Form 10-Q
May 15, 2018

U.S. SECURITIES AND EXCHANGE COMMISSION

Washington, D.C. 20549

FORM 10-Q

(Mark One)

QUARTERLY REPORT UNDER SECTION 13 OR 15(d) OF THE SECURITIES EXCHANGE ACT OF 1934

For the quarterly period ended March 31, 2018

TRANSITION REPORT UNDER SECTION 13 OR 15(d) OF THE EXCHANGE ACT

For the transition period from _____ to _____

Commission File Number: 0-27445

Enviro Technologies, Inc.

(Exact name of Small Business Issuer as specified in its Charter)

IDAHO 82-0266517
(State or other jurisdiction (I.R.S. Employer
of incorporation or organization) Identification No.)

821 NW 57th Place, Fort Lauderdale, Florida 33309
(Address of principal executive offices)

(954) 958-9968
(Issuer's telephone number)

(Former Name, former address and former fiscal year, if changed since last Report.)

Check mark whether the Issuer (1) has filed all reports required to be filed by Section 13 or 15 (d) of the Securities Exchange Act of 1934 during the past 12 months (or for such shorter period that the registrant was required to file such reports), and (2) has been subject to such filing requirements for the past 90 days. Yes No

Indicate by check mark whether the registrant has submitted electronically and posted on its corporate web site, if any, every Interactive Data File required to be submitted and posted pursuant to Rule 405 of Regulation S-T during the preceding 12 months (or such shorter period that the registrant was required to submit and post such files). Yes No

Edgar Filing: ENVIRO TECHNOLOGIES, INC. - Form 10-Q

Indicate by check mark whether the registrant is a large accelerated filer, an accelerated filer, a non-accelerated filer, or a smaller reporting company. See the definitions of “large accelerated filer,” “accelerated filer” and “smaller reporting company” in Rule 12b-2 of the Exchange Act.

Large accelerated filer Accelerated filer

Non-accelerated filer (Do not check if a smaller reporting company) Smaller reporting company

Emerging growth company

If an emerging growth company, indicate by checkmark if the registrant has not elected to use the extended transition period for complying with any new or revised financial accounting standards pursuant to Section 7(a)(2)(B) of the Securities Act:

Indicate by check mark whether the registrant is a shell company (as defined in Rule 12b-2 of the Exchange Act). Yes No

APPLICABLE ONLY TO CORPORATE ISSUERS

State the number of shares outstanding of each of the issuer's classes of common equity, as of the latest practicable date: May 15, 2018, we had 33,784,497 shares of our Common Stock outstanding.

ENVIRO TECHNOLOGIES, INC. AND SUBSIDIARY

NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS

MARCH 31, 2018

(Unaudited)

NOTE A - ORGANIZATION AND OPERATIONS

Organization

Enviro Technologies, Inc., an Idaho corporation (the “Company”), is a manufacturer of environmental and industrial separation technology. The Company developed, and now manufactures the Voraxial® Separator for Schlumberger for a period of 3 years. The Voraxial is a patented technology that was sold to Schlumberger Technology Corporation, a Texas corporation, Schlumberger Canada Limited, a Canadian entity, and Schlumberger B.V., an entity organized under the laws of the Netherlands (collectively, “Schlumberger”) on June 8, 2017. The Company received a Grant Back License to sell the Separation Technology in markets outside of the oil and gas markets, which include oil exploration and production, oil refineries, oil spill, mining, sewage, manufacturing, waste-to-energy and food processing industry.

Florida Precision Aerospace, Inc., a Florida corporation (“FPA”), is the wholly-owned subsidiary of the Company and is used to manufacture, assemble and test the Voraxial Separator. Effective May 10, 2017 the Company filed Articles of Amendment to its Articles of Incorporation changing the Company’s name from “Enviro Voraxial Technology, Inc.” to “Enviro Technologies, Inc.” and increasing its authorized common stock to 250,000,000 shares.

NOTE B – GOING CONCERN

While the Company has historically experienced recurring net losses, on June 8, 2017, the Company completed a Technology Purchase Agreement with Schlumberger for the sale of the Company’s intellectual property in consideration of up to \$4,000,000, of which \$3,000,000 was paid at closing and \$1,000,000 is payable upon the completion of both: (i) the complete transfer of the intellectually property to Schlumberger; and (ii) the provision to transfer information, assets and services to Schlumberger, which is estimated to be completed by the third quarter of 2018. In addition, at closing FPA entered into a Framework Agreement (the “Supply Agreement”) with Cameron Solutions, Inc. (“Cameron Solutions”), a Houston, Texas-based company engaged in the development, manufacture and sale of equipment used in the oil and gas industry. Under the terms of the three-year Supply Agreement, FPA is the exclusive supplier to Cameron Solutions of certain Voraxial series products for use in the oil and gas industry. Pursuant to the Technology Purchase Agreement, Schlumberger also granted us non-exclusive, worldwide, royalty-free licenses (the “Grant Back Licenses”) for the sale of Voraxial products outside the oil and gas industry. Our

management believes that the Grant Back License will provide us the opportunity to possibly leverage future Schlumberger sales in the oil and gas market to penetrate the sale and use of licensed Voraxial products to other industries, including, but not limited to mining, sewage and wastewater.

We believe that including our current cash resources and anticipated revenue to be generated under the Grant Back Licenses and Supply Agreement, we will have sufficient resources to continue business operations in excess of 12 months. However, we have not yet generated significant revenues from the Supply Agreement or Grant Back License. There is no assurance that the Supply Agreement will generate sufficient revenues and income, nor is there any assurance that we will be able to leverage the Grant Back License and generate sufficient revenues from other industries.

