Matsushita Electric Executes Own Share Repurchase

Osaka, Japan, May 13, 2005 Matsushita Electric Industrial Co., Ltd. (MEI [NYSE symbol: MC]), best known for its Panasonic brand, announced that it has repurchased a portion of its own shares from the market in conformity with provisions of Article 211-3, Paragraph 1, Item 2 of the Japanese Commercial Code.

Details of the share repurchase are as follows:

1. Class of shares: Common stock
2. Period of repurchase: Between May 2, 2005 and May 13, 2005
3. Aggregate number of shares repurchased: 6,271,000 shares

4. Aggregate repurchase amount: 9,999,760,000 yen

5. Method of repurchase: Shares were repurchased on the Tokyo Stock Exchange

(Reference 1)

1) The following details were resolved at the Board of Directors meeting held on April 28, 2005:

Class of shares: Common stock

Aggregate number of repurchasable shares: Up to 120 million shares

Aggregate repurchase amount: Up to 150 billion yen

2) Cumulative total of shares repurchased since the April 28, 2005 Board of Directors resolution through today:

Aggregate number of shares repurchased: 6,271,000 shares

Aggregate repurchase amount: 9,999,760,000 yen

(Reference 2)

The number of shares issued and treasury stock as of March 31, 2005:

Total number of shares issued (excluding treasury stock): 2,258,357,710 shares

Treasury stock: 194,695,787 shares

Questions and Answers regarding Policy toward

Large-scale Purchases of Matsushita Shares (ESV Plan)

Osaka, Japan, May 19, 2005 Matsushita Electric Industrial Co., Ltd. (Matsushita [NYSE symbol: MC]), best known for its Panasonic brand, has announced that it has posted, on its web site, answers to questions regarding the ESV Plan. The ESV Plan is the policy Matsushita announced in a press release of April 28, 2005 entitled Matsushita Announces Policy toward Large-scale Purchases of Matsushita Shares (ESV Plan) (hereinafter referred to as ESV Release). Since the publishing of the ESV Release, Matsushita has received questions regarding the ESV Plan. The company has therefore decided to provide answers to such questions in a Q&A format.

NOTICE OF

THE 98TH ORDINARY GENERAL MEETING

OF SHAREHOLDERS

to be held in Osaka, Japan

on June 29, 2005

This is a translation from the Japanese
[of a notice circulated to shareholders]
in Japan.

Matsushita Electric Industrial Co., Ltd.

Kadoma, Osaka, Japan

Table of Contents

May 31, 2005

Dear Shareholders :

Notice of the 98th Ordinary General Meeting of Shareholders

This is to inform you that the Company's 98th Ordinary General Meeting of Shareholders will be held as described below. You are cordially invited to attend the meeting.

If it is inconvenient for you to attend the meeting, you are sincerely requested to examine carefully the referential materials contained herein and to either mail, as soon as possible, the voting instruction card duly signed by you after marking for or against each bill, or to exercise your voting rights via the website.

1. **Date:** 10:00 a.m. Wednesday, June 29, 2005

2. **Place:** Head Office of the Company

3. **Purposes of the Meeting:**

Matters to be Reported:

1. The business report, balance sheet and statement of income on a consolidated and a parent company alone basis with respect to the 98th fiscal period from April 1, 2004 to March 31, 2005
2. Report of Accounting Auditors and Corporate Auditors on the consolidated financial statements
3. Report on the Company's own share repurchases made upon resolution of the Board of Directors as authorized by the Company's Articles of Incorporation

Matters to be Acted Upon:

Bill No. 1: To approve the proposed allocation of profit with respect to the 98th fiscal period

Bill No. 2: To elect 19 directors

Bill No. 3: To grant condolence and retirement allowances to retiring directors for their meritorious service

Sincerely yours,

Kunio Nakamura

President and Director

Matsushita Electric Industrial Co., Ltd.

[Shareholders attending the meeting are requested to hand in the voting instruction card at the reception desk of the meeting venue. Those exercising their voting rights via the website (<http://www.web54.net>) are requested to use the voting code and temporary password which are printed on the right hand side of the voting instruction card.]

Editor's notes:

1. The financial statements and other information included in this Notice of Shareholders Meeting are prepared primarily on a consolidated basis in conformity with U.S. generally accepted accounting principles (U.S. GAAP). In some cases where required, however, financial information on a parent company alone basis, which is in conformity with Japanese regulations, is also provided herein. Parent-alone and consolidated financial information should not be confused with each other.
2. An English translation of explanations for the exercise of voting rights via the website is omitted herein. For foreign shareholders who maintain standing proxies in Japan, such explanations (in Japanese) are sent to, and available at, your standing proxies.

[Appendix to the Notice of General Meeting of Shareholders]

Business Report for the 98th Fiscal Period

(Fiscal year from April 1, 2004 to March 31, 2005)

1. Brief Business Review

(1) Matsushita Group Business Progress and Results during the Period

During the first half of the fiscal year under review, the overall economic situation in Japan was favorable, characterized by increased consumer spending, due mainly to an unusually hot summer and demand related to the Athens Olympics. In the second half, however, concerns arose regarding a downturn in components and devices industries and price declines in digital products, as well as rising raw materials costs, including crude oil prices. Overseas, the global economy slowed somewhat in the second half. The U.S. economy, however, continued steady progress with strong consumer spending, mainly a result of an improved U.S. employment situation. Meanwhile, the economy in China also continued high growth. Accordingly, the global economic situation, as a whole, remained stable.

Under these circumstances, Matsushita implemented initiatives to achieve growth and strengthen management structures at each business domain company in fiscal 2005, ended March 31, 2005, the first year of the new mid-term management plan Leap Ahead 21.

First, Matsushita aggressively launched a new line of V-products to capture top shares in high-volume markets and make a significant contribution to overall business results. At the same time, the Company strengthened company-wide marketing efforts for these products. Matsushita also increased global sales of digital audiovisual (AV) equipment, notably plasma display panel (PDP) TVs and digital cameras, primarily through simultaneous global product introductions. In home appliances, such products as unique washer/dryers with a tilted drum and oxygen-enriching air conditioners enjoyed steady sales gains in Japan.

