THE TRAVELERS COMPANIES, INC. AND SUBSIDIARIES

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (Unaudited)

1. BASIS OF PRESENTATION AND ACCOUNTING POLICIES

Basis of Presentation

The interim consolidated financial statements include the accounts of The Travelers Companies, Inc. (together with its subsidiaries, the Company). These financial statements are prepared in conformity with U.S. generally accepted accounting principles (GAAP) and are unaudited. In the opinion of the Company's management, all adjustments necessary for a fair presentation have been reflected. Certain financial information that is normally included in annual financial statements prepared in accordance with GAAP, but that is not required for interim reporting purposes, has been omitted. All material intercompany transactions and balances have been eliminated. The accompanying interim consolidated financial statements and related notes should be read in conjunction with the Company's consolidated financial statements and related notes included in the Company's 2013 Annual Report on Form 10-K.

The preparation of the interim consolidated financial statements in conformity with GAAP requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the interim consolidated financial statements and the reported amounts of revenues and claims and expenses during the reporting period. Actual results could differ from those estimates.

On November 1, 2013, the Company acquired all of the issued and outstanding shares of The Dominion of Canada General Insurance Company (Dominion) for an aggregate purchase price of approximately \$1.035 billion. Dominion primarily markets personal lines and small commercial insurance business in Canada. At the acquisition date, the Company recorded at fair value \$3.91 billion of assets acquired and \$2.88 billion of liabilities assumed as part of purchase accounting, including \$16 million of identifiable intangible assets and \$273 million of goodwill. The operating income and the amount of assets acquired from Dominion were included in the Company's Financial, Professional & International Insurance segment effective at the acquisition date.

Adoption of Accounting Standards Updates

Obligations Resulting from Joint and Several Liability Arrangements for Which the Total Amount of the Obligation Is Fixed at the Reporting Date

Edgar Filing: TRAVELERS COMPANIES, INC. - Form 10-Q

In February 2013, the Financial Accounting Standards Board (FASB) issued updated guidance to resolve diversity in practice concerning the recognition, measurement, and disclosure of obligations resulting from certain joint and several liability arrangements for which the total amount under the arrangement is fixed at the reporting date. The guidance requires that the reporting entity measure joint and several liability arrangements as the amount the reporting entity agreed to pay on the basis of its arrangement among the co-obligors and any additional amount the reporting entity expects to pay on behalf of its co-obligors. The updated guidance was effective for the quarter ending March 31, 2014. The adoption of this guidance did not have any effect on the Company's results of operations, financial position or liquidity.

Parent's Accounting for the Cumulative Translation Adjustment upon Derecognition of Certain Subsidiaries or Groups of Assets within a Foreign Entity or of an Investment in a Foreign Entity

In March 2013, the FASB issued updated guidance to resolve diversity in practice concerning the release of the cumulative foreign currency translation adjustment into net income when a parent sells a part or all of its investment in a foreign entity or no longer holds a controlling financial interest in a subsidiary or group of assets within a foreign entity. When a company ceases to have a controlling financial interest in a subsidiary within a foreign entity, the company should recognize any related cumulative translation adjustment into net income only if the sale or transfer results in the complete or substantially complete liquidation of the foreign entity in which the subsidiary had resided. Upon the partial sale of an equity method investment that is a foreign entity, the company should release into earnings a pro rata portion of the cumulative translation adjustment. Upon the partial sale of an equity method investment that is not a foreign entity, the company should release into earnings the cumulative translation adjustment if the partial sale represents a complete or substantially complete liquidation of the foreign entity that holds the equity method investment. The updated guidance was effective for the quarter ending March 31, 2014. The adoption of this guidance did not have any effect on the Company's results of operations, financial position or liquidity.

Table of Contents

THE TRAVELERS COMPANIES, INC. AND SUBSIDIARIES

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (Unaudited), (Continued)

1. BASIS OF PRESENTATION AND ACCOUNTING POLICIES, Continued

Accounting Standards Not Yet Adopted

Reporting Discontinued Operations and Disclosures of Disposals of Components of an Entity

In April 2014, the FASB issued revised guidance to reduce diversity in practice for reporting discontinued operations. Under the previous guidance, any component of an entity that was a reportable segment, an operating segment, a reporting unit, a subsidiary, or an asset group was eligible for discontinued operations presentation. The revised guidance only allows disposals of components of an entity that represent a strategic shift (e.g., disposal of a major geographical area, a major line of business, a major equity method investment, or other major parts of an entity) and that have a major effect on a reporting entity's operations and financial results to be reported as discontinued operations. The revised guidance also requires expanded disclosure in the financial statements for discontinued operations as well as for disposals of significant components of an entity that do not qualify for discontinued operations presentation. The updated guidance is effective for the quarter ending March 31, 2015. The adoption of this guidance is not expected to have a material effect on the Company's results of operations, financial position or liquidity.

Revenue from Contracts with Customers

In May 2014, the FASB issued updated guidance to clarify the principles for recognizing revenue. While insurance contracts are not within the scope of this updated guidance, the Company's fee income related to providing claims and policy management services as well as claim and loss prevention services will be subject to this updated guidance.

The updated guidance requires an entity to recognize revenue as performance obligations are met, in order to reflect the transfer of promised goods or services to customers in an amount that reflects the consideration the entity is entitled to receive for those goods or services. The following steps are applied in the updated guidance: (1) identify the contract(s) with a customer; (2) identify the performance obligations in the contract; (3) determine the transaction price; (4) allocate the transaction price to the performance obligations in the contract; and (5) recognize revenue when, or as, the entity satisfies a performance obligation.

The updated guidance is effective for the quarter ending March 31, 2017. The adoption of this guidance is not expected to have a material effect on the Company's results of operations, financial position, or liquidity.

Accounting for Share-Based Payments When the Terms of an Award Provide That a Performance Target Could Be Achieved after the Requisite Service Period

In June 2014, the FASB issued updated guidance to resolve diversity in practice concerning employee share-based payments that contain performance targets that could be achieved after the requisite service period. Many reporting entities account for performance targets that could be achieved after the requisite service period as performance conditions that affect the vesting of the award and, therefore, do not reflect the performance targets in the estimate of the grant-date fair value of the award. Other reporting entities treat those performance targets as nonvesting conditions that affect the grant-date fair value of the award.

The updated guidance requires that a performance target that affects vesting and that can be achieved after the requisite service period be treated as a performance condition. As such, the performance target that affects vesting should not be reflected in estimating that fair value of the award at the grant date. Compensation cost should be recognized in the period in which it becomes probable that the performance target will be achieved and should represent the compensation cost attributable to the periods for which service has been rendered. If the performance target becomes probable of being achieved before the end of the service period, the remaining unrecognized compensation cost for which requisite service has not yet been rendered is recognized prospectively over the remaining service period. The total amount of compensation cost recognized during and after the service period should reflect the number of awards that are expected to vest and should be adjusted to reflect those awards that ultimately vest.

Table of Contents

THE TRAVELERS COMPANIES, INC. AND SUBSIDIARIES

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (Unaudited), (Continued)

1. BASIS OF PRESENTATION AND ACCOUNTING POLICIES, Continued

The updated guidance is effective for annual and interim periods beginning after December 15, 2015, with early adoption permitted. The adoption of this guidance is not expected to have a material effect on the Company's results of operations, financial position or liquidity.

Nature of Operations

For the periods presented in these financial statements, the Company was organized into three reportable business segments: Business Insurance; Financial, Professional & International Insurance; and Personal Insurance. These segments reflected the manner in which the Company's businesses were managed and represented an aggregation of products and services based on type of customer, how the business was marketed and the manner in which risks were underwritten. The specific business segments presented in these financial statements are as follows:

Business Insurance

The Business Insurance segment offers a broad array of property and casualty insurance and insurance-related services to its clients primarily in the United States. Business Insurance is organized into the following six groups, which collectively comprise Business Insurance Core operations: Select Accounts; Commercial Accounts; National Accounts; Industry-Focused Underwriting; Target Risk Underwriting; and Specialized Distribution.

Business Insurance also includes the Special Liability Group (which manages the Company's asbestos and environmental liabilities) and the assumed reinsurance and certain other runoff operations, which collectively are referred to as Business Insurance Other.

Financial, Professional & International Insurance

The Financial, Professional & International Insurance segment includes surety and financial liability coverages, which primarily use credit-based underwriting processes, as well as property and casualty products that are primarily marketed on a domestic basis in Canada, the United Kingdom and the Republic of Ireland, and on an international basis through Lloyd's. The segment includes the Bond & Financial Products group as well as the International group. The International group includes Dominion, which the Company acquired in November 2013 and which

writes personal lines and small commercial insurance business in Canada.

In addition, the Company owns 49.5% of the common stock of J. Malucelli Participações em Seguros e Resseguros S.A. (JMalucelli), its joint venture in Brazil. JMalucelli primarily writes surety business in Brazil, as well as other property and casualty insurance business in Brazil. The Company's investment in JMalucelli is accounted for using the equity method and is included in other investments on the consolidated balance sheet.

Personal Insurance

The Personal Insurance segment writes a broad range of property and casualty insurance covering individuals' personal risks. The primary products of automobile and homeowners insurance are complemented by a broad suite of related coverages.

On June 10, 2014, the Company announced a realignment of its management team that gave rise to a realignment of two of its three business segments, effective July 1, 2014. The Company's International Insurance group, which had previously been included in the Financial, Professional & International Insurance segment, will be combined with the Company's previous Business Insurance segment to create a new Business & International Insurance segment. The Bond & Financial Products group, which was the remaining business in the Financial, Professional & International Insurance segment, will now comprise the new Bond & Financial Products segment. The Personal Insurance segment will not be impacted by these changes. The changes were designed to reflect the realignment of the Company's management team and the manner in which the Company's businesses are managed effective July 1, 2014, and represent an aggregation of products and services based on type of customer, how the business is marketed and the manner in which risks are underwritten. The newly aligned segments will be presented in the Company's financial statements beginning with the period ending September 30, 2014 and the prior periods presented will be restated to conform to the new presentation.

Table of Contents**THE TRAVELERS COMPANIES, INC. AND SUBSIDIARIES****NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (Unaudited), (Continued)****2. SEGMENT INFORMATION**

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (Unaudited), Continued

3. INVESTMENTS, Continued

Derivative Financial Instruments

From time to time, the Company enters into U.S. Treasury note futures contracts to modify the effective duration of specific assets within the investment portfolio. U.S. Treasury futures contracts require a daily mark-to-market and settlement with the broker. At June 30, 2014 and December 31, 2013, the Company had \$100 million and \$0 notional value of open U.S. Treasury futures contracts, respectively. Net realized investment gains in the three months ended June 30, 2014 and 2013 included net losses of \$1 million and net gains of \$134 million, respectively, related to U.S. Treasury futures contracts. Net realized investment gains in the six months ended June 30, 2014 and 2013 included net losses of \$0.2 million and net gains of \$115 million, respectively, related to U.S. Treasury futures contracts.

4. FAIR VALUE MEASUREMENTS

The Company's estimates of fair value for financial assets and financial liabilities are based on the framework established in the fair value accounting guidance. The framework is based on the inputs used in valuation, gives the highest priority to quoted prices in active markets and requires that observable inputs be used in the valuations when available. The disclosure of fair value estimates in the fair value accounting guidance hierarchy is based on whether the significant inputs into the valuation are observable. In determining the level of the hierarchy in which the estimate is disclosed, the highest priority is given to unadjusted quoted prices in active markets and the lowest priority to unobservable inputs that reflect the Company's significant market assumptions. The level in the fair value hierarchy within which the fair value measurement is reported is based on the lowest level input that is significant to the measurement in its entirety. The three levels of the hierarchy are as follows:

- Level 1 - Unadjusted quoted market prices for identical assets or liabilities in active markets that the Company has the ability to access.
- Level 2 - Quoted prices for similar assets or liabilities in active markets; quoted prices for identical or similar assets or liabilities in inactive markets; or valuations based on models where the significant inputs are observable (e.g., interest rates, yield curves, prepayment speeds, default rates, loss severities, etc.) or can be corroborated by observable market data.

- Level 3 - Valuations based on models where significant inputs are not observable. The unobservable inputs reflect the Company's own assumptions about the inputs that market participants would use.

Valuation of Investments Reported at Fair Value in Financial Statements

The fair value of a financial instrument is the estimated amount at which the instrument could be exchanged in an orderly transaction between knowledgeable, unrelated, willing parties; i.e., not in a forced transaction. The estimated fair value of a financial instrument may differ from the amount that could be realized if the security was sold in an immediate sale, e.g.; a forced transaction. Additionally, the valuation of investments is more subjective when markets are less liquid due to the lack of market based inputs, which may increase the potential that the estimated fair value of an investment is not reflective of the price at which an actual transaction would occur.

For investments that have quoted market prices in active markets, the Company uses the unadjusted quoted market prices as fair value and includes these prices in the amounts disclosed in Level 1 of the hierarchy. The Company receives the quoted market prices from a third party, nationally recognized pricing service (pricing service). When quoted market prices are unavailable, the Company utilizes a pricing service to determine an estimate of fair value, which is mainly used for its fixed maturity investments. The fair value estimates provided from this pricing service are included in the amount disclosed in Level 2 of the hierarchy. If quoted market prices and an estimate from a pricing service are unavailable, the Company produces an estimate of fair value based on internally developed valuation techniques, which, depending on the level of observable market inputs, will render the fair value estimate as Level 2 or Level 3. The Company bases all of its estimates of fair value for assets on the bid price as it represents what a third-party market participant would be willing to pay in an arm's length transaction.

Table of Contents

THE TRAVELERS COMPANIES, INC. AND SUBSIDIARIES

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (Unaudited), Continued

4. FAIR VALUE MEASUREMENTS, Continued

Fixed Maturities

The Company utilized a pricing service to estimate fair value measurements for approximately 98% of its fixed maturities at both June 30, 2014 and December 31, 2013. The pricing service utilizes market quotations for fixed maturity securities that have quoted prices in active markets. Since fixed maturities other than U.S. Treasury securities generally do not trade on a daily basis, the pricing service prepares estimates of fair value measurements for these securities using its proprietary pricing applications, which include available relevant market information, benchmark curves, benchmarking of like securities, sector groupings and matrix pricing. Additionally, the pricing service uses an Option Adjusted Spread model to develop prepayment and interest rate scenarios.

The pricing service evaluates each asset class based on relevant market information, relevant credit information, perceived market movements and sector news. The market inputs utilized in the pricing evaluation, listed in the approximate order of priority, include: benchmark yields, reported trades, broker/dealer quotes, issuer spreads, two-sided markets, benchmark securities, bids, offers, reference data, and industry and economic events. The extent of the use of each market input depends on the asset class and the market conditions. Depending on the security, the priority of the use of inputs may change or some market inputs may not be relevant. For some securities, additional inputs may be necessary.

The pricing service utilized by the Company has indicated that it will only produce an estimate of fair value if there is objectively verifiable information to produce a valuation. If the pricing service discontinues pricing an investment, the Company would be required to produce an estimate of fair value using some of the same methodologies as the pricing service but would have to make assumptions for any market-based inputs that were unavailable due to market conditions.

The fair value estimates of most fixed maturity investments are based on observable market information rather than market quotes. Accordingly, the estimates of fair value for such fixed maturities, other than U.S. Treasury securities, provided by the pricing service are included in the amount disclosed in Level 2 of the hierarchy. The estimated fair value of U.S. Treasury securities is included in the amount disclosed in Level 1 as the estimates are based on unadjusted market prices.

The Company also holds certain fixed maturity investments which are not priced by the pricing service and, accordingly, estimates the fair value of such fixed maturities using an internal matrix that is based on market information regarding interest rates, credit spreads and liquidity. The underlying source data for calculating the matrix of credit spreads relative to the U.S. Treasury curve are the BofA Merrill Lynch U.S. Corporate Index and the BofA Merrill Lynch High Yield BB Rated Index. The Company includes the fair value estimates of these corporate bonds in Level 2, since all significant inputs are market observable.

While the vast majority of the Company's municipal bonds and corporate bonds are included in Level 2, the Company holds a number of municipal bonds and corporate bonds which are not valued by the pricing service and estimates the fair value of these bonds using an internal pricing matrix with some unobservable inputs that are significant to the valuation. Due to the limited amount of observable market information, the Company includes the fair value estimates for these particular bonds in Level 3. The fair value of the fixed maturities for which the Company used an internal pricing matrix was \$134 million and \$94 million at June 30, 2014 and December 31, 2013, respectively. Additionally, the Company holds a small amount of other fixed maturity investments that have characteristics that make them unsuitable for matrix pricing. For these fixed maturities, the Company obtains a quote from a broker (primarily the market maker). The fair value of the fixed maturities for which the Company received a broker quote was \$130 million and \$161 million at June 30, 2014 and December 31, 2013, respectively. Due to the disclaimers on the quotes that indicate that the price is indicative only, the Company includes these fair value estimates in Level 3.

Equities Public Common and Preferred

For public common and preferred stocks, the Company receives prices from a nationally recognized pricing service that are based on observable market transactions and includes these estimates in the amount disclosed in Level 1. When current market quotes in active markets are unavailable for certain non-redeemable preferred stocks held by the Company, the

Table of Contents

THE TRAVELERS COMPANIES, INC. AND SUBSIDIARIES

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (Unaudited), Continued

4. FAIR VALUE MEASUREMENTS, Continued

Company receives an estimate of fair value from the pricing service that provides fair value estimates for the Company's fixed maturities. The service utilizes similar methodologies to price the non-redeemable preferred stocks as it does for the fixed maturities. The Company includes the fair value estimate for these non-redeemable preferred stocks in the amount disclosed in Level 2.

Other Investments

The Company holds investments in various publicly-traded securities which are reported in other investments. These investments include mutual funds and other small holdings. The \$19 million fair value of these investments at both June 30, 2014 and December 31, 2013 was disclosed in Level 1. At June 30, 2014 and December 31, 2013, the Company held investments in non-public common and preferred equity securities, with fair value estimates of \$36 million and \$34 million, respectively, reported in other investments, where the fair value estimate is determined either internally or by an external fund manager based on recent filings, operating results, balance sheet stability, growth and other business and market sector fundamentals. Due to the significant unobservable inputs in these valuations, the Company includes the total fair value estimate for all of these investments at June 30, 2014 and December 31, 2013 in the amount disclosed in Level 3.

Derivatives

At June 30, 2014 and December 31, 2013, the Company held \$9 million and \$8 million, respectively, of convertible bonds containing embedded conversion options that are valued separately from the host bond contract in the amount disclosed in Level 2 fixed maturities.

Fair Value Hierarchy

The following tables present the level within the fair value hierarchy at which the Company's financial assets and financial liabilities are measured on a recurring basis at June 30, 2014 and December 31, 2013. An investment transferred between levels during a period is transferred at its fair value as of the beginning of that period.

Table of Contents**THE TRAVELERS COMPANIES, INC. AND SUBSIDIARIES****NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (Unaudited), Continued****4. FAIR VALUE MEASUREMENTS, Continued****Financial Instruments Disclosed, But Not Carried, At Fair Value**

The Company uses various financial instruments in the normal course of its business. The Company's insurance contracts are excluded from fair value of financial instruments accounting guidance and, therefore, are not included in the amounts discussed below. The following tables present the carrying value and fair value of the Company's financial assets and financial liabilities disclosed, but not carried, at fair value at June 30, 2014 and December 31, 2013, and the level within the fair value hierarchy at which such assets and liabilities are measured on a recurring basis.

(at June 30, 2014, in millions)	Carrying Value	Fair Value	Level 1	Level 2	Level 3
Financial assets:					
Short-term securities	\$ 3,818	\$ 3,818	\$ 1,290	\$ 2,477	\$ 51
Financial liabilities:					
Debt	\$ 6,247	\$ 7,452	\$	\$ 7,452	\$
Commercial paper	\$ 100	\$ 100	\$	\$ 100	\$

(at December 31, 2013, in millions)	Carrying Value	Fair Value	Level 1	Level 2	Level 3
Financial assets:					
Short-term securities	\$ 3,882	\$ 3,882	\$ 1,608	\$ 2,215	\$ 59
Financial liabilities:					
Debt	\$ 6,246	\$ 7,123	\$	\$ 7,123	\$
Commercial paper	\$ 100	\$ 100	\$	\$ 100	\$

The Company utilized a pricing service to estimate fair value for approximately 97% of short-term securities at both June 30, 2014 and December 31, 2013. A description of the process and inputs used by the pricing service to estimate fair value is discussed in the *Fixed Maturities* section above. Estimates of fair value for U.S. Treasury securities and money market funds are based on market quotations received from the pricing service and are disclosed in Level 1 of the hierarchy. The fair value of other short-term fixed maturity securities is estimated by the pricing service using observable market inputs and is disclosed in Level 2 of the hierarchy. For short-term securities where an estimate is not obtained from the pricing service, the carrying value approximates fair value and is included in Level 3 of the hierarchy.

Edgar Filing: TRAVELERS COMPANIES, INC. - Form 10-Q

The Company utilized a pricing service to estimate fair value for 100% of its debt, including commercial paper, at both June 30, 2014 and December 31, 2013. The pricing service utilizes market quotations for debt that have quoted prices in active markets. Since fixed maturities other than U.S. Treasury securities generally do not trade on a daily basis, the fair value estimates are based on market observable inputs and disclosed in Level 2 of the hierarchy.

The Company had no material assets or liabilities that were measured at fair value on a non-recurring basis during the six months ended June 30, 2014 or twelve months ended December 31, 2013.

5. GOODWILL AND OTHER INTANGIBLE ASSETS

Goodwill

The following table presents the carrying amount of the Company's goodwill by segment at June 30, 2014 and December 31, 2013:

(in millions)	June 30, 2014	December 31, 2013
Business Insurance	\$ 2,168	\$ 2,168
Financial, Professional & International Insurance (1)	826	826
Personal Insurance	613	613
Other	27	27
Total	\$ 3,634	\$ 3,634

(1) Includes goodwill associated with the Company's acquisition of Dominion in 2013, which is subject to the impact of changes in foreign currency exchange rates.

