MONMOUTH REAL ESTATE INVESTMENT CORPORATION AND SUBSIDIARIES
NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (UNAUDITED)

JUNE 30, 2012

NOTE 1 ORGANIZATION AND ACCOUNTING POLICIES

Monmouth Real Estate Investment Corporation together with its consolidated subsidiaries (MREIC, the Company or we), operates as a real estate investment trust (REIT) deriving its income primarily from real estate rental operations. In addition, the Company currently owns a majority interest in a limited liability company of which the Company consolidates its results of operations and financial condition. The Company also owns a portfolio of investment securities.

The Company has elected to be taxed as a REIT under Sections 856-860 of the Internal Revenue Code (the Code), and intends to maintain its qualification as a REIT in the future. As a qualified REIT, with limited exceptions, the Company will not be taxed under Federal and certain state income tax laws at the corporate level on taxable income that it distributes to its shareholders. For special tax provisions applicable to REITs, refer to Sections 856-860 of the Code. The Company is subject to franchise taxes in some of the states in which the Company owns property.

The interim consolidated financial statements furnished herein have been prepared in accordance with accounting principles generally accepted in the United States of America (US GAAP) applicable to interim financial information, the instructions to Form 10-Q, and Article 10 of Regulation S-X. Accordingly, they do not include all of the information and footnotes required by US GAAP for complete financial statements. In the opinion of management, all adjustments (consisting of normal recurring accruals) considered necessary for a fair presentation have been included. Operating results for the three and nine months ended June 30, 2012 are not necessarily indicative of the results that may be expected for the year ending September 30, 2012. For further information, refer to the consolidated financial statements and footnotes thereto included in the Company's annual report on Form 10-K for the year ended September 30, 2011.

Certain amounts in the consolidated financial statements for the prior periods presented have been reclassified to conform to the financial statement presentation for the current year. During fiscal 2011, the Quakertown, PA property was reclassified to held for sale, which resulted in \$-0- and \$69,262 of income for the three months ended June 30, 2012 and 2011, respectively, and \$27,848 and \$197,520 for the nine months ended June 30, 2012 and 2011, respectively, being reclassified into discontinued operations (see note 4). On October 31, 2011, the Quakertown, PA property was sold.

Use of Estimates

In preparing the consolidated financial statements, management is required to make estimates and assumptions that affect the reported amounts of assets and liabilities, as well as contingent assets and liabilities as of the dates of the consolidated balance sheets and revenue and expenses for the periods then ended. Actual results could differ significantly from these estimates and assumptions.

Reclassification

Certain prior period amounts in the accompanying consolidated financial statements have been reclassified to conform to the current period's presentation.

Lease Termination Income

Lease termination income is recognized in operating revenues when there is a signed termination agreement, all of the conditions of the agreement have been met, the tenant is no longer occupying the property and the termination consideration is probable of collection. Lease termination amounts are paid by tenants who want to terminate their lease obligations before the end of the contractual term of the lease by agreement with the Company. In March 2012, the Company received \$3,222,283 in lease termination

income on its property in St. Joseph, MO. The Company also received reimbursement of \$79,353 for real estate taxes and utilities. Additionally, if the Company does not re-lease or sell the entire property before November 30, 2012, the tenant will pay to the Company additional rent from September 1, 2012 through November 30, 2012 in the amount of \$111,113 per month (pro-rated for any area/time leased). On May 8, 2012, the Company entered into a 5-year lease agreement with Woodstream Corp. for approximately 256,000 square feet (representing approximately 65% of the space) at our 388,671 square foot facility in St. Joseph, MO. Rent commences on September 1, 2012 and the annual rental income is \$896,000 (\$3.50 per square foot). This lease expires on September 30, 2017.

Stock Based Compensation

The Company accounts for stock options and restricted stock in accordance with ASC 718-10 which requires that compensation cost for all stock awards be calculated and amortized over the service period (generally equal to the vesting period). This compensation cost for stock option grants is determined using option pricing models, intended to estimate the fair value of the awards at the grant date. The compensation expense for restricted stock is recognized based on the fair value of the restricted stock awards less estimated forfeitures. The fair value for restricted stock awards is equal to the fair value of the Company's common stock on the grant date. Compensation costs of \$196,019 and \$33,581 have been recognized in the three months ended June 30, 2012 and 2011, respectively and compensation costs of \$322,715 and \$97,187 have been recognized in the nine months ended June 30, 2012 and 2011, respectively.

