Hawaiian Telcom Holdco, Inc.

Notes to Condensed Consolidated Financial Statements

(Unaudited)

1. Description of Business

Business Description

Hawaiian Telcom Holdco, Inc. and subsidiaries (the Company) is the incumbent local exchange carrier for the State of Hawaii with an integrated telecommunications network. The Company offers a variety of telecommunication services to residential and business customers in Hawaii including local telephone, network access and data transport, long distance, Internet, television and wireless phone service. The Company also provides communications equipment sales and maintenance, and network managed services.

Organization

The Company has one direct wholly-owned subsidiary, Hawaiian Telcom Communications, Inc. which has two direct wholly-owned subsidiaries Hawaiian Telcom, Inc. and Hawaiian Telcom Services Company, Inc. Hawaiian Telcom, Inc. operates the regulated local exchange carrier and Hawaiian Telcom Services Company, Inc. operates all other businesses.

2. Basis of Presentation

The accompanying unaudited condensed consolidated financial statements of the Company have been prepared by the Company in accordance with accounting principles generally accepted in the United States of America. Certain information and disclosures normally included in annual financial statements prepared in accordance with accounting principles generally accepted in the United States of America have been omitted and condensed. In the opinion of the Company's management, all adjustments (consisting of only normal and recurring accruals) have been made to present fairly the financial position, the results of operations and cash flows for the periods presented. The results of operations for the periods presented are not necessarily indicative of the results to be expected for the full year. Although the Company believes that the disclosures are adequate to make the information presented not misleading, these financial statements should be read in conjunction with the Company's audited consolidated financial statements as of and for the year ended December 31, 2011.

Cash and Cash Equivalents

Edgar Filing: Hawaiian Telcom Holdco, Inc. - Form 10-Q

Cash and cash equivalents include cash and money market accounts with maturities at acquisition of three months or less. The majority of cash balances at September 30, 2012 are held in one bank in demand deposit accounts.

Supplemental Non-Cash Investing and Financing Activities

Accounts payable included \$2.4 million and \$0.7 million at September 30, 2012 and 2011, respectively, for additions to property, plant and equipment.

Taxes Collected from Customers

The Company presents taxes collected from customers and remitted to governmental authorities on a gross basis, including such amounts in the Company's reported operating revenues. Such amounts represent primarily Hawaii state general excise taxes and Hawaii Public Utility Commission fees. Such taxes and fees amounted to \$1.6 million and \$5.3 million for the three and nine months ended September 30, 2012 and \$1.6 million and \$5.0 million for the three and nine months ended September 30, 2011, respectively.

Table of Contents***Earnings per Share***

Basic earnings per share is based on the weighted effect of all common shares issued and outstanding, and is calculated by dividing earnings by the weighted average shares outstanding during the period. Diluted earnings per share is calculated by dividing earnings, adjusted for the effect, if any, from assumed conversion of all potentially dilutive common shares outstanding, by the weighted average number of common shares used in the basic earnings per share calculation plus the number of common shares that would be issued assuming conversion of all potentially dilutive common shares outstanding. The denominator used to compute basic and diluted earnings per share was as follows:

| | Three Months Ended September 30, | | Nine Months Ended September 30, | |
|--|-------------------------------------|------------|------------------------------------|------------|
| | 2012 | 2011 | 2012 | 2011 |
| Basic earnings per share - weighted average shares | 10,246,335 | 10,138,795 | 10,230,719 | 10,138,358 |
| Effect of dilutive securities: | | | | |
| Employee and director restricted stock units | 124,301 | 133,122 | 124,871 | 145,556 |
| Warrants | 337,818 | 503,401 | 302,927 | 637,803 |
| Diluted earnings per share - weighted average shares | 10,708,454 | 10,775,318 | 10,658,517 | 10,921,717 |

The computation of weighted average dilutive shares outstanding excluded restricted stock units to acquire 18,610 shares and 18,612 shares of common stock for the three month and nine month periods ended September 30, 2012, respectively. The unrecognized compensation on a per unit basis for these restricted stock units was greater than the average market price of the Company's common stock for the period presented. Therefore, the effect would be anti-dilutive.