Other Intangible Assets

The following presents a summary of the Company's other intangible assets by major asset class at June 30, 2014 and December 31, 2013:

(at June 30, 2014, in millions)	Gross Carrying Amount	Accumulated Amortization	Net
Intangibles subject to amortization			
Customer-related	\$ 460	\$ 429	\$ 31
Fair value adjustment on claims and claim adjustment expense reserves, reinsurance recoverables and other contract-related intangibles (1)	201	121	80
Total intangible assets subject to amortization	661	550	111
Intangible assets not subject to amortization	217		217
Total other intangible assets	\$ 878	\$ 550	\$ 328

(at December 31, 2013, in millions)	Gross Carrying Amount	Accumulated Amortization	Net
Intangibles subject to amortization			
Customer-related	\$ 460	\$ 414	\$ 46
Fair value adjustment on claims and claim adjustment expense reserves, reinsurance recoverables and other contract-related intangibles (1)	201	113	88
Total intangible assets subject to amortization	661	527	134
Intangible assets not subject to amortization	217		217
Total other intangible assets	\$ 878	\$ 527	\$ 351

(1) The time value of money and the risk margin (cost of capital) components of the intangible asset run off at different rates, and, as such, the amount recognized in income may be a net benefit in some periods and a net expense in other periods.

Table of Contents**THE TRAVELERS COMPANIES, INC. AND SUBSIDIARIES****NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (Unaudited), Continued****5. GOODWILL AND OTHER INTANGIBLE ASSETS, Continued**

The following presents a summary of the Company's amortization expense for other intangible assets by major asset class:

(in millions)	Three Months Ended June 30,		Six Months Ended June 30,	
	2014	2013	2014	2013
Customer-related	\$ 7	\$ 8	\$ 15	\$ 15
Fair value adjustment on claims and claim adjustment expense reserves, reinsurance recoverables and other contract-related intangibles	4	4	8	8
Total amortization expense	\$ 11	\$ 12	\$ 23	\$ 23

Intangible asset amortization expense is estimated to be \$24 million for the remainder of 2014, \$27 million in 2015, \$10 million in 2016, \$9 million in 2017, and \$8 million in 2018.

6. OTHER COMPREHENSIVE INCOME AND ACCUMULATED OTHER COMPREHENSIVE INCOME

Total	346.7	379.9	350.5	380.8
Net Income per Common Share				
Basic	\$ 1.98	\$ 2.44	\$ 4.97	\$ 4.80
Diluted	\$ 1.95	\$ 2.41	\$ 4.91	\$ 4.75

9. SHARE-BASED INCENTIVE COMPENSATION

The following information relates to fully vested stock option awards at June 30, 2014:

Edgar Filing: TRAVELERS COMPANIES, INC. - Form 10-Q

Stock Options	Number	Weighted Average Exercise Price	Weighted Average Contractual Life Remaining	Aggregate Intrinsic Value (\$ in millions)
Vested at end of period (1)	7,967,953	\$ 58.07	6.1 years	\$ 287
Exercisable at end of period	5,137,812	\$ 50.32	4.7 years	\$ 225

(1) Represents awards for which the requisite service has been rendered, including those that are retirement eligible.

The total compensation cost for all share-based incentive compensation awards recognized in earnings was \$31 million and \$29 million for the three months ended June 30, 2014 and 2013, respectively, and \$75 million and \$70 million for the six months ended June 30, 2014 and 2013, respectively. The related tax benefits recognized in the consolidated statement of income were \$11 million and \$10 million for the three months ended June 30, 2014 and 2013, respectively, and \$26 million and \$24 million for the six months ended June 30, 2014 and 2013, respectively.

The total unrecognized compensation cost related to all nonvested share-based incentive compensation awards at June 30, 2014 was \$180 million, which is expected to be recognized over a weighted-average period of 2.0 years. The total unrecognized compensation cost related to all nonvested share-based incentive compensation awards at December 31, 2013 was \$120 million, which was expected to be recognized over a weighted-average period of 1.7 years.

THE TRAVELERS COMPANIES, INC. AND SUBSIDIARIES
NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (Unaudited), Continued
9. SHARE-BASED INCENTIVE COMPENSATION, Continued

In February 2014, the Company's board of directors approved The Travelers Companies, Inc. 2014 Stock Incentive Plan (2014 Incentive Plan) to replace, effective with shareholder approval, the Amended and Restated 2004 Stock Incentive Plan (2004 Incentive Plan), which was scheduled to expire in July 2014. At the Company's 2014 Annual Meeting of Shareholders on May 27, 2014, the shareholders approved the 2014 Incentive Plan. Accordingly, the 2014 Incentive Plan became effective on that date and no further awards will be made under the 2004 Incentive Plan. The 2014 Incentive Plan has substantially the same terms, other than the number of shares available, as the 2004 Incentive Plan and is effective through February 5, 2024. The number of shares initially available for issuance under the 2014 Incentive Plan was 10,000,000 shares of common stock. Shares of common stock subject to an award granted under the 2014 Incentive Plan or the prior 2004 Incentive Plan that expire unexercised, are forfeited, terminated or canceled and that do not result in the issuance of common stock, will be available for grant under the 2014 Incentive Plan.

10. PENSION PLANS, RETIREMENT BENEFITS AND SAVINGS PLANS

The following tables summarize the components of net periodic benefit cost for the Company's pension and postretirement benefit plans recognized in the consolidated statement of income.

(for the three months ended June 30, in millions)	Pension Plans		Postretirement Benefit Plans	
	2014	2013	2014	2013
Net Periodic Benefit Cost:				
Service cost	\$ 28	\$ 30	\$ 3	\$ 2
Interest cost on benefit obligation	37	33	3	2
Expected return on plan assets	(55)	(52)		
Amortization of unrecognized:

Expected return on plan assets	(109)	(104)		
Amortization of unrecognized:				
Prior service benefit			(1)	(1)

Net actuarial (gain) loss		32		53		(1)	
Net periodic benefit cost	\$	53	\$	74	\$	3	\$ 3

11. CONTINGENCIES, COMMITMENTS AND GUARANTEES

Contingencies

The major pending legal proceedings, other than ordinary routine litigation incidental to the business, to which the Company or any of its subsidiaries is a party or to which any of the Company's properties is subject are described below.

Asbestos- and Environmental-Related Proceedings

In the ordinary course of its insurance business, the Company has received and continues to receive claims for insurance arising under policies issued by the Company asserting alleged injuries and damages from asbestos- and environmental-related exposures that are the subject of related coverage litigation, including, among others, the litigation described below. The Company is defending asbestos- and environmental-related litigation vigorously and believes that it has meritorious

Table of Contents

THE TRAVELERS COMPANIES, INC. AND SUBSIDIARIES

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (Unaudited), Continued

11. CONTINGENCIES, COMMITMENTS AND GUARANTEES, Continued

defenses; however, the outcomes of these disputes are uncertain. In this regard, the Company employs dedicated specialists and aggressive resolution strategies to manage asbestos and environmental loss exposure, including settling litigation under appropriate circumstances.

Asbestos Direct Action Litigation In October 2001 and April 2002, two purported class action suits (*Wise v. Travelers* and *Meninger v. Travelers*) were filed against Travelers Property Casualty Corp. (TPC), a wholly-owned subsidiary of the Company, and other insurers (not including The St. Paul Companies, Inc. (SPC), which was acquired by TPC in 2004) in state court in West Virginia. These and other cases subsequently filed in West Virginia were consolidated into a single proceeding in the Circuit Court of Kanawha County, West Virginia. The plaintiffs allege that the insurer defendants engaged in unfair trade practices in violation of state statutes by inappropriately handling and settling asbestos claims. The plaintiffs seek to reopen large numbers of settled asbestos claims and to impose liability for damages, including punitive damages, directly on insurers. Similar lawsuits alleging inappropriate handling and settling of asbestos claims were filed in Massachusetts and Hawaii state courts. These suits are collectively referred to as the Statutory and Hawaii Actions.

In March 2002, the plaintiffs in consolidated asbestos actions pending before a mass tort panel of judges in West Virginia state court amended their complaint to include TPC as a defendant, alleging that TPC and other insurers breached alleged duties to certain users of asbestos products. The plaintiffs seek damages, including punitive damages. Lawsuits seeking similar relief and raising similar allegations, primarily violations of purported common law duties to third parties, have also been asserted in various state courts against TPC and SPC. The claims asserted in these suits are collectively referred to as the Common Law Claims.

In response to these claims, TPC moved to join the Statutory Actions and the Common Law Claims in the federal bankruptcy court that had presided over the bankruptcy of TPC's former policyholder Johns-Manville Corporation on the ground that the suits violated injunctions entered in connection with confirmation of the Johns-Manville bankruptcy (the 1986 Orders). The bankruptcy court issued a temporary restraining order and referred the parties to mediation. In November 2003, the parties reached a settlement of the Statutory and Hawaii Actions, which included a lump-sum payment of up to \$412 million by TPC, subject to a number of significant contingencies. In May 2004, the parties reached a settlement resolving substantially all pending and similar future Common Law Claims against TPC, which included a payment of up to \$90 million by TPC, subject to similar contingencies. Among the contingencies for each of these settlements was that the bankruptcy court issue an order, which must become a final order, clarifying that all of these claims, and similar future asbestos-related claims against TPC, as well as related contribution claims, are barred by the 1986 Orders.

On August 17, 2004, the bankruptcy court entered an order approving the settlements and clarifying that the 1986 Orders barred the pending Statutory and Hawaii Actions and substantially all Common Law Claims pending against TPC (the Clarifying Order). The Clarifying Order also applies to similar direct action claims that may be filed in the future. Although the District Court substantially affirmed the Clarifying Order, on February 15, 2008, the Second Circuit issued an opinion vacating on jurisdictional grounds the District Court's approval of the Clarifying Order.

On December 12, 2008, the United States Supreme Court granted TPC's Petition for Writ of Certiorari and, on June 18, 2009, the Supreme Court reversed the Second Circuit's February 15, 2008 decision, finding, among other things, that the 1986 Orders are final and therefore may not be collaterally challenged on jurisdictional grounds. The Supreme Court further ruled that the bankruptcy court had jurisdiction to issue the Clarifying Order. However, since the Second Circuit had not ruled on certain additional issues, principally related to procedural matters and the adequacy of notice provided to certain parties, the Supreme Court remanded the case to the Second Circuit for further proceedings on those specific issues.

On March 22, 2010, the Second Circuit issued an opinion in which it found that the notice of the 1986 Orders provided to one remaining objector was insufficient to bar contribution claims by that objector against TPC. TPC's Petition for Rehearing and Rehearing *En Banc* was denied May 25, 2010 and its Petition for Writ of Certiorari and Petition for a Writ of Mandamus were denied by the United States Supreme Court on November 29, 2010.

The plaintiffs in the Statutory and Hawaii actions and the Common Law Claims actions thereafter filed motions in the bankruptcy court to compel TPC to make payment under the settlement agreements, arguing that all conditions precedent to

Table of Contents

THE TRAVELERS COMPANIES, INC. AND SUBSIDIARIES

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (Unaudited), Continued

11. CONTINGENCIES, COMMITMENTS AND GUARANTEES, Continued

the settlements had been met. On December 16, 2010, the bankruptcy court granted the plaintiffs' motions and ruled that TPC was required to fund the settlements. The court entered judgment against TPC on January 20, 2011 in accordance with this ruling and ordered TPC to pay the settlement amounts plus prejudgment interest. The bankruptcy court's judgment was reversed by the district court on March 1, 2012, the district court having found that the conditions to the settlements had not been met in view of the Second Circuit's March 22, 2010 ruling permitting the filing of contribution claims against TPC. The plaintiffs appealed the district court's March 1, 2012 decision to the Second Circuit Court of Appeals. Oral argument before the Second Circuit took place on January 10, 2013, and the parties await the court's decision.

SPC, which is not covered by the Manville bankruptcy court rulings or the settlements described above, from time to time has been named as a defendant in direct action cases in Texas state court asserting common law claims. All such cases that are still pending and in which SPC has been served are currently on the inactive docket in Texas state court. If any of those cases becomes active, SPC intends to litigate those cases vigorously. SPC was previously a defendant in similar direct actions in Ohio state court, which have been dismissed following favorable rulings by Ohio trial and appellate courts. From time to time, SPC and/or its subsidiaries have been named in similar individual direct actions in other jurisdictions.

Outcome and Impact of Asbestos and Environmental Claims and Litigation. Currently, it is not possible to predict legal outcomes and their impact on the future development of claims and litigation relating to asbestos and environmental claims. Any such development will be affected by future court decisions and interpretations, as well as changes in applicable legislation. Because of these uncertainties, additional liabilities may arise for amounts in excess of the Company's current reserves. In addition, the Company's estimate of ultimate claims and claim adjustment expenses may change. These additional liabilities or increases in estimates, or a range of either, cannot now be reasonably estimated and could result in income statement charges that could be material to the Company's results of operations in future periods.

Other Proceedings Not Arising Under Insurance Contracts or Reinsurance Agreements

The Company is involved in other lawsuits, including lawsuits alleging extra-contractual damages relating to insurance contracts or reinsurance agreements, that do not arise under insurance contracts or reinsurance agreements. Based upon currently available information, the Company does not believe it is reasonably possible that any such lawsuit or related lawsuits would be material to the Company's results of operations or would have a material adverse effect on the Company's financial position or liquidity.

Gain Contingency

On August 17, 2010, in a reinsurance dispute in New York state court captioned *United States Fidelity & Guaranty Company v. American Re-Insurance Company, et al.*, the trial court granted summary judgment for United States Fidelity and Guaranty Company (USF&G), a subsidiary of the Company, and denied summary judgment for American Re-Insurance Company, a subsidiary of Munich Re (American Re), and three other reinsurers. By order dated October 22, 2010, the trial court corrected certain clerical errors and made certain clarifications to the August 17, 2010 order. On October 25, 2010, judgment was entered against American Re and the other three insurers, awarding USF&G \$420 million, comprising \$251 million ceded under the terms of the disputed reinsurance contract plus interest of 9% amounting to \$169 million as of that date. The judgment, including the award of interest, was appealed by the reinsurers to the New York Supreme Court, Appellate Division, First Department. On January 24, 2012, the Appellate Division affirmed the judgment. On January 30, 2012, the reinsurers filed a motion with the Appellate Division seeking permission to appeal its decision to the New York Court of Appeals, and on March 12, 2012, the Appellate Division granted the reinsurers' motion. On February 7, 2013, the Court of Appeals issued an opinion that largely affirmed the summary judgment in USF&G's favor, while modifying in part the summary judgment with respect to two discrete issues and remanding the case to the trial court for determination of those issues. The Company believes it has a meritorious position on each of these issues and intends to pursue its claim vigorously. On May 2, 2013, the Court of Appeals denied a motion by reinsurers to reconsider the February 7, 2013 opinion. In November 2013, the Company entered into a settlement agreement with one of the reinsurers. At June 30, 2014, the claim totaled \$477 million, comprising the \$238 million of reinsurance recoverable plus interest amounting to \$239 million as of that date. Interest will continue to accrue at 9% until the claim is paid. The \$238 million of reinsurance recoverable owed to USF&G under the terms of the disputed reinsurance contract has been reported as part of reinsurance recoverables in the Company's consolidated balance sheet. The interest that would be owed as part of any judgment ultimately entered in favor of USF&G is treated for accounting purposes as a gain contingency in accordance with FASB Topic 450, *Contingencies*, and accordingly has not been recognized in the Company's consolidated financial statements.

THE TRAVELERS COMPANIES, INC. AND SUBSIDIARIES

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (Unaudited), Continued

11. CONTINGENCIES, COMMITMENTS AND GUARANTEES, Continued

Other Commitments and Guarantees

Commitments

Investment Commitments The Company has unfunded commitments to private equity limited partnerships and real estate partnerships in which it invests. These commitments totaled \$1.59 billion and \$1.52 billion at June 30, 2014 and December 31, 2013, respectively.

Guarantees

In the ordinary course of selling businesses to third parties, the Company has agreed to indemnify purchasers for losses arising out of breaches of representations and warranties with respect to the businesses being sold, covenants and obligations of the Company and/or its subsidiaries following the closing, and in certain cases obligations arising from undisclosed liabilities, adverse reserve development and imposition of additional taxes due to either a change in the tax law or an adverse interpretation of the tax law. Such indemnification provisions generally are applicable from the closing date to the expiration of the relevant statutes of limitations, although, in some cases, there may be agreed upon term limitations or no term limitations. Certain of these contingent obligations are subject to deductibles which have to be incurred by the obligee before the Company is obligated to make payments. The maximum amount of the Company's contingent obligation for indemnifications related to the sale of businesses that are quantifiable was \$467 million at June 30, 2014, of which \$9 million was recognized on the balance sheet at that date.

The Company also has contingent obligations for guarantees related to certain investments, third-party loans related to certain investments, certain insurance policy obligations of former insurance subsidiaries, and various other indemnifications. The Company also provides standard indemnifications to service providers in the normal course of business. The indemnification clauses are often standard contractual terms. Certain of these guarantees and indemnifications have no stated or notional amounts or limitation to the maximum potential future payments, and, accordingly, the Company is unable to develop an estimate of the maximum potential payments for such arrangements. The maximum amount of the Company's obligation for guarantees of certain investments and third-party loans related to certain investments that are quantifiable was \$150 million at June 30, 2014, approximately \$75 million of which is indemnified by a third party. The maximum amount of the Company's obligation related to the guarantee of certain insurance policy obligations of a former insurance subsidiary was \$480 million at June 30, 2014, all of which is indemnified by a third party.

12. CONSOLIDATING FINANCIAL STATEMENTS OF THE TRAVELERS COMPANIES, INC. AND SUBSIDIARIES

The following consolidating financial statements of the Company have been prepared pursuant to Rule 3-10 of Regulation S-X. These consolidating financial statements have been prepared from the Company's financial information on the same basis of accounting as the consolidated financial statements. The Travelers Companies, Inc. has fully and unconditionally guaranteed certain debt obligations of TPC, which totaled \$700 million at June 30, 2014.

Prior to the merger of TPC and SPC in 2004, TPC fully and unconditionally guaranteed the payment of all principal, premiums, if any, and interest on certain debt obligations of its wholly-owned subsidiary, Travelers Insurance Group Holdings, Inc. (TIGHI). Concurrent with the merger, The Travelers Companies, Inc. fully and unconditionally assumed such guarantee obligations of TPC. TPC is deemed to have no assets or operations independent of TIGHI. Consolidating financial information for TIGHI has not been presented herein because such financial information would be substantially the same as the financial information provided for TPC.

Item 2. MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS

The following is a discussion and analysis of the Company's financial condition and results of operations.

FINANCIAL HIGHLIGHTS

2014 Second Quarter Consolidated Results of Operations

- Net income of \$683 million, or \$1.98 per share basic and \$1.95 per share diluted
- Net earned premiums of \$5.93 billion
- Catastrophe losses of \$436 million (\$284 million after-tax)
- Net favorable prior year reserve development of \$183 million (\$122 million after-tax)
- Combined ratio of 95.1%
- Net investment income of \$695 million (\$553 million after-tax)
- Operating cash flows of \$625 million

2014 Second Quarter Consolidated Financial Condition

- Total investments of \$73.94 billion; fixed maturities and short-term securities comprised 93% of total investments
- Total assets of \$104.81 billion
- Total debt of \$6.35 billion, resulting in a debt-to-total capital ratio of 19.9% (21.3% excluding net unrealized investment gains, net of tax)
- Repurchased 9.5 million common shares for total cost of \$875 million under the publicly-announced share repurchase authorization
- Shareholders' equity of \$25.53 billion
- Net unrealized investment gains of \$3.09 billion (\$2.01 billion after-tax)

- Book value per common share of \$75.32
- Holding company liquidity of \$1.83 billion

Realignment of Reportable Business Segments

On June 10, 2014, the Company announced a realignment of two of its three business segments, effective July 1, 2014. The discussion of segment results herein is based on the Company's former reportable business segment structure as it existed on June 30, 2014.

The following discussions of the Company's net income and segment operating income are presented on an after-tax basis. Discussions of the components of net income and segment operating income are presented on a pretax basis, unless otherwise noted. Discussions of net income per common share are presented on a diluted basis. For definitions of combined ratio, loss and loss adjustment expense ratio, underwriting expense ratio and other related ratios, see Part II Item 5 Other Information in this report.

Overview

Edgar Filing: TRAVELERS COMPANIES, INC. - Form 10-Q

Diluted net income per share of \$1.95 in the second quarter of 2014 decreased by 19% from diluted net income per share of \$2.41 in the same period of 2013. Net income of \$683 million in the second quarter of 2014 decreased by 26% from net income of \$925 million in the same period of 2013. The lower rate of decrease in diluted net income per share reflected the impact of share repurchases in recent periods. The decrease in net income in the second quarter of 2014 compared with the same period of 2013 primarily reflected the pretax impacts of (i) a decrease in net realized investment gains, (ii) a decline in other revenues, (iii) an increase in catastrophe losses and (iv) slightly lower net favorable prior year reserve development, partially offset by (v) higher underwriting margins excluding catastrophe losses and prior year reserve development (underlying underwriting margins) and (vi) higher net investment income. Catastrophe losses in the second quarters of 2014 and 2013 were \$436 million and \$340 million, respectively. Net favorable prior year reserve development in the second quarters of 2014 and 2013 was \$183 million and \$192 million, respectively. The improvement in underlying underwriting

Table of Contents

margins primarily resulted from the impact of earned pricing that exceeded loss cost trends in each of the Company's business segments, partially offset by higher non-catastrophe weather-related losses. Partially offsetting this net pretax decrease was the related reduction in income tax expense. Additionally, net income in the second quarter of 2013 benefited from a reduction in income tax expense resulting from the resolution of prior year tax matters. The effective tax rate in the second quarter of 2014 was higher than in the same period in 2013. This resulted from the impact of the reduction in income tax expense in the second quarter of 2013 resulting from the resolution of prior year tax matters, partially offset by interest on municipal bonds, which is effectively taxed at a rate that is lower than the corporate tax rate of 35%, comprising a higher percentage of pretax income in the second quarter of 2014.

