REPORT OF INDEPENDENT REGISTERED PUBLIC ACCOUNTING FIRM

Edgar Filing: FOSSIL INC - Form 11-K

To the Plan Committee
Fossil, Inc. Savings and Retirement Plan
Richardson, Texas

We have audited the accompanying statements of net assets available for benefits of the Fossil, Inc. Savings and Retirement Plan (the Plan) as of December 31, 2003 and 2002, and the related statements of changes in net assets available for benefits for the years then ended. These financial statements are the responsibility of the Plan's management. Our responsibility is to express an opinion on these financial statements based on our audits.

We conducted our audits in accordance with the standards of the Public Company Accounting Oversight Board (United States). Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audits provide a reasonable basis for our opinion.

In our opinion, such financial statements present fairly, in all material respects, the net assets available for benefits of the Plan as of December 31, 2003 and 2002, and the changes in net assets available for benefits for the years then ended in conformity with accounting principles generally accepted in the United States of America.

Our audits were conducted for the purpose of forming an opinion on the basic financial statements taken as a whole. The supplemental schedules listed in the Table of Contents as of and for the year ended December 31, 2003, are presented for the purpose of additional analysis and are not a required part of the basic 2003 financial statements, but are supplementary information required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974. These schedules are the responsibility of the Plan's management. Such schedules have been subjected to the auditing procedures applied in our audit of the basic 2003 financial statements and, in our opinion, are fairly stated in all material respects when considered in relation to the basic 2003 financial statements taken as a whole.

FOSSIL, INC. SAVINGS AND RETIREMENT PLAN

NOTES TO FINANCIAL STATEMENTS

FOR THE YEARS ENDED DECEMBER 31, 2003 AND 2002

NOTE 1 DESCRIPTION OF PLAN

The following brief description of the Fossil, Inc. Savings and Retirement Plan (the Plan) provides only general information. Participants should refer to the Plan document for a more complete description of the Plan's provisions.

Plan Organization, Amendments, and General Provisions: The Plan is a defined contribution plan covering eligible employees of Fossil, Inc. (Fossil), and electing United States Fossil subsidiaries. The purpose of the Plan is to encourage employees to accumulate savings for their retirement. The Plan is administered by Fossil (the Employer). The Plan's investments were held by Merrill Lynch Trust Company (Merrill Lynch) until April 15, 2003, when trustee and custodian responsibilities were transferred to Wachovia Bank, N.A. (the Custodian).

The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

Eligibility, Contributions and Vesting: The Plan is qualified under Section 401(a) of the Internal Revenue Code (the Code) and permits elective contributions in accordance with Section 401(k) of the Code. Prior to April 8, 2003, employees were eligible to make salary deferral contributions after completing a year of eligibility service (i.e. completing 1,000 hours of service in a 12 month period beginning on date of hire and anniversaries thereof). Effective on April 8, 2003, employees became eligible to make salary deferrals as of their date of employment. The maximum salary deferral contribution per year is the lesser of 15% of gross pay for the year, or, according to the Code, \$12,000 for 2003 and \$11,000 for 2002. Individuals who reach the age of 50 by the end of the Plan year are eligible to contribute another \$2,000 for 2003 and \$1,000 for 2002. The Plan document provides for limitations on salary deferral contributions in the event of a hardship withdrawal that is, in whole or in part, from the participant's salary deferral account. Fossil makes a discretionary matching contribution. Participants are eligible to receive matching contributions after completing a year of eligibility service (i.e. after completing 1,000 hours of service during a 12 month measuring period). For 2003 and 2002, this matching contribution was in the amount of 50% of the first 3% of the participant's salary deferral contribution, and at the rate of 25% of the next 3% thereof. Fossil may also make additional profit sharing contributions at the discretion of the Employer. No such additional discretionary contributions were made for 2003 or 2002. Vesting in salary deferral and rollover contributions is 100%. Vesting in matching contributions is 20% per year of vesting service. An employee is credited with a year of vesting service for each calendar year in which the

participant completes at least 1,000 hours of service. Participants are fully vested after five years of service. Forfeitures of non-vested employer matching contributions are to be used to pay Plan expenses or to fund a portion of employer matching contributions.

Participants can elect to have their contributions invested in any of several investment options (see Note 3). The participants can change elections and can also reallocate those funds already invested between available investment options on a daily basis.

Participant Loans: Loans are available to all participants at a reasonable interest rate, with periodic repayment through payroll deductions over no more than 5 years, unless used to acquire the participant's principal residence. Loans must be at least \$1,000 and are limited to the lesser of \$50,000 or 50% of the participant's vested account balance. The Plan Administrator exercises sole discretion over making loans to participants. Loan balances for active participants that have not had payments credited within 90 days are considered defaulted loans and are recorded as deemed distributions to the participant.

