PROXY STATEMENT

2017 ANNUAL MEETING OF STOCKHOLDERS

To be held on November 27, 2017

GENERAL INFORMATION

This Proxy Statement is furnished in connection with the solicitation of proxies on behalf of the Board of Directors of Integrated BioPharma, Inc. (the “Company”), a Delaware corporation, to be voted at the 2017 Annual Meeting of Stockholders of the Company (the “Annual Meeting”) to be held at the Company’s Executive Offices, 225 Long Avenue, Hillside, New Jersey 07205 on November 27, 2017, at 9:00 a.m. local time, or at any postponement or adjournment thereof. This Proxy Statement, the Notice of Annual Meeting and the accompanying form of proxy are first being mailed to stockholders on or about October 27, 2017.

Only holders of record of the Company’s common stock, par value \$.002 per share (“Common Stock”), at the close of business on October 18, 2017 (the “Record Date”), are entitled to vote on the matters to be presented at the Annual Meeting. The number of shares of Common Stock outstanding on the Record Date and entitled to vote was 21,135,174.

Holders of Common Stock are entitled to one vote on each matter to be voted upon by the stockholders at the Annual Meeting for each share held.

At the Annual Meeting, stockholders will be asked to (i) consider and provide a vote to elect three Class II directors for a three year term to serve until the 2020 Annual Meeting of Stockholders and (ii) consider and vote upon the proposal to ratify the appointment of Friedman LLP as the Company's independent auditors for the fiscal year ending June 30, 2018 (the "Independent Auditors Proposal"). At the Annual Meeting, stockholders may also be asked to consider and take action with respect to such other matters as may properly come before the Annual Meeting.

QUORUM AND VOTE REQUIREMENTS

The presence, in person or by proxy, of holders of record of a majority of the shares of Common Stock issued and outstanding and entitled to vote is required for a quorum to transact business at the Annual Meeting, but if a quorum should not be present, the Annual Meeting may be adjourned from time to time until a quorum is obtained. Directors of the Company are elected by the affirmative vote of holders of a plurality of the shares of Common Stock present, in person or by proxy, and entitled to vote at the Annual Meeting. The Independent Auditors Proposal and all other matters to properly come before the Annual Meeting will be determined by the affirmative vote of the holders of a majority of the shares of Common Stock present, in person or by proxy, and entitled to vote at the Annual Meeting. Brokers or other nominees who hold shares of Common Stock in "street name" for a beneficial owner of those shares typically have the authority to vote in their discretion on "routine" proposals when they receive instructions from beneficial owners. However, brokers are not allowed to exercise their voting discretions with respect to approval of matters which are "non-routine" without specific instruction from the beneficial owner. The election of directors is a non-routine proposal, and therefore brokers are not entitled to vote for directors without your instructions. The ratification of independent auditors is a routine proposal, and therefore, your broker can vote on the independent auditors' proposal without specific instructions from you.

Broker “non-votes” (i.e. proxies from brokers or nominees indicating that such persons have not received instructions from the beneficial owner or other persons entitled to vote shares as to a matter with respect to which the brokers or nominees do not have discretionary power to vote) and shares for which duly executed proxies have been received but with respect to which holders of shares have abstained from voting will be treated as present for purposes of determining the presence of a quorum at the Annual Meeting. Abstentions and broker non-votes have no impact on the election of directors except to reduce the number of votes for the nominees. With respect to all other proposals, abstentions and broker non-votes will have the effect of a negative vote against such other proposals.

SOLICITATION AND REVOCATION

PROXIES IN THE FORM ENCLOSED ARE BEING SOLICITED BY, AND ON BEHALF OF, THE BOARD OF DIRECTORS. THE PERSONS NAMED IN THE ACCOMPANYING FORM OF PROXY HAVE BEEN DESIGNATED AS PROXIES BY THE BOARD OF DIRECTORS.