At March 31, 2018, we had an accumulated deficit of \$15,200,109 including a net loss of \$211,315 for the three months ended March 31, 2018. We may not be able to achieve profitability on a quarterly or annual basis. If we fail to sustain or increase our profitability on a quarterly or annual basis, or to raise additional funds when needed, or do not have sufficient cash flows from sales, we may be required to scale back or cease operations, sell or liquidate our assets and possibly seek bankruptcy protection. As a result of the above, there is substantial doubt about the ability of

ENVIRO TECHNOLOGIES, INC. AND SUBSIDIARY

NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS

MARCH 31, 2018

(Unaudited)

the Company to continue as a going concern and the accompanying consolidated financial statements have been prepared assuming that the Company will continue as a going concern.

NOTE C - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Interim Financial Statements

The interim financial statements presented herein have been prepared pursuant to the rules and regulations of the Securities and Exchange Commission (“SEC”). Certain information and footnote disclosures normally included in financial statements prepared in accordance with accounting principles generally accepted in the United States of America have been condensed or omitted pursuant to such rules and regulations. The interim financial statements should be read in conjunction with the company’s annual financial statements, notes and accounting policies included in the company’s annual report on Form 10-K for the year ended December 31, 2017, as filed with the SEC. In the opinion of management, all adjustments, which are necessary to provide a fair presentation of financial position as of March 31, 2018, and the related operating results and cash flows for the interim period presented, have been made. The results of operations, for the period presented are not necessarily indicative of the results to be expected for the year.

Principles of Consolidation

The unaudited condensed consolidated financial statements include the accounts of the parent company, Enviro Technologies, Inc., and its wholly-owned subsidiary, Florida Precision Aerospace, Inc. All significant intercompany accounts and transactions have been eliminated.

Estimates

The preparation of consolidated financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosures of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenue and expenses during the reporting period. Actual results may differ. Significant estimates include allowance for doubtful accounts, deferred tax asset, allowance for inventory obsolescence and valuation of stock-based compensation.

Revenue Recognition

The Company derives its revenue from the sale and short-term rental of the Voraxial Separator. We account for revenue in accordance with Topic 606, which we adopted on January 1, 2018, using the modified retrospective method. The adoption of Topic 606 did not have a material impact on the timing or amounts of revenue recognized in our unaudited condensed consolidated financial statements and therefore did not have a material impact on our financial position, results of operations, equity or cash flows as of the adoption date or for the three months ended March 31, 2018. We did not recognize any cumulative-effect adjustment to retained earnings upon adoption as the impact was immaterial. Also, the comparative information has not been restated and continues to be reported under the accounting standards in effect for those periods.

Revenues are recognized when we satisfy a performance obligation by transferring control of the promised goods or services to our customers at a point in time, in an amount specified in the contract with our customer and that reflects

ENVIRO TECHNOLOGIES, INC. AND SUBSIDIARY

NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS

MARCH 31, 2018

(Unaudited)

the consideration we expect to be entitled to in exchange for those goods or services. The Company also assesses our customer's ability and intention to pay, which is based on a variety of factors including our customer's historical payment experience and financial condition.

Revenues that are generated from sales of equipment are typically recognized upon shipment. Our standard agreements generally do not include customer acceptance or post shipment installation provisions. However, if such provisions have been included or there is an uncertainty about customer order, revenue is deferred until we have evidence of customer order and all terms of the agreement have been complied with. As of March 31, 2018 and December 31, 2017, there was \$0 and \$32,090, respectively, of deposits from customers.

The Company recognizes revenue from the short-term rental of equipment, ratably over the life of the agreement, which is usually one to twelve months.

Accounts Receivable

Accounts receivable are presented net of an allowance for doubtful accounts. The company maintains allowances for doubtful accounts for estimated losses. The company reviews the accounts receivable on a periodic basis and makes general and specific allowance when there is a doubt as to the collectability of individual balances. In evaluating the collectability of individual receivable balances, the Company considers many factors, including the age of the balance, customer's historical payment history, and its current credit-worthiness and current economic trends. Accounts are written off after exhaustive efforts at collections. At March 31, 2018 and December 31, 2017, the Company has \$60,254 and \$60,254 in the allowance for doubtful accounts, respectively.

Fair Value of Instruments

The carrying amounts of the Company's financial instruments, including cash and cash equivalents, inventory, accounts payable and accrued expenses at March 31, 2018 and December 31, 2017, approximate their fair value because of their relatively short-term nature.

“Disclosures about Fair Value of Financial Instruments,” requires disclosures of information regarding the fair value of certain financial instruments for which it is practicable to estimate the value. For purpose of this disclosure, the fair value of a financial instrument is the amount at which the instrument could be exchanged in a current transaction between willing parties, other than in a forced sale of liquidation.

The company accounts for certain assets and liabilities at fair value. The hierarchy below lists three levels of fair value based on the extent to which inputs used in measuring fair value is observable in the market. We categorize each of our fair value measurements in one of these three levels based on the lowest level input that is significant to the fair value measurement in its entirety. These levels are:

Level 1—inputs are based upon unadjusted quoted prices for identical instruments traded in active markets. We have no Level 1 instruments as of March 31, 2018 and December 31, 2017.

