## GOOD PERFORMANCE CONTINUES IN A CHALLENGING ENVIRONMENT. OUTLOOK CONFIRMED.

### Financial

#### Highlights

#### of the Half Year

- Underlying sales growth of 7.0% in the first half year.
- Operating margin of 16.0% in the first half year, with an underlying improvement of 0.4 percentage points.
- Earnings per share up by 6%, or 12% at constant exchange rates. The first quarter benefited from disposal profits, while the second quarter was affected by higher restructuring charges and a particularly low tax rate last year.

### Operational Highlights

- Broad-based growth in every category.
- Continued strong growth in Developing and Emerging (D&E) countries from both volume and pricing.
- Price-driven growth in Western Europe and North America.
- Cost increases recovered through determined pricing action and accelerating savings. Efficiency programmes on track to deliver €1 billion of savings this year.
- Further significant progress with disposal programme,

including  
*Bertolli*  
olive oil and North American laundry.

**GROUP CHIEF EXECUTIVE**

"  
Our performance in the first half year has been good in what has been a challenging environment. We have delivered 7% underlying sales growth and an underlying improvement in profitability while maintaining competitiveness. The changes already implemented in the business have made us nimbler and better able to respond to the market conditions. We are doing so against our clear priorities of maintaining competitiveness, improving margins and investing selectively to gain market share

Looking to the future, our strategy leverages our strong brands, broad geographic footprint and products that meet everyday needs across a wide range of price points. Our innovation programme focuses on opportunities in health and wellness, the use of superior technology, and rapid deployment in new markets. This continues to be the best route to long-term value creation

For this year we confirm our outlook for delivering growth ahead of our 3-5% target range, with an underlying improvement in operating margin."

Patrick Cescau, Group Chief Executive

31 July  
2008

**UNILEVER**  
**SECOND**  
**QUARTER AND**  
**HALF YEAR**  
**RESULTS 2008**

In the following commentary we report underlying sales growth (abbreviated to 'USG' or 'growth') at constant exchange rates, excluding the effects of acquisitions and disposals. Turnover includes the impact of exchange rates, acquisitions and disposals. Unilever uses 'constant rate' and 'underlying' measures primarily for internal performance analysis and targeting purposes. We also comment on trends in operating margins before RDIs (restructuring, disposals and impairments), and use the movements in Ungearing Free Cash Flow and Return On Invested Capital to measure progress against our longer-term value creation goals. Unilever believes that such measures provide additional information for shareholders on underlying business performance trends. Such measures are not defined under IFRS and are not intended to be a substitute for GAAP measures of turnover, operating margin, profit, EPS and cash flow. Please refer also to note 2 to the financial statements. Further information about these measures is available on our website at [www.unilever.com/ourcompany/investorcentre](http://www.unilever.com/ourcompany/investorcentre)

This results announcement also represents Unilever's half-yearly report for the purposes of the Disclosure and Transparency Rules (DTR) made by the UK Financial Services Authority (DTR 4.2 - Half-yearly financial reports). In this context: (i) the condensed set of financial statements can be found on pages 8 to 16; (ii) pages 1 to 7 comprise the interim management report; and (iii) the Directors' responsibility statement can be found on page 17. Other than as disclosed elsewhere in this document no material related parties transactions have taken place in the first six months of the year.

## **1. SUMMARY OF BUSINESS PERFORMANCE FOR THE SECOND QUARTER AND FIRST HALF YEAR**

Underlying sales growth was

6.8% in the second quarter, taking the half year rate to 7.0%. Prices increased by 7.4% in the second quarter and by 6.1% in the first half year.

Europe

grew by 2.3% in both the quarter and the half year. All of the growth has come from pricing, with volumes 2.9% lower in the second quarter.

The lower volumes largely reflect weaker ice cream sales and the expected reversal of the additional sales at the end of the first quarter ahead of price increases and systems implementations.

The

Americas

has sustained its momentum with growth of 5.7% in the first half year. This was achieved against a strong comparator which included the impact of additional sales ahead of the systems change in the

US

in June last year. In Latin America growth accelerated in both value and volume including a good performance in

Brazil

Growth in Asia Africa picked up further to 15.1% in the second quarter and is broad-based across countries with double-digit increases almost everywhere. In addition to pricing, volume growth was robust at 4.1% in the second quarter.

At a global level, all categories grew by more than 5% in the first half year.

