Pre-commencement communications pursuant to Rule 13e-4(c) under the Exchange Act (17 CFR 240.13e-4(c))

**Item 8.01. Other Events.**

On July 7, 2014, Measurement Specialties, Inc. (the “Company”) confirmed that in reaction to the announcement of the proposed merger with TE Connectivity Ltd. (“TE”) and for the past week, employees at the Company’s Shenzhen, China, facility have been engaged in work stoppages and work slow-downs. The Company has been in discussion with employees and their representatives, and has reached an agreement with approximately 80% of the workforce today and expects them to return to work promptly. The Company plans to resume limited production Tuesday, and expects to rehire and retrain workers to replace those who have not returned in order to resume full production.

The Company manufactures a significant portion of its non-temperature sensor products at this facility. The Company cannot predict when the matter will be fully resolved, and the lost production from work stoppage and limited production could have an impact on the Company’s ability to deliver certain products to its customers in the near term.

The Company does not expect the work stoppage to impact its proposed transaction with TE.

**SIGNATURES**

Pursuant to the requirements of the Securities Exchange Act of 1934, the registrant has duly caused this report to be signed on its behalf by the undersigned hereunto duly authorized.