Through collaboration activities with Matsushita Electric Works, Ltd. (MEW), the two companies unified brands and product designs, opened joint showrooms and introduced a series of Collaboration V-products that incorporate black-box technologies of both companies. Matsushita and MEW also integrated overlapping businesses in the areas of electrical supplies, building materials and equipment, home appliances and industrial equipment, and reformed distribution channels to establish an optimized, customer-oriented operational structure. Through such collaboration, Matsushita succeeded in creating an organizational structure under which the Company can provide customers all over the world with solutions for comfortable living in the home and office.

Meanwhile, the Company carried out structural reforms through selection and concentration of management resources into priority areas and restructuring of locations. These reforms were carried out autonomously by each business domain company. In addition, Matsushita made all-out efforts to reduce inventories, as well as material procurement costs and other expenses, thereby strengthening the Company's financial condition. Furthermore, Matsushita decided new initiatives aimed at maximizing shareholder

value, including policies to increase dividend payments and execute own share repurchases.

Through these efforts, consolidated group sales for fiscal 2005 increased 16.5%, to ¥8,713.6 billion, from ¥7,479.7 billion in the previous fiscal year. Explaining fiscal 2005 results, the Company cited sales gains in digital AV equipment and home appliances, especially V-products, and the addition of MEW, PanaHome Corporation (PanaHome) and their respective subsidiaries to the Company's consolidated financial results.

Regarding earnings, negative factors such as restructuring charges of ¥93.2 billion for early retirement programs were more than offset by sales gains, comprehensive cost reduction efforts, and a ¥31.5 billion gain from the transfer of the substitutional portion of the Employees Pension Funds (EPF) to the Government. These, and other factors, resulted in a pre-tax income of ¥246.9 billion, up 44.5% from ¥170.8 billion last year. Net income for the full fiscal year totaled ¥58.5 billion, an increase of 38.8% from ¥42.1 billion in the previous year.

Table of Contents

Departmental Activities

From this fiscal year, MEW, PanaHome and their respective subsidiaries became consolidated subsidiaries of the Company. Accordingly, a new MEW and PanaHome category has been added. The six new product categories are: AVC Networks, including video and audio equipment, and information and communications equipment; Home Appliances, including home appliances and housing equipment and systems; Components and Devices, including general electric components and semiconductors; MEW and PanaHome; JVC; and Other, including factory automation (FA) equipment and other industrial equipment.

A summary of sales performance by new categories for the fiscal year is as follows:

AVC Networks

Sales in this category decreased 1.8% to ¥3,558.8 billion compared with ¥3,624.1 billion in the previous fiscal year.

Video and audio equipment

Sales of video and audio equipment increased 4.5% to ¥1,482.6 billion compared with ¥1,418.1 billion in the previous fiscal year. Products under the 3D value chain strategy, consisting of SD Memory Card, DVD and digital TV (DTV) businesses, continued to perform strongly, with particular sales increases in PDP TVs and digital cameras.

In advance of increases in demand related to the Athens Olympics, as well as the expansion of digital broadcasting and shifting consumer preferences toward flat-panel TVs, Matsushita launched new products in its VIERA series of PDP TVs and liquid crystal display (LCD) TVs that boast world-class picture quality. The Company also introduced the industry's first 65-inch high-definition plasma display.

Amid intensifying competition in the DVD recorder market, Matsushita strengthened its product lineup in the DIGA DVD recorder series with models that have expanded network connectivity and dual tuners for the simultaneous recording of two channels, resulting in sales gains.

In digital cameras, Matsushita released a compact, slim and light-weight model in the LUMIX series, featuring a large 2.5-inch LCD monitor and optical image stabilizing technology. The new product was well-received by consumers, securing a top share in the domestic market and enhancing brand image overseas, resulting in a significant increase in sales.

Matsushita accelerated the development of SD Memory Cards that connect digital equipment such as cellular phones, as well as flat-panel TVs and other AV equipment, thereby reinforcing its position as the de facto standard in the industry.

In the years to come, Matsushita will seek to drive further growth in digital AV equipment by expanding 3D value chain products, while also maintaining growth through collaboration with other companies.

Information and communications equipment

Sales of information and communications equipment decreased 5.9% to ¥2,076.2 billion compared with ¥2,206.0 billion in the previous fiscal year, due mainly to the impact of sales declines in cellular phones for overseas markets, which offset steady sales in PCs and automotive electronics.

In information equipment, a new series of the world's lightest notebook PCs with built-in optical drives received further market acclaim for mobility, proving particularly popular among corporate users. Meanwhile, shipments also increased for the DVD Super-Multi Drive, a peripheral accessory for PCs. In automotive electronics, Matsushita recorded continued strong growth in its Strada series of car navigation systems with enhanced audio-visual features, while steady sales were also achieved in terminal units for the Electronic Toll Collection (ETC) system.

In communications equipment, despite higher sales of third generation (3G) cellular phones in Japan, overall sales of cellular phones declined, primarily a result of high inventory levels in China and fierce price competition in Europe and Asia, leading to a slump in overseas sales. Despite strong domestic sales of new home-use facsimile machines, which are the smallest in the industry and feature an eye-catching design, intense price competition in fixed-line telephones and facsimile machines resulted in sluggish sales on the whole.

For the future, Matsushita will focus on creating products, services and systems that provide customers with safety, security and comfort in the home, office, or on the move by connecting mobile networks in a ubiquitous networking society.

Table of Contents

Home Appliances

Sales in this category increased 2.4% to ¥1,217.9 billion compared with ¥1,189.1 billion in the previous fiscal year. Sales gains and increased market share were achieved through unique products, such as newly designed washing machines. Sales of air conditioners and compressors also increased due mainly to an unusually hot summer in Japan.

In home appliances, Matsushita strengthened its lineup of washer/dryers with a tilted drum, commencing sales of these products in China and other areas of Asia. Other new items that proved popular included oxygen-enriching air conditioners with automatic filter cleaning and dust removal functions, refrigerators that allow easy access to hard-to-reach areas of the food drawer, and dishwasher/dryers that release detergent particles in a mist to remove stains.

In housing equipment and systems, Matsushita recorded double-digit growth in domestic sales of induction-heating (IH) cooking equipment.

Rising concern towards environmental protection and personal health helped Matsushita increase domestic sales of air purifiers with filters that neutralize allergens, and compact, energy-efficient fluorescent lamps.

Looking ahead, Matsushita will strengthen the home-use fuel cell co-generation systems business, being the first company to market these products commercially. Through development of Collaboration V-Products and optimum use of sales channels in the Matsushita Group, the Company will strive to strengthen technologies and product competitiveness, integrating the core technologies of both Matsushita and MEW, while maintaining profitability and future growth.