Advertising investment behind our brands was increased by some €100 million at constant rates of exchange in the first half year. With the benefit of higher sales, media efficiency programmes and fewer promotions, A&P as a percentage of sales was 0.7 points lower in the second quarter and 0.4 points lower in the first half year.

Commodity costs increased by around €60 million in the second quarter and by around €1 billion in the first half

. This is equivalent to 5.5 percentage points of sales in the quarter and

4.8 percentage points in the first half. Both price increases and savings from cost reduction programmes accelerated in the second quarter. As a result we were able to deliver an underlying improvement in operating margin of 0.5 percentage points in the quarter, taking the first half year improvement to 0.4 percentage points.

## 2. FINANCIAL COMMENTARY

### 2.1

#### Turnover

Underlying sales growth was 6.8% in the second quarter and 7.0% in the first half year. The Euro has strengthened against most currencies and this, together with a small net impact of acquisitions and disposals, led to turnover being 1.4% lower in the second quarter and 0.5% lower in the first six months.

### 2.2

#### Operating profit

Operating profit was

5% lower than last year in the second quarter because of the strengthening of the Euro and a higher level of restructuring charges. The operating margin at 13.2% was 0.5 percentage points below last year. Before the impact of restructuring and disposals there was an underlying improvement of 0.5 percentage points.

For the half year, operating profit was 16% higher than last year and the operating margin of 16.0% was 2.3 percentage points higher, both being boosted by profits on disposals in the first quarter. Before restructuring and disposals there was an underlying improvement in operating margin of 0.4 percentage

points.

## 2.3

### Finance costs and tax

Finance costs of net borrowings were 16% lower than last year in the quarter and in line with last year for the first six months.

The effective tax rate was 28% in the second quarter and 25% in the first half year. This compares with 19% and 20% in the second quarter and first half of last year respectively, both of which included benefits from the favourable settlement of tax audits. The underlying tax rate, before restructuring and disposals, was 26% in the first half of this year.

For the full year we expect the tax rate on this basis to be around 25%.

## 2.4

### Joint ventures, associates and other income from non-current investments

Share of net profit from joint ventures and associates and other income from non-current investments for the second quarter was in line with last year at €39 million. For the first half year these contributed €92 million, which was €47 million below last year as a result of a lower level of one-time gains in the first quarter.

## 2.

### 5

### Net profit and earnings per share

Net profit was 19% lower than last year in the second quarter, reflecting higher restructuring costs, the low tax rate in the same quarter last year and the stronger euro.

Net profit was 5% higher in the first six months with a benefit from profits on disposals, but a negative impact from the stronger euro.

Earnings per share for the first six months were €0.79 which included a net gain of €0.0

7

from restructuring and disposals. This compares with €0.75 in the first six months of last year which included a negligible net impact from restructuring and disposals and benefited from the particularly low tax rate.

## 2.6

### Share buy-backs

By the end of June we had bought back 53.6 million shares at a total purchase price

of  
€  
1.1  
billion  
, as part of the planned 2008 share buy-back of at least €1.5 billion  
.

**2.7**  
**Cash flow**  
Net cash flow from operating activities was €0.7 billion lower than last year. This was entirely due to a build-up of working capital in the first half year. Part of this came from the effect of commodity price inflation. In addition there were a number of temporary factors including the planned build-up of stocks during the change programme and

calendar effects. The largely one-off nature of these, together with an intensified programme for working capital management across the business, is expected to result in a much improved cash flow in the second half year.

Restructuring costs were slightly higher than in the first half of 2007, but this was more than offset by lower cash contributions to pension funds and favourable tax rebates.

Net capital expenditure was also slightly higher than last year.

**2.8**  
**Balance sheet**  
Working capital has increased from its normal seasonal low point at the start of the year. The increase has been heightened by the factors referred to above in the commentary on cash flow movements  
.

The overall funding position of the Group's pension arrangements improved slightly with net liabilities for all schemes of €1.0 billion at the end of the half year, down from €1.1

billion at the end of 2007.

Assets have reduced by €2.1 billion due to the fall in market values and the appreciation of the euro against the currencies of investments.

Liabilities fell by €2.2 billion  
,

mainly due to the impact of higher discount rates, net of higher inflation assumptions and the strengthening of the euro.