During the nine months ended June 30, 2012, the following stock options were granted under the Company's amended and restated 2007 stock option and stock award plan (the amended and restated 2007 Plan):

<u>Date of Grant</u>	<u>Number of Employees</u>	<u>Number of Shares</u>	<u>Option Price</u>	<u>Expiration Date</u>
1/3/12	1	65,000	\$9.33	1/3/20

The fair value of each option grant is estimated on the date of grant using the Black-Scholes option pricing model with the following weighted-average assumptions used for grants in the fiscal year indicated:

	Fiscal 2012	Fiscal 2011
Dividend yield	6.43%	6.88%
Expected volatility	19.24%	20.51%
Risk-free interest rate	1.41%	2.77%
Expected lives (years)	8	8
Estimated forfeitures	-0-	-0-

The weighted-average fair value of options granted during the nine months ended June 30, 2012 and 2011 was \$0.49 and \$0.61, respectively.

During the nine months ended June 30, 2012, 5,418 shares of restricted stock were forfeited. During the nine months ended June 30, 2012, no shares of restricted stock were granted. During the nine months ended June 30, 2012, options to purchase 27,620 shares were forfeited. These shares were added back to the pool of shares available for grant under the amended and restated 2007 Plan (the Plan).

During the nine months ended June 30, 2012, seven plan participants exercised options to purchase 139,740 shares of common stock at an average exercise price of \$7.57 per share for total proceeds of \$1,057,832.

A total of 869,761 shares were available to grant as stock options or as restricted stock under the amended and restated 2007 Plan as of June 30, 2012. As of June 30, 2012, there were outstanding options to purchase 1,048,840 shares under the plan. The aggregate intrinsic value of options outstanding as of June 30, 2012 was \$3,715,095.

Recent Accounting Pronouncements

In May 2011, the FASB issued ASU 2011-04, Fair Value Measurement (Topic 820): Amendments to Achieve Common Fair Value Measurement and Disclosure Requirements in U.S. GAAP and IFRSs. The pronouncement was issued to provide a uniform framework for fair value measurements and related disclosures between U.S. GAAP and International Financial Reporting Standards. ASU 2011-04 changes certain fair value measurement principles and enhances the disclosure requirements particularly for Level 3 fair value measurements. This pronouncement is effective for interim and annual reporting periods beginning after December 15, 2011. The adoption of ASU 2011-04 did not have a material impact on our financial position, results of operations or cash flows.

In June 2011, the FASB issued ASU 2011-05, Comprehensive Income (Topic 220): Presentation of Comprehensive Income. ASU 2011-05 allows an entity the option to present the total of comprehensive income, the components of net income, and the components of other comprehensive income either in a single continuous statement of comprehensive income or in two separate but consecutive statements. In both choices, an entity is required to present each component of net income along with total net income, each component of other comprehensive income along with a total for other comprehensive income, and a total amount for comprehensive income. ASU 2011-05 eliminates the option to present the components of other comprehensive income as part of the statement of changes in stockholders' equity. The amendments to the Codification in the ASU do not change the items that must be reported in other comprehensive income or when an item of other comprehensive income must be reclassified to net income and are effective for fiscal years, and interim periods within those years, beginning after December 15, 2011. In December 2011, the FASB issued ASU 2011-12, Deferral of the Effective Date for Amendments to the Presentation of Reclassifications of Items Out of Accumulated Other Comprehensive Income in Accounting Standards Update No. 2011-05. The provisions of ASU 2011-12 indefinitely defer portions of ASU 2011-05 related to the presentation of reclassifications of items out of accumulated other comprehensive income. The Company early adopted ASU 2011-05 which did not have a material impact on our financial position, results of operations or cash flows.

NOTE 2 NET INCOME PER SHARE

Basic net income per share is calculated by dividing net income attributable to common shareholders by the weighted-average number of common shares outstanding during the period. Diluted net income per common share is calculated by dividing net income attributable to common shareholders plus interest expense related to the Company's Convertible Subordinated Debentures (Debentures) by the weighted-average number of common shares outstanding plus the weighted-average number of net shares that would be issued upon exercise of stock options pursuant to the treasury stock method, plus the number of shares resulting from the possible conversion of the Debentures during the period.

The following amounts related to the potential conversion of the outstanding Debentures are excluded from the calculation due to their antidilutive effect:

	Three Months Ended		Nine Months Ended	
	6/30/12	6/30/11	6/30/12	6/30/11
Interest expense	\$175,800	\$178,800	\$527,400	\$618,098
Common shares to be issued upon conversion	850,000	863,100	850,000	863,100

In addition, common stock equivalents of 227,986 and 56,480 shares are included in the diluted weighted average shares outstanding for the three months ended June 30, 2012 and 2011, respectively, and common stock equivalents of 152,887 and 53,159 shares are included in the diluted weighted average shares outstanding for the nine months ended June 30, 2012 and 2011, respectively. As of June 30, 2012 and 2011, options to purchase common stock equivalents of -0- and 5,499 shares, respectively, were antidilutive.