Components and Devices

Sales in this category decreased 2.6% to ¥1,112.5 billion compared with ¥1,142.4 billion in the previous fiscal year. Sales of key components in digital products recorded solid sales gains, but sales of batteries and electric motors decreased, resulting in overall lower sales in this category.

In general electronic components, sales gains were led by tuners for DTVs, speakers for flat-panel TVs, weight sensors for airbags and new multilayer printed circuit boards (ALIVH: Any Layer Inner Via Hole).

As a result of increasing demand for digital AV equipment, Matsushita recorded sales growth in semiconductors, especially system LSIs for DVD recorders and DTVs, and CCDs for digital cameras, despite declining sales of semiconductors for cellular phones in the second half. The Company also began mass-producing and shipping the world's smallest camera modules, featuring a 3-megapixel image sensor vMAICOVICON.

Although the new Oxyride dry battery proved to be a market hit with sales climbing steadily, overall sales of batteries decreased due to slow sales of lithium ion batteries for cellular phones in Japan.

Moving forward, Matsushita seeks to capture top market shares in various strategic components and devices categories by creating premium products supported by black-box technologies. The Company will also strive to maximize synergies between finished products and components and devices.

MEW and PanaHome

Sales in this category totaled ¥1,497.6 billion. MEW registered robust sales in various key areas, especially building products such as residential furnishings and storage units, electronic and plastic materials, including environmentally friendly materials for multilayer printed circuit boards, and automation controls for applications in cellular phones and automotive devices. Sales in other business areas also grew, notably high-performance wiring products. Furthermore, massage lounges and other products in home appliances, such as esthetic products, fitness machines for the home and water purifiers, recorded increased sales reflecting rising demand in the health sector.

In the home appliances business, MEW is further expanding research in the fields of health and ergonomics. Also, MEW will leverage technologies in home appliances, information equipment and wiring products, and building products to create innovative new applications. MEW will also accelerate its overseas strategies by strengthening its materials and components businesses on a global scale and expanding in China by focusing on home environment solutions, including electrical construction materials and building products.

Meanwhile, performance at PanaHome, which is primarily involved in the housing field, was supported by steady sales of residential housing, reflecting the strength of the residential real-estate market in Japan.

PanaHome will expand its main businesses, especially detached housing, asset and property management and home remodeling, under the Eco-Life Home concept, which ensures safety, security, health, comfort and high energy efficiency.

Table of Contents

JVC

Sales in this category decreased 10.6% to ¥717.8 billion compared with ¥802.7 billion in the previous fiscal year.

Despite brisk sales of domestic AV equipment due to higher sales of LCD TVs and the release of "Only One" products such as palm-size hard disk camcorders, sluggish sales in AV equipment in the United States and Europe, as well as lower sales in music software in Japan led to an overall decline in sales from the previous fiscal year. To enhance competitiveness in global markets, JVC implemented various structural reforms, especially in the electronic device business, shifting management resources to key areas to fully leverage JVC's extensive technologies.

JVC will strive to increase sales of unique products in high growth areas, such as the display and optical disk businesses, driving expansion and further strengthening its management structure to enhance profitability.

Other

Sales in this category decreased 15.6% to ¥609.0 billion compared with ¥721.4 billion in the previous fiscal year.

Within this category, although sales of FA equipment and industrial equipment increased, the reclassification of MEW products (those traditionally sold through the parent company) into a new product category (MEW and PanaHome) resulted in overall lower sales.

Sales of FA equipment increased due to favorable sales in high-speed modular mounters that boast the highest productivity in the industry, offsetting suppressed investment in the Chinese market.

In industrial equipment, the Company enhanced its range of fully digital CO₂/MAG automatic welding machines and scored a hit with the world's first welding robot TAWERS that integrates a 6-axis articulated robotic system with the latest fully digital welding power source.

For the future, Matsushita will provide products and solutions and enhance its integrated business structure of hardware, software, services and engineering, in order to satisfy various customer needs related to manufacturing infrastructures.

Sales Breakdown

Category	Sales (billions of yen)	Percentage of previous year	Percentage of total sales
AVC Networks	3,558.8	98.2%	40.8%
Video and audio equipment	1,482.6	104.5	17.0
Information and communications equipment	2,076.2	94.1	23.8
Home Appliances	1,217.9	102.4	14.0
Components and Devices	1,112.5	97.4	12.8
MEW and PanaHome	1,497.6	102.4	17.2
JVC	717.8	89.4	8.2
Other	609.0	84.4	7.0
Total	8,713.6	116.5	100.0
Domestic Sales	4,580.5	131.7	52.6
Overseas Sales	4,133.1	103.3	47.4

- (Notes) 1. Amounts less than one-tenth of a billion yen have been rounded to the nearest whole one-tenth of a billion yen amount.
2. From this fiscal year, Matsushita added a new category, MEW and PanaHome, since MEW, PanaHome and their respective subsidiaries became consolidated subsidiaries of the Company.

Table of Contents

Research and Development

During the year under review, Matsushita executed a number of initiatives to maximize efficiency in R&D, aimed at the realization of a ubiquitous networking society and coexistence with the environment. Specifically, the Company strengthened technology management, focused on key development themes in line with its policy of selection and concentration of businesses, integrated technology resources, augmented intellectual properties management, and promoted the sharing of technology information among group companies.

The key developments during the fiscal year were: (1) an Integrated Platform, which has a new media processor at its core. By mutually utilizing software and hardware resources, the Company expects R&D on this platform to be at least five times more efficient than traditional non-platform R&D in developing a broad range of products, from cellular phones to home AV equipment; (2) a new line of VIERA high-definition PDP TVs that feature the latest PEAKS (Picture Enhancement Accelerator with Kinetic System) technology capable of displaying more than 3.6 billion colors for superb picture quality; (3) the world's first Blu-ray disc with a double layer structure on a single side that has a capacity of 50GB, and can record about 4.5 hours of high-definition digital video; (4) a fuel cell co-generation system for the home that enhances energy efficiency and utilizes residual heat to provide hot water, while contributing to the prevention of global warming; and, (5) new washer/dryers featuring a tilted drum and a large yellow start button designed for the elderly and persons with defects in color perception. Other new products included personal-use facsimile machines that guide the user with buttons that light up, voice directions and text on an LCD screen. These are just a few examples of products that incorporate universal design concepts for ease of use by all.

