CALCULATION OF REGISTRATION FEE

Title of Each Class of Securities To Be Registered	Amount To Be Registered	Proposed Maximum Offering Price	Proposed Maximum Aggregate Offering Price (1)
Common Stock by Selling Shareholders	3,230,000	\$0.55	\$1,776,
Common Shares Underlying Warrants to Consultants	600,000	\$0.55	\$330,
Common Shares Underlying Placement Agent Warrants	60,000	\$0.60	\$36,
Common Shares Underlying Employee Options	150,000	\$0.55	\$82,
(1)	Estimated solely for the purpose of computing the registration fee pursuant to Rule 457		
(2)	Amount previously paid with the original SB-2 filing.		

This Post-Effective Amendment No. 3 to the Registration Statement on Form S-1, which was previously declared effective by the Securities and Exchange Commission on May 13, 2008, incorporates by reference the Registrant's current reports on Form 8-K as filed with the Securities and Exchange Commission on January 4, 2008, May 21, 2008, August 7, 2008, September 24, 2008, March 5, 2009 and May 28, 2009, the Registrant's Annual Report on Form 10-K filed with the Securities and Exchange Commission on March 31, 2009 and the Registrant's Form 10-Q's filed on May 15, 2009 and August 13, 2009.

Edgar Filing: TOMBSTONE TECHNOLOGIES, INC. - Form POS AM

(SUBJECT TO COMPLETION)

PROSPECTUS

TOMBSTONE TECHNOLOGIES, INC.

1,500,000 COMMON SHARES OF COMMON STOCK OF SELLING SHAREHOLDERS

1,730,000 COMMON SHARES OF COMMON STOCK OF SELLING SHAREHOLDERS

60,000 SHARES UNDERLYING PLACEMENT AGENT WARRANTS

600,000 COMMON SHARES UNDERLYING CONSULTANT WARRANTS

150,000 EMPLOYEE/CONSULTANT OPTION SHARES

We are registering all securities listed for sale on behalf of selling shareholders:

- (a) 1,500,000 Shares of Common Stock of Selling Shareholders,
- (b) 1,730,000 outstanding shares of Common Stock of Selling Shareholders
- (c) 60,000 Shares underlying Placement Agent Warrants
- (d) 600,000 common shares underlying Consultant Warrants at \$0.55 per share
- (e) 150,000 Shares underlying Employee/Consultant Options at \$0.55 per Share (the "Offering") of our Company, Tombstone Technologies, Inc., a Colorado corporation.

In Registration Statement No. 333-138184, we registered Units consisting of 1 share of our common stock and an "A" Warrant and a "B" Warrant. On August 31, 2009, the "A" and "B" warrants will expire and therefore, the Registrant is removing, thereby deregistering the "A" and "B" warrants and the shares underlying the warrants from Registration Statement No. 333-138184. Further, as a result of the removal of the "A" and the "B" Warrants, the Registrant has removed all references to Units and is updating the document for such items.

A total of \$448,500 may be raised by us if all Placement Agent Warrants, Employee Options and Consultant Warrants and Options described above are exercised. We will NOT receive any proceeds from sales of Shares by Selling Shareholders. Furthermore, given that we have no operating history and no revenues, it is highly unlikely that our Warrants will be exercised at \$0.55 or \$0.60 in the foreseeable future.

Each Placement Agent Warrant entitles the holder to purchase one share of Common Stock at \$0.60 during the three-year period commencing August 31, 2006. The expiration of the Placement Agent Warrant has been extended to August 31, 2012. Our Common Stock, only, will be transferable immediately after the closing of this offering. There are no transfer limitations on the Units being registered. We have undertaken to keep the registration statement, of which this Prospectus is a part, current during the term of the Warrants and Options to Employee/Consultants. (See "Description of Securities")

Our Selling Security Holders plan to sell common Shares at such prices as the market may dictate from time to time. There is a limited trading market for the common stock and our pricing is arbitrary with no relation to market value, liquidation value, earnings or dividends. The price was arbitrarily set at a slight premium to the previous private placement price of \$0.50 per Unit. The Warrant exercise price was arbitrarily determined based on speculative concept unsupported by any other comparables. We have set the initial fixed prices as follows:

TITLE	PER SHARE/ EXERCISE PRICE
Common Stock	\$0.55
Employee/Consultant Options	\$0.55
Stock underlying Placement Agent Warrants	\$0.60

At any time after a market develops, our security holders may sell their

Edgar Filing: TOMBSTONE TECHNOLOGIES, INC. - Form POS AM

securities at market prices or at any price in privately negotiated transactions.

THIS OFFERING INVOLVES A HIGH DEGREE OF RISK; SEE "RISK FACTORS" BEGINNING ON PAGE 6 TO READ ABOUT FACTORS YOU SHOULD CONSIDER BEFORE BUYING SHARES OF THE COMMON STOCK.

THESE SECURITIES HAVE NOT BEEN APPROVED OR DISAPPROVED BY THE SECURITIES AND EXCHANGE COMMISSION (THE "SEC") OR ANY STATE OR PROVINCIAL SECURITIES COMMISSION, NOR HAS THE SEC OR ANY STATE OR PROVINCIAL SECURITIES COMMISSION PASSED UPON THE ACCURACY OR ADEQUACY OF THIS PROSPECTUS. ANY REPRESENTATION TO THE CONTRARY IS A CRIMINAL OFFENSE.

1

In October 2007, our common stock was approved for trading on the over the counter bulletin board under the symbol "TMCI". While Units and the "A" Warrants and "B" Warrants were approved for trading on the over the counter bulletin board, it appears there was never any trades and the "A" and "B" Warrants have expired. During the period of October 2007 through December 31, 2007, our Shares and Units did not trade. During the period of January 1, 2008 through December 31, 2008, our Shares had limited trading activity. Our Units have had no trading activity during the period of October 2007 through the expiration of the Warrants.

We are conducting this offering as a "self-underwriting" through our officers and directors, and therefore, we will pay no underwriting fees or commissions

1. We are not using an underwriter for this offering of Shares.
2. We have no arrangement to place the proceeds from this offering in an escrow, trust or similar account. Any funds raised from exercise of Warrants pursuant to this offering will be immediately available to us for our use and retained by Tombstone regardless of whether or not there are any additional sales under this offering.

This offering will be on a delayed or continuous basis for sales of selling Shares and for exercise of Warrants for the period of the Warrants until expiry or call and exercise.

The information in this prospectus is not complete and may be changed. We may not sell these securities until the date that the registration statement relating to these securities, which has been filed with the Securities and Exchange Commission, becomes effective. This prospectus is not an offer to sell these securities and it is not soliciting an offer to buy these securities in any state where the offer or sale is not permitted.

The date of this Prospectus is September 15, 2009.

PROSPECTUS SUMMARY AND RISK FACTORS

OUR COMPANY

Tombstone Cards, Inc. ("We," "Us," "Our") was organized under the laws of the

Edgar Filing: TOMBSTONE TECHNOLOGIES, INC. - Form POS AM

State of Colorado on April 29, 2005, because our management decided to attempt to build a business to sell customized, professional-quality playing cards via the Internet.

On July 31, 2008, Tombstone Cards, Inc. amended its' Articles of Incorporation for the change of its corporate name to Tombstone Technologies, Inc. as approved at the Annual Shareholder's Meeting held on July 24, 2008.

We have begun initial minimal operations and have recognized minimal revenues from such operations. Currently, our only employees are our Chief Executive Officer and Chief Financial Officer, as described on page 20. Through the period ended June 30, 2006, the executive officers contributed their services and only recently began to be compensated for their services in 2008. During the year ended December 31, 2008, Messrs. Harris and Cox's both were paid \$18,000 of their \$36,000 salaries. The remaining \$18,000 was accrued at December 31, 2008. During the six months ended June 30, 2009, the Board of Directors of the Company issued to Messrs. Harris and Cox, in lieu of monies owed for salaries of \$18,000 each at December 31, 2008, totaling \$36,000, the issuance of a total of 360,000 restricted shares of our common stock (valued at \$0.10 per share). These shares have been accounted for as a contribution of capital.

We are in the developmental stage of our business, and since January 1, 2007, we have had limited operations and recognized nominal revenues.

During the year ended December 31, 2007, we, as part of our manufacturing and printing of customized playing cards, created a technology division in order to handle the development, marketing and licensing of our proprietary OIEPrint(TM) software, a web to print template driven application. Web to print is the overall process of integrating technology, from ordering and pre-press to post-press and delivery in order to reduce time and costs.

During the second and third quarters of 2008, our management made the decision to focus a majority of our efforts and resources on the development and marketing of the OIEPrint(TM) software. We will still continue to offer customized playing cards, but have determined that this will be a smaller part of our operations. We will continue offering customized playing cards using the OIEPrint(TM) software to create and print the playing cards.

Our Auditors have issued a going concern opinion and the reasons noted for issuing the opinion are our lack of revenues and modest capital.

Factors that make this offering highly speculative or risky are:

- o There is a limited market for our securities;
- o We have recognized minimal revenues;
- o We are start up company;
- o We have minimal experience in the printing business;
- o We may be undercapitalized.

Our executive offices are located at 5380 Highlands Drive, Longmont, CO 80503; the telephone number is (303) 684-6644; and the facsimile number is (303) 684-0673.

	As at Dec
Total Assets	
Total Liabilities	
Shareholders' Equity	
	From April 29, 2005 to Dec
Revenues	
Net Loss for the year ended December 31, 2008	
Net Loss from April 29, 2005 through December 31, 2008	

As of December 31, 2008, accumulated deficit for our business was \$909,499. As of June 30, 2009, accumulated deficit for our business was \$1,058,333. We anticipate that we will operate in a deficit position and continue to sustain net losses for the foreseeable future.

THE OFFERING

We are registering all securities listed for sale on behalf of selling shareholders:

- (a) 1,500,000 Shares of Common Stock of Selling Shareholders,
- (b) 1,730,000 outstanding shares of Common Stock of Selling Shareholders
- (c) 60,000 Shares underlying Placement Agent Warrants
- (d) 600,000 common shares underlying Consultant Warrants at \$0.55 per share
- (e) 150,000 Shares underlying Employee/Consultant Options at \$0.55 per Share (the "Offering") of our Company, Tombstone Technologies, Inc., a Colorado corporation.

