Smaller reporting company X

Indicate by check mark whether the Registrant is a shell company (as defined in Rule 12b-2 of the Act). Yes \_ No X

As of December 31, 2009, the aggregate market value of the common stock of Registrant held by non-affiliates based upon the last sale price of the stock on such date was \$20,230,781

As of October 11, 2010, 19,095,713 shares of common stock of Registrant were outstanding.

DOCUMENTS INCORPORATED BY REFERENCE

Part III incorporates information by reference from the Registrant's definitive proxy statement to be filed with the Securities and Exchange Commission in connection with the solicitation of proxies for the Registrant's 2010 Annual Meeting of Stockholders.

Explanatory Note

We are filing this Amendment No. 1 to our Annual Report on Form 10-K for the fiscal year ended June 30, 2010 (the "Original Report") in order to amend the Consolidated Balance Sheets on page FS-3 which contained a typographical error in the number presented for Long-term Debt, net of current maturities as of June 30, 2010.

Other than the amendment to the Original Report to correct a typographical error on the Consolidated Balance Sheet, this Amendment No. 1 does not affect any other items in our Original Report. We are also filing as exhibits to this Amendment No. 1 the certifications pursuant to section 302 and section 906 of the Sarbanes-Oxley Act of 2002, which are currently dated.

Except as otherwise expressly stated for the item amended in this Amendment No. 1, this Amendment No. 1 continues to speak as of the date of the Original Report and we have not updated the disclosure contained herein to reflect events that have occurred since the filing of the Original Report. Accordingly, this Amendment No. 1 should be read in conjunction with our Original Report.

-----

ITEM 1: BUSINESS.

NAPCO Security Technologies, Inc. ("NAPCO" or the "Company") was incorporated in December 1971 in the State of Delaware. Its executive offices are located at 333 Bayview Ave, Amityville NY 11701. Its telephone number is (631) 842-9400.

The Company is a diversified manufacturer of security products, encompassing intrusion and fire alarms, building access control systems and electronic locking devices. These products are used for commercial, residential, institutional, industrial and governmental applications, and are sold worldwide principally to independent distributors, dealers and installers of security equipment. On August 18, 2008, the Company, through the formation of a new subsidiary, Marks USA I, LLC ("Marks"), acquired substantially all of the assets and business of G. Marks Hardware, Inc. for \$25.2 million, the repayment of \$1 million of bank debt and the assumption of certain current liabilities. The Marks business involves the manufacturing and distribution of door-locking devices.

Website Access to Company Reports

Copies of our filings under the Securities Exchange Act of 1934 (including annual reports on Form 10-K, quarterly reports on Form 10-Q, current reports on Form 8-K and all amendments to these reports) are available free of charge on our website ([www.napcosecurity.com](http://www.napcosecurity.com)) on the same day they are electronically filed with the Securities and Exchange Commission.

Acquisition

On August 18, 2008, the Company acquired substantially all of the assets and business of Marks for \$25.2 million, the repayment of \$1 million of bank debt and the assumption of certain current liabilities. In August 2009, the Company completed the move of all operations of Marks to its Dominican plant and into the Company's corporate headquarters in Amityville. The Marks business involves the manufacturing and distribution of door-locking devices.

Restructuring Costs

In March 2009, the Company began a Restructuring Plan consisting of a series of actions to consolidate its Sales, Production and Warehousing operations of Marks and those in Europe and the Middle East into the Corporate Headquarters in Amityville, NY and its production facility in the Dominican Republic. The majority of these actions have been completed by June 30, 2010, while certain remaining Production-related actions are expected to be completed by December 31, 2010. Accordingly, the Company recognized restructuring costs of \$1,274,000 in the fiscal year ended June 30, 2009. Of this amount, \$210,000 relates to Workforce Reductions communicated in March 2009 and \$1,064,000 to Business Exits and related costs associated with inventory and lease impairments related to the closure of the Marks, European and Middle East facilities. As of June 30, 2010, \$1,138,000 of the \$1,274,000 in restructuring costs has been paid and \$136,000 remains in accrued expenses.

Products

Access Control Systems. Access control systems consist of one or more of the following: various types of identification readers (e.g. card readers, hand scanners, etc.), a control panel, a PC-based computer and electronically activated door-locking devices. When an identification card or other identifying information is entered into the reader, the information is transmitted to the control panel/PC which then validates the data and determines whether to grant access or not by electronically deactivating the door locking device. An

## Edgar Filing: NAPCO SECURITY TECHNOLOGIES, INC - Form 10-K/A

electronic log is kept which records various types of data regarding access activity.

The Company designs, engineers, manufactures and markets the software and control panels discussed above. It also buys and resells various identification readers, PC-based computers and various peripheral equipment for access control systems.

Alarm Systems. Alarm systems usually consist of various detectors, a control panel, a digital keypad and signaling equipment. When a break-in occurs, an intrusion detector senses the intrusion and activates a control panel via hard-wired or wireless transmission that sets off the signaling equipment and, in most cases, causes a bell or siren to sound. Communication equipment such as a digital communicator may be used to transmit the alarm signal to a central station or another person selected by a customer.

The Company manufactures and markets the following products for alarm systems:

Automatic Communicators. When a control panel is activated by a signal from an intrusion detector, it activates a communicator that can automatically dial one or more pre-designated telephone numbers. If programmed to do so, a digital communicator dials the telephone number of a central monitoring station and communicates in computer language to a digital communicator receiver, which prints out an alarm message.

Control Panels. A control panel is the "brain" of an alarm system. When activated by any one of the various types of intrusion detectors, it can activate an audible alarm and/or various types of communication devices. For marketing purposes, the Company refers to its control panels by the trade name, generally "Gemini(TM)" and "Magnum Alert(TM)" followed by a numerical designation.

Combination Control Panels/Digital Communicators and Digital Keypad Systems. A combination control panel, digital communicator and a digital keypad (a plate with push button numbers as on a telephone, which eliminates the need for mechanical keys) has continued to grow rapidly in terms of dealer and consumer preference. Benefits of the combination format include the cost efficiency resulting from a single microcomputer function, as well as the reliability and ease of installation gained from the simplicity and sophistication of micro-computer technology.

Door Security Devices. The Company manufactures a variety of exit alarm locks including simple dead bolt locks, door alarms and microprocessor-based electronic door locks with push button and card reader operation.

Fire Alarm Control Panel. Multi-zone fire alarm control panels, which accommodate an optional digital communicator for reporting to a central station, are also manufactured by the Company.

Area Detectors. The Company's area detectors are both passive infrared heat detectors and combination microwave/passive infrared detectors that are linked to alarm control panels. Passive infrared heat detectors respond to the change in heat patterns caused by an intruder moving within a protected area. Combination units respond to both changes in heat patterns and changes in microwave patterns occurring at the same time.

Video Surveillance Systems  
-----

## Edgar Filing: NAPCO SECURITY TECHNOLOGIES, INC - Form 10-K/A

Video surveillance systems typically consist of one or more video cameras, a control panel and a video monitor or PC. More advanced systems can also include a recording device and some type of remote communication device such as an internet connection to a PC or browser-enabled cell phone. The system allows the user to monitor various locations at once while recorders save the video images for future use. Remote communication devices can allow the user to view and control the system from a remote location.

The Company designs, engineers, and markets the software and control panels discussed above. It also buys and resells various video cameras, PC-based computers and peripheral equipment for video surveillance Systems.

### Peripheral Equipment

The Company also markets peripheral and related equipment manufactured by other companies. Revenues from peripheral equipment have not been significant.

### Research and Development

The Company's business involves a high technology element. During the fiscal years ended June 30, 2010 and 2009, the Company expended approximately \$4,922,000 and \$5,116,000, respectively, on Company-sponsored research and development activities conducted by its engineering department to develop and improve the Products. The Company intends to continue to conduct a significant portion of its future research and development activities internally.

### Employees

As of June 30, 2010, the Company had approximately 1,003 full-time employees.

### Marketing

The Company's staff of 43 sales and marketing support employees located at the Company's Amityville and United Kingdom offices sells and markets the Products primarily to independent distributors and wholesalers of security alarm and security hardware equipment. Management estimates that these channels of distribution represented approximately 49% of the Company's total sales for each of the fiscal years ended June 30, 2010 and 2009. The remaining revenues are primarily from installers and governmental institutions. The Company's sales representatives periodically contact existing and potential customers to introduce new products and create demand for those as well as other Company products. These sales representatives, together with the Company's technical personnel, provide training and other services to wholesalers and distributors so that they can better service the needs of their customers. In addition to direct sales efforts, the Company advertises in technical trade publications and participates in trade shows in major United States and European cities. Some of the Company's products are marketed under the "private label" of certain customers.

In the ordinary course of the Company's business the Company grants extended payment terms to certain customers. For further discussion on Accounts Receivable and Concentration of Credit Risk see disclosures included in Item 7.

### Competition

The security alarm products industry is highly competitive. The Company's primary competitors are comprised of approximately 20 other companies that manufacture and market security equipment to distributors, dealers, central stations and original equipment manufacturers. The Company believes that no one of these competitors is dominant in the industry. Certain of these companies

## Edgar Filing: NAPCO SECURITY TECHNOLOGIES, INC - Form 10-K/A

have substantially greater financial and other resources than the Company.

The Company competes primarily on the basis of the features, quality, reliability and pricing of, and the incorporation of the latest innovative and technological advances into, its Products. The Company also competes by offering technical support services to its customers. In addition, the Company competes on the basis of its expertise, its proven products, its reputation and its ability to provide Products to customers on a timely basis. The inability of the Company to compete with respect to any one or more of the aforementioned factors could have an adverse impact on the Company's business. Relatively low-priced "do-it-yourself" alarm system products have become available in recent years and are available to the public at retail stores. The principal components in the Company's products are integrated circuits, printed circuit boards, microprocessors, sheet metal, plastic resin, machined and cast metal components. The Company believes that these products compete with the Company only to a limited extent because they appeal primarily to the "do-it-yourself" segment of the market. Purchasers of such systems do not receive professional consultation, installation, service or the sophistication that the Company's Products provide.

