Item 3.

Source and Amount of Funds or Other Consideration.

On February 1, 2008, SPV II, through Lehman Brothers International (Europe) (LB International) as broker, purchased 110,242,889 Ordinary Shares (including 945,813 American Depositary Shares representing

3,783,252 Ordinary Shares), representing approximately 11.05% of the outstanding Ordinary Shares (based on 997,542,790 Ordinary Shares outstanding as of January 25, 2008 as reported on the Issuer's Rule 2.10 Announcement of January 25, 2008), each in market transactions for an aggregate amount of approximately US\$13,151,047,424 (excluding stamp duties and applying The Bank of England GBP/USD Fix at 4:00 p.m. (GMT) on January 31, 2008) (the *Market Transaction*). In addition, on February 6, 2008, SPV II purchased from LB International 9,462,245 Ordinary Shares (representing approximately 0.95% of the outstanding Ordinary Shares as of January 25, 2008) for an aggregate amount of US\$884,583,695 (excluding stamp duties and financing costs and applying a GBP/USD exchange rate of US\$1.9768 for GBP1.00) pursuant to the physical settlement of a total return equity swap transaction (the *Swap Transaction*). The Market Transaction and the acquisition of Ordinary Shares pursuant to the physical settlement of the Swap Transaction are collectively referred to herein as the *Transactions*.

The Transactions were funded with the proceeds from (i) a US\$3.6 billion loan made by China Development Bank (CDB) to Chinalco, (ii) a US\$2.4 billion convertible loan made by CDB to Chinalco, (iii) a US\$7.0 billion loan under a US\$7.0 billion Term Loan Facility provided by CDB to SPV I and (iv) the issuance of a convertible note by SPV II to Alcoa in the aggregate amount of US\$1.2 billion. On February 1, 2008, Chinalco and Alcoa announced in a joint press release that SPV II had acquired approximately 12.00% of the outstanding Ordinary Shares as of January 25, 2008. A copy of the joint press release is attached hereto as Exhibit 99.2.

Foreign Exchange Loan and Convertible Foreign Exchange Loan to Chinalco

On January 30, 2008, Chinalco and CDB entered into a Foreign Exchange Loan Contract (the *FE Loan Contract*), pursuant to which CDB made available to Chinalco a two-year loan in the aggregate amount of US\$3.6 billion. In addition, on January 30, 2008, Chinalco, SPV I and CDB entered into a Foreign Exchange Loan Contract (Carrying a Share Conversion Option) (the *Convertible FE Loan*), pursuant to which CDB made available to Chinalco a three-year loan in the aggregate amount of US\$2.4 billion. The Convertible FE Loan provides that at any time following the disbursement of any loan, CDB will have the right to convert all or parts of the outstanding loan amount (excluding any portion of interest that is capitalized and recorded into the loan balance as provided for in the Convertible FE Loan) into a specified number of shares of SPV I, which will, in turn, reduce the principal amount outstanding under the loan. It is anticipated, and it is the parties' understanding, that upon the full conversion of the outstanding loan amount CDB will hold no more than 20% of the outstanding share capital of SPV I. The foregoing summary does not purport to be complete and is qualified in its entirety by reference to the English translation of the full text of the FE Loan Contract and the Convertible FE Loan, copies of which are filed as Exhibits 99.3 and 99.4 hereto and are incorporated herein by reference.

Term Loan Facility to SPV I

In addition, SPV I entered into a Facility Agreement (the *Parent Facility*) with CDB, pursuant to which CDB made available to SPV I a US dollar term loan facility of up to US\$7.0 billion. In connection with the Parent Facility, on February 3, 2008 SPV I and CDB entered into a Share Charge Over SPV 2 (the *Security Deed*) and a Debenture (the *SPV I Debenture*), pursuant to which SPV I granted CDB a security interest in certain present and future assets of SPV I, including shares of SPV II, as security for the discharge of SPV I's secured obligations. Under a Guarantee executed and delivered to CDB on February 3, 2008 (the *Guarantee*), Chinalco guaranteed SPV I's obligations under the Parent Facility. In connection with the Parent Facility, in the Sponsor Undertaking, executed on February 3, 2008 (the *Undertaking*), Chinalco agreed and covenanted that SPV I will at all times own 100.00% of the share capital of SPV II. In addition Chinalco agreed to cause all other persons who directly or indirectly own any shares of SPV I to undertake that SPV I will at all times own 100.00% of the share capital of SPV II. The relations among security interests granted under the Parent Facility and the Senior Facility (as defined below) are governed by an Intercreditor Agreement among CDB, SPV I and SPV II, executed on February 3, 2008 (the *Intercreditor Agreement*).