A total of \$448,500 may be raised by us if all Placement Agent Warrants, Employee Options and Consultant Warrants and Options described above are exercised. We will NOT receive any proceeds from sales of Shares by Selling Shareholders. Furthermore, given that we have no operating history and no revenues, it is highly unlikely that our Warrants will be exercised at \$0.50 or \$0.60 in the foreseeable future.

Each Placement Agent Warrant entitles the holder to purchase one share of Common Stock at \$0.60 during the three-year period commencing August 31, 2006. The expiration of the Placement Agent Warrant has been extended to August 31, 2012. Our Common Stock, only, will be transferable immediately after the closing of this offering. There are no transfer limitations on the Units being registered. We have undertaken to keep the registration statement, of which this Prospectus is a part, current during the term of the Warrants and Options to Employee/Consultants. (See "Description of Securities")

Common Shares Outstanding Before This Offering	3,878,000
--	-----------

Edgar Filing: TOMBSTONE TECHNOLOGIES, INC. - Form POS AM

Maximum Common Shares Being Offered by Selling Shareholders	3,230,000

Maximum Common Shares offered by Selling Shareholders	1,790,000

Maximum Shares Underlying Employee Options	150,000

Maximum Common Shares Outstanding After This Offering (1)	6,567,999

Maximum Shares Outstanding if Placement Agent Warrants are Exercised in this Offering	6,567,999
=====	

(1) Assuming exercise of all 810,000 Share purchase Warrants/Options consisting of 150,000 Employee Options, 60,000 Placement Agent Warrants and 600,000 Consultant Warrants.

5

We are authorized to issue 100,000,000 Shares of Common Stock. Our current Shareholders, officers and directors collectively own 3,878,000 Shares of restricted Common Stock. These Shares were issued at a price of \$.01 per Share for 1,500,000 Shares, \$.50 per Share for 1,730,000 Shares and \$0.10 per share for 648,000 Shares.

Our Common Stock is presently traded on the over-the-counter market on the OTC Bulletin Board maintained by the Financial Industry Regulatory Authority ("FINRA"). In October 2007, we began trading on the over the counter bulletin board under the symbol "TMCI." During the period of October 2007 through December 31, 2007, our shares did not trade. During the period January 1, 2008 through December 31, 2008 our common stock had limited trading. On December 31, 2008 our shares of common stock were traded at a high of \$0.65 and a low of \$0.65.

In addition to our common stock, in October 2007, we began trading our Units on the OTC Bulletin Board. A Unit consists of 1 share of our common stock, 1 of our "A" Warrants and 1 of our "B" Warrants. The Units trade on the over the counter bulletin board under the symbol "TMCIU". While Units and the "A" Warrants and "B" Warrants were approved for trading on the over the counter bulletin board, it appears there was never any trades and the "A" and "B" Warrants have expired.

OUR COMPANY RISK FACTORS

Our securities, as offered hereby, are highly speculative and should be purchased only by persons who can afford to lose their entire investment in us. Each prospective investor should carefully consider the following risk factors, as well as all other information set forth elsewhere in this prospectus, before purchasing any of the Shares of our Common Stock.

OUR BUSINESS IS A DEVELOPMENT STAGE COMPANY AND UNPROVEN AND THEREFORE RISKY.

We have only very recently been organized to perform the operations described above. Potential investors should be made aware of the risk and difficulties encountered by a new enterprise in the card business, especially in view of the intense competition from existing businesses in the industry.

WE WERE INCORPORATED IN 2005 AND HAVE HAD A LIMITED OPERATING HISTORY.

We have only very recently been organized to perform the operations described above. Potential investors should be made aware of the risk and difficulties encountered by a new enterprise in the Web 2 Print business, especially in view of the intense competition from existing businesses in the industry.

Edgar Filing: TOMBSTONE TECHNOLOGIES, INC. - Form POS AM

A DECLINE IN ON-LINE PRINTING MAY ADVERSELY AFFECT OUR BUSINESS.

If on-line printing declines in activity, there is significant risk that the operations of our business will be negatively impacted resulting in lack of sales revenues, if any are ever developed. This decline could result from adverse economic conditions, which negatively affect disposable income and changes in printing habits.

OUR WEAKNESSES MAY AFFECT OUR ABILITY TO SELL, COMPETE AND GENERATE REVENUES.

- o Because of our position as a startup, we are not a household name among prospective customers, and the cost to raise us to "top-of-mind" awareness will be higher than for an established company.
- o Documented processes and procedures, along with the integrated technology deployment, are still in the development stage and an unforeseen delay or loss of key personnel could cause delays in our continued operations.

Any of these could cause our revenue model to be unprofitable and cause failure of our business.

WE HAVE IDENTIFIED POTENTIAL THREATS TO OUR BUSINESS MODEL.

- o The fast-growing interest in poker could be a fad that burns out quickly, leaving a smaller core than expected.
- o A significant downturn in the American economy would reduce the amount of disposable income available to our target audience.
- o Other competitors could move quickly to match our performance by offering similar products and design amenities, forcing us to invest more than expected in product development.
- o Too much success too quickly could overwhelm our systems, creating order and fulfillment problems including the increased possibility of poor work slipping through to the marketplace, resulting in high levels of customer dissatisfaction.

6

Any of these could cause our revenue model to be unprofitable and cause failure of our business.

WE MAY HAVE A SHORTAGE OF WORKING CAPITAL IN THE FUTURE WHICH COULD JEOPARDIZE OUR ABILITY TO CARRY OUT OUR BUSINESS PLAN.

Our capital needs consist primarily of rent, insurance, utilities, marketing expenses, wages, taxes, etc. and could exceed \$500,000 in the next twelve months. Such funds are not currently committed, and we have cash as of the date of this post-effective amended Registration Statement of approximately \$34,000.

Given that we have a short operating history and minimal revenues, it is highly unlikely that our Warrants will be exercised at \$0.55 and \$0.60 in the foreseeable future, which makes it highly unlikely that we will raise that additional working capital from this Registration.

OUR OFFICERS AND DIRECTORS MAY HAVE CONFLICTS OF INTEREST WHICH MAY NOT BE RESOLVED FAVORABLY TO US.

Certain conflicts of interest may exist between us and our officers and directors. Our Officers and Directors have other business interests to which they devote their attention and may be expected to continue to do so although management time should be devoted to our business. As a result, conflicts of

Edgar Filing: TOMBSTONE TECHNOLOGIES, INC. - Form POS AM

interest may arise that can be resolved only through exercise of such judgment as is consistent with fiduciary duties to us. See "Directors, Executive Officers, Promoters and Control Persons" (page 19), and "Conflicts of Interest". (page 20)

WE WILL NEED ADDITIONAL FINANCING FOR WHICH WE HAVE NO COMMITMENTS, AND THIS MAY JEOPARDIZE EXECUTION OF OUR BUSINESS PLAN.

We have limited funds, and such funds may not be adequate to carryout the business plan. Our ultimate success depends upon our ability to raise additional capital. We have not investigated the availability, source, or terms that might govern the acquisition of additional capital and will not do so until it determines a need for additional financing. If we need additional capital, we have no assurance that funds will be available from any source or, if available, that they can be obtained on terms acceptable to us. If not available, our operations will be limited to those that can be financed with our modest capital.

OUR WARRANTHOLDERS AND OPTIONHOLDERS MAY NOT EXERCISE THEIR PURCHASE RIGHTS.

It is very unlikely that any security holder would exercise either our Warrants or the Options.

WE HAVE A MINIMAL OPERATING HISTORY, SO INVESTORS HAVE NO WAY TO GAUGE OUR LONG TERM PERFORMANCE.

We were incorporated on April 29, 2005 based on a concept to sell customized, professional-quality playing cards via the Internet. During the year ended December 31, 2008, the Company changed its business focus to the development of its OIEPrint software. As evidenced by the financial reports we have had minimal revenue. It must be regarded as a new or development venture with all of the unforeseen costs, expenses, problems, and difficulties to which such ventures are subject. The venture must be considered highly speculative.

WE CAN MAKE NO ASSURANCE OF SUCCESS OR PROFITABILITY IN THE FUTURE.

There is no assurance that we will ever operate profitably. There is no assurance that we will generate revenues or profits in the future, or that the market price of our Common Stock will be increased thereby.

WE WILL DEPEND UPON MANAGEMENT BUT WE WILL HAVE LIMITED PARTICIPATION OF MANAGEMENT.

We currently have three individuals who are serving as our officers and directors for up to 50 hours per week each on a part-time basis. Our directors are also acting as our officers. We will be heavily dependent upon their skills, talents, and abilities, as well as several consultants to us, to implement our business plan, and may, from time to time, find that the inability of the officers, directors and consultants to devote their full-time attention to our business results in a delay in progress toward implementing our business plan. See "Management." Because investors will not be able to manage our business, they should critically assess the information concerning our officers and directors.

OUR OFFICERS AND DIRECTORS ARE NOT EMPLOYED FULL-TIME BY US WHICH COULD BE DETRIMENTAL TO THE BUSINESS.

Our directors and officers are, or may become, in their individual capacities, officers, directors, controlling shareholder and/or partners of other entities engaged in a variety of businesses. Thus, there exist potential conflicts including time and efforts involved in participation with such other business entities. Each officer and director of our business is engaged in business

activities outside of our business, and the amount of time they devote as Officers and Directors to our business will be up to 50 hours per week. (See "Executive Team")

We do not know of any reason other than outside business interests that would prevent them from devoting full-time to us, when the business may demand such full-time.

OUR OFFICERS AND DIRECTORS MAY HAVE CONFLICTS OF INTERESTS TO CORPORATE OPPORTUNITIES WHICH OUR COMPANY MAY NOT BE ABLE OR ALLOWED TO PARTICIPATE IN.