All Common Stock represented by properly executed proxies which are returned and not revoked prior to the time of the Annual Meeting will be voted in accordance with the instructions, if any, given thereon. If no instructions are provided in an executed proxy, it will be voted **(i) with respect to Proposal 1, FOR each of the Class II director nominees and (ii) with respect to Proposal 2, FOR the Independent Auditors Proposal, and in accordance with the proxy holder’s discretion as to any other business raised at the Annual Meeting. Any stockholder who executes a proxy may revoke it at any time before it is voted by delivering to the Company a written statement revoking such proxy, by executing and delivering a later dated proxy, or by voting in person at the Annual Meeting. Attendance at the Annual Meeting by a stockholder who has executed and delivered a proxy to the Company shall not in and of itself constitute a revocation of such proxy.**

The Company will bear its own cost for the solicitation of proxies. Proxies will be solicited initially by mail. Further solicitation may be made by directors, officers, and employees of the Company personally, by telephone, or otherwise, but any such person will not be specifically compensated for such services. The Company also intends to make, through banks, brokers or other persons, a solicitation of proxies of beneficial holders of the Common Stock. Upon request, the Company will reimburse brokers, dealers, banks and similar entities acting as nominees for reasonable expenses incurred in forwarding copies of the proxy materials relating to the Annual Meeting to the beneficial owners of Common Stock which such persons hold of record.

DIRECTORS

PROPOSAL NO. 1 ELECTION OF DIRECTORS

The Company's Board of Directors is currently composed of six (6) directors, divided into three classes of directors serving staggered 3-year terms. The Class I directors, whose terms of office expire in 2018, are Mr. E. Gerald Kay, Ms. Riva Sheppard and Mr. Carl DeSantis. The Class II directors, whose terms of office expire in 2017, are Mr. William Milmo, Ms. Christina Kay and Mr. Robert Canarick. There are currently no Class III directors, as the Company has been unable to attract qualified candidates to fill the vacancy created when the term of the former Class III Director expired.

The stockholders will consider and vote upon the election of Mr. Milmo, Ms. Kay and Mr. Canarick to serve as Class II directors until the 2018 annual meeting of stockholders (subject to their respective earlier removal, death or resignation) and until their successors are elected and qualified.

Unless a stockholder withholds authority, a properly signed and dated proxy will be voted FOR the election of the nominees, unless the proxy contains contrary instructions. The Board of Directors knows of no reason why any of its nominees will be unable or will refuse to accept election.

If any nominee becomes unable or refuses to accept election, the Board of Directors will either reduce the number of directors to be elected or select a substitute nominee. If a substitute nominee is selected, proxies will be voted in favor of such nominee.

CORPORATE GOVERNANCE

The Board of Directors held one meeting, and the audit committee held four meetings during the fiscal year ended June 30, 2017 which were attended by all Board Members serving on such committee.

For the fiscal year ended June 30, 2017, each non-officer Director who was a director as of the date of the Board of Directors Meeting held on September 22, 2016 was granted options to purchase the Company's common stock under the Company's 2001 Stock Option Plan, with an exercise price of \$0.23 (\$0.25 in the case of Board of Directors with more than 10% ownership), which represents the fair market value of the shares of common stock as of the grant date, for his or her services to the Board of Directors. An aggregate of 200,000 shares were granted; 42% of the underlying shares (84,000) vested on the grant date of November 18, 2016 with the remaining 58% of the options were vesting in seven (7) equal monthly installments on the 1st of each month representing the non-officer Director's compensation for the fiscal year ended June 30, 2017. The only standing committee of the Board of Directors is the Audit Committee, whose current members are Mr. Canarick, who is an independent director, and Mr. Milmoe, who is not an independent director. Mr. Milmoe was appointed to the Audit Committee in September 2009 until such time as the Board replaces him with a qualified independent director. Although Mr. Milmoe meets the requirements set forth for an "audit committee financial expert", the board's intention is to designate an audit committee financial expert after another independent audit committee member is appointed. The Company is not actively seeking an independent director at this time. The Company has no immediate plans to search for a new independent board member in the ensuing fiscal

year. The Audit Committee periodically consults with the Company's management and independent public accountants on financial matters, including the Company's internal financial controls and procedures. The Audit Committee operates under a written Charter, a copy which is available on the Company's website at <http://healthproductscorp.us/charter.htm>. The Audit Committee met four times in the fiscal year ended June 30, 2017, all of which were attended by Mr. Canarick and Mr. Milmo.

At the Board Meeting held in September 2016, the Board of Directors formed a compensation committee composed of Mr. Kay, Mr. Milmo and Mr. Canarick. The compensation committee has not met since its formation nor has it adopted a charter. The Board set the initial function of the Compensation Committee as developing an Incentive Compensation Plan for the Company's executive officers and staff, reviewing executive management compensation and reporting back to the Board of Directors their recommendations.

The Company does not have a standing nominating committee. With respect to nominating matters, the entire Board performs this function. At such time, if any, as the Board composition changes or the Board otherwise deems appropriate, the Company may establish a separate nominating committee. As a result, the entire Board participates in the consideration of Board nominees. The Board, at this time, does not have a policy with regard to consideration of diversity in considering director nominees.