Diluted net income per share of \$4.91 in the first six months of 2014 increased by 3% over diluted net income per share of \$4.75 in the same period of 2013. Net income of \$1.74 billion in the first six months of 2014 decreased by 5% from net income of \$1.82 billion in the same period of 2013. The increase in diluted net income per share as compared with the decrease in net income reflected the impact of share repurchases in recent periods. The decrease in net income primarily reflected the pretax impacts of (i) a decrease in net realized investment gains, (ii) higher catastrophe losses and (iii) a decline in other revenues, partially offset by (iv) higher underlying underwriting margins, (v) higher net investment income and (vi) an increase in net favorable prior year reserve development. Catastrophe losses in the first six months of 2014 and 2013 were \$585 million and \$439 million, respectively. Net favorable prior year reserve development in the first six months of 2014 and 2013 was \$477 million and \$423 million, respectively. The improvement in underlying underwriting margins primarily resulted from the impact of earned pricing that exceeded loss cost trends in each of the Company's business segments, partially offset by higher non-catastrophe weather-related losses. Partially offsetting this net pretax decrease was the related reduction in income tax expense. Additionally, net income in the first six months of 2013 benefited from a reduction in income tax expense resulting from the resolution of prior year tax matters. The effective tax rate in the first six months of 2014 was higher than in the same period in 2013. This resulted primarily from the impact of the reduction in income tax expense in the second quarter of 2013 resulting from the resolution of prior year tax matters.

Revenues

Earned Premiums

Earned premiums in the second quarter of 2014 were \$5.93 billion, \$325 million or 6% higher than in the same period of 2013. Earned premiums in the first six months of 2014 were \$11.75 billion, \$631 million or 6% higher than in the same period of 2013. The increase in earned premiums in both periods of 2014 primarily reflected the impact of the acquisition of Dominion on November 1, 2013. In the Business Insurance segment, earned premiums in the second quarter and first six months of 2014 both increased by 2% over the respective periods of 2013. In the Financial, Professional & International Insurance segment, earned premiums in the second quarter and first six months of 2014 increased by 45% and 44% over the respective periods of 2013, primarily reflecting the impact of the acquisition of Dominion. In the Personal Insurance segment, earned premiums in the second quarter and first six months of 2014 decreased by 3% and 4% from the respective periods of 2013. Factors contributing to the changes in earned premiums in each segment are discussed in more detail in the segment discussions that follow.

Net Investment Income

The following table sets forth information regarding the Company's investments.

Edgar Filing: TRAVELERS COMPANIES, INC. - Form 10-Q

(dollars in millions)	Three Months Ended June 30,		Six Months Ended June 30,	
	2014	2013	2014	2013
Average investments (1)	\$ 71,880	\$ 69,701	\$ 72,010	\$ 69,903
Pretax net investment income	695	687	1,431	1,357
After-tax net investment income	553	551	1,135	1,093
Average pretax yield (2)	3.9%	3.9%	4.0%	3.9%
Average after-tax yield (2)	3.1%	3.2%	3.2%	3.1%

(1) Excludes net unrealized investment gains and losses, net of tax, and reflects cash, receivables for investment sales, payables on investment purchases and accrued investment income.

(2) Excludes net realized investment gains and losses and net unrealized investment gains and losses, net of tax.

Table of Contents

Net investment income in the second quarter of 2014 was \$695 million, \$8 million or 1% higher than in the same period of 2013. Net investment income in the first six months of 2014 was \$1.43 billion, \$74 million or 5% higher than in the same period of 2013. Net investment income from fixed maturity investments in the second quarter and first six months of 2014 was \$562 million and \$1.14 billion, respectively, \$12 million and \$18 million lower, respectively, than in the same periods of 2013, primarily resulting from lower long-term reinvestment yields available in the market, partially offset by the impact of the acquisition of Dominion. Net investment income generated by non-fixed maturity investments in the second quarter and first six months of 2014 was \$140 million and \$303 million, respectively, \$20 million and \$91 million higher, respectively, than in the same periods of 2013, primarily driven by higher returns from the Company's private equity investments in both periods, as well as higher returns from real estate partnership investments in the first quarter of 2014.

Fee Income

The National Accounts market in the Business Insurance segment is the primary source of the Company's fee-based business. The \$30 million and \$40 million increases in fee income in the second quarter and first six months of 2014, respectively, compared with the same periods of 2013 are discussed in the Business Insurance segment discussion that follows.

Net Realized Investment Gains

The following table sets forth information regarding the Company's net realized investment gains.

(in millions)	Three Months Ended June 30,		Six Months Ended June 30,	
	2014	2013	2014	2013
Net Realized Investment Gains				
Other-than-temporary impairment losses	\$ (1)	\$ (2)	\$ (10)	\$ (7)
Other net realized investment gains	17	169	27	184
Net realized investment gains	\$ 16	\$ 167	\$ 17	\$ 177

Other net realized investment gains in the second quarter and first six months of 2013 included \$134 million and \$115 million, respectively, of net realized gains associated with U.S. Treasury futures contracts, which require daily mark-to-market settlement and are used from time to time to shorten the duration of the Company's fixed maturity investment portfolio.

Other Revenues

Other revenues in the second quarter and first six months of 2013 included a \$91 million gain from the settlement of a legal proceeding. The remainder of other revenues in all periods presented primarily consisted of premium installment charges.

Claims and Expenses

Claims and Claim Adjustment Expenses

Claims and claim adjustment expenses in the second quarter of 2014 were \$3.83 billion, \$296 million or 8% higher than in the same period of 2013, primarily reflecting (i) the impact of the acquisition of Dominion, (ii) an increase in catastrophe losses, (iii) higher non-catastrophe weather-related losses, (iv) the impact of loss cost trends and (v) slightly lower net favorable prior year reserve development. Catastrophe losses in the second quarters of both 2014 and 2013 primarily resulted from wind and hail storms in several regions of the United States. In addition, catastrophe losses in the second quarter of 2013 included losses from floods in Alberta, Canada.

Claims and claim adjustment expenses in the first six months of 2014 were \$7.14 billion, \$458 million or 7% higher than in the same period of 2013, primarily reflecting the same factors described above, except that net favorable prior year reserve development in the first six months of 2014 was higher than in the same period of 2013. Catastrophe losses in the first six months of 2014 included the second quarter storms in the United States, as well as a winter storm in the Mid-Atlantic, Midwestern and Southeastern regions of the United States in the first quarter of 2014. Catastrophe losses in the first six

Table of Contents

months of 2013 included the second quarter storms in the United States and floods in Canada described above, as well as tornadoes and hail storms in the Southeastern United States in the first quarter of 2013. Factors contributing to net favorable prior year reserve development in each segment during these periods are discussed in more detail in the segment discussions that follow.

Significant Catastrophe Losses

The following table presents for significant catastrophes the amount of losses recorded in the three months and six months ended June 30, 2014 and 2013, and the amount of related net unfavorable (favorable) prior period reserve development recognized in subsequent periods, as well as the estimate of ultimate losses at June 30, 2014 and December 31, 2013 for the significant catastrophes presented. For purposes of the table, a significant catastrophe is an event for which the Company estimates its ultimate losses will be \$100 million or more after reinsurance and before taxes. For a further description of the Company's significant catastrophes, refer to Item 7 Management's Discussion and Analysis of Financial Condition and Results of Operations Consolidated Overview in the Company's Annual Report on Form 10-K for the year ended December 31, 2013.

(in millions, pretax and net of reinsurance)	For The Three Months Ended June 30,		For The Six Months Ended June 30,		Estimated Ultimate Losses December 31,

Amortization of Deferred Acquisition Costs

Amortization of deferred acquisition costs in the second quarter of 2014 was \$965 million, \$15 million or 2% higher than in the same period of 2013. Amortization of deferred acquisition costs in the first six months of 2014 was \$1.92 billion, \$17 million or 1% higher than in the same 2013 period. The increase in both periods of 2014 primarily resulted from the impact of the acquisition of Dominion, partially offset by declines in the Personal Insurance segment. Amortization of deferred acquisition costs is discussed in more detail in the segment discussions that follow.

General and Administrative Expenses

General and administrative expenses in the second quarter of 2014 were \$1.00 billion, \$70 million or 8% higher than in the same period of 2013. General and administrative expenses in the first six months of 2014 were \$1.88 billion, \$36 million or 2% higher than in the same period of 2013. The increase in the second quarter of 2014 primarily reflected the impact of the acquisition of Dominion. The increase in the first six months of 2014 primarily reflected the impact of the acquisition of Dominion, partially offset by a \$76 million reduction in the estimated liability for state assessments to be paid by the Company related to workers' compensation premiums that resulted from a change in state law that took effect in the first quarter of 2014. General and administrative expenses are discussed in more detail in the segment discussions that follow.

Table of Contents

Interest Expense

Interest expense in the second quarter and first six months of 2014 was \$92 million and \$184 million, respectively, compared with \$86 million and \$178 million in the same respective periods of 2013. The increases in both periods of 2014 reflected higher average levels of debt outstanding.

Income Tax Expense

Income tax expense in the second quarter of 2014 was \$218 million, \$34 million or 13% lower than in the same period of 2013, primarily reflecting the tax effects of the \$276 million decrease in income before income taxes, partially offset by the impact of a \$63 million reduction in income tax expense in the second quarter of 2013 resulting from the resolution of prior year tax matters. Income tax expense in the first six months of 2014 was \$636 million, \$60 million or 10% higher than in the same period of 2013, primarily reflecting the impact of the resolution of prior year tax matters in the second quarter of 2013.

The Company's effective tax rates in the second quarter and first six months of 2014 were 24% and 27%, respectively. In the second quarter and first six months of 2013, the Company's effective tax rates were 21% and 24%, respectively. The effective tax rates in all periods were lower than the statutory rate of 35% primarily due to the impact of tax-exempt investment income on the calculation of the Company's income tax provision. In addition, the effective tax rates in the second quarter and first six months of 2013 were reduced by the resolution of prior year tax matters.

Combined Ratio

The combined ratio of 95.1% in the second quarter of 2014 was 0.8 points higher than the combined ratio of 94.3% in the same period of 2013. The combined ratio of 90.5% in the first six months of 2014 was 0.9 points lower than the combined ratio of 91.4% in the same period of 2013. The increase in the second quarter of 2014 primarily reflected the impact of higher catastrophe losses. The decrease in the first six months of 2014 primarily reflected the impacts of a lower underwriting expense ratio, partially offset by a higher loss and loss adjustment expense ratio primarily driven by higher catastrophe losses.

The loss and loss adjustment expense ratio of 63.6% in the second quarter of 2014 was 1.3 points higher than the loss and loss adjustment expense ratio of 62.3% in the same period of 2013. Catastrophe losses accounted for 7.3 points and 6.1 points of the 2014 and 2013 second quarter loss and loss adjustment expense ratios, respectively. Net favorable prior year reserve development in the second quarters of 2014 and 2013 provided 3.1 points and 3.5 points of benefit, respectively, to the loss and loss adjustment expense ratio. The loss and loss adjustment expense ratio excluding catastrophe losses and prior year reserve development (underlying loss and loss adjustment expense ratio) in the second quarter of 2014 was 0.3 points lower than the 2013 second quarter ratio on the same basis, reflecting the improvement in underlying underwriting margins discussed in the Overview section above.

Edgar Filing: TRAVELERS COMPANIES, INC. - Form 10-Q

The loss and loss adjustment expense ratio of 59.9% in the first six months of 2014 was 0.6 points higher than the loss and loss adjustment expense ratio of 59.3% in the same period of 2013. Catastrophe losses accounted for 5.0 points and 3.9 points of the 2014 and 2013 six-month loss and loss adjustment expense ratios, respectively. Net favorable prior year reserve development in the first six months of 2014 and 2013 provided 4.1 points and 3.8 points of benefit, respectively, to the loss and loss adjustment expense ratio. The 2014 six-month underlying loss and loss adjustment expense ratio was 0.2 points lower than the 2013 six-month ratio on the same basis, reflecting the same factors discussed above for the second quarter of 2014.

The underwriting expense ratio of 31.5% for the second quarter of 2014 was 0.5 points lower than the underwriting expense ratio of 32.0% in the same period of 2013, primarily reflecting lower commission expenses in the Personal Insurance segment. In the first six months of 2014, the underwriting expense ratio of 30.6% was 1.5 points lower than the underwriting expense ratio of 32.1% in the same 2013 period. The underwriting expense ratio in the first six months of 2014 benefited from the reduction in the estimated liability for state assessments to be paid by the Company related to workers' compensation premiums described above.

Table of Contents*Written Premiums*

Consolidated gross and net written premiums were as follows:

(in millions)	Gross Written Premiums					
	Three Months Ended June 30,			Six Months Ended June 30,		
	2014	2013		2014	2013	
Business Insurance	\$ 3,379	\$ 3,344		\$ 7,047	\$ 6,970	
Financial, Professional & International Insurance	1,224	906		2,308	1,705	
Personal Insurance	1,916	1,997		3,565	3,760	
Total	\$ 6,519	\$ 6,247		\$ 12,920	\$ 12,435	

(in millions)	Net Written Premiums					
	Three Months Ended June 30,			Six Months Ended June 30,		
	2014	2013		2014	2013	
Business Insurance	\$ 3,101	\$ 3,068		\$ 6,405	\$ 6,328	
Financial, Professional & International Insurance	1,168	849		2,118	1,496	
Personal Insurance	1,893	1,907		3,512	3,597	
Total	\$ 6,162	\$ 5,824		\$ 12,035	\$ 11,421	

Gross and net written premiums in the second quarter of 2014 increased by 4% and 6%, respectively, over the same period of 2013. Gross and net written premiums in the first six months of 2014 increased by 4% and 5%, respectively, over the same period of 2013. The increases in both periods of 2014 primarily reflected the impact of the acquisition of Dominion. Factors contributing to the changes in gross and net written premiums in each segment are discussed in more detail in the segment discussions that follow.

RESULTS OF OPERATIONS BY SEGMENT

On June 10, 2014, the Company announced a realignment of its management team that gave rise to a realignment of two of its three business segments, effective July 1, 2014. The Company's International Insurance group, which had previously been included in the Financial, Professional & International Insurance segment, will be combined with the Company's previous Business Insurance segment to create a new Business & International Insurance segment. The Bond & Financial Products group, which was the remaining business in the Financial, Professional & International Insurance segment, will now comprise the new Bond & Financial Products segment. The Personal Insurance segment will not be impacted by these changes. The changes were designed to reflect the realignment of the Company's management team and the manner in which the Company's businesses are managed effective July 1, 2014, and represent an aggregation of products and services based on type of customer, how the business is marketed and the manner in which risks are underwritten. The newly aligned segments will be presented in the Company's financial statements beginning with the period ending September 30, 2014 and the prior periods presented will be restated to conform to the new presentation. The following discussion of segment results is based on the Company's reportable business segment structure as it existed on June 30, 2014.

Table of Contents**Business Insurance**

Results of the Company's Business Insurance segment were as follows:

(dollars in millions)	Three Months Ended June 30,		Six Months Ended June 30,	
	2014	2013	2014	2013
Revenues

Combined ratio	99.0%	96.2%	93.4%	92.9%

Overview

Operating income in the second quarter of 2014 was \$409 million, \$170 million or 29% lower than operating income of \$579 million in the same period of 2013. The decrease in operating income in the second quarter of 2014 compared with the same period of 2013 primarily reflected the pretax impacts of (i) a decline in other revenues, (ii) an increase in catastrophe losses, (iii) a decline in net favorable prior year reserve development and (iv) a slight decline in net investment income, partially offset by (v) higher underlying underwriting margins. Catastrophe losses in the second quarters of 2014 and 2013 were \$236 million and \$148 million, respectively. Net favorable prior year reserve development in the second quarters of 2014 and 2013 was \$25 million and \$55 million, respectively. The improvement in underlying underwriting margins primarily resulted from earned pricing that exceeded loss cost trends, partially offset by higher non-catastrophe weather-related losses. Partially offsetting this net pretax decrease in operating income was the related reduction in income tax expense. In addition, operating income in the second quarter of 2013 benefited from a reduction in income tax expense resulting from the resolution of prior year tax matters. The effective tax rate in the second quarter of 2014 was higher than in the same period in 2013. This resulted from the impact of the reduction in income tax expense in the second quarter of 2013 resulting from the resolution of prior year tax matters, partially offset by interest on municipal bonds, which is effectively taxed at a rate that is lower than the corporate tax rate of 35%, comprising a higher percentage of pretax income in the second quarter of 2014.

Operating income in the first six months of 2014 was \$1.06 billion, \$107 million or 9% lower than operating income of \$1.17 billion in the same period of 2013, primarily reflecting the same factors described above, except that net investment income in the first six months of 2014 was higher than in the same period of 2013. Catastrophe losses in the first six months of 2014 and 2013 were \$316 million and \$183 million, respectively. Net favorable prior year reserve development in the first six months of 2014 and 2013 was \$118 million and \$168 million, respectively. Underlying underwriting margins in the first six months of 2014 also benefited from a \$76 million reduction in the estimated liability for state assessments to be paid by the Company related to workers' compensation premiums in the first quarter of 2014.

Earned Premiums

Earned premiums in the second quarter of 2014 were \$3.07 billion, \$49 million or 2% higher than in the same period of 2013. Earned premiums in the first six months of 2014 were \$6.08 billion, \$123 million or 2% higher than in the same period of 2013. The increases in both periods of 2014 primarily reflected the impact of an increase in net written premiums over the preceding twelve months.

Table of Contents

Net Investment Income

Net investment income in the second quarter of 2014 was \$496 million, \$6 million or 1% lower than in the same 2013 period. Net investment income in the first six months of 2014 was \$1.03 billion, \$37 million or 4% higher than in the same period of 2013. Refer to the Net Investment Income section of the Consolidated Results of Operations discussion herein for a description of the factors contributing to the changes in the Company's consolidated net investment income in the second quarter and first six months of 2014 compared with the same periods of 2013. In addition, refer to note 2 of notes to the Company's consolidated financial statements in the Company's Annual Report on Form 10-K for the year ended December 31, 2013 for a discussion of the Company's net investment income allocation methodology.

Fee Income

National Accounts is the primary source of fee income due to its service businesses, which include claim and loss prevention services to large companies that choose to self-insure a portion of their insurance risks, as well as claims and policy management services to workers compensation residual market pools. Fee income in the second quarter and first six months of 2014 increased by \$29 million and \$39 million over the respective periods of 2013, driven by the impact of higher serviced premium volume in workers compensation residual market pools and higher claim volume in the large deductible business.

Other Revenues

Other revenues in the second quarter and first six months of 2013 included a \$91 million gain from the settlement of a legal proceeding.

Claims and Expenses

Claims and Claim Adjustment Expenses

Claims and claim adjustment expenses in the second quarter of 2014 were \$2.14 billion, \$134 million or 7% higher than in the same period of 2013. The increase in 2014 primarily reflected (i) an increase in catastrophe losses, (ii) a decline in net favorable prior year reserve development, (iii) higher non-catastrophe weather-related losses and (iv) the impact of loss cost trends, partially offset by (v) the impact of a modest decline in volumes of insured exposures. Net favorable prior year reserve development in the second quarter of 2014 was primarily driven by better than expected loss experience in the general liability product line related to excess coverages for accident years 2008 through 2012, reflecting more favorable legal and judicial environments than what the Company previously expected. Net favorable prior year reserve development in the second quarter of 2013 was primarily driven by better than expected loss experience in the general liability product line related to excess coverages for accident years 2004 through 2009, reflecting more favorable legal and judicial environments than what the Company previously expected. These factors contributing to net favorable prior year reserve development in the second quarters of 2014 and 2013 were partially offset by \$87 million and \$65 million increases, respectively, to environmental reserves, which are discussed in further detail in the Environmental Claims and Litigation section herein.

Claims and claim adjustment expenses in the first six months of 2014 were \$3.99 billion, \$238 million or 6% higher than in the same period of 2013. Claims and claim adjustment expenses in the first six months of 2014 were impacted by the same factors described above for the second quarter of 2014. Net favorable prior year reserve development in the first six months of 2014 was primarily driven by the same factors described above for the second quarter and by better than expected loss experience for the property product line for accident years 2010 through 2013 related to non-catastrophe and catastrophe losses, partially offset by higher than expected loss experience for liability coverages in the commercial multi-peril product line for accident years 2010 through 2013. Net favorable prior year reserve development in the first six months of 2013 was primarily driven by better than expected loss experience in the general liability product line related to excess coverages for accident years 2004 through 2010, reflecting more favorable legal and judicial environments than what the Company previously expected, and by better than expected loss experience for the property product line for accident years 2010 through 2012.

Amortization of Deferred Acquisition Costs

Amortization of deferred acquisition costs in the second quarter of 2014 was \$479 million, \$2 million or less than 1% lower than in the same period of 2013. Amortization of deferred acquisition costs in the first six months of 2014 was \$950 million, \$6 million or 1% lower than in the same 2013 period. The decreases in both periods of 2014 primarily reflected a modest change in business mix.

Table of Contents

General and Administrative Expenses

General and administrative expenses in the second quarter of 2014 were \$535 million, \$24 million or 5% higher than in the same period of 2013. General and administrative expenses in the first six months of 2014 were \$973 million, \$55 million or 5% lower than in the same period of 2013, primarily reflecting a \$76 million reduction in the estimated liability for state assessments to be paid by the Company related to workers compensation premiums in the first quarter of 2014.