### Seasonality

The Company's fiscal year begins on July 1 and ends on June 30. Historically, the end users of Napco's products want to install its products prior to the summer; therefore sales of its products historically peak in the period April 1 through June 30, the Company's fiscal fourth quarter, and are reduced in the period July 1 through September 30, the Company's fiscal first quarter. To a lesser degree, sales in Europe are also adversely impacted in the Company's first fiscal quarter because of European vacation patterns, i.e., many distributors and installers are closed for the month of August. In addition, demand is affected by the housing and construction markets. The severity of the current economic downturn may also affect this trend.

### Raw Materials

The Company prepares specifications for component parts used in the Products and purchases the components from outside sources or fabricates the components itself. These components, if standard, are generally readily available; if specially designed for the Company, there is usually more than one alternative source of supply available to the Company on a competitive basis. The Company generally maintains inventories of all critical components. The Company for the most part is not dependent on any one source for its raw materials.

### Sales Backlog

In general, orders for the Products are processed by the Company from inventory. A sales backlog of approximately \$2,236,000 and \$1,554,000 existed as of June 30, 2010 and 2009, respectively. The Company expects to fill all of the backlog that existed as of June 30, 2010 during fiscal 2011.

### Government Regulation

The Company's telephone dialers, microwave transmitting devices utilized in its motion detectors and any new communication equipment that may be introduced from time to time by the Company must comply with standards promulgated by the Federal Communications Commission ("FCC") in the United States and similar agencies in other countries where the Company offers such products, specifying permitted frequency bands of operation, permitted power output and periods of operation, as well as compatibility with telephone lines. Each new Product that is subject to such regulation must be tested for compliance with FCC standards or the standards of such similar governmental agencies. Test reports are

## Edgar Filing: NAPCO SECURITY TECHNOLOGIES, INC - Form 10-K/A

submitted to the FCC or such similar agencies for approval. Cost of compliance with these regulations has not been material.

### Patents and Trademarks

The Company has been granted several patents and trademarks relating to the Products. While the Company obtains patents and trademarks as it deems appropriate, the Company does not believe that its current or future success is dependent on its patents or trademarks.

### Foreign Sales

The revenues and identifiable assets attributable to the Company's domestic and foreign operations for its last two fiscal years are summarized in the following table:

Financial Information Relating to Domestic and Foreign Operations		
	2010	2009
	----	----
	(in thousands)	
Sales to external customers(1):		
Domestic	\$ 62,925	\$ 62,676
Foreign	4,832	6,889
	-----	-----
Total Net Sales	\$ 67,757	\$ 69,565
	=====	=====
Identifiable assets:		
United States	\$ 54,896	\$ 60,456
Dominican Republic (2)	18,235	18,822
Other foreign countries	537	2,308
	-----	-----
Total Identifiable Assets	\$ 73,668	\$ 81,586
	=====	=====

(1) All of the Company's sales originate in the United States and are shipped primarily from the Company's facilities in the United States and United Kingdom. There were no sales into any one foreign country in excess of 10% of total Net Sales.

(2) Consists primarily of inventories (2010 = \$13,896,000; 2009 = \$13,960,000) and fixed assets (2010 = \$4,246,000; 2009 = \$4,696,000) located at the Company's principal manufacturing facility in the Dominican Republic.

### ITEM 1A: RISK FACTORS.

The risks described below are among those that could materially and adversely affect the Company's business, financial condition or results of operations. These risks could cause actual results to differ materially from historical experience and from results predicted by any forward-looking statements related to conditions or events that may occur in the future.

#### Our Business Could Be Materially Adversely Affected as a Result of General

#### Economic and Market Conditions

-----  
We are subject to the effects of general economic and market conditions. If these conditions deteriorate, our business, results of operations or financial condition could be materially adversely affected. In addition, since October

Edgar Filing: NAPCO SECURITY TECHNOLOGIES, INC - Form 10-K/A

2008, the U.S. and international economies have experienced a significant downturn and continue to be very volatile. In the event that the downturn in the U.S. or international economies is prolonged or worsens, our revenue levels could be further materially adversely affected in future periods. If the current worldwide economic downturn continues or worsens, many of our current or potential future customers may experience serious cash flow problems and as a result may, modify, delay or cancel purchases of our products. Additionally, customers may not be able to pay, or may delay payment of, accounts receivable that are owed to us. Furthermore, the current downturn and market instability makes it difficult for us to forecast our revenues.

Our Business Could Be Materially Adversely Affected as a Result of the Inability  
-----  
to Maintain Adequate Financing  
-----

Our business is dependent on maintaining the financing used in the Marks acquisition and to fund operations. The current debt facilities provide for certain minimum payments on the Marks term loan and financial covenants relating to ratios affected by profit, asset and debt levels. The Company is not in compliance with several of the covenants in the current facilities. The Company and its banks have been in negotiations to amend and restate the existing terms of the credit facilities and term loan. The Company and its banks have agreed in principle on all the key terms and modifications to the existing revolving credit agreement and term loan. This agreement would include waivers of the existing non-compliance. The restated facilities would provide for restructured covenants that reflect the Company's current financial condition. However, if the Company does not consummate these new facilities or if profits, asset or cash-flow levels decline below the minimums required to meet these covenants or make the minimum debt payments, the debt facilities may be materially adversely affected. Effects on the Company's financing could include higher interest costs, reduction in borrowing availability or revocation of these credit facilities.

Our Business Could Be Materially Adversely Affected by the Inability to Reduce  
-----  
Expenses Relative to the Current Decreases in Sales Levels  
-----

While Management has begun implementation of a restructuring plan to reduce expense levels relative to current sales levels, if this plan is delayed, not completed or sales levels decrease further, our business may be adversely affected.

Our Business Could Be Materially Adversely Affected as a Result of Housing and  
-----  
Commercial Building Market Conditions  
-----

We are subject to the effects of housing and commercial building market conditions. If these conditions continue to deteriorate, resulting in a further decline in new housing or commercial building starts, existing home or commercial building sales or renovations, our business, results of operations or financial condition could be materially adversely affected beyond the current levels, particularly in our intrusion and door locking product lines.

Our Business Could Be Materially Adversely Affected as a Result of Lessening  
-----  
Demand in the Security Market  
-----

Edgar Filing: NAPCO SECURITY TECHNOLOGIES, INC - Form 10-K/A

Our revenue and profitability depend on the overall demand for our products. Continued or worsening delays or reductions in spending, domestically or internationally, for electronic security systems could further materially adversely affect demand for our products, which could result in decreased revenues or earnings.

The Markets We Serve Are Highly Competitive and We May Be Unable to Compete  
-----  
Effectively  
-----

We compete with approximately 20 other companies that manufacture and market security equipment to distributors, dealers, control stations and original equipment manufacturers. Some of these companies may have substantially greater financial and other resources than the Company. The Company competes primarily on the basis of the features, quality, reliability and pricing of, and the incorporation of the latest innovative and technological advances into, its products. The Company also competes by offering technical support services to its customers. In addition, the Company competes on the basis of its expertise, its proven products, its reputation and its ability to provide products to customers on a timely basis. The inability of the Company to compete with respect to any one or more of the aforementioned factors could have an adverse impact on the Company's business.

Our Business Could be Materially Adversely Affected as a result of Offering  
-----  
Extended Payment Terms to Customers  
-----

We regularly grant credit terms beyond 30 days to our customers. These terms are offered in an effort to keep a full line of our products in-stock at our customers' locations. The longer terms that are granted, the more risk is inherent in collection of those receivables. We believe that our Bad Debt reserves are adequate to account for this inherent risk.

Competitors May Develop New Technologies or Products in Advance of Us  
-----

Our business may be materially adversely affected by the announcement or introduction of new products and services by our competitors, and the implementation of effective marketing or sales strategies by our competitors. There can be no assurance that competitors will not develop products that are superior to the Company's products. Further, there can be no assurance that the Company will not experience additional price competition, and that such competition may not adversely affect the Company's position and results of operations.

The Company's Products are Subject to Technological Changes from Time to Time,  
-----  
Which may Result in Increased Research and Developments Expenditures to Attract  
-----  
or Retain Customers  
-----

The industry in which the Company operates is characterized by constantly improved products. Future success will depend, in part, on our ability to continue to develop and market products and product enhancements cost-effectively, which will require continued expenditures for product engineering, sales and marketing. The Company's research and development expenditures, which were \$4,922,000 and \$5,116,000 for 2010 and 2009,

## Edgar Filing: NAPCO SECURITY TECHNOLOGIES, INC - Form 10-K/A

respectively, are principally targeted at enhancing existing products, and to a lesser extent at developing new ones. If the Company cannot modify its products to meet its customers' changing needs, we may lose sales.

We Rely On Distributors To Sell Our Products And Any Adverse Change In Our  
-----  
Relationship With Our Distributors Could Result In A Loss Of Revenue And Harm  
-----  
Our Business.  
-----

We distribute our products primarily through independent distributors and wholesalers of security alarm and security hardware equipment. Our distributors and wholesalers also sell our competitors' products, and if they favor our competitors' products for any reason, they may fail to market our products as effectively or to devote resources necessary to provide effective sales, which would cause our results to suffer. In addition, the financial health of these distributors and wholesalers and our continuing relationships with them are important to our success. Some of these distributors and wholesalers may be unable to withstand adverse changes in business conditions. Our business could be seriously harmed if the financial condition of some of these distributors and wholesalers substantially weakens.

