NEXT, INC.

OFFERING UP TO 7,000,000 Shares of Common Stock

This prospectus relates to the resale of up to 7,000,000 shares of our common stock by Dutchess Private Equities Fund, L.P. Dutchess, which will become a stockholder pursuant to a put right under an Investment Agreement, also referred to as an Equity Line of Credit, that we have entered into with Dutchess. That Investment Agreement permits us to put up to \$10.0 million in shares of our common stock to Dutchess. We are not selling any securities in this offering and therefore will not receive any proceeds from this offering. We will, however, receive proceeds from the sale of securities pursuant to our exercise of the put right. All costs associated with this registration will be borne by us.

Our common stock is traded on the Over-The-Counter Bulletin Board under the trading symbol NXTI.OB. On April 12, 2004, the last reported sale price for our common stock on the OTCBB was \$1.65 per share.

Dutchess is an underwriter within the meaning of the Securities Act of 1933, as amended, in connection with the resale of our common stock under the Investment Agreement. Dutchess will pay us 96% of the lowest closing bid price of the common stock during the five consecutive trading day period immediately following the date of our notice to them of our election to put shares pursuant to the Equity Line of Credit.

PROSPECTUS SUMMARY

The following summary is qualified in its entirety by the more detailed information and financial statements, including the notes thereto, appearing elsewhere in this prospectus. Because it is a summary, it does not contain all of the information you should consider before making an investment decision. You should read the entire prospectus carefully, including the financial statements and the notes relating to the financial statements.

THE COMPANY

Next, Inc., a Delaware corporation (the "Company") formed in 1989, is a creative and innovative sales and marketing organization that designs, develops, markets and distributes licensed and branded promotional products and imprinted sportswear primarily through key licensing agreements and the Company's own proprietary designs. The Company's fiscal year ends on November 30. The Company's principal executive offices are located at 7625 Hamilton Park Drive, Suite 12, Chattanooga, Tennessee 37421. The Company's telephone number is (423) 296-8213. The common stock is quoted on the OTCBB but it is not listed on a national securities exchange. Because the common stock is not listed for trading on any national securities exchange there may be a limited market for the Company's shares. The trading symbol is NXTI.OB.

THE OFFERING

This prospectus relates to the resale of up to 7,000,000 shares of our common stock by Dutchess Private Equities Fund, L.P., which will obtain our shares of common stock pursuant to a put right under an Investment Agreement that we have entered into with Dutchess.

For the purpose of determining the number of shares subject to registration with the Securities and Exchange Commission, we have assumed that we will issue not more than 7,000,000 shares pursuant to the exercise of our put right under the Investment Agreement, although the number of shares that we will actually issue pursuant to that put right may be more than or less than 7,000,000, depending on the trading price of our common stock.

We currently have no intent to exercise the put right in a manner that would result in our issuance of more than 7,000,000 shares, but if we were to exercise the put right in that manner, we would be required to file a subsequent registration statement with the Securities and Exchange Commission and for that registration statement to be deemed effective prior to the issuance of any such additional shares.

The Investment Agreement with Dutchess, also referred to as an Equity Line of Credit, provides that, following notice to Dutchess, we may put to Dutchess up to \$10.0 million in shares of our common stock for a purchase price equal to 96% of the lowest closing bid price on the Over-the-Counter Bulletin Board of our common stock during the five day period following that notice. Dutchess has indicated that it will resell those shares in the open market, resell our shares to other investors through negotiated transactions or hold our shares in its portfolio. This prospectus covers the resale of our stock by Dutchess either in the open market or to other investors through negotiated transactions.

Common stock offered Up to 7,000,000 shares.

Edgar Filing: NEXT INC/TN - Form SB-2/A

RISK FACTORS

An investment in our common stock involves a high degree of risk. You should carefully consider the following risk factors, other information included in this prospectus and information in our periodic reports filed with the SEC. If any of the following risks actually occur, our business, financial condition or results of operations could be materially and adversely affected and you may lose some or all of your investment.

SPECIAL NOTE REGARDING FORWARD-LOOKING STATEMENTS

Edgar Filing: NEXT INC/TN - Form SB-2/A

This prospectus contains forward-looking statements that involve risks and uncertainties. We generally use words such as believe, may, could, will, intend, expect, anticipate, plan, and similar expressions to identify forward-looking statements. You should not place undue reliance on these forward-looking statements. Our actual results could differ materially from those anticipated in the forward-looking statements for many reasons, including the risks described below and elsewhere in this report. Although we believe the expectations reflected in the forward-looking statements are reasonable, they relate only to events as of the date on which the statements are made, and our future results, levels of activity, performance or achievements may not meet these expectations. We do not intend to update any of the forward-looking statements after the date of this document to conform these statements to actual results or to changes in our expectations, except as required by law.

Risks Related To Our Business. In addition to the other information contained in this report, including risks and uncertainties described elsewhere, the following risk factors should be considered in evaluating the Company. The risks and uncertainties described below or elsewhere in this report are not the only ones the Company faces. Additional risks and uncertainties not presently known to the Company or that the Company currently deems immaterial also may impair the Company's business and operations. If any of the risks described below or elsewhere in this report materialize, the Company's business, financial condition, operating results and cash flows could be materially affected. Stockholders or investors considering the purchase of shares of the Company's common stock should carefully consider the following risk factors, in addition to the other information contained in this Prospectus.

You should not rely on the Company's past results to predict its future performance because its operating results fluctuate due to factors which are difficult to forecast and often out of the Company's control. The Company's past revenues and other operating results may not be accurate indicators of the Company's future performance. The factors that may contribute to these fluctuations include: fluctuations in aggregate capital spending, cyclical and other economic conditions in one or more markets in which we sell our products; changes or reductions in demand in the markets we serve; a change in market acceptance of the Company's products or a shift in demand for the Company's products; new product introductions by the Company or by the Company's competitors; changes in product mix and pricing by the Company, its suppliers or its competitors; pricing and related availability of raw materials for the Company's products; the Company's failure to manufacture a sufficient volume of products in a timely and cost-effective manner; the Company's failure to anticipate changing product requirements of its customers; changes in the mix of sales by distribution channels; exchange rate fluctuations; and extraordinary events such as litigation or acquisitions.

Licenses. A substantial portion of the Company's revenue is derived from its licensing program and Company owned brands. The Company is a party to numerous licensing agreements to utilize branded logos for its products. Licenses from colleges and universities comprise the greatest segment of the Company's licenses and these licenses are grouped into master licenses. All of these master license arrangements have a duration of one to three years and may not contain automatic renewal options. Although the Company has had no difficulty renewing these license arrangements in the past and obtaining new licenses, there can be no assurance that the Company will be able to do so in the future. The loss of any one group of licenses or any master license may have a material adverse effect on the Company's financial conditions and results of operations.

Table of Contents

Competition. The principal competitive factors affecting the market for the Company's products include product functionality, performance, quality, reliability, delivery, price, compatibility and conformance with customer and licensor standards. Several of the Company's existing and potential competitors are larger than the Company and may have substantially greater financial, sourcing and other resources than does the Company. In addition, the Company may in the future face competition from new entrants in its markets and there can be no assurance that these competitors will not offer better price points for competitive products or offer better terms to the Company's customers than those offered by the Company to obtain greater market share or cause the Company to lower prices for its products, any of which could harm the Company's business.

Dependence Upon Key Personnel. The Company depends to a significant degree on the continued contribution of key executive management and key operations and sales management. The loss of the services of one or more key executive or senior management could have a material adverse effect on the Company. The Company's success also depends on its ability to attract and retain additional highly qualified management personnel to meet the needs of future expansion. Competition for these individuals is intense and they are often subject to offers from competing employers, some of whom may be better able to offer more lucrative compensation incentives than those offered by the Company. Although most of the Company's key employees have been with the Company for an extended period of time, there can be no assurance that the Company will be able to retain its key employees, or that it will be able to attract or retain additional skilled personnel as needed. The Company's key executive management, senior operational, finance and sales management personnel have entered into written employment contracts with the Company.