Accordingly, R&D expenditures during the year totaled ¥615.5 billion.

Capital Investment*

With regard to capital investment, Matsushita mainly focused on strategic business areas such as digital AV equipment, especially PDP TVs and semiconductors, as well as the rationalization of logistics. Capital investment (excluding intangibles) totaled ¥374.3 billion in fiscal 2005.

Principal endeavors included investment in PDP manufacturing facilities for Matsushita PDP Co., Ltd. at Plant No. 2 (Ibaraki) and Plant No. 3 (Amagasaki), and in a new semiconductor manufacturing facility at the Uozu Factory of the Semiconductor Company.

* Reconciliation of the Non U.S. GAAP capital investment figures

The Company defines capital investment as purchases of property, plant and equipment on an accrual basis which reflects the effects of timing differences between acquisition dates and payment dates. The Company has included the information concerning capital investment because its management uses this indicator to manage its capital expenditures and it believes that such indicator is useful to shareholders to present accrual basis capital investments in addition to the cash basis information in its consolidated statement of cash flows.

Edgar Filing: MATSUSHITA ELECTRIC INDUSTRIAL CO LTD - Form 6-K

The following table shows a reconciliation of capital investment to purchases of property, plant and equipment and intangible and other assets.

	Fiscal 2005 Results
	(in billions of yen)
Purchases of property, plant and equipment shown as capital expenditures in consolidated statement of cash flows	352.2
Effect of timing difference between acquisition dates and payment dates	22.1
Capital investment	374.3

Corporate Financing

Matsushita maintains a basic policy of financing all required funds from internal sources, and practices efficient fund management through internal financing activities.

In March 2005, Matsushita redeemed the outstanding balance of ¥100.0 billion in the third series of unsecured bonds (issued in February 2002), and Victor Company of Japan, Ltd. redeemed the outstanding balance of ¥11.0 billion in the third series of unsecured convertible bonds (issued in December 1989).

Table of Contents

(2) Future Prospects and Challenges for the Matsushita Group

Regarding the business environment for the fiscal year 2006, ending March 31, 2006, the Company currently expects to encounter severe conditions, such as slowing growth in the electronics industry, ever-intensifying global price declines in digital products and rising raw materials prices, including crude oil prices. Under these circumstances, Matsushita views fiscal 2006 as critical to the success of its Leap Ahead 21 plan for the three-year period ending March 2007. Accordingly, Matsushita is making efforts to achieve the goals of the plan by enhancing product competitiveness and management structures.

Essential to Matsushita's overall growth strategy are V-products, based on proprietary black-box technologies. For fiscal 2006 Matsushita intends to continuously develop V-products, with sales expected to reach ¥1.5 trillion in 67 product categories. The Company will also expand simultaneous global product introductions to include more models in a wide variety of product categories. Furthermore, Matsushita will promote digital AV equipment such as flat-panel TVs, DVD recorders and digital cameras in global markets, while aggressively marketing unique washer/dryers with a tilted drum and other high value-added products.

In order to develop a succession of new products, it is imperative to increase R&D efficiency. In fiscal 2006 Matsushita will introduce digital products equipped with the Integrated Platform that establishes common hardware and software platforms for a wide range of digital products. Matsushita expects this new platform to result in product R&D that is at least five times more efficient than traditional non-platform R&D.

Matsushita will continue to focus investment into strategic businesses, including semiconductors, particularly advanced system LSIs, which are the key components in digital products, PDP TVs, for which global demand is expected to increase significantly, and fuel cell co-generation systems for the home that contribute to the prevention of global warming. In semiconductors, Matsushita is investing approximately ¥130 billion from fiscal 2005 in a new factory for state-of-the-art system LSIs in Uozu, Japan, where operations are expected to begin at the end of 2005. The Company is also investing some ¥95 billion from fiscal 2005 in a new PDP factory in Amagasaki, Japan, where operations are expected to begin in autumn of 2005. Including the new factory, Matsushita's total PDP production capacity will increase to 4.8 million units per year by March 2007, thereby further augmenting one of the world's largest PDP manufacturing operations.

Matsushita will continue initiatives to strengthen overseas operations, which the Company views as a growth engine contributing to overall enhanced profitability. China, in particular, is key to achieving growth overseas. In this market, the Company aims for sales of approximately ¥1 trillion in fiscal 2007. To achieve this goal, Matsushita is developing and launching high value-added products, placing greater emphasis on sales at high-volume retailers and augmenting the Company's IT infrastructures.

Through collaboration with MEW, Matsushita will strategically utilize the management resources of both companies. Specifically, Matsushita will provide customers with solutions for comfortable living through the successive launch of Collaboration V-products and the expansion of systems solutions businesses, including security and energy control management, effectively integrating the technologies, products and services of both Matsushita and MEW.

Meanwhile, Matsushita will implement the Next Cell Production Project to improve cost competitiveness, while minimizing inventories. The Company will also strengthen management structures and increase profitability through a Second Corporate Cost Busters Project to eliminate redundancies throughout all areas of the Company.

The Matsushita Group aims to achieve global excellence in 2010 by pursuing the corporate visions of contributing to the realization of a ubiquitous networking society and coexistence with the global environment. Towards the achievement of these objectives, Matsushita introduced a global brand slogan "Panasonic ideas for life" that is conveyed to customers all over the world. This slogan represents a commitment to deliver ease of use and convenience, security and brand loyalty and inspiring products and services based on state-of-the-art technologies that enrich people's lives around the globe.

The Company thanks all of its shareholders for their continued support.

Table of Contents**(3) Financial Summary**

Consolidated business results and financial condition

Fiscal period	Year ended March 31,			
	2002	2003	2004	2005

1. The Company's consolidated financial statements are prepared in conformity with U.S. generally accepted accounting principles.
 2. Amounts less than one-tenth of a billion yen were omitted until fiscal 2004, whereas amounts less than one-tenth of a billion yen are rounded to the nearest whole one-tenth of a billion yen amount for fiscal 2005 (the latest fiscal period).
 3. Basic net income (loss) per share amounts are calculated using the average weighted number of shares outstanding during each fiscal period, while net assets per share are based on the number of shares outstanding at the end of each period.

