BED BATH & BEYOND INC. AND SUBSIDIARIES

Notes to Consolidated Financial Statements

(unaudited)

1) Basis of Presentation

The accompanying consolidated financial statements have been prepared without audit. In the opinion of management, the accompanying consolidated financial statements contain all adjustments (consisting of only normal recurring accruals and elimination of intercompany balances and transactions) necessary to present fairly the financial position of Bed Bath & Beyond Inc. and subsidiaries (the "Company") as of August 29, 2015 and February 28, 2015 and the results of its operations and comprehensive income for the three and six months ended August 29, 2015 and August 30, 2014, respectively, and its cash flows for the six months ended August 29, 2015 and August 30, 2014, respectively.

The accompanying unaudited consolidated financial statements are presented in accordance with the requirements for Form 10-Q and consequently do not include all the disclosures normally required by U.S. generally accepted accounting principles ("GAAP"). Reference should be made to Bed Bath & Beyond Inc.'s Annual Report on Form 10-K for the fiscal year ended February 28, 2015 for additional disclosures, including a summary of the Company's significant accounting policies, and to subsequently filed Forms 8-K.

Certain reclassifications have been made to the fiscal 2014 consolidated statement of cash flows to conform to the fiscal 2015 consolidated statement of cash flows presentation.

The Company accounts for its operations as two operating segments: North American Retail and Institutional Sales. The Institutional Sales operating segment, which is comprised of Linen Holdings, does not meet the quantitative thresholds under GAAP and therefore is not a reportable segment.

The Company sells a wide assortment of domestics merchandise and home furnishings. Domestics merchandise includes categories such as bed linens and related items, bath items and kitchen textiles. Home furnishings include categories such as kitchen and tabletop items, fine tabletop, basic housewares, general home furnishings, consumables and certain juvenile products. Sales of domestics merchandise and home furnishings for the Company accounted for approximately 39.4% and 60.6% of net sales, respectively, for the three months ended August 29, 2015 and approximately 39.3% and 60.7% of net sales, respectively, for the three months ended August 30, 2014. Sales of domestics merchandise and home furnishings for the Company accounted for approximately 38.1% and 61.9% of net sales, respectively, for the six months ended August 29, 2015 and approximately 37.9% and 62.1% of net sales, respectively, for the six months ended August 30, 2014.

Net sales outside of the U.S. were not material for the three and six months ended August 29, 2015 and August 30, 2014.

2) Fair Value Measurements

Fair value is defined as the price that would be received to sell an asset or paid to transfer a liability (i.e., “the exit price”) in an orderly transaction between market participants at the measurement date. In determining fair value, the Company uses various valuation approaches, including quoted market prices and discounted cash flows. The hierarchy for inputs used in measuring fair value maximizes the use of observable inputs and minimizes the use of unobservable inputs by requiring that the most observable inputs be used when available. Observable inputs are inputs that market participants would use in pricing the asset or liability developed based on market data obtained from independent sources. Unobservable inputs are inputs that reflect a company’s judgment concerning the assumptions that market participants would use in pricing the asset or liability developed based on the best information available under the circumstances. In certain cases, the inputs used to measure fair value may fall into different levels of the fair value hierarchy. In such cases, an asset or liability must be classified in its entirety based on the lowest level of input that is significant to the measurement of fair value. The fair value hierarchy is broken down into three levels based on the reliability of inputs as follows:

- Level 1 – Valuations based on quoted prices in active markets for identical instruments that the Company is able to access. Since valuations are based on quoted prices that are readily and regularly available in an active market, valuation of these products does not entail a significant degree of judgment.

- Level 2 – Valuations based on quoted prices in active markets for instruments that are similar, or quoted prices in markets that are not active for identical or similar instruments, and model-derived valuations in which all significant inputs and significant value drivers are observable in active markets.
- Level 3 – Valuations based on inputs that are unobservable and significant to the overall fair value measurement.

As of August 29, 2015, the Company's financial assets utilizing Level 1 inputs included short term available-for-sale securities consisting of preferred shares of closed end municipal bond funds for which a tender offer has been accepted in the second quarter of fiscal 2015 and the long term trading investment securities traded on active securities exchanges. The Company did not have any financial assets utilizing Level 2 inputs. Financial assets utilizing Level 3 inputs included long term investments in auction rate securities consisting of preferred shares of closed end municipal bond funds (See "Investment Securities," Note 4).

Fair Value of Financial Instruments

The Company's financial instruments include cash and cash equivalents, investment securities, accounts payable, long term debt and certain other liabilities. The Company's investment securities consist primarily of U.S. Treasury securities, which are stated at amortized cost, and auction rate securities, which are stated at their approximate fair value. The book value of the financial instruments, excluding the Company's long term debt, is representative of their fair values. The fair value of the Company's long term debt is approximately \$1.462 billion, which is based on quoted prices in active markets for identical instruments (i.e., Level 1 valuation), compared to the carrying value of approximately \$1.500 billion.

3) Cash and Cash Equivalents

Included in cash and cash equivalents are credit and debit card receivables from banks, which typically settle within five business days, of \$103.5 million and \$90.3 million as of August 29, 2015 and February 28, 2015, respectively.

4) Investment Securities

The Company's investment securities as of August 29, 2015 and February 28, 2015 are as follows:

(in millions)	August 29, 2015	February 28, 2015
Available-for-sale securities:		
Short term	\$28.9	\$-
Long term	19.2	47.9
Trading securities:		
Long term	51.3	49.2
Held-to-maturity securities:		
Short term	-	110.0
Total investment securities	\$99.4	\$207.1

Auction Rate Securities

As of August 29, 2015, the Company's short term available-for-sale securities of approximately \$28.9 million represented approximately \$30.7 million par value of auction rate securities at a price of approximately 94% of par value during the second quarter of fiscal 2015. The Company incurred a realized loss on these securities of approximately \$1.8 million which is included within interest expense, net in the consolidated statement of earnings for the three and six months ended August 29, 2015. Subsequent to the end of the fiscal second quarter of 2015, the Company redeemed these securities for \$28.9 million. As of August 29, 2015 and February 28, 2015, the Company's long term available-for-sale investment securities represented approximately \$20.3 million and \$51.0 million par value of auction rate securities, respectively, consisting of preferred shares of closed end municipal bond funds, less temporary valuation adjustments of approximately \$1.1 million and \$3.1 million, respectively. Since these valuation adjustments are deemed to be temporary, they are recorded in accumulated other comprehensive loss, net of a related tax benefit, and did not affect the Company's net earnings.