Presently no requirement contained in our Articles of Incorporation, Bylaws, or minutes which requires officers and directors of our business to disclose to us business opportunities which come to their attention. Our officers and directors do, however, have a fiduciary duty of loyalty to us to disclose to us any business opportunities which come to their attention, in their capacity as an officer and/or director or otherwise. Excluded from this duty would be opportunities which the person learns about through his involvement as an officer and director of another company. We have no intention of merging with or acquiring an affiliate, associate person or business opportunity from any affiliate or any client of any such person. (See "Conflicts of Interest" at page 20)

WE HAVE AGREED TO INDEMNIFICATION OF OFFICERS AND DIRECTORS AS IS PROVIDED BY COLORADO STATUTE.

Colorado Revised Statutes provide for the indemnification of our directors, officers, employees, and agents, under certain circumstances, against attorney's fees and other expenses incurred by them in any litigation to which they become a party arising from their association with or activities our behalf. We will also bear the expenses of such litigation for any of our directors, officers, employees, or agents, upon such person's promise to repay us therefore if it is ultimately determined that any such person shall not have been entitled to indemnification. This indemnification policy could result in substantial expenditures by us that we will be unable to recoup.

OUR DIRECTOR'S LIABILITY TO US AND SHAREHOLDERS IS LIMITED

Colorado Revised Statutes exclude personal liability of our directors and our stockholders for monetary damages for breach of fiduciary duty except in certain specified circumstances. Accordingly, we will have a much more limited right of action against our directors than otherwise would be the case. This provision does not affect the liability of any director under federal or applicable state securities laws.

WE MAY DEPEND UPON OUTSIDE ADVISORS, WHO MAY NOT BE AVAILABLE ON REASONABLE TERMS AND AS NEEDED.

To supplement the business experience of our officers and directors, we may be required to employ accountants, technical experts, appraisers, attorneys, or other consultants or advisors. Our Board without any input from stockholders will make the selection of any such advisors. Furthermore, it is anticipated that such persons may be engaged on an "as needed" basis without a continuing fiduciary or other obligation to us. In the event we consider it necessary to hire outside advisors, we may elect to hire persons who are affiliates, if they are able to provide the required services.

WE HAVE SUBSTANTIAL COMPETITORS WHO HAVE AN ADVANTAGE OVER US IN RESOURCES AND

Edgar Filing: TOMBSTONE TECHNOLOGIES, INC. - Form POS AM

MARKETING.

We will be in competition with other products developed and marketed by much larger corporations, which are better capitalized and have far greater marketing capabilities than us. We expect to be at a disadvantage when competing with many firms that have substantially greater financial and management resources and capabilities than we do now.

RISK FACTORS RELATED TO OUR ON-LINE PRINTING OPERATIONS

ACTUAL OR PERCEIVED SECURITY VULNERABILITIES IN OUR PRODUCT COULD ADVERSELY AFFECT OUR REVENUES.

Maintaining the security of our software is an issue of critical importance to customers and for management. There are individuals and groups who develop and deploy viruses, worms and other malicious software programs that could attack our products. Although, we take preventative measures to protect our products, these procedures may not be sufficient to mitigate damage to products. Actual or perceived security vulnerabilities in software products could lead some customers to seek to return products, to reduce or delay future purchases or to purchase competitive products. Customers may also increase their expenditures on protecting their computer systems from attack, which could delay or reduce purchases of our product. Any of these actions or responses by customers could adversely affect our revenues.

8

SYSTEM FAILURES OR SYSTEM UNAVAILABILITY COULD HARM OUR BUSINESS.

We rely on our network infrastructure, internal technology systems and external websites for development, marketing, operational, support and sales activities. Our hardware and software systems related to such activities are subject to damage from malicious code released into the public Internet through recently discovered vulnerabilities in popular software programs. These systems are also subject to acts of vandalism and to potential disruption by actions or inactions of third parties. Any event that causes failures or interruption in hardware or software systems could harm our business, financial condition and operating results.

PURCHASERS OF PRODUCTS AND SERVICES MAY NOT CHOOSE TO SHOP ONLINE WHICH WOULD PREVENT US FROM ACQUIRING NEW CUSTOMERS WHICH ARE NECESSARY TO THE SUCCESS OF OUR BUSINESS.

The online market for print products and services is less developed than the online market for other business and consumer products. If this market does not gain widespread acceptance, our business may suffer. Our success will depend in part on our ability to attract customers who have historically purchased printed products and graphic design services through traditional printing operations and graphic design businesses or who have produced graphic design and printed products using self-service alternatives. Furthermore, we may have to incur significantly higher and more sustained advertising and promotional expenditures or price our services and products more competitively than we currently anticipate, in order to attract additional online consumers to the websites and convert them into purchasing customers. Specific factors that could prevent prospective customers from purchasing from us include:

- Concerns about buying graphic design services and printed products without face-to-face interaction with sales personnel;
- The inability to physically handle and examine product samples;
- Delivery time associated with Internet orders;
- Concerns about security of online transactions and the privacy of personal information;

Edgar Filing: TOMBSTONE TECHNOLOGIES, INC. - Form POS AM

- Delayed shipments or shipments or incorrect or damaged products; and
- Inconvenience associated with returning or exchanging purchased items.

INTERRUPTIONS TO WEBSITE OPERATIONS, INFORMATION TECHNOLOGY SYSTEMS, PRODUCTION PROCESSES OR CUSTOMER SERVICE OPERATIONS AS A RESULT OF NATURAL DISASTERS, ERRORS IN TECHNOLOGY, CAPACITY CONSTRAINTS, SECURITY BREACHES OR OTHER CAUSES COULD DAMAGE OUR REPUTATION AND BRAND AND SUBSTANTIALLY HARM OUR BUSINESS AND RESULTS OF OPERATIONS.

The satisfactory performance, reliability and availability of our websites, transaction processing systems, network infrastructure, printing production facilities and customer service operations are critical to our reputation, and our ability to attract and retain customers and to maintain adequate customer service levels. Any future interruptions that result in the unavailability of our websites reduced order fulfillment performance or interfere with customer service operations could result in negative publicity, damage our reputation and brand and cause our business and results of operations to suffer. We may experience temporary interruptions in operations for a variety of reasons in the future, including human error, software errors, power loss, telecommunication failures, fire, flood, extreme weather, political instability, acts of terrorism, war, break-ins and security breaches, and other events beyond our control.

Our technology, infrastructure and processes may contain undetected errors or design faults. These errors or design faults may cause the websites to fail and result in loss of, or delay in, market acceptance of our products and services. In the future, we may encounter additional issues, such as scalability limitations, in current or future technology releases. A delay in the commercial release of any future version of the technology or implementing improvements in infrastructure and processes could seriously harm our business. In addition, our systems could suffer computer viruses and similar disruptions, which could lead to loss of critical data or the unauthorized disclosure of confidential customer data.

Our business requires that we have adequate capacity in our computer systems to cope with the high volume of visits to websites, particularly during promotional campaign periods. As our operations grow in size and scope, we will need to improve and upgrade our computer systems and network infrastructure to offer customers enhanced and new products, services, capacity, features and functionality. The expansion of our systems and infrastructure may require it to commit substantial financial, operational and technical resources before the volume of the business increases, with no assurance that our revenues will increase.

IF WE ARE UNABLE TO MARKET AND SELL PRODUCTS AND SERVICES BEYOND OUR EXISTING TARGET MARKETS AND DEVELOP NEW PRODUCTS AND SERVICES TO ATTRACT NEW CUSTOMERS, OUR RESULTS OF OPERATIONS MAY SUFFER.

We have developed products and services and implemented marketing strategies designed to attract small business owners and consumers to the websites and encourage them to purchase our products and services. Management believes they will need to address additional markets and attract new customers to further grow the business. To access new markets and customers management expects that

9

they will need to develop, market and sell new products and additional services that address their needs. We intend to focus on developing new strategic relationships to expand marketing and sales channels. Any failure to develop new products and services, expand our business beyond our existing target markets and customers, and address additional market opportunities could harm the business, financial condition and our results of operations.

Edgar Filing: TOMBSTONE TECHNOLOGIES, INC. - Form POS AM

RISK FACTORS RELATED TO OUR STOCK

THE REGULATION OF PENNY STOCKS BY SEC AND FINRA MAY DISCOURAGE THE TRADABILITY OF OUR SECURITIES.

We are a "penny stock" company. Our securities currently trade on the Over-the-Counter Bulletin Board under the symbol "TMCI." There is a limited public market for our Common Stock. While our Units and the "A" Warrants and "B" Warrants were approved for trading on the over the counter bulletin board ("TMCIU"), it appears there was never any trades and the "A" and "B" Warrants have expired. Our Securities will be subject to a Securities and Exchange Commission rule that imposes special sales practice requirements upon broker-dealers who sell such securities to persons other than established customers or accredited investors. For purposes of the rule, the phrase "accredited investors" means, in general terms, institutions with assets in excess of \$5,000,000, or individuals having a net worth in excess of \$1,000,000 or having an annual income that exceeds \$200,000 (or that, when combined with a spouse's income, exceeds \$300,000). For transactions covered by the rule, the broker-dealer must make a special suitability determination for the purchaser and receive the purchaser's written agreement to the transaction prior to the sale. Effectively, this discourages broker-dealers from executing trades in penny stocks. Consequently, the rule will affect the ability of purchasers in this offering to sell their securities in any market that might develop therefore because it imposes additional regulatory burdens on penny stock transactions.

In addition, the Securities and Exchange Commission has adopted a number of rules to regulate "penny stocks". Such rules include Rules 3a51-1, 15g-1, 15g-2, 15g-3, 15g-4, 15g-5, 15g-6, 15g-7, and 15g-9 under the Securities and Exchange Act of 1934, as amended. Because our securities constitute "penny stocks" within the meaning of the rules, the rules would apply to us and to our securities. The rules will further affect the ability of owners of Shares to sell our securities in any market that might develop for them because it imposes additional regulatory burdens on penny stock transactions.

Shareholders should be aware that, according to Securities and Exchange Commission, the market for penny stocks has suffered in recent years from patterns of fraud and abuse. Such patterns include (i) control of the market for the security by one or a few broker-dealers that are often related to the promoter or issuer; (ii) manipulation of prices through prearranged matching of purchases and sales and false and misleading press releases; (iii) "boiler room" practices involving high-pressure sales tactics and unrealistic price projections by inexperienced sales persons; (iv) excessive and undisclosed bid-ask differentials and markups by selling broker-dealers; and (v) the wholesale dumping of the same securities by promoters and broker-dealers after prices have been manipulated to a desired consequent investor losses. Our management is aware of the abuses that have occurred historically in the penny stock market. Although we do not expect to be in a position to dictate the behavior of the market or of broker-dealers who participate in the market, management will strive within the confines of practical limitations to prevent the described patterns from being established with respect to our securities.

