Shore Bancshares, Inc.
Notes to Consolidated Financial Statements
For the Three and Nine Months Ended September 30, 2013 and 2012
(Unaudited)

#### Note 1 - Basis of Presentation

The consolidated financial statements include the accounts of Shore Bancshares, Inc. and its subsidiaries with all significant intercompany transactions eliminated. The consolidated financial statements conform to accounting principles generally accepted in the United States of America ("GAAP") and to prevailing practices within the banking industry. The accompanying interim financial statements are unaudited; however, in the opinion of management all adjustments necessary to present fairly the consolidated financial position at September 30, 2013, the consolidated results of operations and comprehensive loss for the three and nine months ended September 30, 2013 and 2012, and changes in stockholders' equity and cash flows for the nine months ended September 30, 2013 and 2012, have been included. All such adjustments are of a normal recurring nature. The amounts as of December 31, 2012 were derived from the 2012 audited financial statements. The results of operations for the three and nine months ended September 30, 2013 are not necessarily indicative of the results to be expected for any other interim period or for the full year. This Quarterly Report on Form 10-Q should be read in conjunction with the Annual Report of Shore Bancshares, Inc. on Form 10-K for the year ended December 31, 2012. For purposes of comparability, certain reclassifications have been made to amounts previously reported to conform with the current period presentation.

When used in these notes, the term "the Company" refers to Shore Bancshares, Inc. and, unless the context requires otherwise, its consolidated subsidiaries.

#### Recent Accounting Standards

Accounting Standards Update ("ASU") 2012-02, "Intangibles Goodwill and Other (Accounting Standards Codification ("ASC") Topic 350) Testing Indefinite-Lived Intangible Assets for Impairment." ASU 2012-02 gives entities the option to first assess qualitative factors to determine whether the existence of events or circumstances leads to a determination that it is more likely than not that an indefinite-lived intangible asset is impaired. If, after assessing the totality of events or circumstances, an entity determines it is more likely than not that an indefinite-lived intangible asset is impaired, then the entity must perform the quantitative impairment test. If, under the quantitative impairment test, the carrying amount of the intangible asset exceeds its fair value, an entity should recognize an impairment loss in the amount of that excess. Permitting an entity to assess qualitative factors when testing indefinite-lived intangible assets for impairment results in guidance that is similar to the goodwill impairment testing guidance in ASU 2011-08. ASU 2012-02 became effective for the Company on January 1, 2013, and did not have a significant impact on the Company's financial statements.

ASU 2013-04, "Liabilities (ASC Topic 405) - Obligations Resulting from Joint and Several Liability Arrangements for Which the Total Amount of the Obligation Is Fixed at the Reporting Date." ASU 2013-04 provides guidance for the recognition, measurement and disclosure of obligations resulting from joint and several liability arrangements for which the total amount of the obligation is fixed at the reporting date. This guidance requires an entity to measure the obligation as the sum of the amount the reporting entity agreed to pay on the basis of its arrangement among its co-obligors, and any additional amount the reporting entity expects to pay on behalf of its co-obligors. This guidance also requires an entity to disclose the nature and amount of the obligation as well as other information about those obligations. ASU 2013-04 is effective for the Company beginning January 1, 2014 and is not expected to have a significant impact on the Company's financial statements.

#### Note 2 Earnings/(Loss) Per Share

Basic earnings/(loss) per common share is calculated by dividing net income/(loss) available to (allocable to) common stockholders by the weighted average number of common shares outstanding during the period. Diluted earnings/(loss) per common share is calculated by dividing net income/(loss) available to (allocable to) common stockholders by the weighted average number of common shares outstanding during the period, adjusted for the dilutive effect of common stock equivalents (stock-based awards). There is no dilutive effect on the loss per share during loss periods. The following table provides information relating to the calculation of earnings/(loss) per common share:

		r the Three M ptember 30,	Ionth	s Ended	For the Nine Months End September 30,			Ended
(In thousands, except per share data)	20	13	20	12	20	13	20	12
Net loss	\$	(11,392)	\$	(1,821)	\$	(10,809)	\$	(4,564)
Weighted average shares outstanding - Basic		8,461		8,457		8,460		8,457
Dilutive effect of common stock equivalents		-		-		-		-
Weighted average shares outstanding - Diluted		8,461		8,457		8,460		8,457
Loss per common share - Basic	\$	(1.35)	\$	(0.22)	\$	(1.28)	\$	(0.54)
Loss per common share - Diluted	\$	(1.35)	\$	(0.22)	\$	(1.28)	\$	(0.54)

The calculations of diluted earnings/(loss) per share excluded weighted average common stock equivalents of 54 thousand for both the three and nine months ended September 30, 2013 and 54 thousand and 43 thousand for the three and nine months ended September 30, 2012, respectively, because the effect of including them would have been antidilutive.