### 3. OPERATIONAL REVIEW

#### 3.1 Europe

			Second Q uarter 2008				Half Year 2008		
2008	2007	% Change	Underlying sales growth	%	2008	2007	% Change	Underlying sales growth	%
4 017	4 041	(0.6)	2.3	Turnover (€ million)	7 511	7 585	(1.0)	2.3	
12.9	13.8			Operating Margin (%)	20.1	14.1			
(3.9)	(1.7)			Impact of RDIs (%)	3.5	(1.5)			

\*

*Restructuring, business disposals and other items*

#### **Growth**

Underlying sales growth was 2.3% in both the quarter and the half year, slightly behind the growth of our markets.

Central and Eastern Europe

maintained its growth of around 10% with further growth in volumes in the second quarter and increased pricing.

Russia

made a particularly strong contribution.

Western Europe

grew by

1.4% in the second quarter, and by 1.3% in the first half year. Increased prices were partly offset by lower volumes in ice cream and the expected reversal of the additional sales at the end of the first quarter ahead of price increases and systems implementations.

Germany

grew modestly in the second quarter, with an improved performance in spreads, after a weak

start to the year. Benelux had another good quarter with continued strong growth in the

Netherlands

across most categories, and a pick-up in

Belgium

. In both the

UK

and

Italy

, savoury and dressings contributed to solid growth. Sales in

France

and

Spain

declined in difficult trading conditions and in both countries we have lost some share to private label brands.

### **Innovation**

*Hellmann's*

extra light

mayonnaise made with free range eggs is part of a campaign to promote the goodness of mayonnaise in the

UK

,

France

and

Italy

.

*Rama*

flavoured creams have been launched in

Germany

and the Nordic countries.

In tea, we have built further on the Rainforest Alliance certification, extended

*Lipton*

linea

slimming teas and introduced

*Lipton*

clear green

, a new generation of healthy tea. A strong programme for

*Magnum*

ice creams included new-look 'minis' across the region, and the top-of-the-range 'temptation' introduced to several new countries.

A new range of

*Axe*

body washes and after shave balms has been launched in the

UK

,

Germany

and

France

and the latest global body spray

*Axe*  
dark temptation  
across the region. The new upside-down deodorants for  
*Dove*  
and  
*Rexona*  
offer the smoothest ever roll-on with less packaging material.  
*Small & mighty*  
concentrated detergents are  
being rolled out across the region  
under the  
*Dirt is Good*  
brand. As well as offering consumer convenience, these also  
have a  
markedly  
better environmental footprint.  
In oral care we have launched  
*Signal*  
white now  
, the first instant whitening toothpaste.

### **Profitability**

The first half year operating margin of 20.1% was 6.0 percentage points higher than last year, largely reflecting profits on disposals. Before restructuring and disposals there was an underlying improvement in margin of 1.0 percentage point. Gross margins were lower as we recovered cost increases in absolute terms but not yet sufficiently to maintain the percentage margin. However this was more than compensated by sharply lower overheads costs.

### **Accelerating change**

As previously announced,  
Western  
Europe  
will  
be managed as a single region under a new President, Doug Baillie  
. This will  
allow the management to focus solely on driving improved performance in the region. Central and Eastern  
Europe  
will  
now  
be  
under the responsibility of Harish Manwani, President for Asia Africa, reflecting the priority on business  
building in developing and emerging markets. These changes will be reflected in the regional segmentation  
of Unilever's published results from the end of this year.

In the second quarter we completed the move to a single office location in  
Italy  
,  
and announced four  
factory rationalisations and the setting up of a new multi-country organisation for  
Central Europe  
.

The move to a single SAP system for the region continues

, with three quarters of our business now live and the full programme to be complete by the end of the year. In July we announced the disposal of the

*Bertolli* olive oil business and three local bottled oil brands in Italy

**3.2**

**The Americas**

Second Quarter 2008				Half Year 2008

(1.3)	(0.7)			(1.0)	(0.7)		
				Impact of RDIs (%)			
				*			

\* Restructuring, business disposals and other items

**Growth**

The good momentum in the business has been sustained

with underlying sales growth of 5.7% in the first six

months, against a strong comparator

due to

the additional sales ahead

of

the systems implementation in the

US

at

the end of the second quarter last year. This held back the second quarter growth for the region as a whole by some 2 percentage points

In the

US

all of the growth is coming from price, with consumer volumes lower than a year ago.