Members of Management and Certain Directors Beneficially Own a Substantial  
-----  
Portion of the Company's Common Stock and May Be in a Position to Determine the  
-----  
Outcome of Corporate Elections  
-----

Richard L. Soloway, our Chief Executive Officer, members of management and the Board of Directors beneficially own 31.4% of the currently outstanding shares of Common Stock. By virtue of such ownership and their positions with Napco, they may have the practical ability to determine the election of all directors and control the outcome of substantially all matters submitted to Napco's stockholders.

In addition, Napco has a staggered Board of Directors. Such concentration of ownership and the staggered Board could have the effect of making it more difficult for a third party to acquire, or discourage a third party from seeking to acquire, control of Napco.

We Are Dependent Upon the Efforts of Richard L. Soloway, Our Chief Executive  
-----  
Officer  
-----

The success of the Company is largely dependent on the efforts of Richard L. Soloway, Chief Executive Officer. The loss of his services could have a material adverse effect on the Company's business and prospects. There is currently no succession plan.

Our Business Could Be Materially Adversely Affected by an Increase in the  
-----  
Exchange Rate of the Dominican Peso  
-----

We are exposed to foreign currency risks due to our significant operations in the Dominican Republic. We have significant operations in the Dominican Republic which are denominated in Dominican pesos. We are subject to the risk that currency exchange rates between the United States and the Dominican Republic will fluctuate, potentially resulting in an increase in some of our

## Edgar Filing: NAPCO SECURITY TECHNOLOGIES, INC - Form 10-K/A

expenses when US dollars are transferred to Dominican pesos to pay these expenses.

### Our Business Could Be Materially Adversely Affected by the Integration of Marks ----- into Our Existing Operations -----

Our business is dependent on the orderly, effective integration of the acquired Marks business, technologies, product lines and employees into our organization. If this integration is unsuccessful, our business may be materially adversely affected.

### The Company's Debt Repayments Relating to the Acquisition of Marks Require ----- Substantially Higher Cashflows -----

The Marks acquisition requires quarterly principal debt repayments of approximately \$893,000, plus interest, that are in addition to the Company's historical cash-flow requirements. A significant decline in the Company's earnings or cashflows could put at risk the Company's ability to repay this debt as well as to failing to meet certain financial covenants within the existing Revolving Credit Agreement and the Term Loan.

#### ITEM 1B: UNRESOLVED STAFF COMMENTS.

Not applicable.

#### ITEM 2: PROPERTIES.

The Company owns executive offices and production and warehousing facilities at 333 Bayview Avenue, Amityville, New York. This facility consists of a fully-utilized 90,000 square foot building on a six acre plot. This six-acre plot provides the Company with space for expansion of office, manufacturing and storage capacities. In March 2009, the Company began a Restructuring Plan, as described in Note 14, which includes consolidating the operations of Marks from the leased building described below into the Corporate Headquarters in Amityville, NY and its production facility in the Dominican Republic. The move from the leased building described below was completed in August 2009, prior to the expiration of the lease. The Marks business involves the manufacturing and distribution of door-locking devices.

The Company leased a building of approximately 35,000 square feet in Amityville, NY. This facility provided all of the administrative, production and warehousing space for the Company's recent Marks acquisition. The lease commenced in August 2008 and expired in August 2009.

The Company's foreign subsidiary located in the Dominican Republic, Napco DR, S.A. (formerly known as NAPCO/Alarm Lock Grupo International, S.A.), owns a building of approximately 167,000 square feet of production and warehousing space in the Dominican Republic. That subsidiary also leases the land associated with this building under a 99-year lease expiring in the year 2092. As of June 30, 2010, a majority of the Company's products were manufactured at this facility, utilizing U.S. quality control standards.

The Company's foreign subsidiary located in the United Kingdom, Napco Group Europe Ltd, leases office space of approximately 167 square feet. This lease expires in January 2011.

The Company's former sales office located in the United Arab Emirates leased

## Edgar Filing: NAPCO SECURITY TECHNOLOGIES, INC - Form 10-K/A

office space of approximately 500 square feet. This lease expired in June 2010. The Company has closed this office as part of its restructuring and, accordingly, did not renew this lease.

Management believes that these facilities are more than adequate to meet the needs of the Company in the foreseeable future.

### ITEM 3: LEGAL PROCEEDINGS.

There are no pending or threatened material legal proceedings to which NAPCO or its subsidiaries or any of their property is subject.

In the normal course of business, the Company is a party to claims and/or litigation. Management believes that the settlement of such claims and/or litigation, considered in the aggregate, will not have a material adverse effect on the Company's financial position and results of operations.

### ITEM 4: RESERVED.

## PART II

-----

### ITEM 5: MARKET FOR THE REGISTRANT'S COMMON EQUITY, RELATED STOCKHOLDER MATTERS AND ISSUER PURCHASES OF EQUITY SECURITIES.

#### Principal Market

NAPCO's Common Stock is traded on the NASDAQ Stock Market, Global Market System, under the symbol NSSC.

The tables set forth below reflect the range of high and low sales of the Common Stock in each quarter of the past two fiscal years as reported by the NASDAQ Global Market System.

Common Stock	Quarter Ended Fiscal 2010			
	Sept. 30	Dec. 31	March 31	June 30
High	\$ 2.08	\$ 2.86	\$ 3.02	\$ 2.58
Low	\$ 1.11	\$ 1.43	\$ 1.68	\$ 1.70

  

Common Stock	Quarter Ended Fiscal 2009			
	Sept. 30	Dec. 31	March 31	June 30
High	\$ 4.54	\$ 2.90	\$ 2.82	\$ 1.72
Low	\$ 2.45	\$ 1.02	\$ 0.76	\$ 1.01

#### Approximate Number of Security Holders

The number of holders of record of NAPCO's Common Stock as of October 7, 2010 was 121 (such number does not include beneficial owners of stock held in nominee

Edgar Filing: NAPCO SECURITY TECHNOLOGIES, INC - Form 10-K/A

name).

Dividend Information

NAPCO has declared no cash dividends during the past two years with respect to its Common Stock, and the Company does not anticipate paying any cash dividends in the foreseeable future. Any cash dividends must be approved by the Company's lenders.

Equity Compensation Plan Information as of June 30, 2010

PLAN CATEGORY	NUMBER OF SECURITIES TO BE ISSUED UPON EXERCISE OF OUTSTANDING OPTIONS (a)	WEIGHTED AVERAGE EXERCISE PRICE OF OUTSTANDING OPTIONS (b)	NUMBER OF SECURITIES REMAINING AVAILABLE FOR FUTURE ISSUANCE (EXCLUDING SECURITIES RECORDED IN COLUMN (c)
Equity compensation plans approved by security holders:	1,410,140	\$ 2.99	388,000
Equity compensation plans not approved by security holders:	—	—	—
Total	1,410,140	\$ 2.99	388,000

ITEM 6: SELECTED FINANCIAL DATA.

The table below summarizes selected financial information. For further information, refer to the audited consolidated financial statements and the notes thereto beginning on page FS-1 of this report.

	Fiscal Year Ended		
	2010(1)	2009(1)	2008
(In thousands, except shares)			
Statement of earnings data:			
Net Sales	\$67,757	\$69,565	\$68,300
Gross Profit	14,522	15,096	20,400
Impairment of Goodwill	923	9,686	
(Loss) Income from Operations	(5,211)	(14,917)	3,100
Net (Loss) Income	(6,500)	(13,382)	3,700
Cash Flow Data:			
Net cash flows provided by (used in) operating activities	5,285	6,792	3,700
Net cash flows used in investing activities	(300)	(25,229)	(1,040)
Net cash flows (used in) provided by financing activities	(3,572)	19,781	(1,720)

Per Share Data:

Stockholders' equity	34,242	40,515	53,5

- (1) Includes the operations and assets of Marks USA I which was acquired in August 2008.
- (2) Certain expenses in Cost of sales have been reclassified to Selling, general and administrative expense to conform to the current year's presentation.
- (3) Share and per share data have been restated to reflect the effect of a 3:2 stock split effective December 2005 and a 3:2 stock split effective June 2006.
- (4) The Company has never paid a dividend on its common stock. It is the policy of the Board of Directors to retain earnings for use in the Company's business. Any dividends must be approved by the Company's primary lenders.
- (5) Working capital is calculated by deducting Current Liabilities from Current Assets.

### ITEM 7: MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS.

#### Overview

The Company is a diversified manufacturer of security products, encompassing intrusion and fire alarms, building access control systems and electronic locking devices. These products are used for commercial, residential, institutional, industrial and governmental applications, and are sold worldwide principally to independent distributors, dealers and installers of security equipment. International sales accounted for approximately 7% and 10% of our revenues for the fiscal years ended June 30, 2010 and 2009 respectively.

The Company owns and operates manufacturing facilities in Amityville, New York and the Dominican Republic. A significant portion of our operating costs are fixed, and do not fluctuate with changes in production levels or utilization of our manufacturing capacity. As production levels rise and factory utilization increases, the fixed costs are spread over increased output, which should improve profit margins. Conversely, when production levels decline our fixed costs are spread over reduced levels, thereby decreasing margins.

On August 18, 2008, the Company acquired substantially all of the assets and business of G. Marks Hardware, Inc. ("Marks") for \$25.2 million, the repayment of \$1 million of bank debt and the assumption of certain current liabilities. The Company also entered into a lease for the building where Marks has maintained its operations. The lease provided for an annual base rent of \$288,750 plus maintenance and real estate taxes and expired in August 2009. In March 2009, the Company began to move the Marks operations into its existing facilities. The Company completed the majority of this consolidation by August 31, 2009. The Marks business involves the manufacturing and distribution of

## Edgar Filing: NAPCO SECURITY TECHNOLOGIES, INC - Form 10-K/A

door-locking devices.