In fiscal 2002, sales decreased significantly as a result of sluggish demand and price erosion in and outside of Japan. With regard to profits, decreased sales and price declines, combined with non-operating expenses such as additional retirement allowances for early retirement programs and a loss on valuation of investment securities, led to an unprecedented net loss.

In fiscal 2003, the AVC Networks and Components and Devices business categories secured steady sales growth, mainly due to the success of the Company's V-products. In addition to increased sales, various cost reduction initiatives and the positive effects of business restructuring led to a turnaround in income before income taxes. Despite this, a net loss was recorded due to such factors as losses related to adjustments of net deferred tax assets for enacted changes in the statutory income tax rate in Japan.

In fiscal 2004, despite the rising Japanese yen and intensifying global competition, the Company recorded increased sales. This was primarily due to the aggressive marketing of V-products. With regard to profits, sales gains and various cost reduction efforts, as well as the return to the Japanese Government of the substitutional portion of the Employees Pension Funds (EPF), more than offset business restructuring charges and a loss on valuation of investment securities. As a result, the Company recorded a significant gain in profit.

Details of operations for fiscal 2005 (the latest fiscal period) are as described on page 2 under (1) Matsushita Group Business Progress and Results during the Period.

Edgar Filing: MATSUSHITA ELECTRIC INDUSTRIAL CO LTD - Form 6-K

Parent-alone business results and financial condition

Fiscal period	Year ended March 31,			
	2002	2003	2004	2005
Net sales (in billions of yen)	3,900.7	4,237.8	4,081.4	4,145.7
Recurring profit (loss) (in billions of yen)	(42.4)	80.1	105.2	116.3
Net income (loss) (in billions of yen)	(132.4)	28.8	59.4	73.5
Net income (loss) per share (in yen)	(63.79)	12.80	25.52	31.90
Total assets (in billions of yen)	4,565.9	5,062.8	5,217.9	4,920.5
Net assets (in billions of yen)	2,553.3	2,768.0	2,839.3	2,779.7
Net assets per share (in yen)	1,225.39	1,173.14	1,224.59	1,230.76

- (Notes)
1. Amounts less than one-tenth of a billion yen were omitted until fiscal 2004, whereas amounts less than one-tenth of a billion yen are rounded to the nearest whole one-tenth of a billion yen amount for fiscal 2005 (the latest fiscal period).
 2. Net income (loss) per share amounts are calculated using the average number of shares outstanding during each fiscal period, while net assets per share are based on the number of shares outstanding at the end of each period.
 3. Beginning in fiscal 2003, net income per share was calculated in accordance with Accounting Standard No. 2, Accounting Standard for Earnings per Share and Accounting Standard No. 4, Implementation Guidance for Accounting Standard for Earnings per Share.

In fiscal 2002, sales in all business segments decreased significantly as a result of sluggish demand and price erosion in and outside of Japan. With regard to profits, decreased sales and price declines resulted in a recurring loss. Exacerbated further by non-recurring losses, including a loss on business restructuring and a loss on valuation of investment securities, the Company recorded an unprecedented net loss.

In fiscal 2003, the AVC Networks and Components and Devices business categories secured steady sales growth, mainly due to the success of the Company's V-products. In addition to increased sales, Matsushita also recorded a significant gain in profits as a result of various cost reduction initiatives and the positive effects of business restructuring.

In fiscal 2004, despite sales growth of V-products, led by digital AV equipment, net sales declined due to the effects of the transfer of certain businesses to subsidiaries upon group-wide business and organizational restructuring. The Company secured an increase in profits, however, due to various cost reduction efforts and increased dividend income.

In fiscal 2005 (the latest fiscal period), Matsushita recorded an increase in sales due mainly to favorable sales in video and audio equipment in AVC Networks, as well as sales increased in Home Appliances. The Company also recorded a gain in profits as a result of sales increases, and various cost reduction initiatives, as well as the positive effects of business restructuring.

Table of Contents**2. Current Status of the Company****(1) Principal Business**

The Company's principal business is the manufacture and sale of electronic and electric equipment. Its major products can be classified as follows:

Categories	Main products
AVC Networks Video and audio equipment Information and communications equipment	Videocassette recorders (VCRs), camcorders and related equipment, digital cameras, color TVs, TV/VCR combination units, liquid crystal display (LCD) TVs, plasma display panel (PDP) TVs, DVD players, DVD recorders, compact disc (CD) and Mini Disc (MD) players, Secure Digital (SD) audio players, radios, CD radio cassette recorders, tape recorders, portable headphone players, stereo hi-fi and related equipment, AVC-related devices, electronic musical instruments, satellite broadcast receivers and related equipment, CD and video software, etc. Facsimile equipment, cordless telephones, cellular phones, PHS-related equipment, personal computers (PCs), printers, copying machines, CD-ROM, DVD-ROM/RAM and other optical disc drives, hard disk drives (HDDs) and other computer peripherals, community antenna/cable TV (CATV) systems, broadcast- and business-use AV systems equipment, large-screen visual equipment, communication network systems equipment, private branch exchanges (PBXs), traffic-related systems equipment, car audio, car navigation and other car AV equipment, electronic measuring instruments, etc.

	RMB 282.2 million	* 67.8	Manufacture and sale of air conditioners

Guangzhou Matsushita Air-Conditioner Co.,
Ltd.

- (Notes)
1. Percents with an asterisk (*) include the indirect ownership.
 2. On April 1, 2005, the Company absorbed Matsushita Industrial Information Equipment Co., Ltd.
 3. On October 1, 2004, Matsushita Electric Asia Pte. Ltd. was renamed Panasonic Asia Pacific Pte. Ltd.
On January 1, 2005, Matsushita Electric Corporation of America was renamed Panasonic Corporation of North America, Matsushita Electric Europe (Headquarters) Ltd. was renamed Panasonic Europe Ltd., Matsushita Electric (Taiwan) Co., Ltd. was renamed Panasonic Taiwan Co., Ltd. and Matsushita Electric (China) Co., Ltd. was renamed Panasonic Corporation of China.
On April 1, 2005, Matsushita Electronic Components Co., Ltd. was renamed Panasonic Electronic Devices Co., Ltd. and Matsushita Kotobuki Electronics Industries, Ltd. was renamed Panasonic Shikoku Electronics Co., Ltd.

