NEWS RELEASE

Lee Enterprises to refinance second lien debt to 2022

DAVENPORT, Iowa (February 3, 2014) — Lee Enterprises, Incorporated (NYSE: LEE), a major provider of local news, information and advertising in 50 markets, has reached agreement with a group of Commitment Parties to refinance its \$175 million of second lien debt with a new \$200 million facility, extending maturities from April 2017 to December 2022.

The refinancing will reduce the interest rate of Lee's second lien debt to 12% from 15% and is expected to close within 60 days.

Mary Junck, chairman and chief executive officer, said: "This agreement both lowers our interest cost and gives us an even longer runway to continue reducing debt aggressively. We are now setting our sights on refinancing our first lien debt and expect another successful outcome."

Carl Schmidt, Lee vice president, chief financial officer and treasurer, said Commitment Parties in the second lien refinancing will receive warrants to purchase a total of 6 million shares of Lee common stock, which will represent, after full issuance, approximately 10.1% of shares outstanding. The exercise price per share will be market-based, at the lower of \$4.19 or the volume-weighted average trading price for the 10 days immediately prior to closing, minimizing dilution to current stockholders. He said the warrants, when exercised, are expected to provide an additional source of funds for debt reduction or other corporate purposes.

Schmidt said the amount of the second lien debt can be reduced without penalty within 90 days after closing by up to \$75 million, potentially reducing the outstanding second lien debt to as low as \$125 million if a refinancing of first lien debt provides sufficient funding for any such prepayment.

The current second lien debt totals \$175 million. The current first lien debt totals \$600 million and matures in December 2015. Lee's current long-term debt also includes a balance of \$53 million of Pulitzer Notes issued to a subsidiary of Berkshire Hathaway, maturing in April 2017.

Schmidt said that under the new second lien agreement, excess cash flows of Lee's Pulitzer subsidiary may be used, first, to reduce the outstanding amount of the Pulitzer Notes, second, to pay obligations under the new second lien agreement, and third, for a three year period, to pay amounts under the first lien agreement. Voluntary prepayments under the new second lien agreement otherwise will be subject to call premiums that step down to zero over a five-year period. Collateral under the new agreement will be substantially identical to the existing second lien facility.

JPMorgan Securities LLC and Deutsche Bank Securities Inc. are acting as joint lead arrangers and joint bookrunners for the new second lien agreement.
