**SINCLAIR BROADCAST GROUP, INC.**

**NOTES TO UNAUDITED CONSOLIDATED FINANCIAL STATEMENTS**

**1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES:**

*Principles of Consolidation*

The consolidated financial statements include our accounts and those of our wholly-owned and majority-owned subsidiaries and variable interest entities (VIEs) for which we are the primary beneficiary. Noncontrolling interests represent a minority owner's proportionate share of the equity in certain of our consolidated entities. All significant intercompany transactions and account balances have been eliminated in consolidation.

*Interim Financial Statements*

The consolidated financial statements for the three months ended March 31, 2010 and 2009 are unaudited. In the opinion of management, such financial statements have been presented on the same basis as the audited consolidated financial statements and include all adjustments, consisting only of normal recurring adjustments necessary for a fair presentation of the consolidated balance sheets, consolidated statements of operations and consolidated statements of cash flows for these periods as adjusted for the adoption of recent accounting pronouncements discussed below.

As permitted under the applicable rules and regulations of the Securities and Exchange Commission (SEC), the consolidated financial statements do not include all disclosures normally included with audited consolidated financial statements and, accordingly, should be read together with the audited consolidated financial statements and notes thereto in our Annual Report on Form 10-K for the year ended December 31, 2009 filed with the SEC. The consolidated statements of operations presented in the accompanying consolidated financial statements are not necessarily representative of operations for an entire year.

*Variable Interest Entities*

In June 2009, the Financial Accounting Standards Board (FASB) issued amended guidance on the consolidation of variable interest entities (VIEs). The intent of this guidance is to improve financial reporting by enterprises involved with VIEs and to provide more relevant and reliable information to users of financial statements. The new guidance will require a number of new disclosures and companies are required to perform ongoing reassessments of whether they are the primary beneficiary of a VIE for financial reporting purposes. This guidance is effective as of the beginning of each reporting entity's first annual reporting period that begins after November 15, 2009, for interim periods within that first annual reporting period and for interim and annual reporting periods thereafter.

## Edgar Filing: SINCLAIR BROADCAST GROUP INC - Form 10-Q

In determining whether we are the primary beneficiary of a VIE for financial reporting purposes, we consider whether we have the power to direct the activities of the VIE that most significantly impact the economic performance of the VIE and whether we have the obligation to absorb losses or the right to receive returns that would be significant to the VIE. We consolidate VIEs when we are the primary beneficiary. The assets of the consolidated VIEs can only be used to settle the obligations of the VIE. All the liabilities including debt held by our VIEs are non-recourse to us. However, certain VIE debt contains cross-default provisions under our senior secured credit facility (Bank Credit Agreement). See *Note 4, Related Person Transactions* for more information.

We have a Local Marketing Agreement (LMA) to provide programming, sales and managerial services to Cunningham Broadcasting Corporation (Cunningham), the license owner for six television stations. We pay an LMA fee to Cunningham and also reimburse all operating expenses. We also have an acquisition agreement in which we have a purchase option to buy the license assets of the television stations. Our applications to acquire the Federal Communications Commission (FCC) licenses are pending approval. We have determined that the license assets are VIEs and that based on the terms of the agreements, we are the primary beneficiary of the variable interests because we have the power to direct the activities which significantly impact the economic performance of the VIE through the sales and managerial services we provide and we absorb losses and returns that would be considered significant to Cunningham. See *Note 4, Related Person Transactions* for more information on our arrangements with Cunningham.

We have outsourcing agreements with license owners, which we provide certain non-programming related sales, operational and administrative services. We pay a fee to the license owner based on a percentage of broadcast cash flow and we reimburse all operating expenses. We also have a purchase option to buy the license assets. Our applications to acquire these FCC licenses are pending FCC approval. For the same reasons noted above regarding the LMA, we have determined that the license assets are VIEs and we are the primary beneficiary.

Table of Contents

As of the dates indicated, the carrying amounts and classification of the assets and liabilities of the VIEs mentioned above which have been included in our consolidated balance sheets were as follows (in thousands):

	As of March 31,	
	2010	As of December 31, 2009
<b>ASSETS</b>		
<b>CURRENT ASSETS:</b>		
Cash and cash equivalents	\$ 4,444	\$ 4,127

Total current liabilities	12,166	12,426
<b>LONG-TERM LIABILITIES:</b>		
Notes payable, capital leases and commercial bank financing, less current portion	21,778	24,540
Program contracts payable, less current portion	350	444
Deferred tax liabilities	218	218
Total liabilities	\$ 34,512	\$ 37,628

The amounts above represent the consolidated assets and liabilities of the VIEs related to our LMA and outsourcing agreements and have been aggregated as they all relate to our broadcast business and the risk and reward characteristics of the VIEs are similar.

Under the previously applicable accounting guidance for consolidation, we had determined that we had a variable interest in four real estate ventures and that we were the primary beneficiary of those VIEs and should consolidate the assets and liabilities of those entities. However, under the new accounting guidance for consolidation which is effective January 1, 2010, we no longer consider one of these investments to be a VIE since the investment does not meet the VIE criteria under the new accounting guidance. We still consolidate the assets and liabilities of this entity pursuant to other accounting guidance based on voting-interests. Under the new accounting guidance for consolidation, we no longer consider ourselves the primary beneficiary of the other three real estate ventures since as the manager of the venture, the other partner holds the power to direct activities that significantly impact the economic performance of the VIE and can participate in returns that would be considered significant to the VIE. The effect of this change is not material to our consolidated financial statements.

## Edgar Filing: SINCLAIR BROADCAST GROUP INC - Form 10-Q

We have investments in other real estate ventures and investment companies which are considered VIEs. However, we do not participate in the management of these entities including the day-to-day operating decisions or other decisions which allow us to control the entity, and therefore, we are not considered the primary beneficiary of the VIE. We account for these entities using the equity or cost method of accounting.