WE WILL PAY NO FORESEEABLE DIVIDENDS IN THE FUTURE.

We have not paid dividends on our Common Stock and do not ever anticipate paying such dividends in the foreseeable future.

LOSS OF CONTROL BY OUR PRESENT MANAGEMENT AND STOCKHOLDERS MAY OCCUR UPON ISSUANCE OF ADDITIONAL SHARES.

We may issue further Shares as consideration for the cash or assets or services out of our authorized but unissued Common Stock that would, upon issuance,

Edgar Filing: TOMBSTONE TECHNOLOGIES, INC. - Form POS AM

represent a majority of our voting power and equity. The result of such an issuance would be those new stockholders and management would control us, and persons unknown could replace our management at this time. Such an occurrence would result in a greatly reduced percentage of ownership of us by our current Shareholders.

A LIMITED PUBLIC MARKET EXISTS FOR OUR COMMON STOCK, AT THIS TIME.

Our Common Stock trades on the Over-the Counter Bulletin Board under the symbol "TMCI." There is a limited public market for our Common Stock and no assurance can be given that this market will continue to develop or that a Shareholder ever will be able to liquidate their investment without considerable delay, if at all. If the market continues to develop, the price may be highly volatile. Factors such as those discussed in the "Risk Factors" section may have a significant impact upon the market price of the securities offered hereby. Due to the low price of our securities, many brokerage firms may not be willing to effect transactions in our securities. Even if a purchaser finds a broker willing to effect a transaction in our securities, the combination of brokerage commissions, state transfer taxes, if any, and any other selling costs may exceed the selling price. Further, many lending institutions will not permit the use of such securities as collateral for any loans.

10

RULE 144 SALES IN THE FUTURE MAY HAVE A DEPRESSIVE EFFECT ON OUR STOCK PRICE.

All of the outstanding Shares of Common Stock held by our present officers, directors, and affiliate stockholders are "restricted securities" within the meaning of Rule 144 under the Securities Act of 1933, as amended. As restricted Shares, these Shares may be resold only pursuant to an effective registration statement or under the requirements of Rule 144 or other applicable exemptions from registration under the Act and as required under applicable state securities laws. We are registering all of our outstanding Shares so officers, directors and affiliates will be able to sell their Shares if this Post-Effective Amendment to the Registration Statement becomes effective. Rule 144 provides in essence that a person who has held restricted securities for six months may, under certain conditions, sell every three months, in brokerage transactions, a number of Shares that does not exceed the greater of 1.0% of a company's outstanding Common Stock or the average weekly trading volume during the four calendar weeks prior to the sale. A sale under Rule 144 or under any other exemption from the Act, if available, or pursuant to subsequent registration of Shares of Common Stock of present stockholders, may have a depressive effect upon the price of the Common Stock in any market that may develop.

FUTURE DILUTION MAY OCCUR DUE TO ISSUANCES OF SHARES FOR VARIOUS CONSIDERATION IN THE FUTURE.

There may be substantial dilution to our Shareholders purchasing in this Offering as a result of future decisions of the Board to issue Shares without Shareholder approval for cash, services, acquisitions, or pursuant to our Employee/Consultant Stock Option Plan for which one million Shares have been reserved. Award/Earnings/Vesting criteria under the Plan have not been set, however the price per Share for exercise will be no less than \$0.55 per Share. 1,029,999 Options are currently outstanding under the Plan.

OUR STOCK WILL IN ALL LIKELIHOOD BE THINLY TRADED AND AS A RESULT YOU MAY BE UNABLE TO SELL AT OR NEAR ASK PRICES OR AT ALL IF YOU NEED TO LIQUIDATE YOUR SHARES.

The Shares of our Common Stock are thinly-traded on the OTC Bulletin Board,

Edgar Filing: TOMBSTONE TECHNOLOGIES, INC. - Form POS AM

meaning that the number of persons interested in purchasing our common Shares at or near ask prices at any given time may be relatively small or non-existent. This situation is attributable to a number of factors, including the fact that we are a small company which is relatively unknown to stock analysts, stock brokers, institutional investors and others in the investment community that generate or influence sales volume, and that even if we came to the attention of such persons, they tend to be risk-averse and would be reluctant to follow an unproven, early stage company such as ours or purchase or recommend the purchase of any of our Securities until such time as we became more seasoned and viable. As a consequence, there may be periods of several days or more when trading activity in our Securities is minimal or non-existent, as compared to a seasoned issuer which has a large and steady volume of trading activity that will generally support continuous sales without an adverse effect on Securities price. We cannot give you any assurance that a broader or more active public trading market for our common Securities will develop or be sustained, or that any trading levels will be sustained. Due to these conditions, we can give investors no assurance that they will be able to sell their Shares at or near ask prices or at all if you need money or otherwise desire to liquidate their Securities of our Company.

OUR COMMON STOCK MAY BE VOLATILE, WHICH SUBSTANTIALLY INCREASES THE RISK THAT YOU MAY NOT BE ABLE TO SELL YOUR SECURITIES AT OR ABOVE THE PRICE THAT YOU MAY PAY FOR THE SECURITY.

Because of the limited developing trading market for our Common Stock, and because of the possible price volatility, you may not be able to sell your Warrants or Shares of Common Stock when you desire to do so. The inability to sell your Securities in a rapidly declining market may substantially increase your risk of loss because of such illiquidity and because the price for our Securities may suffer greater declines because of our price volatility.

The price of our Common Stock that will prevail in the market after this offering may be higher or lower than the price you may pay. Certain factors, some of which are beyond our control, that may cause our Share price to fluctuate significantly include, but are not limited to the following:

- o Variations in our quarterly operating results;
- o Loss of a key relationship or failure to complete significant transactions;
- o Additions or departures of key personnel; and
- o Fluctuations in stock market price and volume.

11

Additionally, in recent years the stock market in general, and the over-the-counter markets in particular, have experienced extreme price and volume fluctuations. In some cases, these fluctuations are unrelated or disproportionate to the operating performance of the underlying company. These market and industry factors may materially and adversely affect our stock price, regardless of our operating performance. In the past, class action litigation often has been brought against companies following periods of volatility in the market price of those companies Common Stock. If we become involved in this type of litigation in the future, it could result in substantial costs and diversion of management attention and resources, which could have a further negative effect on your investment in our stock.

MANY OF OUR SHARES OF COMMON STOCK WILL IN THE FUTURE BE AVAILABLE FOR RESALE. ANY SALES OF OUR COMMON STOCK, IF IN SIGNIFICANT AMOUNTS, ARE LIKELY TO DEPRESS THE MARKET PRICE OF OUR SECURITIES.

Edgar Filing: TOMBSTONE TECHNOLOGIES, INC. - Form POS AM

Assuming all of the Shares of common stock we are offering under this post-effective amended Registration Statement are sold and all of the Shares of common stock issued and issuable to the selling security holders are sold, we would have 3,230,000 Shares that are freely tradable without the requirement of registration under the Securities Act of 1933. Even our officers and director have registered Shares owned by them totaling 1,025,000.

Unrestricted sales of 3,230,000 Shares of stock by our selling stockholders could have a huge negative impact on our Share price, and the market for our Securities including Shares and Warrants.

OUR NEW INVESTORS WILL SUFFER A DISPROPORTIONATE RISK AND THERE WILL BE IMMEDIATE DILUTION OF PURCHASERS' INVESTMENTS.

Our present Shareholders have acquired their Securities at a cost significantly less than that which the investors purchasing pursuant to Warrants will pay for their stock holdings or at which future purchasers in the market may pay. Therefore, new investors will bear most of the risk of loss. Further, assuming all of the Shares offered hereby are sold, of which there can be no assurance, an investment in our Common Stock by the purchaser will result in an immediate dilution (in excess of 90%) of the net tangible book value of the Common Stock from the offering price which the purchasers will have paid for their Shares.

OUR BUSINESS IS HIGHLY SPECULATIVE AND THE INVESTMENT IS THEREFORE RISKY.

Due to the speculative nature of our business, it is possible that an investment in the Shares offered hereby will result in a total loss to the investor. Investors should be able to financially bear the loss of their entire investment. Investment should, therefore, be limited to that portion of discretionary funds not needed for normal living purposes or for reserves for disability and retirement.

OUR PRESENT AND FUTURE SHAREHOLDERS WILL SUFFER DILUTION BY SALE OF THIS OFFERING AND BY NEW ISSUANCES IN THE FUTURE WHICH MAY OCCUR.

Upon the sales of Shares, there may be substantial dilution to our Security holders. The exercise price of certain of our Options and Warrants \$0.55 and \$0.60, is substantially higher than the pro forma current net tangible book value per Share of our outstanding Common Stock. The net tangible book value attributable to our Shares as of December 31, 2008 was \$(0.004) per Share. Net tangible book value per Share of Common Stock is determined by dividing the number of outstanding Shares of Common Stock into the net tangible book value attributable to our Common Stock, which is our tangible assets less our total liabilities. After giving effect to possible sale of all of our Shares registered herein, and after deducting the offering expenses, the adjusted net tangible book value attributable to our Common Stock will increase. This represents an immediate increase in net tangible book value per Share to the holders of our existing Common Stock and an immediate dilution per Share to Shareholders purchasing Shares of stock at the exercise price of \$0.55 per share for certain Options or \$0.60 per share for certain Warrants. See "Dilution Summary" hereinafter on page 14.

12

As of December 31, 2008	Assuming Exercise of "Employee" Options @ \$0.55 per share (1)	Assu "P Warr
-------------------------	--	--------------------

Edgar Filing: TOMBSTONE TECHNOLOGIES, INC. - Form POS AM

Net tangible book value per share before exercise of "Employee " Options and/or "Placement Agent" Warrants	(\$0.004)
Net tangible book value per share after exercise of "Employee" Options and/or "Placement Agent" Warrants	\$0.108
Increase per share attributable to exercise of "Employee Option" and/or "Placement Agent Warrants"	\$0.112
Dilution per share to new investors	\$0.442
Dilution per share as percentage of price to new investors	80%

* Assumes 100% exercise and cumulative aggregation of proceeds.