Dependence On Non-U.S. Suppliers. The Company sources a significant amount of its products from international suppliers. Although the majority of the products used by the Company are available from multiple sources both domestically and internationally, any disruption in availability of products and services from these foreign suppliers could lead to increases in the Company's product costs. The Company believes it can locate alternative products from several supplier sources to obtain the quality, cost and delivery standards if a disruption in international sources should occur.

Dependence Upon Key Customers. Historically, the Company's customer base has been comprised primarily of national and regional mass merchandise and specialty retailers. During the past two years the Company has made a concerted effort to expand its customer base. The acquisition of CMJ Ventures, Inc. (CMJ), which sells to over five hundred specialty retailers, and the introduction of major product lines and distribution channels, such as its Motor Sports Division, which sells to a dealer network of approximately 9,000 auto dealers are two components of this expansion. The acquisition of Lil Fan, Inc (Lil Fan) also expanded the Company's customer base with the addition of a full line of design and merchandising primarily focusing on children's licensed college and motor sports products. Lil Fan customers are complimentary to the Company and do not overlap with existing customers. As a result of this effort, the Company has developed a large, diverse, and distinguished customer base of traditional retailers, ranging from national as well as large regional chains, specialty retailers, corporate accounts, college book stores, motor sports, souvenir, golf and gift shops. If the Company is unable to sustain this expansion of its customer base or if it is unable to maintain its customer base it could have a negative impact on its financial condition and results of operations.

Possible Need For Additional Financing/Capital. The Company is highly leveraged. Based upon the Company's current level of operations and anticipated growth, the Company believes that cash flows from operations, together with its working capital facility, will be sufficient to enable the Company to satisfy anticipated cash flow requirements for operating, investment and financing activities, including debt service. However, with the Company's expected expansion and additional acquisitions, the Company could be required to obtain additional financing and/or capital, by private placement or in the public markets, to satisfy its requirements. There can be no assurance that such alternatives would be available to the Company at all or on terms reasonably acceptable to the board of directors. If we cannot obtain adequate funds on acceptable terms or at all, we may not be able to take advantage of market opportunities, develop or enhance new products, pursue acquisitions that would complement our existing product offerings, execute our business plan or otherwise respond to competitive pressures or unanticipated requirements.

Table of Contents

Limited Trading Market For Common Stock. The common stock is quoted on the National Association of Securities Dealers OTC Bulletin Board. There may be a limited trading market for the common stock.

Volatility Of Common Stock s Market Price. The market price of the common stock is subject to, and will continue to be subject to, a variety of factors, including the business environment; the operating results of companies in the industries we serve; future announcements concerning the Company s business or that of its competitors or customers; the introduction of new products or changes in product pricing policies by the Company or its competitors; litigation matters; changes in analysts earnings statements; developments in the financial markets; quarterly operating results; and perceived dilution from stock issuances for acquisitions and other transactions. Furthermore, stock prices for many companies fluctuate for reasons that may be unrelated to their operating results. Those fluctuations and general economic, political and market conditions, such as recessions, terrorist actions or other military actions, or international currency fluctuations, as well as public perception of equity values of publicly traded companies may adversely affect the market price of our common stock.

Concentration Of Stock Ownership. The Company s officers, directors, a small number of principal stockholders and their affiliates directly and beneficially own a controlling interest in the issued and outstanding shares of the Company s common stock. If these stockholders were to vote in unison, together they have the ability to control the election of the Company s directors and other corporate actions requiring stockholder approval.

Additional Shares. The Company has issued 1,750 shares of Series A Convertible Preferred Stock and has reserved an additional 1,250 shares of Series A Convertible Preferred Stock for future issuances. The Board of Directors has the authority to issue, without further action by the stockholders, up to 9,997,000 shares of preferred stock in one or more series and to fix the price, rights, preferences, privileges and restrictions thereof, including dividend rights, dividend rates, conversion rights, voting rights, terms of redemption, redemption prices, liquidation preferences and the number of shares constituting a series or the designation of such series. The issuance of preferred stock, while providing desirable flexibility in connection with possible acquisitions and other corporate purposes, could have the effect of delaying, deferring or preventing a change in control of the Company without further action by the stockholders and may adversely affect the market price of, and the voting and other rights of, the holders of common stock.

RISKS ABOUT OUR STOCK AND THIS OFFERING

WE MAY ISSUE ADDITIONAL SHARES OF OUR COMMON STOCK WHICH WOULD REDUCE YOUR PERCENTAGE OF OWNERSHIP AND MAY DILUTE OUR SHARE VALUE.

Our articles of incorporation authorize the issuance of 50,000,000 shares of common stock, par value \$.001 per share. As of April 7, 2004, we have 14,295,461 shares of our common stock issued and outstanding. The future issuance of all or part of our remaining authorized common stock may result in substantial dilution in the percentage of our common stock held by our then existing shareholders. The issuance of common stock for future services or acquisitions or other corporate actions may have the effect of diluting the value of the shares held by our investors, and might lower the trading price of our common stock.

EXISTING STOCKHOLDERS MAY EXPERIENCE SIGNIFICANT DILUTION FROM THE SALE OF SECURITIES PURSUANT TO OUR INVESTMENT AGREEMENT WITH DUTCHESS.

Edgar Filing: NEXT INC/TN - Form SB-2/A

The sale of shares pursuant to our Investment Agreement with Dutchess may have a dilutive impact on our stockholders. As a result, our net income per share could decrease in future periods, and the market price of our common stock could decline. In addition, the lower our stock price at the time we exercise our put option, the more shares we will have to issue to Dutchess to draw down on the full Equity Line with Dutchess. If our stock price decreases, then our existing stockholders would experience greater dilution.

DUTCHESS WILL PAY LESS THAN THE THEN-PREVAILING MARKET PRICE OF OUR COMMON STOCK.

Our common stock to be issued under our agreement with Dutchess will be purchased at a 4% discount to the lowest closing bid price for the five days immediately following our notice to Dutchess of our election to exercise our put right. Dutchess may have a financial incentive to sell our common stock immediately upon receiving the shares to realize the profit between the discounted price and the market price. If Dutchess sells our shares, the price

Table of Contents

of our stock could decrease. If our stock price decreases, Dutchess may have a further incentive to sell the shares of our common stock that it holds. The discounted sales under our agreement with Dutchess could cause the price of our common stock to decline.

Limited Trading Market For Common Stock.

The common stock is quoted on the National Association of Securities Dealers OTC Bulletin Board. There may be a limited trading market for the common stock.

Volatility Of Common Stock s Market Price.

The market price of the common stock is subject to, and will continue to be subject to, a variety of factors, including the business environment, including the operating results of companies in the industries we serve; future announcements concerning the Company s business or that of its competitors or customers; the introduction of new products or changes in product pricing policies by the Company or its competitors; litigation matters; changes in analysts earnings statements; developments in the financial markets; quarterly operating results; and perceived dilution from stock issuances for acquisitions and other transactions. Furthermore, stock prices for many companies fluctuate for reasons that may be unrelated to their operating results. Those fluctuations and general economic, political and market conditions, such as recessions, terrorist actions or other military actions, or international currency fluctuations, as well as public perception of equity values of publicly traded companies may adversely affect the market price of our common stock.

Concentration Of Stock Ownership.

The Company s officers and directors and their affiliates directly and beneficially own a controlling interest in the issued and outstanding shares of the Company s common stock. If these officers and directors were to vote in unison, together they have the ability to control the election of the Company s directors and other corporate actions requiring stockholder approval.

USE OF PROCEEDS

The 7,000,000 shares of common stock covered by this prospectus are to be sold by Dutchess Private Equities Fund, L.P. who will receive all of the proceeds from such sales. We will not receive any proceeds from the sale of our common shares. However, we will receive proceeds from the sale of our common shares pursuant to our Investment Agreement with Dutchess.

The proceeds from our exercise of the put right pursuant to the Investment Agreement will be used for working capital and general corporate expenses, expansion of our internal operations and potential acquisition costs, although we do not currently have any agreements or arrangements for pending acquisitions.

