ITEM 2. ACQUISITION OF ASSETS

On March 8, 2002, Imaging Technologies Corporation ("ITEC" or the "Company") acquired all of the outstanding shares of EnStructure, Inc. ("EnStructure"), a Nevada corporation, for \$250,000, payable in restricted common stock of the Company. The purchase price may be increased or decreased based upon EnStructure's representations of projected revenues and profits, which are defined in Section 1.2.2 of the acquisition agreement attached as Exhibit 99.1 hereto.

EnStructure is professional employer organization ("PEO") that intends to provides personnel management services, including benefits and payroll administration, health and workers' compensation insurance programs, personnel records management, and employer liability management.

The purchase price was determined through analysis of the value of future revenues and profits of EnStructure and the value of certain insurance relationships held in California by EnStructure.

EnStructure will be the operating unit into which the Company will place new California-based PEO clients. The acquisition agreement, incorporated herein as Exhibit 99.1, provides for the purchase price to be tied to selling PEO services of \$20 million in annual value during a certain period of time.

On March 11, 2002, the registrant issued a press release, a copy of which

Edgar Filing: IMAGING TECHNOLOGIES CORP/CA - Form 8-K

is attached as Exhibit 99.2 to this Form 8-K and incorporated herein by reference.

ITEM 7. FINANCIAL STATEMENTS AND EXHIBITS.

EnStructure was incorporated in May 2001 and has had limited operations to date. It was established to market PEO services, primarily in California. EnStructure's sole property is a qualified first-dollar-coverage workers' compensation insurance agreement with California's State Fund Insurance Company.

As the acquisition price does not meet the materiality rule of Regulation S-X, the Registrant has elected to file this Form 8-K for full-disclosure purposes.

Pro forma financial statements are not available as EnStructure has had limited operations since its inception.
