberg Project in accordance with a US\$20 million commitment. If the corporatization of the Waterberg Project is completed and the Waterberg Project becomes held by Waterberg JV Co., it is anticipated that the procedures governing further funding for the Waterberg Project will be set forth in a new shareholders' agreement among PTM RSA, JOGMEC and Mnombo. This agreement is in the process of being negotiated, based on provisions set forth in the JOGMEC Agreement, as amended by the JOGMEC 2nd Amendment. If closing of the JOGMEC 2nd Amendment does not occur, the JOGMEC 2nd Agreement will terminate and the parties will default to the JOGMEC Agreement arrangement, with such portion of the US\$20 million in expenditures funding already paid by JOGMEC being deemed to be an advance by JOGMEC towards its future spending commitments on the Waterberg JV Project. The Company and Mnombo will be required to make corresponding cash payments in respect of the Waterberg JV Project to pro rata match the advance payments made by JOGMEC, within 120 days of the termination of the JOGMEC 2nd Amendment, failing which they shall suffer equity dilutions under the JOGMEC Agreement as if such equivalent pro rata amounts were approved program funding in which they elected not to participate.

Prior to JOGMEC's US\$20 million commitment, the Company funded Mnombo's 26% share of the work on the Waterberg Project. The ability of Mnombo to repay the Company for advances as at August 31, 2016 of approximately Rand 25.53 million (approximately US\$1.74 million as at August 31, 2016) or to fund future investment in the Waterberg Project may be uncertain. If the Company fails to fund Mnombo's future capital obligations for the Waterberg Project, Mnombo may be required to obtain funding from alternative sources, which may not be available on favorable terms, or at all. If Mnombo is unable to fund its share of such work, this may delay project expenditures and may result in dilution of Mnombo's interest in the Waterberg Project and require the sale of the diluted interests to another qualified BEE entity.

Because the development of the Company's joint venture projects depends on the ability to finance further operations, any inability of the Company or one or more of its joint venture partners to fund its respective funding obligations and cash calls in the future could require the other partners, including the Company, to increase their funding of the project, which they may be unwilling or unable to do on a timely and commercially reasonable basis, or at all. The occurrence of the foregoing, the failure of any partner, including the Company, to increase their funding as required to cover any shortfall, as well as any dilution of the Company's interests in its joint ventures as a result of its own failure to satisfy a cash call, may have a material adverse effect on the Company's business and results of operations.

The dilution of Africa Wide may have a material adverse effect on the Company's business and results of operations.

Under the terms of the Maseve Shareholders Agreement, the board of directors of Maseve may make cash calls on PTM RSA and Africa Wide. Africa Wide declined to fund its share of cash calls in October 2013 and in March 2014. As a result of the first missed cash call, the Company entered into arbitration proceedings against Africa Wide to determine the extent of the dilution of Africa Wide's interest in Maseve, in accordance with the terms of the Maseve Shareholders Agreement. On August 20, 2014, an arbitrator determined that Africa Wide's shareholding in Maseve would be reduced to 21.2766%. Based on the arbitration award, Africa Wide has been further diluted to approximately 17.1% as a result of Africa Wide's failure to fund the second cash call and therefore the Company's shareholding in Maseve has increased to approximately 82.9%. In addition, as a result of the transactions explained under the risk factor captioned "*The failure to maintain or increase equity participation by HDSAs in the Company's prospecting and mining operations could adversely affect the Company's ability to maintain its prospecting and mining rights*", there is no guarantee the DMR would recognize Africa Wide as a qualified BEE entity. To comply with the Amended Broad-Based Socio-Economic Empowerment Charter for the South African Mining Industry (the "**Mining Charter**"), Maseve was required to have 26% ownership by

Edgar Filing: PLATINUM GROUP METALS LTD - Form SUPPL

a qualified BEE entity by December 31, 2014 in order to maintain the Mining Right in good standing. Subsequent to the end of the Company's third fiscal quarter of 2016, the DMR requested an update regarding the Company's efforts to increase the HDSA equity ownership percentage in Maseve from 17.1% to 26%. The Company met with the DMR in early June 2016 and the DMR requested a further update by August 7, 2016, while reminding the Company of the risk of potential action under Sections 47 and 93 of the MPRDA if the Company were not to increase the HDSA ownership percentage. The Company has made several attempts to schedule a meeting with the DMR to further discuss this issue. To date, while the Company has been advised by the DMR that the matter will be discussed at a later date, no such meeting has taken place and the DMR has not issued a notice of non-compliance with the MPRDA.

