Comment by Stephen Green, Group Chairman

It is a testament to HSBC's strength and diversity that we grew pre-tax profits in 2006 to US\$22 billion, despite a major setback in part of our mortgage business in the United States. For the third year running, return on average shareholders' equity exceeded 15 per cent, revenue growth was in double digits and we maintained an essentially flat cost-efficiency ratio. In 2006, pre-tax profits from Asia, the Middle East, Latin America and other emerging markets approached 50 per cent of the Group's total.

There were a number of outstanding achievements, for example, exceeding US\$1 billion pre-tax profits for the first time in both Mexico and the Middle East, and in each of our Private Banking and Commercial Banking businesses in Asia outside Hong Kong. We added around an extra US\$1 billion of pre-tax profits in Asia outside Hong Kong and another US\$1 billion in our Commercial Banking businesses worldwide. In Hong Kong, net fee income from personal customers grew over 30 per cent to approach US\$1 billion for the first time.

However, our pre-tax profits fell by US\$725 million in our personal businesses in the United States. This was caused by one portfolio of purchased sub-prime mortgages in our US Consumer Finance subsidiary, Mortgage Services, which evidenced much higher delinquency than had been built into the pricing of these products. We are restructuring this business to avoid any repetition of the risk concentration that built up over the past two years. As part of this exercise we have effected broad changes in management and strengthened risk controls and processes.

Despite the issues in our US mortgage business, Group profit attributable to shareholders grew by 5 per cent to US\$15,789 million. We met our objective of funding organic expansion through productivity improvements. To achieve this in a year of continuing investment in developing our distribution platforms and product capabilities is a tribute to the focus which HSBC's 312,000 staff around the world have placed on serving our customers.

Earnings continued to be well diversified both geographically and by customer group. Regionally, Asia, including Hong Kong, had record results as did our newly designated Latin American Region, which combines Mexico and Central America with our South American businesses. Within our customer groups, Commercial Banking again delivered a record performance, as did Private Banking and Corporate, Investment Banking and Markets, which made strong progress in the areas in which we have been investing in recent years. Personal Financial Services profits declined as growth in Asia and Latin America was masked by the

Edgar Filing: HSBC HOLDINGS PLC - Form 6-K

problems in the US Mortgage Services business.

The Board has declared a fourth interim dividend of US\$0.36 per share, taking the total dividend in respect of 2006 to US\$0.81 per share, an increase of 11 per cent over the comparable payout last year. In sterling terms, dividend growth is 5 per cent. The fourth interim dividend is payable on 10 May 2007 to shareholders on the register on 23 March 2007 with a scrip dividend alternative available for shareholders who prefer this option.

Global economic trends and their impact on HSBC

Globalisation is determining how we think about positioning HSBC to take advantage of the changing pattern of economic flows. Historical patterns based on national boundaries are becoming less relevant. In aggregate, our operations within countries designated as emerging markets grew by 19 per cent in 2006, the third year running of high double-digit growth. However, this understates the importance of emerging markets to HSBC, as their influence is also significant to the results of our operations in developed economies. This reflects the growth in export flows to meet the infrastructure development needs of emerging markets and the reorganisation of global supply chains to optimise international resourcing. HSBC is strongly positioned to benefit from these trends. HSBC seeks to differentiate itself by taking developed market opportunities to emerging market customers and bringing emerging market products to developed investment markets. For example:

In Commercial Banking, we launched a new customer referral system, which led to international referrals with an aggregate facility value of US\$3 billion, involving over 50 sites and 4,000 relationship managers.

Within Group Investment Businesses, the Group's India, China and BRIC (Brazil, Russia, India, China) funds were major contributors to a record performance in the year as we leveraged our reputation for emerging market expertise to become a major distributor as well as manager of such funds. Performance fees reached record levels.

In the UK, the Passport bank account provides individuals newly arrived in the UK with discounted remittance services back home together with guidance on establishing themselves in the UK.

Corporate, Investment Banking and Markets' strategy to be a leading wholesale bank by focusing on financing and emerging markets was recognised by industry awards including European Loan House of the Year, China Loan House of the Year and Asian Domestic Currency Bond House of the Year by International Financing Review. Our Global Markets business was named Best at Treasury and Risk Management in Asia by Euromoney for the ninth consecutive year.

Leveraging our global services

HSBC continued to deepen its relevance to its customer base by offering coordinated services on a worldwide scale. As the globalisation of business increasingly becomes the norm, international capabilities become more and more critical to an ever wider range of customers. We responded to this trend by developing our business in a number of ways.

