**(Tabular amounts in millions, except as noted)**

**Note 1. Background and Basis of Presentation**

***Background***

Neenah Paper, Inc. ( Neenah or the Company ), is a Delaware corporation incorporated in April 2004. The Company has two primary operations: its fine paper business and its technical products business.

The fine paper business is a leading producer of premium writing, text, cover and specialty papers used in corporate identity packages, corporate annual reports, invitations, personal stationery and high-end packaging for point of sale advertising. The technical products business is a leading international producer of transportation and other filter media, durable, saturated and coated substrates for a variety of end uses and nonwoven wall coverings.

In March 2010, the Company's wholly owned subsidiary, Neenah Paper Company of Canada ( Neenah Canada ) sold approximately 475,000 acres of woodland assets in Nova Scotia (the Woodlands ) to Northern Timber Nova Scotia Corporation, an affiliate of Northern Pulp Nova Scotia Corporation (collectively, Northern Pulp ), for C\$82.5 million (\$78.6 million). The sale resulted in a pre-tax gain, net of fees and other transaction costs, of \$74.1 million. The sale of the Woodlands resulted in the substantially complete liquidation of the Company's investment in Neenah Canada. In accordance with Accounting Standards Codification ( ASC ) Topic 830, *Foreign Currency Matters* ( ASC Topic 830 ), \$87.9 million of cumulative currency translation adjustments attributable to the Company's Canadian subsidiaries have been reclassified into earnings and recognized as part of the gain on sale of the Woodlands. The transaction did not generate a cash tax liability because the tax basis for the Woodlands was approximately equal to the sale price. See Note 5, Discontinued Operations.

For the three and six months ended June 30, 2010, the results of operations, the gain on sale of the Woodlands (\$74.1 million) and the reclassification into earnings of cumulative currency translation adjustments attributable to the Company's Canadian subsidiaries (\$87.9 million) are reported as discontinued operations in the condensed consolidated statements of operations. The results of operations of the Woodlands are reported as discontinued operations for the three and six months ended June 30, 2009. See Note 5, Discontinued Operations.

***Basis of Consolidation and Presentation***

These statements have been prepared pursuant to the rules and regulations of the Securities and Exchange Commission (the SEC ) and, in accordance with those rules and regulations, do not include all information and footnote disclosures normally included in financial statements prepared in accordance with accounting principles generally accepted in the United States of America ( GAAP ). Management believes that the disclosures made are adequate for a fair presentation of the Company's results of operations, financial position and cash flows. In the opinion of management, the condensed consolidated financial statements reflect all adjustments, consisting only of normal recurring adjustments, necessary

## Edgar Filing: Neenah Paper Inc - Form 10-Q

to present fairly the results of operations, financial position and cash flows for the interim periods presented herein. The preparation of condensed consolidated financial statements in conformity with GAAP requires management to make extensive use of estimates and assumptions that affect the reported amounts and disclosures. Actual results may vary from these estimates.

These condensed consolidated financial statements should be read in conjunction with the consolidated financial statements and notes thereto included in the Company's most recent Annual Report on Form 10-K. The results of operations for any interim period are not necessarily indicative of the results of operations to be expected for the full year.

The condensed consolidated financial statements of Neenah and its subsidiaries included herein are unaudited, except for the December 31, 2009 condensed consolidated balance sheet, which was derived from audited financial statements. The condensed consolidated financial statements include the financial statements of the Company and its wholly owned and majority owned subsidiaries. All significant intercompany balances and transactions have been eliminated from the consolidated financial statements.

***Earnings (Loss) per Share ( EPS )***

The Company computes basic earnings (loss) per share ( EPS ) in accordance with ASC Topic 260, *Earnings Per Share* ( ASC Topic 260 ). In accordance with ASC Topic 260, share-based awards with non-forfeitable dividends are classified as participating securities. In calculating basic earnings per share, this method requires net income to be reduced by the amount of dividends declared in the current period for each participating security and by the contractual amount of dividends or other participation payments that are paid or accumulated for the current period. Undistributed earnings for the period are allocated to participating securities based on the contractual participation rights of the security to share in those current earnings assuming all earnings for the period are distributed. Holders of restricted stock, restricted stock units ( RSUs ) and target performance unit awards ( Performance Units ) have contractual participation rights that are equivalent to those of common stockholders. Therefore, the Company allocates undistributed earnings to restricted stock, RSUs and common stockholders based on their respective average ownership percentages for the period.

ASC Topic 260 also requires companies with participating securities to calculate diluted earnings per share using the Two-Class method. The Two-Class method requires the denominator to include the weighted average participating securities along with the additional share equivalents from the assumed conversion of stock options calculated using the Treasury Stock method, subject to the anti-dilution provisions of ASC Topic 260.

Diluted EPS was calculated to give effect to all potentially dilutive common shares using the Treasury Stock method. Outstanding stock options, stock appreciation rights ( SARS ), restricted stock units ( RSUs ) and target performance unit awards ( Performance Units ) represent the only potentially dilutive security effects on the Company's weighted-average shares. For the three and six months ended June 30, 2010 approximately 1,510,000 and 1,565,000 potentially dilutive stock-based compensation awards, respectively, were excluded from the computation of dilutive common shares because the exercise price of such awards exceeded the average market price of the Company's common stock for the period the awards were outstanding. For the three and six months ended June 30, 2009 approximately 1,620,000 and 1,790,000 such potentially dilutive stock-based compensation awards, respectively, were excluded from the computation of dilutive common shares. In addition, as a result of the loss from continuing operations for the three and six months ended June 30, 2009, approximately 70,000 and 60,000 incremental shares, respectively, resulting from the assumed vesting of potentially dilutive securities were excluded from the diluted earnings per share calculation, as the effect would have been anti-dilutive.

