SGL Carbon resolves strengthening of equity base and long-term capital measures/Ad hoc notification pursuant to ss.15, German Securities Trading Act

WIESBADEN, December 05, 2003. The Executive Committee of SGL Carbon AG has resolved, with the consent of the Supervisory Board, to implement a comprehensive re-financing plan designed to strengthen the company's equity base and secure mid-/long-term financing. The financing plan consists of a capital increase and senior and subordinated debt. The total financing plan will generate proceeds of approximately (euro) 830 million and is expected to be completed in early to mid-February 2004. This financing plan is designed to provide SGL Carbon with a broad financial base.

SGL Carbon has called an extraordinary shareholders' meeting for January 15, 2004, to seek shareholder approval for the capital increase with subscription rights for shareholders. SGL Carbon has appointed an international bank syndicate to implement the capital increase and rights issue that has agreed to fully underwrite approximately 33 million shares at a minimum subscription price of (euro) 6 per share, subject to customary conditions. The minimum subscription price represents an approximately 50% discount to the volume weighted average share price of the last thirty days. The company expects to receive cash proceeds from this capital increase with subscription rights for shareholders in an amount of at least (euro) 200 million.

The senior debt will be comprised of a (euro) 330 million syndicated loan facility, which has a term of up to six years and will replace the syndicated facility that we established at the end of 2002. The subordinated debt is expected to be comprised of a long-term bond generating proceeds of up to (euro) 300 million which will be backstopped through a subordinated bridge loan facility. Subject to the successful completion of the capital increase and the fulfillment of customary conditions, the bank syndicate has committed to provide the funds under the new syndicated credit facility and to back up the subordinated debt with a bridge loan.