3. Reorganization Items

Reorganization items represent expense or income amounts that were recognized as a direct result of the Company's Chapter 11 filing and are presented separately in the condensed consolidated statements of operations. Such items consist of professional fees related to legal, financial advisory and other professional costs directly associated with the reorganization process and amounted to a reimbursement of \$0.1 million and an expense of \$0.9 million for the three and nine months ended September 30, 2011, respectively. The Company emerged from Chapter 11 in October 2010 but continued to incur reorganization related expenses until December 2011 as the Chapter 11 cases were not closed until January 2012.

Net cash paid for reorganization items, consisting of professional and other fees, amounted to \$2.2 million for the nine months ended September 30, 2011.

4. Receivables

Edgar Filing: Hawaiian Telcom Holdco, Inc. - Form 10-Q

Table of Contents**6. Accrued Expenses**

Accrued expenses consisted of the following (dollars in thousands):

| | September 30, 2012 | December 31, 2011 |
|-----------------------|-----------------------|----------------------|
| Salaries and benefits | \$ 13,864 | \$ 17,519 |
| Interest | 3,675 | 4,875 |
| Other taxes | 875 | 1,417 |
| | \$ 18,414 | \$ 23,811 |

7. Long-Term Debt

Long-term debt consists of the following (dollars in thousands):

| | Interest Rate at September 30, 2012 | Final Maturity | September 30, 2012 | December 31, 2011 |
|-------------------------|---|-------------------|-----------------------|----------------------|
| Term loan | 7.00% | February 28, 2017 | \$ 300,000 | \$ 300,000 |
| Term loan repaid | NA | NA | | 300,000 |
| Original issue discount | | | (4,041) | 300,000 |
| | | | 295,959 | 300,000 |
| Current | | | 3,000 | 2,600 |
| Noncurrent | | | \$ 292,959 | \$ 297,400 |

The term loan outstanding at September 30, 2012 provides for interest at the Alternate Base Rate, a rate which is indexed to the prime rate with certain adjustments as defined, plus a margin of 4.75% or a Eurocurrency rate on deposits of one, two, three or six months but no less than 1.25% per annum plus a margin of 5.75%. The Company has selected the Eurocurrency rate as of September 30, 2012 resulting in a nominal interest rate currently at 7.00%.

The term loan provides for interest payments no less than quarterly. In addition, quarterly principal payments are required beginning December 2012 of \$0.8 million with the balance of the loan due at maturity on February 28, 2017. The Company must prepay, generally within three months after year end, 50% or 25% of excess cash flow, as defined. The percent of excess cash flow required is dependent on the Company's leverage ratio. The Company must also make prepayments on loans in the case of certain events such as large asset sales.

Edgar Filing: Hawaiian Telcom Holdco, Inc. - Form 10-Q

In connection with the February 2012 refinancing of the term loan debt, the Company paid a premium on the repayment of the old term loan of \$6.0 million. In addition, the Company paid \$4.1 million in underwriting fees and legal costs. The premium on repayment of debt, and underwriting fees and legal costs were accounted for in accordance with accounting standards for modification of debt instruments with different terms. The Company compared each syndicated lenders' loan under the old term loan with the syndicated lenders' loan under the new term loans. For loans under the new term loan that were substantially different, the Company recognized the exchange of debt instruments as a debt extinguishment. For loans under the new term loan that were not substantially different, the Company accounted for the exchange of debt instruments as a modification. As a result of the refinancing, the Company capitalized \$5.0 million of the premium on the repayment of debt and refinancing fees and expensed the remainder resulting in a loss on early extinguishment of debt of \$5.1 million.

Table of Contents

The Company also has a revolving credit facility which matures on October 3, 2015. The facility has an available balance of \$30.0 million with no amounts drawn as of or for the periods ending September 30, 2012 and 2011. A commitment fee is payable quarterly to the lender under the facility. Interest on amounts outstanding is based on, at the Company's option, the bank prime rate plus a margin of 3.0% to 6.0% or the Eurocurrency rate for one, two, three or six month periods plus a margin of 4.0% to 5.5%. The margin is dependent on the Company's leverage, as defined in the agreement, at the time of the borrowing.