Income Tax Expense

Income tax expense in the second quarter of 2014 was \$117 million, \$20 million or 15% lower than in the same period of 2013, primarily reflecting the tax effects of the \$190 million decline in pre-tax operating income, partially offset by the impact of a \$43 million reduction in income tax expense in the second quarter of 2013 resulting from the resolution of prior year tax matters. Income tax expense in the first six months of 2014 was \$363 million, \$18 million or 5% higher than in the same period of 2013, primarily reflecting the impact of the resolution of prior year tax matters in the second quarter of 2013, partially offset by the tax effects of the \$89 million decline in pre-tax operating income.

Combined Ratio

The combined ratio of 99.0% in the second quarter of 2014 was 2.8 points higher than the combined ratio of 96.2% in the same period of 2013. The combined ratio of 93.4% in the first six months of 2014 was 0.5 points higher than the combined ratio of 92.9% in the same period of 2013. The increases in both periods of 2014 primarily reflected the impact of higher catastrophe losses.

The loss and loss adjustment expense ratio of 68.2% in the second quarter of 2014 was 2.9 points higher than the loss and loss adjustment expense ratio of 65.3% in the same period of 2013. Catastrophe losses in the second quarters of 2014 and 2013 accounted for 7.7 points and 4.9 points, respectively, of the loss and loss adjustment expense ratio. Net favorable prior year reserve development in the second quarters of 2014 and 2013 provided 0.8 points and 1.8 points of benefit, respectively, to the loss and loss adjustment expense ratio. The 2014 second quarter underlying loss and loss adjustment expense ratio was 0.9 points lower than the 2013 ratio on the same basis, reflecting the improvement in underlying underwriting margins discussed in the Overview section above.

The loss and loss adjustment expense ratio of 64.0% in the first six months of 2014 was 2.4 points higher than the loss and loss adjustment expense ratio of 61.6% in the same period of 2013. Catastrophe losses in the first six months of 2014 and 2013 accounted for 5.2 points and 3.1 points, respectively, of the loss and loss adjustment expense ratio. Net favorable prior year reserve development in the first six months of 2014 and 2013 provided 1.9 points and 2.8 points of benefit, respectively, to the loss and loss adjustment expense ratio. The underlying loss and loss adjustment expense ratio in the first six months of 2014 was 0.6 points lower than the 2013 ratio on the same basis, reflecting the same factors discussed above for the second quarter of 2014.

The underwriting expense ratio of 30.8% for the second quarter of 2014 was virtually level with the underwriting expense ratio of 30.9% in the same period of 2013. In the first six months of 2014, the underwriting expense ratio of 29.4% was 1.9 points lower than the underwriting

Edgar Filing: TRAVELERS COMPANIES, INC. - Form 10-Q

expense ratio of 31.3% in the same 2013 period, primarily reflecting a reduction in the estimated liability for state assessments to be paid by the Company related to workers' compensation premiums described above.

Written Premiums

The Business Insurance segment's gross and net written premiums by market were as follows:

56

Gross and net written premiums in the second quarter of 2014 both increased by 1% over the same period of 2013. Gross and net written premiums in the first six months of 2014 also both increased by 1% over the same period of 2013. In the second quarter and first six months of 2014, business retention rates remained strong and were slightly higher than in the same periods of 2013. Renewal premium changes remained positive in the second quarter and first six months of 2014 but were lower than in the same periods of 2013, primarily due to a decline in renewal rate changes. Renewal rate changes approximated expected loss cost trends. New business premiums in the second quarter of 2014 increased over the same period of 2013, while new business premiums in the first six months of 2014 decreased from the same period of 2013.

Select Accounts. Net written premiums of \$705 million in the second quarter of 2014 decreased by less than 1% from the same period of 2013. Net written premiums of \$1.42 billion in the first six months of 2014 also decreased by less than 1% from the same period of 2013. Business retention rates in the second quarter and first six months of 2014 remained strong and were higher than in the same periods of 2013. Renewal premium changes in the second quarter and first six months of 2014 remained positive but were lower than in the same periods of 2013, primarily due to lower renewal rate changes. New business premiums in the second quarter and first six months of 2014 decreased slightly from the same periods of 2013.

Commercial Accounts. Net written premiums of \$738 million in the second quarter of 2014 increased by 1% over the same period of 2013. Net written premiums of \$1.63 billion in the first six months of 2014 decreased by less than 1% from the same period of 2013. Business retention rates in the second quarter and first six months of 2014 remained strong and increased over the same periods of 2013. Renewal premium changes in the second quarter and first six months of 2014 remained positive but were lower than in the same periods of 2013, primarily due to lower renewal rate changes. New business premiums in the second quarter of 2014 increased over the same period of 2013, while new business premiums in the first six months of 2014 decreased from the same period of 2013.

Table of Contents

National Accounts. Net written premiums of \$243 million in the second quarter of 2014 were slightly higher than in the same period of 2013. Net written premiums of \$543 million in the first six months of 2014 increased by 5% over the same period of 2013. Business retention rates in the second quarter and first six months of 2014 remained strong but were lower than in the same periods of 2013. Renewal premium changes in the second quarter of 2014 remained positive and were virtually level with the same period of 2013. Renewal premium changes in the first six months of 2014 remained positive and were higher than in the same period of 2013. New business premiums in the second quarter and first six months of 2014 decreased from the same periods of 2013. Growth in workers' compensation residual market pools also contributed to premium growth in the first six months of 2014.

Industry-Focused Underwriting. Net written premiums of \$678 million in the second quarter of 2014 increased by 4% over the same period of 2013. Net written premiums of \$1.41 billion in the first six months of 2014 increased by 4% over the same period of 2013. Premium increases in both periods of 2014 were concentrated in the Construction business unit. Business retention rates in the second quarter and first six months of 2014 remained strong and increased over the same periods of 2013. Renewal premium changes in the second quarter and first six months of 2014 remained positive but were lower than in the same periods of 2013, primarily due to lower renewal rate changes. New business premiums in the second quarter and first six months of 2014 increased over the same periods of 2013.

Target Risk Underwriting. Net written premiums of \$513 million in the second quarter of 2014 increased by 3% over the same period of 2013. Net written premiums of \$967 million in the first six months of 2014 increased by 2% over the same period of 2013. Premium growth in the second quarter and first six months of 2014 was concentrated in the National Property and Inland Marine business units. Business retention rates in the second quarter and first six months of 2014 remained strong but were slightly lower than in the same periods of 2013. Renewal premium changes in the second quarter and first six months of 2014 remained positive but were lower than in the same periods of 2013, primarily due to lower renewal rate changes. New business premiums in the second quarter and first six months of 2014 decreased from the same periods of 2013.

Specialized Distribution. Net written premiums of \$224 million in the second quarter of 2014 decreased by 3% from the same period of 2013. Net written premiums of \$431 million in the first six months of 2014 decreased by 1% from the same period of 2013. Business retention rates in the second quarter and first six months of 2014 remained strong but were lower than in the same periods of 2013. Renewal premium changes in the second quarter of 2014 remained positive and were slightly higher than in the same period of 2013, driven by an increase in insured exposures, partially offset by lower renewal rate changes. Renewal premium changes in the first six months of 2014 remained positive but decreased from the same period of 2013, driven by lower renewal rate changes. New business premiums in the second quarter of 2014 decreased from the same period of 2013, while new business premiums in the first six months of 2014 increased over the same period of 2013.

Financial, Professional & International Insurance

Combined ratio		76.6%		86.3%		80.2%	84.3%

Table of Contents

Overview

Operating income in the second quarter of 2014 was \$254 million, \$100 million or 65% higher than operating income of \$154 million in the second quarter of 2013, primarily reflecting the pretax impacts of (i) an increase in net favorable prior year reserve development, (ii) higher underlying underwriting margins, (iii) lower catastrophe losses and (iv) an increase in net investment income. Catastrophe losses in the second quarters of 2014 and 2013 were \$10 million and \$46 million, respectively. Catastrophe losses in the second quarter of 2013 primarily resulted from floods in Alberta, Canada. Net favorable prior year reserve development in the second quarters of 2014 and 2013 was \$146 million and \$72 million, respectively. The increase in underlying underwriting margins primarily reflected the pretax impacts of lower reinsurance costs and earned pricing that exceeded loss cost trends. Partially offsetting this net pretax increase in operating income was the related increase in income tax expense. In addition, operating income in the second quarter of 2013 benefited from a reduction in income tax expense resulting from the resolution of prior year tax matters. The effective tax rate in the second quarter of 2014 was higher than in the same period in 2013. This primarily resulted from the impact of the reduction in income tax expense in the second quarter of 2013 resulting from the resolution of prior year tax matters.

Operating income in the first six months of 2014 was \$449 million, \$132 million or 42% higher than operating income of \$317 million in the same period of 2013, primarily reflecting the same factors described above. Catastrophe losses in the first six months of 2014 and 2013 were \$14 million and \$46 million, respectively. Net favorable prior year reserve development in the first six months of 2014 and 2013 was \$215 million and \$130 million, respectively.

Earned Premiums

Earned premiums in the second quarter of 2014 were \$1.09 billion, \$337 million or 45% higher than in the same period of 2013. Earned premiums in the first six months of 2014 were \$2.13 billion, \$647 million or 44% higher than in the same period of 2013. The increases in both periods of 2014 primarily reflected the impact of the acquisition of Dominion.

Net Investment Income

Net investment income in the second quarter of 2014 was \$105 million, \$14 million or 15% higher than in the same period of 2013. Net investment income in the first six months of 2014 was \$211 million, \$28 million or 15% higher than in the same period of 2013. The increases in both periods of 2014 primarily reflected the impact of the acquisition of Dominion. Included in the Financial, Professional & International Insurance segment are certain legal entities whose invested assets and related net investment income are reported exclusively in this segment and not allocated among all business segments. Refer to the Net Investment Income section of Consolidated Results of Operations herein for a discussion of the increase in the Company's consolidated net investment income in the second quarter and first six months of 2014 as compared with the same periods of 2013. In addition, refer to note 2 of notes to the Company's consolidated financial statements in the Company's Annual Report on Form 10-K for the year ended December 31, 2013 for a discussion of the Company's net investment income allocation methodology.

Claims and Expenses

Claims and Claim Adjustment Expenses

Claims and claim adjustment expenses in the second quarter of 2014 were \$423 million, \$91 million or 27% higher than in the same period of 2013, primarily reflecting the impact of (i) the acquisition of Dominion, partially offset by (ii) an increase in net favorable prior year reserve development and (iii) a decline in catastrophe losses. Catastrophe losses in the second quarter of 2013 primarily resulted from floods in Alberta, Canada. In the second quarter of 2014, net favorable prior year reserve development primarily reflected better than expected results in the contract surety product line in Bond & Financial Products for accident years 2004 through 2010, as well as better than expected loss experience in the Company's operations at Lloyd's and in Canada. Net favorable prior year reserve development in the second quarter of 2013 was concentrated in Bond & Financial Products and primarily reflected better than expected results for the contract surety product line for accident years 2003 and prior, 2006 through 2008, and 2010.

Table of Contents

Claims and claim adjustment expenses in the first six months of 2014 were \$906 million, \$272 million or 43% higher than in the same period of 2013, primarily reflecting the same factors described above. Net favorable prior year reserve development in the first six months of 2014 was driven by the factors described above for the second quarter of 2014. Net favorable prior year reserve development in the first six months of 2013 was driven by the same factors described above for the second quarter in Bond & Financial Products, as well as better than expected loss experience in the first quarter of 2013 in Canada and in the Company's operations at Lloyd's.

Amortization of Deferred Acquisition Expenses

Amortization of deferred acquisition costs in the second quarter of 2014 was \$196 million, \$49 million or 33% higher than in the same period of 2013. Amortization of deferred acquisition costs in the first six months of 2014 was \$383 million, \$93 million or 32% higher than in the same period of 2013. The increases in both periods of 2014 primarily reflected the impact of the acquisition of Dominion.

General and Administrative Expenses

General and administrative expenses in the second quarter of 2014 were \$220 million, \$48 million or 28% higher than in the same period of 2013. General and administrative expenses in the first six months of 2014 were \$433 million, \$99 million or 30% higher than in the same period of 2013. The increases in both periods of 2014 primarily reflected the impact of the acquisition of Dominion.

Income Tax Expense

Income tax expense in the second quarter of 2014 was \$109 million, \$67 million higher than in the same period of 2013, primarily reflecting the tax effect of the \$167 million increase in pre-tax operating income. In addition, income tax expense in the second quarter of 2013 was reduced by \$15 million resulting from the resolution of prior year tax matters. Income tax expense in the first six months of 2014 was \$190 million, \$86 million or 83% higher than in the same period of 2013, primarily reflecting the tax effect of the \$218 million increase in pre-tax operating income and the impact of the reduction in income tax expense in the second quarter of 2013 resulting from the resolution of prior year tax matters.

Combined Ratio

The combined ratio of 76.6% in the second quarter of 2014 was 9.7 points lower than the combined ratio of 86.3% in the same period of 2013. The combined ratio of 80.2% in the first six months of 2014 was 4.1 points lower than the combined ratio of 84.3% in the same period of 2013.

The loss and loss adjustment expense ratio of 38.7% in the second quarter of 2014 was 5.2 points lower than the loss and loss adjustment expense ratio of 43.9% in the same period of 2013. Catastrophe losses in the second quarters of 2014 and 2013 accounted for 0.9 points and 6.1

points, respectively, of the loss and loss adjustment expense ratio. Net favorable prior year reserve development in the second quarters of 2014 and 2013 provided 13.5 points and 9.7 points of benefit, respectively, to the loss and loss adjustment expense ratio. The 2014 second quarter underlying loss and loss adjustment expense ratio was 3.8 points higher than the 2013 ratio on the same basis, reflecting the impact of the acquisition of Dominion, partially offset by the improvement in underlying underwriting margins discussed in the Overview section above. Historically, Dominion has had a higher loss and loss adjustment expense ratio than the pre-existing business in the Financial, Professional & International Insurance segment.

The loss and loss adjustment expense ratio of 42.2% in the first six months of 2014 was 0.2 points lower than the loss and loss adjustment expense ratio of 42.4% in the same period of 2013. Catastrophe losses in the first six months of 2014 and 2013 accounted for 0.7 points and 3.1 points, respectively, of the loss and loss adjustment expense ratio. Net favorable prior year reserve development in the second quarters of 2014 and 2013 provided 10.1 points and 8.8 points of benefit, respectively, to the loss and loss adjustment expense ratio. The underlying loss and loss adjustment expense ratio in the first six months of 2014 was 3.5 points higher than the 2013 ratio on the same basis, reflecting the same factors discussed above for the second quarter of 2014.

Table of Contents

The underwriting expense ratio of 37.9% in the second quarter of 2014 was 4.5 points lower than the underwriting expense ratio of 42.4% in the same period of 2013. In the first six months of 2014, the underwriting expense ratio of 38.0% was 3.9 points lower than the underwriting expense ratio of 41.9% in the same period of 2013. The decreases in both periods of 2014 primarily reflected the impact of the acquisition of Dominion. Historically, Dominion has had a lower underwriting expense ratio than the pre-existing business in the Financial, Professional & International Insurance segment, as the underwriting expense ratio of pre-existing business reflects investment in the Company's International business to enhance operations, improve underwriting results and support future business growth.

Written Premiums

The Financial, Professional & International Insurance segment's gross and net written premiums by market were as follows:

(in millions)	Gross Written Premiums					
	Three Months Ended June 30,			Six Months Ended June 30,		
	2014	2013		2014	2013	
Bond & Financial Products	\$ 542	\$ 542	\$	1,070	\$	1,040
International	682	364		1,238		665
Total Financial, Professional & International Insurance	\$ 1,224	\$ 906	\$	2,308	\$	1,705

(in millions)	Net Written Premiums					
	Three Months Ended June 30,			Six Months Ended June 30,		
	2014	2013		2014	2013	
Bond & Financial Products	\$ 540	\$ 531	\$	1,022	\$	926
International	628	318		1,096		570
Total Financial, Professional & International Insurance	\$ 1,168	\$ 849	\$	2,118	\$	1,496

Gross and net written premiums in the second quarter of 2014 increased by 35% and 38%, respectively, over the same period of 2013. Gross and net written premiums in the first six months of 2014 increased by 35% and 42%, respectively, over the same period of 2013. The increases in both periods of 2014 primarily reflected the impact of the acquisition of Dominion.

Net written premiums in Bond & Financial Products in the second quarter of 2014 were \$540 million, \$9 million or 2% higher than in the same period of 2013, primarily driven by rate increases in the management liability business and lower reinsurance costs in construction surety. Net written premiums in Bond & Financial Products in the first six months of 2014 were \$1.02 billion, \$96 million or 10% higher than in the same period of 2013, primarily driven by lower reinsurance costs that resulted from the Company's decision to eliminate a management liability excess-of-loss reinsurance treaty, as well as rate increases in the management liability business and higher construction surety premium volume. Excluding the surety line of business, for which the following are not relevant measures, business retention rates in the second quarter and first

Edgar Filing: TRAVELERS COMPANIES, INC. - Form 10-Q

six months of 2014 remained strong and were higher than in the same periods of 2013. Renewal premium changes in the second quarter and first six months of 2014 remained positive, driven by renewal rate changes that continued to exceed expected loss cost trends, but were lower than in same periods of 2013. New business premiums in the second quarter of 2014 were virtually level with the same period of 2013, while new business premiums in the first six months of 2014 decreased from the same period of 2013.

Net written premiums in International in the second quarter of 2014 were \$628 million, \$310 million or 97% higher than in the same period of 2013. Net written premiums in International in the first six months of 2014 were \$1.10 billion, \$526 million or 92% higher than in the same period of 2013. The increases in both periods of 2014 primarily reflected the impact of the acquisition of Dominion. Excluding the surety line of business, for which the following are not relevant measures, business retention rates in the second quarter and first six months of 2014 declined from the same periods of 2013. Renewal premium changes in the second quarter of 2014 were positive and increased over the same period of 2013, primarily due to

Table of Contents

higher renewal rate changes. Renewal premium changes in the first six months were positive and increased over the same period of 2013, driven by increases in renewal rate changes and an increase in insured exposures. New business premiums in the second quarter and first six months of 2014 increased over the same periods of 2013, reflecting the impact of the acquisition of Dominion.

Personal Insurance

Results of the Company's Personal Insurance segment were as follows:

(dollars in millions)	Three Months Ended June 30,		Six Months Ended June 30,	
	2014	2013	2014	2013
Revenues				
Earned premiums	\$ 1,773	\$ 1,834	\$ 3,535	\$ 3,674
Net investment income	94	94	194	185
Other revenues	17	15	43	33
Total revenues	\$ 1,884	\$ 1,943	\$ 3,772	\$ 3,892
Total claims and expenses	\$ 1,788	\$ 1,753	\$ 3,282	\$ 3,417
Operating income	\$ 75	\$ 142	\$ 343	\$ 339
Loss and loss adjustment expense ratio	71.1%	64.9%	63.4%	62.4%
Underwriting expense ratio	28.7	29.6	28.3	29.5
Combined ratio	99.8%	94.5%	91.7%	91.9%
Incremental impact of direct to consumer initiative on combined ratio	1.5%	1.6%	1.6%	1.7%

Overview

Operating income in the second quarter of 2014 was \$75 million, \$67 million or 47% lower than operating income of \$142 million in the same period of 2013. The decrease in operating income primarily reflected the pretax impacts of lower net favorable prior year reserve development and an increase in catastrophe losses. Catastrophe losses in the second quarters of 2014 and 2013 were \$190 million and \$146 million, respectively. Net favorable prior year reserve development in the second quarters of 2014 and 2013 was \$12 million and \$65 million, respectively. Underlying underwriting margins in the second quarter of 2014 were level with the same period of 2013, as the pretax impacts of (i) lower commission expense, (ii) earned pricing that exceeded loss cost trends and (iii) lower general and administrative expenses were offset by (iv) higher non-catastrophe weather-related losses and (v) the impact of a higher mix of new business versus renewal business. Partially offsetting this net pretax decrease in operating income was the related reduction in income tax expense. In addition, operating income in the second quarter of 2013 benefited from a reduction in income tax expense resulting from the resolution of prior year tax matters. The effective tax rate in the second quarter of 2014 decreased from the same period of 2013. This resulted from interest on municipal bonds, which is effectively taxed at a rate that is lower than the corporate tax rate of 35%, comprising a higher percentage of pretax income, partially offset by the impact of the resolution of prior year tax matters in the second quarter of 2013.

Edgar Filing: TRAVELERS COMPANIES, INC. - Form 10-Q

Operating income in the first six months of 2014 was \$343 million, \$4 million or 1% higher than operating income of \$339 million in the same period of 2013. The increase in operating income primarily reflected the pretax impacts of (i) higher underlying underwriting margins and (ii) an increase in net favorable prior year reserve development, partially offset by (iii) an increase in catastrophe losses. Catastrophe losses in the first six months of 2014 were \$255 million, compared with \$210 million in the same period of 2013. Net favorable prior year reserve development in the first six months of 2014 was \$144 million, compared with \$125 million in the same period of 2013. The higher underlying underwriting margins resulted from the same factors discussed above for the second quarter. Partially offsetting this net pretax increase in operating income was the related increase in income tax expense. In addition, operating income in the first six months of 2013 benefited from a reduction in income tax expense resulting from the resolution of prior year tax matters. The effective tax rate in the first six months of 2014 increased over the same period of 2013. This resulted from the impact of the resolution of prior year tax matters in the second quarter of 2013.

Table of Contents

Earned Premiums

Earned premiums in the second quarter of 2014 were \$1.77 billion, \$61 million or 3% lower than in the same period of 2013. Earned premiums in the first six months of 2014 were \$3.54 billion, \$139 million or 4% lower than in the same period of 2013. The decreases in both periods of 2014 reflected lower net written premiums over the preceding twelve months.