In addition to unaffiliated BEE qualified companies, the Company has considered Mnombo as the BEE company for such a transaction and remains open to other possibilities. Should Mnombo acquire an interest in Maseve, as with funding to date for the Waterberg Project, the Company would expect to cover Mnombo's share of any cash calls. If Mnombo was not deemed to be a suitable BEE company or if the Company was unsuccessful in reaching an agreement on the terms of Mnombo's investment in Maseve, the Company would be required to reach an agreement with another qualified BEE entity and, failing that, the Company may face possible suspension or cancellation of the Mining Right under a process governed by Section 47 of the MPRDA.

Any disputes or disagreements with the Company's joint venture partners could materially and adversely affect the Company's business.

The Company participates in joint ventures and may enter into other similar arrangements in the future. PTM RSA is a party to the Maseve Shareholders Agreement related to the exploration and development of Project 1 and Project 3. In addition, PTM RSA is also a party to the Waterberg Extension JV Agreement and the JOGMEC Agreement, as amended by the JOGMEC 2nd Amendment, related to the exploration and development of the Waterberg Project. If the corporatization of the Waterberg Project is completed, PTM RSA will become party to a shareholders' agreement governing Waterberg JV Co. PTM RSA is also a 49.9% shareholder of Mnombo and the relationship among the shareholders of Mnombo is governed by a formal shareholders' agreement. Any dispute or disagreement with a joint venture partner, any change in the identity, management or strategic direction of a joint venture partner, or any disagreement among the Mnombo shareholders, including with respect to Mnombo's role in the Waterberg Project, could materially adversely affect the Company's business and results of operations. If a dispute arises between the Company and a joint venture partner or the other Mnombo shareholders that cannot be resolved amicably, the Company may be unable to move its projects forward and may be involved in lengthy and costly proceedings to resolve the dispute, such as the dispute that recently led to arbitration with Africa Wide, which could materially and adversely affect the Company's business and results of operations.

Most of the Company's properties contain no known mineral reserves.

Other than Project 1, all of the Company's properties are in the exploration stage, meaning that the Company has not determined whether such properties contain mineral reserves that are economically recoverable. The Company may never discover metals in commercially exploitable quantities at these properties. Failure to discover economically recoverable reserves on a mineral property will require the Company to write off the costs capitalized for that property in its financial statements.

Substantial additional work will be required in order to determine if any economic deposits exist on the Company's properties outside of Project 1. Substantial expenditures are required to establish mineral reserves through drilling and metallurgical and other testing techniques. No assurance can be given that any level of recovery of any mineral reserves will be realized or that any identified mineral deposit will ever qualify as a commercial mineable ore body that can be legally and economically exploited.

Completion of a pre-feasibility study for the Waterberg Project is subject to economic analysis requirements.

Completion of a pre-feasibility study for the Waterberg Project is subject to completion of a positive economic analysis of the mineral deposit.

If the Company is unable to retain key members of management, the Company's business might be harmed.

The Company's development to date has depended, and in the future will continue to depend, on the efforts of its senior management including: R. Michael Jones, President and Chief Executive Officer and a director of the Company; Frank R. Hallam, Chief Financial Officer and Corporate Secretary and a director of the Company; and Peter Busse, Chief Operating Officer of the Company. The Company currently does not, and does not intend to, have key person insurance for these individuals. Departures by members of senior management could have a negative impact on the Company's business, as the Company may not be able to find suitable personnel to replace departing management on a timely basis or at all. The loss of any member of the senior management team could impair the Company's ability to execute its business plan and could therefore have a material adverse effect on the Company's business, results of operations and financial condition.

If the Company is unable to procure the services of skilled and experienced personnel, the Company's business might be harmed.

There is currently a shortage of skilled and experienced personnel in the mining industry in South Africa. The competition for skilled and experienced employees is exacerbated by the fact that mining companies operating in South Africa are legally obliged to recruit and retain historically disadvantaged South Africans ("**HDSAs**"), as defined respectively by the MPRDA and the Broad-Based Black Economic Empowerment Act, 2003 (the "**BEE Act**"), and women with the relevant skills and experience at levels that meet the transformation objectives set out in the MPRDA and the Mining Charter. Skilled and experienced personnel are especially important at Project 1 since the deposit does not lend itself to mechanized methods. If the Company is unable to attract and retain sufficiently trained, skilled or experienced personnel, its business may suffer and it may experience significantly higher staff or contractor costs, which could have a material adverse effect on its business, results of operations and financial condition.

Conflicts of interest may arise among the Company's officers and directors as a result of their involvement with other mineral resource companies.

