NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS
JUNE 30, 2011
(Unaudited)

Note 1. Nature of Operations

Overview

Powered by OSM, interclick, inc. (the "Company" or "interclick") offers proprietary data-valuation capabilities combining analytical expertise and media fulfillment to help marketers navigate the complex data ecosystem to drive successful online display and video campaigns. OSM is a powerful solution which aggregates and organizes billions of data points from 3rd party providers - delivering actionable consumer insights, scalable audiences and the most effective campaign execution. The Company generates revenue by serving as a principal in transacting online display and online video advertising between agency clients and third party website publishers. Substantially all of the Company's revenues are generated in the United States.

The Company is particularly sensitive to industry seasonality given that the majority of its revenues are tied to CPM (cost-per-thousand) campaigns, which are strongest in the fourth quarter and weakest in the first quarter. While not necessarily indicative of future seasonality, the Company's revenue mix in 2010 was as follows: 14.0% in the first quarter, 21.4% in the second quarter, 26.1% in the third quarter, and 38.5% in the fourth quarter.

Basis of Presentation

The interim condensed consolidated financial statements included herein have been prepared by the Company, without audit, pursuant to the rules and regulations of the Securities and Exchange Commission (the "SEC"). In the opinion of the Company's management, all adjustments (consisting of normal recurring adjustments and reclassifications and non-recurring adjustments) necessary to present fairly our results of operations and comprehensive income (loss) for the three and six months ended June 30, 2011 and 2010, our statement of changes in stockholders' equity for the six months ended June 30, 2011, cash flows for the six months ended June 30, 2011 and 2010, and our financial position as of June 30, 2011, have been made. The results of operations for such interim period are not necessarily indicative of the operating results to be expected for the full year.

Certain information and disclosures normally included in the notes to the annual consolidated financial statements have been condensed or omitted from these interim consolidated financial statements. Accordingly, these interim condensed consolidated financial statements should be read in conjunction with the consolidated financial statements and notes thereto included in our Annual Report on Form 10-K/A for the fiscal year ended December 31, 2010, as filed with the SEC on March 22, 2011. The December 31, 2010 consolidated balance sheet is derived from those statements.

Note 2. Significant Accounting Policies

Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America ("GAAP") requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates. On an ongoing basis, we evaluate our estimates, including those related to the accounts receivable and

allowance for doubtful accounts, intangible assets and goodwill, useful lives of intangible assets and property and equipment, fair values of stock-based awards, income taxes, and contingent liabilities, among others.

Principles of Consolidation

The interim condensed consolidated financial statements include the accounts of interclick, inc. and its wholly-owned subsidiary. All significant inter-company balances and transactions have been eliminated in consolidation.

F-7

Table of Contents

INTERCLICK, INC. AND SUBSIDIARY
 NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS
 JUNE 30, 2011
 (Unaudited)

Accounts Receivable and Allowance for Doubtful Accounts Receivable

Trade accounts receivables are non-interest bearing and are stated at gross invoice amounts less an allowance for doubtful accounts receivable.

Credit is extended to customers based on an evaluation of their financial condition and other factors. The Company generally does not require collateral or other security to support accounts receivable. The Company performs ongoing credit evaluations of its customers and maintains an allowance for doubtful accounts.

The Company estimates its allowance for doubtful accounts by evaluating specific accounts where information indicates the customers may have an inability to meet financial obligations, such as bankruptcy proceedings and receivable amounts outstanding for an extended period beyond contractual terms. In these cases, the Company uses assumptions and judgment, based on the best available facts and circumstances, to either record a specific allowance against these customer balances or to write the balances off. In addition, the Company calculates an overall reserve based on a percentage of the overall gross accounts receivable. This percentage is based on management's assessment of the aging of accounts receivable, historical write-offs of receivables and the associated risk profile of the Company's customer base.

The Company's customer agreements are primarily entered into with agencies which manage campaigns on behalf of brand advertisers. Such agreements are governed by Standard Terms and Conditions for Internet Advertising as prescribed by the Interactive Advertising Bureau. Under these agreements, the Company holds the agency liable for payments to the extent proceeds have cleared from the advertiser to the agency for campaigns placed in accordance with the agreement. For sums not cleared to the agency, the Company may hold the advertiser solely liable. Write-offs of accounts receivable are taken in the period when the Company has exhausted its efforts to collect overdue and unpaid receivables or otherwise has evaluated other circumstances that indicate that the Company should abandon such efforts.

Property and Equipment

Property and equipment are stated at cost less accumulated depreciation and amortization. Depreciation and amortization are provided for on a straight-line basis over the estimated useful lives of the assets per the following table. Leasehold improvements are amortized over the lesser of the estimated useful life or the term of the underlying lease. Expenditures for additions and improvements are capitalized while repairs and maintenance are expensed as incurred.

The following table reflects the estimated useful lives of the various categories of property and equipment:

Category	Depreciation Term
Computer equipment	3-5 years
Software	3 years
Furniture and fixtures	3-5 years

Edgar Filing: interclick, inc. - Form 10-Q

Office equipment	3-5 years
Leasehold improvements	5 years

F-8

Table of Contents

INTERCLICK, INC. AND SUBSIDIARY
NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS
JUNE 30, 2011
(Unaudited)

Intangible Assets

The Company records the purchase of intangible assets not acquired in a business combination in accordance with Accounting Standards Codification (“ASC”) Topic 350 “Intangibles - Goodwill and Other” and records intangible assets acquired in a business combination in accordance with ASC Topic 805 “Business Combinations”.

Customer relationships were fully amortized as of December 31, 2009 and were amortized based upon the estimated percentage of annual or period projected cash flows generated by such relationships, to the total cash flows generated over the estimated three-year life of the customer relationships. Developed technology is being amortized on a straight-line basis over five years. The domain name was amortized over its remaining useful life of six months at its acquisition date in August 2007.

Expenditures for software developed for internal use are capitalized and amortized over a three-year period on a straight-line basis. For software developed for internal use, the Company capitalizes costs in accordance with the provisions of ASC 350-40 “Internal Use Software.” The Company’s policy provides for the capitalization of external direct costs of materials and services associated with developing or obtaining internal-use software. In addition, the Company also capitalizes certain payroll and payroll-related costs for employees who are directly associated with internal use software projects. The amount of capitalizable payroll costs with respect to these employees is limited to the time directly spent on such projects. Costs associated with preliminary project state activities, training, maintenance and all other post-implementation stage activities are expensed as incurred. The Company also expenses internal costs related to minor upgrades and enhancements related activities, as it is impractical to separate these costs from normal maintenance activities. Internal-use software is being amortized over three years.

Revenue Recognition

Revenues consist of amounts charged to customers, net of discounts and credits, for serving advertising impressions, click-throughs or other actions placed on our publisher vendor’s websites. The Company’s revenue is recognized in the period that the advertising impressions, click-throughs or actions occur, when lead-based information is delivered or, provided that no significant Company obligations remain, collection of the resulting receivable is reasonably assured, and prices are fixed or determinable. The Company recognizes revenue when the following criteria have been met: (i) persuasive evidence of an arrangement exists, (ii) the fees are fixed or determinable, (iii) no significant Company obligations remain, and (iv) collection of the related receivable is reasonably assured.

Note 3. Property and Equipment

Property and equipment consisted of the following at June 30, 2011 and December 31, 2010:

	June 30, 2011	December 31, 2010
Computer equipment	\$ 4,517,243	\$ 2,926,114
Furniture and fixtures	313,825	195,597
Software	186,620	183,207
Leasehold improvements	198,261	173,764
Office equipment	39,547	22,443
	5,255,496	3,501,125

Edgar Filing: interclick, inc. - Form 10-Q

Accumulated depreciation and amortization	(1,673,280)	(1,217,404)
Property and equipment, net	\$ 3,582,216	\$ 2,283,721

Property and equipment held under capitalized leases of \$3,095,764 and \$1,628,203 at June 30, 2011 and December 31, 2010, respectively, are included in computer equipment above.