Benefiting from growing international trade, the Group's payments and cash management business had a record year, particularly in Asia, as increasing numbers of commercial customers expanded internationally.

As emerging market stock exchanges outperformed, the Group's custody businesses benefited from the higher volumes and value flowing into emerging market equities. HSBC retained its position as the leading sub-custodian in Asia and the Middle East, being ranked first in 19 of the 28 markets it serves. Growth in

Edgar Filing: HSBC HOLDINGS PLC - Form 6-K

both assets under custody and assets under administration exceeded 25 per cent, as interest in emerging market equities increased and the alternative fund management sector expanded.

The customer base of International Premier, the Group's personal banking service targeted at affluent customers with financial needs in more than one country, grew by 35 per cent to reach 1.8 million. We see great opportunities to develop this service further.

Cross-border distribution was a noteworthy feature of many HSBC-led debt capital market and equity capital market transactions. Highlights included: America Movil's 8 billion Mexican peso bond; Khazanah Nasional of Malaysia's US\$750 million Islamic exchangeable 'Sukuk'; Emaar Economic City's US\$680 million IPO in Saudi Arabia; and Shui On Land's US\$876 million IPO in Hong Kong.

Transferring best practice

HSBC seeks to transfer best practice and product innovation internationally. Through such linkages, HSBC is able to achieve both cost efficiency and speed to market, giving us competitive advantages over purely domestic or regional peers. In 2006, we launched a number of successful initiatives.

Using Group technology and marketing expertise, we expanded the Group's card base in Asia by some 1.9 million to 11.9 million. In addition, Bank of Communications' cards business in mainland China, with which we cooperate reached over 2 million cards in issue at the end of the year from its launch in May 2005.

Also in mainland China, we cooperated with Bank of Communications in launching point of sale finance in partnership with Wal-Mart and SuNing, one of China's largest consumer electronics chain. In Argentina, our relationship with C&A added 100,000 cards, while in Australia we entered the retail storecard market and now offer point of sale finance in over 1,000 locations through over 100 merchants.

We took the successful direct retail deposit service introduced in the US at the end of 2005 and used the experience to launch in Taiwan in September 2006. In the first 15 weeks, over 24,000 customers had signed up for the service and US\$182 million had been raised in deposits. In the US, by the end of 2006, the direct deposit product had raised some US\$7 billion of funding for our businesses there.

Building on our experience of Takaful (Islamic insurance) in Singapore and United Arab Emirates, we were among the first to be awarded licences to conduct Takaful business in both Malaysia and Saudi Arabia during 2006.

Creating advantage from scale, technology and process engineering

We continue to make progress in streamlining our operations by focusing on straight through processing and simplifying our products.

During 2006, among other things, we introduced 2,300 advanced self-service terminals, added 13 countries to HSBCnet, which is our strategic internet platform for corporate and institutional clients and made over 900,000 online insurance sales.

HSBC in Mexico was the first bank to offer pre-approved online mortgages in 2006, allowing customers to apply and obtain details about amounts, duration and monthly payments within minutes.

In Hong Kong in the past four years, processing has been moved from the branches in favour of sales-related activities, with the result that less than 5 per cent

Edgar Filing: HSBC HOLDINGS PLC - Form 6-K

of transactions are now being handled physically in the branches.

In the UK retail network, product simplification has reduced the range of products by two-thirds over the last two years which, together with branch relocation and refurbishment and adopting retail store hours, is having a positive impact on sales volumes.

Credit environment

The global credit environment, particularly in the corporate and commercial segments, remained generally favourable throughout 2006. In part, this continued to reflect a general abundance of liquidity and the prevalence of historically low nominal interest rates. A significant proportion of the trade surpluses of the major Asian exporting countries and the oil producers continued to be recycled into government debt in developed markets.

Consequently, risk premia remained at record low levels. This encouraged increasing interest in structured products and the acceptance of greater leverage as fixed income investors sought higher yielding assets. The risks arising from this activity were widely distributed using a range of market techniques.

The major credit issue affecting the Group in 2006 arose in the US in the sub-prime mortgage market. A slowdown in the rate of growth in US house prices accelerated delinquency trends in the US sub-prime mortgage market. Deterioration was marked in the more recent loans, as the absence of equity appreciation reduced customers' options for refinancing. Reduced refinancing options also highlighted the fact that, as adjustable rate mortgages reset over the next few years at higher interest rates than their original rates, the effect of the greater contractual payment obligations will lead to further delinquency.