Certain of the Company's officers and directors are, and others may become, associated with other natural resource companies that acquire interests in mineral properties. R. Michael Jones, President and Chief Executive Officer and a director of the Company, is also the President and Chief Executive Officer and a director of West Kirkland Mining Inc. ("**WKM**"), a public company with mineral exploration properties in Ontario and Nevada, and a director of Nextraction Energy Corp. ("**NE**"), a public company with oil properties in Alberta, Kentucky and Wyoming. Frank Hallam, Chief Financial Officer and Corporate Secretary and a director of the Company, is also a director, Chief Financial Officer and Corporate Secretary of WKM, and a director of NE. Eric Carlson, a director of the Company, is a director of NE. Diana Walters, a director of the Company, was formerly an executive officer of Liberty Holdings, a significant shareholder of the Company, the Lender under the Liberty Facility, and the holder of a production payment right under the Production Payment Agreement.

Such associations may give rise to conflicts of interest from time to time. As a result of these potential conflicts of interests, the Company may miss the opportunity to participate in certain transactions, which may have a material adverse effect on the Company's financial position. The Company's directors are required by law to act honestly and in good faith with a view to the best interests of the Company and to disclose any interest that they may have in any project or opportunity of the Company. If a subject involving a conflict of interest arises at a meeting of the board of directors, any director in a conflict must disclose his interest and abstain from voting on such matter.

The Company may become subject to litigation and other legal proceedings that may adversely affect the Company's financial condition and results of operations.

All companies are subject to legal claims, with and without merit. The Company's operations are subject to the risk of legal claims by employees, unions, contractors, lenders, suppliers, joint venture partners, shareholders, governmental agencies or others through private actions, class actions, administrative proceedings, regulatory actions or other litigation. The outcome of litigation and other legal proceedings that the Company

may be involved in the future, particularly regulatory actions, is difficult to assess or quantify. Plaintiffs may seek recovery of very large or indeterminate amounts, and the magnitude of the potential loss relating to such lawsuits may remain unknown for substantial periods of time. Defense and settlement costs can be substantial, even with respect to claims that have no merit. Due to the inherent uncertainty of the litigation process, the litigation process could take away from the time and effort of the Company's management and could force the Company to pay substantial legal fees. There can be no assurance that the resolution of any particular legal proceeding will not have an adverse effect on the Company's financial position and results of operations.

An actual or alleged breach or breaches in governance processes or fraud, bribery and corruption may lead to public and private censure, regulatory penalties, loss of licenses or permits and may damage the Company's reputation.

The Company is subject to anti-corruption laws and regulations, including the Canadian Corruption of Foreign Public Officials Act and certain restrictions applicable to U.S. reporting companies imposed by the U.S. Foreign Corrupt Practices Act of 1977, as amended, and similar anti-corruption and anti-bribery laws in South Africa, which generally prohibit companies from bribing or making other prohibited payments to foreign public officials in order to obtain or retain an advantage in the course of business. The Company's Code of Business Conduct and Ethics, among other governance and compliance processes, may not prevent instances of fraudulent behavior and dishonesty nor guarantee compliance with legal and regulatory requirements. The Company is particularly exposed to the potential for corruption and bribery owing to the financial scale of the mining business in South Africa. In March 2014, the Organisation for Economic Cooperation and Development ("OECD") released its Phase 3 Report on Implementing the OECD Anti-bribery Convention in South Africa, criticizing South Africa for failing to enforce the anti-bribery convention to which it has been a signatory since 2007. The absence of enforcement of corporate liability for foreign bribery coincides with recent growth in corporate activity in South Africa's economic environment. Allegations of bribery, improper personal influence or officials holding simultaneous business interests have been linked in recent years to the highest levels of the South African government. To the extent that the Company suffers from any actual or alleged breach or breaches of relevant laws, including South African anti-bribery and corruption legislation, it may lead to regulatory and civil fines, litigation, public and private censure and loss of operating licenses or permits and may damage the Company's reputation. The occurrence of any of these events could have an adverse effect on the Company's business, financial condition and results of operations.

Risks Related to the Mining Industry

Mining is inherently dangerous and is subject to conditions or events beyond the Company's control, which could have a material adverse effect on the Company's business.

Hazards such as fire, explosion, floods, structural collapses, industrial accidents, unusual or unexpected geological conditions, ground control problems, power outages, inclement weather, cave-ins and mechanical equipment failure are inherent risks in the Company's mining operations. These and other hazards may cause injuries or death to employees, contractors or other persons at the Company's mineral properties, severe damage to and destruction of the Company's property, plant and equipment and mineral properties, and contamination of, or damage to, the environment, and may result in the suspension of the Company's exploration and development activities and any future production activities. Safety measures implemented by the Company may not be successful in preventing or mitigating future accidents and the Company may not be able to obtain insurance to cover these risks at economically feasible premiums or at all. Insurance against certain environmental risks is not generally available to the Company or to other companies within the mining industry.