The obligations under the bank facilities are guaranteed by the Company and each subsidiary with certain exceptions. In addition, the bank credit facilities are collateralized by substantially all of the Company's assets.

The bank credit facilities contain various negative and affirmative covenants that restrict, among other things, incurrence of additional indebtedness, payment of dividends, redemptions of stock, other distributions to shareholders and sales of assets. In addition, there are financial covenants consisting of an interest coverage ratio, leverage ratio and a maximum level of capital expenditures.

Maturities

The annual requirements for principal payments on long-term debt as of September 30, 2012 are as follows (dollars in thousands):

8. Employee Benefit Plans

The Company sponsors a defined benefit pension plan and postretirement medical and life insurance benefits for union employees. The Company also sponsors a cash balance pension plan for nonunion employees.

As further discussed in Note 12, the Company implemented new terms of employment for union employees effective January 1, 2012. The terms of employment include a provision for a freeze of pension benefits related to service and wage increases effective March 1, 2012. In January 2012, the union filed an unfair labor practices charge with the National Labor Relations Board (NLRB) regarding the implementation of the terms of employment. In May 2012, the NLRB dismissed the complaint. The union appealed the dismissal of the complaint to the NLRB General Counsel. The appeal was denied in August 2012.

The Company amended its union pension plan on January 24, 2012 for the freeze of benefits effective March 1, 2012. This resulted in a reduction of the projected benefit obligation by \$30.2 million which is the difference between the accumulated benefit obligation and projected benefit obligation at that date. The liability as of January 24, 2012 was measured using a discount rate of 4.54%. The union pension trust assets were also measured as of this date. The reduction in the net recorded liability of \$33.4 million was used to offset actuarial losses previously recognized in the accumulated other comprehensive loss. In addition, the periodic benefit cost was reduced to reflect that there is no future service cost for the union pension plan beginning March 1, 2012.

Table of Contents

The Company accrues the costs of pension and postretirement benefits over the period from the date of hire until the date the employee becomes fully eligible for benefits. The following provides the components of benefit costs for the three and nine months ended September 30, 2012 and 2011 (dollars in thousands):

| Net periodic benefit cost | \$ 804 | \$ 644 | \$ 2,584 | \$ 1,932 |

The Company previously disclosed in its consolidated financial statements for the year ended December 31, 2011 that it expected to contribute \$16.1 million to its pension plan in 2012. As of September 30, 2012, the Company has contributed \$13.0 million. The Company presently anticipates contributing \$1.1 million during the remainder of 2012. Certain changes in federal law have reduced the level of required contributions.

9. Income Taxes

The income tax provision differs from the amounts determined by applying the statutory federal income tax rate of 34% to the income before income tax provision for the following reasons (dollars in thousands):

A valuation allowance has been provided at September 30, 2012 and December 31, 2011 for the deferred tax assets because of the uncertainty of future realization of such amounts. The Company has a short history as a new entity (post Chapter 11). Although the Company's ability to achieve profitability was enhanced by the costs and liability reductions that occurred as a result of the Chapter 11 process, its historical operating results remain relevant. The fundamental business and inherent risks in which the Company operates did not change. As such, subsequent to the Chapter 11 process, due primarily to historical pre-tax losses, at September 30, 2012 the Company determined that it was still more likely than not that the deferred income tax assets would not be realized. If additional positive evidence becomes available, the conclusion regarding the need for full valuation allowances may change resulting in the reversal of some or all of the valuation allowances.

The Company evaluates its tax positions for liability recognition. As of September 30, 2012, the Company had no unrecognized tax benefits. No interest or penalties related to tax assessments were recognized in the Company's condensed consolidated statements of operations for the three or nine months ended September 30, 2012 or 2011. All tax years from 2007 remain open for both federal and Hawaii state purposes.

10. Stock Compensation

The Company has an equity incentive plan that became effective on October 28, 2010. The Compensation Committee of the Company's Board of Directors may grant awards under the plan in the form of incentive stock options, non-qualified stock options, stock appreciation rights, restricted stock, restricted stock units and other stock-based awards. The maximum number of shares issuable under the new equity incentive plan is 1,400,000 shares. All grants under the equity incentive plan will be issued to acquire shares at the fair value on date of grant.