#### Note 3 Investment Securities

The following table provides information on the amortized cost and estimated fair values of investment securities.

(Dollars in thousands) Available-for-sale securities:		Amortized Cost		Gross Unrealized Gains		Gross Unrealized Losses		Estimated Fair Value	
September 30, 2013: Obligations of U.S. Treasury Obligations of U.S. Government agencies and corporations	\$	5,375 46,552	\$	- 56	\$	6 394	\$	5,369 46,214	
Mortgage-backed securities Equity securities Total	\$	84,234 606 136,767	\$	389 2 447	\$	952 - 1,352	\$	83,671 608 135,862	
December 31, 2012: Obligations of U.S. Government agencies and corporations Mortgage-backed securities	\$	35,213 106,524	\$	903 2,464	\$	9 208	\$	36,107 108,780	
Equity securities Total	\$	596 142,333	\$	25 3,392	\$	- 217	\$	621 145,508	
Held-to-maturity securities: September 30, 2013: Obligations of states and political subdivisions	\$	2,357	\$	114	\$	-	\$	2,471	
December 31, 2012: Obligations of states and political subdivisions	\$	2,657	\$	227	\$	-	\$	2,884	

The following table provides information about gross unrealized losses and fair value by length of time that the individual available-for-sale securities have been in a continuous unrealized loss position at September 30, 2013.

		ss than Months				ore than Months			To	otal		
(Dollars in thousands)	Fa	ir	Ur	realized	Fa	ir	Uı	nrealiz	edFa	ir	Uı	nrealized
(Donars in thousands)	Va	llue	Lo	sses	Va	alue	Lo	osses	Va	alue	Lo	osses
Available-for-sale securities:												
U.S. Treasury	\$	5,369	\$	6	\$	-	\$	-	\$	5,369	\$	6
U.S. Gov't. agencies and corporations		30,603		394		-		-		30,603		394
Mortgage-backed securities		56,177		952		-		-		56,177		952
Total	\$	92,149	\$	1,352	\$	-	\$	_	\$	92,149	\$	1,352

All of the securities with unrealized losses in the available-for-sale portfolio have modest duration risk, low credit risk, and minimal losses when compared to total amortized cost. The unrealized losses on debt securities that exist are the result of market changes in interest rates since original purchase. Because the Company does not intend to sell these debt securities and it is not more likely than not that the Company will be required to sell these securities before recovery of their amortized cost bases, which may be at maturity, the Company considers the unrealized losses in the available-for-sale portfolio to be temporary. There were no unrealized losses in the held-to-maturity securities portfolio at September 30, 2013.

The following table provides information on the amortized cost and estimated fair values of investment securities by maturity date at September 30, 2013.

	Av	ailable for sale	;		He	ld to maturity		
	Am	ortized	Est	imated	An	nortized	Est	imated
(Dollars in thousands)	Cos	st	Fai	r Value	Co	st	Fai	r Value

Due after one year through five years		42,500		42,372		433		454
Due after five years through ten years		3,894		3,936		1,007		1,077
Due after ten years		83,712		82,880		504		521
		136,161		135,254		2,357		2,471
Equity securities		606		608		-		-
Total	\$	136,767	\$	135,862	\$	2,357	\$	2,471

The maturity dates for debt securities are determined using contractual maturity dates.

#### Note 4 Loans and allowance for credit losses

The Company makes residential mortgage, commercial and consumer loans to customers primarily in Talbot County, Queen Anne's County, Kent County, Caroline County and Dorchester County in Maryland and in Kent County, Delaware. The following table provides information about the principal classes of the loan portfolio at September 30, 2013 and December 31, 2012.

	Sept	ember 30,	Dec	ember 31,
(Dollars in thousands)	2013	3	201	2
Construction	\$	68,971	\$	108,051
Residential real estate		280,153		288,011
Commercial real estate		303,154		314,941

Commercial	55,101	60,786
Consumer	11,248	13,293
Total loans	718,627	785,082
Allowance for credit losses	(11,301)	(15,991)
Total loans, net	\$ 707,326	\$ 769,091

Loans are stated at their principal amount outstanding net of any deferred fees and costs. Interest income on loans is accrued at the contractual rate based on the principal amount outstanding. Fees charged and costs capitalized for originating loans are being amortized substantially on the interest method over the term of the loan. A loan is placed on nonaccrual (i.e., interest income is no longer accrued) when it is specifically determined to be impaired or when principal or interest is delinquent for 90 days or more, unless the loan is well secured and in the process of collection. Any unpaid interest previously accrued on those loans is reversed from income. Interest payments received on nonaccrual loans are applied as a reduction of the loan principal balance unless collectability of the principal amount is reasonably assured, in which case interest is recognized on a cash basis. Loans are returned to accrual status when all principal and interest amounts contractually due are brought current and future payments are reasonably assured.