Table of Contents

The carrying amounts of our investments in these VIEs for which we are not the primary beneficiary as of March 31, 2010 and December 31, 2009 are as follows (in thousands):

	As of March 31, 2010		As of December 31, 2009	
	Carrying amount	Maximum exposure	Carrying amount	Maximum exposure
Investments in real estate ventures	\$ 8,742	\$ 8,742	\$ 8,796	\$ 8,796
Investments in investment companies	24,087	38,887	21,108	37,908
Total	\$ 32,829	\$ 47,629	\$ 29,904	\$ 46,704

The carrying amounts above are included in other assets in the consolidated balance sheets. We recorded income (loss) of \$0.9 million and (\$0.6) million in the quarters ended March 31, 2010 and 2009, respectively, related to these investments in income (loss) from equity and cost method investments in the consolidated statements of operations.

Our maximum exposure is equal to the carrying value of our investments plus any unfunded commitments. As of March 31, 2010 and December 31, 2009, these outstanding commitments totaled \$14.8 million and \$16.8 million, respectively.

***Recent Accounting Pronouncements***

In September 2009, the FASB ratified the Emerging Issues Task Force's amended guidance on accounting for revenue arrangements with multiple deliverables. The amended guidance allows the use of an estimated selling price for the undelivered units of accounting in transactions in which vendor-specific objective evidence (VSOE) or third-party evidence (TPE) does not exist. The amended guidance no longer allows the use of the residual method when allocating arrangement consideration between the delivered and undelivered units of accounting if VSOE and TPE of selling price does not exist for all units of accounting. Entities are required to estimate the selling price of the deliverables, when VSOE and TPE are not available, and then allocate the consideration based on the relative selling prices of the deliverables. This guidance also requires additional disclosures including the amount of revenue recognized each reporting period and the amount of deferred revenue as of the end of each reporting period under this guidance. This guidance is effective for revenue arrangements entered into or materially modified in fiscal years beginning after June 15, 2010 and should be applied on a prospective basis. We have not determined the impact that this guidance will have on our consolidated financial statements.

In January 2010, the FASB amended the guidance on fair value measurements and disclosures to add two new disclosure provisions to the current fair value disclosure guidance, including (1) details of transfers in and out of level 1 and level 2 measurements, and (2) gross presentation of activity within the level 3 roll forward. The guidance also amends two existing fair value disclosure requirements so that entities are required to disclose (1) the valuation techniques and inputs used to develop fair value measurements for assets and liabilities that are measured at fair value on both a recurring basis and nonrecurring basis in periods subsequent to initial recognition and (2) fair value measurement disclosures for each class of assets and liabilities. A class is defined as a subset of assets or liabilities within a line item in the statement of financial position. The guidance is for interim and annual reporting periods beginning after December 15, 2009, except for the changes to the level 3 roll forward which are effective for fiscal years beginning after December 15, 2010. We have added the required disclosures under this guidance to our consolidated financial statements beginning with the first quarter of 2010.

*Use of Estimates*

The preparation of financial statements in accordance with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets, liabilities, revenues and expenses in the consolidated financial statements and in the disclosures of contingent assets and liabilities. Actual results could differ from those estimates.

*Restricted Cash and Debt Redemptions*

During the first quarter of 2010, we completed tender offers to purchase for cash any and all of the outstanding 3.0% Convertible Senior Notes due 2027 (the 3.0% Notes) and 4.875% Convertible Senior Notes due 2018 (the 4.875% Notes) at 100% of the face value of such notes. We used \$26.6 million of restricted cash to pay for such redemptions. We redeemed approximately \$12.3 million and \$14.3 million of the 3.0% and 4.875% Notes, respectively. As of March 31, 2010, we held \$37.8 million in a restricted cash collateral account to be used for the redemption of the remaining \$15.4 million aggregate principal amount of 3.0% Notes and \$22.7 million aggregate principal amount of 4.875% Notes. Any unused funds with respect to each series of notes held in the cash collateral account will be released to us and used for general corporate purposes after the expiration of the put options in May 2010 for the 3.0% Notes and in January 2011 for the 4.875% Notes. All of the restricted cash classified as current as of March 31, 2010 relates to the May 2010 and January 2011 put options. Additionally, under the terms of certain lease agreements, we are required to hold \$0.5 million of restricted cash related to the removal of analog equipment from some of our leased towers.

***Stock-Based Compensation***

On March 12, 2010, 300,000 stock-settled appreciation rights (SARs) were granted to David Smith, our President and Chief Executive Officer, pursuant to the 1996 Long-Term Incentive Plan. The SARs have a 10-year term and are fully vested upon grant. The SARs had a grant date fair value of \$1.6 million. We valued the SARs using the Black-Scholes model and the following assumptions:

Risk-free interest rate	3.847%
Expected life	10 years
Expected volatility	110.38%
Annual dividend yield	0.0%

We recorded compensation expense of \$1.6 million related to this grant in the first quarter 2010. This expense reduces our consolidated income, but has no effect on our consolidated cash flows.

***Income Taxes***

Our income tax provision for all periods consists of federal and state income taxes. The tax provision for the three months ended March 31, 2010, is based on the estimated effective tax rate applicable for the full year after taking into account discrete tax items and the effects of the noncontrolling interests.

***Reclassifications***

Certain reclassifications have been made to prior years' consolidated financial statements to conform to the current year's presentation.

**2. COMMITMENTS AND CONTINGENCIES:**

***Litigation***

We are party to lawsuits and claims from time to time in the ordinary course of business. Actions currently pending are in various preliminary stages and no judgments or decisions have been rendered by hearing boards or courts in connection with such actions. After reviewing developments to date with legal counsel, our management is of the opinion that the outcome of our pending and threatened matters will not have a material adverse effect on our consolidated balance sheets, consolidated statements of operations or consolidated statements of cash flows.

*Network Affiliation Agreements*

Our ABC network affiliation agreements were scheduled to expire December 31, 2009. We extended these affiliation agreements until March 31, 2010, while we continued negotiations. On March 25, 2010, we agreed to terms on a renewal of the ABC network affiliation agreements, expiring August 31, 2015. Pursuant to the terms we are required to pay an annual license fee to ABC for network programming.