F-9

Table of Contents

INTERCLICK, INC. AND SUBSIDIARY
NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS
JUNE 30, 2011
(Unaudited)

Depreciation and amortization expense for the six months ended June 30, 2011 and 2010 was \$455,876 and \$320,356, respectively, of which \$246,077 and \$78,976 pertained to capitalized leases. Accumulated depreciation and amortization related to capitalized leases amounted to \$455,103 and \$199,026 as of June 30, 2011 and December 31, 2010, respectively.

Note 4. Intangible Assets

Intangible assets consisted of the following at June 30, 2011 and December 31, 2010:

	June 30, 2011	December 31, 2010
Customer relationships	\$ 540,000	\$ 540,000
Developed technology	790,000	790,000
Internal-use software	1,009,494	-
Domain name	683	683
	2,340,177	1,330,683
Accumulated amortization	(1,200,151)	(1,067,350)
Intangible assets, net	\$ 1,140,026	\$ 263,333

The following is a schedule of estimated future amortization expense of intangible assets as of June 30, 2011:

Year Ending December 31,	
2011	\$ 188,407
2012	324,146
2013	218,813
2014	55,606
Total	\$ 786,972

As of June 30, 2011, there was \$353,054 of internal-use software that had been capitalized, but the underlying software had not yet been placed in service. Accordingly, this amount has not been included in the future amortization expense table above.

Note 5. Capital Lease Obligations

In February 2011, the Company purchased computer equipment for \$676,638 through a capital lease agreement, bearing interest of 6.02%, per annum, payable in 12 quarterly installments of \$62,055.

In March 2011, the Company purchased computer equipment for \$393,156 through a capital lease agreement, bearing interest of 6.02%, per annum, payable in 12 quarterly installments of \$36,056.

In April 2011, the Company purchased computer equipment for \$14,598 through a capital lease agreement, bearing interest of 6.05%, per annum, payable in 12 quarterly installments of \$1,339.

Edgar Filing: interclick, inc. - Form 10-Q

In April 2011, the Company purchased computer equipment for \$224,143 through a capital lease agreement, bearing interest of 6.05%, per annum, payable in 12 quarterly installments of \$20,556.

In June 2011, the Company purchased computer equipment for \$159,026 through a capital lease agreement, bearing interest at 6.5%, per annum, payable in 36 monthly installments of \$4,874.

Note 6. Commitments and Contingencies

Minimum Fees

The Company is party to multi-year agreements with third parties whereby the Company is obligated to pay minimum publisher, data and ad verification fees of approximately \$7,324,000 in 2011 and \$667,000 in 2012. The Company expensed approximately \$7,429,000 and \$874,000 in fees under these agreements for the six months ended June 30, 2011 and 2010, respectively.

Legal Matters

On or about December 8, 2010, Sonal Bose commenced an action in the United States District Court for the Southern District of New York (Sonal Bose v. Interclick, Inc., Case No. 10 Civ. 9183-DAB (S.D.N.Y.)) alleging that interclick engaged in certain activities that plaintiff claims violate electronic privacy and computer use laws. The plaintiff asserts federal and state law claims, and seeks compensatory, statutory, and punitive damages, restitution, and reimbursement of expenses and attorney's fees. The plaintiff also seeks injunctive and declaratory relief and class action certification.

Plaintiff also had brought a related action in the United States District Court for the Southern District of New York against certain of our advertisers, which has been voluntarily dismissed as a separate action now that plaintiff has filed an Amended Complaint naming the advertisers as defendants in the action against the Company. The Company is providing for the defense of the advertisers.

Motions to dismiss the suit by the Company and by the advertisers are pending. As noted in the motions to dismiss, interclick believes the case is entirely without merit and interclick intends to vigorously defend its prior practices and technology.

There are no proceedings in which any of our directors, officers or affiliates, or any registered or beneficial shareholder, is an adverse party or has a material interest adverse to our interest.

Note 7. Stockholders' Equity

Preferred Stock

The Company is authorized to issue up to 10,000,000 shares of preferred stock having a par value of \$0.001 per share, of which none was issued and outstanding at June 30, 2011 and December 31, 2010.

Common Stock

The Company is authorized to issue up to 140,000,000 shares of common stock having a par value of \$0.001 per share, of which 24,699,363 and 24,065,611 shares were issued and outstanding at June 30, 2011 and December 31, 2010, respectively.

During the six months ended June 30, 2011, proceeds of \$562,968 were received and an aggregate of 225,126 shares were issued as a result of stock option and warrant exercises.

Stock Warrants

On April 15, 2010, as part of a consulting agreement, the Company issued to an investor relations firm a three-year warrant to purchase 25,000 shares of common stock exercisable at \$4.44 per share for services to be rendered over a 12-month period. Accordingly, the Company has recognized stock-based compensation of \$35,094 for the six months ended June 30, 2011.

F-11

Table of Contents

A summary of the Company's warrant activity during the six-months ended June 30, 2011 is presented below:

Warrants	Number of Shares	Weighted Average Exercise Price	Weighted Average Remaining Contractual Term	Aggregate Intrinsic Value
Balance Outstanding, December 31, 2010	873,219	\$ 3.67		
Granted	-			
Exercised	(57,725)	\$ 3.93		
Forfeited	-			
Expired	-			
Balance Outstanding, June 30, 2011	815,494	\$ 3.65	1.36	\$ 2,773,432
Exercisable, June 30, 2011	815,494	\$ 3.65	1.36	\$ 2,773,432

Stock Incentive Plan and Stock Option Grants to Employees and Directors

On June 23, 2011, the shareholders of the Company ratified and approved the adoption of the 2011 Equity Incentive Plan (the "2011 Award Plan"). The 2011 Award Plan provides for the grant of up to 1,722,760 shares of common stock and/or stock options to purchase shares of common stock (422,760 of which were transferred from the 2007 Incentive Stock and Award Plan (the "2007 Award Plan") to directors, employees and consultants. In connection with the adoption of the 2011 Award Plan, the Company will no longer grant any stock-based awards under the 2007 Award Plan.

The material terms of each option granted pursuant to the 2011 Award Plan shall contain the following terms: (i) that the purchase price of each share purchasable under an option shall not be less than 100% of the fair market value (as defined in the 2011 Award Plan) of such common share on the day prior to the date the option is granted, (ii) the term of each option shall be fixed, but no option shall be exercisable more than 10 years after the date such option is granted and (iii) in the absence of any option vesting periods at the time of grant, options shall vest and become exercisable as to one-third of the total number of shares subject to the option on each of the first, second and third anniversaries of the date of grant. Upon exercise of stock options, the Company will issue new common shares from the pool of authorized, unissued shares of the Company.

During the six months ended June 30, 2011, the Company granted 489,250 stock options, 481,000 of which were issued under the 2007 Award Plan and 8,250 of which were issued under the 2011 Award Plan, at various exercise prices ranging from \$5.01 to \$7.71 per share. The options granted vest pro rata over three years; all options expire ten years from the grant date.

As of June 30, 2011, 1,717,843 shares were remaining under the 2011 Award Plan for future issuance.

The total fair value of stock options granted to employees and directors during the six months ended June 30, 2011 was \$2,175,805, which is being recognized over the respective vesting periods. The Company recorded stock-based compensation expense of \$210,782 for the six months ended June 30, 2011 in connection with these stock options.