U.S. Treasury Securities

As of August 29, 2015, the Company had no short term held-to-maturity securities. As of February 28, 2015, the Company's short term held-to-maturity securities included approximately \$110.0 million of U.S. Treasury Bills with remaining maturities of less than one year. These securities are stated at their amortized cost which approximates fair value, which is based on quoted prices in active markets for identical instruments (i.e., Level 1 valuation).

Long Term Trading Investment Securities

The Company's long term trading investment securities, which are provided as investment options to the participants of the nonqualified deferred compensation plan, are stated at fair market value. The values of these trading investment securities included in the table above are approximately \$51.3 million and \$49.2 million as of August 29, 2015 and February 28, 2015, respectively.

5) Property and Equipment

As of August 29, 2015 and February 28, 2015, included in property and equipment, net is accumulated depreciation of approximately \$2.4 billion and \$2.3 billion, respectively.

6) Long Term Debt

Senior Unsecured Notes

On July 17, 2014, the Company issued \$300 million aggregate principal amount of 3.749% senior unsecured notes due August 1, 2024, \$300 million aggregate principal amount of 4.915% senior unsecured notes due August 1, 2034 and \$900 million aggregate principal amount of 5.165% senior unsecured notes due August 1, 2044 (collectively, the "Notes"). Interest on the Notes is payable semi-annually on February 1 and August 1 of each year, beginning on February 1, 2015.

The Notes were issued under an indenture (the "Base Indenture"), as supplemented by a first supplemental indenture (together, with the Base Indenture, the "Indenture"), which contains various restrictive covenants, which are subject to

important limitations and exceptions that are described in the Indenture. The Company was in compliance with all covenants related to the Notes as of August 29, 2015.

Revolving Credit Agreement

On August 6, 2014, the Company entered into a \$250 million five year senior unsecured revolving credit facility agreement (“Revolver”) with various lenders. During the six months ended August 29, 2015, the Company did not have any borrowings under the Revolver.

The Revolver contains customary affirmative and negative covenants and also requires the Company to maintain a minimum leverage ratio. The Company was in compliance with all covenants related to the Revolver as of August 29, 2015.

Deferred financing costs associated with the Notes and the Revolver of approximately \$10.1 million were capitalized and are included in other assets, net of amortization, in the accompanying Consolidated Balance Sheets. These deferred financing costs are being amortized over the term of each of the Notes and the term of the Revolver and such amortization is included in interest expense, net in the Consolidated Statement of Earnings. Interest expense related to the Notes and the Revolver, including the commitment fee and the amortization of the deferred financing costs, was approximately \$18.1 million and \$36.8 million for the three and six months ended August 29, 2015, respectively.

Lines of Credit

At August 29, 2015, the Company maintained two uncommitted lines of credit of \$100 million each, with expiration dates of February 28, 2016 and August 31, 2016, respectively. These uncommitted lines of credit are currently and are expected to be used for letters of credit in the ordinary course of business. During the first six months of fiscal 2015, the Company did not have any direct borrowings under the uncommitted lines of credit. Although no assurances can be provided, the Company intends to renew both uncommitted lines of credit before the respective expiration dates.

7) Shareholders' Equity

Between December 2004 and July 2014, the Company's Board of Directors authorized, through several share repurchase programs, the repurchase of \$9.450 billion of its shares of common stock. The Company has authorization to make repurchases from time to time in the open market or through other parameters approved by the Board of Directors pursuant to existing rules and regulations. The Company also acquires shares of its common stock to cover employee related taxes withheld on vested restricted stock and performance stock unit awards. In the first six months of fiscal 2015, the Company repurchased approximately 8.2 million shares of its common stock for a total cost of approximately \$579.3 million, bringing the aggregate total of common stock repurchased to approximately 170.7 million shares for a total cost of approximately \$9.1 billion since the initial authorization in December 2004. The Company has approximately \$304.7 million remaining of authorized share repurchases as of August 29, 2015.

In September 2015, subsequent to the fiscal second quarter, the Company's Board of Directors authorized a new \$2.5 billion share repurchase program. The Company is currently planning the new share repurchase program to commence after completion of the existing share repurchase program. The Company currently anticipates this new program will be funded from current cash and future cash flows.

8) Stock-Based Compensation

The Company measures all employee stock-based compensation awards using a fair value method and records such expense, net of estimated forfeitures, in its consolidated financial statements. Currently, the Company's stock-based compensation relates to restricted stock awards, stock options and performance stock units. The Company's restricted stock awards are considered nonvested share awards.

Stock-based compensation expense for the three and six months ended August 29, 2015 was approximately \$16.1 million (\$10.0 million after tax or \$0.06 per diluted share) and approximately \$33.9 million (\$21.1 million after tax or \$0.12 per diluted share), respectively. Stock-based compensation expense for the three and six months ended August 30, 2014 was approximately \$15.6 million (\$9.7 million after tax or \$0.05 per diluted share) and approximately \$33.8 million (\$21.1 million after tax or \$0.11 per diluted share), respectively. In addition, the amount of stock-based compensation cost capitalized for the six months ended August 29, 2015 and August 30, 2014 was approximately \$1.0 million and \$0.9 million, respectively.

Incentive Compensation Plans

The Company currently grants awards under the Bed Bath & Beyond 2012 Incentive Compensation Plan (the “2012 Plan”), which amended and restated the Bed Bath & Beyond 2004 Incentive Compensation Plan (the “2004 Plan”). The 2012 Plan includes an aggregate of 43.2 million common shares authorized for issuance and the ability to grant incentive stock options. Outstanding awards that were covered by the 2004 Plan continue to be in effect under the 2012 Plan.

The 2012 Plan is a flexible compensation plan that enables the Company to offer incentive compensation through stock options (whether nonqualified stock options or incentive stock options), restricted stock awards, stock appreciation rights, performance awards and other stock based awards, including cash awards. Under the 2012 Plan, grants are determined by the Compensation Committee for those awards granted to executive officers and by an appropriate committee for all other awards granted. Awards of stock options and restricted stock generally vest in five equal annual installments beginning one to three years from the date of grant. Awards of performance stock units generally vest over a period of four years from the date of grant dependent on the Company’s achievement of performance-based tests and subject, in general, to the executive remaining in the Company’s service on specified vesting dates.