Level 2—inputs are based upon quoted prices for similar instruments in active markets, quoted prices for identical or similar instruments in markets that are not active, and model-based valuation techniques (e.g. the Black-Scholes model) for which all significant inputs are observable in the market or can be corroborated by observable market data for substantially the full term of the assets or liabilities. Where applicable, these models project future cash flows and discount the future amounts to a present value using market-based observable inputs including interest rate curves, foreign exchange rates, and forward and spot prices for currencies and commodities. We have no Level 2 instruments as of March 31, 2018 and December 31, 2017.

ENVIRO TECHNOLOGIES, INC. AND SUBSIDIARY

NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS

MARCH 31, 2018

(Unaudited)

Level 3—inputs are generally unobservable and typically reflect management’s estimates of assumptions that market participants would use in pricing the asset or liability. The fair values are therefore determined using model-based techniques, including option pricing models and discounted cash flow models. We have no Level 3 instruments as of March 31, 2018 and December 31, 2017.

Cash and Cash Equivalents

The Company considers all highly liquid investments with a maturity of three months or less at the date of purchase to be cash equivalents. The Company maintains its cash balances with various financial institutions. Balances at these institutions may at times exceed the Federal Deposit Insurance Corporate (“FDIC”) limits. As of March 31, 2018 the Company has a cash concentration of \$489,989 in excess of FDIC limits.

Inventory

Inventory consists of components for the Voraxial Separator and is priced at lower of cost or market. Inventory may include units being rented on a short-term basis or components held by third parties in connection with pilot programs as part of the continuing evaluation by such third parties as to the effectiveness and usefulness of the service to be incorporated into their respective operations. The third parties do not have a contractual obligation to purchase the equipment. The Company maintains the title and risk of loss. Therefore, these units are included in the inventory of the Company. As of March 31, 2018 and December 31, 2017:

	March 31, 2018	December 31, 2017
Raw materials	\$34,143	\$32,074
Work in process	302,060	139,360

Finished goods	—	—
Total	\$336,203	\$171,434

Inventory amounts are presented net of impairment of \$42,752 and \$42,752 as of March 31, 2018 and December 31, 2017, respectively.

Fixed Assets

Fixed assets are stated at cost less accumulated depreciation. The cost of maintenance and repairs is expensed to operations as incurred. Depreciation is computed by the straight-line method over the estimated economic useful life of the assets (5-10 years). Gains and losses recognized from the sales or disposal of assets is the difference between the sales price and the recorded cost less accumulated depreciation less costs of disposal.

In July 2017, the Company entered into a financing agreement for the purchase of CNC machining equipment valued at approximately \$426,000. The machining equipment was received in July 2017 and will be used for the manufacture of Voraxial Separators in preparation of potential future orders under the Supply Agreement and sales pursuant to the Grant Back Licenses. Under the terms of the agreement the Company made an initial down payment of \$85,661 and is

ENVIRO TECHNOLOGIES, INC. AND SUBSIDIARY

NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS

MARCH 31, 2018

(Unaudited)

required to make monthly payments of \$6,788 through January 2023. In addition, the Company incurred \$24,281 of installation costs.

Net Loss Per Share

In accordance with the accounting guidance now codified as FASB ASC Topic 260, “*Earnings per Share*” basic earnings (loss) per share is computed by dividing net income (loss) by weighted average number of shares of common stock outstanding during each period. Diluted earnings (loss) per share is computed by dividing net income (loss) by the weighted average number of shares of common stock, common stock equivalents and potentially dilutive securities outstanding during the period.

Due to the Company had net loss for the three month period ended March 31, 2018 and 2017, the effect of 13,465,000 and 13,465,000 options, respectively are anti-dilutive. A separate computation of diluted loss per share is not presented.

INCOME TAXES

The Company accounts for income taxes under FASB Codification Topic 740-10-25 (“ASC 740-10-25”). Under ASC 740-10-25, deferred tax assets and liabilities are recognized for the future tax consequences attributable to differences between the financial statement carrying amounts of existing assets and liabilities and their respective tax bases. Deferred tax assets and liabilities are measured using enacted tax rates expected to apply to taxable income in the years in which those temporary differences are expected to be recovered or settled. Under ASC 740-10-25, the effect on deferred tax assets and liabilities of a change in tax rates is recognized in income in the period that includes the enactment date.

BUSINESS SEGMENTS

The Company operates in one segment and therefore segment information is not presented.

Research and Development Expenses

Research and development costs, which includes travel expenses, consulting fees, subcontractors and salaries are expensed as incurred.

Advertising Costs

Advertising costs are expensed as incurred and are included in general and administrative expenses.

Stock-Based Compensation

The Company adopted ASC Topic 718 formerly Statement of Financial Account Standard (SFAS) No. 123(R) effective January 1, 2006. This statement requires compensation expense relating to share-based payments to be recognized in net income using a fair-value measurement method. Under the fair value method, the estimated fair value of awards is charged to expense on a straight-line basis over the requisite service period, which is generally the vesting period.

ENVIRO TECHNOLOGIES, INC. AND SUBSIDIARY

NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS

MARCH 31, 2018

(Unaudited)

RECLASSIFICATIONS

Certain amounts from prior periods have been reclassified to conform to the current period presentation. These reclassifications had no impact on the Company's net loss or cashflows.

