Dear Fellow Shareholders:

The facts speak for themselves -

- Sales for the first half of 2010 grew to approximately \$187 million
- Net income for the first half of 2010 increased more than 24% to approximately \$29 million, compared to the same period in 2009
- Cash provided by operations for the first half of 2010 nearly doubled from the prior year period, to approximately \$24 million
- Cash on June 30, 2010, including restricted cash and short-term bank deposits, was approximately \$118 million, an increase of over 49% from the level one year earlier
- Net debt on June 30, 2010 was approximately \$23 million, nearly 74% lower than net debt one year earlier
 - Taro has now completed 14 consecutive quarters of profitability
 - Taro has issued audited financial statements for 2004, 2005, 2006 and 2007
- We continue to expect that the 2008 and 2009 audits will be completed by year-end

Our preliminary, unaudited results for the first half of 2010, presented below, make clear that these favorable trends are continuing. During the first six months of 2010, cash continued to increase, while net debt continued to decrease. Net sales, gross profit and operating income reached record highs. Taro's performance in each of its major markets (U.S., Canada and Israel) contributed to this success. The Company continues to grow its portfolio of generic prescription and over-the-counter products, as well as proprietary products.

The graph below presents the Company's net sales, gross profit, operating income and net income for the first six months of 2008, 2009 and 2010.

1 The financial information presented herein does not constitute complete financial information, has not been reviewed by the Company's independent auditors and is subject to change as the Company continues to work with its auditors to complete its 2008 and 2009 audits in order to become current with its financial reporting obligations. However, audited financial results for the full years 2008 and 2009 will be reported in filings with the U.S. Securities and Exchange Commission as soon as they become available, and may differ from the information previously reported by the Company. Subject to the foregoing caveats, the information presented herein represents the best information currently available to Taro management and the Company believes that it fairly presents the Company's results of operations.
