GENERAL 4

GENERAL 5

VOTING SECURITIES AND PRINCIPAL HOLDERS THEREOF

Our board of directors fixed the close of business on June 18, 2010 as the record date for the determination of shareholders entitled to notice of, and to vote at, the annual meeting. Only holders of our common stock on the record date will be able to vote at the annual meeting.

As of June 8, 2010, 30,442,881 shares of our common stock were outstanding. Each share of the our common stock will entitle the holder of such share to one vote. None of the company s shareholders have cumulative voting rights. Holders of shares of our common stock are entitled to vote on all matters. We also have 1,000,000 authorized shares of preferred stock, \$.001 par value per share, none of which are outstanding.

The holders of a majority of the total number of outstanding shares of our common stock entitled to vote must be present in person or by proxy to constitute the necessary quorum for any business to be transacted at the annual meeting. Properly executed proxies marked abstain, as well as proxies held in street name by brokers that are not voted on all proposals to come before the annual meeting (broker non-votes), will be considered present for purposes of determining whether a quorum has been achieved at the annual meeting.

The nine (9) nominees to our board of directors receiving the greatest number of votes cast at the annual meeting in person or by proxy shall be elected. Consequently, any shares of our common stock present in person or by proxy at the annual meeting, but not voted for any reason will have no impact in the election of our board of directors. Other matters that may be submitted to our shareholders for a vote at the annual meeting, if any, will require the favorable vote of a majority of the shares of our common stock present or represented at the annual meeting for approval, unless we advise you otherwise. If any matter proposed at the annual meeting must receive a specific percentage of favorable votes for approval, abstentions in respect of such proposal are treated as present and entitled to vote under Delaware law and therefore such abstentions have the effect of a vote against such proposal. Broker non-votes in respect of any proposal are not counted for purposes of determining whether such proposal has received the requisite approval.

Our directors will serve until the next annual meeting of stockholders and thereafter until their successors shall have been elected and qualified. Messrs. Jean Madar and Philippe Benacin have a verbal agreement or understanding to vote their shares in a like manner. As Messrs. Madar and Benacin beneficially own more than 50% of the outstanding shares of the Inter Parfums common stock, Inter Parfums is considered a controlled company under the applicable rules of The Nasdaq Stock Market.

With the exception of Mr. Benacin, the officers are elected annually by the directors and serve at the discretion of the board of directors. There are no family relationships between executive officers or directors of our company.

Members of our management have been informed that our controlling shareholders intend to vote in favor of all of the nominees for directors. Therefore, all of the nominees are all likely to be elected. We know of no business other than the election of directors that will be presented for consideration at the annual meeting. If any other matter is properly presented, then it is the intention of the persons named in the enclosed proxy to vote in accordance with their best judgment.

The following table sets forth information, as of June 8, 2010 with respect to the beneficial ownership of our common stock by (a) each person we know to be the beneficial owner of more than 5% of our outstanding common stock, (b) our executive officers and directors and (c) all of our directors and officers as a group. As of June 8, 2010 we had 30,442,881 shares of common stock outstanding.

PROPOSAL NO. 1: ELECTION OF DIRECTORS

General

The members of our board of directors are each elected with a plurality of votes cast in favor of their election for a one-year term or until their successors are elected and qualify.

Our present board of directors consists of nine (9) directors, with a majority of independent directors. Our present directors are Messrs. Jean Madar, Philippe Benacin, Russell Greenberg, Philippe Santi, Francois Heilbronn, Jean Levy, Robert Bensoussan-Torres, Serge Rosinoer and Patrick Choël, who were elected by the shareholders at the company s last annual meeting of shareholders held in July 2009 and who are nominees for reelection.

Unless authority is withheld, the proxies in the accompanying form will be voted in favor of the election of the nominees named above as directors. Although all of the nominees have indicated their willingness to serve if elected, if at the time of the meeting any nominee is unable to or unwilling to serve, then the shares represented by properly executed proxies will be voted at the discretion of the person named in the proxies for another person designated by our board of directors.

Board of Directors

Our board of directors has the responsibility for establishing broad corporate policies and for the overall performance of our Company. Although certain directors are not involved in day-to-day operating details, members of the board of directors are kept informed of our business by various reports and documents made available to them. Our board of directors held 18 meetings (or executed consents in lieu thereof), including meetings of committees of the full board of directors during 2009 (with the last regular board meeting held during the first week of January 2010), and all of the directors attended at least 75% of the meetings (or executed consents in lieu thereof) of the full board of directors and committees of which they were a member.