A loan is considered impaired if it is probable that the Company will not collect all principal and interest payments according to the loan's contractual terms. An impaired loan may show deficiencies in the borrower's overall financial condition, payment history, support available from financial guarantors and/or the fair market value of collateral. The impairment of a loan is measured at the present value of expected future cash flows using the loan's effective interest rate, or at the loan's observable market price or the fair value of the collateral if the loan is collateral dependent. Generally, the Company measures impairment on such loans by reference to the fair value of the collateral. Once the amount of impairment has been determined, the uncollectible portion is charged off. Income on impaired loans is recognized on a cash basis, and payments are first applied against the principal balance outstanding (i.e., placing impaired loans on nonaccrual status). Generally, interest income is not recognized on impaired loans unless the likelihood of further loss is remote. The allowance for credit losses may include specific reserves related to impaired loans. Specific reserves remain until charge offs are made. Impaired loans do not include groups of smaller balance homogenous loans such as residential mortgage and consumer installment loans that are evaluated collectively for impairment. Reserves for probable credit losses related to these loans are based on historical loss ratios and are included in the formula portion of the allowance for credit losses. See additional discussion under the caption "Critical Accounting Policies" in Management's Discussion and Analysis of Financial Condition and Results of Operations.

A loan is considered a troubled debt restructuring if a borrower is experiencing financial difficulties and a creditor has granted a concession. Concessions may include interest rate reductions or below market interest rates, principal forgiveness, restructuring amortization schedules and other actions intended to minimize potential losses. All loans designated as troubled debt restructurings ("TDRs") are considered impaired loans and may be on either accrual or nonaccrual status.

The following tables include impairment information relating to loans and the allowance for credit losses as of September 30, 2013 and December 31, 2012.

- (1) These loans were classified as TDRs during 2012.
- (2) These loans were classified as TDRs during 2011.

Management uses risk ratings as part of its monitoring of the credit quality in the Company's loan portfolio. Loans that are identified as special mention, substandard or doubtful are adversely rated. They are assigned higher risk ratings than favorably rated loans in the calculation of the formula portion of the allowance for credit losses.

The following tables provide information on loan risk ratings as of September 30, 2013 and December 31, 2012.

Management evaluates the adequacy of the allowance for credit losses at least quarterly and adjusts the provision for credit losses based on this analysis. The following tables provide a summary of the activity in the allowance for credit losses allocated by loan class for the three months ended September 30, 2013 and 2012. Allocation of a portion of the allowance to one loan class does not preclude its availability to absorb losses in other loan classes.

#### Note 5 Other Assets

The Company had the following other assets at September 30, 2013 and December 31, 2012.

(Dollars in thousands)	Sept	ember 30, 2013	Dece	ember 31, 2012
Nonmarketable investment securities	\$	2,058	\$	2,750
Accrued interest receivable		2,769		2,796
Insurance premiums receivable		719		1,089
Income taxes receivable		12,698		5,160
Deferred income taxes		9,740		9,180
Prepaid expenses		1,209		2,227
Other assets		9,090		5,634
Total	\$	38,283	\$	28,836

#### Note 6 Other Liabilities

The Company had the following other liabilities at September 30, 2013 and December 31, 2012.

(Dollars in thousands)	Septe	mber 30, 2013	Dece	mber 31, 2012
Accrued interest payable	\$	271	\$	339
Other accounts payable		3,824		3,657
Deferred compensation liability		1,481		2,431
Other liabilities		1,926		2,320
Total	\$	7,502	\$	8,747

#### Note 7 - Stock-Based Compensation

As of September 30, 2013, the Company maintained the Shore Bancshares, Inc. 2006 Stock and Incentive Compensation Plan ("2006 Equity Plan") under which it may issue shares of common stock or grant other equity-based awards. Stock-based awards granted to date generally are time-based, vest in equal installments on each anniversary of the grant date over a three- to five-year period of time, and, in the case of stock options, expire 10 years from the grant date. Stock-based compensation expense is recognized ratably over the requisite service period for all awards, is based on the grant-date fair value and reflects forfeitures as they occur.

The following tables provide information on stock-based compensation expense for the three and nine months ended September 30, 2013 and 2012.

	For the Three 1	Months Ended	For the Nine Months Ended			
	September 30,		September 30	),		
(Dollars in thousands)	2013	2012	2013	2012