Net Investment Income

Net investment income in the second quarter of 2014 was \$94 million, level with the same period of 2013. Net investment income in the first six months of 2014 was \$194 million, \$9 million or 5% higher than in the same period of 2013. Refer to the Net Investment Income section of the Consolidated Results of Operations discussion herein for a description of the factors contributing to the changes in the Company's consolidated net investment income in the second quarter and first six months of 2014 compared with the same periods of 2013. In addition, refer to note 2 of notes to the Company's consolidated financial statements in the Company's Annual Report on Form 10-K for the year ended December 31, 2013 for a discussion of the Company's net investment income allocation methodology.

Claims and Expenses

Claims and Claim Adjustment Expenses

Claims and claim adjustment expenses in the second quarter of 2014 were \$1.26 billion, \$71 million or 6% higher than in the same period of 2013. The increase primarily reflected (i) lower net favorable prior year reserve development, (ii) an increase in catastrophe losses, (iii) higher non-catastrophe weather-related losses and (iv) the impact of loss cost trends, partially offset by (v) the impact of lower volumes of insured exposures. Net favorable prior year reserve development in the second quarter of 2014 was primarily driven by better than expected loss experience in the Homeowners and Other product line for accident year 2013 for non-catastrophe weather-related losses. Net favorable prior year reserve development in the second quarter of 2013 was primarily driven by better than expected loss experience in the Homeowners and Other product line for accident year 2012 for both catastrophe and non-catastrophe weather-related losses and other non-weather-related losses.

Claims and claim adjustment expenses in the first six months of 2014 were \$2.24 billion, \$52 million or 2% lower than in the same period of 2013. The decrease primarily reflected (i) the impact of lower volumes of insured exposures and (ii) higher net favorable prior year reserve development, partially offset by (iii) an increase in catastrophe losses, (iv) higher non-catastrophe weather-related losses and (v) the impact of loss cost trends. Net favorable prior year reserve development in the first six months of 2014 and 2013 was primarily driven by the same factors described above for the second quarter of each year. The year-to-date total in 2014 also included net favorable prior year reserve development in the first quarter of 2014 in the Homeowners and Other product line for accident years 2011 through 2013 for catastrophe losses. The year-to-date total in 2013 also included net favorable development in the first quarter of 2013 in the Homeowners and Other product line for accident year 2011 for both non-catastrophe weather-related losses and catastrophe losses.

Amortization of Deferred Acquisition Costs

Amortization of deferred acquisition costs in the second quarter of 2014 was \$290 million, \$32 million or 10% lower than in the same period of 2013. Amortization of deferred acquisition costs in the first six months of 2014 was \$582 million, \$70 million or 11% lower than in the same period of 2013. The decreases in both periods of 2014 primarily reflected a decline in commission expense due to lower commission rates, as well as lower premium volume.

General and Administrative Expenses

General and administrative expenses in the second quarter of 2014 were \$237 million, \$4 million or 2% lower than in the same period of 2013. General and administrative expenses in the first six months of 2014 were \$460 million, \$13 million or 3% lower than in the same period of 2013. The decreases in both periods of 2014 primarily reflected the impact of the Company's expense reduction initiatives.

Table of Contents

Income Tax Expense

Income tax expense in the second quarter of 2014 was \$21 million, \$27 million lower than in the same period of 2013 primarily reflecting the tax effect of the \$94 million decrease in pre-tax operating income, partially offset by the impact of a \$5 million reduction in income tax expense in the second quarter of 2013 resulting from the resolution of prior year tax matters. Income tax expense in the first six months of 2013 was \$147 million, \$11 million higher than in the same period of 2013, primarily reflecting the impact of the resolution of prior year tax matters in the second quarter of 2013.

Combined Ratio

The combined ratio of 99.8% in the second quarter of 2014 was 5.3 points higher than the combined ratio of 94.5% in the same period of 2013. The combined ratio of 91.7% in the first six months of 2014 was 0.2 points lower than the combined ratio of 91.9% in the same period of 2013. The increase in the second quarter of 2014 primarily reflected the impacts of lower net favorable prior year reserve development and higher catastrophe losses. The decrease in the first six months of 2014 primarily reflected the impacts of a lower underwriting expense ratio, largely offset by a higher loss and loss adjustment expense ratio primarily driven by higher catastrophe losses.

The loss and loss adjustment expense ratio of 71.1% in the second quarter of 2014 was 6.2 points higher than the loss and loss adjustment expense ratio of 64.9% in the same period of 2013. Catastrophe losses accounted for 10.7 points and 8.0 points of the loss and loss adjustment expense ratios in the second quarters of 2014 and 2013, respectively. Net favorable prior year reserve development in the second quarters of 2014 and 2013 provided 0.7 points and 3.5 points of benefit, respectively, to the loss and loss adjustment expense ratio. The 2014 second quarter underlying loss and loss adjustment expense ratio was 0.7 points higher than the 2013 ratio on the same basis, primarily reflecting the factors impacting underlying underwriting margins discussed in the Overview section above.

The loss and loss adjustment expense ratio of 63.4% in the first six months of 2014 was 1.0 points higher than the loss and loss adjustment expense ratio of 62.4% in the same period of 2013. Catastrophe losses accounted for 7.2 points and 5.7 points of the loss and loss adjustment expense ratios in the first six months of 2014 and 2013, respectively. Net favorable prior year reserve development in the first six months of 2014 and 2013 provided 4.1 points and 3.4 points of benefit, respectively, to the loss and loss adjustment expense ratio. The 2014 six-month underlying loss and loss adjustment expense ratio was 0.2 points higher than the 2013 ratio on the same basis, primarily reflecting the same factors discussed above for the second quarter of 2014.

The underwriting expense ratio of 28.7% for the second quarter of 2014 was 0.9 points lower than the underwriting expense ratio of 29.6% in the same period of 2013. In the first six months of 2014, the underwriting expense ratio of 28.3% was 1.2 points lower than the underwriting expense ratio of 29.5% in the same 2013 period. The decreases in both periods of 2014 primarily reflected lower commission expense due to lower commission rates.

Agency Written Premiums

Edgar Filing: TRAVELERS COMPANIES, INC. - Form 10-Q

Personal Insurance's gross and net written premiums by product line were as follows for its Agency business, which comprises business written through agents, brokers and other intermediaries and represents almost all of the Personal Insurance segment's gross and net written premiums:

(in millions)	Gross Written Premiums					
	Three Months Ended			Six Months Ended		
	June 30,			June 30,		
	2014	2013		2014	2013	
Agency Automobile	\$ 834	\$ 838		\$ 1,629	\$ 1,673	
Agency Homeowners and Other	1,036	1,119		1,847	2,008	
Total Agency Personal Insurance	\$ 1,870	\$ 1,957		\$ 3,476	\$ 3,681	

Table of Contents

(in millions)	Net Written Premiums				
	Three Months Ended		Six Months Ended		
	2014	June 30, 2013	2014	June 30, 2013	2013
Agency Automobile	\$ 831	\$ 834	\$ 1,619	\$ 1,665	
Agency Homeowners and Other	1,016	1,033	1,804	1,853	
Total Agency Personal Insurance	\$ 1,847	\$ 1,867	\$ 3,423	\$ 3,518	

In the second quarter and first six months of 2014, gross agency written premiums were 4% and 6% lower than in the respective periods of 2013. In the second quarter and first six months of 2014, net agency written premiums were 1% and 3% lower than in the respective periods of 2013. Renewal rate changes continued to exceed expected loss cost trends, assuming weather patterns consistent with the Company's expectations.

In the second quarter of 2014, net written premiums in the Agency Automobile line of business were virtually level with the same period of 2013. In the first six months of 2014, net written premiums in the Agency Automobile line of business were 3% lower than in the same period of 2013. Business retention rates remained strong in both periods of 2014 and were higher than in the respective periods of 2013. Renewal premium changes remained positive in the second quarter and first six months of 2014 but were lower than in the same periods of 2013, primarily due to lower renewal rate changes. New business premiums in the second quarter and first six months of 2014 were significantly higher than in the same periods of 2013 as a result of the Company's new private passenger automobile product, Quantum Auto 2.0.

In the second quarter of 2014, net written premiums in the Agency Homeowners and Other line of business were 2% lower than in the same period of 2013. In the first six months of 2014, net written premiums in the Agency Homeowners and Other line of business were 3% lower than in the same period of 2013. Business retention rates remained strong in both periods of 2014 and were higher than in the respective periods of 2013. Renewal premium changes remained positive in the second quarter and first six months of 2014 but were lower than in the respective periods of 2013, primarily due to lower renewal rate changes. New business premiums in the second quarter and first six months of 2014 were higher than in the same periods of 2013.

For its Agency business, the Personal Insurance segment had approximately 6.1 million and 6.5 million active policies at June 30, 2014 and 2013, respectively.

Direct to Consumer Written Premiums

In the direct to consumer business, net written premiums in the second quarter and first six months of 2014 were \$46 million and \$89 million, respectively, compared with \$40 million and \$79 million in the respective periods of 2013. In the second quarter and first six months of 2014, automobile net written premiums increased by 15% and 11% over the respective periods of 2013, and homeowners and other net written premiums increased by 15% and 17% over the respective periods of 2013. The direct to consumer business had 176,000 and 162,000 active policies at June 30, 2014 and 2013, respectively.

Interest Expense and Other

Edgar Filing: TRAVELERS COMPANIES, INC. - Form 10-Q

(in millions)	Three Months Ended June 30,		Six Months Ended June 30,	
	2014	2013	2014	2013
Operating loss	\$ (65)	\$ (59)	\$ (129)	\$ (122)

The operating loss for Interest Expense and Other in the second quarter of 2014 was \$65 million, compared with \$59 million in the same period of 2013. The operating loss for Interest Expense and Other in the first six months of 2014 was \$129 million, compared with \$122 million in the same period of 2013. After-tax interest expense in the second quarter and first six months of 2014 was \$60 million and \$120 million, respectively, compared with \$56 million and \$116 million, respectively, in the same periods of 2013. The increases in interest expense in both periods of 2014 reflected higher average levels of debt outstanding.

Table of Contents

ASBESTOS CLAIMS AND LITIGATION

The Company believes that the property and casualty insurance industry has suffered from court decisions and other trends that have expanded insurance coverage for asbestos claims far beyond the original intent of insurers and policyholders. The Company has received and continues to receive a significant number of asbestos claims from the Company's policyholders (which includes others seeking coverage under a policy). Factors underlying these claim filings include continued intensive advertising by lawyers seeking asbestos claimants and the continued focus by plaintiffs on defendants who were not traditionally primary targets of asbestos litigation. The focus on these defendants is primarily the result of the number of traditional asbestos defendants who have sought bankruptcy protection in previous years. In addition to contributing to the overall number of claims, bankruptcy proceedings may increase the volatility of asbestos-related losses by initially delaying the reporting of claims and later by significantly accelerating and increasing loss payments by insurers, including the Company. The bankruptcy of many traditional defendants has also caused increased settlement demands against those policyholders who are not in bankruptcy but remain in the tort system. Currently, in many jurisdictions, those who allege very serious injury and who can present credible medical evidence of their injuries are receiving priority trial settings in the courts, while those who have not shown any credible disease manifestation are having their hearing dates delayed or placed on an inactive docket. Prioritizing claims involving credible evidence of injuries, along with the focus on defendants who were not traditionally primary targets of asbestos litigation, contributes to the claims and claim adjustment expense payment patterns experienced by the Company. The Company's asbestos-related claims and claim adjustment expense experience also has been impacted by the unavailability of other insurance sources potentially available to policyholders, whether through exhaustion of policy limits or through the insolvency of other participating insurers.

The Company continues to be involved in coverage litigation concerning a number of policyholders, some of whom have filed for bankruptcy, who in some instances have asserted that all or a portion of their asbestos-related claims are not subject to aggregate limits on coverage. In these instances, policyholders also may assert that each individual bodily injury claim should be treated as a separate occurrence under the policy. It is difficult to predict whether these policyholders will be successful on both issues. To the extent both issues are resolved in a policyholder's favor and other Company defenses are not successful, the Company's coverage obligations under the policies at issue would be materially increased and bounded only by the applicable per-occurrence limits and the number of asbestos bodily injury claims against the policyholders. Although the Company has seen a moderation in the overall risk associated with these lawsuits, it remains difficult to predict the ultimate cost of these claims.

Many coverage disputes with policyholders are only resolved through settlement agreements. Because many policyholders make exaggerated demands, it is difficult to predict the outcome of settlement negotiations. Settlements involving bankrupt policyholders may include extensive releases which are favorable to the Company but which could result in settlements for larger amounts than originally anticipated. There also may be instances where a court may not approve a proposed settlement, which may result in additional litigation and potentially less beneficial outcomes for the Company. As in the past, the Company will continue to pursue settlement opportunities.

In addition to claims against policyholders, proceedings have been launched directly against insurers, including the Company, by individuals challenging insurers' conduct with respect to the handling of past asbestos claims and by individuals seeking damages arising from alleged asbestos-related bodily injuries. It is possible that the filing of other direct actions against insurers, including the Company, could be made in the future. It is difficult to predict the outcome of these proceedings, including whether the plaintiffs will be able to sustain these actions against insurers based on novel legal theories of liability. The Company believes it has meritorious defenses to these claims and has received favorable rulings in certain jurisdictions.

TPC had entered into settlement agreements, which are subject to a number of contingencies, in connection with a number of these direct action claims (Direct Action Settlements). For a full discussion of these settlement agreements, see the Asbestos Direct Action Litigation section of note 11 of notes to the unaudited consolidated financial statements herein.

The Company's quarterly asbestos reserve reviews include an analysis of exposure and claim payment patterns by policyholder category, as well as recent settlements, policyholder bankruptcies, judicial rulings and legislative actions. The Company also analyzes developing payment patterns among policyholders in the Home Office, Field Office and Assumed Reinsurance and Other categories as well as projected reinsurance billings and recoveries. In addition, the Company reviews

Table of Contents

its historical gross and net loss and expense paid experience, year-by-year, to assess any emerging trends, fluctuations, or characteristics suggested by the aggregate paid activity. Conventional actuarial methods are not utilized to establish asbestos reserves nor have the Company's evaluations resulted in any way of determining a meaningful average asbestos defense or indemnity payment.

Because each policyholder presents different liability and coverage issues, the Company generally reviews the exposure presented by each policyholder at least annually. Among the factors which the Company may consider in the course of this review are: available insurance coverage, including the role of any umbrella or excess insurance the Company has issued to the policyholder; limits and deductibles; an analysis of the policyholder's potential liability; the jurisdictions involved; past and anticipated future claim activity and loss development on pending claims; past settlement values of similar claims; allocated claim adjustment expense; potential role of other insurance; the role, if any, of non-asbestos claims or potential non-asbestos claims in any resolution process; and applicable coverage defenses or determinations, if any, including the determination as to whether or not an asbestos claim is a products/completed operation claim subject to an aggregate limit and the available coverage, if any, for that claim.

Net asbestos paid loss and loss expenses in the first six months of 2014 were \$100 million, compared with \$99 million in the same period of 2013. Net asbestos reserves were \$2.25 billion at June 30, 2014, compared with \$2.28 billion at June 30, 2013.

The following table displays activity for asbestos losses and loss expenses and reserves:

(at and for the six months ended June 30, in millions)	2014	2013

See Uncertainty Regarding Adequacy of Asbestos and Environmental Reserves.

ENVIRONMENTAL CLAIMS AND LITIGATION

The Company has received and continues to receive claims from policyholders who allege that they are liable for injury or damage arising out of their alleged disposition of toxic substances. Mostly, these claims are due to various legislative as well as regulatory efforts aimed at environmental remediation. For instance, the Comprehensive Environmental Response, Compensation and Liability Act (CERCLA), enacted in 1980 and later modified, enables private parties as well as federal and state governments to take action with respect to releases and threatened releases of hazardous substances. This federal

Table of Contents

statute permits the recovery of response costs from some liable parties and may require liable parties to undertake their own remedial action. Liability under CERCLA may be joint and several with other responsible parties.

The Company has been, and continues to be, involved in litigation involving insurance coverage issues pertaining to environmental claims. The Company believes that some court decisions have interpreted the insurance coverage to be broader than the original intent of the insurers and policyholders. These decisions often pertain to insurance policies that were issued by the Company prior to the mid-1980s. These decisions continue to be inconsistent and vary from jurisdiction to jurisdiction. Environmental claims, when submitted, rarely indicate the monetary amount being sought by the claimant from the policyholder, and the Company does not keep track of the monetary amount being sought in those few claims which indicate a monetary amount.

The resolution of environmental exposures by the Company generally occurs through settlements with policyholders as opposed to claimants. Generally, the Company strives to extinguish any obligations it may have under any policy issued to the policyholder for past, present and future environmental liabilities and extinguish any pending coverage litigation dispute with the policyholder. This form of settlement is commonly referred to as a buy-back of policies for future environmental liability. In addition, many of the agreements have also extinguished any insurance obligation which the Company may have for other claims, including but not limited to asbestos and other cumulative injury claims. The Company and its policyholders may also agree to settlements which extinguish any liability arising from known specified sites or claims. Where appropriate, these agreements also include indemnities and hold harmless provisions to protect the Company. The Company's general purpose in executing these agreements is to reduce the Company's potential environmental exposure and eliminate the risks presented by coverage litigation with the policyholder and related costs.

In establishing environmental reserves, the Company evaluates the exposure presented by each policyholder and the anticipated cost of resolution, if any. In the course of this analysis, the Company generally considers the probable liability, available coverage and relevant judicial interpretations. In addition, the Company considers the many variables presented, such as: the nature of the alleged activities of the policyholder at each site; the number of sites; the total number of potentially responsible parties at each site; the nature of the alleged environmental harm and the corresponding remedy at each site; the nature of government enforcement activities at each site; the ownership and general use of each site; the overall nature of the insurance relationship between the Company and the policyholder, including the role of any umbrella or excess insurance the Company has issued to the policyholder; the involvement of other insurers; the potential for other available coverage, including the number of years of coverage; the role, if any, of non-environmental claims or potential non-environmental claims in any resolution process; and the applicable law in each jurisdiction. The evaluation of the exposure presented by a policyholder can change as information concerning that policyholder and the many variables presented is developed. Conventional actuarial techniques are not used to estimate these reserves.

In its review of environmental reserves, the Company considers: past settlement payments; changing judicial and legislative trends; its reserves for the costs of litigating environmental coverage matters; the potential for policyholders with smaller exposures to be named in new clean-up actions for both on- and off-site waste disposal activities; the potential for adverse development; the potential for additional new claims beyond previous expectations; and the potential higher costs for new settlements.

The duration of the Company's investigation and review of these claims and the extent of time necessary to determine an appropriate estimate, if any, of the value of the claim to the Company vary significantly and are dependent upon a number of factors. These factors include, but are not limited to, the cooperation of the policyholder in providing claim information, the pace of underlying litigation or claim processes, the pace of coverage litigation between the policyholder and the Company and the willingness of the policyholder and the Company to negotiate, if appropriate, a resolution of any dispute pertaining to these claims. Because these factors vary from claim-to-claim and policyholder-by-policyholder, the Company cannot provide a meaningful average of the duration of an environmental claim. However, based upon the Company's experience in resolving these claims, the duration may vary from months to several years.

The Company continues to receive notices from policyholders tendering claims for the first time, frequently under policies issued prior to the mid-1980 s. These policyholders continue to present smaller exposures, have fewer sites and are lower tier defendants. Further, in many instances, clean-up costs have been reduced because regulatory agencies are willing to accept risk-based site analyses and more efficient clean-up technologies. Over the past several years, the Company has

Table of Contents

experienced generally favorable trends in the number of new policyholders tendering environmental claims for the first time and in the number of pending declaratory judgment actions relating to environmental matters. However, the degree to which those favorable trends have continued has been less than anticipated. In addition, reserve development on existing environmental claims has been greater than anticipated. As a result of these factors, the Company increased its net environmental reserves by \$87 million and \$65 million in the second quarters of 2014 and 2013, respectively.

Net environmental paid loss and loss expenses in the first six months of 2014 were \$49 million, compared with \$24 million in the same period of 2013. At June 30, 2014, approximately 93% of the net environmental reserve (approximately \$354 million) was carried in a bulk reserve and included unresolved environmental claims, incurred but not reported environmental claims and the anticipated cost of coverage litigation disputes relating to these claims. The bulk reserve the Company carries is established and adjusted based upon the aggregate volume of in-process environmental claims and the Company's experience in resolving those claims. The balance, approximately 7% of the net environmental reserve (approximately \$28 million), consists of case reserves.

The following table displays activity for environmental losses and loss expenses and reserves:

(at and for the six months ended June 30, in millions)	2014	2013

UNCERTAINTY REGARDING ADEQUACY OF ASBESTOS AND ENVIRONMENTAL RESERVES

As a result of the processes and procedures discussed above, management believes that the reserves carried for asbestos and environmental claims are appropriately established based upon known facts, current law and management's judgment. However, the uncertainties surrounding

Edgar Filing: TRAVELERS COMPANIES, INC. - Form 10-Q

the final resolution of these claims continue, and it is difficult to determine the ultimate exposure for asbestos and environmental claims and related litigation. As a result, these reserves are subject to revision as new information becomes available and as claims develop. The continuing uncertainties include, without limitation, the risks and lack of predictability inherent in complex litigation, any impact from the bankruptcy protection sought by various asbestos producers and other asbestos defendants, a further increase or decrease in the cost to resolve, and/or the number of, asbestos and environmental claims beyond that which is anticipated, the emergence of a greater number of asbestos claims than anticipated as a result of extended life expectancies resulting from medical advances and lifestyle improvements, the role of any umbrella or excess policies the Company has issued, the resolution or adjudication of

Table of Contents

disputes pertaining to the amount of available coverage for asbestos and environmental claims in a manner inconsistent with the Company's previous assessment of these claims, the number and outcome of direct actions against the Company, future developments pertaining to the Company's ability to recover reinsurance for asbestos and environmental claims and the unavailability of other insurance sources potentially available to policyholders, whether through exhaustion of policy limits or through the insolvency of other participating insurers. In addition, uncertainties arise from the insolvency or bankruptcy of policyholders and other defendants. It is also not possible to predict changes in the legal, regulatory and legislative environment and their impact on the future development of asbestos and environmental claims. This environment could be affected by changes in applicable legislation and future court and regulatory decisions and interpretations, including the outcome of legal challenges to legislative and/or judicial reforms establishing medical criteria for the pursuit of asbestos claims. It is also difficult to predict the ultimate outcome of complex coverage disputes until settlement negotiations near completion and significant legal questions are resolved or, failing settlement, until the dispute is adjudicated. This is particularly the case with policyholders in bankruptcy where negotiations often involve a large number of claimants and other parties and require court approval to be effective. As part of its continuing analysis of asbestos and environmental reserves, the Company continues to study the implications of these and other developments. (Also see note 11 of notes to the unaudited consolidated financial statements in this report).