As of September 30, 2012, all awards were restricted stock units. Activity with respect to outstanding restricted stock units for the nine months ended September 30, 2012 and 2011 was as follows:

| | Shares | | Weighted-Average Grant-Date Fair Value |
|---------------------------------|----------|----|--|
| 2012 | | | |

Table of Contents

The Company recognized compensation expense of \$0.5 million and \$1.3 million for the three and nine months ended September 30, 2012, respectively. The Company recognized compensation expense of \$0.5 million and \$1.5 million for the three and nine months ended September 30, 2011, respectively. The fair value as of the vesting date for the restricted stock units that vested during the three and nine months ended September 30, 2012 was less than \$0.1 million and \$1.0 million, respectively. Upon vesting, unit holders have the option to net share-settle to cover the required withholding tax and the remaining amount is converted into an equivalent number of shares of common stock. The total shares withheld were 3,160 and were based on the value of the restricted stock units as determined by the Company's closing stock price. Total payments for the employees' tax obligations to the tax authorities were less than \$0.1 million. Other than reimbursements for tax withholdings, there was no cash received under all share-based arrangements.

11. Restructuring

In the second quarter of 2011, the Company recorded a restructuring expense of \$1.9 million included in selling, general and administrative expenses in conjunction with a cost reduction plan in the wireline segment. The plan was primarily to align the Company's operations to its strategic plan and resulted in the termination of approximately six percent of the Company's workforce. The related severance cost amounted to \$1.5 million. The restructuring included closure of the Company's remaining retail stores, outsourcing of toll operators and downsizing of various other legacy functions. In conjunction with closure of the retail stores, the Company recognized a liability of \$0.4 million for the termination of three retail space leases. All liabilities recognized have been settled with cash payments.

12. Commitments and Contingencies

Collective Bargaining Agreement

On October 24, 2011, after several extensions beyond the original September 12, 2011 expiration date, the Company's collective bargaining agreement with the International Brotherhood of Electrical Workers Local 1357 (IBEW) expired. The agreement covers approximately half of the Company's work force. On October 31, 2011 the IBEW announced that a majority of union-represented employees rejected the Company's last, best and final offer. On December 13, 2011, the IBEW announced that a revised last, best and final offer was also rejected. The Company has concluded that it has bargained in good faith and reached an impasse. As such, the Company implemented the terms of employment of its revised last, best and final offer as of January 1, 2012, which included a freeze of pension benefits effective March 1, 2012 as discussed in Note 8. In January 2012, the IBEW filed an unfair labor practices charge with the National Labor Relations Board (NLRB) regarding the implementation of the terms of employment. In May 2012, the NLRB dismissed the complaint. The IBEW appealed the dismissal of the complaint to the NLRB General Counsel. The appeal was denied in August 2012.

Third Party Claims

In the normal course of conducting its business, the Company is involved in various disputes with third parties, including vendors and customers. The outcome of such disputes is generally uncertain and subject to commercial negotiations. The Company periodically assesses its liabilities in connection with these matters and records reserves for those matters where it is probable that a loss has been incurred and the loss can be reasonably estimated. Based on management's most recent assessment, the Company believes that the risk of loss in excess of liabilities recorded is not material for all outstanding claims and disputes and the ultimate outcome of such matters will not have a material adverse effect

on the Company's results of operations, cash flows or financial position.

Table of Contents

Litigation

The Company is involved in litigation arising in the normal course of business. The outcome of this litigation is not expected to have a material adverse impact on the Company's condensed consolidated financial statements.

13. Fair Value of Financial Instruments

The following method and assumptions were used to estimate the fair value of each class of financial instruments for which it is practical to estimate the fair value.

Cash and cash equivalents, accounts receivable and accounts payable The carrying amount approximates the fair value. The valuation is based on settlements of similar financial instruments all of which are short-term in nature and generally settled at or near cost. Cash is measured as Level 1.

Investment securities The fair value of investment securities is based on quoted market prices. Investment securities are included in other assets on the condensed consolidated balance sheets.

Debt The fair value of debt is based on the value at which the debt is trading among holders.