The security products market is characterized by constant incremental innovation in product design and manufacturing technologies. Generally, the Company devotes 7-8% of revenues to research and development (R&D) on an annual basis. Products resulting from our R&D investments in fiscal 2010 did not contribute materially to revenue during this fiscal year, but should benefit the Company over future years. In general, the new products introduced by the Company are initially shipped in limited quantities, and increase over time. Prices and manufacturing costs tend to decline over time as products and technologies mature.

### Economic and Other Factors

Since October 2008, the U.S. and international economies have experienced a significant downturn and continue to be very volatile. In the event that the downturn in the U.S. or international financial markets is prolonged, our revenue, profit and cashflow levels could be materially adversely affected in future periods. This could affect our ability to maintain adequate financing. If the current worldwide economic downturn continues, many of our current or potential future customers may experience serious cash flow problems and as a result may, modify, delay or cancel purchases of our products. Additionally, customers may not be able to pay, or may delay payment of, accounts receivable that are owed to us. Furthermore, the current downturn and market instability makes it difficult for us to forecast our revenues.

### Seasonality

The Company's fiscal year begins on July 1 and ends on June 30. Historically, the end users of Napco's products want to install its products prior to the summer; therefore sales of its products historically peak in the period April 1 through June 30, the Company's fiscal fourth quarter, and are reduced in the period July 1 through September 30, the Company's fiscal first quarter. To a lesser degree, sales in Europe are also adversely impacted in the Company's first fiscal quarter because of European vacation patterns, i.e., many distributors and installers are closed for the month of August. In addition, demand is affected by the housing and construction markets. The severity of the current economic downturn may also affect this trend.

### Restructuring Costs

In March 2009, the Company began a Restructuring Plan consisting of a series of actions to consolidate its Sales, Production and Warehousing operations of Marks and those in Europe and the Middle East into the Corporate Headquarters in Amityville, NY and its production facility in the Dominican Republic. We expect these restructuring initiatives to cost between \$1,200,000 and \$1,500,000. The majority of these initiatives have been completed by June 30, 2010, while certain remaining Production-related actions are expected to be completed by December 31, 2010. Accordingly, the Company recognized restructuring costs of \$1,274,000 in the fiscal year ended June 30, 2009. Of this amount, \$210,000 relates to Workforce Reductions communicated in March 2009 and \$1,064,000 to Business Exits and related costs associated with inventory and lease impairments related to the closure of the Marks, European and Middle East facilities. As of June 30, 2010, \$1,138,000 of the \$1,274,000 in restructuring costs has been incurred and \$136,000 remains in accrued expenses.

### Critical Accounting Policies and Estimates

The discussion and analysis of our financial condition and results of operations are based upon our consolidated financial statements, which have been prepared in conformity with accounting principles generally accepted in the United States. The preparation of these financial statements requires us to make estimates and assumptions that affect the reported amounts of assets,

## Edgar Filing: NAPCO SECURITY TECHNOLOGIES, INC - Form 10-K/A

liabilities, revenues and expenses reported in those financial statements. These judgments can be subjective and complex, and consequently actual results could differ from those estimates. Our most critical accounting policies relate to revenue recognition; concentration of credit risk; inventories; intangible assets; goodwill; and income taxes.

### Revenue Recognition

Revenues from merchandise sales are recorded at the time the product is shipped or delivered to the customer pursuant to the terms of sale. We report our sales levels on a net sales basis, which is computed by deducting from gross sales the amount of actual returns received and an amount established for anticipated returns and other allowances.

Our sales return accrual is a subjective critical estimate that has a direct impact on reported net sales and income. This accrual is calculated based on a history of gross sales and actual sales returns, as well as management's estimate of anticipated returns and allowances. As a percentage of gross sales, sales returns, rebates and allowances were 6% and 9% for fiscal years ended June 30, 2010 and 2009, respectively.

### Concentration of Credit Risk

An entity is more vulnerable to concentrations of credit risk if it is exposed to risk of loss greater than it would have had if it mitigated its risk through diversification of customers. Such risks of loss manifest themselves differently, depending on the nature of the concentration, and vary in significance.

The Company had two customers with accounts receivable balances that aggregated 21% and 24% of the Company's accounts receivable at June 30, 2010 and 2009, respectively. Sales to neither of these customers exceeded 10% of net sales in any of the past three fiscal years.

In the ordinary course of business, we have established a reserve for doubtful accounts and customer deductions in the amount of \$505,000 and \$400,000 as of June 30, 2010 and 2009, respectively. Our reserve for doubtful accounts is a subjective critical estimate that has a direct impact on reported net earnings. This reserve is based upon the evaluation of accounts receivable agings, specific exposures and historical trends.

### Inventories

Inventories are valued at the lower of cost or fair market value, with cost being determined on the first-in, first-out (FIFO) method. The reported net value of inventory includes finished saleable products, work-in-process and raw materials that will be sold or used in future periods. Inventory costs include raw materials, direct labor and overhead. The Company's overhead expenses are applied based, in part, upon estimates of the proportion of those expenses that are related to procuring and storing raw materials as compared to the manufacture and assembly of finished products. These proportions, the method of their application, and the resulting overhead included in ending inventory, are based in part on subjective estimates and approximations and actual results could differ from those estimates.

In addition, the Company records an inventory obsolescence reserve, which represents the difference between the cost of the inventory and its estimated market value, based on various product sales projections. This reserve is calculated using an estimated obsolescence percentage applied to the inventory based on age, historical trends, requirements to support forecasted sales, and

## Edgar Filing: NAPCO SECURITY TECHNOLOGIES, INC - Form 10-K/A

the ability to find alternate applications of its raw materials and to convert finished product into alternate versions of the same product to better match customer demand. There is inherent professional judgment and subjectivity made by both production and engineering members of management in determining the estimated obsolescence percentage. For the fiscal years 2010 and 2009, net charges and balances in these reserves amounted to \$394,000 and \$1,841,000; and \$247,000 and \$1,447,000, respectively. In addition, and as necessary, the Company may establish specific reserves for future known or anticipated events.

The Company also regularly reviews the period over which its inventories will be converted to sales. Any inventories expected to convert to sales beyond 12 months from the balance sheet date are classified as non-current.

### Goodwill and Other Intangible Assets

The Company evaluates its Goodwill for impairment at least on an annual basis. Those intangible assets that are classified as goodwill or as other intangibles with indefinite lives are not amortized.

Impairment testing is performed in two steps: (i) the Company determines impairment by comparing the fair value of a reporting unit with its carrying value, and (ii) if there is an impairment, the Company measures the amount of impairment loss by comparing the implied fair value of goodwill with the carrying amount of that goodwill. At the conclusion of fiscal 2009, the Company performed its annual impairment evaluation required by this standard and determined that the goodwill relating to its Alarm Lock and Continental subsidiaries was impaired. Accordingly, the Company recorded an impairment charge of \$9,686,000 in the fourth quarter of fiscal 2009 which represents the unamortized balance of this Goodwill. At the conclusion of the quarter ended March 31, 2010, the Company performed an interim impairment evaluation and determined that its remaining goodwill, relating to its Marks subsidiary, was impaired. Accordingly, in the quarter ended March 31, 2010 the Company recorded an impairment charge of \$923,000 which represented the unamortized balance of this Goodwill.

The Company's acquisition of substantially all of the assets and certain liabilities of Marks included intangible assets with a fair value of \$16,440,000 on the date of acquisition. The Company recorded the estimated value of \$9,800,000 related to the customer relationships, \$340,000 related to a non-compete agreement and \$6,300,000 related to the Marks trade name within intangible assets. The remaining excess of the purchase price of \$923,000 was assigned to Goodwill. The intangible assets will be amortized over their estimated useful lives of twenty years (customer relationships) and seven years (non-compete agreement). The Marks USA trade name was deemed to have an indefinite life. The goodwill recorded as a result of the acquisition is deductible for Federal and New York State income tax purposes over a period of 15 years.

### Income Taxes

The Company adopted the provisions of ASC 740-10 as of July 1, 2007. The Company has identified its U.S. Federal income tax return and its State return in New York as its major tax jurisdictions. As a result the Company increased its accrued income tax liability by \$715,000, from \$1,836,000 to \$2,551,000, to provide for additional reserves for uncertain income tax positions for U.S. Federal and State income tax purposes. The fiscal 2006 and forward years are still open for examination. The increase in the accrued income tax liability of \$715,000 was offset in part by a \$230,000 increase to a deferred income tax asset, resulting in a net reduction to retained earnings of \$485,000 (representing the cumulative effect of adopting ASC 740-10).

## Edgar Filing: NAPCO SECURITY TECHNOLOGIES, INC - Form 10-K/A

During the year ending June 30, 2010 the Company decreased its reserve for uncertain income tax positions by \$83,000. As of June 30, 2010 the Company has a long-term accrued income tax liability of \$93,000. The Company's practice is to recognize interest and penalties related to income tax matters in income tax expense and accrued income taxes. As of June 30, 2010, the Company had accrued interest totaling \$23,000 and \$77,000 of unrecognized net tax benefits (including the related accrued interest and net of the related deferred income tax benefit of \$39,000) that, if recognized, would favorably affect the company's effective income tax rate in any future period.

For the year ended June 30, 2010, the Company recognized a net benefit to income tax expense of \$64,000 (\$83,000 liability reversal including interest, less the related \$28,000 reversal of deferred tax asset, plus current year interest accrual on other reserves of \$9,000).