We took these factors into account in determining the appropriate level of impairment allowances at 31 December 2006 against the Mortgage Services loan book. We factored into our allowances the most recent trends in delinquency and loss severity and estimated the effect of the higher payments due on adjustable rate mortgages as they reset, in particular where we hold a second lien mortgage behind an adjusting first mortgage. Going forward, the level of future impairment allowances will be sensitive to economic conditions and, in particular, to the state of the housing market, the level of interest rates and the availability of financing options for sub-prime borrowers.

Elsewhere in consumer finance in the US, the delinquency rate rose during the year, in large part due to the unusually low levels of delinquency at the end of 2005. This resulted from the effect of changes in bankruptcy law in the fourth quarter of 2005, portfolio ageing and the mix of the Metris portfolio acquired at the end of that year.

In UK Personal Financial Services, loan impairment charges as a percentage of lending remained broadly in line with last year, as actions taken on underwriting and collections mitigated the increasing trend of indebted customers to seek recourse in debt management services. Similarly, in Taiwan, measures taken to deal with the effect of mandatory regulatory relief from credit card debt, which increased impairment charges in the first half of 2006, reduced the charge in the second half of the year.

In the context of HSBC's financial strength and operating profitability, the areas of current weakness are well covered and they will not restrict our ability to develop our business opportunities as planned, or maintain our progressive dividend policy. They have, however, brought additional focus on the uncertain longevity of today's generally benign conditions and on the credit risks inherent in economies where asset prices are accelerating ahead of real

Edgar Filing: HSBC HOLDINGS PLC - Form 6-K

wage rises and cash flows are being leveraged using financial products designed to support higher levels of debt. We will ensure that our credit appetite reflects these risks.

Group Strategy

As noted above, in 2006, pre-tax profits from Asia, the Middle East, Latin America and other emerging markets approached 50 per cent of the Group's total. We intend the contribution from these markets to trend upwards over the next five years. These economies are growing faster than developed markets and, therefore, we will concentrate investment primarily in these markets in the form of both organic development and acquisition.

During 2006, we brought together our businesses in Latin America into a single management framework to provide clarity and consistency of direction for this important region. Hong Kong and mainland China are already managed on a combined basis, reflecting the fact that this is increasingly a seamless business.

In mature markets, we will focus particularly on serving customers with international financial needs and connectivity, including the diaspora from emerging markets. In an increasingly competitive world, we will enforce tight cost control and will re-engineer or dispose of businesses that dilute our return on capital or do not fit with our core strategy. Insurance and retirement services will be a growing part of our business.

To deliver our strategy, we have articulated seven 'global pillars' - the actions we will take to build a financial services company based on the concept of recommendation, both as a place to work and a place to do business. Michael Geoghegan, Group CEO and the senior management team are leading this.

We will remain a broad-based universal bank, with four strategic businesses:

- Personal Financial Services, within which consumer finance will remain a core competence;
- Corporate, Investment Banking and Markets, which will be a leading wholesale bank by focusing on financial and emerging markets;
- Commercial Banking, for which our international service capabilities and connectivity provide a unique competitive platform; and
- Private Banking, with its broad international network and connectivity with the rest of the Group's businesses.

These businesses will be increasingly interconnected. In particular, as derivatives markets expand in product breadth and liquidity and as more risk is securitised globally, our Global Markets business will take a central role in the efficient management of HSBC's capital, risk and related profitability.

Investments in franchise development

In November 2006, we completed the acquisition of Grupo Banistmo S.A., the leading Central American banking group, adding operations in Panama, Colombia, Costa Rica, El Salvador, Honduras and Nicaragua to our existing operations in Mexico, Brazil, Argentina, Uruguay, Chile and Paraguay. HSBC is now one of the leading foreign banks in Latin America. Apart from Banistmo, 2006 was a year of only modest acquisition activity. Very few of the opportunities we examined met our hurdle rates.

Subsequent to the end of the year, we announced our intention to acquire, when regulations permit, a further 10 per cent stake in Techcombank, the third largest joint-stock bank in Vietnam, taking our ownership interest to 20 per

Edgar Filing: HSBC HOLDINGS PLC - Form 6-K

cent as rules are relaxed to make higher levels of foreign ownership possible.

Organic investment

In 2006 in China, where we are the largest international bank, we opened 13 new offices, taking HSBC's total to 45. We made significant progress in developing our personal and commercial distribution platforms throughout Asia, the Middle East and Latin America. We added 25 consumer finance offices in India and 28 in Indonesia. We established a further 38 branches in Turkey and three in Malaysia. In Mexico our continuing development of our business added 2,000 new jobs, bringing the total of new jobs created since we acquired Bital to 8,000. We have also continued to invest in and improve our physical infrastructure in Mexico, with 372 ATMs added in 2006, bringing the total number to over 5,400.