In addition, from time to time the Company may be subject to governmental investigations and claims and litigation filed on behalf of persons who are harmed while at its properties or otherwise in connection with the Company's operations. To the extent that the Company is subject to personal injury or other claims or lawsuits in the future, it may not be possible to predict the ultimate outcome of these claims and lawsuits due to the nature of personal injury litigation. Similarly, if the Company is subject to governmental investigations or proceedings, the Company may incur significant penalties and fines, and enforcement actions against it could result in the cessation of certain of the Company's mining operations. During the period of February and March 2013, operations at Project 1 halted for approximately one month due to a notice under Section 54 of the Mine Health and Safety Act, No. 29 of 2006 issued in relation to a surface worker fatality that occurred onsite. Since

Edgar Filing: PLATINUM GROUP METALS LTD - Form SUPPL

March 2013, Maseve has received several notices under Section 54 that have resulted in short-term halts to operations. If claims, lawsuits, governmental investigations or proceedings, including Section 54 notices, are resolved against the Company, the Company's financial performance, financial position and results of operations could be materially adversely affected.

The Company's prospecting and mining rights are subject to title risks.

The Company's prospecting and mining rights may be subject to prior unregistered agreements, transfers, claims and title may be affected by undetected defects. A successful challenge to the precise area and location of these claims could result in the Company being unable to operate on its properties as permitted or being unable to enforce its rights with respect to its properties. This could result in the Company not being compensated for its prior expenditures relating to the property. Title insurance is generally not available for mineral properties and the Company's ability to ensure that it has obtained secure claims to individual mineral properties or mining concessions may be severely constrained. These or other defects could adversely affect the Company's title to its properties or delay or increase the cost of the development of such prospecting and mining rights.

The Company is subject to significant governmental regulation.

The Company's operations and exploration and development activities in South Africa and Canada are subject to extensive federal, state, provincial, territorial and local laws and regulation governing various matters, including:

environmental protection;

management and use of hazardous and toxic substances and explosives;

management of tailings and other waste generated by the Company's operations;

management of natural resources;

exploration, development of mines, production and post-closure reclamation;

exports and, in South Africa, potential local beneficiation quotas;

price controls;

taxation;

regulations concerning business dealings with local communities;

labour standards, BEE laws and regulations and occupational health and safety, including mine safety; and

historic and cultural preservation.

Failure to comply with applicable laws and regulations may result in civil or criminal fines or administrative penalties or enforcement actions, including orders issued by regulatory or judicial authorities enjoining or curtailing operations, requiring corrective measures, installation of additional equipment, remedial actions or recovery of costs if the authorities attend to remediation of any environmental pollution or degradation, any of which could result in the Company incurring significant expenditures. Environmental non-profit organizations have become particularly vigilant in South Africa and focus on the mining sector. Several such organizations have recently instituted actions against mining companies. The Company may also be required to compensate private parties suffering loss or damage by reason of a breach of such laws, regulations or permitting requirements. It is also possible that future laws and regulations, or a more stringent enforcement of current laws and

regulations by governmental authorities, could cause additional expense, capital expenditures, restrictions on or suspensions of the Company's operations and delays in the development of the Company's properties.

The Company may face equipment shortages, access restrictions and lack of infrastructure.

Natural resource exploration, development and mining activities are dependent on the availability of mining, drilling and related equipment in the particular areas where such activities are conducted. A limited supply of such equipment or access restrictions may affect the availability of such equipment to the Company and may delay exploration, development or extraction activities. Certain equipment may not be immediately available, or may require long lead time orders. A delay in obtaining necessary equipment for mineral exploration, including drill rigs, could have a material adverse effect on the Company's operations and financial results.

Mining, processing, development and exploration activities also depend, to one degree or another, on the availability of adequate infrastructure. Reliable roads, bridges, power sources, fuel and water supply and the availability of skilled labour and other infrastructure are important determinants that affect capital and operating costs. At the Waterberg Project, additional infrastructure will be required prior to commencement of mining. At Project 1, the Company's most advanced project, construction is substantially complete and production ramp-up is underway. The establishment and maintenance of infrastructure, and services are subject to a number of risks, including risks related to the availability of equipment and materials, inflation, cost overruns and delays, political opposition and reliance upon third parties, many of which are outside the Company's control. The lack of availability on acceptable terms or the delay in the availability of any one or more of these items could prevent or delay development or ongoing operation of the Company's projects.

Exploration of mineral properties is less intrusive, and generally requires fewer surface and access rights, than properties developed for mining. The Company has not secured any surface rights at the Waterberg Project other than those access rights legislated by the MPRDA. If a decision is made to develop the Waterberg Project, or other projects in which the Company has yet to secure adequate surface rights, the Company will need to secure such rights. No assurances can be provided that the Company will be able to secure required surface rights on favorable terms, or at all. Any failure by the Company to secure surface rights could prevent or delay development of the Company's projects.

The Company's operations are subject to environmental laws and regulations that may increase the Company's costs of doing business and restrict its operations.