The Company generally issues new shares for stock option exercises, restricted stock awards and vesting of performance stock units. As of August 29, 2015, unrecognized compensation expense related to the unvested portion of the Company’s stock options, restricted stock awards and performance stock units was \$28.8 million, \$148.9 million and \$30.1 million, respectively, which is expected to be recognized over a weighted average period of 3.2 years, 4.1 years and 2.5 years, respectively.

		Weighted Average Exercise Price
Options outstanding, beginning of period	3,682	\$ 51.05
Granted	501	70.96
Exercised	(221)	35.62
Forfeited or expired	(91)	63.12
Options outstanding, end of period	3,871	\$ 54.22
Options exercisable, end of period	2,392	\$ 46.85

The weighted average fair value for the stock options granted during the first six months of fiscal 2015 and 2014 was \$23.12 and \$20.96, respectively. The weighted average remaining contractual term and the aggregate intrinsic value for options outstanding as of August 29, 2015 was 4.2 years and \$42.6 million, respectively. The weighted average remaining contractual term and the aggregate intrinsic value for options exercisable as of August 29, 2015 was 2.9 years and \$40.6 million, respectively. The total intrinsic value for stock options exercised during the first six months of fiscal 2015 and 2014 was \$8.2 million and \$6.4 million, respectively.

Net cash proceeds from the exercise of stock options for the first six months of fiscal 2015 were \$7.9 million and the net associated income tax benefit was \$10.2 million.

Restricted Stock

Restricted stock awards are issued and measured at fair market value on the date of grant and generally become vested in five equal annual installments beginning one to three years from the date of grant, subject, in general, to the recipient remaining in the Company's service on specified vesting dates. Vesting of restricted stock awarded to certain of the Company's executives is dependent on the Company's achievement of a performance-based test for the fiscal year of grant and, assuming achievement of the performance-based test, time vesting, subject, in general, to the executive remaining in the Company's service on specified vesting dates. The Company recognizes compensation expense related to these awards based on the assumption that the performance-based test will be achieved. Vesting of restricted stock awarded to the Company's other employees is based solely on time vesting.

Changes in the Company's restricted stock for the six months ended August 29, 2015 were as follows:

(Shares in thousands)	Number of Restricted Shares	Weighted Average Grant-Date Fair Value
Unvested restricted stock, beginning of period	3,592	\$ 57.90
Granted	709	70.36
Vested	(907)	48.89
Forfeited	(134)	61.47
Unvested restricted stock, end of period	3,260	\$ 62.97

Performance Stock Units

Performance stock units ("PSUs") are issued and measured at fair market value on the date of grant. Vesting of PSUs awarded to certain of the Company's executives is dependent on the Company's achievement of a performance-based test during a one-year period from the date of grant and during a three-year period from the date of grant and, assuming achievement of the performance-based test, time vesting, subject, in general, to the executive remaining in the Company's service on specified vesting dates. Performance during the one-year period will be based on Earnings Before Interest and Taxes ("EBIT") margin relative to a peer group of the Company. Upon achievement of the one-year performance-based test, the corresponding PSUs will vest annually in substantially equal installments over a three year period starting one year from the date of grant. Performance during the three-year period will be based on Return on Invested Capital ("ROIC") relative to such peer group. Upon achievement of the three-year performance-based test, the corresponding PSUs will vest on the fourth anniversary date of grant. The awards based on EBIT margin and ROIC range from a floor of zero to a cap of 150% of target achievement. PSUs are converted into shares of common stock upon payment following vesting. Upon grant of the PSUs, the Company recognizes compensation expense related to these awards based on the assumption that 100% of the target award will be achieved. The Company evaluates the target assumption on a quarterly basis and adjusts compensation expense related to these awards, as appropriate.

Changes in the Company's PSUs for the six months ended August 29, 2015 were as follows:

(Shares in thousands)	Number of Performance Stock Units	Weighted Average Grant-Date Fair Value
Unvested performance stock units, beginning of period	391	\$ 62.34

9) Earnings Per Share

The Company presents earnings per share on a basic and diluted basis. Basic earnings per share is computed by dividing net earnings by the weighted average number of shares outstanding. Diluted earnings per share is computed by dividing net earnings by the weighted average number of shares outstanding, including the dilutive effect of stock-based awards as calculated under the treasury stock method.

Stock-based awards for the three and six months ended August 29, 2015 of approximately 2.7 million and 2.1 million, respectively, and August 30, 2014 of approximately 1.8 million and 2.0 million, respectively, were excluded from the computation of diluted earnings per share as the effect would be anti-dilutive.

10) Supplemental Cash Flow Information

The Company paid income taxes of \$226.2 million and \$269.8 million in the first six months of fiscal 2015 and 2014, respectively. In addition, the Company had interest payments of approximately \$40.8 million and \$4.5 million in the first six months of fiscal 2015 and 2014, respectively.

The Company recorded an accrual for capital expenditures of \$18.1 million and \$8.4 million as of August 29, 2015 and August 30, 2014, respectively.

ITEM 2. MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS

Overview

Bed Bath & Beyond Inc. and subsidiaries (the "Company") is a retailer which operates under the names Bed Bath & Beyond ("BBB"), Christmas Tree Shops, Christmas Tree Shops andThat! or andThat! (collectively, "CTS"), Harmon or Harmon Face Values (collectively, "Harmon"), buybuy BABY ("Baby") and World Market, Cost Plus World Market or Cost Plus (collectively, "Cost Plus World Market"). Customers can purchase products from the Company either in-store, online or through a mobile device. The Company has the developing ability to have customer purchases picked up in-store or shipped direct to the customer from the Company's distribution facilities, stores or vendors. In addition, the Company operates Of a Kind, an e-commerce website that features specially commissioned, limited edition items from emerging fashion and home designers, which was acquired in the second quarter of fiscal 2015. The Company also operates Linen Holdings, a provider of a variety of textile products, amenities and other goods to institutional customers in the hospitality, cruise line, healthcare and other industries. Additionally, the Company is a partner in a joint venture which operates six retail stores in Mexico under the name Bed Bath & Beyond.