(1) Includes 600,000 Warrants owned by consultants and 150,000 Options owned by employees.

POSSIBLE DEPRESSIVE EFFECT OF FUTURE SALES OF SHARES ISSUED PURSUANT TO WARRANT EXERCISE.

The Shares and Placement Agent Warrants are being registered in this Offering. These Warrants cannot be exercised and the underlying shares of Common Stock issued unless a current registration statement is in effect. (See "Description of Securities - Selling Warrantholders"). In the event all of the Placement Agent Warrants are eventually exercised, the resulting 60,000 shares would be free trading and could be sold into the secondary market. Such sales would most likely have a depressive effect on the price of the Common Stock in any over-the-counter market that may develop, since the large supply of shares available in the market would most likely reduce the price purchasers need to pay for the stock. The exercise of the Warrants would also reduce the percentage of our Common Stock owned by the investors in this offering.

ARBITRARY OFFERING PRICE.

The exercise price of the Warrants have been determined arbitrarily by us with no established criteria of value. There is no direct relationship between these prices and our assets, book value, lack of earnings, shareholder's equity, or any other recognized standard of value of our business.

FUTURE DILUTION.

Upon exercise of any of the Warrants, holder of Common Stock will suffer dilution of their interest in us unless they in turn exercise Warrants which they hold, if any. In addition, Warrants will be exercisable. (See "Description of Securities").

NO ASSURANCE OF PUBLIC MARKET FOR ANY OUR SECURITIES.

There is presently a limited market for any of our securities and there can be no assurance a larger market will develop or that purchasers will be able to resell their Common Stock at the public offering price or without delay. No one is obligated to create or make a market in the Common Stock upon completion of this offering. Should a market for our Securities develop there is no assurance that such a market will continue. In addition, due to the low price of these Securities many brokerage firms may not effect transactions in the Common Stock and banks may not accept them as collateral for loans.

USE OF PROCEEDS

In the event purchasers in this offering elect to exercise any of the Warrants

Edgar Filing: TOMBSTONE TECHNOLOGIES, INC. - Form POS AM

at the exercise prices set forth in this Prospectus, we will realize net proceeds. The proceeds from the exercise of Warrants will be contributed to our working capital and used to build our business. (See "Proposed Business - Plan of Operation")

If Warrants are exercised we will receive proceeds upon exercise, from exercise price of the securities underlying Warrants \$36,000 from the sale of 60,000 Placement Agent Warrants at \$0.60 per share, \$82,500 from sale of Shares underlying Options @ \$0.55 per Share to Employee, \$330,000 from sale of Shares to a Consultant underlying Warrants at \$0.55 per Share,. We have no intention of returning any stock sale proceeds to investors if the maximum amount is not raised, and we will use the proceeds as soon as we receive them.

Although we reserve the right to reallocate the funds according to changing events, we believe the net proceeds from this Offering and projected cash flow from operations will be sufficient to fund our initial capital requirements for a period of twelve months. The foregoing assumes the Offering will be fully subscribed, but there can be no assurance we will not require additional funds for operations. The availability and terms of any future financing will depend on market and other conditions out of our control. The amount of proceeds and uses are based upon our projections, which may also change according to unforeseen future events and market changes.

13

TABLE I

PROCEEDS (INCLUDING
PLACEMENT AGENT WARRANTS,
CONSULTANT WARRANTS AND
EMPLOYEE CONSULTANT
OPTIONS)

Salaries	\$170,000
Equipment	\$8,500
Marketing	\$25,000
General and Administrative	\$25,000
Working Capital	\$195,000
Website Development	\$25,000

TOTAL	\$448,500
	=====

The monies we have raised thus far from selling stock to our current Shareholders is anticipated to be sufficient to pay all expenses of this offering, which is estimated to be \$100,000. The total amount of the money raised from the sale of the Shares underlying Warrants we are offering will be used for the purpose of furthering our plan of operation, as detailed under the heading "PLAN OF OPERATION" below.

DETERMINATION OF OFFERING PRICE

Our Common Stock trades on the Over-the Counter Bulletin Board under the symbol "TMCI." While Units and the "A" Warrants and "B" Warrants were approved for trading on the over the counter bulletin board, it appears there was never any trades and the "A" and "B" Warrants have expired.

Our Selling Security Holders plan to sell common Shares at \$0.55, until such time as a market develops for any of the securities and thereafter at such prices as the market may dictate from time to time. There is no history of a market price for the stock and our pricing is arbitrary with no relation to

Edgar Filing: TOMBSTONE TECHNOLOGIES, INC. - Form POS AM

market value, liquidation value, earnings or dividends. The Warrant exercise price was arbitrarily determined based on speculative concept unsupported by any other comparables.

TITLE	PER SHARE/ EXERCISE PRICE
Common Stock	\$0.55
Employee/Consultant Options	\$0.55
Stock underlying Placement Agent Warrants	\$0.60

The 1,500,000 Shares of stock already purchased by officers and directors and other founding Shareholders were sold for \$.01 per Share. We previously sold 1,730,000 Units to investors at \$0.50 per Unit, each Unit consisting of one Share and one "A" Warrant and one "B" Warrant in 2006. The additional major factors that were included in determining the initial sales price to our founders and private investors were the lack of liquidity since there is no present market for our stock and the high level of risk considering our lack of operating history.

DILUTION

We are registering Shares of existing Shareholders Shares of Common Stock comprising part of Units for sale through this offering. Since our inception on April 29, 2005, our officers, directors purchased 1,025,000 shares @ \$.01 per share and other Shareholders have purchased Shares of our Common Stock for \$.01 per Share for 500,000 Shares in 2005 (this number includes William Reilly who purchased 25,000 shares in April 2005, and who in 2006 became an Officer and a Director). In 2006 Shareholders purchased 1,730,000 Shares as part of Units offered for \$0.50 per Unit and Garden State Securities received, as compensation, a Warrant to purchase 60,000 Units each Unit consisting of one Share and one "A" and one "B" Warrant which Units, Shares and Warrants and Shares Underlying the Warrants. The "A" and "B" Warrants expired in August 2009. We are including all of the securities in this Post-Effective Amendment to the Registration Statement, except for the shares underlying the Warrants and the Units.

14

COMPARATIVE DATA

The following table sets forth with respect to existing Shareholders and new investors, a comparison of the number of our Shares of Common Stock purchased the percentage ownership of such Shares, the total consideration paid, the percentage of total consideration paid and the average price per Share. All percentages are computed based upon cumulative Shares and consideration assuming sale of all Shares in the line items as compared to maximum in each previous subsection.

	SHARES PURCHASED NUMBER	PERCENT	TOTAL CONSIDERATION AMOUNT	PERCENT
EXISTING SHAREHOLDERS	3,230,000	80%	\$816,305	65%
"Other" Warrant Exercise @ \$0.55 (assuming 100% sold)	600,000	15%	\$330,000	26%
"Other" Warrant Exercise @ \$0.60 (assuming 100% sold)	60,000	1.0%	\$36,000	3%
Employee Options 150,000 @ \$0.55	150,000	4.0%	\$82,500	6%

Edgar Filing: TOMBSTONE TECHNOLOGIES, INC. - Form POS AM

Pre Warrant Exercise Capital 100% 100%

"Net tangible book value" is the amount that results from subtracting the total liabilities and intangible assets from the total assets of an entity. Dilution occurs because we determined the offering price based on factors other than those used in computing book value of our stock. Dilution exists because the book value of Shares held by existing stockholders is lower than the offering price offered to new investors.

Following is a table detailing dilution to investors if 25%, 50%, 75%, or 100% of the Shares underlying Warrants in the offering are sold.

	25%	50%	75%
Net Tangible Book Value Per Share Prior to Stock Sale(1)	(\$0.004)	(\$0.004)	(\$0.004)
Net Tangible Book Value Per Share After Stock Sale, assuming the Exercise of Certain Warrants (2)	\$ 0.03	\$ 0.06	\$ 0.08
Dilution Per Share	95%	89%	85%
Increase in Net Tangible Book Value	\$ 0.03	\$ 0.06	\$ 0.08

- (1) Computation of Net Tangible Book Value per Share prior to stock sale includes the deduct and proceeds of private placement in July/August 2006
- (2) Computation of Net Tangible Book Value per Share prior to stock sale assumes proceeds from warrants: 600,000 @ \$0.55; 150,000 @ \$0.55; 60,000 @ \$0.60 Placement Agent Warrants.

SELLING SECURITY HOLDERS

The selling Shareholders, excluding officers and directors, obtained their Shares of our Stock in either of two private placements of a) 1,730,000 Units occurring in June, July, August 2006, which consisted of one Share, one "A" Warrant and one "B" Warrant at \$0.50 per share of which the "A" and "B" Warrants expired in August 2009, or b) in the initial private placement in late 2005 of 500,000 shares (excluding founders, John Harris and Neil Cox) at \$0.01 per share.

Other than the two stock transactions discussed below, we have not entered into any transaction nor are there any proposed transactions in which any founder, director, executive officer, significant Shareholder of our company or any member of the immediate family of any of the foregoing had or is to have a direct or indirect material interest.

On July 6, 2005, we sold 500,000 Shares of our Common Stock to our CFO/Secretary/Treasurer (Neil A. Cox) for \$5,000, or \$.01 per Share. Our Common Stock had no quoted market value on the date of the transaction. Mr. Cox would be considered a promoter.

On July 14, 2005, we sold 500,000 Shares of our Common Stock to our President and Chief Executive Officer (John N. Harris) for \$5,000, or \$.01 per Share. Our Common Stock had no quoted market value on the date of the transaction. Mr. Harris would be considered a promoter.

Edgar Filing: TOMBSTONE TECHNOLOGIES, INC. - Form POS AM

William Reilly became an Officer (COO and CTO) and a Director in early 2006. Mr. Reilly was previously a shareholder having purchased 25,000 shares @ \$0.01 in April 2005. Mr. Reilly also has 100,000 Employee options exercisable to purchase shares at \$0.55. We sold 500,000 Shares to other Shareholders in 2005 at \$.01 per share.

