Grupo Radio Centro Reports First Quarter 2008 Results

Mexico City, April 22, 2008 - Grupo Radio Centro, S.A.B. de C.V. (NYSE: RC, BMV: RCENTRO-A) (the "Company"), one of Mexico's leading radio broadcasting companies, announced today its results of operations for the first quarter ended March 31, 2008. All figures were prepared in accordance with the Mexican Financial Reporting Standards ("MFRS") issued by the Mexican Board for Research and Development of Financial Information Standards.

First Quarter Results

Broadcasting revenue for the first quarter 2008 was Ps. 128,258,000, representing a slight decrease compared to the Ps. 128,534,000 reported in the same period of 2007. This decrease is attributable to lower advertising expenditures by the Company's clients during the first quarter 2008 compared to the first quarter 2007. This was a result of Holy Week taking place during the first quarter 2008, compared to 2007, when Holy Week fell during the second quarter.

The Company's broadcasting expenses (excluding depreciation, amortization and corporate, general and administrative expenses) for the first quarter 2008 totaled Ps. 103,981,000, a 5.4% decrease compared to the Ps. 109,969,000 reported in the first quarter 2007. This decrease was primarily attributable to lower sales commissions as well as lower advertising and promotion expenses during the first quarter 2008 compared to the first quarter 2007.

For the first quarter 2008, the Company reported broadcasting income (i.e., broadcasting revenue minus broadcasting expenses, excluding depreciation, amortization and corporate, general and administrative expenses) of Ps. 24,277,000, a 30.8% increase compared to the Ps. 18,565,000 reported in the first quarter 2007. This increase in broadcasting income was mainly attributable to the decrease in broadcasting expenses described above.

Depreciation and amortization expenses for the first quarter 2008 were Ps. 7,681,000, a 14.0% decrease compared to the Ps. 8,929,000 reported in the first quarter of 2007. This decrease was attributable to the Company no longer recording depreciation on certain assets after the fourth quarter 2006 due to the conclusion of their useful life.

For the first quarter 2008, the Company's corporate, general and administrative expenses were Ps. 3,495,000, a slight increase compared to the Ps. 3,439,000 reported in the first quarter 2007.

The Company reported operating income of Ps. 13,101,000 in the first quarter 2008, a 111.4% increase compared to the Ps. 6,197,000 reported in the first quarter 2007. This increase was mainly due to the decrease in broadcasting expenses during the first quarter 2008 compared to the first quarter 2007.

For the first quarter 2008, other expenses, net, were Ps. 11,823,000, a 7.7% increase compared to the Ps. 10,977,000 reported in the first quarter 2007. This increase is primarily attributable to the increase in expenses related to the company's listing on the Bolsa Mexicana de Valores (the Mexican Stock Exchange) and The New York Stock Exchange, as well as the inclusion of employee profit sharing expenses in this line item, as a result of a reclassification required by Bulletin D-3 ("Employee Benefits"), published by the Mexican Board for Research and Development of Financial Information Standards, which took effect in the fourth quarter 2007. Employee profit sharing expenses were previously recorded as a separate line item ("Provisions for income tax and employee profit sharing").

Grupo Radio Centro, S.A.B. de C.V.
First Quarter 2008 Results

The Company's comprehensive financing cost for the first quarter 2008 was Ps. 137,000, compared to a comprehensive financing gain of Ps. 510,000 for the first quarter 2007. This variation was mainly attributable to a 57.4% decrease in interest income during the period, reflecting a decline in the Company's cash and temporary investments, primarily as a result of a dividend payment in March 2008.

For the first quarter of 2008, the Company reported income before income taxes of Ps. 1,141,000 compared to a loss before income taxes of Ps. 4,270,000 reported for the first quarter 2007, primarily a result of lower broadcasting expenses.

The Company recorded income taxes of Ps. 331,000 in the first quarter 2008, compared to a negative provision of Ps. 1,302,000 in the first quarter 2007, as a result of higher taxable income.

As a result of the foregoing, the Company's net income for the first quarter 2008 was Ps. 810,000, compared to net loss of Ps. 2,968,000 in the first quarter 2007.

Cessation of inflation accounting under MFRS

In accordance with MFRS inflation accounting rules, the Company's first quarter 2007 financial statements are expressed in constant pesos as of December 31, 2007. As a result of a change in MFRS, the Company will no longer use inflation accounting for periods beginning in 2008, unless the economic environment in which we operate qualifies as "inflationary," as defined by MFRS. Because the economic environment in the first quarter 2008 did not qualify as inflationary, the Company did not use inflation accounting to prepare the first quarter 2008 financial statements.