The estimated fair value of financial instruments is as follows (dollars in thousands):

| | Carrying Value | Fair Value |
|--|---------------------------|-----------------------|
| September 30, 2012 | | |
| Assets - investment in U.S. Treasury obligations (Level 1) | \$ 1,655 | \$ 1,655 |
| Liabilities - long-term debt (carried at cost, Level 2) | 300,000 | 305,000 |
| December 31, 2011 | | |
| Assets - investment in U.S. Treasury obligations (Level 1) | \$ 1,718 | \$ 1,718 |
| Liabilities - long-term debt (carried at cost, Level 2) | 300,000 | 306,000 |

Fair Value Measurements

Edgar Filing: Hawaiian Telcom Holdco, Inc. - Form 10-Q

Fair value for accounting purposes is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date (exit price).

Accounting standards establish a fair value hierarchy that prioritizes the inputs used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurement) and the lowest priority to unobservable inputs (Level 3 measurement).

Assets measured at fair value on a recurring basis represent investment securities included in other assets.

Table of Contents**14. Segment Information**

The Company operates in two reportable segments (Wireline Services and Wireless) based on how resources are allocated and performance is assessed by the Company's Chief Executive Officer, the Company's chief operating decision maker. The Wireline Services segment provides local telephone service including voice and data transport, enhanced custom calling features, network access, directory assistance and private lines. In addition, the Wireline Services segment provides Internet, long distance services, television, managed services, customer premise equipment, data solutions, billing and collection, and pay telephone services. The other segment consists primarily of wireless services.

15. Wavecom Acquisition

On July 12, 2012, the Company, through its Hawaiian Telcom, Inc. subsidiary, entered into a share purchase agreement with Wavecom Solutions Corporation (Wavecom) to acquire all outstanding shares for \$13.0 million in cash with certain adjustments determined at the time of closing. Wavecom provides telecommunication services in the State of Hawaii which are complementary to the Company s operations. After elimination of certain intercompany and non-recurring transactions, Wavecom s current annual revenues are estimated at \$7 million. Closing of the transaction is subject to regulatory approval which is expected to occur in the fourth quarter of 2012.

Forward-Looking Statements

This quarterly report contains forward-looking statements. These statements relate to future events or our future financial performance (including our anticipated cost structure) and involve known and unknown risks, uncertainties and other factors that may cause our actual results, levels of activity, performance or achievements to be materially different from any future results, levels of activity, performance or achievements expressed or implied by these forward-looking statements. In some cases, you can identify forward-looking statements by terminology such as may, should, expects, intends, plans, anticipates, believes, estimates, predicts, potential, continues, assumption or the use of other comparable terminology. These statements (including statements related to our anticipated cost structure) are only predictions. Actual events or results may differ materially from those anticipated or projected due to a number of factors. These factors include, but are not limited to:

- our ability to execute our strategic plan;
- failures in critical back-office systems and IT infrastructure;
- our ability to operate as a stand-alone telecommunications provider;
- our ability to close and integrate the pending Wavecom acquisition;
- our ability to maintain arrangements with third-party service providers;
- changes in regulations and legislation applicable to providers of telecommunications services;
- changes in demand for our products and services;
- technological changes affecting the telecommunications industry; and
- our indebtedness could adversely affect our financial condition.

These and other factors may cause our actual results to differ materially from any forward-looking statement. Refer to our Annual Report on Form 10-K for a detailed discussion of risks that could materially adversely affect our business, financial condition or results of operations. Additional risks and uncertainties not currently known to us or that we currently deem to be immaterial may also materially adversely affect our business operations.

Although we believe that the expectations reflected in the forward-looking statements are reasonable, we cannot guarantee future results, levels of activity, performance or achievements. These forward-looking statements are made as of the date of issuance of these quarterly condensed

Segments and Sources of Revenue

We operate in two reportable segments (Wireline Services and Wireless) based on how resources are allocated and performance is assessed by our chief operating decision maker. Our chief operating decision maker is our Chief Executive Officer.

Wireline Services

The Wireline Services segment derives revenue from the following sources:

Local Voice Services We receive revenue from providing local exchange telephone services. These revenues include monthly charges for basic service, local private line services and enhanced calling features such as voice mail, caller ID and 3-way calling.