The Company estimates the fair value of share-based compensation utilizing the Black-Scholes option pricing model, which is dependent upon several variables such as the expected option term, expected volatility of our stock price over

the expected life, expected risk-free interest rate over the expected option term, expected dividend yield rate over the expected option term, and an estimate of expected forfeiture rates. The Company believes this valuation methodology is appropriate for estimating the fair value of stock options granted to employees and directors which are subject to ASC Topic 718 "Compensation – Stock Compensation" requirements. These amounts are estimates and thus may not be reflective of actual future results, nor amounts ultimately realized by recipients of these grants. The Company recognizes compensation on a straight-line basis over the requisite vesting period for each award. The following table summarizes the assumptions the Company utilized to record compensation expense for stock options granted during the six months ended June 30, 2011 and 2010:

F-12

Table of Contents

INTERCLICK, INC. AND SUBSIDIARY
NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS
JUNE 30, 2011
(Unaudited)

Assumptions	For the Six Months Ended June 30, 2011	For the Six Months Ended June 30, 2010
Expected life (years)	6.0	3.5 - 3.75
Expected volatility	90.5% - 95.59 %	102.6% - 110.1 %
Weighted-average volatility	93.9 %	107.4 %
Risk-free interest rate	1.77% - 2.66 %	2.02% - 2.69 %
Dividend yield	0.00 %	0.00 %

For stock options issued through September 30, 2009, the expected life is based on the contractual term. Thereafter, the Company utilized the simplified method to estimate the expected life for stock options granted to employees and directors. The simplified method was used as the Company does not have sufficient historical data regarding stock option exercises. The expected volatility is based on historical volatility. The risk-free interest rate is based on the U.S. Treasury yields with terms equivalent to the expected life of the related option at the time of the grant. Dividend yield is based on historical trends. While the Company believes these estimates are reasonable, the compensation expense recorded would increase if the expected life was increased, a higher expected volatility was used, or if the expected dividend yield increased.

A summary of the Company's stock option activity under the Award Plans for employees and directors during the six months ended June 30, 2011 is presented below:

Options	Number of Shares	Weighted Average Exercise Price	Weighted Average Remaining Contractual Term	Aggregate Intrinsic Value
Balance Outstanding, December 31, 2010	5,134,792	\$ 2.94		
Granted	489,250	\$ 5.80		
Exercised	(197,626)	\$ 2.48		
Forfeited	(72,372)	\$ 4.24		
Expired	(3,335)	\$ 4.99		
Balance Outstanding, June 30, 2011	5,350,709	\$ 3.20	3.2	\$ 24,774,803
Exercisable, June 30, 2011	2,896,061	\$ 2.55	2.2	\$ 15,304,681
Outstanding, Exercisable and Expected to Vest at June 30, 2011	5,270,944	\$ 3.18	3.2	\$ 24,528,010

The balance of options outstanding at December 31, 2010 in the table above includes awards granted under the 2007 Award Plan and the 2007 Equity Incentive Plan, under which there were no shares available for future issuance. The table above excludes 150,000 options granted to a director of the Company on June 29, 2009, at a strike price of \$2.40 that had been granted outside of the 2007 Award Plan and 2007 Equity Incentive Plan.

The weighted-average grant-date fair value of options granted to employees during the six months ended June 30, 2011 and 2010 was \$4.45 and \$3.09, respectively. The total intrinsic value of options exercised by employees during the six months ended June 30, 2011 and 2010 was \$838,019 and \$136,749, respectively.

During the six months ended June 30, 2011 and 2010, the Company recognized an aggregate amount of \$1,978,023 and \$1,659,872, respectively, of stock-based compensation for options granted.

Nonvested Common Stock Grants to Employees and Directors

On March 21, 2011, executive officers and members of the Board of Directors were granted an aggregate of 387,500 shares of restricted common stock, under the 2007 Award Plan, having a fair value of \$2,344,375 (based on a quoted trading price of \$6.05 per share) that will vest in one-third installments on an annual basis. Accordingly, the Company has recognized stock-based compensation of \$215,804 for the six months ended June 30, 2011.

During the six months ended June 30, 2011 and 2010, the Company recognized an aggregate amount of \$270,494 and \$58,327, respectively, of stock-based compensation for nonvested shares of common stock issued to employees and directors.

Nonvested Shares	Number of Shares	Weighted Average Grant Date Fair Value
Nonvested at December 31, 2010	46,198	\$ 4.36
Granted	392,500	\$ 6.05
Vested	(3,516)	\$ 2.00
Forfeited	(1,900)	\$ 5.21
Nonvested at June 30, 2011	433,282	\$ 5.91

The total fair value of shares vested to employees during the six months ended June 30, 2011 and 2010 was \$26,388 and \$56,420, respectively.

As of June 30, 2011, there was \$2,286,476 of total unrecognized compensation costs related to nonvested share-based compensation arrangements. That cost is expected to be recognized over a weighted-average period of 2.86 years.

Other Stock-Based Option Awards to Nonemployees

On March 21, 2011, 5,000 restricted shares of common stock were granted to an advisor and will vest on March 21, 2012. Accordingly, the Company has recognized stock-based compensation of \$11,062 for the six months ended June 30, 2011.

As of June 30, 2011, there were 97,500 options outstanding out of 150,000 options granted in July 2009 to advisors. The options were granted outside of the 2007 Award Plan and 2007 Equity Incentive Plan, have an exercise price of \$2.48, and vest quarterly through March 2013.

Note 8. Earnings per Share

Components of basic and diluted earnings per share for the six months ended June 30, 2011 and 2010 and the three months ended June 30, 2011 were as follows:

	For the Six Months Ended June 30, 2011		
	Income (Numerator)	Shares (Denominator)	Per-Share Amount
Net income	\$ 745,645		
Basic EPS			
Income available to common stockholders	\$ 745,645	24,093,739	\$ 0.03
Effect of dilutive securities			
Stock options		1,745,472	
Stock warrants		362,478	
Nonvested shares		31,349	
Diluted EPS			
Income available to common stockholders + assumed conversions	\$ 745,645	26,233,038	\$ 0.03
For the Six Months Ended June 30, 2010			
	Income (Numerator)	Shares (Denominator)	Per-Share Amount
Net income	\$ 125,784		
Basic EPS			
Income available to common stockholders	\$ 125,784	23,646,178	\$ 0.01
Effect of dilutive securities			
Stock options	-	919,708	
Stock warrants	-	241,817	
Nonvested shares	-	12,408	
Diluted EPS			
Income available to common stockholders + assumed conversions	\$ 125,784	24,820,111	\$ 0.01

Table of Contents

INTERCLICK, INC. AND SUBSIDIARY
NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS
JUNE 30, 2011
(Unaudited)

	For the Three Months Ended June 30, 2011		
	Income (Numerator)	Shares (Denominator)	Per-Share Amount
Net income	\$ 636,092		
Basic EPS			
Income available to common stockholders	\$ 636,092	24,151,081	\$ 0.03
Effect of dilutive securities			
Stock options	-	1,920,913	
Stock warrants	-	403,613	
Nonvested shares	-	70,215	
Diluted EPS			
Income available to common stockholders + assumed conversions	\$ 636,092	26,545,822	\$ 0.02

Options to purchase 466,176 and 553,886 shares of common stock were outstanding during the three and six months ended June 30, 2011, but were not included in the computation of diluted earnings per share because the effects would have been anti-dilutive.

Options to purchase 5,395,459 and 1,781,500 shares of common stock and warrants to purchase 1,033,059 and 198,750 shares of common stock were outstanding during the three and six months ended June 30, 2010, respectively, but were not included in the computation of diluted earnings per share because the effects would have been anti-dilutive. In addition, 67,678 nonvested shares were not included in the computation of diluted earnings per share for the three months ended June 30, 2010, because the number of shares assumed purchased (calculated using the compensation cost attributed to future services and not yet recognized) under the treasury stock method exceeds the number of shares that would be issued.

Note 9. Income Taxes

Income tax expense amounting to \$409,219 for the six months ended June 30, 2011 is based on the Company's estimate of the effective tax rate expected to be applicable for the full year 2011. The effective tax rate of 35.4% for the six months ended June 30, 2011 differs from the statutory federal rate principally because of the effect of state income taxes, non-deductible expenses and the application of a higher marginal tax rate to the Company's opening deferred tax asset. The effective tax rate is based on the Company's best estimate of projected taxable income through the end of 2011.