The Company is also required to disclose certain information about fair values of financial instruments. Estimates of fair value are made at a specific point in time based upon, where available, relevant market prices and information about the financial instrument. Such estimates do not include any

premium or discount that could result from offering for sale at one time the Company's entire holdings of a particular financial instrument. For a portion of the Company's financial instruments, no quoted market value exists. Therefore, estimates of fair value are necessarily based on a number of significant assumptions (many of which involve events outside the control of management). Such assumptions include assessments of current economic conditions, perceived risks associated with these financial instruments and their counterparties; future expected loss experience and other factors. Given the uncertainties surrounding these assumptions, the reported fair values represent estimates only and, therefore, cannot be compared to the historical accounting model. Use of different assumptions or methodologies is likely to result in significantly different fair value estimates.

The fair value of cash and cash equivalents approximates their current carrying amounts since all such items are short-term in nature. The fair value of variable rate loans payable and Subordinated Debentures approximate their current carrying amounts since such amounts payable are at approximately a weighted-average current market rate of interest. At June 30, 2012, the fair value (estimated based upon expected cash outflows discounted at current market rates) and carrying value of fixed rate mortgage notes payable amounted to \$242,984,480 and \$235,730,028, respectively. As of September 30, 2011, the above listed real estate held for sale consists of an industrial property in Quakertown, PA which was classified as held for sale and is recorded at estimated fair value. On October 31, 2011, the Company sold this property for gross proceeds of \$2,765,000.

ITEM 2. Management's Discussion and Analysis of Financial Condition and Results of Operations.

Overview and Recent Activity

The following discussion and analysis of the consolidated financial condition and results of operations should be read in conjunction with the Consolidated Financial Statements and notes thereto

provided elsewhere herein and the Company's Annual Report on Form 10-K for the fiscal year ended September 30, 2011.

The Company is a REIT. The Company's primary business is the ownership and management of industrial buildings subject to long-term leases primarily to investment-grade tenants. During the nine months ended June 30, 2012, the Company purchased six net-leased industrial properties, located in Streetsboro, OH, Corpus Christi, TX, Halfmoon, NY, Lebanon, OH, Olive Branch, MS, and Oklahoma City, OK, totaling approximately 895,000 square feet, for approximately \$61,664,000. As of June 30, 2012, the Company owned seventy industrial properties and one shopping center with total square footage of approximately 8,372,000 square feet. These properties are located in twenty-six states. As of June 30, 2012, the Company's weighted average lease expiration term was approximately 5.3 years and its occupancy rate was 94%. As of June 30, 2012, the Company's average rent per occupied square foot for fiscal 2012 was approximately \$5.67. Total real estate investments were \$461,926,052 as of June 30, 2012.

The Company's revenue primarily consists of rental and reimbursement revenue from the ownership of industrial rental property. Income from property operations defined as rental and reimbursement revenue less real estate taxes and operating expenses increased \$605,468 or 6% for the three months ended June 30, 2012 as compared to the three months ended June 30, 2011 and increased \$1,865,261 or 6% for the nine months ended June 30, 2012 as compared to the nine months ended June 30, 2011. The increase was due to the additional income related to the three industrial properties purchased during fiscal 2011 and the six properties purchased during the nine months ended June 30, 2012. The Company's revenue also includes lease termination income, which amounted to \$3,222,283 for the nine months ended June 30, 2012 and \$-0- for nine months ended June 30, 2011. This income represents the payment from our tenant at our St. Joseph, MO property terminating its lease obligation before the end of the contractual term of the lease. On May 8, 2012, the Company re-leased approximately 65% of this property.

The Company has a concentration of FDX-leased properties. As of June 30, 2012, no tenant leased more than 5% of the Company's total leasable square footage with the exception of FDX and its subsidiaries, which leased 42% of our total leasable square footage. In addition, Cracker Barrel Old Country Stores, Inc., leased 5% of our total leasable square footage. The only tenant that accounted for more than 5% of our total rental and reimbursement revenue for the nine months ended June 30, 2012 was FDX and its subsidiaries. Annualized rental and reimbursement revenue from FDX and its subsidiaries is estimated at approximately 50% of total rental and reimbursement revenue for fiscal 2012. This concentration is a risk shareholders should consider.