The foregoing summaries of the Parent Facility, the Security Deed, the SPV I Debenture, the Guarantee, the Undertaking and the Intercreditor Agreement do not purport to be complete and are qualified in their entirety by reference to the full text of the Parent Facility, the Security Deed, the SPV I Debenture, the English translation of the Guarantee, the Undertaking and the Intercreditor Agreement, copies of which are filed as Exhibits 99.5, 99.6, 99.7, 99.8, 99.9 and 99.10 hereto and are incorporated herein by reference.

Alcoa Note

A portion of the Transactions was financed with the proceeds from the issuance of a Convertible Senior Secured Note by SPV II to Alcoa on January 31, 2008 (the Alcoa Note). Under the Alcoa Note, SPV II promised to pay Alcoa an aggregate amount of up to US\$1.2 billion on February 1, 2011 (the Alcoa Note Maturity Date). In addition, SPV II will pay interest on the outstanding principal on a semi-annual basis in arrears at a rate equal to the average cost of capital of all third-party financing of SPV II. Alcoa will, however, contribute to SPV II any amounts that are necessary for SPV II to make the interest payments required under the Alcoa Note. If SPV II elects to purchase additional Ordinary Shares, Alcoa may participate in the funding of such purchase by contributing a pro rata portion of the cost of such additional Ordinary Shares. Upon Alcoa's participation and funding, Alcoa may require that the outstanding principal amount under the Alcoa Note and/or the number of shares of SPV II owned by Alcoa be increased accordingly.

In addition, Alcoa has the right, at any time following the expiration of the six-month period starting on January 31, 2008 or upon any winding-up or the liquidation of SPV II, to require SPV II to elect one of the following options: either (i) subject to applicable laws, to distribute in kind, in exchange for cancellation of the Alcoa Note and any equity interests into which it may have previously been converted, in whole or in part, to Alcoa the Equivalent Ordinary Shares and Other Property (as defined below) or (ii) to purchase Alcoa's debt and equity interest in SPV II at a price equal to the then-current market value of the Equivalent Ordinary Shares and Other Property. Equivalent Ordinary Shares and Other Property means a number of Ordinary Shares (and other assets and property) held by SPV II from time to time that bears the same relation to the total number of Ordinary Shares (and other assets and property) held by SPV II as does the dollar amount of Alcoa's total debt and equity investment and loans to SPV II to the dollar amount of all debt and equity investment and loans to SPV II, including the aggregate amount of debt financing provided to SPV II or its holding company by any third-party but only to the extent that the proceeds of such third-party debt financing have actually been used to purchase Ordinary Shares.

The Alcoa Note also provides that Alcoa may at any time and from time to time on or prior to the close of business on the business day immediately preceding the Alcoa Note Maturity Date convert the Alcoa Note, or any portion thereof, into a specified number of shares of SPV II. Upon the conversion of the full amount of the outstanding principal amount under the Alcoa Note, Alcoa would hold approximately 8.49% of the outstanding shares of SPV II. In addition, Alcoa is permitted at any time to increase the number of shares of SPV II which Alcoa would acquire upon full conversion of the Alcoa Note up to 25.00% of the outstanding share capital of SPV II. To achieve the foregoing, Alcoa may elect to increase the outstanding principal amount of the Alcoa Note or acquire shares of SPV II directly (or from Chinalco), in each case with tandem payment to Chinalco for the dilution.