The beginning of 2007 has been marked by our application to incorporate our operations in mainland China after 141 years of unbroken presence in the country. Today, HSBC offers renminbi deposit services in nine cities: Beijing, Dalian, Guangzhou, Qingdao, Shanghai, Shenzhen, Tianjin, Wuhan and Xiamen. The provision of diversified and international banking services to mainland Chinese citizens constitutes one of the most significant growth opportunities for HSBC in the near and long-term and we will support this opportunity with capital and technology resources as required.

Increasingly important to our ongoing success is our brand. Starting in 2007 we will progressively invest more to support and enhance the customer experience that drives the brand's strength.

Outlook

Although growth expectations in the US are moderating, the economic outlook elsewhere remains encouraging as globalisation expands market access and emerging markets grow stronger, forcing competitive restructuring. The financial markets are playing a major part in this realignment by financing the infrastructure needed to deliver the necessary energy and material resources from producer to consumer nations, and by facilitating trade flows. Additionally, financial markets are providing more sophisticated tools to help personal customers plan their long-term financial affairs, corporates to hedge their business risks and investors to manage their portfolio risks. The demand for financial services, therefore, remains strong, particularly for internationally linked services. This plays to HSBC's huge competitive strengths.

The most significant risks to continuing growth currently relate to political and macro events which are outside our control. Recognising that the effect of such risks materialising could be immediate and potentially severe, we remain strongly capitalised and liquid.

Our focus as we enter 2007 is resolutely on continuing to play to our strengths of linking emerging and developed markets and building comparative advantage by utilising our scale and our local and international reach. We continue to see opportunities to deploy capital profitably to the long-term advantage of shareholders and are committed to so doing.

Additional Information

1. Accounting policies

The consolidated financial statements of HSBC and the separate financial statements of HSBC Holdings have been prepared in accordance with International Financial Reporting Standards ('IFRSs') as endorsed by the EU. EU-endorsed IFRSs may differ from IFRSs as published by the International Accounting Standards Board ('IASB') if, at any point in time, new or amended IFRSs have not been endorsed by the EU. At 31 December 2006, there were no unendorsed standards effective for the year ended 31 December 2006 affecting these consolidated and separate financial statements, and there was no difference in application to HSBC between IFRSs endorsed by the EU and IFRSs issued by the IASB. IFRSs comprise accounting standards issued by the IASB and its predecessor body and interpretations issued by the International Financial Reporting Interpretations Committee ('IFRIC') and its predecessor body. IFRSs significant accounting policies applicable to the consolidated and the separate financial statements of HSBC Holdings can be found in Notes 1 and 2 of the Annual Report and Accounts.

During 2006, HSBC changed how certain of its geographical segments are managed and their performance assessed. As a result, a new segment, Latin America and the Caribbean ('Latin America'), was formed from the Group's businesses previously reported under South America, and those in Mexico and Panama which had been previously reported as part of the North America geographical segment. All prior period comparative data have been restated to conform to the current year presentation.

On 1 January 2006, HSBC adopted 'Amendments to IAS 39 and IFRS 4 - Financial Guarantee Contracts', 'Amendment to IAS 21 The Effects of Changes in Foreign Exchange Rates - Net Investment in a Foreign Operation', and 'Amendment to IAS 39 - Cash Flow Hedge Accounting of Forecast Intragroup Transactions'. The application of these amendments had no significant effect on the consolidated or separate financial statements.

On 1 January 2006, HSBC adopted 'IFRIC 7 Applying the Restatement Approach under IAS 29 Financial Reporting in Hyperinflationary Economies', 'IFRIC 8 Scope of IFRS 2' and 'IFRIC 9 Reassessment of Embedded Derivatives' ahead of their effective dates. The application of these interpretations had no significant effect on the consolidated or separate financial statements.

2. Dividends

On 5 March 2007, the Directors declared a fourth interim dividend for 2006 of US\$0.36 per ordinary share, a distribution of US\$4,171 million. The dividend will be payable on 10 May 2007 to holders of ordinary shares on the Register at the close of business on 23 March 2007. The dividend will be payable in cash, in US dollars, sterling or Hong Kong dollars or a combination of these currencies, at the forward exchange rates quoted by HSBC Bank plc in London at or about 11am on 30 April 2007, and with a scrip dividend alternative. Particulars of these arrangements will be mailed to shareholders on or about 3 April 2007, and elections will be required to be made by 26 April 2007. As this dividend was declared after the balance sheet date, it has not been included in 'Other liabilities' at 31 December 2006.