We have engaged as a consultant Capital Merchant Banc under an Agreement which provides for the vesting of 600,000 Warrants to purchase Shares at \$0.55 per Share based upon performing consulting services for which it is paid \$3,000 per month. When vested, Capital Merchant Banc could acquire an amount of Shares equal to 15.66% of the issued and outstanding Common Stock prior to exercise of any Warrants. These Warrants expire August 31, 2009 with an Option to acquire a new two year Warrant at \$0.55 for 600,000 if the stock price has not closed at \$0.50 for 30 days.

The President, CFO and COO/CTO contributed their management services to our business until June 30, 2006, and were not paid until August 2006. The President and CFO were paid for July 2006 and August 2006 at the rate of \$3,000 per month. The COO/CTO was paid for July 2006 and August 2006 at the rate of \$3,500 per month. The President and CFO were paid a bonus also of \$3,000 for deferring salaries until August 2006 and the COO/CTO (William Reilly) was paid a bonus of \$3,500 for deferring salaries until August 2006.

During the year ended December 31, 2008, Mr. Reilly was issued an option to purchase 150,000 shares of the Company's common stock. The option has an exercise price of \$0.65 per share. The option was valued using the Black-Scholes method. During the year ended December 31, 2006, Mr. Reilly was issued an option to purchase 100,000 shares of the Company's common stock. The option has an exercise price of \$0.55 per share and a term of 3 years expiring in August 2009. The value of the option was determined using the exercise price. This option is not a part of this Registration Statement.

During the six months ended June 30, 2009, Messrs. Harris and Cox, officers and directors of the Company were issued 180,000 shares of our restricted common stock (360,000 shares total, each, in lieu of monies owed for salaries at December 31, 2008 (valued at \$0.10 per share). These shares have been accounted for as a contribution of capital. These shares are not a part of this Registration Statement.

During the six months ended June 30, 2009, Mr. Michael Willis, our Chief Executive Officer at the time, was issued 116,170 shares of our restricted common stock valued at \$11,617 for his services as an officer. These shares are not a part of this Registration Statement.

No person who may, in the future, be considered a promoter of this offering, will receive or expect to receive assets, services or other considerations from us except those persons who are our salaried employees or directors. No assets will be, nor expected to be, acquired from any promoter on behalf of us. We have not entered into any agreements that require disclosure to the Shareholders.

All of the Securities listed below are being registered in this post-effective amended Registration Statement, which include all of the securities outstanding as of date hereof.

MATERIAL RELATIONSHIPS

- (1) CFO and Director since inception in 2005
- (2) Director and officer since inception in 2005.
- (3) COO, CTO and Director since 2006

None of the selling Shareholders are registered broker-dealers except Garden State Securities which may sell 60,000 Shares underlying Warrants and none of the selling Shareholders are affiliates of Registered Broker Dealers.

18

PLAN OF DISTRIBUTION

Upon effectiveness of this post-effective Amendment No. 3 to this Registration Statement, our selling Shareholders, are free to sell their Securities in private transactions \$0.55 per Share or market sales if a market ever develops hereafter at prices they negotiate or in private transactions. There will be no underwriters used, no dealers' commissions paid, and no passive market making. Our officers and directors, John N. Harris, Neil A. Cox and William H. Reilly, will sell securities on our behalf in this offering. John N. Harris, Neil A. Cox and William H. Reilly are not subject to a statutory disqualification as such term is defined in Section (a)(39) of the Securities Exchange Act of 1934. They will rely on Rule 3a4-1 to sell our securities without registering as broker-dealers. They are serving as our officers and directors otherwise than in connection with transactions in securities and will continue to do so at the

Edgar Filing: TOMBSTONE TECHNOLOGIES, INC. - Form POS AM

conclusion of this offering. They have not been a broker or dealer, or an associated person of a broker or dealer, within the preceding 12 months, and have not nor will not participate in the sale of securities for any issuer more than once every twelve months. Our officers and directors will not receive commissions or other remuneration in connection with their participation in this offering based either directly or indirectly on transactions in securities. We will only use this prospectus in connection with this offering and no other sales materials.

There is a limited market for the securities at this time and our pricing is arbitrary with no relation to market value, liquidation value, earnings or dividends. We are registering our securities at the following prices:

TITLE	PER SHARE/ EXERCISE PRICE
Common Stock	\$0.55
Employee/Consultant Options	\$0.55
Stock underlying Placement Agent Warrants	\$0.60

The prices were arbitrarily set based upon a slight premium to the previous private placement price of \$0.50 per Unit and the components of the Unit, at that time.

There can be no assurance that we will achieve any Warrant exercise from our Shareholders. We have no arrangement or guarantee that we will achieve any Warrant or Option exercise proceeds from anyone. All subscription checks for Warrant or Option exercises will be made payable to us. We will receive NO proceeds from sales of securities by our Selling Shareholders. Proceeds to Company will be limited to exercises price of Options and Warrants.

Our Selling Shareholders may be deemed underwriters in this offering.

Any funds received from the Warrant exercise will immediately be made available for our use and retained by us regardless of whether or not we sell any additional Shares under this offering. Any funds not immediately used for corporate purposes will be deposited into an interest bearing account in our name, and interest accrued on such funds will be retained by us.

LEGAL PROCEEDINGS

We are not a party to any pending legal proceedings, nor are we aware of any civil proceeding or government authority contemplating any legal proceeding.

DIRECTORS, EXECUTIVE OFFICERS, PROMOTERS AND CONTROL PERSONS

Our officers are spending up to 50 hours per week on our business.

CHAIRMAN OF THE BOARD AND CHIEF FINANCIAL OFFICER

Neil A. Cox, 60

Mr. Cox has more than 30 years experience in the securities and financial industry. He brings enthusiasm, energy, and a solid base of understanding in acquisitions, strategic planning, and public and private financing. Mr. Cox is a former officer and director of a regional broker-dealer and has been involved with structuring, financing, and investment banking activities for dozens of companies. In 1999, as chief financial officer of IDMedical.com, Mr. Cox coordinated the efforts for the company to become a publicly traded software company that tried to pioneer computerized medical records on the Internet. Mr. Cox received a Bachelor of Business Administration (BBA) from West Texas A&M University (formerly known as West Texas State University) in 1971. He served in the United States Army as an Infantry Lieutenant, and is also a licensed

Edgar Filing: TOMBSTONE TECHNOLOGIES, INC. - Form POS AM

insurance broker. Mr. Cox had been self-employed with Rocky Mountain Securities and Investments, Inc. until 2002, a registered broker-dealer; and from 2002-2004, Mr. Cox was self-employed with Moloney Securities Co., Inc., a registered broker-dealer. Since 2004, Mr. Cox has been an independent insurance broker (Life, Health, & Accident) who has represented many Life and Health Insurance Companies and is also an independent business consultant.

19

CHIEF EXECUTIVE OFFICER, PRESIDENT AND DIRECTOR

John N. Harris, 63

Mr. Harris began his career in the securities industry in 1971 with Newhard Cook & Co., a St. Louis based NYSE member firm. Licensed both as a broker and principal, he ultimately managed brokerage offices for several regional NASD brokerage firms. Since 1985, he has been self-employed as a business consultant and as a private investor. For the last 5 years Mr. Harris has been an independent financial consultant. Mr. Harris brings us experience in the public securities market.

CHIEF OPERATIONS OFFICER/CHIEF TECHNOLOGY OFFICER AND DIRECTOR

William H. Reilly, 56

Mr. Reilly has spent the past 25 years working with technology in support of communications and business operations. He co-founded the Frontline Group Technology Center, where he guided day-to-day operations as chief operating officer. He also served as the parent company's chief technology officer, overseeing the installation of one of the nation's first VoIP systems, serving 14 offices in 11 states. After three years he started his own consulting business, offering services to young companies that wanted to establish the necessary systems to support measured and profitable growth, including strategic marketing, consultative sales, and customer service support. He earned his undergraduate degree at Wilkes College in Pennsylvania and completed his postgraduate work at Montclair State University. Mr. Reilly has headed his own consulting company, MountainTop Back Office, since 2002 and provides technology integration and marketing services to established companies.

FORMER CHIEF EXECUTIVE OFFICER

MICHAEL WILLIS,

Mr. Willis was appointed the Chief Executive Officer of the Company on April 6, 2009 and resigned the position on September 1, 2009. Mr. Willis has served in leadership positions in Internet technology companies for the past fifteen years. He was one of the founders of Digital Directions International, Inc. worked with them from March 2000 through June 2008 and served as president and COO of Paragon Solutions, a Chicago-based technology services company specializing in Web-based software solutions. Mr. Willis has served on the Information Systems faculties at the University of Southern California, the University of Denver and the University of Colorado. Mr. Willis received his Bachelor Science from Bradley University and his Masters from Johns Hopkins University. He has completed graduate programs in Applied Mathematics at George Washington University and in Statistical Research, The American University.

CONFLICTS OF INTEREST - GENERAL.

Our directors and officers are, or may become, in their individual capacities, officers, directors, controlling shareholder and/or partners of other entities engaged in a variety of businesses. Thus, there exist potential conflicts of interest including, among other things, time, efforts and corporation opportunity, involved in participation with such other business entities. While

Edgar Filing: TOMBSTONE TECHNOLOGIES, INC. - Form POS AM

each officer and director of our business is engaged in business activities outside of our business, the amount of time they devote to our business will be up to approximately 50 hours per week.

CONFLICTS OF INTEREST - CORPORATE OPPORTUNITIES

Presently no requirement contained in our Articles of Incorporation, Bylaws, or minutes which requires officers and directors of our business to disclose to us business opportunities which come to their attention. Our officers and directors do, however, have a fiduciary duty of loyalty to us to disclose to us any business opportunities which come to their attention, in their capacity as an officer and/or director or otherwise. Excluded from this duty would be opportunities which the person learns about through his involvement as an officer and director of another company. We have no intention of merging with or acquiring an affiliate, associate person or business opportunity from any affiliate or any client of any such person.