Network Access Services We receive revenue for access to our network for wholesale carrier data, business customer data including Dedicated Internet Access, switched carrier access and subscriber line charges imposed on end users. Switched carrier access revenue compensates us for origination, transport and termination of calls for long distance and other interexchange carriers.

Long Distance Services We receive revenue from providing long distance services to our customers.

High-Speed Internet (HSI) Services We provide HSI to our residential and business customers.

Video Services Our video services marketed as Hawaiian Telcom TV is an advanced entertainment service offered to customers in select areas.

Equipment and managed services We provide installation and maintenance of customer premise equipment as well as managed service for customer telephone and IT networks.

Wireless

We receive revenue from wireless services, including the sale of wireless handsets and other wireless accessories.

The operating revenue information above for 2012 includes additional detail not previously provided including components of network access services revenue, television revenue, and equipment and managed services revenue. These changes were made to provide additional insight into our operations and to reflect the strategic emphasis on potential growth products such as business data and video. Certain reclassifications were made to the 2011 information to conform to the 2012 presentation. To provide further insight, we have provided revenue information by channel as well. In the third quarter of 2012, certain reclassifications were made to the channel information to align to the way we manage our business. The channel information for the year-to-date 2012 period and for 2011 has been reclassified to conform to the new presentation.

The decrease in local services revenues was caused primarily by the decline in voice access lines of 5.6% (\$2.1 million and \$6.2 million of the decline in revenue for the three and nine month periods, respectively). Continued competition in the telecommunications industry has increasingly resulted in customers using technologies other than traditional phone lines for voice and data. Residential customers are increasingly moving local voice service to VoIP technology offered by cable providers, as well as using wireless services in place of traditional wireline phone service. Generally, VoIP technology offered by competitors is less expensive than traditional wireline phone service, requiring us to respond with more competitive pricing. Additionally, Competitive Local Exchange Carriers (CLECs) and our cable competitor continue to focus on business customers and selling services to our customer base.

In an effort to slow the rate of line loss, we are continuing retention and acquisition programs, and are increasingly focusing efforts on bundling of services. We have instituted various saves campaigns designed to focus on specific circumstances where we believe customer churn is controllable. These campaigns include targeted offers to at risk customers as well as other promotional tools designed to enhance customer

retention. We are also continuing to emphasize win-back and employee referral programs. Additionally, we are intensifying our efforts relative to developing tools and training to enhance our customer service capability to improve customer retention.

Network access services revenue for the three and nine months ended September 30, 2012 decreased as compared to the same periods in the prior year because certain wireless carriers disconnected lower bandwidth circuits replaced with new more efficient higher bandwidth circuits resulting in a reduction in wholesale carrier data revenue for the three and nine month periods, respectively. We anticipate the data volume and related revenue will increase in future periods as wireless carriers deploy their enhanced wireless networks. In addition, the impact of the decline in voice access lines is reflected in subscriber line access charges and switched carrier access charges. These reductions were partially offset by growth in business data revenue for the nine month period.

The decrease in long distance revenue was primarily because of the decline in long distance lines and customers moving to wireless and VoIP based technologies for long distance calling.

HSI revenues were comparable to the prior year for both the three and nine month periods. We are continuing to focus on upgrading our network to expand the reach of our higher bandwidth premium services.

On July 1, 2011, we commercially launched our video service on the island of Oahu. We are deploying Hawaiian Telcom TV gradually to selected areas to ensure delivery of superior service and an ongoing excellent customer experience. We have initiated targeted marketing efforts resulting in penetration rates exceeding expectations. Our volume is anticipated to continue to ramp up as more homes become enabled for video service. We expect to expand both the availability and the capabilities of our Hawaiian Telcom TV service over the next several years through additional capital investment and innovation.

Equipment and managed services sales have increased for the three months ended September 30, 2012 when compared to the same period in the prior year because of more sales and installations of customer premise equipment for certain large government and institutional customers during the period. For the nine months ended September 30, 2012, equipment and managed services sales was comparable to the same period in the prior year. Revenue from equipment sales varies from period to period based on the volume of large installation projects. The volume of such projects in future periods is uncertain.

Wireless revenues decreased as we attempted to focus our marketing efforts on other segments of our business.