Edgar Filing: HSBC HOLDINGS PLC - Form 6-K

The dividend on ordinary shares held through Euroclear France, the settlement and central depository system for Euronext Paris, will be payable on 10 May 2007 to the holders of record on 23 March 2007. The dividend will be payable in cash, in euros at the forward exchange rate quoted by HSBC France on 30 April 2007 or as a scrip dividend. Particulars of these arrangements will be announced through Euronext Paris on 22 March 2007 and 28 March 2007.

The dividend on American Depositary Shares ('ADSs'), each of which represents five ordinary shares, will be payable on 10 May 2007 to holders of record on 23 March 2007. The dividend of US\$1.80 per ADS will be payable in cash in US dollars or as a scrip dividend of new ADSs. Particulars of these arrangements will be mailed to holders on or about 30 March 2007, and elections must be received by the depository by 20 April 2007. Alternatively, the cash dividend may be invested in additional ADSs for participants in the dividend reinvestment plan operated by the depository.

The Company's shares will be quoted ex-dividend in London, Hong Kong and Bermuda on 21 March 2007 and in Paris on 26 March 2007. The ADSs will be quoted ex-dividend in New York on 21 March 2007.

12. Litigation

HSBC is party to legal actions in a number of jurisdictions including the UK, Hong Kong and the US, arising out of its normal business operations. HSBC considers that none of the actions is regarded as material, and none is expected to result in a significant adverse effect on the financial position of HSBC, either individually or in the aggregate. Management believes that adequate provisions have been made in respect of such litigation. HSBC has not disclosed any contingent liability associated with these legal actions because it is not practicable to do so.

13. Dealings in HSBC Holdings plc shares

Except for dealings as intermediaries by HSBC Bank plc, HSBC Financial Products (France) and The Hongkong and Shanghai Banking Corporation Limited, which are members of a European Economic Area exchange, neither the Company nor any subsidiaries has bought, sold or redeemed any securities of the Company during the year ended 31 December 2006.

14. Statutory accounts

The information in this news release does not constitute statutory accounts within the meaning of Section 240 of the Companies Act 1985 (the Act). The statutory accounts for the year ended 31 December 2006 will be delivered to the Registrar of Companies in England and Wales in accordance with Section 242 of the Act. The auditor has reported on those accounts. Its report was unqualified and did not contain a statement under Section 237(2) or (3) of the Act.

15. Forward-looking statements

Edgar Filing: HSBC HOLDINGS PLC - Form 6-K

This news release contains certain forward-looking statements with respect to the financial condition, results of operations and business of HSBC. These forward-looking statements represent HSBC's expectations or beliefs concerning future events and involve known and unknown risks and uncertainty that could cause actual results, performance or events to differ materially from those expressed or implied in such statements. 16. Corporate governance

HSBC is committed to high standards of corporate governance. HSBC Holdings plc has complied throughout 2006 with the applicable code provisions of the Combined Code on Corporate Governance issued by the Financial Reporting Council ('the Combined Code'), save for code provision A.2.2 as the Group Chairman did not on appointment meet the Combined Code's independence criteria. On 26 May 2006 S K Green, who had previously served as Group Chief Executive, became Group Chairman. In accordance with the provisions of the Combined Code in the circumstance where a Chief Executive becomes Chairman, the Board consulted major shareholders in advance of the appointment. Sir Brian Moffat, the senior independent non-executive Director and the Chairman of the Nomination Committee, wrote to all shareholders to explain the Board's decision and the reasons for the appointment.

HSBC Holdings plc has complied throughout 2006 with all applicable code provisions of the Code on Corporate Governance Practices in Appendix 14 to the Rules Governing the Listing of Securities on The Stock Exchange of Hong Kong Limited.

The Board of HSBC Holdings plc has adopted a code of conduct for transactions in HSBC Group securities by Directors that complies with The Model Code in the Listing Rules of the Financial Services Authority and with The Model Code for Securities Transactions by Directors of Listed Issuers ('Hong Kong Model Code') set out in the Rules Governing the Listing of Securities on The Stock Exchange of Hong Kong Limited save that The Stock Exchange of Hong Kong has granted certain waivers from strict compliance with the Hong Kong Model Code, primarily to take into account accepted practices in the UK, particularly in respect of employee share plans. Following a specific enquiry, each Director has confirmed he or she has complied with the code of conduct for transactions in HSBC Group securities throughout 2006.

The Directors of HSBC Holdings plc are:
