## Forward Looking Statements

This filing contains forward-looking statements and forward-looking information within the meaning of applicable securities laws. The use of any of the words “plans”, “expects”, or “does not expect”, “is expected”, “budget”, “scheduled”, “anticipates”, or “does not anticipate”, “continue”, “estimates”, “forecasts”, “objective”, “ongoing”, “may”, “will”, “project”, “believe”, “intends” or variations of such words and phrases or statements are intended to identify forward-looking information or statements. Forward-looking information is based on the opinions and estimates of management at the date the information is made, and is based on a number of assumptions and subject to a variety of risks and uncertainties and other factors that could cause actual events or results to differ materially from those projected in the forward-looking information. More particularly and without limitation, this filing contains forward-looking statements and information concerning Gammon Gold’s proposed acquisition of Capital Gold (the “Acquisition”) and the merger agreement pursuant to which such acquisition will be effected. The forward-looking statements and information are based on certain key expectations and assumptions made by Gammon Gold and Capital Gold. Although Gammon Gold and Capital Gold believe that the expectations and assumptions on which such forward-looking statements and information are based are reasonable, undue reliance should not be placed on the forward-looking statements and information because neither of them can give any assurance that they will prove to be correct. Since forward-looking statements and information address future events and conditions, by their very nature they involve inherent risks and uncertainties. There are risks also inherent in the nature of the Acquisition, including whether the completion of the Acquisition will ultimately occur, whether the anticipated synergies of the acquisition will occur, incorrect assessment of the value of the respective properties of each of Gammon Gold and Capital Gold, and failure to obtain the required security holder, regulatory, third party and other approvals. The outcome of Timmins’ consent solicitation to replace the Capital Gold board and Capital Gold’s corresponding consent revocation also impact the assumptions on which forward-looking statement are based. Readers are cautioned that the foregoing list of factors is not exhaustive. There may be other factors that cause actions, events or results not to be anticipated, estimated or intended. The forward-looking statements and information contained in this filing are made as of the date hereof. There can be no assurance that forward-looking information will prove to be accurate, as actual results and future events could differ materially from those anticipated in such information. Neither Gammon Gold nor Capital Gold undertake any obligation to update publicly or revise any forward-looking statements or information, whether as a result of new information, future events or otherwise, except in accordance with applicable securities laws.

Your board of directors unanimously recommends all stockholders vote using the WHITE proxy card to approve the merger of Capital Gold Corporation ("CGC") with Gammon Gold Inc. ("Gammon"). If the Merger is completed, you will receive 0.5209 common shares of Gammon and a cash payment in the amount of \$0.79 for each share of CGC common stock you own immediately prior to the Merger. The Gammon deal represents a 58% premium to CGC stockholders as of March 9, 2011.<sup>1</sup>

You may be getting conflicting information from a dissident about our proposed transaction with Gammon and the process that led your Board to unanimously conclude that it was the best transaction reasonably available for all CGC stockholders. Timmins Gold Corp. ("Timmins") is attempting to block the Merger of CGC with Gammon and take complete control of your CGC board in its self-serving attempt to acquire the company. We want to set the record straight.

Respected independent opinion recommends stockholders vote FOR the Gammon merger

Glass Lewis & Co. ("Glass Lewis"), a leading independent provider of proxy research that provides advice and voting recommendations to small and large institutional investors, recommends CGC stockholders vote "FOR" the special resolution approving the merger with Gammon Gold Corp. They state:

- o "...the Gammon deal is superior to Timmins' offer in almost every aspect."
- o "Timmins currently has insufficient cash to pay the termination fee, meet operating requirements and funding future growth initiatives."
- o "In sum, given our determination that the Gammon transaction is superior to Timmins' offer, our approval of the board's sale process in general, our view that the implied purchase price is fair to shareholders, and the unanimous support of the board, we believe the proposed acquisition by Gammon is in the best interests of shareholders."

Gammon Gold has a market capitalization of approximately 3x Timmins' market capitalization.

Gammon Gold has approximately 6x Timmins' resources.

Gammon Gold has significant exposure to silver and exceptional leverage to silver prices; Timmins has very limited exposure to silver.

Gammon Gold has significant net cash; Timmins has net debt.

The Merger with Gammon Gold presents the least amount of transactional risk.

In contrast, compare some of the facts regarding the Timmins proposed offer:

The Timmins proposed offer is NOT superior:

- o The Timmins proposed offer is highly conditional. Its offer has not yet been approved by U.S. and Mexican regulators or Timmins' own shareholders, nor has Timmins been approved for listing on the NYSE AMEX.

o At current trading levels, the Gammon offer has a value almost US\$0.20 per share, or 3.5%, higher than the Timmins proposed offer.

Timmins does not have the requisite mining experience, Gammon does.

Timmins has had two consecutive quarters where it has restated their financial statements which raises concerns about the effectiveness of their internal controls on financial reporting.

Regardless of the number of shares held, it is extremely important for all stockholders to vote immediately using the WHITE proxy card to support the merger with Gammon and Capital Gold. Stockholders are urged to disregard any GOLD proxy card they may have received from Timmins. If any stockholders have previously voted using the GOLD proxy card, they should now vote FOR the merger using the WHITE proxy card which will invalidate the GOLD proxy card and ensure their support of the Gammon merger is received.

**THE CHOICE IS CLEAR - THE MERGER WITH GAMMON GOLD REPRESENTS THE BEST OPPORTUNITY  
REASONABLY AVAILABLE TO CGC STOCKHOLDERS.**