Operating Costs and Expenses

The following tables summarize our costs and expenses for the three and nine months ended September 30, 2012 compared to the costs and expenses for the three and nine months ended September 30, 2011 (dollars in thousands):

| | \$ 255,939 | \$ 257,772 | \$ | (1,833) | -0.7% |

The Company's total headcount as of September 30, 2012 was 1,343 compared to 1,300 as of September 30, 2011. Employee related costs are included in both cost of revenues and selling, general and administrative expenses.

Cost of revenues consists of costs we incur to provide our products and services including those for operating and maintaining our networks, installing and maintaining customer premise equipment, and cost of goods sold directly associated with various products. The increase in such costs for the three months ended September 30, 2012 when compared to the same period of the prior year was because of higher costs of customer premise equipment of \$1.7 million related to the increased equipment revenues.

Selling, general and administrative expenses include costs related to sales and marketing, information systems and other administrative functions. The decrease for the three months ended September 30, 2012 compared to the three months ended September 30, 2011 was because of lower pension costs of \$1.3 million on the freeze of the union pension plan. The decrease for the nine months ended September 30, 2012 compared to the same period in the prior year was because of reduced personnel costs of \$6.7 million on lower average headcount and the freeze of the union pension plan. In addition, during the nine months ended September 30, 2011, we had incurred restructuring costs of \$1.9 million. The cost decreases were offset by increased external commissions related to television sales of \$1.3 million and bad debt of \$1.0 million as we had recognized a benefit in 2011 from a large customer settlement on a past due account.

Depreciation and amortization increased because of new property additions placed into service.

Other Income and (Expense)

The following tables summarize other income (expense) for the three and nine months ended September 30, 2012 and 2011 (dollars in thousands):

| | \$ (21,974) | \$ (18,807) | \$ (3,167) | | 16.8% |

Interest expense decreased for the three and nine months ended September 30, 2012 compared to the same periods in the prior year primarily because of the lower interest rates on the refinanced debt.

In connection with the refinancing of debt in the first quarter of 2012, we incurred a \$5.1 million charge to income which consisted of the premium on the repayment of the old debt and certain refinancing costs.

Income Tax Benefit

A valuation allowance has been provided at September 30, 2012 and December 31, 2011 for our deferred tax assets because of the uncertainty as to the realization of such assets. We will continue to assess the recoverability of deferred tax assets and the related valuation allowance. To the extent that we generate taxable income in future years and it is determined that such valuation allowance is no longer required, the tax benefit of the remaining deferred tax assets will be recognized at such time.

Liquidity and Capital Resources

As of September 30, 2012, we had cash of \$65.4 million. From an ongoing operating perspective, our cash requirements in 2012 consist of supporting the development and introduction of new products, our purchase of Wavecom, capital expenditure projects, pension funding obligations and other changes in working capital. A combination of cash-on-hand and cash generated from operating activities will be used to fund our operating activities.

We have continued to take actions to conserve cash and improve liquidity. Efforts have also been taken to generate further operating efficiencies and focus on expense management. We have focused on improving operating results, including efforts to simplify product offerings, improve our customer service experience and increase our revenue enhancement activities. There can be no assurance that these additional actions will result in improved overall cash flow. We continue to have sizable retirement obligations for our existing employee base. Sustained declines in the value of pension trust assets and relatively high levels of pension lump sum benefit payments will increase the magnitude of future plan contributions.

Agreements with the Hawaii Public Utilities Commission and the debt agreements of Hawaiian Telcom Communications, Inc. limit the ability of our subsidiaries to pay dividends to the parent company and restrict the net assets of all of our subsidiaries. This can limit our ability to pay dividends to our shareholders. As the parent company has no operations, debt or other obligations, this restriction has no other immediate impact on our operations.

Cash Flows for Nine Months Ended September 30, 2012 and 2011

Our primary source of funds continues to be cash generated from operations. We use the net cash generated from operations to fund network expansion and modernization. We expect that our capital spending requirements will continue to be financed through internally generated funds. We also expect to use cash generated in future periods for debt service. Additional debt or equity financing may be needed to fund additional development activities or to maintain our capital structure to ensure financial flexibility.