Environmental legislation on a global basis is evolving in a manner that will ensure stricter standards and enforcement, increased fines and penalties for non-compliance, more stringent environmental assessment of proposed development and a higher level of responsibility and potential liability for companies and their officers, directors, employees and, potentially, shareholders. Compliance with environmental laws and regulations may require significant capital outlays on behalf of the Company and may cause material changes or delays in the Company's intended activities. There can be no assurance that future changes to environmental legislation in Canada or South Africa will not adversely affect the Company's operations. Environmental hazards may exist on the Company's properties which are unknown at present and which have been caused by previous or existing owners or operators for which the Company could be held liable. Furthermore, future compliance with environmental reclamation, closure and other requirements may involve significant costs and other liabilities. In particular, the Company's operations and exploration activities are subject to Canadian and South African national and provincial laws and regulations governing protection of the environment. Such laws are continually changing and, in general, are becoming more onerous. See "South African Regulatory Framework Environment" in the AIF.

Amendments to current laws, regulations and permits governing operations and activities of mining companies, or more stringent implementation thereof, could have a material adverse impact on the Company and cause increases in capital expenditures or production costs or a reduction in levels of production at producing properties or require abandonment or delays in development of new mining properties.

Environmental hazards may exist on the Company's properties that are unknown at the present time, and that may have been caused by previous owners or operators or that may have occurred naturally. These hazards, as well as any pollution caused by the Company's mining activities, may give rise to significant financial obligations in the future and such obligations could have a material adverse effect on the Company's financial performance.

The mineral exploration industry is extremely competitive.

The resource industry is intensely competitive in all of its phases. Much of the Company's competition is from larger, established mining companies with greater liquidity, greater access to credit and other financial resources, and that may have newer or more efficient equipment, lower cost structures, more effective risk management policies and procedures and/or greater ability than the Company to withstand losses. The Company's competitors may be able to respond more quickly to new laws or regulations or emerging technologies, or devote greater resources to the expansion of their operations, than the Company can. In addition, current and potential competitors may make strategic acquisitions or establish cooperative relationships among themselves or with third parties. Competition could adversely affect the Company's ability to acquire suitable new producing properties or prospects for exploration in the future. Competition could also affect the Company's ability to raise financing to fund the exploration and development of its properties or to hire qualified personnel. The Company may not be able to compete successfully against current and future competitors, and any failure to do so could have a material adverse effect on the Company's business, financial condition or results of operations.

The Company requires various permits in order to conduct its current and anticipated future operations, and delays or a failure to obtain such permits, or a failure to comply with the terms of any such permits that the Company has obtained, could have a material adverse impact on the Company.

The Company's current and anticipated future operations, including further exploration, development activities and commencement of commercial production on the Company's properties, require permits from various national, provincial, territorial and local governmental authorities in the countries in which the Company's properties are located. Compliance with the applicable environmental legislation, permits and land use consents is required on an ongoing basis, and the requirements under such legislation, permits and consents are evolving rapidly and imposing additional requirements for Project 1. The Waterberg Project prospecting rights issued by the DMR are also subject to land use consents and compliance with applicable legislation on an ongoing basis.

In addition, the duration and success of efforts to obtain, amend and renew permits are contingent upon many variables not within the Company's control. Shortage of qualified and experienced personnel in the various levels of government could result in delays or inefficiencies. Backlog within the permitting agencies could also affect the permitting timeline of the Company's various projects. Other factors that could affect the permitting timeline include the number of other large scale projects currently in a more advanced stage of development, which could slow down the review process, and significant public response regarding a specific project. As well, it can be difficult to assess what specific permitting requirements will ultimately apply to all of the Company's projects.

Risks of Doing Business in South Africa

Labour disruptions and increased labour costs could have an adverse effect on the Company's results of operations and financial condition.

Although the Company's employees are not unionized at this time, contractors operating on the Project 1 mine site in South Africa have employees that are unionized. As a result, trade unions could have a significant impact on the Company's labour relations, as well as on social and political reforms. There is a risk that strikes or other types of conflict with unions or employees may occur at any of the Company's operations, particularly where the labour force is unionized. Labour disruptions may be used to advocate labour, political or social goals in the future. For example, labour disruptions may occur in sympathy with strikes or labour unrest in other sectors of the economy. South African employment law sets out minimum terms and conditions of employment for employees, which form the benchmark for all employment contracts. Disruptions in the Company's business due to strikes or further developments in South African labour laws may increase the Company's costs or alter its relationship with its employees and trade unions, which may have an adverse effect on the Company's financial condition and operations. South Africa has recently experienced widespread illegal strikes and violence.

Interruptions, shortages or cuts in the supply of electricity or water could lead to disruptions in production and a reduction in the Company's operating capacity.