Our FOX affiliation agreements require us to receive FOX's consent prior to entering into retransmission consent agreements that include content provided by FOX. FOX has recently begun conditioning its consent on its affiliates agreeing to pay FOX compensation related to such retransmission consent agreements. Sinclair, and other FOX affiliates, are currently negotiating with FOX on this issue. As of March 31, 2010, the net book value of our FOX network affiliation assets was \$32.4 million.

Table of Contents**3. EARNINGS (LOSS) PER SHARE**

The following table reconciles income (loss) (numerator) and shares (denominator) used in our computations of earnings (loss) per share for the three months ended March 31, 2010 and 2009 (in thousands):

	<b>Three Months Ended March 31,</b>	
	<b>2010</b>	<b>2009</b>
<b>Income (Loss) (Numerator)</b>		
Income (loss) from continuing operations	\$ 11,060	\$ (87,039)
Net loss attributable to noncontrolling interests included in continuing operations	526	1,492
Numerator for diluted earnings (loss) per common share from continuing operations available to common shareholders	11,586	(85,547)
Loss from discontinued operations	(66)	(108)
Numerator for diluted earnings (loss) available to common shareholders	\$ 11,520	\$ (85,655)
<b>Shares (Denominator)</b>		
Weighted-average common shares outstanding	79,957	80,815
Weighted-average common and common equivalent shares outstanding	79,957	80,815

Potentially dilutive securities representing 8.9 million and 28.3 million for the three months ended March 31, 2010 and 2009, respectively, were excluded from the computation of diluted earnings (loss) per common share for these periods because their effect would have been antidilutive. The net income (loss) per share amounts are the same for Class A and Class B Common Stock because the holders of each class are legally entitled to equal per share distributions whether through dividends or in liquidation.

**4. RELATED PERSON TRANSACTIONS**

David, Frederick, Duncan and Robert Smith (collectively, the controlling shareholders) are brothers and hold substantially all of the Class B Common Stock and some of our Class A Common Stock. Since the end of our last fiscal year, we engaged in the following transactions with them and/or entities in which they have substantial interests.

*Cunningham Broadcasting Corporation.* Concurrently with our initial public offering, we acquired options from trusts established by Carolyn C. Smith, a parent of our controlling shareholders, for the benefit of her grandchildren that will grant us the right to acquire, subject to applicable FCC rules and regulations, 100% of the capital stock of Cunningham. Cunningham is the owner-operator and FCC licensee of: WNUV-TV in Baltimore, Maryland; WRGT-TV in Dayton, Ohio; WVAH-TV in Charleston, West Virginia; WTAT-TV in Charleston, South Carolina; WMYA-TV in Anderson, South Carolina; and WTTE-TV in Columbus, Ohio.

We made payments to Cunningham under the LMA agreements of \$4.5 million and \$1.7 million for the three months ended March 31, 2010 and 2009, respectively.

## Edgar Filing: SINCLAIR BROADCAST GROUP INC - Form 10-Q

For the three months ended March 31, 2010, Cunningham's stations provided us with approximately \$22.0 million of total revenue. The financial statements for Cunningham are included in our consolidated financial statements for all periods presented. Our Bank Credit Agreement contains certain cross-default provisions with certain material third-party licensees. As of March 31, 2010, Cunningham was the sole material third-party licensee.

*Related Person Leases.* Certain assets used by us and our operating subsidiaries are leased from Cunningham Communications, Inc., Keyser Investment Group, Gerstell Development Limited Partnership and Beaver Dam, LLC (entities owned by some or all of the controlling shareholders). Lease payments made to these entities were \$1.2 million for each of the three months ended March 31, 2010 and 2009.

*Bay TV.* In January 1999, we entered into a LMA with Bay Television, Inc. (Bay TV), which owns the television station WTTA-TV in Tampa/St. Petersburg, Florida market. Our controlling shareholders own a substantial portion of the equity of Bay TV. Payments made to Bay TV were \$0.4 million and \$1.7 million for the three months ended March 31, 2010 and 2009 respectively. We received \$0.1 million for each of the three months ended March 31, 2010 and 2009 from Bay TV for certain equipment leases.

*Atlantic Automotive Corporation.* We sold advertising time to and purchased vehicles and related vehicle services from Atlantic Automotive Corporation (Atlantic Automotive), a holding company which owns automobile dealerships and an automobile leasing

Table of Contents

company. David Smith, our President and Chief Executive Officer, has a controlling interest in, and is a member of the Board of Directors of Atlantic Automotive. Our stations in Baltimore, Maryland and Norfolk, Virginia received payments for advertising time totaling less than \$0.1 million for each of the three months ended March 31, 2010 and 2009. We paid \$0.1 million for vehicles and related vehicle services from Atlantic Automotive during each of the three months ended March 31, 2010 and 2009.

*Thomas & Libowitz P.A.* Basil A. Thomas, a member of our Board of Directors, is the father of a partner and founder of Thomas & Libowitz, P.A., a law firm providing legal services to us on an ongoing basis. We paid fees of \$0.2 million to Thomas & Libowitz during each of the three months ended March 31, 2010 and 2009.

**5. SEGMENT DATA:**

We measure segment performance based on operating income (loss). Our broadcast segment includes stations in 35 markets located predominately in the eastern, mid-western and southern United States. Our other operating divisions segment primarily earned revenues from sign design and fabrication; regional security alarm operating and bulk acquisitions; and real estate ventures. All of our other operating divisions are located within the United States. Corporate costs primarily include our costs to operate as a public company and to operate our corporate headquarters location. Corporate is not a reportable segment. We had \$163.1 million and \$114.6 million of intercompany loans between the broadcast segment, operating divisions segment and corporate as of March 31, 2010 and 2009, respectively. We had \$4.7 million and \$3.0 million in intercompany interest expense related to intercompany loans between the broadcast segment, other operating divisions segment and corporate for the three months ended March 31, 2010 and 2009, respectively. All other intercompany transactions are immaterial.