Before the effect of the systems implementation last year, which reverse

d

in July,

our own sales in

the

US

grew by about 4% in both the second quarter and the first six months

, slightly ahead of the market growth rate

Canada

had a weak second quarter.

Our growth in

Latin America

has been strong across all the main countries, with 13% in the second quarter taking the half year growth rate to 11%. There has been a good performance in

Brazil

and continued high growth in

Mexico

and elsewhere.

### **Innovation**

New ranges of

*Knorr*

bouillons, sauces and soups have been launched in

Brazil

and

Argentina

with a clear Vitality positioning, featuring healthy ingredients. Under the

*Hellmann's*

brand we have introduced an olive oil mayonnaise in the

US

and a new milder tasting mayonnaise made with milk in

Brazil

and  
Mexico

.  
*Bertolli*

frozen meals in the

US

have been extended with a range of 'mediterranean garden' dishes.

The latest global

*Dove*

range, 'go fresh', has been launched in the

US

, as well as a new cream oil variant, 'sleek satin'. As in

Europe

,  
*Axe*

has brought out body washes targeted at over 20's and the new 'dark temptation' deodorant with a novel chocolate fragrance. In Laundry the new

*Dirt is Good*

mix with improved cleaning and longer-lasting freshness has been introduced to

Latin America

as well as a variant of

*Surf*

with fabric conditioner. New variants of 3 times concentrated liquid detergents have been launched in the

US

.

### **Profitability**

The operating margin for the first half year was 13.7%, which was 0.9 percentage points lower than last year. Before

the impact of restructuring and disposals, there was an underlying reduction in margin of 0.6 percentage points. We have fully recovered the impact of higher commodity cost

s

in absolute terms, through a combination of savings and price increases, but this has not been enough to maintain the percentage margin.

### **Accelerating change**

As part of the One Unilever programme, the move to a single head office for the

US

business in Englewood Cliffs and the closure of the

Greenwich

office has been completed. At the same time, the ice cream businesses in the

US

and

Canada

have been integrated into the respective One Unilever country organisations. In

Latin America

, the financial

shared

services centre has been sold to Cap

g

emini. We have also announced the disposal of olive oil sold under the

*Bertolli*

brand as part of a global agreement  
, and the sale of the North American laundry business.

### 3.3 Asia Africa

Second Quarter 2008				Half Year 2008			
2008	2007	% Change	% Underlying sales growth	2008	2007	% Change	% Underlying sales growth
3 043	2 965	2.7	15.1	5 981	5 718	4.6	14.7
				Turnover (€ million)			
13.3	12.2			13.3	12.1		
				Operating Margin (%)			
(0.4)	(0.5)			(0.2)	(0.6)		
				Impact of RDIs (%)			
				*			

\*  
*Restructuring, business disposals and other items*

### Growth

Underlying sales growth was 15.1% in the second quarter and 14.7% in the first half year. While more of the growth in value is coming from pricing, volumes also continue to grow well, albeit at a slightly slower pace than last year. Our

growth continues to be very broad-based and is ahead of the market. All of our top five D&E businesses in the region, and all our categories, grew at more than 10%.

In India, laundry contributed particularly strongly with good growth in all three of our brands, each positioned at a different income level. The new global *Sunsilk* mix is driving share gain in

India

as elsewhere in the region.

China

has sustained a growth rate of over 20%, with most of this coming from higher volumes including the build of

*Clear*

shampoo.

Indonesia

has shown continued strong growth momentum, particular

|

y in personal care and ice cream.

Turkey

had another good, well balanced performance,

however

growth in

South Africa

came entirely from price, with volumes flat, largely as a result of supply chain constraints.

Performance in

Japan

and

Australia

was

weak in more difficult consumer markets.

### **Innovation**

We have launched

*Lipton*

milk tea in a number of new countries and introduced

*Lipton*

clear green

teas in

Turkey

and

Arabia

. A strong programme for

*Cornetto*

ice cream includes a new 'choco disk' variant and we have introduced

*Magnum*

chocolate indulgence in

China

and

India

. In

Turkey

we have launched

*Knorr*

e

at in colour mealmakers and mayonnaise in a squeezezy bottle.

*Rexona*

is taking the first steps to building a market for deodorants in China

. New versions of

*Pond*

,

s

anti-ageing and skin

-

lightening creams and the new global

*Sunsilk*

range have been rolled

out across the region. Innovations in laundry include

*Surf*

clean and fresh,

*Surf*

Excel

multi-chamber sachets, the improved global

*Dirt*

is

*Good*

mix and concentrated fabric conditioners.

### **Profitability**

The operating margin for the first six months was 13.3%, which was 1.2 percentage points higher than a year ago. Before the impact of restructuring and disposals there was an underlying improvement of 0.8 percentage points. Savings programmes and price increases have offset the impact of higher commodity costs and we have the benefit of increased scale from sales growth.

### **Accelerating change**

The move to a single SAP system across the region is progressing

to plan and

we are setting up a regional supply chain team based in

Singapore

.

In the second quarter we announced the disposal of our palm oil business in

Cote D'Ivoire

and the acquisition of laundry soaps in the same country. We have also announced the disposal of Komili

olive oil in

Turkey

.

Both these transactions are subject to regulatory approval.

Central and

Eastern Europe

will  
be managed as part of this region. This reflects the  
focus on  
business building in these countries as part of Unilever's priority for Developing and Emerging markets.  
The change will be reflected in our reporting of business segments from the end of this year.

## **RISK MANAGEMENT**

On pages

13 and 14 of our 2007 Report and Accounts we set out our assessment of the principal risk issues that  
would face the business through 2008. In our view, the nature and potential impact of such risks remains  
essentially unchanged

as regards our performance over the second half of the year

. As anticipated, commodity prices

affecting the materials we buy

have continued to show an upward trend in the first half of the year.

W

e will continue to monitor

this

closely and to manage our response through a combination of pricing

and

savings

programmes

. In addition,

there could be a further weakening of key economies. W

hilst people's essential needs for food and hygiene would remain unchanged, we could experience impact

in markets as individual consumers adjust their spending patterns. We manage the associated risks

by ensuring that our brands remain competitive through appropriate pricing, marketing

support and relevant innovation in our

product

portfolio

across

a wide range of

price points.

## **OTHER INFORMATION**

On 10 April 2008, Unilever entered into a settlement with Mars to bring an end to all claims made by Mars  
concerning Unilever's distribution arrangements for the sale of impulse ice cream. Prior to the settlement,  
Mars had initiated proceedings against Unilever in a number of European jurisdictions. The settlement does  
not imply any admission of liability on Unilever's part.

In April 2008 Unilever received a notice from the UK Office of Fair Trading requiring the production of  
documents in relation to an investigation into potential co-ordination of the retail prices of products in the  
grocery sector. A response to the notice was provided in June 2008. It is too early to gauge whether the  
investigation to which the notice relates will lead to a Statement of Objections being addressed to Unilever  
or its subsidiaries.

In June 200

8, Unilever premises in

Austria

,

Belgium

,  
Italy

, The Netherlands and

Spain

were the subject of unannounced inspections by the European Commission and/or national competition authorities. The inspections were in relation to the home care and/or personal care markets. A request for information relating to alleged anti-competitive behaviour in detergents markets in the EEA was subsequently received by Unilever in July 2008. It is too early to gauge whether the investigation that has been initiated will lead to a Statement of Objections being addressed to Unilever or its subsidiaries.

#### **CAUTIONARY STATEMENT**

This announcement may contain forward-looking statements, including 'forward-looking statements' within the meaning of the United States Private Securities Litigation Reform Act of 1995. Words such as 'expects', 'anticipates', 'intends' or the negative of these terms and other similar expressions of future performance or results, including financial objectives to 2010, and their negatives are intended to identify such forward-looking statements. These forward-looking statements are based upon current expectations and assumptions regarding anticipated developments and other factors affecting the Group. They are not historical facts, nor are they guarantees of future performance. Because these forward-looking statements involve risks and uncertainties, there are important factors that could cause actual results to differ materially from those expressed or implied by these forward-looking statements, including, among others, competitive pricing and activities, consumption levels, costs, the ability to maintain and manage key customer relationships and supply chain sources, currency values, interest rates, the ability to integrate acquisitions and complete planned divestitures, physical risks, environmental risks, the ability to manage regulatory, tax and legal matters and resolve pending matters within current estimates, legislative, fiscal and regulatory developments, political, economic and social conditions in the geographic markets where the Group operates and new or changed priorities of the Boards. Further details of potential risks and uncertainties affecting the Group are described in the Group's filings with the London Stock Exchange, Euronext Amsterdam and the US Securities and Exchange Commission, including the Annual Report on Form 20-F. These forward-looking statements speak only as of the date of this document. Except as required by any applicable law or regulation, the Group expressly disclaims any obligation or undertaking to release publicly any updates or revisions to any forward-looking statements contained herein to reflect any change in the Group's expectations with regard thereto or any change in events, conditions or circumstances on which any such statement is based.