Discontinued operations		(0.01)	8.73	
	\$ 0.41	\$ (0.59)	\$ 9.61	\$ (0.63)

(a) In accordance with ASC Topic 260, for the three and six months ended June 30, 2009 undistributed losses have been entirely allocated to common stockholders because the holders of participating securities are not contractually obligated to share in the losses of the Company.

### **Note 2. Accounting Standard Changes**

As of June 30, 2010, no amendments to the ASC had been issued that will have or are reasonably likely to have a material effect on the Company's financial position, results of operations or cash flows.

### **Note 3. Comprehensive Income (Loss)**

Comprehensive income (loss) includes, in addition to net income (loss), gains and losses recorded directly into stockholders' equity on the condensed consolidated balance sheet. These gains and losses are referred to as other comprehensive income items. Accumulated other comprehensive income (loss) consists of foreign currency translation gains and (losses) and adjustments related to pensions and other

postretirement benefits. The Company does not provide income taxes for foreign currency translation adjustments related to indefinite investments in foreign subsidiaries. The sale of the Woodlands resulted in the substantially complete liquidation of the Company's investment in Neenah Canada. In accordance with ASC Topic 830, for the six months ended June 30, 2010, \$87.9 million of cumulative currency translation adjustments attributable to the Company's Canadian subsidiaries have been reclassified into earnings and recognized as part of the gain on sale of the Woodlands. There were no tax consequences related to the repatriation of funds from the sale of the Woodlands. As of June 30, 2010 and December 31, 2009, accumulated other comprehensive income (loss) was \$(27.3) million and \$91.5 million, respectively.

**Note 4. Closure of the Ripon Mill**

In May 2009, the Company permanently closed its fine paper mill located in Ripon, California (the Ripon Mill). For the three and six months ended June 30, 2009, the closure resulted in a pre-tax charge of \$18.0 million. The charge was comprised of approximately \$6.7 million in non-cash charges primarily for losses related to the carrying value of property, plant and equipment, a curtailment loss of \$0.8 million related to postretirement benefit plans in which employees of the Ripon Mill participated and cash payments for contract terminations and severance and other employee costs of approximately \$10.5 million.

As of June 30, 2010, the remaining long-lived assets of the Ripon Mill, primarily composed of land and buildings, are classified as Assets held for sale on the condensed consolidated balance sheet. The Company believes that the sale of such assets will be completed within 12 months. Assets held for sale are valued at the lower of cost or fair value less cost to sell. The assets of the Ripon Mill are reported at their aggregate historical cost of \$6.2 million.

The Company accounted for costs associated with the closure of the Ripon Mill in accordance with ASC Topic 420, *Exit or Disposal Cost Obligations*. The Company expects the payments of all costs related to the closure of the Ripon Mill to be substantially complete by December 31, 2010. The following table presents the status of such closure costs as of June 30, 2010:

	Severance benefits	Contract termination and other costs	Total

Table of Contents**Note 5. Discontinued Operations**

In March 2010, Neenah Canada sold the Woodlands to Northern Pulp, for C\$82.5 million (\$78.6 million). The sale resulted in a pre-tax gain, net of fees and other transaction costs, of \$74.1 million. The sale of the Woodlands resulted in the substantially complete liquidation of the Company's investment in Neenah Canada. In accordance with ASC Topic 830, \$87.9 million of cumulative currency translation adjustments attributable to the Company's Canadian subsidiaries have been reclassified into earnings and recognized as part of the gain on sale of the Woodlands. The sale of the Woodlands represented the cessation of the Company's operating activities in Canada; however, the Company will have certain continuing post-employment benefit obligations related to its Canadian operations. The transaction did not generate a cash tax liability because the tax basis for the Woodlands was approximately equal to the sale price.

Net proceeds from the sale were used to repay in full \$40 million of outstanding term loan borrowings (the Term Loan) and repay approximately \$26 million in outstanding revolving loans which reduced the balance of such outstanding loans under the Company's bank credit agreement (the Bank Credit Agreement) to zero. In addition, the Company made approximately \$3.1 million in contract termination payments related to the closure of the Ripon Mill that became due and payable upon the sale of the Woodlands.

In June 2008, Neenah Canada sold the Pictou Mill to Northern Pulp. Pursuant to the terms of the transaction, Northern Pulp assumed all of the assets and liabilities associated with the Pictou Mill, as well as existing customer contracts, supply agreements, labor agreements and pension obligations.

In conjunction with the sale of the Pictou Mill, the Company entered into a stumpage agreement (the Stumpage Agreement) which allowed Northern Pulp to harvest softwood timber annually from the Woodlands. The Stumpage Agreement was terminated in March 2010 in conjunction with the sale of the Woodlands. For the six months ended June 30, 2010, the Company recognized revenue of approximately \$1.4 million, related to timber sales pursuant to the Stumpage Agreement. For the three and six months ended June 30, 2009, the Company recognized revenue of approximately \$0.5 million and \$1.3 million, respectively, related to the Stumpage Agreement.

The results of operations of the Woodlands and the gain on sale of the Woodlands are reported as discontinued operations in the condensed consolidated statements of operations for each period presented. The following table summarizes the results of discontinued operations:

### *Senior Unsecured Notes*

In November 2004, the Company completed an underwritten offering of ten-year senior unsecured notes (the *Senior Notes*) at an aggregate face amount of \$225 million. The *Senior Notes* bear interest at a rate of 7.375 percent, payable May 15 and November 15 of each year and mature on November 15, 2014. The *Senior Notes* are fully and unconditionally guaranteed by all of the Company's subsidiaries, with the exception of Neenah Germany.

