Item 1.01. Entry into a Material Definitive Agreement.

On October 14, 2005, Reliant Energy, Inc. (we) entered into a definitive settlement agreement with the states of California, Oregon and Washington, California s three largest investor-owned utilities and a number of other parties that resolves civil litigation and claims with respect to the California energy crisis of 2000 and 2001. The definitive agreement incorporates the final terms of the previously announced memorandum of understanding described in our press release dated August 15, 2005. Among other things, the definitive agreement provides that we will make a cash payment of \$150 million and waive our receivables for power deliveries in the California market from January 1, 2000 to June 21, 2001 as well as the interest owed on those receivables.

The definitive agreement is subject to approval by the Federal Energy Regulatory Commission and the courts where the class action lawsuits that are the subject of the settlement are pending. We expect to receive these approvals by the end of the year or the first quarter of 2006. Although the settlement resolves a number of the regulatory and civil proceedings relating to the California energy crisis of 2000 and 2001, it did not resolve all of our western state electricity and natural gas proceedings. For information on these proceedings, see Western States Electricity and Natural Gas Litigation in note 14(a) to the notes to the consolidated financial statements in our Form 10-K.

Apart from the agreement, we have no material relationship with any of the parties to the settlement. The summary description of the settlement is qualified by reference to the definitive settlement agreement, which is filed as an exhibit to this report. For additional information regarding the settlement and the impairment we recorded in the third quarter of 2005, see our Form 8-K filed on August 15, 2005.

Item 9.01. Financial Statements and Exhibits.