The Company accounts for its operations as two operating segments: North American Retail and Institutional Sales. The Institutional Sales operating segment, which is comprised of Linen Holdings, does not meet the quantitative thresholds under U.S. generally accepted accounting principles and therefore is not a reportable segment.

The Company sells a wide assortment of domestics merchandise and home furnishings. Domestics merchandise includes categories such as bed linens and related items, bath items and kitchen textiles. Home furnishings include categories such as kitchen and tabletop items, fine tabletop, basic housewares, general home furnishings, consumables and certain juvenile products.

The Company's strategy begins and ends with an intense focus on its customers:

- To do more for and with its customers;
- To continue to broaden and differentiate its selection and assortment of merchandise; and
- To engage with its customers wherever, whenever and however they prefer whether it be in-store, online, through a mobile device, or in any combination of these methods.

The Company's objective is to be its customers' first choice for products and services in the categories offered, in the markets, channels and countries in which the Company operates, as those customers express their life interests and travel through their various life stages. The Company strives to accomplish this objective by offering an extensive

breadth, depth and differentiated assortment of merchandise at the right value; and by offering excellent customer service, including new service ideas and solutions. The Company is also enhancing its ability to achieve this objective through its ongoing commitment to world class information and interactive technology, comprehensive analytics and targeted marketing and communications.

Operating in the highly competitive retail industry, the Company, along with other retail companies, is influenced by a number of factors including, but not limited to, general economic conditions including the housing market, unemployment levels and commodity prices; the overall macroeconomic environment and related changes in the retailing environment; consumer preferences and spending habits; unusual weather patterns and natural disasters; competition from existing and potential competitors; evolving technology; and the ability to find suitable locations at acceptable occupancy costs and other terms to support the Company's growth. The Company cannot predict whether, when or the manner in which these factors could affect the Company's operating results.

The following represents an overview of the Company's financial performance for the periods indicated:

For the three and six months ended August 29, 2015, the Company's net sales were \$2.995 billion and \$5.734 billion, respectively, an increase of approximately 1.7% and 2.4%, as compared with the three and six months ended August 30, 2014. On a constant currency basis, which is a non-GAAP measure, net sales increased approximately 2.2% and 2.7%, as compared with the three and six months ended August 30, 2014. Net sales and comparable sales of the Company's foreign operations are calculated on a constant currency basis by translating the current year's respective sales of its foreign operations at the same exchange rates used in the prior year.

Comparable sales for the three and six months ended August 29, 2015 increased by approximately 0.7% and 1.4%, respectively, as compared with an increase of approximately 3.4% and 2.0%, respectively, for the three and six months ended August 30, 2014. On a constant currency basis, comparable sales increased approximately 1.1% and 1.8%, as compared with the three and six months ended August 30, 2014. For the three months ended August 29, 2015, comparable sales consummated through customer facing online websites and mobile applications increased in excess of 25% over the corresponding three month period in the prior year, while comparable sales consummated in-store declined approximately 1%. For the six months ended August 29, 2015, comparable sales consummated through customer facing online websites and mobile applications increased in excess of 30% over the corresponding six month period in the prior year, while comparable sales consummated in-store were relatively flat.

Comparable sales include sales consummated through all retail channels which have been operating for twelve full months following the opening period (typically four to six weeks). The Company is an omnichannel retailer with capabilities that allow a customer to use more than one channel when making a purchase, including in-store, online and mobile channels, and have it fulfilled, in most cases, either through in-store customer pickup or by direct shipment to the customer from one of the Company's distribution facilities, stores or vendors.

Sales consummated on a mobile device while physically in a store location are recorded as customer facing online websites and mobile applications sales. Customer orders reserved online and picked up in a store are recorded as in-store sales. In-store sales are reduced by sales originally consummated from customer facing online websites and mobile applications and subsequently returned in-store.

Stores relocated or expanded are excluded from comparable sales if the change in square footage would cause meaningful disparity in sales over the prior period. In the case of a store to be closed, such store's sales are not considered comparable once the store closing process has commenced. Of a Kind is excluded from the comparable sales calculation for the three and six months ended August 29, 2015, and will continue to be excluded until after the anniversary of the acquisition. Linen Holdings is excluded from the comparable sales calculations and will continue to be excluded on an ongoing basis as it represents non-retail activity.

Gross profit for the three months ended August 29, 2015 was \$1.141 billion, or 38.1% of net sales, compared with \$1.134 billion, or 38.5% of net sales, for the three months ended August 30, 2014. Gross profit for the six months ended August 29, 2015 was \$2.185 billion, or 38.1% of net sales, compared with \$2.165 billion, or 38.6% of net sales, for the six months ended August 30, 2014.

Selling, general and administrative expenses ("SG&A") for the three months ended August 29, 2015 were \$790.8 million, or 26.4% of net sales, compared with \$765.3 million, or 26.0% of net sales, for the three months ended August 30, 2014. SG&A for the six months ended August 29, 2015 were \$1.562 billion, or 27.2% of net sales, compared with \$1.495 billion, or 26.7% of net sales, for the six months ended August 30, 2014.

Interest expense for the three months ended August 29, 2015 was \$25.1 million compared with \$9.5 million for the three months ended August 30, 2014. Interest expense for the six months ended August 29, 2015 was \$45.0 million

compared with \$11.6 million for the six months ended August 30, 2014.

The effective tax rate for the three months ended August 29, 2015 was 38.0% compared with 37.7% for the three months ended August 30, 2014. The effective tax rate for the six months ended August 29, 2015 was 37.7% compared with 37.5% for the six months ended August 30, 2014. The tax rates included discrete tax items resulting in net costs of approximately \$0.8 million and net benefits of approximately \$0.8 million, respectively, for the three months ended August 29, 2015 and August 30, 2014, and net benefits of approximately \$0.7 million and \$2.6 million, respectively, for the six months ended August 29, 2015 and August 30, 2014.