Under the Alcoa Note, SPV II agreed to grant Alcoa a security interest to secure SPV II's obligations under the Alcoa Note in (i) the Equivalent Ordinary Shares and Other Property (and all additional shares of, and all securities convertible into and warrants, options and other rights to purchase or otherwise acquire, stock of the Issuer that is or will be from time to time acquired by SPV II in any manner (which shares will be deemed to be part of the Equivalent Ordinary Shares and Other Property)) and the certificates representing the Equivalent Ordinary Shares and Other Property, and any interest or securities entitlement of SPV II in the entries on the books of any financial or securities intermediary pertaining to the Equivalent Ordinary Shares and Other Property and (ii) all property or other proceeds received or otherwise distributed in respect of, or in exchange for, any or all of the collateral referred in clause (i) of this paragraph.

The Alcoa Note also provides that neither Alcoa nor Chinalco or any of their affiliates may acquire any Ordinary Shares or any ordinary shares of Rio Tinto Limited, a company incorporated in Victoria, Australia, or any interest in any such ordinary shares other than as contemplated in the Alcoa Note through SPV II, and none of Alcoa, Chinalco or any of their affiliates may otherwise take any action that would impose any obligation upon either of them or any of their affiliates to make any offer for any additional Ordinary Shares or ordinary shares of Rio Tinto Limited or with respect to any extraordinary transaction involving the Issuer or Rio Tinto Limited. In addition, Alcoa agreed that except as provided elsewhere in the Alcoa Note or as agreed by Chinalco, during the period beginning on January 31, 2008 and ending at the time when the Alcoa Note is no longer outstanding, it will not

without the prior written consent of Chinalco (i) effect or seek, offer or propose (whether publicly or otherwise) to effect, or announce any intention to effect or cause or participate in or in any way assist, facilitate or encourage any person to effect or seek, offer or propose (whether publicly or otherwise) to effect or participate in, (A) any acquisition of any securities or any assets, indebtedness or businesses of the Issuer, Rio Tinto Limited or any of their subsidiaries or controlled affiliates (the Rio Tinto Group), (B) any tender or exchange offer, merger or other business combination involving the Rio Tinto Group or assets of the Rio Tinto Group constituting a significant portion of the consolidated assets of the Rio Tinto Group, (C) any recapitalization, restructuring, liquidation, dissolution or extraordinary transaction with respect to the Rio Tinto Group or (D) any solicitation of proxies (as such terms are used in the proxy rules under the Act) or consents to vote any voting securities of the Issuer, Rio Tinto Limited or any of their controlled affiliates; (ii) form, join or in any way participate in a group as defined under Section 13(d) of the Act with respect to the Rio Tinto Group or otherwise act in concert with any person in respect of any such securities; (iii) otherwise act, alone or in concert with others, to seek representation on or to control or influence the management, the board of directors or policies of the Rio Tinto Group; (iv) take any action which would or would reasonably be expected to force the Rio Tinto Group to make a public announcement regarding any of the matters set forth in clause (i) of this paragraph; (v) enter into any discussions or arrangements with any third party with respect to any of the matters described in clauses (i) through (iv); or (vi) take any action that might restrict or limit the terms upon which SPV II might undertake an offer for the Rio Tinto Group at any time in the future.

SPV II and Alcoa further agreed to use best efforts to cooperate in good faith to amend the Alcoa Note at any time and from time to time to reflect the parties' common understanding and intentions with respect to the subject matters set forth in the Alcoa Note and the Memorandum of Understanding between Chinalco and Alcoa, dated January 30, 2008, and in respect of the wider financing arrangements for the acquisition of Ordinary Shares.

On February 6, 2008, SPV II and Alcoa entered into a Charge Over Shares (the Alcoa Deed), pursuant to which SPV II granted Alcoa a security interest in certain Ordinary Shares acquired by SPV II with the proceeds from the issuance of the Alcoa Note in connection with the Transactions as security for the discharge of SPV II's obligations under the Alcoa Note. For purposes of creating the security interest over the Ordinary Shares, SPV II created a securities account and appointed LB International as custodian for such securities account pursuant to a custody agreement.

The foregoing summary of the Alcoa Note and the Alcoa Deed does not purport to be complete and is qualified in its entirety by reference to the full text of the Alcoa Note and the Alcoa Deed, copies of which are filed as Exhibits 99.11 and 99.12 hereto and are incorporated herein by reference.

