Item 2.05 Costs Associated with Exit or Disposal Activities

On September 25, 2007, Worthington Industries, Inc. (the "Company") announced that it will begin implementing a consolidation plan (the "Plan") involving five locations of its Dietrich Metal Framing business segment. The Plan is a result of a focus on asset utilization and maximizing profitability, and will reduce Metal Framing's footprint while maintaining customer service from other locations. The facilities included in the Plan are: East Chicago, IN, Rock Hill, SC, Phoenix, AZ, Wildwood, FL, and the downsizing of operations in Montreal, CN. The Rock Hill facility will continue to operate as a Worthington Steel processing operation. Annual net sales generated by these operations total approximately \$125 million, the majority of which are expected to be absorbed into nearby Dietrich locations. The Plan is expected to be completed by the end of the Company's fiscal 2008.

In connection with the Plan, the Company expects to record restructuring charges estimated to be \$15 million in the aggregate, including \$2.1 million representing severance, benefits and personnel-related costs for approximately 165 employees, \$4.8 million representing lease termination and facility-related costs, \$5.1 million for non-cash asset write-offs and \$3.0 million of other associated costs. These costs are expected to be expensed over the next three quarters of fiscal 2008.

Cash expenditures associated with implementing the Plan are expected to be paid primarily during the third and fourth quarters of fiscal 2008 and the first quarter of fiscal 2009. Certain cash payments associated with lease terminations could be paid over the remaining lease terms.