Recent Accounting Pronouncements

In February 2016, the FASB issued ASU 2016-02, Leases, which will amend current lease accounting to require lessees to recognize (i) a lease liability, which is a lessee's obligation to make lease payments arising from a lease, measured on a discounted basis, and (ii) a right-of-use asset, which is an asset that represents the lessee's right to use, or control the use of, a specified asset for the lease term. ASU 2016-02 does not significantly change lease accounting requirements applicable to lessors; however, certain changes were made to align, where necessary, lessor accounting with the lessee accounting model. This standard will be effective for fiscal years beginning after December 15, 2018, including interim periods within those fiscal years. We are currently reviewing the provisions of this ASU to determine if there will be any impact on our results of operations, cash flows or financial condition.

In August 2015, FASB issued Accounting Standards Update ("ASU") No. 2015-14, "*Revenue from Contracts with Customers (Topic 606): Deferral of the Effective Date*" defers the effective date ASU No. 2014-09 for all entities by one year. Public business entities, certain not-for-profit entities, and certain employee benefit plans should apply the guidance in Update 2014-09 to annual reporting periods beginning after December 15, 2017, including interim reporting periods within that reporting period. Earlier application is permitted only as of annual reporting periods beginning after December 15, 2016, including interim reporting periods within that reporting period. All other entities should apply the guidance in Update 2014-09 to annual reporting periods beginning after December 15, 2018, and interim reporting periods within annual reporting periods beginning after December 15, 2019. All other entities may apply the guidance in ASU No. 2014-09 earlier as of an annual reporting period beginning after December 15, 2016, including interim reporting periods within that reporting period. All other entities also may apply the guidance in Update 2014-09 earlier as of an annual reporting period beginning after December 15, 2016, and interim reporting periods within annual reporting periods beginning one year after the annual reporting period in which the entity first applies the guidance in ASU No. 2014-09. The Company adopted these standards on January 1, 2018. The adoption did not have a material impact on the timing or amounts of revenue recognized in our unaudited condensed consolidated financial statements and therefore did not have a material impact on our financial position, results of operations, equity or cash flows as of the adoption date or for the three months ended March 31, 2018. We did not

recognize any cumulative-effect adjustment to retained earnings upon adoption as the impact was immaterial. Also, the comparative information has not been restated and continues to be reported under the accounting standards in effect for those periods.

All other newly issued accounting pronouncements, but not yet effective, have been deemed either immaterial or not applicable.

NOTE D - RELATED PARTY TRANSACTIONS

On January 4, 2018 the Company's board of directors reduced the annual compensation of the Company's chief executive officer from \$305,000 to \$210,000, effective as of January 1, 2018. For the Three Months ended March 31, 2018, the Company incurred salary expenses from the Chief Executive Officer of the Company of \$52,500. Of these amounts, \$0 has been paid for the Three Months ended March 31, 2018. The total unpaid balance as of March 31, 2018 is \$1,242,261 and is included in accrued expenses – related party. For the Three Months ended March 31, 2017, the Company incurred salary expenses from the Chief Executive Officer of the Company of \$76,250. Of these amounts, \$0 had been paid for the

ENVIRO TECHNOLOGIES, INC. AND SUBSIDIARY**NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS****MARCH 31, 2018****(Unaudited)**

Three Months ended March 31, 2017. The total unpaid balance as of March 31, 2017 is \$1,541,011 and is included in accrued expenses – related party.

Effective July 1, 2017, Raynard Veldman, a member of the Company's board of directors receives a fee of \$2,500 per month for consulting services. During the three months ended March 31, 2018 and 2017, Mr. Veldman received consulting fees of \$7,500 and \$0, respectively.

NOTE E – FIXED ASSETS

Fixed assets as of March 31, 2018 and December 31, 2017 consist of:

	March 31,	December
	2018	31, 2017
Machinery and equipment	\$933,245	\$933,245
Furniture and fixtures	14,498	14,498
Autos and Trucks	5,294	5,294
Total	953,037	953,037
Less: accumulated depreciation	(524,806)	(513,542)
Fixed Assets, net	\$428,231	\$439,495

Depreciation expense was \$11,264 and \$5,509 for the three months ended March 31, 2018 and 2017, respectively.

In July 2017, the Company entered into a financing agreement for the purchase of CNC machining equipment valued at approximately \$426,000. The machining equipment was received in July 2017 and will be used for the manufacture of Voraxial Separators in preparation of potential future orders under the Supply Agreement and sales pursuant to the Grant Back Licenses. As of March 31, 2018 and December 31, 2017, the amount owed is \$335,135 and \$340,644 respectively.

note f - Options

The Company follows the provisions of ASC Topic 718, "Compensation – Stock Compensation." ASC Topic 718 establishes standards surrounding the accounting for transactions in which an entity exchanges its equity instruments for goods or services. ASC Topic 718 focuses primarily on accounting for transactions in which an entity obtains employee services in share-based payment transactions.

The Black-Scholes option-pricing model was developed for use in estimating the fair value of traded options, which have no vesting restrictions and are fully transferable. In addition, option valuation models require the input of highly subjective assumptions including the expected stock price volatility. Because the Company's stock options and warrants have characteristics different from those of its traded stock, and because changes in the subjective input assumptions can materially affect the fair value estimate, in management's opinion, the existing models do not necessarily provide a reliable single measure of the fair value of such stock options. The risk-free interest rate is based upon quoted market yields for United States Treasury debt securities with a term similar to the expected term. The expected dividend yield is based upon the Company's history of having never issued a dividend and management's current expectation of future action surrounding dividends. Expected volatility was based on historical data for the trading of our stock on the open market. The expected lives for such grants were based on the simplified method for employees and officers.