The Company recorded an income tax provision for the six months ended June 30, 2010 of \$139,126. The tax benefit was based on the Company's estimate of the effective tax rate expected to be applicable for the full year. The effective tax rate of 52.5% for the six months ended June 30, 2010 differs from the statutory rate principally because of state income taxes, a valuation allowance established on capital loss carryforwards and other non-deductible expenses.

Table of Contents

NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS
JUNE 30, 2011
(Unaudited)

Note 10. Concentrations

Concentrations of Credit Risk

Financial instruments that potentially subject the Company to concentrations of credit risk consist of cash and cash equivalents and accounts receivable. Cash and cash equivalents are deposited in three financial institutions. The balance, at any given time, may exceed Federal Deposit Insurance Corporation insurance limits. As of June 30, 2011, there was approximately \$854,000 in excess of FDIC insurable limits.

Concentration of Revenues, Accounts Receivable and Publisher Expense

For the three and six months ended June 30, 2011 and 2010, the Company had concentrations of revenues with agency customers representing revenues equaling 10% or greater as follows:

	For the Three Months Ended June 30, 2011	For the Three Months Ended June 30, 2010	For the Six Months Ended June 30, 2011	For the Six Months Ended June 30, 2010	
Agency	Less than 10%	10.9	% Less than 10%	11.1	%
Agency	Less than 10%	Less than 10%	Less than 10%	11.3	%

At June 30, 2011 and December 31, 2010, concentration of accounts receivable with individual agency customers representing 10% or greater of accounts receivable was as follows:

	June 30, 2011	December 31, 2010
Agency	12.2%	Less than 10%
Agency	10.5%	Less than 10%

For the three and six months ended June 30, 2011 and 2010, the Company made significant purchases of advertising impressions from a publisher with a percentage of total publisher expense (included in cost of revenues) equaling 10% or greater as follows:

	For the Three Months Ended June 30, 2011	For the Three Months Ended June 30, 2010	For the Six Months Ended June 30, 2011	For the Six Months Ended June 30, 2010	
Publisher	29.6	%	33.9	%	23.8
					%
				30.5	%

Item 2. Management's Discussion and Analysis of Financial Condition and Results of Operations.

The following discussion and analysis should be read in conjunction with our unaudited condensed consolidated financial statements and related notes appearing elsewhere in this report on Form 10-Q. In addition to historical information, this discussion and analysis contains forward-looking statements that involve risks, uncertainties, and assumptions. Our actual results may differ materially from those anticipated in these forward-looking statements as a result of certain factors, including but not limited to those set forth under "Risk Factors" in our Form 10-K/A for the year ended December 31, 2010, filed with the SEC on March 22, 2011.

This following discussion and analysis includes both financial measures in accordance with GAAP, as well as a non-GAAP financial measure, EBITDA. EBITDA represents operating income exclusive of interest, taxes, depreciation and amortization, (including stock-based compensation) and other income and expense of a non-operating nature. EBITDA should be viewed as supplemental to, and not as an alternative for, net income or loss, income or loss from operations or any other measure for determining operating performance or liquidity, as determined under GAAP. We have included a reconciliation of our non-GAAP financial measure to net income. See pages 7 & 11 of this report.

EBITDA is used by our management as an additional measure of our performance for purposes of business decision-making, including developing budgets and managing expenditures. Period-to-period comparisons of EBITDA helps our management identify additional trends in our financial results that may not be shown solely by period-to-period comparisons of net income or loss, or income or loss from operations. Our management recognizes that EBITDA has inherent limitations because of the excluded items, particularly those items that are recurring in nature.

We believe that the presentation of EBITDA is useful to investors in their analysis of our results for reasons similar to the reasons why our management finds it useful and because it helps facilitate investor understanding of decisions made by our management in light of the performance metrics used in making those decisions. In addition, we believe that providing EBITDA, together with a reconciliation to GAAP, helps investors make comparisons between interclick and other companies. In making any comparisons to other companies, investors need to be aware that companies use different non-GAAP measures to evaluate their financial performance. Investors should pay close attention to the specific definition being used and to the reconciliation between such measure and the corresponding GAAP measure provided by each company under applicable SEC rules.

Company Overview

Powered by OSM, interclick, inc. (the "Company" or "interclick") offers proprietary data-valuation capabilities combining analytical expertise and media fulfillment to help marketers navigate the complex data ecosystem to drive successful online display and video campaigns. OSM is a powerful solution which aggregates and organizes billions of data points from 3rd party providers - delivering actionable consumer insights, scalable audiences and the most effective campaign execution. We generate our revenue by serving as a principal in transacting online display and online video advertising between agency clients and third party website publishers. Substantially all of the Company's revenues are generated in the United States.

interclick is particularly sensitive to seasonality given that the majority of its revenues are tied to CPM (cost-per-thousand) branded advertisers campaigns, which are strongest in the fourth quarter and weakest in the first quarter.

Significant events which affected our results of operations include:

Edgar Filing: interclick, inc. - Form 10-Q

- Revenues for the three months ended June 30, 2011 increased 34.0% to \$29,031,119 from \$21,659,883 for the three months ended June 30, 2010; revenues for the six months ended June 30, 2011 increased 47.3% to \$52,817,270 from \$35,861,740 for the six months ended June 30, 2010;
- Gross profit percentage for the three months ended June 30, 2011 was 41.1% as compared to 44.4% for the three months ended June 30, 2010; gross profit percentage for the six months ended June 30, 2011 was 43.6% as compared to 44.6% for the six months ended June 30, 2010;
- Operating expenses were 37.3% of revenue for the three months ended June 30, 2011 compared to 38.9% of revenue for the three months ended June 30, 2010; operating expenses were 40.8% of revenue for the six months ended June 30, 2011 compared to 42.2% of revenue for the six months ended June 30, 2010;

Table of Contents

- Headcount increased to 127 people at June 30, 2011 from 96 people at June 30, 2010;
- Operating income for the three months ended June 30, 2011 was \$1,103,917 as compared to \$1,205,606 for the three months ended June 30, 2010; operating income for the six months ended June 30, 2011 was \$1,466,938 as compared to \$861,962 for the six months ended June 30, 2010;
- EBITDA (a non-GAAP measure) for the three months ended June 30, 2011 was \$2,563,901 compared to \$2,394,988 for the three months ended June 30, 2010; EBITDA for the six months ended June 30, 2011 was \$4,339,226 compared to \$3,083,388 for the six months ended June 30, 2010; and
- Net income for the three months ended June 30, 2011 was \$636,092 or \$0.02 per diluted share, compared to a loss of (\$79,286) or \$0.00 per diluted share for the three months ended June 30, 2010. Net income for the six months ended June 30, 2011 was \$745,645 or \$0.03 per diluted share, compared to \$125,784 or \$0.01 per diluted share for the six months ended June 30, 2010. Results for the three months ended June 30, 2011 included an income tax expense of \$335,601, compared to an income tax expense of \$1,218,234 for the three months ended June 30, 2010. Results for the six months ended June 30, 2011 included an income tax expense of \$409,219. Results for the six months ended June 30, 2010 included an income tax expense of \$139,126 and an other than temporary impairment of available-for-sale securities of \$458,538.

Results of Operations

Three Months Ended June 30, 2011 Compared with Three Months Ended June 30, 2010

Revenues

	2011	2010	Period-over- Period \$ Change	Period-over- Period % Change	
Revenues	\$29,031,119	\$21,659,883	\$7,371,236	34.0	%

Our revenue growth is attributed primarily to an increase in the number of advertisers seeking interclick's solution and higher average revenue per advertising campaign.

The continued overall growth in online advertising, the planned further enhancements to our technology platforms, new product innovations, our ability to acquire quality advertising impressions from publishers, and our effectiveness at providing data integrations across campaigns and analytical insights to our clients, gives us confidence we will continue to increase our revenues on a year-over-year basis for the foreseeable future.