***Amended and Restated Secured Revolving Credit Facility***

In November, 2009, the Company amended and restated its Bank Credit Agreement. As amended, the Bank Credit Agreement consisted of a \$100 million senior, secured revolving credit facility (the Revolver ) and (ii) a \$40 million senior secured Term Loan. The Bank Credit Agreement terminates on November 30, 2013. In March 2010, the Company used proceeds from the sale of the Woodlands to repay approximately \$26 million in outstanding Revolver borrowings which reduced the balance of such outstanding loans under the Bank Credit Agreement to zero. During the three months ended June 30, 2010, the Company used approximately \$9.5 million of restricted proceeds from the sale of the Woodlands as permitted by the Bank Credit Agreement. For the six months ended June 30, 2010, the Company recognized within interest expense approximately \$0.3 million of costs to write-off deferred financing costs associated with the Term Loan.

As of June 30, 2010, the Company had no outstanding Revolver borrowings. Borrowing availability under the Revolver varies over time depending on the value of the Company's inventory, receivables and various capital assets. As of June 30, 2010, borrowing availability under the Revolver included \$9.1 million for the collateral value of the Ripon Mill. Borrowing availability under the Revolver is reduced by outstanding letters of credit and certain other items. As of June 30, 2010, the Company had approximately \$1.8 million of letters of credit and other items outstanding which reduced availability and \$92.8 million of borrowing availability under the Revolver. As of December 31, 2009, the Company had \$27.9 million in outstanding Revolver borrowings at a weighted-average interest rate of 4.6 percent per annum.

In March 2010, the Company used proceeds from the sale of the Woodlands to extinguish the Term Loan by repaying in full \$40 million of outstanding Term Loan borrowings. As of December 31, 2009, the Company had \$40.0 million in outstanding Term Loan borrowings at a weighted-average interest rate of 4.5 percent per annum.

The Bank Credit Agreement contains events of default customary for financings of this type, including failure to pay principal or interest, materially false representations or warranties, failure to observe covenants and other terms of the Bank Credit Agreement, cross-defaults to certain other indebtedness, bankruptcy, insolvency, various ERISA violations, the incurrence of material judgments and changes in control.

The Bank Credit Agreement contains covenants with which the Company must comply during the term of the agreement. Among other things, such covenants restrict the Company's ability to incur certain additional debt, make specified restricted payments, including dividends, and capital expenditures, authorize or issue capital stock, enter into transactions with affiliates, consolidate or merge with or acquire another business, sell certain of its assets, or dissolve or wind up. In addition, the terms of the Bank Credit Agreement require the Company to achieve and maintain compliance with a fixed charge coverage ratio if availability under the Bank Credit Agreement is less than \$20 million. At June 30, 2010, the Company was in compliance with all covenants.

***Other Debt***

In December 2006, our wholly-owned subsidiary, Neenah Gessner GmbH ( Neenah Germany ) entered into a 10-year agreement with HypoVereinsbank and IKB Deutsche Industriebank AG to provide 10.0 million of project financing for the construction of a saturator (the German Loan Agreement ). As of June 30, 2010, 8.1 million (\$9.9 million, based on exchange rates at June 30, 2010) was outstanding under the German Loan Agreement.

## Edgar Filing: Neenah Paper Inc - Form 10-Q

Neenah Germany has a revolving line of credit (the German Line of Credit ) with HypoVereinsbank that provides for borrowings of up to 15 million for general corporate purposes. The German Line of Credit is secured by the domestic accounts receivable of Neenah Germany. As of June 30, 2010 and December 31, 2009, the weighted-average interest rate on outstanding German Line of Credit borrowings was 4.0 percent per annum and 4.1 percent per annum, respectively. As of June 30, 2010, 6.6 million (\$8.0 million, based on exchange rates at June 30, 2010) was outstanding under the German Line of Credit and 8.4 million (\$10.3 million, based on exchange rates at June 30, 2010) of credit was available. In November 2009, Neenah Germany extended the termination date for the German Line of Credit to November 30, 2010.

Neenah Germany's ability to pay dividends or transfer funds to the Company is limited under the terms of the German Line of Credit, to not exceed certain limits defined in the agreement without lender approval or repayment of the amount outstanding under the line, which was 6.6 million (\$8.0 million, based on exchange rates at June 30, 2010) at June 30, 2010. In addition, the terms of the German Line of Credit require Neenah Germany to maintain a ratio of stockholder's equity to total assets equal to or greater than 45 percent. Neenah Germany was in compliance with all provisions of the German Line of Credit as of June 30, 2010.

Table of Contents**Note 8. Pension and Other Postretirement Benefits*****Pension Plans***

Substantially all active employees of the Company's U.S. paper operations participate in defined benefit pension plans and/or defined contribution retirement plans. Neenah Germany has defined benefit plans designed to provide a monthly pension upon retirement for substantially all its employees in Germany. In addition, the Company maintains a non-qualified supplemental defined benefit pension plan (the SERP). The Company provides benefits under the SERP to the extent necessary to fulfill the intent of its defined benefit retirement plans without regard to the limitations set by the Internal Revenue Code on qualified defined benefit plans.

In April 2010, the Company executed a reduction in force ( RIF ) plan at the Appleton, Wisconsin mill. The RIF resulted in the elimination of expected years of future service for certain mill employees eligible to participate in the Company's defined benefit pension plans and postretirement medical plan. In accordance with ASC Topic 715, *Compensation - Retirement Benefits* (ASC Topic 715), the Company measured the assets and liabilities of the affected postretirement plans as of April 30, 2010 and recognized a curtailment loss of approximately \$35 thousand for the three and six months ended June 30, 2010.

The closure of the Ripon Mill (See Note 4, *Closure of the Ripon Mill* ) resulted in the elimination of expected years of future service for mill employees eligible to participate in the Company's defined benefit pension plans and postretirement medical plan. In accordance with ASC Topic 715, the Company measured the assets and liabilities of the affected postretirement plans as of May 31, 2009 and recognized an aggregate curtailment loss of approximately \$0.8 million for the three and six months ended June 30, 2009.

The following table presents the components of net periodic benefit cost:

(a) The expected return on plan assets is determined by multiplying the fair value of plan assets at the prior year-end (adjusted for estimated current year cash benefit payments and contributions) by the expected long-term rate of return.