ENVIRO TECHNOLOGIES, INC. AND SUBSIDIARY**NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS****MARCH 31, 2018****(Unaudited)**

Information with respect to options outstanding and exercisable at March 31, 2018 is as follows:

	Number	Exercise Price	Number
	Outstanding		Exercisable
Balance, December 31, 2017	13,465,000	\$0.01	13,465,000
Issued	-	-	-
Expired	-	-	-
Forfeited	-	-	-
Balance, March 31, 2018	13,465,000	\$0.01	13,465,000

Exercise Price	Number Outstanding at March 31, 2018	Weighted Average Remaining Contractual Life	Weighted Average Exercise Price	Number Exercisable at March 31, 2018	Weighted Average Exercise Price
0.01	13,465,000	5.63	0.01	13,465,000	0.01
Total	<u>13,465,000</u>	-	-	<u>13,465,000</u>	-

The aggregate intrinsic value represents the excess amount over the exercise price optionees would have received if all the options have been exercised on the last business day of the period indicated based on the Company's closing stock price of for such day. The aggregate intrinsic value as of March 31, 2018 is \$1,211,850.

NOTE G – COMMITMENTS AND CONTINGENCIES**OPERATING LEASE**

In October 2015, the Company entered into a three (3) year lease for an office and manufacturing facility located at 821 NW 57th Place, Fort Lauderdale, FL 33309. The lease is \$6,100 per month, which includes common area maintenance, taxes and insurance. The Company has the option to terminate the lease with three months' notice.

During the three months ended March 31, 2018 and 2017, the rent expense was \$19,090 and \$18,592, respectively.

EQUIPMENT NOTE PAYABLE

In July 2017, the Company entered into a financing agreement for the purchase of CNC machining equipment valued at approximately \$426,000. The machining equipment was received in July 2017 and will be used for the manufacture of Voraxial Separators in preparation of potential future orders under the Supply Agreement and sales pursuant to the Grant Back Licenses. The Company is required to make monthly payments of \$6,788 through January 2023. As of March 31, 2018 and December 31, 2017, the amount owed is \$335,135 and \$340,644 respectively.

Litigation

On or about October 23, 2017, a claim was filed in the 17th Judicial Circuit Court in and for Broward County in Fort Lauderdale, Florida, by the plaintiff, Industrial and Oilfield Procurement Services, LLC, against our company. The case involves an alleged breach of contract between the parties relating to the purchase and sale of a Voraxial unit in 2015. The plaintiff has demanded a refund and damages. We are defending this action, as we believe this claim is without merit.

(Unaudited)

SALE OF INTELLECTUAL PROPERTY

On June 8, 2017, the Company and FPA, our wholly owned subsidiary (collectively, the “Sellers”), closed the transactions contemplated by the Technology Purchase Agreement dated March 13, 2017 with Schlumberger Technology Corporation, a Texas corporation, Schlumberger Canada Limited, a Canadian entity, and Schlumberger B.V., an entity organized under the laws of the Netherlands (collectively, (“Schlumberger”).

At closing, we sold our intellectual property (the “Purchased Intellectual Property”), substantially consisting of the Voraxial patents, marks, software and copyrights, to Schlumberger in consideration of up to \$4,000,000, of which \$3,000,000 was paid to us at closing and \$1,000,000 is payable upon the completion of both: (i) the complete transfer of the Purchased Intellectual Property to Schlumberger; and (ii) the provision to transfer information, assets and services to Schlumberger, which is estimated to be approximately 12 months from the closing date. We recognized a gain on the sale of our intellectual property of \$3,000,000 less direct costs of \$80,000, consisting of the Termination Fee and consulting fees.

We utilized a portion of the proceeds from this transaction to pay some of our outstanding debt and are using the balance for general working capital. We are also using some of the proceeds to buy additional manufacturing equipment to meet potential future sales.

As part of the agreement, Schlumberger granted us a non-exclusive, worldwide, royalty-free licenses (the “Grant Back Licenses”), to make, use, sell, offer for sale, and import products and processes embodying the Purchase Intellectual Property outside the oil and gas market. In addition to the proceeds from the sale of our intellectual property, our management believes that the Grant Back License will provide for the potential increase of revenues through the sale of Voraxial Separators, possibly leveraging future sales by Schlumberger in the oil and gas market to penetrate the sale and use of licensed Voraxial products to other industries, including, but not limited to mining, sewage and wastewater.

In addition, at closing FPA entered into a Framework Agreement (the “Supply Agreement”) with Cameron Solutions, Inc. (“Cameron Solutions”), a Houston, Texas-based company engaged in the development, manufacture and sale of equipment used in the oil and gas industry. Under the terms of the three-year Supply Agreement, FPA is the exclusive supplier to Cameron Solutions of certain Voraxial series products for use in the oil and gas industry. Sales will be made from time to time in accordance with the terms of purchase orders. The Supply Agreement is cancellable by Cameron Solutions upon 15 days’ notice if FPA fails to meet delivery or performance schedules or breaches any of the terms of the agreement, including the warranties. Cameron Solutions may also cancel the Supply Agreement without notice in the event FPA becomes insolvent or commits any act of bankruptcy. The Supply Agreement contains customary indemnification and confidentiality provisions.

