ITEM 5. Other Events and Required FD Disclosure

Alfacell Corporation, a leader in the research and development of ribonucleases for anti-cancer and other therapeutic applications, today announced the completion of a private placement of common stock and common stock purchase warrants with an institutional investor that raised \$1.5 million in gross proceeds for the Company. This completes the original capital commitment by the same institutional investor that was announced September 5, 2003.

On January 30, 2003 the Company issued 379,170 shares of common stock at a price of \$3.96 per share and warrants to purchase an additional 189,585 shares of common stock at an exercise price of \$4.75 per share. The \$3.96 per-share price represents a 5% discount from the average closing price of ACEL shares on the OTC Bulletin Board during the past 20 trading days.

The securities sold in the private placement have not been registered under the Securities Act of 1933 and may not be offered or sold in the United States absent registration or an applicable exemption from the registration requirements. This Form 8-K shall not constitute an offer to sell or a solicitation of an offer to buy nor shall there be any sale of these securities in any state in which such offer, solicitation or sale would be unlawful prior to registration or qualification under the securities laws of any such state.

By making these forward-looking statements, the Company undertakes no obligation to update these statements for revisions or changes after the date of this Form 8-K.
