**Item 1.01. Entry into a Material Definitive Agreement.**

On June 9, 2013, a subsidiary of Kosmos Energy Ltd. (the **Company** ) executed a deepwater drilling rig agreement with a subsidiary of Atwood Oceanics, Inc. for a new build, 6th generation, ultra-deepwater, dynamically positioned drillship. The drillship is scheduled for completion in June of 2014 and is expected to commence drilling operations during the second half of 2014. The signed agreement covers an initial term of three years at a day rate of approximately \$595,000, with an option to extend the agreement for an additional three-year term at day rates to be mutually agreed. The agreement requires the Company to pay certain in-country tax reimbursements, rate escalations and certain operating personnel expenses, in each case to the extent applicable. The agreement further requires the Company to pay mobilization and demobilization fees, as well as additional fees for certain remobilizations of the drillship.

On June 10, 2013, the Company issued a news release announcing the execution of the agreement. A copy of the news release issued by the Company is attached hereto as Exhibit 99.1 and is incorporated herein by reference.