For a period of three years following the closing of the Agreement, the Company and Raynard Veldman and John Di Bella have agreed to not participate or cause participation in the oil-and-gas market in relation to phase or constituent sensing or separation which is defined as, liquid-liquid, liquid-solid or liquid-gas separation and gas or liquid sensing, including all product lines and services related thereto and including the Voraxial product line and services, except to the extent necessary to: (i) repair or service, but not remanufacture, any goods the Company sold to third persons prior to closing; (ii) fulfill, on or after closing, any customer obligation; or (iii) comply with any term or condition of the Agreement. In addition, the Company shall take all reasonable measures to ensure the confidentiality and prevent the improper use of all trade secrets.

NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS

MARCH 31, 2018

(Unaudited)

NOTE H – MAJOR CUSTOMERS

During the Three Months ended March 31, 2018, we recorded 85% of our revenue from one customer.

During the Three Months ended March 31, 2017, we recorded 87% of our revenue from one customer.

As of March 31, 2018, one of the Company's customers represents 98% of the total accounts receivable.

As of December 31, 2017, one of the Company's customers represents 98% of the total accounts receivable.

NOTE I – SUBSEQUENT EVENTS

On April 16, 2018, we entered into a 12-month business advisory consulting agreement. Under the terms of the agreement, the Company issued 250,000 shares of common stock for services.

Item 2. Management's Discussion and Analysis of Financial Condition and Results of Operations

Forward-Looking Statements

The following discussion of the financial condition and results of operations should be read in conjunction with our consolidated financial statements and related notes thereto. The following discussion contains forward-looking statements. Enviro Technologies, Inc. is referred to herein as “the Company”, “we” or “our.” The words or phrases “would be,” “will allow,” “intends to,” “will likely result,” “are expected to,” “will continue,” “is anticipated,” “estimate,” “project,” or similar expressions are intended to identify “forward-looking statements”. Such statements include those concerning our expected financial performance, our corporate strategy and operational plans. Actual results could differ materially from those projected in the forward-looking statements as a result of a number of risks and uncertainties. Statements made herein are as of the date of the filing of this Form 10-Q with the Securities and Exchange Commission and should not be relied upon as of any subsequent date. Unless otherwise required by applicable law, we do not undertake, and we specifically disclaim any obligation, to update any forward-looking statements to reflect occurrences, developments, unanticipated events or circumstances after the date of such statement.

Application of Critical Accounting Policies

The Company’s consolidated condensed unaudited financial statements have been prepared in accordance with accounting principles generally accepted in the United States of America. Certain accounting policies have a significant impact on amounts reported in the financial statements. A summary of these significant accounting policies can be found in Note C to the Company’s financial statements in the Company’s 2017 Annual Report on Form 10-K. The Company has adopted Topic 606 to account for revenue during the period ended March 31, 2018. Refer to Note C.

Among the significant judgments made in preparation of the Company’s financial statements are the determination of the allowance for doubtful accounts, value of equity instruments and adjustments of inventory valuations. These adjustments are made each quarter in the ordinary course of accounting.

Overview

Enviro Technologies, Inc. was incorporated in Idaho on October 19, 1964, under the name Idaho Silver, Inc. In May of 1996, we entered into an agreement and plan of reorganization with Florida Precision Aerospace, Inc., a privately held Florida corporation (“FPA”), and its shareholders. FPA was incorporated on February 26, 1993. The Company developed and now manufactures and sells the patented Voraxial® Separator (“Voraxial® Separator” or “Voraxial®”) pursuant to the agreements discussed below. The Voraxial® Separator is a proprietary technology now owned by Schlumberger (as defined below) that efficiently separates large volumes of liquid/liquid, liquid/solids or liquid/liquid/solids fluid mixtures with distinct specific gravities. Per the agreements we signed with Schlumberger, we shall continue to manufacture the technology for Schlumberger for the oil and gas industry and are able to pursue other industries independent of Schlumberger, which include mining, sewage, wastewater as well as other markets.

On March 13, 2017, we entered into a Technology Purchase Agreement with Schlumberger Technology Corporation, a Texas corporation, Schlumberger Canada Limited, a Canadian entity, and Schlumberger B.V., an entity organized under the laws of the Netherlands (collectively, “Schlumberger”) which was approved by the Company’s shareholders on May 31, 2017 and completed on June 8, 2017. Under the agreement we sold our intellectual property (the “Purchased Intellectual Property”), substantially consisting of the Voraxial patents, marks, software and copyrights, to Schlumberger in consideration of up to \$4,000,000, of which \$3,000,000 was paid to us at closing. The remaining \$1,000,000 is payable upon the completion of both: (i) the complete transfer of the Purchased Intellectual Property to Schlumberger; and (ii) the provision to transfer information, assets and services to Schlumberger, which is estimated to be approximately 12 months from the closing date. We recognized a gain of the sale of our intellectual property of \$3,000,000 less direct cost of \$80,000.

We utilized a portion of the proceeds from this transaction to pay some of our outstanding debt and are using the balance for general working capital. We are also using some of the proceeds to buy additional manufacturing equipment to meet potential future sales, this includes the \$85,261 deposit to purchase the CNC machining equipment and approximately \$24,281 in installation costs in July 2017.

As part of the agreement, Schlumberger granted us a non-exclusive, non-transferable, worldwide, royalty-free licenses (the “Grant Back Licenses”), to make, use, sell, offer for sale, and import products and processes embodying the Purchase Intellectual Property outside the oil and gas market. Our management believes that the Grant Back Licenses will provide for potential revenues through the sale of Voraxial Separators outside the oil and gas industry, including, but not limited to mining, sewage and wastewater.