3) Results of business affiliations

The Matsushita Group is comprised of 627 consolidated subsidiaries and 66 equity method-applied subsidiaries as of March 31, 2005. Results of business affiliations are as described on page 2 under (1) Matsushita Group Business Progress and Results during the Period.

Table of Contents

(8) Subsequent Events

[Share Transfer of Matsushita Leasing & Credit Co., Ltd.]

On April 1, 2005, the Company transferred 2,707 thousand shares of Matsushita Leasing & Credit Co., Ltd. (MLC) to The Sumitomo Trust & Banking Co., Ltd. (STB) pursuant to a basic agreement regarding the equity ownership of MLC concluded between the Company and STB. As a result of the transfer, Matsushita now owns 34% of MLC's total issued shares. MLC (renamed Sumishin Matsushita Financial Services Co., Ltd. on May 1, 2005) was changed from a consolidated subsidiary to an equity method-applied company of Matsushita as of April 1, 2005.

[Initiatives to Maximize Shareholder Value]

With the aim of maximizing shareholder value, on April 28, 2005, the Board of Directors approved plans to proactively provide returns to shareholders and adopted a policy toward large-scale purchases of Matsushita shares.

For fiscal 2006, the Company plans to increase total dividends per share to ¥20.00, as compared with the planned ¥15.00 for fiscal 2005. The Company will continue to repurchase the Company's own shares, up to 120 million shares for a maximum of ¥150 billion in fiscal 2006, to enhance shareholder value per share.

Under the basic philosophy that shareholders should make final decisions regarding large-scale purchases of Matsushita shares, sufficient information should be provided through the Board of Directors to shareholders if a large-scale purchase is to be conducted. Under the above-mentioned basic philosophy, the Board of Directors decided to adopt a new rule applicable to large-scale purchasers who intend to acquire 20% or more of all voting rights of the Company. The new rule requires that (i) a large-scale purchaser provides sufficient information to the Board of Directors before a large-scale purchase is to be conducted and (ii) after all required information is provided, the Board of Directors should be allowed a sufficient period of time during which it will assess, examine, negotiate, form an opinion and seek alternatives. In the event of non-compliance with such rules by a prospective large-scale purchaser, the Board of Directors may take countermeasures to protect the interest of all shareholders.

The Company announced the details of this policy on April 28, 2005 as the policy toward large-scale purchases of Matsushita shares (ESV plan).

Table of Contents**Consolidated Financial Statements of the Company**

Consolidated balance sheet and statement of income of the Company are as follows. Please note the Company's consolidated financial statements are prepared in conformity with U.S. generally accepted accounting principles.

Table of ContentsConsolidated Statement of Income

from April 1, 2004 to March 31, 2005

(in millions of yen)

Net Sales	8,713,636
Cost of sales	(6,176,046)
Selling, general and administrative expenses	(2,229,096)
Operating profit	308,494
Other income (deductions):	
Interest income	19,490
Dividends received	5,383
Gain from the transfer of the substitutional portion of Japanese Welfare Pension Insurance	31,509
Interest expense	(22,827)
Write-down of investment securities	(16,186)
Other	(78,950)
Income before income taxes	246,913
Provision for income taxes:	
Current	(96,529)
Deferred	(56,805)
Minority interests	(27,719)
Equity in earnings (losses) of associated companies	(7,379)
Net income	58,481

(Notes)	1.	Net income, basic per share	¥ 25.49
		Net income, diluted per share	¥ 25.49
	2.	In order to be consistent with financial reporting practices generally accepted in Japan, operating profit is presented as net sales less cost of sales and selling, general and administrative expenses. Under U.S. generally accepted accounting principles, certain additional charges (such as impairment losses and expenses related to early retirement programs) are included as part of operating profit in the consolidated statement of income.	
	3.	Employees Pension Funds in certain of the Company's subsidiaries obtained approvals from Japan's Ministry of Health, Labour and Welfare for exemption from the past benefit obligation with respect to the portion of the Employees Pension Funds that certain of the Company's subsidiaries operated for the Government (the so-called substitutional portion), and transferred the substitutional portion to the Government in fiscal 2005. The gain of ¥31,509 million for fiscal 2005 from the transfer of the substitutional portion of the Japanese Welfare Pension Insurance is reported as other income (deductions) in the consolidated statement of income.	
	4.	Included in Other in Other income (deductions) are expenses of ¥93,170 million associated with the implementation of early retirement programs at certain domestic companies, as well as other expenses associated with the closure or integration of manufacturing locations.	

Basis of Presentation of Consolidated Financial Statements

1. Principles of Consolidation

Edgar Filing: MATSUSHITA ELECTRIC INDUSTRIAL CO LTD - Form 6-K

The Company's consolidated financial statements include the accounts of the Company and its subsidiaries. In accordance with the U.S. Financial Accounting Standards Board Interpretation No. 46, Consolidation of Variable Interest Entities, variable interest entities, of which the Company has controlling financial interests through means other than voting rights, are consolidated.

Investments in associated companies, including the companies in which the Company's ownership is 20% to 50% and corporate joint ventures, are stated at their underlying net equity value after elimination of inter company profits.

2. Summary of Significant Accounting Policies

(1) Basis of presentation of consolidated financial statements

The Company's consolidated financial statements are prepared in accordance with the terminology, format and preparation method of U.S. Generally Accepted Accounting Principles (U.S. GAAP) as stipulated in Article 179, Paragraph 1 of the Enforcement Regulations of the Commercial Code of Japan. Certain of the information and notes required by U.S. GAAP as specified in said Article, however, have been excluded.

Table of Contents

(2) Inventories

Finished goods and work in process are stated at the lower of cost (average) or market. Raw materials are stated at cost, principally on a first-in, first-out basis, not in excess of current replacement cost.

(3) Valuation method of securities

The Company accounts for debt and equity securities in accordance with Statement of Financial Accounting Standards (SFAS) No. 115, Accounting for Certain Investments in Debt and Equity Securities. The Company classifies its existing marketable equity securities other than investments in associated companies and all debt securities as available-for-sale in accordance with the provisions of SFAS No. 115.

Investments in available-for-sale securities

Market valuation method based on the fiscal year-end closing market price, etc. (The difference, net of tax, between acquisition cost and carrying market value of other securities is reported as a separate component of shareholders' equity. The cost of other securities sold is computed based on the average cost method.)

(4) Method of depreciation of tangible fixed assets

Depreciation is computed primarily using the declining balance method.