Table of Contents

The Company expects to make aggregate contributions to qualified and non-qualified defined benefit pension trusts and pay benefits for unfunded defined benefit pension plans of approximately \$17 million (based on exchange rates at June 30, 2010) in calendar 2010. For the six months June 30, 2010, the Company made approximately \$7.9 million of such contributions/payments.

**Note 9. Stock Compensation Plan**

The Company reserved 3,500,000 shares of \$0.01 par value common stock ( Common Stock ) for issuance under the 2004 Omnibus Stock and Incentive Plan (the Omnibus Plan ). As of June 30, 2010, approximately 1,790,000 shares of Common Stock were reserved for future issuance under the Omnibus Plan. As of June 30, 2010, the number of shares available for future issuance was not reduced by outstanding SARs because the closing market price for the Company s common stock was less than the exercise price of all outstanding SARs. The Company accounts for stock-based compensation pursuant to the provisions of ASC Topic 718, *Compensation Stock Compensation* ( ASC Topic 718 ).

**Valuation and Expense Information**

Substantially all stock-based compensation expense is recorded in selling, general and administrative expenses on the condensed consolidated statements of operations. The following table summarizes stock-based compensation expense and related income tax benefits.

	Three Months Ended June 30,		Six Months Ended June 30,

### *Stock Options*

For the six months ended June 30, 2010, the Company awarded nonqualified stock options to Long-Term Incentive Plan (the LTIP ) participants to purchase approximately 201,550 shares of common stock (subject to forfeiture due to termination of employment and other conditions). In addition, the Company awarded to non-employee members of the board of directors nonqualified stock options to purchase 5,640 shares of Common Stock. For the six months ended June 30, 2010, the weighted-average exercise price of such nonqualified stock option awards was \$13.68 per share. The weighted-average grant date fair value for stock options granted during the six months ended June 30, 2010 was \$5.72 per share and was estimated using the Black-Scholes option valuation model with the following assumptions:

	<b>Six Months Ended June 30, 2010</b>
Expected life in years	5.9
Risk free interest rate	2.9%
Volatility	55.3%

Table of Contents

For the three and six months ended June 30, 2010, the aggregate pre-tax intrinsic value of stock options exercised was approximately \$0.4 million. No stock options were exercised during the three and six months ended June 30, 2009. The aggregate intrinsic value of approximately 1,490,000 stock options that were exercisable at June 30, 2010 was \$1.4 million. The aggregate intrinsic value of approximately 1,365,000 stock options that were exercisable at December 31, 2009 was \$0.1 million.

As of June 30, 2010, the aggregate intrinsic value of 2,380,000 stock options and SARs that were vested or expected to vest was \$7.7 million. The weighted-average grant date fair value of such stock options was \$8.22 per share. As of December 31, 2009, the weighted-average grant date fair value and aggregate intrinsic value of 2,250,000 stock options that were vested or expected to vest was \$8.41 per share and \$4.1 million, respectively.

The aggregate grant date fair value of approximately 200,000 stock options and SARs that vested during the six months ended June 30, 2010, was \$0.9 million. As of June 30, 2010, certain participants met age and service requirements that allowed their stock options to qualify for accelerated vesting upon retirement. As of June 30, 2010, LTIP participants held options to purchase 280,000 shares of common stock that would have been exercisable if they had retired as of such date. The aggregate grant date fair value of options subject to accelerated vesting was \$1.1 million. Stock options subject to accelerated vesting for expense recognition become exercisable according to the contract terms of the stock-based awards.

As of June 30, 2010, the Company has approximately 865,000 unvested stock options with a weighted-average grant date fair value of \$4.22 per share. As of December 31, 2009, approximately 905,000 unvested stock options were outstanding with a weighted-average grant date fair value of \$3.85 per share.

***Performance Units***

During the six months ended June 30, 2010, the Company granted target awards of 183,500 Performance Units to LTIP participants. The measurement period for the Performance Units is January 1, 2010 through December 31, 2010. Common Stock equal to between 40 percent and 200 percent of the Performance Unit target will be awarded based on the Company's return on invested capital, revenue growth for the Technical Products segment, the level of cash flow for the Fine Paper segment and total return to shareholders relative to a peer group of companies and the Russell 2000® Value small cap index. The weighted-average grant date fair value for the Performance Units was \$25.36 per share. Compensation cost is recognized pro rata over the vesting period.

**Note 10. Goodwill and Other Intangible Assets**

The following table presents changes in the carrying amount of goodwill for the six months ended June 30, 2010. All such goodwill is reported in the Technical Products segment.

**Note 11. Contingencies and Legal Matters***Litigation*

The Company is involved in certain legal actions and claims arising in the ordinary course of business. While the outcome of these legal actions and claims cannot be predicted with certainty, it is the opinion of management that the outcome of any such claim which is pending or threatened, either individually or on a combined basis, will not have a material adverse effect on the consolidated financial condition, results of operations or liquidity of the Company.

*Employees and Labor Relations*

Hourly employees at the Whiting, Neenah, Munising and Appleton paper mills are represented by the United Steelworkers Union (the USW). The collective bargaining agreement for the Appleton paper mill expired on May 31, 2010. The Company is currently negotiating a new labor agreement for the mill with the USW. In May 2010, the Company and the USW signed a new collective bargaining agreement for the Munising paper mill that is effective through July 14, 2013. The collective bargaining agreements for the Whiting and Neenah paper mills expire on January 31, 2013 and June 30, 2013, respectively. Separately, the Neenah, Whiting and Munising paper mills have bargained jointly with the union on pension matters. The agreement on pension matters will remain in effect through 2019.