Edgar Filing: NEXT INC/TN - Form SB-2/A

For illustrative purposes, we have set forth below our intended use of proceeds for the range of net proceeds indicated below to be received as the maximum amount under the Dutchess Investment Agreement of \$10,000,000. This would assume an average stock price over the three-year period associated with the Investment Agreement to be \$1.43. The table assumes estimated offering expenses of \$38,153. (See detail under Information Not Required in Prospectus)

	Proceeds if	Proceeds if
	100% sold	50% sold
Gross proceeds	\$ 10,000,000	\$ 5,000,000
Estimated expenses of the offering	38,153	38,153

Capital expenditures	\$ 475,000	\$ 300,000
Potential acquisition costs	\$ 8,486,847	\$ 3,661,847

Table of Contents

Approximately \$1,000,000 will be used to fund the Company's working capital for the aggressive growth planned. The Company increased its sales growth by 67.6% in the last fiscal year and has high growth expectations for future periods. Capital expenditures are planned to purchase several large format embroidery machines that will increase the company's efficiency over the next twelve to eighteen months, which will approximate \$300,000. Additional capital expenditures will be used to expand and increase the Company's integrated information systems products. The Company does not presently have any specific acquisitions pending. However the Company has acquired one business in each of the last two fiscal years and will be actively seeking complementary acquisition targets in the future. The proceeds associated with potential acquisition cost in the above table would be available to the Company if the right opportunity presented itself to the Company in the next three-year period.

DETERMINATION OF OFFERING PRICE

The selling stockholders may sell shares from time to time in negotiated transactions, brokers transactions or a combination of such methods at market prices prevailing at the time of the sale or at negotiated prices.

DIVIDEND POLICY

It is the Company's present policy not to pay cash dividends on its shares of common stock and to retain future earnings for use in the operations of the business and to fund future growth. Additionally, bank covenants prohibit us from paying cash dividends on our common stock. Any payment of cash dividends on our common stock in the future will be dependent upon the amount of funds legally available; earnings, financial condition, capital requirements and other factors that the Board of Directors may think are relevant. The Company does not contemplate or anticipate paying any dividends on the common stock in the foreseeable future. The Company is obligated to pay certain dividends on its issued and outstanding shares of Series A Convertible Preferred Stock. Such dividends may be paid in cash or by the issuance of shares of common stock or Series A Convertible Preferred Stock.

SELLING SECURITY HOLDERS

Based upon information available to us as of March 4, 2004, the following table sets forth the name of the selling stockholder, the number of shares owned, the number of shares registered by this prospectus and the number and percent of outstanding shares that the selling stockholder will own after the sale of the registered shares, assuming all of the shares are sold. The information provided in the table and discussions below has been obtained from the selling stockholder. The selling stockholder may have sold, transferred or otherwise disposed of, or may sell, transfer or otherwise dispose of, at any time or from time to time since the date on which it provided the information regarding the shares beneficially owned, all or a portion of the shares of common stock beneficially owned in transactions exempt from the registration requirements of the Securities Act of 1933. As used in this prospectus, "selling stockholder" includes donees, pledgees, transferees or other successors- in interest selling shares received from the named selling stockholder as a gift, pledge, distribution or other non-sale related transfer.

Beneficial ownership is determined in accordance with Rule 13d-3(d) promulgated by the Commission under the Securities Exchange Act of 1934. Unless otherwise noted, each person or group identified possesses sole voting and investment power with respect to the shares, subject to community property laws where applicable.

PLAN OF DISTRIBUTION

The selling stockholder will act independently of us in making decisions with respect to the timing, manner and size of each sale. The selling stockholder may sell the shares from time to time:

- in transactions on the Over-the-Counter Bulletin Board or on any national securities exchange or U.S. inter-dealer system of a registered national securities association on which our common stock may be listed or quoted at the time of sale; or - in private transactions and transactions otherwise than on these exchanges or systems or in the over-the-counter market; or - at prices related to such prevailing market prices, or - in negotiated transactions, or in a combination of such methods of sale; or - any other method permitted by law.

The selling stockholder may effect such transactions by offering and selling the shares directly to or through securities broker-dealers, and such broker-dealers may receive compensation in the form of discounts, concessions or commissions from the selling stockholder and/or the purchasers of the shares for whom such broker-dealers may act as agent or to whom the selling stockholder may sell as principal, or both, which compensation as to a particular broker-dealer might be in excess of customary commissions.

Dutchess and any broker-dealers who act in connection with the sale of its shares may be deemed to be underwriters within the meaning of the Securities Act, and any discounts, concessions or commissions received by them and profit on any resale of the shares as principal may be deemed to be underwriting discounts, concessions and commissions under the Securities Act.

On or prior to the effectiveness of the registration statement to which this prospectus is a part, we will advise the selling stockholders that they and any securities broker-dealers or others who may be deemed to be statutory underwriters will be governed by the prospectus delivery requirements under the Securities Act. Under applicable rules and regulations under the Securities Exchange Act, any person engaged in a distribution of any of the shares may not simultaneously engage in market activities with respect to the common stock for the applicable period under Regulation M prior to the commencement of such distribution. In addition and without limiting the foregoing, the selling security owners will be governed by the applicable provisions of the Securities and Exchange Act, and the rules and regulations thereunder, including without limitation Rules 10b-5 and Regulation M, which provisions may limit the timing of purchases and sales of any of the shares by the selling stockholders. All of the foregoing may affect the marketability of our securities.

On or prior to the effectiveness of the registration statement to which this prospectus is a part, we will advise the selling stockholders that the anti-manipulation rules under the Securities Exchange Act may apply to sales of shares in the market and to the activities of the selling security owners and any of their affiliates. We have informed the selling stockholder that it may not:

- engage in any stabilization activity in connection with any of the shares; - bid for or purchase any of the shares or any rights to acquire the shares, - attempt to induce any person to purchase any of the shares or rights to acquire the shares other than as permitted under the Securities Exchange Act; or - effect any sale or distribution of the shares until after the prospectus shall have been appropriately amended or supplemented, if required, to describe the terms of the sale or distribution.

We have informed the selling stockholder that they must effect all sales of shares in broker's transactions, through broker-dealers acting as agents, in transactions directly with market makers, or in privately negotiated transactions where no broker or other third party, other than the purchaser, is involved.

Edgar Filing: NEXT INC/TN - Form SB-2/A

The selling stockholders may indemnify any broker-dealer that participates in transactions involving the sale of the shares against certain liabilities, including liabilities arising under the Securities Act. Any commissions paid or any discounts or concessions allowed to any broker-dealers, and any profits received on the resale of shares, may be deemed to be underwriting discounts and commissions under the Securities Act if the broker-dealers purchase shares as principal.

LEGAL PROCEEDINGS

The Company has pending various minor legal actions arising in the normal course of business. Management does not believe that such legal actions, individually or in the aggregate, will have a material impact on the Company's business, financial condition or operating results.

On November 18, 2003, a complaint was filed in the Federal District Court of the Southern District of New York against Dan F. Cooke, who at the time was the Company's Chief Executive Officer, Chairman of the Board and a Director, and John D. Gioioso, a financial consultant to the Company, alleging conspiracy to commit securities fraud. On November 25, 2003, the Company reported that Mr. Cooke had decided to take a leave of absence from his position as Chairman and Chief Executive Officer and that Mr. Cooke had stepped down from the Board of Directors of the Company. The complaint against Mr. Cooke constituted a default under the credit facility with LaSalle Business Credit, LLC. The Company was not in default regarding any financial covenant of the loan agreement. There was no default under the agreement with the other major lender for the Company, First Federal Savings Bank of Wabash, Indiana. On December 10, 2003, the Company announced that LaSalle Business Credit, LLC had waived the Company's default and entered into a revised credit facility, in part because it received the additional personal guarantee of the credit facility from the Company's chief financial officer.

DISCLOSURE OF COMMISSION'S POSITION ON INDEMNIFICATION

FOR SECURITIES ACT LIABILITIES

Section 145 of the Delaware General Corporation Law permits a corporation to indemnify any person who was or is a party or is threatened to be made a party to any threatened, pending or completed action, suite or proceeding, whether civil, criminal, administrative or investigative (other than an action by or in the right of the corporation) by reason of the fact that the person is or was a director, officer, employee or agent of another corporation, partnership, joint venture, trust or other enterprise, against expenses (including attorney's fees), judgments, fines and amounts paid in settlement actually and reasonably incurred by such person in connection with such action, suit or proceeding if the person acted in good faith and in a manner the person reasonably believes to be in or not opposed to the best interest of the corporation, and, with respect to any criminal action or proceeding, had no reasonable cause to believe the person's conduct was unlawful.