PROJECTED STAFF

STAFFING

Our development team recognizes that additional staff is required to properly support marketing, sales, research, and support functions.

Currently, our only employees are our Chief Executive Officer and Chief Financial Officer and are non-salaried. This lean staffing is possible in this phase because of our determination to outsource noncore functions. Our staff positions will be filled as business demands require, and the positions may be altered in response to business needs.

20

SECURITY OWNERSHIP OF CERTAIN BENEFICIAL OWNERS AND MANAGEMENT AS OF SEPTEMBER 1, 2009

(a) Beneficial owners of five percent (5%) or greater, of our Common Stock. (No Preferred Stock is outstanding at the date of this Offering.)

There are currently 100,000,000 common Shares authorized of which 3,878,000 were outstanding, at September 1, 2009.

The following sets forth information with respect to ownership by holders of more than five percent (5%) of our Common Stock currently known by us and if all Options exercisable within 60 days pursuant to Rule 13d-3(d)(1) are exercised:

TITLE OF CLASS	NAME AND ADDRESS OF BENEFICIAL OWNER	AMOUNT AND NATURE OF BENEFICIAL OWNER	PER
Common shares	John Harris CEO, President & Director PO Box 1547 Lyons, CO 80540	680,000	
Common shares	Neil Cox CFO & Director 5380 Highlands Drive Longmont, CO 80503	680,000	

Edgar Filing: TOMBSTONE TECHNOLOGIES, INC. - Form POS AM

- (1) Based upon 3,878,000 shares of common stock issued and outstanding on September 1, 2009, options exercisable for 1,689,999 shares of common stock and \$100,000 in convertible promissory notes convertible into 1,000,000 shares of our common stock, there would be 6,567,999 shares of our common stock issued and outstanding, on a fully diluted basis.

(b) The following sets forth information with respect to our Common Stock beneficially owned by each Officer and Director, and by all Directors and Officers as a group as of September 1, 2009 and assuming exercise of all Options and Warrants.

TITLE OF CLASS	NAME AND ADDRESS OF BENEFICIAL OWNER	AMOUNT AND NATURE OF BENEFICIAL OWNER	PER
Common shares	John Harris CEO, President & Director PO Box 1547 Lyons, CO 80540	680,000	
Common shares	Neil Cox CFO & Director 5380 Highlands Drive Longmont, CO 80503	680,000	
Common shares	William H. Reilly(2) COO/CTO & Director 4859 Dakota Blvd Boulder, CO 80304	275,000	
All Directors and Executive Officers as a Group (3 persons)		1,635,000	

- (1) Based upon 3,878,000 shares of common stock issued and outstanding on September 1, 2009, options exercisable for 1,689,999 shares of common stock and \$100,000 convertible promissory notes convertible into 1,000,000 shares of our common stock, there would be 6,567,999 shares of our common stock issued and outstanding, on a fully diluted basis.
- (2) Consists of 25,000 shares of common stock and an option exercisable for 250,000 shares of common stock.

DESCRIPTION OF SECURITIES

The Securities being registered and/or offered by this Prospectus are Shares, Warrants and Options.

COMMON STOCK

We are presently authorized to issue one hundred million (100,000,000) Shares of our Common Stock. A total of three million, eight hundred seventy-eight thousand (3,878,000) common Shares are issued and outstanding at September 1, 2009.

COMMON SHARES

All Shares are equal to each other with respect to voting, liquidation, and

Edgar Filing: TOMBSTONE TECHNOLOGIES, INC. - Form POS AM

dividend rights. Special Shareholders' meetings may be called by the officers or director, or upon the request of holders of at least one-tenth (1/10th) of the outstanding Shares. Holders of Shares are entitled to one vote at any Shareholders' meeting for each Share they own as of the record date fixed by the board of directors. There is no quorum requirement for Shareholders' meetings. Therefore, a vote of the majority of the Shares represented at a meeting will govern even if this is substantially less than a majority of the Shares outstanding. Holders of Shares are entitled to receive such dividends as may be declared by the board of directors out of funds legally available therefore, and upon liquidation are entitled to participate pro rata in a distribution of assets available for such a distribution to Shareholders. There are no conversion, pre-emptive or other subscription rights or privileges with respect to any Shares. Reference is made to our Articles of Incorporation and our By-Laws as well as to the applicable statutes of the State of Colorado for a more complete description of the rights and liabilities of holders of Shares. It should be noted that the board of directors without notice to the Shareholders may amend the By-Laws. Our Shares do not have cumulative voting rights, which means that the holders of more than fifty percent (50%) of the Shares voting for election of directors may elect all the directors if they choose to do so. In such event, the holders of the remaining Shares aggregating less than fifty percent (50%) of the Shares voting for election of directors may not be able to elect any director.

WARRANTS

CONSULTANT, PLACEMENT AGENT, AND EMPLOYEE WARRANTS

The Warrants offered by this Prospectus are issued pursuant to a Warrant Agreement between us and Corporate Stock Transfer, Inc. (the "Warrant Agent"). We have authorized and reserved for issuance the underlying Shares of Common Stock issuable upon exercise of the Warrants.

We have 600,000 outstanding common stock purchase Warrants exercisable at \$0.55 per Share expiring August 31, 2012, 60,000 Warrants exercisable at \$0.60 per Share expiring August 31, 2012, and 150,000 Employee Options exercisable at \$0.55/per Share.

PREFERRED STOCK

PREFERRED SHARES

In July 2008, we amended our Articles of Incorporation to authorize the issuance of up to 1,000,000 shares of preferred stock. The shares can be issued with such designations and terms as to be determined by our Board of Directors. No shares have been issued at this time.

TRANSFER AND WARRANT AGENT

The transfer agent and the Warrant agent for our securities is Corporate Stock Transfer, Inc., 3200 Cherry Creek Drive South, Suite 430, Denver, Colorado 80209.

INTEREST OF NAMED EXPERTS AND COUNSEL

We have not hired or retained any experts or counsel on a contingent basis, who would receive a direct or indirect interest in us, or who is, or was, our promoter, underwriter, voting trustee, director, officer or employee.

DISCLOSURE OF COMMISSION POSITION OF INDEMNIFICATION FOR SECURITIES LIABILITIES

Edgar Filing: TOMBSTONE TECHNOLOGIES, INC. - Form POS AM

The Colorado Business Corporation Act requires us to indemnify officers and directors for any expenses incurred by any officer or director in connection with any actions or proceedings, whether civil, criminal, administrative, or investigative, brought against such officer or director because of his or her status as an officer or director, to the extent that the director or officer has been successful on the merits or otherwise in defense of the action or proceeding. The Colorado Business Corporation Act permits a corporation to indemnify an officer or director, even in the absence of an agreement to do so, for expenses incurred in connection with any action or proceeding if such officer or director acted in good faith and in a manner in which he or she reasonably believed to be in or not opposed to the best interests of us and such indemnification is authorized by the stockholders, by a quorum of disinterested directors, by independent legal counsel in a written opinion authorized by a majority vote of a quorum of directors consisting of disinterested directors, or by independent legal counsel in a written opinion if a quorum of disinterested directors cannot be obtained.

The Colorado Business Corporation Act prohibits indemnification of a director or officer if a final adjudication establishes that the officer's or director's acts or omissions involved intentional misconduct, fraud, or a knowing violation of the law and were material to the cause of action. Despite the foregoing limitations on indemnification, the Colorado Business Corporation Act may permit an officer or director to apply to the court for approval of indemnification even if the officer or director is adjudged to have committed intentional misconduct, fraud, or a knowing violation of the law.

The Colorado Business Corporation Act also provides that indemnification of directors is not permitted for the unlawful payment of distributions, except for those directors registering their dissent to the payment of the distribution.

According to our bylaws, we are authorized to indemnify our directors to the fullest extent authorized under Colorado Law subject to certain specified limitations.

Insofar as indemnification for liabilities arising under the Securities Act of 1933 (the "Act") may be permitted to directors, officers and persons controlling us pursuant to the foregoing provisions or otherwise, we are advised that, in the opinion of the Securities and Exchange Commission, such indemnification is against public policy as expressed in the Act and is, therefore, unenforceable.

ORGANIZATION WITHIN LAST FIVE YEARS

We were incorporated on April 29, 2005 and have had only limited operations to date relating to structure and capital formation. Also see "CERTAIN RELATIONSHIPS AND RELATED TRANSACTIONS" at page 31.

DESCRIPTION OF BUSINESS

CONCEPT AND FORMATION

In early 2005, our founders Neil A. Cox and John Harris explored a business opportunity: customized playing cards. They believed that by working with state-of-the-art printers that fully utilize digital technologies, that they could reduce cycle times for full-color customized printing from a standard three to five weeks to just three to five days. In addition, they believed that digital presses could allow product runs in small quantities and at lower prices.

In view of the continued growth surrounding poker, we were formed by Mr. Cox and Mr. Harris as Stack the Deck, Inc. a Colorado corporation in 2005, and we changed the name to Tombstone Cards, Inc. With the initial team in place and

Edgar Filing: TOMBSTONE TECHNOLOGIES, INC. - Form POS AM

capital secured, we are now preparing to finalize production processes, develop Internet presence, secure necessary design elements, and arrange for the launch for business.

On July 31, 2008, Tombstone Cards, Inc. amended its Articles of Incorporation for the change of its corporate name to Tombstone Technologies, Inc. ("We," "Us," "Our") as approved at our Annual Shareholders' Meeting on July 24, 2008.

We are located at 5380 Highlands Dr., Longmont, Colorado 80503. We maintain a website at www.tombstonetechnologies.com, which is not incorporated in and is not a part of this report.

CHANGE OF OPERATIONAL FOCUS

We have had limited operations over the last two years. Those operations have focused on the structure and capital formation of our Company, as our operations have focused on the manufacturing and marketing of customized playing cards.

23

During the year ended December 31, 2007, we, as part of our manufacturing and printing of customized playing cards, created a technology division in order to handle the development, marketing and licensing of its proprietary OIEPrint(TM) software, a Web-2-Print (W2P) template driven application. Web-2-Print is the overall process of integrating technology, from ordering and pre-press to post-press and delivery, in order to reduce time and costs.

While developing customization playing cards operations, we discovered that the software tools needed to support its operations did not exist at that time.