**NOTES TO THE FINANCIAL STATEMENTS**

(unaudited)

**1****ACCOUNTING INFORMATION AND POLICIES**

The condensed interim financial statements are based on International Financial Reporting Standards (IFRS) as adopted by the EU and IFRS as issued by the International Accounting Standards Board, and have been prepared in accordance with International Accounting Standard (IAS) 34 'Interim Financial Reporting'. The basis of preparation is consistent with

that applied for

the year ended 31 December 200

7.

The condensed financial statements are shown at current exchange rates, while percentage year-on-year changes are shown at both current and constant exchange rates to facilitate comparison.

The income statement on page

8 and

the statement of recognised income and expense and the cash flow statement on page

9

are translated at rates current in each period.

The balance sheet on page

10 is

translated at period-end rates of exchange.

The financial statements attached do not constitute the full financial statements within the meaning of Section 240 of the UK Companies Act 1985. Full accounts for Unilever for the year ended 31 December 2007

have been delivered to the Registrar of Companies. The auditors' report on these accounts was unqualified and did not contain a statement under Section 237(2) or Section 237(3) of the UK Companies Act 1985.

## 2

### **NON-GAAP MEASURES**

In our financial reporting we use certain measures that are not recognised under IFRS or other generally accepted accounting principles (GAAP). We do this because we believe that these measures are useful to investors and other users of our financial statements in helping them to understand underlying business performance. Wherever we use such measures, we make clear that these are not intended as a substitute for recognised GAAP measures. Wherever appropriate and practical, we provide reconciliations to relevant GAAP measures.

The principal non-GAAP measure which we apply in our quarterly reporting is underlying sales growth, which we reconcile to changes in the GAAP measure turnover in notes

4  
and  
5

In note 8 we reconcile net debt to the amounts reported in our balance sheet and cash flow statement. We also comment on underlying trends in operating profit, by which we mean the movements recorded after setting aside the impact of restructuring, disposals and impairments, on the grounds that the incidence of these items is uneven between quarterly reporting periods. We specifically avoid referring to a measure of 'underlying operating profit', since such a term might imply that we did not regard the items involved, particularly restructuring costs, as an ongoing element of our business over the longer term.

In addition, we report annually against two further non-GAAP measures: Ungearred Free Cash Flow and Return on Invested Capital. Further information about these measures and their reconciliation to GAAP measures is given on our website at [www.unilever.com/investorcentre](http://www.unilever.com/investorcentre)

### **3 SIGNIFICANT ITEMS WITHIN THE INCOME STATEMENT**

In our income statement reporting we recognise restructuring costs, profits and losses on business disposals and certain other one-off items, which we collectively term RDIs. We disclose on the face of our income statement the total value of such items that arise within operating profit. In our operating review by

geographic segment and in  
note

4

we highlight the impact of these items on our operating margin. The impact of these items  
, and of similar items arising within other elements of our income statement, on our reported net profit was  
as follows:

€ million

<b>Second Quarter</b>		<b>Half Year</b>	
<b>2008</b>	<b>2007</b>	<b>2008</b>	<b>2007</b>

#### **SEGMENTAL ANALYSIS BY GEOGRAPHY**

On 28 February 2008 Unilever announced a number of organisational changes. As part of these changes, our operations in Central and Eastern Europe will in future be managed within an enlarged region together with those in Asia and Africa, with Western Europe

becoming a standalone region. Since these changes are taking place progressively during the remainder of 2008, we are continuing to report quarterly against our structure as it applied in 2007. In our fourth quarter reporting for 2008 we will provide additional analysis of our regional results against the new structure, including restated amounts for each of the quarters of 2008, and will report on the new basis thereafter.

## 6

**TAXATION**

The effective tax rate for the first half year was 25 % compared with

20 % for

the first half of 2007

. The tax rate is calculated by dividing the tax charge by pre-tax profit excluding the contribution of joint ventures and associates.

## 7

<b>Equity at the end of the period</b>	<b>11 772</b>	<b>12 794</b>

During the

first half year we purchased  
shares to the value of €  
1.1

billion under the share buy-back programme announced in March 2007.