Senior Secured Term Loan Facility to SPV II

In connection with the Transactions, SPV II and CDB also entered into a Senior Secured Facility Agreement (the Senior Facility) dated February 3, 2008, pursuant to which CDB made available to SPV II a US dollar term loan facility of up to US\$7.0 billion. As of the date hereof, SPV II has borrowed, but not used, an aggregate amount of US\$2.0 billion under the Senior Facility. In connection with the Senior Facility and the Parent Facility (as defined below), on February 3, 2008, SPV II and CDB entered into a Security Over Shares Agreement (the SPV II Security Agreement) and a Debenture (the SPV II Debenture), pursuant to which SPV II granted CDB a security interest in certain present and future assets of SPV II, including certain Ordinary Shares purchased by it, as security for the discharge of SPV II's secured obligations. For purposes of creating the security interest over the Ordinary Shares, SPV II created a securities account and appointed LB International as custodian for such securities account pursuant to a custody agreement. The foregoing summaries of the Senior Facility, the SPV II Security Agreement and the SPV II Debenture do not purport to be complete and are qualified in their entirety by reference to the full text of the Senior Facility, the SPV II Security Agreement and the SPV II Debenture, copies of which are filed as Exhibits 99.13, 99.14 and 99.15 hereto and are incorporated herein by reference.

Amendments to Financing Arrangements

CDB, SPV I and SPV II entered into a Waiver Letter, dated February 2, 2008 (the Waiver Letter), pursuant to which, among other matters, the parties agreed to cooperate to effect any necessary or desirable amendment or waiver of the Senior Facility or any related finance documents or the Parent Facility and any related finance documents. The foregoing summary of the Waiver Letter does not purport to be complete and is qualified in its entirety by reference to the full text of the Waiver Letter, a copy of which is filed as Exhibit 99.16 hereto and is incorporated herein by reference.

Item 4.

Purpose of Transaction.