A corporation also shall have the power to indemnify any person who was or is a party or is threatened to be made a party to any threatened, pending or completed action or suit by or in the right of the corporation to procure a judgment in its favor by reason of the fact that the person is or was a director, officer, employee or agent of the corporation or is or was serving at the request of the corporation as a director, officer, employee or agent of another corporation, partnership, joint venture, trust or other enterprise against expenses (including attorney's fees) actually and reasonably incurred by the person in connection with the defense or settlement of such action or suit if the person acted in good faith in a manner the person reasonably believed to be in or not opposed to the best interest of the corporation and except that no such indemnification shall be made in respect of any claim, issue or matter as to which such person shall have been adjudged to be liable to the corporation unless and only to the extent that the Delaware Court of Chancery or the court in which such action or suit was brought shall determine upon application that, despite the adjudication of liability but in view of all the circumstances, such person is fairly and reasonably entitled to indemnity for such expenses which the Court of Chancery or such other court shall deem proper.

Article Six of the Company's Amended and Restated Certificate of Incorporation states that the Company shall, to the fullest extent permitted by Section 145 of the Delaware General Corporation Law, as amended, shall indemnify any and all persons whom it shall have the power to indemnify under said section from and against any and all of the expenses, liabilities and other matters referred to in or covered by such section and further that the indemnification provided in such Certificate of Incorporation shall not be deemed exclusive of any other rights to which

those indemnified may be entitled under any bylaw, agreement, vote of stockholders or disinterested directors or otherwise.

Insofar as indemnification for liabilities under the Securities Act of 1933 may be permitted to our directors, officers, and controlling persons, we have been advised that in the opinion of the Securities and Exchange Commission such indemnification is against public policy as expressed in the Securities Act of 1933 and therefore unenforceable.

BUSINESS DEVELOPMENT. Next, Inc., a Delaware corporation, was formed January 2, 1987. It has four wholly owned operating subsidiaries: (i) Next Marketing Inc., a Delaware corporation (Next Marketing), (ii) Blue Sky Graphics, Inc., a Delaware corporation (Blue Sky), (iii) CMJ Ventures, Inc., a Florida corporation (CMJ) and (iv) Lil Fan, Inc., a Delaware corporation (Lil Fan). All references herein to the Company, we, us, our or Next refer to Next, Inc. and its subsidiaries.

The Company. The Company, as it currently operates, commenced its operations on February 1, 2002, after the completion of a stock exchange between Sporting Magic, Inc., a Delaware corporation, and Next, Inc., a Delaware corporation (the Exchange). Following the Exchange and until December 27, 2002, the Company operated under the name Sporting Magic, Inc., at which time Next, Inc. was merged with and into Sporting Magic, Inc. and the name Sporting Magic, Inc. was changed to Next, Inc.

The Subsidiaries. Blue Sky and Next Marketing became indirect subsidiaries of the Company at the time of the Exchange and on December 27, 2002, following the merger between Sporting Magic, Inc. and Next, Inc., became wholly owned subsidiaries of the Company. Blue Sky and Next Marketing (and their respective predecessors) have been in existence since 1989 and 1997, respectively, and were prior to the Exchange owned and controlled by two of the Company's principal stockholders. CMJ became a subsidiary of the Company on June 1, 2002 pursuant to the terms of an Agreement and Plan of Merger dated as of March 1, 2002, as amended on May 16, 2002 and May 15, 2003. On July 31, 2003, the Company acquired substantially all of the assets of Lil Fan, Inc., the right to sell all items previously sold by Stan Howard & Associates, and Stan Howard & Associates, Inc. through a subsidiary that is now Lil Fan.

THE BUSINESS. The Company is a creative and innovative sales and marketing organization that designs, develops, markets and distributes licensed and branded promotional products and imprinted sportswear primarily through key licensing agreements and the Company's own proprietary designs.

The Company's management (Management) believes that there are substantial growth opportunities in the promotional products and imprinted sportswear industries and that the Company is well positioned to take advantage of these growth opportunities. OPERATIONS. The Company is one of the dominant companies in the highly fragmented licensed promotional products and imprinted sportswear industries. The Company has implemented its strategy of The Total Solution

Table of Contents

Company to meet its customers' key requirements including: art design and development, manufacturing (for imprinted sportswear), sourcing (for distributed products), warehousing and fulfillment. We believe that the following strengths, among others, have contributed to our past success and may provide us with a distinctive ongoing competitive advantage:

High quality, cost effective imprinted sportswear. Imprinted sportswear is produced both domestically and offshore. For large runs with long lead times, it is economically advantageous to produce the imprinted sportswear in countries where the cost of labor is lower than in the United States. Management believes that the Company does an excellent job of cost effectively sourcing its products from international suppliers. The Company's low cost operations facility in Wabash, Indiana, was set-up specifically to handle situations where it is not practical to produce imprinted sportswear offshore such as (a) for customized imprinted sportswear that, due to the uniqueness of the product, is not suited for the standardized long runs of offshore production, (b) to meet requirements for hot market reorders of just-in-time inventory such as for major sporting events, and (c) where demand exceeds forecasts leading to the need for quick replenishment orders. The Wabash facility has the capability to produce both imprinted and embroidered products and was organized by industry experts incorporating a sophisticated inventory management system with emphasis on automation of the manufacturing process effort, to minimize costs, cycle time and waste. The Wabash facility substantially reduces our reliance on outside sourcing, enabling us to reduce costs, shorten delivery time and enhance quality control of our products.

Excellent design and merchandising staff. We believe that licensed branded products are an established and significant growth category within our industry. The ability to deliver unique product offerings on a timely basis is key to the future success and expansion of our branded licensed revenue. The Company believes that it possesses one of the most creative and innovative design, merchandising and product development capabilities within the industry. The Company's design and merchandising staff determines, in partnership with our customers, the product strategy and is responsible for creating innovative products for our branded license and proprietary products lines. Management believes that this partnership provides stability in the design environment and consistency in our product variety and offers our customers flexibility in their product selection and timeliness of product delivery. The Company has been successful in significantly reducing the time requirements needed for the design, sourcing and delivery of products to substantially less than the industry norm. This enables us to provide a wide variety of products with greater acceptability in the marketplace within a reduced lead-time. Our partnerships with key suppliers further enhance our ability to develop and deliver our distinctive and innovative products quicker.

Upscale brand identity. The Company offers a style of products that is built on quality and strong imagery. Our marketing themes revolve around college and university brands, motor sports, golf, tennis, outdoor lifestyle, motorcycle biking, fishing, water sports, and other leisure pursuits designed to appeal to many of our target customers. We reinforce our upscale brand image at the retail level with specialized planograms and displays that present our lines as distinctive collections. The Company's target is an upscale consumer in casual settings, college and sporting activities, or relaxed weekend environments. We believe that our consumers are seeking a refined level of product quality and distinctiveness, and our designs, manufacturing standards and marketing are structured accordingly.

INFORMATION SYSTEMS. We employ a fully integrated, real-time management information system that is specifically designed for our industry. The system includes important features such as manufacturing resource requirements planning, production scheduling, detailed product tracking, standard cost system planning and control, and detailed perpetual inventory systems. As our production personnel track original purchases through various factory production phases, our merchandisers track sales in order to compare purchases against availability, thereby allowing us to react quickly to changes and trends. Our product development team utilizes sophisticated computer-aided design software to meet our customers' design, collaboration and specification requirements. We also have a remote-order entry system for our sales force, allowing them to monitor and establish sales plans and communicate order specifics. Customer service personnel receive this uploaded information daily and have real-time access to inventory availability.

This comprehensive information system serves users in each of our operating areas, and is also used to create costing models, specification sheets and production scheduling. The manufacturing module integrates with the general ledger accounting and financial module. Our information system also provides detailed product gross margin information that assists us in managing product profitability. During fiscal 2003, we continued to expand the relational database capabilities of our management information system to allow us to create specialized management reports and access critical decision support data.

Table of Contents

COMPETITION. The promotional products and imprinted sportswear industry is highly competitive. Dun and Bradstreet estimates that there are over 19,000 promotional product companies in North America. According to Promotional Products Association International, the top 40 companies' sales represented \$3.2 billion or less than one-fifth of the industry's total sales of \$15.6 billion in 2002. Our primary distribution channels are highly fragmented with substantial competition from other distributors of promotional products. We believe that our ability to compete effectively is based primarily on product differentiation, product quality, production flexibility and distribution capabilities, all of which Management believes enhance the Company's brands.

CUSTOMER BASE. During the past three years, the Company has made a concerted effort to expand its customer base. As a result of this effort, the Company has developed a large, diverse, and distinguished customer base of traditional retailers, ranging from national as well as large regional chains to specialty retailers, corporate accounts, college book stores, motor sports, souvenir and gift shops, and golf shops. The Company believes that its customer diversification and expansion program will be evident in fiscal year 2004 and beyond. The following represent a cross section of the Company's larger customers segregated by distribution channel:

National Retail Merchants:	Goody's, Kohl's, Sears, K-Mart, Dillard's, J.C. Penney
Specialty Retailers:	Dollar General, Sam's Wholesale Club, W. H. Smith
Sporting Goods Chains:	Sports Authority, Bass Pro Shops, MC Sports, Gart's, Delaware North Companies, Academy, Galyans, The Finish Line
Corporate Accounts and	General Electric, Alpine, Superior Essex, Nebraska Book Company, Barnes & Noble
College Book Stores:	
Food & Drug Chains:	Kroger's, Mini Mart, Stay Mart
Motor Sports:	Dodge, Pontiac, Chevy, GMC, dealer networks (approximately 9,000 dealers), and the NASCAR market, the largest spectator sport in the nation, Motorcycle Dealers, Gift Shops
E-Commerce:	General public via website distribution

GROWTH STRATEGY. The industries in which the Company competes are highly fragmented with no single company or group of companies holding a dominant market share. As a result, Management believes that there are significant growth opportunities available to the Company that include the following:

Expansion of the Company's Licensed Imprinted Sportswear Business. In recent years, licensed imprinted sportswear has become very popular. Licensing agreements are available for branded products and services, amateur and professional sports teams, and many other promotional areas. According to the 26th annual licensing industry survey published in The Licensing Letter, a publication of EPM Communications in New York, sales of the sports licensing sector increased by 7% during the year ended December 31, 2003, to \$12.1 billion. Over the past three years the Company has significantly expanded its license program.

E-Commerce. The Company has expanded its business to include e-commerce web sites through which some of the Company's most popular licensed products are marketed. The Company has been successful in establishing itself as a premier supplier under various e-commerce web sites, currently the most significant of which are www.collegewearusa.com; www.rpmsportswearusa.com; and www.americanbiker.net. The Company plans on establishing additional e-commerce web sites as other product lines (i.e. www.beerwearusa.com (functional in the near future promoting the Beer Wear USA product line) are established.

Increased Marketing of the Company's Proprietary Designs. The Company has developed several proprietary designs that Management believes will increase its penetration into existing customer base and broaden its product offering to new accounts. The proprietary designs cover a broad spectrum of themes such as: **American Wildlife**[®] (outdoor activities), **American Classic**[®] (golf and automotive), **American Biker**[®] (motorcycles), and **Cadre Athletic**[®] (college and athletics), among others.

Table of Contents

Strategic Mergers and Acquisitions. In addition to organic growth, the Company also plans to grow through selective strategic mergers and acquisitions. Management believes that there are a number of quality merger candidates that will enable the Company to expand and diversify its presence in the marketplace. The Company's key acquisition criteria include: proven historical success, diverse customer base, and companies that possess a reputation for quality in the marketplace.

INDUSTRY. The Company operates in two interrelated industries – the promotional products industry and the imprinted sportswear industry:

Promotional Products Industry. The promotional products industry is highly fragmented consisting mainly of smaller privately held companies with no dominant positions. It is also a niche industry that is comprised of thousands of companies that distribute products bearing designs, logos, names, or catchy phrases. Examples of the products distributed by the companies in the industry include: imprinted sportswear, key chains, coffee mugs, pens, golf balls, mouse pads, clocks, etc. It is estimated that 30% or just over \$5 billion of all promotional products sold are imprinted sportswear (wearables) products, making imprinted sportswear, by far, the number one selling product of all promotional products sold.

According to Promotional Products Association International (PPAI), a trade organization for the promotional products industry, the industry has experienced exceptional growth over the last ten years growing in sales from \$5.0 billion in 1991 to \$15.6 billion in 2002. Dun and Bradstreet estimates that there are over 19,000 promotional product companies in North America.

Imprinted Sportswear Industry. The imprinted sportswear industry is also a niche industry that entails value added embellishment (embroidering or screen-printing) of products. The items that are imprinted include: headwear, polo shirts, long-sleeve shirts, fleece wear, shorts, jackets, beach towels, souvenir blankets and t-shirts. The imprinted sportswear is sold primarily through traditional and specialty retailers ranging from large national and regional chains to sporting goods stores, casinos, golf and tennis pro shops, souvenir shops and sports stadiums.

Trends. A significant industry trend is the evolving requirement of customers to have suppliers provide enhanced value-added services to them. A primary attribute that customers are seeking is a company's ability to be a one-stop shop for all products requirements. In effect, customers are now looking to their suppliers to provide enhanced value-added services: design and graphic capabilities, fulfillment and warehousing, company store planning and execution and on-line purchasing. The corporate sales market is comprised primarily of corporations that purchase imprinted sportswear bearing the corporation's logo, name, or a theme.

SUPPLIERS. The Company sources a significant portion of its products with international suppliers. The majority of the products used by the Company are available from multiple sources. Alternative suppliers are currently available to the Company both domestically and internationally.

EMPLOYEES. As of February 20, 2004, the Company had one hundred eighteen employees. We consider our relations with our employees to be satisfactory.

ACQUISITIONS AND REFINANCING. Pursuant to the terms of an Asset Purchase Agreement (the Agreement), dated July 31, 2003 by and among LFI Acquisition Corporation (a wholly owned subsidiary of the Company), Lil Fan, Inc. (Lil Fan), Stan Howard & Associates, Inc. (SH&A) and Stanley R. Howard, the Company, through as subsidiary, acquired all of the operating assets of Lil Fan and the right to sell all items previously sold by Stan Howard & Associates. Lil Fan customers, distribution networks, and licenses diversify, complement, and bolster the

Company's existing customer and distribution base. The Company expects that future sales and earnings will continue to show strong growth. The Company, during fiscal 2003, fully integrated the operations of Lil' Fan into the operating facility located in Wabash, Indiana. (see NOTE 14 of the Notes to Consolidated Financial Statements contained elsewhere in this document).

On January 20, 2004, the Company entered into subordinated loan agreements with Next Investors, LLC for \$400,000 and First Federal Savings Bank for \$500,000. The purpose of these loans was to provide working capital to be repaid out of a future equity infusion. The loans have a 4% and 6% interest rates and maturity dates of January 20, 2006 and 2005, respectively.

On September 30, 2003, the Company completed a refinancing of its Amsouth Credit Facility with LaSalle Business Credit, LLC (the LaSalle Credit Facility). Under the terms of the LaSalle Credit Facility, the line of credit was increased to \$8 million, the term of the credit facility was extended for three years expiring September 30, 2006 and the advance rates under the facility were increased. The LaSalle Credit Facility was amended on December 9, 2003 and the maturity date was changed to February 1, 2005. Also, advances on finished goods inventory were limited to a maximum \$200,000, down from the previous amount of \$400,000. LaSalle also eliminated prepayment obligation and stipulated an undetermined reduction to the inventory advance rate by May 1, 2004.

On February 12, 2003, the Company entered into an agreement with First Federal Savings for a capital expenditure line of credit of \$225,000 bearing interest at 7% (Cap Ex). The Cap Ex line is payable in monthly payments of \$3,417 consisting of principal and interest through February 15, 2010.