During 2009 our board of directors initially consisted of ten (10) directors. During January 2009 Mr. Joseph A. Caccamo stepped down from our board for personal reasons. Mr. Caccamo did not have any disputes or disagreements with our company. Our board of directors presently consists of nine (9) directors, with a majority of independent directors.

We have adopted a Code of Business Conduct that applies to our principal executive officer, principal financial officer, principal accounting officer or controller, as well as other persons performing similar functions, and we agree to provide to any person without charge, upon request, a copy of our Code of Business Conduct. Any person who requests a copy of our Code of Business Conduct should provide their name and address in writing to: Inter Parfums, Inc., 551 Fifth Avenue, New York, NY 10176, Att.: Shareholder Relations. In addition, our Code of Conduct is also maintained on our website, at www.interparfumsinc.com.

During 2009 our board of directors had the following standing committees:

Audit Committee The Audit Committee has the sole authority and is directly responsible for, the appointment, compensation and oversight of the work of the independent accountants employed by our company which prepare or

issue an audit report for our company. During 2009, the Audit Committee consisted of Messrs. Heilbronn, Levy and Choël.

The Company does not have an audit committee financial expert within the definition of the applicable Securities and Exchange Commission rules. First, finding qualified nominees to serve as a director of a public company without substantial financial resources has been challenging. Second, despite the applicable Securities and Exchange Commission rule which states that being named as the audit committee financial expert does not impose any greater duty, obligation or liability, the Company has been met with resistance from both present and former directors to being named as such primarily due to potential additional personal liability.

5

Board of Directors 11

However, as the result of the background, education and experience of the members of the Audit Committee, our board of directors believes that such committee members are fully qualified to fulfill their obligations as members of the Audit Committee.

Executive Compensation and Stock Option Committee The Executive Compensation and Stock Option Committee oversees the compensation of our company s executives and administers our company s stock option plans. During 2009, the members of such committee consisted of Messrs. Heilbronn, Levy and Choël. We presently do not have a separate charter for our Executive Compensation and Stock Option Committee.

Our board of directors does not maintain a standing nominating committee or a committee performing similar functions. In view of the agreement and understanding of Messrs. Jean Madar and Philippe Benacin who beneficially own more than 50% of the outstanding shares of the Inter Parfums common stock and have agreed to vote their shares in a like manner, our board of directors does not believe it necessary for our company to have such a committee. Also as a controlled company under the applicable rules of The Nasdaq Stock Market, we are exempt from the nominating committee requirements. During 2009, our board of directors as a group agreed to nominate the same members of the board who had served the prior year.

Director Independence

The following are our directors who are independent directors within the applicable rules of The Nasdaq Stock Market:

Francois Heilbronn
Jean Levy
Robert Bensoussan-Torres
Serge Rosinoer
Patrick Choël

We follow and comply with the independent director definitions as provided by The Nasdaq Stock Market rules in determining the independence of our directors, which are posted on our company s website. In addition, such rules are also available on The Nasdaq Stock Market s website.

However, as stated above, Messrs. Jean Madar and Philippe Benacin have a verbal agreement or understanding to vote their shares in a like manner. As Messrs. Madar and Benacin beneficially own more than 50% of the outstanding shares of the Inter Parfums common stock, Inter Parfums is considered a controlled company under the applicable rules of The Nasdaq Stock Market. As a controlled company, we are exempt for certain of the corporate governance rules of The Nasdaq Stock Market, such as the requirement of a nominating committee of the board.

In addition, The Nasdaq Stock Market maintains more stringent rules relating to director independence for the members of our Audit Committee, and the members of our Audit Committee, Messrs. Heilbronn, Levy and Choël, are independent within the meaning of those rules. We are not exempt from the more stringent rules relating to director independence for the members of our Audit Committee by virtue of the controlled company exception.

Board Leadership Structure and Risk Management

For more than the past ten (10) years, Jean Madar has held the positions of Chairman of the Board of Directors and Chief Executive Officer of our company. Almost since inception, Mr. Madar has been allocated the responsibility of overseeing our United States operations and the operation of Inter Parfums, Inc., as a public company. Philippe Benacin, as Chief Executive Officer of Inter Parfums, S.A., has been allocated the responsibility of overseeing our

European operations and its operation as a public company in France. In addition, Mr. Benacin is also the Vice Chairman of the Board of Directors of our company. Our board of directors is comfortable with this approach, as the two largest stockholders of our company are also directly responsible for the operations of our company s two operating segments. Accordingly, our board of directors does not have a Lead Director, a non-management director who controls the meetings of our board of directors.