The Company procures all of the electricity necessary for its operations from ESKOM Holdings Limited ("**ESKOM**"), South Africa's state owned electricity utility, and no significant alternative sources of supply are available to it. ESKOM has suffered from prolonged underinvestment in new generating capacity which, combined with increased demand, has led to electricity shortages in recent years. Since 2008, ESKOM has invested heavily in new base load power generation capacity, but its principal project, a power station known as Medupi, has been subject to delays, with the last unit scheduled for commissioning in 2019. In addition, ESKOM is heavily dependent on coal to fuel its electricity plants. Accordingly, if coal mining companies experience labour unrest or disruptions to production (which have occurred historically in South Africa, including a coal strike by approximately 30,000 National Union of Mineworkers members which lasted for approximately one week in October 2015), or if heavy rains, particularly during the summer months in South Africa, adversely impact coal production or coal supplies, ESKOM may have difficulty supplying sufficient electricity supply to the Company.

The Company procures water from Magalies Water, the statutory, state-owned water authority in the Company's area of operations. The Company is dependent on the availability of water in its areas of operations and in particular on the ability of Magalies Water to provide it with sufficient allocation of water to enable it to conduct its business. Shifting rainfall patterns and increasing demands on the existing water supply have caused water shortages in the Company's areas of operations.

If electricity or water supplies are insufficient or unreliable, the Company may be unable to operate as anticipated, which may disrupt production and reduce revenues.

Any adverse decision in respect of the Company's mineral rights and projects in South Africa under the MPRDA could materially affect the Company's projects in South Africa.

With the enactment of the MPRDA, the South African state became the sole regulator of all prospecting and mining operations in South Africa. All prospecting and mining licenses and claims granted in terms of any prior legislation became known as the "old order rights". All prospecting and mining rights granted in terms of the MPRDA are "new order rights". The treatment of new applications and pending applications is uncertain and any adverse decision by the relevant regulatory authorities under the MPRDA may adversely affect title to the Company's mineral rights in South Africa, which could stop, materially delay or restrict the Company from proceeding with its exploration and development activities or any future mining operations.

A wide range of factors and principles must be taken into account by the South African Minister of Mineral Resources (the "**Minister**") when considering applications for new order rights. These factors include the applicant's access to financial resources and appropriate technical ability to conduct the proposed prospecting or mining operations, the environmental impact of the operation, whether the applicant holds an environmental authorization and, in the case of prospecting rights, considerations relating to fair competition. Other factors include considerations relevant to promoting employment and the social and economic welfare of all South Africans and showing compliance with the provisions regarding the empowerment of HDSAs in the mining industry. All of the Company's old order prospecting rights in respect of Project 1 and Project 3 were first converted into new order prospecting rights and subsequently, in April 2012, were superseded by the Mining Right. All of the Company's current prospecting rights are new order rights.

The assessment of some of the provisions of the MPRDA or the Mining Charter may be subjective and is dependent upon the views of the DMR as to whether the Company is in compliance. Maseve's social and labour plan, for instance, contains both quantitative and qualitative goals, targets and commitments relating to the Company's obligations to its employees and community residents, the achievement of some of which are not exclusively within the Company's control. Certain of the socio economic projects identified in the social and labour plan have proved inappropriate or unviable given prevailing conditions and levels of training within the local communities in the vicinity of Project 1. Such projects have been identified and the Company has consulted with the DMR regarding a course of action. An application is being made to the DMR to amend the social and labour plan to target more appropriate and viable projects. If Maseve is found to be in non-compliance with its

social and labour plan, the Minister may institute the Section 47 process discussed below. At this time, the Company has not received a notice of non-compliance from the DMR.

The Minister has the discretion to cancel or suspend mining rights under Section 47(1) of the MPRDA as a consequence of the Company's non-compliance with the MPRDA, environmental legislation, the Mining Charter, the terms of its Mining Right and prospecting rights or if mining is not progressing optimally. The Section 47 process involves multiple, successive stages which include granting the Company a reasonable opportunity to show why its rights should not be cancelled or suspended. Pursuant to the terms of the provisions of Section 6(2)(e)(iii) of the *Promotion of Administrative Justice Act*, No. 3 of 2000 ("**PAJA**") read with Section 6 of the MPRDA, the Minister can direct the Company to take remedial measures. If such remedial measures are not taken, the Minister must again give the Company a reasonable opportunity to make representations as to why such remedial measures were not taken. The Minister must then properly consider the Company's further representations (which considerations must also comply with PAJA) and only then is the Minister entitled to cancel or suspend a mining right. Any such cancellation or suspension will be subject to judicial review if it is not in compliance with the MPRDA or PAJA, or it is not lawful, reasonable and procedurally fair under Section 33(1) of the South African Constitution.