Because of the uncertainties set forth above, additional liabilities may arise for amounts in excess of the Company's current reserves. In addition, the Company's estimate of claims and claim adjustment expenses may change. These additional liabilities or increases in estimates, or a range of either, cannot now be reasonably estimated and could result in income statement charges that could be material to the Company's operating results in future periods.

INVESTMENT PORTFOLIO

The Company's invested assets at June 30, 2014 were \$73.94 billion, of which 93% was invested in fixed maturity and short-term investments, 1% in equity securities, 1% in real estate investments and 5% in other investments. Because the primary purpose of the investment portfolio is to fund future claims payments, the Company employs a conservative investment philosophy. A significant majority of funds available for investment are deployed in a widely diversified portfolio of high quality, liquid taxable U.S. government, tax-exempt U.S. municipal and taxable corporate and U.S. agency mortgage-backed bonds.

The carrying value of the Company's fixed maturity portfolio at June 30, 2014 was \$64.58 billion. The Company closely monitors the duration of its fixed maturity investments, and investment purchases and sales are executed with the objective of having adequate funds available to satisfy the Company's insurance and debt obligations. The weighted average credit quality of the Company's fixed maturity portfolio, both including and excluding U.S. Treasury securities, was Aa2 at both June 30, 2014 and December 31, 2013. Below investment grade securities represented 3.0% of the total fixed maturity investment portfolio at both June 30, 2014 and December 31, 2013. The average effective duration of fixed maturities and short-term securities was 3.5 (3.7 excluding short-term securities) at June 30, 2014 and 3.7 (3.9 excluding short-term securities) at December 31, 2013. See the Outlook section in Item 2 Management's Discussion and Analysis of Financial Condition and Results of Operations.

Obligations of States, Municipalities and Political Subdivisions

The Company's fixed maturity investment portfolio at June 30, 2014 and December 31, 2013 included \$35.03 billion and \$35.56 billion, respectively, of securities which are obligations of states, municipalities and political subdivisions (collectively referred to as the municipal bond portfolio). The municipal bond portfolio is diversified across the United States, the District of Columbia and Puerto Rico and includes general obligation and revenue bonds issued by states, cities, counties, school districts and similar issuers. Included in the municipal bond portfolio at

Edgar Filing: TRAVELERS COMPANIES, INC. - Form 10-Q

June 30, 2014 and December 31, 2013 were \$8.46 billion and \$9.52 billion, respectively, of pre-refunded bonds, which are bonds for which states or municipalities have established irrevocable trusts, almost exclusively comprised of U.S. Treasury securities, which were created to satisfy their responsibility for payments of principal and interest. The irrevocable trusts are verified as to their sufficiency by an independent verification agent of the underwriter, issuer or trustee.

Table of Contents

The Company bases its investment decision on the underlying credit characteristics of the municipal security. While its municipal bond portfolio includes a number of securities that were enhanced by third-party insurance for the payment of principal and interest in the event of an issuer default, the Company does not rely on enhanced credit characteristics provided by such third-party insurance as part of its investing decisions. Of the insured municipal securities in the Company's investment portfolio at June 30, 2014, approximately 99% were rated at A3 or above, and approximately 87% were rated at Aa3 or above, without the benefit of insurance. The Company believes that a loss of the benefit of insurance would not result in a material adverse impact on the Company's results of operations, financial position or liquidity, due to the underlying credit strength of the issuers of the securities, as well as the Company's ability and intent to hold the securities. The average credit rating of the underlying issuers of these securities was Aa2 at June 30, 2014. The average credit rating of the entire municipal bond portfolio was Aa1 at June 30, 2014 with and without the enhancement provided by third-party insurance.

Mortgage-Backed Securities, Collateralized Mortgage Obligations and Pass-Through Securities

The Company's fixed maturity investment portfolio at June 30, 2014 and December 31, 2013 included \$2.33 billion and \$2.42 billion, respectively, of residential mortgage-backed securities, including pass-through-securities and collateralized mortgage obligations (CMO), all of which are subject to prepayment risk (either shortening or lengthening of duration). While prepayment risk for securities and its effect on income cannot be fully controlled, particularly when interest rates move dramatically, the Company's investment strategy generally favors securities that reduce this risk within expected interest rate ranges. Included in the totals at June 30, 2014 and December 31, 2013 were \$970 million and \$1.06 billion, respectively, of GNMA, FNMA and FHLMC (excluding FHA project loans) guaranteed residential mortgage-backed pass-through securities classified as available for sale. Also included in those totals were residential CMOs classified as available for sale with a fair value of \$1.36 billion at both June 30, 2014 and December 31, 2013. Approximately 43% and 42% of the Company's CMO holdings at June 30, 2014 and December 31, 2013, respectively, were guaranteed by or fully collateralized by securities issued by GNMA, FNMA or FHLMC. The average credit rating of the \$765 million and \$790 million of non-guaranteed CMO holdings at June 30, 2014 and December 31, 2013, respectively, was Ba2 and Ba3, respectively. The average credit rating of all of the above securities was Aa3 and A1 at June 30, 2014 and December 31, 2013, respectively.

The Company makes investments in residential CMOs that are either guaranteed by GNMA, FNMA or FHLMC, or if not guaranteed, are senior or super-senior positions within their respective securitizations. Both guaranteed and non-guaranteed residential CMOs allocate the distribution of payments from the underlying mortgages among different classes of bondholders. In addition, non-guaranteed residential CMOs provide structures that allocate the impact of credit losses to different classes of bondholders. Senior and super-senior CMOs are protected, to varying degrees, from credit losses as those losses are initially allocated to subordinated bondholders. The Company's investment strategy is to purchase CMO tranches that are expected to offer the most favorable return given the Company's assessment of associated risks. The Company does not purchase residual interests in CMOs.

Alternative Documentation Mortgages and Sub-Prime Mortgages

At June 30, 2014 and December 31, 2013, the Company's fixed maturity investment portfolio included CMOs backed by alternative documentation mortgages and asset-backed securities collateralized by sub-prime mortgages with a collective fair value of \$274 million and \$293 million, respectively (comprising less than 1% of the Company's total fixed maturity investments at both dates). The Company defines sub-prime mortgage-backed securities as investments in which the underlying loans primarily exhibit one or more of the following characteristics: low FICO scores, above-prime interest rates, high loan-to-value ratios or high debt-to-income ratios. Alternative documentation securitizations are those in which the underlying loans primarily meet the government-sponsored entities' requirements for credit score but do not meet the government-sponsored entities' guidelines for documentation, property type, debt and loan-to-value ratios. The average credit rating on these securities and obligations held by the Company was Ba2 at both June 30, 2014 and December 31, 2013. The Company does not believe this portfolio exposes it to a material adverse impact on its results of operations, financial position or liquidity, due to the portfolio's relatively

small size.

Commercial Mortgage-Backed Securities and Project Loans

At June 30, 2014 and December 31, 2013, the Company held commercial mortgage-backed securities (including FHA project loans) of \$513 million and \$475 million, respectively. The Company does not believe this portfolio exposes it to a material adverse impact on its results of operations, financial position or liquidity, due to the portfolio's relatively small size and the underlying credit strength of these securities.

Table of Contents

Equity Securities Available for Sale, Real Estate and Short-Term Investments

See note 1 of notes to the Company's consolidated financial statements in the Company's Annual Report on Form 10-K for the year ended December 31, 2013 for further information about these invested asset classes.

Other Investments

The Company also invests much smaller amounts in equity securities, real estate, private equity limited partnerships, hedge funds, and real estate partnerships and joint ventures, which are subject to more volatility than the Company's fixed maturity investments. These asset classes have historically provided a higher return than fixed maturities but are subject to more volatility. At June 30, 2014 and December 31, 2013, the carrying value of the Company's other investments was \$3.61 billion and \$3.44 billion, respectively.

CATASTROPHE REINSURANCE COVERAGE

The Company's catastrophe reinsurance coverage is discussed in the Catastrophe Reinsurance section of Part I Item 1 Business in the Company Annual Report on Form 10-K for the year ended December 31, 2013. Except as discussed below, there have been no material changes to the Company's catastrophe reinsurance coverage from that reported in the Annual Report.

General Catastrophe Reinsurance Treaty. The Company utilizes a general catastrophe reinsurance treaty with unaffiliated reinsurers to help manage its exposure to losses resulting from catastrophes. The general catastrophe reinsurance treaty covers the accumulation of net property losses arising out of one occurrence. The treaty covers all of the Company's exposures in the United States and Canada and their possessions, and waters contiguous thereto, and the Caribbean and Mexico. The treaty only provides coverage for terrorism events in limited circumstances and excludes entirely losses arising from nuclear, biological, chemical or radiological attacks.

The following table summarizes the Company's coverage under its General Catastrophe Reinsurance Treaty, effective for the period July 1, 2014 through June 30, 2015, as well as certain other catastrophe-related coverages, other than coverage related to the General Catastrophe Aggregate Excess-of-Loss Treaty which is described in the Company's Annual Report on Form 10-K for the year ended December 31, 2013.

Layer of Loss	Reinsurance Coverage In-Force
\$0 - \$1.5 billion	Loss 100% retained by the Company, except for certain losses covered by the Earthquake Excess-of-Loss Reinsurance Treaty as described below. Additionally, certain losses incurred in the Northeastern United States are covered by the reinsurance agreements related to the Catastrophe Bonds as described below.

Edgar Filing: TRAVELERS COMPANIES, INC. - Form 10-Q

\$1.5 billion - \$2.25 billion	53.3% (\$400 million) of loss covered by treaty; 46.7% (\$350 million) of loss retained by the Company. Additionally, certain losses incurred in the Northeastern United States are covered by the reinsurance agreements related to the Catastrophe Bonds as described below.
--------------------------------	--

Greater than \$2.25 billion	100% of loss retained by the Company, except for certain losses incurred in the Northeastern United States, which are covered by the reinsurance agreements related to the Catastrophe Bonds and Northeast General Catastrophe Reinsurance Treaty as described below.
-----------------------------	---

Table of Contents

Catastrophe Bonds. The Company has catastrophe protection through two indemnity reinsurance agreements with Long Point Re III Ltd. (Long Point Re III), an independent Cayman Islands company licensed as a Class B insurer in the Cayman Islands. The reinsurance agreements expire in June 2015 and May 2016, respectively and provide coverage to the Company for certain losses from a hurricane in the northeastern United States. Both reinsurance agreements meet the requirements to be accounted for as reinsurance in accordance with the guidance for reinsurance contracts. In connection with each reinsurance agreement, Long Point Re III issued notes (generally referred to as catastrophe bonds) to investors in an amount equal to the full coverage provided under the respective reinsurance agreement as described below.

The attachment point, maximum limit and insurance percentage under the Company's reinsurance agreement with Long Point Re III that expires in June 2015 were reset in April 2014. Accordingly, for the period May 1, 2014 through June 6, 2015, the Company will be entitled to begin recovering amounts under the reinsurance agreement if the losses in the covered area for a single occurrence reach an initial attachment amount of \$1.772 billion. The full \$250 million coverage amount is available on a proportional basis until covered losses reach a maximum \$2.331 billion.

The attachment point, maximum limit and insurance percentage under the Company's reinsurance agreement with Long Point Re III that expires in May 2016 were also reset in April 2014. Accordingly, for the period May 17, 2014 through May 16, 2015, the Company will be entitled to begin recovering amounts under the reinsurance agreement if the losses in the covered area for a single occurrence reach an initial attachment amount of \$1.222 billion. The full \$300 million coverage amount is available on a proportional basis until covered losses reach a maximum \$1.772 billion.

The business covered by these reinsurance agreements is a subset of the Company's overall insurance portfolio, comprising property insurance and related coverages spread across the following geographic locations: Connecticut, Delaware, District of Columbia, Maine, Maryland, Massachusetts, New Hampshire, New Jersey, New York, Pennsylvania, Rhode Island, Virginia and Vermont. The coverage under both reinsurance agreements is limited to specified property coverage written in the Company's Personal Insurance segment, and within the Select Accounts and the Commercial Accounts market groups within the Company's Business Insurance segment.

See the Catastrophe Reinsurance section of Part I Item 1 Business in the Company's Annual Report on Form 10-K for the year ended December 31, 2013 for more details, including a discussion of the structure of and accounting for Long Point Re III.

Other Catastrophe Reinsurance Treaties. In addition to its general catastrophe treaty and its multi-year catastrophe bonds, the Company also is party to a northeast general catastrophe reinsurance treaty, a general catastrophe aggregate excess-of-loss reinsurance treaty, two earthquake excess-of-loss reinsurance treaties and several international reinsurance treaties.

- *Northeast General Catastrophe Reinsurance Treaty.* The northeast general catastrophe treaty provides up to \$850 million of coverage, subject to a \$2.25 billion retention, for certain losses arising from hurricanes, tornados, hail storms, earthquakes and winter storm or freeze losses from Virginia to Maine for the period July 1, 2014 through June 30, 2015. Losses from a covered event (occurring over several days) anywhere in the United States, Canada, the Caribbean and Mexico and waters contiguous thereto may be used to satisfy the retention. Recoveries under the catastrophe bonds (if any) would be first applied to reduce losses subject to this treaty.

Edgar Filing: TRAVELERS COMPANIES, INC. - Form 10-Q

- *General Catastrophe Aggregate Excess-of-Loss Reinsurance Treaty*. See the *Catastrophe Reinsurance* section of *Part I* *Item 1* *Business* in the Company's Annual Report on Form 10-K for the year ended December 31, 2013.
- *Business Insurance Earthquake Excess-of-Loss Reinsurance Treaty*. This earthquake excess-of-loss treaty provides for up to \$150 million part of \$165 million of coverage, subject to a \$60 million retention, for losses arising from an earthquake, including fire following and sprinkler leakage incurred under policies written by the Technology and Public Sector business units and the Commercial Accounts market group in the Company's Business Insurance segment for the period July 1, 2014 through June 30, 2015.
- *Personal Insurance Earthquake Excess-of-Loss Reinsurance Treaty*. See the *Catastrophe Reinsurance* section of *Part I* *Item 1* *Business* in the Company's Annual Report on Form 10-K for the year ended December 31, 2013.

Table of Contents

- Canadian Property Catastrophe Excess-of-Loss Reinsurance Contract.** This contract, effective for the period July 1, 2014 through and including June 30, 2015, covers the accumulation of net property losses arising out of one occurrence on business written by the Company's Canadian businesses. The treaty covers habitation property, commercial property, inland marine, ocean marine and auto physical damages exposures written by the Company's Canadian businesses with respect to risks located worldwide, written for Canadian insureds. The treaty provides coverage for 100% of loss retained in excess of C\$50 million, up to C\$900 million.
- Other International Reinsurance Treaties.** See the Catastrophe Reinsurance section of Part I Item 1 Business in the Company's Annual Report on Form 10-K for the year ended December 31, 2013.

The Company regularly reviews its catastrophe reinsurance coverage and may adjust such coverage in the future.

REINSURANCE RECOVERABLES

For a description of the Company's reinsurance recoverables, refer to Reinsurance Recoverables in the Company's Annual Report on Form 10-K for the year ended December 31, 2013.

The following table summarizes the composition of the Company's reinsurance recoverables:

(in millions)	June 30, 2014	December 31, 2013
Gross reinsurance recoverables on paid and unpaid claims and claim adjustment expenses	\$ 4,576	\$ 4,707
Allowance for uncollectible reinsurance	(239)	(239)
Net reinsurance recoverables	4,337	4,468
Mandatory pools and associations	1,878	1,897
Structured settlements	3,293	3,348
Total reinsurance recoverables	\$ 9,508	\$ 9,713

The \$131 million decline in net reinsurance recoverables from December 31, 2013 primarily reflected the impact of net favorable prior year reserve development and cash collections, as well as a slightly lower level of reinsurance purchased in the first six months of 2014.

OUTLOOK

The following discussion provides outlook information for certain key drivers of the Company's results of operations and capital position.

Edgar Filing: TRAVELERS COMPANIES, INC. - Form 10-Q

Premiums. The Company's earned premiums are a function of net written premium volume. Net written premiums comprise both renewal business and new business and are recognized as earned premium over the life of the underlying policies. When business renews, the amount of net written premiums associated with that business may increase or decrease (renewal premium change) as a result of increases or decreases in rate and/or insured exposures, which the Company considers as a measure of units of exposure (such as the number and value of vehicles or properties insured). Net written premiums from both renewal and new business, and therefore earned premiums, are impacted by competitive market conditions as well as general economic conditions, which, particularly in the case of the Business Insurance segment, affect audit premium adjustments, policy endorsements and mid-term cancellations. Net written premiums are also impacted by the structure of reinsurance programs and related costs.

Given the possibility that more active weather patterns such as the Company experienced in a number of recent periods may continue, as well as the possibility that interest rates may remain low for some period of time, along with the current level of profitability in certain of its product lines, the Company has undertaken various efforts, and expects to undertake additional efforts, to improve its underwriting margins. These efforts include seeking improved rates where the Company believes it is appropriate, as well as improved terms and conditions, on many of its insurance products, and also include other initiatives, such as reducing operating expenses and acquisition costs. In the Agency Automobile line of business, given new business levels, the Company has undertaken various actions (which are discussed in more detail in the Underwriting Gain/Loss section below) to reduce expenses and costs in order to improve underwriting margins and enable it to have a more

Table of Contents

competitively priced product. These and other actions to improve profitability with respect to Agency Automobile or the Company's other business units may not be successful and/or may result in lower retention and new business levels and therefore lower business volumes. If these actions are not effective, the Company may need to explore other actions or initiatives to improve its competitive position and profitability. Refer to Part I Item 1A Risk Factors The intense competition that we face could harm our ability to maintain or increase our business volumes and our profitability and Disruptions to our relationships with our independent agents and brokers could adversely affect us in the Company's Annual Report on Form 10-K for the year ended December 31, 2013.

Overall, the Company expects retention levels (the amount of expiring premium that renews, before the impact of renewal premium changes) will remain strong relative to historical experience. In the Business Insurance segment, the Company expects that renewal premium changes during the remainder of 2014 and into 2015 will remain positive, driven by both positive renewal rate changes and, subject to the economic uncertainties discussed below, growth in insured exposures, but will be slightly lower than the levels attained in the first six months of 2014. In the Financial, Professional & International Insurance segment, the Company expects that renewal premium changes during the remainder of 2014 and into 2015 will be broadly consistent with the first six months of 2014. With respect to surety, the Company expects net written premium volume in 2014 and into 2015 that is broadly consistent with the levels attained in the comparable periods of 2013 and 2014. With respect to International business, the Company expects the level of net written premiums generated by Dominion in the remainder of 2014 and into the first half of 2015 will be broadly consistent with the level attained in the first half of 2014. In the Personal Insurance segment, the Company expects both Agency Automobile and Agency Homeowners and Other renewal premium changes during the remainder of 2014 and into 2015 will decline as compared to the first six months of 2014, but the Company expects such renewal premium changes will remain positive and renewal rate changes will exceed underlying loss cost trends, assuming weather patterns and other loss trends consistent with the Company's expectations. Renewal premium changes for both Agency Automobile and Agency Homeowners and Other in the remainder of 2014 and into 2015 are expected to be driven by both positive renewal rate changes (based on the Company's actions to file for rate increases) and, subject to the economic uncertainties discussed below, growth in insured exposures. The need for state regulatory approval for changes to personal property and casualty insurance prices, as well as competitive market conditions, may impact the timing and extent of renewal premium changes.

The pricing environment for new business generally has less of an impact on underwriting profitability than renewal rate changes, given the volume of new business relative to renewal business. However, in periods of meaningful increases in new business, the impact of a higher mix of new business versus renewal business may negatively impact underwriting profitability. Property and casualty insurance market conditions are expected to remain competitive during the remainder of 2014 and into 2015 for new business, not only in Business Insurance and Financial, Professional & International Insurance, but especially in Personal Insurance, where price comparison technology used by agents and brokers, sometimes referred to as comparative raters, has facilitated the process of generating multiple quotes, thereby increasing price comparison on new business and, increasingly, on renewal business. The Company anticipates that its new Quantum Auto 2.0 product in the Personal Insurance segment's Agency Automobile line of business, as discussed below, will continue to increase new business premiums during the remainder of 2014 and into 2015. The Company also anticipates that, as a result of strong business retentions and increases in new business, by the end of 2014 or early into 2015 policies in force in the Personal Insurance segment's Agency Automobile line of business will begin to increase compared with the corresponding prior year period.

Modest economic growth in the United States experienced in recent periods may or may not continue, or may continue at a slower rate for an extended period of time. Further, general uncertainty regarding the U.S. Federal budget and taxes, implementation of the Affordable Care Act and the regulatory environment has added to the uncertainty regarding economic conditions generally. If weak economic conditions persist or deteriorate, the resulting low levels of economic activity could impact exposure changes at renewal and the Company's ability to write business at acceptable rates. Additionally, low levels of economic activity could adversely impact audit premium adjustments, policy endorsements and mid-term cancellations after policies are written. All of the foregoing, in turn, could adversely impact net written premiums during the remainder of 2014 and into 2015, and because earned premiums are a function of net written premiums, earned premiums could be adversely impacted during the remainder of 2014 and into 2015.