The information set forth and/or incorporated by reference in Item 3 of this Schedule 13D is hereby incorporated by reference in this Item 4. On November 1, 2007, BHP Billiton/BHP Billiton plc (together, "BHP") approached the Issuer and Rio Tinto Limited, an Australian corporation (together, Rio), with a proposal to combine Rio and BHP. On November 8, 2007, BHP confirmed that it had approached Rio and subsequently engaged in a global road show relating to its proposal to acquire Rio in a transaction in which Rio shareholders would have received 3 BHP shares for each Ordinary Share which valued Rio at approximately US\$130.0 billion. Rio declined to negotiate with BHP and on December 21, 2007 the UK Takeover Panel ruled that BHP had until February 6, 2008 to either announce the intention to make a firm offer or to announce that it had no such intention and withdraw its proposal. On February 5, 2008, BHP made an offer of 3.4 BHP shares for each Ordinary Share which valued Rio at approximately US\$147.0 billion (the Pre-Conditional Offer). The Pre-Conditional Offer contains a minimum acceptance condition requiring acceptances relating to more than 50% of the Ordinary Shares. BHP also proposed a buy-back of up to US\$30.0 billion within one year of completing the Pre-Conditional Offer. The Pre-Conditional Offer is subject to satisfaction or waiver of the pre-conditions in the offer which relate to the obtaining of certain clearances in Europe, Australia, the United States, Canada and South Africa which BHP expects to obtain during the second half of 2008. On February 6, 2008 Rio rejected the Pre-Conditional Offer, stating that the Pre-Conditional Offer significantly undervalued Rio and was not in the best interests of its shareholders. On February 1, 2008, Chinalco and Alcoa announced that they had entered into the Transactions and that SPV II had acquired 119,705,134 Ordinary Shares representing approximately 12.00% of the outstanding Ordinary Shares as of January 25, 2008. Chinalco is one of the largest diversified metals and mining companies in China and is engaged in exploration, mining and downstream processing of mineral resources including bauxite, alumina, aluminum, copper, as well as other non-ferrous metals. Chinalco is the largest alumina and primary aluminum producer in China and one of the leading alumina and primary aluminum producers in the world. Alcoa is a world leader in the production and management of primary aluminum, fabricated aluminum and alumina combined, through its active and growing participation in all major aspects of the industry: technology, mining, refining, smelting, fabricating and recycling. Aluminum and alumina represent approximately three-fourths of Alcoa's revenues. Nonaluminum products include precision castings, industrial fasteners, consumer products, food service and flexible packaging products, plastic closures, and electrical distribution systems for cars and trucks. Alcoa's products are used worldwide in aircraft, automobiles, commercial transportation, packaging, consumer products, building and construction, and industrial applications. The Transactions reflect Chinalco's confidence in the long-term prospects for the rapidly evolving global mining sector. Chinalco has confidence in the fundamental value of the Rio Tinto Group and its management's strong ability to realize that value for its shareholders. The Transactions are part of Chinalco's ongoing strategy of growth and diversification consistent with Chinalco's ambition to become a global leading diversified resource company. Chinalco has operations across 21 provinces in China and has eight overseas subsidiaries in five continents of the world. Accordingly, the Transactions reflect Chinalco's determination to increase and diversify its exposure to the sector and to be well positioned within this changing industry landscape. Chinalco (through its subsidiaries, including Chinalco Overseas) recently extended its operations to a number of overseas resource projects and made financial investments in Australia, Peru, Vietnam and a number of other countries. Alcoa has a long history of supporting aluminum industry investments in China and globally. In 2001, Alcoa successfully supported the initial public offering of Chinalco's subsidiary, Aluminum Corporation of China Ltd. Alcoa is a significant metals producer in Australia, Canada, the United States and Europe. Separately, on May 8, 2007, Alcoa made an offer to acquire all of the outstanding common shares of Alcan Inc. (Alcan), in a transaction valued at approximately US\$33.0 billion. Subsequently, on July 24, 2007, Rio Tinto Canada Holding Inc., an indirect wholly owned subsidiary of the Issuer made an offer to acquire all of the outstanding common shares of Alcan and successfully completed the purchase of all such shares on November 14, 2007, in a transaction valued at approximately US\$42.5 billion.

In their press release of February 1, 2008 relating to the Transactions (a copy of which is filed as Exhibit 99.2 to this Schedule 13D), Chinalco and Alcoa confirmed that they did not currently intend to make an offer for the Issuer (the Statement). If a person chooses to make such a statement, under Rule 2.8 and other applicable provisions of The City Code on Takeovers and Mergers of the United Kingdom (which governs conduct in respect of acquisitions and related matters for publicly traded companies in the United Kingdom (the City Code)) such person is prohibited from announcing, making or (except for certain permitted actions) taking any steps to prepare to announce or make such an offer for a period of six months following a statement of intent such as the Statement, unless, and except to the extent that, they specifically reserve their rights to do so. In the Statement, however, for purposes of Rule 2.8 and other relevant provisions of the City Code, Chinalco and Alcoa reserved the right to announce an offer or possible offer or make or participate in an offer or possible offer for the Issuer and/or to take any other action which would otherwise be restricted under Rule 2.8 of the City Code within the six-month period, in the event that: (i) an agreement or recommendation from the board of directors of the Issuer is or will be forthcoming; (ii) there is an announcement by a third party, other than BHP, of a possible offer or a firm intention to make an offer for the Issuer, or the Issuer announces that it has received an approach in relation to a possible offer from a third party other than BHP; (iii) BHP announces a firm intention, on improved consideration terms from its initial proposal, to make an offer for the Issuer whether or not subject to any pre-conditions or revises the terms of any such offer; (iv) the Issuer undertakes or announces an intention to undertake any acquisition or disposal of a material amount (as defined in Rule 21.1 of the City Code), or any material recapitalization, other than the current purchase of its own shares pursuant to the authority granted at the annual general meeting of the Issuer on April 13, 2007 (where material is defined as 10.00% or more of the combined market capitalization of the Issuer and Rio Tinto Limited as at the close of business on the date of the Statement); (v) the Issuer announces a whitewash proposal for purposes of Rule 9 of the City Code or a reverse takeover; or (vi) there is a material change of circumstances. The Pre-Conditional Offer satisfies the terms set forth in clause (iii) above, and accordingly Chinalco and Alcoa are no longer restricted from announcing an offer or possible offer or making or participating in an offer or possible offer. In response to BHP's announcement of the Pre-Conditional Offer, Chinalco and Alcoa on February 6, 2008 issued a joint press release, indicating that they planned to closely monitor further developments, in particular any response from the board of directors of the Issuer. A copy of the joint press release is attached hereto as Exhibit 99.17.