We discovered difficulties which are inherent in constructing a tool that requires no downloading, can function on Macs, PCs and even Linux based machines and that can provide high-resolution graphics that are suitable for printing. For example, while graphics on the Web can appear clear, they are only 72 dpi (dots per inch) and, therefore, would appear fuzzy when printed. Print graphics must be 300 dpi for full clarity.

The combination of the Web and the still-unrealized changes that are being brought by the explosion of professional digital printing is part of what the print industry calls "Web-2-Print" (W2P). Because digital printing does not require specialized inks, color separations and individual printing plates, standard PDF files can move from the desktop to the print head without intervention. This means that the digital print industry is no longer restricted by the size of the job. For example, while it may not be profitable (or even possible) to create small runs on a traditional press, digital printing not only permits it, it encourages it.

In addition, end-users are now accustomed to being able to handle many of their business and personal tasks online: from browsing and ordering to getting customizable quotes, managing their accounts and making payments. However, because of the complexity of creating print orders online due to the number of unique options involved, along with the expense involved in creating and/or maintaining a Web-based system, the print industry has been, for the most part, unable to fully enter this world.

During the second and third quarters of 2008, our management made the decision to focus a majority of our efforts and resources on the development and marketing of the OIEPrint(TM) software. While we will continue to offer customized playing cards, we have determined that this will be a smaller part of our operations.

Edgar Filing: TOMBSTONE TECHNOLOGIES, INC. - Form POS AM

In connection with the development of the OIEPrint(TM) software, on December 27, 2007, we filed a provisional patent application with the United States Patent and Trademark Office (USPTO) titled Internet Application for the Design of High Resolution Digital Graphics.

OIEPRINT(TM) 3.0 SOFTWARE

OIEPrint software is a W2P template driven application that allows the users to personalize and customize designs. The software will be available to be licensed through either purchase or as a hosted solution. A full purchase allows the customer to license the software, while the hosted solution allows the user to use the software through our website at www.tombstonetechnologies.com.

We offer our OIEPrint software product through the Internet. The software has been developed to be used with several platforms. We intend for the product to help meet the needs of printers, specialty product producers and others to satisfy the growing customer demand for personalization of products.

We will offer the following products:

- o OIEPrint - A platform independent, browser-based RIA that supports template driven design and provides high-resolution PDF files to the printer.
- o OIEPrint Store - An advanced e-commerce solution that supports multiple customization options (e.g. paper color, paper weight, paper finish, collating, binding, shipping, etc.) and dependent variables (e.g. If you choose "A," you cannot choose "B" but can choose "C")
- o OIEPrint VDP (2010) - An easy-to-use tool for linking database mining with custom printing and 1:1 marketing.

We are offering a fully hosted solution for a monthly fee. We believe, and research underscores this belief, that printers do not have the in-house staffing to support the complexity inherent in a Web-based system. Added to that the database requirements (all products have database back-ends for data storage) and the ongoing maintenance, and it becomes clear that a hosted solution, properly priced, becomes quite attractive. Customization and implementation fees are also anticipated.

Our technology has been successfully employed since July 2007 on the prior Tombstone Cards' website, allowing customers to design and order full color custom playing cards.

24

During this "proof of concept" period, we worked with the actual printing processes involved in digital printing, as well as verifying order and inventory systems, the OIEPrint Web design tool, the ecommerce system, independent credit verification systems and direct links to shipping providers.

COMPETITION

Our competition includes:

- o Electronics For Imaging, Inc. (EFI)
- o Firesprint
- o Print Science; and
- o Print Via.

All four of these companies offer services for printing similar to the ones

Edgar Filing: TOMBSTONE TECHNOLOGIES, INC. - Form POS AM

offered by us. We are the only one to offer an integrated design system and therefore allow the customer to design the document through our software.

SALES STRATEGY

Our products will be available through us, via an outbound sales staff that utilizes Web-based demos and Web-video in order to engage customers.

We are considering setting up independent, commission only sales affiliates, based on a regional distribution. Because the OIEPrint Suite has been developed to handle languages from around the world, overseas partnerships are also a possibility.

We have identified three key market segments for our initial product line:

- o Regional chains of print shops that want to offer cutting-edge, Web-based solutions to their franchises.
- o Small and medium sized digital printers who want to offer Web-based solutions to their clients.
- o Medium and large printers who want to offer customized features to their corporate clients, allowing them to more easily manage their accounts and purchasing via a Web interface.

PRODUCTION AND DELIVERY

Production will be provided through in-house capabilities. We own our own servers and can easily "clone" the software package for new clients.

We anticipate hiring and training recent college graduates for the job of working with clients during the consultation stage, gathering information about the clients and our product offerings in order to populate the client's e-commerce store.

At this time, we expect that we will hold no inventory.

PLAN OF OPERATION

At June 30, 2009, we had cash on hand of \$8,589. We intend to use our cash funds to continue operations. We intend to continue to develop the business opportunities presented by our OIEPrint(TM) software and our business in the printing of custom playing cards. The development of the business opportunities includes continued marketing efforts and product testing over the next twelve months.

In July of 2007, our web site went live with our proprietary design tool and the e-commerce functionality needed to support sales over the Internet. We instituted a "soft rollout" in order to test the functionality and performance of the system. Based on results and feedback, we have made modifications the site and our processes. We also have taken the results from our sales analysis, combined with our PR and media research and determine placement of our first spot buys in poker magazines.

In December of 2007, we created our Tombstone Technologies Division (the Technology Division). The Technology Division was created in order to handle the development, marketing and licensing of our proprietary OIEPrint(TM) software, a web to print template driven application. On December 27, 2007, we filed a provisional patent application with the United States Patent and Trademark Office (USPTO) titled Internet Application for the Design of High Resolution Digital Graphics.

During the year ended December 31, 2008, we focused our attention on the continued development of our OIEPrint software and conducted the beta testing of such software. With the completion of the testing of the software, we began to offer our software for sale starting in October 2008. We offer two products:

- o OIEPrint - is a platform, independent browser-based R (RIA) that supports template driven design and provides high-resolution PDF files to the printer; and
- o OIEPrint Store - An advanced e-commerce solution that supports multiple customization options (e.g. paper color, paper weight, paper finish, collating, binding, shipping, etc.) and dependent variables (e.g. If you choose "A," you cannot choose "B" but can choose "C").

Over the next twelve months we intend to develop a third software product, OIEPrint VDP, a tool for linking database mining with custom printing and 1:1 marketing and release it for sales.

While each product will be available as a stand-alone license, we are offering a fully hosted solution for a monthly fee. Customization and implementation fees are also anticipated. We will offer the products through our Company, via an outbound sales staff that utilizes Web-based demos and Web-video in order to engage customers.

During the third quarter of the year ended December 31, 2008, our Board of Directors resolved to abandon the manufacture and marketing of customized playing cards and to concentrate on the development, marketing and licensing of software for the local printers industry. As a result, we have impaired the value of the of our playing card property to zero and have accounted for such properties and operations as discontinued operations.

In the continuance of our business operations we do not intend to purchase or sell any significant assets and we do not expect a significant change in the number of our employees.

We are dependent on raising additional equity and/or, debt to fund any negotiated settlements with our outstanding creditors and meet our ongoing operating expenses. There is no assurance that we will be able to raise the necessary equity and/or debt that we will need to be able to negotiate acceptable settlements with our outstanding creditors or fund our ongoing operating expenses. We cannot make any assurances that we will be able to raise funds through such activities.

In addition, the United States and the global business community is experiencing severe instability in the commercial and investment banking systems which is likely to continue to have far-reaching effects on the economic activity in the country for an indeterminable period. The long-term impact on the United States economy and our operating activities and ability to raise capital cannot be predicted at this time, but may be substantial.

The following table presents the projected Budget for the next twelve months. We anticipate using any funds raised by the exercise of Warrants for which Shares are registered in this registration statement to pay listed categories as shown in Tables V and VI, without any priority to category. Management will have complete discretionary control over the actual utilization of said funds and there can be no assurance as to the manner or time in which said funds will be utilized.

Computer systems, including software and servers required for back-office

Edgar Filing: TOMBSTONE TECHNOLOGIES, INC. - Form POS AM

operations are already purchased and in place and are being hosted in a secure data center in Lafayette, Colorado. While our Internet servers will remain there, the third server will be placed in our office and support the network and computer infrastructure including VPN (Virtual Private Network) links to the data center and our ecommerce software. Our monthly costs for hosting and IT support is currently running less than \$1000 per month.

We will continue to make adjustments to the advertising buys and ad placements based on continuing analysis.

The following table presents the projected Budget for the period of September 2009 through August 2010, of which we have approximately \$34,000 on hand at September 1, 2009, and budget for expanded operations funded through our offering of Shares underlying Warrants. Management will have complete discretionary control over the actual utilization of said funds and there can be no assurance as to the manner or time in which said funds will be utilized.

26

LIMITED OPERATIONS BUDGET (ASSUMING NO OTHER CAPITAL IS RAISED)

	From Cash On Hand	
Salaries		\$170,000
Equipment		\$ 8,500
Marketing		\$ 25,000
General and Administrative		\$ 25,000
Working Capital		\$195,000
Website Development		\$ 25,000

TOTAL		\$448,500
		=====

We reserve the right to reallocate the funds according to changing events. We believe the cash on hand is insufficient to fund our initial limited capital requirements on a limited budget for a period of twelve months. There can be no assurance we will not require additional funds. The availability and terms of any future financing will depend on market and other conditions. The amount of proceeds and uses are based upon the projections by our Management, which may also change according to unforeseen future events and market changes.

The Company currently has no plans to raise additional capital other than through Warrant or Option exercises. Based upon the launching of our web site and marketing efforts in July 2007, it is anticipated that revenues resulting in positive cash flow will generate sufficient funds for current operations and projected growth. If additional capital is required, the Company could create a debt instrument, a private placement offering targeting accredited investors.

RESULTS OF OPERATIONS

FOR THE THREE MONTHS ENDED JUNE 30, 2009 COMPARED TO THE THREE MONTHS ENDED JUNE 30, 2008

During the three months ended June 30, 2009, we did not recognize any sales from its operational activities.