The Company's common stock is currently traded on the OTC Bulletin Board, a regulated quotation service that displays real-time quotes, last-sale prices and volume information in over-the-counter securities ("OTCBB"). OTCBB regulations do not require the Company to have audit, nomination or compensation committees. In addition, if the Company's common stock were to be relisted on the NASDAQ Global Market, the Company determined that due to the beneficial ownership by E. Gerald Kay and certain of his family members and Carl DeSantis of greater than 50% of the Common Stock of the Company outstanding as of October 18, 2017, the Company would be a "controlled company" as defined by the NASDAQ Global Market. As such, the Company would be exempt from certain requirements of the NASDAQ Global Market standards, including the requirement to maintain a majority of independent directors on the Company's Board of Directors and the requirements regarding the determination of compensation of executive officers and the nomination of directors by independent directors.

The Company has adopted a Code of Ethics which applies to our directors, officers, senior management and certain other of our employees, including our principal executive officer, principal financial officer, principal accounting officer, controller or persons performing similar functions. Our Code of Ethics was filed as an exhibit to our Annual Report on Form 10-KSB for the fiscal year ended June 30, 2004, as filed with the SEC on September 28, 2004, as amended as of November 10, 2004.

Governance Structure

The Company has chosen to combine the principal executive officer and chairman of the board positions. Given the relatively small size of the Company and that a majority of the voting control of the Company is with members of our board, the Company believes that combining the principal executive officer and board chairman positions is the most efficient board leadership structure.

No lead independent director has been designated to chair meetings of the independent directors, since we currently only have one independent director.

Board of Directors Role in Risk Oversight

The Company's audit committee is primarily responsible for overseeing the Company's risk management processes on behalf of the full board. The audit committee has periodic meetings with management, during which the audit committee receives reports from management regarding the Company's assessment of risks and discusses with management the Company's policies with respect to risk assessment, the Company's major financial risk exposures and the steps to be taken to monitor and mitigate these exposures. While the audit committee is responsible for risk oversight and for ensuring that material risk are identified and managed properly, the Company's management is responsible for the day-to-day risk management processes. We believe this division of responsibilities is the most effective approach for addressing the risks facing our Company.

EXECUTIVE OFFICERS

The following individual is an executive officer of the Company but is not a director or nominee for director:

Dina L. Masi, age 56, is Senior Vice President, Chief Financial Officer and Secretary of the Company. Ms. Masi joined the Company on November 17, 2005. Previously, Ms. Masi operated a financial services consulting firm, DLM Accounting and Financial Services, LLC, providing accounting

and financial services to small business owners and SEC registrants from May 2005 to November 2005. From June 2002 to December 2004, Ms. Masi served as the Chief Financial Officer and Senior Vice President of Prescott Funding, LLC, a licensed residential mortgage lender specializing in non-conforming consumer lending. Ms. Masi also served as the Chief Financial Officer and Senior Vice President of Fintek, Inc., a privately owned financial consulting services company, from July 2001 to September 2005, and as Management Information Officer from February 1998 to July 2001.

EXECUTIVE COMPENSATION

Compensation Discussion and Analysis

Overview

The goal of our named executive officer compensation program is the same as our goal for operating the Company - to create long-term value for our stockholders. Toward this goal, we have designed and implemented our compensation programs for our named executives to reward them for sustained financial and operating performance and leadership excellence, to align their interests with those of our stockholders and to encourage them to remain with the Company for long and productive careers. Most of our compensation elements simultaneously fulfill one or more of our performance, alignment and retention objectives. These elements consist of salary and annual bonus, equity incentive compensation, retirement and other benefits. In deciding on the type and amount of compensation for each executive, we focus on both current pay and the opportunity for future compensation. We combine the compensation elements for each executive in a manner we believe optimizes the executive's contribution to the Company.

Compensation Objectives

Performance. Our four executives who are identified in the Summary Compensation Table below (whom we refer to as our named executives) have a combined total of 99 years with the Company, during which they have held different positions and been, in some cases, promoted to increasing levels of responsibility. The amount of compensation for each named executive reflects his or her superior management experience, continued high performance and exceptional career of service to the Company over a long period of time. A key element of compensation that depends upon the named executive's performance is equity incentive compensation in the form of stock options and restricted stock units ("RSUs"), subject to vesting schedules that require continued service with the Company.