It is not possible to predict developments with respect to the proposed acquisition of the Issuer/Rio Tinto Limited by BHP, nor other developments in the industries and global economy in which those companies, Chinalco and Alcoa operate. However, the Reporting Persons believe that their interest in the Ordinary Shares may provide them with a strategic position in connection with any such developments. In this connection and more generally, the Reporting Persons intend to closely monitor and review the situation generally and their investment in the Issuer in particular on a continuing basis.

Depending on various factors, including, without limitation, developments in respect of the proposal by BHP to acquire the Issuer/Rio Tinto Limited, the Issuer's financial position and strategic direction, the Issuer's or other persons' response to any actions or positions that may be suggested or taken by the Reporting Persons, price levels of the Ordinary Shares, and conditions in the securities market and general economic and industry conditions, the Reporting Persons reserve their right to, subject to the applicable provisions of the City Code (as regulated by the UK Takeover Panel) and other law and regulation, in the future, either alone or in concert with another person, take such actions with respect to the Issuer and their investment in the Issuer as they deem appropriate, including, but not limited to, purchasing or otherwise acquiring additional Ordinary Shares or other interests in the Issuer, selling some or all of their Ordinary Shares, communicating, negotiating with, seeking to negotiate with, or making proposals to the Issuer, investors or BHP or other industry participants, seeking to acquire or exercise control of, or making an offer for, the Issuer or some or all of the Issuer's assets or properties, or making proposals in such regard, or conducting a proxy solicitation or otherwise exercising their voting power with respect to the board of directors of the Issuer or as to other matters within the power of the shareholders of the Issuer.

As detailed in, and subject to the terms of, the applicable provisions of the City Code, the Reporting Persons reserve their right to change their plans or intentions and to take any and all actions that they may deem appropriate to maximize the value of their investment in the Issuer in light of market conditions, subsequent developments affecting the Issuer, the Reporting Persons and other market participants, the general business and future prospects of the Issuer, the Reporting Persons and other market participants and the Reporting Persons' investment policies and opportunities.

Other than as set forth herein, the Reporting Persons do not have any present plan or proposal that would relate to, or result in, any of the matters set forth in paragraphs (a) through (j) of Item 4 of Schedule 13D.

Item 5.

Interest in Securities of the Issuer.

(a) and (b) The information contained on the cover pages to this Schedule 13D is incorporated herein by reference.

Chinalco, Chinalco Overseas, SPV I and SPV II beneficially own 119,705,134 Ordinary Shares. The Ordinary Shares beneficially owned by Chinalco, Chinalco Overseas, SPV I and SPV II represent approximately 12.00% of the outstanding Ordinary Shares as of January 25, 2008. Alcoa does not beneficially own any Ordinary Shares, however, the Alcoa Note is secured by 10,161,745 Ordinary Shares owned by SPV II which represents approximately 1.02% of the outstanding Ordinary Shares as of January 25, 2008. In addition, Alcoa has the right, at any time following the expiration of the six-month period starting on January 31, 2008 or upon any winding-up or the liquidation of SPV II, to require SPV II to elect one of the following options: either (i) subject to applicable laws, to distribute in kind, in exchange for cancellation of the Alcoa Note and any equity interests into which it may have previously been converted, in whole or in part, to Alcoa the Equivalent Ordinary Shares and Other Property or (ii) to purchase Alcoa's debt and equity interest in SPV II at a price equal to the then-current market value of the Equivalent Ordinary Shares and Other Property. Furthermore, Alcoa may at any time and from time to time on or prior to the close of business on the business day immediately preceding the Alcoa Note Maturity Date convert the Alcoa Note, or any portion thereof, into a specified number of shares of SPV II. Upon the conversion of the full amount of the outstanding principal amount under the Alcoa Note, Alcoa would hold approximately 8.49% of the outstanding shares of SPV II.