On January 16, 2003, the Company completed a refinancing of notes payable to First Federal Savings Bank and Frances Slocum Bank aggregating \$2,534,663 for an aggregate principal of \$3,000,000 with First Federal Savings Bank (New Note). The net proceeds of the refinancing of approximately \$425,745 were reinvested in the Company. The New Note bears interest at 6.5% and has a monthly payment of principal and interest of \$26,000 with a balloon payment of \$2,647,805 due on January 15, 2006. The refinancing provided positive monthly cash flow to the Company compared to the cash outlay required by the notes prior to refinancing (see NOTE 9 Short Term and Long Term Debt).

Future Acquisitions. The Company is actively engaged in discussions with various potential acquisition targets and expects to grow through strategic acquisitions of complementary businesses. Management believes that additional acquisitions by the Company will allow it to further diversify its customer and distribution base, lessen its current dependence on large customers, and enhance stockholder value. Although Management believes that these acquisitions will be completed in the near future, the Company is not presently a party to any definitive agreements with respect to any acquisitions and there can be no assurances that any acquisition will be accomplished in the near future or at all.

Business Developments in 2003. On October 28, 2003, the Collegiate Licensing Company (CLC) ranked the Company number fifteen of its collegiate sports wearable providers along with major distributors such as Nike USA and Champion®. The Company has surpassed major companies such as Russell®, Cutter and Buck and Antigua as a major provider of licensed college sportswear through the CLC license program. CLC is the nation's leading collegiate licensing and marketing representative in the nation.

In November 2003, the Company was awarded a five-year license agreement to distribute Sturgis and Black Hills logos through 2008. This was the sixth year in a row at the Sturgis, South Dakota Bike Rally that the Company's American Biker Line has participated in key partnership roles with specialty distributors and retailers for this major event.

In December 2003, the Company announced the exclusive license agreement for both the America Football Coaches Association (AFCA) which owns the rights to the ADT National Championship Trophy in conjunction with the BCS National Championship Game and the license to use the Walter Payton name, image, portrait, photograph and signature of the late professional football player. The new products will commemorate the famous Chicago Bears player. In April 2003, the Company also signed a vendor agreement for the design and production of a branded Soldier Field Line to commemorate the new Soldier Field in Chicago, which opened in the fall of 2003.

INTRODUCTION. The following discussion is intended to provide an analysis of our financial condition and should be read in conjunction with our financial statements at August 31, 2003 included in the Form 10-QSB and our financial statements at November 30, 2003 included in Form 10-KSB, and the notes thereto.

OVERVIEW. As noted elsewhere in this report, the Company's principal customers are large national and regional retailers. In order to maintain its relationship with these customers, enhance revenues from them and enable them to improve their revenues and margins, the Company must work closely with these customers to ensure they receive the Company's products expeditiously and economically. The Company works diligently to maintain what Management calls "supply chain excellence" a way for the Company to provide value added services to its customers.

In servicing its customers, the Company faces competition from numerous other providers of licensed promotional clothing. Many of these competitors are larger and better capitalized than the Company. Additionally, if the Company is to continue to grow its business by adding additional products and by making strategic acquisitions, it will require additional capital. Therefore, Management is currently negotiating with several sources of equity in an effort to furnish the needed capital.

In assessing the Company's performance, Management focuses on (a) increasing revenues primarily through enhancing its licensing programs and (b) protecting such revenues by diversifying its customer base regionally and demographically. In order to enhance profitability, Management monitors and seeks to improve gross margins primarily by internal cost controls and through international purchases of raw materials. Management also strives to reduce fixed costs as a percentage of sales, improve inventory turnover and reduce receivables measured by days sales outstanding, all in an effort to improve profitability and cash flow.

RESULTS OF OPERATIONS. The following table sets forth certain items in the Company's consolidated statement of operations for the years ended November 30, 2002, and 2003, respectively. The results of operations for 2003 include the revenues of Lil' Fan of \$841,462 from August 1, 2003, the date of its acquisition. All intercompany transactions have been eliminated from the date of acquisition. The Company had provided certain services and sold merchandise to Lil' Fan in 2003. Therefore, the Company's revenue includes sales to Lil' Fan in 2003 of \$141,000. The Company believes that had the acquisition of Lil' Fan occurred at the beginning of 2003, the results of operations would have not been materially different than that reported herein (see NOTE 14 of the Notes to Consolidated Financial Statements contained elsewhere in this report). These statements should be read in conjunction with the audited financial statements of Next contained elsewhere in this Form 10-KSB.

Table of Contents

NET SALES. Net sales increased 67.6% to \$20,873,989 for 2003 from \$12,451,436 for 2002. The growth in sales is primarily attributable to increased sales from existing customers and new customers resulting in a net increase of \$7,581,091. Lil Fan customers from the date of acquisition generated an additional \$841,462 of sales in 2003.

COST OF SALES. Cost of sales was \$14,461,801 or 69.3% of the Company's net sales for 2003 compared to \$8,890,493 or 71.4% for 2002. Labor cost was 12.6% of sales in 2003 as compared to 14.0% of sales in 2002, the decrease resulting from the Company's efficiencies with increased volume. Outside contractor expenses were 1% of sales in 2003 down from 4% of sales in 2002. Raw material costs were 48% of sales in 2003, and 48% in 2002.

OPERATING AND OTHER EXPENSES. General and administrative expenses were \$2,210,045 (10.6% of net sales) for 2003 compared to \$1,732,110 (13.9% of net sales) for 2002. Approximately 53% of the increase in expenses resulted from the operating cost incurred by Lil Fan, Inc. since the date of acquisition (\$250,843 or 1.2% of sales). The Company's CEO began to take a salary in January 2003, which amounted to an additional \$82,500 in fiscal year 2003 which was not incurred in 2002. The remaining expense increase was for incremental customer service and support personnel to service, expand and diversify the Company's customer base. Royalty fees associated with licensing agreements was 5.9% of sales in 2003 and 5.1% of sales in 2002. The increase in fees is the result of a higher percentage of our sales that are licensed products, which is the Company's primary sales and marketing focus. Commission expenses were 4.6% of sales in 2003 and 3.6% in 2002, primarily due to more external sales personnel, who are commission based.

Corporate expense was a new area of expense that the Company began to incur in 2002 to effectively implement its growth and acquisition plan along with enabling the Company to meet its expanded public reporting requirements. The Company leased additional office space and hired a number of new full time personnel, and retained the services of additional legal, accounting, and investment professionals. While these actions have resulted in significant costs during the current period, the Company believes that such costs are necessary for the Company to implement its strategic plan of future growth and diversification. Fiscal year 2002 only reflected a partial year (approximately 9 months) of these expenses; however 2003 has a full twelve months. The primary areas of expense increases were: labor expense which grew by \$59,776 related to additional financial support, professional fees grew by \$103,586 related to investment banking services, bank charges grew by \$46,777 related to LaSalle fees, and \$52,334 of additional audit and accounting services.

Interest expense relates to the Company's short and long-term debt. Interest expense was \$455,839 for 2003, compared to \$358,196 for 2002. The primary reason for the increase in interest expense was the increase in the average borrowings of the revolving credit facility to finance the growth of the Company.

PROVISION FOR INCOME TAXES. The Company recognized a tax provision of \$182,356 in 2003 or 39.5% of income before taxes. In 2002 the Company recognized a tax benefit of \$201,759, which is attributable to the recognition of deferred tax assets arising from the Company's year-to-date net operating loss adjusted for by book and income tax recognition temporary differences.

FINANCIAL POSITION, CAPITAL RESOURCES, AND LIQUIDITY. At November 30, 2003, working capital was \$6,625,995, representing an increase of \$657,210 from working capital at November 30, 2002, of \$5,968,785. This increase in working capital was primarily due to the increase in receivables and inventory related to the growth of the business.

