Also on July 22, 2004, IHOP Corp. held a conference call to discuss its second quarter 2004 financial results. A copy of the prepared remarks of management is attached as Exhibit 99.3, and incorporated herein by reference.

The prepared remarks of management accompanying management's discussion during the conference call include references to the non-GAAP financial measure free cash flow. The Company defines free cash flow for a given period as cash provided by operating activities for such period, less capital expenditures for such period. Management utilizes free cash flow as a measure of operating efficiency to determine the amount of cash remaining for general corporate and strategic purposes after funding operating activities and capital expenditures. Management believes this information is helpful to investors to determine the Company's cash available for these purposes. Free cash flow for any given period may be affected by a variety of factors, including but not limited to, changes in assets and liabilities and the timing of purchases and payments. Free cash flow is a supplemental non-GAAP measure and should not be considered in isolation or as a substitute for measures of performance prepared in accordance with generally accepted accounting principles.

The following table reconciles the Company's free cash flow for the six months ended June 30, 2004, to the Company's cash provided by operating activities for the six months ended June 30, 2004:

Edgar Filing: IHOP CORP - Form 8-K