Financial information for our operating segments are included in the following tables for the three months ended March 31, 2010 and 2009 (in thousands).

Table of Contents**6. FAIR VALUE MEASUREMENTS:**

Accounting guidance provides for valuation techniques, such as the market approach (comparable market prices), the income approach (present value of future income or cash flow), and the cost approach (cost to replace the service capacity of an asset or replacement cost). A fair value hierarchy using three broad levels prioritizes the inputs to valuation techniques used to measure fair value. The following is a brief description of those three levels:

- *Level 1:* Observable inputs such as quoted prices (unadjusted) in active markets for identical assets or liabilities.
- *Level 2:* Inputs other than quoted prices that are observable for the asset or liability, either directly or indirectly. These include quoted prices for similar assets or liabilities in active markets and quoted prices for identical or similar assets or liabilities in markets that are not active.
- *Level 3:* Unobservable inputs that reflect the reporting entity's own assumptions.

The carrying value and fair value of our notes, debentures, program contracts payable and non-cancelable commitments as of March 31, 2010 and December 31, 2009 were as follows (in thousands):

	March 31, 2010		December 31, 2009	
	Carrying Value	Fair Value	Carrying Value	Fair Value
8.0% Senior Subordinated Notes, due 2012	\$ 225,395	\$ 222,978	\$ 225,488	\$ 220,731
6.0% Convertible Debentures, due 2012	123,421	127,080	122,482	111,991
4.875% Convertible Senior Notes, due 2018	22,685	22,118	37,016	36,091
3.0% Convertible Senior Notes, due 2027	15,352	15,057	27,383	27,044
9.25% Senior Secured Second Lien Notes, due 2017	486,806	525,000	486,519	518,125
Bank Credit Agreement, Term Loan B	323,783	351,625	323,551	314,306
Cunningham Bank Credit Facility	30,158	30,653	32,900	32,900
Active program contracts payable	120,488	105,139	140,443	124,951
Future program liabilities (a)	79,973	63,665	70,038	56,202
Total fair value	\$ 1,428,061	\$ 1,463,315	\$ 1,465,820	\$ 1,442,341

(a) Future program liabilities reflect a license agreement for program material that is not yet available for its first showing or telecast and is, therefore, not recorded as an asset or liability on our balance sheet.

Our notes and debentures payable are fair valued using Level 1 hierarchy inputs described above. Our Term Loan B and Cunningham's bank credit facility are fair valued using Level 2 hierarchy inputs described above.

Our estimates of active program contracts payable and future program liabilities were based on discounted cash flows using Level 3 inputs described above. The discount rate represents an estimate of a market participants return and risk applicable to program contracts.

**7. CONDENSED CONSOLIDATING FINANCIAL STATEMENTS:**

Sinclair Television Group, Inc. (STG), a wholly-owned subsidiary and the television operating subsidiary of Sinclair Broadcast Group, Inc. (SBG), is the primary obligor under the Bank Credit Agreement, as amended, the 9.25% Senior Secured Second Lien Notes, due 2017 (the 9.25% Notes) and the 8.0% Senior Subordinated Notes, due 2012 (the 8.0% Notes). Our Class A Common Stock, Class B Common Stock, the 6.0% Debentures, the 4.875% Notes and the 3.0% Notes remain obligations or securities of SBG and are not obligations or securities of STG. As of March 31, 2010, our consolidated total debt of \$1,338.1 million included \$1,090.6 million of debt related to STG and its subsidiaries of which SBG guaranteed \$810.6 million.

SBG, KDSM, LLC, a wholly-owned subsidiary of SBG, and STG's wholly-owned subsidiaries (guarantor subsidiaries), have fully and unconditionally guaranteed all of STG's obligations. Those guarantees are joint and several. There are certain contractual restrictions on the ability of SBG, STG or KDSM, LLC to obtain funds from their subsidiaries in the form of dividends or loans.

The following condensed consolidating financial statements present the consolidated balance sheets, consolidated statements of operations and consolidated statements of cash flows of SBG, STG, KDSM, LLC and the guarantor subsidiaries, the direct and indirect non-guarantor subsidiaries of SBG and the eliminations necessary to arrive at our information on a consolidated basis. These statements are presented in accordance with the disclosure requirements under SEC Regulation S-X, Rule 3-10.

**ITEM 2. MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS**

This report includes or incorporates forward-looking statements within the meaning of Section 27A of the Securities Act of 1933, as amended, Section 21E of the Securities Exchange Act of 1934, as amended (the Exchange Act) and the U.S. Private Securities Litigation Reform Act of 1995. We have based these forward-looking statements on our current expectations and projections about future events. These forward-looking statements are subject to risks, uncertainties and assumptions about us, including, among other things, the following risks:

*General risks*

- the impact of changes in national and regional economies and credit and capital markets;
- consumer confidence;
- the activities of our competitors;
- terrorist acts of violence or war and other geopolitical events;

*Industry risks*

- the business conditions of our advertisers particularly in the automotive and service industries;
- competition with other broadcast television stations, radio stations, multi-channel video programming distributors (MVPDs) and internet and broadband content providers serving in the same markets;
- availability and cost of programming and the continued viability of networks and syndicators that provide us with programming content;
- the effects of the FCC's National Broadband Plan and the potential reclamation of some of our broadcasting spectrum;
- the effects of governmental regulation of broadcasting or changes in those regulations and court actions interpreting those regulations, including ownership regulations, indecency regulations, retransmission regulations and political or other advertising restrictions and regulations;
- labor disputes and legislation and other union activity;
- the broadcasting community's ability to develop a viable mobile digital broadcast television (mobile DTV) strategy and platform and the consumers appetite for mobile television;
- the operation of low power devices in the broadcast spectrum, which could interfere with our broadcast signals;

- the effects of new ratings system technologies, including people meters, and the ability of such technologies to be a reliable standard that can be used by advertisers;

*Risks specific to us*

- the effectiveness of our management;
- our ability to attract and maintain local and national advertising;
- our ability to successfully renegotiate retransmission consent agreements;
- our ability to maintain our FCC licenses;
- our ability to maintain our affiliation agreements with our networks and at renewal, to successfully negotiate these agreements with favorable terms;
- the impact of reverse network compensation payments made by us to networks pursuant to our affiliation agreements requiring compensation for network programming and the resulting negative effect on our operating results;
- the popularity of syndicated programming we purchase and network programming that we air;
- the strength of ratings for our local news broadcasts including our news sharing arrangements;
- changes in the makeup of the population in the areas where our stations are located;
- successful execution of our multi-channel broadcasting initiatives strategy including mobile DTV; and
- the results of prior year tax audits by taxing authorities.

Other matters set forth in this report and our other reports filed with the SEC, including the *Risk Factors* set forth in our Annual Report on Form 10-K for the year ended December 31, 2009 may also cause actual results in the future to differ materially from those described in the forward-looking statements. However, additional factors and risks not currently known to us or that we currently deem immaterial may also cause actual results in the future to differ materially from those described in the forward-looking statements. You are cautioned not to place undue reliance on any forward-looking statements, which speak only as of the date made. We undertake no obligation to update or revise any forward-looking statements, whether as a result of new information, future events or otherwise. In light of these risks, uncertainties and assumptions, the forward-looking statements discussed in this report might not occur.

The following table sets forth certain operating data for the three months ended March 31, 2010 and 2009:

The following Management's Discussion and Analysis provides qualitative and quantitative information about our financial performance and condition and should be read in conjunction with our consolidated financial statements and the accompanying notes to those statements. This discussion consists of the following sections:

Executive Overview financial events since December 31, 2009;

Results of Operations an analysis of our revenues and expenses for the three months ended March 31, 2010 and 2009, including comparisons between quarters and expectations for the three months ended June 30, 2010.

Liquidity and Capital Resources a discussion of our primary sources of liquidity, an analysis of our cash flows from or used in operating activities, investing activities and financing activities and an update of our debt repurchases during the quarter.

## EXECUTIVE OVERVIEW

### *First Quarter 2010 Events*

- In January, we entered into a one-year retransmission consent agreement with Mediacom for continued carriage of the signals of 22 stations owned and/or operated by us in 15 markets;

## Edgar Filing: SINCLAIR BROADCAST GROUP INC - Form 10-Q

- In February, we purchased at par approximately \$12.3 million and \$14.3 million of the 3.0% and 4.875% Notes, respectively, pursuant to tender offers;
- In February, we entered into an agreement for carriage of THECOOLTV, a music video provider on certain of our stations' secondary digital signal;
- In February, we entered into a network affiliation agreement effective September 1, 2010 with The CW for KMYS-TV in San Antonio, Texas, expiring August 31, 2011. KMYS-TV will switch from MyNetworkTV to The CW on the effective date;
- In March, we entered into a renewal of nine ABC network affiliation agreements which represents all of our ABC affiliates, effective January 1, 2010 and expiring August 31, 2015; and
- Excluding political, local revenues have increased 13.9% and national revenues have increased 5.2% in the first quarter 2010 versus the first quarter 2009 as advertising levels in the automotive sector and retransmission revenues have gained momentum. Station production, selling and general and administrative expenses combined increased only 1.1% over the same period as we have continued to implement cost control initiatives.

### *Other Events*

- On April 30, 2010, we prepaid \$25.0 million of the Bank Credit Agreement, Term Loan B.

### **RESULTS OF OPERATIONS**

In general, this discussion is related to the results of our continuing operations, except for discussions regarding our cash flows, which also include the results of our discontinued operations. Unless otherwise indicated, references in this discussion and analysis to the first quarter of 2010 and 2009 refer to the three months ended March 31, 2010 and 2009, respectively. Additionally, any references to the second, third or fourth quarter are to the three months ended June 30, September 30 and December 31, respectively, for the year being discussed.

Table of Contents**BROADCAST SEGMENT****Broadcast Revenue**

The following table presents our revenues from continuing operations, net of agency commissions, for the three months ended March 31, 2010 and 2009 (in millions):

	For the Three Months Ended March 31,		
	2010	2009	Percent Change
<b>Local revenues:</b>			
Non-political	\$ 112.2	\$ 98.5	13.9%
Political	0.2	0.1	(a)
Total local	112.4	98.6	14.0%
<b>National revenues:</b>			
Non-political	34.2	32.5	5.2%
Political	1.3	0.2	(a)
Total national	35.5	32.7	8.6%
Total net broadcast revenues	\$ 147.9	\$ 131.3	12.6%

(a) Political revenue is not comparable from year to year due to cyclicity of elections. See *Political Revenues* below for more information.

*Net broadcast revenues.* Our top ten revenue categories when comparing the first quarter 2010 to the same period in 2009, showed increases in advertising revenues generated from the automotive, services, schools, food-grocery/other, home products and medical sectors. These increases were partially offset by a decrease in the telecommunications and paid programming sectors. Automotive, which typically is our largest category, represented 17.4% of the quarter's net time sales and was up 35.6% in the first quarter 2010 compared to the same period in 2009.

The following table presents our time sales revenue from continuing operations, net of agency commissions, by network affiliates for the three months ended March 31, 2010 and 2009 (dollars in millions):

	# of Stations	Percent of Net Time Sales for the		
		2010	2009	Percent Change
FOX	20	47.6%	46.4%	9.5%
ABC	9	19.1%	17.8%	14.4%
MyNetworkTV	17	17.9%	19.5%	(1.9)%
The CW	9	12.1%	13.2%	(2.0)%

Total

*Political Revenues.* Political revenues increased by \$1.2 million to \$1.5 million for the first quarter 2010 when compared to the same period in 2009. Political revenues are typically lower in non-election years such as 2009.

*Local Revenues.* Excluding political revenues, our local broadcast revenues, which include local times sales, retransmission revenues and other local revenues, were up \$13.7 million for the three months ended March 31, 2010 when compared to 2009. The increase is due to an increase in advertising in the automotive sector and an increase in retransmission revenues from MVPDs.

*National Revenues.* Our national broadcast revenues, excluding political revenues, include national time sales and other national revenues. Over the past few years, national revenues have trended downward, however, our first quarter 2010 results were up \$1.7 million compared to same period in 2009. This was primarily due to the amplified decline in 2009 from the effects of the recent recession and a rebounding economy in 2010 along with assistance from an improved automotive sector.

Table of Contents**Broadcast Expenses**

The following table presents our significant expense categories in our broadcast segment for the three months ended March 31, 2010 and 2009 (in millions):

	For the Three Months Ended March 31,		Percent Change (Increase/(Decrease))
	2010	2009	
Station production expenses	\$ 35.9	\$ 34.9	2.9%
Station selling, general and administrative expenses	\$ 30.6	\$ 30.9	(1.0)%
Amortization of program contract costs and net realizable value adjustments	\$ 15.9	\$ 20.8	(23.6)%
Corporate general and administrative expenses	\$ 5.9	\$ 2.0	195.0%
Gain on asset exchange	\$	\$ (1.2)	(100.0)%
Impairment of goodwill, intangible and other assets	\$	\$ 130.1	(100.0)%

*Station production expenses.* Station production expenses increased during the first quarter 2010 compared to the same period in 2009 primarily due to an increase in fees pursuant to network affiliation agreements and increased maintenance costs to remove analog equipment. These increases were partially offset by a decrease in electric expenses due to the digital signal conversion in June 2009 and cessation of analog transmission.

*Station selling, general and administrative expenses.* Station selling, general and administrative expenses decreased during the first quarter 2010 compared to same period in 2009, primarily due to decreases in bad debt expense from improved collection efforts, decreased tower rental expense resulting from analog equipment removals and lease terminations and decreased compensation expense. These decreases were partially offset by increases related to national sales representative and local commissions costs due to an increase in sales.

We expect second quarter 2010 station production and station selling, general and administrative expenses, excluding barter, to trend higher than our first quarter 2010 results.

*Amortization of program contract costs and net realizable value adjustments.* The amortization of program contract costs decreased during the first quarter 2010 compared to the same period in 2009. Over the past few years we have purchased barter and short-term program contracts which are less expensive and result in lower contract cost amortization. We expect program contract amortization to trend higher in second quarter 2010 compared to first quarter 2010.

*Corporate general and administrative expenses.* See explanation under *Corporate and Unallocated Expenses*.

## Edgar Filing: SINCLAIR BROADCAST GROUP INC - Form 10-Q

*Gain on asset exchange.* During the first quarter 2009, we recognized a non-cash gain of \$1.2 million from the exchange of equipment under agreements with Sprint Nextel Corporation and in association with the FCC's decision to allow Sprint Nextel Corporation to utilize our vacated analog spectrum in exchange for the new digital equipment. We have received all applicable equipment pursuant to the agreement in 2009.

*Impairment of goodwill, broadcast licenses and other assets.* Due to the severity of the economic downturn and the decrease of our market capitalization, we tested our goodwill and broadcast licenses for impairment during the first quarter of 2009. During the first quarter of 2009, we recorded an impairment of \$69.5 million and \$60.6 million related to our goodwill and broadcast licenses, respectively. The economy has since improved and, therefore, no impairment was recorded in the first quarter 2010.

Table of Contents**OTHER OPERATING DIVISIONS SEGMENT**

The following table presents our other operating divisions segment revenue and expenses related to G1440 Holdings, Inc. (G1440), an information technology staffing, consulting and software development company, Acrodyne Communications, Inc. (Acrodyne), a manufacturer of television transmissions systems, Triangle Sign & Service, LLC. (Triangle), a sign designer and fabricator, Alarm Funding Associates, LLC. (Alarm Funding), a regional security alarm operating and bulk acquisition company, and real estate ventures for the three months ended March 31, 2010 and 2009 (in millions):

	For the Three Months Ended March 31,			Percent Change (Increase/(Decrease))
	2010		2009	
<b>Revenues:</b>				
G1440	\$		\$ 1.7	(100.0)%
Acrodyne	\$		\$ 1.7	(100.0)%
Triangle	\$	3.4	\$ 6.0	(43.3)%
Alarm Funding	\$	2.2	\$ 1.2	83.3%
Real Estate Ventures	\$	1.3	\$ 0.9	44.4%
<b>Expenses: (a)</b>				
G1440	\$		\$ 1.8	(100.0)%
Acrodyne	\$		\$ 1.8	(100.0)%
Triangle	\$	4.3	\$ 6.1	(29.5)%
Alarm Funding	\$	1.8	\$ 1.1	63.6%
Real Estate Ventures	\$	2.0	\$ 2.2	(9.1)%

(a) Comprises total expenses of the entity including other operating divisions expenses, depreciation and amortization and applicable other income (expense) items such as interest expense.

G1440 was sold in fourth quarter 2009 and Acrodyne closed its business September 30, 2009.

The decreases in Triangle's results are primarily due to a decline in order volume driven by the economic downturn particularly in the retail sector. The increases in Alarm Funding's results are primarily due to the acquisition of new alarm monitoring contracts and the expansion of sales efforts.

*Income (Loss) from Equity and Cost Method Investments.* Results of our equity and cost method investments in private investment funds and real estate ventures are included in income (loss) from equity and cost method investments in our consolidated statements of operations. During the period ended March 31, 2010, we recorded income of \$1.0 million related to certain private investment funds and a loss of \$0.5 million related to our real estate ventures. During the period ended March 31, 2009, we recorded a loss of \$0.4 million related to our real estate ventures.

**CORPORATE AND UNALLOCATED EXPENSES**

	For the Three Months Ended March 31,			Percent Change (Increase/(Decrease))
	2010		2009	
Corporate general and administrative expenses	\$	0.5	\$ 4.1	(87.8)%
Interest expense	\$	28.4	\$ 18.1	56.9%
(Loss) gain from extinguishment of debt	\$	(0.3)	\$ 19.0	(101.6)%
Income tax (provision) benefit	\$	(7.1)	\$ 18.8	(137.8)%

*Corporate general and administrative expenses.* In conjunction with our recent debt restructuring activities, we re-examined our corporate overhead cost allocation methodologies and made applicable changes to the way we allocate costs resulting in greater overhead absorption by our broadcast segment. Therefore, rather than examining these costs on a segment basis, we will examine the cost variance on an overall basis excluding only corporate general and administrative costs from our other operating divisions segment which are included in the expenses discussed in the other operating divisions segment section. Total corporate general and administrative expenses increased \$0.3 million in first quarter 2010 compared to the same period in 2009. This is primarily due to an increase in stock based compensation from the issuance of stock-settled appreciation rights in the first quarter 2010 partially offset by a reduction in health and other insurance costs.

We expect corporate general and administrative expenses to increase in the second quarter 2010 compared to first quarter 2010.

Table of Contents

*Interest expense.* Interest expense has increased primarily due to the debt refinancings in fourth quarter 2009. As part of a comprehensive debt refinancing, we issued new 9.25% Notes and amended and restated our Bank Credit Agreement both of which accrue interest at higher rates than the debt replaced. We expect interest expense to decrease in second quarter 2010 compared to first quarter 2010.

*(Loss) gain from extinguishment of debt.* During first quarter 2010, through tender offers, we redeemed \$14.3 million and \$12.3 million of our 4.875% and 3.0% Notes, respectively, resulting in a loss on extinguishment of \$0.2 million and \$0.1 million, respectively. In first quarter 2009, we repurchased, in the open market, \$50.7 million of our 3.0% Notes and \$1.0 million of our 6.0% Debentures, resulting in a gain of \$18.5 million and \$0.5 million, respectively from extinguishment of debt.

*Income tax (provision) benefit.* The effective tax rate for the three months ended March 31, 2010 including the effects of the noncontrolling interests was a provision of 38.0% as compared to a benefit of 18.0% during the same period in 2009. Due to our pre-tax income in 2010 compared to our pre-tax loss in 2009, we incurred a tax provision in 2010 versus a tax benefit in 2009. The difference in the absolute value of the tax rate between 2010 and 2009 is primarily because impairments of certain indefinite-lived intangible assets recorded in 2009 were not deductible for income tax purposes.

**LIQUIDITY AND CAPITAL RESOURCES**

As of March 31, 2010, we had \$52.3 million in cash and cash equivalent balances and working capital of approximately \$48.1 million. Cash generated by our operations and availability under the Revolving Credit Facility are used as our primary source of liquidity. As of March 31, 2010, we had \$135.9 million of borrowing capacity available on our Revolving Credit Facility. We anticipate that cash flow from our operations and borrowing capacity under the Revolving Credit Facility will be sufficient to satisfy our debt service obligations, capital expenditure requirements, working capital needs and certain committed strategic investments.

On January 26, 2010, we commenced tender offers to purchase for cash any and all of the outstanding 3.0% and 4.875% Notes at 100% of the face value of such notes. The tender offers expired February 23, 2010 and approximately \$12.3 million and \$14.3 million principal amount of the 3.0% and 4.875% Notes, respectively, were tendered and purchased.

*Sources and Uses of Cash*

The following table sets forth our cash flows for the three months ended March 31, 2010 and 2009 (in millions):

***Operating Activities***

Net cash flows from operating activities increased during the first quarter 2010 compared to the same period in 2009. During 2010, we received more in cash receipts from customers, net of cash payments to vendors, however, we paid more in interest and program payments.

We expect program payments to decrease in the second quarter 2010 compared to the first quarter 2010.

***Investing Activities***

With the exception of restricted cash, net cash flows used in investing activities decreased during the first quarter 2010 compared to the same period in 2009 as we made less equity and cost method investments, capital expenditures and alarm monitoring contract purchases. Our capital expenditures and alarm monitoring contract purchases were down from 2009 primarily due to timing changes of scheduled activities and market conditions, respectively. We limited our equity and cost method investment activity to committed investments. We decreased our investment in restricted cash to pay for the tender offers of the 3.0% and 4.875% Notes.

For second quarter 2010, we anticipate incurring more capital expenditures than incurred in the first quarter.

***Financing Activities***

Net cash flows used in financing activities increased in the first quarter 2010 compared to the same period in 2009. Due to cash use restrictions in our Bank Credit Agreement, during the first quarter of 2010 we built a cash balance and did not use our Revolving Credit Facility. We purchased \$26.6 million of our 3.0% and 4.875% Notes pursuant to tender offers and we ceased paying our cash dividend after the first quarter of 2009. In addition, in first quarter 2010 we made payments for deferred financing costs that were primarily related to the 2009 fourth quarter debt refinancing.

***Seasonality/Cyclical***

Our operating results are usually subject to seasonal fluctuations. Usually, the second and fourth quarter operating results are higher than the first and third quarters because advertising expenditures are increased in anticipation of certain seasonal and holiday spending by consumers.

Our operating results are usually subject to fluctuations from political advertising. In even years, political spending is usually significantly higher than in odd years due to advertising expenditures preceding local and national elections. Additionally, every four years, political

spending is elevated further due to advertising expenditures preceding the presidential election.

#### **CONTRACTUAL CASH OBLIGATIONS**

As mentioned above, we purchased \$26.6 million of our 3.0% and 4.875% Notes pursuant to tender offers during first quarter 2010. As of March 31, 2010, the face amount outstanding of the 3.0% and 4.875% Notes was \$15.4 million and \$22.7 million, respectively.

There were no material changes outside the ordinary course of business to our contractual cash obligations disclosed in our Annual Report on Form 10-K for the year ended December 31, 2009.