Liquidity and Capital Resources. The Company has historically financed its operations through a combination of earnings and debt. The Company's principal sources of debt financing are its revolving line of credit with LaSalle Business Credit and promissory notes issued by First Federal Bank. At September 30, 2003, the Company renegotiated its working capital facility with LaSalle as follows: (a) increased the facility by

Edgar Filing: NEXT INC/TN - Form SB-2/A

\$3,000,000 to \$8,000,000; and (b) extended its term to September 30, 2006. At November 30, 2003, \$5,437,088 of the credit

facility had been drawn upon. The LaSalle credit facility is governed by various financial covenants, all of which are in compliance as of the date of this report. In addition the agreement provides for monthly payment of interest at .75% over a nationally published prime rate (4% at November 30, 2003). The interest rate dropped upon delivery of the audited financial statements to .5% over prime rate. The LaSalle Credit Facility was amended on December 9, 2003 as a result of a technical default for which the Company obtained a waiver. The LaSalle amendment changed the maturity date to February 1, 2005; also, advances on finished goods inventory were limited to a maximum \$200,000 down from the previous amount of \$400,000. LaSalle also eliminated the prepayment obligation and stipulated an undetermined reduction to the inventory advance rate by May 1, 2004. On January 16, 2003, the Company refinanced certain of its notes payable to First Federal Savings Bank and Frances Slocum Bank aggregating \$2,534,663 for an aggregate principal of \$3,000,000 with First Federal Savings Bank (New Note). The net proceeds of the refinancing of approximately \$425,745 were reinvested in the Company. The New Note bears interest at 6.5% and has a monthly payment of principal and interest of \$26,000 with a balloon payment of \$2,647,805 due on January 15, 2006. The total effect of refinancing, including the net proceeds reinvested in the Company, resulted in positive cash flow to the Company (see NOTE 9 and NOTE 17 of the Notes to Consolidated Financial Statements contained elsewhere in this document). The Company is constantly in discussions with other lending institutions to replace and increase the Company's current credit facilities.

On January 20, 2004 the Company entered into a subordinated loan agreements with Next Investors, LLC for \$400,000 and First Federal Savings Bank for \$500,000. The purpose of these loans was to provide working capital to be repaid out of a future equity infusion. The loans have a 4% and 6% interest rate and maturity dates of January 2006 and 2005, respectively.

The Company's principal use of cash is for operating expenses, interest and principal payments on its long-term debt, working capital and capital expenditures. Cash used in operations for 2003 was \$1,005,294 as compared to \$991,608 for 2002. The increase in cash used resulted primarily from increased working capital utilization due to increased growth in the business.

Cash used for investing activities was \$879,651 for 2003, compared to \$597,487 for 2002. The Company's investing activities during these periods was primarily the purchase of new equipment and fees and expenses paid for its acquisitions.

Net cash provided by financing activities was \$2,027,035 for 2003, compared to \$1,938,223 for 2002. This net increase of \$88,812 related to proceeds from bank loans that were offset by repayment of debt and issuance of common stock for cash.

The following table represents the contractual commitments of the Company as of November 30, 2003:

	Total	Payments Due by Period			
		Less than 1 year	1 - 3 years	4 - 5 years	After 5 years

CRITICAL ACCOUNTING POLICIES AND ESTIMATES, AND NEW PRONOUNCEMENTS. Our significant accounting policies are described in NOTE 2 - Basis of Presentation and Significant Accounting Policies of the Notes to our financial statements. Our discussion and analysis of financial condition and results of operations are based upon our consolidated financial statements, which have been prepared in accordance with accounting principles generally accepted in the United States. The preparation of the financial statements requires us to make estimates and judgments that affect the reported amounts of assets, liabilities, revenues, expenses, and related

Table of Contents

disclosure of contingent assets and liabilities. On an on-going basis, we evaluate the estimates that we have made. These estimates have been based upon historical experience and on various other assumptions that we believe to be reasonable under the circumstances. Actual results may differ from these estimates under different assumptions or conditions. We believe the following critical accounting policies affect our more significant judgments and estimates used in the preparation of our consolidated financial statements.

Allowance for Doubtful Accounts and Returns. The Company maintains an allowance for doubtful accounts for estimated losses resulting from the inability of our customers to make required payments, which is included in bad debt expense. Management determines the adequacy of this allowance by regularly reviewing our accounts receivable aging and evaluating individual customer receivables, considering customers financial condition, credit history and current economic conditions. If the financial condition of our customers were to deteriorate, resulting in an impairment of their ability to make payments, additional allowances may be required.

Inventories. Inventories, which are predominantly blank garments or finished goods, are valued at the lower of cost or market, with cost determined using the first-in, first-out method. A detailed analysis of inventory is performed on a periodic basis throughout the year. If actual market conditions are less favorable than those projected by management, additional write-downs may be required.

Impairment of Long-Lived Assets. The Company reviews the carrying values of its long-lived assets whenever events or changes in circumstances indicate that such carrying values may not be recoverable. Unforeseen events, changes in circumstances, market conditions, and changes in estimates of future cash flows could negatively affect the fair value of the Company's assets and result in an impairment charge. Fair value is the amount at which the asset could be bought or sold in a current transaction between willing parties and may be estimated using a number of techniques, including quoted market prices or valuations by third parties, present value techniques based on estimates of cash flows, or multiples of earnings or revenues performance measures. The fair value of the asset could be different using different estimates and assumptions in these valuation techniques.

Intangible Assets Valuation. SFAS No. 142, Goodwill and Other Intangible Assets became effective for the Company during 2002. SFAS 142 requires, among other things, the discontinuance of goodwill amortization. In addition, the standard includes provisions for the reclassification of certain existing recognized intangibles such as goodwill, reassessment of the useful lives of existing recognized intangibles, reclassification of certain intangibles out of previously reported goodwill and the identification of reporting units for purposes of assessing potential future impairment of goodwill. SFAS 142 also requires the Company to complete a transitional goodwill impairment test six months from the date of adoption. The provisions of these interpretations that are applicable to the Company were implemented on a prospective basis as of January 1, 2002, which had no material effect on the Company's financial statements. In assessing the recoverability of our investment in CMJ Ventures Inc., Lil Fan, Inc., and other intangible assets and goodwill, we must make assumptions regarding estimated future cash flows and other factors to determine the fair value of the asset. If these estimates or their related assumptions change in the future, we may be required to record impairment charges for such asset not previously recorded.

Other Pronouncements. The Financial Accounting Standards Board issued Statements of Financial Accounting Standards No. 144, Accounting for the Impairment or Disposal of Long-Lived Assets (SFAS 144); SFAS No. 145, Rescission of FASB Statements No. 4, 44 and 64, Amendment of FASB Statement No. 13, and Technical Corrections; SFAS No. 146, Accounting for Costs Associated with Exit or Disposal Activities and SFAS No. 141, Business Combinations. These SFAS pronouncements all became effective for the Company during the fiscal year ended 2002. The provisions and interpretations of these pronouncements, that are applicable to the Company, had no material effect on the Company's financial statements.

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

NOTE 1 Organization

In February 2002, Sporting Magic, Inc. (*Sporting Magic*), a public company with no assets or liabilities, acquired all 6,000,000 of the outstanding common shares of Next, Inc. (*Next*) in exchange for 6,000,000 shares of the common stock of Sporting Magic (the *Merger*). In conjunction with the Merger, the holders of the outstanding preferred stock of Next (7,000,000 shares) were to convert their preferred shares to newly authorized preferred shares of Sporting Magic. Subsequent to the closing and effective on the date of the Merger, the preferred shareholders of Next contributed all of their preferred shares to the Company. Consequently, no preferred shares were issued by Sporting Magic. Also, in conjunction with the Merger, the Company assumed 1,982,426 shares of the former shareholders of Sporting Magic, which were outstanding at the date of the Merger. The Company also issued 759,411 shares of its common stock to various outside professional advisors in conjunction with the Merger. On the closing date of the Merger, all of the present directors and executive officers of Sporting Magic were replaced by individuals nominated by the Board of Next. For accounting purposes, the Merger has been treated as a reverse acquisition of Sporting Magic by Next and a recapitalization of Next. On December 27, 2002 Sporting Magic changed its name to Next, Inc. (now the *Company*).

Effective June 1, 2002, the Company acquired all of the issued and outstanding equity of CMJ Ventures, Inc., a Florida corporation (*CMJ*). Effective July 31, 2003, the Company acquired the assets and certain liabilities of Lil Fan, Inc. (see Note 14 to Consolidated Financial Statements).

NOTE 2 Basis of Presentation and Summary of Significant Accounting Policies

Nature of Business

The Company is a creative and innovative sales and marketing organization that designs, develops, markets, and distributes licensed and branded promotional products and imprinted sportswear primarily through key licensing agreements and the Company's own proprietary designs. The primary industries served by the Company are two interrelated industries, promotional products and imprinted sportswear throughout the United States.