Base salary is designed to be commensurate with the executive's scope of responsibilities, demonstrated leadership abilities, and management experience and effectiveness. Our other elements of compensation focus on motivating and challenging the executive to achieve superior, longer-term, sustained results. In the fiscal year ended June 30, 2017,

each of the four named executive officers received increases in their base compensation, this was the first increase for any named executive officer since the fiscal year ended June 30, 2008.

Alignment. We seek to align the interests of the named executives with those of our investors by evaluating executive performance on the basis of key financial measurements which we believe closely correlate to long-term stockholder value, including revenue, operating profit, earnings per share, operating margins, return on total equity or total capital, cash flow from operating activities and total stockholder return. Equity incentive compensation awards align the interests of the named executives with stockholders because the total value of those awards corresponds to stock price appreciation.

Retention. Our senior executives have been presented with other professional opportunities, including ones at potentially higher compensation levels. We attempt to retain our executives by using continued service as a determinant of total pay opportunity, with the extended vesting terms of stock option and RSU awards.

Implementing Our Objectives

Determining Compensation. We rely upon our judgment in making compensation decisions, after reviewing the performance of the Company and carefully evaluating an executive's performance during the year against established goals, leadership qualities, operational performance, business responsibilities, career with the Company, current compensation arrangements and long-term potential to enhance stockholder value. Specific factors affecting compensation decisions for the named executives include:

key financial measurements such as revenue, operating profit, earnings per share, operating margins, return on total equity or total capital, cash flow from operating activities and total stockholder return;

strategic objectives such as acquisitions, dispositions or joint ventures, technological innovation and globalization;

promoting commercial excellence by launching new or continuously improving products or services, being a leading market player and attracting and retaining customers;

achieving specific operational goals for the Company, including improved productivity, simplification and risk management;

achieving excellence in their organizational structure and among their employees; and

supporting our values by promoting a culture of unyielding integrity through compliance with law and our ethics policies, as well as commitment to community leadership and diversity.

We generally do not adhere to rigid formulas or necessarily react to short-term changes in business performance in determining the amount and mix of compensation elements. We consider competitive market compensation paid by other companies, but we do not attempt to maintain a certain target percentile within a peer group or otherwise rely on those data to determine executive compensation. We incorporate flexibility into our compensation programs and in the assessment process to respond to and adjust for the evolving business environment.

We strive to achieve an appropriate mix between equity incentive awards and cash payments in order to meet our objectives. Any apportionment goal is not applied rigidly and does not control our compensation decisions; we use it as another tool to assess an executive's total pay opportunities and whether we have provided the appropriate incentives to accomplish our compensation objectives. Our mix of compensation elements is designed to reward recent results and motivate long-term performance through a combination of cash and equity incentive awards. We also seek to balance compensation elements that are based on financial, operational and strategic metrics with others that are based on the performance of our shares. We believe the most important indicator of whether our compensation objectives are being met is our ability to motivate our named executives to deliver superior performance and retain them to continue their careers with us on a cost-effective basis.

No Employment and Severance Agreements. Our named executives do not have employment, severance or change-of-control agreements. Our named executives serve at the will of the Board, which enables the Company to terminate their employment with discretion as to the terms of any severance arrangement. This is consistent with the Company's performance-based employment and compensation philosophy. In addition, our policies on employment, severance and retirement arrangements help retain our executives by subjecting to forfeiture significant elements of compensation that they have accrued over their careers at the Company if they leave the Company prior to retirement.

Role of Board and CEO. The Board of Directors has primary responsibility in developing and evaluating potential candidates for executive positions, including the CEO, and for overseeing the development of executive succession plans. As part of this responsibility, the Board oversees the design, development and implementation of the compensation program for the CEO and the other named executives. The Board evaluates the performance of the CEO and determines CEO compensation in light of the goals and objectives of the compensation program. The CEO and the Board together assess the performance of the other named executives and determine their compensation, based on initial recommendations from the CEO. In September 2016, the Board of Directors created a Compensation Committee to take over this role from the Board and CEO. The Compensation Committee did not play a role in determining the compensation of the named executives for this reporting period as there were no changes to the named executive officers compensation subsequent to the formation of the Compensation Committee.

Our CEO assists the Board (and going forward the Compensation Committee) in reaching compensation decisions with respect to the named executives other than the CEO. The other named executives do not play a role in their own compensation determination, other than discussing individual performance objectives with the CEO.