A reconciliation of the U.S. Federal statutory income tax rate to our actual effective tax rate on earnings before income taxes for fiscal 2010 is as follows (dollars in thousands):

	Amount	% of Pre-tax Income
Tax at Federal statutory rate	\$ (2,579)	34.0%
Increases (decreases) in taxes resulting from:		
Meals and entertainment	46	(0.6)%
State income taxes, net of Federal income tax benefit	22	(0.3)%
Foreign source income and taxes	1,456	(19.2)%
Stock based compensation expense	68	(0.9)%
Tax reserve reversal	(64)	0.9%
Other, net	(33)	0.4%
Effective tax rate	\$ (1,084)	14.3%

### Liquidity and Capital Resources

The Company's cash on hand combined with proceeds from operating activities during fiscal 2010 were adequate to meet the Company's capital expenditure needs and debt obligations. The Company's primary internal source of liquidity is the cash flow generated from operations. The primary source of financing related to borrowings under an \$11,100,000 secured revolving credit facility. As of June 30, 2010 \$11,100,000 was outstanding under this revolving line of credit. The Company expects that cash on hand and cash generated from operations will be adequate to meet its short-term liquidity requirements. As of June 30, 2010, the Company's unused sources of funds consisted principally of \$5,522,000 in cash. The Company plans to utilize \$1,786,000 of this cash to pre-pay two payments on its term loan as described below.

On August 18, 2008, the Company and its banks amended and restated the existing \$25,000,000 revolving credit agreement. The amended facility was \$50,000,000 and provides for a \$25,000,000 revolving credit line as well as a \$25,000,000 term portion of which the entire \$25,000,000 was utilized to finance the asset purchase agreement as described in Note 5 of the accompanying consolidated financial statements. The amended revolving credit agreement and term loan was amended in June 2009 to \$11,100,000 and is secured by the accounts receivable, a portion of inventory, the Company's headquarters building in Amityville, New York, certain other assets of Napco Security Technologies, Inc. and the common stock of three of the Company's subsidiaries. As of June 30, 2010 the Company

## Edgar Filing: NAPCO SECURITY TECHNOLOGIES, INC - Form 10-K/A

was not in compliance with several of the financial covenants in the existing facilities for which it anticipates receiving the appropriate waivers from its banks as part of therestatement of these facilities as described below.

The Company and its banks have been in negotiations to amend and restate the existing terms of the credit facilities and term loan. As of the date of this report, the Company and its banks have agreed in principle on all the key terms and modifications to the existing revolving credit agreement and term loan. While the Company anticipates consummating these restated facilities, there can be no assurances that it will do so. Because the closing and final waivers will occur after the filing date of this Form 10-K, the Company has classified this debt as current in the accompanying financial statements. Upon completion of the closing this debt will be reclassified as long-term in future filings. The agreement would provide for an accelerated payment, made at closing, consisting of the December 2010 and March 2011 installments (totaling \$1,786,000) and restructured financial covenants. The restated agreements also would contain various modifications and conditions and bear interest based on either the Prime Rate or an alternate rate based on LIBOR as described in the agreement. The termination dates of the agreements would remain unchanged. The revolving credit agreement terminates in August 2012 and any outstanding borrowings are to be repaid or refinanced on or before that time. As of June 30, 2010 there was \$11,100,000 outstanding under the revolving credit facility with an interest rate of 7.25% and \$18,749,000 outstanding under the term loan with an interest rate of 7.25%. The term loan is being repaid in 19 quarterly installments of \$893,000 each, which commenced in December 2008, and a final payment of \$8,033,000 due in August 2013.

The agreements contain various restrictions and covenants including, among others, restrictions on payment of dividends, restrictions on borrowings and compliance with certain financial ratios, as defined in the restated agreement.

Management believes that current working capital and cash flows from operations will be sufficient to fund the Company's operations through at least the first quarter of fiscal 2012.

The Company takes into consideration a number of factors in measuring its liquidity, including the ratios set forth below:

	As of June 30,	
	2010	2009
	----	----
Current Ratio	1.1 to 1	2.0 to 1
Sales to Receivables	3.8 to 1	3.5 to 1
Total debt to equity	.87 to 1	.82 to 1

As of June 30, 2010, the Company had no material commitments for capital expenditures or inventory purchases other than purchase orders issued in the normal course of business. On April 26, 1993, the Company's foreign subsidiary entered into a 99-year land lease of approximately 4 acres of land in the Dominican Republic, at an annual cost of approximately \$288,000.

On August 18, 2008, the Company, pursuant to an Asset Purchase Agreement with Marks, acquired substantially all of the assets and business for \$25 million, the repayment of \$1 million of bank debt and the assumption of current liabilities. The Marks business involves the manufacturing and distribution of door-locking devices. The Company funded the acquisition with a term loan from its lenders as described above.

The acquisition described above has been accounted for as a purchase and was

## Edgar Filing: NAPCO SECURITY TECHNOLOGIES, INC - Form 10-K/A

valued based on management's estimate of the fair value of the assets acquired and liabilities assumed. The estimates of fair value were subject to adjustment for a period of up to one year from the date of acquisition, and such adjustments were not material. Costs in excess of identifiable net assets acquired were allocated to goodwill in the first quarter of fiscal 2009. This Goodwill was written off in the quarter ended March 31, 2010.

**Working Capital.** Working capital decreased by \$18,902,000 to \$3,502,000 at June 30, 2010 from \$22,404,000 at June 30, 2009. The decrease in working capital was primarily the result of the classification of the Company's outstanding debt under its term loan as a current liability, as discussed above. The outstanding debt under the term loan was classified as a non-current liability as June 30, 2009. Working capital is calculated by deducting Current Liabilities from Current Assets.

**Accounts Receivable.** Accounts Receivable decreased by \$2,259,000 to \$17,740,000 at June 30, 2010 from \$19,999,000 at June 30, 2009. This decrease resulted primarily from the Company granting shorter payment terms to its customers and, consequently, faster collections of Accounts Receivables.

**Inventories.** Inventories decreased by \$4,752,000 to \$24,082,000 at June 30, 2010 as compared to \$28,834,000 at June 30, 2009. The decrease in inventory levels was primarily the result of the Company utilizing existing inventory and scheduling its component purchases and production of finished products more closely with sales levels.

**Accounts Payable and Accrued Expenses.** Accounts payable and accrued expenses increased by \$1,888,000 to \$9,325,000 as of June 30, 2010 as compared to \$7,437,000 at June 30, 2009. This increase is primarily due to increased purchases of raw materials during the quarter ended June 30, 2010 as compared to June 30, 2009, which was primarily the result of the higher sales levels in the quarter ended June 30, 2010 as compared to the same quarter a year ago.

### Off-Balance Sheet Arrangements

The Company does not maintain any off-balance sheet arrangements.

### Contractual Obligations

The following table summarizes the Company's contractual obligations by fiscal year:

	Payments due by period				
	Total	Less than 1 year	1-3 years	3-5 years	More than 5 years
Contractual obligations					
Long-term debt obligations	\$29,849,000	\$3,572,000	\$18,244,000	\$8,033,000	\$ --
Land lease (82 years remaining) (1)	23,616,000	288,000	576,000	576,000	22,176,000
Operating lease obligations	96,000	58,000	38,000	--	--
Other long-term obligations (employment agreements) (1)	1,932,000	1,140,000	750,000	42,000	--

Edgar Filing: NAPCO SECURITY TECHNOLOGIES, INC - Form 10-K/A

Total	\$55,493,000	\$5,058,000	\$19,608,000	\$8,651,000	\$22,176,000
-------	--------------	-------------	--------------	-------------	--------------

=====

(1) See footnote 12 to the accompanying consolidated financial statements.

Results of Operations  
Fiscal 2010 Compared to Fiscal 2009

	Fiscal year ended June 30,		
	2010	2009	% Increase/ (decrease)
	----	----	-----
Net sales	\$ 67,757	\$ 69,565	(2.6)%
Restructuring costs included in cost of sales	--	1,110	--
Gross profit	14,522	15,096	(3.8)%
Gross profit as a % of net sales	21.4%	21.7%	(0.3)%
Selling, general and administrative	18,810	20,163	(6.8)%
Impairment of goodwill	923	9,686	(90.5)%
Other restructuring costs	--	164	--
(Loss) income from operations	(5,211)	(14,917)	65.1%
Interest expense, net	2,366	1,637	44.5%
Other expense, net	7	127	(94.5)%
(Benefit) for income taxes	(1,084)	(3,299)	67.1%
Net (loss) income	(6,500)	(13,382)	51.4%

Net sales in fiscal 2010 decreased by 2.6% to \$67,757,000 from \$69,565,000 in fiscal 2009. The decrease in sales was primarily the result of a decrease in products specific to the Company's Middle East operation (\$1,867,000). The Company's sales continued to be adversely affected by the worldwide economic downturn.

The Company's gross profit decreased \$574,000 to \$14,522,000 or 21.4% of net sales in fiscal 2009 as compared to \$15,096,000 or 21.7% of net sales in fiscal 2009. Gross profit in fiscal 2010 as compared to fiscal 2009 was affected by the lower sales levels in fiscal 2010 and the restructuring costs charged in fiscal 2009.

Selling, general and administrative expenses as a percentage of net sales decreased to 27.8% in fiscal 2010 from 29.0% in fiscal 2009. Selling, general and administrative expenses for fiscal 2010 decreased \$1,353,000 to \$18,810,000 from \$20,163,000 in fiscal 2009. These decreases resulted primarily from the Company reducing its general payroll and certain selling and marketing expenses in the second half of fiscal 2009 in reaction to the decline in sales levels beginning in the third quarter of fiscal 2009. Fiscal 2010 reflects a full year of these reduced expenses.

Interest expense for fiscal 2010 increased by \$729,000 to \$2,366,000 from \$1,637,000 for the same period a year ago. The increase in interest expense is primarily the result of the increase in interest rates charged by the Company's primary banks as partially offset by the Company's reduction of its outstanding borrowings under its term loan.