Principles of Consolidation

The accompanying consolidated financial statements include the accounts of the Company and its wholly owned subsidiaries, Next Marketing, Inc., Blue Sky Graphics, Inc., CMJ Ventures, Inc. (from June 1, 2002, the date of its acquisition) and Lil Fan Inc., (from July 31, 2003, the date of its acquisition). All significant intercompany balances and transactions have been eliminated. Certain comparative figures presented have been reclassified to conform the prior year's data to the Company's current financial statements.

Accounts Receivable

Accounts receivable are stated at the amounts management expects to collect. Based on management's evaluation of uncollected accounts receivable at the end of each year, bad debts are provided for on the allowance method. The allowance for doubtful accounts as of November 30, 2003 was \$73,097.

Concentration of Credit Risk

During fiscal 2003 the Company has made a concerted effort to expand its customer base. As a result of this effort the Company has developed a large, diverse customer base of traditional retailers, ranging from national as well as large regional chains, specialty retailers, corporate accounts, college bookstores, motor sports, souvenir and gift shops, and golf shops. The Company believes that its customer diversification and expansion program has been successful. The Company's customer base had been comprised primarily of national and regional mass merchandise and specialty retailers. However, with the acquisition of CMJ, which sells to over five hundred specialty retailers, and the introduction of additional major product lines and distribution channels, such as its Motor Sports Division, which sells to a national auto dealer network, and the acquisition of Lil' Fan, Inc. the Company has expanded its customer base. During fiscal 2003 and 2002, approximately 23% (\$4,882,788) and 38% (\$4,796,265), respectively, of the net sales of the Company were to one of its largest customers. Sales to four other major customers approximated \$7,601,330 (36%) in 2003 and \$3,085,864 (25%) in 2002. The Company actively engaged itself in internet sales in 2003 which approximated \$442,338 in 2003 and \$59,858 in 2002. The Company's management believes that its credit risk exposure, based on current information available on the financial strength of its customers and previously recorded reserves, is limited. Such estimate could change in the future.

New Pronouncements

Recent pronouncements that potentially affect these or future financial statements include:

SFAS No. 144, Accounting for the Impairment or Disposal of Long-Lived Assets ; SFAS No. 145, Rescission of FASB Statements No. 4, 44 and 64, Amendment of FASB Statement No. 13, and Technical Corrections ; SFAS No. 141, Business Combinations, SFAS No. 146, Accounting for Costs Associated with Exit or Disposal , SFAS No. 148 Accounting for Stock-Based Compensation , FASB Interpretation No. 45, Guarantor s Accounting and Disclosure Requirements for Guarantees, Including Indirect Guarantees of Indebtedness of Others , FASB Interpretation No. 46, Consolidation of Variable Interest Entities .

SFAS No. 142, Goodwill and Other Intangible Assets became effective for the Company during 2002. SFAS No. 142 requires, among other things, the discontinuance of goodwill amortization. In addition, the standard includes provisions for the reclassification of certain existing recognized intangibles as goodwill, reassessment of the useful lives of existing recognized intangibles, reclassification of certain intangibles out of previously reported goodwill and the identification of reporting units for purposes of assessing potential future impairment of goodwill.

In management s opinion, these pronouncements had no material effect on the financial statements.

Property, Plant and Equipment

Property, plant, and equipment are valued at cost and are being depreciated using the straight-line method over the estimated useful lives. Upon sale or retirement, asset cost and its related accumulated depreciation are eliminated from the respective accounts and any resulting gain or loss is recognized in income. Routine maintenance and repairs are charged to expense as incurred. Expenditures, which materially increase the value or extend useful lives, are capitalized.

Fair Value of Financial Instruments

The carrying amounts of financial instruments included in current assets, current liabilities, and short-term debt approximate their fair market values.

Earnings Per Share

The Company accounts for earnings per share (EPS) in accordance with Statement of Financial Accounting Standards (SFAS) No. 128, Earnings per Share . SFAS No. 128 requires presentation of basic and diluted EPS. Basic EPS is computed by dividing income available to common stockholders by the weighted-average number of common shares outstanding for the period. The effect of the recapitalization on the Company has been given retroactive application in the earnings per share calculation. The Company does not have any outstanding common stock

equivalents, other than warrants, employee stock options and contingent acquisition related shares.

Revenue Recognition

The Company recognizes revenue when the following conditions are met: persuasive evidence of an agreement exists, the product has been delivered and legal title and all risks of ownership have been transferred, the sales price is fixed or determinable, and collectibility is reasonably assured. Revenues are reduced for estimated product returns, allowances and price discounts based on past experience.

Advertising Costs

Advertising costs are expensed as incurred. For the years ended November 30, 2003 and 2002, advertising and promotion expenses were \$57,999 and \$99,764, respectively.

Use of Estimates in Preparation of Consolidated Financial Statements

The preparation of the accompanying consolidated financial statements in conformity with generally accepted accounting principles requires management to make certain estimates and assumptions that affect the reported amounts of assets and liabilities and disclosures of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenue and expenses during the reporting period. Actual results could differ from those estimates. Significant estimates that are particularly susceptible to change are those assumptions used in determining the allowance for doubtful accounts receivable, which are based upon specific evaluation related to the aging of the customer accounts.

Impairment of Long-Lived Assets and Non-Goodwill Intangibles

The Company reviews these assets held and used for possible impairment whenever events or changes in circumstances indicate that the carrying amount of an asset may not be recoverable.

Table of Contents

Impairment of Goodwill

Goodwill is assigned to specific reporting units and is reviewed for possible impairment at least annually, or more frequently upon the occurrence of an event or when circumstances indicate that a reporting unit-carrying amount is greater than its fair value.

NOTE 3 Cash and Cash Equivalents

The Company considers all short-term investments with maturities of 90 days or less at purchase to be cash equivalents. The Company had cash and cash equivalents of \$0 and \$277,848 in 2003 and 2002, respectively.

NOTE 4 Inventories

Work in progress	206,060
Finished products	759,241
	<hr/>
Total	\$ 5,108,496
	<hr/>

Raw materials consist of blank garments that are purchased, not manufactured by the Company.

NOTE 5 Income Taxes

Income taxes have been computed in accordance with Statement of Financial Accounting Standards No. 109, Accounting for Income Taxes (SFAS 109). This standard requires, among other things, recognition of future tax expenses or benefits, measured using enacted tax rates, attributable to taxable or deductible temporary differences between financial statements and income tax reporting bases of assets and liabilities.

The ultimate realization of deferred tax assets is dependent upon the attainment of forecasted results of operations. Management has taken these and other factors into consideration in recording the deferred tax estimate. The tax effects of temporary differences and carryforwards that give rise to significant portions of the deferred tax asset and liabilities at November 30, 2003, are as follows:

Edgar Filing: NEXT INC/TN - Form SB-2/A

NOTE 14 Acquisition of Lil Fan, Inc.

Pursuant to the terms of an Asset Purchase Agreement (the Agreement), dated as of July 31, 2003, by and among the Company, Lil Fan, Stan Howard & Associates, Inc. (SH&A) and Stanley R. Howard, the Company, through a wholly-owned subsidiary, LFI Acquisition Corporation, acquired all of the operating assets of Lil Fan and the right to sell all items previously sold by SH&A.

Consideration for the acquisition was: \$100,000 in cash, 180,000 shares of the Company's common stock, up to an additional 270,000 common shares on a deferred basis (November 30, 2004, 2005, and 2006) pursuant to an earn-out arrangement, and the assumption of certain defined liabilities. The financial terms of the transaction were determined by negotiation between representatives of the Company, representatives of SH&A and Lil Fan, and Stanley R. Howard. The cash portion of the purchase price was funded from cash generated from a sale of common stock and warrants to a group of private investors and operations of the Company. The Company intends to continue to operate the business of Lil Fan after the acquisition but will consolidate the production and financial functions to reduce cost and maximize resources.

The Lil Fan acquisition was made to expand the Company's distribution and customer base and acquire additional

proprietary licenses. Goodwill was incurred since management believes that the future value of the combined synergies will be enhanced. All intercompany sales and transactions have been eliminated in the consolidated statements since the date of the acquisition.