Role of Compensation Consultants. We have not used the services of any other compensation consultant in matters affecting senior executive or director compensation. In the future, either the Company or the Board may engage or seek the advice of other compensation consultants.

Equity Grant Practices. The exercise price of each stock option awarded to our senior executives under our long-term incentive plan is the closing price of our stock on the date of grant. Scheduling decisions are made without regard to anticipated earnings or other major announcements by the Company.

Tax Deductibility of Compensation. Section 162(m) of the Internal Revenue Code of 1986, as amended, imposes a \$1 million limit on the amount that a public Company may deduct for compensation paid to the Company's CEO or any of the Company's four other most highly compensated executive officers who are employed as of the end of the year. This limitation does not apply to compensation that meets the requirements under Section 162(m) for "qualifying performance-based" compensation (i.e., compensation paid only if the individual's performance meets pre-established objective goals based on performance criteria approved by stockholders). For the year ended June 30, 2017, the deduction for compensation paid to the Company's "covered employees" was not limited by Section 162(m).

Potential Impact on Compensation from Executive Misconduct. If the Board determines that an executive officer has engaged in fraudulent or intentional misconduct, the Board would take action to remedy the misconduct, prevent its recurrence, and impose such discipline on the wrongdoers as would be appropriate. Discipline would vary depending on the facts and circumstances, and may include, without limit, (1) termination of employment, (2) initiating an action for breach of fiduciary duty, and (3) if the misconduct resulted in a significant restatement of the Company's financial

results, seeking reimbursement of any portion of performance-based or incentive compensation paid or awarded to the executive that is greater than would have been paid or awarded if calculated based on the restated financial results. These remedies would be in addition to, and not in lieu of, any actions imposed by law enforcement agencies, regulators or other authorities.

Elements Used to Achieve Compensation Objectives

Annual cash compensation

Base salary. Base salaries for our named executives depend on the scope of their responsibilities, their performance, and the period over which they have performed those responsibilities. Decisions regarding salary increases take into account the executive's current salary and the amounts paid to the executive's peers within and outside the Company. Base salaries are reviewed approximately every 12 months, but are not automatically increased if the Board believes that other elements of compensation are more appropriate in light of our stated objectives. This strategy is consistent with the Company's primary intent of offering compensation that is contingent on the achievement of performance objectives.

Bonus. The Company does not at this time pay bonuses to the named executives, but does not rule out doing so in the future when appropriate.

The salaries paid to the named executives during the year ended June 30, 2017 are discussed below and shown in the Summary Compensation Table below.

Equity awards

The Company's equity incentive compensation program is designed to recognize scope of responsibilities, reward demonstrated performance and leadership, motivate future superior performance, align the interests of the executive with our stockholders' and retain the executives through the term of the awards. We consider the grant size and the appropriate combination of stock options when making award decisions. The amount of equity incentive compensation granted in 2015 was based upon the strategic, operational and financial performance of the Company overall and reflects the executives' expected contributions to the Company's future success. Existing ownership levels are not a factor in award determination, as we do not want to discourage executives from holding significant amounts of our stock.

We have expensed stock option and RSU grants in accordance with United States generally accepted accounting principles. When determining the appropriate amount of stock options and RSUs, our goal is to weigh the cost of these grants with their potential benefits as a compensation tool. Stock options only have value to the extent the price of our stock on the date of exercise exceeds the exercise price on grant date, and thus are an effective compensation element only if the stock price grows over the term of the award. In this sense, stock options are a motivational tool.

There were no grants of stock options or RSUs in the fiscal year ended June 30, 2017 for the named executive officers.

Other Compensation

Other compensation paid to executive officers includes the total matching contribution of the Integrated BioPharma, Inc. 401(k) Profit Sharing Plan of the named executive officer.

Mr. Kay's compensation for the 2017 fiscal year was based on qualitative managerial efforts and business ingenuity and was increased as the result of financial results achieved since the refinancing of the Company's defaulted debt in the fiscal year ended June 30, 2012

Also on January 5, 2012, AgroLabs, Inc., also a wholly owned subsidiary of the Company, entered into a lease agreement with Vitamin Realty for an additional 2,700 square feet of warehouse space in New Jersey. The term of this lease was originally to expire on January 31, 2019, however, this lease was amended on May 19, 2014 to extend the term thereof to January 1, 2024. This additional lease provides for minimum lease payments of approximately \$27,000 with annual increases plus the proportionate share of operating expenses.

The CD Notes bear interest at an annual rate of 6% and have a default rate of 10%.