Failure by the Company to meet its obligations in relation to its Mining Right or prospecting rights or the Mining Charter could lead to the suspension or cancellation of such rights and the suspension of the Company's other rights, which would have a material adverse effect on the Company's business, financial condition and results of operations.

The failure to maintain or increase equity participation by HDSAs in the Company's prospecting and mining operations could adversely affect the Company's ability to maintain its prospecting and mining rights.

The Company is subject to a number of South African statutes aimed at promoting the accelerated integration of HDSAs, including the MPRDA, the BEE Act and the Mining Charter. To ensure that socio-economic strategies are implemented, the MPRDA provides for the Mining Codes which specify empowerment targets consistent with the objectives of the Mining Charter. The Mining Charter Scorecard requires the mining industry's commitment of applicants in respect of ownership, management, employment equity, human resource development, procurement and beneficiation. For ownership by BEE groups in mining enterprises, the Mining Charter Scorecard sets a 26% target by December 31, 2014.

The South African government awards procurement contracts, quotas, licenses, permits and prospecting and mining rights based on numerous factors, including the degree of HDSA ownership. The MPRDA and Mining Charter contain provisions relating to the economic empowerment of HDSAs. One of the requirements which must be met before the DMR will issue a prospecting right or mining right is that an applicant must facilitate equity participation by HDSAs in the prospecting and mining operations which result from the granting of the relevant rights. As a matter of stated policy, the DMR requires a minimum of 26% HDSA ownership for the grant of applications for mining rights. The Mining Charter required a minimum of 26% HDSA ownership by December 31, 2014.

The Company has sought to satisfy the foregoing requirements by partnering, at the operating company level, with companies demonstrating 26% HDSA ownership. The Company has partnered with Africa Wide with respect to Maseve, which owns the Mining Right, and has partnered with Mnombo with respect to the Waterberg JV Project and for the prospecting rights and applications over the Waterberg Extension Project.

The Company believes that Africa Wide was majority owned by HDSAs in 2002, when it first partnered with the Company. However, the Company's contractual arrangements with Africa Wide do not currently require Africa Wide to maintain any minimum level of HDSA ownership or to certify the level of such ownership to the Company. In 2007, Wesizwe (which was then majority owned by HDSAs) acquired 100% of the shares of Africa Wide. On an application of the modified flow-through principles, Africa Wide remained an HDSA company. On December 8, 2008, the Company entered into certain agreements to consolidate and rationalize the ownership of the Western Bushveld Joint Venture (the "**Consolidation Transaction**"). Under the terms of the Consolidation Transaction, the Company transferred its 18.5% interest in Project 2 of what was formerly the Western Bushveld Joint Venture to Wesizwe, therefore providing attributable units of production and further enhancing the ownership of mining assets by HDSA companies. Under the same transaction, Rustenburg

Edgar Filing: PLATINUM GROUP METALS LTD - Form SUPPL

Platinum Mines Limited, a wholly owned subsidiary of Anglo American Platinum Limited ("**Amplats**") acquired a then approximately 26.9% interest in Wesizwe. In 2011, Jinchuan Group Limited of China and China Africa Development Fund, with the approval of the DMR and notwithstanding that the transaction resulted in Wesizwe not being majority owned by HDSAs, acquired a then approximately 45% interest in Wesizwe. Although Amplats' interest is held for preferential disposition to a qualified BEE purchaser, HDSAs do not currently own a majority of the Wesizwe equity. In April 2012, Maseve was granted the Mining Right by the DMR which, by stated policy, is an acknowledgement of Maseve's BEE compliance status as being acceptable to the DMR. There can be no assurance when, or if, the transfer of Amplats' interest in Wesizwe to a qualified BEE purchaser will occur. Also, there can be no assurance that the HDSA ownership may not be re-assessed or that the criteria for HDSA ownership may not be interpreted differently in the future. If only the direct shareholdings of Africa Wide and its parent are considered, and other factors which were considered by the DMR at the time of grant are set aside, Maseve, solely on flow-through principles, would have been, and remains, below the 26% HDSA ownership level.

Further, on August 20, 2014, an award in the binding arbitration with respect to the calculation of dilution to the ownership of Africa Wide in Maseve was completed and delivered to the Company. The arbitrator ruled in favor of the Company on all matters in contention. The favourable award reduced Africa Wide's shareholding in Maseve to 21.2766%. As a result of Africa Wide's decision on March 3, 2014 not to fund its US\$21.52 million share of a second cash call delivered in February 2014, Africa Wide's ownership in Maseve was further reduced to approximately 17.1% based on the dilution formula in the Maseve Shareholders Agreement, as confirmed by the arbitration. Until the Company sells the diluted percentage interest in Maseve previously held by Africa Wide to an alternative, qualified BEE company, Maseve will have less than 26% HDSA ownership.