Distribution of Benefits: Distributions of vested benefits may be made to a participant upon retirement, disability, death, or termination of employment. Prior to the age of 59½, a participant, while still employed, may make a withdrawal from his rollover account from a prior plan (if any), or from any of his other vested accounts to the extent necessary to satisfy an immediate and substantial financial need, as defined in Section 401(k) of the Code, subject to certain conditions contained in the Plan document. Subsequent to age 59½, the participant may withdraw all or any portion of his vested accounts at any time. Distributions of vested benefits under the Plan are paid to the participant in the form of a lump sum payment. Any withdrawals from the Plan will be subject to federal income tax and withholding (at a 20% rate). An additional 10% excise tax will be imposed on the withdrawn amount if the distribution is made before the participant attains 59½, except that the additional 10% tax is not imposed on distributions made by reason of death, disability, termination of employment after age 55, a qualified domestic order, and other reasons enumerated in the Code. Taxation (and withholding) may be postponed by transferring the distributable amounts to an individual retirement account to an annuity described in Section 403(b) of the Code, to a plan described in Section 457(b) of the Code maintained by certain governmental entities, or to another qualified plan within 60 days.

Amendment or Termination: Fossil has reserved the right to amend, modify, or terminate the Plan at any time, subject to the Plan document and applicable laws and regulations. Fossil has no intentions of terminating the Plan, and Fossil is not aware of any occurrences that could reasonably result in the termination of the Plan. In the event of plan termination, participants will become 100% vested in their entire account.

NOTE 2 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of Accounting: The accounting records of the Plan, sponsored by Fossil, are maintained on the accrual basis of accounting.

Use of Estimates: The preparation of financial statements, in conformity with accounting principles generally accepted in the United States of America, requires management to make estimates and assumptions that affect the reported amounts of net assets available for benefits and changes therein. Actual results could differ from those estimates. The Plan utilizes various investment instruments. Investment securities, in general, are exposed to various risks such as interest rate, credit, and overall market volatility. Due to the level of risk associated with certain investment securities, it is reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect the amounts reported in the statements of net assets available for plan benefits.

Investments: Investments are presented in the financial statements at fair value determined by quoted market prices at the close of business on December 31. Until April 15, 2003, the Plan participated in a common collective trust that was valued at contract value, which approximated fair value (See Note 3). Beginning April 15, 2003, the Plan invests in units of two common collective trusts sponsored by the Custodian. The common collective trusts are valued in units, whose price is periodically determined by the Custodian, based on the current market values of the underlying

assets of the fund. Shares of mutual funds are valued at the net asset value of shares held by the Plan at year-end. The change in the difference between fair value and the cost of the investments, including realized gains and losses, is reflected in the statement of changes in net assets available for benefits as net (depreciation) appreciation in fair value of investments during the year. Purchases and sales of securities are recorded on a trade date basis. Interest and dividend income are recorded on an accrual basis.

Expenses: Expenses incurred by the Plan are paid by the Employer.

Payment of Benefits: Benefits are recorded when paid. There were amounts of \$45,874 and \$0 allocated to withdrawing participants included within Plan assets as of December 31, 2003 and 2002, respectively.

NOTE 3 PLAN INVESTMENTS

Through April 15, 2003, the Plan invested in the Merrill Lynch Retirement Preservation Trust, a common collective trust. Contributions were maintained in a pooled account. The account was credited with contributions and earnings on the underlying investments (principally investment grade fixed income securities) and charged for participant withdrawals and administrative expenses by Merrill Lynch. The investment was included in the financial statements at contract value, which approximated fair value. There are no reserves against contract value for credit risk of the contract issuer or otherwise. The average yield on the common collective trust was 4.72% and 5.89% for the years ended December 31, 2003 and 2002, respectively. Crediting interest rates are based on current market rates and are determined quarterly. The crediting interest rate was 4.95% at December 31, 2002. There is no floor to the crediting interest rate.

The following presents investments that represent five percent or more of the Plan's net assets:

	December 31, 2003	December 31, 2002
Growth Fund of America Class R-3	\$ 2,591,103	\$
Van Kampen Equity and Income Class A	2,595,245	
Fossil, Inc. Common Stock	2,110,988	1,473,470
Wachovia Stable Portfolio Group Trust	3,068,761	
Oppenheimer Quest Balance Value Class A		2,070,702
Fidelity Advisor Equity Portfolio Growth Fund Class A		1,662,968
Merrill Lynch Retirement Preservation Trust		1,972,004