Edgar Filing: TRAVELERS COMPANIES, INC. - Form 10-Q

Underwriting Gain/Loss. The Company's underwriting gain/loss can be significantly impacted by catastrophe losses and net favorable or unfavorable prior year reserve development, as well as underlying underwriting margins.

Catastrophe and other weather-related losses are inherently unpredictable from period to period. The Company experienced significant catastrophe and other weather-related losses in a number of recent periods which adversely impacted its results of operations. The Company's results of operations would continue to be adversely impacted if significant catastrophe and other weather-related losses were to occur during the remainder of 2014 and into 2015.

Table of Contents

For the last several years, the Company's results have included significant amounts of net favorable prior year reserve development, although at lower levels in some recent years, driven by better than expected loss experience in all of the Company's segments. The lower level of net favorable prior year reserve development in a number of recent periods may have been in part due to the Company's reserve estimation process incorporating those factors that led to the higher levels of net favorable prior year reserve development in previous years. If that trend continues, the better than expected loss experience may continue at these recent lower levels, or even lower levels. However, given the inherent uncertainty in estimating claims and claim adjustment expense reserves, loss experience could develop such that the Company recognizes higher or lower levels of favorable prior year reserve development, no favorable prior year reserve development or unfavorable prior year reserve development in future periods. In addition, the ongoing review of prior year claims and claim adjustment expense reserves, or other changes in current period circumstances, may result in the Company revising current year loss estimates upward or downward in future periods of the current year.

It is possible that the steps taken by the federal government, particularly the Federal Reserve, to stabilize financial markets and improve economic conditions could lead to higher inflation than the Company had anticipated, which could in turn lead to an increase in the Company's loss costs. The impact of inflation on loss costs could be more pronounced for those lines of business that are considered "long tail", such as general liability, as they require a relatively long period of time to finalize and settle claims for a given accident year. For a further discussion, see "If actual claims exceed our claims and claim adjustment expense reserves, or if changes in the estimated level of claims and claim adjustment expense reserves are necessary, our financial results could be materially and adversely affected" included in Part I Item 1A Risk Factors in the Company's Annual Report on Form 10-K for the year ended December 31, 2013.

In Business Insurance, the Company expects that the anticipated impact of increases in renewal premium changes, partially offset by consistent modest loss cost trends, will likely result in underlying underwriting margins during the remainder of 2014 that are higher than in the corresponding period of 2013, and underlying underwriting margins into 2015 that approximate those in the corresponding period of 2014. In making this comparison, the Company has excluded the impact of the \$76 million reduction in the estimated liability for state assessments to be paid by the Company related to workers' compensation premiums in the first quarter of 2014 and the Company has assumed that weather patterns will be consistent with the Company's expectations.

In Financial, Professional & International Insurance, the Company expects underlying underwriting margins during the remainder of 2014 and into 2015 will be broadly consistent with the full year of 2013 as the anticipated impact of recent underwriting actions and positive renewal premium changes will be offset by consistent modest loss cost trends and the inclusion of Dominion. This also assumes that weather patterns and what the Company defines as large losses are consistent with the Company's expectations. While the Company is taking actions to improve profitability at Dominion, it will be a number of years before these actions, to the extent successful, will be fully realized.

In Personal Insurance, the Company anticipates underlying underwriting margins during the remainder of 2014 and into 2015 that are broadly consistent with the corresponding periods of 2013 and 2014. In Agency Automobile, the Company expects that underlying underwriting margins during the remainder of 2014 will be slightly higher than in the corresponding period of 2013, and underlying underwriting margins into the first half of 2015 will approximate those in the corresponding period of 2014. These expectations reflect, among other things, the anticipated impact of continued positive renewal premium changes, the Company's announced plan to reduce certain claim adjustment and other insurance expenses, anticipated loss cost trends and the impact of a higher mix of new business versus renewal business. In Agency Homeowners and Other, the Company anticipates lower underlying underwriting margins during the remainder of 2014 compared with the corresponding period of 2013, and underlying underwriting margins into the first half of 2015 that approximate those in the corresponding period of 2014, reflecting non-catastrophe weather-related loss levels and loss cost trends consistent with the Company's expectations, partially offset by the anticipated impact of continued positive renewal premium changes. Also in Personal Insurance, the Company's direct to consumer initiative, the distribution channel that the Company launched in 2009, while intended to enhance the Company's long-term ability to compete successfully in a consumer-driven marketplace, is expected to remain unprofitable for a number of years as this book of business grows and matures.

The Agency Automobile line of business has been negatively impacted by various factors, including the use of price comparison technology by agents and brokers as discussed above. The Company's actions in response to these factors include, among other things, an announced plan to reduce certain claim adjustment and other insurance expenses, with the majority of the impact in the Agency Automobile line of business. That plan is intended to result in savings of approximately \$140 million pre-tax per year by 2015 when fully implemented. That plan resulted in restructuring charges of \$12 million in 2013 and \$3 million in the first six months of 2014. No additional significant restructuring charges are expected to be incurred related to this plan. Additionally, in the fourth quarter of 2013, the Company launched a new private passenger automobile product, Quantum Auto 2.0. This product, in addition to incorporating the cost savings described above, has a lower base commission rate than the Company's existing Quantum Auto 1.0 product. These changes in cost structure are intended to enable the Company to price Quantum Auto 2.0 more competitively while generating an expected appropriate return. By June 30, 2014, the Company had started offering the product in approximately 75% of the states where it plans to offer the product, and the Company currently expects that, by the end of 2014, it will offer the product in approximately 90% of those states. The Company currently intends that, in approved states, all new accounts will be written on the new product; in addition, the product will also be available to agents at their discretion for existing accounts.

Table of Contents

Investment Portfolio. The Company expects to continue to focus its investment strategy on maintaining a high-quality investment portfolio and a relatively short average effective duration. The average effective duration of fixed maturities and short-term securities was 3.5 (3.7 excluding short-term securities) at June 30, 2014. From time to time, the Company enters into short positions in U.S. Treasury futures contracts to manage the duration of its fixed maturity portfolio. The Company continually evaluates its investment alternatives and mix. Currently, the majority of the Company's investments are comprised of a widely diversified portfolio of high-quality, liquid taxable U.S. government, tax-exempt U.S. municipal and taxable corporate and U.S. agency mortgage-backed bonds.

The Company also invests much smaller amounts in equity securities, real estate, private equity limited partnerships, hedge funds, and real estate partnerships and joint ventures. These investment classes have the potential for higher returns but also the potential for higher degrees of risk, including less stable rates of return and less liquidity.

Net investment income is a material contributor to the Company's results of operations. Interest rates remain at very low levels by historical standards. Based on the current interest rate environment, the Company estimates that the impact of lower reinvestment yields on the Company's fixed maturity portfolio could, for the remainder of 2014 and into 2015, result in approximately \$20 million to \$25 million of lower after-tax net investment income from that portfolio on a quarterly basis as compared to the corresponding quarters of 2013 and 2014, partially offset by approximately \$5 million of incremental quarterly net investment income through November 1, 2014 resulting from the acquisition of Dominion. Given recent general economic and investment market conditions, the Company expects investment income from the non-fixed maturity portfolio during the remainder of 2014 and into 2015 will be lower than in the corresponding periods of 2013 and 2014. If general economic conditions and/or investment market conditions deteriorate during the remainder of 2014 and into 2015, the Company could also experience a further reduction in net investment income and/or significant realized investment losses, including impairments.

The Company had a net pre-tax unrealized investment gain of \$2.74 billion (\$1.79 billion after-tax) in its fixed maturity investment portfolio at June 30, 2014. While the Company does not attempt to predict future interest rate movements, a rising interest rate environment would reduce the market value of fixed maturity investments and, therefore, reduce shareholders' equity, and a declining interest rate environment would have the opposite effects.

For further discussion of the Company's investment portfolio, see Investment Portfolio. For a discussion of the risks to the Company's business during or following a financial market disruption and risks to the Company's investment portfolio, see the risk factors entitled "During or following a period of financial market disruption or economic downturn, our business could be materially and adversely affected" and "Our investment portfolio may suffer reduced returns or material realized or unrealized losses" included in Part I Item 1A Risk Factors in the Company's Annual Report on Form 10-K for the year ended December 31, 2013.

Capital Position. The Company believes it has a strong capital position and, as part of its ongoing efforts to create shareholder value, expects to continue to return capital not needed to support its business operations to its shareholders. The Company expects that, generally over time, the combination of dividends to common shareholders and common share repurchases will likely not exceed operating income. In addition, the timing and actual number of shares to be repurchased in the future will depend on a variety of additional factors, including the Company's financial position, earnings, share price, catastrophe losses, maintaining capital levels commensurate with the Company's desired ratings from independent rating agencies, funding of the Company's qualified pension plan, capital requirements of the Company's operating subsidiaries, legal requirements, regulatory constraints, other investment opportunities (including mergers and acquisitions and related financings), market conditions and other factors. For information regarding the Company's common share repurchases in the first six months of 2014, see Liquidity and Capital Resources.

Table of Contents

Many of the statements in this Outlook section are forward-looking statements, which are subject to risks and uncertainties that are often difficult to predict and beyond the Company's control. Actual results could differ materially from those expressed or implied by such forward-looking statements. Further, such forward-looking statements speak only as of the date of this report and the Company undertakes no obligation to update them. See Forward Looking Statements. For a discussion of potential risks and uncertainties that could impact the Company's results of operations or financial position, see Item 1A Risk Factors in the Company's Annual Report on Form 10-K for the year ended December 31, 2013 and Item 2 Management's Discussion and Analysis of Financial Condition and Results of Operations Critical Accounting Estimates in this report.

LIQUIDITY AND CAPITAL RESOURCES

Liquidity is a measure of a company's ability to generate sufficient cash flows to meet the cash requirements of its business operations and to satisfy general corporate purposes when needed.

Operating Company Liquidity. The liquidity requirements of the Company's insurance subsidiaries are met primarily by funds generated from premiums, fees, income received on investments and investment maturities. Cash provided from these sources is used primarily for claims and claim adjustment expense payments and operating expenses. The insurance subsidiaries' liquidity requirements can be impacted by, among other factors, the timing and amount of catastrophe claims, which are inherently unpredictable, as well as the timing and amount of reinsurance recoveries, which may be affected by reinsurer solvency and reinsurance coverage disputes. Additionally, the variability of asbestos-related claim payments, as well as the volatility of potential judgments and settlements arising out of litigation, may also result in increased liquidity requirements. It is the opinion of the Company's management that the insurance subsidiaries' future liquidity needs will be adequately met from all of the sources described above. Subject to restrictions imposed by states in which the Company's insurance subsidiaries are domiciled, the Company's principal insurance subsidiaries pay dividends to their respective parent companies, which in turn pay dividends to the corporate holding (parent) company (TRV).

Holding Company Liquidity. TRV's liquidity requirements primarily include shareholder dividends, debt servicing, common share repurchases and, from time to time, contributions to its qualified domestic pension plan. At June 30, 2014, TRV held total cash and short-term invested assets in the United States aggregating \$1.83 billion and having a weighted average maturity of 56 days. These assets are sufficient to meet TRV's current liquidity requirements and are in excess of TRV's minimum target level, which comprises TRV's estimated annual pretax interest expense and common shareholder dividends, and currently totals approximately \$1.1 billion.

TRV is not dependent on dividends or other forms of repatriation from its foreign operations to support its liquidity needs. U.S. income taxes have not been recognized on substantially all of the Company's foreign operations' undistributed earnings as of June 30, 2014, as such earnings are intended to be permanently reinvested in those operations. Furthermore, taxes paid to foreign governments on these earnings may be used as credits against the U.S. tax on dividend distributions if such earnings were to be distributed to the holding company. The amount of undistributed earnings from foreign operations and related taxes on those undistributed earnings were not material to the Company's financial position or liquidity at June 30, 2014.

TRV has a shelf registration statement with the Securities and Exchange Commission which permits it to issue securities from time to time. TRV also has a \$1.0 billion line of credit facility with a syndicate of financial institutions that expires in June 2018. This line of credit also supports TRV's \$800 million commercial paper program, of which \$100 million was outstanding at June 30, 2014. TRV is not reliant on its commercial paper program to meet its operating cash flow needs.

The Company utilized uncollateralized letters of credit issued by major banks with an aggregate limit of approximately \$171 million, to provide a portion of the capital needed to support its obligations at Lloyd's at June 30, 2014. If uncollateralized letters of credit are not available at a reasonable price or at all in the future, the Company can collateralize these letters of credit or may have to seek alternative means of supporting its obligations at Lloyd's, which could include utilizing holding company funds on hand.

Table of Contents

Operating Activities

Net cash flows provided by operating activities in the first six months of 2014 and 2013 were \$1.33 billion and \$1.25 billion, respectively. Cash flows in the first six months of 2014 primarily reflected a higher level of collected premiums, partially offset by higher income tax payments.

Investing Activities

Net cash flows provided by investing activities were \$487 million and \$92 million in the first six months of 2014 and 2013 respectively. The Company's consolidated total investments at June 30, 2014 increased by \$781 million, or 1% over year-end 2013, primarily reflecting the impact of net cash flows provided by operating activities and an increase in net unrealized appreciation of investments, partially offset by common share repurchases and dividends paid to shareholders.

The Company's investment portfolio is managed to support its insurance operations; accordingly, the portfolio is positioned to meet obligations to policyholders. As such, the primary goals of the Company's asset-liability management process are to satisfy the insurance liabilities and maintain sufficient liquidity to cover fluctuations in projected liability cash flows. Generally, the expected principal and interest payments produced by the Company's fixed maturity portfolio adequately fund the estimated runoff of the Company's insurance reserves. Although this is not an exact cash flow match in each period, the substantial amount by which the market value of the fixed maturity portfolio exceeds the value of the net insurance liabilities, as well as the positive cash flow from newly sold policies and the large amount of high quality liquid bonds, contributes to the Company's ability to fund claim payments without having to sell illiquid assets or access credit facilities.

Financing Activities

Net cash flows used in financing activities in the first six months of 2014 and 2013 were \$1.80 billion and \$1.36 billion, respectively. The totals in both periods primarily reflected common share repurchases and dividends to shareholders, partially offset by the proceeds from employee stock option exercises. The first six months of 2013 also included the payment of the Company's \$500 million, 5.00% senior notes at maturity.

Dividends. Dividends paid to shareholders were \$365 million and \$366 million in the first six months of 2014 and 2013, respectively. The declaration and payment of future dividends to holders of the Company's common stock will be at the discretion of the Company's board of directors and will depend upon many factors, including the Company's financial position, earnings, capital requirements of the Company's operating subsidiaries, legal requirements, regulatory constraints and other factors as the board of directors deems relevant. Dividends will be paid by the Company only if declared by its board of directors out of funds legally available, subject to any other restrictions that may be applicable to the Company. On July 22, 2014, the Company announced that it declared a regular quarterly dividend of \$0.55 per share, payable September 30, 2014, to shareholders of record on September 10, 2014.

Share Repurchase Authorization. The Company's board of directors has approved common share repurchase authorizations under which repurchases may be made from time to time in the open market, pursuant to pre-set trading plans meeting the requirements of Rule 10b5-1 under the Securities Exchange Act of 1934, in private transactions or otherwise. The authorizations do not have a stated expiration date. The timing

Edgar Filing: TRAVELERS COMPANIES, INC. - Form 10-Q

and actual number of shares to be repurchased in the future will depend on a variety of factors, including the Company's financial position, earnings, share price, catastrophe losses, maintaining capital levels commensurate with the Company's desired ratings from independent rating agencies, funding of the Company's qualified pension plan, capital requirements of the Company's operating subsidiaries, legal requirements, regulatory constraints, other investment opportunities (including mergers and acquisitions and related financings), market conditions and other factors. During the three months and six months ended June 30, 2014, the Company repurchased 9.5 million and 17.3 million shares, respectively, under its share repurchase authorization, for a total cost of \$875 million and \$1.53 billion, respectively. The average cost per share repurchased was \$92.67 and \$88.27, respectively. At June 30, 2014, the Company had \$3.23 billion of capacity remaining under the share repurchase authorization.

2014 Stock Incentive Plan. In February 2014, the Company's board of directors approved The Travelers Companies, Inc. 2014 Stock Incentive Plan (2014 Incentive Plan) to replace, effective with shareholder approval, the Amended and Restated 2004 Stock Incentive Plan (2004 Incentive Plan), which was scheduled to expire in July 2014. At the Company's 2014 Annual Meeting of Shareholders on May 27, 2014, the shareholders approved the 2014 Incentive Plan. Accordingly, the 2014 Incentive Plan became effective on that date and no further awards will be made under the 2004 Incentive Plan. The 2014 Incentive plan has substantially the same terms, other than the number of shares available, as the 2004 Incentive Plan

Table of Contents

and is effective through February 5, 2024. The number of shares initially available for issuance under the 2014 Incentive Plan was 10,000,000 shares of common stock. Shares of common stock subject to an award granted under the 2014 Incentive Plan or the prior 2004 Incentive Plan that expire unexercised, are forfeited, terminated or canceled and that do not result in the issuance of common stock will be available for grant under the 2014 Incentive Plan.

Capital Structure. The following table summarizes the components of the Company's capital structure at June 30, 2014 and December 31, 2013.

(in millions)	June 30, 2014	December 31, 2013
Debt:		
Short-term	\$ 100	\$ 100
Long-term	6,261	6,261
Net unamortized fair value adjustments and debt issuance costs	(14)	(15)
Total debt	6,347	6,346
Shareholders' equity:		
Common stock and retained earnings, less treasury stock	23,970	23,986
Accumulated other comprehensive income	1,562	810
Total shareholders' equity	25,532	24,796
Total capitalization	\$ 31,879	\$ 31,142

The following table provides a reconciliation of total capitalization excluding net unrealized gain on investments to total capitalization presented in the foregoing table.

(dollars in millions)	June 30, 2014	December 31, 2013
Total capitalization excluding net unrealized gain on investments	\$ 29,866	\$ 29,820
Net unrealized gain on investments, net of taxes	2,013	1,322
Total capitalization	\$ 31,879	\$ 31,142
Debt-to-total capital ratio	19.9%	20.4%
Debt-to-total capital ratio excluding net unrealized gain on investments	21.3%	21.3%

The debt-to-total capital ratio excluding net unrealized gain on investments is calculated by dividing (a) debt by (b) total capitalization excluding net unrealized gains and losses on investments, net of taxes. Net unrealized gains and losses on investments can be significantly impacted by both interest rate movements and other economic factors. Accordingly, in the opinion of the Company's management, the debt-to-total capital ratio calculated on this basis provides another useful metric for investors to understand the Company's financial leverage position. The Company's ratio of debt-to-total capital (excluding after-tax net unrealized investment gains) was 21.3% at June 30, 2014, within the Company's target range of 15% to 25%.

RATINGS

Edgar Filing: TRAVELERS COMPANIES, INC. - Form 10-Q

Ratings are an important factor in assessing the Company's competitive position in the insurance industry. The Company receives ratings from the following major rating agencies: A.M. Best Company (A.M. Best), Fitch Ratings (Fitch), Moody's Investors Service (Moody's) and Standard & Poor's (S&P). The following rating agency actions were taken with respect to the Company since April 22, 2014, the date on which the Company's Form 10-Q for the quarter ended March 31, 2014 was filed with the Securities and Exchange Commission. For additional discussion of ratings, see the Ratings section of Part I Item 1 Business in the Company's Annual Report on Form 10-K for the year ended December 31, 2013.

Table of Contents

- On May 23, 2014, A.M. Best upgraded the financial strength ratings to A++ from A+ and the issuer credit ratings to aa+ from aa of the property/casualty subsidiaries of The Travelers Companies, Inc. (TRV), as well as Travelers Casualty and Surety Company of America, Travelers Casualty and Surety Company of Europe, Ltd. and Travelers Insurance Company of Canada. Concurrently, A.M. Best upgraded the issuer credit ratings and senior debt ratings to a+ from a of TRV and its two wholly-owned downstream holding companies, Travelers Property Casualty Corp. and Travelers Insurance Group Holdings, Inc. The outlook for the above ratings has been revised to stable from positive. A.M. Best also affirmed the financial strength rating of A and issuer credit rating a+ of The Premier Insurance Company of Massachusetts, and the financial strength rating of A- and issuer credit rating of a- of First Floridian Auto and Home Insurance Company. The outlook for these ratings is stable.
- On May 23, 2014, A.M. Best assigned a financial strength rating of A and an issuer credit rating of a to The Dominion of Canada General Insurance Company, which the Company acquired in November 2013. The outlook assigned to all ratings is stable.
- On June 13, 2014, S&P affirmed all ratings of the Company. The outlook for all ratings is stable.

CRITICAL ACCOUNTING ESTIMATES

For a description of the Company's critical accounting estimates, refer to Item 7 Management's Discussion and Analysis of Financial Condition and Results of Operations Critical Accounting Estimates in the Company's Annual Report on Form 10-K for the year ended December 31, 2013. The Company considers its most significant accounting estimates to be those applied to claims and claim adjustment expense reserves and related reinsurance recoverables, investment valuation and impairments, and goodwill and other intangible assets impairments. Except as shown in the table below, there have been no material changes to the Company's critical accounting estimates since December 31, 2013.

Claims and Claim Adjustment Expense Reserves

The table below displays the Company's gross claims and claim adjustment expense reserves by product line. Additional liabilities may arise for amounts in excess of the current related reserves. In addition, the Company's estimate of claims and claim adjustment expenses may change. These additional liabilities or increases in estimates, or a range of either, cannot now be reasonably estimated and could result in income statement charges that could be material to the Company's operating results in future periods. In particular, a portion of the Company's gross claims and claim adjustment expense reserves (totaling \$2.88 billion at June 30, 2014) are for asbestos and environmental claims and related litigation. While the ongoing review of asbestos and environmental claims and associated liabilities considers the inconsistencies of court decisions as to coverage, plaintiffs' expanded theories of liability and the risks inherent in complex litigation and other uncertainties, in the opinion of the Company's management, it is possible that the outcome of the continued uncertainties regarding these claims could result in liability in future periods that differs from current reserves by an amount that could be material to the Company's future operating results. See the preceding discussion of Asbestos Claims and Litigation and Environmental Claims and Litigation.