*Indemnifications*

Pursuant to a Distribution Agreement, an Employee Matters Agreement and a Tax Sharing Agreement, the Company has agreed to indemnify Kimberly-Clark Corporation ( Kimberly-Clark ) for certain liabilities or risks related to the spin-off of the Company from Kimberly-Clark in November 2004. Many of the potential indemnification liabilities under these agreements are unknown, remote or highly contingent.

## Edgar Filing: Neenah Paper Inc - Form 10-Q

Furthermore, even in the event that an indemnification claim is asserted, liability for indemnification is subject to determination under the terms of the applicable agreement. For these reasons, the Company is unable to estimate the maximum potential amount of the possible future liability under the indemnity provisions of these agreements. However, the Company accrues for any potentially indemnifiable liability or risk under these agreements for which it believes a future payment is probable and a range of loss can be reasonably estimated. As of June 30, 2010, management believes the Company's liability under such indemnification obligations was not material to the condensed consolidated financial statements.

### **Note 12. Business Segment Information**

The Company reports its operations in two segments: Fine Paper and Technical Products. The fine paper business is a producer of premium writing, text, cover and specialty papers. The technical products business is an international producer of filtration media, durable, saturated and coated substrates for a variety of end uses; and nonwoven wall coverings. Each segment employs different technologies and marketing strategies. Disclosure of segment information is on the same basis that management uses internally for evaluating segment performance and allocating resources. Transactions between segments are executed at market prices and such transactions are eliminated in consolidation. The costs of shared services, and other administrative functions managed on a common basis, are allocated to the segments based on usage, where possible, or other factors based on the nature of the activity. General corporate expenses that do not directly support the operations of the business segments are shown as Unallocated corporate costs.

**Item 2. Management's Discussion and Analysis of Financial Condition and Results of Operations**

*The following discussion and analysis presents the factors that had a material effect on our financial position as of June 30, 2010 and our results of operations for the three and six months ended June 30, 2010 and 2009. You should read this discussion in conjunction with our consolidated financial statements and the notes to those consolidated financial statements included in our most recent Annual Report on Form 10-K. This Management's Discussion and Analysis of Financial Condition and Results of Operations contains forward-looking statements. See *Forward-Looking Statements* for a discussion of the uncertainties, risks and assumptions associated with these statements.*

*In this report, unless the context requires otherwise, references to we, us, our, Neenah or the Company are intended to mean Neenah Paper, Inc. and its consolidated subsidiaries. (Tabular amounts in millions, except as noted)*

**Executive Summary**

Results of operations for the three months ended June 30, 2010 showed substantial improvement from the depressed amounts reported in the prior year. Operating results for the three months ended June 30, 2009 include \$18.0 million for costs associated with closing the Ripon Mill. Results for the prior year period were also adversely affected by sharply reduced market demand due to severe global economic weakness in the first half of 2009. In 2010, the benefits of a substantial rebound in market demand for our products in conjunction with a more efficient cost structure and higher selling prices allowed us to offset the impact of higher manufacturing input costs.

During the three months ended June 30, 2010, we have seen an increase in manufacturing input costs, particularly for pulp, due to tight global supplies and increased demand. As a result of these conditions and the terms of our supply contracts, we expect manufacturing input costs in the near term to remain at or above the level recorded in the second quarter of 2010 before falling. While we have increased selling prices and continue to benefit from cost control initiatives implemented in 2009, there can be no assurance that we will be able to fully offset the near term increase in pulp costs.

For the three months ended June 30, 2010, consolidated sales and earnings were adversely affected by the impact of a weakening Euro relative to the U.S dollar on the translation of operating results for Neenah Germany. In general, however, the operating performance of Neenah Germany is not materially affected by volatility in exchange rates for the Euro because most of its revenue and expenses are generated within the European Union. We do not believe that the weakening of the Euro has had a material effect on market demand.

***Results of Continuing Operations***

For the three months ended June 30, 2010, consolidated net sales increased approximately \$33 million from the prior year period to \$168.6 million primarily due to substantially higher shipments in our technical products business, as well as, increased volume and selling prices in the fine paper business as both businesses benefited from improved market conditions. The second quarter of 2010 represented our fifth consecutive quarter of sequential consolidated revenue growth.

Consolidated operating income of \$13.7 million for the three months ended June 30, 2010 increased more than \$24 million from an operating loss of \$10.5 million in the prior year period. The operating loss in 2009 was due to \$18.0 million of costs associated with closing the Ripon Mill. Excluding such costs, consolidated operating income increased \$6.2 million, or more than 80 percent, due to increased volume, improved operating performance and paper machine utilization; and higher selling prices. These favorable factors were only partially offset by higher manufacturing input costs.

***Results of Discontinued Operations***

For the three months ended June 30, 2009, timber sales to Northern Pulp pursuant to the Stumpage Agreement resulted in net sales from discontinued operations of \$0.5 million. For the three months ended June 30, 2010, there were no net sales from discontinued operations following the sale of the Timberlands in the first quarter of 2010. For the three months ended June 30, 2010, the pre-tax loss from discontinued operations was \$0.3 million compared to earnings from discontinued operations of \$0.3 million in the prior year period.

**Results of Operations and Related Information**

In this section, we discuss and analyze our net sales, earnings before interest and taxes (which we refer to as operating income ) and other information relevant to an understanding of our results of operations for the three and six months ended June 30, 2010 and 2009.

The following table presents our net sales by segment:

	Three Months Ended June 30,		Total Change	Change in Net Sales Compared to Prior Period		
	2010	2009		Volume	Average Change Due To Net Price	Currency
Fine Paper	\$ 68.9	\$ 61.3	\$ 7.6	\$ 5.7	\$ 1.9	\$
Technical Products	99.7	73.9	25.8	25.0	4.8	(4.0)
Consolidated	\$ 168.6	\$ 135.2	\$ 33.4	\$ 30.7	\$ 6.7	\$ (4.0)

Consolidated net sales for the three months ended June 30, 2010 were \$33.4 million higher than the prior year period due to increased volume in both segments which benefited from improved market conditions.

