FOR IMMEDIATE RELEASE

CAMTEK RECEIVES ORDER FOR MULTIPLE WAFER INSPECTION SYSTEMS

MIGDAL HAEMEK, Israel – July 22, 2010 – Camtek Ltd. (NASDAQ and TASE: CAMT) (“Camtek”), announced today that it received follow-on orders for three wafer inspection systems from a major IDM (Integrated Device Maker) and chipmaker. The three systems will be installed during the third quarter of 2010.

The orders, totaling above \$ 2 million dollars, include three systems for 3D metrology and inspection of bumped wafers.

Mr. Roy Porat, Camtek’s General Manager, commented, “We are very pleased with these follow-on orders with this important customer, which represent their satisfaction with our existing installed solutions. These additional sales are a result of our continued efforts to provide our customers with leading edge technology solutions and top quality customer service and support. We look forward to continuing working closely with this customer as a leading solution provider for inspection systems, and we expect more follow on orders later this year.”

ABOUT CAMTEK LTD.

Camtek Ltd provides automated solutions dedicated for enhancing production processes and yield, enabling our customers new technologies in two industries; Semiconductors, Printed Circuit Board (PCB) & IC Substrates.

Camtek addresses the specific needs of these industries with dedicated solutions based on a wide and advanced platform of technologies including intelligent imaging, image processing, ion milling and digital material deposition. Camtek’s solutions range from micro-to-nano by applying its technologies to the industry-specific requirements.

This press release is available at www.camtek.co.il.

This press release may contain projections or other forward-looking statements regarding future events or the future performance of the Company. These statements are only predictions and may change as time passes. We do not assume any obligation to update that information. Actual events or results may differ materially from those projected, including as a result of changing industry and market trends, reduced demand for our products, the timely development of our new products and their adoption by the market, increased competition in the industry, price reductions as well as due to risks identified in the documents filed by the Company with the SEC.