Other expenses decreased \$120,000 to \$7,000 in fiscal 2010 as compared to \$127,000 in fiscal 2009.

The Company's benefit for income taxes for fiscal 2010 decreased by \$2,215,000

## Edgar Filing: NAPCO SECURITY TECHNOLOGIES, INC - Form 10-K/A

to a benefit of \$1,084,000 as compared to a benefit of \$3,299,000 for the same period a year ago. The decrease in the benefit for income taxes from fiscal 2009 to fiscal 2010 resulted primarily from the Company recognizing a net tax benefit to income tax expense of \$3,293,000 in fiscal 2009 for an impairment charge to goodwill in that year.

Net loss for fiscal 2010 decreased by \$6,882,000 to \$(6,500,000) as compared to \$(13,382,000) in fiscal 2009. This resulted primarily from the impairment charge to goodwill of \$9,686,000 and restructuring costs of 1,274,000 in fiscal 2009, as partially offset by the reduction of the benefit for income tax of 2,215,000, all of which are discussed above.

### Forward-looking Information

This Annual Report on Form 10-K and the information incorporated by reference may include "Forward-Looking Statements" within the meaning of Section 27A of the Securities Act of 1933 and Section 21E of the Exchange Act of 1934. The Company intends the Forward-Looking Statements to be covered by the Safe Harbor Provisions for Forward-Looking Statements. All statements regarding the Company's expected financial position and operating results, its business strategy, its financing plans and the outcome of any contingencies are Forward-Looking Statements. The Forward-Looking Statements are based on current estimates and projections about our industry and our business. Words such as "anticipates," "expects," "intends," "plans," "believes," "seeks," "estimates," or variations of such words and similar expressions are intended to identify such Forward-Looking Statements. The Forward-Looking Statements are subject to risks and uncertainties that could cause actual results to differ materially from those set forth or implied by any Forward-Looking Statements. For example, the Company is highly dependent on its Chief Executive Officer for strategic planning. If he is unable to perform his services for any significant period of time, the Company's ability to grow could be adversely affected. In addition, factors that could cause actual results to differ materially from the Forward-Looking Statements include, but are not limited to, the ability to maintain adequate financing to fund operations, adverse tax consequences of offshore operations, significant fluctuations in the exchange rate between the Dominican Peso and the U.S. Dollar, distribution problems, unforeseen environmental liabilities, the uncertain economic, military and political conditions in the world and the successful integration of Marks into our existing operations. The Company's Risk Factors are discussed in more detail in Item 1A.

### ITEM 7A: QUANTITATIVE AND QUALITATIVE DISCLOSURES ABOUT MARKET RISK

The Company's principal financial instrument is debt (consisting of a revolving credit facility and a term loan) that provides for interest at a spread above the prime rate. The Company is affected by market risk exposure primarily through the effect of changes in interest rates on amounts payable by the Company under this credit facility. At June 30, 2010, an aggregate principal amount of approximately \$29,849,000 was outstanding under the Company's credit facility with a weighted average interest rate of approximately 7.25%. If principal amounts outstanding under the Company's credit facility remained at this year-end level for an entire year and the prime rate increased or decreased, respectively, by 1% the Company would pay or save, respectively, an additional \$298,000 in interest that year.

A significant number of foreign sales transactions by the Company are denominated in U.S. dollars. As such, the Company has shifted foreign currency exposure onto many of its foreign customers. As a result, if exchange rates move against foreign customers, the Company could experience difficulty collecting unsecured accounts receivable, the cancellation of existing orders or

## Edgar Filing: NAPCO SECURITY TECHNOLOGIES, INC - Form 10-K/A

the loss of future orders. The foregoing could materially adversely affect the Company's business, financial condition and results of operations. In addition, the Company transacts certain sales in Europe in British Pounds Sterling, therefore exposing itself to a certain amount of foreign currency risk. Management believes that the amount of this exposure is immaterial. We are also exposed to foreign currency risk relative to expenses incurred in Dominican Pesos ("RD\$"), the local currency of the Company's production facility in the Dominican Republic. The result of a 10% strengthening in the U.S. dollar to our RD\$ expenses would result in an annual decrease in income from operations of approximately \$300,000.

### ITEM 8: FINANCIAL STATEMENTS AND SUPPLEMENTARY DATA.

a. Financial Statements: Financial statements required pursuant to this Item are presented on pages FS-1 through FS-25 of this report as follows:

Notes to Consolidated Financial Statements	FS-7

Report of Independent Registered Public Accounting Firm

To the Board of Directors and Stockholders  
Napco Security Technologies, Inc. and Subsidiaries  
Amityville, New York

We have audited the accompanying consolidated balance sheets of Napco Security Technologies, Inc. and Subsidiaries (the "Company") as of June 30, 2010 and 2009, and the related consolidated statements of operations, stockholders' equity, and cash flows for the years then ended. These financial statements are the responsibility of the Company's management. Our responsibility is to express an opinion on these financial statements based on our audits.

We conducted our audits in accordance with the standards of the Public Company Accounting Oversight Board (United States). Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. The Company is not required to have, nor were we engaged to perform, an audit of its internal control over financial reporting. Our audits included consideration of internal control over financial reporting as a basis for designing audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Company's internal control over financial reporting. Accordingly, we express no such opinion. An audit also includes

## Edgar Filing: NAPCO SECURITY TECHNOLOGIES, INC - Form 10-K/A

examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements, assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audits provide a reasonable basis for our opinion.

In our opinion, the financial statements referred to above present fairly, in all material respects, the consolidated financial position of Napco Security Technologies, Inc. and Subsidiaries as of June 30, 2010 and 2009 and the consolidated results of its operations and its consolidated cash flows for the years then ended in conformity with accounting principles generally accepted in the United States of America.

\* The Company and its banks have been in negotiations to amend and restate the existing terms of the credit facilities and term loan. As of October 14, 2010, the Company and its banks have agreed in principle on all the key terms and modifications to the existing revolving credit agreement and term loan and are in the process of scheduling a closing date. Because the closing and final waivers will occur after the filing date of this Form 10-K, the Company has classified this debt as current in the accompanying financial statements. Upon completion of the closing this debt will be reclassified as long-term in future filings. See Footnote 7 for further disclosure.

### NAPCO SECURITY TECHNOLOGIES, INC. AND SUBSIDIARIES NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

#### NOTE 1 - Nature of Business and Summary of Significant Accounting Policies

-----

##### Nature of Business

Napco Security Technologies, Inc. and Subsidiaries (the "Company") is a diversified manufacturer of security products, encompassing intrusion and fire alarms, building access control systems and electronic locking devices. These products are used for commercial, residential, institutional, industrial and governmental applications, and are sold worldwide principally to independent distributors, dealers and installers of security equipment.

##### Principles of Consolidation

The consolidated financial statements include the accounts of Napco Security Technologies, Inc. and all of its wholly-owned subsidiaries, including those of Marks USA I, LLC ("Marks"), a subsidiary which acquired substantially all of the assets and certain liabilities of G. Marks Hardware, Inc. acquired on August 18, 2008. All inter-company balances and transactions have been eliminated in consolidation. The Company has evaluated events subsequent to June 30, 2010 through the filing date of this report for potential recognition or disclosure in these consolidated financial statements.

##### Accounting Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent gains and losses at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. Critical estimates include management's judgments

## Edgar Filing: NAPCO SECURITY TECHNOLOGIES, INC - Form 10-K/A

associated with revenue recognition, concentration of credit risk, inventories, goodwill and income taxes. Actual results could differ from those estimates.

### Fourth Quarter Adjustments

In the fourth quarter of fiscal 2010 the Company recorded adjustments to increase its reserve for obsolescence in its ending inventory. This adjustment is based on the Company's estimate of the difference between the cost of the inventory and its estimated market value, based on various product sales projections.

### Cash and Cash Equivalents

Cash and cash equivalents include approximately \$3,916,000 and \$2,010,000 of short-term time deposits at June 30, 2010 and 2009, respectively. The Company considers all highly liquid investments with original maturities of three months or less to be cash equivalents. The Company has cash balances in banks in excess of the maximum amount insured by the FDIC and other international agencies as of June 30, 2010 and 2009.

### Accounts Receivable

Accounts receivable is stated net of the reserves for doubtful accounts of \$505,000 and \$400,000 and for returns and other allowances of \$1,180,000 and \$966,000 as of June 30, 2010 and June 30, 2009, respectively. Our reserves for doubtful accounts and for returns and other allowances are subjective critical estimates that have a direct impact on reported net earnings. These reserves are based upon the evaluation of accounts receivable agings, specific exposures, sales levels and historical trends.

FS-7

### Inventories

Inventories are valued at the lower of cost or fair market value, with cost being determined on the first-in, first-out (FIFO) method. The reported net value of inventory includes finished saleable products, work-in-process and raw materials that will be sold or used in future periods. Inventory costs include raw materials, direct labor and overhead. The Company's overhead expenses are applied based, in part, upon estimates of the proportion of those expenses that are related to procuring and storing raw materials as compared to the manufacture and assembly of finished products. These proportions, the method of their application, and the resulting overhead included in ending inventory, are based in part on subjective estimates and actual results could differ from those estimates.

In addition, the Company records an inventory obsolescence reserve, which represents the difference between the cost of the inventory and its estimated market value, based on various product sales projections. This reserve is calculated using an estimated obsolescence percentage applied to the inventory based on age, historical trends, requirements to support forecasted sales, and the ability to find alternate applications of its raw materials and to convert finished product into alternate versions of the same product to better match customer demand. There is inherent professional judgment and subjectivity made by both production and engineering members of management in determining the estimated obsolescence percentage. For the fiscal years 2010 and 2009, charges and balances in these reserves amounted to \$394,000 and \$1,540,000; and \$247,000 and \$1,447,000, respectively. In addition, and as necessary, the Company may establish specific reserves for future known or anticipated events.

The Company also regularly reviews the period over which its inventories will be

## Edgar Filing: NAPCO SECURITY TECHNOLOGIES, INC - Form 10-K/A

converted to sales. Any inventories expected to convert to sales beyond 12 months from the balance sheet date are classified as non-current.

### Property, Plant, and Equipment

Property, plant, and equipment are carried at cost less accumulated depreciation. Expenditures for maintenance and repairs are charged to expense as incurred; costs of major renewals and improvements are capitalized. At the time property and equipment are retired or otherwise disposed of, the cost and accumulated depreciation are eliminated from the asset and accumulated depreciation accounts and the profit or loss on such disposition is reflected in income.

Depreciation is recorded over the estimated service lives of the related assets using primarily the straight-line method. Amortization of leasehold improvements is calculated by using the straight-line method over the estimated useful life of the asset or lease term, whichever is shorter.

### Goodwill

The Company evaluates its Goodwill for impairment at least on an annual basis. Those intangible assets that are classified as goodwill or as other intangibles with indefinite lives are not amortized. Impairment testing is performed in two steps: (i) the Company determines impairment by comparing the fair value of a reporting unit with its carrying value, and (ii) if there is an impairment, the Company measures the amount of impairment loss by comparing the implied fair value of goodwill with the carrying amount of that goodwill. At the conclusion of fiscal 2009, the Company performed its annual impairment evaluation required by this standard and determined that the goodwill relating to its Alarm Lock and Continental subsidiaries was impaired. Accordingly, the Company recorded an impairment charge of \$9,686,000 in the fourth quarter of fiscal 2009 which represents the unamortized balance of this Goodwill. At the conclusion of the quarter ended March 31, 2010, the Company performed an interim impairment evaluation and determined that its remaining goodwill, relating to its Marks subsidiary, was impaired. Accordingly, in the quarter ended March 31, 2010 the Company recorded an impairment charge of \$923,000 which represented the unamortized balance of this Goodwill.

### Intangible Assets

Certain intangible assets determined to have indefinite lives are not amortized but are tested for impairment at least annually. Intangible assets with definite lives are amortized over their useful lives and are reviewed for impairment at least annually at the Company's fiscal year end of June 30 or more often whenever there is an indication that the carrying amount may not be recovered.

The Company's acquisition of substantially all of the assets and certain liabilities of Marks included intangible assets with a fair value of \$16,440,000 on the date of acquisition. The Company recorded the estimated value of \$9,800,000 related to the customer relationships, \$340,000 related to a non-compete agreement and \$6,300,000 related to the Marks trade name within intangible assets. The intangible assets are amortized over their estimated useful lives of twenty years (customer relationships) and seven years (non-compete agreement). The Marks USA trade name was deemed to have an indefinite life. The goodwill recorded as a result of the acquisition is deductible for Federal and New York State income tax purposes over a period of 15 years.

Changes in intangible assets are as follows (in thousands):

Edgar Filing: NAPCO SECURITY TECHNOLOGIES, INC - Form 10-K/A

	June 30, 2010			June 30, 2009		
	Cost	Accumulated amortization	Net book value	Cost	Accumulated amortization	
Other intangible assets:						
Customer relationships	\$ 9,800	\$ (2,479)	\$ 7,321	\$ 9,800	\$ (1,189)	\$
Non-compete agreement	340	(91)	249	340	(42)	
Trademark	6,300	-	6,300	6,300	-	
	\$ 16,440	\$ (2,570)	\$ 13,870	\$ 16,440	\$ (1,231)	\$

Amortization expense for intangible assets subject to amortization was approximately \$1,339,000 and \$1,231,000 for the years ended June 30, 2010 and 2009, respectively. Amortization expense for each of the next five years is estimated to be as follows: 2011 - \$1,154,000; 2012 - \$1,065,000; 2013 - \$917,000; and 2014 - \$781,000 and 2015 - \$667,000. The weighted average amortization period for intangible assets was 17.7 years and 18.7 years at June 30, 2010 and 2009, respectively.

#### Long-Lived Assets

Long-lived assets are reviewed for impairment whenever events or changes in circumstances indicate that the carrying amount of the assets in question may not be recoverable. An impairment would be recorded in circumstances where undiscounted cash flows expected to be generated by an asset are less than the carrying value of that asset.

#### Revenue Recognition

The Company recognizes revenue when the following criteria are met: (i) persuasive evidence of an agreement exists, (ii) there is a fixed and determinable price for the Company's product, (iii) shipment and passage of title occurs, and (iv) collectibility is reasonably assured. Revenues from merchandise sales are recorded at the time the product is shipped or delivered to the customer pursuant to the terms of the sale. The Company reports its sales levels on a net sales basis, with net sales being computed by deducting from gross sales the amount of actual sales returns and other allowances and the amount of reserves established for anticipated sales returns and other allowances.

#### Sales Returns and Other Allowances

The Company analyzes sales returns and is able to make reasonable and reliable estimates of product returns based on the Company's past history. Estimates for sales returns are based on several factors including actual returns and based on expected return data communicated to it by its customers. Accordingly, the Company believes that its historical returns analysis is an accurate basis for its allowance for sales returns. Actual results could differ from those estimates.

#### Advertising and Promotional Costs

Advertising and promotional costs are included in "Selling, General and Administrative" expenses in the consolidated statements of operations and are

## Edgar Filing: NAPCO SECURITY TECHNOLOGIES, INC - Form 10-K/A

expensed as incurred. Advertising expense for the fiscal years ended June 30, 2010 and 2009 was \$681,000 and \$1,038,000, respectively.

### Research and Development Costs

Research and development costs incurred by the Company are charged to expense in the year incurred. Company-sponsored research and development costs of \$4,922,000 and \$5,116,000 were charged to expense for the fiscal years ended June 30, 2010 and 2009, respectively, and are included in "Cost of Sales" in the consolidated statements of operations.

### Income Taxes

Deferred tax assets and liabilities are recognized for the future tax consequences attributable to temporary differences between the financial statement carrying amounts of existing assets and liabilities and their respective tax bases. Deferred tax assets and liabilities are measured using enacted tax rates expected to apply to taxable income in the years in which those temporary differences are expected to be recovered or settled. The effect on deferred tax assets and liabilities of a change in tax rates is recognized in income in the period that includes the enactment date. Deferred income tax expense represents the change during the period in the deferred tax assets and deferred tax liabilities. The components of the deferred tax assets and liabilities are individually classified as current and non-current based on their characteristics. Deferred tax assets are reduced by a valuation allowance when, in the opinion of management, it is more likely than not that some portion or all of the deferred tax assets will not be realized. The Company measures and recognizes the tax implications of positions taken or expected to be taken in its tax returns on an ongoing basis.

### Earnings Per Share

Basic net loss per common share (Basic EPS) is computed by dividing net loss by the weighted average number of common shares outstanding. Diluted net income per common share (Diluted EPS) is computed by dividing net income (loss) by the weighted average number of common shares and dilutive common share equivalents and convertible securities then outstanding.

The following provides a reconciliation of information used in calculating the per share amounts for the fiscal years ended June 30 (in thousands, except per share data):

	Net Loss		Weighted Average Shares		Net Loss per
	2010	2009	2010	2009	2010
Basic EPS	\$ (6,500)	\$ (13,382)	19,096	19,096	\$ (0.34)
Effect of Dilutive Securities:					
Stock Options	--	--	--	--	--
Diluted EPS	\$ (6,500)	\$ (13,382)	19,096	19,096	\$ (0.34)

Options to purchase 1,410,140 and 1,420,240 shares of common stock for the

## Edgar Filing: NAPCO SECURITY TECHNOLOGIES, INC - Form 10-K/A

fiscal years ended June 30, 2010 and 2009, respectively, were not included in the computation of Diluted EPS because their inclusion would be anti-dilutive. These options were still outstanding at the end of the respective periods.

### Stock-Based Compensation

The Company has established two share incentive programs as discussed in Note 9.

Stock-based compensation cost is measured at the grant date based on the fair value of the award and is recognized as expense on a straight-line basis over the vesting period. Determining the fair value of share-based awards at the grant date requires assumptions and judgments about expected volatility and forfeiture rates, among other factors.

Stock-based compensation costs of \$227,000 and \$349,000 were recognized for fiscal years 2010 and 2009, respectively. The effect on both Basic and Diluted Earnings per share was \$0.01 for fiscal year 2010 and \$0.02 for fiscal year 2009.

### Foreign Currency

All assets and liabilities of foreign subsidiaries are translated into U.S. Dollars at fiscal year-end exchange rates. Income and expense items are translated at average exchange rates prevailing during the fiscal year. The realized and unrealized gains and losses associated with foreign currency translation, as well as related other comprehensive income, were not material for the years ended June 30, 2010 and 2009.

### Comprehensive Income (Loss)

For the fiscal years ended June 30, 2010 and 2009, the Company's operations did not give rise to material items includable in comprehensive income (loss), which were not already included in net income (loss). Accordingly, the Company's comprehensive income (loss) approximates its net income (loss) for all periods presented.

### Segment Reporting

The Company's reportable operating segments are determined based on the Company's management approach. The management approach is based on the way that the chief operating decision maker organizes the segments within an enterprise for making operating decisions and assessing performance. The Company's results of operations are reviewed by the chief operating decision maker on a consolidated basis and the Company operates in only one segment. The Company has presented required geographical data in Note 13, and no additional segment data has been presented.