- Net sales in our fine paper business increased \$7.6 million or 12 percent primarily due to a 9 percent increase in shipments. The improved sales volume reflected higher sales of both domestic branded and non-branded products, which exceeded the increase in the uncoated free sheet market, and growth in international shipments. Average prices for most branded products were 3 to 5 percent higher than the prior year as a result of pricing actions implemented in 2009 and 2010. Higher prices were partially offset by a less favorable sales mix resulting from higher growth rates for lower priced products relative to our premium products.

- Net sales in our technical products business increased \$25.8 million or 35 percent primarily due to a 34 percent increase in shipments. Higher sales volume reflected improvement for all Strategic Business Units, with particularly strong growth in tape, filter media and abrasive backing shipments. Average net selling prices increased as a result of a more favorable product mix and higher average selling prices. A weakening of the Euro versus the U.S. dollar reduced net sales by approximately \$4 million. The second quarter of 2010 represented the fifth consecutive quarter of sequential revenue growth for our technical products business.

## Edgar Filing: Neenah Paper Inc - Form 10-Q

The following table presents our net sales by segment:

	Six Months Ended June 30,		Change in Net Sales Compared to Prior Period						
	2010	2009	Total Change	Change Due To			Average Net Price	Currency	
				Volume					
Fine Paper	\$ 138.5	\$ 126.1	\$ 12.4	\$ 13.9	\$ (1.5)

Consolidated	\$ 335.9	\$ 269.3	\$ 66.6	\$ 65.4	\$ 1.5			\$ (0.3)	

Consolidated net sales for the six months ended June 30, 2010 were \$66.6 million higher than the prior year period due to increased volume in both segments which benefited from improved market conditions and customers replenishing the supply chain.

- Net sales in our fine paper business increased \$12.4 million or 10 percent due to an 11 percent increase in shipments. The improved sales volume reflected higher sales of domestic branded and non-branded products, which exceeded the increase in the uncoated free sheet market. Higher prices for most branded products were more than offset by a less favorable sales mix which reflected higher growth rates for lower priced products relative to our branded products.

Table of Contents

- Net sales in our technical products business increased \$54.2 million or 38 percent primarily due to a 36 percent increase in shipments. Higher sales volume reflected strong growth in tape, filter media and abrasive backing shipments. The improvement in average net selling prices was primarily due to a more favorable product mix.

*Analysis of Operating Income Three and Six Months Ended June 30, 2010 and 2009*

- (b) Includes changes in selling price and product mix.
- (c) Includes price changes for raw materials and energy.
- (d) Results for the three months ended June 30, 2009 include costs associated with the closure of the Ripon Mill of \$18.0 million.
- (e) Includes other manufacturing costs, distribution, selling, general and administrative expenses and gains and losses on asset sales.

Consolidated operating income of \$13.7 million for the three months ended June 30, 2010 increased \$24.2 million from the operating loss of \$10.5 million in the prior year period. The operating loss for the three months ended June 30, 2009 was due to \$18.0 million of costs related to the closure of the Ripon Mill. Results for the three months ended June 30, 2009 also reflected reduced market demand following severe global economic weakness in the first half of 2009. Excluding such closure costs, consolidated operating income for the current period increased \$6.2 million or more than 80 percent from the prior year. The favorable comparison was primarily due to higher volume, improved operating performance, including the benefit of improved paper machine utilization and higher selling prices; partially offset by higher manufacturing input costs.

Table of Contents

- Operating income for our fine paper business increased \$19.2 million from the prior year period. Excluding costs related to closing the Ripon Mill, operating income increased \$1.2 million from the prior year period primarily due to increased volume, higher selling prices for most branded products and a more efficient cost structure following cost reduction initiatives implemented in 2009. These favorable variances were partially offset by higher manufacturing input costs, principally for pulp, a less favorable product mix due to faster growth rates for relatively lower priced products and an increase in bad debt reserves due to a customer's bankruptcy filing.
- Operating income for our technical products business increased \$5.2 million from 2009 due to increased volume, higher selling prices and lower energy costs. These favorable factors were partially offset by higher manufacturing input costs for pulp and latex.
- Unallocated corporate expenses for the three months ended June 30, 2010 of \$4.0 million were \$0.2 million higher than the prior year.

The following table presents our operating income (loss) by segment:

	Six Months Ended June 30,		Total Change	Change in Operating Income (Loss) Compared to Prior Period

- (e) Includes other manufacturing costs, distribution, selling, general and administrative expenses and gains and losses on asset sales.

Consolidated operating income of \$30.1 million for the six months ended June 30, 2010 increased \$35.7 million from the operating loss of \$5.6 million in the prior year period. The operating loss for the six months ended June 30, 2009 was due to \$18.0 million of costs related to the closure of the Ripon Mill. Results for the six months ended June 30, 2009 were also adversely affected by sharply reduced market demand following severe global economic weakness, particularly in the second half of 2008 and the first half of 2009. Excluding such closure costs, consolidated operating income for the current period increased \$17.7 million or more than 140 percent from the prior year. The favorable comparison for both segments was primarily due to favorable volume, improved operating performance, including the benefit of improved paper machine utilization and ongoing benefits from initiatives implemented in 2009 to reduce spending. These favorable variances were partially offset by higher manufacturing input costs and a less favorable product mix.

## Edgar Filing: Neenah Paper Inc - Form 10-Q

- Operating income for our fine paper business increased \$20.1 million from the prior year period operating loss of \$1.4 million due to costs associated with closing the Ripon Mill in 2009. Excluding costs related to closing the Ripon Mill, operating income increased \$2.1 million from the prior period primarily due to higher volume and a more efficient cost structure following cost reduction initiatives implemented in 2009. These favorable variances were partially offset by higher manufacturing input costs, principally for pulp, and a less favorable product mix due to faster growth rates for relatively lower priced products.
- Operating income for our technical products business increased \$15.1 million from 2009 due to higher volume, improved paper machine utilization, and lower energy costs. These favorable factors were partially offset by higher manufacturing input costs for pulp and latex.
- Unallocated corporate expenses for the six months ended June 30, 2010 of \$6.4 million were \$0.5 million lower than the prior year.