For the three months ended August 29, 2015, net earnings per diluted share were \$1.21 (\$201.7 million) as compared with net earnings per diluted share of \$1.17 (\$224.0 million) for the three months ended August 30, 2014. For the six months ended August 29, 2015, net earnings per diluted share were \$2.13 (\$360.1 million) as compared with net earnings per diluted share of \$2.09 (\$411.0 million) for the six months ended August 30, 2014. The increases in net earnings per diluted share for the three and six months ended August 29, 2015 are the result of the impact of the Company's repurchases of its common stock, as well as the items described above.

Capital expenditures for the six months ended August 29, 2015 and August 30, 2014 were \$160.8 million and \$155.3 million, respectively. Fiscal 2015 capital expenditures included expenditures for technology enhancements, new stores, existing store improvements and other projects. The Company continues to review and prioritize its capital needs and remains committed to making the required investments in its infrastructure to help position the Company for continued growth and success.

Several additional key initiatives include: continuing to add new functionality and assortment to its selling websites, mobile sites and applications; improving customer data integration and customer relations management capabilities; continuing to enhance the service offerings to its customers; continuing to strengthen and deepen its information technology, analytics, marketing and e-commerce groups; and creating more flexible fulfillment options that will allow the Company to deliver orders more quickly and lower the Company's shipping costs. These and other investments are expected to, among other things, provide a seamless and compelling customer experience across the Company's in-store, online and mobile shopping environments.

During the six months ended August 29, 2015, the Company opened a total of eight new stores and closed one store as well as developed a new customer service contact center, which will officially open in the fiscal third quarter, to support the anticipated growth across all channels, countries and concepts and provide a seamless customer service experience. The Company plans to continue to actively manage its real estate portfolio in order to permit store sizes, layouts, locations and offerings to evolve over time to optimize market profitability and will renovate or reposition stores within markets when appropriate. During fiscal 2015, including the stores opened through August 29, 2015, the Company expects company-wide to open approximately 30 new stores and close approximately 10 stores. Additionally, during fiscal 2015, the Company expects to continue to invest in technology related projects, including the deployment of new systems and equipment in its stores, enhancements to its omnichannel capabilities, ongoing investment in data analytics, the continued build out and utilization of a data center in North Carolina and the continued development of a new point of sale system.

During the three and six months ended August 29, 2015, the Company repurchased approximately 2.9 million and 8.2 million shares, respectively, of its common stock at a total cost of approximately \$193.9 million and \$579.3 million, respectively. During the three and six months ended August 30, 2014, including the initial delivery of approximately 15.4 million shares under an accelerated share repurchase agreement, the Company repurchased approximately 16.9 million and 21.1 million shares, respectively, of its common stock at a total cost of approximately \$1.0 billion and \$1.3 billion, respectively. The Company's share repurchase program may be influenced by several factors, including business and market conditions. In addition, the Company reviews its alternatives with respect to its capital structure on an ongoing basis.

In September 2015, subsequent to the fiscal second quarter, the Company's Board of Directors authorized a new \$2.5 billion share repurchase program. The Company is currently planning the new share repurchase program to commence after completion of the existing share repurchase program, which is estimated to be in early fiscal 2016. The Company currently anticipates this new program will be funded from current cash and future cash flows and for planning purposes, is estimated to be completed in fiscal 2019. The Company's share repurchase program may be influenced by several factors, including business and market conditions.

Results of Operations

Net Sales

Net sales for the three months ended August 29, 2015 were \$2.995 billion, an increase of \$50.6 million or approximately 1.7% over net sales of \$2.945 billion for the corresponding quarter last year. On a constant currency basis, which is a non-GAAP measure, net sales for the three months ended August 29, 2015 increased approximately 2.2%. Net sales and comparable sales of the Company's foreign operations are calculated on a constant currency basis by translating the current year's respective sales of its foreign operations at the same exchange rates used in the prior year. For the three months ended August 29, 2015, approximately 41% of the increase was attributable to an increase in comparable sales and the remainder was primarily attributable to an increase in the Company's new store sales and Linen Holdings.

For the six months ended August 29, 2015, net sales were \$5.734 billion, an increase of \$132.4 million or approximately 2.4% over net sales of \$5.602 billion for the corresponding six months last year. On a constant currency basis, which is a non-GAAP measure, net sales for the six months ended August 29, 2015 increased approximately 2.7%. For the six months ended August 29, 2015, approximately 59% of the increase was attributable to an increase in comparable sales and the remainder was primarily attributable to an increase in the Company's new store sales and Linen Holdings.

The increase in comparable sales for the three and six months ended August 29, 2015 was approximately 0.7% and 1.4%, respectively, as compared with an increase of approximately 3.4% and 2.0% for the three and six months ended August 30, 2014, respectively. The increase in comparable sales for the three months ended August 29, 2015 was due to an increase in the average transaction amount, partially offset by a slight decrease in the number of transactions. The increase in comparable sales for the six months ended August 29, 2015 was due to an increase in the average transaction amount. On a constant currency basis, comparable sales increased approximately 1.1% and 1.8%, as compared with the three and six months ended August 30, 2014.

The Company's comparable sales metric considers sales consummated through all retail channels – in-store, online and through a mobile device. Customers today may take advantage of the Company's omnichannel environment by using more than one channel when making a purchase. The Company believes an integrated experience must exist among these channels to provide a seamless customer experience. A few examples are: a customer may be assisted by an in-store associate to create a wedding or baby registry, while the guests may ultimately purchase a gift from the Company's websites; or, a customer may research a particular item, and read other customer reviews on the Company's websites before visiting a store to consummate the actual purchase; or a customer may reserve an item online for in-store pick up; or while in a store, a customer may make the purchase on a mobile device for in home delivery from either a distribution facility, a store or directly from a vendor. In addition, the Company accepts returns in-store without regard to the channel in which the purchase was consummated, therefore resulting in reducing store sales by sales originally consummated through customer facing online websites and mobile applications. As the Company's retail operations are integrated and it cannot reasonably track the channel in which the ultimate sale is initiated, the Company can however provide directional information on where the sale was consummated.

For the three months ended August 29, 2015, comparable sales consummated through customer facing online websites and mobile applications increased in excess of 25% over the corresponding three month period in the prior year, while comparable sales consummated in-store declined approximately 1%. For the six months ended August 29, 2015, comparable sales consummated through customer facing online websites and mobile applications increased in excess of 30% over the corresponding six month period in the prior year, while comparable sales consummated in-store were relatively flat.