In addition, at closing Florida Precision Aerospace entered into a Framework Agreement (the “Supply Agreement”) with Cameron Solutions, Inc. (“Cameron Solutions”), a Houston, Texas-based company engaged in the development, manufacture and sale of equipment used in the oil and gas industry. Under the terms of the three-year Supply Agreement, Florida Precision Aerospace, our wholly owned subsidiary, is the exclusive supplier to Cameron Solutions of certain Voraxial series products for use in the oil and gas industry. Sales will be made from time to time in

accordance with the terms of purchase orders. The Supply Agreement is cancellable by Cameron Solutions upon 15 days' notice if Florida Precision Aerospace fails to meet delivery or performance schedules or breaches any of the terms of the agreement, including the warranties. It may also cancel the Supply Agreement without notice in the event Florida Precision Aerospace becomes insolvent or commits any act of bankruptcy. The Supply Agreement contains customary indemnification and confidentiality provisions. There are no assurances that we will generate revenues under the Grant Back Licenses or Supply Agreement.

For a period of three years following the closing of the Technology Purchase Agreement, the Company and Raynard Veldman and John Di Bella have agreed to not participate or cause participation in the oil-and-gas market in relation to phase or constituent sensing or separation which is defined as, liquid-liquid, liquid-solid or liquid-gas separation and gas or liquid sensing, including all product lines and services related thereto and including the Voraxial product line and services, except to the extent necessary to: (i) repair or service, but not remanufacture, any goods the Company sold to third persons prior to closing; (ii) fulfill, on or after closing, any customer obligation; or (iii) comply with any term or condition of the agreement. In addition the Company shall take all reasonable measures to ensure the confidentiality and prevent the improper use of all trade secrets.

In addition, on May 31, 2017, our shareholders approved proposals to change our corporate name to Enviro Technologies, Inc. and increase our authorized common stock to 250,000,000. Effective May 15, 2018 we filed Articles of Amendment to our Articles of Incorporation changing the Company's name to "Enviro Technologies, Inc." and increasing our authorized common stock to 250,000,000 shares.

Results of Operations for the Three Months ended March 31, 2018 and 2017:

Revenue

Our revenues increased by \$22,576 or approximately 24% to \$113,927 for the three months ended March 31, 2018 as compared to \$91,351 for the three months ended March 31, 2017. Our revenues were relatively flat year over year. The modest increase in revenues corresponds with the transition we are experiencing due to the Technology Purchase Agreement we consummated with Schlumberger and related transactions, including \$16,090 of customer deposit recognized in the current period upon agreement with customer. We believe there is a market for the Voraxial Separator and that these agreements will provide us with the opportunity to increase revenues in the future in both the oil and gas industry and potentially other industries as well, such as mining, sewage and industrial wastewater through the Grant Back Licenses.

The majority of revenues in 2018 and 2017 were a result of sales of the Voraxial Separator and auxiliary equipment and parts.

Cost of Goods

Our cost of goods increased by 178% to \$67,197 for the three months ended March 31, 2018 as compared to \$24,159 for the three months ended March 31, 2017. This increase is partially due to the increase in sales we experienced during the three months ended March 31, 2018. During the three months ended March 31, 2017, our cost of goods was lower due to the use of previously written off inventory. Our cost of goods continues to be reviewed by management in effort to obtain the best available pricing while maintaining high quality standards.

Costs and Expenses

Total costs and expenses increased by \$59,844 or approximately 31% to \$249,977 for the three months ended March 31, 2018 as compared to \$190,133 for the three months ended March 31, 2017. Our costs and expenses increased from the previous year as we incurred an increase in professional fees and an increase in G&A which is both associated with the increase activity in the sales and marketing of the Voraxial in industries outside of the oil and gas markets. The increase is associated with the expense the Company is experiencing as we prepare to meet the anticipated manufacturing demand associated with the agreements consummated with Schlumberger. We expect expenses to continue to increase during the balance of 2018 as we increase our manufacturing capabilities in the anticipation of product orders as a result of the

Technology Purchase Agreement with Schlumberger. This was offset partially by a decrease in our payroll as our CEO reduced his salary by \$23,750 during the first quarter of 2018.

Liquidity and Capital Resources:

Cash at March 31, 2018 was \$754,793. Working capital deficit at March 31, 2018 was \$381,746 as compared to a working capital deficit at December 31, 2017 of \$166,137. At March 31, 2018, we had an accumulated deficit of \$15,200,109.

Continuing Losses

While the Company has historically experienced recurring net losses, on June 8, 2017, the Company completed the Technology Purchase Agreement and entered into the Supply Agreement with Cameron Solutions. In addition, Schlumberger granted us the Grant Back Licenses for the sale of Voraxial products outside the oil and gas industry. Our management believes that the Grant Back License will provide us the opportunity to possibly leverage future Schlumberger sales in the oil and gas market to penetrate the sale and use of licensed Voraxial products to other industries, including, but not limited to mining, sewage and wastewater. We believe that including our current cash resources and anticipated revenue to be generated under the Grant Back Licenses and Supply Agreement, we will have sufficient resources to continue business operations in excess of 12 months. However, there are no assurances that we will generate any or significant revenues under the Supply Agreement or Grant Back License and there is limited historical financial data and operating results with which to evaluate our business and our prospects under the new agreements.

Our ability to generate future revenues will depend on a number of factors, many of which are beyond our control. These factors include competitive efforts and general economic trends. Due to these factors, we cannot anticipate with any degree of certainty what our revenues will be in future periods. Our independent auditors have included in their audit report an explanatory paragraph that states that our continuing losses from operations raises substantial doubt about our ability to continue as a going concern. Although we achieved profitability in 2017, such profit was due to the closing of the Technology Purchase Agreement and we have incurred losses for the three months ended March 31, 2018. If we fail to sustain or increase our profitability on a quarterly or annual basis, or to raise additional funds when needed, or do not have sufficient cash flows from sales, we may be required to scale back or cease operations, sell or liquidate our assets and possibly seek bankruptcy protection. As a result of the above, there is substantial doubt about the ability of the Company to continue as a going concern and the accompanying consolidated financial statements have been prepared assuming that the Company will continue as a going concern. The accompanying consolidated financial statements do not include any adjustments that may result from the outcome of this uncertainty.

Recent Accounting Pronouncements

For a discussion of new accounting pronouncements affecting the Company, refer to Note C to the Consolidated Financial Statements.

Item 3. Quantitative and Qualitative Disclosures About Market Risk

Not applicable to smaller reporting company.

Item 4.

Controls and Procedures

Evaluation of Disclosure Controls and Procedures

We maintain disclosure controls and procedures (as defined in Rules 13a-15(e) and 15d-15(e) of the Securities Exchange Act of 1934, as amended (the “Exchange Act”) that are designed to be effective in providing reasonable assurance that information required to be disclosed in our reports under the Exchange Act is recorded, processed, summarized and reported within the time periods specified in the rules and forms of the SEC, and that such information is accumulated and communicated to our management to allow timely decisions regarding required disclosure.

The Company’s management, under the supervision and with the participation of the Company's Chief Executive Officer and Chief Financial (and principal accounting) Officer, carried out an evaluation of the effectiveness of the design and operation of the Company's disclosure controls and procedures (as defined in Rule 13a-15(e) and 15d-15(e) of the Exchange Act) as of March 31, 2018. Based upon that evaluation and the identification of the material weakness in the Company’s internal control over financial reporting as described below under “Management’s Report on Internal Control over Financial Reporting,” the Chief Executive Officer and Chief Financial Officer concluded that the Company’s disclosure controls and procedures were ineffective as of the end of the period covered by this report.

Management is responsible for establishing and maintaining adequate internal control over financial reporting of the Company. Management, with the participation of our principal executive officer and principal financial officer, has evaluated the effectiveness of our internal control over financial reporting as of March 31, 2018 based on the 2013 criteria established in Internal Control - Integrated Framework issued by the Committee of Sponsoring Organizations of the Treadway Commission. Based on this evaluation, the Chief Executive Officer and Chief Financial Officer concluded that, as of March 31, 2018, our internal control over financial reporting is not effective in providing reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with U.S. generally accepted accounting principles because of the Company’s limited resources, lack of qualified accounting personnel and limited number of employees. To mitigate the current limited resources and limited employees, we rely heavily on direct management oversight of transactions, along with the use of legal and accounting professionals. As we grow, we expect to increase our number of employees, which will enable us to implement adequate segregation of duties within the internal control framework.

Limitations on Effectiveness of Controls and Procedures

Our management, including our Chief Executive Officer and Chief Financial Officer, does not expect that our disclosure controls and procedures or our internal controls will prevent all errors and all fraud. A control system, no matter how well conceived and operated, can provide only reasonable, not absolute, assurance that the objectives of

the control system are met. Further, the design of a control system must reflect the fact that there are resource constraints and the benefits of controls must be considered relative to their costs. Because of the inherent limitations in all control systems, no evaluation of controls can provide absolute assurance that all control issues and instances of fraud, if any, within the Company have been detected. These inherent limitations include, but are not limited to, the realities that judgments in decision-making can be faulty and that breakdowns can occur because of simple error or mistake. Additionally, controls can be circumvented by the individual acts of some persons, by collusion of two or more people, or by management override of the control. The design of any system of controls also is based in part upon certain assumptions about the likelihood of future events and there can be no assurance that any design will succeed in achieving its stated goals under all potential future conditions. Over time, controls may become inadequate because of changes in conditions, or the degree of compliance with the policies or procedures may deteriorate. Because of the inherent limitations in a cost-effective control system, misstatements due to error or fraud may occur and not be detected.

Changes in Internal Control over Financial Reporting

There were no changes to our internal control over financial reporting (as defined in Rules 13a-15(f) and 15d-15(f) under the Exchange Act) that occurred during the period covered by this report that have materially affected, or are reasonably likely to materially affect, our internal control over financial reporting.

PART II.

OTHER INFORMATION

Item 1.

Legal Proceedings

As previously discussed, on or about October 23, 2017, a claim was filed in the 17th Judicial Circuit Court in and for Broward County in Fort Lauderdale, Florida, by the plaintiff, Industrial and Oilfield Procurement Services, LLC, against our company. The case involves an alleged breach of contract between the parties relating to the purchase and sale of a Voraxial unit in 2015. The plaintiff has demanded a refund and damages. We are defending this action, as we believe this claim is without merit.

Item 1A.

Risk Factors

Smaller reporting companies are not required to provide the information required by this item.

Item 2.

Unregistered Sales of Equity Securities and Use of Proceeds

On April 16, 2018, we entered into a 12-month business advisory consulting agreement. Under the terms of the agreement, the Company issued 250,000 shares of restricted common stock for services. The shares were issued pursuant to the exemption from registration provided by Section 4(a)(2) of the Securities Act of 1933, as amended.