Table of Contents***Additional Statement of Operations Commentary:***

- Selling, general and administrative ( SG&A ) expense of \$18.7 million for the three months ended June 30, 2010 increased \$2.1 million from the prior year period primarily as a result of an increase in bad debt reserves due to a customer's bankruptcy filing. For the three months ended June 30, 2010, SG&A expense as a percentage of net sales was approximately 11.1 percent and was 1.2 percentage points lower than the prior year period due to higher net sales in 2010.
- For the three months ended June 30, 2010 and 2009, we incurred net interest expense of \$5.0 million which was \$0.3 million favorable to the prior year. The favorable comparison was due to lower average debt levels in 2010 due to the repayment of all Term Loan and Revolver borrowings with proceeds from the sale of the Woodlands.
- For the three months ended June 30, 2010, we recorded an income tax provision related to continuing operations of \$2.4 million which resulted in an effective income tax rate of approximately 28 percent. For the three months ended June 30, 2009, we recorded an income tax benefit related to continuing operations of \$7.2 million which resulted in an effective income tax benefit rate of approximately 46 percent. The tax effects of closing the Ripon Mill were treated as a discrete item in determining our tax benefit for the three months ended June 30, 2009. In general, our effective tax rate differs from the U.S. statutory tax rate of 35 percent primarily due to the benefits of our corporate tax structure and the proportion of pre-tax income in jurisdictions with marginal tax rates that differ from the U.S. statutory tax rate.

***Operating Cash Flow Commentary:***

- Cash provided by operating activities of \$28.7 million for the six months ended June 30, 2010 was \$6.5 million less than cash provided by operating activities of \$35.2 million in the prior year period. Cash provided by operations in the prior year period reflected a \$23.5 million decrease in our investment in working capital, including the receipt of a refund of U.S. income taxes of approximately \$10.9 million. For the six months ended June 30, 2010, our investment in working capital increased \$2.8 million primarily due to an increase in accounts receivable reflecting improved sales. Excluding working capital changes, cash provided by operations for the current year increased \$19.8 million from the prior year period primarily due to higher operating earnings in the current year.

## Edgar Filing: Neenah Paper Inc - Form 10-Q

- As of June 30, 2010, we had more than \$109 million of U.S. federal and \$102 million of state net operating losses that may be carried forward to offset future taxable income through 2029.

- For the six months ended June 30, 2010, we made aggregate contributions to qualified and non-qualified pension trusts and payments of pension benefits for unfunded pension plans of approximately \$7.9 million. We expect to make aggregate contributions to qualified and non-qualified pension trusts and benefit payments for unfunded pension plans of approximately \$17 million (based on exchange rates at June 30, 2010) in calendar 2010. This compared to payments in 2009 of \$4.3 million and \$12.5 million for the six months and full year, respectively.

***Investing Commentary:***

- For the six months ended June 30, 2010, cash provided by investing activities was \$73.8 million, compared to cash used by investing activities of \$4.5 million in the prior year period. Cash provided by investing activities for the six months ended June 30, 2010 includes net proceeds from the sale of the Woodlands of \$78.0 million.

- Capital expenditures for the six months ended June 30, 2010 were \$4.7 million compared to spending of \$4.2 million in the prior year. We expect to have aggregate capital expenditures for 2010 of approximately \$15 million to \$20 million. The level of our capital expenditures for the next 12 months is not expected to have a material adverse effect on our financial condition, results of operations or liquidity.

***Financing Commentary:***

- Our liquidity requirements are provided by cash generated from operations, short- and long-term borrowings and proceeds from asset sales. We used the net proceeds of \$78.0 million from the sale of the Woodlands to extinguish the Term Loan by repaying in full \$40 million of outstanding Term Loan borrowings and repaying approximately \$26 million in outstanding Revolver borrowings which reduced the balance of outstanding Revolver borrowings to zero. In addition, we made \$3.1 million in contract termination payments related to the closure of the Ripon Mill that became due and payable upon the sale of the Woodlands.

- For the six months ended June 30, 2010, cash and equivalents increased \$26.5 million to \$32.1 million at June 30, 2010 from \$5.6 million at December 31, 2009.

- For the six months ended June 30, 2010, debt decreased \$76.2 million to \$243.0 million at June 30, 2010 from \$319.2 million at December 31, 2009.

- Availability under our revolving credit facility varies over time depending on the value of our inventory, receivables and various capital assets. As of June 30, 2010, we had no amounts outstanding under our Revolver and \$92.8 million of available credit. In addition, we have 8.4 million (\$10.3 million, based on exchange rates at June 30, 2010) of available credit under our German Line of Credit.

- We paid aggregate cash dividends of \$0.20 per share or approximately \$2.9 million for the six months ended June 30, 2010 and 2009.

- We have required debt payments through June 30, 2011 of \$9.5 million. Such payments include required amortization payments on our German Loan Agreement of approximately \$1.5 million and \$8.0 million on our German Line of Credit which we expect to renew in

November 2010. In addition, from time to time we may be in the market for the purpose of repurchasing our Senior Notes. Any such purchases are not expected have a material effect on our liquidity.

Management believes that our ability to generate cash from operations and our borrowing capacity are adequate to fund working capital, capital spending and other cash needs for the next twelve months.