The Company also holds a portfolio of securities of other REITs with a fair value of \$46,343,963 as of June 30, 2012, which earns dividend and interest income. The dividends received from our securities investments were at a weighted average yield of approximately 7.2 % as of June 30, 2012. As of June 30, 2012, the Company had net unrealized gains on securities available for sale of \$4,851,092. The REIT securities portfolio provides the Company with liquidity and additional income and serves as a proxy for real property investments.

general corporate purposes. The Series B Preferred Stock is listed on the NYSE under the symbol MNR-PRB .

Reimbursement revenue decreased \$672,666 or 34% for the three months ended June 30, 2012 as compared to the three months ended June 30, 2011 and decreased \$659,062 or 11% for the nine months ended June 30, 2012 as compared to the nine months ended June 30, 2011. The decrease in the three and nine months ended June 30, 2012 was due primarily to the Company's ability to obtain refunds and reductions in real estate taxes for several properties. Because this results in reducing our tenants overall occupancy costs, it is expected to result in higher tenant retention rates.

Lease termination income amounted to \$3,222,283 for the nine months ended June 30, 2012 as compared to nine months ended June 30, 2011. This income represents the payment from our tenant at our St. Joseph, MO property terminating its lease obligation before the end of the contractual term of the lease. Real estate taxes decreased \$1,051,265 or 58% for the three months ended June 30, 2012 as compared to the three months ended June 30, 2011 and decreased \$971,638 or 18% for the nine months ended June 30, 2012 as compared to the nine months ended June 30, 2011. The decrease in the three and nine months ended June 30, 2012 was due primarily to the Company's ability to obtain refunds and reductions in real estate taxes of several properties. Operating expenses increased \$366,639 or 65% for the three months and increased \$348,718 or 19% for the nine months ended June 30, 2012 as compared to the three and nine months ended June 30, 2011. The increase in the three and nine months ended June 30, 2012 was due primarily to the increase in professional fees associated with obtaining a reduction of real estate taxes on several properties, increase in management fees and insurance associated with six new acquisitions.

General and administrative expense increased \$232,090 or 25% for the three months ended June 30, 2012 as compared to the three months ended June 30, 2011 and increased \$351,528 or 13% for the nine months ended June 30, 2012 as compared to the nine months ended June 30, 2011. Severance expense increased \$965,083 for the three months ended June 30, 2012 as compared to the three months ended June 30, 2011 and increased \$690,083 for the nine months ended June 30, 2012 as compared to the nine months ended June 30, 2011. Net real estate investments increased \$52,902,496 from September 30, 2011 to June 30, 2012. This increase was due mainly to the purchase of the industrial properties in Streetsboro, OH, Corpus Christi, TX, Halfmoon, NY, Lebanon, OH, Olive Branch, MS and Oklahoma City, OK totaling approximately \$61,664,000, partially offset by depreciation expense for the nine month period of \$8,451,907.

Securities available for sale increased \$2,078,904 from September 30, 2011 to June 30, 2012. The increase was due mainly to an increase in the unrealized gain on securities of \$2,482,929.

Edgar Filing: MONMOUTH REAL ESTATE INVESTMENT CORP - Form 10-Q

Mortgage notes payable increased \$24,115,858 from September 30, 2011 to June 30, 2012. The increase was due mainly to the six mortgages of \$40,333,000 originated in connection with the acquisitions of the six industrial properties purchased in fiscal 2012. Details on the mortgages are as follows:

	Mortgage	Maturity	Interest
<u>Property</u>	<u>Originated</u>	<u>Date</u>	<u>Rate</u>
Streetsboro, OH	\$12,740,000	11/1/21	5.5%
Corpus Christi, TX	3,150,000	11/1/21	5.85%
Halfmoon, NY	4,213,000	1/13/37	5.25%

Oklahoma City, OK	6,200,000	7/1/24	4.35%

In addition, the Company refinanced the existing mortgage on the Memphis, TN property with a balance of \$9,432,309 at an interest rate of 6.25% due October 15, 2014. The Company's outstanding 8% Debentures decreased \$125,000 from September 30, 2011 to June 30, 2012. The decrease was due to repurchases at par.