The CD Convertible Note is convertible at the option of CD Financial into common stock of the Company at a conversion price of \$0.65 per share, subject to customary adjustments including conversion price protection provisions.

AUDIT COMMITTEE REPORT

The Audit Committee of the Board of Directors of the Company (the "Audit Committee") is composed of two (2) directors. One of the two members of the committee is independent. The Board of Directors has adopted an Audit Committee Charter. Management is responsible for the Company's internal control and financial reporting process. The Company's independent public accountants are responsible for performing an independent audit of the Company's consolidated financial statements in accordance with generally accepted auditing standards and to issue a report thereon. The Audit Committee's responsibility is to monitor and oversee these processes.

In this context, the Audit Committee has met and held discussions with Management and the Company's independent public accountants. Management represented to the Audit Committee that the Company's consolidated financial statements were prepared in accordance with generally accepted accounting principles, and the Audit Committee has reviewed and discussed the consolidated financial statements with Management and the Company's independent public accountants. The Audit Committee discussed with the independent public accountants matters required to be discussed by Statement of Auditing Standards Numbers 90 and 61 (communication with Audit Committees). The Company's independent public accountants also provided to the Audit Committee the written disclosures required by Independence Standard No. 1 (independence discussions with Audit Committee), and the Audit Committee discussed with the independent public accountants that firm's independence. The Audit Committee has also considered whether the independent auditors' provision of information technology and other non-audit services to the Company is compatible with the auditor's independence.

Based upon the Audit Committee's discussions with Management and the independent public accountants and the Audit Committee's review of the representation of management and the report of the independent public accountants, the Audit Committee recommended that the Board of Directors include the audited consolidated financial statements in the Company's Annual Report on Form 10-K for the year ended June 30, 2017 filed with the Securities and Exchange Commission.

The foregoing has been approved by all members of the Audit Committee.

If the notice is not received by such date, it will be considered untimely under the Company's By-laws.

The Board of Directors does not have a formal process for stockholders to send communications (including director nominations) to the Board. Due to the infrequency of stockholder communications to the Board, the Board does not believe that a formal process is necessary. Written communications to the Board may be sent to the Board at the Company's chief executive offices at Integrated BioPharma, Inc., 225 Long Avenue, New Jersey 07205, and the Company will promptly circulate such communications to all members of the Board (or to those particular directors to whom such communication is specifically addressed). A stockholder who intends to nominate an individual for election to the Board of Directors (other than a candidate proposed by the Board of Directors) must do so in accordance with the foregoing procedures.

DISCRETIONARY AUTHORITY

A duly executed proxy given in connection with the Company's 2017 Annual Meeting of Stockholders will confer discretionary authority on the proxies named therein, or any of them, to vote at such meeting on any matter of which the Company does not have written notice on or before September 17, 2017, which is forty-five (45) days prior to the date on which the Company is first mailing its proxy materials for its 2017 Annual Meeting of Stockholders, without advice in the Company 2017 Proxy Statement as to the nature of such matter.

OTHER BUSINESS OF THE MEETING

The Company is not aware of any matters to come before the Annual Meeting other than those stated in this Proxy Statement. However, in as much as matters of which management of the Company is not now aware may come before the Annual Meeting or any adjournment, the proxies confer discretionary authority with respect to acting thereon, and the persons named in such proxies intend to vote, act and consent in accordance with their discretion with respect thereto.

HOUSEHOLDING OF PROXY MATERIALS

The SEC has adopted rules that permit companies and intermediaries such as brokers to satisfy delivery requirements for proxy statements with respect to two or more stockholders sharing the same address by delivering a single proxy statement addressed to those stockholders. This process, which is commonly referred to as "householding," potentially provides extra convenience for stockholders and cost savings for companies. The Company and some brokers household proxy materials, delivering a single proxy statement to multiple stockholders sharing an address unless contrary instructions have been received from the affected stockholders. Once you have received notice from your broker or the Company that they or the Company will be householding materials to your address, householding will continue until you are notified otherwise or until you revoke your consent. If, at any time, you no longer wish to participate in householding and would prefer to receive a separate proxy statement, or if you are receiving multiple

copies of the proxy statement and wish to receive only one, please notify your broker if your shares are held in a brokerage account or the Company if you hold common stock directly. Requests should be addressed to: Integrated Biopharma, Inc., 225 Long Avenue, Hillside, New Jersey 07205 or contact our Corporate Secretary at (973) 926-0816.