Our board of directors manages risk by (i) period operating reports and discussion with management; (ii) approval of executive compensation incentive plans through its committee, the Executive Compensation and Stock Option Committee; (iii) approval of related party transactions through its committee, the Audit Committee; and (iv) approval of material transactions not in the ordinary course of business. Since our inception, we have never been the subject of any material product liability claims, and we have had no recent material property damage claims.

Further, we periodically enter into foreign currency forward exchange contracts to hedge exposure related to receivables denominated in a foreign currency and to manage risks related to future sales expected to be denominated in a foreign currency. We enter into these exchange contracts for periods consistent with our identified exposures. The purpose of the hedging activities is to minimize the effect of foreign exchange rate movements on the receivables and cash flows of Inter Parfums, S.A., our French subsidiary, whose functional currency is the Euro. All foreign currency contracts are denominated in currencies of major industrial countries and are with large financial institutions, which are rated as strong investment grade.

In addition, we mitigate interest rate risk by continually monitoring interest rates, and then determining whether fixed interest rates should be swapped for floating rate debt, or if floating rate debt should be swapped for fixed rate debt.

Section 16(a) Beneficial Ownership Reporting Compliance

Based solely upon a review of Forms 3, 4 and 5 and any amendments to such forms furnished to us, and written representations from various reporting persons furnished to us, we are not aware of any reporting person who has failed to file the reports required to be filed under Section 16(a) of the Securities Exchange Act of 1934 on a timely basis, except as follows:

Patrick Choël 18

Each of the independent directors, Messrs. Heilbronn, Levy, Bensoussan-Torres, Rosinoer and Choël, as the result of erroneous advise in respect of a rule change filed one Form 4 late (ranging from approximately 2 weeks to 11 months), by disclosing the automatic grant of options on February 2, 2009 incorrectly on their next required Form 4 rather than on a separate Form 4 for the option grant. Each of Messrs. Madar, Benacin, Greenberg and Clarke filed one form 4 one day late, which disclosed the grant of options on December 31, 2009.

Executive Compensation

Compensation Discussion and Analysis

General

The executive compensation and stock option committee of our board of directors is comprised entirely of independent directors and oversee all elements of compensation (base salary, annual bonus, long term incentives and perquisites) of our company s executive officers and administers our company s stock option plans, other than the non-employee directors stock option plan, which is self executing.

The objectives of our compensation program are designed to strike a balance between offering sufficient compensation to either retain existing or attract new executives on the one hand, and maintaining compensation at reasonable levels on the other hand. We do not have the resources comparable to the cosmetic giants in our industry, and accordingly cannot afford to pay excessive executive compensation. In furtherance of these objectives, our executive compensation packages generally include a base salary, as well as annual incentives tied to individual performance and long-term incentives tied to our operating performance.

Mr. Madar, the chairman and chief executive officer, takes the initiative after discussions with Mr. Russell Greenberg, an Executive Vice President, Chief Financial Officer and a Director, and recommends executive compensation levels for executives in the United States. Mr. Benacin, the president of Inter Parfums, S.A., takes the initiative after discussions with Philippe Santi, the Chief Financial Officer of Inter Parfums, S.A., and recommends executive compensation levels for executives in Europe. The recommendations are presented to the compensation committee for its consideration, and the compensation committee makes a final determination regarding salary adjustments and annual award amounts to executives, including our chief executive officer and president. Further, Messrs. Madar and Benacin, in addition to being executive officers and directors, are our largest shareholder s, and therefore, their interests are aligned with our shareholder base in keeping executive compensation at a reasonable level.

The compensation committee believes that individual executive compensation is at a level comparable with executives in other companies of similar size and stage of development that operate in the fragrance industry and take into account our company s performance as well as our own strategic goals. As the result of the global economic downturn, during 2009 previously authorized increases to base salaries of our executive officers in United States operations were rescinded and our Chief Executive Officer had his base salary decreased, as discussed in greater detail under the heading Elements of Compensation Base Salary. Further, the compensation committee believes that its present policies to date, with its emphasis on rewarding performance, has served to focus the efforts of our executives, which in turn permitted our Company to weather the storm of this recession and put our company on track to return to a high rate of growth and profitability, which management believes will result in a substantial increase in value to our shareholders.

Elements of Compensation

General

The compensation of our executive officers is generally comprised of base salaries, annual cash bonuses and long-term equity incentive awards. In determining specific components of compensation, the compensation committee considers individual performance, level of responsibility, skills and experience, and other compensation awards or arrangements. The compensation committee reviews and approves all elements of compensation for all of our executive officers taking into consideration recommendations from our Chief Executive Officer and the President of

Inter Parfums, S.A., as well as information regarding compensation levels at competitors in our industry.