(c) For purposes of the Market Transaction, on January 31, 2008, SPV II entered into a letter agreement with LB International, pursuant to which SPV II agreed to purchase up to 12.50% of the outstanding Ordinary Shares from LB International, its broker, on February 1, 2008. In addition, on February 5, 2008, SPV II and LB International agreed in a side letter to that letter agreement that the purchase price per Ordinary Share was GBP 60.00. In connection with the settlement of the Market Transaction, pursuant to a settlement agreement among LB International, Lehman Brothers Special Financing Inc., SPV II and Alcoa, dated February 5, 2008, SPV II directed LB International to transfer 10,161,745 Ordinary Shares to a securities account with LB International to secure the Alcoa Note as described above.

On January 24, 2008, SPV II and LB International entered into a total return equity swap transaction (referred to under Item 3 as the Swap Transaction) in respect of 9,462,245 Ordinary Shares (representing approximately 0.95% of the outstanding Ordinary Shares). The Ordinary Shares underlying the Swap Transaction had an initial price of approximately US\$93.49 per Ordinary Share. Physical settlement applied to the Swap Transaction unless SPV II elected cash settlement. The Swap Transaction originally provided for settlement and termination on February 22, 2008.

On February 1, 2008, SPV II terminated a portion of the Swap Transaction with respect to 3,491,400 Ordinary Shares, and on February 4, 2008, SPV II terminated the remaining outstanding portion of the Swap Transaction. Physical settlement of the terminated Swap Transaction occurred on February 6, 2008, and LB International delivered to SPV II 9,462,245 Ordinary Shares and SPV II paid LB International an amount in cash equal to US\$884,583,695 (excluding stamp duties and financing costs and applying a GBP/USD exchange rate of US\$1.9768 for GBP 1.00). Except as otherwise set forth in this Schedule 13D, none of the Reporting Persons or, to the best of the Reporting Persons' knowledge as of the date hereof, any of the persons named in Schedules I, II, III and IV hereto, has engaged in any transaction in the Ordinary Shares of the Issuer during the past 60 days.

(d) Other than the Reporting Persons, to the best of the Reporting Persons' knowledge as of the date hereof, none of the persons named in Schedules I, II, III and IV hereto or any other person has the right to receive or the power to direct the receipt of dividends from, or the proceeds from sale of, the Ordinary Shares.

(e) Not applicable.

Item 6.

Contracts, Arrangements, Understandings or Relationships With Respect to Securities of the Issuer.

The information set forth in Item 3 and Item 4 of this Schedule 13D is hereby incorporated by reference in this Item 6.

Memorandum of Understanding between Chinalco and Alcoa

On January 30, 2008, Chinalco and Alcoa entered into a non-binding Memorandum of Understanding (the "Memorandum"). The Memorandum sets forth the terms and conditions of Alcoa's participation in the Transactions and contains a summary of the material terms of the Alcoa Note, including Alcoa's option to convert additional portions of the loan under the Alcoa Note and/or to loan additional funds as agreed by the parties. In addition, the Memorandum contemplates, among other necessary documentation, the entry by the parties within 30 days following the completion of the Transactions into a shareholder agreement that will contain the governance provisions of SPV II and customary protection rights for minority shareholders and anti-dilution provisions. Under the Memorandum, Chinalco and Alcoa also agreed to coordinate and consult with each other on public comments, press releases or announcements relating to the matters described in the Memorandum. The foregoing summary of the Memorandum does not purport to be complete and is qualified in its entirety by reference to the full text of the Memorandum, a copy of which is filed as Exhibit 99.18 hereto and is incorporated herein by reference.

Except as set forth in this Schedule 13D, there are no other contracts, arrangements, understandings or relationships (legal or otherwise) between the Reporting Persons and any other person with respect to any securities of the Issuer.