(5) Method of amortization of intangible assets

Straight-line method (In accordance with the provisions of SFAS No. 142, Goodwill and Other Intangible Assets, intangible assets determined to have an indefinite useful life are not amortized, and are instead tested for impairment at least annually.)

(6) Accounting for allowance and accruals

Allowance for doubtful receivables

Prepared for potential risk of bad debt loss, an allowance for receivables such as trade receivables and advances, etc. is provided at an amount calculated based on a historical experience, while specific allowances for doubtful receivables are provided for the estimated amounts considered to be uncollectible after reviewing individual collectibility.

Provision for employee retirement and severance benefits

Liabilities incurred for the provision of employee retirement and severance benefits are stated based on projected benefit obligation and the fair value of pension fund assets at the year-end in accordance with SFAS No. 87, Employers' Accounting for Pensions. Any shortfall in the provision for employee retirement and severance benefits arising from the difference between accumulated benefit obligation (obligation after deducting future salary increase from projected benefit obligation) and the fair value of pension fund assets is recognized additionally in the amount for minimum pension liability adjustments.

Unrecognized prior service cost (benefit) is amortized on a straight-line basis over the average remaining service period of employees.

If the unrecognized actuarial gains or losses exceed the greater of 10% of projected benefit obligation or the fair value of 10% of pension fund assets, the excess amount is amortized on a straight-line basis based on the average remaining service period of employees at the time such actuarial gains or losses arose.

(7) Consumption tax and local consumption tax, etc. in Japan are excluded from all items in the statement of income.

(8) Goodwill

In accordance with SFAS No. 142, Goodwill and Other Intangible Assets, goodwill is not amortized and is instead tested for impairment at least annually.

Unappropriated retained earnings at end of period	97,181

(Notes) 1. Amounts less than ¥1 million have been rounded to the nearest whole million yen amount.

2. Sales to subsidiaries	¥ 2,551,726 million
Purchases from subsidiaries	¥ 1,847,087 million
Turnover with subsidiaries other than sales and purchases	¥ 64,989 million

3. Net income per share ¥31.90

4. Loss on business restructuring is mainly associated with the employment structural reforms of several domestic businesses.

Summary of Significant Accounting Policies

1. Valuation method of inventories:

Finished goods, semi-finished goods, work in process: Lower of cost (average) or market

Merchandise, raw materials, supplies: Lower of cost determined by last purchase price method, or market

2. Valuation method of securities:

Investments in subsidiaries and affiliates: Valuation at cost, with cost determined by the moving average method

Other securities

Items with a market value: market valuation method based on year-end closing market price, etc. (The difference, net of tax, between acquisition cost and carrying market value of other securities is reported as a separate component of shareholders' equity.

The cost of other securities sold is computed based on the moving average method.)

Items with no market value: valuation at cost, with cost determined by the moving average method

3. Derivatives: Market valuation method

Table of Contents**4. Method of depreciation of tangible fixed assets:**

A reasonable number of years of useful life is determined for different classes of fixed assets to reflect the effects of technical innovation on equipment obsolescence (typically reducing the legally stipulated years of useful life by around 20-30%). Depreciation is calculated using the declining balance method.

5. Method of amortization of intangible assets:

With regard to the software used in the Company, amortization is computed on the straight-line method based on the logical, useful period of time. Other intangible assets are computed on the straight-line method based on standards identical to the method prescribed by corporate tax law.

6. Provision of allowance for investment loss:

Loss on investments in affiliated companies in Japan and overseas is estimated according to Company regulations and taking into consideration the financial condition of those companies.

7. Accrual for employee retirement and severance benefits:

Liabilities incurred for the provision of employee retirement and severance benefits are stated based on the projected benefit obligation and pension fund assets at the year-end. The transfer obligation amounting to ¥42,077 million recognized at the adoption of new accounting standards (the transfer obligation excluding the substitutional portion amounting to ¥17,115 million) is being amortized on a straight-line basis over 15 years.

Prior service cost is recognized based on the straight-line method over the average service years of employees remaining at the time when the cost is incurred.

The actuarial gains and losses are amortized on a straight-line basis starting from the subsequent fiscal period, based on the average years of remaining service of employees at the time such actuarial gains and losses arose.

8. Leases:

Financial leases other than those in which it can be recognized that ownership rights are transferred to the lessee are treated as operating leases for accounting purposes.

9. Basis of hedge accounting:

The Company applies deferral hedge accounting as defined in the accounting standards for financial instruments to its foreign exchange contracts, currency options, interest swap and commodity futures trading.

10. Consumption tax, etc. are excluded from all items in the statement of income.

Proposed Allocation of Profit

	(in yen)
Unappropriated retained earnings at end of period	97,181,267,917
Allocation proposed as follows:	
Year-end dividend	16,937,682,825
¥7.50 per share	
Directors' bonuses	240,000,000
Corporate auditors' bonuses	18,000,000
Reserve for advanced depreciation	199,158,205
Contingency reserve	36,000,000,000
	<hr/>
Unappropriated retained earnings carried forward to the next period	43,786,426,887
	<hr/>

- (Notes) 1. An interim dividend in the aggregate of ¥17,283,947,820 (¥7.50 per share) was distributed (payable November 30, 2004).
2. The reserve for advanced depreciation is based on the provisions of special taxation measures law.

We have audited the consolidated balance sheet and the consolidated statement of income (referred to as the financial statements hereinafter) of Matsushita Electric Industrial Co., Ltd. (the Company) for the 98th fiscal period from April 1, 2004 to March 31, 2005 for the purpose of reporting under the provisions of Article 19-2, Paragraph 3 of The Law concerning Exceptional Measures to the Commercial Code with Respect to Auditing, etc. of Joint Stock Corporations. These consolidated financial statements are the responsibility of the Company's management. Our responsibility is to express an opinion on the consolidated financial statements based on our audits as an independent auditor.

We conducted our audit in accordance with generally accepted auditing standards in Japan. Those auditing standards require that we plan and perform the audit to obtain reasonable assurance about whether the consolidated financial statements are free of material misstatement. Our audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. Our audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statements. We believe that our audit provides a reasonable basis for our opinion. Our audit also includes those considered necessary for the subsidiaries.

In our opinion, the consolidated financial statements present properly the financial position and the result of operations of the Matsushita Group, including Matsushita Electric Industrial Co., Ltd. and its consolidated subsidiaries, in conformity with the related regulations and the Articles of Incorporation of the Company.