Cost of Revenues and Gross Profit

	2011	2010	Period-over- Period \$ Change	Period-over- Period % Change	
Cost of revenues	\$17,097,653	\$12,034,487	\$5,063,166	42.1	%
Percentage of revenues	58.9	% 55.6	%		

The increase in our cost of revenues is primarily attributable to the growth in advertising campaigns requiring the purchase of appropriate levels of advertising impressions from publishers. Cost of revenues is comprised primarily of the amounts paid for advertising impressions, third-party data, ad verification, privacy notification, rich media and ad serving expenses directly associated with given campaigns. The increase in cost of revenues as a percentage of revenue is primarily attributable to higher advertising impressions (including video), data, ad verification and privacy notification fees. Changes in cost of revenues as a percentage of revenue in any given period are also a function of the mix of advertising campaigns and general market conditions.

Table of Contents

	2011	2010	Period-over- Period \$ Change	Period-over- Period % Change	
Gross profit	\$11,933,466	\$9,625,396	\$2,308,070	24.0	%
Percentage of revenues	41.1	% 44.4	%		

The overall increase in gross profit is the primary result of the increase in revenue, largely offset by higher cost of revenues. The decrease in gross profit as a percentage of revenue is attributable to higher year-over-year growth in cost of revenues as compared to the growth in revenues. We expect gross margin percentages will continue to range in the mid to low 40's over the next 12 months due to market conditions, seasonal fluctuations and varying costs in connection with the dynamic mix of advertising campaigns, data, ad verification and privacy notification efforts.

Operating Expenses

Operating expenses consist of general and administrative, sales and marketing, technology support, and amortization of intangible assets. These are discussed in further detail below. Total operating expenses increased to \$10,829,549 for the three months ended June 30, 2011, from \$8,419,790 for the three months ended June 30, 2010, an increase of \$2,409,759 or 28.6%. The increase was primarily due to headcount expansion from 96 employees as of June 30, 2010 to 127 employees as of June 30, 2011 (an increase of 32%), higher marketing and sales related expenses, and increased overhead expenditures necessary to support interclick's increased business and ongoing product innovation initiatives, including our new audience recommendation engine Genome powered by OSMTM ("Genome"). These increases were partially offset by the capitalization of approximately \$554,000 of internal-use software costs during the period (discussed further below) and the absence of a net cease-use charge of approximately \$432,000 recognized in the prior year period. As a percentage of revenues, operating expenses decreased to 37.3% for the three months ended June 30, 2011, from 38.9% for the three months ended June 30, 2010. The majority of hiring was in the operations, technology, product and sales areas to support the growth of our business and the ongoing innovation, development and marketing of our technology platform, including OSM. We expect to continue hiring at a slower pace than year-over-year revenue growth during the second half of 2011.

General and Administrative

	2011	2010	Period-over- Period \$ Change	Period-over- Period % Change	
General and administrative	\$4,985,318	\$3,873,745	\$1,111,573	28.7	%
Percentage of revenues	17.2	% 17.9	%		

General and administrative expenses consist primarily of executive, finance, administrative, operations and product support compensation (including stock-based compensation), facilities costs, depreciation, professional fees, licenses, insurance, and other expenses. The increase in general and administrative expenses is primarily attributable to our headcount expansion, higher expenditures necessary to support interclick's increased business, such as rent, depreciation and insurance, as well as approximately \$208,000 of legal litigation expenses that did not occur in the prior year period, partially offset by the absence of a cease-use charge of approximately \$432,000 recognized in the prior year period. While overall general and administrative expenses increased year-over-year, they decreased as a percentage of revenue due to the Company's growth in revenues, offset largely by headcount growth, the absence of a net cease-use charge recognized in the prior year period, legal litigation expenses and other overhead. The Company expects general and administrative expenses as a percentage of revenue to generally decline as the business expands,

notwithstanding legal litigation costs which are currently expected to range between approximately \$1.2 million and \$1.5 million in 2011.

Sales and Marketing

	2011	2010	Period-over- Period \$ Change	Period-over- Period % Change
Sales and marketing	\$4,164,583	\$3,087,183	\$1,077,400	34.9 %
Percentage of revenues	14.3	% 14.3	%	

Table of Contents

Sales and marketing expenses consist primarily of compensation (including sales commissions and stock-based compensation) for sales and marketing personnel, sales support resources, marketing and advertising efforts and industry event expenses. The increase in our sales and marketing expenses is primarily attributable to higher costs incurred in connection with the Company's marketing and advertising initiatives to promote interclick's brand and headcount expansion. The Company expects to continue its marketing and advertising efforts for the foreseeable future, including in connection with, the launch of Genome.

Technology Support

	2011	2010	Period-over- Period \$ Change	Period-over- Period % Change	
Technology support	\$1,596,462	\$1,419,362	\$177,100	12.5	%
Percentage of revenues	5.5	% 6.6	%		

Technology support consists primarily of compensation (including stock-based compensation) of technology support and related resources such as hosting, software and internet-related expenses. Technology support and related resources have been directed primarily towards supporting the growth of our business and the continued development and enhancement of our OSM and ad serving platforms, including the integration of data providers, and ongoing maintenance and improvement of our technology infrastructure, including expansion of our data center facilities in the first quarter of 2011.

The increase in technology support is primarily attributable to headcount expansion and higher hosting expenses, largely offset by the capitalization of approximately \$554,000 of internal-use software costs in the second quarter of 2011. Such costs included payroll and payroll related costs attributable to product development personnel in our technology support group. We expect to capitalize additional costs associated with the development of internal-use software in the near-term.

As a technology-centric company, interclick is highly dependent on technology related costs to support its infrastructure operations and differentiated product offerings in the marketplace. The Company expects that its efforts in this regard will continue to help drive revenue growth and operating effectiveness for the foreseeable future.

Amortization of Intangible Assets

	2011	2010	Period-over- Period \$ Change	Period-over- Period % Change	
Amortization of intangible assets	\$83,186	\$39,500	\$43,686	110.6	%
Percentage of revenues	0.3	% 0.2	%		

Amortization of intangible assets includes amortization of customer relationships, developed technology, internal-use software and a domain name acquired through the Desktop acquisition in 2007. The increase in amortization of intangible assets expense is attributable to the capitalization and amortization of internal-use software beginning in the first quarter of 2011.

Other Income (Expense)

	2011		2010		Period-over- Period \$ Change		Period-over- Period % Change
Other income (expense)	\$(132,224)	\$(66,658)	\$(65,566)	98.4
Percentage of revenues	-0.5	%	-0.3	%			%

Other income (expense) consists principally of interest expense. The increase in our interest expense from \$74,537 for the three months ended June 30, 2010 to \$134,133 for the three months ended June 30, 2011 is primarily attributable to higher outstanding borrowings under our current line of credit versus our former line of credit, which is partially offset with savings from more favorable borrowing rates on our current line of credit. The increase is also partially attributable to increased interest expense incurred on capitalized leases for computer equipment purchased during 2010 and during the six months ended June 30, 2011.

Table of Contents

Income Tax Expense

	2011	2010	Period-over- Period \$ Change	Period-over- Period % Change
Income tax expense	\$(335,601)	\$(1,218,234)	\$882,633	-72.5 %
Percentage of revenues	-1.2 %	-5.6 %		

The decrease in income tax expense for the three months ended June 30, 2011 is primarily attributable to the reversal of an income tax benefit recognized during the three months ended March 31, 2010, and decreased taxable income generated by the Company for the three months ended June 30, 2011 as compared to the three months ended June 30, 2010. This was partially offset by a lower effective tax rate versus the year-ago-period. The Company's effective tax rate for the three months ended June 30, 2011 was 34.5%. The Company currently estimates that its effective tax rate will be in the high-30s to low-40s percentage range for the foreseeable future.

Net Income

	2011	2010	Period-over- Period \$ Change	Period-over- Period % Change
Net income (loss)	\$636,092	\$(79,286)	\$715,378	N/A
Percentage of revenues	2.2 %	-0.4 %		

The increase in net income is primarily attributable to a significant income tax expense recognized in the three months ended June 30, 2010, partially offset by decreased taxable income generated by the Company for the three months ended June 30, 2011. Income before income tax expense decreased from \$1,138,948 for the three months ended June 30, 2010 to \$971,693 for the three months ended June 30, 2011. This was largely attributable to higher revenue growth, offset by costs of revenues and operating expenses growing at a faster rate than revenues during the three months ended June 30, 2011.

Reconciliation of GAAP to Non-GAAP Measure

	For the Three Months Ended June 30, 2011	For the Three Months Ended June 30, 2010
GAAP net income (loss)	\$636,092	\$(79,286)
Income tax expense	335,601	1,218,234
Income before income taxes	971,693	1,138,948
Interest expense	134,133	74,537
Interest income	(1,909)	(8,151)
Warrant derivative liability expense	-	272
Operating income	1,103,917	1,205,606

Edgar Filing: interclick, inc. - Form 10-Q

Stock-based compensation	1,122,228	972,488
Amortization of intangible assets	83,186	39,500
Depreciation	254,568	177,394
EBITDA	\$2,563,899	\$2,394,988

7

Table of Contents

Six Months Ended June 30, 2011 Compared with Six Months Ended June 30, 2010

Revenues

	2011	2010	Period-over- Period \$ Change	Period-over- Period % Change	
Revenues	\$52,817,270	\$35,861,740	\$16,955,530	47.3	%

Our revenue growth is attributed primarily to an increase in the number of advertisers seeking interclick's solution and higher average revenue per advertising campaign.

The continued overall growth in online advertising, ongoing enhancements to our technology platforms and new product innovations, our ability to acquire quality advertising impressions from publishers, and our effectiveness at providing data integrations across campaigns and analytical insights to clients, gives us confidence we will continue to increase our revenues on a year-over-year basis for the foreseeable future.

Cost of Revenues and Gross Profit

	2011	2010	Period-over- Period \$ Change	Period-over- Period % Change	
Cost of revenues	\$29,779,098	\$19,853,668	\$9,925,430	50.0	%
Percentage of revenues	56.4	% 55.4	%		

The increase in our cost of revenues is primarily attributable to the growth in advertising campaigns requiring the purchase of appropriate levels of advertising impressions from publishers. Cost of revenues is comprised primarily of the amounts paid for advertising impressions, third-party data, ad verification, privacy notification, rich media and ad serving expenses directly associated with given campaigns. The increase in cost of revenues as a percentage of revenue is primarily attributable to higher advertising impression (including video), data, ad verification and privacy notification fees. Changes in cost of revenues as a percentage of revenue in any given period are also a function of the mix of advertising campaigns and general market conditions.

	2011	2010	Period-over- Period \$ Change	Period-over- Period % Change	
Gross profit	\$23,038,172	\$16,008,072	\$7,030,100	43.9	%
Percentage of revenues	43.6	% 44.6	%		

The overall increase in gross profit dollars is the primary result of the increase in revenue largely offset by higher cost of revenues. The decrease in gross profit as a percentage of revenue in 2011 from 2010 is attributable the higher year-over-year growth in cost of revenues as compared to the growth in revenues. We expect gross margin percentages will continue to range in the mid to low 40's over the next 12 months due to market conditions, seasonal fluctuations and varying costs in connection with the dynamic mix of advertising campaigns, data, ad verification and privacy notification efforts.

Operating Expenses

Operating expenses consist of general and administrative, sales and marketing, technology support, and amortization of intangible assets. These are discussed in further detail below. Total operating expenses increased to \$21,571,234 for the six months ended June 30, 2011, from \$15,146,110 for the six months ended June 30, 2010, an increase of \$6,425,124 or 42.4%. The increase was primarily due to headcount expansion from 96 employees as of June 30, 2010 to 127 employees as of June 30, 2011 (an increase of 32%), higher, marketing and sales related expenses, and increased overhead expenditures necessary to support interclick's increased business and ongoing product innovation initiatives, including our new audience recommendation engine Genome powered by OSMTM ("Genome"). These increases were partially offset by the capitalization of approximately \$1,009,000 of internal-use software costs during the period (discussed further below) and the absence of a net cease-use charge of approximately \$432,000 recognized in the prior year period. As a percentage of revenues, operating expenses decreased to 40.8% for the six months ended June 30, 2011, from 42.2% for the six months ended June 30, 2010, representing improved operating efficiency as the business expanded. The majority of hiring was in the operations, technology, product and sales areas to support the growth of our business and the ongoing innovation, development and marketing of our technology platform, including OSM. We expect to continue hiring at a slower pace than year-over-year revenue growth during the second half of 2011

Table of Contents

In the first quarter of 2011, we began capitalizing the costs of internal-use software development projects. In connection with these projects, we capitalized approximately \$1,009,000 of payroll and payroll related costs attributable to the product development personnel in our technology support group during the six months ended June 30, 2011. These costs are amortized over three years as intangible assets as discussed further below.

General and Administrative

	2011		2010	Period-over- Period \$ Change	Period-over- Period % Change
General and administrative	\$10,503,214		\$7,104,273	\$3,398,941	47.8
Percentage of revenues	19.9	%	19.8	%	%

General and administrative expenses consist primarily of executive, finance, administrative, operations and product support compensation (including stock-based compensation), facilities costs, depreciation, professional fees, licenses, insurance and other expenses. The increase in general and administrative expenses is primarily attributable to our headcount expansion, higher expenditures necessary to support interclick's increased business, such as rent, depreciation and insurance, as well as approximately \$875,000 of legal litigation expenses that did not occur in the prior year period, partially offset by the absence of a net cease-use charge of approximately \$432,000 recognized in the prior year period. While overall general and administrative expenses increased year-over-year, they remained relatively constant as a percentage of revenue due to the Company's growth in revenues offset largely by headcount growth, legal litigation expenses, insurance and other overhead. The Company expects general and administrative expenses as a percentage of revenue to generally decline as the business expands, despite legal litigation costs which are currently expected to range between approximately \$1.2 million and \$1.5 million in 2011.

Sales and Marketing

	2011		2010	Period-over- Period \$ Change	Period-over- Period % Change
Sales and marketing	\$7,963,771		\$5,203,897	\$2,759,874	53.0
Percentage of revenues	15.1	%	14.5	%	%

Sales and marketing expenses consist primarily of compensation (including sales commissions and stock-based compensation) for sales and marketing personnel, sales support resources, marketing and advertising efforts and industry event expenses. The increase in our sales and marketing expenses is primarily attributable to costs incurred in connection with the Company's marketing and advertising initiatives to promote interclick's brand and headcount expansion. The Company expects to continue its marketing and advertising efforts for the foreseeable future, including in connection with the launch of Genome.

Table of Contents

Technology Support

	2011	2010	Period-over- Period \$ Change	Period-over- Period % Change	
Technology support	\$2,971,448	\$2,758,940	\$212,508	7.7	%
Percentage of revenues	5.6	% 7.7	%		

Technology support consists primarily of compensation (including stock-based compensation) of technology support and related resources such as hosting, software and internet-related expenses. Technology support and related resources have been directed primarily towards supporting the growth of our business and the continued development and enhancement of our OSM and ad serving platforms, including the integration of data providers, and ongoing maintenance and improvement of our technology infrastructure, including expansion of our data center facilities.

The increase in technology support is primarily attributable to headcount expansion and higher hosting expenses, largely offset by the capitalization of approximately \$1,009,000 of internal-use software costs for the six months ended June 30, 2011. Such costs included payroll and payroll related costs attributable to product development personnel in our technology support group. We expect to capitalize additional costs associated with the development of internal-use software in the near-term.

As a technology-centric company, interclick is highly dependent on technology related costs to support its infrastructure operations and differentiated product offerings in the marketplace. The Company expects that its efforts in this regard will continue to help drive revenue growth and operating effectiveness for the foreseeable future.

Amortization of Intangible Assets

	2011	2010	Period-over- Period \$ Change	Period-over- Period % Change	
Amortization of intangible assets	\$132,801	\$79,000	\$53,801	68.1	%
Percentage of revenues	0.3	% 0.2	%		

Amortization of intangible assets includes amortization of customer relationships, developed technology, internal-use software and a domain name acquired through the Desktop acquisition in 2007. The increase in amortization of intangible assets expense is attributable to the capitalization and amortization of internal-use software beginning in the first quarter of 2011.

Other Income (Expense)

	2011	2010	Period-over- Period \$ Change	Period-over- Period % Change	
Other income (expense)	\$(312,074)	\$(597,052)	\$284,978	-47.7	%
Percentage of revenues	-0.6	% -1.7	%		

Other income (expense) consists primarily of interest expense, and in the prior year period, other than temporary impairment of available-for-sale securities and warrant derivative liability income. The decrease in other expense is primarily attributable to the absence of \$458,538 in other than temporary impairment of available-for-sale securities recognized in the prior year period. The vast majority of such available-for-sale securities were sold in December and accordingly no material impairments or loss thus no material impairments of loss on these available-for-sale securities is expected to occur in future periods. This decrease was partially offset by an increase in interest expense to \$316,334 for the six months ended June 30, 2011, from \$176,946 for the six months ended June 30, 2010, in connection with higher outstanding borrowings under our current line of credit versus our former line of credit, as well as increased interest expense incurred on capitalized leases for computer equipment purchased during 2010 and during the six months ended June 30, 2011.

Table of Contents

Income Tax Expense

	2011		2010		Period-over- Period \$ Change	Period-over- Period % Change
Income tax expense	\$(409,219)	\$(139,126)	\$(270,093) 194.1
Percentage of revenues	-0.8	%	-0.4	%		

Income tax expense for the six months ended June 30, 2011 is attributable to the increased taxable income generated by the Company for the six months ended June 30, 2011 over for the six months ended June 30, 2010, partially offset by the reversal of an income tax benefit recognized during the three months ended March 31, 2010. The Company's effective tax rate for the six months ended June 30, 2011 was 35.4%. The Company currently estimates that its effective tax rate will be in the high-30s to low-40s percentage range for the foreseeable future.

Net Income

	2011		2010		Period-over- Period \$ Change	Period-over- Period % Change
Net income	\$745,645		\$125,784		\$619,861	492.8
Percentage of revenues	1.4	%	0.4	%		

The increase in net income is largely attributable to revenue growth, operating expenses growing at a slower pace than revenues, the absence of an impairment on available-for-sale securities, and reduced income tax expense. The increase was partially offset by higher cost of revenues and higher interest expense.

Reconciliation of GAAP to Non-GAAP Measure

	For the Six Months Ended June 30, 2011	For the Six Months Ended June 30, 2010
GAAP net income	\$745,645	\$125,784

Table of Contents

Liquidity and Capital Resources

Net cash provided by operating activities during the six months ended June 30, 2011 totaled \$5,804,830 and resulted primarily from net income of \$745,645, adjusted for non-cash items, including stock-based compensation of \$2,283,611, and depreciation and amortization expense of \$588,677. In addition to these non-cash adjustments, cash was positively affected by a decrease in accounts receivable of \$12,955,542, due to collections on our industry's seasonally strongest revenues from the fourth quarter, partially offset by our industry's seasonally weakest revenues in the first quarter. These increases were partially offset by seasonally strong decreases in accounts payable of \$6,540,189, accrued expenses of \$1,312,388, primarily attributable to the payment of 2010 bonuses, and an increase in prepaid expenses and other current assets of \$2,717,563, including prepaid income taxes of \$2,465,190.

Net cash provided by operating activities during the six months ended June 30, 2010 totaled \$945,139 and resulted primarily from net income of \$125,784, adjusted for non-cash items, including stock-based compensation of \$1,822,070, an other than temporary impairment of available-for-sale securities of \$458,538, and depreciation and amortization expense of \$399,356. In addition to these non-cash adjustments, cash was positively affected by an increase in deferred rent attributable to a net cease-use charge of approximately \$432,000 relating to the Company's expansion into larger headquarters in the second quarter of 2010. These increases were partially offset by seasonally strong decreases in accounts payable of \$442,026, accrued expenses of \$672,039 primarily attributable to the payment of 2009 bonuses, and the decrease of income taxes payable as we paid our 2009 income tax liabilities.

Net cash used in investing activities during the six months ended June 30, 2011 totaled \$1,296,304 and resulted primarily from the purchase of \$286,810 of property and equipment, which were necessary as we continue to build out our technology infrastructure and \$1,009,494 of costs associated with the development of our various internal-use software platforms, including enhancements to OSM.

Net cash used in investing activities during the six months ended June 30, 2010 totaled \$1,855,639 and resulted primarily from \$573,929 of purchases of property and equipment and the transfer of \$1,292,960 of cash to restricted cash related to certificates of deposit securing letters of credit.

Net cash used in financing activities during the six months ended June 30, 2011 was \$4,235,617 and resulted primarily from the net repayment of \$4,500,000 of borrowings under the Company's current line of credit and \$359,124 of payments made on the capitalized leases for property and equipment acquired. These repayments were partially offset by proceeds of \$562,968 received from the exercise of stock options and warrants.

Net cash used in financing activities during the six months ended June 30, 2010 was \$1,820,688 and resulted primarily from net repayments of \$1,981,113 under the former Crestmark Commercial Capital Lending, LLC ("Crestmark") line of credit, partially offset by proceeds of \$228,732 received from the exercise of stock options.

During six months ended June 30, 2011, we acquired \$1,754,371 in capital assets, including \$1,467,560 of computer equipment through conventional capital leases. These additions further enhance the features and scale of our technology assets, which are necessary to support both the realization of growth objectives as well as to advance interclick's present competitive position. For the remainder of 2011, we expect to acquire up to approximately \$1,200,000 in additional capital assets, a portion of which will likely be financed through capital leases.

As of June 30, 2011, the balance outstanding on the SVB line of credit was \$4,000,000. As of June 30, 2011, the Company had \$11,000,000 of borrowing capacity available under the SVB line of credit based on the availability of eligible accounts receivable.

As of June 30, 2011, the Company has an outstanding standby letter of credit in the amount of \$294,700 for the benefit of the landlord of the Company's New York office facilities. This letter of credit is secured by a certificate of deposit, which at June 30, 2011, is classified as restricted cash, a non-current asset.

At June 30, 2011, interclick had working capital of \$27,083,584, including \$12,723,559 in cash and cash equivalents, \$499,508 in a short-term investment, and \$500,815 in near-term restricted cash. interclick's working capital is impacted by the seasonal nature of its business, whereby revenue and receivables are typically weakest in the first quarter and strongest in the fourth quarter. As of August 5, 2011, interclick had approximately \$10,192,000 of cash and cash equivalents and \$798,000 in total restricted cash. Due to this cash position, full use of the SVB line of credit has recently not been necessary. interclick has delivered positive EBITDA for more than two years. We discuss this non-GAAP financial measure and its limitations under Company Overview above. Management anticipates that revenues will continue to increase for the foreseeable future. For all of these reasons, interclick expects that it has sufficient cash and borrowing capacity to meet its working capital needs for at least the next 12 months.

Critical Accounting Policies and Estimates

Management's discussion and analysis of financial condition and results of operations is based upon our consolidated financial statements, which have been prepared in accordance with accounting principles generally accepted in the United States of America. The preparation of these unaudited condensed consolidated financial statements requires us to make estimates and assumptions that affect the reported amounts of assets, liabilities, revenues and expenses, and related disclosure of contingent assets and liabilities. On an ongoing basis, we evaluate our estimates, including those related to the accounts receivable and allowance for doubtful accounts, intangible assets and goodwill, useful lives of intangible assets and property and equipment, fair values of stock-based awards, income taxes, and contingent liabilities, among others.

In response to the SEC's financial reporting release, FR-60, "Cautionary Advice Regarding Disclosure About Critical Accounting Policies," the Company has selected a more subjective accounting estimation processes for purposes of explaining the methodology used in calculating estimates, in addition to the inherent uncertainties pertaining to the estimate and the possible effects on interclick's financial condition. The accounting estimates are discussed below. These estimates involve certain assumptions that if incorrect could create a material adverse impact on interclick's results of operations and financial condition.