Loans payable decreased \$11,660,950 from September 30, 2011 to June 30, 2012. The decrease was mainly due to payments on the line of credit of \$11,000,000 and repayments on the margin loan of \$5,860,950 offset by a new 5-year term loan of \$2,500,000 from Two River at a fixed interest rate of 4.9%, and a new 5-year term loan of \$2,700,000 from The Bank of Princeton at a variable rate of prime plus 0.75% with a floor of 4.5%. On July 9, 2012, the Company declared a dividend of \$0.15 per common

share to be paid on September 17, 2012 to common shareholders of record as of August 15, 2012. On March 13, 2012, the Company temporarily suspended its Dividend Reinvestment and Stock Purchase Plan. As a result, the dividend that was payable on March 15, 2012 and June 15, 2102 was paid in cash to all common shareholders otherwise participating in dividend reinvestment. As of August 2, 2012, the Dividend Reinvestment and Stock Purchase Plan was reinstated.

The Company uses a variety of sources to fund its cash needs in addition to cash generated through operations. The Company may sell marketable securities, borrow on its margin loans, refinance debt, or raise capital through the DRIP or capital markets.

As described above, the Company has been raising capital through its DRIP, registered direct placements and public offerings of common and preferred stock and investing in net leased industrial

properties. The Company believes that funds generated from operations and from its recent public offerings, together with the ability to finance and refinance its properties, will provide sufficient funds to adequately meet its obligations over the next year.

The Company seeks to invest in well-located, modern buildings leased primarily to investment grade tenants on long-term leases. In management's opinion, newly built facilities leased to FDX and its subsidiaries meet these criteria. The Company has a concentration of FDX and FDX subsidiary leased properties. As of June 30, 2012, no tenant leased more than 5% of the Company's total leasable square footage, with the exception of FDX and its subsidiaries, which leased 42% of our total leasable square footage and Cracker Barrel Old Country Stores, Inc., which leased 5% of our total leasable square footage. The only tenant that accounted for more than 5% of our total rental and reimbursement revenue for the nine months ended June 30, 2012 was FDX and its subsidiaries. Annualized rent and reimbursement revenue from FDX and its subsidiaries is estimated at approximately 50% of total rental and reimbursement revenue for fiscal year 2012. FDX is a publicly-owned corporation and information on its financial business operations is readily available to the Company's shareholders.

The Company intends to acquire additional net-leased industrial properties on long-term leases, primarily to investment grade tenants, and expand its current properties when needed. The Company has historically financed purchases of real estate and expansions primarily through mortgages and available cash reserves. To the extent that funds or appropriate properties are not available, fewer acquisitions and expansions will be made.

Off-Balance Sheet Arrangements

The Company does not have any off-balance sheet arrangements.

Funds From Operations

Funds from operations (FFO) is defined as net income, excluding gains or losses from sales of depreciable assets, plus real estate-related depreciation and amortization. FFO should be considered as a supplemental measure of operating performance used by REITs. FFO excludes historical cost depreciation as an expense and may facilitate the comparison of REITs which have different cost basis. The items excluded from FFO are significant components in understanding the Company's financial performance.

FFO (i) does not represent cash flow from operations as defined by generally accepted accounting principles; (ii) should not be considered as an alternative to net income as a measure of operating performance or to cash flows from operating, investing and financing activities; and (iii) is not an alternative to cash flow as a measure of liquidity. FFO, as calculated by the Company, may not be comparable to similarly entitled measures reported by other REITs.

The Company's FFO for the three and nine months ended June 30, 2012 and 2011 is calculated as follows:

	Three Months Ended		Nine Months Ended	
	6/30/12	6/30/11	6/30/12	6/30/11

FFO	\$4,423,661	\$5,957,283	\$22,265,691	\$18,212,408

The following are the cash flows provided (used) by operating, investing and financing activities for the nine months ended June 30, 2012 and 2011:

We issued shares of our common stock under our Registration Statement on Form S-3 for our Dividend Reinvestment and Stock Purchase Plan when we were not eligible to use Form S-3, which may result in claims for rescission and other damages.

Due to the late filing of a Form 8-K, we temporarily lost our eligibility to register securities on a Form S-3 on December 12, 2011. Despite this ineligibility, we issued approximately 859,000 shares of common stock under our Form S-3 registration statement for our Dividend Reinvestment and Stock Purchase Plan (DRIP) in December 2011, January 2012 and February 2012. The aggregate purchase price of these shares was approximately \$7.4 million. On March 13, 2012, we discontinued issuances under this registration statement. The purchasers of the shares issued pursuant to our DRIP when we were not eligible to issue shares on Form S-3 could bring claims against us for rescission and other damages under federal or state securities laws. On August 1, 2012, we filed a new registration statement on Form S-3, covering the resale of up to 3,000,000 shares of our common stock under the DRIP. On August 2, 2012, we reinstated the DRIP.