The Company is satisfied that Mnombo is majority-owned by HDSAs. The contractual arrangements between Mnombo, the Company and the HDSAs require the HDSAs to maintain a minimum level of HDSA ownership in Mnombo of more than 50%. However, if at any time Mnombo becomes a company that is not majority owned by HDSAs, the ownership structure of the Waterberg JV Project and the prospecting rights and applications over the Waterberg Extension Project may be deemed not to satisfy HDSA requirements.

As the Company has historically partnered with BEE groups or companies that were HDSA-controlled at the time on all of its material projects in South Africa at a level of 26% at an operating or project level it relies upon the continuing consequences of such transactions (the so-called "once empowered, always empowered" principle) for ownership compliance with the Mining Charter in regard to Maseve.

There is currently no legal or regulatory certainty over whether the principle of "once empowered, always empowered" (i.e., whether a company that has reached its empowerment targets under the Mining Charter will remain empowered if its HDSA participation subsequently falls below required thresholds) would apply. The DMR and the Chamber of Mines of South Africa (acting on behalf of the mining industry) are currently engaged in litigation which may result in some clarity on the "once empowered, always empowered" principle, but this is likely to be a lengthy process and no assurance can be given regarding the ultimate outcome of such litigation or its impact on the Company. In addition, an application has been filed in the High Court of South Africa to have the Mining Charter itself set aside.

On April 15, 2016, the Reviewed Broad Based Black-Economic Empowerment Charter for the South African Mining and Minerals Industry (the "**New Draft Charter**") was published for comment. Interested parties were given a period of 30 days from date of publication to make submissions to the DMR. The DMR continues to engage with the Chamber of Mines and with the industry in regard to the New Draft Charter. The New Draft Charter requires mining companies to maintain 26% BEE ownership throughout the life of the mine. If adopted in its current form, the New Draft Charter will require Maseve to conclude further BEE transactions to increase its BEE ownership level to 26% once more. However, the New Draft Charter envisages that mining companies will be given a period of three years within which to achieve compliance.

Subject to conditions contained in the Company's prospecting and mining rights, the Company may be required to obtain approval from the DMR prior to undergoing any change in its empowerment status under the Mining Charter. In addition, if the Company or its BEE partners are found to be in non-compliance with the requirements of the Mining Charter and other BEE regulations, including failure to retain the requisite level of

Edgar Filing: PLATINUM GROUP METALS LTD - Form SUPPL

HDSA ownership, the Company may face possible suspension or cancellation of its mining rights under a process governed by Section 47 of the MPRDA.

In addition, there have been a number of proposals made at governmental level in South Africa regarding amendments and clarifications to the methodology for determining HDSA ownership and control of mining businesses, including the Mineral and Petroleum Resources Development Amendment Bill, 2013, which create greater uncertainty in measuring the Company's progress towards, and compliance with, its commitments under the Mining Charter and other BEE regulations. If implemented, any of these proposals could result in, among other things, stricter criteria for qualification as an HDSA investor.

The Company is obliged to report on its compliance with the Mining Charter, including its percentage of HDSA shareholding, to the DMR on an annual basis. The Company's 2015 report was submitted on May 3, 2016. Although no feedback has been received in regard to either the 2014 or the 2015 filing, the Company received a request from the DMR subsequent to the end of its third fiscal quarter in 2016 to provide an update as to its plan to achieve a 26% HDSA equity ownership percentage for Maseve. The Company met with the DMR in early June 2016 and the DMR requested a further update by August 7, 2016, while reminding the Company of the risk of potential action under Sections 47 and 93 of the MPRDA if the Company were not to increase the HDSA ownership percentage. The Company has made several attempts to schedule a meeting with the DMR to further discuss this issue. To date, while the Company has been advised by the DMR that the matter will be discussed at a later date, no such meeting has taken place and the DMR has not issued a notice of non-compliance with the MPRDA.

If the Company is required to increase the percentage of HDSA ownership in any of its operating companies or projects, the Company's interests may be diluted. In addition, it is possible that any such transactions or plans, or the investment by a new BEE partner in Maseve to attain a 26% interest by qualified BEE companies, may need to be executed at a discount to the proper economic value of the Company's operating assets or it may also prove necessary for the Company to provide vendor financing or other support in respect of some or all of the consideration, which may be on non-commercial terms. Under the terms of the Maseve Shareholders Agreement, if Maseve is instructed by the DMR to increase its HDSA ownership, any agreed costs or dilution of interests shall be borne equally by the Company and Africa Wide, notwithstanding that Africa Wide holds 17.1% of the equity after the second missed cash call.

Currently, the South African Department of Trade and Industry is responsible for leading government action on the implementation of BEE initiatives under the auspices of the BEE Act and the generic BEE Codes of Good Practi