Allowance for Doubtful Accounts

Management is particularly attentive to the length of accounts receivable collection cycles and the related possibility of an increase in bad debts. Management continuously monitors the credit worthiness of our customers and the aging of accounts receivable to identify accounts receivable balances which may be deemed uncollectible, and to establish an appropriate allowance based upon historical collection and write-off experience. The Company's customer agreements are primarily entered into with agencies which manage campaigns on behalf of brand advertisers. Such agreements are governed by Standard Terms and Conditions for Internet Advertising as prescribed by the Interactive Advertising Bureau. Under these agreements, the Company holds the agency liable for payments to the extent proceeds have cleared from the advertiser to the agency for campaigns placed in accordance with the agreement. For sums not cleared to the agency, the Company may hold the advertiser solely liable. Write-offs of accounts receivable are taken in the period when the Company has exhausted its efforts to collect overdue and unpaid receivables or otherwise has evaluate other circumstances that indicate that the Company should abandon such efforts.

The Company's bad debt reserve was \$439,778, or approximately 1.37% of gross accounts receivable as of June 30, 2011 as compared to \$563,512, or 1.25% of gross accounts receivable as of December 31, 2010.

Internal-Use Software

The Company's policy with respect to internal-use software provides for the capitalization of external direct costs of materials and services associated with developing or obtaining internal use software. In addition, the Company also capitalizes certain payroll and payroll-related costs for employees who are directly associated with developing internal use software projects. The amount of capitalizable payroll costs is limited to the time directly spent on such

projects. Costs associated with preliminary project state activities, training, maintenance and all other post-implementation stage activities are expensed as incurred. The Company also expenses internal costs related to minor upgrades and enhancements related activities, as it is impractical to separate these costs from normal maintenance activities. The Company began capitalizing internal-use software costs beginning in 2011 due to the success and market acceptance of OSM after its launch in 2010.

Table of Contents

Revenue Recognition

Revenues consist of amounts charged to customers, net of discounts, credits and amounts paid for serving advertising impressions, click-throughs or other actions placed on our publisher vendor's websites. The Company's revenue is recognized in the period that the advertising impressions, click-throughs or actions occur, when lead-based information is delivered or, provided that no significant Company obligations remain, collection of the resulting receivable is reasonably assured, and prices are fixed or determinable. The Company recognizes revenue as a principal on a gross basis when the following criteria have been met: (i) persuasive evidence of an arrangement exists, (ii) the fees are fixed or determinable, (iii) no significant Company obligations remain, and (iv) collection of the related receivable is reasonably assured.

Stock-Based Compensation

Stock-based compensation expense is estimated at the grant date based on the award's fair value as calculated by the Black-Scholes option pricing model and is recognized as expense over the requisite service period. The Black-Scholes option pricing model requires various highly judgmental assumptions including expected volatility and expected term. If any of the assumptions used in the Black-Scholes option pricing model changes significantly, stock-based compensation expense may differ materially in the future from that recorded in the current period. In addition, we are required to estimate the expected forfeiture rate and only recognize expense for those shares expected to vest. We estimate the forfeiture rate based on historical experience. To the extent our actual forfeiture rate is different from our estimated rate, stock-based compensation expense is adjusted accordingly.

Cautionary Note Regarding Forward-Looking Statements

This report contains forward-looking statements within the meaning of the Private Securities Litigation Reform Act of 1995 including anticipated revenues, expected increases in our advertising customer base, expected gross margins, expected hiring of new employees, having sufficient cash and borrowing capacity to meet its working capital for at least the next 12 months and expectations regarding acquiring additional capital assets. Forward-looking statements can be identified by words such as "anticipates," "intends," "plans," "projects," "seeks," "believes," "estimates," "expects" and references to future periods.

Forward-looking statements are based on our current expectations and assumptions regarding our business, the economy and other future conditions. Because forward-looking statements relate to the future, they are subject to inherent uncertainties, risks and changes in circumstances that are difficult to predict. Our actual results may differ materially from those contemplated by the forward-looking statements. We caution you therefore against relying on any of these forward-looking statements. They are neither statements of historical fact nor guarantees or assurances of future performance. Important factors that could cause actual results to differ materially from those in the forward-looking statements include the impact of factors either within or outside our control. These include, but are not limited to, intense competition, the worsening of current economic conditions, a potential decrease in corporate advertising spending, a potential decrease in consumer spending, the condition of the domestic and global credit and capital markets, higher-than-expected expenses, and our ability to generate revenue and effectively operate the business.

Any forward-looking statement made by us in this report speaks only as of the date on which it is made. Factors or events that could cause our actual results to differ may emerge from time-to-time, and it is not possible for us to predict all of them. We undertake no obligation to publicly update any forward-looking statement, whether as a result of new information, future developments or otherwise, except as may be required by law.

Item 3.

Quantitative and Qualitative Disclosures About Market Risk.

Not applicable to smaller reporting companies

Item 4. Controls and Procedures.

Evaluation of Disclosure Controls and Procedures . Our management carried out an evaluation, with the participation of our Principal Executive Officer and Principal Financial Officer, required by Rule 13a-15 of the Securities Exchange Act of 1934 (the “Exchange Act”) of the effectiveness of our disclosure controls and procedures as defined in Rule 13a-15(e) under the Exchange Act. Based on that evaluation, our Principal Executive Officer and Principal Financial Officer concluded that our disclosure controls and procedures were effective as of the end of the period covered by this report to ensure that information required to be disclosed by us in the reports that we file or submit under the Exchange Act is recorded, processed, summarized and reported within the time periods specified in the SEC’s rules and forms and is accumulated and communicated to our management, including our Principal Executive Officer and Principal Financial Officer, or persons performing similar functions, as appropriate to allow timely decisions regarding required disclosure.

Table of Contents

Changes in Internal Control Over Financial Reporting . There were no changes in our internal control over financial reporting as defined in Rule 13a-15(f) under the Exchange Act that occurred during the period covered by this report that have materially affected, or are reasonably likely to materially affect, our internal control over financial reporting.

PART II – OTHER INFORMATION

Item 1. Legal Proceedings.

From time-to-time, the Company may be involved in litigation relating to claims arising out of the Company's operations in the normal course of business.

On or about December 8, 2010, Sonal Bose commenced an action in the United States District Court for the Southern District of New York (Sonal Bose v. Interclick, Inc., Case No. 10 Civ. 9183-DAB (S.D.N.Y.)) alleging that interclick engaged in certain activities that plaintiff claims violate electronic privacy and computer use laws. The plaintiff asserts federal and state law claims, and seeks compensatory, statutory, and punitive damages, restitution, and reimbursement of expenses and attorney's fees. The plaintiff also seeks injunctive and declaratory relief and class action certification.

Plaintiff also had brought a related action in the United States District Court for the Southern District of New York against certain of our advertisers, which has been voluntarily dismissed as a separate action now that plaintiff has filed an Amended Complaint naming the advertisers as defendants in the action against the Company. The Company is providing for the defense of the advertisers.

Motions to dismiss the suit by the Company and by the advertisers are pending. As noted in the motions to dismiss, interclick believes the case is entirely without merit and interclick intends to vigorously defend its prior practices and technology.

Item 1A. Risk Factors.

Not applicable to smaller reporting companies.

Item 2. Unregistered Sales of Equity Securities and Use of Proceeds.

Name or Class	Date Sold	No. of Securities	Consideration
Warrant holder (1)	April 25, 2011	45,225 shares of common stock	\$ 191,754
Warrant holder (1)	May 26, 2011	12,500 shares of common stock	\$ 35,000

(1) Exemption under Section 4(2) of the Act.

Item 3. Defaults Upon Senior Securities.

None

Item 4. (Removed and Reserved).

Item 5. Other Information.

None