Table of Contents

Gross claims and claim adjustment expense reserves by product line were as follows:

(in millions)	June 30, 2014			December 31, 2013		
	Case	IBNR	Total	Case	IBNR	Total
General liability	\$ 5,281	\$ 8,438	\$ 13,719	\$ 5,355	\$ 8,604	\$ 13,959
Commercial property	769	643	1,412	778	542	1,320
Commercial multi-peril	1,923	1,796	3,719	1,879	1,707	3,586
Commercial automobile	2,269	1,237	3,506	2,305	1,219	3,524
Workers compensation	10,108	7,967	18,075	9,918	7,856	17,774
Fidelity and surety	362	747	1,109	426	818	1,244
Personal automobile	1,685	835	2,520	1,793	785	2,578
Homeowners and personal other	628	599	1,227	635	551	1,186
International and other	3,494	2,051	5,545	3,585	2,109	5,694
Property-casualty	26,519	24,313	50,832	26,674	24,191	50,865
Accident and health	24		24	30		30
Claims and claim adjustment expense reserves	\$ 26,543	\$ 24,313	\$ 50,856	\$ 26,704	\$ 24,191	\$ 50,895

The \$39 million decrease in gross claims and claim adjustment expense reserves since December 31, 2013 primarily reflected the impact of net favorable prior year reserve development and payments related to operations in runoff, including asbestos and environmental claims, partially offset by the impact of catastrophe losses incurred in the first six months of 2014.

Asbestos and environmental reserves are included in the General liability, Commercial multi-peril and International and other lines in the summary table above. Asbestos and environmental reserves are discussed separately; see Asbestos Claims and Litigation, Environmental Claims and Litigation and Uncertainty Regarding Adequacy of Asbestos and Environmental Reserves.

FUTURE APPLICATION OF ACCOUNTING STANDARDS

See note 1 of notes to the Company's unaudited consolidated financial statements contained in this quarterly report for a discussion of recently issued accounting pronouncements.

FORWARD-LOOKING STATEMENTS

This report contains, and management may make, certain forward-looking statements within the meaning of the Private Securities Litigation Reform Act of 1995. All statements, other than statements of historical facts, may be forward-looking statements. Words such as may, will, should, likely, anticipates, expects, intends, plans, projects, believes, estimates and similar expressions are used to identify these statements. Specifically, statements about the Company's outlook, share repurchase plans, expected margin improvement, potential returns, future pension plan contributions and the potential impact of investment markets and other economic conditions on the Company's investment portfolio and underwriting results, among others, are forward looking, and the Company may also make forward-looking statements about, among other things:

- its results of operations and financial condition (including, among other things, premium volume, premium rates, net and operating income, investment income and performance, loss costs, return on equity, and expected current returns and combined ratios);
- the sufficiency of the Company's asbestos and other reserves;
- the impact of emerging claims issues as well as other insurance and non-insurance litigation;
- the cost and availability of reinsurance coverage;
- catastrophe losses;
- the impact of investment, economic and underwriting market conditions; and
- strategic initiatives, including initiatives, such as in Personal Insurance, to improve profitability and competitiveness.

Table of Contents

The Company cautions investors that such statements are subject to risks and uncertainties, many of which are difficult to predict and generally beyond the Company's control, that could cause actual results to differ materially from those expressed in, or implied or projected by, the forward-looking information and statements.

Some of the factors that could cause actual results to differ include, but are not limited to, the following:

- catastrophe losses could materially and adversely affect the Company's results of operations, its financial position and/or liquidity, and could adversely impact the Company's ratings, the Company's ability to raise capital and the availability and cost of reinsurance;
- during or following a period of financial market disruption or economic downturn, the Company's business could be materially and adversely affected;
- if actual claims exceed the Company's claims and claim adjustment expense reserves, or if changes in the estimated level of claims and claim adjustment expense reserves are necessary, the Company's financial results could be materially and adversely affected;
- the Company's investment portfolio may suffer reduced returns or material realized or unrealized losses;
- the Company's business could be harmed because of its potential exposure to asbestos and environmental claims and related litigation;
- the Company is exposed to, and may face adverse developments involving, mass tort claims such as those relating to exposure to potentially harmful products or substances;
- the effects of emerging claim and coverage issues on the Company's business are uncertain;
- the intense competition that the Company faces could harm its ability to maintain or increase its business volumes and profitability;
- the Company may not be able to collect all amounts due to it from reinsurers and reinsurance coverage may not be available to the Company in the future at commercially reasonable rates or at all;
- the Company is exposed to credit risk in certain of its business and investment operations including reinsurance or structured settlements;
- within the United States, the Company's businesses are heavily regulated by the states in which it conducts business, including licensing and supervision, and changes in regulation may reduce the Company's profitability and limit its growth;
- changes in state or federal regulations or enforcement practices could impose significant burdens on the Company and otherwise adversely impact the Company's results;
- a downgrade in the Company's claims-paying and financial strength ratings could adversely impact the Company's business volumes, adversely impact the Company's ability to access the capital markets and increase the Company's borrowing costs;
- the inability of the Company's insurance subsidiaries to pay dividends to the Company's holding company in sufficient amounts would harm the Company's ability to meet its obligations, pay future shareholder dividends or make future share repurchases;

Edgar Filing: TRAVELERS COMPANIES, INC. - Form 10-Q

- disruptions to the Company's relationships with its independent agents and brokers could adversely affect the Company;
- the Company's efforts to develop new products, such as Quantum 2.0, or expand in targeted markets may not be successful and may create enhanced risks;
- the Company may be adversely affected if its pricing and capital models provide materially different indications than actual results;
- the Company's business success and profitability depend, in part, on effective information technology systems and on continuing to develop and implement improvements in technology;
- if the Company experiences difficulties with technology, data security and/or outsourcing relationships, the Company's ability to conduct its business could be negatively impacted;
- the Company is subject to a number of risks associated with its business outside the United States;
- new regulations outside of the United States, including in the European Union, could adversely impact the Company's results of operations and limit its growth;
- loss of or significant restriction on the use of particular types of underwriting criteria, such as credit scoring, in the pricing and underwriting of the Company's products could reduce the Company's future profitability;
- acquisitions and integration of acquired businesses may result in operating difficulties and other unintended consequences;

Table of Contents

- the Company could be adversely affected if its controls to ensure compliance with guidelines, policies and legal and regulatory standards are not effective;
- the Company's businesses may be adversely affected if it is unable to hire and retain qualified employees;
- intellectual property is important to the Company's business, and the Company may be unable to protect and enforce its own intellectual property or the Company may be subject to claims for infringing on the intellectual property of others;
- changes to existing accounting standards may adversely impact the Company's reported results;
- changes in U.S. tax laws or in the tax laws of other jurisdictions in which the Company operates could adversely impact the Company; and
- the Company's repurchase plans depend on a variety of factors, including the Company's financial position, earnings, share price, catastrophe losses, maintaining capital levels commensurate with the Company's desired ratings from independent rating agencies, funding of the Company's qualified pension plan, capital requirements of the Company's operating subsidiaries, legal requirements, regulatory constraints, other investment opportunities (including mergers and acquisitions and related financings), market conditions and other factors.

The Company's forward-looking statements speak only as of the date of this report or as of the date they are made, and the Company undertakes no obligation to update forward-looking statements. For a more detailed discussion of these factors, see the information under the caption "Risk Factors" in the Company's most recent annual report on Form 10-K filed with the Securities and Exchange Commission and "Management's Discussion and Analysis of Financial Condition and Results of Operations" herein and in the Company's most recent annual report on Form 10-K.

WEBSITE AND SOCIAL MEDIA DISCLOSURE

From time to time, the Company may use its website and/or social media outlets, such as Facebook and Twitter, as distribution channels of material company information. Financial and other important information regarding the Company is routinely accessible through and posted on the Company's website at <http://investor.travelers.com>, its Facebook page at <http://www.facebook.com/travelers> and its Twitter account (@TRV_Insurance) at http://twitter.com/TRV_Insurance. In addition, you may automatically receive email alerts and other information about the Company when you enroll your email address by visiting the "Email Alert Service" section at <http://investor.travelers.com>.

Item 3. QUANTITATIVE AND QUALITATIVE DISCLOSURES ABOUT MARKET RISK

For the Company's disclosures about market risk, please see "Quantitative and Qualitative Disclosures About Market Risk" in Part II, Item 7A of the Company's 2013 Annual Report on Form 10-K filed with the Securities and Exchange Commission. There have been no material changes to the Company's disclosures about market risk in Part II, Item 7A of the Company's 2013 Annual Report on Form 10-K.

Item 4. CONTROLS AND PROCEDURES

The Company maintains disclosure controls and procedures (as that term is defined in Rules 13a-15(e) and 15d-15(e) under the Securities Exchange Act of 1934, as amended (Exchange Act)) that are designed to ensure that information required to be disclosed in the Company's reports under the Exchange Act is recorded, processed, summarized and reported within the time periods specified in the Securities and Exchange Commission's rules and forms, and that such information is accumulated and communicated to the Company's management, including its Chief Executive Officer and Chief Financial Officer, as appropriate, to allow timely decisions regarding required disclosures. Any controls and procedures, no matter how well designed and operated, can provide only reasonable assurance of achieving the desired control objectives. The Company's management, with the participation of the Company's Chief Executive Officer and Chief Financial Officer, has evaluated the effectiveness of the design and operation of the Company's disclosure controls and procedures as of June 30, 2014. Consistent with guidance issued by the Securities and Exchange Commission that an assessment of internal controls over financial reporting of a recently acquired business may be omitted from management's evaluation of disclosure controls and procedures, management is excluding an assessment of such internal controls of Dominion from its evaluation of the effectiveness of the Company's disclosure controls and procedures. The Company acquired all of the issued and outstanding shares of Dominion on November 1, 2013. Dominion represented less than 4% of the Company's consolidated total assets,

Table of Contents

less than 5% of the Company's consolidated total revenues and less than 3% of the Company's consolidated net income as of and for the six months ended June 30, 2014. Based upon that evaluation and subject to the foregoing, the Company's Chief Executive Officer and Chief Financial Officer concluded that, as of June 30, 2014, the design and operation of the Company's disclosure controls and procedures were effective to accomplish their objectives at the reasonable assurance level.

In addition, there was no change in the Company's internal control over financial reporting (as that term is defined in Rules 13a-15(f) and 15d-15(f) under the Exchange Act) that occurred during the quarter ended June 30, 2014 that has materially affected, or is reasonably likely to materially affect, the Company's internal control over financial reporting. As mentioned above, the Company acquired Dominion on November 1, 2013. The Company is in the process of reviewing the internal control structure of Dominion and, if necessary, will make appropriate changes as it integrates Dominion into the Company's overall internal control over financial reporting process.

PART II OTHER INFORMATION

Item 1. LEGAL PROCEEDINGS

The information required with respect to this item can be found under "Contingencies" in note 11 of notes to the Company's unaudited consolidated financial statements contained in this quarterly report and is incorporated by reference into this Item 1.

Item 1A. RISK FACTORS

For a discussion of the Company's potential risks or uncertainties, please see "Risk Factors" in Part I, Item 1A of the Company's 2013 Annual Report on Form 10-K filed with the Securities and Exchange Commission. In addition, please see "Management's Discussion and Analysis of Financial Condition and Results of Operations," "Outlook," and "Critical Accounting Estimates" herein and in the 2013 Form 10-K. There have been no material changes to the risk factors disclosed in Part I, Item 1A of the Company's 2013 Annual Report on Form 10-K.

Item 2. UNREGISTERED SALES OF EQUITY SECURITIES AND USE OF PROCEEDS

The table below sets forth information regarding repurchases by the Company of its common stock during the periods indicated.

ISSUER PURCHASES OF EQUITY SECURITIES

Period Beginning	Period Ending	Total number of shares purchased	Average price paid per share	Total number of shares purchased as part of publicly announced plans or programs	Approximate dollar value of shares that may yet be purchased under the plans or programs (in millions)
April 1, 2014	April 30, 2014	1,262,274	\$ 89.46	1,261,613	\$ 3,996
May 1, 2014	May 31, 2014	5,156,639	92.21	5,143,794	3,522
June 1, 2014	June 30, 2014	3,041,261	94.77	3,038,912	3,234
Total		9,460,174	92.67	9,444,319	3,234

The Company's board of directors has approved common share repurchase authorizations under which repurchases may be made from time to time in the open market, pursuant to pre-set trading plans meeting the requirements of Rule 10b5-1 under the Securities Exchange Act of 1934, in private transactions or otherwise. The authorizations do not have a stated expiration date. The timing and actual number of shares to be repurchased in the future will depend on a variety of factors, including the Company's financial position, earnings, share price, catastrophe losses, maintaining capital levels commensurate with the Company's desired ratings from independent rating agencies, funding of the Company's qualified pension plan, capital requirements of the Company's operating subsidiaries, legal requirements, regulatory constraints, other investment

Table of Contents

opportunities (including mergers and acquisitions and related financings), market conditions and other factors.

The Company acquired 15,855 shares for a total cost of approximately \$1 million during the three months ended June 30, 2014 that were not part of the publicly announced share repurchase authorization. These shares consisted of shares retained to cover payroll withholding taxes in connection with the vesting of restricted stock awards and shares used by employees to cover the exercise price of certain stock options that were exercised.

Item 5. OTHER INFORMATION

Executive Ownership and Sales. All of the Company's executive officers hold equity in the Company in excess of the required level under the Company's executive stock ownership policy. For a summary of this policy as currently in effect, see "Compensation Discussion and Analysis" Stock Ownership Guidelines in the Company's proxy statement filed with the Securities and Exchange Commission on April 11, 2014. From time to time, some of the Company's executives may determine that it is advisable to diversify their investments for personal financial planning reasons, or may seek liquidity for other reasons, and may sell shares of common stock of the Company in the open market, in private transactions or to the Company. To effect such sales, some of the Company's executives have entered into, and may in the future enter into, trading plans designed to comply with the Company's Securities Trading Policy and the provisions of Rule 10b5-1 under the Securities Exchange Act of 1934. The trading plans will not reduce any of the executives' ownership of the Company's shares below the applicable executive stock ownership guidelines. The Company does not undertake any obligation to report Rule 10b5-1 plans that may be adopted by any employee or director of the Company in the future, or to report any modifications or termination of any publicly announced plan.

As of the date of this report, Jay S. Fishman, Chairman and Chief Executive Officer, and Brian W. MacLean, President and Chief Operating Officer, were the only named executive officers (i.e., an executive officer named in the compensation disclosures in the Company's proxy statement) that have entered into Rule 10b5-1 trading plans that remain in effect. The trading plans extend from approximately four to five months from the date of this report. Under the Company's stock ownership guidelines, Mr. Fishman has a target ownership level established as the lesser of 150,000 shares or the equivalent value of 500% of base salary, and Mr. MacLean has a target ownership level established as the lesser of 30,000 shares or the equivalent value of 300% of base salary (as such amount is calculated for purposes of the stock ownership guidelines). See "Compensation Discussion and Analysis" Stock Ownership Guidelines in the Company's proxy statement filed with the SEC on April 11, 2014.

Glossary of Selected Insurance Terms. The following definitions have been updated from those previously provided in the Company's Annual Report on Form 10-K for the year ended December 31, 2013 to better align the definition of deferred acquisition costs with the Company's notes to financial statements and to clarify that the ratios described below are calculated as prescribed by Statutory Accounting Practices (SAP), the most comparable measure, as adjusted to be consistent with revenue and expense recognition as presented in the Company's Reports on Form 10-K and Form 10-Q.

Deferred acquisition costs (DAC)

DAC consists of incremental direct costs of acquired and renewal insurance contracts, consisting of commissions (other than contingent commissions) and premium-related taxes that are deferred and amortized to achieve a matching of revenues and expenses when reported in financial statements prepared in accordance with U.S. Generally Accepted Accounting Principles (GAAP).

Table of Contents

Combined ratio

For Statutory Accounting Practices (SAP), the combined ratio is the sum of the SAP loss and LAE ratio and the SAP underwriting expense ratio as defined in the statutory financial statements required by insurance regulators. The combined ratio as used in this report is the equivalent of, and is calculated in the same manner as, the SAP combined ratio except that the SAP underwriting expense ratio is based on net *written* premium and the underwriting expense ratio as used in this report is based on net *earned* premiums.

The combined ratio is an indicator of the Company's underwriting discipline, efficiency in acquiring and servicing its business and overall underwriting profitability. A combined ratio under 100% generally indicates an underwriting profit. A combined ratio over 100% generally indicates an underwriting loss.

Other companies' method of computing a similarly titled measure may not be comparable to the Company's method of computing this ratio.

Loss and LAE ratio

For SAP, the loss and LAE ratio is the ratio of incurred losses and loss adjustment expenses less certain administrative services fee income to net earned premiums as defined in the statutory financial statements required by insurance regulators. The loss and LAE ratio as used in this report is calculated in the same manner as the SAP ratio.

The loss and LAE ratio is an indicator of the Company's underwriting discipline and underwriting profitability.

Other companies' method of computing a similarly titled measure may not be comparable to the Company's method of computing this ratio.

Underwriting expense ratio

For SAP, the underwriting expense ratio is the ratio of underwriting expenses incurred (including commissions paid), less certain administrative services fee income and billing and policy fees, to net *written* premiums as defined in the statutory financial statements required by insurance regulators. The underwriting expense ratio as used in this report is the ratio of underwriting expenses (including the amortization of deferred acquisition costs), less certain administrative services fee income and billing and policy fees, to net *earned* premiums.

The underwriting expense ratio is an indicator of the Company's efficiency in acquiring and servicing its business.

Other companies' method of computing a similarly titled measure may not be comparable to the Company's method of computing this ratio.

Combined ratio excluding incremental impact of direct to consumer initiative

The combined ratio excluding incremental impact of direct to consumer initiative is the combined ratio adjusted to exclude the direct, variable impact of the Company's direct-to-consumer initiative in the Personal Insurance segment.

Table of Contents

Underlying combined ratio	The underlying combined ratio is the sum of the underlying loss and LAE ratio and the underlying underwriting expense ratio. The underlying combined ratio is an indicator of the Company's underwriting discipline and underwriting profitability for the current accident year.
Underlying loss and LAE ratio	The underlying loss and LAE ratio is the loss and LAE ratio, adjusted to exclude the impact of catastrophe losses and prior year reserve development. The underlying loss and LAE ratio is an indicator of the Company's underwriting discipline and underwriting profitability for the current accident year.
Underlying underwriting expense ratio	The underlying underwriting expense ratio is the underwriting expense ratio adjusted to exclude the impact of catastrophe losses.

EXHIBIT INDEX

Exhibit Number	Description of Exhibit
3.1	Amended and Restated Articles of Incorporation of The Travelers Companies, Inc. (the Company), as amended and restated May 23, 2013, were filed as Exhibit 3.1 to the Company's current report on Form 8-K filed on May 24, 2013, and are incorporated herein by reference.
3.2	Amended and Restated Bylaws of the Company, effective as of February 18, 2009, were filed as Exhibit 3.2 to the Company's annual report on Form 10-K for the fiscal year ended December 31, 2008, and are incorporated herein by reference.
10.1	The Travelers Companies, Inc. 2014 Stock Incentive Plan was filed as Exhibit 4.3 to the Company's Registration Statement on Form S-8 dated May 27, 2014 and is incorporated herein by reference.
10.2	Current Director Compensation Program, effective as of May 28, 2014.
12.1	Statement regarding the computation of the ratio of earnings to fixed charges.
31.1	Certification of Jay S. Fishman, Chairman and Chief Executive Officer of the Company, as required by Section 302 of the Sarbanes-Oxley Act of 2002.
31.2	Certification of Jay S. Benet, Vice Chairman and Chief Financial Officer of the Company, as required by Section 302 of the Sarbanes-Oxley Act of 2002.
32.1	Certification of Jay S. Fishman, Chairman and Chief Executive Officer of the Company, as required by Section 906 of the Sarbanes-Oxley Act of 2002.
32.2	Certification of Jay S. Benet, Vice Chairman and Chief Financial Officer of the Company, as required by Section 906 of the Sarbanes-Oxley Act of 2002.
101.1	The following financial information from The Travelers Companies, Inc.'s Quarterly Report on Form 10-Q for the quarter ended June 30, 2014 formatted in XBRL: (i) Consolidated Statement of Income for the three months and six months ended June 30, 2014 and 2013; (ii) Consolidated Statement of Comprehensive Income for the three months and six months ended June 30, 2014 and 2013; (iii) Consolidated Balance Sheet at June 30, 2014 and December 31, 2013; (iv) Consolidated Statement of Changes in Shareholders' Equity for the six months ended June 30, 2014 and 2013; (v) Consolidated Statement of Cash Flows for the six months ended June 30, 2014 and 2013; and (vi) Notes to Consolidated Financial Statements.

Filed herewith.

The total amount of securities authorized pursuant to any instrument defining rights of holders of long-term debt of the Company does not exceed 10% of the total assets of the Company and its consolidated subsidiaries. Therefore, the Company is not filing any instruments evidencing long-term debt. However, the Company will furnish copies of any such instrument to the Securities and Exchange Commission upon request.

Copies of any of the exhibits referred to above will be furnished to security holders who make written request therefor to The Travelers Companies, Inc., 385 Washington Street, Saint Paul, MN 55102, Attention: Corporate Secretary.

The agreements and other documents filed as exhibits to this report are not intended to provide factual information or other disclosure other than the terms of the agreements or other documents themselves, and you should not rely on them for that purpose. In particular, any representations and warranties made by the Company in these agreements or other documents were made solely within the specific context of the relevant agreement or document and may not describe the actual state of affairs at the date they were made or at any other time.