#### **ITEM 3. QUANTITATIVE AND QUALITATIVE DISCLOSURES ABOUT MARKET RISK**

There have been no material changes from the quantitative and qualitative disclosures about market risk previously disclosed in our Annual Report on Form 10-K for the year ended December 31, 2009.

#### **ITEM 4. CONTROLS AND PROCEDURES**

##### *Evaluation of Disclosure Controls and Procedures and Internal Control over Financial Reporting*

Our management, under the supervision and with the participation of our Chief Executive Officer and Chief Financial Officer, evaluated the design and effectiveness of our disclosure controls and procedures and our internal control over financial reporting as of March 31, 2010.

The term disclosure controls and procedures, as defined in Rules 13a-15(e) and 15d-15(e) under the Exchange Act, means controls and other procedures of a company that are designed to provide reasonable assurance that information required to be

disclosed by a company in the reports that it files or submits under the Exchange Act is recorded, processed, summarized and reported within the time periods specified in the SEC's rules and forms. Disclosure controls and procedures include, without limitation, controls and procedures designed to provide reasonable assurance that information required to be disclosed by a company in the reports that it files or submits under the Exchange Act is accumulated and communicated to the company's management, including its principal executive and principal financial officers, as appropriate to allow timely decisions regarding required disclosure. Management recognizes that any controls and procedures, no matter how well designed and operated, can provide only reasonable assurance of achieving their objectives and management necessarily applies its judgment in evaluating the cost-benefit relationship of possible controls and procedures.

The term internal control over financial reporting, as defined in Rules 13a-15d-15(f) under the Exchange Act, means a process designed by, or under the supervision of our Chief Executive and Chief Financial Officers and effected by our Board of Directors, management and other personnel, to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles (GAAP) and includes those policies and procedures that:

- pertain to the maintenance of records that in reasonable detail accurately and fairly reflect the transactions and disposition of our assets;
- provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with GAAP and that our receipts and expenditures are being made in accordance with authorizations of management or our Board of Directors; and
- provide reasonable assurance regarding prevention or timely detection of unauthorized acquisition, use or disposition of our assets that could have a material adverse effect on our financial statements.

*Assessment of Effectiveness of Disclosure Controls and Procedures*

Based on the evaluation of our disclosure controls and procedures as of March 31, 2010, our Chief Executive Officer and Chief Financial Officer concluded that, as of such date, our disclosure controls and procedures were effective at the reasonable assurance level.

*Changes in Internal Control over Financial Reporting*

There have been no changes in our internal control over financial reporting (as defined in Rules 13a-15(f) and 15d-15(f) under the Exchange Act) during or subsequent to the quarter ended March 31, 2010, that have materially affected, or are reasonably likely to materially affect, our internal control over financial reporting.

*Limitations on the Effectiveness of Controls*

## Edgar Filing: SINCLAIR BROADCAST GROUP INC - Form 10-Q

Management, including our Chief Executive Officer and Chief Financial Officer, do not expect that our disclosure controls and procedures or our internal control over financial reporting will prevent all errors and all fraud. A control system, no matter how well designed and operated, can provide only reasonable, not absolute, assurance that the objectives of the control system are met. Further, the design of a control system must reflect the fact that there are resource constraints and the benefits of controls must be considered relative to their costs. Because of the inherent limitations in all control systems, no evaluation of controls can provide absolute assurance that all control issues and instances of fraud, if any, within our company have been detected. These inherent limitations include the realities that judgments in decision-making can be faulty and that breakdowns can occur because of simple error or mistake. Additionally, controls can be circumvented by the individual acts of some persons, by collusion of two or more people, or by management's override of the control. The design of any system of controls also is based in part upon certain assumptions about the likelihood of future events and there can be no assurance that any design will succeed in achieving its stated goals under all potential future conditions; over time, controls may become inadequate because of changes in conditions, or the degree of compliance with the policies or procedures may deteriorate. Because of the inherent limitations in a cost-effective control system, misstatements due to error or fraud may occur and not be detected.

**PART II. OTHER INFORMATION**

**ITEM 1. LEGAL PROCEEDINGS**

We are a party to lawsuits and claims from time to time in the ordinary course of business. Actions currently pending are in various preliminary stages and no judgments or decisions have been rendered by hearing boards or courts in connection with such actions. After reviewing developments to date with legal counsel, our management is of the opinion that the outcome of our pending and threatened matters will not have a material adverse effect on our consolidated balance sheets, consolidated statements of operations or consolidated statements of cash flows.

**ITEM 1A. RISK FACTORS**

The following section represents an update to the Risk Factors contained in our Annual Report on Form 10-K for the year ended December 31, 2009.

**We may not be able to renegotiate retransmission consent agreements upon expiration at terms comparable to or more favorable than our current agreements and networks with which we are affiliated may attempt to require us to share revenue from retransmission consent agreements with them.**

As certain retransmission consent agreements expire, we may not be able to renegotiate such agreements at terms comparable to or more favorable than our current agreements. This may cause revenues and/or revenue growth from our retransmission consent agreements to decrease under the renegotiated terms despite the fact that our current retransmission consent agreements include automatic annual fee escalators. In addition, certain of our networks with which we are affiliated may attempt to require us to share revenue from retransmission consent agreements with them as part of renewing expiring affiliation agreements or pursuant to certain rights contained in existing affiliation agreements.

Our affiliation agreements with the FOX television network require us to receive FOX's consent prior to entering into retransmission consent agreements that include content provided by the FOX network. FOX has recently begun conditioning its consent on its affiliates agreeing to pay FOX compensation related to such retransmission consent agreements. We, and other FOX affiliates, are currently negotiating with FOX on this issue. The results of such negotiations cannot be predicted at this time and we could suffer financially in the form of lower payments from MVPDs and decreased advertising revenue if we are not able to obtain FOX's consent or as a result of making payments to FOX if the cost of obtaining such consent is too high relative to the fees received from the MVPDs.