Our named executive officers have all been with the company for more than the past ten (10) years, with Messrs. Madar and Benacin being founders of the company in 1985. As previously disclosed, Mr. Madar for United States operations, and Mr. Benacin for European operations, each recommend executive compensation levels for executives in the respective operating segments. In addition, and also as previously reported, Messrs. Greenberg, the Chief Financial Officer of the company (as well as United States operations) and Santi, the Chief Financial Officer of European operations, also participate in recommendations for executive compensation levels for executives in the respective operating segments.

10

General 21

As Messrs. Madar and Greenberg for United States operations, and Benacin and Santi for European operations, are most familiar with the individual performance, level of responsibility, skills and experience of each executive officer in their respective segments, the compensation committee relies upon the information provided by such executive officers in determining individual performance, level of responsibility, skills and experience of each executive officer.

The compensation committee views the competitive market place very broadly, which would include executive officers from both public and privately held companies in general, including fashion and beauty companies, but not limited to the peer companies contained in the corporate performance graph contained in this annual report. Rather than tie the compensation committee s determination of compensation proposals to any specific peer companies, the members of our committee have used their business experience, judgement and knowledge to review the executive compensation proposals recommended to them by Mr. Madar for United States operations and Benacin for European operations. As such, compensation committee did not determine the need to benchmark of any material item of compensation or overall compensation.

The members of the compensation committee have extensive experience and business acumen and are well qualified in determining the appropriateness of executive compensation levels. Mr. Heilbronn is a managing partner of a business consulting firm in the area of mergers and acquisitions of large international companies in retail, consumer goods and consumer services throughout the world. Mr. Levy has over thirty years experience as an executive officer, including more than ten years as President and Chief Executive Officer of well known cosmetic companies such as Cosmair and Sanofi Beaute (France). Mr. Choël, the final committee member, is presently a business consultant and advisor, who previously worked as President and Chief Executive Officer of two divisions of LVMH Moet Hennessy Louis Vuitton S.A., which included such well known brands as Parfums Christian Dior, Guerlain, and Parfums Givenchy.

Base Salary

Base salaries for executive officers are initially determined by evaluating the responsibilities of the position held and the experience of the individual, and by reference to the competitive market place for executive talent. Base salaries for executive officers are reviewed on an annual basis, and adjustments are determined by evaluating our operating performance, the performance of each executive officer, as well as whether the nature of the responsibilities of the executive has changed.

As stated above, as Messrs. Madar and Greenberg for United States operations, and Benacin and Santi for European operations, are most familiar with the individual performance, level of responsibility, skills and experience of each executive officer in their respective segments, the committee relies upon the information provided by such executive officers in determining individual performance, level of responsibility, skills and experience of each executive officer.

For executive officers of United States operations, the bulk of their annual compensation is in base salary. However, for executive officers of European operations base salary comprises a smaller percentage of overall compensation.

We have paid a lower percentage of overall compensation in the form of base salary to executive officers of European operations for several years, principally because European operations historically have had higher profitability than United States operations and European operations are run differently by the chief executive officer of European operations, Mr. Benacin, than United States operations. As the result of this historically higher profitability, European operations have had the ability to pay higher bonus compensation in addition to base salary. As bonus compensation is and has historically been discretionary, no targets were set in order to maintain flexibility. Further, if results of operations for European operations were not satisfactory (again, no target amounts were set to maintain flexibility), then bonus compensation, as well as overall compensation could be lowered without otherwise affecting base salary. Finally, by keeping annual bonus compensation at a higher percentage of overall compensation and base salary at a

Base Salary 22

lower percentage, our company benefits because the base amount for annual salary adjustments would be smaller.

11

Base Salary 23

Upon the recommendation of Mr. Benacin, the base salaries of Mr. Philippe Santi, the Chief Financial Officer of Inter Parfums, S.A., and Mr. Frederic Garcia-Pelayo, were each increased from 220,800 euro in 2008 to 249,600 euro in 2009, a 13% increase. Likewise, Mr. Benacin s base compensation was increased from 220,800 euro in 2008 to 249,600 euro in 2009.

A different approach is taken for United States operations as that segment is much smaller and profitability is much more volatile. A more significant base salary is paid in order to attract and retain employees with the skills and talents needed to run the operation with a lesser emphasis placed on bonuses. None of the executive officers for United States operations have employment agreements, as we believe that having flexibility in structuring annual base salary is a benefit, which permits us to act quickly to meet a changing economic environment.