For the three and six months ended August 29, 2015, comparable sales represented \$2.898 billion and \$5.547 billion of net sales, respectively. For the three and six months ended August 30, 2014, comparable sales represented \$2.857 billion and \$5.422 billion of net sales, respectively.

Sales of domestics merchandise and home furnishings for the Company accounted for approximately 39.4% and 60.6% of net sales, respectively, for the three months ended August 29, 2015 and approximately 39.3% and 60.7% of net sales, respectively, for the three months ended August 30, 2014. Sales of domestics merchandise and home furnishings for the Company accounted for approximately 38.1% and 61.9% of net sales, respectively, for the six months ended August 29, 2015 and approximately 37.9% and 62.1% of net sales, respectively, for the six months ended August 30, 2014.

Gross Profit

Gross profit for the three months ended August 29, 2015 was \$1.141 billion, or 38.1% of net sales, compared with \$1.134 billion, or 38.5% of net sales, for the three months ended August 30, 2014. The decrease in the gross profit margin as a percentage of net sales for the three months ended August 29, 2015 was primarily attributed to, in order of magnitude, an increase in coupon expense resulting from an increase in redemptions and a slight increase in the average coupon amount, and an increase in inventory acquisition costs. Also, contributing to the decrease in gross profit margin was an increase in net direct to customer shipping expense.

Gross profit for the six months ended August 29, 2015 was \$2.185 billion, or 38.1% of net sales, compared with \$2.165 billion, or 38.6% of net sales, for the six months ended August 30, 2014. The decrease in the gross profit margin as a percentage of net sales for the six months ended August 29, 2015 was primarily attributed to, in order of magnitude, an increase in coupon expense resulting from an increase in redemptions, partially offset by a slight decrease in the average coupon amount, an increase in inventory acquisition costs and, to a slightly lesser extent, an increase in net direct to customer shipping expense.

Selling, General and Administrative Expenses

SG&A for the three months ended August 29, 2015 was \$790.8 million, or 26.4% of net sales, compared with \$765.3 million, or 26.0% of net sales, for the three months ended August 30, 2014. The percentage of net sales increase in SG&A for the three months ended August 29, 2015 was primarily attributable to increased technology expenses and related depreciation.

SG&A for the six months ended August 29, 2015 was \$1.562 million, or 27.2% of net sales, compared with \$1.495 billion, or 26.7% of net sales, for the six months ended August 30, 2014. For the six months ended August 29, 2015, the most significant item contributing to the increase in SG&A as a percentage of net sales is an increase in technology expenses and related depreciation. Also, contributing to this increase in SG&A as a percentage of net sales for the six months ended August 29, 2015 is an increase in advertising expenses due in part to the growth in digital advertising.

Operating Profit

Operating profit for the three months ended August 29, 2015 was \$350.2 million, or 11.7% of net sales, compared with \$368.7 million, or 12.5% of net sales, during the comparable period last year. For the six months ended August 29, 2015, operating profit was \$623.5 million, or 10.9% of net sales, compared with \$669.4 million, or 12.0% of net sales, during the comparable period last year. The changes in operating profit as a percentage of net sales were the result of the changes in gross profit margin and SG&A as a percentage of net sales as described above.

The Company believes operating margin compression is likely to continue through the remainder of fiscal 2015 as a result of several items, including increases in, as a percentage of net sales, coupon expense, net direct to customer shipping expense, technology expenses and related depreciation related to the Company's ongoing investments, a planned unfavorable Canadian currency exchange rate and investments in compensation and benefits beyond those historically planned. In addition, the operating margin compression will be impacted by the non-recurring benefit relating to the credit card litigation settlement in fiscal 2014.

Interest Expense, net

Interest expense, net for the three months ended August 29, 2015 was \$25.1 million compared to \$9.5 million for the three months ended August 30, 2014. For the three months ended August 29, 2015, interest expense, net primarily related to interest on the senior unsecured notes issued in July 2014 and the sale/leaseback obligations related to certain distribution facilities. Also included in interest expense, net for the three months ended August 29, 2015 was approximately \$1.8 million of a realized loss incurred related to the tender of certain auction rate securities, as well as approximately \$2.9 million related to the reduction in value of the nonqualified deferred compensation plan investments. This reduction in the value of the investments was offset by a corresponding benefit in SG&A and resulted in no net impact to the consolidated statement of earnings.

Interest expense, net for the six months ended August 29, 2015 was \$45.0 million compared to \$11.6 million for the six months ended August 30, 2014. For the six months ended August 29, 2015, interest expense, net primarily related to interest on the senior unsecured notes issued in July 2014 and the sale/leaseback obligations related to certain distribution facilities. Also included in interest expense, net for the six months ended August 29, 2015 was

approximately \$1.8 million of a realized loss incurred related to the tender of certain auction rate securities, as well as approximately \$1.8 million related to the reduction in value of the nonqualified deferred compensation plan investments. This reduction in the value of the investments was offset by a corresponding benefit in SG&A and resulted in no net impact to the consolidated statement of earnings.

Income Taxes

The effective tax rate for the three months ended August 29, 2015 was 38.0% compared with 37.7% for the three months ended August 30, 2014. The tax rate for the three months ended August 29, 2015 included net costs of approximately \$0.8 million and for the three months ended August 30, 2014 included a net benefit of approximately \$0.8 million, due to discrete tax events occurring during these quarters.

The effective tax rate for the six months ended August 29, 2015 was 37.7% compared with 37.5% for the six months ended August 30, 2014. The tax rate for the six months ended August 29, 2015 included a net benefit of approximately \$0.7 million, due to discrete tax events during the first six months of fiscal 2015, and for the six months ended August 30, 2014 included a net benefit of approximately \$2.6 million, due to the recognition of favorable discrete federal and state tax items.

Potential volatility in the effective tax rate from quarter to quarter may occur as the Company is required each quarter to determine whether new information changes the assessment of both the probability that a tax position will effectively be sustained and the appropriateness of the amount of recognized benefit.

Net Earnings

As a result of the factors described above, net earnings for the three and six months ended August 29, 2015 were \$201.7 million and \$360.1 million, respectively, compared with \$224.0 million and \$411.0 million, respectively, for the corresponding period in fiscal 2014.