Table of Contents

Net cash provided by operations amounted to \$59.0 million for the nine months ended September 30, 2012. Our cash flows from operations are impacted by our results of operations, changes in working capital and payments on certain long-term liabilities. Net cash provided by operations amounted to \$56.4 million for the nine months ended September 30, 2011. The increase in cash provided by operations was because we are no longer incurring reorganization expenditures.

Cash used in investing activities was comprised of \$61.0 million and \$55.2 million of capital expenditures for the nine months ended September 30, 2012 and 2011, respectively. The level of capital expenditures for 2012 is expected to be comparable to 2011 as we invest in our network and systems to support new product introductions and enable next-generation technologies.

Cash used in financing activities for the nine months ended September 30, 2012 was related primarily to the refinancing of our debt. Cash provided by financing activities for the nine months ended September 30, 2011 was related to proceeds from the sale of common stock under our warrant agreements.

Outstanding Debt and Financing Arrangements

As of September 30, 2012, we had outstanding \$300.0 million in aggregate long-term debt. The term loan has a maturity date of 2017. We do not expect to generate the necessary cash flow from operations to repay the facility in its entirety by the maturity date and repayment is dependent on our ability to refinance the credit facility at reasonable terms. The ability to refinance the indebtedness at reasonable terms before maturity cannot be assured.

Contractual Obligations

During the nine months ended September 30, 2012, the Company's future contractual obligations have not changed materially from the amounts disclosed as of December 31, 2011 in our Form 10-K other than related to our new debt which are as follows (dollars in thousands):

| | 2012 (remainder) to 2014 | 2015 and 2016 | 2017 and Thereafter | Total |
|--------------------|-----------------------------|------------------|------------------------|------------|
| Term loan facility | \$ 6,750 | \$ 6,000 | \$ 287,250 | \$ 300,000 |
| Debt interest | 46,778 | 40,688 | 3,250 | 90,716 |
| | \$ 53,528 | \$ 46,688 | \$ 290,500 | \$ 390,716 |

We do not maintain any off balance sheet financing or other arrangements.

Critical Accounting Policies and Estimates

The preparation of condensed consolidated financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect amounts reported in consolidated financial statements. Changes in these estimates and assumptions are considered reasonably possible and may have a material effect on the condensed consolidated financial statements and thus actual results could differ from the amounts reported and disclosed herein. The Company's critical accounting policies that require the use of estimates and assumptions were discussed in detail in our Annual Report on Form 10-K for the year ended December 31, 2011, and have not changed materially from that discussion.

Item 3. Quantitative and Qualitative Disclosures About Market Risk

As of September 30, 2012, our floating rate obligations consisted of \$300.0 million of debt outstanding under our term loan facility. Accordingly, our earnings and cash flow are affected by changes in interest rates. Based on our borrowings at September 30, 2012 and assuming a 1.0 percentage point increase in the average interest rate under these borrowings, we estimate that our annual interest expense would increase by approximately \$3.0 million.

Item 4. Controls and Procedures

Conclusion Regarding the Effectiveness of Disclosure Controls and Procedures

Eric K. Yeaman, Chief Executive Officer, and Robert F. Reich, Chief Financial Officer, have evaluated the disclosure controls and procedures of Hawaiian Telcom Holdco, Inc. (the Company) as of September 30, 2012. Based on their evaluations, as of September 30, 2012, they have concluded that the disclosure controls and procedures (as defined in Rules 13a-15(e) and 15d-15(e) under the Securities Exchange Act of 1934, as amended) were effective in ensuring that information required to be disclosed by the Company in reports the Company files or submits under the Securities Exchange Act of 1934:

(1) is recorded, processed, summarized, and reported within the time periods specified in the Securities and Exchange Commission rules and forms, and

(2) is accumulated and communicated to the Company's management, including the Company's principal executive and principal financial officers, or persons performing similar functions, as appropriate to allow timely decisions regarding required disclosure.

Changes in Internal Control over Financial Reporting

There have been no changes in internal control over financial reporting during the quarter ended September 30, 2012 that have materially affected, or are reasonably likely to materially affect, the Company's internal control over financial reporting.

Certifications

The certifications attached hereto as Exhibits 31.1, 31.2, 32.1 and 32.2 should be read in conjunction with the disclosures set forth herein.