Initially in 2009, the compensation committee had agreed to have the base salary of Mr. Madar, the Chief Executive Officer, remain at the same level of \$400,000, which it has been for the past several years. Further, upon recommendation of our Chairman and Chief Executive Officer, the executive compensation committee had determined to increase the base salary of Mr. Greenberg, the Chief Financial Officer, by \$20,000 from \$435,000 to \$455,000, a 4.6% increase and to increase the base salary of Mr. Clarke, the president of Inter Parfums USA, LLC (Specialty Retail Division) by \$20,000. Mr. Greenberg had received salary increases of \$30,000 for the prior last four years.

Unfortunately, with the global economic downturn commencing in the fourth quarter of 2008, the market price of our common stock as reported by The Nasdaq Stock Market had decreased substantially. Further, consolidated net sales of our company for the first quarter of 2009 had decreased and visibility for the remainder of 2009 was very unclear. Based upon the recommendations of the chief executive officer, the compensation committee authorized a (i) rollback the \$20,000 increase in the annual base salaries previously authorized for the chief financial officer and president of Inter Parfums USA, LLC (Specialty Retail Division), so that their annual base salaries would return to the levels paid in 2008, and (ii) decrease the annual base salary by \$20,000 of the chief executive officer, all on a *pro rata* basis effective as of April 16, 2009.

Bonus Compensation/Annual Incentives

We have paid a higher percentage of overall compensation in the form of bonus compensation to executive officers of European operations for several years, principally because European operations historically have had higher profitability than United States operations. As the result of this historically higher profitability, European operations have had the ability to pay higher bonus compensation in addition to base salary. As bonus compensation is discretionary no targets were set in order to maintain flexibility. Further, if results of operations for European operations were not satisfactory (again, no target amounts were set to maintain flexibility), then bonus compensation, as well as overall compensation could be lowered without otherwise affecting base salary.

For 2009, Mr. Benacin, the chief decision maker for European operations, proposed and the committee concurred in the payment of bonus compensation equal to approximately 70% of base salary for executive officers of European operations. This is compared to bonus compensation as a percentage of annual salary of 70% for 2008 and 82% for 2007 for Messrs. Santi and Garcia-Pelayo and approximately 70% for 2008 and 64% for 2007 for Mr. Benacin.

A different approach is taken for United States operations as that segment is much smaller and profitability is much more volatile. A more significant base salary is paid in order to attract and retain employees with the skills and talents needed to run the operation with a lesser emphasis placed on bonuses. Based upon the recommendation of the Chief Executive Officer, no officers of United States operations received any cash bonuses for 2009. Mr. Greenberg received a cash bonus of \$35,000 for 2008 and \$43,100 for 2007. In order for Mr. Madar, the Chief Executive Officer to receive a cash bonus, United States operations has to achieve after tax profit target. In 2009 and 2008, based upon

such targets, our Chief Executive Officer did not earn any cash bonus. In 2007, based upon such targets, our Chief Executive Officer earned a \$100,000 cash bonus. The Executive Compensation Committee has determined to use the same after tax profit target for our company s United States operations to calculate Mr. Madar s bonus for 2010.

As required by French law, Inter Parfums, SA maintains its own profit sharing plan for all French employees who have completed three months of service, including executive officers of our European operations other than Mr. Benacin, the Chief Executive Officer of Inter Parfums, SA. Benefits are calculated based upon a percentage of taxable income of Inter Parfums, S.A. and allocated to employees based upon salary. The maximum amount payable per year per employee is 25,000 euros, or approximately \$34,792.

Calculation of total annual benefits contribution is made according to the following formula:

50% of (Inter Parfums, S.A. net income, less 5% of shareholders equity without net income for the year) times a fraction, the numerator of which is wages, and the denominator of which is net income before tax + wages + taxes (other than income tax) + valuation allowances + amortization expenses + interest expenses.

Contribution to individual employees is then made pro rata based upon their individual salaries for the year.

Long Term Incentives

Stock Options. We link long-term incentives with corporate performance through the grant of stock options. All options are granted with an exercise price equal to the fair market value of the underlying shares of our common stock on the date of grant, and terminate on or shortly after severance of the executive s relationship with us. Unless the market price of our common stock increases, corporate executives will have no tangible benefit. Thus, they are provided with the additional incentive to increase individual performance with the ultimate goal of increasing our overall performance. We believe that enhanced executive incentives which result in increased corporate performance tend to build company loyalty. As a general rule, the number of options granted is determined by several factors, but most importantly, both individual and company operating results for the past year, as well as past option grants to such executives.