Growth

The Company strives to do more for and with its customers by: offering an extensive breadth, depth and differentiated assortment of merchandise at the right value; presenting merchandise in a distinctive manner designed to maximize customer convenience and reinforce customer perception of a wide selection; and providing excellent customer service, including new ideas and solutions. The Company is pursuing its growth objectives by investing in its omnichannel retail capabilities, optimizing its store operations and market coverage, including international expansion; leveraging its combined expertise and product knowledge to provide products and services to hospitality, travel and other institutional customers; and continuously reviewing opportunities for strategic acquisitions.

The Company continues to grow, differentiate and leverage its merchandise assortment and service offerings across all channels, concepts and countries in which it operates, to better engage with its customers wherever, whenever and however they express their life interests and travel through their life stages. Through its investments in analytics, marketing and technology, the Company is leveraging available information to be able to interact with and service its customers more personally and directly.

As of August 29, 2015, the Company operated 1,520 stores plus its various websites, other interactive platforms and distribution facilities. The Company's 1,520 stores operate in all 50 states, the District of Columbia, Puerto Rico and Canada, including: 1,023 BBB stores, 270 Cost Plus World Market stores, 99 Baby stores, 78 CTS stores and 50 Harmon stores. During the six months ended August 29, 2015, the Company opened a total of eight new stores and closed one store as well as developed a new customer service contact center, which will officially open in the fiscal third quarter, to support the anticipated growth across all channels, countries and concepts and provide a seamless customer service experience. At the end of the second quarter of 2015, Company-wide total store square footage, net of openings and closings, for all of its concepts, was approximately 43.2 million square feet. In addition, the Company has distribution facilities totaling 6.0 million square feet including a new distribution facility in Las Vegas opened during the six months ended August 29, 2015. In fiscal 2016, the Company plans to open another distribution facility in the Southwest and will continue to assess additional sites throughout the country in order to gain greater distribution efficiencies. The Company also operates websites at bedbathandbeyond.com, bedbathandbeyond.ca, christmastreeshops.com, harmondiscount.com, buybuybaby.com, worldmarket.com and ofakind.com. Additionally, the Company is a partner in a joint venture which as of August 29, 2015, operated a total of six retail stores in Mexico under the name Bed Bath & Beyond.

The Company plans to continue to expand its operations and invest in its infrastructure to reach its long-term objectives. During fiscal 2015, including the stores opened through August 29, 2015, the Company expects company-wide to open approximately 30 new stores and close approximately 10 stores. Additionally, in connection with leveraging its merchandise offerings and optimizing its operations, the Company continues to expand, across selected stores, the number of specialty departments such as health and beauty care, baby, specialty food, and beverage. Also, the Company is committed to the continued growth of its merchandise categories and channels and is growing the number of items it is able to have shipped directly to customers from a vendor. The continued growth of the Company is dependent, in part, upon the Company's ability to execute these and other key initiatives successfully.

Liquidity and Capital Resources

The Company has been able to finance its operations, including its growth, through internally generated funds. For fiscal 2015, the Company believes that it can continue to finance its operations, including its growth, share repurchases, planned capital expenditures and debt service obligations, through existing and internally generated funds. In addition, if necessary, the Company could borrow under the Revolver. Capital expenditures for fiscal 2015 are planned to be approximately \$375 million to \$400 million, with a significant portion for technology related projects, including the deployment of new systems and equipment in stores, enhancements to omnichannel capabilities, the ongoing investment in data analytics, the continued build out and utilization of a data center in North Carolina, the continued development of a new point-of-sale system; and enhancements to its distribution facilities to improve capacity and productivity; with the remainder for new stores, existing store improvements, and other projects. These planned capital expenditures are subject to the timing and composition of the projects. In addition, the Company reviews its alternatives with respect to its capital structure on an ongoing basis.

Fiscal 2015 compared to Fiscal 2014

Net cash provided by operating activities for the six months ended August 29, 2015 was \$409.3 million, compared with \$545.0 million in the corresponding period in fiscal 2014. Year over year, the Company experienced an increase in cash used by the net components of working capital (primarily accounts payable and other current assets, partially offset by merchandise inventories) and a decrease in net earnings, as adjusted for non-cash expenses (primarily deferred income taxes).

Retail inventory, which includes inventory in the Company's distribution facilities for direct to customer shipments, was approximately \$2.8 billion, an increase of approximately 3.9% compared to retail inventory as of August 30, 2014. The Company's distribution facilities include the Company's newest Las Vegas distribution facility which opened during the first six months of fiscal 2015.

Net cash used in investing activities for the six months ended August 29, 2015 was \$50.8 million, compared to net cash provided by investing activities of \$274.1 million in the corresponding period of fiscal 2014. For the six months ended August 29, 2015, net cash used in investing activities was due to \$160.8 million of capital expenditures, partially offset by \$110.0 million of redemptions of investment securities, net of purchases. For the six months ended August 30, 2014, net cash provided by investing activities was primarily due to \$429.4 million of redemptions of investment securities, net of purchases, partially offset by \$155.3 million of capital expenditures.

Net cash used in financing activities for the six months ended August 29, 2015 was \$561.1 million, compared to net cash provided by financing activities of \$39.4 million in the corresponding period of fiscal 2014. For the six months ended August 29, 2015, net cash used in financing activities was primarily due to \$579.3 million of common stock repurchases. For the six months ended August 30, 2014, net cash provided by financing activities was primarily due to \$1.5 billion of proceeds from the issuance of senior unsecured notes, partially offset by \$1.3 billion of common stock repurchases which included the initial delivery of shares under an accelerated share repurchase agreement and a \$165.0 million prepayment under an accelerated share repurchase agreement.

Seasonality

The Company's sales exhibit seasonality with sales levels generally higher in the calendar months of August, November and December, and generally lower in February.

Critical Accounting Policies

See “Critical Accounting Policies” under Item 7 of the Company’s Annual Report on Form 10-K for the fiscal year ended February 28, 2015 (“2014 Form 10-K”), filed with the Securities and Exchange Commission (“SEC”) and incorporated by reference herein. There were no changes to the Company’s critical accounting policies during the first six months of fiscal 2015.