## 10

### COMBINED EARNINGS PER SHARE

The combined earnings per share calculations are based on the average number of share units representing the combined ordinary shares of NV and PLC in issue during the period, less the average number of shares held as treasury stock.

In calculating diluted earnings per share, a number of adjustments are made to the number of shares, principally the following:

(i) conversion into PLC ordinary shares in the year 2038 of shares in a group company under the arrangements for the variation of the Leverhulme Trust and (ii) the exercise of share options by employees.

Earnings per share for total operations for the  
first half year

were calculated as follows:

	2008	2007
<b>Combined EPS</b>		
-	Millions	
<b>Basic</b>	of units	
	2 828.	2 887
Average number of combined share units	1	.1
	€ million	
Net profit attributable to shareholders' equity	2 248	2 157
Combined EPS (Euros)	0.79	0.75
	Million	
<b>Combined EPS - Diluted</b>	s of units	
	2 925.	2 984
Adjusted average number of combined share units	6	.5
Combined EPS - diluted (Euros)	0.77	0.72
<b>Impact of RDIs on Earnings Per Share</b>		
	€ million	
Total impact of RDIs on reported net profit	202	13

(see note 3)

Impact of RDIs on basic earnings per share (Euros)	0.07	0.01
--	------	------

**Earnings per share in US Dollars and Sterling**

Combined EPS (Dollars)	1.22	0.99
Combined EPS - diluted (Dollars)	1.18	0.96
Combined EPS (Pounds)	0.62	0.50
Combined EPS - diluted (Pounds)	0.60	0.49

The numbers of shares included in the calculation of earnings per share is an average for the period. During the period the following movements in shares have taken place:

	Millions
Number of shares at 31 December 2007 (net of treasury stock)	2 853.1
Net movements in shares under incentive schemes	6.0
Share buy-back	(53.6)
Number of shares at 30 June 2008	2 805.5

11

**A**

**ACQUISITIONS AND DISPOSALS**

On 14 November 2007

we announced that we had signed a definitive agreement with McCormick & Company, Incorporated to sell our Lawry's and Adolph's branded seasoning blends and marinades business in the US and Canada for €410 million. The transaction is expected to be completed on or around 31 July 2008. The combined annual

turnover  
of the business is approximately €100 million.

Effective 1 January 2008,  
we  
entered into an expanded international partnership  
with Pepsico  
for the marketing and distribution of ready-to-drink tea products under the  
*Lipton*  
brand.

On 3 January 2008  
we

we  
announced that  
we  
had signed an agreement to sell  
our  
edible oil business in  
C  
ôte  
d'Ivoire  
together with  
our  
interests in local palm oil plantations, Palmci and PHCI. At the same time  
we  
plan to acquire the soap business of Cosmivoire, an Ivorian producer with a market presence throughout  
Francoph  
o  
ne West Africa. The dea  
l  
is subject to approval by the  
regulatory  
authorities.

On 10 July 2008

we announced that we had signed an agreement to sell Komili, the market leading olive oil brand in Turkey, to Ana Gida, part of the Anadolu Group, for an undisclosed amount. The transaction, which is subject to regulatory approval, is expected to be completed by the end of 2008.

On 21 July 2008

we announced that we had signed an agreement with Grupo SOS for the disposal of our Bertolli olive oil and vinegar business, for a consideration of €630 million. The transaction is structured as a worldwide perpetual licence by Unilever of the *Bertolli* brand in respect of olive oil and premium vinegar. The transaction includes the sale of the Italian Maya, Dante and San Giorgio olive oil and seed oil businesses, as well as the factory at Inveruno, Italy.

The transaction, which is subject to regulatory approval, is expected to be completed by the end of 2008.

On 28 July 2008

we announced that we had signed a definitive agreement to sell our North American laundry business in the US, Canada and Puerto Rico to Vestar Capital Partners, a leading global private equity firm, for a face value of US \$1.45 billion. Vestar will merge the business with its existing operation, Huish Detergents Inc., to form a new company, The Sun Products Corporation. The consideration consists of a cash payment of US \$1.075 billion, together with preferred shares in the Sun Products Corporation with a face value of US \$375 million, and warrants offering the opportunity to acquire up to 2.5% of the common equity of the Sun Products Corporation. The businesses to be sold include the