For executive officers of United States operations and Mr. Benacin, we typically grant nonqualified stock options with a term of 6 years that vest ratably of a 5-year period on a cumulative basis, so that the option will become fully exercisable at the beginning of the sixth year from the date of grant. In addition, for the past few years we had temporarily discontinued all option grants to purchase shares of our majority-owned, French subsidiary, Inter Parfums, S.A. to avoid decrease the dilution of our ownership interest in Inter Parfums, S.A. In lieu of option grants to purchase shares of our majority-owned, French subsidiary, we had granted options to our French executive officers and employees under the French Addendum to our stock option plan, which have a term of 6 years and vest 4 years after the date of grant.

We believe that the vesting period of these options serve a dual purpose: 1. executives will not receive any benefit if they leave prior to such portion of the option vesting; and 2. having a vesting period, matches the service period with the potential benefits of the option. Pursuant to our stock option plan, non-qualified stock options granted to executives terminate immediately upon the executive s termination of association with our company. This termination provision coupled with a vesting period reduces benefits afforded to an executive when an executive officer leaves our employ.

Over the past several years, as our company has grown and the market price or our common stock has increased, Messrs. Madar and Benacin have realized substantial compensation as the result of the exercise of their options. As the two executives most responsible for continued growth and success of our company, the Committee believes the granting of options is an appropriate tool to tie a substantial portion of their compensation to the success of our company and is completely warranted.

Long Term Incentives 26

The actual compensation realized as the result of the exercise of options in the past, as well as the future potential of such rewards, are powerful incentives for increased individual performance and ultimately increased company performance. In view of the fact that the executive officers named above contribute significantly to our profitable operations, the compensation committee believes the option grants are valid incentives for these executive officers and are fair to our shareholders. Generally we grant options to executive officers in December of each year.

13

Long Term Incentives

In December 2009, upon the recommendation of the company s Chief Executive Officer, the compensation committee granted options to purchase a total of 19,000 shares of our common stock to each of Jean Madar and Philippe Benacin at the fair market value on the date of grant, which were the same number of shares for which options had been granted to Messrs. Madar and Benacin in December 2008. Option grants to Messrs Madar and Benacin were identical as each is the Chief Executive Officer of their respective operating segments. Also in December 2009, the compensation committee granted options to purchase 25,000 shares to Mr. Greenberg, the Chief Financial Officer, at the fair market value on the date of grant. This represented an increase from the option granted in December 2008 to purchase 15,000 shares, which was done to offset the absence of a salary increase.

No options were granted to Messrs. Santi and Garcia-Pelayo from our company during 2009 or for 2008. For the past few years we had temporarily discontinued all option grants to purchase shares of our majority-owned, French subsidiary, Inter Parfums, S.A. to avoid a decrease in the dilution of our ownership interest in Inter Parfums, S.A. However, at the request of Messrs. Benacin and Santi, Inter Parfums, S.A. again commenced granting options to its employees and executive officers, including to Messrs. Santi and Garcia-Pelayo, as Messrs. Benacin and Santi had determined that it was more beneficial for the employees and executive officers of European operations have a stake in Inter Parfums, S.A., rather than our company. Accordingly, in December 2009 Inter Parfums, S.A. authorized a stock option plan which provides for a maximum of 3% of the outstanding shares of Inter Parfums, S.A. to be available for grant. Under the Inter Parfums S.A. stock option plan, options are granted at the fair market value at the time of grant for a term of 6 years and vest 4 years after the date of grant. In December 2009, Inter Parfums, S.A. authorized grants of options to employees of Inter Parfums, S.A. for an aggregate of 0.5% of outstanding shares, including options to purchase 6,000 shares for each of Messrs. Madar, Benacin, Santi and Garcia-Pelayo and 1,200 shares for Mr. Greenberg.

Stock Appreciation Rights. Our 2004 stock option plan authorizes us to grant stock appreciation rights, or SARs. An SAR represents a right to receive the appreciation in value, if any, of our common stock over the base value of the SAR. To date, we have not granted any SARs under the 2004 plan. While the compensation committee currently does not plan to grant any SARs under our 2004 plan, it may choose to do so in the future as part of a review of the executive compensation strategy. The Inter Parfums S.A. stock option plan does not have stock appreciate rights.

Restricted Stock. We have not in the past, and we do not have any future plans to grant restricted stock to our executive officers. However, while the compensation committee currently does not plan to authorize any restricted stock plans, the compensation committee may choose to do so in the future as part of a review of the executive compensation strategy.

