The Assets consist of approximately 318,000 gross (155,000 net) acres comprised of 252,000 gross (122,000 net) Eagle Ford Shale acres and 66,000 gross (33,000 net) Pearsall Shale acres, with an approximate 49% average working interest therein, contain approximately 300 mmboe of proved reserves (70% liquids, 75% proved developed), and had production of approximately 67,000 boe/d (70% liquids) as of December 31, 2016. The Purchase Agreement provides that SN UnSub will pay approximately 37% of the purchase price (including through a \$100 million cash contribution from other Company entities) and SN Maverick will pay approximately 13% of the purchase price and SN UnSub and SN Maverick would acquire half of the 49% working interest in and to the Assets in the aggregate (and approximately 50% and 0%, respectively, of the estimated total proved developed producing reserves, 20% and 30%, respectively, of the estimated total proved developed non-producing reserves, and 20% and 30%, respectively, of the total proved undeveloped reserves), and Blackstone will pay 50% of the purchase price and would acquire the remaining half of the 49% working interest in and to the Assets (approximately 50% of the estimated total proved developed producing reserves, proved developed non-producing reserves and total proved undeveloped reserves).