Forward-Looking Statements

This Form 10-Q may contain forward-looking statements. Many of these forward-looking statements can be identified by use of words such as may, will, expect, anticipate, approximate, estimate, assume, continue, model, project, plan, and similar words and phrases. The Company’s actual results and future financial condition may differ materially from those expressed in any such forward-looking statements as a result of many factors. Such factors include, without limitation: general economic conditions including the housing market, a challenging overall macroeconomic environment and related changes in the retailing environment; consumer preferences, spending habits and adoption of new technologies; demographics and other macroeconomic factors that may impact the level of spending for the types of merchandise sold by the Company; civil disturbances and terrorist acts; unusual weather patterns and natural disasters; competition from existing and potential competitors; competition from other channels of distribution; pricing pressures; liquidity; the ability to attract and retain qualified employees in all areas of the organization; the cost of labor, merchandise and other costs and expenses; potential supply chain disruption due to political instability, labor disturbances and other items; the ability to find suitable locations at acceptable occupancy costs and other terms to support the Company’s growth; the ability to assess and implement technologies in support of the Company’s development of its omnichannel capabilities; uncertainty in financial markets; disruptions to the Company’s information technology systems including but not limited to security breaches of systems protecting consumer and employee information; reputational risk arising from challenges to the Company’s or a third party supplier’s compliance with various laws, regulations or standards, including those related to labor, health, safety, privacy or the environment; reputational risk arising from third-party merchandise or service vendor performance in direct home delivery or assembly of product for customers; changes to statutory, regulatory and legal requirements; new, or developments in existing, litigation, claims or assessments; changes to, or new, tax laws or interpretation of existing tax laws; changes to, or new, accounting standards including, without limitation, changes to lease accounting standards; foreign currency exchange rate fluctuations; and the integration of acquired businesses. The Company does not undertake any obligation to update its forward-looking statements.

Available Information

The Company makes available as soon as reasonably practicable after filing with the SEC, free of charge, through its website, www.bedbathandbeyond.com, the Company's annual reports on Form 10-K, quarterly reports on Form 10-Q, current reports on Form 8-K, and amendments to those reports, electronically filed or furnished pursuant to Section 13 or 15(d) of the Securities Exchange Act of 1934.

Item 3. Quantitative and Qualitative Disclosures about Market Risk

The Company's exposure to market risk for changes in interest rates relates primarily to the Company's investment securities. The Company's market risks at August 29, 2015 are similar to those disclosed in Item 7A of the Company's 2014 Form 10-K.

As of August 29, 2015, the Company's investments include cash and cash equivalents of approximately \$667.6 million, short term investment securities of approximately \$28.9 million and long term investment securities of approximately \$70.5 million at weighted average interest rates of 0.01%, 0.15% and 0.17%, respectively. The book value of these investments is representative of their fair values.

The Company's senior unsecured notes have fixed interest rates and are not subject to interest rate risk. As of August 29, 2015, the fair value of the senior unsecured notes was \$1.462 billion, which is based on quoted prices in active markets for identical instruments compared to the carrying value of approximately \$1.500 billion.

Item 4. Controls and Procedures

(a) Disclosure Controls and Procedures

The Company's management, with the participation of its Principal Executive Officer and Principal Financial Officer, have reviewed and evaluated the effectiveness of the Company's disclosure controls and procedures (as defined in Exchange Act Rules 240.13a-15(e) and 15d-15(e)) as of August 29, 2015 (the end of the period covered by this quarterly report on Form 10-Q). Based on that evaluation, the Principal Executive Officer and the Principal Financial Officer have concluded that the Company's current disclosure controls and procedures are effective to ensure that information required to be disclosed by the Company in the reports that it files or submits under the Securities Exchange Act of 1934 is (i) recorded, processed, summarized and reported within the time periods specified in the SEC's rules and forms and (ii) accumulated and communicated to our management, including our Principal Executive

Officer and Principal Financial Officer, to allow timely decisions regarding required disclosure.

(b) Changes in Internal Control over Financial Reporting

There were no changes in the Company's internal controls over financial reporting that occurred during the Company's most recent fiscal quarter that have materially affected, or are reasonably likely to materially affect, the Company's internal controls over financial reporting.

-21-

PART II - OTHER INFORMATION***Item 1. Legal Proceedings***

The Company is party to various legal proceedings arising in the ordinary course of business, which the Company does not believe to be material to the Company's business or financial condition.

Item 1A. Risk Factors

In addition to the other information set forth in this Form 10-Q, carefully consider the factors discussed under "Risk Factors" in the Company's 2014 Form 10-K as filed with the Securities and Exchange Commission. These risks could materially adversely affect the Company's business, financial condition and results of operations. These risks are not the only risks the Company faces. The Company's operations could also be affected by additional factors that are not presently known to the Company or by factors that the Company currently considers immaterial to its business.

Item 2. Unregistered Sales of Equity Securities and Use of Proceeds

The Company's purchases of its common stock during the second quarter of fiscal 2015 were as follows:

Period	Total Number of Shares Purchased (1)	Average Price Paid per Share (2)	Total Number of Shares Purchased as Part of Publicly Announced Plans or Programs (1)	Approximate Dollar Value of Shares that May Yet Be Purchased Under the Plans or Programs (1) (2) (3)
May 31, 2015 - June 27, 2015	908,800	\$70.78	908,800	\$434,254,449
June 28, 2015 - July 25, 2015	755,700	\$68.83	755,700	\$382,240,648
July 26, 2015 - August 29, 2015	1,211,000	\$64.06	1,211,000	\$304,660,515
Total	2,875,500	\$67.44	2,875,500	\$304,660,515

(1) Between December 2004 and July 2014, the Company's Board of Directors authorized, through several share repurchase programs, the repurchase of \$9.450 billion of its shares of common stock. The Company has authorization to make repurchases from time to time in the open market or through other parameters approved by the Board of Directors pursuant to existing rules and regulations. Shares purchased indicated in this table also include shares withheld to cover employee related taxes on vested restricted shares and performance stock unit awards.

(2) Excludes brokerage commissions paid by the Company.

(3) In September 2015, subsequent to the fiscal second quarter, the Company's Board of Directors authorized a new \$2.5 billion share repurchase program, which is not reflected in the table above.

Item 6. Exhibits

The exhibits to this Report are listed in the Exhibit Index included elsewhere herein.