Other Compensation

Mr. Benacin is the Chief Executive Officer of Inter Parfums, S.A. (European operations), as well as a founder of our company, and we believe we should recognize his responsibility, skills and experience, as well as the results of the company. In view of his service to the company, Mr. Benacin has received a housing and automobile allowance for more than the past ten (10) years. This is a way we have differentiated him from other executive officers of European operations, and acknowledged his responsibility, skills and experience, as well as the company s operating results, while maintaining his base salary at the same level as Messrs. Santi and Garcia-Pelayo, the other named executive officers of European operations.

No Stock Ownership Guidelines

We do not require any minimum level of stock ownership by any of our executive officers. As stated above, Messrs. Madar and Benacin, are our largest shareholders, which aligns their interests with our shareholder base in keeping executive compensation at a reasonable level.

Other Compensation 28

Retirement and Pension Plans

We maintain a 401K plan for United States operations. However, we do not match any contributions to such plan, as we have determined base compensation together with annual bonuses and stock option awards, are sufficient incentives to retain talented employees. Our European operations maintains a pension plan for it employees as required by French law.

Compensation Committee Report

We have reviewed and discussed with management the Compensation Discussion and Analysis provisions to be included in this amendment to the Annual Report on Form 10-K for fiscal year ended December 31, 2009 and the proxy statement for the upcoming annual meeting of shareholders. Based on this review and discussion, we recommend to the board of directors that the Compensation Discussion and Analysis referred to above be included in this Annual Report on Form 10-K as well as the proxy statement for the upcoming annual meeting of shareholders.

The flowing table sets forth a summary of all compensation awarded to, earned by or paid to our named executive officers, who are our principal executive officer, our principal financial officer, and each of the 3 most highly compensated executive officers of our Company. This table covers all such compensation during fiscal years ended December 31, 2009, December 31, 2008 and December 31, 2007. For all compensation related matters disclosed in this Item 10, all amounts paid in euro have been converted to US dollars at the average rate of exchange in each year.

SUMMARY COMPENSATION TABLE

[Footnotes from table above]

Amounts reflected under Option Awards represent the grant date fair values in 2009, 2008 and 2007 based on the fair value of stock option awards using a Black-Scholes option pricing model. The assumptions used in this model are detailed in Footnote 10 to the audited consolidated financial statements in our Annual Report on Form 10-K for the year ended December 31, 2009 and filed with the SEC.

As required by French law, Inter Parfums, S.A. maintains its own profit sharing plan for all French employees who have completed three months of service, including executive officers of our European operations other than Mr.

2 Benacin, the Chief Executive Officer of Inter Parfums, S.A. Benefits are calculated based upon a percentage of taxable income of Inter Parfums, S.A. and are allocated to employees based upon salary. The maximum amount payable per year is 25,000 euro, or approximately \$34,792.

Calculation of total annual benefits contribution is made according to the following formula:

Contribution to individual employees is then made pro rata based upon their individual salaries for the year.

The following table identifies (i) perquisites and other personal benefits provided to our named executive officers in 3 fiscal 2009 and quantifies those required by SEC rules to be quantified and (ii) all other compensation that is required by SEC rules to be separately identified and quantified.

Plan Based Awards

The following table sets certain information relating to each grant of an award made to our executive officers of our company listed in the Summary Compensation Table during the past fiscal year.

In addition, the following table indicates Grants of Plan-Based Awards of Inter Parfums, S.A. during 2009.

Options

As discussed above, we typically grant nonqualified stock options with a term of 6 years that vest ratably of a 5-year period on a cumulative basis, so that the option will become fully exercisable at the beginning of the sixth year from the date of grant. As reported above, options granted to French employees under the French Addendum to our stock option plan have a term of 6 years, and vest 4 years after the date of grant. Further, options granted to French employees under the stock option plan of Inter Parfums, S.A. likewise vest 4 years after the date of grant.

We believe that the vesting period of these options serves a dual purpose: 1. executives will not receive any benefit if they leave prior to such portion of the option vesting; and 2. having a vesting period matches the service period with the potential benefits of the option.

Under our stock option plans, the fair market value is determined by the average of the high and low price on the date of grant, not the closing price as reported by The Nasdaq Stock Market.

We also note that the Summary Compensation Table does not include income realized by the named executive officers as the result of the exercise of stock options, but rather reflects the dollar amount recognized for financial statement reporting purposes for options granted in accordance with SFAS 123R. However, value realized as the result of stock option exercises is set forth in the table entitled Option Exercises and Stock Vested .