### Fair Value of Financial Instruments

The Company calculates the fair value of financial instruments and includes this additional information in the notes to the financial statements where the fair value is different than the book value of those financial instruments. When the fair value approximates book value, no additional disclosure is made. The Company uses quoted market prices whenever available to calculate these fair values. When quoted market prices are not available, the Company uses standard pricing models for various types of financial instruments which take into account the present value of estimated future cash flows. At June 30, 2010 and 2009, management of the Company believes the carrying value of all financial instruments approximated fair value.

## Edgar Filing: NAPCO SECURITY TECHNOLOGIES, INC - Form 10-K/A

### Shipping and Handling Revenues and Costs

The Company records the amount billed to customers in net sales (\$514,000 and \$488,000 in fiscal years 2010 and 2009, respectively) and classifies the costs associated with these revenues in cost of sales (\$1,010,000 and \$716,000 in fiscal years 2010 and 2009, respectively).

### New Accounting Pronouncements

In February 2010, the FASB issued ASU 2010-09, "Subsequent Events ("Topic 855"): Amendments to Certain Recognition and Disclosure Requirements". The amendments remove the requirement for an SEC registrant to disclose the date through which subsequent events were evaluated as this requirement would have potentially conflicted with SEC reporting requirements. Removal of the disclosure requirement is not expected to affect the nature or timing of subsequent events evaluations performed by the Company. This ASU became effective upon issuance.

### NOTE 2 - Business and Credit Concentrations

-----

The Company had two customers with accounts receivable balances that aggregated 21% and 24% of the Company's accounts receivable at June 30, 2010 and 2009, respectively. Sales to neither of these customers exceeded 10% of net sales in any of the past two years.

### NOTE 3 - Inventories

-----

Inventories, net of reserves are valued at lower of cost (first-in, first-out method) or market. The Company regularly reviews parts and finished goods inventories on hand and, when necessary, records a provision for excess or obsolete inventories. The Company also regularly reviews the period over which its inventories will be converted to sales. Any inventories expected to convert to sales beyond 12 months from the balance sheet date are classified as non-current.

Inventories, net of reserves consist of the following:

	June 30,	
	2010	2009
Component parts	\$ 15,275	\$17,941
Work-in-process	3,474	3,427
Finished product	5,333	7,466
	\$ 24,082	\$28,834
	=====	=====
Classification of inventories, net of reserves:		
Current	\$ 17,370	\$18,885
Non-current	6,712	9,949
	\$ 24,082	\$28,834
	=====	=====

### NOTE 4 - Property, Plant, and Equipment

-----

Edgar Filing: NAPCO SECURITY TECHNOLOGIES, INC - Form 10-K/A

Property, plant and equipment consist of the following:

	June 30,		Useful Life In years
	2010	2009	
	-----		
	2010	2009	
	-----		
	(In thousands)		
Land	\$ 904	\$ 904	--
Buildings	8,911	8,911	30 to 40
Molds and dies	6,606	6,564	3 to 5
Furniture and fixtures	2,309	2,299	5 to 10
Machinery and equipment	18,119	17,871	7 to 10
Leasehold improvements	372	372	Shorter of the lease term or life of ass
	-----	-----	
	37,221	36,921	
Less: accumulated depreciation and amortization	29,115	27,851	
	-----	-----	
	\$ 8,106	\$ 9,070	
	=====	=====	

Depreciation and amortization expense on property, plant, and equipment was approximately \$1,264,000 and \$1,368,000 in fiscal 2010 and 2009, respectively.

NOTE 5 - Acquisition of Business

On August 18, 2008, the Company acquired substantially all of the assets and business of Marks for \$25.2 million, the repayment of \$1 million of bank debt and the assumption of current liabilities. As such, the operations of Marks have been included in the Company's Statement of Operations commencing on August 18, 2008. The Marks business involves the manufacturing and distribution of door-locking devices. The Company completed this acquisition at a price in excess of the value of the net identifiable assets because it believes that the combination of the two companies offers the potential for manufacturing and operational synergies as the Company combines the Marks operations and production into its own door-locking operations and production structure. The Company funded the acquisition with a term loan from its lenders as described in Note 7.

The acquisition described above was accounted for as a purchase and was valued based on management's estimate of the fair value of the assets acquired and liabilities assumed. Based on the Company's evaluation, the allocation of the purchase price for the acquisition was as follows (in thousands):

Assets Acquired:	
Cash	\$ 520
Accounts receivable	1,836
Inventory	6,740
Prepaid expenses and other current assets	111
Property and equipment	801
Goodwill	923
Intangible assets	16,440
	-----
	27,371

Edgar Filing: NAPCO SECURITY TECHNOLOGIES, INC - Form 10-K/A

Less: Liabilities Assumed:	
Line of credit borrowings outstanding	1,000
Accounts payable	637
Accrued expenses	339
	-----
	1,976
	-----
Total consideration (including acquisition costs of \$222)	\$25,395
	=====

The Company recorded the estimated value of \$9,800,000 related to the customer relationships, \$340,000 related to a non-compete agreement and \$6,300,000 related to the Marks trade name within intangible assets and the excess of the purchase price over the fair value of the acquired assets of \$923,000 was assigned to Goodwill. The intangible assets will be amortized over their estimated useful lives of twenty years (customer relationships) and seven years (non-compete agreement). The weighted average amortization period of these assets is 19.6 years. The Marks trade name was deemed to have an indefinite life. The goodwill recorded as a result of the acquisition is deductible for Federal and New York State income tax purposes over a period of 15 years.

Unaudited pro-forma consolidated financial information is presented below as if the acquisition had occurred as of the first day of the earliest period presented. Results have been adjusted to account for: (1) the initial \$25,000,000 cash borrowing and related interest expense under the term loan, (2) cash used to repay \$1,000,000 in assumed bank debt at closing of the purchase transaction, (3) deferred financing costs and related amortization associated with the term loan, (4) additional salary and employee stock option expense for employees not previously included in salary expense, and (5) amortization expense of acquired intangible assets. The pro-forma information presented below does not purport to present what actual results would have been if the acquisition had occurred at the beginning of such periods, nor does the information project results for any future period. The unaudited pro-forma consolidated financial information should be read in conjunction with the historical financial information included in other reports and documents filed with the United States Securities and Exchange Commission.

The unaudited pro-forma consolidated financial information for the fiscal year ended June 30, 2009 is as follows (in thousands, except share and per share data):

	2009
	-----
Pro-forma:	
Net sales	\$ 72,084
Net loss	\$ (13,288)
Net loss per share:	
Basic	\$ (0.70)
Diluted	\$ (0.70)
Weighted average number of shares:	
Basic	19,096,000
Diluted	19,096,000

NOTE 6 - Income Taxes

-----

## Edgar Filing: NAPCO SECURITY TECHNOLOGIES, INC - Form 10-K/A

The Benefit for income taxes is comprised of the following:

	For the Years Ended June 30,	
	2010	2009
	(In thousands)	
Current income taxes:		
Federal	\$ (950)	\$ (293)
State	34	27
Foreign	5	6
	(911)	(260)
Deferred income tax benefit	(173)	(3,039)
Benefit for income taxes	\$ (1,084)	\$ (3,299)

A reconciliation of the U.S. Federal statutory income tax rate to our actual effective tax rate on earnings before income taxes is as follows (dollars in thousands):

	For the Years Ended June 30,			
	2010		2009	
	Amount	% of Pre-tax Income	Amount	% of Pre-tax Income
Tax at Federal statutory rate	\$ (2,579)	34.0%	\$ (5,672)	34.0%
Increases (decreases) in taxes resulting from:				
Meals and entertainment	46	(0.6)%	58	(0.4)%
State income taxes, net of Federal income tax benefit	22	(0.3)%	18	(0.1)%
Foreign source income and taxes	1,456	(19.2)%	2,224	(13.3)%
Stock based compensation expense	68	(0.9)%	107	(0.6)%
Tax reserve reversal	(64)	0.9%	(53)	0.3%
Other, net	(33)	0.4%	19	(0.1)%
Effective tax rate	\$ (1,084)	14.3%	\$ (3,299)	19.8%

Deferred tax assets and deferred tax liabilities at June 30, 2010 and 2009 are as follows (in thousands):

	Current Deferred Tax Assets (Liabilities)		Long-Term Deferred Tax Assets (Liabilities)	
	2010	2009	2010	2009

Edgar Filing: NAPCO SECURITY TECHNOLOGIES, INC - Form 10-K/A

Accounts receivable	\$ 21	\$ 21	\$ --	\$ --
Inventories	167	212	272	256
Accrued liabilities	260	299	32	36

	448	532	1,842	1,585
Valuation allowance	--	--	--	--
	-----	-----	-----	-----
Net deferred taxes	\$ 448	\$ 532	\$1,842	\$1,585
	=====	=====	=====	=====

The Company has identified its U.S. Federal income tax return and its State return in New York as its major tax jurisdictions. As a result the Company increased its accrued income tax liability by \$715,000, from \$1,836,000 to \$2,551,000, to provide for additional reserves for uncertain income tax positions for U.S. Federal and State income tax purposes. Fiscal 2006 and forward years are still open for examination. The increase in the accrued income tax liability of \$715,000 was offset in part by a \$230,000 increase to a deferred income tax asset, resulting in a net reduction to retained earnings of \$485,000.

During the year ending June 30, 2010 the Company decreased its reserve for uncertain income tax positions by \$83,000. As of June 30, 2010 the Company has a long-term accrued income tax liability of \$93,000. The Company's practice is to recognize interest and penalties related to income tax matters in income tax expense and accrued income taxes. As of June 30, 2010, the Company had accrued interest totaling \$23,000 and \$77,000 of unrecognized net tax benefits (including the related accrued interest and net of the related deferred income tax benefit of \$39,000) that, if recognized, would favorably affect the company's effective income tax rate in any future period