### **Critical Accounting Policies and Use of Estimates**

The preparation of financial statements in conformity with accounting principles generally accepted in the United States requires estimates and assumptions that affect the reported amounts of assets and liabilities at the date of the financial statements and the reported amounts of net sales and expenses during the reporting period. We believe that the estimates, assumptions and judgments described in Management's Discussion and Analysis of Financial Condition and Results of Operations Critical Accounting Policies of our most recent Annual Report on Form 10-K have the greatest potential impact on our financial statements, so we consider these to be our critical accounting policies. The critical accounting policies used in the preparation of the consolidated financial statements are those that are important both to the presentation of financial condition and results of operations and require significant judgments with regard to estimates used. These critical judgments relate to the timing of recognizing sales revenue, the recoverability of deferred income tax assets, pension benefits and future cash flows associated with impairment testing of long-lived assets. Actual results could differ from these estimates and changes in these estimates are recorded when known. We believe that the consistent application of these policies enables us to provide readers of our financial statements with useful and reliable information about our operating results and financial condition. There have been no significant changes in these policies, or the estimates used in the application of the policies, since December 31, 2009.

**Cautionary Note Regarding Forward-Looking Statements**

Certain statements in this Quarterly Report on Form 10-Q may constitute forward-looking statements as defined in Section 27A of the Securities Act of 1933 (the Securities Act ), Section 21E of the Securities Exchange Act of 1934 (the Exchange Act ), the Private Securities Litigation Reform Act of 1995 (the PSLRA ), or in releases made by the SEC, all as may be amended from time to time. Statements contained in this quarterly report that are not historical facts may be forward-looking statements within the meaning of the PSLRA. Any such forward-looking statements reflect our beliefs and assumptions and are based on information currently available to us. Forward-looking statements are only predictions and involve known and unknown risks, uncertainties and other factors that may cause our actual results, performance or achievements, or industry results, to be materially different from any future results, performance or achievements expressed or implied by such forward-looking statements. These cautionary statements are being made pursuant to the Securities Act, the Exchange Act and the PSLRA with the intention of obtaining the benefits of the safe harbor provisions of such laws. The Company cautions investors that any forward-looking statements we make are not guarantees or indicative of future performance. For additional information regarding factors that may cause our results of operations to differ materially from those presented herein, please see Risk Factors contained in our most recent Annual Report on Form 10-K and as are detailed from time to time in other reports we file with the SEC.

You can identify forward-looking statements as those that are not historical in nature, particularly those that use terminology such as may, will, should, expect, anticipate, contemplate, estimate, believe, plan, project, predict, potential or continue, or the negative of the above. In evaluating these forward-looking statements, you should consider the following factors, as well as others contained in our public filings from time to time, which may cause our actual results to differ materially from any forward-looking statement:

- increases in commodity prices, (particularly for pulp, energy and latex) due to constrained global supplies or unexpected supply disruptions;
- changes in market demand for our products due to global economic conditions;
- fluctuations in (i) exchange rates (in particular changes in the U.S. dollar/Euro currency exchange rates) and (ii) interest rates;
- the availability of raw materials and energy;
- the competitive environment;
- capital and credit market volatility;

## Edgar Filing: Neenah Paper Inc - Form 10-Q

- fluctuations in global equity and fixed-income markets;
- unanticipated expenditures related to the cost of compliance with environmental and other governmental regulations;
- our ability to control costs and implement measures designed to enhance operating efficiencies;
- the loss of current customers or the inability to obtain new customers;
- increases in the funding requirements for our pension and postretirement liabilities;
- changes in asset valuations including write-downs of assets including fixed assets, inventory, accounts receivable, deferred tax assets or other assets for impairment or other reasons;
- our existing and future indebtedness;
- strikes, labor stoppages and changes in our collective bargaining agreements and relations with our employees and unions; and
- other risks that are detailed from time to time in reports we file with the SEC.

Any subsequent written or oral forward-looking statements attributable to us or persons acting on our behalf are expressly qualified in their entirety by the cautionary statements set forth or referred to above, as well as the risk factors contained in our most recent Annual Report on Form 10-K. Except as required by law, we disclaim any obligation to update such statements or to publicly announce the result of any revisions to any of the forward-looking statements contained herein to reflect future events or developments.

### **Item 3. Quantitative and Qualitative Disclosures About Market Risk**

There have been no material changes to the disclosure on this matter made in our Annual Report on Form 10-K for the year ended December 31, 2009.

**Item 4. Controls and Procedures**

*Disclosure Controls and Procedures*

We maintain disclosure controls and procedures that are designed to ensure that information required to be disclosed in the reports we file or submit under the Exchange Act, as amended, is recorded, processed, summarized and reported within the time periods specified in the rules and forms of the SEC, and that such information is accumulated and communicated to our management in a timely manner.

As of June 30, 2010, an evaluation was performed under the supervision and with the participation of our management, including the Chief Executive Officer and Chief Financial Officer, of the effectiveness of the design and operation of our disclosure controls and procedures. Based on that evaluation, our management, including the Chief Executive Officer and Chief Financial Officer, concluded that our disclosure controls and procedures were effective as of June 30, 2010.

*Internal Controls over Financial Reporting*

There have been no changes in our internal control over financial reporting (as such term is defined in Exchange Act Rules 13a-15(f) and 15d-15(f)) during the three months ended June 30, 2010 that have materially affected, or are reasonably likely to materially affect, our internal control over financial reporting.

**PART II OTHER INFORMATION**

**Item 1. Legal Proceedings**

See Note 11, Contingencies and Legal Matters of Notes to Condensed Consolidated Financial Statements of Item 1 Financial Statements.

**Item 1A. Risk Factors**

In addition to the other information set forth in this report, you should carefully consider the factors discussed in Part I, Item 1A. Risk Factors in our most recent Annual Report on Form 10-K, which could materially affect our business, financial condition or future results. The risks described in our Annual Report on Form 10-K are not the only risks facing our Company. Additional risks and uncertainties not currently known to us or that we currently deem to be immaterial also may materially adversely affect our business, financial condition and/or operating results.