The calculation of commitments for severance benefits involves estimating the probable present value of projected benefit obligations. In calculating benefits, the following assumptions were applied:

voluntary retirement at age 65; a rate of 45% for employer payroll contributions for all employees; a 5% average annual salary increase; an annual rate of turnover for all employees under 55 years of age and nil above; the TH 00-02 mortality table for men and the TF 00-02 mortality table for women; a discount rate of 3.96%.

The normal retirement age is 65 years, but employees, including Messrs. Benacin, Santi and Garcia-Pelayo, can collect reduced benefits if they retire at age 60.

AUDIT COMMITTEE REPORT

The Audit Committee has the sole authority and is directly responsible for, the appointment, compensation and oversight of the work of the independent accountants employed by our company which prepare or issue an audit report for our company. During 2009, the Audit Committee consisted of Messrs. Heilbronn, Levy and Choël.

The Company does not have an audit committee financial expert within the definition of the applicable Securities and Exchange Commission rules. First, finding qualified nominees to serve as a director of a public company without substantial financial resources has been challenging. Second, despite the applicable Securities and Exchange Commission rule which states that being named as the audit committee financial expert does not impose any greater duty, obligation or liability, the Company has been met with resistance from both present and former directors to being named as such primarily due to potential additional personal liability.

However, as the result of the background, education and experience of the members of the Audit Committee, our board of directors believes that such committee members are fully qualified to fulfill their obligations as members of the Audit Committee.

Management is responsible for our company s internal controls and our financial reporting process. The independent registered public accounting firm we employ, Mazars, LLP, is responsible for performing an independent audit of our consolidated financial statements in accordance with generally accepted auditing standards and to issue a report thereon, as well as, issuing its report on its audit of our management s assessment of our internal control over financial reporting. The Audit Committee s responsibility is to monitor and oversee these processes.

In this context, the Audit Committee has met and held discussions with management and our independent registered public accounting firm. Management represented to the Audit Committee that our consolidated financial statements were prepared in accordance with generally accepted accounting principles, and the Audit Committee has reviewed and discussed the consolidated financial statements with management and the independent registered public accounting firm. In addition, Mazars LLP discussed with the Audit Committee the results of its audit on management s assessment of internal controls over financial reporting. The Audit Committee also discussed with Mazars LLP matters required to be discussed by Statement on Auditing Standards No. 61 (Communication with Audit Committees).

Mazars LLP also provided to the Audit Committee the written disclosures required by applicable requirements of the Public Company Accounting Oversight Board regarding the independent accountant s communications with the Audit Committee concerning independence, and the Audit Committee discussed with Mazars LLP that firm s independence.

Based upon the Audit Committee s discussions with management and Mazars LLP and the Audit Committee s review of the representations of management and the report of Mazars LLP to the Audit Committee, the Audit Committee recommended that our board of directors include the audited consolidated financial statements and management s report on internal control over financial reporting, together with the attestation report of Mazars LLP in our Annual Report on Form 10-K for the year ended December 31, 2009 filed with the Securities and Exchange Commission.

INDEPENDENT ACCOUNTANTS

General

We are not submitting the selection of auditors to a vote of our shareholders—as shareholder approval is not required under Delaware law. On October 15, 2004 Mazars LLP was engaged as the principal accountants to audit the financial statements of Inter Parfums, Inc. The decision to engage Mazars LLP was approved by our audit committee.

Audit Committee Pre Approval Policies and Procedures

The Audit Committee has the sole authority for the appointment, compensation and oversight of the work of our independent accountants, who prepare or issue an audit report for us.

During the first quarter of 2009 the audit committee authorized the following non-audit services to be performed by Mazars LLP.

We authorized the engagement of Mazars LLP if deemed necessary to provide tax consultation in the ordinary course of business for fiscal year ended December 31, 2009.

We authorized the engagement of Mazars LLP if deemed necessary to provide tax consultation as may be required on a project by project basis that would not be considered in the ordinary course of business, of up to a \$5,000 fee limit

per project, subject to an aggregate fee limit of \$25,000 for fiscal year ending December 31, 2009. If we require further tax services from Mazars LLP, then the approval of the audit committee must be obtained.

If we require other services by Mazars LLP on an expedited basis such that obtaining pre-approval of the audit committee is not practicable, then the Chairman of the Committee has authority to grant the required pre-approvals for all such services.

We imposed a cap of \$100,000 on the fees that Mazars can charge for services on an expedited basis that are approved by the Chairman without obtaining full audit committee approval.

None of the non-audit services of either of the Company s auditors had the pre-approval requirement waived in accordance with Rule 2-01(c)(7)(i)(C) of Regulation S-X.

In February 2010, the audit committee authorized the same non-audit services to be performed by Mazars LLP as disclosed above.