Subsequent events concerning the share transfer of Matsushita Leasing & Credit Co., Ltd. are included in the business report.

We have no interest in the Company which should be disclosed pursuant to the provisions of the Certified Public Accountants Law.

We have audited the balance sheet, the statement of income, the business report (as far as the accounting data are concerned) and the proposed allocation of profit (referred to as the financial statements hereinafter) and the supplemental schedules (as far as the accounting data are concerned) of Matsushita Electric Industrial Co., Ltd. (the Company) for the 98th fiscal period from April 1, 2004 to March 31, 2005 for the purpose of reporting under the provisions of Article 2, Paragraph 1 of The Law concerning Exceptional Measures to the Commercial Code with Respect to Auditing, etc. of Joint Stock Corporations. With respect to the aforementioned business report and the supplemental schedules, our audit was limited to those matters based on the accounting records of the Company. These financial statements and supplemental schedules are the responsibility of the Company's management. Our responsibility is to express an opinion on the financial statements and supplemental schedules based on our audits as an independent auditor.

We conducted our audit in accordance with generally accepted auditing standards in Japan. Those auditing standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements and supplemental schedules are free of material misstatement. Our audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements and supplemental schedules. Our audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statements and supplemental schedules presentation. We believe that our audit provides a reasonable basis for our opinion. Our audit also includes those considered necessary for the subsidiaries.

In our opinion,

- (1) the balance sheet and the statement of income present properly the financial position and the result of operations of the Company in conformity with related regulations and the Articles of Incorporation of the Company,
- (2) the business report, as far as the accounting data included in such report are concerned, presents properly the status of the Company in conformity with related regulations and the Articles of Incorporation of the Company,
- (3)

Edgar Filing: MATSUSHITA ELECTRIC INDUSTRIAL CO LTD - Form 6-K

the statement of proposed allocation of profit has been prepared in conformity with related regulations and the Articles of Incorporation of the Company, and

- (4) the supplemental schedules as far as the accounting data included in such schedules are concerned have been prepared in conformity with the provisions of the Commercial Code.

Subsequent events concerning the share transfer of Matsushita Leasing & Credit Co., Ltd. are included in the business report.

We have no interest in the Company which should be disclosed pursuant to the provisions of the Certified Public Accountants Law.

Copy of Report of the Board of Corporate Auditors

Audit Report

The Board of Corporate Auditors, having received a report from each Corporate Auditor on the method and results of his audit on the performance of duties of Directors during the 98th fiscal period from April 1, 2004 to March 31, 2005 and, as a result of discussion, does hereby report the results of audit as follows:

1. Method of Audit

Each Corporate Auditor has performed examinations, in accordance with the audit policy and the audit schedules set by the Board of Corporate Auditors, as follows:

- (1) Each Corporate Auditor has attended the meetings of the Board of Directors and other important meetings of the Company, received reports on the operations of the Company from Directors, the Internal Auditing Department and other employees, perused important documents including those subject to executive approval, conducted examination of conditions of business and assets at the head office and other major business offices, and requested from the Company's subsidiaries reports on their operations when deemed necessary.
- (2) Each Corporate Auditor has monitored independence of accounting auditors, also received from accounting auditors reports concerning accounting audit and their opinions and conducted examinations of accounting documents and important transaction records.
- (3) With respect to the Directors' engaging in competing transactions, transactions involving conflict of interest between the Company and a Director, providing by the Company of a benefit without compensation, unusual transactions between the Company and its subsidiaries or shareholders and acquisition and disposition by the Company of its own shares these various actions all being specified in Article 133, Paragraph 1 of the Japanese Commercial Code Enforcement Regulations, each Corporate Auditor has, in addition to the audit procedures described above, requested Directors and other parties reports on the state of compliance by Directors of laws and regulations, the state of enforcement of internal control measures as well as the transactions referred to above, and conducted investigations and examinations as deemed necessary.

2. Results of Audit

In the opinion of the Board of Corporate Auditors:

- (1) with respect to the Directors' execution of their duties, no unfair conduct, nor any material breach of laws, regulations or the Company's Articles of Incorporation has been found; moreover, with regard to actions specified in Article 133, Paragraph 1 of the Japanese Commercial Code Enforcement Regulations, no violation of duties by any Director has been found; in addition, with regard to the Directors' execution of their duties related to subsidiaries, nothing has been found that would necessitate comment;

- (2) the method of audit employed by KPMG AZSA & Co. and the results thereof are proper and fair;
- (3) the contents of the business report present fairly the position of the Company pursuant to laws and regulations and the Articles of Incorporation;
- (4) the proposed allocation of profit contains nothing particular to be commented on in the light of the condition of assets of the Company and other circumstances; and
- (5) the supplemental schedules present fairly the matters to be described therein and contain nothing to be commented on.

Bill No. 1: To approve the proposed allocation of profit with respect to the 98th fiscal period

It is proposed that the allocation of profit shall be made as shown in detail on page 26 herein, taking into consideration the management environment and future business development.

Matsushita has managed its businesses in a manner reflecting the Company's belief in the importance of profit return to shareholders. Historically, Matsushita has distributed dividends at a consistent level to shareholders. However, along with the implementation of a new mid-term growth strategy, Matsushita changed the Company's policy regarding returns to shareholders to a new policy which takes into consideration consolidated business performance in order to enhance the shareholder-oriented management.

In line with this policy, regarding the year-end dividend for this fiscal period, management hereby proposes that a cash distribution be made at the rate of 7.50 yen per share of common stock. If approved, total dividends for the 98th fiscal period, including the interim dividend already paid, will be 15.00 yen per share of common stock.

Bill No. 2: To elect 19 directors

The terms of office of 18 directors currently in office, will expire at the conclusion of the 98th Ordinary General Meeting of Shareholders, and Osamu Tanaka, Yukio Shohtoku and Toshio Morikawa will resign as directors at the same time.

In connection with this, election of 19 directors including 4 new directors is hereby proposed.

The particulars of the candidates are as follows:

<u>Name and date of birth</u>	Brief personal record	Ownership of the
	<i>(Parentheses indicate current posts representing other companies)</i>	<u>Company's shares</u>

(1) Yoichi Morishita	Apr. 1957	Joined the Company;	89,568 shares
